The Detroit Parks and Recreation Department ("PRD") has indicated to the Planning and Development Department ("P&DD") that the above captioned property, 4498 16th St. (the "Property") is no longer appropriate to their needs. PRD has requested that the Finance Department transfer jurisdictional control over the Property to P&DD to administer as surplus real property.

The Planning and Development Department is in receipt of an offer from Prince Realty LLC, a Michigan Limited Liability Company, to purchase the Property for the amount of Seven Thousand

Prince Realty's use of the Property shall be consistent with the allowable uses for which it is zoned.

Therefore, pursuant to Sec. 2-7-3 of the 2019 Detroit City Code, it is hereby requested by the Chief Financial Officer that Detroit City Council approve the designation of jurisdictional control of 4498 16th St. to P&DD. Also, pursuant to Sec. 2-7-4 of the 2019 Detroit City Code, it is hereby requested by P&DD that 4498 16th St. be deemed surplus and available for sale.

Additionally, we request that your Honorable Body adopt the attached resolution to authorize the Director of P&DD, or his or her authorized designee, to execute a deed and such other documents as may be necessary or convenient to effect a transfer of 4498 16th St. by the City to Prince Realty LLC, a Michigan Limited Liability Company.

**RESOLUTION TO CREATE THE OFFICE OF DISABILITY AFFAIRS**

By COUNCIL PRESIDENT JONES, joined by COUNCIL MEMBER LELAND:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, The City of Detroit is changing. Within the last few years the city's landscape has changed to include numerous large and small scale economic developments along with both private and public initiatives designed to incite not only energy but also to increase the population density within the neighborhoods across the City; and

WHEREAS, Curiously, however, the unique needs of the disabled community are not fully addressed with the needs of the general population. It is imperative that this fact be acknowledged so that the rights and needs of the disabled community can be fully integrated into our revitalizing efforts across the city; and

WHEREAS, The United Nations estimates that by 2050 the disabled community worldwide will reach 940 million people, or 15% of what will be roughly 6.25 billion total urban dwellers; lending an urgency for municipalities to address the needs of the disabled community in all facets of civic life; and

WHEREAS, Although, the vision of the Americans with Disabilities Act (ADA) is to improve the rights and access of its targets, the reality on the ground is very different. For those who have mobility issues; barriers can be, the lack of access (ramping, power door openers, accessible restrooms, crumbling sidewalks), accessible housing, sensitivity training, emergency preparedness, to name a few. For those with a cognitive disability, those on the autistic spectrum, hearing impaired/deaf, blind/visually impaired, the urban environment can be a sensory minefield; and

WHEREAS, The creation of an ade-

quately funded City of Detroit's Office of Disability Affairs, staffed with qualified individuals with disabilities and those with learned experience, will increase attention in service delivery to this community by creating this singularly focused city department; which will work with the Department of Public Works and other departments as appropriate; to concentrate on the unique needs of the Disability Community; and

WHEREAS, The Office of Disability Affairs would monitor state compliance with the Americans with Disability Act and to advise the Mayor, the Michigan Legislature and Governor on the needs of individuals with disabilities in Detroit. The Office of Disability Affairs will also be charged with assisting the State of Michigan Disability Resources department with the resolution of state disabilities issues and provide education, communication, and networking services concerning disability issues and needs for Detroit residents. NOW THEREFORE, BE IT

RESOLVED, That the Detroit City Council strongly urges the Mayor to create and appropriately fund the Office of Disability Affairs.

**TESTIMONIAL RESOLUTION MRS. ELVERA RENCHER 'In Recognition of your Centennial 100th Birthday'**

By COUNCIL PRESIDENT JONES, joined by COUNCIL MEMBERS AYERS AND McCALISTER JR:

WHEREAS, Maya Angelou ... once said that, *"I've learned that people will forget what you said, people will forget what you did, but people will never forget how you made them feel."* When you meet Elvera Rencher, she will always have positive and kind words for you, leaving you with a genuine feeling of love and support. We celebrate Mrs. Elvera Rencher giving her light to the world for 100 years. The Detroit City Council would like to publicly acknowledge this important event in her life; and

WHEREAS, Elvera Rencher was born on January 6, 1920, in the small Delta town of Shaw, Mississippi. Her parents passed away when she was very young and Elvera was raised by her uncle and grandmother. Mrs. Rencher has lived a rich and blessed life, having experienced, first-hand, 100 of the most eventful and productive years in American and world history. She often shares stories about her early life growing up in Mississippi

during the 1920s, sharing memories of her grandmother growing up in slavery, walking over six miles to attend school, the Great Mississippi Flood of 1927, meeting George Washington Carver when she was in high school, as well as her grandmother's house serving as a frequent hosting and meeting place for Dr. Theodore Roosevelt Mason Howard, a.k.a. "Dr. TR Howard," an American civil rights and fraternal organization leader who later mentored Medgar Evers and Fannie Lou Hamer; and

WHEREAS, A few years after graduating from high school, Elvera migrated from Mississippi to Chicago to live with cousins who had already settled there. During World War II, job opportunities were more plentiful in northern cities for women because a majority of men had been drafted to fight in the war. Her long-time friend and future husband, Ernest Rencher served in World War II, but continued to correspond by mail while he served and visited her in Chicago. One day Ernest proposed and they were united in holy matrimony in Chicago and from there moved to Detroit, Michigan, in 1947. Mr. and Mrs. Rencher started a family, raising their four children in the Rosa Parks Clairmount neighborhood. She would later witness the riots of 1967 firsthand in the area. In 1958, Mrs. Rencher joined Tiedstone Baptist Church where she served on the Usher Board. She and her husband spent many hours hosting dinners and fundraisers for the church. The couple had a close and loving relationship and they both liked to joke around. Mr. and Mrs. Rencher instilled the importance of education and encouraged achievement for their children. They were very proud that all four of their children graduated from college. Mr. Rencher, a longtime Chrysler worker, passed away in 1986; and

WHEREAS, Mrs. Rencher enjoys spending time with her family and traveling on cruises. She loves to sit on her porch talking to the children playing on the block, admiring her garden and flowers, and listening to talk radio. Every evening she watches her favorite television programs, including the City Council meetings. Mrs. Rencher has strong opinions about current events and politics and often talks about the late Honorable Coleman A. Young, whom she loved. Her home continues to serve as a gathering place welcoming family and friends for a good down-home southern dinner. The family spends most Sundays, holidays and birthdays at her home. At 100 years young, Mrs. Elvera Rencher is the Matriarch of the Rencher family. She has five grandchildren and one great-grandchild to whom she remains patient, smart, supportive and loving - just as she raised her own children. She is not afraid to give guidance — she is known to

"tell it like it is" with warm doses of wisdom. As family and friends are gathered here today to commemorate and celebrate her 100th Birthday, it is abundantly fitting and proper that Mrs. Elvera Rencher be appropriately recognized during this very special and memorable time of her life. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council and Council President Brenda Jones would like to recognize and honor Mrs. Elvera Rencher, upon the grand occasion of her 100th Birthday.

**AN ORDINANCE to amend Chapter 21, Article II of the 1984 Detroit City Code by adding Section 21-2-211 to establish the Shalom Fellowship International Ministries/Fourteenth Avenue Methodist Episcopal Church Historic District and to define the elements of design for the district.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 21, Article II, of the 1984 Detroit City Code be amended by adding Section 21-2-211 to read as follows:

**Sec. 21-2-211. Shalom Fellowship International Ministries/Fourteenth Avenue Methodist Episcopal Church Historic District.**

(A) A historic district to be known as the Shalom Fellowship International Ministries/Fourteenth Avenue Methodist Episcopal Church Historic District is hereby established in accordance with the provisions of this article.

(B) This historic district designation is hereby certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the Shalom Fellowship International Ministries/Fourteenth Avenue Methodist Episcopal Church Historic District are as shown on the map on file in the office of the City Clerk, and are as follows: *On the north*, the centerline of Poplar Street; *On the east*, the centerline of Fourteenth Avenue; *On the south*, the south line of Lot 287 of the Subdivision of the Godfrey Farm, L1 P293 Plats, WCR; and *On the west*, the centerline of the alley running north-south between Fourteenth Avenue and Fifteenth Avenue (legal description: West 14th 289 thru 287 Sub of Godfrey Farm, L1 P293, Plats, WCR).

(D) The defined elements of design, as provided for in Section 25-2-2 of this Code shall be as follows:

(1) *Height.* The religious building at 4001 Fourteenth Street consists of a tall, two (2) story space on a high basement with a taller three (3) stage tower at its northeast corner. The associated residential building is two (2) stories tall.

(2) *Proportion of Building's Front Façade.* The religious building is wider than tall on all elevations. The front façade is articulated in three sections: the prominent, slightly projecting central entrance section with a triangular gable, the lower aisle section to the south, and the tall northeast corner tower. The secondary north elevation along Poplar Street features three (3) regularly spaced bays, a shallow transept arm, and a one story end section. The front facade of the residential building is wider than tall but appears square in form.

(3) *Proportion of Openings Within the Façade.* The front façade of the religious building consists of approximately fifteen percent (15%) openings. A large double-door entrance opening with a transom above is centrally positioned on the first floor; a large tracery window is set at the choir loft level directly above. A small, narrow window opening, taller than wide, flanks the entrance opening, and a slightly larger window occupies the south aisle section of the front façade. Square basement windows on the front façade and transept are protected with metal bars. The front (east) face of the tower has a single entrance opening in its first floor at grade, a narrow window taller than wide at its second stage, and, on all four (4) elevations, a large, louvered window opening at its top stage. The north elevation features large square openings containing metal replacement windows at the second level and brick-filled similar openings on its first story. Its transept has a single entrance opening with a window above; the rear elevation has small, boarded or brick-filled windows. The residential building has approximately thirty-five percent (35%) openings in its front façade. Most are taller than wide and contain doublehung sashes, with the exception of the opening, now boarded, to the south of the entrance, which is wider than tall.

(4) *Rhythm of Solids to Voids in the Front Façade.* Each of the three (3) vertical sections of the front façade of the religious building are fenestrated individually, with openings centered horizontally within their wall surfaces and, where there are two (2) or three (3) stories, openings spaced one above the other. Bays of windows are evenly spaced and symmetrical along the length of the religious building's north elevation to the transept, which breaks the rhythm. A rhythm of solids to voids also exists on the residential building, with pairs of one-over-one sash windows located in box bays at second story level directly above the entrance opening

on the north side of the front façade and a large window opening, now boarded, on the south side. Its dormer has an eight-over-one sash triple window opening.

(5) *Rhythm of Spacing of Buildings on Streets.* No discernible spacing pattern exists; the buildings are surrounded by vacant land.

(6) *Rhythm of Entrance and/or Porch Projections.* No rhythm of entrances or porch projections exists between the two (2) buildings. Both buildings have substantial porches on their front façades; the porch of the residential building is off-center, under a roof supported by square piers, while the porch of the religious building is centered on the front façade and is uncovered. Both buildings are accessed by several steps up the graded front yard leading to their porch steps.

