**ARTICLE IV. REGULATION OF BUSINESS AND ADVERTISING SIGNS  
DIVISION 1. GENERALLY**

**Sec. 4-4-1. Purpose.**

(a) The sign regulations of this article are set forth in lieu of those regulations contained in Appendix H of the 2015 Michigan Building Code, under authority of Section H101.1.1.

(b) The sign regulations of this article are intended to balance public and private interests. The purpose of this article is to ~~promote~~ provide for a safe, well-maintained, vibrant, and attractive City, while accommodating the protected rights of individuals and entities need for signs to inform, direct, identify, advertise, advocate, promote, endorse, and otherwise

communicate information through signs, among multiple alternative channels for communication. The regulations contained in this article are narrowly tailored to serve multiple significant governmental interests, including those listed in this section. In furtherance of these significant governmental interests, this article regulates various structural and dimensional standards of signs, including their construction, material, area, height, projection, illumination, location, and spacing, as well as their use and operation in specified locations, but does not regulate the message, content, or communicative aspect of signs, or distinguish between commercial and noncommercial speech. ~~While these regulations allow for a variety of sign types and sizes, they do not necessarily ensure every property owner or business owner's desired level of visibility. It is not the intent or purpose of this chapter to regulate the message displayed on any sign or the content. The objectives of this article are:~~

(1) *General protection of public welfare:* To ensure that signs are located, designed, constructed, installed, and maintained, in a way that and operated so as to protect ~~protects~~ life, and preserve the public peace, health, ~~morals~~, safety, and property and the public welfare of the people of the City;

(2) *Public safety:* To protect public health and safety by prohibiting signs that are structurally unsafe or poorly maintained, or that cause unsafe traffic conditions through distraction of motorist confusion with traffic signs, or hindrance of vision; and that impede safe movement of pedestrians or safe ingress and egress from buildings or sites for nearby pedestrians, motorists, and properties. Signs that are poorly maintained or are otherwise structurally unsound pose physical dangers to the surrounding area and its occupants. Signs, through excessive number, size, illumination, or dynamic operation can create unsafe distractions. Signs can be confused with traffic signals, create unwarranted distractions, impede clear roadway sightlines, or otherwise create unsafe conditions for motorists, bicyclists, pedestrians, and others traveling along the public right-of-way. Signs that overly impact or encroach into public spaces through inappropriate sizing, projection, elevation, or illumination, among other aspects of their construction or operation, can impede the safe circulation of pedestrians, including their safe ingress and egress from buildings and other structures;

(3) *Protect aesthetic quality of neighborhoods Neighborhood aesthetics and environment:* To ~~Prevent blight and protect aesthetic qualities by preventing visual clutter and protecting views and preventing intrusion of commercial messages~~

into noncommercial areas protect aesthetic values of the City's neighborhoods and natural environments. The City's neighborhoods are characterized by their unique residential, commercial, and industrial uses, their architectural themes, and their historic legacies. Signs that do not comport with such unique characteristics can significantly impair the surrounding neighborhood's aesthetic value. Moreover, many of the City's neighborhoods contain outdoor public recreational spaces and natural environments. Signs that overly encroach upon such spaces through their construction or operation can significantly impede access to public outdoor recreation opportunities and undermine protection of the natural environment;

(4) *Free speech Facilitation of protected speech*: To ensure that the constitutionally guaranteed right of free speech is protected and to allow signs as a means of communication facilitate the conveyance of constitutionally protected speech through the use of signs as a means of communication;

(5) *Reduce conflict Reduction of conflict*: To reduce conflict among signs and light and between public and private information systems reduce the potential for conflict among signs, buildings, and other structures that seek to occupy, utilize, or access limited light, air, and open space resources. Signs that are excessive in size, scale, or intensity can interfere with other signs, thereby impairing their communicative value. Such signs can also interfere with neighboring buildings' access to air and natural light, and can interfere with their safe operation and the activities of their occupants; and

(6) *Business identification and promotion of local commerce*: To allow for adequate and effective signage for business identification and other commercial speech, non-commercial speech, and dissemination of public information, including but not limited to, public safety information and notification as may be required by law facilitate the identification of businesses and to promote local commerce at such places of business. Signs that effectively identify the presence of local businesses and that generally promote the products and services provided by such businesses can facilitate commercial activity and stimulate economic development. Additionally, wayfinding and other directional signage can facilitate the efficient flow of vehicular, bicycle, and pedestrian traffic. Conversely, signs that are excessive in size, scale, or intensity, or that conflict with each other or their surroundings, can impede such business identification and hinder local economic activity.

(2) A business sign, including an identification sign, shall not cover or conceal architectural features of a building including, but not limited to, windows, arches, eills, moldings, cornices, and transoms;

(3) Except for signs within developments that require City Council approval of plane, animated sign space or electronic message board sign space within any business or identification sign shall not comprise more than 25 percent of the total sign area;

(4) In the case of an animated sign, as defined in Section 50-6-4 of this Code, located on the premises of a City-owned convention or exhibit building on land requiring City Council approval of plane, not less than 75 percent of the display time in any calendar month shall be devoted to events or activities on the premises.

(5) Inflatable advertising, balloons, and similar devices shall be allowed for the promotion of a special event only after application for and issuance of a temporary sign permit by the Buildings, Safety Engineering and Environmental Department as provided for in Section 50-12-562 of this Code provided, that, they are shaped or formed like a product, have commercial copy, and meet the following restrictions:

- a. Be limited in placement to 15 days;
- b. Be placed on the premises as determined by the Buildings, Safety Engineering, and Environmental Department; and
- c. Be limited in placement to no more than two permits per year; and

(6) Where the sections of an individual letter sign are connected by a common structure, generally referred to as a "raceway", which provides for the electrical or mechanical operation of a sign, the raceway shall be painted to match the color of the building or other structure to which the sign is mounted and shall be limited to a height of no more than one half of the tallest letter.

(b) The following illumination standards shall apply to all business sign types except where other specific standards apply:

(1) Signs may be illuminated, provided, that flashing signs are permitted only where farther than 100 feet from existing developed residential property, and from property which is designated as "residential" in the applicable future General Land Use Map of the Detroit Master Plan of Policies;

(2) No sign shall be illuminated in a manner that interferes with the effectiveness of an official traffic sign, traffic signal or traffic control device;

(e) The tubing in neon signs may be encased for protection from weather and breakage, and the enclosure, such as tinted glass or plastic, shall be designed to render the tubing invisible when not illuminated. REPEALED.

#### **Sec. 4-4-5. Computing sign area, height, and clearance.**

(a) The area of a sign is computed as follows:

(1) In general, the area of a sign is the entire area of a square, rectangle, or other regular geometric figure that reasonably contains the entire sign face and all of the sign's copy. Blank spaces between individual figures, letters, words, graphics, and other elements of a sign's copy are included in the computation of the sign's area. If a sign is enclosed in a frame or case, the area of the sign includes the area of the frame or case.

(2) The area of a double-face sign is the area of the largest of the sign's two faces.

(3) The area of a multiple-face sign is the sum of the areas of each sign face of the sign.

(4) The area of a painted sign includes the area of any background colors that are different from the color of the façade on which the sign is painted, if any.

(b) The height of a sign is computed as the difference in vertical elevation between the highest point of the sign, including its frame and support structure, and the established grade of the sign.

(c) The clearance of a sign is computed as follows:

(1) In general, the clearance of a sign is computed as the difference in vertical elevation between the lowest point of the sign, including its frame and support structure, if any, and the established grade of the sign.

(2) The clearance of a ground sign is computed as the difference in vertical elevation between the lowest point of the sign face, including its frame, but excluding its pole, monument, or other support structure, and the established grade of the sign.

(3) The clearance of a sign under which vehicular or pedestrian passage is possible, such as arcade signs and projecting signs, is computed as the difference in vertical elevation between the lowest point of the sign face, including its frame and support structure, if any, under which clear passage is possible, and the established grade underneath the sign.

(4) The clearance of a sign that is affixed to and supported by a building or other structure, such as wall signs and projecting signs, is computed as the difference in vertical elevation between the lowest point of the sign face, including its frame and support structure, if any, but excluding the building or structure to which the sign is affixed and supported, and the established grade of the sign.

**Sec. 4-4-6. Computing the area of business signs.**

(a) The area of a business sign shall be computed as the entire area circumscribed by a parallelogram, triangle, circle, or semicircle, or any combination of these figures, which includes all of the display area, any window sign, as defined in section 4-4-2 of this Code, and any building number that is larger than ten inches in height. Because they are integral to understanding the message or display of a business sign, the blank areas between letters, words, illustrations, graphics, and the like shall be included in the computation of the area of a sign or the area of a message, letter, word, or graphic that is part of a business sign.

(b) Where the sign faces of a double face sign are parallel, or the interior angle formed by the faces is 15 degrees or less, only one display face shall be counted in computing sign area. Where the two faces of a double face sign are of unequal area, the area of the sign shall be the area of the larger sign face. In all other cases, the areas of all faces of a multiple face sign shall be added together to compute the area of the sign.

(c) The height of a business sign shall be the distance between the highest part of the sign and the grade of the nearest sidewalk. REPEALED.

**Sec. 4-4-6. Computing the measurement of spacing.**

Unless expressly specified otherwise, for the purposes of this article, spacing is computed either radially or linearly.

(1) Radial spacing between two points is computed as the length of the shortest straight line connecting the perimeters of the premises at which each point is respectively located, drawn without regard to any property lines, rights-of-way, or other features, whether natural or constructed, that such line may cross.

(2) Linear spacing between two points is computed as the length of the shortest line connecting the perimeters of each premises at which each point is respectively located, following the centerline of the right-of-way connecting each premises, without regard, unless expressly stated, to the side of the right-of-way on which each such premises may be located.

**Sec. 4-4-7. General restrictions on maximum business sign area.**

(a) Except for businesses regulated under sections 4-4-8(e) and (f) of this Code, each business is entitled to a minimum of 32 square feet of business sign area, regardless of the business' building frontage elevation or street frontage. Except for businesses within developments that require City Council approval of plans, the maximum total area of all business signs for each business shall be the greater of 20 percent of a business' building frontage elevation or one square foot per

each linear foot of business street frontage, not to exceed a total of 500 square feet. Buildings or businesses shall be allowed one professionally prepared window sign not exceeding ten square feet in size and adhered to the inside of the window for every 30 feet of building or storefront width, provided that any such sign shall not require a permit and shall not count toward the maximum allowed sign area. For the purposes of this article, the building frontage elevation is calculated by multiplying the length of the front facade of the building of which the signage is to serve by 12 feet. There can be only one building frontage for each street faced by a building. Portions of facades visible from more than one street, such as those containing curves cylindrical shapes, or angles, shall only be measured once when determining building frontage.

(b) Except as specified in section 4-4-10 of this Code, there is no restriction on the number of signs allowed, and all types of business signs are allowed, including ground signs, wall signs, awning signs, painted wall graphic signs, and projecting signs as long as the aggregate total area of the sign or signs does not exceed the maximum business sign area allowed. Roof signs that serve as business signs, and are not otherwise prohibited in section 50-6-52 of this Code, are allowed, provided that the height of the uppermost element of the sign does not exceed the applicable height limitation for the building.

(c) On corner lots, the allowable sign area for each street frontage shall be calculated separately. The total square footage allowed is obtained by adding the allowable sign area for each street frontage.

(d) For multiple tenant, multiple story buildings where tenants do not have clearly separate building frontage of their own, the 20 percent of building frontage calculation shall be based upon the portion of the building occupied by the respective business.

(e) Where multiple buildings are occupied by the same institutional use, as on the campus of a hospital or educational institution, the permitted business sign area for each building shall be calculated as if a separate business, provided that the permitted business sign area is not transferable from one building to another. REPEALED.

**Sec. 4-4-7. Prohibited signs.**

(a) The following signs are prohibited City-wide, unless expressly allowed in this chapter:

(1) Signs that substantially cover or conceal any architectural feature of a building;

(2) On an awning;

(2) Each separate business within a multiple tenant shopping center may display as much as 24 square feet of business wall signage, provided that more than 24 square feet of business wall signage is allowed where the total area of all business signage for the business does not exceed one square foot of area for each one lineal foot of storefront width occupied by each separate business. Where a shopping center has exposure along two streets, the allowable sign area for the corner or end unit shall be calculated separately for each street frontage. The total area of all business wall signs for the corner or end business shall not exceed one square foot of area for each one lineal foot of street frontage. In no instance shall the total business signage for any one business in a multiple tenant shopping center exceed 500 square feet. **SUBDIVISION B.  
ENTERTAINMENT DISTRICT**

**Sec. 4-4-81. Purpose.**

The purpose of the Entertainment District is to leverage the display of vivid and dynamic signage to foster a vibrant and exciting entertainment-based area within the City. To achieve this purpose without negatively impacting the surrounding area, the Entertainment District is structured in multiple zones, such that the most intense signage is contained in the District's core areas, which are most effectively screened from properties outside of the District. For zones in which signage is anticipated to be more visible from outside the District, signage regulations are relatively more restrictive.

**Secs. 4-4-110 — 4-4-120. Reserved.**

**DIVISION 5. REGULATION OF ADVERTISING SIGNS LOCATED IN THE CENTRAL BUSINESS DISTRICT**

**Sec. 4-4-121. Purpose.**

The Central Business District is characterized by a degree of density, height, scale, and diversity in the built environment, a concentration of historic and otherwise architecturally significant buildings and structures, and an intensity of vehicular and pedestrian traffic and activity that is unique within the City. The Central Business District also features continuous and extensive evolution in its built environment, through the development and redevelopment of new and existing buildings, structures, open spaces, and rights-of-way, such that the potential suitability of particular spaces for advertising signage over time is necessarily limited. As a result, in furtherance of the significant governmental interests set forth in Section 4-4-1 of this Code, the regulation of advertising signs in the Central Business District merits heightened standards and stricter requirements, as well as the ability to revise the implementation of such standards and requirements on a periodic basis, than might be necessary in other areas of the City. The purpose of this division is to set forth such standards and requirements for advertising in the Central Business District.

**Sec. 4-4-122. Advertising permit required.**

(a) It shall be unlawful for any person to construct, erect, attach, affix, post, place, display, maintain, or alter any advertising sign located on a premises within the Central Business District without having first obtained an advertising permit from the Department, and maintaining such permit in good standing.

(b) During the amortization period set forth in Section 4-4-21 of this Code. Subsection (a) of this section shall not apply to any advertising sign located on a premises within the Central Business District that has, prior to the effective date of this ordinance, been issued a permit for such sign under Chapter 50, *Zoning*, of this Code, has not been abandoned or otherwise lost its nonconforming status, and is in full compliance with such permit.

**Sec. 4-4-123. Term and reapplication: renewal permitted in certain circumstances.**

(a) An advertising permit issued under this division is valid for a term not to exceed ten years, commencing on the date of issuance of the first advertising permit issued under Subsection 4-4-122(a) of this Code. Upon the conclusion of its term, an advertising permit shall automatically expire and become invalid, and the permittee or its agent shall immediately remove the advertising sign that is permissible under such permit, unless the permittee secures a new permit for the same sign for an immediately subsequent term or renewal of the permit as provided for in Subsection (b) of this Section.

(b) If, as of a date not less than 30 days following the application date established in Section 4-4-125(c) of this Code, the sum of (i) the number of all new applications for an advertising permit and (ii) the number of all existing valid advertising permits, is cumulatively less than the maximum number of permissible advertising permits as set forth in Sect. 4-4-125(d) of this Code, then an existing advertising permit issued under this division may be renewed. Renewal of an existing valid advertising permit shall be made by application in the form and in accordance with the procedures for an application of a new advertising permit set forth in this Code. Otherwise, no existing advertising permit may be renewed. Such determination shall be made separately for advertising permits for local and super advertising signs. However, even if an existing advertising permit is not renewable, nothing in this section shall prevent the advertising permittee for such permitted advertising sign to apply for a new advertising permit for the same type of advertising sign at the same location under the procedures set forth in this Code.

**Sec. 4-4-124. Findings as prerequisite for issuance of advertising permits.**

(a) No permit may be issued by the

Department for the construction and erection of a new advertising sign, or for the alteration of an existing advertising sign without satisfaction of each of the following findings:

(1) Finding by the Department of Public Works Traffic Engineering Division that the placement of the advertising sign on the premises will not impair the traffic safety of motorists and pedestrians;

(2) Finding by the Chief Financial Officer, based on an investigation to be completed in accordance with Section 2-113 of the Charter, that neither the applicant nor the owner of the premises to which the sign is sought to be placed, if different from the applicant, is in arrears to the City for any unpaid, outstanding, or delinquent property tax, income tax, personal tax, or special assessments;

(3) Finding by the Department that neither the applicant nor the owner of the premises to which the sign is sought to be placed, if different from the applicant, is the subject of any outstanding violations of this Code, including, but not limited to, violations of:

(i) Any provision of Chapter 8, *Building Construction and Property Maintenance*, including verification of a valid final certificate of occupancy and current certificate of compliance, and is not the subject of any outstanding fines or violations;

(ii) Any provision of Chapter 50, *Zoning*, of this Code, including verification that the specific land use for its intended location has been established by the City in the respective zoning district and, where the premises is governed by a zoning grant, has obtained a valid annual certification of maintenance of zoning grant conditions;

(4) Finding by the Department that the sign, as proposed, will be in compliance with all spacing, setback, height clearance, size, and other dimensional and operational standards set forth in this division;

(5) Finding by the Fire Marshall that the premises, including all buildings and structures thereon, are not in violation of any applicable provision of Article I of Chapter 18, *Detroit Fire Prevention and Protection Code*, and that the placement of the advertising sign on the premises will not cause any such violation; and

(6) Submission of copies of all permits and other approvals by any other federal, state, or local governmental agency that may be necessary for construction, erection, or operation of the sign, including, but not limited to, approval by the Michigan Department of Transportation or the Detroit Historic District Commission.

(b) If any department identified in Subsection (a) of this Section determines that an inspection of the premises is reasonably necessary in order to make the requisite findings, it shall cause an inspection to be made of the premises and shall document such inspection as part of its findings.

(c) Each department identified in Subsection (a) of this Section shall submit its findings in writing to the Department without undue delay.

**Sec. 4-4-125. Buildings, Safety Engineering, and Environmental Department issuance of advertising permits.**

(a) Not more than 60 days after the effective date of this ordinance, the Director of the Department shall establish a transition period, the duration of which must not exceed two weeks, to enable and facilitate the efficient and effective transition to the regulations contained in this chapter. During this transition period, the owner of any premises located in the Central Business District to which a permit has been validly issued under Chapter 50, *Zoning*, of this Code to display advertising on the premises may, in its sole discretion, voluntarily and intentionally abandon such permit, and, upon submission of a complete application as set forth in Section 4-4-19 of this Code, shall be issued an advertising permit for such premises.

(b) Not more than 60 days after the effective date of this ordinance, the Director of the Department shall establish a date, to occur not less than two weeks following the conclusion of the transition period established under Subsection (a) of this section, on which the Department will commence accepting applications for advertising permits.

(1) The Department shall review and decide upon such applications in the order that they are received, until the applicable advertising permit cap identified in Subsection (d) of this section is satisfied.

(2) If an application is incomplete or otherwise deficient in any way, other than for a failure to provide copies of all permits and other approvals in accordance with Section 4-4-19(a)(12) of this Code, the Department shall notify the applicant of such deficiency and allow the applicant to correct such deficiency within a specified period of time, not to exceed 15 days. The Department shall deny any deficient petition that is not timely corrected.

(3) If an application is incomplete solely due to its failure to provide copies of all permits and other approvals in accordance with Section 4-4-19(a)(12) of this Code, the Department may conditionally approve the application, subject to the requirement that copies of all such approvals be submitted to the Department within 30 days following the date of such conditional approval. Upon the applicant's satisfaction of such requirement, the Department may approve the application and issue an advertising permit. Upon the applicant's failure of such requirement, the Department shall consider its conditional approval to have lapsed and shall deny such application. Nothing in this subsection shall be construed as obligating the Department to

conditionally approve an application that it determines should otherwise be denied.

(4) The Department shall not approve any application that is submitted subsequent to the final application that, upon its approval, is permissible under the applicable advertising permit cap identified in Subsection (d) of this section. The Director of the Department may maintain a waitlist of such applications, and may consider such applications, in the order submitted, as additional advertising permits become available under the applicable cap for the remainder of the current term, as set forth in Section 4-4-123 of this Code. All applications placed on the waiting list shall be denied upon expiration of the current advertising permit term.

(c) Not more than nine years following the date established by the Director of the Department under Subsection (b) of this section, the Director shall establish a new application date for any subsequent advertising permit terms, and shall accept and review applications and issue permits for such term in the same manner as set forth in Subsection (b) of this section.

(d) The Department shall not allow more than 25 advertising permits for local advertising signs in compliance with Section 4-4-128(b) of this Code, and not more than 45 advertising permits for super advertising signs in compliance with Section 4-4-128(c) of this Code, as each category of advertising signs is described in Section 4-4-128 of this Code, to have been issued and remain valid at any one time.

**Sec. 4-4-126. Transfer of advertising permit.**

Any advertising permit issued under this division may be transferable to a new owner of the premises or advertising partner, but shall not be transferable to another premises, or to another location on the same premises.

**Sec. 4-4-127. Alteration prohibited.**

(a) No sign that is permitted under this division may be altered in any way. Any advertising permit for an advertising sign that has been altered is subject to immediate revocation by the Department.

(b) Subsection (a) of this section does not prohibit the periodic changing of the copy of a permitted sign from time to time.

Any sign that is not in compliance with all applicable standards for either local or super advertising signs is impermissible.

**Sec. 4-4-129. Mitigation of harmful visual aesthetics created by Super Advertising Signs through promotion of public art.**

(a) In acknowledgment that:

(1) The City has a significant governmental interest in protecting its aesthetic values and in mitigating instances of visual blight;

(2) Signs, by their very nature, wherever located and however constructed, can be perceived as an aesthetic harm through their imposition of negative visual aesthetics;

(3) Because of the Central Business District's role as the City's primary hub of activity, the aesthetic harm created by signs in the Central Business District is imposed on all businesses and individuals who may live, work, do business, recreate, or visit therein, or travel through the Central Business District, and compromises their overall aesthetic experience of the City on a citywide basis;

(4) The magnitude of any given sign's negative visual aesthetics can depend on various dimensional and operational parameters, such as its area, construction, illumination, and dynamic operation, that serve to increase its visibility

(5) The negative visual aesthetics of a sign can, based on such dimensional and operational parameters, become so great as to outweigh any positive consequences that the sign might provide, including the facilitation of protected speech and the promotion of local commerce; and

(6) The City may, through the exercise of its legitimate police powers in furtherance of its significant governmental interests, mitigate the particularly negative visual aesthetics of the most visually impactful signs without compromising the positive consequences of such signs by promotion, construction, and maintenance of elements that serve to improve visual aesthetics to a proportionate degree, including the public display of art murals and other forms of public art;

(a) The Department is authorized to

evaluate each application for a permit for a super advertising sign and determine whether such proposed sign will, by its nature, impose negative visual aesthetics of such magnitude that mitigation through the display of one or more art murals and other public art may reasonably be necessary.

(b) Upon its determination that mitigation of the negative visual aesthetics imposed by a proposed super advertising sign for which a permit is applied will be necessary, the Department may request payment of a monetary contribution by the applicant, in an amount to be determined by the Department in accordance with the limitations set forth in this section, as a prerequisite to issuance of a permit for such sign. Such contribution need not be submitted prior to the Department's evaluation of the application for a super advertising sign permit, but must be submitted prior to the Department's issuance of such permit.

(c) The Department may make any determination pursuant to its authority established in Subsections (a) and (b) of this section in consultation with the City's Director of Arts and Culture, and the director of any department or agency that it may desire, or any such director's designee.

(d) To ensure a reasonable nexus between the proposed super advertising sign's negative visual aesthetics and the City's mitigation thereof, the Office of the Chief Financial Officer shall establish a special purpose account, to be known as the "Detroit Public Art Fund", for contributions made pursuant to Subsection (b) of this section. The Department shall deposit all such funds directly into such account promptly upon receipt. All funds must be disbursed from such account solely for purposes of the commission, construction, siting, display, and maintenance of art murals and other public art that is fairly anticipated to improve overall visual aesthetics in the City, and no funds in any amount may be disbursed from such account for any other purpose, except if reimbursement of such funds shall be made in accordance with Subsection (g) of this section.

