Honorable City Council:  
 Re: Robert Fletcher v. City of Detroit, Wayne County Circuit Court, Case No. 16-003284-NO, File No. L16-00154 (PMC)

On February 23, 2017, a case evaluation panel evaluated the above-captioned lawsuit and awarded Twelve Thousand Five Hundred Dollars (\$12,500.00) in favor of Plaintiff. The parties have until March 23, 2017, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that approval of the settlement is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft payable to Goodman Acker, P.C., and Robert Fletcher in the amount of Twelve Thousand Five Hundred Dollars (\$12,500.00) in full payment for any and all claims which Robert Fletcher may have against the City of Detroit and any City of Detroit employees by reason of

alleged injuries or property damage sustained by Robert Fletcher on or about November 28, 2015, as otherwise set forth in Case No. 16-003284-NO filed in the Wayne County Circuit Court, and that said amount be paid upon receipt of properly executed Releases, Stipulation and Order of Dismissal entered in Case No. 16-003284-NO, and, where it is deemed necessary or desirable by the Law Department, a properly executed Medicare Reporting and Indemnification Affidavit, approved by the Law Department.

### City Planning Commission

March 3, 2017

Honorable City Council:

Re: Request of Olympia Development of Michigan, LLC to amend Article XVII, District Map No. 3 of the Detroit Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code, by showing a B5 (Major Business District) zoning classification where a B4 (General Business District) zoning classification currently exists on certain parcels generally bounded by Woodward Ave., the Fisher Freeway Service Drive, Clifford St., and Henry St. **(RECOMMEND APPROVAL.)**

The City Planning Commission (CPC) has received the above-referenced request of Olympia Development of Michigan, LLC (ODM, on behalf of several affiliates who own the properties in question) to rezone twenty-six parcels bounded by Woodward Ave., the Fisher Freeway Service Drive, the vacated alley first east of Clifford St., and Henry St., as depicted on the map included in the attached public hearing notice. This request is herein reviewed under the approval criteria specified in Division 3 of Article III of the Detroit Zoning Ordinance (Chapter 61 of the 1984 Detroit City Code).

#### PROPOSED DEVELOPMENT

The applicant seeks to develop the subject area with commercial and residential uses of a dense nature and scale consistent with that found elsewhere in the Central Business District as well as with the Detroit Events Center (also known as the Little Caesars Arena, presently under construction) and other proposed developments elsewhere within the Downtown Development Authority's Catalyst Development Area.

#### SURROUNDING LAND USE AND ZONING

To the north: The Detroit Events Center, a Planned Development (PD) District

To the south: The Fisher Freeway, south of which the Central Business District continues with land zoned B5, including surface parking lots and a commercial parking structure

To the east: Brush Park, a Planned Development (PD) District and former urban renewal development plan area containing a mix of predominately residential uses; the Brush Park Historic District

To the west: B4, including small-scale commercial buildings and vacant land vacant residential beyond.

#### PUBLIC HEARING

The City Planning Commission held a statutory public hearing at its October 13, 2016 meeting. During the meeting, the petitioner provided a verbal description of the projected development of the subject property, as well as an update on the status of the arena site immediately north.

While a member of the public, who also sits on the Neighborhood Advisory Committee impaneled for the project, was present, no one spoke in favor or against the rezoning.

#### ANALYSIS

##### *Intensity and Dimensional Standards*

ODM has suggested that the intensity and dimensional standards mandated by the B4 zoning classification (described in Section 61-13-25 of the Zoning Ordinance) would not facilitate the scale of development sought by the applicant. In particular, a maximum height of 35 feet applies to most uses other than multiple-family dwellings in the B4 district, while multiple-family dwellings and several other uses are subject to a 20 foot front setback requirement.

In the B5 district, by contrast, building scale is determined by cubical content standards described in Article XII, Division 1, Subdivision J of the Zoning Ordinance. In most cases, this would allow taller buildings with shallower setbacks than those allowed in the B4 district.

##### *Land Use Considerations*

As with any zoning change, the proposed rezoning from B4 to B5 would change the list of uses allowed on a by-right or conditional basis. The B4 and B5 districts contain similar, but not identical, use lists; the differences between the two are summarized as follows:

The B4 zoning district classification lists 66 uses permitted on a by-right basis and 85 on a conditional basis, a total of 151. The proposed B5 zoning district classification lists 84 by-right uses and 48 conditional uses, a total of 132.

The proposed zoning change would result in the following 23 uses being newly prohibited on the subject area:

- Fraternity or sorority house
- Single-family detached dwelling
- Two-family dwelling
- Bed and breakfast inns
- Amusement parks
- Go-cart tracks
- Miniature golf courses
- Rebound tumbling centers
- Used motor vehicle salesrooms or sales lots
- Motorcycles, retail sales, rental or service
- Pawnshop
- Trailer coaches or boat sale or rental, open air display
- Trailers, utility, or cement mixers, pneumatic-tired, sales, rental, or service; moving truck/trailer rental lots
- Banks with drive-up or drive-through facilities
- Customer service center with drive-up or drive-through facilities
- Financial services center with drive-up or drive-through facilities
- Commercial kennels
- Major motor vehicle services

• Storage lots for used motor vehicles accessory to salesroom or sales lots for used motor vehicles

- Ice manufacture
- Lithographing and sign shops
- Tool, die, and gauge manufacturing
- Marinas

The following 4 uses would be permitted in B5, but are currently prohibited in B4:

- Family day care home
- Newspaper (daily) publishing or printing
- Heliports
- Passenger transportation terminals

A number of other, more intensive, uses, conditional in B4, are allowed on a by-right basis in B5. A complete comparison of uses allowed on a conditional or by-right basis in the B4 and B5 districts is included in Article XII, Division 1, of the Zoning Ordinance.

In general, the CPC finds that the property proposed to be rezoned to B5 is suitable for the menu of uses permitted in the proposed B5 District.

Given the vacant status of the land, no nonconforming uses would be created.

**Approval Criteria**

Of the eight rezoning criteria specified in Sec. 61-3-80 of the Zoning Ordinance, the CPC suggests that numbers 2, 6, and 7 are particularly relevant to the proposed rezoning:

(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

**MASTER PLAN**

The City of Detroit *Master Plan of Policies* presently shows the area as MRC (Mixed Residential-Commercial). A proposed Master Plan amendment, designating the area as CS (Special Commercial) has previously been reviewed by the CPC with a recommendation of approval; this proposal has yet to be introduced to the City Council for action.

At the October 13, 2016, CPC meeting, the Planning and Development Department provided a favorable review of the proposed rezoning.

**CONCLUSIONS AND RECOMMENDATION**

The proposed amendment is consistent with both the current and the proposed *Master Plan* land use designations. As with similar circumstances elsewhere the B5 uses and dimensional provisions are dominant in the CBD and complementary to sports and entertainment facilities. With the 2016 expansion of the CBD boundaries to include the subject properties and the Detroit Events Center to the north, the B5 is certainly appropriate for this site. The CPC finds

the proposed rezoning to B5 to be consistent with the approval criteria.

The City Planning Commission having completed its review and processing of the requested rezoning recommends approval.

### Planning and Development Department

February 28, 2017

Honorable City Council:

Re: A resolution to amend the Detroit Master Plan of Policies to include a zoning table that relates zoning with the Future Land Use map from the Master Plan (Master Plan Change #15)

Pursuant to the City of Detroit's City Charter (Section 8-102), the Planning and Development Department (P&DD) has submitted for your consideration and action a proposed Amendment to the Detroit Master Plan of Policies. Approved by your body and subsequent adoption by City Council of this resolution would accommodate changes in the Master Plan of Policies that would create a zoning table that would equate each future land use designation from the Master Plan with a corresponding zoning classification from the Detroit Zoning Ordinance.

#### Test Proposal

##### Proposed amendment to text:

As per the City's Master Plan of Policies (page 8): "The Master Plan of Policies Future General Land Use map is a long range policy guide for the physical arrangement and appearance of the City. The Zoning Ordinance more specifically regulates the manner in which individual properties are used. The Zoning Ordinance is only one of a number of tools use to implement the Master Plan of Policies."

As per Sec. 33, item 2d of the State of Michigan's Municipal Planning Enabling Act (Act 33 of 2008), the Master Plan shall include "...an explanation of how the land use categories on the future general land use map relate to the districts on the zoning map."

This proposed Master Plan amendment would introduce a zoning table that would outline the relationship between the future land use designations of the Master Plan and the zoning classifications of the Zoning Ordinance. As per the attached

amendment, please note that the Future General Land Use categories in the MasterPlan of Policies "...are description of general development recognizing that some intermixtures are permissible or desirable."

**Recommended Master Plan Amendment**

The Planning and Development Department requests this proposed amendment to the Master Plan of Policies to add a zoning table relating all Master Plan future land use designations with corresponding zoning classifications from the Zoning Ordinance.

Respectfully submitted,  
MAURICE COX  
Director

Planning and Development Dept.

**DETROIT MASTER PLAN OF POLICIES MASTER PLAN CHANGE # FIFTEEN**

**A Resolution to Amend the Detroit Master Plan of Policies to Include a Zoning Table to Relate Zoning with the Future Land Use Map from the Master Plan**

By Council Member Leland:

Whereas, The Detroit Master Plan of Policies, adopted July 28, 2009, consists of policies and methods for improving the City of Detroit as a place for people to live and work based upon their needs and desires; and

Whereas, The Detroit Master Plan of Policies is approved and adopted as a major reference for evaluating proposed development activities and/or action pro-

grams such as neighborhood plans, urban renewal plans, zoning amendments, property acquisition or disposition, and construction of public or private facilities; and

Whereas, The Detroit Master Plan of Policies is continuously studied and amended as needed to reflect the desires of residents, businesses, and industries of the City of Detroit; and

Whereas, the Planning & Development Department requests that the Introduction section of the Master Plan of Policies be amended to include a zoning table that will outline the relationship between the land use designations of the Master Plan and the zoning classifications of the Zoning Ordinance; and

Whereas, the proposed zoning table will allow the Master Plan to be more readily equated with the Zoning Ordinance for the convenience of all potential users of both documents; and

Whereas, the proposed Amendment will add language to the Introduction section of the Master Plan to describe the proposed new table and the purpose for its inclusion;

Now, Therefore, Be It Resolved, The Detroit Master Plan of Policies is amended as follows:

1. A new zoning table to be added to the Introduction section of the Master Plan of Policies, outlining the relationship between each of the future land use designations from the Master Plan and the corresponding zoning classifications from the City of Detroit Zoning Ordinance.

Re: Amendment to Sales Resolution Surplus Property Sale: 19422 Hull

We, therefore, request that your Honorable Body adopt the attached resolution, authorizing an amendment to the sales resolution due to the condition of the property, to reflect an adjustment in the sales price from \$4,200 to \$1,500.

Re: Petition No. 1203 — Wayside Missionary Baptist Church request to erect a structural buffer/barrier to ensure the safety of the church members and property.