(7) *Relationship of Materials.* The major building material of both buildings is brick. The religious building is trimmed in Bedford limestone and has masonry steps; the rectory also has masonry trim and steps. Major wooden elements of the religious building include the tracery on the front façade and window hood on the north elevation. Wood window frames filled with stained glass exist on the front façade; metal windows and doors have replaced original wood frames on the side elevations, with the exception of those on the sub-floor level of the south elevation. The main front double-doors and tower door have been replaced by metal framed doors. The residential building features wooden elements such as eave brackets and shingled box bays. The roof of the religious building was originally slate with copper flashing; both buildings are now clad in asphalt shingles.

(8) *Relationship of Textures.* The major textural relationship of the religious building and residential building is that of stretcher bond, variegated brick with mortar joints juxtaposed with smooth masonry trim and wood. Textural interest of the religious building is focused on the door surrounds, front gable, and tower. Wooden elements such as window frames, shingles and detail, provide textural interest, as does the repetition of small stained glass window panes. Asphalt shingled roofs generally do not add to textural interest.

(9) *Relationship of Colors.* The two buildings are clad in reddish-orange brick which contrasts sharply with the beige color of the masonry trim. Window frames, mullions and muntins on the front façade of the religious building appear to be weathered white; they are filled with green opalescent stained glass panes. Replacement windows on the side elevations are brown. Steps to the church are presently painted gray; light posts and wing walls are painted a light orange. Wooden trim on the residential building appears to be pale yel-

low and shingles on the bays and dormers are brown. Roofs of both buildings are brown. The original colors, as determined by professional analysis, are always acceptable for the building and may provide guidance for similar buildings.

(10) *Relationship of Architectural Details.* The Neo-Gothic style of the religious building is defined by its steep gable roof. Gothic-arched tracery window, wall buttresses, crenelated tower, and unifying stone banding and trim. Detail is concentrated on the central entrance bay. Several steps between wide, sloping wing walls lead to the main entrance, which is set within a buttressed, gabled limestone frame with tabs and composed of double doors with a Gothic-arched, three-part transom above. At the upper level is a large tracery window framed by a gabled arch. At the apex of the gable is a stone crest set into a square block. To the north of the central bay is the three-stage tower anchoring the northeast corner of the building. It has a stone gable framed entrance at ground level; a single small elongated window at mid-level, and a pair of louvered windows at the top. Small rectangular panes of green opalescent stained glass occupy the windows on the front façade and tower. To the north of the entrance, beneath the water table and foundation stone, are two cornerstones of inscribed text the bottom one in three (3) lines: HAVEN 1871; ARNOLD 1888; UNITED 1911 and the top one in four (4) lines: FOURTEENTH AVENUE; METH-ODIST; EPISCOPAL CHURCH; 1912. The residential building is devoid of ornamentation; architectonic elements such as the square brick porch columns, eave brackets, and shingled box bays define the style and period of the building.

(11) *Relationship of Roof Shapes.* The religious building has a front gabled roof; its tower roof cannot be seen from the street. The single story rear section has a flat roof. The roof of the residential building and its dormers are hipped.

(12) *Walls of Continuity.* The two building façades do not result in a consistent pattern amongst themselves or the rest of the streetscape, which consists of vacant land.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* Both buildings sit on graded lots with ample front lawns. Each is accessed off of concrete walkways with steps extending from the public sidewalk to their front porches. The church building, located on the corner, also has access from Poplar Street on its north side by way of a concrete walkway from the public sidewalk leading to the east face of the tower at the northwest corner and to the north transept, which also has a concrete sloped accessible ramp. Overgrown foundation plantings are present on the front

(east) and south elevation of the residential building. No other significant landscaping or street furniture exist.

(14) *Relationship of Open Space to Structures.* Open space in the form of sloping grass turf front lawns occupy the front yards of the religious and residential buildings, as well as a shallower lawn space on the north, or Poplar Street, elevation. A large rear grass yard also exists to the rear of the rectory, exposing the rear of the south elevation of the religious structure to view. Beyond the property lines of the district is an ample amount of open space.

(15) *Scale of Façade and Façade Elements.* The religious building façade is of a scale of a moderately sized religious structure in the City of Detroit. Elements within the façade range from large, as are the gable and tracery window, to small, as are the slender windows. The residential building is typical of a moderately scaled, solidly built middle class residential “four square” style building of the 1910s.

(16) *Directional Expression of Front Elevation.* The front elevation of the religious building is vertical in expression due to the tall pitched gable roof and the corner tower. The residential building is neutral in directional expression.

(17) *Rhythm of Building Setbacks.* The buildings are set back considerably from the public right-of-way of Fourteenth Street, with less of a setback on Poplar Street. The two (2) buildings maintain a rhythm on the north end of their block of Fourteenth Street.

(18) *Relationship of Lot Coverage.* The religious building occupies approximately eighty percent (80%) of the lots it occupies, the residential building occupies approximately thirty percent (30%) of its lot.

(19) *Degree of Complexity Within the Façade.* Both of the building's front façades are straightforward in their massing, fenestration, and architectural detail, resulting in a low degree of complexity.

(20) *Orientation, Vistas, Overviews.* The two buildings are oriented toward Fourteenth Street; the religious building has a secondary entrance along Poplar Street in the north transept arm. The tower of the religious building firmly anchors the corner of Fourteenth Street and Poplar Street in a residential area that is surrounded by vacant land. The religious building stands out from its surroundings due to its scale and silhouette.

(21) *Symmetric or Asymmetric Appearance.* The religious building is asymmetrical in appearance, its northwest tower dominating the front (east) and north façades. The residential building is also asymmetrical, with its entrance and porch on the north half of the front façade. However, both buildings are straightforward in their architectural arrangements.

(22) *General Environmental Character.* Once located in a densely populated neighborhood of small-scale, late 19th century brick and wood frame houses, the setting of Shalom Fellowship International Ministries/Fourteenth Avenue Methodist Episcopal Church Historic District is now a sea of vacant land. Consequently, the religious building is removed from its historic context, while at the same time signaling opportunity for future development due to its location in the near northwest area of downtown Detroit, north of the Corktown Historic District and west of the Woodbridge Historic District.

**Section 2.** All ordinances, or parts of ordinances, or resolutions, in conflict with this ordinance are repealed.

**Section 3.** This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the People of the City of Detroit.

**Section 4.** If this ordinance is passed by a two-thirds (2/3) majority of City Council members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 2012 Detroit City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 2012 Detroit City Charter.

Approved as to form:

23. Submitting reso. autho. Petition of Clayton Smith (#600), request to vacate public alley adjacent to 19800 Schoolcraft Street. Observations to the activities on said properties suggest the use of a motor vehicle junk/scrap yard. City Engineering Division – DPW concludes that the alley adjacent to and adjoining 19800 Schoolcraft should remain an open public right-of-way and respectfully recommends DENIAL of this petition request.)

Honorable City Council:

Re: Recommendation for Deferral.  
Address: 14526 Mack. Name: JDK Investments LLC. Demolition Ordered: March 29, 2016 (J.C.C. page 545).

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection conducted on October 21, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, we respectfully recommend that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits;
- Certificate of Approval as a result of a Housing Inspection; or
- Certificate of Compliance, required for all rental properties.

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council

at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

December 20, 2019

Honorable City Council:

Subject: Request to Amend the Official Compensation Schedule

Recommendation is submitted to amend the 2019-2020 Official Compensation Schedule to include the following pay range, subject to City Council approval:

**Class Code:** 04-60-08  
**Classification:** Virtual Patrol Operator  
**Salary Range:** \$27,600-\$41,400  
**Step Code:** D

**Request:**

The above recommendations are at the request of Andrew Rutebuka, Executive Manager, Real Time Crime Center in the Police Department.

**Rationale:**

The above request and recommendations are based on the ability to attract and retain essential personnel to staff the Real Time Crime Center.

The Real Time Crime Center has evolved in its operations and has created a

new position due to the expanding number of Project Green Light Detroit locations. The preferred candidates for this position will be currently enrolled as a college junior or senior in Criminal Justice, Homeland Security, or Investigative Analysis or a related field. This will allow for students in the metro Detroit area with an interest in Criminal Justice and Law Enforcement to be able to assist the Detroit Police Department in solving and preventing crime. We are requesting these changes to reflect operational needs. This will be an entry level position that is a pathway to a Crime Analyst I position which will improve recruitment efforts and reduce the time and money required to train and on-board brand new Crime Analysts.

These new positions will serve as a method to assist in reducing crime, thus creating safer neighborhoods for the City's residents and visitors. Utilizing data driven crime statistics, Virtual Patrol Operators can focus on locations that have higher rates of crime with the goal of reducing crime and providing situational awareness to responding Officers. Utilization of Virtual Patrol Operators will allow for officers en-route to locations to receive real-time information. They will also be able to cancel certain runs-after contacting Green Light partners to determine their need — which will free up officers to respond to other high priority calls.

To determine the appropriate salary range for the classification, a market study was conducted using data from external survey sources. The proposed salary is essential for recruitment and retention purposes and is based on the City of Detroit's ability to fund the increase. The proposed salary recommendation is subject to City Council approval.

Respectfully submitted,  
**DENISE STARR**

**City Planning Commission**

January 6, 2020

Honorable City Council:  
 Re: Request of SignGraphix on behalf of Redico for PCA (Public Center Adjacent) Special District Review of proposed signs at 150 W. Jefferson Avenue. **(Recommend Approval)**

**REQUEST**

The City Planning Commission (CPC) has received a request from SignGraphix on behalf of Redico for PCA (Public Center Adjacent) Special District Review of proposed signs to be located at 150 W. Jefferson Avenue. This request is being made consistent with the provisions of Section 50-3-222 of the Detroit Zoning Ordinance.

**PROPOSED PROJECT**

The petitioner proposes to install new signs at four locations around the building:

- New “150” sign on Jefferson (south) façade — 47 square feet (drawing dated December 12, 2019);
- New signage on existing monument structure at corner of Shelby Street and Larned Street (northwest corner of site) - 30 square feet of signage on 126 square foot monument (drawing dated October 14, 2019);

- New projecting sign and re-face existing wall sign at entrance to parking garage from Griswold Street (east) - 12 square foot projecting, replacement of existing wall sign (drawing dated October 9, 2019); and
- New projecting sign and re-face existing wall sign at entrance to parking garage from Larned Street (north) — 12 square foot projecting, replacement of existing wall sign drawing (dated October 9, 2019).

Based on the frontage of this building, 500 square feet of signage is allowed. The existing and proposed signs do not exceed this maximum.

**REVIEW & ANALYSIS — PCA District Review Criteria**

There are eighteen PCA District Review Criteria listed in Section 50-11-97 of the Zoning Ordinance. The relevant criteria follow with staff analysis in italics:

(2) Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development. *The new "150" sign on the Jefferson façade is similar in size to the existing sign in that location. The proposed placement of the signs on the building do not obscure any architectural features. The projecting signs at the entrances to the parking garage will help motorists navigate more easily.*

(7) Adequate rights-of-way, easements and dedications should be provided where appropriate for traffic ways, utilities and community facilities. *The proposed projecting signs comply with the required 8.5 foot clearance from grade and maximum 3 foot projection. The proposed signs complement the design of the building and coordinate all of the signage on the property. The updated monument signage is more readable than the existing.*

(11) Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner. *The proposed signs complement the design of the building and coordinate all of the signage on the property. The updated monument signage is more readable than the existing.*

**Design**

The Planning & Development Department has reviewed the proposed signage and recommends approval. Their recommendation is attached.