(e) To ensure rough proportionality between the proposed super advertising sign's negative visual aesthetics and the City's mitigation thereof, the contribution associated with any sign shall not exceed an amount equal to the greater of:

(1) An amount, equal to two dollars if the super advertising sign is proposed to be internally illuminated, one dollar if the super advertising sign is proposed to be a wall sign, and 80 cents if the super advertising sign is proposed to be a painted sign, for each square foot of the proposed super advertising sign, for each year of the term of the permit for which application is made; or

(2) An amount equal to the expected cost, as the Department may reasonably determine, for the commission and installation of an art mural of an area equal to (i) 200% of the area of the proposed super advertising sign if such sign is proposed to be internally illuminated, (ii) the area of the proposed super advertising sign if such sign is proposed to be constructed as a wall sign, or (iii) 80% of the area of the proposed super advertising sign if such sign is proposed to be constructed as a painted sign, as well as the cost of the maintenance thereof for a period equal to the term of the super advertising permit for which application is made.

(f) The Department shall cause all contributions made pursuant to this section for the purpose of mitigating the aesthetic harm of any super advertising sign to be disbursed for a purpose allowed by this section no later than the termination date of the permit for such sign.

(g) If the Department denies an application for a super advertising sign permit for which a contribution has been made, the Department shall refund such contribution to the applicant. If a permit for a super advertising sign has been issued and a contribution for such sign has been made, and such permit has been revoked in accordance with Section 4-4-127 of this Code prior to the completion of its term, no refund of such contribution may be made.

**Sec. 4-4-130. Adjustment or waiver prohibited.**

Adjustment or waiver under Section 4-4-22 of this Code of the dimensional standards set forth in this division is prohibited.

**Secs. 4-4-131 — 4-4-160. Reserved.**

**DIVISION 6. REGULATION OF SIGNS IN THE RIGHT-OF-WAY**

**Sec. 4-4-161. In general.**

The regulations of this division shall apply to any sign that is constructed, erected, posted, or otherwise placed in any location within the right-of-way that is subject to the jurisdiction and control of the City.

**Sec. 4-4-162. Department of Public Works approval required.**

No sign that is subject to the regulations of this division may be permitted unless authorized by the Department of Public Works as a legal encroachment in the right-of-way. A copy of the valid encroachment permit for the sign must be submitted as part of the application for construction or erection of the sign. All conditions of approval, dimensional or operational standards, and other standards set forth in the encroachment permit shall be incorporated by reference into the permit, and compliance with all such standards shall be a condition of approval for such permit. Any standards set forth in

the encroachment permit that are more restrictive than comparable standards set forth in this chapter shall control.

**Sec. 4-4-163. Business signs located in the right-of-way.**

### City Planning Commission

February 6, 2020

Honorable City Council:

Re: Request from Parkstone Development Partners, on behalf of Better Made Snack Foods, Inc., (Petition No. 729) to rezone 6570, 6576, 6582, 6598, 6600, 6602, and 6608 Harding Avenue from a R2 (Two-Family Residential District) zoning classification to a M2 (Restricted Industrial District) zoning classification to develop an expanded employee parking lot. **(Recommend Approval)**

Parkstone Development Partners, on behalf of Better Made Snack Foods, Inc., is requesting to rezone 6570, 6576, 6582, 6598, 6600, 6602, and 6608 Harding Avenue to a M2 zoning classification where a R2 zoning classification currently exists on Zoning Map No. 25. The change in zoning is being requested in order to allow for Better Made Snack Foods, Inc. to expand its employee parking area. Please see the attached public hearing notice which includes the location of the subject rezoning and surrounding zoning.

### **Background and Proposal**

Since 1955, Better Made Snack Foods, Inc. has been located at 10148 Gratiot Avenue on the east side of Gratiot Avenue north of Harper Avenue. The Better Made facility is presently zoned M2.

South of the Better Made factory is a small residential neighborhood zoned R2. The CPC estimates that in the past, this residential area had about 125 houses. Over the years, many of these houses have been demolished, leaving about 35 houses remaining. Harding Avenue is a north/south street running from I-94 on the south, past Harper Avenue, and to a dead-end at the Better Made property. The east side of Harding Avenue once had about 13 houses. The block is presently vacant except for one house (6350 Harding Avenue) at the south end of the block.

Better Made has purchased seven of the lots on the east side of Harding Avenue and is requesting to expand part of its parking lot onto the seven lots adjacent to its facility. In the past year, Better Made secured a temporary permit and developed a fenced-in gravel parking lot. Better Made indicates it will access the subject site from within its existing facility, with no access from Harding Avenue. Please see the attached site plans of the proposed rezoning.

### **Community Input and Public Hearing Results**

On November 7, 2019, the City Planning Commission held a public hearing on the rezoning request. One person representing Better Made employees spoke in support. CPC staff noted it received a letter of opposition from the homeowner of 6530 Harding Street. Four letters of support were received from the Detroit Economic Growth Corp. (DEGC), State Representative Joe Tate, State Senator Adam Hollier, and Wayne County Commissioner Jewel Ware. The petitioner provided a community engagement summary indicating it met with the homeowner at 6530 Harding Street to discuss their concerns. Parkstone indicated, prior to the hearing, it knocked on 20 doors and spoke with nine residents about the proposal. Parkstone hosted a community meeting on August 20, 2019 and indicates the main concerns and feedback included:

- Air quality/pollution from PVS Chemicals — the petitioner contacted the State of Michigan which asked residents to report exact times when air quality issues occur;
- Storm water management/drainage — Better Made indicated the new lot would tap into the sewers on French Road not Harding Avenue;
- The possible future expansion of Better Made — Better Made continues to explore adjacent areas to expand its operation;

- There were no objections to the proposed barbed wire on the fence.

During the hearing, the City Planning Commission discussed the following issues:

- The Commission said it would prefer letters of support from the community itself, not just elected officials. Better Made indicated it went door to door and held community meetings instead of seeking letters.
- The Commission asked if other zoning districts were considered. CPC staff indicated M2 matches the M2 zoning to the east on French Road; other zoning districts would require larger setbacks, whereby eliminating more parking spaces.
- The Commission discussed how Better Made currently operates its business, including truck traffic, and why the additional parking is needed. Better Made indicated its trucks, mostly box trucks, will access its facility from French Road. In last 8 years, Better Made has added a 2nd and 3rd shift.
- The Commission discussed screening and what type of landscaping would be planted around the site. Better Made indicated, because of utility wires, it would explore planting smaller mature trees along Harding Avenue. Better Made indicated it would be willing to look at buffers for the south end of the site.

### **Analysis**

#### **Surrounding Zoning and Land Use**

The zoning classification and land uses surrounding the subject area are as follows:

North: M2: developed with the Better Made Snack Foods facility

East: M2: (the west side of French Road): developed with Better Made property

South: R2: vacant land

West: R2: housing and vacant land

South of the subject rezoning, there are five vacant lots owned by DS Development which operates Denn Co Construction located on Harper at French Road. South of the five lots owned by DS Development are three lots developed with a single-family house at 6530 Harding Avenue.

#### **Zoning Ordinance Criteria**

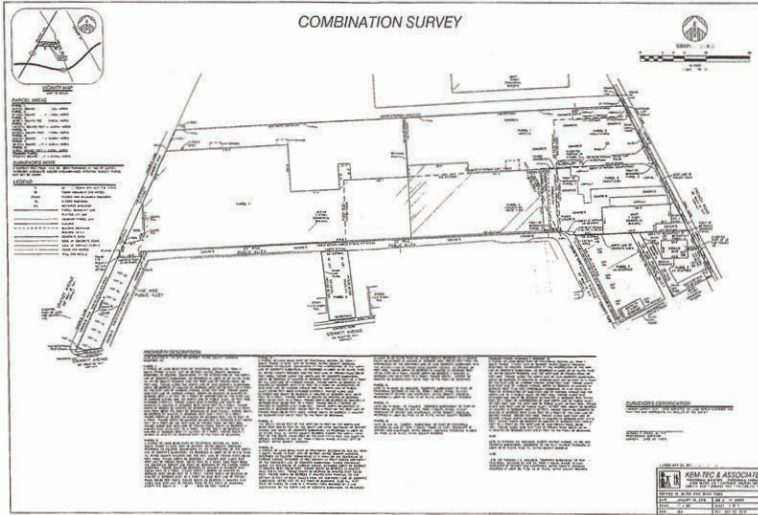

Section 50-3-80 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. The CPC finds that the present request meets the criteria for the following reasons:

1. *Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact:*

The proposed amendment does not correct an error. However, the proposed map amendment meets the challenge of a changing condition or trend. As noted earlier in this report, the adjacent neighborhood/subject block was previously developed with single-family houses. Over

**City Planning Commission**

February 7, 2020

Honorable City Council:

Re: Request of the Roxbury Group, LLC to amend Article XVII, District Map 4, of the 2019 Detroit City Code Chapter 50, Zoning, by modifying the provisions of the existing PD-H (Planned Development District-Historic) zoning classification for the property located in the 3400 Woodward Avenue block generally bounded by Eliot Street and the vacated portion of Eliot Street, John R. Street, Erskine Street and Woodward Avenue to establish the development known as Hotel Bonstelle. The request proposes to allow for a hotel and conservatory. (RECOMMEND APPROVAL).

**PROPOSAL**

The Roxbury Group is proposing to erect the Hotel Bonstelle in the Brush Park Historic District at the southeast corner of the 3400 block of Woodward Avenue and vacated Eliot Street. The hotel would be complemented by a new conservatory on the south side of the hotel between it and the 'Bonstelle Theatre.

The hotel is proposed to be 10 stories, totaling 129' 4" (inclusive of rooftop lounge and bar space) and is planned to host 153 guest rooms, dining, office and lounge spaces on the first floor.

The hotel will also accommodate meeting space and an exercise area on the second floor. Other amenities include a restaurant and bar, conference space, and fitness center.

Additionally, a conservatory is planned to be erected next to the hotel and will have a height of two stories. The conservatory will lie between the hotel and the Bonstelle Theater to serve as further supportive dining and lounge space for the hotel. The developer has a 20-year lease to operate the Bonstelle Theatre, so the conservatory will also serve as a gathering space for attendees of the theatre.

The SOMA parking deck that is now under construction to the rear on an adjacent site will provide the required parking for the project. The required 3116 parking stalls for the hotel will be provided within the SOMA parking deck once completed. Until completion, the developer has a secondary parking plan to use the existing surface parking area on the adjacent lot which is controlled by the same interests which own the entire Red Cross site.

**PLANNING CONSIDERATIONS AND ANALYSIS**

**Surrounding Zoning and Land Use**

The zoning classification and land uses surrounding the full project subject area are as follows:

- North:** PD; underutilized lot
- South:** PD; Bonstelle Theatre
- East:** PD; Surface parking lot, site of SOMA parking structure under construction
- West:** PD; underutilized lot

**PUBLIC HEARING RESULTS AND COMMUNITY ENGAGEMENT**

At the CPC public hearing, a representative from Midtown Detroit Inc. (MDI) spoke in favor of the proposal. One person spoke with concerns related to parking for the hotel. The Brush Park CDC has submitted a letter supporting the hotel project.

**ANALYSIS**

This project is generally in conformance with the PD District design criteria of Sec. 50-11-15 of the Zoning Ordinance. Some of the criteria that are considered as a part of the process are as follows:

**Master Plan.** *The proposed development should reflect applicable policies stated in the Detroit Master Plan. The policies relating to the geographic area in question as well as general policies will be considered. This zoning ordinance requires that the proposed major land use be consistent with the adopted Master Plan in all PD developments.*

The Planning and Development Department has submitted a letter stating that the proposed development does conform to the Future General Land Use of the Master Plan of Policies. The subject site is located within the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Mixed Residential Commercial (MRC) for the subject property.

**Scale, form, massing, and density.** *Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development and Compatibility the proposed development should be compatible with surrounding development in terms of land use, general appearance and function, and should not adversely affect the value of properties in the immediate vicinity.*

The scale, form, massing and density proposed for this development are appropriate for a site of this nature. The proposed hotel abuts a Major Street and Mass Transit Route in Neighborhood Cluster 4 of the Master Plan of Policies. Woodward is the spine of the City and serves as an appropriate thoroughfare for dense development, especially, those within the greater downtown area. Market studies have shown that there is a great demand for hotel space in the City of Detroit. This hotel, will help to fill some of the void that currently exists for rooms.

The proposed conservancy serves as an ancillary use, and as a way to create a street wall at pedestrian level and utilize land that might otherwise be dead-space. The conservancy also serves to connect the Bonstelle Theatre and proposed Bonstelle Hotel, thus ensuring that the theatre remains active and maintained for years to come. This development is compatible with the surrounding built environment.

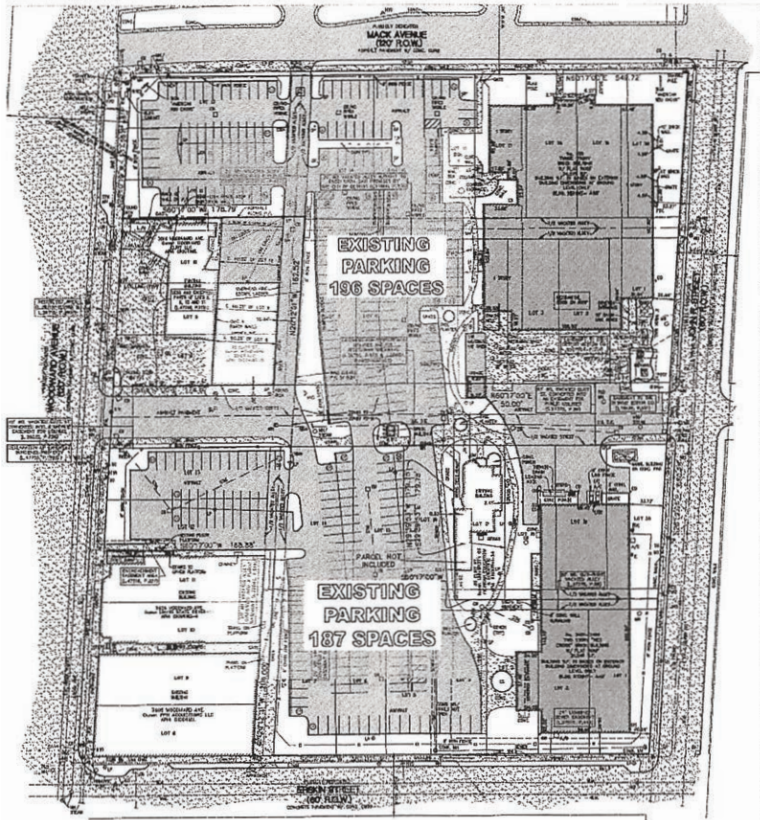

**Parking and loading.** Where appropriate, adequate vehicular off street parking and loading should be provided. The City Planning Commission will be guided by standards delineated in this zoning ordinance with adjustments appropriate to each specific situation.

The parking for the site is planned to be located in the coming SOMA parking deck that will hold approximately 600 vehicles. Since the parcel for the SOMA parking deck is within 100 feet of the subject hotel property (SOMA site identified "parcel 1"

on the map below), it is allowable to be considered accessory parking for the hotel per the zoning ordinance. Access from the hotel to the parking deck would be provided off-street and interior to the developments. The hotel parking would have access to the SOMA deck from the rear. Currently located at the northern portion of the Red Cross site, there are 196 spaces and 187 parking on the southern portion of the site (see map on page 5). All of the parking area is under the control of the same owner.

**Environmental impacts.** Environmental impacts that relate to such factors as noise, air, combustibles and explosives, gases, soil, and water pollution, toxic waste, vibration, odor, glare, and radiation, should be controlled to be within acceptable levels at all times.

There are no major foreseeable negative environmental impacts that will be caused by the proposed development.

**Preservation and restoration.** Preservation and restoration of buildings having architectural or historic value should be considered a primary objective.

This project is supporting the preservation and restoration of the Bonstelle Theatre, as the theatre will also support the vision of the hotel. Rehabilitation work is being invested into the theatre as a part of this effort and might not otherwise be accomplished if not for leveraging of the hotel project.

**RECOMMENDATION**

Before this Honorable Body is the request of the of the Roxbury Group for the modification of an existing PD (Planned Development District) zoning classification on land located at 3400

Woodward Avenue and generally bounded by Eliot Street and the vacated portion of Eliot Street, John R. Street, Erskine Street and Woodward Avenue. The request would establish the development known as Hotel Bonstelle to allow for a hotel tower and an adjacent conservatory.

This project is consistent with the PD Design Criteria per Sec. 50-11-15 and all of the applicable provisions of the Zoning Ordinance. This item comes before your Honorable Body with a recommendation of approval by the City Planning Commission.

The City Planning Commission voted to recommend **approval** of the subject PD modification request at its regular May 9, 2019 meeting with the following conditions:

1. That the developer work with the immediately adjacent community to minimize disruption to the neighborhood during construction and address impacts that may arise; and
2. That final site plans, elevations, lighting, landscape and signage plans be submitted by the developer to the staff of the City Planning Commission for review

and approval prior to submitting applications for applicable permits.

**ARTICLE VI. SIGNS RESERVED**

**DIVISION 1. GENERAL DEFINITIONS**

**Sec. 50-6-1. Purpose; overview.**

(a) The sign regulations of this article are intended to balance public and private interests. The purpose of this article is to promote a safe, well maintained, vibrant and attractive City while accommodating the need for signs to inform, direct, identify, advertise, advocate, promote, endorse and otherwise communicate information. While these regulations allow for a variety of sign types and sizes, they do not necessarily ensure every property owner or business owner's desired level of visibility. It is not the intent or purpose of this chapter to regulate the message displayed on any sign or the content. The objectives of this article are to:

(1) *General.* Ensure that signs are located, designed, constructed, installed and maintained in a way that protects life, health, morals, property and the public welfare;

(2) *Public safety.* Protect public safety by prohibiting signs that are structurally unsafe or poorly maintained; that cause unsafe traffic conditions through distraction of motorists, confusion with traffic signs, or hindrance of vision; and that impede safe movement of pedestrians or safe ingress and egress from buildings or sites;

(3) *Protect aesthetic quality of neighborhoods.* Prevent blight and protect aesthetic qualities by preventing visual clutter and protecting views and preventing intrusion of commercial messages into non commercial areas;

(4) *Free speech.* Ensure that the constitutionally guaranteed right of free speech is protected and to allow signs as a means of communication;

(5) *Reduce conflict.* Reduce conflict among signs and light, and between public and private information systems;

(6) *Business identification.* Allow for adequate and effective signage for business identification and other commercial speech, non-commercial speech, and dissemination of public information, including, but not limited to, public safety information and notification as may be required by law.

(b) Sign controls have been written for each district and placed in this article for ease of use and administration. All signs have been divided into four major categories: advertising; business, including

identification and institutional bulletin; directional; and real estate. These are further divided according to structure type, viz., double face, flashing, illuminated, roof, ground, and wall. As an aid to the user of this chapter, definitions that pertain to signs have been restated in this division. In addition, all relevant sign terms are defined in Section 50-16-383 of this Code.

(c) Non-zoning provisions for signs are contained in Chapter 4 of this Code, *Advertising*. Such provisions are enacted under the police powers of the City. **REPEALED.**

Every sign shall be classified and conform to the requirements of such classification as set forth in Chapter 8, Article II, of this Code, *Building Code*, including Section 8-2-21 of this Code, *Additions to Appendix H, Signs*, and as set forth in this article but not mean any display of official court or public agency notices, or the flag, emblem, or insignia of a nation, political unit, school, or religious group, or any non illuminated, non commercial, painted art mural. **REPEALED.**

An advertising sign shall not be erected, affixed, applied, painted, or represented directly or indirectly upon a building, structure, or zoning lot closer than 1,000 feet, measured linearly, to another advertising sign. Linear measurement shall be based on the distance, measured along the centerline of the roadway abutting the zoning lots on which the advertising signs are located, at points perpendicular to the outermost portions of the advertising signs, including support structure, closest to one another. In measuring the distance between two freeway advertising signs, all measurements shall be made as if the zoning lot actually abutted the freeway right of way. This spacing requirement applies regardless of the side of the roadway where the advertising sign is located. REPEALED.

**Sec. 50-6-73. Spacing exception.**

The provisions of Section 50-6-72 of this Code shall not apply to advertising signs which are separated by a building or other visual obstruction in such a manner that only one sign located within the spacing distance is visible from the roadway at any time. Likewise, the provisions of Section 50-6-72 of this Code shall not apply to advertising signs which are oriented to opposing traffic. REPEALED.

**Sec. 50-6-74. Spacing; V shaped signs.**

**Sec. 50-6-75. Spacing; modification.**

No modification of this spacing provision shall be considered except in accordance with the approval criteria for administrative adjustments and variances, as provided for in Section 50-4-121 of this Code and in accordance with the conditions specified in Section 50-12-135 of this Code for the waiver of general spacing requirements:

(1) During the six month period specified in Section 50-6-76 of this Code, the Buildings, Safety Engineering and Environmental Department shall not permit any additional advertising sign within 1,000 feet measured linearly from the approved site, except where such additional advertising sign is oriented to opposing traffic;

(2) The Buildings, Safety Engineering and Environmental Department shall develop a written policy regarding the procedures for the tracking of advertising sign permit applications to ensure that the spacing provisions of Section 50-6-72 of this Code are properly implemented. REPEALED.

**Sec. 50-6-76. Term of permit.**

Once the Buildings, Safety Engineering and Environmental Department has issued a permit for an advertising sign the permit holder shall have six months from the date of issuance of the permit to make the site ready for display of the advertising sign. In the case of billboards serving as advertising signs, this shall mean that work on all supporting structures and the sign face, with or without advertising copy, is complete within six months of the date of issuance of the permit, except as provided for in Section 50-3-24 through Section 50-3-26 of this Code. REPEALED.

**Sec. 50-6-77. Spacing from schools, playgrounds, parks, and historic districts.**

Advertising signs shall not be permitted:

**Sec. 50-6-78. Corner lot advertising signs.**

For purposes of spacing, advertising signs on corner zoning lots shall be deemed as being oriented to all intersecting roadways, except in such instances where only the non display area on the back of the sign is visible to a roadway. Where placement of a proposed advertising sign on a corner zoning lot would result in more than one sign being visible from intersecting roadways, one of the signs must be at least 300 feet from the point where the center lines of said roadways intersect. REPEALED.

**Sec. 50-6-79. Information to be submitted with permit application.**

By appending to the advertising sign permit application, the applicant shall furnish the Buildings, Safety Engineering and Environmental Department with the four items as specified in Section 50-6-80 through Section 50-6-83 of this Code. REPEALED.

**Sec. 50-6-80. Submittal requirements; range of addresses.**

The applicant shall provide a listing of the range of addresses for each street falling within the following specified distances of the outermost points of the proposed advertising sign:

**Sec. 50-6-83. Submittal requirements; affidavit.**

The applicant shall submit an affidavit that is signed by a registered surveyor who is licensed in this state, declaring the exact distance between the outermost points of the advertising sign and the following four features:

(1) The nearest point of all other advertising signs within 1,000 feet measured linearly along all streets abutting the zoning lot and the street addresses of any such signs;

(2) The nearest lot line of a school, park, or playground within 500 feet measured linearly;

(3) The nearest lot line of a City of Detroit historic district within a 500 Foot radius; and

(4) In the event that the advertising sign is proposed to exceed the standard 35-foot height limitation or the standard sign face area limitations as specified in Section 50-6-86 of this Code, the nearest lot line of land zoned R1, R2, R3, R4, R5, R6 or residential PD (Planned Development) within a one quarter mile radius.

In addition, the surveyor shall confirm, by affidavit, that the information contained in and appended to the sign permit application is accurate to the best of such surveyor's knowledge. Provision of false, inaccurate, or misleading information may result in removal of the advertising sign at

the owner's expense subject to the provisions of Section 50-5-74 of this Code. The Buildings, Safety Engineering and Environmental Department shall verify the findings of the surveyor that are contained in the affidavit. REPEALED.

