**RESOLUTION IN SUPPORT OF**

**MICHIGAN SENATOR GARY PETERS' COVID-19 HEROES FUND**

By Council Member Ayers:

WHEREAS, Since the start of the pandemic in the United States, including the State of Michigan and the City of Detroit, essential workers have been the backbone of the continuation of production and distribution of essential services (including but not limited to police, fire, transportation, food and grocery service and personnel) that support the fundamental needs of all U.S. Citizens; and

WHEREAS, The Detroit City Council acknowledges the unselfish sacrifice these dedicated workers continue to provide and the unheralded danger they endure on a daily basis in the face of this unprecedented pandemic; and

WHEREAS, United States Senator Gary Peters of Michigan has proposed the COVID-19 Heroes Fund to the U. S. Congress for consideration of a pandemic premium pay to reward, retain, & recruit essential workers stating that:

"Essential frontline workers are the true heroes of America's COVID-19 pandemic response. I believe we should provide premium pay to frontline workers during this pandemic to reward essential frontline workers, ensure the retention of essential workers who are working grueling hours on the frontlines of this crisis, and promote the recruitment of additional workers who will be needed in the months ahead"; and

WHEREAS, Senator Peters proposes a pandemic premium pay increase for essential frontline workers, equivalent to a raise of an additional \$13 per hour from the start of the public health emergency until 60 days after its termination.

The amount of Premium Pay:

- Uses a flat-dollar amount per hour premium model in order to ensure it is clear, simple, and lifts up particularly those workers making lower wages.

- Would give each essential frontline worker \$13/hour premium pay on top of regular wages for all hours worked in essential industries.

The duration of Premium Pay:

- Must be for a specified and clear duration of time to ensure workers can rely on it for their economic security and plan for needs like additional child care.

- Should cover all hours worked by each essential frontline worker through 60 days after termination of the public health emergency, or until the worker's salary-based maximum premium pay is reached.

WHEREAS, The COVID-19 Heroes Fund would be fully federally funded and would partner with entities designated as an "eligible employer" (states, localities, tribes, and certain private sector employers) to issue the fund's premium payments to eligible workers; and

WHEREAS, The Detroit City Council understands the need to provide the necessary compensation to these essential service workers particularly those low wage workers putting their lives on the line; Be It Therefore

RESOLVED, That the Detroit City Council fully supports Senator Gary Peters' COVID-19 Heroes Fund as proposed and urges the United States Congress to give full consideration and support to passage of the COVID-19 Heroes Fund; and Be It Further

RESOLVED, That a copy of this resolution be presented to the Michigan Congressional delegation.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Leland, McCalister, Jr., Sheffield, Spivey, Tate and President Jones — 9.

WHEREAS, The City of Detroit and the State of Michigan are necessarily and appropriately responding in strong and definitive ways to slow the pandemic's spread and save lives, ordering residents to remain in their homes except for essential activities; and

WHEREAS, Because of these orders and their impact on service and other

industries, many workers in sectors of the economy where working remotely is impractical or even impossible will lose or have already lost their jobs, including the hospitality, entertainment, travel, retail, and other service sectors, while unemployment filings in Michigan and other states have skyrocketed; and

WHEREAS, Those workers who are eligible for unemployment insurance are drawing only a fraction of what they would otherwise earn with a maximum of \$450 per week, and many workers may not be eligible for any unemployment benefits at all; and

WHEREAS, Forty percent of Americans do not have cash on hand to cover an unexpected expense of \$400, and 78 percent of American workers said they were living paycheck to paycheck; and

WHEREAS, Low income Detroiters and their households continue to be among the very large number of families and households facing severe housing cost burdens; and

WHEREAS, It is critically important that Detroiters who currently have housing are not made homeless or destitute because of this public health crisis; and

WHEREAS, To date no rent relief program is in place and mortgage forbearance guidance for single-family homeowner mortgages has been issued by Freddie Mac, but remains subject to individual banks to decide how and if to implement; and

WHEREAS, Banks are therefore able to withstand nonpayment of debt during this emergency and work out extensions and other ways for debt to be refinanced when the health emergency is over; and

**RESOLUTION IN SUPPORT OF THE UNITED STATES COURT OF APPEALS FOR THE SIXTH CIRCUIT'S RULING IN GARY B. ET AL., V. SNYDER ET AL., AND THE RIGHT TO LITERACY**

By Council Member Tate:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions and policy; and

WHEREAS, Section 2 of the Michigan State Constitution states that: [t]he Legislature shall maintain and support a system of free public elementary and secondary schools as defined by law. Every school district shall provide for the education of its pupils without discrimination as to religion, creed, race, color or national origin. However, the type of education Michigan children receive is based historically on several socioeconomic factors such as geography, resources and funding; and

WHEREAS, Access to quality education are the fundamental building blocks of every civilization. Investing in the education of our youth ensures upward mobility and is integral to eradicating generational poverty. However, decades of State disinvestment in the education of students in Detroit schools and the implementation of numerous emergency managers have denied those students of the most basic building block of education — literacy. In 2018, testing results from the National Assessment of Educational Progress ("NAEP") stated that the Detroit Public Schools Community District ("DPSCD") scored the lowest in the nation compared to 26 other urban districts for reading at the fourth and eighth grade levels. There has

been some progress according to the test results from the 2019 NAEP; however, the improvement was not statistically significant and state remains near the bottom third in literacy; and

In 2016, schoolchildren from five of the lowest performing schools in Detroit: Osborn Academy of Mathematics (“Osborn MST”), the Osborn Evergreen Academy of Design and Alternative Energy (“Osborn Evergreen”), the Medicine and Community Health Academy at Cody (“Cody Health”), Hamilton Academy (“Hamilton”) and Experiencia Preparatory Academy (“Experiencia”) sued the State of Michigan seeking relief. The case, *Gary B. et al. vs. Snyder et al.*, is the first federal case in the nation to seek to vindicate the right of all students to access to literacy, no matter their zip code or socioeconomic status. The Plaintiffs who believed that they have been deprived access to literacy and that the education received was inadequate to the schooling provided to others; and

WHEREAS, In 2020, after lengthy court challenges, the United States Court of Appeals for the Sixth Circuit ruled that students do have a constitutional right to literacy. In its ruling, the Court recognized that the Constitution provides a fundamental right to a basic minimum education and that the right only guaranteed the education needed to provide access to skills that are essential for basic fundamental rights and liberties. Despite several challenges, the Hon. Gretchen Whitmer – Governor of the State of Michigan (“Governor”) has proposed increases in school funding for education – especially for vulnerable populations; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council expresses its support of the United States Court of Appeals for the Sixth Circuit ruling in *Gary B. et al., vs. Snyder et al.*, As stalwart advocates for residents in the City of Detroit, we hereby call for the members of the Michigan State Legislature, the Hon. Dana Nessel – Attorney General of the State of Michigan (“Attorney General”) and the Governor to settle this suit and that the State of Michigan provide equitable education and investment to Detroit schoolchildren; And Be It Further

RESOLVED, That a copy of this resolution be sent to the City of Detroit’s Lansing lobbyists, the Detroit Delegation in the Michigan Senate and Michigan House of Representatives, the Michigan State Legislature, Governor, Attorney General, the Mayor and members of the media.

**City Planning Commission**

May 6, 2020

Honorable City Council:

Re: Proposed Chapter 50 (Zoning) amendment relative to sign provisions (**Extension of Review Period**).

On February 11, 2020, the formal session of Detroit City Council forwarded to the Planning and Economic Development standing committee the report and recommendation of the City Planning Commission, dated February 7, 2020, to amend the sign ordinances of the City of Detroit.

The Detroit Zoning Ordinance specifies in Sec. 50-3-16, "Where a petition for a proposed Zoning Ordinance text or map amendment is not voted upon by the City Council within one hundred twenty (120) days of the time of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council."

The specified 120-day review period will expire on Wednesday, June 10th. The complexity of the issues involved with sign regulations in Chapter 50 and Chapter 4 may necessitate review and discussion of the sign amendments to extend beyond June 10, 2020. Consequently, it would be appropriate to extend the 120-day review period for an additional 120 days to avoid having to restart the ordinance revision process all over at the Planning Commission. A resolution toward that effect is attached.

Respectfully submitted,  
MARCELL R. TODD, JR.

Director

By Council Member Tate:

Whereas, The City Planning Commission voted to recommend approval of sign ordinance amendments on January 23, 2020; and

Whereas, The February 7, 2020 report and recommendation of the City Planning Commission was referred by City Council in formal session to the Planning and Economic Development standing committee on February 11, 2020; and

Whereas, The Detroit Zoning Ordinance specifies in Sec. 50-3-16 that, "Where a petition for a proposed Zoning Ordinance text or map amendment is not voted upon by the City Council within one hundred twenty (120) days of the time of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council"; and

Whereas, It is the will of Detroit City Council that the Planning Commission

recommended sign amendment of Chapter 50 of the 2019 Detroit City Code not be denied due to expiration of the 120-day review period on June 10, 2020;

Now Therefore Be It

Resolved, The Detroit City Council hereby extends its period of review of the City Planning Commission-recommended sign amendments for an additional 120 days, to expire on October 8, 2020.

c. Reporting. The Detroit Land Bank agrees to continue to provide the City quarterly written summaries of the work performed by the Detroit Land Bank in conducting its DLBA Programs, the most recent quarterly summary is attached hereto as Exhibit C.

d. Property Database. The Detroit Land Bank shall operate and maintain an Inventory Management system that includes a property database (the "Data-base") that has both a physical component of maintenance as well as a clerical or administrative component of identifying and addressing issues that prevent property from being returned to productive use. Additionally, the Detroit Land Bank shall work cooperatively with the City, including providing the City certain access to the Database, to track through the Database public ownership of properties and the City's sales and demolition of real property.

e. Nuisance Abatement Program. On February 18, 2014, City Council adopted

a resolution that authorizes the Detroit Land Bank to exercise the power to abate public nuisances by pursuing any action legally available ("Nuisance Proceedings"). Furthermore, such resolution provides that in the event the outcome of any such Nuisance Proceeding is in favor of the Detroit Land Bank, title to the subject property shall vest with the Detroit Land Bank. The Detroit Land Bank shall continue to be responsible for the maintenance and upkeep of any properties it takes title to pursuant to any Nuisance Proceedings, subject to available funding.

In furtherance of the Nuisance Proceedings, the City was required to deposit Two Million and 00/100 Dollars (\$2,000,000.00) into a designated "Title Insurance Escrow Account" in December 2017 to be used to address third party claims related to any Nuisance Proceedings. The City hereby ratifies the prior creation, expenditures and agreements for such account and authorizes the City's Chief Financial Officer to enter into and execute any and all agreements and escrow documents and authorize disbursements that are necessary or convenient to administer the Title Insurance Escrow Account.

f. HHF Demolition Program. As part of the DLBA Programs, the Detroit Land Bank shall be responsible for operating and administering a demolition program (the "Demolition Program"). Demolition has proven to be a necessity for some of the long-deteriorated housing stock acquired by the Detroit Land Bank from the City and other sources.

The Detroit Land Bank's Demolition Program shall be responsible for the administration of Federal Hardest Hit Funds (the "HHF") for use in demolishing properties in the City. The Detroit Land Bank anticipates that (a) no later than December 31, 2020 all demolition activity related to this program will be complete; and (b) the Demolition Advance Fund (as defined below) will be repaid in full no later than forty-five (45) business days after the Detroit Land Bank receives the final disbursement of HHF funding from the Michigan State Housing Development Authority ("MSHDA"). HHF has a limit of \$25,000 per property. In order to remove dangerous buildings that threaten public health and safety, the demolition of which may exceed such HHF per property limit, the City is hereby authorized to pay the Detroit Land Bank, as further conditioned below, to cover the difference in demolition related costs above the HHF limit. In order to be paid for such costs, the City's Chief Financial Officer must grant approval to the Detroit Land Bank and the Detroit Land Bank shall provide the City's Chief Financial Officer with invoices and supporting documentation in a form and manner acceptable to the City's Chief

Financial Officer. Any such payments made to the Detroit Land Bank in excess of the HHF limit of \$25,000 per property, shall be disclosed to the City Council by the City's Chief Financial Officer in a monthly report as applicable.

g. *Non-HHF Demolitions.* The City currently performs demolition of certain structures located on Detroit Land Bank property and, after completion of HHF demolitions, the demolition of structures located on Detroit Land Bank property will continue to be performed by the City. Unless the Parties agree otherwise, the Detroit Land Bank will survey all such structures and identify certain of them for demolition. The City will have full responsibility for the prioritization, administration, performance, property clean up and all related expenses in connection with all such demolition activity.

h. *Disposition Programs.* The Detroit Land Bank will continue to implement its land disposition programs which are aimed at encouraging homeownership, occupancy, responsibility for vacant property, and increasing the City's tax base. Examples of disposition programs to date include the BuildingDetroit.org auction programs, the Side Lot Sales, and the Community Partnership Program for non-profit and faith-based organizations as further described in the attached Exhibit B.

i. *Development Projects.* At the request of the City, the Detroit Land Bank will endeavor to assist in real estate development projects and opportunities.

j. *Approval for Property Sales.* The Detroit Land Bank shall seek the approval of the Mayor and City Council prior to the subsequent transfer often (10) or more of such parcels to the same transferee within any rolling 12-month period.

k. *Compliance with Land Use Plans.* The Detroit Land Bank shall adhere to the City's Master Plan, Detroit Zoning Ordinance and any other land use ordinances and strategies adopted by the City.

l. *City Development Agreements.* As directed by the City's Planning & Development Department, the Detroit Land Bank shall continue to abide by any other contracts previously entered into by the City's Planning & Development Department for any parcels subsequently acquired by the Detroit Land Bank from the City.

m. *Land Trusts.* The Detroit Land Bank will endeavor to assist in the sale or lease of land for City sponsored land trusts or cooperatives, should the City adopt such a policy.

n. *Side Lots.* The Detroit Land Bank will offer its side lots ("Side Lots") for sale at the purchase price of One Hundred and 00/100 Dollars (\$100.00) each. The Detroit Land Bank will seek the approval of City Council prior to increasing such purchase price for Side Lots.

o. *Vacant Land Policies.* The Detroit Land Bank will adopt one or more vacant land policies that will provide transparent methods for the disposition of vacant lots currently in its inventory as well as any that come into its inventory in the future. This will include, among other things, offering vacant parcels for sale or lease for urban agricultural use, and for sale in connection with job creation projects, new construction residential infill projects and to nearby residents.

p. *Policies Facilitating Land Sales.* The Detroit Land Bank will evaluate programs suggested by the City and will also recommend new programs that will facilitate the purchase of Detroit Land Bank property by Detroiters. Such programs may include new discount programs and expanding the existing Building Block Program.

q. *Policy Availability on Website.* The Detroit Land Bank will provide on its website copies of its policies regarding land sales (both vacant and with structures) in a manner that is transparent and accessible to the public.

r. *Other Blight Remediation Services.* In addition to the services set forth in this MOU, the Detroit Land Bank shall also provide the City with mutually agreed upon services and/or activities necessary or convenient to the City to address blight remediation ("Blight Services") in Detroit that are limited to the following:

- renovation of structures;
- nonstructural blight removal; and
- cleaning title.

Any such Blight Services shall require the prior approval of the City's Chief Financial Officer and shall be disclosed to City Council prior to disbursement.

5. *The City Duties.* The City is responsible for performing the following under this MOU:

a. *City Payments.*

i. For each respective City of Detroit fiscal year budget of this MOU, City Council will approve an annual budget allocation to the Detroit Land Bank to fund in-part its obligations under this MOU and to support other Detroit Land Bank operations.

ii. Any payments in excess of the annual allocation made by the City to the Detroit Land Bank will be in such amounts as are approved by the City Council for blight remediation services and any other relevant services.

b. *Demolition Advance Fund.* On March 10, 2015, City Council adopted a resolution that authorized the City, with the approval of the City's Chief Financial Officer, to create a Demolition Advance Fund for the Detroit Land Bank in an amount not to exceed of Twenty Million and 00/100 Dollars (\$20,000,000.00) (the "Demolition Advance Fund").

In recognition of the significant delays

by MSHDA in providing reimbursement to the Detroit Land Bank for demolition costs funded by HHF under the Detroit Land Bank's Demolition Program, the City created the Demolition Advance Fund to help make it possible for the Detroit Land Bank to make timely payments to contractors that are performing demolition work under the Demolition Program to avoid potential shut-downs or substantial delays in the Demolition Program. The Demolition Advance Fund allows the Detroit Land Bank to receive from the City not more than \$20 million in outstanding advances at any time, which advances can be utilized by the Detroit Land Bank solely for cash flow to make payments to third parties, providing demolition related contract services under the HHF Demolition Program, and which advances shall be repaid by the Detroit Land Bank within forty-five (45) business days of receiving the final disbursement of HHF dollars from MSHDA.

c. *Providing City Services.* In recognition of the City's buying power and economies of scale, the City shall provide the Detroit Land Bank use of the services of certain City departments in an effort to reduce the overall cost of public expenditures. Such use of services of certain City departments may include, but is not limited to: (1) utilization of the City's experience and capacity to monitor demolition contracts; and (2) partnership with the City's General Services Department for maintenance of certain properties in the City.

d. *Promoting Events.* The City will assist the Detroit Land Bank in efforts to increase awareness of Detroit Land Bank programs and to encourage attendance at its events that are open to the public, such as the City's Department of Neighborhoods promoting the Detroit Land Bank's Building Block events and open houses for Auction and Rehabbed & Ready homes.

e. *Lis Pendens Release.* In support of the Detroit Land Bank's efforts to clear title of abandoned properties to return them to a productive reuse that generates tax revenue for the City, the City hereby discharges and releases any and all lis pendens that were executed by the City's Buildings, Safety Engineering & Environmental Department against properties associated with the Detroit Land Bank. The City hereby authorizes the Detroit Land Bank to record an instrument with the Wayne County Register of Deeds to evidence such discharges and releases approved by this MOU. Any such instrument shall be in a standardized form that is approved by the City's Law Department.

6. *Property Transfers.* The Parties acknowledge that the City has consolidated the public ownership of certain residential parcels of real property through prior transfers authorized by the Original MOU, the

First Restated MOU and multiple City Council resolutions authorizing the transfer of such parcels to the Detroit Land Bank for resale to reduce blight in the City and strengthen and revitalize the economy of the City. Consistent with this effort, the City's Planning & Development Department will continue to transfer property to the Detroit Land Bank as appropriate and subject to applicable City Council approvals.

7. *Invoicing Requirements.* On a periodic basis, no more often than monthly, the Detroit Land Bank Authority shall provide invoices and supporting documentation in a form and manner reasonably acceptable to the City's Chief Financial Officer for payments due to the Detroit Land Bank as provided for in this MOU.

8. *Audits, Monitoring, Record Keeping and Reports.* The Detroit Land Bank shall make available all books, documents, papers, records (herein collectively called "Records") and project sites directly pertinent to this MOU for monitoring, audits, inspections, examinations and making excerpts and transcriptions by the City (including the City's Office of the Auditor General and Office of Inspector General), MSHDA, the U.S. Department of Housing and Urban Development, and the Comptroller General of the United States, at all reasonable times. The Detroit Land Bank shall make available all such Records — for itself, its demolition contractors, and, moving forward, for any new contractors and subcontractors — in their entirety, including all identifying labels and case names, with no deletions, for all such monitoring, audits, inspections, examinations, and making of excerpts and transcriptions. The Detroit Land Bank shall keep full and complete records documenting all services performed under this MOU including, but not limited to, records of all activities performed pursuant to this MOU and all financial records associated therewith. The Detroit Land Bank shall provide the City with monitoring access to the site of any demolition performed hereunder. All financial Records pertinent to this MOU shall be kept in accordance with generally accepted accounting practices. The Detroit Land Bank shall keep a property inventory for all property received in whole or in part from the City of Detroit, consistent with all Federal property management requirements. The Detroit Land Bank shall implement a process for expedited provision of or access to its Records at the request of the City's Chief Financial Officer or Corporation Counsel.

9. *Demolition Insurance.* The Detroit Land Bank represents and warrants that it is and will continue to be an additional insured under the insurance coverage that is required to be provided under all of the contracts for demolition entered into for the Demolition Program with the use of HHF. The City represents and warrants

that it will cause the Detroit Land Bank to be an additional insured under the insurance coverage that is demolition occurring on Detroit Land Bank property.

10. Confirmation and Ratification. All prior actions by the City authorized by the Original MOU and First Restated MOU, including transfers of property, are hereby ratified and confirmed approved by this MOU.

11. Amendments. Any change, modification or amendment of this MOU (an "Amendment"), must be in writing, signed by authorized representatives of the parties hereto and approved in accordance with Paragraph 12 below.

12. Conditions to Effectiveness. This MOU shall not be effective, nor shall any Amendment be effective until all of the following occur:

b. It has been approved by the Board of Directors of the Detroit Land Bank.

Re: Petition No. 1444, Giffels Webster, request to vacate and convert to utility easement a segment Park Avenue, between vacated Henry Street and the Fisher Freeway Service Drive.

Petition No. 1444, Giffels Webster, on behalf of Olympia Development of Michigan,

LLC request to vacate and convert to easement: Park Avenue, 60 feet wide, between vacated Henry Street, 50 feet wide, and the Fisher Freeway Service Drive.

The petition was referred to the City Engineering Division – DPW for investigation (utility clearance) and report. This is our report.

The request is being made as a part of the Little Caesar Arena development area and will allow for a pedestrian friendly area including the parking facilities to be used in conjunction with the new arena.

The request was approved by the Solid Waste Division – DPW, and the Traffic Engineering Division – DPW.

The Detroit Water and Sewerage

Department (DWSD) reports no objection if the petitioner agrees to the DWSD provisions for easements. The DWSD provisions are a part of the resolution.

The Public Lighting Department (PLD) reports involvement and the petitioner will need to allow 24 hour truck access to the area or relocate the PLD conduit in the area. The petitioners engineering firm, Giffels-Webster, has already made arrangements to relocate the conduit. Provisions protecting the PLD facilities are a part of the resolution.

DTE Energy – Gas Division reports involvement, but no objection provided that an easement is established or the petitioner pays for the cost of abandoning, removing and/or relocating their gas lines. Provisions for DTE Energy are a part of the attached resolution.

DTE Energy – Electric Division reports that below grade facilities exist that will require an easement to allow access for maintenance to said facilities.

The Planning and Development Department (P&DD) reports no involvement with the proposed vacation to utility easement.

All other city departments including the Public Lighting Authority and the Great Lakes Water Authority, also all other utilities report no involvement or no objections to the proposed vacations with conversion to easements.

I am recommending adoption of the attached resolution.

Re: Neighborhood Enterprise Zone Certificate Applications for the renovation of six condominium units located at 5750 Woodward Avenue in the Woodward / Brush / Hendrie / Ferry Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received six applications requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the renovation of six condominium units located at 5750 Woodward Avenue. CPC staff has reviewed the applications and recommends approval.

The subject properties has been confirmed as being within the boundaries of the Woodward/Brush/Hendrie/Ferry NEZ which was established by a vote of Council on July 24, 2001, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The project consists of new flooring, windows, stairwells, roofing, kitchens, water proofing, parking lot resurfacing and landscaping. The anticipated cost of renovation for each of the six condominium units averages approximately \$43,481.00, for a total project cost of \$260,886.00. The applicants are seeking a 15 year tax abatement for each of the condominium units. The NEZ certificate application appears to have been submitted prior to the issuance of any applicable building permits.

**RESOLUTION URGING THE UNITED STATES CONGRESS TO PASS STIMULUS PACKAGE THAT SUPPORTS STATE AND LOCAL MUNICIPALITIES**

By Council Member Castaneda-Lopez:  
WHEREAS, The Detroit City Council has been working tirelessly to uphold oath to promote the economic and physical welfare of Detroit's citizens through Charter-mandated legislative functions during this novel coronavirus; and

WHEREAS, The devastating impact of COVID-19 crisis is being felt on a global scale; we fear that the economic disruption caused by this pandemic will have disastrous effects across the entire country in the coming weeks, months, and years; and

WHEREAS, Many families in our communities are being overwhelmed economically, emphasizing the income inequality in our country, particularly those families that were struggling to make ends meet even before the pandemic hit; and

WHEREAS, Without economic support of the federal government, many current

middle class working families are at a high risk of falling into poverty through no fault of their own; and

WHEREAS, State and local governments are working relentlessly to tackle the challenges that the COVID-19 pandemic has wrought in an attempt to keep their residents safe, healthy and financially stable. However, with finite finances and plummeting revenues, state and local governments are in desperate need of additional funding; it is imperative that the federal government financial intervention is necessary to stabilize the country. NOW THEREFORE BE IT

RESOLVED, The United States Congress is currently considering a stimulus package to offset some of the economic losses being felt throughout the country. The Detroit City Council implores Congress to include the following interventions in this stimulus package to stabilize our communities and their rights:

- Provide at least \$500B in direct support to state and local governments that guarantees fund sharing with all localities, removes CARES Act restrictions, and safeguards against privatization;
- Increase Medicaid, SNAP, WIC, and child care resources so that these critical programs can help an increasing number of vulnerable people meet their needs;
- Reimburse public employers for paid leave just as the federal government has provided to private industry and to also fund hazard and premium pay for essential workers;
- Protect our democracy by allocating at least \$4 billion to states and localities to implement safe voting measures;
- Further invest in unemployment insurance to ensure states can process and pay out an unprecedented number of unemployment claims and to expand benefits to workers not normally eligible; and
- Fund local and state governments to keep public workers on the payroll so that our governments can maintain pre-crisis employment levels. BE IT FINALLY

RESOLVED, That a copy of this resolution be transmitted both houses of the United States Congress and the Michigan delegation in each house.

Honorable City Council:

Re: Amendment to Property Exchange Agreement with DTE Electric Company In Support of Mack 1 Plant, Mack 2 Plant, Jefferson North Assembly Plant Projects.

The City of Detroit ("City"), City of Detroit Brownfield Redevelopment Authority ("DBRA") and FCA US LLC ("FCA") have entered that certain Development Agreement relating to the investment of approximately \$2.5 billion in FCA's Mack 1, Mack 2 and Jefferson North Assembly Plants (collectively the "Projects") to expand certain industrial automotive manufacturing in the City. It is anticipated that the Projects will result in the creation of approximately 4,950 additional FCA jobs in the City, as well as increase business and economic opportunities for related supplier and support industries.

In support of the Projects, on April 30, 2019 the Detroit City Council approved the transactions contemplated by that certain Property Exchange Agreement by and among the City, DBRA and DTE Electric Company ("DJEE") (the "PEA"), whereby DTEE agreed to convey certain land located at 12000 East Jefferson and 11860 Freud in exchange for the transfer of title to certain properties owned by the City, the DBRA and the Detroit Land Bank Authority ("DLBA") and/or cash consider-

ation comprising fair value for the properties exchanged.

The City, DBRA and DTEE wish to amend the PEA in the manner described in the proposed Fourth Amendment to Property Exchange Agreement. The PEA was previously amended on three separate occasions, each to extend the dates referenced therein, as anticipated by the PEA and authorized by this Honorable Body in connection therewith. Under the proposed Fourth Amendment to the PEA, the PEA would be further amended as follows:

- Add the DLBA-owned properties located at 5732 Winslow St, Detroit, Michigan 48208 and 2930 Stanley Street, Detroit, Michigan 48208 to the DLBA-owned properties to be conveyed to DTEE under the PEA.
- Extend and modify the provisions allowing for a delayed closing on DTEE's acquisition of the City-owned property located at 1340 Third Street in order to allow the City and DTEE to negotiate the terms of ongoing environmental restrictions relating to the property and/or the City's right to retain such property.
- Formalize DTEE's election to accept a cash payment in lieu of property with respect to certain DBRA-owned property located at 2 Canal and 11900 Freud.
- Allow for a delayed closing on DTEE's acquisition of the City-owned property located at 14584 Livernois in order to grant the City and/or DBRA an opportunity to make the property available for another potential economic development use.

The City is hereby requesting that your Honorable Body adopt the attached resolution that approves the amendment of the PEA in support of the Projects.