**CONCLUSION & RECOMMENDATION**

Consistent with the above, the City Planning Commission recommends approval of the proposed signs.

Respectfully submitted,

**RESOLUTION CONTINUING THE  
DETROIT CITY COUNCIL  
TASK FORCE ON MENTAL HEALTH**

By Council Member McCalister, Jr.:

WHEREAS, Mental health is important at every stage of life, from childhood and adolescence through adulthood. It

includes our emotional, psychological, physical and social well being. The problems of mental health range from depression and anxiety to more infrequent afflictions such as schizophrenia and bipolar disorder; it affects how we think, feel and act. It also determines how we handle stress, relate to others and make choices; and

WHEREAS, Michigan's Mental Health services constraints began when Congress passed the Community Mental Health Act of 1963. It provided an incentive for the closing of state- funded mental hospitals, while promising to fund community-based mental health centers and programs designed to provide outpatient services and treatment. In 1991, former Michigan Governor John Engler, closed a number of psychiatric facilities which forced several patients in treatment out into the world with no back-up plan in place. The proposed funds for mental health centers and initiatives never materialized, leaving us in our current state of disorganization and needing more structured assistance for our endangered patients and their families; and

WHEREAS, There is an obvious deficiency of resources and coordinated services in the City of Detroit. Conversely, there is a direct link associated with the problems of Homelessness, poverty, crime and other challenges associated with Mental Health. The stigma attached to Mental Health along with persons who are untreated, under-diagnosed and or the sheer lack of awareness concerning Mental Illness in Detroit. The statistics prove this is an epidemic. Here are the staggering national numbers: 1 in 5 U.S. adults experience mental illness each year 1 in 25 U.S. adults experience serious mental illness each year 1 in 6 U.S. youth aged 6-17 experience a mental health disorder each year and suicide is the 2nd leading cause of death among people aged 10-34; and

WHEREAS, The Detroit City Charter was established to "(address) the needs of all citizens", and to "(institute) programs, services and activities addressing the needs of our communities within its Declaration of Rights- it explicitly states that "The City shall provide for the public peace, health and safety of all persons and property within its jurisdictional limits";

WHEREAS, The public peace, health and safety in the City of Detroit could be greatly improved by continuing our drive to provide a concentrated and collaborated effort between the City Council and all organizations which advocate for, educate and provide mental health services. It is ineffective and detrimental to the human capital of the City of Detroit to the process those persons living with mental illness through the criminal justice system as a result of their illness; and

WHEREAS, The goals and overall purpose of the Mental Health Task Force is to continue carving out the negative stigma associated with Mental Illness while bridging the gap between overwhelming needs and providing the appropriate services. We will continue to educate our residents pertaining to Mental Health and further a heightened sense of awareness, promote education, improve coordinated services, while strengthening the capacity of the City to serve its residents. But, remember, behind every statistic is a person who is loved; and NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby continues the established Mental Health Task Force, chaired by Council Member Roy McCalister, Jr., effective immediately and continuing through December 31, 2020.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of an existing apartment building located at 304 Erskine Avenue in the Crosswinds (Woodward Place) Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the rehabilitation of an existing apartment building located at 304 Erskine Avenue. This application correspond to a qualified site which will accommodate the total gut rehabilitation of a current building including structural reinforcement. The project consists of new floors, roofing, mechanical, windows, etc. The existing apartment will be converted into 8 residential rental units consisting of 2 studio units with 1 bathroom, 4 1-bedroom units with 1 bathroom, and 2 2- bedroom units with 1 bath. CPC staff has reviewed the applications and recommends approval.

The subject property has been confirmed as being within the boundaries of the Crosswinds (Woodard Place) NEZ which was established by a vote of Council on July 17, 1996, and should be eligi-

ble for NEZ certificates under State Act 147 of 1992 as currently written. The anticipated cost of rehabilitation for 304 Erskine Avenue is \$226,000.00. The applicant is seeking a 17 year tax abatement given the historic nature of the property and its location in the Brush Park historic district. The NEZ certificate application appears to have been submitted prior to the issuance of any applicable building permits.

Please contact our office should you have any questions.

Re: Conner Creek 2019 Limited Dividend Housing Association L.L.C. — Payment in Lieu of Taxes (PILOT).

American Community Developers, Inc. has formed Conner Creek 2019 Limited Dividend Housing Association L.L.C. in order to stabilize and combine two separate existing affordable housing communities, Conner Creek Elderly and NDNI Elderly, to be known as Conner Creek Apartments. The adjacent properties contain twenty-five (25) 1 bedroom/1 bath and seventy-one (71) 2 bedroom/1 bath apartments totaling ninety-six (96) senior units located in two (2) buildings in an area bounded by Savage Avenue on the north, Conner Street on the east, East Outer Drive on the south and Van Dyke Street on the west.

The new entity owner has assumed a \$1,285,000 loan from the City of Detroit Neighborhood Stabilization Program and a mortgage "Section 1602" loan in the amount of \$6,828,110 from the Michigan State Housing Development Authority ("MSHDA"). The Low Income Housing Tax Credit Regulatory Agreements with MSHDA are recorded against the properties and continue in perpetuity for the former Conner Creek and through 2057 for the former NDNI Elderly.

Twenty-six percent (26%) or twenty-five (25) of the units will be occupied by households with incomes no greater than thirty percent (30%) of the area median income (AMI) adjusted for family size. Twenty-six percent (26%) or twenty-five (25) of the units will be occupied by households with incomes no greater than thirty-five percent (35%) of the AMI.

Thirty-three percent (33%) or thirty-two (32) of the units will be occupied by households with incomes no greater than forty percent (40%) of the AMI. Fifteen percent (15%) or fourteen (14) of the units will be occupied by households with incomes no greater than sixty percent (60%) of the AMI. All ninety-six (96) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,  
ALVINO HORHN  
Deputy CFO/Assessor

By Council Member Ayers:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 se seq. (the "Act"), a request for exemption from property taxes has been received on behalf of American Community Developers, Inc. (the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally- aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is proposing to combine and continue the operation of existing housing projects to be known as Conner Creek Apartments consisting of ninety-six (96) units in two (2) buildings located on two (2) parcels of property owned or to be acquired by the Sponsor as described by street address and tax

parcel in Exhibit A to this resolution, with all ninety-six (96) units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federal-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as Conner Creek Apartments as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.; and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; and be it further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or Federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemptions; and be it further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer — Office of the Assessor two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

WHEREAS, Pursuant to 381 PA 1996, as amended ("Act 381"), the City of Detroit Brownfield Redevelopment Authority ("Authority") has been established by resolution of the City Council of the City of Detroit (the "City") for the purpose of promoting the revitalization of eligible properties in the City; and

WHEREAS, Under Act 381 the Authority is authorized to develop and propose for adoption by City Council a brownfield plan for one (1) or more parcels of eligible property; and

WHEREAS, Pursuant to the resolution establishing the Authority and the bylaws of the Authority, the Authority has submitted a proposed brownfield plan for the City Club Apartments Redevelopment Project (the "Plan"); and

WHEREAS, The Authority submitted the Plan to the Community Advisory Committee for consideration on November 20, 2019, per the provisions of the resolution establishing the Authority, and a public hearing was conducted by the Authority on December 2, 2019 to solicit comments on the proposed Plan; and

WHEREAS, The Community Advisory Committee recommended approval of the Plan on November 20, 2019; and

WHEREAS, The Authority determined that the Plan constitutes a "Qualifying Downtown Brownfield Project" under that certain Interlocal Agreement by and between the Authority and the City of Detroit Downtown Development Authority, approved the Plan on December 18, 2019 and forwarded it to the City Council with a request for its approval of the Plan; and

WHEREAS, The City Council held a public hearing on the proposed Plan on January 23, 2020.

NOW, THEREFORE, BE IT RESOLVED, THAT:

1. Definitions. Where used in this Resolution the terms set forth below shall

have the following meaning unless the context clearly requires otherwise:

"Eligible Activities" or "eligible activity" shall have the meaning described in Act 381.

"Eligible Property" means the property designated in the Plan as the Eligible Property, as described in Act 381.

"Plan" means the Plan prepared by the Authority, as transmitted to the City Council by the Authority for approval, copies of which Plan are on file in the office of the City Clerk.

"Taxing Jurisdiction" shall mean each unit of government levying an ad valorem property tax on the Eligible Property.

2. Public Purpose. The City Council hereby determines that the Plan constitutes a public purpose.

3. Best Interest of the Public. The City Council hereby determines that it is in the best interests of the public to promote the revitalization of environmentally distressed areas in the City to proceed with the Plan.

4. Review Considerations. As required by Act 381, the City Council has in reviewing the Plan taken into account the following considerations:

(a) Portions of the property designated in the Plan meets the definition of Eligible Property, as described in Act 381.

(b) The Plan meets the requirements set forth in section 13 of Act 381.

(c) The proposed method of financing the costs of eligible activities is feasible and the Authority has the ability to arrange the financing.

(d) The costs of eligible activities proposed are reasonable and necessary to carry out the purposes of Act 381.

(e) The amount of captured taxable value estimated to result from adoption of the Plan is reasonable.

5. Approval and Adoption of Plan. The Plan as submitted by the Authority is hereby approved and adopted. A copy of the Plan and all amendments thereto shall be maintained on file in the City Clerk's office.

6. Preparation of Base Year Assessment Roll for the Eligible Property.

(a) Within 60 days of the adoption of this Resolution, the City Assessor shall prepare the initial Base Year Assessment Roll for the Eligible Property in the Plan. The initial Base Year Assessment Roll shall list each Taxing Jurisdiction levying taxes on the Eligible Property on the effective date of this Resolution and the amount of tax revenue derived by each Taxing Jurisdiction from ad valorem taxes on the Eligible Property, excluding millage specifically levied for the payment of principal and interest of obligations approved by the electors or obligations pledging the unlimited taxing power of the local governmental unit.

(b) The City Assessor shall transmit copies of the initial Base Year Assessment Roll to the City Treasurer, County Treasurer,

Authority and each Taxing Jurisdiction which will have Tax Increment Revenues captured by the Authority, together with a notice that the Base Year Assessment Roll has been prepared in accordance with this Resolution and the Plan approved by this Resolution.

7. Preparation of Annual Base Year Assessment Roll. Each year within 15 days following the final equalization of the Eligible Property, the City Assessor shall prepare an updated Base Year Assessment Roll. The updated Base Year Assessment Roll shall show the information required in the initial Base Year Assessment Roll and, in addition, the Tax Increment Revenues for each Eligible Property for that year. Copies of the annual Base Year Assessment Roll shall be transmitted by the Assessor to the same persons as the initial Base Year Assessment Roll, together with a notice that it has been prepared in accordance with the Plan.