It shall be unlawful to construct, erect, paint, fasten, or affix any new advertising sign, whether billboard or painted wall graphic, on any zoning lot abutting or within the area bounded by East Grand Boulevard, the Detroit River, and West Grand Boulevard. This prohibition in no way limits the right to periodically alter the advertising display on billboards approved for "changeable copy" or to repaint the display on duly licensed painted wall graphics. No lawfully existing advertising sign within said area shall be enlarged or expanded, except upon approval of the Board of Zoning Appeals as provided for in Section 50-15-26 of this Code. REPEALED.

**Sec. 50-6-86. Sign face area.**

No advertising sign shall be approved by the Buildings, Safety Engineering and Environmental Department or the Board of Zoning Appeals on appeal, unless all of the findings are made pursuant to the standards in Article III, Division 7, Subdivision C, of this chapter in addition to the following two advertising sign standards:

(1) That, based on the recommendation of the Department of Public Works Traffic Engineering Division, the placement of the advertising sign on the zoning lot will not impair the traffic safety of motorists and pedestrians; and

(2) That, based on the recommendation of the Planning and Development Department, the placement of the advertising sign on the zoning lot will not be detrimental to environmental aesthetics by obstructing views of significant architectural or natural features.

(b) Except as prohibited in Section 50-6-85 of this Code, advertising signs are permitted on a by-right basis in the B5, B6, M3, M4, and M5 Districts. REPEALED.

greater, when the display matter can be seen by traffic traveling on the freeway or interchange ramp, except that those distances shall not apply to signs which pertain to the business of the occupants of the building upon which the sign is mounted, where, in the opinion of the Department of Public Works Traffic Engineering Division, such sign would not be in conflict with the intent and purposes of this section; or

(2) In an area bordering a freeway which is zoned residential; or

(3) With a changeable message of more than two lines, with more than 18 characters per line, exclusive of a combined time and temperature indication. REPEALED.

Where a permit application is not

approved by the Department of Public Works Traffic Engineering Division and, upon request of the applicant, a public hearing shall be granted before the Board of Zoning Appeals. At such hearing, the testimony of the Department of Public Works Traffic Engineering Division shall be presented and consideration shall be given to the potential hazard which would be created to vehicular traffic by virtue of the location, method of animation, degree of distraction to drivers, or other features which might create such hazard as are peculiar to the specific display sign or display structure covered by the requested permit; and:

(1) Where a public hearing is held and, upon the recommendation of the Department of Public Works Traffic Engineering Division, a finding of "no hazard to vehicular traffic" is made, the Board of Zoning Appeals may grant a variance of the standard that is provided for in Subsection (2) of this section, and the Buildings, Safety Engineering and Environmental Department shall approve the permit application for the proposed sign; and

(2) Any variance of the freeway setback provisions shall be limited to a reduction of not more than 15 feet of the 125-foot setback from the edge of the traveled roadway of any freeway or interchange ramps between freeways and a reduction of not more than three feet of the 25-foot setback from the right of way line of any freeway. REPEALED.

The Buildings, Safety Engineering, and Environmental Department may adjust the standard height and sign face area limitations of an advertising sign after a special land use hearing. Such adjustments shall be limited in accordance with the following table:

A special inspection on January 28, 2020 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, we respectfully recommend that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties.

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

WHEREAS, The City of Detroit and the Great Lakes Water Authority (GLWA) entered into a Regional Sewage Disposal System Lease, Regional Water Supply System Lease (collectively, the Leases), and a Water and Sewer Services Agreement (WSSA) to facilitate GLWA's provision of the water supply and sewage disposal services to its member-partner communities, including the City of Detroit; and

WHEREAS, The City is dedicated to providing its citizens with the nation's best water supply and sewage disposal services; and

WHEREAS, The City seeks to provide a means to reduce the number of residential customers who may be subject to service interruption due to an inability to pay for services and ultimately to reduce such service interruptions; and

WHEREAS, The City recognizes that some residential customers can benefit from regional programs to reduce residential service disconnections, accrued billing arrearages, collection expenses and water consumption through leaks and outdated plumbing fixtures; and

WHEREAS, The City recognizes that such programs provide residential customers with public health and other non-monetary benefits, and improves revenue collection rates; and

WHEREAS, Section 5.6(a)(v) of the Leases states that GLWA shall include within its budgeted revenue requirement:

The amount necessary to be deposited to the WRAP [Water Residential Assistance Program] Fund which shall be a common-

WHEREAS, GLWA's WRAP administrators, Wayne Metropolitan Community Action Agency, Oakland Livingston Human Services Agency, Genesee County Community Action Resource Department, Macomb Community Action, and Monroe County Opportunity Program, recommend an increase in the funds deposited in the WRAP Fund and changes in the WRAP eligibility requirements; and

WHEREAS, An increase in funds deposited in the WRAP Fund and changes to the WRAP eligibility criteria would enable the WRAP to reach more residential customers who are struggling to pay for water supply and sewage disposal services; and

NOW THEREFORE, Conditioned on the GLWA's Board of Directors authorizing an amendment to the Leases and WSSA; and the Board of Water Commissioners, pursuant to its rate-setting authority for the local retail system under Section 7-1202 of the City Charter, authorizing an amendment to the WSSA;

Council Member Ayers moved the following resolution on behalf of President Brenda Jones:

**RESOLUTION URGING THE MICHIGAN STATE LEGISLATURE TO ALLOW FOR A PROPERTY TAX FORECLOSURE MORATORIUM AND PASS LEGISLATION TO PROVIDE RELIEF TO OVERTAXED RESIDENTS**

WHEREAS, During the Great Recession of the 2000s, real property values

declined across the country. Within the State of Michigan and particularly in the City of Detroit descending property values were magnified; and

WHEREAS, As the recession deepened, the process of reassessment of residential property values failed to lower the State Equalized Value for homes throughout the City. During the Great Recession, presumably in part due to these assessments a large number of residential properties in Detroit were foreclosed on by the Wayne County Treasurer Office; and

WHEREAS, Of all of the taxes assessed on the local tax bill, not more than 25% of that amount goes to the City of Detroit; and

WHEREAS, Although citizens have the ability to appeal assessments, many were unaware that the right existed; therefore, the appeals process was not taken advantage of fully. Moreover, many property owners did not know that their property had been over-assessed until after the various news articles and coverage highlighted this fact; and

WHEREAS, Beginning in 2014, the City undertook corrective action and reassessed each residential property in Detroit citywide which became effective with the 2017 Summer Tax bills. However, the City is trying to determine what may be done to rectify the past over-assessments within the boundaries of State law and its funding abilities. NOW THEREFORE BE IT

RESOLVED, While these options are being considered, the Detroit City Council strongly urges the Michigan State Legislature to pass legislation to grant a moratorium on property tax foreclosures in the City of Detroit until the extent of the problem can be determined and solutions can be recommended; BE IT FURTHER

RESOLVED, The Detroit City Council strongly urges the Michigan State Legislature to pass legislation to allow the City to create a program, that will provide relief to those property owners who paid the over-assessments, which may include crediting, over a ten-year period, against future City taxes owed for those who can quantify their over-taxation; BE IT FINALLY

RESOLVED, A copy of this resolution be forwarded to the Detroit Delegation in the Michigan Legislature, the Michigan State House Committee on Tax Policy, the Michigan State Senate Committee on Finance, the Mayor's Office and the Assessor's Office.

Yeas — Council Members Ayers, Castaneda-Lopez, Leland, McCalister, Jr., Tate and President Jones — 6.

**WALK-ON  
City Planning Commission**

February 11, 2020

Honorable City Council:

Re: Further extension of review period for Zoning Ordinance text amendment — Short Term Rentals.

As provided in Sec. 50-3-48 of the 2019 Detroit City Code, where a proposed text amendment is not acted upon by the City Council within one hundred twenty (120) days of the date of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council.

The City Planning Commission's report and recommendation to approve the Zoning Ordinance text amendment relative to the repeal of the "home occupation" prohibition of short term rentals was taken up by your Honorable Body on June 25, 2019. The original 120-day review period was scheduled to expire on October 23, 2019. On October 22, 2019, your Honorable Body passed a resolution to extend the review period an additional 120 days until February 20, 2020.

Council's deliberations concerning the non-zoning provisions in the City Code relative to short term rentals are continuing and it would be appropriate to act on the Zoning Ordinance amendment for short term rentals at the same time as the non-zoning ordinance. A further extension of the review period for the Zoning text amendment can be authorized by a vote on the attached resolution.

Respectfully submitted,  
MARCELL R. TODD, JR.  
Director

By Council Member Tate:

Whereas, The City Planning Commission held a public hearing on June 6, 2019 relative to the proposed Zoning Ordinance text amendment to repeal the "home occupation" prohibition of short term rentals; and

Whereas, At its meeting of June 20, 2019, the City Planning Commission voted to recommend approval of the text amendment; and

Whereas, City Council took up the recommendation of the City Planning Commission for approval of the proposed text amendment June 25, 2019; and

Whereas, The Detroit Zoning Ordinance provides in Sec. 50-3-48 of the 2019 Detroit City Code that where a petition for a proposed text amendment is not acted upon by the City Council within one hundred twenty (120) days of the date of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council; and

Whereas, The original 120-day review was set to expire on October 23, 2019; and

Whereas, City Council acted on October 22, 2019 to extend the review period for an additional 120 days until February 20, 2020; and

Whereas, The Chapter 50 Zoning Ordinance text amendment relative to short term rentals will be ripe for action when the related amendment to the City Code relative to short term rentals is ready for Council's vote; and

Whereas, The Detroit City Council finds it appropriate to further review the proposed text amendment; Now Therefore Be It

Resolved, That the Detroit City Council hereby further extends the review period of the proposed text amendment to repeal the "home occupation" prohibition of short term rentals for an additional 120 days until June 19, 2020.

Re: Neighborhood Enterprise Zone Certificate Application for twenty-nine rehabilitated apartment units located at 7430 Second Avenue in the AK Owner, LLC Neighborhood Enterprise Zone area. (Recommend Approval).

The office of the City Planning Commission (CPC) has received one (1) application requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the rehabilitation of twenty-nine apartment units in an existing eleven story office building located at 7430 Second Avenue. This application corresponds to a qualified site that will facilitate the continued conversion of the Albert Kahn building into a mixed use development. This NEZ request corresponds to the rehabilitation of twenty-nine apartment units located on the second floor of the building only. In March of 2019 your Honorable Body approved the NEZ certificate request for the rehabilitation of 190 rental apartment units

on the third through the eleventh floors of the vacant obsolete office building.

In regards to this specific request apartments will be created in a wide variety of sizes, with approximately 11 one-bedroom, 6 two-bedroom and 12 Studio apartment units. It is anticipated that affordable housing will be provided for 20% of the apartment units. The project is anticipated to include ground-level retail. The NEZ Certificate will only apply to the residential component of the project.

The subject properties have been confirmed as being within the boundaries of the AK Owner, LLC NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The estimated project cost for the development is \$6,592,556.00 at a cost of approximately \$219,752.00 per unit. The NEZ certificate application appear to have been submitted prior to the issuance of any applicable building permits.

Re: Request from Morton Manor Limited Dividend Housing Corporation, LLC to rezone 20000 Dequindre from an R2 (Two-Family Residential) to an R3 (Low Density Residential) zoning classification to bring the existing use into compliance with the Zoning Ordinance. (RECOMMEND APPROVAL)

Morton Manor Limited Dividend Housing Corporation (LDHC), LLC is request-

ing to rezone 20000 Dequindre Avenue, which is generally located on the east side of Dequindre Avenue north of East Outer Drive, from an R2 to an R3 zoning classification on Zoning Map No. 18. The change in zoning is being requested in order to bring the existing use into compliance with the Zoning Ordinance. Please see the attached rezoning application (Attachment A) and public hearing notice (Attachment B) which includes a map of the subject location.

#### **Background and Proposal**

The subject property, 20000 Dequindre Avenue, is presently developed with Morton Manor Apartments, an eight-story 150-unit elderly apartment building built in 1983. The site includes parking on the north and south sides of the building with a total of 80 spaces. The building was originally constructed with a HUD 202 loan and currently supported by Section 8. The R2 zoning district allows multiple-family dwellings as a conditional use with not more than eight dwelling units. In 1981, the Board of Zoning Appeals (BZA) granted a use variance to allow the subject 150-unit building to be constructed on the R2 land.

Morton Manor LDHC, LLC is proposing to purchase and renovate the building utilizing low income housing tax credits and Michigan State Housing Development Authority (MSHDA) gap financing. In order to qualify for the financing, MSHDA is requiring that the current use comply with zoning.

The developer is proposing to keep the building with 150 affordable units for the elderly and planning \$8 million in renovations, including:

- repair and replace damaged brick
- new energy star windows
- upgrades to the parking lot, landscaping, and lighting
- new energy efficient HVAC, electrical and plumbing systems and fixtures
- renovations to existing units, including renovated kitchen and bath, new flooring, new cabinets, security systems, and energy star appliances

Morton Manor LDHC, LLC is comprised of representatives of Communities of Hope, Inc., Christina Love, LLC and Metropolitan Baptist church Non-Profit Housing Corporation, the original entity involved in building the apartment building in 1983. The developer is keeping Premier Property Management, which assumed management of the site in 2017, to market, lease, and manage the building.

#### **Public Hearing Results and Follow-up**

On December 5, 2019, the City Planning Commission held a public hearing on the rezoning request. At the hearing, no one from the public spoke. During the hearing, the City Planning Commission asked for details as to how the renovations would be conducted. The representative of Premier Property Management indicated the development team had

extensive experience with renovating occupied buildings including senior buildings. Premier indicated the building was currently nearly fully leased. As a result, tenants would be relocated for 2-3 weeks on-site if possible or off-site with relatives or nearby hotels. The Commission also asked for additional assurances from the developer that the building would remain affordable into the future.

In response, the petitioner submitted a sample plan for resident relocation during the renovation (Attachment C), as well as a memorandum dated January 29, 2020 committing to keeping the property affordable for another 40 years (Attachment D).

**Analysis.**

**Surrounding Zoning and Land Use**

The zoning classification and land uses surrounding the subject area are as follows: North: R2: developed with residential housing

East: R1 (Single-Family Residential): developed with residential housing

South: B2 (Local Business and Residential): developed with a gas station

West: R2: developed with residential housing and a church

**Zoning Ordinance Criteria**

Section 50-3-80 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. The CPC finds that the present request meets the criteria for the following reasons:

1. *Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact:*

The proposed amendment does not correct an error. As noted earlier in this report, in 1981 the BZA granted a use variance to allow the subject 150-unit building to be constructed on the R2 land. The developer indicates in order to qualify for the financing, MSHDA is requiring that the current use comply with zoning, which does meet the challenge of a changing condition.

2. *Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance:*

The subject site is located within the Nolan area of Neighborhood Cluster 1 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Low Density Residential for the subject block. CPC staff submitted a letter to the Planning and Development Department (P&DD) requesting its comments regarding the consistency of this proposal with the City's Master Plan. P&DD responded: "Such developments do not change the overall character of the area, and hence we find that the proposed rezoning does not change the Future General Land Use characteristics of the area and thus conforms to the policies of the City's Master "Plan."

3. *Whether the proposed amendment will protect the health, safety, and general welfare of the public:*

The proposed amendment could help

protect the health, safety, and general welfare of the public by allowing the 150-unit building to remain as affordable housing for seniors.

4. *Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development:*

Not applicable.

5. *Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management:*

It is not anticipated the proposed rezoning will have significant adverse impacts on the natural environment.

6. *Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract:*

It is not anticipated the proposed rezoning will have significant adverse impacts on other property that is in the vicinity. The site is expected to continue to be developed with the 8-story senior apartment building originally constructed in 1983. The CPC thinks the building being located on Dequindre, which is a busier road, and adjacent to commercial activity on East Outer Drive, helps makes the higher density 8-story building more compatible with the surrounding residential area.

7. *The suitability of the subject property for the existing zoning classification and proposed zoning classification: and*

The subject property is not suitable for the existing zoning classification, because multiple-family dwellings greater than eight-units are not allowed in R2.

8. *Whether the proposed rezoning will create an illegal "spot zone."*

The proposed rezoning will not create an illegal spot zone, because the proposed R3 zoning will be applied to the entire block and fits into the context with R2 zoning to the north and west and R1 zoning to the east.

**Recommendation**

The City Planning Commission recommends APPROVAL of the request of the Morton Manor Limited Dividend Housing Corp., LLC to amend Article XVII, District Map No. 18 of the 2019 Detroit City Code, Chapter 50, Zoning, by showing a R3 zoning classification where a R2 zoning classification currently exists on property at 20000 Dequindre Avenue. **Department of Public Works Administration Division**

January 10, 2020

Honorable City Council:

Re: Resolution to Support the Issuance of Outdoor Cafés on the Livernois Corridor, between Clarita and Eight Mile Road, from April 1, 2020 - November 30, 2020.

Construction of the Streetscape has been substantially completed along the Avenue of Fashion, as well the entire Livernois corridor between Clarita and Eight Mile Road. The Department of Public Works (DPW) now seeks to continue supporting the businesses along the corridor by streamlining the process for eating and drinking establishments to obtain permits for outdoor café seating areas, to help ensure that the corridor remains active and bustling.

Presently, each individual business owner must file an independent petition through the City Clerk's office. Subsequent to being routed through all impacted city agencies for review and approval, a resolution is then prepared by DPW/Planning for your Honorable Body's consideration. If Council approves the resolution, only then may the business obtain an Outdoor Café Permit with the Department of Public Works. On Livernois, this process will currently have to be repeated for every entity that desires to have a seasonal outdoor seating area.

To streamline the process, the departments of Public Works and Planning are jointly submitting the attached resolution, which if approved by City Council shall serve as legislative authorization for DPW to issue outdoor cafe permits during the 2020 seasonal period of April 1st through November 30th along this segment of Livernois Avenue.

This resolution acknowledges that restaurants/bars will still be required to request permits for individual outdoor cafés, and that these requests will still be subject to approvals by all applicable city agencies, including DPW, DPD, BSEED, Health, Housing & Revitalization, as well as the Michigan Liquor Commission, if alcohol is to be consumed in the seating area, and Health's Food & Safety Division if outdoor grilling of food is desired. This resolution, if approved by Council, will eliminate steps that will have to be repeated for multiple businesses along the corridor, helping to ensure that all bars and restaurants that desire to have outdoor cafés have approved permits in place in time for the upcoming season.

Respectfully submitted,

**RON BRUNDIDGE**

Director

Department of Public Works  
**ARTHUR JEMISON**

By Council Member Ayers:

Whereas, Outdoor dining cafés are designated areas on a public sidewalk where customers may consume food and/or beverages provided by an abutting food service establishment. Such establishments may either provide table service in the outdoor dining area or sell take-out items to be consumed in that area; and

Whereas, Seasonal outdoor dining cafés may operate only during the months of April through November; and

Whereas, Pursuant to Chapter 43, Streets, Sidewalks, and Other Public Places, Article 8, Encroachments and Obstructions, Section 43-8-23, Temporary Encroachments, of the 2019 Detroit City Code, states that "the City Council shall only approve an encroachment after receiving a report from the Department of Public Works and the Planning and Development Department"; and

Whereas, The Department of Public Works and the Planning and Development Department have attached a report to this resolution identifying the criteria which must be met in order for an outdoor "café" permit to be approved; and

Whereas, The permit application must also be reviewed by various City departments, including City Engineering, Traffic Engineering, Police, Health, Buildings, Safety Engineering, and Environmental, as well as the Historic Commission and Liquor Commission; and

Whereas, Once all of the requisite departments have approved the application, the permit application is submitted to City Council for its consideration; and

Whereas, This Honorable Body acknowledges the City's objective to support the Livernois business owners' desire to make the Livernois corridor from Clarita to 8 Mile Road, a vibrant and active space during the summer seasonal period by providing a streamlined process for applying for and receiving outdoor café permits; and Now Therefore Be It

Resolved, That the Detroit City Council approves a pilot program for this streamlined process and grants approval of all outdoor café permits submitted for the Livernois Corridor from Clarita to 8 Mile Road for the 2020 season that meet the criteria in the attached report and have received the necessary approvals from all requisite departments; and Be It Finally

Resolved, That this streamlined process in this pilot program and grant of approval shall only apply to the Livernois Corridor from Clarita to 8 Mile Road and shall expire on November 30, 2020, at the end of the 2020 outdoor dining café period.

**TESTIMONIAL RESOLUTION  
FOR  
MACEDONIA BAPTIST CHURCH  
REV. CHARLES D. TWYMAN, PASTOR  
100th Church Anniversary**

By COUNCIL MEMBER TATE, joined by  
COUNCIL MEMBERS McCALISTER,  
JR. AND PRESIDENT JONES:

WHEREAS, Macedonia Baptist Church was founded by God, built by Jesus Christ, established by the Holy Spirit and organized, in the village of Hamtramck, Michigan, on January 20, 1920. The Reverend Forest D. Mills was the first pastor, and a small house on Yemans Street was our first church home. Under the leadership of Pastor Mills a small, but adequate church was built at 5100 Evaline Street in 1923 to accommodate the growing congregation. This address was our place of worship for 51 years; and

WHEREAS, By the grace of God, the church thrived through the economic decline of 1929 and the early 1930s, and the membership grew. In 1937, Pastor Mills' health began to decline and prevented him from fully discharging his duties. The church then called his son-in-law, the Reverend Junius A. Watson to become the second pastor of Macedonia.

In 1941 Reverend F.D. Mills was called home from labor to reward; and

WHEREAS, Under the leadership of Pastor Watson, the membership continued to grow and the sanctuary was expanded in 1946. In 1948 and 1950, two parcels of land were purchased to build a new church home. Ground was broken in 1953 and the construction lasted 21 years. Pastor Watson was a great man of prayer and faith and never lost sight of his vision to build the Lord a house of worship. In September of 1974 (after 21 years), the church congregation marched two city blocks to our new church home at 5080 Belmont, Hamtramck, Michigan; and

WHEREAS, Pastor Watson became ill in early 1979, but faithfully held his pastoral position until God called him home from labor to reward on September 9, 1979. The church then elected its associate minister, and the grandson of Pastor Watson, the Reverend Charles D. Twymon to serve as the third pastor of the Macedonia Baptist Church on November 7, 1979. He was duly installed on Sunday, January 13, 1980; and

WHEREAS, Under the leadership of Pastor Twymon it became apparent, after making additions to our church building at 5080 Belmont, that we had outgrown our church home. Acting on Pastor Twymon's vision, we purchased the former Calvin Presbyterian Church in a cash transaction and moved to our present location at 14221 Southfield in Detroit, Michigan in April of 1998; and

WHEREAS, On April 20, 2003 (Easter Sunday), an 8:00 a.m. Sunday morning Worship Service was added to our regular 11:00 a.m. Worship Service to accommodate our continued growth. A new garage was constructed next to our gymnasium to house our two buses and security vehicle; and

WHEREAS, In September 2008, after two years of construction, a Social Atrium, a new pastor's study (with garage), Trustee Board room, Minister's lounge, five additional restrooms, Children's room, elevator and "Upper Room" were completed and dedicated to the Lord; and

WHEREAS, In May of 2018, we purchased the former St. James Lutheran Church at 14450 Ashton Street (one block north of our main campus). After renovations and improvements, this facility has become our North Campus and educational building. It also serves as home to our Girls and Boys Pioneer Club with one-hundred plus children that meet weekly; and

WHEREAS, The Grace of God has been upon us as we enlarged our physical footprint with construction in the city of Detroit. Our focus, however, remains to enlarge our spiritual footprint with the construction of Christian lives and to offer biblical structure for families in our church

and community that perhaps will reach out into the entire world. The primary mandate remains to fulfill the Great Commission of Christ (Matthew 28:19-20) by making disciples of our Lord and Savior, Jesus Christ, through the preaching of the gospel and the teaching of sound doctrine. NOW THEREFORE BE IT

RESOLVED, That Councilman James Tate and members of the Detroit City Council hereby congratulate and celebrate with Rev. Charles D. Twymon, Pastor and Macedonia Baptist Church on its 100th Church Anniversary. May God continue to bless and keep your ministry as you serve to further the gospel while continuing to shine as the beacon of truth and light.