Respectfully submitted,  
KATHARINE G. TRUDEAU  
Deputy Director

**EXHIBIT A  
AMENDMENT  
FOURTH AMENDMENT TO  
PROPERTY EXCHANGE AGREEMENT**

This Fourth Amendment to the Property Exchange Agreement ("Fourth Amendment") made as of \_\_\_\_\_, 2020 (the "Effective Date") modifies the Property Exchange Agreement, dated March 29, 2019 with an "Effective Date" of May 13, 2019, among the City of Detroit (the "City"), a Michigan public body corporate, the City of Detroit Brownfield Redevelopment Authority (the "Authority"), a Michigan public body corporate, and DTE Electric Company ("DTEE"), a Michigan

corporation, as modified by that certain First Amendment to Property Exchange Agreement ("First Amendment") made as of July 12, 2019, as further modified by that certain Second Amendment to Property Exchange Agreement ("Second Amendment") made as of December 31, 2019, and as further modified by that certain Third Amendment to Property Exchange Agreement ("Third Amendment") made as of April 1, 2020. Where any provision of the Property Exchange Agreement is modified herein, the provisions of this Fourth Amendment shall control, otherwise the terms and provisions of the Property Exchange Agreement shall remain unmodified. All capitalized terms in this Fourth Amendment shall have the same meaning as set forth in the Property Exchange Agreement, unless the context clearly requires otherwise. The City, the Authority and DTEE are hereinafter collectively referred to as the "Parties."

Now, therefore, in consideration of the mutual covenants contained herein, and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the Parties agree as follows:

**1. Exhibit B-6.** Exhibit B-6 of the Property Exchange Agreement is hereby amended to add the following, which shall each by addition to Exhibit B-6 be deemed part of the Land Bank Property:

Land situated in the City of Detroit in the County of Wayne in the State of Michigan

Lot 36, Mary A. Damms Subdivision, according to the recorded Plat thereof, as recorded in Liber 12, Page 6 of Plats, Wayne County Records.

Tax ID Number: Ward 12; Item No. 006645

Commonly known as: 5732 Winslow St, Detroit, Michigan 48208

The East 30.5 feet of Lots 40 and 41, inclusive, Mary A Damm's Subdivision, as recorded in Liber 12, Page 6 of Plats, Wayne County Records.

Tax ID Number: Ward 12; Item No. 000936

Commonly known as: 2930 Stanley Street, Detroit, Michigan 48208

**2. Third Street Property.** The Parties hereby agree to extend the date by which DTEE is required to notify the City as to whether it will accept the Third Street Property subject to mutually agreed upon deed restrictions, activity use restrictions, and/or environmental easements that affect(s) future land uses to be mutually agreed upon between the Parties (the "Environmental Restrictions"), as provided under Section 12(c), until February 28, 2020. If the parties are unable to reach agreement on the Environmental Restrictions by that date, then DTEE shall grant one (1) fifteen (15) day extension for (i) the parties to continue to pursue agree-

ment on mutually acceptable Environmental Restrictions or (ii) the City to make, based upon the environmental conditions and any applicable affirmative legal obligations of the City, its election not to close on the Third Street Property and to make a cash offer, as provided under Section 12(g), subject to DTEE's reserved right under said Section 12(g) to hold harmless and indemnify the City from such legal obligations that may arise out of or relate to the aforementioned environmental conditions, subject to the use of Third Street Environmental Funds, and the Third Street Property shall remain as an Exchange Property under the Agreement.

**3. Second Closing.** If DTEE elects to close on the Third Street Property and all other conditions precedent are met, the City and the Authority shall receive credit for the Third Street Property in the value specified on Exhibit C at the first-in-time Closing. At such Closing, the City and the Authority shall cause the quit claim deed for the Third Street Property to be executed and deposited in escrow with the Title Company under an escrow agreement mutually satisfactory to the City, the Authority, DTEE and the Title Company. Such deed shall be released and delivered to DTEE on the Second Closing Date. On the Closing Date, the City and DTEE shall also execute a memorandum giving record notice of the provisions of this Section 3 of this Fourth Amendment and DTEE's rights hereunder, which memorandum shall be recorded in the real estate records to give record notice thereof. If any condition precedent set forth in the Property Exchange Agreement is not satisfied as of the Second Closing Date, DTEE may at its option on notice to the City and the Authority remove the Third Street Property from the City Property conveyed by the Property Exchange Agreement, whereupon the credit given to the City and the Authority at Closing for the Third Street Property shall be rescinded and the City and Authority shall pay to DTEE within one hundred eighty (180) days after DTEE gives such notice to the City and the Authority, the amount for the value of the Third Street Property as set forth on Exhibit C to the Property Exchange Agreement.

**4. DTEE's Decision Regarding Cash Payment.** By execution of this Fourth Amendment, DTEE hereby elects to replace the City Property identified on Exhibit B-2 (being an approximately 2.6-acre portion of the property commonly known as 11900 Freud) and the City Property commonly known as identified on Exhibit B-3 (being an approximately 1-acre portion of the property commonly known as 2 Canal) with a cash payment pursuant to Section 5 or Section 6(b) of the Property Exchange Agreement.

**5. 14584 Livernois Exchange Property.** In order to make the 14584 Livernois Exchange Property available for another potential economic development opportunity identified by the City to a third-party potential user approved by DTEE (the "Potential User"), the Parties hereby agree to extend the date by which DTEE is required to notify the City as to whether it will accept the 14584 Livernois Exchange Property until April 30, 2022 (the "Livernois Extension Date"). The City and the Authority shall have the right, prior to the Livernois Extension Date, to sell or transfer the 14584 Livernois Exchange Property to the Potential User, provided an Alternative Site (as defined below) has been accepted by DTEE. In consideration of DTEE's agreement to the Livernois Extension Date, (i) from time to time prior to the Livernois Extension Date, DTEE, the City, and/or the Authority shall propose any potential alternative sites owned by the City or its instrumentalities that meet criteria provided from time to time by DTEE to the Authority and the City to DTEE for consideration (an "Alternative Site"), subject to the parties' mutual agreement on a value therefor and receipt of required approvals by the Detroit City Council and/or City instrumentalities, as applicable, and (ii) the City and/or the Authority shall reimburse DTEE for its reasonable costs and expenses incurred in connection with its due diligence investigations with respect to any Alternative Site in an aggregate amount not to exceed \$50,000.

At the first-in-time Closing, the City and the Authority shall receive credit for the 14584 Livernois Exchange Property in the value specified on Exhibit C. At such Closing, the City and the Authority shall cause the quit claim deed for the 14584 Livernois Exchange Property to be executed and deposited in escrow with the Title Company under an escrow agreement mutually satisfactory to the City, the Authority, DTEE and the Title Company. On the Closing Date, the City and DTEE shall also execute a memorandum giving record notice of the provisions of this Section 5 of this Fourth Amendment and DTEE's rights hereunder, which memorandum shall be recorded in the real estate records to give record notice thereof.

In the event that DTEE has not elected to purchase an Alternative Site prior to the Livernois Extension Date, DTEE shall provide written notice to the City and the Authority of its election to either (i) agree to extend the Livernois Extension Date for an additional one year period, or (ii) reject or, if the 14584 Livernois Exchange Property has not been sold to the Potential User, accept the 14584 Livernois Exchange Property, within 30 days following the Livernois Extension Date. If DTEE

elects to close on the 14584 Livernois Exchange Property, including any election made after written notice from the City or the Authority that the Potential User is not going purchase the 14584 Livernois Exchange Property, and all other conditions precedent are met or waived by DTEE, the escrowed deed shall be released and delivered to DTEE on a mutually agreeable closing date.

In the event that the 14584 Livernois Exchange Property is sold to the Potential User prior to the Livernois Extension Date, the escrowed deed shall be returned to the Authority and DTEE agrees to execute a termination of the memorandum at the time of such closing.

In the event that DTEE elects to purchase an Alternative Site prior to the Livernois Extension Date, at the closing of such Alternative Site, the escrowed deed for the 14584 Livernois Exchange Property shall be returned to the Authority and DTEE agrees to execute a termination of the memorandum. In the event that the mutually agreed value of the Alternative Site purchased by DTEE is less than the value specified on Exhibit C for the 14584 Livernois Exchange Property, at such closing, the City shall pay such difference. In the event that the value of the Alternative Site purchased by DTEE is greater than the value specified on Exhibit C for the 14584 Livernois Exchange Property, at such closing, DTEE shall pay such difference.

In the event that DTEE does not purchase the 14584 Livernois Exchange Property or an Alternative Site, the credit given to the City and the Authority at the first-in-time Closing for the 14584 Livernois Exchange Property shall be rescinded and the City shall pay to DTEE within one hundred eighty (180) days after DTEE gives such written notice to the City and the Authority, the amount for the value of the 14584 Livernois Exchange Property as set forth on Exhibit C to the Property Exchange Agreement.

**6. Integration.** This Fourth Amendment shall when executed be deemed part of the Property Exchange Agreement and, except as otherwise provided herein, shall be subject to all of the terms and conditions of the Property Exchange Agreement.

**7. Fourth Amendment Controls.** In the event of any inconsistency between the terms and conditions of this Fourth Amendment and the Property Exchange Agreement, the terms of this Fourth Amendment shall control.

**8. Property Exchange Agreement Remains in Force.** Except as expressly modified herein, the Property Exchange Agreement shall remain in full force and effect and the Parties hereto acknowledge and agree to be bound by the terms and provisions thereof.

**9. City's Rights under the Property Exchange Agreement.** Nothing stated herein shall amend or modify the City's rights to close on the transactions as set forth in, and subject to the terms and conditions of, the Property Exchange Agreement.

**RESOLUTION URGING THE CITY OF DETROIT TO PARTNER WITH CORPORATE ENTITIES TO ENSURE EVERY HOUSEHOLD HAS ACCESS TO INTERNET**

By COUNCIL PRESIDENT JONES:

WHEREAS, In today's technology driven society, having limited or no access to the internet has proven to reduce economic development and engagement in community enhancing activities. Thus, resulting in low participation in critical events such as the 2020 Census, which determines political representation and the amount of federal funding available for community investment; and

WHEREAS, The original deadline for the Census was July 31, 2020. It has been extended to October 31, 2020 because of the Corona Virus Pandemic. As of May, the 2020 Census participation rate for Detroit is 42%, which is the 2nd lowest rate amongst the 50 largest U.S'

cities. This is a 22% decrease in participation since the last Census in 2010. Only 60% of households in Detroit have access to the internet, despite the fact that 80% have a computer; and

WHEREAS, It is reasonable to infer that the low participation rate, at minimum is in part, due to the lack of household internet access. Social distancing and lockdown requirements during the pandemic has also made it difficult to increase participation because it has prevented the City of Detroit from implementing an in-person Census response; and

WHEREAS, As many as 89 cities in 28 states have implemented "free Wi-Fi" including major cities such as Los Angeles and New York, as well as, small cities like Dayton, OH and Kansas City, MO. These cities accomplished this by partnering with internet and wireless providers, corporations, and local businesses; and

WHEREAS, The advantages of a city guaranteeing internet access extends beyond Census participation. Therefore, the mission of the City of Detroit is to ensure internet access with the purpose of encouraging community involvement by connecting citizens to educational materials, innovative opportunities, business development, and the like; and

WHEREAS, The City of Detroit declares its support for all Detroit citizens to have access to the internet, in order to increase participation in important events such as the 2020 Census and improve citizens' access to valuable information. NOW THEREFORE BE IT

RESOLVED, The Detroit City Council is urging the City of Detroit to partner with corporate entities to develop a network of mobile hotspots and/or other feasible options, in order to deliver internet access to all households in the City of Detroit. BE IT FURTHER

RESOLVED, The City Clerk is directed to send copies of this resolution to Mayor Mike Duggan and the Detroit 2020 Census Campaign Director Victoria Kovari.

Also, this position will be able to work with Ryan White funded programs as they implement COVID-19 activities.

**City Planning Commission**

February 27, 2020

Honorable City Council:  
Re: Request of Verus Development, LLC to amend Article XVII, District Map No. 39 of the 2019 Detroit City Code, Chapter 50, Zoning, by showing a PD (Planned Development District) zoning classification where an R1 (Single-family Residential District) zoning classification currently exists on two parcels, commonly identified as 4470 and 4444 Radnor Avenue. The proposed map amendment is being requested to allow for the establishment of Chipotle Mexican Grill, commonly known as “restaurant, fast-food, with drive-up or drive-through facilities” including the “sale of beer or alcoholic liquor for consumption on the premises”. (RECOMMEND APPROVAL)

**PROPOSAL**

Before this Honorable Body is the request of the Verus Development, LLC to rezone two parcels, commonly identified as 4470 and 4444 Radnor Avenue, generally bounded by Cornwall Avenue on the north, Canyon Street on the east, Mack Avenue on the south, and Radnor Street on the west to show a PD (Planned Development District) zoning classification where an R1 (Single-family Residential District) zoning classification currently exists (see attached map).

The petitioner is proposing to establish a Chipotle Mexican Grill restaurant. According to the Zoning Ordinance, the proposed use, while not exact, most closely resembles a “restaurant, fast-food, with drive-up or drive-through facilities.” Additionally the petitioner is requesting to allow for the “sale of beer or alcoholic liquor for consumption on the premises.”

The proposed fast-food restaurant would include a 340 square foot patio for outside dining, two points of vehicular ingress/egress (one on Mack Ave. and one on Radnor Street), a six foot high screen wall (abutting the residential prop-

erty to the north). The proposal also includes a landscaping and screening plan for the off-street parking area.

Approximately nineteen parking spaces are planned to be provided (see rendering below and attached site plan).

Rendering of proposed Chipotle restaurant

The subject site currently contains two structures that are proposed to be demolished in order to allow for the development. The two buildings that are presently on the property are a vacant single-family residence at 4470 Radnor and the vacant religious structure that was previously Mt. Olive Lutheran Church. Both of these properties were acquired by the development team for this project. The two parcel are zoned R1 (Single Family Residential) and measure approximately .48 acres in size.

## PLANNING CONSIDERATIONS

### *Surrounding Zoning and Land Use*

The zoning classification and land uses surrounding the subject area are as follows:

- North:** R1 – residential homes
- South:** City of Grosse Pointe – commercial retail with single-family residential beyond
- East:** PD and B4 – commercial service and retail
- West:** R1 and PD – single-family residential and retail.

### *Master Plan Consistency*

The subject site is located within the Finney area of Neighborhood Cluster 3 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows “CN,” Neighborhood Commercial for the subject property. “Neighborhood Commercial” districts generally “*consist of a large collection of contiguous storefronts along a street or streets. This commercial type is pedestrian-oriented with wide sidewalks and landscaping. Parking should be located on the street, in structures (with ground floor retail), at the rear of commercial establishments or in concentrated nodes at the periphery of the area.*” The Planning and Development Department (P&DD) has provided a Mas-

ter Plan interpretation stating that this proposal is consistent with the Master Plan.

## COMMUNITY INPUT AND PUBLIC HEARING RESULTS

The development team has submitted letters of support from the Cornerstone Village Community Association, the abutting neighbor at 4480 Radnor St., Ray Laethem Motor Village, EZ Storage and the GPVG, LLC. These engagement efforts have been supported by the District 4 City Council office, in which the site lies.

A mailing was also sent to property owners within 300 feet of the property and notice posted on the site. To-date, staff has received only one call regarding this matter from a business owner on the Grosse Pointe side of Mack Avenue asking for information about what is proposed.

City Planning Commission staff also worked with the development team to set up a one-on-one call with the neighbor that is directly adjacent to the development site. The neighbor expressed general support of the project given that a masonry screening wall would be installed per conversations that were held with the development team, (also shown in site plans that would be codified in terms and conditions of the PD). CPC staff also walked some of the surrounding neighborhood and spoke with neighbors who expressed awareness and support of the project.

On February 6, 2020, a public hearing was held before the City Planning Commission on February 6th. No members of the public spoke to this matter.

## ANALYSIS

While CPC staff initially believed that the B4 (General Business District) zoning classification would have typically been more fitting for the site, there are certain unique considerations that merit the site to be rezoned to the Planned Development Dis-

trict zoning classification, that would help to ensure that all neighboring resident, design and operational concerns are addressed. Some of the rationale for the site to be Planned Development are as follows:

- **The sale of beer or alcoholic liquor for consumption on the premises:** The petition requests the inclusion of “the sale and consumption of alcoholic beverage on the premises.” As of now, the Zoning Ordinance is seemingly silent on the issue of alcohol being served at fast food establishments. The PD allows an opportunity for the proposed allowance for alcohol to be expressly conveyed through the public hearing process, for the public to have the opportunity to weigh in, and for the legislative body to review. To-date, staff has received no objections to the proposal of alcoholic beverage to be served on the premises. This allowance is only for alcoholic beverage to be served on-site and not for pick-up services.

- **Rezoning of a residential parcel:** One of the parcels included in the rezoning currently hosts a vacant single-family residence. The home that is proposed to be removed also abuts an occupied residential home. The PD zoning would allow CPC to work with the developer and adjacent resident to ensure that screening and buffering are adequately and appropriately carried out.

- **Unique use and Irregular lot size considerations:** The operation of the proposed restaurant does not match either of the three restaurant definitions in the Zoning Ordinance. While it most closely resembles a fast-food establishment, this restaurant will operate more like a standard sit-down. Operations such as this point out a deficiency in current regulations and the need for updating to address changes in the restaurant industry, particularly around casual dining.

The subject site is an irregularly shaped piece of land. Section 50-14-203 *Design and Layout* of the Zoning Ordinance requires an escape lane or aisle where deemed appropriate by the P&DD. The proposed Chipotle would not operate a drive through in the traditional sense with an order box, payment and pickup windows. The drive through would support a pick up window for customers and delivery services retrieving previously ordered meals. The restaurant operation would employ a ‘call and order to go’ service, using a phone application for orders. Patrons and services would be alerted when their order is ready through the app, and for this reason are not expected to have a wait time.

The CPC was satisfied with Chipotle’s operation not providing an escape lane due to size and configuration constraints. However, there were concerns related to the need for an escape lane if another restaurant, with a more traditional stack-

ing lane operation, were ever to purchase and operate this site. A PD zoning classification would trigger review if an alternative operation were proposed in the future that might incorporate a more intensive drive through operation with order box.

- **Screening and buffering:** As the proposed restaurant partially encroaches into a residential area, CPC has required a more robust means of screening and buffering to create an aesthetically pleasing buffer for surrounding homes, that is more extensive than what is otherwise required by ordinance.

- **Signage** The condition of the PD requires the petitioner to implement signage that has language to restrict turns on to the residential Radnor Street.

For these reasons, CPC elected to rezone to a PD zoning classification.

#### APPROVAL CRITERIA

Approval criteria for Planned Developments are outlined in Sec. 50-3-96 of the Zoning Ordinance. There are eight criteria that the Zoning Ordinance sets forth for approval of a rezoning to PD.

(1) Whether the subject site:

- a. Covers a minimum of two acres of contiguous land under the control of one owner or group of owners, except, that upon determining that an adequate development can be accomplished on a parcel of lesser size, the City Planning Commission may waive this requirement; and

- b. Is capable of being planned and developed as one integral unit, except in unusual circumstances;

(2) Whether the proposed amendment is consistent with the Master Plan (MP) and the stated purposes of this chapter;

(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;

(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;

(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management;

(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

(8) Whether the proposed rezoning will create an illegal “spot zone.”

The proposed map amendment transitions the Mack Avenue frontage from institutional to a business oriented site, which most of Mack Avenue is already developed as. The subject site is one of the last institutional sites along Mack

Avenue. Therefore, the site can be considered to be following the development trend of this particular thoroughfare.

A rezoning to allow for this development would be aligned with the Retail and Local Services land use designation of the Master Plan. The P&DD has submitted a letter confirming that the proposed development is in conformance with the Master Plan of Policies. It is not anticipated that the proposed amendment would have significant adverse impacts on other properties in the vicinity. The developer has reached out to surrounding property owners and appears to have their support.

The subject proposal would not be considered a spot zone as it is generally in conformance with the Master Plan and also is located along a thoroughfare that is largely zoned commercial.

**CONCLUSION AND RECOMMENDATION**

On February 6, 2020 the City Planning Commission voted to recommend approval of the PD rezoning request for the two parcels, commonly identified as 4470 and 4444 Radnor Avenue. The CPC voted to waive the approval criteria requirement that the proposed site cover a minimum of two acres in order to rezone to PD due to the rationale provided above the existing adjacent PD districts.

The City Planning Commission recom-

mended approval with the following conditions:

1. That the developer must mitigate construction-related impacts on neighboring properties; and
2. That signage be installed at the Radnor driveway indicating "no right turn" onto Radnor; and
3. That the developer work with City Planning Commission staff and the Planning and Development Department to develop a more robust means of screening and buffering the site; and
4. That all final site plans, lighting, landscaping, signage, and elevations must be submitted to the City Planning Commission staff for review for consistency with approved plans prior to the developer making application for required permits.

As a result of the Law Department's review and approval as to form of the draft effectuating ordinance, a fifth condition was added to address the petitioner's pursuit of authorization to allow for the sale and consumption of alcoholic beverages.

On May 28, 2020, a public hearing in connection with approving a Commercial Facilities Exemption Certificate for the above captioned project was held before your Honorable Body. All interested persons and organizations were given an opportunity to be heard. No impediments to the approval of this certificate were presented during the hearing.

Tellevation II LLC has submitted satisfactory evidence that they possess the necessary financial resources required to develop this property in accordance with Public Act 255 of 1978 ("the Act") and the Development Agreement for the project.

Respectfully submitted,

DONALD RENCHER

Director

By Council Member Tate:

Whereas, Tellevation II LLC has filed an application for a Commercial Facilities Exemption Certificate, under Public Act 255 of 1978 ("the Act"), with the Detroit City Clerk in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council legally established a Commercial Redevelopment District in the vicinity of 110 E. Ferry, Detroit, Michigan on March 5, 2019, after a public hearing held on February 28, 2019; and

Whereas, The state equalized value of the property proposed to be exempt plus the aggregate state equalized value of property previously exempt and currently in force under the Act and Public Act 198 of 1974 (Industrial Facilities Exemptions) does not exceed 5% of the total state equalized value of the City of Detroit; and

Whereas, The application was approved at a public hearing as provided by section 6(2) of the Act on May 28, 2020, conducted in accordance with executive order 2020-42; and

Whereas, Tellevation II, LLC is not delinquent in any taxes related to the facility; and

Whereas, The application is for commercial property as defined in section 3(3) of the Act; and

Whereas, The applicant, Tellevation II LLC, has provided answers to all required questions under section 6(1) of the Act to the City of Detroit; and

Whereas, The City of Detroit requires that the construction, restoration, or replacement of the facility shall be completed by March 31, 2021; and

Whereas, The commencement of the construction, restoration or replacement of the facility did not occur more than 45 days prior to the filing of the application for exemption; and

Whereas, The commencement of the construction, restoration or replacement of the facility did not occur prior to the establishment of the Commercial Redevelopment District; and

Whereas, The application relates to a construction, restoration or replacement program which when completed constitutes a new, replacement or restored facility within the meaning of the Act and that is situated within a Commercial Redevelopment District established under the Act; and

Whereas, Completion of the facility is calculated to, and will at the time of issuance of the certificate, have the reasonable likelihood to increase commercial activity, in which the facility is situated; and

Whereas, The restoration includes improvements aggregating 10% or more of the true cash value of the property at commencement of the restoration as provided by section 4(6) of the Act.

Now, Therefore, Be It

Resolved, That it is hereby found and determined that the granting of a Com-

mercial Facilities Exemption Certificate, considered together with the taxable value of Commercial Facilities Exemption Certificates and Industrial Facilities Exemption Certificates previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax with the City of Detroit; and be it further

Resolved, That it is hereby found and determined that the Applicant has complied with the requirements of the Act; and be it further

Resolved, That the application of Telle- vation II LLC for a Commercial Facilities Exemption Certificate, in the City of Detroit Commercial Redevelopment Dis- trict is hereby approved for a period of Twelve (12) years from completion of the facility, with the certificate beginning December 31, 2020 and the certificate expiring December 31, 2032, in ac- cordance with the provisions of the Act; and be it finally

Resolved, That the rehabilitation of the facility shall be completed no later than March 31, 2021 unless an extension of that time period is granted by this City Council, which extension shall be granted if this City Council determines that the rehabilitation of the facility is proceeding in good faith and the proposed extension is reasonable; and be it finally

Resolved, That the City of Detroit’s Planning and Development Department and City Assessor’s Office are hereby authorized to enter into, substantially in the form attached hereto, a Commercial Facilities Exemption Certificate Agree- ment for the purpose of establishing the operating procedures for and implement- ing the aforesaid Certificate.

claims Secondary Employer may have in law or equity, contract or tort, against the Department, its agents and employees, including the officer, in their official or individual capacities for actions or omissions of the officer in the course and scope of Secondary Employment, including but not limited to an officer's failure to detect or prevent criminal conduct by third parties on Secondary Employer's premises while employed pursuant to this Agreement.

Honorable City Council:

Re: Petition No. 1163 — DTE Energy request to vacate and convert to easement the public alley between McGraw Avenue and Stanley Avenue, bounded by Winslow Avenue and Lawton Avenue.

Petition No. 1163 — DTE Energy request to vacate and convert to easement the public alley (18 ft. wide) between McGraw Avenue (60 ft. wide) and Stanley Avenue (60 ft. wide), bounded by Winslow Avenue (60 ft. wide) and Lawton Avenue (60 ft. wide).

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request is being made as a condition of the land transfer between the Detroit Land Bank Authority and DTE Energy for the development of a substation.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the vacation and conversion to utility easement provided certain provisions are met. The DWSD provisions are a part of the attached resolution.

All other involved City Departments, and privately owned utility companies have reported no objections to the vacation and conversion to utility easement of the alley. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,  
RICHARD DOHERTY, P.E.

**RESOLUTION IN SUPPORT OF THE PLAINTIFFS IN GARY B. ET AL., V. SNYDER ET AL., ACKNOWLEDGING THAT LITERACY IS A CONSTITUTIONAL RIGHT**

By Council Member Tate:  
 WHEREAS, The mission of the Detroit

City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions and policy; and

WHEREAS, Section 2 of the Michigan State Constitution states that: [t]he Legislature shall maintain and support a system of free public elementary and secondary schools as defined by law. Every school district shall provide for the education of its pupils without discrimination as to religion, creed, race, color or national origin. However, the type of education Michigan children receive is based historically on several socioeconomic factors such as geography, resources and funding; and

WHEREAS, Access to quality education are the fundamental building blocks of every civilization. Investing in the education of our youth ensures upward mobility and is integral to eradicating generational poverty. However, decades of State disinvestment in the education of students in Detroit schools and the implementation of numerous emergency managers have denied those students of the most basic building block of education – literacy. In 2018, testing results from the National Assessment of Educational Progress (“NAEP”) stated that the Detroit Public Schools Community District (“DPSCD”) scored the lowest in the nation compared to 26 other urban districts for reading at the fourth and eighth grade levels. There has been some progress according to the test results from the 2019 NAEP; however, the improvement was not statistically significant and state remains near the bottom third in literacy; and

WHEREAS, In 2016, schoolchildren from five of the lowest performing schools in Detroit: Osborn Academy of Mathematics (“Osborn MST”), the Osborn Evergreen Academy of Design and Alternative Energy (“Osborn Evergreen”), the Medicine and Community Health Academy at Cody (“Cody Health”), Hamilton Academy (“Hamilton”) and Experiencia Preparatory Academy (“Experiencia”) sued the State of Michigan seeking relief. The case, *Gary B. et al. vs. Snyder et al.*, is the first federal case in the nation to seek to vindicate the right of all students to access to literacy, no matter their zip code or socioeconomic status. The Plaintiffs who believed that they have been deprived access to literacy and that the education received was inadequate to the schooling provided to others. The City of Detroit has filed an amicus curiae in support of the Plaintiff; and

WHEREAS, On April 23, 2020, after lengthy court challenges, the United States Court of Appeals for the Sixth Circuit ruled that students do have a constitutional right to literacy. In its initial ruling, the Court recognized that the Constitution provides a fundamental right to a basic minimum education and that the right only guaranteed the education needed to provide access to skills that are essential for basic fundamental rights and liberties. On Tuesday, May 26, 2020, the Sixth Circuit vacated the panel decision and voted to rehear the case *en banc* by a judge on the court *supra* sponte. Despite several challenges, the Hon. Gretchen Whitmer – Governor of the State of Michigan (“Governor Whitmer”) has proposed increases in school funding for education – especially for vulnerable populations and has agreed to settle the case with the Plaintiffs via the following:

- Provide Detroit Public School Community District with at least \$94.4 million for literacy-related programs and initiatives

- Provide \$280,000 to be shared among the seven individual student-plaintiffs to access a high-quality literacy program or otherwise further their education, as well as \$2.72 million for the district to fund literacy-related supports

- Advise school districts around the state how to improve access to literacy and literacy proficiency, including with strategies such as reducing class, racial and ethnic disparities

- Allow for the creation of a non-governmental Detroit literacy equity task force – made up of students, parents, teachers, literacy experts and others – to conduct yearly literacy evaluations in Detroit and provide state-level policy recommendations to the Governor

- Create or allow an existing body to serve as a Detroit educational policy committee that will focus on the stability and quality of the overall educational ecosystem in Detroit; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council expresses its support for the Plaintiffs in *Gary B. et al., vs. Snyder et al.* As stated in *Plyer vs. Doe*, “denying children access to literacy today inevitably impedes tomorrow’s jobseekers and taxpayers; fathers and mothers; citizens and voters.” Despite one’s socioeconomic background, the stigma of illiteracy significantly impacts our Nation by denying one “the basic tools by which [one] lead economically productive lives to the benefit of us all.” As stalwart advocates for residents in the City of Detroit, we understand the nexus between education and the economic empowerment of our city and residents. Thus, we stand in support of the Plaintiffs in this case and their belief that literacy and access to quality education is a fundamental and inalienable right; AND BE IT FURTHER

RESOLVED That a copy of this resolution be sent to the United States Court of Appeals for the Sixth Circuit, Hon. Debbie Stabenow, Hon. Gary Peters, Hon. Brenda Lawrence, Hon. Rashida Tlaib, City of Detroit’s Lansing lobbyists, the Detroit Delegation in the Michigan Senate and Michigan House of Representatives, the Michigan State Legislature, Governor, Attorney General, the Mayor and members of the media.