Petition No. 1203 — Wayside Missionary Baptist Church request for an encroachment with a fence and bollards. The fence is on the south side of East Warren Avenue, 60 feet wide between Crane Avenue, 60 feet wide and Rohns Avenue, 66 feet wide; also on the west side of Rohns Avenue, between East Forest Avenue, 70 feet wide and East Warren Avenue. The Bollards are to be installed on the west side of Rohns Avenue, between East Forest Avenue and East Warren Avenue.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made to provide security for the church members and the church parking lot.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW.

Detroit Water and Sewerage Department (DWSD) reports being involved, but has no objection provided the DWSD encroachment provisions are followed provisions have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Department and Public Lighting Authority; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

**RESOLUTION URGING THE ADMINISTRATION TO RE-ESTABLISH THE SENIOR CITIZEN DEPARTMENT**

Whereas, The U.S. Census has estimated the population of the City of Detroit in 2015 at 677,116 of which an estimated 10.4% are 65 or older constituting approximately 70,420 of its residents; and

Whereas, A 2012 study conducted by the Detroit Area on Aging, the Detroit Medical Center and Wayne State University revealed dramatically higher rates of mortality for adults age 50 to 74 in Detroit compared to residents age 50 to 74 in the rest of Michigan and that rate of hospitalization of Detroit seniors age 75 and older is double that of seniors in the same age in the rest of Michigan; and

Whereas, The 2012 study found that those age 50 to 59 and older adults aged 60 to 74 who live in the Detroit area have a significantly higher mortality rate, are getting sicker at a younger age, require more hospitalization, suffer from more chronic illnesses; and

Whereas, This Honorable Body has received a number of complaints and concerns from seniors who reside in low income housing throughout the City many of which lack basic sanitation, general cleanliness within and without the facilities, the failure of general maintenance, poor management and affordability of facilities available and the displacement of seniors from viable facilities; and

Whereas, The City currently address these concerns and issues but are dispersed within separate departments, however given the unique set of concerns that seniors face should require the focused effort of a stand-alone Department devoted to senior citizens within the City; and

Whereas, In 2004, the City of Detroit through its Senior Citizen Department worked as an advocate for seniors through planning and research as well as monitoring and coordinating the efforts of other departments in providing indirect as well as direct service to seniors including, but not limited to the areas of information to caregivers about various programs, education on stress and coping, guardianship adult protection and more concerning caregivers, and was eliminated under financial restructuring by a previous administration; and

Whereas, The re-establishment of a Senior Citizen Department would be instrumental in addressing those areas of needs that are unique to senior citizens including but not limited to the rate of hospitalization of Detroit seniors age 75 and older; the significantly higher mortality rate of seniors; physical, mental, and emotional abuse by caregivers and relatives; and making sure that senior residential buildings are in full compliance with federal, state and local laws; Be It Therefore

Resolved, That Administration commit to addressing the unique concerns of its senior residents by re-establishing the Senior Citizen Department to monitor and coordinate the efforts of other departments in providing indirect as well as direct service to seniors including but not limited to the poor living conditions many of them are forced to endure residing in the many senior citizen buildings as well as concentrating on the chronic illnesses and high mortality rate that afflict the senior community; and Be It Further

Resolved, That a copy of this resolution be forwarded by the City Clerk to Mayor Mike Duggan for implementation by his Administration.

**RESOLUTION IN SUPPORT OF DAVIS AEROSPACE TECHNICAL HIGH SCHOOL RETURNING TO THE DETROIT CITY AIRPORT**

By Council President Pro Tem Cushingberry, Jr.:

Whereas, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

Whereas, Davis Aerospace Technical High School, initially opened in 1943 as an aviation maintenance school. In 1986, the Benjamin O. Davis, Jr. Aerospace Technical High School started offering students the opportunity to learn how to fly at the Detroit City Airport. The school

was named after Benjamin O. Davis, Jr., an Air Force general and commander with the Tuskegee Airmen in World War II. Davis was the first African American general in the United States Air Force; and

Whereas, Davis Aerospace Technical High School offered a certificated Federal Aviation Administration (FAA) curriculum, where students learned about aviation airframe, airplane engines, welding and aircraft assembly, avionics, computer-aided drafting and flight training at a location at the Detroit City Airport. However, in one of a series of ill-conceived and myopic moves, the State appointed Emergency Manager of the Detroit Public Schools announced in April 2013, he would close the Davis Aerospace Technical High School at the Coleman A. Young Detroit City Airport as a cost cutting move; and

Whereas, The mission of Davis Aerospace is to ensure that graduates experience success and are academically and technically prepared with 21st century skills. Prior to the closing of the City Airport location, the students of Davis High learned on site at the Coleman A. Young Detroit City Airport. The Davis students were afforded the invaluable opportunity to learn hands-on at a fully operational airport and were guided and mentored by the venerable members of the Detroit Chapter of the Tuskegee Airmen, and Delta Airlines; and

Whereas, In the fall of 2013, the Davis High City Airport location was closed and the program was relocated to the Golightly Career and Technical Center as a high school within Golightly, which marginalized Davis High and curtailed the opportunity to link Detroit's youth the incredible legacy of achievement and opportunity in the field of aviation; and

Whereas, Over the years, thousands of Davis' alumni have established successful careers in the fields of aviation, engineering and aerospace. The Davis students were provided a level of technical expertise, mentorship and resources that was unparalleled throughout the state and arguably anywhere else in the country on a high school level; and

Whereas, The skills learned at Davis, contrary to many other high schools, have prepared students for higher levels of learning, which lead to higher paying, secure jobs. Davis High students were trained for jobs that are expanding in the 21st century economy, with higher levels of pay and not for jobs that are prone to unpredictable droughts of unemployment; and

Whereas, The request to reopen Davis at the City Airport, is also a request to transform lives in the city of Detroit, in order to facilitate a greater number of the youth to make a substantial contribution

to the economy of Detroit, the state of Michigan and society as a whole; and

Whereas, The Governor and the State legislature have indicated a commitment to the revitalization of Detroit and its youth. Hopefully, there is also commitment to continue to erase the number of errors that have been made in the area of education in the city of Detroit, which included the closing of the Davis Aerospace Technical High School Detroit City Airport location. The aspiring aviation career oriented youth of Detroit truly deserve an equal opportunity to a first class education at a school of Davis' caliber and value on the grounds of the Detroit City Airport. Given the fact that the State appointed Emergency Manager closed this location, it is beholden on the State to correct this wrong and to finance the reestablishment of the Davis Aerospace Technical High School Detroit City Airport location; Now Therefore Be It

Resolved, That the Detroit City Council strongly urges the Administration to coordinate its efforts with the Detroit Public Schools, to assist in establishing a plan for the Governor and the State Legislature, to finance the reopening the Benjamin O. Davis Aerospace Technical High School on the grounds of the Detroit City Airport; and Be It Finally

Resolved, That a copy of this resolution be forwarded to the Mayor of the City of Detroit, the Board of the Detroit Public Schools Community District (DPSCD), the City of Detroit's Lansing Lobbyist, the Detroit Delegation in the State Senate and State House, the Senate Committee on Education, the House Committee on Education, the Michigan Senate, the Michigan State House, and the Governor.

**Office of the Chief Financial Officer Grants Management**

February 22, 2017

Honorable City Council:

Re: Request to Accept and Appropriate FY 2017 Financially Distressed Cities, Villages, and Townships (FDCVT) Grant Program

The Michigan, Department of Treasury – Office of Revenue and Tax Analysis has awarded the City of Detroit Fire Department with the FY 2017 Financially Distressed Cities, Villages, and Townships Grant for a total of \$795,872.00. There is no match required.

The objective of the grant is to improve the capabilities of Detroit to continue in the Automatic Mutual Aid pact by giving our local jurisdiction the ability to effectively coordinate communications, resources, and services during an emergency. The funding allotted to the department will be utilized to purchase 176 portable radios. This is a reimbursement grant.

If approval is granted to accept and appropriate this funding, the appropriation number is 20386.

I respectfully ask your approval to accept and appropriate funding in accordance with the attached resolution.

Sincerely,

NICHELLE HUGHLEY

Deputy CFO

Office of Grants Management

**RESOLUTION**

By Council Member Cushingberry, Jr.:

Whereas, The Detroit Fire Department is requesting authorization to accept a grant of reimbursement from The State of Michigan, Department of Treasury – Office of Revenue and Tax Analysis in the amount of \$795,872.00 to purchase 176 portable radios,

Therefore, Be It Resolved, That the Director or Head of the Department is authorized to execute the grant agreement on behalf of the City of Detroit, and

Be It Further Resolved, that the Budget Director is authorized to establish Appropriation number 20386 in the amount of \$795,872.00 from the State of Michigan Department of Treasury – Office of Revenue and Tax Analysis for the purpose of improving the capabilities of Detroit to continue in the Automatic Mutual Aid pact by giving our local jurisdiction the ability to effectively coordinate communications, resources, and services during an emergency..

**RESOLUTION TO SUPPORT RESTORATION OF GREAT LAKES PROTECTION FUNDS IN THE FEDERAL BUDGET**

By Council Member Cushingberry, Jr.:

Whereas, Recently leaked Trump Administration budget numbers telegraphed steep cuts of up to 97 percent for core Great Lakes programs, such as the Great Lakes Restoration Initiative; and

Whereas, Trump Administration executive orders and budget modifications intended to roll back clean water protections, and threats to cut Great Lakes programs and the budgets of federal agencies that administer those programs are, to say the least, incredibly shortsighted government policies, and moreover they make no economic, environmental or public health sense; and

Whereas, Robust funding for core Great Lakes restoration programs must be accompanied by adequate support for environmental regulatory agencies that protect the Great Lakes; both investments are critical to tens of millions of people who depend on their Great Lakes for their drinking water, jobs, and way of life; and

Whereas, Since 2010, the federal government has invested more than \$2.2 billion to clean up toxic pollution, restore wildlife habitat, control invasive species, and prevent polluted runoff from entering the Great Lakes; more than 3,800 miles of

river habitat have been opened up to fish through dam removals, and 150,000 acres of fish and wildlife habitat have been restored. All this progress is threatened by budget cuts that would seriously undermine quality of life throughout the Great Lakes bioregion; and

Whereas, In addition to advocating for the Great Lakes Restoration Initiative, Congress should adequately fund the Clean Water and Drinking Water State Revolving Funds that provide low-interest loans to help communities pay for expensive infrastructure improvement projects; more than \$192 billion is needed over the next 20 years, according to the EPA, to update the drinking water and waste water infrastructure in the Great Lakes states; and

Now, Therefore, Be It Resolved That Detroit City Council strongly opposes the extreme cuts to federal government Great Lakes water protection programs, and vigorously urges restoration of full funding for the Great Lakes Restoration Initiative, the Clean Water and Drinking Water and Drinking Water State Revolving Funds, and other Great Lakes preservation and enhancement efforts; and

Be It Further Resolved That the City Clerk be directed to send copies of this resolution to President Donald Trump, Secretary of State Rex Tillerson, EPQA Director Scott Pruitt, Michigan Governor Rick Snyder, Detroit Mayor Mike Duggan, Detroit/Michigan Congressional delegation, and the Detroit caucus of the Michigan Legislature.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Cushingberry, Jr., Leland, Sheffield, Spivey, Tate and President Jones — 9.