**Far Eastside Overlay Area.**

**Sec. 50-11-491. Far Eastside Overlay Area created; description; applicability of provisions.**

(a) Certain areas of the City of Detroit are characterized by a high concentration of vacant land once occupied by dwellings on small lots. East Warren Avenue, Alter Road and the Grosse Pointe Park city limits, East Jefferson Avenue, and Conner Avenue generally bound one such broad area, which has been found to be ripe for infill housing development. To facilitate residential infill development within this broad area, a Far Eastside Overlay Area is created, the boundaries of which are specified in 50-11-492 of this Chapter of this Code. The provisions in this subdivision for the Far Eastside Overlay Area will allow for the reestablishment of dwellings similar in placement, character, and massing to the dwellings originally built on the lots of this broad area and will further allow for an even greater density of such dwellings, notwithstanding the intensity and dimensional standards that govern such construction elsewhere in the City, provided, that where no special provision is recited in this subdivision, the standard provisions of Article XIII of this chapter that apply City-wide shall govern development within the overlay area.

(b) Although this overlay area is created in the spirit of the alternative residential development options of Article XIII, Division 3, of this chapter; however, the provisions of this subdivision shall apply in lieu of Article XIII, Division 3, of this chapter.

(c) As the Planning and Development Department identifies contiguous neighborhoods within this broad area for concentrated redevelopment, the boundaries of the overlay area may be expanded only by amendment of this chapter.

**Sec. 50-11-492. Boundaries of the Far Eastside Overlay Area.**

(a) The Far Eastside Overlay Area is bounded by a line beginning on the south side of East Vernor Highway at the north/south alley first east of Philip Avenue, proceeding east to the north/south alley first east of Alter Road at the Grosse Pointe Park city limits, then proceeding south to the north side of East Jefferson Avenue, then proceeding west to the centerline of Newport Avenue, then proceeding north to the east/west alley first north of East Jefferson Avenue, the proceeding west to the north/south alley first west of Newport Avenue, then proceeding north to the centerline of Kercheval Avenue, then proceeding east to the centerline of Newport Avenue, then proceeding north to the east/west alley first north of Kercheval Avenue, then proceeding east to the north/south alley first east of Philip Avenue, then proceeding north to the point of beginning.

(b) The zoning district classifications for land within the Far Eastside Overlay Area are specified in Section 50-17-31 on Zoning District Map No. 32.

(c) Where the boundaries of the Far Eastside Overlay Area overlap with the boundaries of any Traditional Main Street Overlay Area, the standards established for both overlay areas shall apply. Where there is conflict between the standards of the two overlay areas, the provisions of the Traditional Main Street Overlay Area shall control.

**Sec. 50-11-493. Minimum lot area for single family dwellings, two family dwellings, and townhouses.**

**DIVISION 3. SPECIFIC  
USE STANDARDS**

**Subdivision A. Residential Uses**

**Sec. 50-12-159. Lofts; residential uses  
combined in structures with permitted  
commercial uses.**

In order to encourage the preservation and reuse of existing commercial and industrial structures, and to encourage live-work situations, loft conversions and mixed-use commercial-residential uses are permitted in many zoning districts, even in certain districts where new residential construction is prohibited, subject to the following.

(1) Loft conversions are prohibited in the R1 and R2 Districts except where developed under the "School building adaptive reuses" provision as defined in Section 50-16-381 of this Code.

(2) Lofts in the B6, M1, M2, M3, M4, and SD4 Districts are subject to review by the Loft Review Committee as provided for in Article II, Division 6, Subdivision C, of this chapter.

(3) Similarly, single-family dwellings, two-family dwellings, and multiple-family dwellings are permitted in commercial or industrial structures combined with those permitted Retail, Service, and Commercial uses specified in Division 1, Subdivision D of this Article, except for "adult uses/sexually oriented businesses" as specified in Section 50-12-108 of this Code.

For example, although a single-family detached dwelling is not permitted by right in the R6 District, a doctor's office that has an apartment is permitted by right as a "Residential use combined in structures with permitted commercial uses." In addition, in industrial zoning districts where new residential construction is prohibited, an existing building with a hardware store on the ground floor, for example, and residential units on the upper floor could be reoccupied on a Conditional Use basis and without the need for approval by the Board of Zoning Appeals.

(4) In B2 and B3 Districts, lofts are permissible on a by-right basis only where located in a Traditional Main Street Overlay area and combined in a structure with permitted commercial or industrial uses, and otherwise are permissible conditionally.

(5) In B4 Districts, lofts are permissible on a by-right basis only where located in the Central Business District or in a Traditional Main Street Overlay Area, and otherwise are permissible conditionally.

(6) In B2, B3, and B4 Districts, residential uses combined in structures with permitted commercial uses are permissible on a by-right basis only where located in a Traditional Main Street Overlay Area, and otherwise are permissible conditionally.

(7) In M1, M2, M3, and M4 Districts, new construction of a "residential use

combined with permitted commercial uses" is limited to not more than two residential units, provided that However, any time three or more residential units are combined with permitted commercial uses in an existing commercial or industrial structure in the B6, M1, M2, M3, M4, or SD4 District, the use shall be subject to the review of the Loft Review Committee as provided for in Article II, Division 6, Subdivision C, of this Chapter.

(8) In the SD4 District, specially designated merchant's (SDM) establishments and specially designated distributor's (SDD) establishments are permitted when incidental to, accessory to, and on the same zoning lot as a loft development that has not fewer than 50 dwelling units.

(9) In designated Traditional Main Street Overlay Areas, as provided in Section 50-11-382 of this Code, residential uses, ~~including multiple family dwellings~~ combined in structures with commercial or industrial uses that are permitted ~~by right~~ in the respective zoning district shall be permitted by right.

**Sec. 50-12-162. Multi-family dwellings.**

Multi-family dwellings shall be subject to the following requirements:

(1) In the R2 District, such uses shall have a maximum of eight dwelling units, except where developed under the "school building adaptive reuse" provision as defined in Section 50-16-381 of this Code;

(2) In the R3 District, multiple-family dwellings, where fewer than 50 percent of the units are efficiency units, are permitted by right; multiple-family dwellings, where 50 percent or more of the units are efficiency units, are a Conditional Use;

(3) In the B5 District, ground-floor commercial uses shall be required along at least fifty percent of the building façade fronting Woodward Avenue, and may be required in other portions of the B5 District;

(4) The required recreational space ratios for multi-family dwellings are listed as follows:

- a. R3 District: 0.12;
- b. R4 District: 0.10;
- c. R5 District: 0.085;
- d. R6 District: 0.07;
- e. SD1 District: 0.07;
- f. SD2 District: 0.07.

(See Section 50-13-239 of this Code for information on recreational space requirements.)

(6) In the B5 and PCA districts, multiple-family dwellings that have ground floor commercial space or other space oriented to pedestrian traffic are permitted by right. Multiple-family dwellings not having such ground floor space are a conditional use;

(7) Multiple-family dwelling developments that exceed 12 units are subject to

site plan review as provided for in Section 50-3-113 of this Code;

(8) In the SD4 District, specially designated merchant's (SDM) establishments and specially designated distributor's (SDD) establishments are permitted when incidental to, accessory to, and on the same zoning lot as a multiple-family dwelling, that have not fewer than 50 dwelling units;

(9) Multiple-family dwellings for the elderly as defined in Sec. 50-16-304 of this Code, are subject to a lesser off-street parking requirement than other multiple-family dwellings. Where a multiple-family dwelling for the elderly converts to a general population multiple-family dwelling, the full off-street parking requirement must be satisfied.

At least one tree shall be provided for each 30 linear feet of landscape buffer. At least one shrub shall be provided per 20 square feet of landscaped area. Vegetation shall comply with the standards in Division 2 of this article.

In instances where the applicant can prove that the five-foot landscape buffer strip would prevent the applicant from being able to provide the minimum number of required parking spaces, the 30- to 36 inch wall from subsection (a)(2)d.1 of this section may be erected without the additional landscaping, subject to review and approval by the Planning and Development Department.

e. To protect the screen wall, wheel stops and curbs shall be placed in compliance with Section 50-14-233 of this Code;

The applicant shall determine whether the ground floor commercial space or other space oriented to pedestrian traffic, faces one or more than one street;

b. The parking structure façade shall be designed so that no ramp structure or sloping deck is expressed on building façades facing public streets; and

c. Parking structures are subject to the design standards for materials, as provided in Section 50-14-440 of this Code, and color and finish, as provided in Section 50-14-441 of this Code, and signage, as provided in Section 50-14-450 of this Code.

Now Therefore Be It

Resolved, That it is hereby found and determined that the granting of an Obsolete Property Rehabilitation Exemption Certificate, considered together with the taxable value of Obsolete Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates if previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax with the City of Detroit; and be it further

All other involved City Departments, including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

**RESOLUTION APPROVING THE ALLOCATION OF NEIGHBORHOOD OPPORTUNITY FUND/COMMUNITY DEVELOPMENT BLOCK GRANT BUDGET FOR FISCAL YEAR 2020-2021**

By Council Member Tate:

WHEREAS, Each year the Administration and City Council collectively evaluate proposals for the allocation of Community Development Block Grant (CDBG) funds from the U.S. Department of Housing and Urban Development (HUD) through the City of Detroit Neighborhood Opportunity Fund (NOF); and

WHEREAS, Under the federal guidelines, CDBG funds may be used to support programs operated by organizations that service low- to moderate-income individuals and other vulnerable populations within our community. Given the serious challenges in our community, the City of Detroit uses CDBG funding to provide the necessary public service programs to address the vast needs of the vulnerable in our community; and

WHEREAS, While the critical need for these types of services within the City has not diminished, the resources available from HUD to address those needs is often times being reduced; and

WHEREAS, The need for increased operational efficiencies within CDBG funded organizations could be achieved through greater interagency collaboration such as the merger of groups with compatible missions or consolidation of administrative fiduciary functions to increase service capacity. These expressions of encouragement are offered in recognition of the funding trends and the need for even stronger service delivery groups in these times; and

WHEREAS, A review team which included representatives of the Housing and Revitalization Department (HRD), Legislative Policy Division (LPD), City Planning Commission (CPC), the Office of Contracts and Procurement (OCP), and the Office of Grants Management (OGM) reviewed the various proposals received for the program and HRD prepared recommendations to the Mayor; and

WHEREAS, The Mayor subsequently prepared recommendations which were submitted to the City Planning Commission (CPC), which concurred with all of the Mayor's funding recommendations; and

WHEREAS, City Council, having subsequently received the recommendations of the Mayor and the CPC, has reviewed those recommendations, held an appeals

hearing regarding the organizations that were not initially recommended to receive 2020-2021 NOF/CDBG funds, as well as a public hearing on the overall NOF/CDBG program; and

WHEREAS, Given the historic and very public role in the vetting of CDBG applicants as well as its unique knowledge of the residents of the City as their locally, elected representatives, City Council's involvement in the CDBG process is not only mandated by law but critical to the appropriate distribution of these funds. NOW THEREFORE BE IT

Re: Further extension of review period for proposed Zoning Ordinance Map Amendment Pope Francis Center, 3769 E. Canfield St.

As provided in Sec. 50-3-16 of the 2019 Detroit City Code, where a proposed map amendment is not acted upon by the City Council within one hundred twenty (120) days of the date of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council.

The City Planning Commission's report

and recommendation to approve the Zoning Ordinance map amendment relative to the rezoning of 3769 E. Canfield was taken up by your Honorable Body on July 16, 2019. The original 120-day review period was scheduled to expire on November 13, 2019. Your Honorable Body passed a resolution to extend the review period an additional 120 days until March 10, 2020.

Discussions are still underway regarding the proposed map amendment and the item is scheduled to come back before the Planning and Economic Development Standing Committee on March 5, 2020. Should the item not be ready for action at that time, another extension of the review period will be required.

Attached, please find a resolution that would extend the review period for this ordinance an additional 120 days until July 8, 2020.

Whereas, The Section 50-3-16 of the Zoning Ordinance of the City of Detroit establishes that upon the expiration of a 120 day period following the date that the City Council formally receives the City Planning Commission's report and recommendation on any petition to amend the Zoning Ordinance, such petitions will be deemed denied unless the time period is extended by the City Council; and

Whereas, The Pope Francis Center has petitioned the City Council for a rezoning of certain property in the City of Detroit from R3 (Low Density Residential) and B6 (General Services) to PD (Planned Development) zoning district classification; and

Whereas, Various factors have again served to protract deliberations on this matter and delay final action; and

Whereas, This City Council has expressed the desire to extend the period of consideration for this petition;

Now, Therefore, Be It Resolved, That pursuant to Section 50-3-17 of the City of Detroit Zoning Ordinance, the Detroit City Council hereby extends the time period for consideration of the request of the Pope Francis Center to rezone certain property in the City of Detroit, for an additional 120 days until July 8, 2020.

**RESOLUTION IN SUPPORT OF PAID MATERNITY/PATERNITY LEAVE FOR CITY OF DETROIT EMPLOYEES**

By Council Member Benson:

WHEREAS, Too often, mothers are forced to return to work without adequate time to recuperate from giving birth or for bonding time with their new infant because of the lack of financial resources. According to the National Center for Health Statistics, 16% of new mothers took only one to four weeks off work after giving birth, and at least 33% took no formal time off at all, returning to work immediately; and

WHEREAS, This time off gives new parents time with their child which improves critical health metrics for positive health outcomes, such as birth weight and mortality. Making sure families have enough leave time to garner these positive outcomes are especially concerning for mothers who earn low wages and often don't have the financial ability to take an unpaid leave; and

WHEREAS, Although the focus has historically been directed toward mothers in this discussion, the importance of fathers bonding with their newest family and providing nurturing roles for both mother and baby during the weeks immediately after birth cannot be over emphasized; and

WHEREAS, On December 20, 2019, the Federal government, through the National Defense Authorization Act ("the Act"), passed a new a monumental policy providing more than 2.1 million federal government employees paid parental leave for the first time. The Act provides up to 12 weeks of paid parental leave in connection with the birth, adoption, or foster care placement of a child for employees covered by Family and Medical Leave Act (FMLA) provisions applicable to Federal civilian employees; and

WHEREAS, Up until this point, the U.S. was the sole industrialized nation in

the world that refused to adopt a policy of paid parental leave for its federal employees; and

WHEREAS, Although, U.S. currently has the Family Medical Leave Act (FMLA), which requires employers with 50 and more employees to give parents 12 weeks of leave to care for a new child, no compensation is guaranteed for time taken; and

WHEREAS, Even though the new Federal Act is a huge step in the right direction, it still leaves about 80% of U.S. workers with no access to paid family leave. According to U.S. Bureau of Labor Statistics, only 9% of wage earners in the bottom 25% have access to paid family leave; that compares to 30% of wage earners in the top 25%; and

WHEREAS, This means that millions of retail workers, public school teachers, bus drivers, construction workers, and restaurant employees do not get paychecks when they take time off to care for a new child; and

WHEREAS, As many other cities in the nation work to implement their own maternity leave policies, the City of Detroit should join the ranks and offer this benefit to our estimated 9,000 employees; and

WHEREAS, Paid leave for the birth or adoption of new baby will be beneficial in improving the health outcomes for children in Detroit, where infant mortality is comparable to developing countries. Additionally, this policy will make Detroit more competitive as a city and will help us attract regional talent. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council proposes and strongly urges the City of Detroit to implement a parental leave policy that will pay employees 100% of their salaries for six weeks during a maternity or paternity leave for Detroit employees bringing Detroit in line with thousands of forward-thinking, competitive cities and private sector companies across the country; Be It Finally

RESOLVED, That a copy of this resolution be forwarded to the Mayor's Office and the Human Resources, Labor Relations.

**RESOLUTION STRONGLY URGING GOVERNOR WHITMER TO BAN RESIDENTIAL WATER SHUT OFFS AGAINST LOW-INCOME RESIDENTS TO PREVENT A PUBLIC HEALTH EMERGENCY, AND CALLING ON THE GOVERNMENT APPOINTING OFFICIALS OF THE GREAT LAKES WATER AUTHORITY TO ADOPT AND IMPLEMENT POLICIES PREVENTING WATER SHUT OFFS AGAINST LOW INCOME RESIDENTS, RESPECT THE HUMAN RIGHT TO WATER AND SANITATION AND PRESERVE PUBLIC HEALTH BY COUNCIL PRESIDENT PRO TEM SHEFFIELD:**

WHEREAS, The issue of mass water shut offs against low-income Detroit residents has been publicly debated, in the face of repeated calls for a water affordability program in the form of an income-based rate structure, for over 15 years since 2004; and

WHEREAS, The Detroit City Council's resolution, passed unanimously in May 2015, called for such a water affordability program to end unjust, unhealthy and ill-advised violations of the human rights of people who are unable to pay the full rates for safe drinking water because of their economic condition, a demand City Council has been making since 2005. However, neither the Detroit Water and Sewerage Department (DWSD) nor the Great Lakes Water Authority (GLWA) has taken adequate, affirmative measures to end such residential water shut offs that are the result of financial hardship; and

WHEREAS, Terminating water service to thousands of Detroit residents every year poses an imminent danger to public health, requiring immediate action to end the shut offs; and

WHEREAS, It is unscientific, reckless and grossly irresponsible to wait until after evidence of widespread adverse health effects, epidemics of diseases, serious long term health impacts or even death emerges, before taking action to restore access to water as a public health necessity. Rather, the time to ensure resilience by establishing ready and affordable access to water for sanitation is before there is demonstrable imminent danger of a pandemic; waiting until causation of mass illness by mass water shut offs can be conclusively proven is a recipe for public endangerment; and

WHEREAS, Potential and actual serious health effects of these water shut offs may include epidemics of water-borne diseases, infant malnutrition because of inability to prepare baby formula, inability of diabetics to prepare meals essential to maintaining health, chronic urinary tract infections, upper respiratory infections, eczema and other skin conditions and

other diseases, including but not limited to flus and viruses such as COVID 19 that can best be avoided by frequent hand washing. The connection between the ready availability of clean water and health is well established, and the burden of proof should be on public officials to demonstrate that their actions, such as mass water shut offs, are not increasing the risk of damage to public health, rather than requiring advocates of water affordability to prove that shut offs have already caused an unacceptable level of harm; and

WHEREAS, Over the past fifteen years while water officials in the Detroit area have continually failed to make meaningful progress toward creating a viable water affordability model for Detroit and other customers in the GLWA service area, the cities of Philadelphia and Baltimore have passed water affordability ordinances mandating income-based rate structures for low-income residential customers, and Chicago is now rapidly moving in that direction. The State of Michigan, the Detroit metropolitan region and the City of Detroit must take comparable steps to protect public health and the human rights of residential water customers whose income makes it impossible for them to consistently pay the full rates for water and sewerage services, by prohibiting the mass shut offs of water services to such residents who fail to pay the full water rates because of their inability to pay; and

WHEREAS, United Nations human rights representatives have declared the shutting off of water to people who are unable to pay the full rates for these services — as opposed to individuals with the ability to pay who simply fail or refuse to do so — to be a violation of such individuals' and families' human rights, as specifically established by United Nations Resolution No. 64/292 of July 28, 2010; and

WHEREAS, The Great Lakes Water Authority (GLWA) was created in the course of the City of Detroit's bankruptcy proceedings in 2014, undergoing a lengthy transition period involving extensive shared services agreements with the Detroit Water and Sewerage Department (DWSD), and commencing independent operations in 2016; and

WHEREAS, The board members of GLWA are appointed by the Mayor of the City of Detroit (2 members), the Governor of the State of Michigan, and the County Executives of Macomb, Oakland and Wayne Counties (1 member each); and

WHEREAS, GLWA's motto for its entire Southeastern Michigan service region is "We Are One Water", despite GLWA's utter failure to take any significant or adequate action to protect the

human rights or health of residents of Detroit (or other member communities) who cannot pay the full rates because of poverty; and

WHEREAS, Mass water shut offs in Detroit, involving 5000 shut off notices per week (approximately 30,000 total, disproportionately affecting disabled persons, elders on fixed incomes, single parents with children, and people of color), were initiated in March 2014 to trigger the process of organizing GLWA, in order to limit the systems' outstanding bad debt in preparation for either regionalization or privatization, making the infrastructure an attractive investment option for bondholders; and

WHEREAS, The Water Residential Assistance Program (WRAP) established by DWSD and GLWA, and funded pursuant to the Memorandum of Understanding that created GLWA, is inadequate to stop the human rights violations caused by shutting off water service to low income families, and therefore threatens potential public health crises in the very near future because of the lack of clean, affordable water available for hand washing and other basic needs of sanitation and hygiene; and

WHEREAS, The reactive (as opposed to proactive) assistance model adopted by the WRAP has proven inadequate to stop water shut offs, the violation of human rights and the resulting threat to public health. A proactive affordability model that ties water rates to income, limits and subsidizes the rates for people living in poverty is absolutely necessary to protect human rights and public health; and

WHEREAS, Detroit City Council implores Mayor Mike Duggan, Governor Gretchen Whitmer, and County Executives David Coulter, Warren Evans and Mark Hackel to take immediate action to direct their representatives on the GLWA board to initiate action toward the adoption and implementation of a true water affordability plan tying water rates to income of residents living in poverty. NOW, THEREFORE, BE IT

RESOLVED, That the Detroit City Council urgently calls for a moratorium on residential water shut offs, and for the public officials responsible for appointing the board of the Great Lakes Water Authority (GLWA) to implement an income-based water affordability rate structure for low income families, in order to avoid further human rights violations and the inevitability of severe adverse consequences on public health; and BE IT FURTHER

RESOLVED, That copies of this resolution shall be provided to Mayor Mike Duggan, Governor Gretchen Whitmer, County Executives David Coulter, Warren Evans and Mark Hackel, the

boards of DWSD and GLWA, media representatives and affordable water advocates.

**RESOLUTION IN SUPPORT OF THE PEOPLES SLATE OVERTAXED HOMEOWNERS RESOLUTION**

By COUNCIL PRESIDENT PRO TEM MARY SHEFFIELD:

WHEREAS, The Peoples Slate recently adopted their Overtaxed Homeowners Resolution, which states in its entirety:

WHEREAS, It has been documented that the City of Detroit unconstitutionally assessed taxes against homeowners in violation of the Michigan Constitution; and

WHEREAS, The over-assessment amounted to more than \$600 million in over taxation; and

WHEREAS, The level of over taxation led to thousands of people losing their homes through the tax foreclosure process employed by both the City of Detroit and the County of Wayne; and

WHEREAS, The Peoples Slate has requested that the City Council approve a resolution to make homeowners whole and issue a property tax credit in the amount each homeowner was over taxed for all properties owned during the years between 2010 and 2016, or sell the over taxed homeowner a land bank property for \$1; and

NOW, THEREFORE BE IT RESOLVED THAT THE CITY COUNCIL APPROVES THE FOLLOWING RESOLUTION:

1A. Be it resolved that the City Assessor's Office undertake a comprehensive analysis of all assessments performed between 2010 through 2016.

1B. Be it further resolved that the findings of this assessment analysis be provided to homeowners for review.

2. Be it resolved that the Auditor General perform an independent analysis of this Assessor's Office findings to validate their analysis.

3. Be it resolved that the City will contact each owner that was over assessed via all forms of communication used to notify homeowners of a tax bill, notifying the owner(s) of how much they were over-taxed within 30 days of identifying that the person(s) were overtaxed.

4A. Be it resolved that the City will cease participating in the Wayne County Treasurer Tax Anticipation Note program, until all the arrearage on over taxed homes during the period between 2010 and 2016 has been satisfied.

4B. Be it further resolved that the City propose a moratorium on 2020 tax foreclosure for all homes owned by private owner residents during 2010-2016.

5. Be it further resolved that the City will credit all homeowners over taxed with an amount equal to the amount of the over assessment and over taxation. This credit is applicable to the homeowner overtaxed, or if the owner has acquired a new home in the City of Detroit the credit can be applied to the new property owned by the previously aggrieved taxpayer. The tax credit will be issued to the homeowner within 60 days from the time the over taxed assessment analysis has been completed by the Auditor General. The tax credit will remain in effect until the full amount of the over assessment and tax is exhausted. Once the tax credit is exhausted, all applicable taxes will be assessed, provided that the Assessor's Office has confirmed that the tax roll has been developed in accordance with Michigan law governing assessments.