8. Establishment of Project Fund: Approval of Depository. The Authority shall establish a separate fund for the Eligible Property subject to this Plan, which shall be kept in a depository bank account or accounts in a bank or banks approved by the Treasurer of the City. All moneys received by the Authority pursuant to the Plan shall be deposited in the Project Fund for the Eligible Property. All moneys in the Project Fund and earnings thereon shall be used only in accordance with the Plan and Act 381.

9. Use of Moneys in the Project Fund. The moneys credited to the Project Fund and on hand therein from time to time shall be used annually to first make those payments authorized by and in accordance with the Plan and any development agreement governing such payments and then to the Local Site Remediation Revolving Fund, as authorized by Act 381:

10. Return of Surplus Funds to Taxing Jurisdictions. The Authority shall return all surplus funds not deposited in the Local Brownfield Revolving Fund proportionately to the Taxing Jurisdictions.

11. Payment of Tax Increment Revenues to Authority. The municipal and the county treasurers shall, as ad valorem and specific local taxes are collected on the Eligible Property, pay the Tax Increment Revenues to the Authority for deposit in the Project Fund. The payments shall be made not more than 30 days after the Tax Increment Revenues are collected.

12. Disclaimer. By adoption of this Resolution and approval of the Plan, the City assumes no obligation or liability to the owner, developer, lessee or lessor of the Eligible Property for any loss or damage that may result to such persons from the adoption of this Resolution and Plan. The City makes no guarantees or representations as to the determinations of the appropriate state officials regarding the ability of the Authority to capture tax incre-

ment revenues from the State and local school district taxes for the Plan.

13. Repealer. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

14. The City Clerk is requested to submit four (4) certified copies of this Resolution to the DBRA, 500 Griswold Street, Suite 2200, Detroit, MI 48226.

Honorable City Council:

Re: Petition No. 1388, Intersection Consulting Group, LLC, request to convert to easement portions of Sproat Street, Sibley Street, Clifford Street and Henry Street. Requesting easements be retained for vehicular and pedestrian traffic on Sproat Street and Henry Street utility easements.

Petition No. 1388, Intersection Consulting Group on behalf of Downtown Development Authority and Olympia Development of Michigan, LLC request to vacate and convert to sub-surface easement: Sproat Street, 50 feet wide, between Park Avenue, 60 feet wide, and Cass Avenue, 80 feet wide; also Clifford Street, 60 feet wide, from north line of Sibley Street, 50 feet wide, to north line of Henry Street, 50 feet wide; also Sibley Street, 50 feet wide, from east line of Clifford Street, 60 feet wide, to east line of Cass Avenue; also Henry Street, 50 feet wide, from Woodward Avenue, 120 feet wide, to Clifford Street, 60 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The request is being made as a part of the Little Caesar Arena development area and will allow for a pedestrian friendly area to be used in conjunction with the new arena.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW.

The Detroit Water and Sewerage Department (DWSD) reports no objection if the petitioner agrees to the DWSD provisions for easements. The DWSD provisions are a part of the resolution.

The Public Lighting Department (PLD) reports involvement and the petitioner will need to allow 24 hour truck access to the area or relocate the PLD conduit in the area. The petitioners engineering firm, Giffels-Webster, has already made arrangements to relocate the conduit. Provisions protecting the PLD facilities are a part of the resolution.

DTE Energy — Gas Division reports involvement, but no objection provided that an easement is established or the petitioner pays for the cost of abandoning, removing and/or relocating their gas lines. Provisions for DTE Energy are a part of the attached resolution.

DTE Energy — Electric Division reports involvement with costs for some relocation of their facilities in the area. They are satisfied with the relocation that has already occurred provided that easements are retained in vacated streets. Sub-surface easement provisions for all utilities are a part of the resolution.

The Planning and Development

Department (P&DD) reports that portions of Sproat Street between Cass Avenue and Park Avenue are within a Historic District. The Historic District Committee (HDC) approval will be needed for that part of the project in the Historic District. A provision requiring the HDC approval is a part of the resolution.

All other city departments including the Public Lighting Authority and the Great Lakes Water Authority, also all other utilities report no involvement or no objections to the proposed vacations with conversion to easements and the encroachment area. Provisions for all utility relocations, also, easement provisions have been made a part of the attached resolution.

I am recommending adoption of the attached resolution.

**RESOLUTION IN SUPPORT OF MICHIGAN HOUSE BILLS 4488-4493 of 2019**

By COUNCIL MEMBER TATE; In Name of the COUNCIL:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, A criminal conviction can create lifetime barriers to housing, employment, education and many other rights, privileges or other opportunities citizens routinely enjoy. Returning citizens continue to languish long after the debt, that has been judicially determined must be paid to society has, in fact, been paid; and long after the debt to society has been paid; and

WHEREAS, For many years, there has been widespread criticism of the use of "good moral character" as a criteria for obtaining a state licensing standard. The term, "good moral character" is vague and places too much discretion in officials to exercise their individual whims and prejudices; and

WHEREAS, On April 23, 2019, a package of six bills, broadly sponsored by bipartisan legislators was introduced. If passed would prohibit a state licensing board from automatically rejecting a former convicted felon from receiving a state license due to a "poor moral character". The bills included in this legislative bundle are House Bills 4488, 4489, 4490, 4491, 4492 and 4493; and

WHEREAS, House Bill 4488 would

amend the 1974 PA 381, which defines "good moral character" as it relates to qualifications for occupational and professional licenses in the statutes and administrative rules of this state and to establish criteria for when a licensing board may consider a criminal or civil conviction as evidence in determining an applicant's good moral character; and

WHEREAS, Specifically, House Bill 4488 would require a state licensing board or agency to consider as evidence in the determination of an individual's good moral character — the certificate of employability and any additional information about the individual's current circumstances, such as how long ago the offense occurred, whether or not the individual's current circumstances, such as how long ago the offense occurred, whether or not the sentence for the offense was completed, other evidence of rehabilitation, testimonials, employment history, and employment aspirations; and

WHEREAS, House Bill 4489 would amend the Revised Judicature Act of 1961, to provide that 1974 PA 381 would not apply to determining "good moral character" for admission to the State Bar of Michigan and that, for those purposes, good moral character would be determined by the Board of Law Examiners.

WHEREAS, House Bills 4490, 4491 and 4492 would affect careers in the following industries:

- House Bills 4490 would amend the Skilled Trades Regulation Act. (MCL 339.5105)
- House Bill 4491 would amend the Public Health Code. (MCL 333.16104 and 333.21755)
- House Bill 4492 would amend the Occupational Code. (MCL 339.104)

WHEREAS, House Bill 4493 would also amend the Occupational Code to require the Department of Licensing and Regulatory Affairs (LARA) provide an annual report to the legislature regarding the number of applications for occupational licenses denied due to failure to meet the "good moral character" standard; and

WHEREAS, The passage of the legislation would give a second chance for numerous Detroiters and Michiganders to attain financial stability and maintain social structure and peer networks gained from sustainable and meaningful employment; and

WHEREAS, House Bills 4489, 4490, 4491, and 4492 are tie-barred to HB 4488, meaning that they could not take effect unless House Bill 4488 were also enacted and would take effect 90 days after enactment; NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council, affirms that it is unequivocally

committed to the development and welfare of its residents. Therefore, City Council strongly supports the passage of House Bills 4488, 4489, 4490, 4491, 4492 and 4493; BE IT FURTHER

RESOLVED, The Detroit City Clerk is directed to send a copy of this resolution to Gov. Whitmer, Mayor Mike Duggan, and the Detroit delegation of the House and Senate and to the Committee on Regulatory Reform.

WHEREAS, In September 1970, Rev. Herbert B. Robinson, Sr., accepted the call to pastor True Love Missionary Baptist Church and served with humility for over 32 years. Pastor Robinson, Sr. was faithful, dedicated, and well-loved and continued to lead until his death on November 22, 2002; and

Honorable City Council:

Re: Correction (Legal Description) — Property Sale. In the General Area of 1544 Mack, Detroit, MI 48207.

The City of Detroit, Planning and Development Department has received an offer from Gojcaj & Gojcaj LLC (the "Purchaser"), whose address is 39742 Moriah, Sterling Heights, MI 48313 to purchase certain City-owned real property, specifically described in Exhibit A, in the general area of 1544 Mack, Detroit, MI (the "Property"). Under the terms of the proposed sale, the property will be conveyed to the purchaser for the purchase price of One Thousand and 00/100 Dollars (\$1,000.00).

The Purchaser operates the Louie's Ham and Corned Beef Shop, which is located at 3570 Riopelle, on the parcel adjacent to the Property. The Purchaser has operated the deli and restaurant for nearly twenty years at this location. Recently, while in the process of attempting to obtain a bank loan, it was determined that they did not own all of the requisite parcels to qualify for the loan.

On November 26, 2019, your Honorable Body authorized the sale of property in the

general area of 3570 Riopelle to Gojcaj & Gocaj LLC. It has come to our attention that the legal description in the sales resolution was stated incorrectly and issued in error.

Nearly twenty years ago, following the widening of Mack Avenue, the City did not vacate, split, and combine all of the adjacent parcels properly, which left multiple parcels and alleys unaddressed or unoccupied. As a result the deli and restaurant was developed partially on City-owned property. This included a non-vacated alley running through the Purchaser's dining room. At this time, the city has completed the process of properly splitting and combining its respective parcels, properly vacating the necessary alleys, and has reached an agreement with the Purchaser for the newly created parcel which abuts Mack Avenue.

Currently, the property is within an M3 zoning district (General Industrial District). The purchaser's proposed use of the property shall be consistent with the allowable uses for which the property is zoned.

We request that your Honorable Body adopt the attached resolution to authorize an amendment to the sale resolution to reflect the correct legal description for sale.

Respectfully submitted,  
KATHARINE G. TRUDEAU  
Deputy Director

By Council Member Tate:

Now, Therefore, Be It

Resolved, That Detroit City Council hereby approves of the sale of certain real property in the general area of 1544 Mack, Detroit, MI (the "Property"), as more particularly described in the attached Exhibit A incorporated herein, to Gojcaj & Gojcaj LLC (the "Purchaser") for the purchase price of One Thousand and 00/100 Dollars (\$1,000.00); and be it further

Resolved, That the Director of the Planning and Development Department, or his authorized designee, is authorized to execute a quit claim deed and such other documents necessary or convenient to effect transfer of the Property to the Purchaser consistent with this resolution; and be it further; and be it further

Resolved, That the P&DD Director, or his authorized designee, is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Property, provided that the changes do not materially alter the

substance or terms of the transfer and sale; and be it finally

Resolved, That the quit claim deed will be considered confirmed when executed by the P&DD Director, or his authorized designee, and approved by the Corporation Counsel as to form.

Honorable City Council:

Re: Correction (Legal Description) — Property Sale. In the General Area of 1556 Mack, Detroit, MI 48207.

**Buildings, Safety Engineering & Environmental Department**

November 22, 2019

Honorable City Council:

Re: Recommendation for Deferral.  
Address: 1442 Calvert. Name: Adam Noel. Demolition ordered: July 1, 2014 (J.C.C. pages 1284-1297).

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection on November 12, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, we respectfully recommend that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the dura-

tion of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties.