Nays — None.

Department of Transportation. File #: 14705 and WCCCN 13-008555-NI (PSB).

On March 7, 2017, your Honorable Body adopted a resolution authorizing payment of \$45,000.00 to settle the workers compensation claim of Randolph Skillman. RE: Administration's initiative to collect unpaid property taxes on foreclosed properties from the former property owner – continuation of prior lawsuit settlement authority.

RESOLVED, The law department shall

continue to have the following settlement authority for lawsuits filed in connection with the administration's efforts to hold prior owners of foreclosed properties personally liable for back taxes:

- Law department need not seek prior City Council approval to settle lawsuits if (i) the amount of City tax at issue is \$50,000 or less, or (ii) the settlement provides for collection of at least 50% of city tax at issue. Therefore, prior settlement authority would be needed only if the amount of City tax at issue is more than \$50,000 and the settlement results in collection of less than 50% of the city tax at issue.

March 8, 2017

Honorable City Council:

Re: Approval to Accept \$1.3 Million Dollar Settlement from Garfield Section 108 Loan Payment and to pay future 108 Loan Defeasance

The City of Detroit Housing and Revitalization Department (H&RD) requests two actions of the Council:

1) First, acceptance of \$1.3 million dollars in payments to the City by Section 108 Loan Repayment for the Garfield Building. The payment must be recorded as CDBG Program Income.

2) The City plans to use these funds in a process called 'Defeasance'. The City will give 1.3 million dollars to a defeasance agent who will pay Section 108 payments during the coming fiscal year, meaning the City can avoid budgeting that funding in the next fiscal year. This defeasance of Section 108 notes will create new CDBG budget authority in future fiscal years.

Pursuant to discussions with the U.S. Department of Housing & Urban Development (HUD) field office in Detroit and Headquarters, the Department must send these dollars to a defeasance agent. The defeasance agent will hold these dollars and spend them to retire bi-annual loan payments until the \$1.3 million dollars are exhausted. This will allow the City to free up budget authority in future fiscal years. Please be advised that HUD requires that Section 108 settlement payments must be applied to loan obligations.

The Housing & Revitalization Department respectfully requests your Honorable Body's approval of the attached resolution with a Waiver of Reconsideration.

**TESTIMONIAL RESOLUTION  
FOR  
UNITED CHRISTIAN CHURCH  
80th Year Anniversary**

By Council President Jones:

WHEREAS, It is with great pleasure and privilege that we, the members of the Detroit City Council, acknowledge United Christian Church in observance of their 80th Anniversary; and

WHEREAS, On Sunday, October 4, 1936, a dedicated young minister, Dr. Robert L. Jordan Sr., gathered with Mrs. Mamie Curtis, Mr. & Mrs. Herman Turner, Mr. and Mrs. George Saunders and Mr. & Mrs. Owen Burbridge to explore the pos-

sibility of establishing a Christian Church (Disciples of Christ) in Detroit, Michigan. Within four months, thirty-five new members were added, bringing the charter membership roll to forty-three. On Sunday, February 28, 1937 in a rented building located at 5358 Lovett Street, this group known as the Lovett Street Christian Church, was organized as a permanent church body. In February 1938, the first anniversary celebration was held; and

WHEREAS, In January 1939, the congregation felt the need to acquire a church building. A house located at 5631 Thirtieth Street was purchased. The structure was refurbished and became a cozy church with a warm, friendly atmosphere. Before moving into the building, the congregation changed its name to United Christian Church (Disciples of Christ). By the fall of 1946, it was evident that the little "house" church was no longer adequate for the growing congregation. A new worship facility was purchased on Sixteenth Street and West Forest. In an impressive ceremony, on January 19, 1947, the congregation entered into their new church edifice. The membership had grown until it exceeded six hundred members. Dr. Jordan retired in 1973. In 1974, Rev. LaMar Clark was called to the pastorate and installed as the Senior Pastor. In May 1984, the congregation voted to relocate and purchased the building at 19150 West Chicago Road, where the church is currently located. The United congregation marched into the new church on September 16, 1984. The mortgage was paid in full on March 23, 1994. Rev. Clark served until 1992. United Christian Church was without a Senior Pastor for three years. In July 1995, the call went forth for a new Senior Pastor. the Rev. Dr. Jack Sullivan Jr. answered the call and began his ministry with United Christian Church on November 1, 1995; he served until May of 1998. In September of 1998, Rev. Robert Brown was chosen as the Interim Pastor and served until April of 2000. The call to serve was extended again and Rev. Rufus Lewis Jr. of Birmingham, Alabama accepted. He joined the congregation on April 16, 2000 and led the church for ten years, retiring in 2010; and

WHEREAS, Reverend Gregory Emmanuel Bryant answered the call to serve as Interim Pastor on July 3, 2011. During his tenure as Interim Pastor, the congregation did much planning, praying and preparation in efforts to discern a new vision for the ministry which would center on five New Testament Pillars – Worship, Evangelism, Outreach Fellowship and Discipleship. On August 12, 2012, Rev. Bryant became the fifth Senior Pastor. Under this leadership, the membership of United Christian Church is steadily

increasing and the congregation is experiencing enormous spiritual growth. Rev. Bryant has a particular desire to see God's resurrection power at work through the church to transform struggling African American communities into places of salvation and beloved community. His conviction is that, by God's grace and anointing, United Christian Church will be one of the key places Detroit, where people truly encounter God and their brothers and sisters in Christ, in God's "village." Rev. Bryant is the proud husband of Crystal Bryant. They have been blessed with three wonderful children: Gregory, Isaiah and Christiana. Now, Therefore Be It

Resolved, That the Detroit City Council and office of Council President Brenda Jones congratulates United Christian Church on this special celebration commemorating its 80th Anniversary.

Re: Hector L. Medina and Alicia Medina vs. City of Detroit et. al. Case No. 15-12121 USDC. File No.: L15-00494 (MMM).

On September 13, 2016, this Honorable Body approved settlement of above-captioned lawsuit in the total amount of Nine Hundred Twenty Five Thousand Dollars and No Cents (\$925,000.00). March 20, 2017

Honorable City Council:

Re: Request to consider a text amendment to the 1984 Detroit City Code, Chapter 61, Zoning, to amend the SD1 - Special Development District - Small Scale, Mixed-Use and the SD2 -Special Development District - Mixed-Use, zoning classifications. (RECOMMEND APPROVAL).

On April 19, 2016, the Detroit City Council, by resolution, directed the City Planning Commission to research and propose a text amendment to the SD1: Special Development District, Small-Scale Mixed-Use and SD2: Special Development District, Mixed-Use zoning district classifications to “consider, among other issues, greater inclusion of social service-related uses” within these zoning districts. In response to this direction, this report discusses a number of changes recommended by the City Planning Commission. These proposed changes are based upon specific recommendations by CPC staff, described in reports dated July 19, 2016 and November 1, 2016, and further refined in discussion with the CPC at its July 21, 2016, and November 3, 2016 meetings.

A draft ordinance, approved as to form by the Law Department, is attached.

**BACKGROUND**

The present iteration of the SD1 and SD2 zoning classifications was created by the Honorable City Council by Ordinance No. 23-14, effective July 24, 2014. In the years since, the SD1 and SD2 zoning classifications have proved quite popular, a good percentage of rezonings that have recently been approved by the City Planning Commission and City Council involve the SD1 and/or SD2 districts, including the rezoning of a 126-acre section of the area commonly referred to as Midtown (historically known as the Cass Corridor).

As described in the July 15, 2015 staff report to the City Planning Commission, the resulting expansion of the SD1 and SD2 zoning districts has led to concerns that certain necessary or desirable uses not permitted in SD1 and SD2 are consequently being excluded from areas of the city presently in a state of growth or transition in land use. According to the report, . . . [I]t seems that when the revised SD1 and SD2 zoning classifications were approved by City Council in 2014 (having been envisioned as early as 1999) they may not have been intended for such a broad geographic area. to an extent, the revised classifications were inspired by the Gateway Radial Thoroughfare overlay guidelines are designed for use in Traditional Main Street areas,<sup>2</sup> and were not intended to exclude certain uses from a wider area.

Concern about the exclusion of certain uses, especially “social service” related uses, has been expressed by members of the public at public hearings before the City Planning Commission and the City Council regarding a 2015 rezoning proposal by Midtown Detroit, Inc. and by several members of the City Planning Commission at its July 2, 2015 meeting, and by the City Council via its aforementioned resolution.

As “social services” is not defined in either the Zoning Ordinance or the April 19th resolution, staff has elected to define the term broadly to include any land use that may serve, house, or otherwise cater to individual people or classes of people who may be underprivileged, marginalized, or otherwise at-risk or particularly vulnerable. This includes, not only people experiencing homelessness, substance abuse issues, or mental illness, but also low-income people, children, and elderly, and people with disabilities.

**ANALYSIS OF PROPOSED TEXT AMENDMENT**

The City Planning Commission presents, for consideration, the changes discussed below. In addition to visiting the issue of “social service-related uses,” we also take the opportunity to highlight several other amendments which we believe warrant consideration. We conclude that all of the land uses included by this text amendment are appropriate and desirable within SD1 and SD2 zoning classifications.

Some uses, because of the nature of their typical required building form, are made conditional. In the SD1 and SD2 zoning classifications, it is essential to encourage and in some capacity require building form to be compatible with pedestrian activity. The form, fenestration, building footprint, traffic, height, and other dimensional qualities strongly contribute to the viability of the district reaching its intended goals.

Additionally, we propose amendment to the summary descriptions of the SD1 and

SD2 classifications (Section 16-11-161 and 61-11-181, respectively) to better reflect the spirit and intents of these zoning district classifications, and to emphasize the implicit “small-scale . . . neighborhood setting” character of SD1, contrasted with the “more intensive” SD2.

Finally, we have discovered an apparent typographical error in the use table (section 61-12-51), which would be corrected by the proposed text amendment.

Thirteen specific uses proposed for amendment are as follows:

**Adult day care center**

As a social service use, we recommend this be permitted on a by-right basis in SD1 and SD2.

**Adult foster care facility**

We recommend this use (sometimes known as “a home for the aged”) be conditional in SD2, due to the larger scale by which these uses are often characterized.

According to Section 61-16-32 of the Zoning Ordinance, an adult foster care facility (AFC), by definition, serve seven or more clients with full-time residence and care (state-licensed residential facilities for six or fewer persons, sometimes known as “group homes”, are viewed as single-family dwellings for zoning purposes<sup>3</sup>). State-licensed residential facilities (group homes) are allowed on all residentially zoned districts (per the Zoning Enabling Act) because they are viewed as a family type use due to the small number of persons allowed. Adult foster care facilities are presently allowed conditionally in R3, R4, R5 and R6; it is also a by right use in B1 and B2 but not permitted in other business zoning classifications. In two recent, “Midtown rezonings,” SD2 was primarily designated for the more intensive thoroughfares and SD1 for streets of a residential character. Based on this rationale, the thought is that, since state-licensed residential facilities/group homes (those with six (6) or fewer persons) are permissible in low-intensity residential settings currently, that it would be more appropriate if AFCs be allowed conditionally in the SD2 district, coinciding with the higher intensive nature of the district for residential and commercial development. This conclusion is also based on the findings that the City of Detroit is already abundant in state-licensed residential facilities citywide, eliminating the question of opportunity for this population.