6. Be it resolved that the City will recover all homes that were forfeited due to illegal assessments by way of condemnation actions if the property has been acquired by a tax investor through the Wayne County Tax Foreclosure process.

7. Be it resolved that the City will impose a moratorium on issuing tax abatements in the Downtown Development Area (DDA) and Tax Increment Finance (TIF) districts to parties until the homeowners over taxed during the period between 2010 and 2016 are issued a tax credit in the full amount the owners were over taxed.

8. Be it resolved that the City undertake an analysis of all tax captures currently in place so that City residents understand the full amount of tax give-aways in place and the fiscal impact on the City's budget.

9A. Be it resolved that all homeowners, once notified of their over taxed amount by the City Assessor, will have 30 days to opt out of receiving a tax credit as reimbursement for the over taxed amount of their properties.

9B. **TESTIMONIAL RESOLUTION IN MEMORIAM FOR**

**SERGEANT JOHN IVOR MITCHELL**  
**June 14, 1945 - March 1, 2020**

By Council Member McCalister, Jr., joined by Council Member Tate:

WHEREAS, Mr. John Ivor Mitchell was born on June 14, 1945 in Rendville, Ohio to Gilbert and Gertrude Mitchell. He was affectionately known to his family and friends as Johnny, Mitch, Big John, and Uncle Buck. John spent his formative years in Rendville, where his grandmother, Sophia Mitchell served as the first black woman appointed to mayor in the United States. He could be found in the hollows and hills of Rendville playing with

his brothers and sisters. John could also be found at church, where he accepted the Lord as his savior at an early age. John was a graduate of Corning High School and continued his education at Central State University in Wilberforce, Ohio; and

WHEREAS, In 1965, John Ivor Mitchell enlisted in the U.S. Army and served his country for two years during the Vietnam War, where he was honorably discharged. After returning from the war and staying with his brother, Don in Gary, Indiana he moved to Detroit, Michigan. John worked at the Chrysler McGraw Glass plant for two years before deciding to pursue a life of public service as a Detroit Police Officer. He joined the force on March 2, 1970, where he advanced to the rank of Sergeant. During his time as a police officer, he enjoyed the time he was able to spend with some of his DPD brothers as a member of the Tug of War team. John retired from the police department on June 1, 1990 after 20 years of service. After retirement, he worked as a security officer for 10 years at Providence Hospital in Southfield, Michigan; and

WHEREAS, During Sergeant John Ivor Mitchell's time as a police officer, he met Bevelyn Terry and married her on August 16, 1975. Bevelyn was truly the love of his life and they did everything together, including trips to Belle Isle, playing cards, and taking road trips. To their union were born two daughters, Jessica and Sharon. John loved his daughters and was the epitome of a "girl dad"; and

WHEREAS, At any given time, you could find John doing some of his favorite things. He enjoyed barbequing (his homemade sauce was legendary), bowling, watching his westerns. World War II movies, and all things related to technology. He also enjoyed participating in activities with the International Free and Accepted Modern Masons and Order of the Eastern Star of which he was a member for 50 years and ascended to the level of 33rd degree. He loved music and Gladys Knight and Aretha Franklin were two of his favorite artists. He also enjoyed the holidays, with Christmas being his favorite. John loved sports and Tiger Woods and Serena Williams were some of the people he enjoyed. The Detroit Lions always brought him a sense of misery. :) In addition to these things, John was also a good neighbor. He served as the editor for the Oakman Boulevard Community Association newsletter for over 20 years and was a resident of the Strivers' Row block on Oakman Boulevard for over 42 years; and

WHEREAS, On March 1, 2020, John decided that he was ready to release all of the pain caused by his illnesses and transitioned from this side to the other side. Even during his illnesses, he never lost

his positive outlook on life, quick wit, or caring nature. Although his desire to regain the use of his legs on this side was never realized, he is now able to run and jump in the presence of God; and

WHEREAS, John was preceded in death by his parents (Gilbert and Gertrude), siblings, Gilbert D. Mitchell, Jr. (Shirley) and Brenda Palmer. He leaves to cherish his memory: his loving and faithful wife, Bevelyn, daughters Jessica and Sharon, sisters, Janis Hull and Patricia Henderson, brother Richard (Christiane) Mitchell; and a host of nephews, nieces, cousins and friends; NOW, THEREFORE BE IT

Re: A Felon's Crusade for Equality, Honesty & Truth vs. DPD Board of Commissioners, et al. Wayne County Circuit Court Case No: 19-004810-CZ. File No: L19-00217 EBG.

Your Honorable Body previously approved the settlement of this lawsuit in a resolution adopted on February 18, 2020 in the amount of Eleven Thousand Dollars and 00/Cents (\$11,000.00). However, the resolution approving the settlement erroneously provided for the payment to be made through a check payable to both Plaintiff and its counsel, when it was meant to instead provide for the settlement check to be made payable to Plaintiff only.

We, therefore, request that the City Council's February 18, 2020 resolution authorizing the settlement be rescinded, that City Council adopt a corrected resolution authorizing the settlement of this matter in the amount of Eleven Thousand Dollars and 00/Cents (\$11,000.00), and that your Honorable Body direct the Finance Director to issue a draft in that amount payable to A Felon's Crusade for Equality, Honesty & Truth, to be delivered upon receipt of a properly executed Release and Stipulation and Order of Dismissal in Lawsuit No. 19-004810-CZ, approved by the Law Department.

Paterson, Esq. is hereby RESCINDED; and be it further

Resolved, That settlement of the above matter be and is hereby authorized under the following terms:

1) The City shall pay Plaintiff the sum of \$11,000.00;

2) The Detroit Board of Police Commissioners ("the Board") shall provide Plaintiff a document, signed by its Chair, Lisa Carter, as authorized by a majority vote of the Board, which states that:

(b) if committees or subcommittees are used in the future, their meetings will be held publicly and consistent with the Michigan Open Meetings Act;

(c) Leadership Briefings have not and will not involve more than three members of the Board (Chair, Vice-Chair and immediate past Chair);

**City Planning Commission**

February 28, 2020

Honorable City Council:

Re: Special district review of the request of the Buildings, for proposed alterations to the former site of Ford Auditorium. (RECOMMENDING CONDITIONAL APPROVAL)

**NATURE OF REQUEST**

The City Planning Commission has received application and your Honorable Body has been petitioned for Special District Review and approval of proposed alteration to the site of the demolished Ford Auditorium on East Jefferson Ave. Imagination Detroit, on behalf of Ford Motor Company, is requesting authorization to make improvements to enable the site to be used for the staging events and exhibitions, essentially expanding activities at Hart Plaza. Currently, the site is used for surface parking and event related storage without benefit of improvement since the former venue was demolished. The site also sits above the two level Ford Underground Garage.

These proposed improvements are being pursued by the petitioner in lieu of a user fee. They will not only benefit Ford Motor Company's planned exhibition during the North American International Auto Show, but any other users of the site following completion of construction. These improvements will provide a better appearance and greater utilization of the site until greater renovation and redevelopment occur here and at Hart Plaza.

The property is zoned PC (Public Center) and as such your approval is required after receiving report and recommendation from the Planning and Development Department and the City Planning Commission.

**PROPOSAL REVIEW**

The upper level of the site meets the grade of E. Jefferson Ave. and extends southward about 300 feet to an irregular edge line. This portion of the site contains the vestiges of the approach and drop-off for the old venue as well as a landscaped area along Bates Street where a few mature trees also remain. These existing features are to be demolished and replaced with a rectangular asphalt paved pad that can support parking and events. The pad will also include drainage and will be bordered by a concrete walking path and landscaped areas. Vehicular access will be retained

along E. Jefferson. These improvements are depicted in attached site plan.

A secondary sidewalk currently runs parallel to and about 58 feet south of the primary sidewalk along E. Jefferson Ave. connecting to Hart Plaza. The demolition and repaving will eliminate the distinguishing characteristics of the side walk, but pedestrian movement along that path is to be retained. The retaining wall at the western edge of this area will remain, defining the shared border with Hart Plaza.

The remainder of the site drops about 20 feet below the grade of the upper level and extends southward another 300 feet or so to Atwater Street. The remaining vestiges of the auditorium will be demolished and the site regraded adding an 18 bed of compacted crushed concrete. Drainage will also be added to this portion of the site, truly making it serviceable for events. Repairs and improvements will also be made to the maintenance and emergency access road that runs along the western edge of the site abutting Hart Plaza.

**CONCLUSION AND PRELIMINARY RECOMMENDATION**

The Planning and Development Department and City Planning Commission staff are finalizing our review and discussions with the petitioner. The proposed alterations will provide an improved finished grade to support events on site and at Hart Plaza while also providing better accommodation for parking when events are not being staged. This improved condition will also increase the value and utility of the site until such time that more significant renovation of the subject property and Hart Plaza can be realized.

As noted above, the pavement comprising the secondary sidewalk which runs south of and parallel to E. Jefferson

will be lost to the demolition and the area is to be repaved with asphalt. Since pedestrian movement is intended to continue along that path, it might benefit from some pavement marking to communicate that intention to motorized and non-motorized users.

The plans as submitted don't convey any detail as to how the landscaped areas will be treated. Given that a number of mature trees are to be removed from the site, PDD and CPC suggest that some tree planting should be included in the landscaped area along Bates Street and possibly East Jefferson where the subsurface structure will permit.

Consistent with the above review and findings CPC staff recommends approval of the requested alterations to the former site of the Ford Auditorium with the following conditions:

1. That in order to provide additional safety and convenience, pavement markings be added to the asphalt paving of the upper level to denote the path of the east/west secondary sidewalk south of E. Jefferson Ave. where it traverses the site;
2. That if the underlying structure will allow trees and shrubs to be placed in the area denoted for landscaping on the site plan, landscape of a type, species and spacing interval to be determined in conjunction with GSD, PDD and CPC, and
3. That final site plans, elevations, landscaping, lighting and signage plans be submitted to CPC staff prior to application being made for applicable permits, for review and approval for consistency with this approval

**Housing and Revitalization Department**

February 24, 2020

Honorable City Council:

Re: Approval to Appropriate & Expend Revenue from Developer Loan Payments HOME Investment Partnership Program.

The Housing and Revitalization Department (“HRD”) coordinates funds received by the City of Detroit (“City”) from the United States Department of Housing and Urban Development (“HUD”) under the HOME Investment Partnership Program (“HOME Program”)

Under the HOME Program, the City receives formula grants from HUD to fund a wide range of activities including building, buying, and/or rehabilitating affordable housing for rent or homeownership or providing direct rental assistance to low-income people (“HOME Funds”). The City has used the HOME Funds to provide loans to developers in need of financial assistance to complete certain qualified affordable housing development projects in the City (“City HOME Loans”). Developer loan repayments on the City HOME Loans are considered program income by HUD and are subject to certain HOME Program regulations with respect to the handling and use of such funds. The City primarily uses such program income to issue new loans to developers for other affordable housing development projects as approved by Detroit City Council.

The revenue received by the City from developer loan repayments and settlement payments on the City HOME Loans is not typically projected in HRD’s annual City Budget given the inconsistent and unpredictable loan payment history from developers. To date, the City has received approximately \$3,000,000, more or less, in revenue from developer loan repayments on City HOME Loans that has yet to be appropriated.

Therefore, HRD is hereby requesting that your Honorable Body adopt the attached resolution granting approval to HRD to appropriate and expend any and all payments that have been and/or will be received by the City under any City HOME Loans, with expenditures from funds received on the City HOME Loans limited to new or amended loan allocations to developers that receive separate approval from Detroit City Council. HRD will provide the O-CFO with a report each year that includes all payments and repayments received, as well as the specific uses for which the funds were used. This will allow such funds to be appropriated and expended, thus providing for additional funding to be used for affordable housing development projects and initiatives as approved by this Honorable Body.

## Housing and Revitalization Department

February 24, 2020

Honorable City Council:

Re: Approval to Appropriate & Expend Revenue from Developer Loan Payments HUD Section 108 Loan Guarantee Assistance Program.

The Housing and Revitalization Department ("HRD") coordinates funds received by the City of Detroit ("City") from the United States Department of Housing and Urban Development ("HUD") under the HUD Section 108 Loan Guarantee Assistance Program ("Section 108 Program").

Under the Section 108 Program, the City has taken out certain loans from HUD to support low-cost, flexible financing for economic development, housing rehabilitation, and other physical infrastructure projects ("HUD 108 Loans"). The City has used the proceeds from the HUD 108 Loans to provide loans to developers in need of financial assistance to complete certain qualified development projects in the City ("City 108 Loans"). Developer loan repayments on the City 108 Loans are considered program income by HUD and are subject to certain Section 108 Program regulations with respect to the handling and use of such funds. The City primarily uses such program income to pay principal and interest owed to HUD on the HUD 108 Loans. Where developers have defaulted in making City 108 Loan repayments to the City, the City has made timely HUD 108 Loan payments to HUD from the annual allocation of Community Development Block Grant ("CDBG") funds received by the City.

The revenue/program income received by the City from developer loan repayments and settlement payments on the City 108 Loans is not typically projected in HRD's annual City Budget given the inconsistent and unpredictable loan payment history from developers. To date, the City has received approximately \$1,700,000, more or less, in revenue/program income from developer loan repayments and settlements on City 108 Loans that has yet to be appropriated.

Therefore, HRD is hereby requesting that your Honorable Body adopt the attached resolution granting approval to HRD to appropriate and expend any and all payments that have been and/or will be received by the City under any City 108 Loans, with expenditures from funds received on the City 108 Loans limited to repayment of the HUD 108 Loans. HRD will provide the O-CFO with a report each year that includes all payments and repayments received, as well as the specific uses for which the funds were used. This will allow such loan payments to be appropriated and expended, thus freeing up budget authority granted for CDBG expenditures to be used for new develop-

ment projects and initiatives as approved by this Honorable Body.

Re: Annual HOME, CDBG, NSP Awards.

New Award — Milwaukee Junction.

The City of Detroit ("City"), through the Housing and Revitalization Department ("HRD"), makes annual funding available for "ready-to-proceed projects" from HOME, CDBG and NSP federal funds allocated to the City through the U.S. Department of Housing and Urban Development ("HUD"). Honorable City Council:

Re: Petition Number 605 — DPW, City Engineering Division, request to dedicate a public street: Atwater Street from Civic Center Drive to Renaissance Drive.

Petition No. 605 — The Department of Public Works — City Engineering Division request to dedicate land for Atwater Street, variable width, from Civic Center Drive, variable width, to Renaissance Drive, 60 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The purpose of this request is to formally dedicate the previously constructed street. The street was rerouted and constructed in accordance with plans on file in the City Engineers office dated August 11, 1975. Atwater Street was rerouted and partially constructed through a tunnel to allow vehicular traffic to travel from the Renaissance Center to TCF Convention Center (formerly Cobo Center) while allowing Hart Plaza to be an open pedestrian plaza.

All other city departments and utilities have reported no objections to the proposed right- of-way dedication.

I am recommending adoption of the attached resolution.

Honorable City Council:  
 Re: Petition Number 609 — DPW, City Engineering Division, request to dedicate a public street: Rosa Parks Boulevard from West Grand Boulevard to Atkinson Avenue.

Petition No. 609 — The Department of Public Works — City Engineering Division request to dedicate land for the widening of Rosa Parks Boulevard from 66 feet wide to 120 feet wide, from West Grand Boulevard, 150 feet wide, to Atkinson Avenue, 66 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The purpose of this request is to formally dedicate the previously constructed street. The street was realigned and constructed in accordance with plans on file in the City Engineers office dated May 18, 1975. Rosa Parks Boulevard was widened from 66 feet wide to 120 feet wide from West Grand Boulevard to Atkinson Avenue as part of an effort by the Community and Economic Development Department to encourage redevelopment of the area. Part of widening was formally dedicated on November 17, 1993 in conjunction with the new development, the Virginia Park Estates Subdivision.

Background: The renaming of 12th Street to Rosa Parks Boulevard took place by action of City Council on February 11, 1976. The action was taken to recognize the Civil Rights activist Mrs. Rosa Parks a longtime resident of Detroit. All necessary actions to formally rename the street were filed with Wayne County and the State of Michigan by August 4, 1976.

All other city departments and utilities have reported no objections to the proposed right-of-way dedication.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Petition No. 610 — The Department of Public Works — City Engineering Division request to dedicate land for the reroute of Dickerson Avenue, 66 feet wide, from East Jefferson Avenue, 120 feet wide, to Freud Avenue, 60 feet wide.

All other city departments and utilities have reported no objections to the proposed right-of-way dedication.

I am recommending adoption of the attached resolution.

The utility companies shall have the right to cross or use the driveways and yards of the adjoining properties for ingress and egress at any time to and over said utility easement with any necessary equipment to perform the above mentioned task, with the understanding that the utility companies, other than that specifically prohibited by this resolution, shall be restored to a satisfactory condition.

It is further provided that if sewers, water mains, and/or appurtenances in said easement shall break or be damaged as a result of any action on the part of the owner, or assigns, then in such event, the owner or assigns shall be liable for the costs incident to the repair of such broken or damaged sewers and water mains, and shall also be liable for all claims for damages resulting from his action and be it further

Provided, That if it becomes necessary to remove the paved alley returns at the entrances such removal and construction of the new curb and sidewalk shall be done under city permit and inspection according to City Engineering Division — DPW specification with all costs borne by the abutting owner(s), their heirs or assigns; and further

Provided, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds.

Although the Resolution vacated certain streets and alleys within the Project Site, such vacated areas were converted to easements for public utilities. The City is in the process of removing all such public utilities from the Project Site in anticipation of the Carpenters & Millwrights Union's Summer 2020 construction start for the Project. At this time the City of Detroit, Planning & Development Department ("P&DD") has requested that all retained easements within the Project Site be vacated (outright) as public rights-of-way, with all such retained easements extinguished and terminated.

The request was referred to the City Engineering Division — DPW for investigation, utility review and report. This is our report:

The request for outright vacation and termination of the easements is being made to facilitate construction and operation of a new development on the City's Project Site. P&DD is in the process of removing all utilities within the Project Site, therefore the retained easements granted by the Resolution are no longer needed. By extinguishing the retained easements, the Project Site will be development ready for the Project.

The request to amend the petition to vacate and extinguish the retained easements was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

All other involved City Departments, and privately owned utility companies have reported no objections to the outright vacations. Provisions for relocation of any future utility installations to support the Project, including any Detroit Water and Sewerage Department facilities, will be addressed by the Carpenters & Millwrights Union as part of the Project.

I am recommending adoption of the attached resolution.

Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Department of Public Works/Traffic Engineering Division (DPW/TED) has approved this request contingent upon the petitioner's compliance with provided DPW/TED instructions.

The Legislative Policy Division has reviewed the petitioner's request and issued their approval with no objections.

March 3, 2020

Honorable City Council:

Re: Petition No. 744 — Henry Ford Health Systems, request for encroachment into Second Avenue (150 feet wide) right of way.

Petition No. 744 — Giffels Webster on behalf of Henry Ford Health Systems request for encroachment with a way-find-

ing sign. The encroachment area is on the median of Second Boulevard, 150 feet wide, approximately 14 feet south of the south line of Amsterdam Street, 50 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made as part of the Henry Ford Health System Center of Athletic Medicine and the Detroit Pistons Performance Center.

The request was approved by the Solid Waste Division — DPW, City Engineering Division — DPW, and Traffic Engineering — DPW (TED) with TED provisions that are a part of the resolution.

Detroit Water and Sewerage Depart-

ment (DWSD) reports involvement, but no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

The Planning and Development Department reports that the sign is in the New Amsterdam Historic District and requires Historic district commission approval.

All other involved City Departments, including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,  
RICHARD DOHERTY, P.E.

City Engineer

Provided, That Henry Ford Health Systems or their assigns shall file with the Department of Public Works — City Engineering Division an indemnity agreement in form approved by the Law Department. The agreement shall save and protect the City of Detroit from any and all claims, damages or expenses that may arise by reason of the issuance of the permits and the faithful or unfaithful performance of

**NEW BUSINESS**

Council Member Sheffield on behalf of Council President Jones moved the following resolution:

**RESOLUTION URGING A 90-DAY EXTENSION OF STATE AND CITY INCOME TAX PAYMENTS**

By COUNCIL PRESIDENT JONES:  
 WHEREAS, As a result of the Coronavirus 19 (COVID-19) health crisis, the

President of the United States, under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, has declared that residents and businesses are allowed a 90-day extension to pay their federal taxes without calculation of interest, penalty or addition to tax, for failure to pay during the extended 90-day period; and

WHEREAS, Residents of the State of Michigan and City of Detroit are subject to the same health crisis caused by COVID-19 and the emergent imposition that payment of taxes due on April 15, 2020 required by residents and businesses within the State of Michigan and City of Detroit; and

WHEREAS, The COVID-19 health crisis has resulted in reduction in business activities, shutdowns, closures, and layoffs of employees that has placed extreme financial burdens on residents of the State of Michigan and City of Detroit; and

WHEREAS, The required payment of taxes due the State and City of Detroit on April 15, 2020, would take finances from residents and businesses that are necessary and desperately needed to maintain the health and safety of impacted families instead of preserving finances to pay the cost of food, water and shelter; and

WHEREAS, Governor Gretchen Whitmer has declared a state of emergency across the state of Michigan and having invoked the Emergency Management Act, MCL 30.401 et seq., has been granted the broad powers and duties to issue "executive orders, proclamations, and directives having the force and effect of law", in addition to being granted the authority under the Emergency Powers of the Governor Act, MCL 10.31(1), which provides that after declaring a state of emergency, "the governor may promulgate reasonable orders, rules, and regulations as he or she considers necessary to protect life and property or to bring the emergency situation within the affected area under control"; and

WHEREAS, COVID-19 presents a continuing emergency to life and property which would be exacerbated if residents and businesses within the State and the City of Detroit are required to adhere to the statutory requirements to pay the balance of taxes due on April 15, 2020; and

WHEREAS, The Detroit City Council believes that Governor Gretchen Whitmer may have the power to provide a 90-day extension to residents and businesses of the State and the City of Detroit to pay the balance of the taxes due the State and the City by and through the powers vested the Governor under MCL 30.401-421 and MCL 10.31(1); and BE IT THEREFORE

RESOLVED, That the Detroit City Council urges Governor Whitmer to exercise her emergency powers in a manner that grants residents and businesses within the State and city of Detroit a 90-day extension to pay balance of the taxes due, without calculation of interest, penalty or addition to tax, for failure to pay during the extended 90-day period; and BE IT FINALLY

RESOLVED, That a copy of this resolution be submitted to Governor Gretchen Whitmer and Mayor Michael Duggan.

TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE

Council Member Sheffield on behalf of Council President Jones moved the following six (6) resolutions:

TESTIMONIAL RESOLUTION FOR

MR. OSKAR PASKAL

In Recognition of your Centennial 100th Birthday

By COUNCIL PRESIDENT JONES, joined by COUNCIL MEMBER McCALISTER, JR.:

WHEREAS, March 23, 2020, marks the 100th Birthday of Mr. Oscar Paskal, a very significant milestone, reserved for very few. The Detroit City Council would like to publicly acknowledge this important event in his life; and

WHEREAS, Mr. Oscar Paskal, one of our esteemed centenarian citizens, has lived a rich and blessed life having experienced, first-hand, 100 of the most eventful and productive years in American and world history. Mr. Paskal was born on March 23, 1920, in Manhattan, New York. As a young man, he moved to Detroit in 1941, to seek employment in one of the automotive assembly plants. Shortly after World War II began, Mr. Paskal was drafted into the United States Army where he served in the Field Artillery Unit. He received an honorable discharge in December 1945; and

WHEREAS, Mr. Paskal met and married the love of his life, Dolores, and from this union they had one daughter, Alison Paskal, who resides in Oakland, California. Mr. Paskal was employed at the Chrysler Corporation Jefferson Plant and, after a short time, he entered into and completed

the Apprenticeship Program as a Tool and Die skilled tradesman, until his retirement. He then went to the UAW, where he worked in the Education Department until he retired again in 1965. The Pascals moved to the Indian Village neighborhood in 1966, where Mr. Paskal still resides today. He is the oldest resident, as well as the longest residing member of that east side community. Mr. Paskal is loved by everyone and is affectionately considered the "Grandpa" of the Village; and

WHEREAS, Mr. Paskal has fond memories of his past hobbies and interests. One of his favorite hobbies was hiking. He celebrated two birthdays; his 85th and 90th, by hiking the Grand Canyon, what an accomplishment! Besides physical exercising, other interests that keep Mr. Paskal busy these days include: reading about history, the New York Times, dining out, and, every now and then, an annual trip to see the Detroit Symphony Orchestra. He also listens to a little jazz from time to time; and

WHEREAS, When his wife, Dolores, died in 2011, Mr. Paskal knew the importance of staying fit by continuing his daily exercise routine. So, the following year he came to the St. Patrick Senior Center to check out the Exercise Room and has been coming three times a week since then. Everyone who knows Mr. Paskal knows that he is still keeping up with his health and fitness routine. He stopped driving in 2015, but that didn't stop him from coming to St. Pat for his physical workout. One day, five years ago, Mr. Paskal invited his neighbor and friend, Barry Neavill, to come and join him on a visit to St. Pat. Barry has been bringing him to the center since that day. Mr. Paskal enjoys coming to the St. Patrick Senior Center for two reasons: the Exercise Room where he gets thirty minutes of muscle strengthening workout exercises; and his favorite Exercise Instructor, Mr. Roy Adams. Mr. Paskal fully supports Roy's motto: "USE IT OR, LOSE IT!" He firmly believes that exercising has contributed to his longevity; and

WHEREAS, As family and friends are gathered here today, March 23, 2020, at the St. Patrick Senior Center to commemorate and celebrate his 100th Birthday, it is abundantly fitting and proper that Mr. Oscar Paskal be appropriately recognized during this very special and memorable time of his life. NOW, THEREFORE BE IT

RESOLVED, That Council President Brenda Jones and the Detroit City Council would like to recognize and honor Mr. Oscar Paskal, upon the grand occasion of his 100th Birthday.

#### TESTIMONIAL RESOLUTION IN MEMORIAM FOR

#### MR. TYRONE CHATMAN

By COUNCIL PRESIDENT JONES, joined by COUNCIL MEMBERS BENSON, CASTANEDA-LOPEZ AND McCALISTER, JR.:

WHEREAS, We the members of the Detroit City Council, solemnly pause today to honor the memory of the late Mr. Tyrone Chatman. Mr. Chatman, a Detroit native and Vietnam army veteran was the Chief Executive Officer of the Michigan Veterans Foundation. He made his heavenly transition on February 26, 2020; and

WHEREAS, Tyrone Chatman was born in Detroit, Michigan, on September 26, 1952. He grew up poor, in a blighted neighborhood on Detroit's east side. All around him were the devastating effects of poverty. Someday, he promised himself, he would do what he could to help others escape that lifestyle, and build a better life for themselves and their families. In 1970, at age seventeen, Mr. Chatman enlisted in the U.S. Army. After a one-year tour in Germany, he was sent to Vietnam, where he served as a military advisor. As part of the Army's "Pacification Initiative," the soldiers would go into villages and try to win over the civilian population by getting them things they needed. Mr. Chatman was honorably discharged on August 17, 1972. He was awarded several medals, including the Combat Infantryman Badge, National Defense Service Medal, the Vietnam Service Medal and the Vietnam Campaign Medal. He returned home with a deep, lasting appreciation of the contributions of America's veterans, even though many Black Vietnam veterans were treated like second-class citizens after the war; and

WHEREAS, Mr. Chatman spent 1972 and 1973 drifting through a long period of insecurity. He then found work on the assembly lines of Michigan's automotive industry. In 1979, when the recession hit, he found himself without a job. Taking advantage of government funds for trade readjustment, Mr. Chatman enrolled in

Highland Park Community College and matriculated to Wayne State University, where he earned a Bachelor of Science degree in 1982. Mr. Chatman went on to become a licensed social worker and began his career primarily working with Detroit's homeless population. He did an internship at the Neighborhood Services Organization (NSO), and after the internship was over, Mr. Chatman stayed on. When the center's director left two years later, he found himself, at the age of 35, in charge of the whole operation. Under his direction, NSO began to expand its activities. By 1994, NSO was providing crisis intervention and referral services, counseling, emergency food, clothing, shelter, showers and laundry facilities, GED classes, job placement, and many other wrap-around support services. During his 15-year tenure at NSO, its budget rose from less than \$200,000 to more than \$115 million. Mr. Chatman also provided assistance to a number of other homeless service providers. During this period, he became Detroit's most visible advocate for the homeless; and

WHEREAS, In May 1998, Mr. Chatman left NSO and took on the associate executive directorship of the Detroit Veterans Center (DVC), on whose board he had long served. It was an ideal position for Mr. Chatman, who now had 18 years' experience serving the homeless. At this time, DVC had just built a new facility, but had not begun to operate it. Bringing some key staffers with him from NSO, Mr. Chatman helped get the center up and running. He also acquired the lot next door, which by 2001 had become a new Career Initiative Center, to help veterans reintegrate into the workforce; and

WHEREAS, As the Founder and Chief Executive Officer of the Michigan Veterans Foundation (MVF), Mr. Chatman was very knowledgeable about post-traumatic stress disorders, substance abuse, chronic homelessness, and other mental health challenges that often follow veterans returning from battle. Since 1989, the MVF has been providing counseling, substance abuse treatment, housing, education, job placement and other services to help veterans make the transition from being a soldier to a civilian and regain their stability. For the better part of 30 years, Mr. Chatman stood up for veterans, pled their cases, raised money, and raised awareness. In January 2017, he realized his dream of a new facility and the MVF moved its headquarters into a new 42,000-

square-foot transitional housing facility on Grand River Avenue in Detroit; and

WHEREAS, Tyrone Chatman served on many committees, boards and task forces. He was very supportive of the Military and Veterans Affairs Task Force Meeting, chaired by Council President Brenda Jones and co-chaired by Council Members Scott Benson and Roy McCalister. Mr. Chatman's compassion and high regard for our veterans in Detroit and throughout the metropolitan area never went unnoticed, he always offered assistance to those in need. Many times he welcomed the Task Force Meeting to be held at the MVF to allow our veterans easy access to the meetings and free parking. Through the years, he was the recipient of numerous awards and accolades. He also received the Robert Wood Johnson Community Health Leadership Award, which carried with it a \$100,000 stipend. To Tyrone Chatman, leadership meant genuinely caring about the well-being of others. *"I don't consider myself special, or better than anyone else. But if it's within my capability to make life better for someone, then I'm going to do it."* — Mr. Tyrone Chatman. He will be greatly missed and his contributions and the lessons he taught will live on forever. NOW, THEREFORE BE IT

RESOLVED, That Council President Brenda Jones and the Detroit City Council offer our deepest sympathy and join with family and friends in honoring the life and legacy of Mr. Tyrone Chatman, a noble man and the finest example of a servant leader.

### PLANNING AND DEVELOPMENT DEPARTMENT

March 26, 2020

Honorable City Council:

Re: Request to Amend Funding Agreement relating to Casino Loan Funds.

In November, 2005, pursuant to a resolution adopted by the Detroit City Council in April, 2005, the City entered into a funding agreement with the Economic Development Corporation of the City of Detroit (the “EDC”) to administer business development funds received by the City pursuant to the initial and revised casino development agreements (the “Casino Loan Funds”) the Casino Loan Funds (the “Funding Agreement”). Section 2 of Exhibit C of the Funding Agreement describes certain revolving loan programs to be administered directly by the EDC, each subject to a geographic restriction of East Riverfront, CBD, and/or Woodward Corridor to Warren (the “EDC Casino Loan Program”), summarized as follows:

1. National regional retail/restaurant chain loan program
2. Non-affiliated retail/restaurant chain loan program
3. Real Property Rehab Gap Fund (aka Detroit resident retail loan fund)

While certain of the programs have been popular (e.g., non-affiliated retail/restaurant) and readily deployed, certain uses have been underutilized (e.g., resident retail loan fund) and the geographic restrictions have further contributed to underutilization. In order to respond to current economic conditions in the City of Detroit, including but not limited to a need for flexible loan products for small businesses seeking to locate or expand within the City and economic impacts of the COVID-19 pandemic on the small business

community, EDC and the City desire to modify the EDC Casino Loan Program in order to expand its potential impact on businesses located in the City of Detroit and improve the performance of underutilized loan funds within the EDC Casino Loan Program.

In particular, the EDC proposes modifications to the EDC Casino Loan Program that would:

- Reserve up to \$2.3 Million to provide need-based low-interest loans, cash grants, and/or technical assistance to bridge working capital needs of businesses impacted by the COVID-19 pandemic
- Establish a loan fund to enable the establishment and/or expansion of small businesses located in Detroit’s commercial corridors and/or industrial districts
- Allow all programs to serve businesses citywide
- All available funds to be distributed across programs as market demand requires

We, therefore, request that your Honorable Body adopt the attached resolution that authorizes the City to amend Funding Agreement to reflect the foregoing, substantially in the form attached to the attached resolution.

Respectfully submitted,  
**KATHARINE G. TRUDEAU**  
Deputy Director

By Council Member Tate:

Honorable City Council:

Re: CITY COUNCIL RECESS from: Wednesday, March 25, 2020 through Monday, May 4, 2020.

Ordinance No. 15-00, Chapter 21 Article 3, requires the approval of your Honorable Body for the purchase of Goods and Services over the value of \$25,000, all Grants and Contracts for Personal Services, Renewals, or Extensions of Contracts.

Based upon the avowed Recess due to the declaration of a national emergency attributed to the Coronavirus (Covid 19), it has been necessary to take immediate and appropriate action to protect the health and safety of the City of Detroit with emergency purchases, thereby a delay in obtaining your approval for needed Goods, Services and Grants.

As a result, I will be unable to meet my obligation to obtain Goods, Services and Grants for the user agencies, and they, in return, will be unable to meet their obligation to supply mandated services to the People of the City of Detroit.

Therefore, during the Recess, I request that your Honorable Body approve our purchase of Goods, Services and Grants requiring your Approval under Ordinance No. 15-00 under provisions as follows:

I. Weekly list of Contract Agenda Items and Grant Award Notifications, which are distributed by the Office of the City Clerk to Members of the City Council each Thursday, will be held through Wednesday of the following week.

II. In the event any Council Member objects to the Contract or Purchase Order or the Grant Award the Contract or Grant award will be held either until formal action by the City Council or withdrawal of the objection by the objecting Council Member.

III. No Contract, Purchase Order, or Grant shall be issued if a Protest has been filed, or if a Supplier has not obtained any required Tax Clearances, Insurance, Affidavits, or Bonding.

**The first list under the Recess procedures will be prepared by the Office of Contracting and Procurement on Thursday, March 26, 2020.**

**RESOLUTION CALLING FOR FEDERAL FUNDING OF A SUSTAINABLE WATER AFFORDABILITY PLAN SIMILAR TO THE LOW INCOME HOME ENERGY ASSISTANCE PROGRAM (LIHEAP)**

By Council Member Benson:

WHEREAS, In March 2020 Michigan Governor Gretchen Whitmer ordered reconnection of all residential water service in order to deal with the deadly health impacts of the COVID-19 coronavirus pandemic; and

WHEREAS, The need for a subsidy to support long term, sustainable and affordable access to water and sewerage services for the benefit of low income residential customers will not end after the COVID-19 pandemic is better controlled, providing an opportunity to implement new policies going forward. On the contrary, unaffordability of these services for the poor is a structural feature of the water industry's existing rates as well as a permanent menace to public health; and

WHEREAS, Congress should create and adequately fund a national water rates subsidy program similar to the Low-Income Home Energy Assistance Program (LIHEAP); and

WHEREAS, The LIHEAP program receives and expends approximately \$3.5 billion annually to support gas and electric heating utility costs for low income residents throughout the United States; and

WHEREAS, Based on the same realities that lead the federal government to recognize the need to support low income families by subsidizing energy, it is time to also provide a robust federal subsidy for the precious resource of clean and safe engineered drinking water; and

WHEREAS, Unfortunately, due to the high cost of providing clean and safe drinking water, based largely on complying with federal regulations, this resource

is seeing an alarming rise in retail rates across the country. While there is often a call for municipalities to become the "water bank" and provide free or subsidized water, the federal government is the proper entity to fund necessary water subsidies for low income families, as demonstrated by the popular and successful LIHEAP program; and

WHEREAS, Affordable water is a health, safety and welfare issue that is implicitly recognized not only by the recent reconnection of water services to deal with the COVID-19 pandemic, but also by the existence of the LIHEAP program for low income electric and gas home heating. Water also needs to be recognized and supported for our most vulnerable residents as a utility that is directly tied to the support of life; and

WHEREAS, Congress is presently deliberating another one or more tranches of relief funding for COVID-19 related expenses. The funding of water and sewer infrastructure should be included for the benefit of public health; and

THEREFORE, BE IT

RESOLVED, That The Detroit City Council urgently calls for Congress to enact and fund a national water affordability program, modeled on the LIHEAP program for home heating assistance for low income families; and Be It Further

RESOLVED, That significant and adequate funding for a national water affordability program benefiting low income water customers and public health should be an urgent, primary focus of Congressional COVID-19 relief funding; and Be It Further

RESOLVED, That copies of this resolution shall be provided to Mayor Mike Duggan, Governor Gretchen Whitmer, Congressional Representatives Nancy Pelosi, Kevin McCarthy, Brenda Lawrence and Rashida Tlaib, Senators Gary Peters, Debbie Stabenow, Charles Schumer, Mitch McConnell, and other Congressional leadership and members of the Michigan delegation in Congress, County Executives David Coulter, Warren Evans and Mark Hackel, the boards of DWSD and GLWA, media representatives and affordable water advocates.

**RESOLUTION URGING THE FEDERAL GOVERNMENT AND THE STATE OF MICHIGAN TO PASS LEGISLATION RAISING ESSENTIAL WORKERS WAGES BY \$10 AND SUPPORT FOR PROVIDING OTHER ASSISTANCE TO ESSENTIAL WORKERS**

By COUNCIL PRESIDENT BRENDA JONES:

WHEREAS, The first case of COVID-19 was diagnosed in Wuhan, China late December 2019. Since then, it has spread internationally, causing a global pandemic. As of April 7, 2020, cases in the U.S has climbed to 388,012 with 12,370 deaths. Michigan is one of the hardest hit states with 17,221 cases, 727 deaths, and the number of new cases is rising daily; and

WHEREAS, It is the City of Detroit's duty to continue to provide and manage essential societal functions during the pandemic. Unfortunately, the activities required to maintain those functions means that truck drivers, childcare aides, public safety, healthcare, grocery/convenience store, delivery, and public transit workers are on the frontlines, being stewards of their community's needs, and risking exposure to the virus; and

WHEREAS, It has become evident that this pandemic has not only caused a health care crisis, but also an economic one. Many essential workers providing invaluable health services, food, and delivery of essential goods are not afforded vital amenities necessary to alleviate health-related and economic concerns; and

WHEREAS, Consequently, it is the government's responsibility to provide incentives and recompense to dedicated workers, who may lack the resources to stay at home and/or are critical to our very existence. These essential workers need relief now, most specifically minimum wage workers; and

WHEREAS, The Detroit City Council supports any legislation from the federal government and/or state of Michigan that aids and compensates these essential workers' efforts during this difficult and uncertain time. Now Therefore Be It

RESOLVED, The Detroit City Council declares its support for raising wages for all essential workers by \$10, extension of paid sick and vacation time, bonus pay, health care coverage and assistance with child care services during long work hours for their service and Be It Further

RESOLVED, The Detroit City Council strongly urges that there be legislation enacted to permanently enact wage increases and employment benefits such as paid sick and vacation time, bonus pay and health care coverage to acknowledge, support and compensate the sacrifice and value of our nation's essential workers and Be It Further

RESOLVED, The City Clerk is directed to send copies of this resolution to Governor Gretchen Whitmer, Michigan State Legislature, and the Federal Government.

**RESOLUTION URGING FUNDING STRATEGIES TO CITY OF DETROIT LENDING INSTITUTIONS IMPLEMENTING FEDERAL PAYCHECK PROTECTION LOANS TO SMALL BUSINESSES**

By COUNCIL PRESIDENT JONES:

WHEREAS, On Friday, March 27, 2020, the United States Congress and the President of the United States passed the CARES Act, which contained the Paycheck Protection Program in the amount of \$349 billion in relief for American workers and small businesses as a result of the COVID-19 pandemic's economic impact; and

WHEREAS, Shortly after its passage, the Paycheck Protection Program funding was depleted, falling woefully short of providing financial assistance to those most vulnerable small business with 500 or fewer employees; and

WHEREAS, It has been widely reported, including research published by Morgan

Stanley, that the U.S. government has allocated at least \$243.4 million of the total \$349 billion to publicly traded companies, and according to the Associated Press, 75 of those public traded companies received a combined \$300 million in low-interest taxpayer-backed loans; and

WHEREAS, According to Small Business Administration, Michigan's small businesses employ approximately 1.8 million workers; 51 percent of small businesses have less than 500 employees. Many small businesses are located within the City of Detroit and are minority owned; and

WHEREAS, As reported in Entrepreneur.com, "Minority-owned small businesses stand to be hit the hardest by the pandemic's economic fallout... In 2019 the SBA found that 49 percent of loans from banks go to white-owned businesses, 23 percent go to Asian-owned businesses, 17 percent undetermined, 7 percent to Hispanic-owned business, 3 percent to black-owned businesses and 1 percent to American Indian-owned businesses." The small businesses in the City of Detroit including those minority owned cannot survive the standard loan practices of the past and must be given a fair and appropriate opportunity to survive; and

WHEREAS, In light of the failures of the initial stimulus package to assist true small businesses, the Federal Government has initiated a second wave of \$320 billion funding for the Paycheck Protection Program. \$60 billion of that is slated to go to assist the smallest businesses which rely on community partners for support such as community banks, credit unions and Community Development Financial Institutions (CDFIs); and

WHEREAS, The Detroit City Council seeks to encourage local financial institutions that will be the designated lenders under the Paycheck Protection Program in the State of Michigan and City of Detroit to develop specific funding strategies that will maximize the ability to financially assist the small business in the most need of assistance, those that have 500 or fewer employees, less than \$15 million in annual revenues and are on a trajectory to deplete their cash balance within two months. THEREFORE BE IT

RESOLVED, That the Detroit City Council urges all financial institutions implementing the Federal Paycheck Protection Program in the City of Detroit and more specifically those local financial institutions designated to disburse the funding designated for the smallest businesses within the City of Detroit to meet at least one of the following criteria for eligibility:

- (1) Proof of depletion of cash balances within the next two months,
- (2) No more than 500 employees across the entire business entity (specifically prohibiting chain establishments from receiving funding per location), or

(3) No more than \$15 million in annual revenues;

(4) Set asides for minority owned businesses; BE IT FINALLY

RESOLVED, That copies of this resolution shall be provided to Mayor Mike Duggan and Governor Gretchen Whitmer, for presentation to the financial institutions that are provided Federal Paycheck Protection Program funding to be disbursed to small business that conduct business within the City of Detroit.

**RESOLUTION OPPOSING  
PREMATURE LIFTING OF PHYSICAL  
DISTANCING MEASURES AND  
URGING THE ADOPTION OF  
BUSINESS POLICIES TO LIMIT THE  
SPREAD OF THE COVID-19  
PANDEMIC UNTIL A REASONABLE  
DEGREE OF PUBLIC HEALTH  
PROTECTION CAN BE ENSURED**

By COUNCIL PRESIDENT JONES and COUNCIL MEMBER McCALISTER, JR.:

WHEREAS, In the face of the historically unprecedented Covid-19 novel coronavirus global pandemic, during the months of March and April 2020, millions of Americans dispersed from workplaces, schools, houses of worship, restaurants, bars, concert halls, sports stadia and other places where people congregate in public, practicing stringent and comprehensive physical distancing measures that have apparently spared the country even worse contagion and death as a result of this virus and the evident inability of the federal government or the U.S. health care system to cope with an intertwined public health and socioeconomic crisis of this magnitude; and

WHEREAS, Notwithstanding the incredible sacrifices and promising results to date of the broad physical distancing measures:

- 1) The loss of health, life, prosperity and value in the pandemic has already been huge;
- 2) Detroit has been one of the communities hardest hit; and
- 3) Some irresponsible, public leaders have been arguing without any significant supporting evidence that Americans should stop or at least drastically limit these successful public health protections in the interest of "reopening" the economy, sending people back to inherently dangerous and unhealthy spaces for work, school, worship and commerce before the virus is adequately controlled; and

WHEREAS, The Detroit City Council

vigorously and adamantly opposes any premature lifting of physical distancing measures unless and until the proponents of such regression to mass exposures can prove that it will not adversely affect public health; and

WHEREAS, The burden of demonstrating that ending physical distancing precautions would unreasonably harm public health, perhaps leading to a "second wave" of uncontrolled contagion and many more deaths, should not be placed on advocates of public health who oppose ending the current comprehensive, common sense restrictions on public assemblies; and

WHEREAS, Covid-19 has to date taken an extremely painful toll in the African American community, with over 70% of coronavirus deaths in Michigan so far reportedly suffered by African Americans. Although making up only approximately 14% of the State of Michigan's population, African Americans so far account for 33% of the coronavirus cases in the state, and 40% of the deaths; and

WHEREAS, the extreme racial disparity in Covid-19 cases and deaths among African Americans must be taken into consideration when considering the removal of the common sense physical distancing measures and state requirements that appear at this time to be working impressively to reduce the pandemic's spread; and

WHEREAS, Since none of the above conditions can currently be met, significantly easing or lifting the current measures in place for physical distancing to slow the spread of the pandemic at this time would be premature and would unreasonably risk even more severe damage to our country, state and city; and

WHEREAS, As the federal, state and local governments gradually increase their capacities to deal with this crisis, and additional data about the dimension of contagion and the incidence of death becomes available, there will be further opportunities in the future to responsibly and intelligently assess risk, gradually increase the size and frequency of social gatherings, and aggressively monitor and treat any further spikes in the transmission of Covid-19;

BE IT THEREFORE RESOLVED, That the Detroit City Council opposes premature limitation or lifting of physical distancing measures adopted in the face of the Covid-19 pandemic, unless and until the following conditions can be conclusively shown to be in place:

- 1) mass testing of millions of Americans per day to identify those who are infected;
- 2) comprehensive contact tracing based on any and all future diagnoses, to isolate other people who may have been infected; and
- 3) availability of sufficient personal protective equipment (PPE) to shield

frontline health care workers from the risks of contagion in the course of treating any flare-ups in the pandemic after easing physical distancing; and

4) sufficient capacity of Intensive Care Unit (ICU) beds, mechanical respirators and other hospital medical space and equipment to adequately treat the foreseeable surge in need for care; and

BE IT FURTHER RESOLVED, That the Detroit City Council will work with Detroit Mayor Mike Duggan, Michigan Governor Gretchen Whitmer and others to continue the practices of physical distancing and suspension of ordinary social, economic, business and entertainment gatherings, at least until the necessary conditions of adequate mass testing, contact tracing, protective equipment for frontline health workers, and adequate hospital and ICU resources are in place to protect public health; and

BE IT FURTHER RESOLVED, That the Detroit City Council urges businesses across the City of Detroit to adopt the following policies:

1) Mandating wearing masks when employees and customers have the propensity to be within 6 feet of another individual.

2) Adopt procedures to meet the environmental cleaning guidelines set by the CDC, including by cleaning and disinfecting frequent touchpoints throughout the day such as point of sale terminals at registers, shopping carts, and shopping baskets.

3) Prohibit employees who are sick from reporting to work and send employees home if they display symptoms of COVID-19.

4) Allocation of at least two hours a week of shopping time for vulnerable populations.

5) If an employee tests positive for COVID-19, establishments must notify other employees without infringing on a worker's private personal-health related information.