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1:** That Chapter 6 of the 2019 Detroit City Code, *Animal Care, Control, and Regulation*; Article III, *Dangerous Animals*; is amended by amending Section 6-3-1 to read as follows:

**CHAPTER 6.**

**ANIMAL CARE, CONTROL, AND REGULATION**

**ARTICLE I. IN GENERAL**

**Sec. 6-3-1. Dangerous animal investigation; determination by the Administrator or the Administrator's designee; Emma's Clause requiring mandatory contact with Animal Care and Control Division; appeal of dangerous animal determination; treatment of animals issued dangerous animal determination; treatment of animals seized or surrendered prior to dangerous animal determination.**

(a) Upon the receipt of a verifiable complaint from an individual or other report of an attack, a bite, a dog fight, an injury, an observation of threatening behavior, or other reason to cause a reasonable person to believe that a dog or other animal may be dangerous, the Animal Care and Control Division shall evaluate the complaint or report and, where the factual circumstances warrant, may conduct a dangerous animal investigation. Where practicable, the investigation shall include interviewing the complainant, any victim or victims of the attack or animal bite and any witness or witnesses who observed the subject animal, and visiting the scene where the reported incident took place.

(b) This subsection shall be known as "Emma's Clause" in honor and memory of Emma Valentina Hernandez, a nine year old girl that was mauled to death on August 19, 2019, when multiple dogs escaped a neighbor's yard.

(1) Upon the receipt of a verifiable complaint from an individual regarding an unsecured or inadequate enclosure or fencing to contain an animal at a residential location, or other reason to cause a reasonable person to believe that a dog or other animal may be dangerous, the Animal Care and Control Division shall evaluate the complaint or report and, where the factual circumstances warrant, shall conduct a dangerous animal investigation which shall include:

Honorable City Council:

Re: Petition No.600 — Clayton Smith, request to vacate public alley adjacent to 19800 Schoolcraft Street.

Petition No. 600 — Clayton Smith to convert to easement the public alley, 20 feet wide, adjacent to and adjoining 19800 Schoolcraft Street.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request is being made by the property owner located at 19800 Schoolcraft Street. The property owners have been issued citations for failure to obtain a Certificate of Compliance, property does not possess a proper land use permit, and current activities on the property are non-conforming to the zoning designation. Owner has failed to comply with violations issued to the property.

The Department of Public Works (DPW) objects to the petition as approval of this petition would support the illegal operation of the owner on the properties of 19800 Schoolcraft Street (B4 — General Business District) and 13955 Plainview Avenue (R1 — Single-Family Residential). Observations to the activities on said

properties suggest the use of a motor vehicle junk/scrap yard.

City Engineering Division — DPW concludes that the alley adjacent to and adjoining 19800 Schoolcraft should remain an open public right-of-way and respectfully recommends **DENIAL** of this petition request.

Honorable City Council:

Re: Proposed Calendar and Related Resolutions for the 2020-2021 Budget Development Process.

Attached please find the proposed budget calendar for the 2020-2021 budget development process for your consideration, as well as the resolutions that modify the committee meeting schedules during the budget development process.

The budget timeline begins earlier than indicated in the City's ordinance for the sixth consecutive year and is shortened, originally to comport with the state legislation, P.A. 181 of 2014 (Attachment VI), which amended the Home Rule City Act and states specifically that the Financial Review Commission (FRC) must be given the proposed budget 100 days prior to the beginning of the fiscal year, or March 23. However last year, due to the FRC's resolution of 2018-13 (Attachment VII), since the City has satisfied the conditions in Section 8 of P.A. 181, the deadline for submitting an approved budget has been extended to April 30, which permits the budget calendar to be extended to four weeks and the votes to be completed by the Council and the Mayor by Thursday, April 16.

P.A. 182 of 2014 (Attachment VI) also amended the Home Rule City Act and states that the city must hold a revenue estimating conference in the third week of February (as well as a second one every September) and it is scheduled for Wednesday, February 19 at 2 p.m. in the 13th floor Auditorium. These estimated revenues will be the basis of the proposed budget for the following fiscal year and the Administration is scheduled to present the proposed budget to Council on Friday, March 6. However, so Council can begin with hearings as quickly as possible, the Budget Department had agreed to deliver 7 departmental budgets to LPD by Monday, March 2 so we can begin to produce budget analysis reports for Councilmembers to review prior to hearings that will begin on Monday, March 9.

The departmental budget hearings in general are scheduled for one hour increments. Sessions for an hour are suggested for departments that have many activities or have important service delivery issues that Council may wish to explore with the department. However, based on the issues that present themselves at budget time especially once Council sees the recommended budget, Council always has the flexibility and may determine at that time to either have a specific hearing extended or choose not to use the entire time. There are so many hearings to get through in such a short time frame that we tried hard to maximize Council's time at the table.

We also recognize that other important policy issues may come up after the calendar is set, and we will work to amend the schedule, if necessary, as we always do each year.

We would like to highlight the following issues.

1. Mayor's Presentation of the Recommended Budget —

The Administration has requested that the budget be presented to Council on Friday, March 6 which was noted in the calendar City Council authorized at the January 14, 2020 Formal Session. Typically, the Mayor presents the budget to Council via a presentation in the Committee of the Whole.

We propose that Council hold a Committee of the Whole at 11 a.m. If Council agrees, Attachment I represents a resolution that would authorize the Committee of the Whole on Friday, March 6.

2. Changing the Standing Committee starting times —

We propose that all morning Council Standing Committees begin at 9:00 a.m. from Monday, March 9 through Thursday, March 26, resuming the 10:00 a.m. starting time on Monday, March 30. The Formal Session time would not be altered and continue to start at 10:00 a.m. each Tuesday.

The Budget Finance and Audit Standing Committee and the Neighborhood and Community Services Standing Committee would continue to meet at the usual 1:00 p.m. on Wednesdays and Thursdays.

Attachment II represents a resolution authorizing the Council Standing Committees to begin at 9:00 a.m. and it is combined with the resolution to limit the time of each meeting to one hour.

3. Time Limit for Council Standing Committee Meetings —

We propose that the Council Standing Committees continue to meet on the usual day, but that the length of the meeting is contained to no more than one hour. This schedule would begin on Monday, March 9 and continue through Monday, April 6.

Attachment II represents a resolution authorizing this change to limit the time of the Standing Committee Meetings to one hour maximum.

4. City Council Public Budget Hearing on the Mayor's Recommended Budget —

It is charter mandated, Section 8-206 that, "A public hearing ... shall be held on the proposed budget before adoption."

We are recommending that the public hearing be held on Monday, March 30 at 5 p.m.

Attachment III represents a resolution setting the public hearing and directing the Clerk to publish the hearing notification within the proper timeframe.

5. Dangerous Building Hearings —

We propose that the dangerous building hearings be deferred from Monday, March 9 through Monday, April 6, in order to permit more scheduling time for Departmental Budget Hearings. The clerk has already been requested to block those days off. Dangerous Building Hearings would be able to resume on Monday, April 13.

No resolution is needed for this action.

6. City Council Task Force Meetings —

If there are any Council Task Force Meetings scheduled during the recommended scheduled budget hearings and discussions we would ask if they possibly could be rescheduled.

Please let our office know if any meetings need to occur during budget hearings or budget deliberations, and if budget-related hearing times should be changed.

7. Enforcement of the Budget Hearing Schedule

Finally, Attachment IV represents a resolution outlining the budget hearing scheduling process and institutes a process to try to limit the number of changes the departments can make regarding budget hearings after they have had a chance to review and the schedule has been finalized. We give the Administration and the agencies time for feed back and time adjustments, so we

should come out with a schedule that satisfies all involved.

8. The final date for Council to vote on the budget is Tuesday April 7. The final day for Council to override the Mayor's veto, if any, is Thursday, April 16. We would assist in reminding Council at the Formal Session prior to these dates to adjourn the Formal Session to the call of the chair, so the session can be reconvened on these irregular dates and if Council wishes to vote on the budget at an earlier time.

We would request that this entire document be referred at the Formal Session on Tuesday, January 28, and discussed by the members of the Budget, Finance and Audit Standing Committee on Wednesday, January 29. If approved by the committee members, the four resolutions attached would be considered for approval by the City Council during the Formal Session on Tuesday, February 4, to authorize the above action plan as in previous years.

We will then formally submit the final draft to the Administration and the agencies. We will give them about two weeks to make certain that all department directors will be available for the proposed budget hearing dates and times. Any requested adjustments will be made and then a final budget calendar will be formally submitted to Council and the Administration. At that point, department directors may make a change to the dates and times only if there is an extreme emergency. Attachment IV represents the resolution authorizing this policy.

In addition, Attachment V represents the proposed budget calendar for the 2020-2021 budget development process prepared by LPD for your consideration.

We are available to discuss or answer any questions regarding any of these dates or issues. Additionally, if any Councilmember or Council staff have any questions about the budget process, our staff is able to answer questions and can set up any informational meetings at any time.

**MICHIGAN FINANCIAL REVIEW  
COMMISSION ACT  
Act 181 of 2014**

AN ACT to create the Michigan financial review commission act; to provide for the operation of certain commissions; to create funds and accounts; to prescribe the powers and duties of certain commissions, the state treasurer, certain other state officials and state employees, and certain local officials; to provide for the dissolution of certain commissions; and to make certain appropriations.

History: 2014, Act 181, Imd. Eff. June 20, 2014.

*The People of the  
State of Michigan enact:*

**141.1631 Short title.**

Sec. 1. This act shall be known and may be cited as the "Michigan financial review commission act".

History: 2014, Act 181, Imd. Eff. June 20, 2014

**141.1632 Legislative findings and declarations.**

Sec. 2. The legislature finds and declares the following:

(a) It is the public policy of this state to exercise its sovereign powers with regard to debt issuance and matters of statewide concern in a manner calculated to foster the fiscal integrity of all municipal governments and school districts to assure that those municipalities and school districts provide for the health, safety, and welfare of their residents; pay principal and interest owed on debt obligations when due; meet financial obligations to their existing and former employees, vendors, and suppliers; and provide for proper financial planning procedures and budgeting practices. The inability of a municipal government to provide essential services to its citizens or a school district to provide public education services to its residents as a result of fiscal emergencies is determined to affect adversely the health, safety, and welfare of not only that municipality's citizens and a school district's residents, but also other citizens of this state.

(b) The police and fire retirement system of certain qualified cities and the general retirement system of certain qualified cities are currently underfunded, causing communities across the state to face higher costs to borrow and invest funds, and have caused bondholders, bond insurers, and financial institutions anxiety over the financial health of not only certain qualified cities, but communities across this state.

(c) Absent prospective state oversight over qualified cities and school districts, there exists a threat of increased costs in borrowing, reductions in credit or bond ratings, reduced faith from existing credi-

tors of municipalities or school districts and of this state, and dire financial circumstances from which this state and its political subdivisions may never fully recover.

(d) Qualified cities and school districts have complex budgetary and fiscal needs, significant and complicated debt management issues, and financial assets and liabilities that impact, both positively and negatively, every unit of local government and school district in this state and this state itself such that reasonable and balanced state oversight over qualified cities and school districts is required as a reasonable exercise of this state's power for the benefit of residents throughout this state.