Honorable City Council:

Re: Petition No. 1162 — Vaughan Street Block Club request to vacate and convert to easement the public alley between Puritan Avenue and Midland Avenue, bounded by Vaughan Avenue and Evergreen Avenue.

Petition No. 1162 — Vaughan Street Block Club request to vacate and convert to easement the public alley (20 ft. wide) between Puritan Avenue (66 ft. wide) and Midland Avenue (50 ft. wide), bounded by Vaughan Avenue (50 ft. wide) and Evergreen (76 ft. wide).

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request is being made to improve the safety of adjacent property owners and discontinue a non-functioning alley.

The request was approved by the

Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the vacation and conversion to utility easement provided certain provisions are met. The DWSD provisions are a part of the attached resolution.

All other involved City Departments, and privately owned utility companies have reported no objections to the vacation and conversion to utility easement of the alley. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,  
RICHARD DOHERTY, P.E.

May 29, 2020

Honorable City Council:

Re: Reprogramming Amendment to the Community Development Block Grant (CDBG) Annual Action Plan.

The Housing & Revitalization Department (HRD) hereby requests to amend

the CDBG Annual Action Plan from the previous reprogramming amendment for years Pre-2015–2019. Due to the Coronavirus Aid, Relief, and Economic Security (CARES) Act, it is necessary to revise the previous reprogramming amendment to adjust for the new round of funding received for the Community Development Block Grant (CDBG) Coronavirus (CV) funds. The unused CDBG funds targeted will be expended in a timely manner. If these funds are not expended, the City's federal grant allocation will be at risk of recapture by the U.S. Department of Housing and Urban Development (HUD).

The CDBG funds will be used to support the local pandemic response for a range of eligible activities that will prevent, prepare for and respond to the spread of infectious diseases such as the coronavirus disease (COVID-19). The U.S. Department of Housing and Urban Development (HUD) granted approval for the City to use CDBG funds for the COVID-19 prevention activities.

Other funds will be allocated for activities that will allow for timely expenditures.

A summary of the proposed reprogramming is as follows:

Line Items to be reprogrammed (Decrease):

Interim Emergency Services for Infectious Disease (Interim Assistance) \$ 3,750,000.00

Line Item for Funding Addition (Increase):

- Accounting Aid Society (Public Service - Tax Svc) \$ 250,000.00
- Wayne Metro (Public Service – Emergency Rental Rental Assistance) \$ 1,000,000.00
- HRD Rental Rehab (Home Repair) \$ 2,000,000.00
- HRD Infrastructure – Wigle Street (Street Improvements) \$ 200,000.00
- HRD Infrastructure – Joseph Campau (Parks, Greenways) \$ 300,000.00

**Total \$3,750,000.00**

We respectfully request the authorization of this change to amend the CDBG Annual Action Plan for the stated purpose by approval of the attached resolution. This proposed amendment was posted on the City's website. Upon City Council's approval, it will be transmitted to HUD. Thank you for your time and consideration.

Honorable City Council:

Re: Additional Sale of Wayne County Tax Foreclosed Occupied Homes.

Under the General Property Tax Act (1893 PA 206), all tax foreclosed property not previously sold by Wayne County at their annual auctions shall be transferred to the City of Detroit (“City”), unless the City objects in writing to receiving any such property. There are nine (9) occupied properties that the City acquired through this process at the request of the United Community Housing Coalition (“UHC”) for inclusion in their Make It Home program (the “Program”). These properties include 11772 Camden, 13177 Kentucky, 18660 Dwyer, 8193 Traverse, 8959 Aster, 9481 Knodell, 19994 Andover, 7338 Minock and 7391 Guthrie (collectively the “Properties”).

Under the Program, UHC works with qualified Program participants that occupy residential properties that are subject to and/or have been lost in tax foreclosure. To qualify for the Program, residents must either be renters, victims of property scams, those with solvable probate issues or those who would have qualified for property tax reductions as verified by the City

Assessor. The Program requires participants to purchase the home for a certain minimum price plus certain UCHC administrative costs, pay \$500.00 into escrow with UCHC, pass a police clearance and agree to a home inspection. The Program also has a zero percent (0%) interest 12-18 month land contract option for those participants unable to meet the purchase price requirements. Those seeking the land contract option must also pay a monthly amount to a non-interest bearing escrow account for property taxes and home repairs. Monthly payment amounts are affordable to each household.

UCHC is a Michigan nonprofit corporation that specializes in homeless prevention that currently works with the City through Community Development Block Grant (CDBG) and Emergency Solutions Grant (ESG) funding programs to provide tenants with eviction and other landlord/tenant related assistance, homeless individuals/families with housing assistance and homeowners with mortgage, tax foreclosure and other housing support. UCHC provides housing assistance at all stages, however its programs are particularly aimed at preventing low income households from losing their homes by eviction or foreclosure.

In furtherance of the City's strategy to help stabilize neighborhoods, UCHC has requested transfer of the Properties for the purchase price of Two Thousand and 00/100 Dollars (\$2,000.00) to include in the Program. UCHC will then transfer the Properties to the qualified Program participants that currently occupy each respective property.

We, therefore, request that your Honorable Body adopt the attached resolution to authorize the Director of P&DD, or his authorized designee, to execute a deed and such other documents as may be necessary or convenient to effect a transfer of the Properties by the City to UCHC.

Sincerely,  
**KATHARINE G. TRUDEAU**  
 Deputy Director

By Council Member Tate:

Now, Therefore, Be It Resolved, That Detroit City Council hereby approves the transfer of certain real property at 11772 Camden, 13177 Kentucky, 18660 Dwyer, 8193 Traverse, 8959 Aster, 9481 Knodell, 19994 Andover, 7338 Minock and 7391 Guthrie, Detroit, MI (collectively the "Properties"), as more particularly described in the attached Exhibit A incorporated herein, to the United Community Housing Coalition ("UCHC"), for the purchase price of Two Thousand and 00/100 Dollars (\$2,000.00) (the "Purchase Price"); and be it further

Resolved, That the Director of the Planning and Development Department ("P&DD"), or his authorized designee, is authorized to execute one (1) or more quit

claim deeds and other such documents necessary or convenient to effect transfer of the Properties to UCHC consistent with this resolution; and be it further

Resolved, That the respective portion of the Purchase Price allocated for each of the Properties shall be as follows:

- 11772 Camden \$100.00
- 13177 Kentucky \$100.00
- 18660 Dwyer \$100.00
- 8193 Traverse \$100.00
- 8959 Astor \$100.00
- 9481 Knodell \$100.00
- 19994 Andover \$100.00
- 7338 Minock \$100.00
- 7391 Guthrie \$1,200.00

; and be it further

Resolved, That the P&DD Director, or his authorized designee, is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed(s) (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Properties, provided that the changes do not materially alter the substance or terms of the transfer and sale; and be it finally

Resolved, That the quit claim deed(s) will be considered confirmed when executed by the P&DD Director, or his authorized designee, and approved by the Corporation Counsel as to form.

**RESOLUTION IN OPPOSITION  
 TO SENATE BILL 892, AS  
 INTRODUCED IN THE MICHIGAN  
 LEGISLATURE ON APRIL 28, 2020**

By Council Member Benson:

WHEREAS, Senate Bill 892 was introduced on April 28, 2020, to amend Michigan's Motor Vehicle Code, Public Act 300 of 1949, MCL 257.1 *et seq.*, by adding Chapter VIA, *Personal Delivery Devices*, to allow and regulate the use of

"personal delivery devices" (PDD), specifically by business entities in Michigan; and

WHEREAS, With the increase in online purchasing over the past decade, and the seemingly exponential increase since the onset of the COVID-19 pandemic, it is little surprise that movers of goods for personal consumption seek to expand delivery options, including through the use of land-based autonomous vehicles, such as PDDs; and

WHEREAS, PDDs are small autonomous vehicles designed primarily for last-mile logistics using sidewalks and driveways, and are more akin to pedestrians than automobiles. A growing number of states, including Virginia, Arizona, and

Washington, have passed such legislation or are considering regulation. Proposed SB 892 essentially relegates PDDs to pedestrian status, requiring the devices to adhere to pedestrian regulations and operate on sidewalks where possible; and

WHEREAS, While it is evident that major entities, such as Amazon and FedEx, stand to benefit from the use of PDDs, there are serious human impact considerations that must be addressed, particularly as we struggle collectively with the consequences of a global pandemic and resultant job losses. The effects of automation of this aspect of delivery of goods at this time in our history is not to be ignored. At the most obvious level, fewer drivers will be hired when machines can make home deliveries; and

WHEREAS, Many other significant policy implications have not been adequately considered by proposed SB 892, including but certainly not limited to: the effect of allowing heavy machinery to traverse city sidewalks and streets without providing for weight limits – potentially adding to further destruction of our sidewalks and streets, necessary requirements for inspection and cleanup by operators of PDDs for inevitable spills and waste, and the safety of pedestrians and cyclists who may not always be using the sidewalk or roadway as intended and will encounter an errant PDD traveling (the permitted 10 mph) on the sidewalk or (20 mph) in the street, as allowed under the statute; and

WHEREAS, The most egregious aspect of the proposed PDD legislation, however, is the specific preemption clause in section 781, prohibiting local regulation: “A local authority shall not regulate the operation of a personal delivery device in a pedestrian area or on a highway or street in a manner inconsistent with this chapter, including, but not limited to, restricting the hours or zones of operation”; and

WHEREAS, Given the essentially experimental nature of these devices, the prohibition on local regulation, particularly in a home rule city the size of Detroit, is insupportable and counter to City government’s most fundamental Charter-mandated role, as espoused in the Charter’s Declaration of Rights: “The City shall provide for the public peace, health and safety of persons and property within its jurisdictional limits”. Without the ability to regulate hours, manner, and location of operation, City government will be unable to protect its citizens – allowing an autonomous vehicle sharing the City’s sidewalks with kids, the elderly, and the visually impaired is unacceptable risk; and

WHEREAS, The balance of corporate versus human interest demands a much closer, more sensitive review of this proposed legislation, with the balance weighing heavily in favor of our community. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council recognizes the advance of autonomous vehicles as a likely inevitability, but strongly urges the Legislature to shelve proposed Senate Bill 892 at this most critical time in the interest of community safety and job creation. AND BE IT FURTHER

RESOLVED, That a copy of this resolution shall be transmitted to the Detroit delegation of the Michigan Legislature, members of the Michigan Senate Committee on Transportation and Infrastructure, Mayor Mike Duggan, the City of Detroit’s Lansing lobbyist, and Governor Gretchen Whitmer.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Leland, McCalister, Jr., Sheffield, Spivey, Tate, and President Jones — 9.

Council Member Benson on behalf of Council President Jones moved the following one (1) resolution:

**RESOLUTION IN SUPPORT OF  
SENATE BILL 945 REQUIRING  
ENHANCED POLICE TRAINING  
THROUGHOUT THE STATE OF  
MICHIGAN IN RESPONSE TO THE  
NATIONWIDE PROTEST AGAINST  
POLICE BRUTALITY**

By COUNCIL PRESIDENT JONES:

WHEREAS, The flashes of camera phones have shined a bright light on a dark history of police brutality in America. In recent days, amidst the coronavirus stay at home orders, protests have erupted across the nation. Too often the violent and callous actions of some police officers are disregarded, improperly reported, concealed or deliberately not penalized, prompting a response from Michigan elected officials; and

WHEREAS, Senator Jeff Irwin, along with several other legislatures, introduced Senate Bill 945 on May 28, 2020; which would amend the “Michigan Commission on Law Enforcement Standards Act” (PA 203 of 1965) in an attempt to address police brutality and minimize the probability of future cases; and

WHEREAS, If passed, Senate Bill 945 would require all licensed and incoming law enforcement officers to undergo training for identifying potential implicit biases, techniques to de-escalate confrontations, develop methods to recognize mental health complications, and procedural justice strategies (resolving disputes and allocating resources fairly) as a part of a police officer’s certification process, beginning January 1, 2022; and

WHEREAS, USA Today revealed that during the past decade, there have been about 85,000 cops investigated for police

misconduct, including nearly 23,000 excessive force investigations. Approximately, a little over 1,000 people are killed by police each year. However, less than 1% led to an indictment by a grand jury and 97% were not charged at all by a prosecuting attorney, according to the Washington Post. The U.S Department of Justice reported a staggering, 84% of officers have witnessed a fellow officer using more force than necessary in 2015; and

Whereas, 2019 statistics show, minorities, most frequently Black people are disproportionately victims of fatal police interactions.

<b>Fatal Police Encounter:</b>	<b>U.S Population Size:</b>
• 1.3% Native American	• 0.9% Native American
• 3.1% Asian	• 4.7% Asian
• 18.5% Hispanic	• 16.4% Hispanic
• 31.8% Black	• 12.2% Black
• 44.9% White	• 63.7% White; and

WHEREAS, An officer is in the position to make fatal decisions in a split second. The aforementioned statistics reveal that something must be done to prevent law enforcement from becoming judge, jury, and executioner. It has been considered that more training can equip officers with techniques to avoid violent or fatal confrontations. This has been proven true in Dallas, TX, where police departments have implemented mandatory de-escalation training; resulting in a 60% drop in complaints against the police, 30% drop in police assaults, and 40% drop in police shootings between 2009-2014; and

WHEREAS, The Detroit City Council asserts its commitment to the welfare of its citizens by cultivating an environment and approving public policies that promote the progress and safety of all the citizens of Detroit; Now Therefore, Be It

RESOLVED, Implementing standards for training at the state level will ensure a universal standard that will begin the process of dismantling the cultural divide between the police and the citizens they have taken an oath to serve and protect. For that reason, the Detroit City Council wholeheartedly declares its unwavering support for Senate Bill 945; Be It Further

RESOLVED, The City Clerk's office is directed to send a copy of this resolution to Governor Gretchen Whitmer, Senator Jeff Irwin, the Michigan State Committee on Judiciary and Public Safety, Mayor Mike Duggan, and Detroit Police Chief James Craig.

Re: Request to accept an increase in appropriation for the FY 2020 Summer Food Service Program.

The Michigan Department of Education has awarded an increase in appropriation to the City of Detroit General Services Department for the FY 2020 Summer Food Service Program, in the amount of \$1,000,000.00. There is no match requirement. The total increase is \$1,000,000.00. This increase was awarded based on pro-

jections by the Michigan Department of Education that showed that the FY 2020 Summer Food Service Program will have dramatically greater demand than previous years due to the COVID-19 pandemic. This grant was included in the FY 2020 department budget, which was approved by council on April 8, 2019. This funding will increase appropriation 20615, previously adopted in the annual budget, in the amount of \$400,000.00, to a total of \$1,400,000.00.

The objective of this program is to provide meals to children at various recreation centers, parks and community centers across the City of Detroit. Parents and guardians will be allowed to pick-up and take home meals to children through this year's program in order to ensure continued safe social distancing practices. The funding allotted to the department is utilized to reimburse the department for all meals served to children, pay for the salaries of administrators, and conduct marketing and outreach activity.

I respectfully ask your approval to accept the increase in appropriation funding in accordance with the attached resolution.

**RESOLUTION IN SUPPORT OF THE LOCAL PROMOTERS AND INDEPENDENT VENUES FOR FEDERAL SUPPORT DUE TO THE COVID-19 PANDEMIC**

By Council Member Sheffield:

WHEREAS, The COVID-19 public health crisis has brought a deafening close to business operations for many independent venues across the country; and

WHEREAS, Entertainment hubs are important economic multipliers for local economies, they serve as employers, tourism destinations and revenue generators for neighboring business such as restaurants, hotels and retail; and

WHEREAS, Independent venues serve as vibrant and essential components of our City’s cultural and artistic pride. Independent venues encourage growth of the arts by providing communal space for artists and community groups; and

WHEREAS, The unique circumstances that have led to the closure of the independent venues, will likely lead to a reduction in revenues for these venues for the foreseeable future; and

WHEREAS, Local promoters, such as Rashida Mausi, whose company, Right Productions, manages and operates the Aretha Franklin Amphitheater will likely feel the effects more than the biggest players. For promoters that are not like Live Nation or AEG, expenses they do not receive back could put them permanently out of business; and

WHEREAS, On April 22, 2020, NIVA told Rolling Stone magazine that 90% of its 1,300 member venues report they do not have cash on hand to last more than six months without federal intervention, and 55% say they do not have enough to last more than three months; and

WHEREAS, The newly formed National Independent Venue Association (NIVA), which has 450 member organizations in 43 states. NIVA has requested the assistance of specific funding programs for the duration of the government’s mandatory shutdown. The goal is to enable independent venues to survive the COVID-19 crisis, reopen in the future, and once again contribute to the economic revival of our communities. The NIVA and promoters are collectively urging Congress to help protect the industry of independent venues, as they are in need of federal financial assistance. Listed below are their requests:

- Ensure that the Small Business Administration’s Paycheck Protection

Program offer more help for businesses like theirs that are completely shut down and which put them in the greatest need, the association said. Potential revisions would include increasing the program’s loan cap and extending the program until all the affected businesses can resume operations at full capacity.

- Establishing a business recovery grant fund for concert venues and other shuttered businesses, granting various forms of tax relief.

- Continuing unemployment insurance for contract workers and artists who typically wouldn’t get such protections.

- Create guidelines to help safely reinstate mass gatherings as part of the eventual reopening process. THEREFORE, BE IT

RESOLVED, That the Detroit City Council supports local promoters and other independent venues call to receive federal support due to the COVID-19 pandemic. BE IT FINALLY

RESOLVED, That copies of this resolution shall be provided to the Mayor and Governor Whitmer.

**City Planning Commission**

June 5, 2020

Honorable City Council:

Re: Request of Doug Quada to approve site plans and elevations for a Planned Development (PD) zoning classification on District Map No. 4 of Chapter 50, Article XVII of the 2019 Detroit City Code, for the Henry Glover mansion commonly referred to as 229 and 239 Edmund Place, to construct a carriage home with residential space and parking. Additionally to allow for green space on the site. (Recommend Approval).

**BACKGROUND**

In 2018, the request of Doug Quada was reviewed and approved to allow for the site plans and elevations of the Henry Glover mansion, commonly referred to as 229 Edmund Place. The property hosts a historic Victorian style mansion in the Brush Park Historic District.

The original approval of this request allowed for the structure to be rehabbed and an addition to the building to allow for two new units. In total the new mansion now allows for five market rate rental units. The units have two bedrooms at 1,400 square feet each. The rehab of the building also used materials that were salvaged and repurposed from the original building.

**PROPOSAL & ANALYSIS**

The current proposal is to construct a two-story carriage home and provide for green space at 229-239 Edmund Place. The plan is that the carriage home will house six individual parking stalls on the first story. The second story is planned to be an 1800 square foot residential unit.

When the original request for a rehabilitation and addition to the Henry Glover Mansion on this site was received, the petitioner desired to also build the proposed carriage home. At that time, the proposal did not meet the 1.5 floor area ratio and side setback requirements of zoning provisions set forth in the Brush Park Third Modified Development Plan and zoning ordinance.

Since then, the petitioner has acquired additional land from the City to the east, which consists of approximately 36.5 feet of the parcel commonly known as 239 Edmund Place. This additional land makes the proposal for the carriage home consistent with zoning requirements. Given the additional land that is in process to be combined with the parcel that the mansion sits on, the proposal is in conformance with the F.A.R. ratio, setback and all other the applicable zoning requirements, including the Sec. 50-11-15. PD Design Criteria.

**Surrounding Zoning and Land Use**

The zoning classification and land uses surrounding the subject area are as follows:

**North:** is zoned PD-H; Community park

**East:** is zoned PD-H; Vacant lots; historic mansions

**South:** is zoned PD-H; City Modern development

**West:** is zoned PD-H; vacant lot

**Master Plan of Policies**

Regarding the City of Detroit Master Plan of Policies (MP), the subject property is located in the Lower Woodward area of Neighborhood Cluster 4. The future land use designation for the subject parcels indicates Mixed Residential Commercial (MRC) on the subject parcel. This proposal is consistent with this designation.

**COMMUNITY INPUT**

The Brush Park CDC has submitted a letter of support (see attached) for the proposal after reviewing the plans of the developer. The developer has also informed the remaining neighbors on the subject block of the desired plans and has received support from immediate neighbors.

**RECOMMENDATION**

Based on the review of this proposal and it's consistency with the Brush Park Modified Development Plan, the Sec. 50-11-15 PD Design criteria, and all other zoning ordinance provisions, CPC deems this proposal appropriate. Therefore, CPC recommends approval with the following two conditions:

The developer shall work with the immediately adjacent community to minimize disruption to the neighborhood during construction and address impacts that may arise.

The final site plans, elevations, lighting, landscape and signage plans be submitted by the developer to the staff of the City Planning Commission for review and approval prior to making application for applicable permits.

Respectfully submitted,  
ALTON JAMES  
Chairperson  
MARCELL R. TODD, JR.  
Director  
KIMANI JEFFREY  
City Planner

By Council Member Tate:

Whereas, Doug Quada has requested site plan review and approval of the preliminary site plans and elevations to construct a carriage home with residential space and parking, and to allow for green space on the subject site located on the north side of Edmund Place and John R Street, more commonly known as 229 Edmund Place and more specifically known as Tax Parcel No. 01000717. Also, 239 Edmund Place more specifically known as Tax Parcel No. 01000718 and described as North Edmund Place, East, the West 36.5 feet of the East 40 feet of Lot 9 Block 7 Brush Park Subdivision of part of Park Lots 14 and 15 as recorded in Liber 2, Page 25 of PLATS, Wayne County Records 1/43 36.5 X 150; and

Whereas, The proposed development is located within an existing PD (Planned Development) District and consequently, subject to the provisions of Article III, Division 5, Section C; Authority to Review and Approve Site Plans," (Secs. 50-3-153 through 50-3-170) of the Detroit Zoning Ordinance; and

Whereas, The PD zoning district classification requires that site plans be reviewed and approved by the Detroit City Council following the receipt of a written report and recommendations from the City Planning Commission; and

Whereas, The rehabilitation and addition to the Henry Glover mansion was approved by the City Council in 2019, the developer is seeking approval for an additional carriage home on the property; and

Whereas, The Detroit City Council has reviewed the preliminary site plan and found the proposed development to be in agreement with the applicable Brush Park Rehabilitation Project Development Plan (Third Modification) dated July 10, 2002, which underpins the PD zoning district;

Now, Therefore, Be It

Resolved, That the Detroit City Council approves the preliminary site plans and elevations titled 229 Edmund Place dated December 17, 2019, described in the communication from the City Planning Commission, dated June 5, 2020.

Honorable City Council:  
 Re: Sugar Hill – HUD Section 108 Loan. Loan Collateral Requirements / Debt Service Reserve Account.

On May 9, 2003, your Honorable Body approved an amendment to the City of Detroit's ("City") Consolidated Plan with the United States Department of Housing and Urban Development ("HUD") to accept a loan of \$17,000,000 under the Section 108 Loan Guarantee Assistance Program for the Garfield Area Development Plan ("HUD 108 Loan"), which included four (4) separate redevelopment projects near East Garfield and East Forest between Woodward and John R. Streets ("Garfield Projects").

The City has used the majority of the HUD 108 Loan proceeds to provide loans to developers for 3 of the 4 Garfield Projects. The remaining \$6,697,000 balance of the HUD 108 Loan proceeds is reserved for the final Garfield Project, which is a mixed-income, multifamily residential project with commercial space and a public parking garage located at 81, 95, 107 and 119 Garfield (the "Sugar Hill Project"). As part of the HUD 108 Loan documents, the City entered into that certain Contract for Loan Guarantee Assistance with HUD, as amended (the "HUD Contract"), which contains certain collateral requirements ("HUD Collateral Requirements") that include the City's placement of a first priority lien on the Sugar Hill Project property.

The developer for the Sugar Hill Project intends to finance construction, in part, through a loan from the City that utilizes the HUD 108 Loan balance, as well as through other financing that includes a leveraged New Markets Tax Credit ("NMTC Program") structure. The NMTC Program precludes the City from taking a

first priority lien on the Sugar Hill Project property to satisfy the HUD Collateral Requirements. However, HUD has agreed to amend the HUD Contract to allow the City to satisfy the HUD Collateral Requirements as follows:

1. Assignment to HUD of the City's assignment of leases and rents on the Sugar Hill Project;

2. City's creation and deposit of funds into a designated debt service reserve account (the "Debt Service Reserve Account") in the amount of \$5,668,215.79 ("Debt Service Balance"), which represents the remaining principal balance that the City owes to HUD on the Sugar Hill Project portion of the HUD 108 Loan, less anticipated future developer repayments and a discount rate. The Debt Service Balance amount will be reduced from time to time as the City makes biannual principal payments to HUD.

The City has proposed to fund the Debt Service Reserve Account with \$5,668,215.79 in Community Development Block Grant funds ("CDBG Funds"). A portion of these CDBG Funds will come from money saved on deferred August 1, 2020 principal payments on the City's entire Section 108 loan portfolio. The remaining balance of the CDBG Funds will come from a City reprogramming that occurred earlier this year. As the Debt Service Balance amount requirements are decreased over time with City loan repayments being made, any overages in the Debt Service Reserve Account will be used towards the City's future payments to HUD on the Section 108 notes.

The deferment is made possible by a recent program initiated by HUD to help provide relief to Section 108 borrowers impacted by COVID-19. Under this program, HUD can defer the City's August 1, 2020 principal payments due on all of its Section 108 notes. The deferment would save the City an estimated \$4,864,000 in CDBG Funds for fiscal year 2020-2021, all of which would be used towards funding the Debt Service Reserve Account.

In support of the Sugar Hill Project, including the construction of affordable housing units, we hereby request that your Honorable Body adopt the attached resolution that: (1) approves the creation of a Debt Service Reserve Account to satisfy the HUD Collateral Requirements and (2) allows such account to be funded from the City's CDBG Funds.