We also note that adult foster care facilities are regulated by a 3,000 foot spacing requirement to prohibit them from proliferating in one particular area.

**Assisted living facility**

We recommend this as a by-right use in SD1 and SD2, allowing residents of mixed-use districts to “age in place” while also providing employment opportunities.

**Automated teller machine with drive-up or drive-through facilities**

This use is erroneously shown in use

table (Section 61-12-51) as by-right in SD2; this should be corrected so that is shown as prohibited.

**Boarding school and dormitory**

As schools that do not feature a boarding aspect are already permitted, we recommend this use be allowed on a by-right basis in both SD1 and SD2.

**Business college or trade school**

We recommend this as a conditional use only in SD2.

**Child caring institution**

We recommend this as a conditional use in SD1, noting that it is compatible in a neighborhood setting.

**Emergency shelter**

As this is a more intensive social service use, we recommend it as a conditional use only in SD2.

**Governmental service agency**

We note that the Zoning Ordinance definition for this land use specifically mentions “other social services” (Section 61-16-92) and recommend this use be conditional in SD2.

**Marina**

This use is presently allowed on a by-right basis in SD1, but we are concerned that it may be too intensive for a neighborhood setting. We recommend it be conditional in SD1 as well as SD2.

**Residential substance abuse service facility**

As this provides social services typically in a neighborhood setting, we recommend that it is appropriate as a conditional use in SD1. We also note that residential substance abuse service facilities are conditional in B1, B2, B3, B4 and B5, suggesting that this use is compatible with larger scale commercial areas; consequently, we recommend it as conditional in SD2 as well.

**School building adaptive uses — retail, service and commercial**

In keeping with the mixed-use spirit of the SD2 zoning classification, we recommend this be allowed on a conditional basis.

**Two-family dwelling**

We suggest this be conditional in SD1 for the sake of consistency, as single-family dwelling and town house are presently allowed conditionally and multiple family dwelling is allowed by-right.

**APPROVAL CRITERIA**

Section 61-3-59 states that recommendations on all proposed Zoning Ordinance text amendments be based on the following criteria:

1. *Whether the proposed amendment is consistent with the stated purposes of this Zoning Ordinance.* This text amendment will include additional land uses that are appropriate for the SD1 and SD2 districts now that the zoning classifications have been applied to larger areas, satisfying the following purposes and intents listed in Section 61-1-5:

(1) Classify all land in such manner as

to reflect its peculiar suitability for particular uses;

- (2) Regulate the location, construction, reconstruction, alteration and use of buildings, structures and land<sup>1</sup>
- (8) Establish reasonable standards to which buildings, structures and uses shall conform;
- (12) Promote a desirable visual environment through creative development techniques and good civic design and arrangement;

2. *Whether the proposed amendment will protect the health, safety or general welfare of the public.* The proposed amendment will add to the welfare of the general public by being more inclusive of social services. This action will ensure that more segments of the population are able to participate in and benefit from the mixed-use areas that are developing within the city.

3. *Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact.* The proposed amendment meets the challenge of a changing condition in that it amends the SD1 and SD2 districts as they have evolved and been applied in broader geographic areas than was originally envisioned. This amendment will allow for more land uses to be allowed in the district as not to prohibit any developer or would-be occupant unfairly. As stated above it also corrects an error in the use table.

Additionally, we feel that the proposed text amendment is in keeping with Section 61-3-60, which states that recommendation of a text amendment that adds additional land uses shall be based on whether the proposed land use may or may not be addressed in another, more appropriate fashion.

**CONCLUSION AND OTHER CONSIDERATIONS**

As we stated previously in this report, the SD1 and SD2 classifications have garnered much interest from the development community. We anticipate more rezoning requests to SD1 and SD2 in the near future. In response to trends in mixed-use development, the CPC and its staff are currently considering other zoning classifications such as the B2 (Local Business and Residential District) and B4 (General Business District) for possible text amendments pertaining to mixed-use development.

Additionally, CPC staff is also contemplating amendments that will address dimensional standards such as heights, setbacks, and parking for SD1 and SD2. Those proposals will likely be recommended in the forthcoming Fifth General Text Amendment<sup>4</sup>.

Finally, an additional provision should be considered for modification. Section 61-4-92 identifies and limits the types of

dimensional variances the Board of Zoning Appeals (BZA) can authorize. The Zoning ordinance does not allow the BZA to consider variances in the actual use lists for the 29 zoning district classifications — Articles VIII, IX, X and XI. However, some of the use specifications, particularly in SD1 and SD2, contain maximum permissible sizes for uses. In some instances those dimensional specifications are reiterated in Article XII. A clarifying statement in Section 61-4-92 would be appropriate prohibiting BZA consideration of variances of the size of uses where those dimensions are recited in the zoning district use list.

**RECOMMENDATION**

The proposed text amendment appears to meet the approval criteria described in Section 61-3-59 and Section 61-3-60 of the Zoning Ordinance. On November 3, 2016, the City Planning Commission recommended approval of this text amendment and presents it along with this report for your Honorable Body's consideration.

**CHAPTER 61. ZONING.**

**ARTICLE XI.**

**SPECIAL PURPOSE ZONING**

**DISTRICTS AND OVERLAY AREAS**

**DIVISION 9. SD1 – SPECIAL DEVELOPMENT DISTRICT – SMALL-SCALE, MIXED-USE**

**Sec. 61-11-161. Description.**

~~The This SD1 District is designed to encourage a complementary mixture of small-scale pedestrian and transit-oriented uses including residential, local business, and office uses that are compatible in a neighborhood setting. This zone will serve surrounding residential areas with day to day consumer goods and services. It is the purpose of these regulations to encourage mixed use developments that are compatible with the surrounding area and promote pedestrian activity. Since thresholds listed in this Division are provided for convenience and also appear in Article XII, they may be appealed to the Board of Zoning Appeals. It is intended to ensure a neighborhood character and place a proper balance of activities within walking distance of one another while serving the day-to-day needs of residents. Parking requirements are reduced in certain circumstances to promote use of transit and non-motorized transportation; shared parking and a district approach to parking are encouraged to lessen demand for off-street parking spaces. Certain establishments that serve alcohol for consumption on the premises are permitted without a spacing requirement in order to attract increased pedestrian traffic to the area.~~

**City Planning Commission**

March 24, 2017

Honorable City Council:

Re: The requests of (3) three separate petitioners (the Detroit Catholic Pastoral Alliance, Giffels Webster, on behalf of Baltimore Station, LLC, and the Town Partners) for the rezoning of separate properties for which each has legal interests and also to consider the request of the City Planning Commission as co-petitioner for a broader area inclusive of the three petitioners properties to amend Map No. 8 of Chapter 61, Article XVII of the 1984 Detroit City Code, Zoning, to approve a rezoning from the B4 (General Business District), P1, M3 and M4 zoning classifications to an SD2 (Special Development District, Mixed Use) zoning classification for land generally bounded by East Grand Boulevard on the north, Hastings Street on the east, the Michigan Consolidated railroad tracks on the south and the north/south alley first east of Woodward (excluding the B4 property at the southwest corner of East Grand Boulevard and John R) on the west (RECOMMEND APPROVAL)

**NATURE OF REQUEST**

Before this Honorable Body is the request of three (3) separate petitioners to rezone specific properties within the area commonly known as Milwaukee Junction, from their current zoning classifications to an SD2 (Special Development District, Mixed Use) zoning classification.

In addition to those three (3) petitions is the request of the City Planning Commission (CPC) to rezone a larger swath of land within the area commonly referred to as Milwaukee Junction and more specifically outlined in attachment A.

**PROPOSAL**

There are three (3) separate petitioners all requesting a rezoning to an SD2 zoning classification. In addition, the City Planning which is co-petitioning for a rezoning to the SD2 zoning classification as well. The specific requests and proposed developments, are as follows:

- 1. The Detroit Catholic Pastoral

Alliance is requesting a rezoning from an M3 (General Industrial District) to an SD2 zoning classification for the property commonly known as 249 E. Baltimore and 232 E. Milwaukee. The petitioner is proposing to rezone the aforementioned property in order to develop a four (4)-story mixed-use residential/commercial building to allow for multiple-family dwelling units with ground floor commercial space.

2. Giffels Webster, on behalf of Baltimore Station, LLC is requesting a rezoning from a P1 (Open Parking District) and M4 (Intensive Industrial District) to an SD2 zoning classification for the property commonly known as 66 E. Baltimore Avenue and the easternmost (135 feet, approximately) of 6370 Woodward Avenue. The petitioner is proposing to develop a five (5) story, mixed-use residential/commercial building to allow for multiple-family dwelling units with ground floor commercial space.

3. Town Partners is requesting a rezoning from an M3 to a B4 or SD2 zoning classification for the properties commonly known as 2871 and 2881 East Grand Boulevard. The petitioner is proposing to rezone the subject properties in order to develop mixed-use residential lofts with ground floor commercial space.

4. Lastly, in light of the above, the City Planning Commission is requesting a rezoning from the B4 (General Business District), M3 and M4 zoning classification to an SD2 zoning classification for the property generally bounded by East Grand Boulevard on the north, Hastings Street on the east, the Michigan Consolidated railroad tracks on the south and the north/south alley first east of Woodward, but excluding the B4 property at the southwest corner of East Grand Boulevard and John R. This rezoning is being requested in order to fulfill the City's Master Plan of Policies as it concerns the given area.

#### **BACKGROUND**

In the Summer of 2016, City Planning Commission staff began receiving soft inquiries regarding the possibility of rezoning various properties within the aforementioned boundaries to allow for mixed-use natural developments. By the Fall of 2016, CPC staff received three (3) separate official rezoning petitions all within a matter of weeks. Due to the close period in which the petitions were submitted and also the close geographical proximity of the subject properties, CPC staff decided to package the requests together for consideration before the Commission all at once.

Typically, CPC observes trends in development in conjunction with the future land use designations of the Master Plan of Policies. Whenever possible, CPC will pursue the opportunity to rezone large

swaths of land in order to bring the rezoning of a given area into conformance with the Master Plan. Staff had considered this area for rezoning since receiving other inquiries for zoning change prior to the above petitioners officially submitting for rezoning. Given that the trend in development requests in the area will likely continue and more importantly, that the City's vision for this area is to capitalize on the existing and longtime industrial development to create a mixed-use environment, CPC felt that this was an opportune time to not only advance the listed petitions, but to also co-petition for the entire subject area (See Attachment A). The proposed action will bring the subject area into conformance with the City's Master Plan'.