6) Require checkout employees or those handling food to wear some form of

covering over their nose and mouth, such as a homemade mask, scarf, bandana, or handkerchief.

7) Require all food handlers at restaurants to wear some form of covering over their nose and mouth, such as a homemade mask, scarf, bandana, or handkerchief.

8) Accommodate employees who fall within a vulnerable population by providing lower-exposure work assignments or giving them the option to take an unpaid leave of absence with a return date coinciding with the end of the states of emergency and disaster.

9) Develop and implement a daily screening program, as described herein, for all staff upon or just prior to reporting to work sites.

BE IT FINALLY RESOLVED, That copies of this resolution shall be provided to Mayor Duggan, Governor Whitmer, mass media, City of Detroit residents and others in an attempt to clarify the life and death issues at stake in the decisions to be made in the near future about maintaining physical distancing measures, or "re-opening" the economy, in the face of the Covid-19 pandemic.

Various donors have committed, or are anticipated to commit, cash donations to the City of Detroit Planning and Development Department's "Detroit Arts Fund." The Detroit Arts Fund appropriation will, if approved, support arts and culture through investment in three areas:

- Training and Entrepreneurship – Offer skills and job training to increase creatives' ability to make a living from their work, whether it is from performance or products, and support opportunities for public schoolchildren to learn art and music for possible future careers.
- Promotion and Branding – Market and promote the city's world class creative industry by encouraging artists from around the world to make Detroit their base while providing support for the artists already here.

Funds received from donors for the Detroit Arts Fund will be used for the sole purpose of supporting these activities. Each year, the appropriation will be set up for expenditures and matching, donated revenues.

Honorable City Council:

Re: Changes to the FY 2021 - FY 2024 Four-Year Financial Plan (Revised)

After further review of the Recommended FY 2021 - FY 2024 Four-Year Financial Plan the Mayor presented on March 6, 2020, significant appropriation changes are necessary to maintain a balanced FY 2021 budget. Those appropriation changes require an amendment to the Mayor's Recommended Budget. Outlined below is a summary of the circumstances that have led to the changes needed to the FY 2021 Budget.

Due to the Coronavirus Disease 2019 (COVID-19) public health emergency and its mandatory business closures and impact on the national economy, the Office of Budget is projecting a \$194 million revenue shortfall in FY 2021 driven by:

- Gaming revenue losses directly tied to the casino closures on March 16, 2020
- Income tax reduction as employers have laid off and furloughed workers and there is a forecasted contraction in the national and state economy
- Anticipated State Revenue Sharing reduction due to a drop in state sales taxes
- Other revenue losses from suspended parking enforcement, bus fare interruption to protect drivers from COVID-19 and a reduction in business and construction permitting activity

The City is taking decisive actions to address the revenue shortfall:

- In early March, the Chief Financial Officer canceled all cash capital projects that were not yet under construction and all demolitions that were not an urgent life safety matter
- On April 3, the CFO issued a directive to freeze hiring and limit discretionary spending.

Under this directive, departments were ordered to cancel discretionary contracts and purchases, make every attempt to limit overtime and limit new contracts to only those deemed critical by the CFO

- The Chief Procurement Officer is renegotiating contracts with major vendors to achieve savings
- The Mayor is eliminating new spending initiatives originally proposed in the FY2021 budget
- The City will ask authorities for cost savings measures to reduce appropriations
- To conserve reserves for operations, the Administration will reduce its demolition program in FY 2021 and eliminate a planned Rainy Day Fund deposit and a supplemental Retiree Protection Fund deposit
- The City is maximizing federal reimbursement for additional spending on COVID-19
- The City is instituting a number of workforce changes to reduce spending, preserve core City services, and treat employees fairly

The reductions to budgeted revenues and expenditures for FY 2021 impacting the General Fund are summarized below, along with a resolution for all appropriation changes. Detailed schedules of all changes at the cost center level and by category are attached. The changes also include revisions to the Detroit Water and Sewerage Department operating budget as approved by the Board of Water Commissioners.

Honorable City Council:

Re: Revised Schedule A reflecting City Council Changes to the Mayor's 2020-21 Community Development Block Grant (CDBG) Proposed Budget.

Attached is the final Schedule A and corresponding resolution for City Council action on the Mayor's recommended 2020-

21 CDBG budget. The Schedule A was prepared by the Housing and Revitalization Department, then reviewed and revised by the City Planning Commission (CPC) staff.

The Schedule A reflects the City Council changes to the Mayor's recommended CDBG budget including your action on the Neighborhood Opportunity Fund (NOF) awards as well as the remaining portions of the CDBG budget that your honorable body is supporting via your review of this budget. The column heading that previously read "Council Rec" now reads "City Council Final." The cells below that heading carry the allocations determined by your Honorable for adoption under the 2020-21 CDBG Program.

One change, as reviewed at your April 30, 2020 Council meeting, is to decrease the homeless public service amount by \$104,173 in order to meet the overall Public Service 15% cap requirement.

CPC staff understands that based upon budget deliberations, the Schedule A will be further revised by your approval of the Office of Budget Errata Letter submitted by the Administration and approved by your Honorable Body.

Please let us know if you have any questions regarding the Schedule A or the CDBG program.

Respectfully submitted,  
MARCELL R. TODD, JR.  
Director

**THE DETROIT CITY COUNCIL  
2020-2021 FINANCIAL AND  
BUDGETARY PRIORITIES,  
PUBLIC POLICY, PLANNING  
AND ACTION RESOLUTION**

By ALL COUNCIL MEMBERS:

WHEREAS, The Honorable Mayor Mike Duggan presented a Recommended FY 2021 - FY 2024 Four-Year Financial Plan for the City of Detroit to the Honorable Detroit City Council on March 6, 2020, and in fulfillment of its Charter-mandated role and in keeping with past practice, City Council held hearings and deliberations on the proposed Executive Budget for FY 2020-2021 as submitted by the Mayor over the next week — until the historic declaration of the worldwide COVID-19 pandemic by the World Health Organization resulted in the Governor's "Stay Home, Stay Safe" Order in mid-March; and

WHEREAS, The current standstill in commercial and civic life in this city and around the country, the virtual freeze in revenues, and the tremendous outflow of resources required to maintain our community through this crisis, have - in two short months — rendered the proposed budget unworkable; and

WHEREAS, In years past after careful consideration by City Council, the Mayor's proposed budget was modified to reflect and incorporate the Council's policy and budgetary changes that resulted from the hearings and deliberations on the budget. This year, however, Council will not make any modifications in the Closing Resolution in recognition of the deep budget cuts are necessitated because of COVID-19; and

WHEREAS, Following the City of Detroit's (City) emergence from bankruptcy at the end of 2014, the City has been on an increasingly positive trajectory toward the future. Reinvestment in the City's infrastructure has been ongoing, with fiscal restraint remaining paramount; and, the alignment of expenditures and revenues continues to be balanced

with improvements in service delivery to residents; and

WHEREAS, Michigan Public Act 181 of 2014 (Act 181) provided for the oversight of the City for at least thirteen years. The FY 2020-2021 budget process proceeded under a waiver of active oversight, granted by the Financial Review Commission (FRC) in April 2018, following three consecutive years of successful adherence to deficit-free budgets. The annually renewable waiver requires that the City submit its adopted budget and four-year financial plan to the FRC by May 30 of each year. That date has been extended this year with the approval of the FRC due to the meeting constraints caused by the COVID-19 pandemic; and

WHEREAS, Pursuant to Sec. 8-213 of the 2012 City Charter and Public Act 182 of 2014, the City's Chief Financial Officer, Budget Director, Auditor General, and the City Council's Legislative Policy Division, along with other top officials held a revenue estimating conference which determined reasonable, agreed upon revenue projections for the General Fund revenues for the upcoming fiscal year, of \$1,085 billion; however, \$194 million in cuts were made due to the unanticipated projected revenues shortfalls due to COVID-19; and

WHEREAS, The FY 2021-2024 four-year financial plan, as presented to City Council, shows employee benefits increases from \$81.7 million in FY 2023 to \$187.8 million in FY 2024, an increase of \$106 million. More specifically, discretionary pension contributions go from zero to \$166 million in FY 2024. The FY 2024 \$166 million pension payment is based on a 30-year amortization period. The OCFO estimates the FY 2024 pension payment to be \$179 million based on a 25-year amortization period, and \$199 million on a 20-year amortization period. The Retiree Protection Trust Fund (RPTF) was projected to grow to \$355 million to soften the pension blow in FY 2024. Unfortunately, due to the COVID-19 pandemic, the planned extra \$20 million payment into the RPTF in FY 2021 will not be made from general fund surplus. In FY 2024, the pension payment could approach from 17 to 20% of the general fund budget. The amount of the City's annual pension payment fluctuates depending on how the stock market and the pension investments perform, the pension payback period (payment amortization payment) and how much the City owes in pensions (unfunded actuarial liability). Conservative budgeting needs to be continued to reflect fiscal realities and avoid a reversion into bankruptcy and to diminish the City's ability to provide critical services. Pension costs will need extremely close monitoring; and

WHEREAS, Mayor Duggan projects a \$348 million revenue shortfall over the course of the next 16 months due to the impact of the COVID-19 pandemic. The

Mayor estimates a \$154 million revenue shortfall for FY 2020 and a \$194 million revenue shortfall for FY 2021. City Council has received an amendment to the 2021 proposed budget in the Mayor's errata letter which addresses the projected FY 2021 revenue shortfalls with a series of appropriation reductions, mainly in the form of work furloughs, work share, layoffs and cost of living elimination along with capital project deferrals as well as elimination of most new initiatives; and

WHEREAS, The Detroit City Council adopts a program budget that is based on sound conservative budgetary principles for municipalities, well-reasoned financial assumptions and past performance, as well as stated goals and projections for City departments, divisions and agencies, as well as in consideration of the dictates of the "Plan for the Adjustment of Debts of the City of Detroit" (POA); and

WHEREAS, For several years now, the Administration has astutely recognized that the City's Plan of Adjustment contained several questionable key assumptions that need to be addressed in order to manage the projected shortfall in the City's pension obligations. The City has established a Retiree Protection Trust Fund that will allow the City to build up approximately \$335 Million in trust assets to offset the City's annual required contributions that resume in FY 2024. In September 2017, for FY 2018, the City transferred the first \$105 Million in funding. In FY 2019, \$20 Million was contributed to the fund, \$45 Million in FY 2020 and will contribute \$50 Million in FY 2021. The trust is intended to ensure that pensioners who have already suffered a significant loss due to the City's bankruptcy will not be harmed further by a collapse of the pension system. The trust assets should allow for prudent financial planning sufficient to avoid a steep deficiency in pension payments and to stabilize the City's financial future; and

WHEREAS, The Administration's workforce reduction portion of the plan to balance the budget calls for 266 layoffs of temporary, part-time and seasonal employees. In response and in order to support these workers, City Council urges the Administration, Human Resources and the Workforce Development Department to develop a comprehensive plan to support laid-off workers with unemployment claim processing assistance, training opportunities, job placement, and by committing to return workers to their positions once work and funding becomes available; and

WHEREAS, The local community has expressed a need for a bus shelter on Linwood near the corner of Ferry Park on the Linwood bus route. The estimated cost to construct the shelter is \$8,000 and should be allocated as funds become available; and

WHEREAS, We appreciate the Admin-

istration's recognition of the importance of transportation services and offering free bus rides during the COVID-19 pandemic. In order to meet the needs of low-income transit riders and ensure that all Detroiters have access to mobility, we urge the Administration to implement a low-income fare pilot program using recommendations provided in the Low Income Fare Analysis Report; and

WHEREAS, City Council urges the Administration, when it is economically feasible, to add one additional graphic designer for citywide digital content to the Media Services Department. The recommended rate of pay for a Graphic Designer is \$43,167 - \$60,433; and

WHEREAS, The Consumer Electronics Convention, an annual trade show organized by the Consumer Technology Association, is where global technology companies, startups, and pioneers from around the world come to launch products, build brands and partner to solve some of today's most pressing challenges. The City would benefit from attending the conference; therefore, the Media Services Department agrees to allocated funding to send one (1) media services employee to the convention to ensure that the City of Detroit is at the forefront of any new technology developments that will enhance and create efficiencies in current City of Detroit digital operations; and

WHEREAS, Due to the age of the housing stock, the over-assessment of property, and the low average median income in the City of Detroit, there is an abundance of need for home repair grants for Detroit homeowners. Therefore, City Council urges the Administration to fully fund the Senior Home Repair Grant program at the proposed \$6 million funding level. Further, the FY 2021 level of funding for the program should NOT be reduced to cover other budget shortfalls; and

WHEREAS, City Council is urging the Administration to maintain Council input and oversight over the Neighborhood Improvement Fund by ensuring appropriations and expenditures be approved by Council. City Council also urges the Administration to continue to fund the NIF with income tax revenue from the Pistons and NBA Players, as well as Palace Sports and Entertainment employees; and

WHEREAS, As quality affordable housing is still inadequate to meet the needs of the average Detroiters, City Council urges the Administration to continue to fund the Detroit Affordable Housing Development and Preservation fund, as outlined in the Inclusionary Housing Ordinance, with 20% of the City's commercial real estate sales; and

WHEREAS, The City of Detroit currently invests approximately, \$3.7 million

annually into small business funding support through the Motor City Match and Motor City Restore programs. However, rather than those funds being directed to the establishment of businesses within the retail corridors, focus should be aimed at investment into businesses that can perform City of Detroit contractual services. The Housing and Revitalization Department has agreed to develop a program to set aside at least twenty five percent (25%) of awarded Motor City Match dollars for investment into businesses that can perform City of Detroit contractual services; and

WHEREAS, To ensure transparency, we urge the Administration to provide Council with a cumulative quarterly report addressing all assembled land being considered and/or marketed to developers for potential industrial development by the Detroit Economic Growth Corporation, the Detroit Land Bank Authority, or other city entities; and

WHEREAS, Additional staffing for the Board of Ethics would greatly benefit the City. The Department needs a total of 6 full-time equivalent positions (FTE) to meet current demands. The Mayor proposes adding one FTE, for a total of four FTEs in FY 2021. The addition of two more FTEs, as well as funding for additional operating services and other expenses, would cost \$189,991; and

WHEREAS, City Council urges an increase in the City's General Fund subsidy to the Eastern Market Partnership from \$225,000 to \$300,000 to help defray increasing maintenance costs and increased expenses due to storm water management fees; and

WHEREAS, In response to increased blight ticketing of residents and the implementation of the Rental Ordinance, City Council requests an additional appropriation for Buildings Safety Engineering and Environmental Department (BSEED) to educate landlords and homeowners on ways to avoid and resolve rental compliance or blight violations; and

WHEREAS, City Council urges BSEED to dedicate adequate staff to continue enforcement related to car repair facilities and the adherence to the Bulk Solid Materials Ordinance; and

WHEREAS, On January 7, 2020, the Detroit City Council unanimously passed a resolution to create the Office of Disability Affairs. In Detroit, people with disabilities comprise 19.5% of the population which equates to 126,001 people, only 30.4% of whom are employed. The obstacles faced by the population of disabled people in Detroit are great enough to require the creation and funding of the Office of Disability Affairs. The City of Boston successfully created its own "Disabilities Commission", with a 2020 budget of \$487,540, including \$465,440 allocated

towards personnel services, \$14,600 toward contractual services, and \$7,500 toward supplies and materials. The population of Boston is very similar to that of Detroit's. However, the population of disabled people under the age of 65 is only 8.6% of the population of Boston, whereas Detroit's 19.5% of its population. City Council urges the Mayor to increase funding allocated towards disability services to enhance services and address issues of disabled Detroiters; and

WHEREAS, The COVID-19 pandemic has shown us the importance of having a robust language access plan in the city, and the need for legislation and additional resources to effectively implement the current plan. In order for the City of Detroit to provide meaningful access to City services, resources and programs, we urge the Administration to allocate additional funds to the current Language Access Plan (LAP) through Civil Rights, Inclusion, and Opportunity Department; and

WHEREAS, In 2018, City Council created the Skilled Trades Readiness Fund from an allocation from the compliance fee dollars for investment in training, child care costs and transportation assistance with the intent to assist with the alleviation of barriers for those interested in gaining employment in the skilled trades. This crucial investment ensures that residents interested in the skilled trades are able to receive support to remove some of the most common barriers for those interested in the skilled trades. To support Skilled Trades Readiness, \$340,000 will be allocated to the Skilled Trades Readiness Fund to assist residents interested in Skilled Trades with Basic Skills Contextualized, Child Care, and Transportation Assistance; and

WHEREAS, In 2018, police authorized towing services that had long been the domain of private towers in the city, were brought into the City's Police Department. To lessen any hardship caused by this change, the Detroit Police Department has agreed to limit the in-house tows to 25% of the total. Additionally, the department has agreed to improve the payment related issues by working to resolve all outstanding invoices and instituting a two-week payment processing; and

WHEREAS, City Council urges an appropriation of funds to Think Detroit PAL in the amount of \$175,000 when funds are available. Additionally, Council request that the Administration work with Think Detroit PAL to develop a subsidy for Permits and Field Clean up and Maintenance services where City owned facilities are utilized.

WHEREAS, To make sure that the citizens of Detroit can continue to have the opportunity to experience the arts, the City has long supported its museums. City Council requests the continuation of that

support and an additional allocation of \$500,000 to the \$1.9 million proposed appropriation to the Charles Wright Museum of African American History for its operation; and

WHEREAS, City Council urges the Administration to sufficiently staff the Detroit Police Department's Traffic Enforcement Division with full time weigh masters, train additional officers, and purchase updated equipment to adequately enforce truck traffic around the Gordie Howe International Bridge area and other industrial development sites around the City; and

WHEREAS, Pro Tem Sheffield has been working in partnership with the Fire and Law Departments to develop a "rapid entry system" protocol to allow the Fire Department instant access to specific types of buildings during an emergency call. The proposed new protocol, is the proposed "rapid entry system" ordinance is designed to save lives, and reduce property damage cost by tracking the custody of each key given to the Fire Department by a property owners. The Fire Department has developed a plan to ensure the safe tracking of each key in DFD's custody to minimize any liability issue. The requested appropriation to fund this protocol is \$98,684 to be utilized as follows:

Replacing existing key cylinders at 372 locations, \$10,788;

Installing a key secure system on each Fire and EMS vehicle, \$87,896; and

WHEREAS, City Council has reduced the budget of the City's elected Charter Commission to a total of \$300,000 to be accomplished, in part, by having other City departments provide service to the Commission rather than outsourcing them to private entities. This amount will be revisited when the Administration and City Council consider amendments to the budget throughout the year; and

WHEREAS, Installing vegetation buffers between industrial areas and sensitive land uses such as parks, residences, and schools is another way to mitigate the negative impact of air pollution on vulnerable residents. Buffers absorb or block pollution, protecting nearby communities from exposure to these toxins. We urge the Administration to appropriate funds to the General Services Department to install vegetative buffers between industrial areas and sensitive land uses throughout the city. Additionally, given the City's efforts to assemble land for future industrial development, we urge the Administration to develop city-wide standards around buffering to protect nearby communities from air, traffic, sound, and visual pollution to protect quality of life and promote public health; and

WHEREAS, In order to further promote

welcoming and safe spaces around viaducts, we urge the Administration to invest in public art, specifically murals, near viaducts and in alignment with those viaducts being lit, as these viaducts are more frequently used for resident travel to work, school, and daily life; and

WHEREAS, Air pollution is a significant public health issue in Detroit and environmentally-related diseases are high in the City. Impoverished and minority peoples disproportionately bear the burden of industry as frontline communities. Trees serve an important role in combating air pollution, but while experts recommend 40% tree canopy to protect public health, Detroit's tree coverage is much lower. For example, District 6 has tree canopy close to 3%. Therefore, we urge the Administration to appropriate additional funds to the General Services Department to increase tree plantings in frontline communities throughout the City; and

WHEREAS, Approximately \$150,000 of General Fund dollars had been earmarked for mental health services. City Council urges the Administration to restore this funding, which were intended to increase the behavioral health staff to expand the team's capacity throughout the community, at the earliest possible date; and

WHEREAS, It has been reported that of the more than 63,000 Detroit homes with delinquent debt as of last fall, more than 90% were overtaxed—by an average of at least \$3,700—between 2010 and 2016, according to calculations by The Detroit News. The City Council urges the Office of the Chief Financial Officer to invest one hundred and fifty thousand dollar (\$150,000) to hire a Property Tax Overassessment Special Project Coordinator to facilitate the formation of an inter-governmental business, foundation and community Ad Hoc group to explore options and provide recommended solutions to address the 2010-2016 property tax overassessment, facilitate homeowner training for residents to increase awareness on the property tax assessment process, foreclosure rights and responsibilities, appeals and available foreclosure resources and for the marketing, advertising and facilitation of the activities of the Property Tax Overassessment Special Project Coordinator; and

WHEREAS, In 2019, the City of Detroit spent \$691 million on the procurement of goods and services. However, a number of those contractors have few (or no) Detroiters employed to perform those contracts. Furthermore, several industries such as the vehicle maintenance and repair industry have a lack of Detroit contractors and employees. City of Detroit contracts provide the opportunity for the City of Detroit to invest in its residents by providing contract and employment opportunities to res-

idents utilizing taxpayer dollars. It is crucial that the City of Detroit is intentional with the procurement of City services to ensure Detroiters benefit from the spending of their tax dollars. Due to a lack of adequate resources dedicated towards managing and increasing the number of Detroit residents employed on City of Detroit contracts, a report on the number of Detroiters employed on City of Detroit contracts in order to evaluate what industries the City of Detroit should invest workforce development dollars in, was unable to be submitted. City Council urges a thorough focus and collaboration between the Office of Procurement, Civil Rights, Inclusion and Opportunity Department and the Detroit Employment Solutions Corporation to evaluate contractor employment needs and opportunities, and to develop training programs and an employment strategy to ensure that residents are prepared for contract opportunities, and that contractors are aware of how to access qualified Detroiters to hire to perform services on City of Detroit contracts; and

WHEREAS, City of Detroit contracts are a beneficial mechanism to invest into economic equity and opportunities for Detroit residents. Following two years of rigorous community engagement supported by the Detroit Supply Schedule Ordinance, it was found that many businesses that desire to provide City of Detroit contractual services have barriers accessing funding for business startup costs. That is why it is prudent for the City to invest in preparing Detroit residents and businesses so that they are primed to take advantage of opportunities as they become available. The City's continued need for janitorial services, grounds maintenance and other recurring services provides an opportunity to hire Detroit residents and engage Detroit businesses which ultimately results in greater investment into neighborhood services such as crime and safety, clean streets and neighborhoods, and other defined community priorities. City Council urges The Office of Procurement to invest into outreach and engagement activities to increase Detroit-based and Detroit-headquartered businesses on City of Detroit contracts; and

WHEREAS, The Office of Procurement agrees to the completion of a City-wide contractual assessment of the number of Detroiters employed by each contractor and evaluation of what services lack Detroit-resident employment, as well as a City-wide contractual assessment of the number of Detroit-Based and Detroit-Headquartered businesses within the City of Detroit and an evaluation of what services lack Detroit business representation; and

WHEREAS, City Council urges The Office of the Chief Financial Officer to work with the Office of Procurement, the Civil, Rights, Inclusion and Opportunity

Department, and the Office of Workforce Development to develop a program and strategy geared towards tracking and monitoring the number of Detroit residents employed on City of Detroit Contracts, determining training and employment needs to prepare residents for employment on City of Detroit Contracts, and planning and hosting community engagement fairs with City of Detroit contractors that have less than 51% Detroit residents employed on their contracts in order to ensure that Detroit residents are trained, prepared, and have access to employment on City of Detroit contracts; and

WHEREAS, The Administration's proposed budget cut \$51,969 from the budget of the Office of the Ombudsman. City Council urges the partial restoration of \$30,000, to give the Office the ability to secure contractual services as well as other operational expenses; and

WHEREAS, City Council urges the restoration of \$2,750 to the Board of Zoning Appeals training budget; and

WHEREAS, City Council urges an increase in the budget of the Board of Review consistent with the BOR's FY 2021 request to facilitate processing more claims for citizens seeking poverty exemptions and giving citizens more opportunity to appeal their assessments. As was contemplated in the Board's budget request, it seeks an increase in members' per diem rate from \$200 to \$225 to offset the costs of healthcare and other benefits; and

WHEREAS, Too often, mothers are forced to return to work without adequate time to recuperate from giving birth or for bonding time with their new infant because of the lack of financial resources. According to the National Center for Health Statistics, 16% of new mothers took only one to four weeks off work after giving birth, and at least 33% took no formal time off at all, returning to work immediately. City Council proposes and strongly urges the City of Detroit to implement a parental leave policy that will pay employees 100% of their salaries for six weeks during a maternity or paternity leave for Detroit employees, bringing Detroit in line with thousands of forward-thinking, competitive cities and private sector companies across the country; and

WHEREAS, There are sixty-seven viaducts in District 6 and many remain blighted and dark, endangering members of the community who walk through them. In order to make them safe and welcoming, City Council urges the Administration to incorporate viaduct maintenance and lighting into the Capital Improvement Plan, prioritizing those closest to schools and heavily trafficked residential areas, and appropriate funds to improve them; and

WHEREAS, Given the City's focus on assembling land for future industrial uses,

we urge the Administration to conduct truck traffic studies around current and future industrial sites to mitigate negative environmental, public health, and quality of life impacts, and provide quarterly reports with respect to land assembling activities by the DEGC, the Land bank and other quasi-governmental entities; and

WHEREAS, Among the many fiscal casualties of the COVID-19 pandemic is funding for the City's ongoing campaign to alleviate the blight problem in our neighborhoods. City Council urges the Administration to work to develop a plan to bring the demolition program back to an adequate funding level approximating \$40 million in upcoming years; and

WHEREAS, Given the significant reduction in blight funds due to the COVID-19 pandemic, it is imperative that we use the remaining allocation of \$10M in a manner that has the biggest impact on protecting residents' safety and yields the greatest return on investment. We urge the Administration to use a substantial portion of the remaining blight funds to implement a comprehensive board-up program that includes all floors of the structure in order to mitigate immediate public safety concerns, prevent crime, and preserve salvageable structures for future rehabilitation. Additionally, sufficient funding should be allocated to maintain the outside of structures as necessary to address all immediate public health and safety issues.