Respectfully submitted,  
DONALD RENCHER  
Director

By Council Member Tate:  
Now, Therefore, Be It

Resolved, That Detroit City Council hereby approves the creation of a debt service reserve account ("Debt Service Reserve Account") to be used by the City

of Detroit ("City"), acting by and through its Housing and Revitalization Department ("HRD"), to meet certain collateral requirements related to a Contract for Loan Guarantee Assistance, as amended, that is by and between the City and the United States Department of Housing and Urban Development ("HUD") and that pertains to the City's receipt of a loan of \$17,000,000 under the Section 108 Loan Guarantee Assistance Program for the Garfield Area Development Plan ("HUD 108 Loan"); and be it further

Resolved, That the Debt Service Reserve Account shall be used as collateral to secure a portion of the HUD 108 Loan that is being used to fund the construction of a public parking garage located at 81, 95, 107 and 119 Garfield and that is part of the development known as the Sugar Hill Project; and be it further

Resolved, That HRD is hereby authorized to fund the Debt Service Reserve Account with \$5,668,215.79 in Community Development Block Grant funds ("CDBG Funds"), with \$804,215.79 from Appropriation No. 20541 and \$4,864,000 from Appropriation No. 13529; and be it further

Resolved, That as the City repays the HUD 108 Loan and the Debt Service Reserve Account amount requirements are decreased, any overages in the Debt Service Reserve Account shall be returned to HRD's Appropriation No. 13529 to be used for the City's future payments to HUD on any remaining Section 108 note balances; and be it further

Resolved, That HRD is hereby authorized to make expenditures from the Debt Service Reserve Account to meet the City's obligations under the HUD 108 Loan; and be it further

Resolved, That the HRD Director, or his authorized designee, is authorized to prepare and execute any and all loan, deferment and/or other documents necessary or convenient, including any documents required by HUD that are related to the HUD 108 Loan, to effectuate the approvals and authorizations included in this resolution; and be it finally

Resolved, That the Office of the Chief Financial Officer is hereby authorized to create and increase the necessary accounts and honor expenditures, vouchers and payrolls when presented in accordance with the foregoing communication and standard City procedures.

**RESOLUTION IN SUPPORT OF SENATE BILL 234**

By COUNCIL PRESIDENT JONES:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, For years, the community and City officials have complained that Detroit's police shortage has worsened by the flight of recruits who receive free training through the City's police academy, only to leave for a suburban police force upon graduation, meaning the City invests in the officer training, but sees virtually no return; and

WHEREAS, According to the police union, nearly half of the City's officers, about 800, have less the five years' experience. City records show that in recent years, 19 percent of new recruits have left the Detroit Police Department within three years of graduating from the City's police academy; and

WHEREAS, In recognizing the imbalance, Council has requested that its lawyers draft an ordinance to address this issue, however, it was determined that State law had to change, as the current State law prohibits employers from requiring reimbursement for training that is necessary as a condition to do a job without prior written consent; and

WHEREAS, If passed, Senate Bill 234, sponsored by State Senator Sylvia Santana, D-Detroit, would amend section 8 of 1978 PA 390, the Payment of Wages and Fringe Benefits Act (MCL 408.478), to allow a law enforcement agency under a signed loan forgiveness agreement, entered into on or after the effective date of the amendatory act, which would mandate newly trained police officers to repay 100 percent of their academy pay if they

leave within one year; 15 percent within two years; 50 percent within three years; 25 percent within four years and 10 percent within five years; and

WHEREAS, That the Detroit City Council advocates for the efficient use of taxpayer's dollars, therefore expresses its support for Senate Bill 234. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council is hereby calling for the Michigan legislature to approve Senate Bill 234. NOW THEREFORE BE IT FURTHER

RESOLVED, That copies of this resolution be forwarded to the City of Detroit's Lansing Lobbyist, the Detroit delegation in the State Senate and State House, State Senate Committee on Judiciary and Public Safety, Mayor Mike Duggan and Governor Gretchen Whitmer.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Leland, McCalister, Jr., Sheffield, Spivey, Tate, and President Jones — 9.

Nays — None.

**WALK-ONS**

**City Planning Commission**

June 5, 2020

Honorable City Council;

Re: Further extension of review period for Zoning Ordinance text amendment — Short Term Rentals.

As provided in Sec. 50-3-48 of the 2019 Detroit City Code, where a proposed text amendment is not acted upon by the City Council within one hundred twenty (120) days of the date of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council.

The City Planning Commission's report and recommendation to approve the Zoning Ordinance text amendment relative to the repeal of the "home occupation" prohibition of short term rentals was taken up by your Honorable Body on June 25, 2019. The original 120-day review period was scheduled to expire on October 23, 2019. On October 22, 2019, Your Honorable Body passed a resolution to extend the review period an additional 120 days until February 20, 2020. Subsequently, a second extension of the review period was approved until June 19, 2020.

Council's deliberations concerning the non-zoning provisions in the City Code relative to short term rentals are continuing and it would be appropriate to act on the Zoning Ordinance amendment for short term rentals at the same time as the non-zoning ordinance. A third extension of the review period for the Zoning text amendment can be authorized by a

vote on the attached resolution to further continue the review period until October 17, 2020.

Respectfully submitted,  
MARCELL R. TODD, JR.

Director  
M. RORY BOLGER  
City Planner

Whereas, City Council took up the recommendation of the City Planning Commission for approval of the proposed text amendment June 25, 2019; and

Whereas, The Detroit Zoning Ordinance provides in Sec. 50-3-48 of the 2019 Detroit City Code that where a petition for a proposed text amendment is not acted upon by the City Council within one hundred twenty (120) days of the date of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council; and

Whereas, The original 120-day review was set to expire on October 23, 2019; and

Whereas, City Council acted on October 22, 2019 to extend the review period for an additional 120 days until February 20, 2020 and then subsequently to extend the review period until June 19, 2020; and

Whereas, The Chapter 50 Zoning Ordinance text amendment relative to short term rentals will be ripe for action when the related amendment to the City Code relative to short term rentals is ready for Council's vote; and

Whereas, The Detroit City Council finds it appropriate to further review the proposed text amendment; Now Therefore Be It

Resolved, That the Detroit City Council hereby further extends the review period of the proposed text amendment to repeal the "home occupation" prohibition of short term rentals for an additional 120 days until October 17, 2020.

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of a multifamily residential building consisting of 19 apartments located at 675 W. Willis Avenue in the Midtown Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the

office of the City Clerk for the rehabilitation of a multifamily residential building consisting of 19 apartments located at 675 W. Willis Avenue. This application corresponds to a qualified site which will accommodate the continuation of a multifamily residential building. The project will include the complete rehabilitation of 19 rental apartment units at a cost of \$65,954 per unit.

The subject property has been confirmed as being within the boundaries of the Midtown NEZ which was established by a vote of Council on March 9, 1999, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The anticipated cost for the total rehabilitation of the complex is approximately \$1.25 million. The applicant is seeking a 15 year tax abatement. The NEZ certificate application appears to have been submitted prior to the issuance of any applicable building permits.

Please contact our office should you have any questions.

Re: Petition No. 1267 – 2701 Russell, LLC request to vacate and convert to easement the public alley between Rivard Street and Russell Street, bounded by Alfred Street and Division Street.

Petition No. 1267 – 2701 Russell, LLC request to vacate and convert to easement the public alley (20 ft. wide) between Rivard Street (50 ft. wide) and Russell Street (86 ft. wide), bounded by Alfred Street (50 ft. wide) and Division Street (50 ft. wide).

The petition was referred to the City Engineering Division – DPW for investigation (utility review) and report. This is our report.

The request is being made to improve the safety of adjacent property owners and in suppose of property improvement for the abutting buildings.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the vacation and conversion to utility ease-

ment provided certain provisions are met. The DWSD provisions are a part of the attached resolution.

All other involved City Departments, and privately owned utility companies have reported no objections to the vacation and conversion to utility easement of the alley. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

#### RESOLUTION IN SUPPORT OF CRIMINAL JUSTICE REFORM

By ALL COUNCIL MEMBERS:

WHEREAS, Building productive relationships between the police and the

communities they serve is often mismanaged, neglected, or even hostile. More attention has been given to incarceration as opposed to rehabilitation, often resulting in abuse rather than understanding. In too many instances, poorly regulated authority on law enforcement has become an antagonist to the welfare of a community, instead of being the protector of it. As the world continues to cope with the health and economic crisis caused by the Coronavirus, an equally malignant crisis of how our society achieves Justice has been exposed; and

WHEREAS, A May 2020 study, entitled *Wayne County Jail – Report and Recommendations*, was conducted by the New York-based Vera Institute of Justice and funded by the Hudson-Webber Foundation from 2014 to 2019. The Institute investigated dozens of jails across the country, while the report focused on the Wayne County jail. Wayne Circuit Court Chief Judge Timothy Kenny chaired a working group alongside the study, with officials from the prosecutor’s office, law enforcement, criminal justice organizations, and defense attorneys to investigate traditional procedures for incarceration and possible methods to reduce the number of people incarcerated in Wayne County; and

WHEREAS, Wayne County jail administrators began implementing changes to the jail system during the course of the study, achieving a 25% decrease in the jail population from July 2018 to June 2019, in comparison to the same time period in 2014 to 2015; and

WHEREAS, Since March 2020, concerns regarding the spread of the COVID-19 virus in local jails accelerated efforts to reduce the number of prisoners in the Wayne County system, leading to a decrease in the jail population by 40% since the onset of the pandemic. County officials’ enhanced response to public health demands demonstrates not only the potential to reform the current system but the non-essential nature of continued mass incarceration at the local level; and

WHEREAS, Justice reform aims to implement new operational practices to continue to reduce jail populations after coronavirus concerns have subsided and develop strategies to prevent a return to pre-pandemic incarceration rates; and

WHEREAS, The Vera Institute study described five main categories of recommendations for justice reform:

1. *Provide criminal justice oversight by creating a standing Criminal Justice Coordinating Council (CJCC), improving system transparency and public accountability.* A CJCC would consist of members of local government, law enforcement, criminal-justice agencies, and community-organizers to collaborate, collect, analyze, and share criminal justice data from multiple

agencies via online databases, public meetings, and published reports. Benefits of a CJCC is increased cooperation and transparency between agencies, local government, and the community by developing well-defined objectives and improving the quality of criminal justice programs and personnel.

2. Reduce pretrial incarceration by reducing custodial arrests, increasing pre-trial release, reducing the criminalization of civil issues, and expanding pre-trial diversion. Many people spend more time in jail before their trial, then after sentencing, which means the alleged offense was not significant enough to be sentenced to a lengthy incarceration stay. Needless, overuse of custodial arrests, even for a short time, can cost an inmate their job, diminish future employ ability, and exacerbate family or financial difficulties. Often times, these arrests were avoidable and counterproductive in promoting public safety. Minimizing the amount of time a person is incarcerated for minor crimes, such as driving with a suspended license, lack of insurance, and civil issues like non-payment of child support will substantially reduce incarceration rates. It will also permit valuable resources to be diverted to other programs that are more beneficial for the accused offender and society.

3. *Reevaluate approaches to the community supervision by reducing use of pretrial electronic monitoring, improving its administration and reducing incarceration*

*tion for probation.* 71% of the tether population hasn't had a trial. Excessive use of tethering before a trial has been held, has become a method of continuous surveillance without having established that the accused has committed a crime. There needs to be a restriction on the type of offenses that require a tether, expedite release from jail to tether, and a reduction in the amount of time someone has to remain tethered. Strict guidelines also need to be established for the length of probation, incentives for early discharges, and limiting penalties for technical violations. 89% of probation violations did not result in a new charge within the first 12 months of being arrested. This indicates people are going to jail for minor violations, which leads to more economic and mental health issues, than it solves. Probation and tethering are alternatives to incarceration, not an opportunity to find a reason to readmit people into jail.

4. *Reduce the overrepresentation of black people in the system by establishing a framework for action on racial equity.* Racial disparities are driven by the number of arrests. During the 5 years of the Vera Institute study, 18,289 black people and 5,724 white people were arrested in Wayne County, despite the population being 39% black and 50% white. The disparities are even greater for courts outside of Detroit. In other words, black people are being arrested more than any other racial group.

**2014-2019 Data on Racial Disparities in Wayne County found below:**

<i>Wayne County is:</i>	<i>Arrested:</i>	<i>Sentenced:</i>	<i>On tether:</i>
5% Other	0% Other	1% Other	2% Other
6% Latino	5% Latino	4% Latino	3% Latino
39% Black	71% Black	70% Black	58% Black
50% White	24% White	25% White	37% White

5. *Partner with community organizations to address violence and other harm* by expanding mental health, rehabilitation, intervention, and jail alternative programs. Incarceration should be the final step, after all other remedies have failed. However, the Justice-System must provide and employ those remedies with the intention of encouraging accountability, collaboration, and transparency between the police and the community they serve; and

WHEREAS, True justice reform must continue after inmates are released from jail. Wayne County Executive Warren Evans is working with Secretary of State Jocelyn Benson to improve inmates' prospects of employment and limit the possibility of future confrontational interactions with police by issuing a Michigan State ID to all inmates upon release from jail; and

WHEREAS, The Detroit City Council is dedicated to promoting development of a justice system that is fair, unbiased, and reasonable to all citizens regardless of race, gender, nationality, or ethnicity by expanding and investing in programs and procedures that will preserve the life and prosperity of all Detroit residents. NOW THEREFORE, BE IT

RESOLVED, Efforts to improve and restructure an excessive, outdated, and biased justice system is a long overdue undertaking that the Detroit City Council recognizes as a crucial component to developing a more equitable society. Therefore, the Detroit City Council vehemently supports the State of Michigan issuing IDs for all inmates released from jail and Wayne County implementing the recommendations devised in the Vera Institute of Justice May 2020 study of the Wayne County Jail. BE IT FURTHER

RESOLVED, The City Clerk's office is directed to send a copy of this resolution to Governor Gretchen Whitmer, Secretary of State Jocelyn Benson, Mayor Mike Duggan, Wayne County Chief Judge Timothy Kenny, Wayne County Prosecutor Kym Worthy, Wayne County Executive Warren Evans, and Wayne County Sheriff Benny Napoleon.

**WALK-ONS**

**Office of the Chief Financial Officer  
Office of Budget  
Budget Administration**

June 19, 2020

Honorable City Council:  
Re: Fiscal Year 2019-2020 Budget Amendment

The OCFO – Office of Budget requests authorization to amend the City of Detroit Fiscal Year 2019-2020 Budget to maintain a balanced budget, as required by the Uniform Budgeting and Accounting Act, 1968 PA 2, MCL 141.421 to 141.440.

Due to the Coronavirus Disease 2019 (COVID-19) public health emergency and its mandatory business closures and impact on the national economy, the Office of Budget is projecting a \$154 million revenue shortfall in Fiscal Year 2019-2020 driven by:

- Gaming revenue losses directly tied to the casino closures on March 16, 2020
- Income tax reduction as employers have laid off and furloughed workers and there is a forecasted contraction in the national and state economy
- Anticipated State Revenue Sharing reduction due to a drop in state sales taxes
- Other revenue losses from suspended parking enforcement, bus fare interruption to protect drivers from COVID-19 and a reduction in business and construction permitting activity

The City has taken decisive actions to address the revenue shortfall:

• In early March, the Chief Financial Officer canceled all cash capital projects that were not yet under construction and all demolitions that were not an urgent life safety matter

• On April 3, the CFO issued a directive to freeze hiring and limit discretionary spending. Under this directive, departments were ordered to cancel discretionary contracts and purchases, make every attempt to limit overtime and limit new contracts to only those deemed critical by the CFO

• The Chief Procurement Officer is renegotiating contracts with major vendors to achieve savings

• The City has requested and received cost savings from authorities to reduce appropriations

• The City is maximizing federal reimbursement for additional spending on COVID-19

• The City has instituted a number of workforce changes to reduce spending, preserve core City services, and treat employees fairly

Office of Budget  
Budget Administration**

June 19, 2020

Honorable City Council:

Re: Fiscal Year 2019-2020 Budget Amendment.

The OCFO – Office of Budget requests authorization to amend the City of Detroit Fiscal Year 2019-2020 Budget to maintain a balanced budget, as required by the

Uniform Budgeting and Accounting Act, 1968 PA 2, MCL 141.421 to 141.440.

Due to the Coronavirus Disease 2019 (COVID-19) public health emergency and its mandatory business closures and impact on the national economy, the Office of Budget is projecting a \$154 million revenue shortfall in Fiscal Year 2019-2020 driven by:

- Gaming revenue losses directly tied to the casino closures on March 16, 2020
- Income tax reduction as employers have laid off and furloughed workers and there is a forecasted contraction in the national and state economy
- Anticipated State Revenue Sharing reduction due to a drop in state sales taxes
- Other revenue losses from suspended parking enforcement, bus fare interruption to protect drivers from COVID-19 and a reduction in business and construction permitting activity

The City has taken decisive actions to address the revenue shortfall:

- In early March, the Chief Financial Officer canceled all cash capital projects that were not yet under construction and all demolitions that were not an urgent life safety matter
- On April 3, the CFO issued a directive to freeze hiring and limit discretionary spending. Under this directive, departments were ordered to cancel discretionary contracts and purchases, make every attempt to limit overtime and limit new contracts to only those deemed critical by the CFO
- The Chief Procurement Officer is renegotiating contracts with major vendors to achieve savings
- The City has requested and received cost savings from authorities to reduce appropriations
- The City is maximizing federal reimbursement for additional spending on COVID-19
- The City has instituted a number of workforce changes to reduce spending, preserve core City services, and treat employees fairly

The reductions to budgeted revenues and expenditures for Fiscal Year 2019-2020 impacting the General Fund are summarized below, along with a resolution for all appropriation changes.

Re: Request to consider the request of the City Planning Commission staff and the Planning and Development Department, to amend Chapter 50 of the 2019 Detroit City Code, *Zoning*, by amending Article XVII, *Zoning District Maps*, Section 50-17-5, *District Map No. 4*, to provide for the following:

(1) To show a PD (Planned Development District) zoning classification where an SD2 (Special Development District, Mixed-Use) zoning classification is currently shown on land bounded by Wilkins Street on the north, the Chrysler Freeway Service Drive on the east, the Fisher Freeway Service Drive and Winder Street on the south, and Beaubien Street on the west; and

(2) To show a PD (Planned Development District) zoning classification where a B4 (General Business District) zoning classification is currently shown on land commonly known as 114 Winder Street; and

(3) To modify the existing PD (Planned Development District) zoning classification, established by Ordinance 01-96, currently shown on land generally bounded by Mack Avenue on the north, Beaubien Street on the east, Erskine Street on the south, and Brush Street on the west in order to repeal the regulations for development for such classification; and

(4) To modify the existing PD (Planned Development District) zoning classification, established by Ordinance 39-07, currently shown on land generally bounded by John R Street, the alley south of Erskine Street, Brush Street, Mack Avenue, Woodward Avenue, and Alfred Street in order to revise the boundaries for such classification; and

(5) To modify the existing PD (Planned Development District) zoning classification, established by Ordinance Nos. 01-96, 25-96, and 39-07, as amended by Ordinance Nos. 07-16, 24-17, 27-17, 26-18, 14-19, and 35-19, currently shown on land generally bounded by Mack Avenue, Beaubien Street, Wilkins Street, the Chrysler Freeway Service Drive, the Fisher Freeway Service Drive, Woodward Avenue, Erskine Street, and John R Street, but excluding certain properties abutting Woodward Avenue.

The proposed map amendment is being requested in order to adopt the Brush Park Form-Based Code as the regulations for development for the subject area described and found in the map below (RECOMMEND APPROVAL).

## BACKGROUND

In the spring of 2016, The City Planning Commission staff completed a series of online courses and subsequent classroom trainings in Lansing, Michigan on form-based code (FBC).

As staff contemplated possible application of the FBC concepts in the City of Detroit, it became evident that the Brush Park neighborhood would be a good candidate for a first application of the zoning tool for the following reasons:

- the development activity currently underway;
- the need for a community plan post Emergency Manager Order No. 36 which eliminated both the Urban Renewal areas and the Fourth Modified Development Plan;
- the need for more cohesive development;
- the City Modern Bedrock development, located nearby, that incorporated the form based development concept, and;
- the desire to take an opportunity to apply the concept to one of the most rapidly changing neighborhoods in the city.

CPC staff began to search for funding in order to further the zoning initiative. Initially staff were in discussions with the Michigan Association of Planning (MAP) to identify sources of funding to support the effort. PDD had also been searching for an approach to resolve the zoning dilemma in Brush Park, in which their original thought was to rezone large portions of the area to SD1 (Special Development District, Small-Scale, Mixed-Use) or SD2 (Special Development District, Mixed-Use).

CPC staff met with the Planning and Development Department (PDD) on July 15, 2016 to discuss CPC staffs proposal for a Form-Based Code. PDD was receptive of the concept and also knew of funding sources to help advance the effort. From that point, CPC and PDD partnered to advance the effort. Utile, from Boston, Massachusetts, was brought on board (using PDD's funding) to be the lead consultant, due to their expertise in the practice. More than three years have spanned, involving many stakeholders, to produce what is before your Honorable Body for consideration.

## PROPOSAL

The City Planning Commission and the Planning and Development Department are co-petitioners for the proposed Brush Park Form-Based Code ordinance.

On December 6, 2018, the CPC held a public hearing to consider the proposed FBC. The Commission subsequently voted to approve the proposal in May 2019. Since that time, CPC has worked further with the community and Law Department (Law) to accommodate additional changes.

As a result of further consideration, it was decided that the best way to effectuate the FBC would be to apply a zoning map amendment, as opposed to the text amendment that was originally petitioned for. A new public hearing was held on June 18, 2020 due to modifications made within the ordinance. The spirit and intent of this ordinance is largely the same as what was approved by CPC in May 2019. The most significant changes are that the Public Realm Standards were removed after consultation with Law. These provisions were intended to make the standards for public sidewalks, curb cuts and other elements of the public right-of-way, mesh with privately owned land. At this time, there is not an expedient way to accomplish this goal and so staff may pursue this as a secondary effort to avoid further delay of the FBC implementation.

There are two areas within the subject Brush Park community that do not bear a PD (Planned Development District) zoning classification. One is currently zoned B4 (General Business District) and the other SD2 (Special Development District, Mixed Use). Both are to be rezoned to a PD (Planned Development) zoning classification so that the FBC will be applicable to the entire area described in the subject ordinance.

The ordinance also modifies the boundaries of ordinances 01-96 and 39-07, as these ordinances' boundaries are being altered in the area where the FBC is being applied. However, their existing regulations will continue to apply to parcels abutting Woodward, which are outside of the FBC boundary (See FBC Regulating Map).

Lastly, the FBC will repeal the terms, conditions and regulations that currently govern developments in Brush Park that were implemented through the Brush Park Third Modified Development Urban Renewal Plan and were effectuated by Ordinances 01-96, 25-96, and 39-07. The FBC will replace these provisions. Other individual PDs that have been approved by the legislative bodies, such as the City Modern development, are able to continue in perpetuity as they exist, or, are consistent with approved plans. Developments in this category are subject to the provisions of *Sec. 6 Nonconformities and Savings Provision* of the FBC.

In general, the above actions are proposed in order to adopt the Brush Park Form-

Based Code as the regulations for development within the subject area described and found in the attached map.

**FORM-BASED CODES**

According to the Form-Based Codes Institute:

“a form-based code is a land development regulation that fosters predictable built results and a high-quality public realm by using physical form (rather than separation of uses) as the organizing principle for the code. A form-based code is a regulation, not a mere guideline, adopted into city, town, or county law. A form-based code offers a powerful alternative to conventional zoning regulation.

Form-based codes address the relationship between building façades and the public realm, the form and mass of buildings in relation to one another, and the scale and types of streets and city blocks. The regulations and standards in form-based codes are presented in both words and clearly drawn diagrams and other visuals. They are keyed to a regulating plan that designates the appropriate form and scale (and therefore, character) of development, rather than only distinctions in land-use types.<sup>4</sup>

This approach contrasts with conventional zoning’s focus on the detailed management and segregation of land uses, and the control of development intensity through abstract and uncoordinated parameters (e.g., FAR, dwellings per acre, setbacks, parking ratios, etc.), to the neglect of an integrated built form. Not to be confused with design guidelines or general statements of policy, form-based codes are regulatory, not advisory. They are drafted to implement a community plan. They try to achieve a community vision based on time-tested forms of urbanism. Ultimately, a form-based code is a tool; the quality of development outcomes depends on the quality and objectives of the community plan that a code implements.”

Form-Based Codes Institute website

Above you will find the five main elements that Form Based Codes typically address that are considered the pillars to make a successful ordinance that can accomplish the objectives of a form based regulation. The proposed ordinance that is being considered for Brush Park contains all of these elements except the Public Realm Standards as mentioned previously in this report. The following is included in the subject ordinance:

- Regulating Plan**
- Building Standards**
- Administration**
- Definitions**

There are however, other elements that are considered optional by form-based code experts. The Brush Park FBC ordinance utilizes the Landscaping and Signage standards of the current Zoning Ordinance. The elements that FBC experts describe as optional include:

- Architectural Standards**
- Landscaping Standards**
- Signage Standards**
- Environment Resource Standards (Stormwater standards)**
- Annotation**

**Additional Optional Elements**

**Architectural Standards**

Regulations controlling external architectural materials and quality.

**Landscaping Standards**

Regulations controlling landscape design and plant materials on private property as they impact public spaces.

**Signage Standards**

Regulations controlling allowable signage sizes, materials, illumination, and placement.

**Environment Resource Standards**

Regulations controlling issues such as storm water drainage and infiltration, development on slopes, tree protection, solar access, etc.

**COMMUNITY ENGAGEMENT AND PUBLIC HEARING RESULTS**

To-date, CPC and PDD have held over 20 meetings and conversations with the community over a 2 year period regarding the Form-Based Code. These meetings and conversations include a week of kick off meetings with our steering committee, at-large community meetings, and one-on-one calls with stakeholders, sit-down meetings at individual's homes and businesses, conference calls, face-to-face discussions, focus group meetings, and a charrette. The overall sentiment has been that many residents are anxious for this ordinance to be implemented.

CPC and PDD have additionally worked with other city agencies to inform and receive feedback regarding the project. Those entities include the The Historic District Commission (HDC), The Historic Designation Advisory Board (HDAB), and the Board of Zoning Appeals (BZA). Other parties that have conducted analysis of the code or had input, include the Office of the Chief Financial Officer, University of Michigan, Code Studio (CPC's zoning consultant) as well as several other national consultants who provided input and analysis for staff.

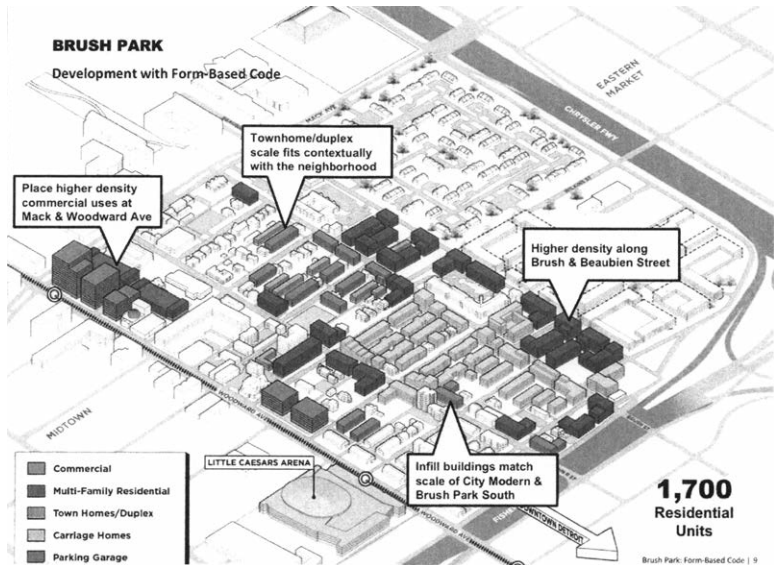

As stated previously, there were two public hearings held for this matter. The first public hearing was held December 6, 2018. At that meeting the chair of the Brush Park CDC spoke in strong support of the FBC. Another speaker asked questions about how form-based codes were planned to be applied city-wide and expressed some concern. CPC addressed these concerns during the PH. Subsequently, the ordinance was voted for approval in May of 2019.