(e) There are numerous residents of this state who have accrued pension benefits from a qualified city's pension systems, and those pensioners may reside throughout this state. The settlement of bankruptcy cases involving qualified cities is likely to have a substantial positive impact statewide.

(f) Establishing a commission and execution by the commission of its powers granted under this act fulfill in all respects a public and governmental purpose for the benefit of the people of this state.

(g) Ongoing fiscal oversight over qualified cities and school districts is a reasonable and sufficiently narrow regulation and serves a significant and legitimate public purpose because it inures to the benefit of all of this state's residents and aids in the remedy of a broad and general social problem.

(h) Fiscal oversight over qualified cities and over school districts will ensure that those qualified cities and school districts do not engage in the financial practices that led to financial emergencies and insolvency, and ultimately, entry into receivership and bankruptcy, which will ensure that those cities can provide basic and essential municipal services to their residents and that those school districts can provide public education services to their residents.

DEPARTMENT OF TREASURY  
LANSING  
RESOLUTION 2018-13  
GRANTING WAIVER PURSUANT  
TO SECTION 8 OF THE  
MICHIGAN FINANCIAL REVIEW  
COMMISSION ACT**

WHEREAS, Public Act 181 of 2014, as amended, the Michigan Financial Review Commission Act (the "Act") created the Detroit Financial Review Commission (the "Commission") to provide specified supervision of certain activities and actions of the City of Detroit (the "City") beginning on December 10, 2014; and

WHEREAS, The Act charges the Commission with, among other things, (a) ensuring that the City is meeting certain statutory requirements,

(b) reviewing and approving the City's budgets and certain contracts, and

(c) establishing processes to ensure effective prudent fiscal management; and

WHEREAS, Section 8 of the Act provides a mechanism whereby the Commission waives the duties and obligations of the City to the Commission enumerated in Sections 6 and 7 of the Act if and when the conditions enumerated in Section 8 have been satisfied; and

WHEREAS, At the Commission meeting on April 30, 2018, documentation that the City has satisfied the conditions enumerated in Section 8, attached as **Exhibit A** to this Resolution, was presented for consideration.

WHEREAS, Section 8 of the Act further requires the Commission to continue to monitor the City's financial condition and performance, and to determine on an annual basis whether to continue to provide a waiver of the City's duties and obligations under Sections 6 and 7 of the Act, using the same assessment as used for granting the initial waiver, including whether the City "has sufficient ability to borrow in the municipal securities market," MCL 141.1638(2)(d); and

WHEREAS, The Act requires the City to continue to submit a 4-year financial plan, even after an initial waiver is granted, on an annual basis, "in a form and manner the Commission considers appropriate," MCL 141.1637(b); and

WHEREAS, The Act also requires the Commission to monitor whether financial distress exists or there is a substantial likelihood of financial distress imminently occurring that would cause the Commission to rescind its waiver; and

WHEREAS, To adequately discharge its duties under the Act after granting the initial waiver, and to satisfy the Commission that the City will, among other things, remain able to "borrow in the municipal securities market," MCL 141.1638(2)(d), the Commission will continue to need certain reports and information from the City after the initial waiver is granted; and

WHEREAS, the Mayor and Chief Financial Officer of the City have consulted with the Commission and support this resolution;

NOW THEREFORE, be it RESOLVED by the Detroit Financial Review Commission as follows:

1. That the conditions set forth in Section 8(2) have been satisfied and therefore, the City's duties and obligations to the Commission under Sections 6 and 7 of the Act are waived through and including June 30, 2019, subject to the terms and conditions of the Act, including Section 8.

2. That pursuant to its statutory obligations, the Commission will review the waiver annually and, by July 1 of each year, make a determination as to whether to renew the waiver for the subsequent year.

3. That this waiver, and any subsequent waivers, will be reviewed and acted upon by the Commission upon timely submission of the following information and reports to the Commission:

b. Within 45 days of the end of each quarter, a report on the current status of bond debt, payments made to the City's pension plans, and payments made to the City's Section 115 Trust for its legacy pension obligations.

c. On an annual basis:

i. By March 31st of each year, (A) analysis and forecasts for the legacy pension plans in the form substantially similar to those previously provided to the Commission by the City prior to the waiver period, as may be modified after consultation and approval by the Commission's Executive Director and the City's Chief Financial Officer; and

(B) analysis that confirms the City's ability to pay its debt obligations through the period of time the City is subject to the Commission's oversight.

ii. By April 30th of each year, the City's adopted Budget and 4-Year Financial Plan.

4. That during any waiver period, the Commission will continue to meet monthly. At these monthly meetings, the Commission's Executive Director will make a presentation to the Commission addressing whether financial distress has or is about to occur as provided in the Act. If financial distress is detected, the Commission's Executive Director will recommend the waiver be rescinded. At the second regularly scheduled meeting after each quarter end, the City will provide a financial update to the Commission which

shall include, at a minimum, the reporting requirements stated in Section 3(a) of this Resolution.

5. That the minutes of the Detroit Financial Review Commission meeting at which this Resolution is adopted take notice of the adoption of this Resolution

Honorable City Council:

Re: Milwaukee Junction Limited Dividend Housing Association Limited Liability Company — Payment in Lieu of Taxes (PILOT).

MHT Housing, Inc. and Detroit Catholic

Pastoral Alliance have formed Milwaukee Junction Limited Dividend Housing Association Limited Liability Company in order to develop the Project known as Milwaukee Junction Apartments. The Project consists of twenty-five (25) newly constructed family units located in a building in an area bounded by East Milwaukee on the north, Brush on the east, East Baltimore on the south and John R on the west.

The Project will include twenty-five (25) 1 bedroom/1 bath apartments. Further, the site will feature first-floor commercial space with 2,000 square feet for a lobby as well as office space, a community room, mailroom and bike storage.

A construction loan in the amount of \$3,472,995 with a permanent loan conversion option will be provided by Huntington National Bank. The City of Detroit will provide a HOME Investor Loan in the amount of \$1,086,474 and Community Development Block Grant funds in the amount of \$350,000. City Real Estate Advisors, LLC will make Capital Contributions of \$5,702,030 which includes the purchase of Low Income Housing Tax Credits. Additionally, the Sponsor has agreed to defer \$89,594 of the developer fee.

Rents for twenty (20) units will be reserved for low-income families and have been set at or below sixty percent (60%) of the area median income (AMI) with twenty percent (20%) of units at fifty percent (50%) AMI. Five (5) units will be market rate units. All twenty-five (25) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,

ALVIN HORHN

Deputy CFO/Assessor

By Council Member Ayers:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 se seq. (the "Act"), a request for exemption from property taxes has been received on behalf of MHT Housing, Inc. and Detroit Catholic Pastoral Alliance (the "Sponsors"); and

Whereas, A housing project as defined in the Act is eligible for exemption from

property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority (“MSHDA”) provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsors are proposing to undertake construction of a housing project to be known as Milwaukee Junction Apartments consisting of twenty-five (25) units in one (1) building located on one (1) parcel of property owned or to be acquired by the Sponsors as described by street address and tax parcel in Exhibit A to this resolution, with twenty (20) units for low and moderate income housing (the “Project”); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsors that it intends to approve federal-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as Milwaukee Junction Apartments as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%)

for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.; and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsors be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; and be it further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or Federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemptions; and be it further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer - Office of the Assessor two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Re: Orchard Laboratories, Corp. (Jacklyn Rodney) vs. City of Detroit. Case No. 18, 152102. File No.: L18-00229 (YRB).

City Council previously approved this proposed settlement on Tuesday, January 28, 2020. However, the attached resolution of the Plaintiffs name Oak Park Center for Physical Therapy, Inc. is incorrect. Therefore, it is requested that this Resolution be Rescinded. It is our considered opinion that the attached Resolution of this settlement reflect, the proper name Orchard Laboratories, Corp. We, therefore, request authorization to settle this matter in the amount of Four Thousand Five Hundred Dollars and Zero Cents (\$4,500.00) and that you direct the

Finance Director to issue a draft in that amount payable to Orchard Laboratories, Corp. and Gary R. Blumberg, PC, his attorney, to be delivered upon receipt of an Order of Dismissal entered in Lawsuit No.: 18-152102, approved by the Law Department.

**City Planning Commission**

November 8, 2019

Honorable City Council:

Re: Fees for Processing Rezoning Requests (Recommend Approval).

This report provides an analysis and recommendation from the City Planning Commission (CPC) for a new fee schedule for processing rezoning requests and other land use reviews for your consideration.

In January 1995, City Council first established fees for the CPC processing rezoning requests, and, since that time,

these fees have never been increased. For this report, the City Planning Commission studied the land use fees charged by other City of Detroit departments, estimated the costs of processing land use requests, and surveyed the fees charged by other cities.

**Background and Current Fees**

For the past 24 years, the CPC has charged applicants for the processing of rezoning requests a base fee of \$350 plus \$25 for each acre over one acre, to a maximum of \$1,000.

For the past several years, the CPC has had three different rezoning applications:

- (1) standard zoning changes;
- (2) development proposal approval in the Planned Development (PD), Public Center (PC), and Public Center Adjacent (PCA); and
- (3) Special Development District, Casinos and Casino Complexes (SD5).

Even though the PD and SD5 amendments usually require significantly more staff hours, the same \$350 fee has been charged for all three applications.

Also, often times land is already zoned PD, PC, PCA, or SD5, and developers request to make minor or major changes to the subject property. In these instances, CPC staff conducts a special district review to be reviewed by the CPC and/or City Council, and to date, has not charged a fee. Lastly, regarding text amendments, most Zoning Ordinance text amendments originate from CPC staff or are requested by City Council or City agency. However, some text amendment requests come from the public, for which no fee is charged.

**Land Use Fees Charged by Other City of Detroit Departments**

In late 1994, when the City Council was deciding whether or not to establish rezoning fees, the Buildings, Safety Engineering and Environment Department (BSEED) was already charging \$450 for Special Land Use hearings and the Board of Zoning Appeals (BZA) was charging \$300 to process variance requests. Presently, BSEED charges \$1,000 for Special Land Use hearings and \$160 for Preliminary Plan Review (PPR). BZA currently charges \$1,200 to process variance requests. The Planning & Development Department (P&DD) presently does not charge for its site plan review or special district review services.

**Estimated CPC Staff Costs**

The CPC studied the steps involved when processing various land use requests and projected the average number of staff hours devoted to each step. However, the total hours can vary more or less depending on the complexity of the particular land use review. The table below summarizes the estimated total planning staff hours spent on the various land use requests. Based on the current average salary of a Legislative Policy Division Planner III of \$36.78 per hour, the estimated staff costs are listed as well. For this analysis, PC/PCA major review is defined as substantial changes to several aspects of a building, including the façade, signage, etc. PC/PCA minor review includes changes that are limited to one aspect of a building such as a new sign, outdoor café, etc.