#### **AREA DESCRIPTION**

The subject rezoning area consists of 13 city blocks covering approximately 1.2 square miles. The area is in general, historically known as the Milwaukee Junction area, has a strong tie to the automobile industry. Strategically located along the railroad junction of the Grand Trunk Western Railroad. The area is just east of the New Center and was once a thriving core for auto manufacturing industry. Many auto manufacturers made this area their central operation hub at one point in time, including Ford Motor Company, Cadillac, Dodge, Studebaker and others. The subject rezoning boundaries do not encompass the full area of what is historically referred to as Milwaukee Junction, but instead sets boundaries as East Grand Boulevard on the north, Hastings Street on the east, the Michigan Consolidated railroad tracks on the south and the north/south alley first east of Woodward (excluding the B4 property at the southwest corner of East Grand Boulevard and John R) on the west.

#### **PLANNING CONSIDERATIONS**

##### **Surrounding Zoning and Land Use**

The zoning classifications and land uses surrounding the subject area are as follows:

**North:** B4; Goodyear Tire, Laundry Workers' Local 129, Campus Auto, St. Philip Lutheran Church, Marathon filling station, Enterprise Uniform Co., Triumph Church, Submerge; Detroit Techno museum and many other occupied and unoccupied buildings.

**East:** M4; Unoccupied grassy lots, the Milwaukee viaduct, Vanguard Community Development.

**South:** M4; the Michigan Consolidated railroad tracks.

**West:** B4; White Castle, Detroit Hardware, Atomic Chicken and other occupied and unoccupied commercial building.

##### **Master Plan Consistency**

The subject site is located within the Middle Woodward area of Neighborhood

Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "MRI," Mixed-Residential/Industrial for the subject property. MRI areas, "*offer live-work opportunities for artists and trades-people to create a lively mixture of new residential, commercial, light industrial and/or entertainment opportunities. This designation is especially appropriate for historically industrial areas that may be suited to loft conversions.*" The Planning and Development Department (P&DD) has submitted a letter to CPC confirming that the proposed rezoning is consistent with the Master Plan of Policies.

#### Detroit Future City Strategic Framework

The Detroit Future City Framework Plan<sup>2</sup> designates the subject area "Live Make" and is described as areas of "*repurposed historic industrial structures and land that fosters a blend of smaller scale, low-impact production activity is combined with a diversity of other land uses. This typology provides a framework for true live-work in Detroit by allowing artisanal and small manufacturing, fabrication, assembly, and workshop uses compatible with housing and retail. The scale of industrial use is relatively fine grained, with a range of overall forms, including occupying multistory, former industrial structures as well the development of new building types. Any adaptive reuse or new construction should be encouraged to have space set aside for productive activities.*"

#### INITIAL COMMUNITY OUTREACH

A community meeting was held by the Detroit Catholic Pastoral Alliance on Thursday, September 15, 2016 at Firewater Bar & Grill II, E. Milwaukee and John R. Each petitioner's proposal was presented and CPC staff used this opportunity to present the proposed rezoning for the entire area as described above and indicated in the map that is attached.

Staff answered many questions that the attendees raised and most questions seemed to have been answered satisfactorily based on audience feedback. One concern which was raised was regarding the issue of gentrification and if the proposed rezoning would contribute to this perceived problem. Staff addressed those concerns referencing Proposal A and the Headlee Amendment (1994)<sup>3</sup>. There were also members of the public in attendance from the Northend Neighbors Block Club that expressed adamantly, their interest in being included in the proposed rezoning or a future phase of the transition to mixed-use rezoning classifications. Staff explained that we have briefly considered the area for a possible future rezoning effort and that such an initiative depends on the community's support for it to be undertaken.

There were about 20-25 persons in attendance, which represented at least one to two area community groups, the development community, and area business/property owners. At the end of meeting a straw poll was taken by staff to get a representation of their initial support for the proposed rezoning/projects. The overwhelming majority of people in attendance were in favor of the rezoning initiative, understanding that they would work in conjunction with the larger community. Two (2) attendees were very much opposed to the effort.

Midtown Detroit Inc., the larger umbrella organization has expressed their support for the rezoning proposal and was also represented at the community meeting on September 15, 2016. The organization has however expressed that they were at that time planning to petition for the historic designation of the unoccupied Stanley Hong's Mannia Café<sup>4</sup> currently located at 249 E. Baltimore the property proposed for demolition and redevelopment with the four (4) story mixed-use residential/commercial building proposed by the Detroit Catholic Pastoral Alliance.

#### PUBLIC HEARING RESULTS

U.S. mail was sent to all property owners in the subject rezoning area, and also those within 300 ft. of the subject boundary. Midtown Detroit Inc. also assisted CPC staff in posting notice of the rezoning along the East Grand Boulevard corridor and other places within and surrounding the subject area. Approximately 25 signs were posted in public-rights-of-way.

At the October 6, 2016 CPC meeting, many people from the subject community were in attendance for the public hearing held in regard to this proposal. Approximately seven (7) members of the public spoke at the public comment portion of the meeting. At least three (3) of those speakers spoke in support of the rezoning efforts while also raising some questions and/or concerns. Other speakers spoke to questions they had. Some of the concerns that were raised were in regard to existing land uses being allowed to remain post rezoning, the possibility of displacement, parking related issues and funding for existing residential homes.

Of the people that spoke, organizations and businesses that were represented included Midtown Detroit Inc., the Michigan Urban Farming Initiative, the North End Neighbors Block Club, the property owner of 2868, 2870 and 2872 E. Grand Blvd., and the owner of Enterprise Uniform Company. Of the comments expressed, no outright opposition was presented, but there were strong concerns that were raised as staff was allowed to present responses to most questions raised.

Members of the public also raised concerns about notifications for meetings,

saying that they were not aware or found out late and that there was a need for more outreach. Staff had already expressed the intent to conduct further outreach prior to action being taken by the Commission early on during the hearing and was afterward directed by the Commission to continue engagement in the community due to staff's comments as well as the community's desire to see more meetings held.

#### **SUBSEQUENT COMMUNITY OUT-REACH**

In response to the direction of the Commission and the community requests, additional meetings were held to educate and receive feedback from the community regarding the proposed rezoning for the subject area to an SD2 district.

Post public hearing for this issue, another meeting was held by the Northend Neighbors Block Club at the Metropolitan United Methodist Church, 8000 Woodward Avenue on October 19, 2016. This meeting was attended by 35-45 persons. Staff presented the information that was presented at the CPC public hearing and answered several questions. Two of the petitioners for the above-mentioned developments attended and also presented their specific proposals. At this meeting a straw poll was taken, but the majority of the attendees declined to express support or opposition. At least two (2) attendees did express opposition to the proposal<sup>8</sup>. The leadership of the Northend Neighbors Block Club did make very favorable comments to the rezoning effort.

Another meeting was held by Vanguard CDC at their building located 2795 East Grand Blvd. on October 25, 2016. There were approximately 25-30 participants in attendance. At this meeting, all of the petitioners for the above-mentioned development proposals attended and presented their specific proposals to the community. In general, there was the same type of response when a straw poll was attempted. The majority of those in attendance refrained from expressing their opinion one way or another. Again, there were 1-2 individuals that expressed opposition to the proposal. Others had concerns or questions about the possibility of gentrification, to which staff spoke to.

Overall, there have been approximately seven (7) meetings held on the subject rezoning<sup>9</sup>, not including another planned meeting before your Honorable Body would take this up for a public hearing. The overall sense that staff gets when attending these meetings is that many people are favorable to the rezoning, but also want to make sure that the change of land use won't have an injurious effect on their standing in the neighborhood. The concern that seems to be the most prevalent is regarding displacement of current

residents and businesses which staff had addressed during presentations. There seems to be some hesitance due to that issue but in general many have made favorable comments. The leadership of the various organizations seem to be almost unanimously supportive of the proposal from statements that have been made publicly at meetings.

Several letters of support have been submitted by members of the surrounding community to CPC offices. These letters will be provided to this Honorable Body. To date, CPC staff has received no letters of opposition.

#### **ANALYSIS**

The SD2 District is designed to encourage mixed-use development. The goal of the district is also to promote pedestrian activity and to serve the day-to-day needs of a community within the same proximity. The goal is also to reduce dependency on cars to get from one destination to the next and to that point, there are many distinctions between this zoning classification and others. The general changes from the existing zoning classifications to the SD2 zoning classification would be as follows:

##### **Changes to Parking Requirements**

The SD2 zoning classifications contain significantly reduced (as compared to the present B4, M3, and M4 zoning classifications) off-street parking requirements. <sup>7</sup>For multiple-family dwelling units the parking requirements are set at 1.0 per dwelling unit or 0.75 off-street parking spaces per dwelling unit if the subject property is within a quarter mile of a bus rapid transit, street car/trolley or light rail line.<sup>8</sup>

For retail, service and commercial uses in the SD2 district, parking requirements are reduced by 25% if the development is located within a quarter mile of a bus rapid transit, street car/trolley or light rail line.

##### **Intensity and Dimensional Changes<sup>9</sup>**

Many of the other changes that the SD2 zoning classification would have are the dimensional standards allowed for development. The dimensional changes are what allow many of the elements that help create a more pedestrian friendly atmosphere and place where residential and commercial development can be combined and thrive. Some of those dimensional provisions include:

- **Allows by-right residential/commercial mixed-uses** such as (1) Lofts, (2) Multiple-family dwelling where combined in structures with permitted first-floor commercial use (3) Religious residential facilities in conjunction with religious institutions in the immediate vicinity (4) Residential use combined in structures with permitted (first floors) commercial use
- **An elimination of front setbacks**

(allowing buildings to be placed at the lot line, increasing lot coverage, density and engaging pedestrians with retail offerings.) Also capping depth of setbacks since they are optional.

\* **Off-street parking is eliminated in front setback** (essentially eliminating parking lots in front of buildings and creating a more walkable environment that aesthetically looks better and fills voids, taking away dead space and adding to the visual features by the architecture that will fill that space).

• **Provisions for rear setbacks** Setting provisions if an alley is to the rear of a single-story building, a minimum rear setback is not required. If no alley is present, single-story buildings shall have a minimum rear setback of ten (10) feet. (This provision allows a break for developers if there is a buffer/alley between subject property and residential area, but also gives protections for existing residential if there is no buffer in place.) Multiple family dwellings must have 30 ft. setback or a 10 ft. setback if there is an alley.

• **Side setbacks are not required** when adjacent to any zoning classification except R1-R4 (this creates opportunity for contiguous street walls made by buildings, defined street edges, aesthetically pleasing streetscapes, and good pedestrian experience and more investment in an area.

• **Maximum heights are raised to 60 feet** not to exceed five (5) stories if building is mixed-use. For lots that front a street that is 60 ft., provisions also grant one (1) additional ft. of height for each foot over 60 ft. Heights are capped at 45 ft. if development is non-mixed-use.

#### **Elimination of Spacing Requirements for Regulated Uses**

Under the SD2 provisions, the spacing requirements for microbreweries, small distilleries and establishments that serve alcohol for consumption on the premises, are eliminated. This elimination essentially allows bars and similar uses to locate in proximity of one another when in other districts there would be a 1000 ft. spacing requirement between them.