After the CPC voted to approve the FBC in 2019, CPC staff worked further with Law and the community to finalize the FBC. After further refining the FBC (as it is the first ordinance of its kind) it was determined that the goals of the ordinance would be more appropriately implemented through a rezoning map amendment versus a zoning text amendment, as it was originally noticed to the community.

For this reason, a second public hearing was held on June 18, 2020. At this public hearing two community members spoke to voice questions regarding open space, and permissible building heights. CPC staff and PDD answered their questions. It should be noted that a letter of support was submitted for the Form Based Code by the Brush Park CDC. Additionally, a separate support letter was submitted by the chair of the Brush Park CDC speaking as a board member, but also as property owner of Brush Park.

**ANALYSIS**

During the course of this process, much thought and study have gone into this effort. Much was learned from the studies that have been done in other places where FBC has been applied or fully instituted and, they provided valuable guidance on how the concepts included in this draft ordinance might be applied on an even larger scale to improve redevelopment as it continues in the city.

An image depicting a study that was done by Utile, Boston that shows the opportunity for new development and associated density.

The primary outcomes of this proposed ordinance includes that it:

- Implements the longstanding vision of the community
- Creates a more predictable outcome of what the neighborhood will look like once built out
- Reduces costs for developers, small and large
- Sets expectations for developers and allows the neighborhood to set the vision in advance
- Provides projections for the amount of greenspace, parking, and other needs in the area
- Promotes walkability
- Allows for varying housing options
- Makes zoning more user-friendly and easier to comprehend

**MAJOR ASPECTS OF THE FORM-BASED CODE ORDINANCE**

**Review and Process**

This ordinance proposes to allow the land within the proposed boundaries to be governed similarly to standard zoning districts that makeup the majority of districts in the zoning ordinance. Most zoning districts have established parameters that are set forth; they are adopted by the City Council and are implemented by staff administratively.

The new development path of the FBC should alleviate the sometimes contentious, negotiated development process that currently exists for each project within a PD district. The current process can lead to a less cohesive neighborhood and also weighs on the community because they don't know what is allowed for each development. The prospect of new projects can become antagonistic, leading to development fatigue. With the adoption of the FBC, the rules will be set in place, so that the community and developers know what is permitted. This will result in a more predictable, final, built environment for the community and give assurance to residents that there are concrete standards that they have helped to craft according to their own vision. Having set regulations and process for development also gives developers more confidence to invest because they more easily understand the expectations of the community, the financial risks involved and have a clear-cut path to reach the finish-line, by conforming to the adopted parameters.

Once a developer applies and meets the provisions of this ordinance, they could then receive administrative approval to pull permits after first engaging the community regarding their project. The developer would have to also seek approval concerning aesthetics from the HDC.

**Regulating Plan Map**

The regulating plan map will act, in essence, as the new zoning map. Development would be based on the street on which the parcel fronts. "A" streets would allow the most

intensive uses and highest”densities while “C” streets would be tailored to maintain more residentially scaled development and uses would be less obtrusive. Lastly, “B” streets would fall between the former, with regard to intensity.

MAP "7(a): Street Type Map.

**The Civic Space Map**

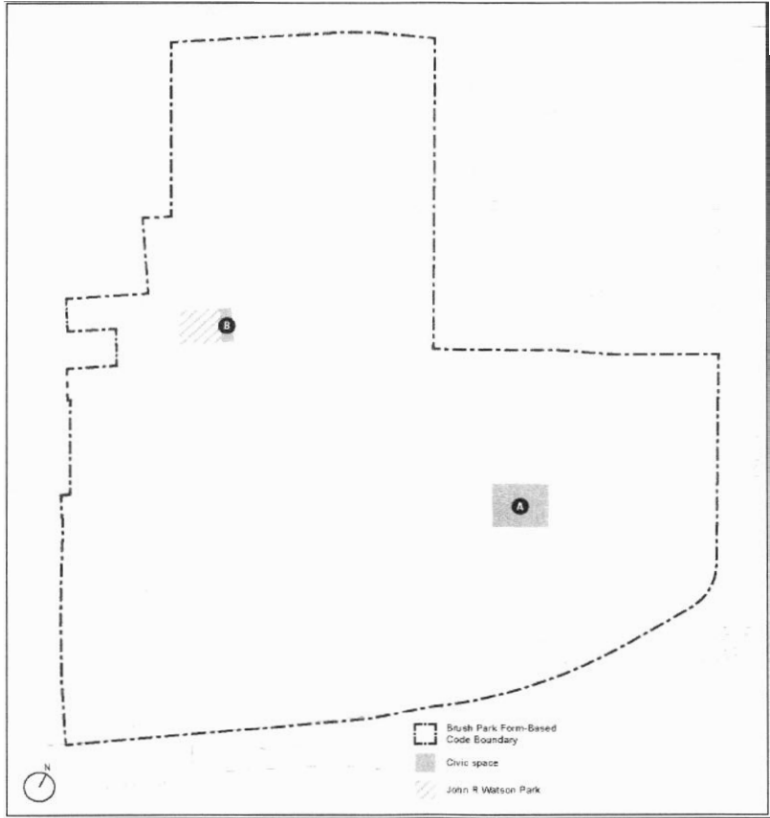

The civic space map essentially zones park/open space so that development pressures do not supersede the intent for parks to be expanded or new parks to be installed. In this map, the civic spaces could not be used for any other purpose. These spaces were based on the projected densities and recommended open space acreage per capita.

In consultation with the Law Department, CPC added a short list of uses that are compatible with, and can be operated in conjunction with the civic space as not to impose a 'takings' on the property owner. The allowable uses for civic spaces are:

- Outdoor recreation facility
- Outdoor art exhibition grounds; sculpture gardens
- Urban garden
- Retail sales incidental and accessory to permissible uses in the civic spaces, such as food service, concession stands and other activities deemed appropriate by the City Planning Commission staff.

MAP 7(b): Civic Spaces Map.

**Typologies**

The typologies included in the FBC set dimensional standards for new development or redevelopment in Brush Park. New construction would have to meet the form of these typologies as outlined in Sec. 12 of the ordinance. Standards do not dictate the skin or design of those buildings. The freedom of architectural expression would be left to the architect. However, the design would still have to be approved by the HDC. These typologies have dimensional standards that apply to them as well.

The way in which these standards are laid out helps developers and community members to understand what is permitted to be built in the neighborhood. As opposed to typical zoning ordinance textual description, the FBC visually demonstrates what a structure might look like in form and massing. It also succinctly lists standards in an easy-to-read format.

Lastly, while the form of buildings is the foundational principle in form-based zoning (by emphasizing the massing and placement of buildings over the activities taking place within) it should be noted that the uses within the building are still taken into account, but as a secondary guiding principle. The Brush Park Form-Based Code ordinance incorporates a use table that assigns uses to street types based on the intensity of the use. Since form is now regulated, it is possible to be more liberal in the activities that take place in a building. The thought is that if a building only has a set dimensional capacity, then the permitted uses can be more flexible, because of the capacity limits.

**CONCLUSION**

The proposed FBC ordinance serves to pilot such regulations which have never been done in the City of Detroit. Form-based codes have been instituted in many Michigan cities including: Birmingham, East Lansing, Grandville, Wyoming, Muskegon, Farmington, Jonesville, Marquette, Grand Rapids, and others. Nationally, cities such as Los Angeles, CA and Miami, FL have implemented form-based zoning codes.

The Brush Park form-based PD ordinance is the result of a community effort from the beginning, enhancing and implementing the 4th Modified Development Plan. Over the years, the Brush Park community has expressed sentiments of disenfranchisement, because their community, despite their efforts, was left without updated regulations to govern development. This ordinance will serve to fulfill their request, create more cohesive development, and to alleviate the tensions that can arise when new development comes into the neighborhood and lacks a set of regulations that guide developers to fulfill the community's vision. It will also serve to spur more development, as the studies and work that have gone into this ordinance, have provided the legwork that developers would

incur at their own expense, providing the rules for what the community has put forth as their desire.

Lastly, the FBC creates a more equitable development process via the parameters that community have desired through the establishment on the front end, setting the community as the driving force in development. Still, developers now incur less cost to do projects. Many times an extenuated process hurts small developers through additional costs, while giving the edge to the larger developers.

It is understood that City Council will want to keep apprised of what is happening in the Brush Park neighborhood as this is a dynamic area. Since this is a pilot, CPC will keep this Honorable Body updated as to how the ordinance is working for developments, as projects come through the pipeline. It is also reasonable to assume that there may be modification to the PD ordinance that CPC may bring back to the Council, as we see the FBC in operation and attempt to work out the flaws.

As CPC weighed the pros and cons of keeping the district as PD, we recognize the desire for the legislative bodies to remain engaged in this community and its redevelopment. Therefore, we decided to propose the continuance of the PD district so that the CPC and City Council would retain statutory authority.

**RECOMMENDATION**

**According to Sec 50-3-96 Approval Criteria and 50-11-15 PD Design Criteria**

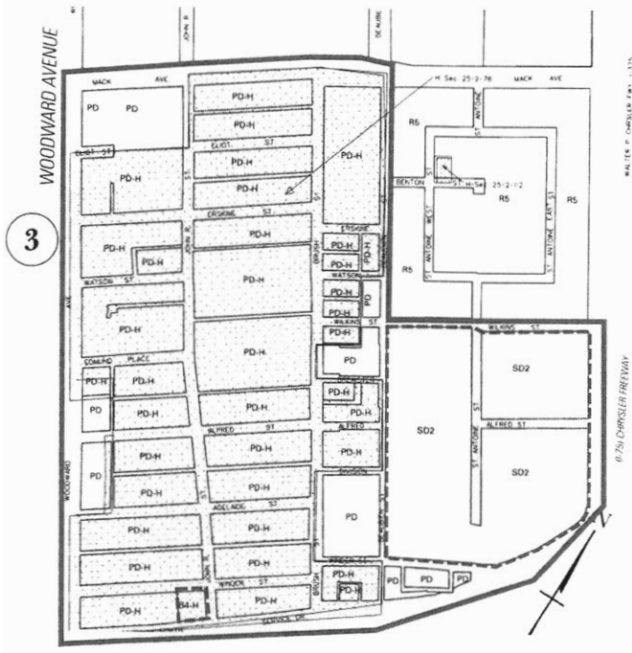

CPC believes that the proposed rezoning and adoption of the Brush Park Form-Based Code is consistent with the goals and intent of the Planned Development Approval Criteria, Sec. 50-3-96 and the PD design Criteria Sec. 50-11-15 that speaks to conformance with the Master Plan of Policies, Scale Form and Massing, Orientation, Preservation and Restoration and all other applicable criteria. The ordinance will serve to achieve more cohesive development, better housing options, and provide a transparent plan for the community.

At the June 18, 2020 public hearing for this matter, the CPC voted to approve the updated revised iteration of the FBC with the conditions presented by staff.

1. Based on the rationale listed in this report, CPC staff submits this recommendation for approval of the Brush Park Form-Based Code zoning ordinance that includes the following: That staff be allowed to work with the Brush Park community and the Law Department to solidify final provisions of this ordinance and correct any errors that might be found before submitting to City Council for final action.

2. That staff be responsible for providing a periodic update to the Commission on Brush Park activities and the effectiveness of the ordinance after implementation.

## **BRUSH PARK FORM-BASED CODE**

### **Sec. 1. Intent.**

This Brush Park Form-Based Code ("Form-Based Code") is intended to provide the public with a predictable vision of the built environment in the Brush Park neighborhood. This Form-Based Code regulates land development using form as the primary basis to define the developing character of the neighborhood. This Form-Based Code creates opportunities for medium-density mixed-use development while incorporating elements from the Brush Park Rehabilitation Project Fourth Modified Development Plan, the City of Detroit Master Plan of Policies for the Brush Park neighborhood, and the design guidelines for the Brush Park and Brewster-Wheeler Recreation Center Historic Districts. This Form-Based Code designates civic space for community recreational use, encourages pedestrian-friendly streets, and the advancement of a walkable urban neighborhood. The organizing principle for this Form-Based Code is a hierarchy of street types that determine the placement of specific building types and by-right uses based on intensity.

### **Sec. 2. Purpose.**

The purpose of this Form-Based Code is:

(1) To implement the goals and objectives of the Brush Park Rehabilitation Project Fourth Modified Development Plan, the City of Detroit Master Plan of Policies for the Brush Park neighborhood, and the design guidelines for the Brush Park and Brewster-Wheeler Recreation Center Historic Districts;

(2) To provide the Brush Park Community with predictability in the outcome of development and redevelopment through an efficient administrative permitting process;

(3) To provide a diversity of urban housing choices appropriate to Brush Park;

(4) To place commercial uses within a safe, comfortable walking distance of residential units;

(5) To prevent the establishment of incompatible developments in Brush Park;

(6) To encourage mixed-use development in order to reinforce Brush Park as a walkable urban neighborhood; and

(7) To permit the development of attached medium to high-density residential buildings and multi-story, multi-unit, mixed-use buildings that relate to the size and scale of the existing historic district context.

**Sec. 3. Applicability.**

(a) This Form-Based Code is applicable to all zoning lots that are both

located within the area depicted in the regulating maps set forth in Section 7 of this Form-Based Code and shown on Zoning District Map No. 4. set forth in Section 50-17-5 of this Code as having a PD Planned Development zoning classification.

(b) If any provision of this Form-Based Code conflicts with any other provision set forth elsewhere in this chapter, the provisions of this Form-Based Code control.

**Sec. 4. Definitions.**

**Sec. 5. Development review.**

*(a) Development review.*

(1) All development to which this Form-Based Code applies is subject to development review in accordance with Article XI, Division 2, of this chapter and this section.

(2) Applications for development review must be made on a form acceptable to the City Planning Commission staff and must contain a complete site plan, prepared in accordance with Article III, Division 5, of this chapter, as well as construction drawings, building elevations, lighting, landscaping, signage plans, proposed uses, and any additional information reasonably identified by City Planning Commission staff as necessary to adequately depict the proposed development.

(3) Applications for development review must be submitted to City Planning Commission staff.

(4) The City Planning Commission staff, upon receipt of a complete application for development review, shall review such application and determine if the development proposed in such application is in accordance with the applicable standards and requirements of this Form-Based Code. If the City Planning Commission staff determines that the proposed development accords with the applicable standards and requirements of this Form-Based Code, it shall issue preliminary approval of the application.

(5) Upon receipt of preliminary

approval, an applicant may apply for any other regulatory approvals that may be necessary for the proposed development, including, but not limited to, a certificate of appropriateness or other approval by the Historic District Commission.

(6) Upon issuance of all other necessary approvals, the applicant shall resubmit the site plan, all construction drawings, building elevations, lighting, landscaping, signage plans, proposed uses, and other information necessary to adequately depict the proposed development, whether or not any such information has been revised subsequent to preliminary approval, to the City Planning Commission staff for final review. The applicant shall also submit a community impact plan to minimize disruption to the surrounding neighborhood during construction and address any negative impacts that may arise. A community impact plan must provide for the following:

(i) A construction schedule to describe the start and end dates and other anticipated milestones of the development;

(ii) A strategy to mitigate fugitive dust, noise pollution, and pest infestation that may arise from ground disturbance and other construction activities;

(iii) A strategy for temporary site screening, construction staging, and construction-related vehicle parking; and

(iv) A vibration analysis or other impact analysis if determined to be necessary by the City Planning Commission.

(7) The City Planning Commission

staff shall perform final development review to confirm that the proposed development remains in accordance with this Form-Based Code. If the proposed development remains in accordance, the City Planning Commission staff shall issue final approval of the application.

(8) Upon receipt of final approval, the applicant shall distribute its community impact plan to the owners and occupants of all properties located adjacent to or across the street from the proposed development as well to any local neighborhood community organizations that the City Planning Commission may identify in its final approval. Upon distribution of its community impact plan, the applicant may apply for building permits from the Buildings, Safety Engineering, and Environmental Department and any other permits or approvals from the City that may be necessary for construction of the proposed development.

(9) In performing each preliminary and final review of an application, the City Planning Commission staff may consult with and solicit advice from the Planning and Development Department as to the proposed development's compliance with this Form-Based Code, the Detroit Water and Sewerage Department as to the proposed development's post-construction stormwater management plans, and any other City department whose expertise may apply to the proposed development.

(b) *Historic review.*

(1) Any development located within an historic district, as established in Chapter 21 of this Code, is subject to review and approval by the City of Detroit Historic District Commission in accordance with the procedures set forth therein.

(c) *Administrative Adjustments.* The City Planning Commission staff may authorize the modification of any numeric standard that is set forth in this Form-Based Code by a factor not to exceed fifteen percent of such numeric standard.

(d) *Waivers and Variances.* Any waiver or variance of any requirement, prohibition, or numeric standard beyond the extent permissible as an administrative adjustment is prohibited, except as expressly authorized in this Form-Based Code.

**FIGURE 5: Brush Park Development Review Process Diagram.**

Planning Commission to determine conformance with the Brush Park Form-Based Code. Applicant to engage the community. Applicant receives preliminary approval letter.

**Historic District Commission Review and Approval**

Any development located within an historic district is subject to review and approval by the City of Detroit Historic District Commission in accordance with Chapter 21, Article II, of this Code. Applicant receives Certificate of Appropriateness.

**Final Review**

All final construction documents must be reviewed and approved by the City Planning Commission staff for consistency with approved preliminary plans. Applicant receives final approval letter.

**Permit Review**

Apply to Buildings, Safety Engineering, and Environmental Department for building permit review.

**Sec. 6. Nonconformities and savings provision.**

(a) *In general.* The regulations set forth in this section govern all nonconformities that are located within the area to which this Form-Based Code applies notwithstanding any conflicting provision set forth in Article XV of this chapter.

(b) *Authority to continue.* Any nonconformity may be continued but must not be expanded, intensified, or otherwise modified except as expressly allowed in this section. The ability to continue a nonconformity is not affected by changes in tenancy, ownership, or management thereof.

(c) *Determination of nonconforming status.*

(1) A nonconformity may exist if:

(i) A use, structure, or lot legally existed as of the effective date of this Form-Based Code but is not currently in compliance with all applicable provisions of this Form-Based Code; or

(ii) A use, structure, or lot has been legally constructed or established in accordance with this Form-Based Code but is not currently in compliance with all applicable provisions of this Form-Based Code solely as a result of an amendment thereof.

(2) The burden of establishing that any

instance of noncompliance with any provision of this Form-Based Code applicable to an existing use, structure, or lot constitutes a nonconformity rests upon the owner or operator of such use, structure, or lot.

(3) The City Planning Commission staff may require an applicant for development review under this Form-Based Code to submit evidence, in the form of a prior permit or other supporting documentation, showing that a use, structure, or lot that is not currently in compliance with all applicable provisions of this Form-Based Code was legally constructed or established and constitutes a nonconformity.

(4) The City Planning Commission staff, with advice from the Planning and Development Department as it may request, shall determine whether the evidence submitted by the applicant adequately establishes that a nonconformity exists. Upon determining that a nonconformity exists, the City Planning Commission staff shall allow such nonconformity to continue in accordance with this section.

*(d) Determination of the extent of nonconformity.*

(1) For a nonconforming use, the extent of the nonconformity is the area, measured in square feet, of the building or structure, or portion thereof, in which the nonconforming use operates.

(2) For a nonconforming structure or lot, the extent of the nonconformity is the magnitude of the difference between the actual dimension of any specific feature of the structure or lot and the permissible dimension of such feature as currently set forth in this Form-Based Code.

*(e) Nonconforming uses.*

(1) Any change of a nonconforming use to another use that is permissible according to Table 13 in Section 13 of this Form-Based Code is permissible.

(2) Any change of a nonconforming use to another use that is not permissible according to Table 13 in Section 13 of this Form-Based Code is prohibited.

(3) Any change to a nonconforming use or to the building or structure in which a nonconforming use operates that would increase the extent of the nonconformity is prohibited. Any change to a nonconforming use or to the building or structure in which a nonconforming use operates that would decrease the extent of the nonconformity is permissible.

*(f) Nonconforming structures.*

(1) Any ordinary repair and maintenance of a nonconforming structure, including, but not limited to, painting, roof replacement re-siding, window replacement, and other improvements that are reasonably determined by the City Planning Commission staff to be cosmetic or de minimis in nature is permissible.

(2) Any modification to a nonconform-

ing structure that would cause the structure to conform to applicable standards currently set forth in this Form-Based Code or that would otherwise reduce the extent of the nonconformity is permissible.

(3) Any modification to a nonconforming structure that would cause any feature of the nonconforming structure to become newly noncompliant with the applicable standards currently set forth in this Form-Based Code or that would otherwise increase the extent of the nonconformity is prohibited.

(4) Nothing in this section that provides for the modification of a nonconforming structure may be construed as limiting the authority of the City of Detroit Historic District Commission to review and approve or deny such modification.

*(g) Nonconforming lots.*

(1) Any modification of the dimensions of a nonconforming lot or any combination of a nonconforming lot with another lot that would reduce the extent of the nonconformity or that would cause the nonconforming lot to conform with applicable provisions currently set forth in this Form-Based Code is permissible.

(2) Any modification to the dimensions of a nonconforming lot that would increase the extent of the nonconformity is prohibited.

(3) For any nonconforming lot, the City Planning Commission staff is authorized to waive or vary any development standard, building type standard, or other numerical standard set forth in this Form-Based Code solely, and only to the extent necessary, to enable the development of a principle building type that is permissible for the nonconforming lot according to Table 7(a) in Section 7 of this Form-Based Code.

*(h) Site characteristics not compliant with applicable standards.* All zoning lots subject to this Form-Based Code shall comply with all applicable parking, landscaping, and screening provisions currently set forth in this Form-Based Code. Any zoning lot that is not in compliance with all such current parking, landscaping, and screening standards is in noncompliance with this Form-Based Code and must not be considered nonconforming.

*(i) Casualty.* For any building or structure containing a nonconforming use or for any nonconforming structure that is damaged or destroyed:

(1) If the extent of the damage or destruction is equal to or greater than 60 percent of the assessed valuation of the building or structure at the time the damage or destruction occurred, the nonconformity must not be re-established and any new or restored structure must comply with all applicable provisions currently set forth in this Form-Based Code.

(2) If the extent of the damage or destruction is less than 60 percent of the

**MAP 7(b): Civic Spaces Map.**

**Sec. 8. Civic space standards.**

(a) The area of any zoning lot located within the area identified as "Civic Space A" on Map 7(b) in Section 7 of this Form-Based Code must be not less than 44,000 square feet.

(b) The area of any zoning lot located within the area identified as "Civic Space B" on Map 7(b) in Section 7 of this Form-Based Code must be not less than 7,500 square feet.

**Sec. 9. Development standards.**

(a) *In general.* This section establishes the standards for all development located within the area to which this Form-Based Code applies.

(b) *Zoning lot standards.*

(1) *Permissible zoning lot types.* Any newly-established zoning lot must be configured as a corner, interior, or key lot. The establishment of a new flap lot or through lot is prohibited.

(2) *Front lot lines.* Every zoning lot must have not more than one primary front lot line. For any zoning lot that abuts

a single street such as an interior lot, flag lot, or key lot the lot line that abuts such street is the primary front lot line for the zoning lot. For any zoning that abuts more than one street, such as a through lot or corner lot, the primary front lot line must be determined as follows, and all other lot lines abutting a street are secondary front lot lines:

(i) For an existing through lot, the primary front lot line is as designated by the City Planning Commission staff.

(ii) For a corner lot that abuts an A Street the primary front lot line is the lot line that abuts such A Street.

(iii) For all other zoning lots that abut more than one street, the primary front lot line may be determined by the property owner and so designated in the development review application for the proposed development.

(3) Lot dimensions, including lot width and depth, for each building type are required as set forth in Section 12 of this Form-Based Code.

(4) Lot width must be measured as the horizontal distance between two points along the lot lines on either side of the primary front lot line, each 20 feet from the primary front lot line.

(5) Lot depth must be measured as the horizontal distance between the midpoint of the primary front lot line and the midpoint of the rear lot line or, where there is no rear lot line, to the most distant point on any other lot line.

(c) *Building placement.*

(1) Not more than one principal building and one rear building type may be located on any zoning lot. A rear building may be located on a zoning lot only if a principal building is also located on the same lot. A principle building may be located on a zoning lot regardless of whether or not a rear building is also located on the same lot.

(2) Building placement standards for each principal and rear building type, including building setback standards, are required as set forth in Section 12 of this Form-Based Code.

(3) Unless otherwise specified in this section, all buildings and structures must be located at or behind any required minimum front, side, or rear setback.

(4) Unless otherwise specified in this section, the front façade of each story of a principal building must be located at or in front of any maximum front setback for the building.

(5) Notwithstanding the front setbacks for each principal building type, as set forth in Section 12 of this Form-Based Code, any new development located on a zoning lot that is on the same block face as a Historic House must have a contextual front setback as follows, provided, that the maximum front set back must not exceed the distance set forth in Section 12 of this Form-Based Code for the applicable building type:

(i) If the zoning lot is an interior lot or key lot, the minimum and maximum front setbacks must be equal to the actual setbacks for the Historic House that is located on the same block face; or

(ii) If the zoning lot is a corner lot, the minimum primary front setback must be the actual front setback of any Historic House located on the same block face as its primary front lot line and the minimum secondary front setback must be the actual front setback of any Historic House located within 50 feet of the zoning lot on the same block face as its secondary front lot line.

**FIGURE 9(a): Lot Dimensions.**

**FIGURE 9(b): Setbacks.**

(6) Stoops, porticos, porches, awnings, and entry canopies may encroach any distance into any front setback.

(7) Cornices, belt courses, sills, buttresses, and other architectural features not otherwise specified in this subsection may encroach not more than two feet into any setback.

(8) Chimneys may encroach up to four feet into any setback, provided, that any chimney must be located not less than two feet from any lot line.

(9) Balconies may project not more than four feet into any front or rear setback and not more than three feet into any side setbacks, provided, that any such balcony must be located not less than two feet from any side lot line.

(10) Building eaves and roof overhangs may encroach not more than three feet into any setback, provided that any such eave or overhang must be located not less than two feet from any side lot line.

(11) Unenclosed fire escapes and emergency egress stairways may encroach up to four feet into any side or rear setback, provided that any such fire escape or stairway must be located not less than two feet from any side or rear lot line.

(12) Mechanical equipment associated with residential uses, such as HVAC units and security lighting, may encroach any distance into a side or rear setback, provided, that such equipment must be located not less than two feet from any side or rear lot line.

(13) Terraces, uncovered and unenclosed patios, and structures below and covered by the ground may encroach any distance into a setback.

(14) Minor structures accessory to utilities, such as hydrants, manholes, transformers and other cabinet structures, may encroach any distance into a setback.

(d) *Building standards.*

(1) Building standards for each principal and rear building type, including building coverage, massing, fenestration standards and outdoor amenity space standards, are required as set forth in Section 12 of this Form-Based Code.

(2) Any rear building located on a zoning lot may be oriented either toward a front lot line of the zoning lot or toward an alley abutting the zoning lot.

(3) The front façade of a principal building must be oriented toward and constructed parallel to the primary front lot line of the zoning lot.

(4) The front façade of a building must be constructed in accordance with the façade build-out ratio for the applicable building type as set forth in Section 12 of this Form-Based Code.

(5) Front facades of principal and rear buildings that are wider than 60 feet must vary in vertical plane so as to create rhythm and articulation in the building massing.

(6) Building width must be measured

as the distance between the exterior of the side walls of the building, parallel to the front façade of the building.

(7) Building depth must be measured as the maximum length of any exterior side wall of the building, perpendicular to the front façade of the building.

(8) The total number of stories of a building must be calculated as follows:

(i) The ground story counts as one story, except that a ground story that is 25 feet or more in height counts as two stories.

(ii) Each upper story counts as one story, except that any upper story with a mezzanine or loft counts as two stories.

(iii) Interstitial space between stories counts as a story if the space has a walking surface, permanent lighting, a ceiling height of seven feet six inches (7'6") or more, and is accessible via a stairwell or elevator door.

(iv) A basement counts as one story only if the finished floor of the ground story is five feet or more above the established grade at the center of the front of the building, but otherwise does not count as a story.

FIGURE 9(c): Façade Build-Out.