WHEREAS, Eliza Howell Park, located in the Brightmoor neighborhood, is an urban oasis of 250 acres of diverse and rich ecosystem of flora and fauna which serves as a critical ecosystem located within the floodplain of the Rouge River. Currently the General Services Department maintains jurisdiction of the road within the park. This is unique in that it is the only road within the Department's jurisdiction. This, however, prevents the road from receiving funding through the Street Fund for major and much needed infrastructure improvements. Therefore, City Council urges the Administration to transfer jurisdiction of the road within the geographical boundaries of Eliza Howell Park from the General Services Department to the Department of Public Works and if fiscally feasible that the funding is allocated towards the restoration of this road in FY 2020-21; and

WHEREAS, A sizable number tenants fighting eviction would not lose their case if they had legal representation. Additionally, about 97% of cases in housing court are initiated by landlords that have legal representation while the vast majority of tenants do not, resulting in landlords evicting tenants because they have power, not because the law supports them. While City Council acknowledges

the Administration's effort to address the issue through a pilot, Council urges the administration to support and fund, to the extent legally feasible, the Right-to-Counsel ordinance being drafted which will provide legal representation for the over 30,000 families facing eviction each year; and

WHEREAS, City Council's traditional budgeting role is to provide necessary fiscal checks and balances to maintain a balanced budget and address the City's accumulated and structural deficits through a deliberative process. The Council has endeavored to fulfill this function to the extent possible in this extraordinary moment in the City's, and human, history. City Council believes that through the preliminary implementation of its 2020-2021 budget, coupled with the Plan of Adjustment, and anticipated forthcoming budget amendments from the Administration, the City's recent financial dilemma will be appropriately addressed providing a viable course toward future financial stability. NOW THEREFORE BE IT

RESOLVED, That the City Council urges the Mayor to submit budget amendments to Council as legally required by the Detroit City Charter and state law, that reflect any required budgetary changes including, but not limited to: 1) expected revenues that are lower than anticipated, 2) cost increases significantly beyond budgeted amounts, 3) revenues that are higher than expected, or 4) cost decreases significantly below those reflected in the adopted 2020-2021 Budget; BE IT FINALLY

RESOLVED, That the City Clerk is directed to provide a copy of this resolution to the Financial Review Commission, Mayor Mike Duggan of the City of Detroit, the Chief Financial Officer, the Finance Director, the Budget Director, Wayne County Executive Warren Evans and all agencies, departments and divisions of the City of Detroit.

**City Planning Commission**

March 13, 2020

Honorable City Council:

Re: Request of the Detroit Planning and Development Department to amend Article XVII, District Map No. 1 of the 2019 Detroit City Code, Chapter 50, Zoning, by showing a B5 (Major Business District) zoning classification where a PC (Public Center District) zoning classification currently exists on five parcels, commonly identified as a portion of 25, 27, 29, 31 and 33 Washington Blvd., generally bounded by W. Jefferson Avenue to the north, Washington Blvd. to the east, the Detroit River to the south, Third Street to the west. (Recommend Approval)

**NATURE OF REQUEST AND PROJECT PROPOSAL**

The City Planning Commission (CPC) has completed its review and deliberations on the request of the City’s Planning and Development Department (PDD) to amend Article XVII, District Map No. 1 of the 2019 Detroit City Code, Chapter 50, Zoning, by showing a B5 (Major Business District) zoning classification where a PC (Public Center District) zoning classification currently exists on five parcels, commonly identified as a portion of 25, 27, 29, 31 and 33 Washington Blvd., generally bounded by W. Jefferson Avenue to the north, Washington Blvd. to the east, the Detroit River to the south, Third Street to the west.

The PC district includes areas used or to be used for governmental, recreational, and cultural purposes of particular or special civic importance.

The B5 district is designed to provide adequate regulations within the Central business district, the New Center Area, and may be successfully utilized in other regionally-oriented shopping and office areas.

**BACKGROUND**

The subject properties total approximately 5.19 acres and are located in City Council District 6. The subject parcels are currently under the ownership of the Sterling Group, which came to acquire the property after entering an agreement with New York-based Financial Guaranty Insurance Corporation (FGIC). In late 2019, Sterling Group came to an agreement with the City to purchase certain development rights.

The subject properties are located in Census Tract 5208. The total population for the area is 1,772 based on the most recent census data. The residential vacancy rate is approximately 13%.

**Proposed Development**

The B5 zoning classification would allow for the future development of the site without the encumbrances of the PC zoning classification. The B5 zoning classification would also support the findings of a 2018 Master Planning Study completed by the Downtown Development Authority in collaboration with various stakeholders in the area. That study contemplates various mixed-use possibilities for the site and, the requested B5 zoning classification would allow the development to entertain a verity of possibilities.

**PLANNING CONSIDERATIONS**

**Surrounding Zoning and Land Use**

The zoning classifications and land uses surrounding the subject area are as follows:

- North: W. Jefferson Avenue & John C. Lodge Freeway.
- East: PC; TCF Convention Center.
- South: The Detroit River.
- West: PCA; Surface parking lot, and Riverfront Towers Apartments and Condominiums.

**Master Plan Consistency**

The subject site is located within the Central Business District area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows “Special Commercial” for the subject properties. CPC has submitted a letter to the Planning and Development Department (P&DD) requesting its comments regarding this proposal.

**Community Input**

On February 20, 2020 a presentation was given to the City Planning Commission on this proposal. The intent of the information presentation was to allow the Commission to pursue same day action on this request.

To date, no communications via mail or telephone have been received in opposition to or support of the requested rezoning.

**PUBLIC HEARING RESULTS**

On March 5, 2020, the City Planning Commission held a public hearing on this request. There were four members of the public in attendance to address the rezon-

ing request. There were no comments received in opposition to the proposed rezoning request.

**ANALYSIS**

The proposed B5 zoning classification would permit 87 by-right public, civic, institutional, retail, service, commercial, manufacturing, industrial and other uses. The most intensive uses in the B5 zoning classification include "Newspaper, daily, publishing or printing" and "Trade services, general." The B5 would permit a variety of Major Business uses including a large scale mix-used development on the subject site, likely on a by-right basis.

The following analysis details how the proposed rezoning either meets or fails to meet the eight approval criteria of Section 50-3-70 of the Zoning Ordinance, which must be considered in making recommendations and decisions on standard rezoning requests.

(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact; No, this request does not correct an error, but it does result in part from the obsolescence of the Joe Louis Arena and the proceedings of the City's bankruptcy.

(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

The proposed rezoning to the B5 zoning classification is consistent with the Master Plan of Policies. While an amendment may be forthcoming to accommodate a new future development, staff is of the opinion that the B5 zoning classification is in conformance with the Special Commercial future land use designation.

(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;

There are no foreseen adverse effects associated with the requested zoning classification. Ultimately, consideration must be given to any future development stormwater and waste management plans, given the sites adjacency to the Detroit River.

(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;

The physical characteristics of the subject property will change significantly as a result of any future development. The potential to reinstate a more traditional street grid exists with the ongoing planning efforts associated with this site. Disruption to city services is not anticipated.

(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding storm water management;

No, as this will result in the redevelopment

ment of the site, no adverse impacts are expected.

(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

The redevelopment of this site is anticipated to have a positive, synergistic effect on adjacent properties.

(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

While the proposal is not consistent with the zoning scheme currently deployed along the near east or west river front segments, it is an evolving situation and the B5 zoning classification is certainly appropriate for this location.

(8) Whether the proposed rezoning will create an illegal "spot zone."

Given the commercial/mixed-use nature of the corridor in which this rezoning has been requested along with the size and proposed rezoning's consistency with the pending Master Plan amendment, staff is of the opinion that the proposed rezoning would not constitute an illegal "spot zone."

**RECOMMENDATION**

On March 5, 2020 the City Planning Commission voted to recommend approval of the Planning and Development Department request to amend Article XVII, District Map No. 1 of the 2019 Detroit City Code, Chapter 50, Zoning, by showing a B5 (Major Business District) zoning classification where a PC (Public Center District) zoning classification currently exists on five parcels, commonly identified as a portion of 25, 27, 29, 31 and 33 Washington Blvd., generally bounded by W. Jefferson Avenue to the north, Washington Blvd. to the east, the Detroit River to the south, Third Street to the west.

Re: Public Hearing on the Establishment of a Neighborhood Enterprise Zone as requested by Life is a Dreamtroit, LLC in the area of 1331 Holden and 5924-6138 Lincoln, Detroit, MI in accordance with Public Act 147 of 1992.

The Housing and Revitalization Department, Planning and Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that establishment of the Life is a Dreamtroit Neighborhood Enterprise Zone would be consistent with all of the aforementioned. Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones". Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not later than 45 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached.

**City Planning Commission**

February 6, 2020

Honorable City Council:

Re: PCA (Public Center Adjacent) Special District Review of exterior changes and demolition of 561 E. Jefferson Avenue, the former Department of Administrative Hearings Building. (Recommend Approval)

**REQUEST**

The City Planning Commission (CPC) has completed its review of the request of Mary C. McCormick of CM Partners Architects for special district review for the proposed demolition of the existing building located at 561 E. Jefferson Avenue and the establishment of a surface parking lot at the same location.

The subject property is zoned PCA (Public Center District Adjacent), a classification which calls for City Council approval of any exterior changes, following the review and recommendation of the City Planning Commission and the Planning and Development Department (PDD) (Sections 50-3-226 and 50-11-97 of the Zoning Ordinance).

**BACKGROUND**

The building located at 561 E. Jefferson Avenue is owned by William & Associates Title Agency, Inc. The property is generally identified as a vacant two-story commercial building. The property has been vacant for approximately six years, after the City of Detroit's Department of Administrative Hearings opted not to renew their lease on the property. Since that time, the property has remained vacant and has fallen into disrepair as the result of transient populations utilizing the property without authorization.

In 2016, the property owner initially submitted an application to Buildings, Safety Engineering and Environmental Department (BSEED) for the demolition of the subject property. The demolition permit was ultimately forwarded to City Planning Commission (CPC) staff for review and sign off, however, given that the subject property is zoned PCA, as indicated above, review and recommendation of both CPC and PDD is required.

Subsequently, three additional demoli-

tion permits were applied for over the course of the past three years, yielding the same results, that being, staff's inability to act on the demolition request due to the property being located in the PCA and needing both CPC and City Council review and authorization. In July of 2019, conversations commenced with a consultant of the owner, with the intent to either repurpose to building, maintain the façade of the building, or to create some type of scaled-down development with the aim of maintaining the E. Jefferson street wall. The renderings submitted were not satisfactory, nor were they in compliance with the review and approval criteria for PCA or Special District Review.

In October of 2019, the owner contracted with CM McCormick Architects to once again pursue the requested demolition of the property. Unlike in the past, the consultant appropriately applied for PCA review prior to pursue the issuance of demolition permits from BSEED.

The proposed work described below has been jointly reviewed by Planning and Development Department and City Planning Commission staff.

#### **PROPOSED WORK**

The developer proposes to demolish the property in its entirety and establish a 36-space surface parking lot with the required buffering and landscaping, per the off-street parking requirement of Division 2, Subdivision C of Chapter 50, as presented in the site plans submitted at the time of application.

#### **PUBLIC DISCUSSION**

A public discussion in this regard was held at the Commission meeting of Thursday, November 21, 2019. At that time there were two members of the public present who spoke in opposition to the proposed demolition of the subject property to accommodate the establishment of a surface parking lot.

The Commission raised a number of concerns regarding the need to demolish what appears to be a salvageable asset in downtown Detroit. The Commission also raised a number of questions regarding the manner in which the property has been historically marketed and what efforts the current owner has used to attract a viable tenant.

#### **REVIEW**

On Thursday, December 19, 2019, CPC staff, along with representatives of the property owner gained entry via the front of the property, however, staff was impeded from gaining further entry due to the property being occupied by trespassers. The rear of the property was barricaded from within. Upon entering the foyer of the property, it was evident that the occupants of the property were utilizing fire to keep warm. The Detroit Police Department and the Detroit Fire Department were promptly notified. No further

attempts to enter the property for an evaluation of the conditions has been made by Commission staff. The representative for the property owner indicated that they would provide photos of the buildings current condition, which are included for your review.

At the Commission meeting of January 9, 2020, the property owner provided a number of proformas indicating the cost for build-out and rehabilitation of the subject property based on past efforts to market the property for reuse. It was indicated that the property was being marketed at a rate of \$17 per square foot, while comparable properties in the downtown area were being marketed at a rate of up to \$42 per square foot.

Given the current market conditions and based on the information provided, it would appear that any further build-out of the property would be cost prohibitive to the current owner.

The subject property is located in Cluster 4 in the Central Business District subsector of the Master Plan of Policies. Goal 6 for the Central Business District subsector of the Master Plan of Policies aims to improve the districts position as a center for corporate headquarters. Policy 6.1 is intended to provide incentives to attract businesses to participate in the rehabilitation and occupancy of the Central Business District's major office buildings.

Policy 6.2 is intended to encourage cooperation with business organizations and other City agencies to attract corporate headquarters to the Central Business District. CPC is of the opinion that these goals and policies cannot be achieved if Central Business assets such as 550 W. Fort Street, 561 E. Jefferson are continually lost for the sake of surface parking.

The property owner has indicated that the building has sat vacant for the past 15 years. As stated previously, several options have been considered with the hopes of building-out the property for new uses, unfortunately to no avail. The property owner has indicated that there has been both national and international interest in the property over the past 15 years given its proximity to the GM Global Headquarters, however, they have cited the existence of a transient population which frequently gain entry to the property as one of the deterrents for potential investors.

The property has sustained a significant amount of damage. While the structure appears to be sound, an expert analysis will be needed to determine the structural integrity of the building. Given the substantial damage to the interior of the structure from exposure to the elements and the unlawful inhabitation of the building, staff is of the opinion that the interior would need to be completely gutted and renovated. There is clear evidence of fire

damage and mold throughout the structure. Given these reasons and the cost associated with a substantial rehabilitation, the property owner contends that it is not economically viable for them to retain this asset.

In regards to City Design, the Master Plan of Policies states:

*"The building and spaces of the City have evolved over the decades, merging local historical and cultural traditions with evolving economic needs and modern tastes. The City's vitality is a product of the continued evolution of these buildings and spaces. As development contributes to the evolution of the cityscape, it must be guided in a way that doesn't disrupt the unique attractiveness of the City."*

The Master Plan clearly speaks to an urban fabric that is built on an historic foundation through an evolutionary process. While there is a clear desire to retain the structures that contribute to that fabric, compromise, while not easy, is sometimes unavoidable even with historically designated properties. This appears to be a circumstance wherein market forces, financial infeasibility, and social ills may be leading to the decline of the subject properties as well as neighboring structures. Located along the eastern periphery of downtown with existing surface parking to the north, it may be that this area is in transition, and, notwithstanding the Master Plan and other policies, removal of the structures may be appropriate to this area's evolution at this time.

Section 50-11-97 of the Detroit Zoning Ordinance, "PCA District Review Criteria," lists 18 provisions which must be taken into consideration when a proposal is being reviewed for consistency with the spirit, purpose and intent of the PCA district. With the exception of criteria 1 (Master Plan) and 14 (Historic Preservation) addressed above, the criteria appear to be satisfied. The site plans as presented meet the criteria as it relates to exterior design, appearance and exterior alternations, etc.

The major alteration to the site is the razing of the existing structure and the affect the loss of such an asset would have on the Jefferson Avenue street wall. In response, the developer has presented plans that seek to carry over the continuity of screening from the Larned Street frontage with the incorporation of precast concrete and mortar pillars with a brick face veneer, in addition to wrought iron fencing. This proposed approach would honor the façade of the current structure.

The Planning and Development Department, in concert with the City Planning Commission staff, finds that the proposed plans meet the requirements for PCA approval, as addressed in this report, and as outlined in the provisions of the zoning ordinance.

**RECOMMENDATION**

While not fully compliant with City policies or desired practices, in light of the circumstances CPC reluctant finds the proposed project to be acceptable. We would prefer the structure remain and the property owner seek to retain the property until a tenant is found. However, we recommend approval of the proposed alteration to the site. CPC also finds that the proposal would not adversely affect the value of adjacent properties.

CPC also recommends that in order to affirm the City's position and expectations, the City revisit and revise as appropriate policies and regulations corresponding to the retention and preservation of such structures as well as the priority, siting and design of parking facilities.

Honorable City Council:

Re: Approval to Appropriate & Expend Program Income HUD Neighborhood Stabilization Program – NSP-1.

The Housing and Revitalization Department ("HRD") coordinates funds received by the City of Detroit ("City," from the United States Department of Housing and Urban Development ("HUD") under the HUD Neighborhood Stabilization Program established by Section 2301(b) of the Housing and Economic Recovery Act of 2008 ("NSP-1 Program").

Under the NSP-1 Program, the City has received formula grants from HUD to fund eligible activities under the NSP-1 Program ("NSP-1 Funds") that has primarily been used by the City to invest in the preservation and development of housing, blight removal and other eligible uses in the City ("City NSP-1 Activities") including to provide loans to developers to complete certain qualified affordable housing development projects. Developer loan repayments and other revenue from the City NSP-1 Activities are considered program income by HUD and are subject to certain NSP-1 Program regulations with respect to the handling and use of such funds. The City primarily uses such program income to invest in the preservation and development of housing

and to remove blight as approved by Detroit City Council.

The revenue received by the City from the City NSP-1 Activities is not typically projected in HRD's annual City Budget given the inconsistent and unpredictable loan payment history from developers. To date, the City has received approximately \$100,422.33, more or less, in revenue from developer loan repayments on City NSP-1 Activities that has yet to be appropriated.

Therefore, HRD is hereby requesting that your Honorable Body adopt the attached resolution granting approval to HRD to appropriate and expend any and all payments that have been and/or will be received by the City under any City NSP-1 Activities, with expenditures from funds received on the City NSP-1 Activities limited to new or amended loan allocations to developers and other eligible uses that receive separate approval from Detroit City Council. HRD will provide the O-CFO with a report each year that includes all payments and repayments received, as well as the specific uses for which the funds were used. This will allow such funds to be appropriated and expended, thus providing for additional funding to be used for affordable housing development projects and other eligible uses and initiatives as approved by this Honorable Body.

Honorable City Council:  
Re: Property Sale. 18543 W. Warren  
The City of Detroit, Planning and

Development Department (“P&DD”) has received an offer from Omar Ayoub (the “Purchaser”), to purchase certain City-owned real property at 18543 W. Warren, Detroit, MI (the “Property”) for the purchase price of Two Hundred and 00/100 Dollars (\$200.00).

Parcel 22000624/Address 18539 W. Warren and Parcel 22000625/Address 18543 W. Warren were retired March 13, 2013. They were combined into a new Parcel 22000264-5/Address 18539 W. Warren and placed on the tax rolls. 18539 W. Warren consists of a small retail store situated on approximately 3285 square feet and zoned B4 (General Business District).

All property taxes have been paid on 18539 W. Warren. Parcel 22000625/Address 18543 W. Warren, however, incorrectly remained on the tax rolls. The Wayne County Treasurer foreclosed on the Property based on the erroneous tax information. The Property has since been conveyed by Wayne County to the City of Detroit.

The Purchaser is the owner of 18539 W. Warren. He wishes to purchase the Property to remove the City’s interest, in order to secure clear title. This would serve to mitigate ongoing title issues.

We, therefore, request that your Honorable Body adopt the attached resolution to authorize the Director of P&DD, or his or her authorized designee, to execute a deed and such other documents as may be necessary or convenient to effect a transfer of the Property by the City to Omar Ayoub.

Respectfully submitted,

Resolved, That the Director of the Planning and Development Department (“P&DD”), or his or her authorized designee, is authorized to execute a quit claim deed and other such documents necessary or convenient to effect transfer of the Property to the Purchaser consistent with this resolution; and be it further

ceeds and 3) customary closing costs up to One Hundred and 00/100 Dollars (\$100.00) shall be paid from the sale proceeds; and be it further

Resolved, That the P&DD Director, or his authorized designee, is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Property, provided that the changes do not materially alter the substance or terms of the transfer and sale; and be it finally

Honorable City Council:

Re: Correction of Sales Resolution. Surplus Property Sale by Development Agreement. 1425 E. Jefferson.

On November 8, 2017, your Honorable Body adopted a resolution authorizing the sale by development agreement of 1425 E. Jefferson, Detroit, MI (the "Property") to East Jefferson Development Company, LLC (the "Purchaser") to develop along with certain adjacent property into a 215,000 square foot, mixed-use development with retail space and approximately 213 residential units (the "Project").

Due to project financing constraints, the Purchaser has redesigned the Project to remove the midrise apartments above the grocery market. However, the revised Project design will still include an approximately 43,000 sq. ft. grocery market with 100-space surface parking lot. Purchaser has created a new single purpose entity named Jefferson Larned Development Company LLC that it wishes to complete the development. Furthermore, based on

the proposed site plan, the legal description for the Property was revised to include an additional 11.5 feet of land.

In anticipation of the closing on the sale of the Property in April 2020, we hereby request that your Honorable Body adopt the attached resolution that amends the above referenced sales resolution to reflect: 1) a change to the development agreement obligations to reflect the redesign of the Project into a grocery market, 2) a name change in the Purchaser from East Jefferson Development Company, LLC to Jefferson Larned Development Company LLC and 3) an updated legal description for the Property.

Respectfully submitted,

Honorable City Council:

Re: Authorization to accept a donation of park improvements from Detroit Audubon to be installed in Callahan Park.

Detroit General Services Department requests authorization from your Honorable Body to accept a donation of park improvements from Detroit Audubon, to be installed at Callahan Park. Improvements have an estimated value of \$300.00, to be borne by Detroit Audubon.

Park improvements consist of the installation of a Little Library. Jacob Mattson will

design, create, and install the library as part of his Boy Scout Eagle project. As Callahan Park is an intentional meadow, the library will have a nature theme with books on plants, birds, and pollinators.

Community member, Paul Weertz, will maintain the library for the next five years by assuring there are no leaks, and the library is stocked with books.