While business owners and developers generally seem to support this off-street parking reduction, some residents have suggested that this would reduce the number of available on-street parking spaces, creating conflicts among residents and non-residents. Staff points to two possible strategies to help alleviate parking congestion concerns. The first strategy is to encourage <sup>10</sup>shared parking for businesses and organizations. This provision in the zoning ordinance allows those who take advantage to share off-street parking facilities.

Where feasible, users may share off-street parking facilities. For instance, "where a theater, concert café, religious

institution, bowling alley, dance hall, or establishments for the sale and consumption on the premises of alcoholic beverages can provide at least fifty percent (50%) of the required off-street parking, decision-making bodies may authorize a reduction in the number of required off-street parking spaces, when such use is in the immediate vicinity of another use, such as a bank, business office, retail store, personal service shop, household equipment or furniture shop, manufacturing building, and similar uses, which have different peak parking demands or different operating hours." Such a reduction would require the uses to be located in the same proximity, submit a parking analysis to the City and record an agreement between involved parties. An addition to this is an opportunity that the City of Detroit may contemplate as demand for parking increases in the future, is a parking in-lieu-fee which would allow for developers to pay fees into a municipal parking or traffic mitigation fund in lieu of providing required parking on-site. The fees would be used to provide centralized public parking. This would serve to promote the pedestrian environment, encourage drivers to park once and walk to their destinations and also increase density.

Another way to alleviate parking issues is to establish residential permit parking which has provision in Section 55-2-21 of the Detroit City. The program has been used at least once in Detroit's history in the residential areas surrounding the old Tiger Stadium. The ordinance is currently being revised by the Law Department at the direction of City Council members to address trending conditions in the City.

#### **Changes to By-right, Conditional, and Prohibited Uses** (See attached comparative use list)

In general the primary uses that would be affected in this rezoning area is the one automotive use (motor vehicle services, major)<sup>11</sup> that staff is aware of and other industrial uses, (but not limited to these) many of which have been dormant for some time. For example, the *blueprinting shop* and *boiler repairing* land uses that are currently allowed by right in M3 and M4 zoning classifications would become legal-nonconforming if the proposed rezoning is adopted.

#### **Land Uses Rendered Non-conforming**

The proposed rezoning would create a number of nonconforming uses. For example, motor vehicle services and businesses with drive-through facilities would become grandfathered in and have a status of legal, nonconforming due the proposed SD2 rezoning. To give a better picture of how this would affect this area that has historically been industrial is in this way; there are approximately 54 industrial land uses in the zoning ordinance. Of those 56 industrial uses that

are currently allowed by right, 40 of those uses would become legal, non-conforming under the proposed zoning classification.

However, it is also important to note that although those uses are allowed either by right or conditionally under their current zoning classifications, that does not mean that those industrial operations currently or ever existed in the subject area. These are only uses that would have been allowable in much of the area under current provisions. The remaining allowable uses that could be established after the proposed rezoning are primarily light manufacturing for uses such as jewelry and clothing.

In general, more residential uses are allowed by-right or conditionally under the SD2 provisions. The business land uses remain similar to their current allowable statuses excluding those that are more intensive business uses or those that cater to auto-oriented traffic.

It is important to understand that existing uses would be grandfathered in and allowed to continue operating for as many years as they see fit.

To date we have not received feedback from those property owners. Although CPC has tried to reach out to property owners that would fall under this category by doing site-visits and leaving literature explaining the proposal at properties in addition the public hearing notice that was sent to taxpayers of record.

**APPROVAL CRITERIA**

In accordance with the rezoning criteria of the Zoning Ordinance (Section 61-3-80), reviews of proposed map amendments should be conducted in light of the following relevant criteria:

Criterion #1 asks, *Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact.* Staff believes the proposed amendment does meet the challenge of an evolving neighborhood that has received various petitions for residential/commercial mixed-use development. This trend is expected to continue as development moves northward out from the 7.2 mile greater downtown area.

Criterion #2 asks, *Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance.* The proposed amendment is consistent with the City's Master Plan of Policies and the vision that it set forth.

Criterion #6 questions, *Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract.* CPC has taken note of the effects that parking may have on this community by increasing development. This is something that staff has discussed in regard to the City producing a comprehensive strategy to address parking issues. In the meantime

the Zoning Ordinance does outline provisions for "shared parking" which could help to accomplish what the SD2 district is designed to do by congregating parking in designated areas where appropriate and maximizing efficiency, so that walkability in the mixed-use district is encouraged as opposed to auto-oriented developments. Other impacts would be considered as positive changes for the subject area.

Criterion #7 inquires into, *The Suitability of the subject property for the existing zoning classification and proposed zoning classification.* The existing zoning classification is not suitable for mixed-use development and essentially prohibits or complicates the process of developing in the area. The market apparently is heading toward more mixed-up demand in the subject area. Currently within the footprint of the rezoning area, there are already lofts and other housing developments in existence in comparison the once thriving industrial uses that existed in the area. To continue this trend and make development easier, this rezoning is necessary.

Criterion #8 asks, *Whether the proposed rezoning will create an illegal "spot zone."* This rezoning will not create an illegal spot zone according to legal precedents for spot zoning cases.

**RECOMMENDATION**

At its regular meeting of November 3, 2016, the City Planning Commission (CPC), after having deliberated on all of the aforementioned data and considerations, voted to recommend approval of the proposed rezoning referenced above in its entirety. This recommendation is now before Your Honorable Body for consideration.

Respectfully submitted,

<sup>1</sup> The City's Master Plan which was crafted over several years and adopted in 2009 and was the vision that was constructed during a myriad of community meetings and outreach efforts in each of the 10 Master Plan sub-sectors of the City. The Master Plan designation is the vision that the community and City adopted for this area to transition to. This vision was based on several months of data analysis and meetings.

<sup>2</sup> The Detroit Future City Strategic Framework is a document that is used only as a reference. It is not legally binding, as the City has taken no action to adopt it as City policy.

<sup>3</sup> Proposal A legislation and the Headlee Amendment passed in 1994, limits the annual rate at which property taxes may increase by capping the growth of taxable value at five (5) percent per year or

the rate of inflation, using the lesser. This provision safeguards property taxes from exponential increase in any given year. The legislation is unique to Michigan according to the Education Commission of States, a Denver-based research organization.

<sup>4</sup> This proposed historic designation is currently being considered for study by the City Council: Planning and Economic Development Standing Committee while discussions take place between all parties involved. It should be noted that the proposed rezoning would not in any way interfere with the possible historic designation.

<sup>5</sup> Please note that in general there were the same 1-2 individuals that expressed opposition at each meeting that was held in regard to the rezoning; not necessarily limiting any opposition to these individuals, but they were usually the most vocal participants.

<sup>6</sup> The majority of these meetings have been public meetings and at least two have been more focused meetings to detail information to surrounding community groups. Staff has also held many individual phone conversations and exchanged email correspondence in relation to the rezoning. Most interactions have been positive for the effort.

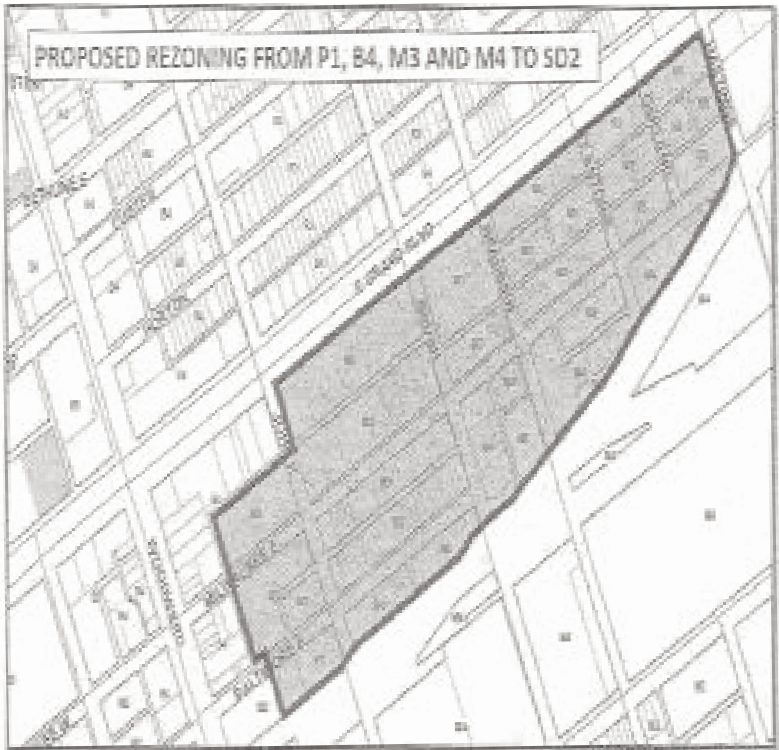

<sup>7</sup> According to 61-14-24 of the Zoning Ordinance.

<sup>8</sup> According to 61-14-39 of the Zoning Ordinance.

<sup>9</sup> According to 61-11-195 of the Zoning Ordinance.

<sup>10</sup> Sec. 61-14-109 of the Zoning Ordinance sets provisions for shared parking amongst various entities.

<sup>11</sup> The owner of the Milwaukee-John R. auto repair was present at the first public meeting for this rezoning and made no comment. Staff also visited the business to leave information but have to receive a response.

**City Planning Commission**

March 24, 2017

Honorable City Council:

Re: Request of Ms. Farah Zahr, to amend Article XVII, District Map No. 54 of the 1984 Detroit City Code, Chapter 61, "Zoning" by showing a B2 (Local Business and Residential District) zoning classification where an R2 (Two-Family Residential District) zoning classification, currently exists on two (2) parcels generally bounded by Radcliffe Avenue to the north, McDonald Avenue to the east, Dayton Avenue to the south and Lonyo Avenue to the west. (RECOMMEND DENIAL).

**NATURE OF REQUEST AND PROJECT PROPOSAL**

The City Planning Commission (CPC) has completed its review of the request from Ms. Farah Zahr, the proprietor of Lonyo Market, to amend Article XVII, District Map No 54 of Chapter 61 of the 1984 Detroit City Code, "Zoning" to show a B2 (Local Business and Residential District) zoning classification where an R2 (Two-Family Residential District) zoning classification currently exists on two parcels commonly identified as 6200 and

6226 Lonyo Avenue, generally bounded by Radcliffe Avenue to the north, McDonald Avenue to the east, Dayton Avenue to the south and Lonyo Avenue to the west.

#### **BACKGROUND**

The subject properties measure 0.65 of an acre. The parcels are presently developed and owned by the petitioner, having recently acquired the Lonyo Market located at 6200 Lonyo Avenue from G & C Kapelanski in 2016.

The current structures located at both 6200 and 6226 Lonyo Avenue are non-conforming, being classified as general retail or wholesale facilities, which are prohibited in the R2 zoning classification.

#### **PROPOSED DEVELOPMENT**

##### **6200 Lonyo Avenue**

The market located at 6200 Lonyo updates the R2 zoning classification, resulting in the subject property a nonconforming use. In order for the petitioner to make desired improvements or expansions to the subject property, a rezoning from the present residential zoning classification to a commercial zoning classification would be required, which would allow for "stores of a generally recognized retail nature whose primary business is the sale of new merchandise" on a by-right basis.