FIGURE 9(d): Building Stories.

FIGURE 9(e): Fenestration.

(9) The maximum number of stories for any new structure located immediately adjacent to a Historic House is eight stories, provided, that the front façade of any fifth through eighth story must be stepped back from the front façade of the adjacent Historic House by not less than 30 feet as shown in Figure 9(f) of this Form-Based Code.

FIGURE 9(f): Stepback for Buildings Adjacent to a Historic House.

(10) For any Mid-Rise Building that is located in the area bounded by Wilkins Street on the north, I-75 Service Drive on the east and south and Beaubien Street on the west, the maximum number of stories is 15 and the maximum height is 180 feet.

(11) For any Mid-Rise Building that is located in the area bounded by Mack Avenue on the north, Beaubien Street on the east, I-75 Service Drive on the south and Brush Street on the west, the maximum number of stories is nine and the maximum height is 110 feet.

(12) Story height must be measured vertically from the surface of the finished floor of the story to the surface of the finished floor of the above story. If there is no story above, story height must be measured from the surface of the finished floor to the top of the structural beam or joists above or the top of the wall plate, whichever is higher. Minimum story height requirements are not applicable for half-stories.

(13) Ground story elevation must be measured from the grade plane to the top

of the finished floor of the ground story of a building.

(14) Roof decks; mechanical and stair-well penthouses; roof mounted cellular, radio, and internet transmission equipment; vents or exhausts; solar panels or skylights; flagpoles; belfries, chimneys, cupolas, monuments, parapets, spires, steeples; and other non-habitable architectural features are permissible and are not subject to applicable building height limitations.

(15) All principal entrances to a building or structure must be located in the front façade of the building or structure.

(16) Access to any principal entrance for a residential use must be provided by way of a stoop, portico, porch, dooryard, or lobby entrance.

(17) Any principal entrance to a building must include an awning or entry canopy, except where the principal entrance is recessed into the façade of the building. Any such awning or entry canopy must be constructed with a width of not less than the width of the doorway surround, trim, or exterior casing above which it is mounted, a depth of not less than three feet, and a clearance of not less than eight feet.

(18) Fenestration must be provided for each building type as set forth in Section 12 of this Form-Based Code, expressed as a percentage of the total area of each façade as follows:

(i) Ground story fenestration must be determined as a percentage of the area located between the heights of two feet and 12 feet above the grade plane.

(ii) Upper story fenestration must be determined as a percentage of the area located between the top of a finished floor and the top of the finished floor above.

(19) Glazing must meet the following criteria:

(i) For ground story fenestration, glazing must have a minimum of 60 percent Visible Light Transmittance and no more than 15 percent Visible Light Reflectance. Not less than 75 percent of all ground floor commercial storefront glazing must be unobstructed to a depth of not less than five feet; and

(ii) For upper story fenestration, glazing must have a minimum of 40 percent Visible Light Transmittance and no more than 15 percent Visible Light Reflectance.

(20) Blank wall area limitations for any façade applies both vertically and horizontally.

(21) If outdoor amenity space is required as set forth in Section 12 of this Form-Based Code, it must be provided for as a balcony, deck, patio, porch, roof deck, roof terrace, or yard.

(22) The minimum area of any outdoor amenity space must be not less than 36 square feet without obstruction and with no dimension less than four feet.

(23) For all building types, outdoor amenity space may be shared by multiple dwelling units, provided that the area of such shared space must be not less than the sum of the areas of the outdoor amenity spaces required for all dwelling units that the shared space is intended to serve.

(24) Ground story dwelling units must be not less than 20 feet in depth.

#### **Sec. 10. Access and parking.**

(a) *In general.* This section establishes the parking requirements for all building types as well as the standards for access to such parking. Use of any parking facility must be limited to the temporary storage of operable private passenger vehicles.

(b) *Construction.* Parking may be provided as surface off-street parking, surface on-street parking, above-ground structured parking, and underground structured parking.

(c) *Number of parking spaces: minimum required and maximum permissible.*

(1) The minimum number of parking spaces required for each principal and rear building type is as set forth in Section 12 of this Form-Based Code.

(2) Any nonresidential use located in a building or structure that does not exceed 3,000 square feet of gross floor area is exempt from applicable minimum parking requirements.

(3) For any building or structure over 3,000 square feet of gross floor area, the City Planning Commission staff may grant a waiver of applicable parking requirements for the first 3,000 square feet of retail, service, or commercial use of such building or structure, if both of the following criteria can be satisfied:

(i) The area subject to the waiver contains a use that is pedestrian-oriented; and

(ii) The waiver will not be injurious to the surrounding areas by creating or increasing traffic congestion or by disrupting traffic circulation.

(4) The maximum number of parking spaces permissible for each principal and rear building type is 150 percent of the minimum number of spaces required for that building type, notwithstanding any exemptions or waivers to such requirements that may apply to any particular building or structure, except if an alternative maximum number for any building type is set forth in Section 12 of this Form-Based Code, such number must control.

(d) *Parking setbacks.* Parking setbacks for each principal and rear building type are required as set forth in Section 12 of this Form-Based Code. Unless otherwise specified, no off-street surface or above-ground structured parking may be located within any parking setback. Additionally, all such parking facilities, including associated drive aisles and other paved surfaces,

must be set back not less than six feet from any lot line abutting a zoning lot used solely for residential purposes.

(e) *Parking access.* Parking must be directly accessible to a street via a driveway, alley, or vehicular entrance into a building or structure, subject to the following:

(1) The permissible means of access to parking for each principle and rear building type are as set forth in Section 12 of this Form-Based Code;

(2) Parking, as well as loading docks and associated service areas, must be accessible from an alley or across a secondary front lot line. Access across a primary front lot line is prohibited.

(3) Parking for multiple adjacent zoning lots may be accessible by means of a shared driveway, provided that the owners of all zoning lots with the benefit or burden of such shared driveway maintain an access easement for its use.

(f) *Satellite parking.* Parking associated with a zoning lot, excluding any required handicapped parking, may be constructed at an off-site satellite location within 1,320 feet of the zoning lot. Such distance between a zoning lot and its satellite parking must be measured radially between the nearest points of the lot lines of the zoning lot and the satellite parking, respectively. Satellite parking is further subject to the following requirements:

(1) Pedestrian access to any satellite parking facility must be via a paved sidewalk or walkway.

(2) The owner of the zoning lot that is served by the satellite parking must have an ownership or leasehold interest in the property on which the satellite parking is located. The City Planning Commission staff may require evidence of such ownership or leasehold interest in the form of a lease, recorded covenant, or other comparable legal instrument as part of the development review process set forth in Section 5 of this Form-Based Code.

(g) *Shared parking facilities.* If a zoning lot cannot feasibly contain onsite the minimum number of required parking spaces, the City Planning Commission staff may authorize the use of a shared parking facility if such facility satisfies the following standards:

(1) *Capacity.* The shared parking facility must have sufficient parking capacity to accommodate the minimum number of required parking spaces for each zoning lot that shares in its use. A single parking space in a shared parking facility may be counted against the minimum parking requirements of multiple zoning lots only if such zoning lots are reasonably anticipated to have distinct time frames for peak parking demand.

(2) *Location.* The shared parking facility must be located not more than 1,320 feet from the zoning lot, measured radially in

accordance with the method set forth in Subsection (f) of this section.

(3) *Required study and analysis.* The applicant for development of the zoning lot shall submit a shared parking analysis to the City Planning Commission staff as part of the development review process that demonstrates the feasibility of use of the shared parking facility. The study must identify the size and type of the proposed development, the minimum number of required parking spaces, the anticipated rate of parking turnover and the anticipated peak parking and traffic loads for all uses to be located on the zoning lot, and the distance between the shared parking facility and the zoning lot; and

(4) *Shared parking agreement.* The owner of the zoning lot must have all necessary rights, in the form of an ownership or leasehold interest in the property on which the shared parking facility is located or a shared parking agreement or other contractual agreement, for use of the requisite number of parking spaces in the shared parking facility. The applicant for development of the zoning lot shall submit evidence of such rights to the City Planning Commission staff as part of the development review process.

(h) All street frontage of any zoning lot along which on-street parking is permissible may be utilized to satisfy a portion of the applicable minimum parking requirement for the zoning lot. Every continuous length of street frontage along which on-street parking is permissible that is at least 23 feet long and abuts the zoning lot may be counted as one space for purposes of satisfying the minimum parking requirement for the zoning lot.

**Sec. 11. Perimeter definition, landscaping, fencing, and signage.**

(a) Lot perimeter standards for each principle and rear building type, including fencing and hedge height standards, are required as set forth in Section 12 of this Form-Based Code.

(b) Any parking lot that is adjacent to a street or an abutting zoning lot must be effectively screened from such street or zoning lot by a perimeter wall or fence in accordance with Sections 50-14-341 and 50-14-342 of this Code.

(c) A fence or hedge row may be placed along the lot lines of any zoning lot so as to define the perimeter of such zoning lot. Permissible fencing and hedging for each building type is set forth in Section 12 of this Form-Based Code, subject to the following standards:

(1) Chain link fences are prohibited along primary and secondary front lot lines.

(2) Fence posts and supporting rails must face inward toward the zoning lot being fenced and the finished face must be oriented towards the adjacent zoning lot or street, as applicable.

(3) Fences located forward of any maximum primary or secondary front setback must not exceed four feet in height and must be no more than 50 percent opaque.

(d) Fences located behind any maximum front setback must be not exceed six feet in height and may be fully opaque.

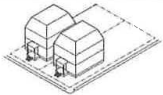

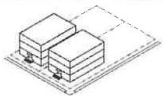

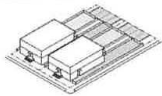

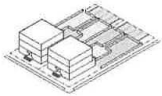

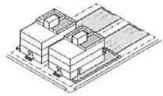

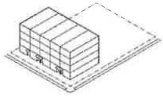

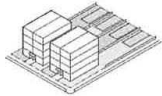

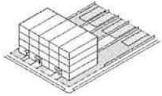

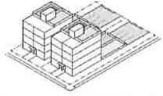

(e) *Landscaping.* Landscaping for any zoning lot to which this Form-Based Code applies must be in accordance with the provisions of Article XIV, Division 2, of this Chapter.

(f) *Signage.* Signage located on any zoning lot to which this Form-Based Code applies must be in accordance with applicable provisions of Chapter 4 and Chapter 50 of this Code. All signage must be tastefully designed to be visually appealing in character with surrounding development and in accordance with the Brush Park Historic District Elements of Design and the Brewster-Wheeler Recreation Center Historic District Elements of Design, as applicable.

**Sec. 12. Principal and rear building types.**

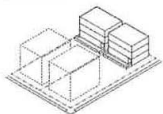

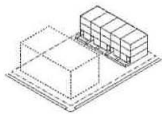

(a) Permissible principle building types are Single-Family House, Multiplex, Townhouse, and Mid-Rise Building, each of which is depicted in Table 12(a) in this section.

**Sec. 13. Use standards.****(a) In general.**

(1) The use of any zoning lot within the area to which this Form-Based Code applies is subject to the applicable provisions of Article XII, Divisions 2 and 3, of this chapter. If any provision in this section conflicts with the provisions of Article XII of this chapter, this section controls.

(2) Uses are permissible on a zoning lot based on the type of the street that abuts the primary front lot line of the zoning lot according to Table 13 in this section. Use categories and specific use types not expressly authorized for any particular street type are prohibited.

(b) *Use categories.* Multiple uses may operate within any building type on a zoning lot, provided, that each use is permissible for that building type.

(c) *Understanding the use table.* Table 13 in this Section is organized as follows:

(1) Use categories and specific use types are identified in the first column of Table 13 in this Section and are separated by headings for organizational purposes.

(2) The permissibility of each specific use type on zoning lots that are adjacent to each street type are identified in the second, third, and fourth columns of Table 13 in this section.

(3) *Uses permissible by-right.* An "R" in Table 13 in this section corresponding to a particular specific use type and street type indicates that the specific use type is permissible as a matter-of-right on any zoning lot for which the primary front lot line abuts a street of the specified street type, subject to compliance with all other applicable regulations of this chapter.

(4) *Uses not permissible.* An "N" in Table 13 in this section corresponding to a particular specific use type and street type indicates that the specific use type is not permissible on any zoning lot for which the primary front lot line abuts a street of the specified street type.

(5) *Uses for civic spaces.* Notwithstanding anything in this Form-Based Code to the contrary, the following specific use types are permissible as a matter of right on any zoning lot shown as civic space on Map 7(b) in Section 7 of this Form-Based Code regardless of the street type that abuts the primary front lot line of the zoning lot. Specific use types that are not expressly authorized as a matter of right are prohibited.

(i) Outdoor recreation facility.

(ii) Outdoor art exhibition grounds; sculpture gardens.

(iii) Urban garden.

(iv) Retail sales incidental and accessory to permissible uses in the Civic Spaces, such as food service, concession stands, and other activities deemed appropriate by the City Planning Commission staff.

Honorable City Council:

Re: Request authorization to appropriate excess revenues for the Summer Food Service Program.

Each year, the Michigan Department of Education awards the City of Detroit General Services Department with the Summer Food Service Program Grant. The State reimburses the City on a per meal basis. In program years 2015, 2016 and 2017, the department's actual revenues exceeded actual expenses. In program years 2018 and 2019, the actual expenses exceed the actual revenues. Therefore, we are requesting to consolidate the net excess revenue from each of the previous program years to support the cost of operations for the Summer Food Service Program. The objective of this program is to provide meals to children at various recreation centers, parks and community centers across the City of Detroit. The funding will be utilized to reimburse the department for all meals served to children, pay for the salaries of administrators, and conduct marketing and outreach activity.

If approval is granted to transfer this funding, the consolidated appropriation number is 20773. We are requesting the proposed actions in accordance with the following table. Appropriation number 20773 will have \$56,731.61 in revenues after the proposed actions are completed.

Program Year	Appropriation Number	Actual Revenue	Actual Expenditure	Proposed Action	Proposed Result
2015	14061	\$ 414,392.13	\$ 373,079.01	\$ 41,313.12	\$ -

**STANDING COMMITTEE REPORTS**

**BUDGET, FINANCE AND AUDIT STANDING COMMITTEE**

**RESOLUTION URGING THE STATE TAX COMMISSION TO MODIFY THE METHODS OF ASSESSING RESIDENTIAL PROPERTY IN THE ASSESSOR'S MANUAL IN A MANNER THAT PREVENTS OVER-ASSESSMENT**

By COUNCIL MEMBER SHEFFIELD; joined by COUNCIL MEMBERS CASTANEDA-LOPEZ, MCCALISTER, JR. and PRESIDENT JONES:

WHEREAS, It has been recently determined and reported through the media that during the period between 2010 and 2016 that the city of Detroit residential properties had been improperly assessed; and

WHEREAS, It is imperative to the orderly

function of government and the confidence of the citizenry in its government, that the method and manner of taxation be as true and accurate as reasonably possible; and

WHEREAS, The State of Michigan under the State Tax Commission has issued a Guide to Basic Assessing published May 2018, provides under Chapter 3, Valuation Concepts used by local assessors in determining the assessed values of residential properties; and

WHEREAS, Pursuant to the State Tax Commissions Guide, property assessments in Michigan use an "ad valorem" (at value) tax system. This means that taxes are based on property value. This value is determined by organizing and analyzing data to determine property value. Section 27 (1) of the General Property Tax Act defines "true cash value" as "... the usual selling price at the place where the property to which the term is applied is at the time of assessment, being the price that could be obtained for the property at private sale, and not at auction sale except as otherwise provided in this section, or at forced sale." The assessment is based upon this valuation; and

WHEREAS, Pursuant to the State Tax Commissions Guide, the following definition of "market value" was adopted by the Appraisal Institute in 1993: "The most probable price which a specified interest in real property is likely to bring under all of the following conditions:

- 1. Consummation of a sale occurs as of a specified date.
- 2. An open and competitive market exists for the property interest appraised.
- 3. The buyer and seller are each acting prudently and knowledgeably.
- 4. The price is not affected by undue stimulus.
- 5. The buyer and seller are typically motivated.
- 6. Both parties are acting in what they consider their best interest.
- 7. Marketing efforts were adequate and a reasonable time was allowed for exposure in the open market.
- 8. Payment was made in cash in U.S. dollars or in terms of financial arrangements comparable thereto.
- 9. The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale."; and

WHEREAS, Center for Municipal Finance at the University of Chicago (Center) has made allegations of continued incorrect assessments of the residential properties in the city of Detroit based upon the method and process of assessments resulting in regressivity. According to the Center, the assessments are regressive when low-value homes are assessed at a higher percentage of their true market value than are high-value

homes. Regressive assessments lead to regressive taxation, which means that owners of low-value property pay too much in taxes while owners of high-value properties pay too little; and

WHEREAS, The Center for Municipal Finance at the University of Chicago, utilizing standards developed by the International Association of Assessing Officers (IAAO) who advises that "Local jurisdictions should use ratio studies as a primary mass appraisal testing procedure and their most important performance analysis tool."; and

WHEREAS, The IAAO defines standards for assessment efficacy, including standards for uniformity and regressivity, and specifies acceptable maximum and minimum levels for these metrics (IAAO 2013). According to the Center, the three most commonly used metrics: the coefficient of dispersion (COD); the price-related differential (PRD); and the coefficient of price-related bias (PRB) are utilized to determine the regressivity in property assessments; and

WHEREAS, The Center identifies the three metrics outlined as follows:

- Coefficient of Dispersion: The COD is a measure of uniformity based on the average percentage deviation of the ratios from the median, expressed as a percentage of the median. For example, given a COD of 15%, a property worth \$100,000 has a 50% chance to be assessed between \$85,000 and \$115,000. The IAAO sets an acceptable range for the COD at between 5 and 15. Higher values indicate less uniformity.

- Price-Related Differential The PRD is a measure of regressivity (also known as vertical equity) calculated by dividing the mean sales ratio by the price-weighted mean ratio. For example, assume a jurisdiction contains two homes, one worth \$100,000 assessed at 12% of the sale price and a second worth \$1,000,000 assessed at 8% of the sale price. The mean ratio would be 10% (12% + 8% divided by 2) while the weighted mean ratio would be 8.4% (12% \* 100,000 + 8% \* 1,000,000 divided by 1,100,000). The resulting PRD (10% divided by 8.4%) would be 1.20. Higher values of PRD indicate greater regressivity. The IAAO sets an acceptable range for the PRD at between .98 and 1.03.

- Coefficient of Price-Related Bias The PRB is a regression-based measure that estimates the relationship between the sales ratio and a given proxy for actual property value determined by giving equal weight to sale price and assessed value. PRB measures the change in the assessment ratio that can be expected to result from a 100% change in this value proxy. For example, a PRB of 0.031 indicates that assessment 13 ratios increase by 3.1% when the home value increases by

100%. Lower (more negative) values of PRB indicate greater regressivity. The IAAO sets an acceptable range for the PRB at -.05 to .05; and

WHEREAS, The State of Michigan's Tax Commission should include in its Guide to Basic Assessing the IAAO's standards for uniformity and regressivity, that specifies acceptable maximum and minimum levels for metrics assessment efficacy; BE IT THEREFORE

RESOLVED, The Detroit City Council urges the State of Michigan Tax Commission to modify the methods of assessing residential property in the assessor's manual in a manner that prevents over-assessment resulting in the over taxation of residential property owners; and BE IT FURTHER

RESOLVED, The Detroit City Council urges the State of Michigan Tax Commission to consider incorporating the International Association of Assessing Officers' standards for assessment efficacy, including but not limited to the three most commonly used metrics: the coefficient of dispersion (COD); the price-related differential (PRD); and the coefficient of price-related bias (PRB) are utilized to determine the regressivity in property assessments; and BE IT FINALLY

RESOLVED, That a copy of this resolution be submitted to Mayor Duggan and the State of Michigan Tax Commission.

Re: Patrice Burcicki vs. City of Detroit. Case No.: 19-002062-CL. File No.: W19-00024.

On February 24, 2020, a case evaluation panel evaluated the above-captioned lawsuit and awarded Forty Thousand Dollars (\$40,000.00) in favor of Plaintiff.

Re: Implementation of Rescission of Wage and Step Increases and/or Bonus Payments Scheduled for July 1, 2020 through June 30, 2021 for the Association of City of Detroit Supervisors (ACODS).

The unprecedented events surrounding the COVID-19 pandemic has caused an economic and financial crisis throughout the United States, Michigan, and the City of Detroit (City).

The City's revenue collections have suffered due to COVID-19. Specifically, the City is facing a projected \$154 Million revenue shortfall for this fiscal year and a projected \$194 Million revenue shortfall for fiscal year 2021. Labor Relations presented a written proposal to the ACODS for the elimination of economic increases negotiated beginning July 1, 2020; and based on mutual consideration, the 2019-2023 Collective Bargaining Agreement (CBA) has been amended.

(a) The Board of Police Commissioners shall establish standards, including insurance and bonding requirements, that must be met in order for a tower to qualify for police authorized tows under this chapter, and the Police Department shall maintain a current list of such qualified towers. A separate list may be maintained for towers who tow abandoned vehicles in accordance with Sections 252a through 252m of the Michigan Vehicle Code, being MCL 257.252a through 257.252m, which is incorporated by reference into this chapter through Section 46-3-1 of this Code. The required insurance shall indemnify and hold harmless the City for any injury, damage, or loss that may result from a police authorized tow or storage under this chapter. The City shall not be liable for any such injury, damage, or loss. In accordance with Section 2-111 of the Charter, the Board of Police Commissioners shall promulgate administrative rules for the Body's determination as to which lowers shall be called for tows under this chapter. (b) An administrative fee shall be charged to and paid by the owner of each vehicle towed by a police authorized tower.

(c) In accordance with Section 9~507 of the Charter and based on the reasonable cost of processing, towing, and storing a vehicle, such administrative, towing, service, and storage fees shall be established by the City Council through adoption of a resolution.

(d) After adoption of a resolution by the City Council and approval of the resolution by the Mayor, the fees that are provided for in Subsection (a) of this section shall be:

**Sec. 46-2-124. One hook-up fee for successive tows.**

The towing rates resolution may provide that when a vehicle is transported by a tower or towers summoned by the police, only one hook-up fee may be charged, notwithstanding that then vehicle may have been successively transported by the tower from the traveled portion of a street, highway, or freeway to a position at or on the curb or onto the nearest side street, and then to a destination requested by the owner or permitted by the police officer in charge.

A copy of the completed permission form shall be given to the authorizing person. Any person performing police authorized towing shall maintain a record of completed permission forms of all such towing for a period of six months. Completed forms must show total fees charged for services rendered.

(b) The tower shall provide the vehicle owner or driver with a copy of the towing rate schedule approved by City Council.

(c) In accordance with Section 252d(2) of the Michigan Vehicle Code, being MCL 257.252d (2), if the owner or other person who is legally entitled to the possession of a vehicle to be towed or removed arrives at the location where the vehicle is located, before the actual towing or removal of the vehicle, the vehicle shall be disconnected from the tow truck, and the owner or other person who is legally entitled to possess the vehicle may take possession of the vehicle and remove it without interference upon the payment of a service fee, for which a receipt shall be provided.

The police officer in charge shall sign the completed form as witness to the inventory and the Police Department shall retain the signed original. (a) In the case of a vehicle towed to an owner or a driver requested destination or to a tower's private storage lot, yard, or garage under Section 46-2-126(a)(2) or (4) of this Code, the tower shall pursue payment for services rendered from the owner or driver of the vehicle and the City shall assume no responsibility for payment or collection of the tow bill.

(b) The Police Department shall make arrangements to pay a police authorized tower for each tow of a vehicle to the City auto pound or precinct station under section 46-2-126(a)(3) of this Code, for tows of illegally parked vehicles and for services for which payment by the vehicle owner is exempted by this Code. The Board of Police Commissioners may specify, with City Council approval and subject to Subsection (a) of this section, other circumstances under which the Police Department may arrange to pay the tow bill. Payment of a tow bill by the Police Department shall not relieve the vehicle owner of the owner's responsibility for payment and the owner shall upon demand, reimburse the City for the amount of such bill except as a payment by the owner is exempted under section 46-2-69 of this Code. In accordance with section 2-131 of the Charter, the Board of Police Commissioners shall establish a procedure by which this subsection shall be implemented and administered.

**RESOLUTION SUBMITTING BOND PROPOSAL AND AUTHORIZING NEIGHBORHOOD IMPROVEMENT BONDS**

**CITY OF DETROIT COUNTY OF WAYNE, STATE OF MICHIGAN**

By: Council Member Ayers:

WHEREAS, The City Council (the "City-Council") of the City of Detroit (the "City") has determined that it is necessary to secure additional resources to continue to pay the cost of neighborhood improvements in the City through property rehabilitation, demolition and other blight remediation activities (the "Project"); and

WHEREAS, Pursuant to the Housing Law of Michigan, Act 167, Public Acts of Michigan, 1917, as amended, and the City's police powers, the City has the authority to conduct all of the activities that comprise the Project, and pursuant to the Home Rule City Act, Act 279, Public Acts of Michigan, 1909, as amended ("Act 279"), the City has the authority to issue bonds for any purpose within the scope of its powers; and

WHEREAS, The City Council has determined that a proposal to approve unlimited tax general obligation bonds for the Project in the principal amount of not to exceed Two Hundred Fifty Million Dollars (\$250,000,000) (the "Bond Proposal") shall be submitted to the qualified electors of the City at the primary election to be held in the City on Tuesday, November 3, 2020 (the "Election Date"); and

WHEREAS, In order for the Bond Proposal to be submitted to the qualified electors, it is necessary for the City Council to certify the ballot wording of the Bond Proposal to the City Clerk and to the County Clerk of the Charter County of Wayne (the "County Clerk"), as required by Act 116, Public Acts of Michigan, 1954, as amended (the "Michigan Election Law"); and

WHEREAS, It is the determination of the City Council that, in the event a majority of the qualified electors of the City voting approve the Bond Proposal, unlimited tax general obligation bonds in the principal amount of not to exceed Two Hundred Fifty Million Dollars (\$250,000,000) shall be issued pursuant to the City Charter, Act 279, and Act 34, Public Acts of Michigan, 2001, as amended ("Act 34"), and pursuant to this Resolution for the purpose of paying all or part of the costs of the Project; and

WHEREAS, The City desires to negotiate the sale of said bonds to one or more

underwriters or purchasers within the parameters established by this Resolution.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Approval of Bond Proposal. The Bond Proposal attached hereto as Exhibit A is hereby approved and shall be submitted to a vote of the qualified electors of the City on the Election Date.

2. Certification of Bond Proposal: Submission to County Clerk. The ballot wording of the Bond Proposal is hereby certified to the City Clerk and the County Clerk for submission to the City's electors on the Election Date. The City Clerk is hereby authorized and directed to file this Resolution and/or complete any such forms, certificates or documents as may be required by the County Clerk to evidence the foregoing certification and/or submission by no later than 4:00 p.m. on Tuesday, August 11, 2020.

3. Publication of Notice: Preparation of Ballots. The City Clerk and the County Clerk are hereby directed to (a) post and publish notice of last day of registration and notice of election as required by the Michigan Election Law; and (b) have prepared and printed, as provided by the Michigan Election Law, ballots for submitting the Bond Proposal at the election, which ballots shall contain the Bond Proposal, or the proposition shall be stated as a proposal on the voting machines, which ballots may include other matters presented to the electorate on the same date.

4. Estimated Millage. The estimated millage rate in the first year and simple average annual millage rate set forth in the Bond Proposal, which have been prepared for the City by Public Resources Advisory Group, Inc., municipal financial advisors to the City, are reasonable estimates of such millage rates based on current assumptions.

5. Reimbursement Declarations. The City makes the following declarations for the purpose of complying with the reimbursement rules of Treas. Reg. § 1.150-2 pursuant to the Internal Revenue Code of 1986, as amended (the "Code"):

(a) If the Bond Proposal is approved by the electors, the City reasonably expects to reimburse itself with proceeds of bonds for certain costs of the Project which were paid or will be paid from the general funds of the City subsequent to sixty (60) days prior to today.

(b) The maximum principal amount of debt expected to be issued for the Project, including issuance costs, is \$250,000,000.