	<b>Estimated Total CPC Hours</b>	<b>Estimated CPC Costs</b>
<b>Standard Rezoning</b>	61	\$2,244
<b>PD (including PD Major Modification), SD5, SD4 (3 or more acres), PC or PCA Rezoning</b>	78	\$2,869
<b>PC/PCA Major Plan Review</b>	25.5	\$938
<b>PD/PC/PCA Minor Plan Review</b>	11.5	\$423
<b>Zoning Text Amendment Major</b>	66	\$2,427
<b>Zoning Text Amendment Minor</b>	42	\$1,545

Attachment A shows a more detailed table summarizing estimated average staff hours to process land use requests. The bottom of Attachment A also lists estimated hours from other departments, which adds hundreds of dollars to the cost of each review.

**Survey of Cities**

Back in 1994, in order to establish the initial rezoning fee, CPC staff conducted a survey of 25 municipalities in Michigan and found fees ranging from \$150 to \$600. For the current analysis, CPC staff conducted a survey of the following:

- Eleven major US cities (most of which are in the Midwest or just beyond),
- The 21 largest cities in Michigan (which includes five cities in Wayne County), and
- Twenty-two remaining other cities in Wayne County.

Attached to this report is a spreadsheet summarizing the survey results. The survey lists the fees for the following: 1) standard rezoning; 2) PD rezoning; 3) zoning text amendment; and 4) site plan review.

A summary of some of the major findings of the survey include the following:

- Seven of 11 major US cities, have standard rezoning fees starting at a minimum of \$1,000, with the median fee of \$1,500. Fees from other major US cities include Chicago (\$1,025), Pittsburgh (\$1,250), and Milwaukee (\$1,500);
- Four of the 11 major US cities charge additional fees based on the number of acres;
  - Six of the 11 major US cities have equal or higher fees for PD rezonings, with the average fee being \$2,416. PD fees from other cities include Chicago (\$1,500), Milwaukee (\$2,500), and Columbus (\$3,200);
  - Three of the 11 major US cities list specific zoning text amendment fees, including \$500 from Denver, \$1,180 from Nashville, and \$1,500 from Charlotte;
  - Eleven of the 21 largest Michigan cities have rezoning fees \$1,000 or greater with the median fee at \$1,500. Fees from other large Michigan cities, include Southfield (\$1,000), Warren (\$1,500), and Grand Rapids (\$2,921);
  - Ten of the 21 largest Michigan cities charge higher fees for larger parcels or additional acreage;
    - Fourteen of the 21 largest Michigan cities list a different fee (mostly higher) for PD rezonings - fees from other cities, include Grand Rapids (\$2,055), Warren (\$2,500 for 2 acres or less plus \$50 per acre) and Taylor (\$3,000);
    - Eight of the 21 largest Michigan cities list specific text amendment fees ranging from \$330 for Kalamazoo to \$2,921 for Grand Rapids;
    - Eighteen of the 21 largest Michigan cities list specific fees for site plan approval, including Pontiac (\$500 preliminary and \$990 final), Warren (\$1,000), and Grand Rapids (\$1,675); and,
    - Of the other Wayne County cities surveyed, seven of the 22 cities have rezoning fees \$1,000 or greater (including any escrow funds). Fees from other Wayne

County cities, include Romulus (\$1,500) and Inkster (\$2,050).

**Policy Issues**

When CPC staff receives a rezoning map request, sometimes the petition is expanded to rezone nearby properties or the entire block, and the CPC is often listed as a co-petitioner. In these instances, the CPC recommends that unless the petition comes from a non-profit community-based organization, the petitioner should still be responsible for paying a fee for the portion of the rezoning they are requesting.

The vast majority of zoning text amendments originate from City staff or elected officials. If the CPC receives a text amendment request from outside City government, then the CPC recommends a fee be charged unless it is determined that the amendment has broad significance for the public good of the City.

For proposed fees, CPC recommends the following policies:

- If the CPC expands a rezoning request to include additional parcels, the petitioner should be responsible for fees associated only with the original request;
- For text amendments, there should be a fee for requests originating outside City government, but the fee should be waived if the CPC determines the amendment has broad significance for the public good of the City; and,
- Minor vs. major changes within PC and PCA district fees, and minor vs. major text amendment fees be determined by the CPC staff.

**Recommendation**

The City Planning Commission recommends that rezoning fees should be increased and fees for different types of land use requests should be added. The current fees established in 1995 have not been raised for the past 24 years. At its meeting on October 17, 2019, the CPC voted to recommend the following fees:

	<b>Recommended Fee</b>
<b>Standard Rezoning</b>	\$1,500 for the first acre + \$50 for each additional acre to a maximum of \$2,250
<b>PD, PD Major Plan Change SD4 (3 or more acres), SD5, PC, and PCA Rezoning</b>	\$1,750 for first acre + \$50 for each additional acre to a maximum of \$2,500
<b>PC/PCA Major Plan Review</b>	\$700
<b>PD/PC/PCA Minor Plan Review</b>	\$400
<b>Text Amendment Major</b>	\$1,500
<b>Text Amendment Minor</b>	\$1,000

The CPC thinks the proposed fees are fair and reasonable, in part, because they are in line with fees charged by other City departments and other large cities in Michigan and throughout the US. The proposed fees still only cover a portion of the actual costs accrued by the City when processing land use requests. Attached is a resolution for your Honorable Body's consideration.

By Council Member Tate:

Whereas, 603 Edsel Ford LLC has filed with the City Clerk an Application for an Obsolete Property Rehabilitation Exemption Certificate, under Public Act 146 of 2000 ("the Act") in City of Detroit Obsolete Property Rehabilitation District in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

Whereas, The Application is for obsolete property as that term is defined in Section 2(h) of the Act, which property is owned by the Applicant; and

Honorable City Council:

Re: Housing & Revitalization Department Request to Amend the 2019-2020 Annual Action Plan HOME Investment Partnerships Program (HOME).

The Housing and Revitalization Department (HRD) hereby requests to amend the U.S. Department of Housing and Urban Development (HUD) 2019-2020 Annual Action Plan HOME Investment Partnerships Program (HOME).

The proposed changes include an update to the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in the HUD Code of Federal Regulations 92.254. The proposed amendment and provisions is included in the attachment.

We respectfully request that your Honorable Body approve the attached resolution authorizing the amendment for the stated purpose. This proposed amendment was posted on the City's website and advertised in the Detroit News/Free Press. Upon City Council's approval, it will be transmitted to HUD.

We ask that the Council approve this with a Waiver of Reconsideration.

Respectfully submitted,  
DONALD RENCHER  
Director

By Council Member Tate:

Whereas, The Detroit City Council hereby approves amending the 2019-2020 Annual Action Plan to reflect the proposed amendment in the attachment

for the HOME Investment Partnership program updated guidelines for resale or recapture of HOME funds in accordance with the foregoing communication; and

Whereas, The Mayor of the City of Detroit, Michael E. Duggan, is hereby authorized to amend the 2019-2020 Annual Action Plan, including all understandings and assurances contained therein to the U.S. Department of Housing and Urban Development (HUD), in accordance with the foregoing communication; and

Be It Finally

Resolved, That the Finance Director be and is hereby authorized to accept and process all documents reflecting these changes.

**ATTACHMENT**

The proposed changes include an update to the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

For HOME-Assisted projects with an outstanding HOME Loan balance, the recapture provision will apply:

In the event the home does not continue to be the principal residence of an income-qualified household, while still in its compliance/affordability period, the City will recoup the prorata share of the original HOME award.

The prorata share is calculated as the total HOME award per unit, divided by the remainder of the HOME award per unit, divided by the remainder of the compliance/affordability period (Example: Original HOME Award: \$1,000,000. HOME Award per unit: \$100,000, Affordability Period: 20 years. Remaining Affordability: 5 years. Amount to be recaptured: \$25,000).

The compliance affordability/period start date is based on the project completion date, as stated in the U.S. Department of Housing and Urban Development's Integrated Disbursement and Information System (DIS).

To avoid recapture, a different income-qualified household may purchase the HOME-Assisted unit/house and assume all the HOME restrictions for the remainder of the period of affordability, as long as no additional HOME assistance is provided.

Recapture requirements, as defined by HUD, can be found in 24 CFR 92.254(5)(ii).

For HOME-Assisted projects that no longer have an outstanding HOME Loan balance, but are still within their HOME Compliance (Affordability Period) the resale provision will apply:

In the event the home does not con-

tinue to be the principal residence of an income-qualified household, while still in its compliance/affordability period, the City will recoup the entire amount of the original HOME award.

The compliance affordability/period start date is based on the project completion date, as stated in the U.S. Department of Housing and Urban Development's Integrated Disbursement and Information System (IDIS).

To avoid recapture, a different income-qualified household may purchase the HOME-Assisted unit/house and assume all the HOME restrictions for the remainder of the period of affordability, as long as no additional HOME assistance is provided.

Resale requirements, as defined by HUD, can be found in 24 CFR 92.254(5)(i).

If the HOME funds are only used to assist a low-income homebuyer to acquire one unit in single-family housing containing more than one unit and the assisted unit will be the principal residence of the homebuyer, the affordability requirements of this section apply only to the assisted unit.

A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds:

Per 24 CFR 92.255, where rental units are converted to homeownership, if no additional HOME funds are used to enable the tenants to become homeowners, homeownership units are subject to a minimum period of affordability equal to the remaining affordable period if the units continued as rental units. If additional HOME funds are used to directly assist the tenants to become homeowners, the minimum period of affordability will meet the following requirements per 24 CFR 92.254:

Homeownership assistance HOME amount per unit	Minimum period of affordability in years
Under \$15,000	5
\$15,000 to \$40,000	10
Over \$40,000	15

Adopted as follows:

Honorable City Council:

Re: Recommendation for Deferral.

Address: 13545 Gratiot. Name: Chris Mahavolich. Demolition Ordered: March 10, 2015 (J.C.C. pages 296-301).

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection on October 16, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the second deferral request for this property.

Therefore, we respectfully recommend that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties.

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Honorable City Council:

Re: Mack Alter Homes Limited Dividend Housing Association Limited Partnership — Payment in Lieu of Taxes (PILOT).

Nova Development Group of Detroit, L.L.C. has formed Mack Alter Homes Limited Dividend Housing Association Limited Partnership in order to develop the Project known as Mack Alter Homes. The Project is a newly-constructed 3-story building containing fourteen (14) family units located in an area bounded by Mack on the north, Alter on the east, Charlevoix on the south and Ashland on the west.

The fully subsidized Project will serve people with disabilities and will include twelve (12) 2 bedroom/1 bath and two (2) 1 bedroom/1 bath apartments. This development also includes a community space and a garden plot area available for each tenant at the rear of the property. Each tenant will receive eight (8) hours per month of off-site case management services.

A tax-exempt bond construction loan in the amount of \$2,275,583, a permanent mortgage loan in the amount of \$850,595, a Mortgage Resource Fund Loan in the amount of \$85,060 and a HOME loan in the amount of \$85,060 will be provided by the Michigan State Housing Development Authority ("MSHDA"). Cinnaire will make Capital Contributions of \$1,478,270 which includes the purchase of Low Income Housing Tax Credits. The City of Detroit will provide a HOME loan in the amount of \$1,585,366. Additionally, the Sponsor has agreed to defer \$316,340 of the developer fee.