##### **6226 Lonyo Avenue**

In 2008 after the passage of the Michigan Medical Marihuana Act this property was used as a Medical Marihuana Caregiver Center, until the latter part of 2016 when it was shuttered by the Buildings, Safety Engineering and Environmental Department (BSEED) for noncompliance with zoning. With the exception of the zoning deficiency, the petitioner believes that the subject property meets all of the other spacing and dimensional requirements for the establishment of a Medical Marihuana Caregiver Center at this location (Sec. 61-12-92). The petitioner is seeking the requested rezoning from R2 to B2 to also allow for the establishment of a Medical Marihuana Caregiver Center at 6226 Lonyo Avenue, a conditional use in the B2 zoning classification.

#### **SURROUNDING LAND USE AND ZONING**

The zoning classifications and land uses surrounding the subject area are as follows:

North: M4, industrial use and to the northeast specifically developed as a warehouse property for Hispanic Food Distribution and Mexicantown Bakery as well as the City of Dearborn to the north-west.

East: R2; with a mix of vacant and single-family residential.

South: R2; with single-family residential

West: M4; with vacant commercial properties.

#### **CITY PLANNING COMMISSION PUBLIC HEARING & OTHER COMMUNITY MEETINGS**

On January 19, 2017, the City Planning Commission held a public hearing on the subject rezoning request. Seven members of the public spoke. One person, Mr. Julian Benton, a medical marihuana patient and associate of the petitioner spoke in support of the proposed rezoning request citing the need to travel approximately 30 miles to another provisioning center, which could accommodate his medical marihuana needs. Conversely the remaining six members of the public spoke in opposition of the proposed rezoning, expressing their frustrations with the petitioner and lack of community engagement.

On January 17, 2017 prior to the Commission's public hearing, a community meeting was held at the Bridging Communities office on McGraw Avenue. This meeting was held with the assistance of the community outreach team from Councilmember Raquel Castaneda-Lopez's office. Since the issue of the rezoning request was added to the agenda of a previously scheduled meeting, those in attendance with the exception of the petitioner did not necessarily represent the host community, nor were they affiliated with the subject property. One member of the public in attendance expressed her opposition to the proposed rezoning, citing concerns over another medical marihuana caregiver center located on Michigan Avenue. The remaining 17 members of the public present voiced their support, with one abstention.

On Sunday, February 19, 2017, CPC staff conducted another community meeting, hosted at the Quran Institute of America, with those members of the public who attended the January 19, 2017 public hearing. There were approximately 90 members of the community present who expressed their opposition to the proposed rezoning. CPC staff articulated that a rezoning from R2 to B2 would not automatically permit a medical marihuana caregiver center at the proposed location, however, could facilitate the process to permit it as a conditional use, should the rezoning be approved and the required special land use hearing before the Buildings, Safety Engineering and Environmental Department result in the issuance of a special land use grant. Despite a desire for commercial and economic development on the subject block, many voiced their opposition to the proposed rezoning in order to prevent even the possibility of a medical marihuana caregiver center locating in and or around their neighborhood.

At the public hearing of January 19, 2017, CPC members raised a number of concerns as it relates to the proposed

development. The Commission inquired as to the number of tax exempt religious institutions within the area, schools, parks, playgrounds, playfields, public housing, other medical marihuana caregiver centers as well as if any police contacts had occurred within the past 12- to 18 months at either address. Based on conversation between CPC staff and the Detroit Police Department there have been no police contacts associated with the subject properties according to Fourth Precinct Neighborhood Police Officer Juan Lebron.

Staff was also instructed to make contact with the adjacent industrial properties, primarily the Hispanic Food Distribution Center and Mexicantown Bakery. On March 2, 2017, the proprietors of Mexicantown Bakery located at 8100 Radcliffe indicated that for various reasons they are not in support of the requested rezoning, given the intended use for 6226 Lonyo is a medical marihuana caregiver center.

According to the City of Detroit's Medical Marihuana Caregiver Center Eligibility Search Engine, the subject property is outside of the required 1,000 foot radius of all tax exempt religious institutions, schools, parks, playgrounds, playfields, public housing, and any other licensed medical marihuana caregiver centers. However, we are concerned that a church (St. Cunegunda Church) mentioned during the public hearing does in fact fall within a 1,000 foot radius.

#### **MASTER PLAN CONFORMANCE**

The subject site is located within the Chadsey area of Neighborhood Cluster 5 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "Low-Medium Density Residential" for the subject properties. The Planning and Development Department has submitted its comments regarding this proposal in their January 23, 2017 response. (attached)

#### **ANALYSIS**

Section 61-3-80 of the Detroit Zoning Ordinance lists eight criteria that must be considered in making recommendations and decisions on rezoning requests.

The proposed zoning classification of B2 would permit a "Medical Marihuana Caregiver Center" on a conditional basis as well as "stores of a generally recognized retail nature whose primary business is the sale of new merchandise" on a by-right basis. The proposed B2 zoning classification will permit 50 by-right residential, public, civic, institutional, retail, service, commercial, manufacturing, industrial and other uses.

Among the 44 conditional uses allowed in the B2 zoning classification, the only use identified as objectionable by the host community is that of "Medical Marihuana Caregiver Center".

Among the eight approval criteria, criterion three (3) and six (6) are perhaps the most relevant and weighed most heavily upon the commission while making the determination Criterion #3 asks:

*Whether the proposed amendment will protect the health, safety, and general welfare of the public;*

The proposed rezoning could allow for the lawful use of two commercial structures which are not suitable for residential development. However, the vast majority of the host community who spoke believes that the proposed land use of a "medical marihuana caregiver center" would have a negative and deleterious effect on the community. The Commission is of the opinion that procedures and safeguards are in place to ensure community involvement and participation via the statutorily required public hearings before the Commission, City Council and Special Land Use Hearing officer in BSEED. However, given that the conditional land uses require a certain level of oversight and enforcement from the administration, the Commission is of the opinion that such enforcement and oversight would be lacking, taking into account that the number of unlicensed and unregulated medical marihuana facilities in the City of Detroit remains well over one hundred (100), nearly a year after the enactment of the zoning provisions meant to regulate and curtail the number of such establishments.

Criterion 6 asks:

*Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;*

The vast majority of the residents in the project area are Yemini immigrants with a strong moral objection to any type of drug or narcotic related land use. Based on the February 19, 2017 community meeting the sentiment of the community is that an endorsement of the rezoning which could lead to the establishment of many desired amenities, could also lead to the conditional permitting of one objectionable land use in the B2 zoning classification. This sentiment was again expressed during public comment at the Commission's meeting of March 2, 2017, before the Commission took action on the matter. Over twenty (20) members of the community spoke in opposition to the proposed rezoning and intended land use, citing the negative effects associated with such establishments elsewhere across the City.

#### ***Suitability of the Property***

Zoning Map No. 54 generally shows a mix of R1, R2 and M4 zoning on the north, south, east and west for several blocks around the subject property. This section of the Chadsey subsector is primarily developed with residential and commercial complexes with a variety of uses.

In general, the CPC looks favorably on the rezoning of the subject parcels to accommodate the establishment of "Stores of a generally recognized retail nature whose primary business is the sale of new merchandise," and all conditional land uses allowed for in the B2 zoning classification. The staff recommendation was in support of the request. However, given the overwhelming community opposition to the proposed land use of "Medical Marijuana Caregiver Centers" the Commission has opted to suggest that less objectionable land uses be pursued, as may be granted by the Board of Zoning Appeals as these properties are non-conforming and fall under the BZA's purview.

**Significant Impact on Other Property**

Rezoning of these properties from a commercial standpoint might add to the sustainability of the surrounding community by allowing the establishment of economically viable, tax revenue generating businesses that serve and support the host community. Consideration must also be given to the potential impact of permitted use as well as to the desires of the host community, which finds the land use of "Medical Marijuana Caregiver Center" objectionable.

**RECOMMENDATION**

On March 2, 2017, the City Planning Commission in consideration of the above voted to recommend denial of the request citing, the petitioner's failure to satisfy criterion three (3) and six (6) of the approval criteria cited in Sec. 61-3-80. Attached please find a resolution denying the requested rezoning.

Whereas, Ms. Farah Zahr has petitioned for the rezoning of two (2) parcels commonly identified as 6200 and 6226 Lonyo Avenue to show a B2 (Local Business and Residential District) zoning classification where an R2 (Two-Family Residential District) zoning classification currently exists; and

Whereas, The City Planning Commission took up the rezoning request to amend Chapter 61, Article XVII, District Map No. 54 of the 1984 Detroit City Code in a statutorily mandated public hearing on January 19, 2017; and

Whereas, The City Planning Commission has found that the requested land use of "medical marijuana caregiver center" while a conditional land use, might still have a negative and deleterious effect on the adjacent residential community; and

Whereas, It is reasonable to anticipate

that such a use without the proper enforcement and oversight from the administration may fail to protect the health, safety and general welfare of the public; and

Whereas, The City Planning Commission has found that the rezoning request fails to satisfy all of the approval criteria specified in Sec. 61-3-80 of the 1984 Detroit City Code; and

Whereas, The City Planning Commission voted at its regular meeting of March 2, 2017 to deny the rezoning request of Ms. Farah Zahr.

March 24, 2017

Honorable City Council:

Re: Request of Intersection Consulting Group on behalf of 262 Mack, Mack Investments I, LLC to approve site plans and elevations for a Planned Development (PD) zoning classification within Article XVII, District Map No. 4, of the 1984 Detroit City Code, Chapter 61, Zoning for a development on property commonly referred to as 262 Mack Avenue. (RECOMMEND APPROVAL)

Before Your Honorable Body is the request of Intersection Consulting Group on behalf of Mack Investments I, LLC, to approve site plans and elevations for a proposed development on land that is currently zoned PD in the Brush Park Historic District. The proposed site is located on Mack Avenue between Brush Street and John R.

**BACKGROUND AND PROPOSAL**

On October 6, 2016, the City Planning Commission held a public discussion for the site plan review of the proposal presented by Intersection Consulting Group on behalf of Mack Investments I, LLC. The developer is requesting City Council to approve site plans and elevations for a proposed development on land that is currently zoned PD and is located within the Brush Park Historic District. The proposed site is located on the south side of Mack Avenue between Brush Street and John R.

The property owner, 262 Mack, Mack Investments I, LLC is proposing to develop a nine (9) unit multi-family dwelling with a single-story garage to support the new units. The proposed multi-family dwelling

is planned to be three (3) stories in height. The floor plan proposes three (3) units to be approximately 1,058 square feet and the additional (6) six units are to be 1,279 sq. ft. each.

#### **Surrounding Zoning and Land Use**

The zoning classifications and land uses surrounding the subject area are as follows:

**North:** is zoned R6; the Detroit Medical Center (DMC)

**East:** is zoned PD-H; The Chabad of Greater Downtown Detroit

**South:** is zoned PD-H; Detroit Behavioral Institute and residential homes

**West:** is zoned PD-H; Residential homes

#### **Master Plan Consistency**

The subject site is located within the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Institutional for the subject property. The Planning and Development Department has determined that this proposal is consistent with the Master Plan of Policies.