(c) A reimbursement allocation of the capital expenditures described above with the proceeds of the Bonds will occur not later than 18 months after the later of (i) the date on which the expenditure is paid, or (ii) the date the Project is placed

in service or abandoned, but in no event more than three (3) years after the original expenditure is paid. A reimbursement allocation is an allocation in writing that evidences the City's use of the proceeds of the Bonds to reimburse the City for a capital expenditure made pursuant to this resolution.

6. Authorization of Bonds: Bond Terms. Pending the approval of the Bond Proposal by more than the required majority of qualified electors of the City voting thereon, bonds of the City designated **Unlimited Tax General Obligation Bonds** (the "Bonds") are authorized to be issued, in one or more series, in the aggregate principal sum of not to exceed Two Hundred Fifty Million Dollars (\$250,000,000), for the purpose of paying part of the cost of the Project, including the costs incidental to the issuance, sale and delivery of the Bonds. For each series of the Bonds, the above designation will be modified to indicate the year of issuance of such series and such additional information as may be necessary to designate multiple series or sub-series within a single year, and in the case of delivery of any series of the Bonds delivered pursuant to a HUD Program (as defined herein), such designation may be modified to conform to HUD Program requirements (including but not limited to a designation of such series of Bonds as "notes"). Each issue shall consist of bonds in fully-registered form of the denomination of \$5,000, or multiples thereof not exceeding for each maturity the maximum principal amount of that maturity, numbered consecutively in order of registration, dated as of the date of delivery.

The Bonds will mature on the dates in the years and amounts determined by the Chief Financial Officer or the Chief Financial Officer's designee (the "Authorized Officer") at the time of sale, and be subject to redemption prior to maturity in the manner and at the times and prices as determined by the Authorized Officer at the time of sale.

The Bonds shall bear interest at a rate or rates on a fixed and tax-exempt or taxable basis to be determined upon negotiated sale thereof. Interest on the Bonds shall be payable on the dates and in the years as determined by the Authorized Officer at the time of sale. The record date of determination of registered owner for purposes of payment of interest as provided in this paragraph may be changed by the City to conform to market practice in the future. Interest shall be payable to the registered owner of record as of the 15th day of the month preceding the payment date for each interest payment. The principal of the Bonds shall be payable at the corporate trust office of such bank or trust company as may be selected by the Authorized Offi-

cer at the time of sale of the Bonds to serve as transfer agent therefor (the "Transfer Agent"); provided, that in connection with Bonds delivered pursuant to a HUD Program, the Transfer Agent may be an entity designated as fiscal agent, trustee or the equivalent under the applicable HUD Program, subject to the laws of the State of Michigan (the "State").

The Bonds may be issued in book-entry only form through The Depository Trust Company in New York, New York ("DTC") and the Authorized Officer is authorized to execute such custodial or other agreement with DTC as may be necessary to accomplish the issuance of the Bonds in book-entry only form and to make such changes in the Bond form within the parameters of this resolution as may be required to accomplish the foregoing.

7. Tax Exempt Bonds; Taxable Bonds. The Authorized Officer is hereby authorized and directed to determine whether all or any portion of the Bonds shall be sold as: (i) bonds the interest on which is excluded from gross income for federal income tax purposes ("Tax-Exempt Bonds"), or (ii) bonds the interest on which is included in gross income for federal income tax purposes under the Code, or any combination thereof.

8. Execution of Bonds. The Bonds of this issue shall be executed in the name of the City with the manual or facsimile signatures of the Mayor and Finance Director and shall have the seal of the City, or a facsimile thereof, printed or impressed on the Bonds. No Bond shall be valid until authenticated by an authorized officer or representative of the Transfer Agent. The Bonds shall be delivered to the Transfer Agent for authentication and be delivered by the Transfer Agent to the purchaser or other person in accordance with instructions from the Finance Director upon payment of the purchase price for the Bonds in accordance with the bid therefor when accepted.

9. Transfer of Bonds. The Transfer Agent shall keep the books of registration for this issue on behalf of the City. Any Bond may be transferred upon such registration books by the registered owner of record, in person or by the registered owner's duly authorized attorney, upon surrender of the Bond for cancellation, accompanied by delivery of a duly executed written instrument of transfer in a form approved by the Transfer Agent. Whenever any Bond or Bonds shall be surrendered for transfer, the City shall execute and the Transfer Agent shall authenticate and deliver a new Bond or Bonds for like aggregate principal amount. The Transfer Agent shall require the payment by the bondholder requesting the transfer of any tax or other governmental charge required to be paid with respect to the transfer. For any series of Bonds issued pursuant to a HUD Program, trans-

fer of such Bonds shall be made in accordance with HUD Program requirements, subject to the laws of the State.

10. Debt Retirement Fund; Unlimited Tax Pledge; Defeasance of Bonds; Early Optional Redemption. For each series of Bonds, the City Treasurer is authorized and directed to open a depository account with a bank or trust company designated by the Authorized Officer, to be designated [YEAR OF ISSUE] UNLIMITED TAX GENERAL OBLIGATION BONDS DEBT RETIREMENT FUND (the "Debt Retirement Fund"), the moneys to be deposited into the Debt Retirement Fund to be specifically earmarked and used solely for the purpose of paying principal of and interest on the Bonds as they mature. The City hereby pledges its unlimited tax full faith and credit for the prompt payment of the Bonds. All proceeds from taxes levied for deposit into the Debt Retirement Fund shall be deposited as collected. Commencing with the year 2021 (or such other year as shall be necessary to first levy taxes to pay debt service on the Bonds), there shall be levied upon the tax rolls of the City for the purpose of the Debt Retirement Fund each year, in the manner required by the provisions of Act 34, an amount sufficient so that the estimated collection therefrom will be sufficient to promptly pay, when due, the principal of and interest on the Bonds becoming due prior to the next annual tax levy; provided, however, that if at the time of making any such annual tax levy there shall be other funds available or surplus moneys on hand in the Debt Retirement Fund for the payment of principal of and interest on the Bonds, then credit for all or a portion thereof may be taken against such annual levy for the Debt Retirement Fund.

In the event cash or direct obligations of the United States or obligations the principal of and interest on which are guaranteed by the United States, or a combination thereof, the principal of and interest on which, without reinvestment, come due at times and in amounts sufficient to pay at maturity or irrevocable call for earlier optional redemption, the principal of, premium, if any, and interest on the Bonds, shall be deposited in trust, this resolution shall be defeased and the owners of the Bonds shall have no further rights under this resolution except to receive payment of the principal of, premium, if any, and interest on the Bonds from the cash or securities deposited in trust and the interest and gains thereon and to transfer and exchange Bonds as provided herein.

Unless waived by any registered owner of Bonds to be redeemed, official notice of redemption shall be given by the Transfer Agent on behalf of the City. Such notice shall be dated and shall contain a mini-

imum the following information: original issue date; maturity dates; interest rates; CUSIP numbers, if any; the place where the Bonds called for redemption are to be surrendered for payment; and that interest on the Bonds or portions thereof called for redemption shall cease to accrue from and after the redemption date. Any notice of optional redemption may provide that such redemption is conditioned upon the occurrence of any event specified in the notice of redemption. If such conditional notice of redemption has been given, and on the scheduled redemption date the event specified in the notice of redemption as a condition to the redemption has not occurred, then Bonds for which conditional notice of redemption was given shall not be redeemed on the scheduled redemption date and shall remain outstanding for all purposes of this resolution.

In addition, further notice shall be given by the Transfer Agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all or any portion of such further notice shall in any manner defeat the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

11. Project Fund; Proceeds of Bond Sale; Appropriation. The City Treasurer is authorized and directed to open a separate depository account with a bank or trust company designated by the City Council, to be designated UNLIMITED TAX GENERAL OBLIGATION BONDS PROJECT FUND (the "Project Fund") and deposit into said Project Fund the proceeds of the Bonds less accrued interest, if any, which shall be deposited into the Debt Retirement Fund. The moneys in the Project Fund shall be used solely to pay the costs of the Project, capitalized interest, if any, and the costs of issuance of the Bonds.

The proceeds of the Bonds are hereby appropriated, upon receipt, to appropriation 21003 UTGO Blight Bonds for the purpose of paying all or part of the cost of the Project, capitalized interest, if any, and the costs of issuance of the Bonds.

The City Treasurer is further authorized to open such account or accounts as may be required for the deposit or transfer of proceeds in connection with the issuance of any Series of Bonds issued pursuant to a HUD Program, provided such accounts and any deposits made therein are consistent with the laws of the State and this resolution.

12. Bond Form. Any Bonds not delivered pursuant to a HUD Program shall be in substantially the following form. Any series of Bonds delivered pursuant to a HUD Program shall be in such form as shall be necessary to conform to HUD Program requirements, subject to the laws of the State.

Honorable City Council:

Re: Lakewood Manor 2019 Limited Dividend Housing Association Limited Partnership – Payment in Lieu of Taxes (PILOT).

United Streets Networking and Planning: Building a Community (U-SNAP-

BAC) has formed Lakewood Manor 2019 Limited Dividend Housing Association Limited Partnership in order to develop the Project known as Lakewood Manor Apartments. The Project is an existing thirty (30) unit apartment complex in an area bounded by Kercheval on the north, Lakewood on the east, Jefferson on the south and Newport on the west.

The rehabilitation Project will include twelve (12) 1 bedroom/1 bath, fifteen (15) 2 bedroom/1 bath and three (3) 3 bedroom/1 bath apartments. The site has a daycare facility in 5,500 square feet of first floor commercial space which also serves the surrounding area. The preservation and renovating of the development will not result in a rent increase for the existing tenants.

A tax-exempt bond construction loan in the amount of \$3,347,913, a permanent mortgage loan in the amount of \$1,547,876 and an Authority Trust Fund Loan in the amount of \$1,674,087 will be provided by the Michigan State Housing Development Authority ("MSHDA"). A City of Detroit HOME Loan in the amount of \$466,832 and a Community Development Block Grant Note in the amount of \$263,985 will be assigned to the new ownership entity. Cinnaire will make Capital Contributions of \$1,884,371 which includes the purchase of Low Income Housing Tax Credits. Additionally, the Sponsor has agreed to defer \$175,000 of the developer fee.

Rents for all units have been set at or below sixty percent (60%) of the area median income, adjusted for family size. All thirty (30) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,

ALVIN HORHN  
Deputy CFO/Assessor

By Council Member Ayers:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 et seq. (the "Act"), a request for exemption from property taxes has been received on behalf of United Streets Networking and Planning: Building a Community (the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is proposing to undertake the rehabilitation of an existing housing project known as Lakewood Manor Apartments consisting of the rehabilitation of thirty (30) units in a building complex located on six (6) parcels of property owned or to be acquired by the Sponsor as described by street address and tax parcel in Exhibit A to this resolution, with all thirty (30) units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federal-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(l), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known Lakewood Manor Apartments as

described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125,1401, et seq.; and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; and be it further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer - Office of the Assessor two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Alliant Capital will provide Capital Contributions of \$3,069,324 which includes the purchase of Federal Historic and Low Income Housing Tax Credits. Additionally, the Sponsors have agreed to defer \$129,828 of the developer fee.

Rents for all units have been set at or below sixty percent (60%) of the area median income, adjusted for family size. All residents will contribute only thirty percent (30%) of their adjusted gross income towards the rent amount. All nineteen (19) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to

receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Honorable City Council:

Re: Request to Accept and Appropriate Reimbursement for Eligible Expenses from the Federal Emergency Management Agency (FEMA) Public Assistance Grant Program.

Under the federal declaration of emergency issued March 13, 2020, Detroit is eligible to request reimbursement from the FEMA Public Assistance Grant Program for 75% of any costs incurred by the City that were associated with activities to eliminate or reduce an immediate threat to life, public health, or safety, or to perform other eligible emergency protective measures, in response to COVID-19. There is a 25% cost share requirement. The project period is January 20, 2020, the declared start of the public health emergency, through 60 days after the date the emergency is declared to end.

The objective of this program is to reimburse qualifying entities like Detroit for 75% of costs incurred as a result of emergency response to save lives that were required as a direct result of the incident, and that are the legal responsibility of the organization. Reimbursement for costs deemed eligible by FEMA will only be appropriated by the Office of Budget on City receipt of the associated revenues, and the matching FEMA-approved expenses will be moved concurrently to match the revenues.

If approval is granted to accept and appropriate this funding, the appropriation number is 20786.

If approved, this appropriation will be established within the Coronavirus Federal Relief Fund, and revenues received will be reported as part of the OCFO monthly report on the Fund, pursuant to the Resolution currently under consideration by City Council Creating a Commitment to Transparency for Grants Received from the Federal CARES Act.

I respectfully ask your approval to accept and appropriate funding in accor-

dance with the attached resolution, at such time as eligible costs are approved and revenues are received.

Sincerely,

Honorable City Council:

Re: City of Detroit vs. JDK Holdings, LLC, et al. Case No: 20-002101-CH. File No. L19-00904 (SLdeJ).

We have reviewed the above-captioned lawsuit, the facts of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body.

From this review, we are of the opinion that it is in the best interest of the City of Detroit to accept the reimbursement of the demolition cost, at a discounted amount, that will be secured by a demolition lien on the real property that is the subject of the lawsuit. The reduced demolition cost will be paid on a graduated and monthly installment payment basis, which is subject to reinstatement of the full demolition cost, if the defendant owner defaults. If there is a default, the entire demolition cost will be accelerated for an immediate payment, and execution of the demolition lien against the real property and the Defendants, jointly and severally. Therefore, the Law Department and the Housing and Revitalization Department both recommend approval of the settlement.

We, therefore, request authorization of your Honorable Body to settle this matter by adopting the attached resolution.

Whereas, The City of Detroit, through its Law Department, is seeking settlement of the matter given in the foregoing communication, which includes the City of Detroit being reimbursed for the demolition cost in the amount of Thirty-Seven Thousand Five Hundred and No Dollars (\$37,500.00) by graduated installment payments from Defendant JDK Holdings, LLC aka JDK Investment, LLC aka JDK Investments, LLC, to be paid to the City of Detroit, for the costs incurred by the City of Detroit, to demolish the building and abate the nuisances at 5814 Chene, Detroit, MI.; the reimbursement to the City of Detroit is secured by a demolition lien against 5814 Chene, Detroit, MI and a money judgment against the defendants, jointly and severally;

Whereas, The City's Housing Revitalization Department recommends acceptance of the settlement, subject to a demolition lien to the City of Detroit and a graduated installment payment agreement against the defendants, until the Thirty-Seven Thousand Five Hundred and 0/00 Dollars (\$37,500.00) is paid in full by the defendants to the City of Detroit; and

Now, Therefore Be It

Resolved, That Detroit City Council hereby approves settlement of the above referenced matter; and be it further

Resolved, That the applicable City of Detroit Law Department is authorized to accept the reimbursement of the demolition cost in the amount of Thirty-Seven Thousand Five Hundred and 0/00 Dollars (\$37,500.00), on a graduated installment payment basis, from the Owner of 5814 Chene, Detroit, MI, namely Defendant JDK Holdings, LLC aka JDK Investment, LLC aka JDK Investments, LLC, secured by a demolition lien in accordance with the terms and conditions of a Stipulated Order, to be approved by the City of Detroit Law Department; and be it further

Re: City of Detroit vs. 5625 Military, LLC, *et al.* Case No: 19-014688-CH. File No. L19-00550 (SLdeJ).

We have reviewed the above-captioned lawsuit, the facts of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body.

July 8, 2020

Honorable City Council:

Re: Property Sale: Correction — 12118, 12226 and 12300 Woodrow Wilson.

On July 16, 2019, your Honorable Body approved the sale of certain City-owned real property at 12118, 12226 and 12300 Woodrow Wilson (the "Property"), to Cass Community Social Services, Inc., a Michigan Non-Profit Corporation (the "Purchaser"), for the purchase price of Eight Thousand Seven Hundred Sixty and 00/100 Dollars (\$8,760.00).

The Property consists of approximately 25,000 square feet of vacant land and is zoned B4 (General Business District). It was stated that the Purchaser's use of the property would be for the development of tiny affordable homes. This use was subject to the Purchaser obtaining rezoning of the Property, a special or conditional use permit or a variance prior to the closing and consummation of the sale.

This use was stated in error. The Purchaser proposes to develop the Property for retail and commercial use in support of their affordable housing and other development in the area. This use would be allowable by right. Any use of the Property by the Purchaser shall be consistent with the allowable uses for which the Property is zoned.

We, therefore, request that your Honorable Body adopt the attached resolution to remove the conditional use requirement for the consummation of the sale and authorize the Director of P&DD, or his or her authorized designee, to execute a deed and such other documents as may

be necessary or convenient to effect a transfer of the Property by the City to Cass Community Social Services, Inc.

Resolved, That the Director of the Planning and Development Department ("P&DD"), or his or her authorized designee, is authorized to execute a quit claim deed and other such documents necessary or convenient to effect transfer of the Property to the Purchaser consistent with this resolution; and be it further

#### RESOLUTION TO DECLARE RACISM A PUBLIC HEALTH CRISIS AND TO SUPPORT MICHIGAN SENATE CONCURRENT RESOLUTION 27

By COUNCIL PRESIDENT JONES and COUNCIL MEMBER AYERS:

WHEREAS, The City of Detroit's collective prosperity has always depended upon the equitable access to basic needs and opportunity for every resident; and

WHEREAS, The COVID-19 pandemic has highlighted gaps in health and access to health care for communities of color in Michigan, especially in the city of Detroit. In Michigan, African Americans comprise of 13 percent of the population, yet nearly 40 percent of all coronavirus deaths in the state are from African Americans; and

WHEREAS, Multiple health organizations such as the American Public Health Association, American Academy of Pediatrics, American Academy of Family Physicians, American Medical Association and American College of Physicians have all recognized racism as a public health issue; and

WHEREAS, The American Medical Association report, *The Impact of Racism on Child and Adolescent Health* adds, "the trauma of violence in a person's life course is associated with chronic stress, higher rates of comorbidities and lower life expectancy, all of which bear extensive care and economic burden on our healthcare system while sapping the strength of affected families and communities"; and

WHEREAS, These medical organizations all agree that experiences of racism or discrimination "increases the risk of not only emotional duress and physical health problems, including hypertension, which affects more than 40% of African American, depression, cardiovascular disease, and even death."; and

WHEREAS, African Americans have endured systemic racism for decades. Historically, the State of Michigan has demonstrated a disregard towards the well-being of African Americans, made evident by the *Right to Literacy* lawsuit brought forth against the State of Michigan by former Detroit Public School students and community activists; and

WHEREAS, Disproportionately, Detroit residents experience higher rates of environmental pollution, human rights violations, police surveillance, homelessness, incarceration, and economic hardships, all of which exacerbate existing health issues; and

WHEREAS, The protests of recent months of the murder of George Floyd, has raised attention to these racially motivated policies that have plagued African Americans for generations; and

WHEREAS, Many cities, states and corporations have either sponsored resolutions or have made public declarations,

affirming the unfair treatment of African Americans and other people of color, conjoined with demanding efforts to improve upon service delivery for public services for African Americans. The Detroit City Council hopes that these actions will galvanize support for just alternatives that are long overdue; and

WHEREAS, If enacted, U.S. House Resolution HR 40 would establish a commission to study and develop reparations proposals for African Americans. The commission would examine slavery and discrimination in the colonies and the United States from 1619 to the present and recommend appropriate remedies; and

WHEREAS, The passage of HR 40 offers lawmakers, corporations an opportunity to make good on their claims of wanting to end the legacy of systemic racism; and

WHEREAS, There are many different ways to provide reparations. What matters is the intent to acknowledge that there needs to be an investment paid to African Americans, in order to correct the federal government's role in creating the legal and power framework that has permitted racial inequality to persist for hundreds of years; and

WHEREAS, Small-scale initiatives are admirable, but anything less than a national effort will be insufficient to close the racial wealth gap; and

WHEREAS, The Detroit City Council is an ardent supporter for promoting racial equity, inclusion and diversity in all aspects of city government, urges the State of Michigan and the United States government, to implement policies that improve the health and access to health care in communities of color and to support initiatives that advance efforts to dismantle systemic racism; the Legislature to action and collaboration with the Governor to promote racial equity. THEREFORE, BE IT

RESOLVED, That the Detroit City Council stands in support of the Michigan Senate Concurrent Resolution 27, to declare racism as a public health crisis in the state of Michigan and to urge the Department of Health and Human Services to formally announce racism as a public health crisis in the U.S. BE IT FINALLY

RESOLVED, That copies of this resolution be transmitted to the Mayor Duggan, Gov. Whitmer, the Lieutenant Governor, the Chief Medical Executive for the Michigan Department of Health and Human Services, the Secretary of the US Department of Health and Human Services, and the Michigan delegation in the United States Congress.

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of an existing single-family residential building located at 1532 McClellan Avenue in the Kercheval/McClellan Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the rehabilitation of an existing single-family residential building located at 1532 McClellan Avenue. This application corresponds to a qualified site which will accommodate the rehabilitation of a current building consistent with zoning and the Master Plan of Policies. The building is anticipated to undergo substantial work, including mechanical, HVAC, and drywall repair and replacement, as well as replacement of cabinets and other fixtures. CPC staff has reviewed the application and recommends approval.

The subject property has been confirmed as being within the boundaries of the Kercheval/McClellan NEZ which was established by a vote of Council on April 24, 2007, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The anticipated cost of rehabilitation for 1532 McClellan Avenue is \$163,146.00. The NEZ certificate application appears to have been submitted prior to the issuance of any applicable building permits.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for four (4) rehabilitated single-family homes located at 202 Marston Avenue, 206 Marston Avenue, 212 Marston Avenue and 8035 John R in the Marwood Development Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received four (4) applications requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the rehabilitation of four (4) single-family homes located at 202 Marston Avenue, 206 Marston Avenue, 212 Marston Avenue and 8035 John R. These applications are being resubmitted for your review and consideration because of the timing of the applications which date back to 2018. These applications correspond to a qualified sites that will facilitate the rehabilitation of four (4) single-family residential properties as a part of a larger development known as the Marwood Development. The project consists of the rehabilitation and new construction of 19 single-family homes on 19 parcels or in-fill properties. Of the single-family homes, seven (7) units, or 37%, will be acquisition rehabilitation homes. Twelve (12) of the properties will be new construction for-sale homes, and all will be for-sale owner occupied.

The subject properties have been confirmed as being within the boundaries of the Marwood Development NEZ which was established by a vote of Council on November 20, 2018, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The estimated rehabilitation cost per property is \$242,000.00 for a total estimated project cost of 4,597,622.00 for all 19 properties.

The NEZ certificate applications appear to have been submitted after the issuance of applicable building permits. The building permits show that the permits were issued on October 9, 2018 and the applications were filed with the City of Detroit Clerk's office on November 26, 2018. MCL 207.774 states the application must be filed before a building permit is issued or as otherwise provided by the local governmental unit by resolution if the application is filed not later than 6 months following the date the building permit is issued.

In order to proceed the City of Detroit would have to approve a resolution which contains language that approves the submission of the application after the issuance of the building permit, however, no later than 6 month following the date the building permit was issued.

The required resolution is attached for your consideration.

Please contact our office should you have any questions.

**RESOLUTION  
URGING THE ADMINISTRATION TO  
RESTORE ELECTION DAY TO A  
PAID CITY HOLIDAY**

By ALL COUNCIL MEMBERS:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit’s citizens through Charter-mandated legislative functions; and

WHEREAS, Beginning in 1845, Election Day has taken place on the first Tuesday after the first Monday in November, for the reason that it was the most convenient time for rural farmers to travel to cities after completing their fall harvests; and

WHEREAS, Election Day falls within the work week and advocates for a paid holiday suggest that it would give working people more flexibility to cast their ballots. This proposed holiday could also shorten

lines at polling places, by reducing the number of people voting at the peak hours before and after the workday; and

WHEREAS, On a national scale, Election Day remains a civil holiday in eight states and the territory of Puerto Rico, in Delaware, Hawaii, Kentucky, Montana, New Jersey, New York, Ohio and West Virginia. Additionally, thirty states have time-off-to-vote laws, also referred to as Voter Leave laws. These time-off-to-vote laws vary considerably from state to state; and

WHEREAS, Paid federal holidays apply only to government employees and public institutions, private employers tend to follow suit; and

WHEREAS, A 2018 Newsweek article reports, that a number of corporations and companies have also made Election Day an off day for their employees. Approximately 348 companies, both large and small, have reserved Election Day as a holiday, including major corporations such as Spotify, Uber, Twitter, and Blue Apron; and

WHEREAS, On Election Day 2020, Oakland county workers will join county workers in Wayne and Macomb and State of Michigan employees, with observing Election Day as a paid holiday; and

WHEREAS, The Detroit City Council encourage residents to participate in these very important local and national elections and acknowledges its responsibility to decreasing barriers to vote; and

WHEREAS, Council is confident the proposed action will influence surrounding communities to respond similarly; THEREFORE, BE IT

RESOLVED, That the Detroit City Council strongly urges the Administration to restore Election Day as a paid holiday, along with the primary and general election days that are held each year for all City employees, wherein the declaration joins the official compensation schedule ordinance, and to incorporate the same in the labor contracts for the City's unionized workforce; BE IT FINALLY

RESOLVED, That copies of this resolution be transmitted to the Mayor, the Office of the CFO and the Office of Labor Relations.

**RESOLUTION  
URGING THE ADMINISTRATION TO  
PROCLAIM JUNETEENTH AS A  
PAID CITY HOLIDAY**

By ALL COUNCIL MEMBERS:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's

citizens through Charter-mandated legislative functions; and

WHEREAS, The mistreatment of African-Americans in the U.S. is at the forefront of many Americans' minds, making the celebration of the end of slavery even more poignant; and

WHEREAS, Juneteenth marks the anniversary of the day on June 19, 1865, when Major General Gordon Granger read "General Order No. 3" in Galveston, Texas, declaring that all slaves were free. The Order also announced enforcement of the abolition of slavery in Texas, the last place where slavery was still being practiced in the United States, which came more than two years after the Emancipation Proclamation took effect on January 1, 1863; and

WHEREAS, The ratification of the 13th amendment to the US Constitution ended slavery in the United States on December 6, 1865; and

WHEREAS, Juneteenth is the oldest and most widely known celebration of African-American emancipation. It offers a time to honor the past, present, and future of black economic liberation through conferences, family reunions and expressions of freedom; and

WHEREAS, Juneteenth, also known as Emancipation Day, is not taught in most schools. According to School Library Journal, the publication's Twitter poll indicates that 90% of respondents who work in schools do not teach students about the holiday, despite its historic significance; and

WHEREAS, It is not enough for the City of Detroit to just have parades and events celebrating Juneteenth. Detroit must recognize Juneteenth as an official City holiday, which will lend support to the US Senate Resolution authored by John Cornyn (R-TX) and other campaigns, to recognize 'Juneteenth National Freedom Day' as a national holiday; THEREFORE, BE IT

RESOLVED, That the Detroit City Council strongly urges the Administration to proclaim June 19th, known as 'Juneteenth', as a paid City holiday for all City employees, wherein that its declaration joins the official compensation schedule ordinance, and to incorporate the same in the labor contracts for the City's unionized workforce; BE IT FINALLY

RESOLVED, That copies of this resolution be transmitted to the Mayor, the Office of the CFO, the Budget Director and the Office of Labor Relations.