Rents for all units have been set at or below sixty percent (60%) of the area median income, adjusted for family size. All residents will contribute only thirty percent (30%) of their adjusted gross income

towards the rent amount. All fourteen (14) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,  
ALVIN HORHN  
Deputy CFO/Assessor

By Council Member Ayers:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 se seq. (the "Act"), a request for exemption from property taxes has been received on behalf of Nova Development Group of Detroit, L.L.C. (the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is proposing to undertake the construction of a 3-story building to be known as Mack Alter Homes consisting of fourteen (14) units and tenant garden plots located on nine (9) parcels of property owned or to be acquired by the Sponsor as described by street address and tax parcel in Exhibit A to this resolution, with fourteen (14) units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federal-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as Mack Alter Homes as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.; and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; and be it further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or Federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemptions; and be it further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer - Office of the Assessor two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Honorable City Council:

Re: Acquisition of Property from Focus: Hope, 1180 Oakman Boulevard, Detroit.

The City of Detroit, Police Department (“DPD”) is hereby requesting authorization from your Honorable Body to acquire certain real property at 1180 Oakman Boulevard (the “Property”) from Focus: Hope Inc. a Michigan non-profit corporation for the purchase price of Two Million Six Hundred Thousand and 00/100 Dollars (\$2,600,000.00) (the “Purchase Price”) subject to certain other terms and conditions.

The City wishes to acquire the Property for certain public purposes including relocating DPD personnel from leased facilities and to consolidate record management activities. Also, DoIT will be using the facility for record archives. Currently the Property is within a M4 zoning district (Intensive Industrial District).

We, therefore, request that your Honorable Body adopt the attached resolution to authorize acquisition of the Property from Focus: Hope Inc. for the Purchase Price.

Respectfully submitted,

**JAMES E. WHITE**

Assistant Chief of Police

By Council Member Ayers:

Whereas, The City of Detroit (“City”) through the Police Department (“DPD”) wishes to acquire certain real property known as 1180 Oakman Boulevard, Detroit, MI as more particularly described in the attached Exhibit A (the “Property”) from Focus: Hope Inc., a Michigan non-profit for the sum of Two Million Six Hundred Thousand and 00/100 Dollars (\$2,600,000.00) (the “Purchase Price”) subject to certain other terms and conditions; and

Whereas, The acquired Property will be used for certain public purposes including DPD personnel from leased facilities and to consolidate record management. Also, DoIT will be using the facility for record archives; and

Whereas, The Buildings, Safety Engineering and Environmental Department (“BSEED”) has reviewed the environmental inquiry completed for the Property; and

Whereas, In accordance with Chapter 2, Article VI, of the 2019 Detroit City Code; (1) the City Council finds that the Property has received an environmental inquiry in accordance with the review referred to in the preceding paragraph; (2) pursuant to the request of the Planning and Development Department, City Council finds that despite the possibility of environmental contamination, acquisition of the Property is necessary to protect the health, safety and welfare of the public; furthermore, acquisi-

tion of the Property is necessary as it is part of a project plan and that acquisition of the Property will not prejudice the right of the City to recover response costs from any potential responsible parties under State and/or Federal law; (3) the City Council finds and declares that the preservation of the promotion of public health, safety, welfare or good outweighs the cost of the environmental assessment and therefore waives the requirement that the seller bear the cost of the environmental assessment; and (4) within 45 days of recording a deed to the Property, P&DD shall have prepared and submit to the Michigan Department of Environment, Great Lakes, and Energy a Baseline Environmental Assessment for the Property; Now, Therefore Be It

Resolved, That in accordance with the foregoing, the Assistant Police Chief James E. White, or his/her authorized designee, be and is hereby authorized to accept and record a deed to the City of Detroit for the Property, as well as execute such other documents as may be necessary to effectuate transfer of the Property from Focus: Hope to the City of Detroit for the Purchase Price; and be it further

Resolved, That the Assistant Police Chief James E. White, or his/her authorized designee, is authorized to execute any required instruments to make and incorporate technical amendments or changes to the deed and/or other documents (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the City's acquisition of the Property, provided that the changes do not materially alter the substance or terms of the transfer and acquisition; and be it finally

Resolved, That the Finance Director be and is hereby authorized to increase the necessary accounts and honor expenditures and vouchers, when presented in accordance with the foregoing communication and standard City procedures.

**RESOLUTION IN SUPPORT OF  
 HOUSE BILL 5124,  
 ALLOWING THE CREATION OF THE  
 "PAY AS YOU STAY" FORECLOSURE  
 PREVENTION PROGRAM**

By ALL COUNCIL MEMBERS:  
 WHEREAS, Following the major nationwide recession beginning in 2008, but far earlier in Detroit and Michigan generally, Detroit home values dropped close to sixty percent in the year from 2009 to 2010 according to the City's Assessor; and

WHEREAS, By early 2015, housing advocates as well as the Detroit City Council warned that the Wayne County Treasurer's office was preparing to foreclose on approximately 37,000 occupied homes in the City of Detroit, impacting an estimated 100,000 Detroit residents — effectively one-seventh of the city's population — a number of foreclosures vastly larger than in any other part of the country; and

WHEREAS, Although it is now estimated that close to 17,000 occupied homes went to auction between 2014 and 2018', the mass foreclosure of citizens' homes has contributed to a humanitarian crisis in

the city, undermining the stability of the city's most vulnerable residents, disproportionately affecting senior citizens on fixed incomes who have been the bedrock of their communities, leaving many homeless, further reducing population generally, and resulting in the increasing depopulation of the most at-risk neighborhoods, to the extent that local schools and the remaining businesses in these areas have been significantly impacted; and

WHEREAS, As is now known, the failure of City property assessments to keep pace with the rapid decline in property values contributed significantly to the foreclosure crisis as did qualified residents' underutilization of the City's Homeowners Property Tax Assessment Program (HPTAP); and

WHEREAS, Michigan's General Property Tax Act, Public Act 206 of 1893, authorizes the City to grant poverty related property tax exemptions, through the HPTAP, to resident property owners who are unable by reason of poverty to pay the taxes assessed on their residences. The current program permits the City to grant 25 percent, 50 percent, and full property tax exemptions to qualifying homeowners. Significant outreach efforts have vastly increased the number of participants. Yet, the foreclosure remains unacceptably high and burdensome on the most vulnerable of our population; and

WHEREAS, Pending legislation in the State Legislature, labeled "Pay As You Stay," proposes to amend the General Property Tax Act to further assist homeowners who are eligible for a property tax exemption by: 1) eliminating interest, penalties, and fees for back taxes, 2) capping the balance due, and 3) giving homeowners a three year term to pay the balance owed with no interest.

WHEREAS, The City's ability to offer this substantial additional assistance where it is otherwise merited could be the factor allowing a senior citizen or other citizen enduring an extended period of poverty to maintain ownership of a lifetime residence; and

WHEREAS, The Detroit City Council recognizes the preservation of its residents' homes, shelter, and security as of fundamental importance for the well-being of both the citizenry of the City and the City as a whole. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council enthusiastically supports the efforts of the Michigan Legislature to add an important new mechanism to the General Property Tax Act by which Detroiters' homes can be protected, and urges swift passage of House Bill 5124. AND BE IT FURTHER

RESOLVED, That a copy of this resolution shall be transmitted to the Detroit delegation of the Michigan Legislature,

Mayor Mike Duggan, and Governor Gretchen Whitmer.

**A RESOLUTION AUTHORIZING THE CITY TASK FORCE ON HOMELESSNESS**

By COUNCIL PRESIDENT PRO TEM SHEFFIELD:

WHEREAS, The Detroit Metro area (Wayne, Oakland, Macomb and Monroe counties) has the highest homeless population in the state of Michigan with approximately 34,000 homeless individuals, including 5,536 children in families and 192 unaccompanied minors. Approximately 69% of homeless Michigan families are headed by single mothers. The homeless population in the City of Detroit stands around 16,200 and represents almost half of the overall number in the Detroit Metro area. The last task force on homelessness was initiated by the Mayor's office in 1994, and there is a dire need for a renewed focus and greater assistance; and

WHEREAS, This taskforce will be a collaborative effort among several stakeholders that will seek to coordinate existing agencies and departments to create an overall strategy for the homeless population in the City of Detroit. The taskforce will seek to facilitate efforts on homelessness from agencies and departments such as: the Department of Housing and Revitalization, Homeless Action Network of Detroit, Neighborhood Services Organization, Detroit Rescue Mission Ministries, Cass Community Social Services and any other entity whose mission is to address homelessness in the City of Detroit; and

WHEREAS, In an effort to address the needs of vulnerable populations, the taskforce will evaluate and strategize with local partners to explore current uses of Community Development Block Grants, Emergency Solutions Grants, and other funding sources made available to the city. Improvements and recommendations will be made on the allocation of these funds to ensure that the homeless population of Detroit is being adequately and humanely served. The taskforce will also begin to formulate new and creative ways to leverage federal and private funding to address the needs that are specific to Detroit's homeless population; and

WHEREAS, The City of Detroit currently subscribes to "Moving Forward Together: A Ten-Year Plan to End Homelessness in Detroit, Hamtramck, and Highland Park, Michigan". The taskforce

will use this existing strategy as a framework and identify ways to improve implementation. Following the City of Detroit's current plan, the task force will focus and be centered on six core areas for action: housing, prevention, support services, employment and job training, community engagement, and collaboration; and

WHEREAS, Detroit's current housing stock, as it relates to blighted and abandoned buildings creates a unique opportunity to explore creative ways to address homelessness. The task force will aggressively create opportunities to use Detroit's existing housing stock to implement the "Housing First Strategy" a proven method of helping move people with substance abuse and/or mental health issues off the streets and into permanent housing; and

NOW, THEREFORE, BE IT

RESOLVED, That the Detroit City Council authorizes the creation of a City of Detroit Homelessness Task Force, to be chaired by President Pro Tem. Sheffield; and

BE IT FURTHER

RESOLVED, That the Task Force on Homelessness will continue through December 31, 2020. All meetings will be open to the public with future dates, times, and locations to be noticed by the office of the City Clerk.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of an existing multi-family triplex building located at 1513 McClellan Avenue in the East Village Neighborhood Enterprise Zone area. **(Recommend Approval)**

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the rehabilitation of an existing multi-family triplex building located at 1513 McClellan Avenue.

This application correspond to a qualified site which will accommodate the rehabilitation of a current building into three rental units that will be placed on the rental market. The building is anticipated to undergo substantial work, including mechanical, HVAC, and drywall repair and replacement, as well as replacement of cabinets and other fixtures. CPC staff has reviewed the application and recommends approval.

The subject property has been confirmed as being within the boundaries of the East Village NEZ which was established by a vote of Council on January 12, 2005, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The anticipated cost of rehabilitation for 1513 McClellan Avenue is \$101,144.00. The associated costs of the other two portions of the triplex are \$86,277.60 (1515 McClellan Avenue) and \$98,903.53 (1517 McClellan Avenue) respectively. The NEZ certificate application appears to have been submitted prior to the issuance of any applicable building permits.

Please contact our office should you have any questions.