**RESOLUTION  
CALLING FOR RESTORATION OF  
AFFIRMATIVE ACTION IN MICHIGAN**

By ALL COUNCIL MEMBERS:

WHEREAS, In the context of the historic conditions of white supremacy and structural and systemic racial bias prevalent throughout United States history, and as the result of a well-funded out-of-state anti-civil rights and anti-human rights campaign's advocacy efforts that featured widespread misrepresentations and outright fraud as documented in subsequent federal litigation, on November 7, 2006, Michigan voters approved a voter ballot initiative, currently embodied in Art. 1, Sec. 26 of the Michigan Constitution, that prohibits the use of affirmative action in Michigan; and

WHEREAS, Since Michigan voters adopted Art. 1, Sec. 26 of the State Constitution, socioeconomic and political conditions — especially for people of color, women, LGBTQ and other sometimes disfavored groups and individuals, based on personal characteristics unrelated to their merit, human dignity or human rights — have been deteriorating in Michigan, and the prohibition on affirmative action programs prevents government from effectively addressing many problems and concerns of such traditionally disfavored constituents; and

WHEREAS, Affirmative action is merely the fair and unbiased extension of all rights and privileges of citizenship and membership in the human family to everyone, including the proactive and affirmative engagement with traditionally disfavored groups and individuals to establish work forces, student bodies, elected representation, and authority and power structures of all kinds that include diverse membership reflecting the composition of the entire population and thereby making maximum use of the human resources available to deal with our common situation; and

WHEREAS, In the last few months after the police killing of George Floyd in Minneapolis and other notorious incidents of racist brutality, a historic uprising of oppressed Americans against racism, police misconduct, the deadly adverse racial disparity of consequences in the continuing Covid-19 pandemic, and other structural and systemic racist aspects of American society, has apparently changed consciousness of racial oppression and discrimination in this country, including among many whites; and

WHEREAS, Under the new and still-evolving analysis of racial injustices, the voters' 2006 prohibition of affirmative action in Michigan appears to be completely out-of-step and to directly contradict the long-overdue changes currently being publicly advocated; and

WHEREAS, Although affirmative action has not to date been very high on the list of protestors' demands during recent demonstrations, reparations for slavery and post-emancipation systemic discrimination and racism have been prominent, and well-designed and resourced affirmative action policies and programs should be a major element of such reparations for African Americans, if any; and

WHEREAS, The Michigan State Legislature is the primary government body in Michigan that is empowered to place a voter initiative to change the State Constitution on the ballot, and Detroit City Council strongly urges the State Legislature to place such an initiative restoring affirmative action on the ballot forthwith;

NOW, THEREFORE, BE IT

RESOLVED, That Detroit City Council strongly urges all elected leaders, influential corporations and other institutions, and all citizens in Michigan to move as swiftly as possible to restore affirmative action in Michigan by amending the Michigan State Constitution to repeal Art. 1, Sec 26, and replacing it with a robust pro-affirmative action policy authorization; and

BE IT FURTHER

RESOLVED, That copies of this resolution shall be distributed to Mayor Mike Duggan, Governor Gretchen Whitmer, Lieutenant Governor Garlin Gilchrist, the Detroit delegation in the Michigan State Legislature, and media and public contacts.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Leland, McCalister, Jr., Sheffield, Spivey, Tate and President Jones — 9.

By COUNCIL PRESIDENT JONES:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, As a direct result of the COVID-19 pandemic, the economy has suffered. Large and small scale events are being cancelled, shops and restaurants have either been shuttered or mandated to operate at a reduced capacity, and as a direct result, low-wage workers have experienced job losses or a reduction in earnings; and

WHEREAS, The cutback in commerce is necessary for reducing the spread of the coronavirus. However, the residual effects have seriously impaired the economy, and the spread of the coronavirus is projected to worsen in the coming months; and

WHEREAS, With thousands of Detroiters suddenly unemployed or underemployed, due to COVID-19, individuals and families throughout our community are struggling financially. The U.S. Bureau of Labor Statistics reports that the over-the-year' changes in employment on nonfarm payrolls and employment by major industry sectors, currently reflect nearly a twenty percent decrease. The Detroit area unemployment rate has increased ten percentage points over the national average. In May 2019, the Detroit area unemployment rate was 3.8% and within a year's time, it has climbed to 23.7%; and

WHEREAS, The original intent of Congress of appropriating the CARES Act funding, was to deliver immediate aid to individuals and families, along with support for businesses. Tragically, however, for a number of reasons, a majority of people in many states, Michigan in particular, have not been able to fully access these funds and benefit from the CARES Act; and

WHEREAS, Nonprofits, local and state governments have responded to meet the needs of many, yet they are being stretched to their limits, as resources dwindle in the midst of a global pandemic. Mid-year predictions from the World

Honorable City Council:  
 Re: Petition No. 1414 — U-Wash Development Company LLC request for encroachment of Billboard into Prest Avenue, right-of-way at 15325 West Eight Mile Road.

Petition No. 1414 by U-Wash Development Company LLC, request to encroach in the public right-of-way with a billboard and fence on the east side of Prest Avenue, 60 feet wide between West Eight Mile Road, 204 feet wide, and Norfolk Avenue, variable width.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made for an existing billboard and fence. Your Honorable Body previously approved a resolution for the installation of the billboard (J.C.C. page 2553 of December 12, 1961) The original petitioner, Great Lakes Bowling, is no longer in business and the U-Wash Development Company now wants to be responsible for the encroachment.

The request was approved by the Solid Waste Division — DPW, and City Engineering Division — DPW.

Detroit Water and Sewerage Department (DWSD) has not responded to the petition. The standard DWSD provisions for encroachments have been made a part of the resolution.

All other involved City Departments and privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,  
 RICHARD DOHERTY, P.E.

WHEREAS, Gun violence has been increasing in Detroit in recent years. In 2019, there were 271 fatal shootings and 764 non-fatal shootings in Detroit, which respectively is a 5% and 3% increase from 2018. Tragically, this past weekend of Juneteenth 2020, a time for celebration, left 4 people dead and 25 others wounded, including a 10-year-old girl in the City of Detroit. Irrational and senseless, shootings torment the community, prevent growth, and cause the deterioration of the most basic social contract of the right to live peacefully; and

WHEREAS, Exposure to gun violence, not only injures and kills people, but it also causes a myriad of psychological effects on survivors and witnesses. The after effects of gun violence can potentially spiral into psychiatric problems, such as an increase in destructive and aggressive behavior and a decrease in positive coping strategies, which can lead victims to solving perceived threats with violence and the use of firearms; and

WHEREAS, Although, the City of Detroit has witnessed an economic resurgence in many areas, some areas still struggle with obtaining necessary investments for economic development. Research shows, gun violence is more prevalent in places that are economically depressed. According to data released by U.S. Census Bureau, Detroit has the 4th highest poverty rate in the U.S. As of July 2019, 36.4% of Detroiters live below the poverty line.

WHEREAS, Poverty can lead to hyper-vigilance and excessive gun use for the purpose of protecting life and property of those who feel trapped in a cycle of hardship and impoverishment. Gun violence also reduces potential investments entering a community, which thwarts economic development and creates a vicious paradox of poverty producing gun violence and gun violence producing poverty; and

WHEREAS, Senseless gun violence kills thousands of people each year. Their futures stolen, dreams silenced, and the psychological effects of the survivors remain for a lifetime. The Detroit City Council recognizes the urgency of ending gun violence and preserving all lives in the City of Detroit. NOW THEREFORE BE IT

RESOLVED, The Detroit City Council is deeply concerned and disheartened by the extreme social, economic, and physical trauma citizens are challenged to cope with daily because of frequent exposure to gun violence. All people have the right to live in a secure and protected environment that nurtures individual well-being and community growth. BE IT FURTHER

RESOLVED, The City of Detroit is devoted to strengthening public safety by preventing and relieving the burden of gun violence on the citizens of the City of Detroit. Therefore, the Detroit City Council declares Gun Violence a Public Health Crisis.

June 19, 2020

Honorable City Council:

Re: Request to consider the request of the City Planning Commission staff and the Planning and Development Department, to amend Chapter 50 of the 2019 Detroit City Code, *Zoning*, by amending Article XVII, *Zoning District Maps*, Section 50-17-5, *District Map No. 4*, to provide for the following:

(1) To show a PD (Planned Development District) zoning classification where an SD2 (Special Development District, Mixed-Use) zoning classification is currently shown on land bounded by Wilkins Street on the north, the Chrysler Freeway Service Drive on the east, the Fisher Freeway Service Drive and Winder Street on the south, and Beaubien Street on the west; and

(2) To show a PD (Planned Development District) zoning classification where a B4 (General Business District) zoning classification is currently shown on land commonly known as 114 Winder Street; and

(3) To modify the existing PD (Planned Development District) zoning classification, established by Ordinance 01-96, currently shown on land generally bounded by Mack Avenue on the north, Beaubien Street on the east, Erskine Street on the south, and Brush Street on the west in order to repeal the regulations for development for such classification; and

(4) To modify the existing PD (Planned Development District) zoning classification, established by Ordinance 39-07, currently shown on land generally bounded by John R Street, the alley south of Erskine Street, Brush Street, Mack Avenue, Woodward Avenue, and Alfred Street in order to revise the boundaries for such classification; and

(5) To modify the existing PD (Planned Development District) zoning classification, established by Ordinance Nos. 01-96, 25-96, and 39-07, as amended by Ordinance Nos. 07-16, 24-17, 27-17, 26-18, 14-19, and 35-19, currently shown on land generally bounded by Mack Avenue, Beaubien Street, Wilkins Street, the Chrysler Freeway Service Drive, the Fisher Freeway Service Drive, Woodward Avenue, Erskine Street, and John R Street, but excluding certain properties abutting Woodward Avenue.

The proposed map amendment is being requested in order to adopt the Brush Park Form-Based Code as the regulations for development for the subject area described and found in the map below (RECOMMEND APPROVAL).

### **BACKGROUND**

In the spring of 2016, The City Planning Commission staff completed a series of online courses and subsequent classroom trainings in Lansing, Michigan on form-based code (FBC).

As staff contemplated possible application of the FBC concepts in the City of Detroit, it became evident that the Brush Park neighborhood would be a good candidate for a first application of the zoning tool for the following reasons:

- the development activity currently underway;
- the need for a community plan post Emergency Manager Order No. 36 which eliminated both the Urban Renewal areas and the Fourth Modified Development Plan;
- the need for more cohesive development;
- the City Modern Bedrock development, located nearby, that incorporated the form based development concept, and;
- the desire to take an opportunity to apply the concept to one of the most rapidly changing neighborhoods in the city.

CPC staff began to search for funding in order to further the zoning initiative. Initially staff were in discussions with the Michigan Association of Planning (MAP) to identify sources of funding to support the effort. PDD had also been searching for an approach to resolve the zoning dilemma in Brush Park, in which their original thought was to rezone large portions of the area to SD1 (Special Development District, Small-Scale, Mixed-Use) or SD2 (Special Development District, Mixed-Use).

CPC staff met with the Planning and Development Department (PDD) on July 15, 2016 to discuss CPC staffs proposal for a Form-Based Code. PDD was receptive of the concept and also knew of funding sources to help advance the effort. From that point, CPC and PDD partnered to advance the effort. Utile, from Boston, Massachusetts, was brought on board (using PDD's funding) to be the lead consultant, due to their expertise in the practice. More than three years have spanned, involving many stakeholders, to produce what is before your Honorable Body for consideration.

### **PROPOSAL**

The City Planning Commission and the Planning and Development Department are co-petitioners for the proposed Brush Park Form-Based Code ordinance.

On December 6, 2018, the CPC held a public hearing to consider the proposed FBC. The Commission subsequently voted to approve the proposal in May 2019. Since that time, CPC has worked further with the community and Law Department (Law) to accommodate additional changes.

As a result of further consideration, it was decided that the best way to effectuate the FBC would be to apply a zoning map amendment, as opposed to the text amendment that was originally petitioned for. A new public hearing was held on June 18, 2020 due to modifications made within the ordinance. The spirit and intent of this ordinance is largely the same as what was approved by CPC in May 2019. The most significant changes are that the Public Realm Standards were removed after consultation with Law. These provisions were intended to make the standards for public sidewalks, curb cuts and other elements of the public right-of-way, mesh with privately owned land. At this time, there is not an expedient way to accomplish this goal and so staff may pursue this as a secondary effort to avoid further delay of the FBC implementation.

There are two areas within the subject Brush Park community that do not bear a PD (Planned Development District) zoning classification. One is currently zoned B4 (General Business District) and the other SD2 (Special Development District, Mixed Use). Both are to be rezoned to a PD (Planned Development) zoning classification so that the FBC will be applicable to the entire area described in the subject ordinance.

The ordinance also modifies the boundaries of ordinances 01-96 and 39-07, as these ordinances' boundaries are being altered in the area where the FBC is being applied. However, their existing regulations will continue to apply to parcels abutting Woodward, which are outside of the FBC boundary (See FBC Regulating Map).

Lastly, the FBC will repeal the terms, conditions and regulations that currently govern developments in Brush Park that were implemented through the Brush Park Third Modified Development Urban Renewal Plan and were effectuated by Ordinances 01-96, 25-96, and 39-07. The FBC will replace these provisions. Other individual PDs that have been approved by the legislative bodies, such as the City Modern development, are able to continue in perpetuity as they exist, or, are consistent with approved plans. Developments in this category are subject to the provisions of *Sec. 6 Nonconformities and Savings Provision* of the FBC.

In general, the above actions are proposed in order to adopt the Brush Park Form-Based Code as the regulations for development within the subject area described and found in the attached map.

### **FORM-BASED CODES**

According to the Form-Based Codes Institute:

“a form-based code is a land development regulation that fosters predictable built

results and a high-quality public realm by using physical form (rather than separation of uses) as the organizing principle for the code. A form-based code is a regulation, not a mere guideline, adopted into city, town, or county law. A form-based code offers a powerful alternative to conventional zoning regulation.

Form-based codes address the relationship between building façades and the public realm, the form and mass of buildings in relation to one another, and the scale and types of streets and city blocks. The regulations and standards in form-based codes are presented in both words and clearly drawn diagrams and other visuals. They are keyed to a regulating plan that designates the appropriate form and scale (and therefore, character) of development, rather than only distinctions in land-use types.

This approach contrasts with conventional zoning’s focus on the detailed management and segregation of land uses, and the control of development intensity through abstract and uncoordinated parameters (e.g., FAR, dwellings per acre, setbacks, parking ratios, etc.), to the neglect of an integrated built form. Not to be confused with design guidelines or general statements of policy, form-based codes are regulatory, not advisory. They are drafted to implement a community plan. They try to achieve a community vision based on time-tested forms of urbanism. Ultimately, a form-based code is a tool; the quality of development outcomes depends on the quality and objectives of the community plan that a code implements.”

**Five Main Elements of Form-Based Codes**

<p><b>1. Regulating Plan</b></p>  <p>A plan or map of the regulated area designating the locations where different building form standards apply.</p>	<p><b>2. Public Standards</b></p>  <p>Specifies elements in the public realm: sidewalk, travel lanes, on-street parking, street trees and furniture, etc.</p>	<p><b>3. Building Standards</b></p>  <p>Regulations controlling the features, configurations, and functions of buildings that define and shape the public realm.</p>	<p><b>4. Above you will find the five main elements that Form Based Codes typically address that are considered the pillars to make a successful ordinance that can accomplish the objectives of a form based regulation. The proposed ordinance that is being considered for Brush Park contains all of these elements except the Public Realm Standards as mentioned previously in this report. The following is included in the subject ordinance:

**Regulating Plan Building Standards Administration Definitions**

There are however, other elements that are considered optional by form-based code experts. The Brush Park FBC ordinance utilizes the Landscaping and Signage standards of the current Zoning Ordinance. The elements that FBC experts describe as optional include:

**Architectural Standards — Landscaping Standard — Signage Standards Environment Resource Standards (Stormwater Standards) Annotation**

**Additional Optional Elements**

 <p><b>Architectural Standards</b> Regulations controlling external architectural materials and quality.</p>		 <p><b>Environment Resource Standards</b> Regulations controlling issues such as storm water drainage and infiltration, development on slopes, tree protection, solar access, etc.</p>
 <p><b>Landscaping Standards</b> Regulations controlling landscape design and plant materials on private property as they impact public spaces.</p>		 <p><b>Annotation</b> Text illustrations explaining the intentions of specific code provisions</p>
 <p><b>Signage Standards</b> Regulations controlling allowable signage sizes, materials, illumination, and placement.</p>

**COMMUNITY ENGAGEMENT AND PUBLIC HEARING RESULTS**

To-date, CPC and PDD have held over 20 meetings and conversations with the community over a 2 year period regarding the Form-Based Code. These meetings and conversations include a week of kick off meetings with our steering committee, at-large community meetings, and one-on-one calls with stakeholders, sit-down meetings at individual's homes and businesses, conference calls, face-to-face discussions, focus group meetings, and a charrette. The overall sentiment has been that many residents are anxious for this ordinance to be implemented.

CPC and PDD have additionally worked with other city agencies to inform and receive feedback regarding the project. Those entities include the The Historic District Commission (HDC), The Historic Designation Advisory Board (HDAB), and the Board of Zoning Appeals (BZA). Other parties that have conducted analysis of the code or had input, include the Office of the Chief Financial Officer, University of Michigan, Code Studio (CPC's zoning consultant) as well as several other national consultants who provided input and analysis for staff.

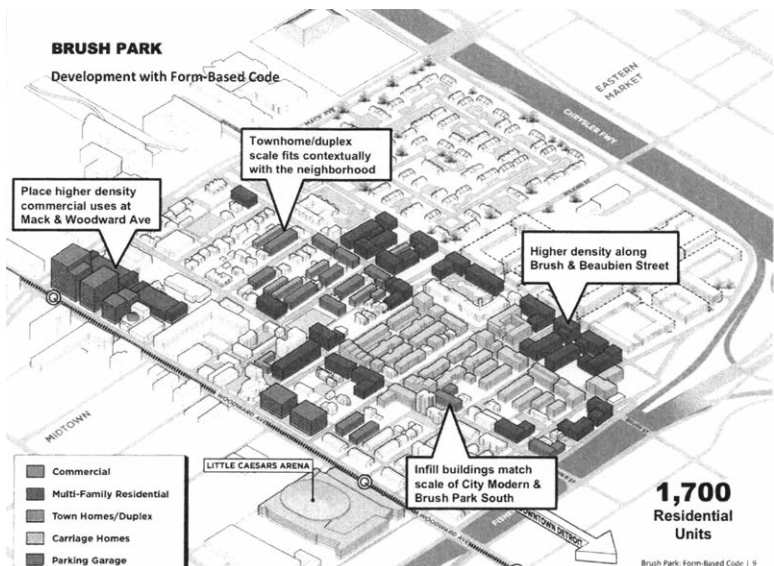

As stated previously, there were two public hearings held for this matter. The first public hearing was held December 6, 2018. At that meeting the chair of the Brush Park CDC spoke in strong support of the FBC. Another speaker asked questions about how form-based codes were planned to be applied city-wide and expressed some concern. CPC addressed these concerns during the PH. Subsequently, the ordinance was voted for approval in May of 2019.

After the CPC voted to approve the FBC in 2019, CPC staff worked further with Law and the community to finalize the FBC. After further refining the FBC (as it is the first ordinance of its kind) it was determined that the goals of the ordinance would be more appropriately implemented through a rezoning map amendment versus a zoning text amendment, as it was originally noticed to the community.

For this reason, a second public hearing was held on June 18, 2020. At this public hearing two community members spoke to voice questions regarding open space, and permissible building heights. CPC staff and PDD answered their questions. It should be noted that a letter of support was submitted for the Form Based Code by the Brush Park CDC. Additionally, a separate support letter was submitted by the chair of the Brush Park CDC speaking as a board member, but also as property owner of Brush Park.

**ANALYSIS**

During the course of this process, much thought and study have gone into this effort. Much was learned from the studies that have been done in other places where FBC has been applied or fully instituted and, they provided valuable guidance on how the concepts included in this draft ordinance might be applied on an even larger scale to improve redevelopment as it continues in the city.

An image depicting a study that was done by Utile, Boston that shows the opportunity for new development and associated density.

The primary outcomes of this proposed ordinance includes that it:

- Implements the longstanding vision of the community
- Creates a more predictable outcome of what the neighborhood will look like once built out
- Reduces costs for developers, small and large
- Sets expectations for developers and allows the neighborhood to set the vision in advance
- Provides projections for the amount of greenspace, parking, and other needs in the area
- Promotes walkability
- Allows for varying housing options
- Makes zoning more user-friendly and easier to comprehend

## **MAJOR ASPECTS OF THE FORM-BASED CODE ORDINANCE**

### **Review and Process**

This ordinance proposes to allow the land within the proposed boundaries to be governed similarly to standard zoning districts that makeup the majority of districts in the zoning ordinance. Most zoning districts have established parameters that are set forth; they are adopted by the City Council and are implemented by staff administratively.

The new development path of the FBC should alleviate the sometimes contentious, negotiated development process that currently exists for each project within a PD district. The current process can lead to a less cohesive neighborhood and also weighs on the community because they don't know what is allowed for each development. The prospect of new projects can become antagonistic, leading to development fatigue. With the adoption of the FBC, the rules will be set in place, so that the community and developers know what is permitted. This will result in a more predictable, final, built environment for the community and give assurance to residents that there are concrete standards that they have helped to craft according to their own vision. Having set regulations and process for development also gives developers more confidence to invest because they more easily understand the expectations of the community, the financial risks involved and have a clear-cut path to reach the finish-line, by conforming to the adopted parameters.

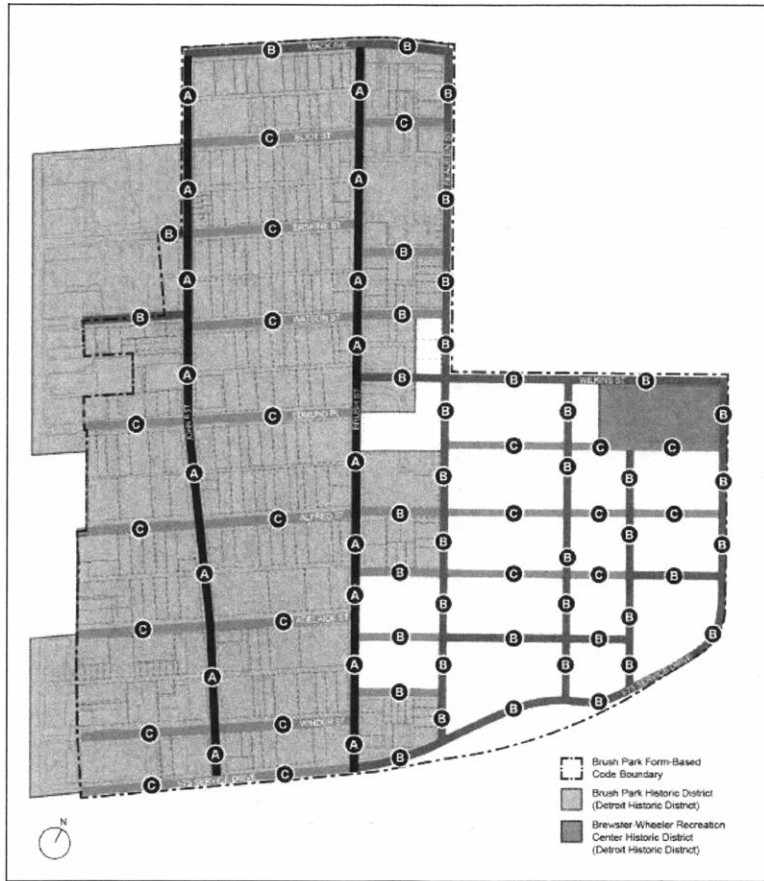

Once a developer applies and meets the provisions of this ordinance, they could then receive administrative approval to pull permits after first engaging the community regarding their project. The developer would have to also seek approval concerning aesthetics from the HDC.

### **Regulating Plan Map**

The regulating plan map will act, in essence, as the new zoning map. Development would be based on the street on which the parcel fronts. "A" streets would allow the most intensive uses and highest densities while "C" streets would be tailored to maintain more residentially scaled development and uses would be less obtrusive. Lastly, "B" streets would fall between the former, with regard to intensity.

MAP "7(a): Street Type Map.

**The Civic Space Map**

The civic space map essentially zones park/open space so that development pressures do not supersede the intent for parks to be expanded or new parks to be installed. In this map, the civic spaces could not be used for any other purpose. These spaces were based on the projected densities and recommended open space acreage per capita.

In consultation with the Law Department, CPC added a short list of uses that are compatible with, and can be operated in conjunction with the civic space as not to impose a 'takings' on the property owner. The allowable uses for civic spaces are:

- Outdoor recreation facility
- Outdoor art exhibition grounds; sculpture gardens
- Urban garden

• Retail sales incidental and accessory to permissible uses in the civic spaces, such as food service, concession stands and other activities deemed appropriate by the City Planning Commission staff.

**MAP 7(b): Civic Spaces Map.**

**Typologies**

The typologies included in the FBC set dimensional standards for new development or redevelopment in Brush Park. New construction would have to meet the form of these typologies as outlined in Sec. 12 of the ordinance. Standards do not dictate the skin or design of those buildings. The freedom of architectural expression would be left to the architect. However, the design would still have to be approved by the HDC. These typologies have dimensional standards that apply to them as well.

The way in which these standards are laid out helps developers and community members to understand what is permitted to be built in the neighborhood. As opposed to typical zoning ordinance textual description, the FBC visually demonstrates what a structure might look like in form and massing. It also succinctly lists standards in an easy-to-read format.

Lastly, while the form of buildings is the foundational principle in form-based zoning (by emphasizing the massing and placement of buildings over the activities taking place within) it should be noted that the uses within the building are still taken into account, but as a secondary guiding principle. The Brush Park Form-Based Code ordinance incorporates a use table that assigns uses to street types based on the intensity of the use. Since form is now regulated, it is possible to be more liberal in the activities that take place in a building. The thought is that if a building only has a set dimensional capacity, then the permitted uses can be more flexible, because of the capacity limits.

**CONCLUSION**

The proposed FBC ordinance serves to pilot such regulations which have never been done in the City of Detroit. Form-based codes have been instituted in many Michigan cities including: Birmingham, East Lansing, Grandville, Wyoming, Muskegon, Farmington, Jonesville, Marquette, Grand Rapids, and others. Nationally, cities such as Los Angeles, CA and Miami, FL have implemented form-based zoning codes.

The Brush Park form-based PD ordinance is the result of a community effort from the beginning, enhancing and implementing the 4th Modified Development Plan. Over the years, the Brush Park community has expressed sentiments of disenfranchisement, because their community, despite their efforts, was left without updated regulations to govern development. This ordinance will serve to fulfill their request, create more cohesive development, and to alleviate the tensions that can arise when new development comes into the neighborhood and lacks a set of regulations that guide developers to fulfill the community's vision. It will also serve to spur more development, as the studies and work that have gone into this ordinance, have provided the legwork that developers would incur at their own expense, providing the rules for what the community has put forth as their desire.

Lastly, the FBC creates a more equitable development process via the parameters that community have desired through the establishment on the front end, setting the community as the driving force in development. Still, developers now incur less cost to do projects. Many times an extenuated process hurts small developers through additional costs, while giving the edge to the larger developers.

It is understood that City Council will want to keep apprised of what is happening in the Brush Park neighborhood as this is a dynamic area. Since this is a pilot, CPC will keep this Honorable Body updated as to how the ordinance is working for developments, as projects come through the pipeline. It is also reasonable to assume that there may be modification to the PD ordinance that CPC may bring back to the Council, as we see the FBC in operation and attempt to work out the flaws.

As CPC weighed the pros and cons of keeping the district as PD, we recognize the desire for the legislative bodies to remain engaged in this community and its redevelopment. Therefore, we decided to propose the continuance of the PD district so that the CPC and City Council would retain statutory authority.

#### **RECOMMENDATION**

##### **According to Sec 50-3-96 Approval Criteria and 50-11-15 PD Design Criteria**

CPC believes that the proposed rezoning and adoption of the Brush Park Form-Based Code is consistent with the goals and intent of the Planned Development Approval Criteria, Sec. 50-3-96 and the PD design Criteria Sec. 50-11-15 that speaks to conformance with the Master Plan of Policies, Scale Form and Massing, Orientation, Preservation and Restoration and all other applicable criteria. The ordinance will serve to achieve more cohesive development, better housing options, and provide a transparent plan for the community.

At the June 18, 2020 public hearing for this matter, the CPC voted to approve the updated revised iteration of the FBC with the conditions presented by staff.

1. Based on the rationale listed in this report, CPC staff submits this recommendation for approval of the Brush Park Form-Based Code zoning ordinance that includes the following: That staff be allowed to work with the Brush Park community and the Law Department to solidify final provisions of this ordinance and correct any errors that might be found before submitting to City Council for final action.

2. That staff be responsible for providing a periodic update to the Commission on Brush Park activities and the effectiveness of the ordinance after implementation.