#### **ANALYSIS**

#### **Zoning and Development Plan Provisions**

The 3rd Modified Brush Park Development Plan designates the subject land for institutional and commercial uses. Table B-2 of the development plan lists multi-family dwellings as a permitted use on the subject property, making it consistent with provisions of the current PD district.

#### **Parking**

According to Sec. 61-14-24 of the Zoning Ordinance, parking requirements for a multiple-family dwelling are 1.25 spaces per dwelling unit or .75 of the required amount of parking, when the project is located within 0.25 miles of a bus rapid transit, street car/trolley or light rail line. This development would qualify for the reduction in parking requirement because of its proximity to the coming rail line located on Woodward.

The garage that is being proposed will be one space short of the required nine (9) parking spaces needed to be in conformance with the given provisions. However, there is an existing garage already on the property that operates in conjunction with the neighboring property 248 Mack Avenue which is also owned and operated by the petitioner and has more garage parking spaces than required for the existing units for the 248 Mack Avenue property.

#### **Design**

The design of the development must be in accordance with the PD district design criteria listed in Section 61-11-15 of the Zoning Ordinance.

As it relates to the *scale, form, massing and density*, the development is consis-

tent with the provisions set forth in the development plan and zoning ordinance. The scale of the planned multi-family dwelling is in line with the neighboring structures, not exceeding their existing heights. The density of the development is in sync with other similar structures, making it fitting for the site.

When the criterion speaks to the compatibility of the development with existing development, it can be said that this project is in alignment with provisions as this particular block face is designated for institutional and commercial uses. Many of the surrounding buildings are used for institutional uses. The number of residents that would inhabit the nine (9) units would not have any injurious effect to surrounding neighbors. However, when it comes to design, this structure would be considered contemporary versus the historic styled homes that are adjacent.

Another criterion points to *parking and loading*, questioning whether it is adequate for what is being proposed. In this case, the parking will be accessed from the rear of the building as vehicles are planned to use the public alley to reach the garage parking for the units. This off-street parking and loading will relieve some of the congestion that would be caused if the development used the Mack Avenue thoroughfare.

In response to another criterion which addresses accessibility, staff points to the fact that the development will incorporate a semi-circular driveway creating a more convenient ingress/egress for residents of the building. Using the alley access is typical for the land uses located along Mack Avenue in Brush Park.

When it comes to the criterion that speaks to *urban design*, the proposed development attempts to compliment the historic character of the Brush Park neighborhood by incorporating facebrick and limestone bands for the facades of the building. The buildings contemporary architectural features include such items as an aluminum composite panel system with a deep black finish. The developments front elevation plans to integrate stoops in order to engage the streetscape well, creating a possible communal space for residents to congregate in the public realm along with pedestrians on the Mack Avenue corridor. This will serve to further activate the street by creating more interactive spaces.

Staff believes that the stoops located on the Mack elevation and the 2nd story hanging balconies will also add to the security of the surrounding area by lending more opportunities for "eyes on the street."

#### **PUBLIC DISCUSSION AND COMMUNITY ENGAGEMENT RESULTS**

At the public discussion, Commission members asked questions particularly

addressing the financing and ownership of the properties in question. Some comments were made in reference to the design of the building. A request was made that the development incorporate lighting fixtures on the east and west elevations of the building, which the architectural drawings now reflect. Other input from CPC staff and the Planning and Development Department have also been taken into account in the updated site plan and elevations. No members of the public spoke to the project during the October 6, 2016 public discussion.

**Other Considerations**

At this point all design considerations have been addressed by the development team following the CPC meetings. A letter of support from the Brush Park CDC was recently sent to the CPC staff, allowing us to move the project forward in alignment with the conditions that the Commission attached to this project (See attachment A)

**RECOMMENDATION**

On November 3, 2016, the City Planning Commission voted to recommend approval of the proposed site plan and elevations for the existing PD (Planned Development) district located at 262 Mack Ave. and depicted on District Map No. 4, Article XVII, Chapter 61 of the 1984 Detroit City Code. The recommendation was made with the following conditions:

1. That the developer work with the immediately adjacent community to minimize disruption to the neighborhood during construction and address impacts that may arise;
2. That the developer address the final design requests from CPC & PDD;
3. That the developer produce a letter of approval from the Brush Park CDC; and
4. That final site plans, elevations, lighting, landscape and signage plans be submitted by the developer to the staff of the City Planning Commission for review and approval prior to submitting applications for applicable permits.

<sup>1</sup> A "public discussion" was held as opposed to a public hearing due to the proposals consistency with the provisions of the Brush Park 3rd Modified Development Plan, thus only requiring Site Plan Review by the legislative body.

**City Planning Commission**

March 17, 2017

Honorable City Council:

Re: Planned Development Site Plan Review (Article XVII, Map 4, of the 1984 Detroit City Code, Chapter 61) -- Request of Brush Park Development LLC for an approval of site plan and elevations for a Planned Development (PD) referred to as Brush Park Village North Condominiums with property located on the southeast corner of John R and Erskine Street, more specifically known as 214 and 224 Erskine Street, to develop nine (9) town-home and carriage-home units on less than one (1) acre of land (RECOMMEND APPROVAL WITH CONDITIONS)

Before Your Honorable Body is the request for an approval of site plan and elevations for a Planned Development (PD) for the property located on the southeast corner of John R and Erskine Street, more specifically known as 214 and 224 Erskine Street. The request is being proposed to allow for an expansion of an existing development commonly known as Brush Park Village North Condominiums. The project includes plans to develop nine (9) additional townhomes and carriage-home units. The subject area is more specifically outlined on the map labeled Attachment A.

**BACKGROUND OF PROPOSAL**

The subject parcels are located on Erskine Street between John R and Brush Street in the Brush Park Historic District. The site is under an acre in size.

This development would constitute a second phase, in addition to nine (9) existing units at the site that were built in 2007-2008<sup>1</sup>. The entirety of the project was never completed, due the economic circumstances of that time. The current proposal reflects nine (9) additional units with six (6) of them being town-homes that are similar to the existing development. These units are referred to as the "Asher Model." The units will have a total of 2,260 sq. ft. inclusive of two (2) floors plus a basement.

The other three (3) units are a carriage-home style set of units located off of the east/west alley between Erskine and Watson Streets. These structures are referred to as the "Wayne Model" and are approximately 1200 sq. ft. each, inclusive of two (2) floors only.

The last structure that is being proposed on the site is a new seven (7) car garage that will be adjoined to an existing seven (7) car garage.

The project is planned to be privately financed and all units are proposed to be sold at market rate value.

**PLANNING CONSIDERATIONS  
Surrounding Zoning and Land Use**

The zoning classification and land uses surrounding the subject area are as follows:

**North:** PD: Patterson Terrace town-homes

**East:** PD: Unoccupied residential homes

**South:** PD: Unoccupied land

**West:** B4: King David Grand Lodge Masonic Temple

**Master Plan Consistency**

The subject site is located within the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows (MRC-Mixed Residential Commercial) for the subject property. The Planning and Development Department (P&DD) has determined that the subject request is in conformance with the City's Master Plan.

**Historic District Commission**

The proposal and related plans have been approved by the Historic District Commission and received a Certificate of Appropriateness. No further actions are required of them.

**Detroit Future City Strategic Framework**

The Detroit Future City Framework Plan<sup>2</sup> (not an adopted document of the City) designates the subject site as a "District Center" which is characterized as active, medium-to-high density, mixed-use areas that provide an even split of residential and employment uses. They are typically anchored by a major commercial or institutional employer such as a university or medical center. Residential areas incorporate a mix of housing types from multi-family to townhouse to detached single-family.

**ANALYSIS****Zoning and Development Plan Provisions**

The 3rd Modified Brush Park Development Plan designates the subject land for Medium Density Residential development. Table B-2 of the development plan lists town-homes as a permitted use on property designated for Medium Density Residential with a 20-30 dwelling unit per acre capacity, making the proposal consistent with current Plan provisions.

**Parking**

According to Sec. 61-14-24 of the Zoning Ordinance, parking requirements for a multiple-family dwelling are 1.25 spaces per dwelling unit. The developer is proposing to exceed the parking requirements of the zoning ordinance. The parking spaces will be located at grade level within units and also within the proposed seven (7) space garage that will abut an existing garage. There is also on-street parking available free of charge at this time that the developer expects visitors to utilize.

## Design

The design of the development must be in accordance to the PD district design criteria listed in Section 61-11-15 of the Zoning Ordinance.

In response to the criterion that addresses scale, form, massing and density, the proposed development is deemed to be appropriate in the context of the surrounding community. The form and massing were reviewed for possible alterations, looking for opportunities to add projecting elements in the facade. Another opportunity that was explored by CPC and P&DD staff, was in regard to the possibility of creating larger windows and adding push and pull elements into the design of the bay window. In summation, resolution rests on the ability for the architectural team to respond in a way that unites the architectural language of the new phase with the previous. This is of particular concern to the developer who claims the success of the original phase is rooted in the design. Therefore, although there are opportunities for improvement, the design that has been submitted is considered to be appropriate in scale, form, massing and density according to the standards that are set forth for this site and follows the same design as the existing portion of the development.

A second criterion, asks whether the proposed development is compatible with surrounding development. It certainly seems that this development will help bring current unutilized parcels online, and add to the completion of a project that was brought to a halt by market forces. Phase two (2) is definitely compatible with the existing units and also meshes with other homes that are located on Erskine and developments along John R, as it concerns to function and appearance.

Thirdly, a criterion asks about vehicular and pedestrian circulation and another inquires about parking and loading. Staff believes that the parking and loading configuration and circulation plan is sufficient. The parking spaces provided will exceed the number required. The alley access in conjunction with the fact that the site is on a corner lot will create an adequate drop off space, help circulation and decrease disruption to traffic flow on Erskine and John R for loading and unloading.

An additional criterion probes into the orientation of the proposed development. Staff does not see an deleterious impact that the orientation of the proposed buildings will have on surrounding environment. The proposed buildings do not overly prohibit solar access to surrounding development. The orientation is appropriate for the site and does not warrant any objections.

In general, the development adheres to all other PD design criterion to a degree that satisfies CPC staff.

## COMMUNITY INPUT AND PUBLIC HEARING RESULTS

The Brush Park CDC has submitted a letter of support also expressing some concerns<sup>3</sup> (See attachment B). In response to the letter of support that also expressed the opportunity for other improvements to the plan. Commissioners questioned their developers as to what they had or could do to respond to those community concerns addressed in the letter.

The developers responded by detailing the various options that had been explored with City staff and how the plans that were submitted for site plan review were reached. The developer also stated that the existing units are in high demand and the units to be developed had already been in the process of purchase for the current design.

To that point, Commissioners, asked the developer to revisit the issues of concern with the Brush Park CDC, presenting the rationale for why it is or isn't possible to incorporate the features into the development that were outlined in their letter. The developer has since, sent correspondence to the Brush Park CDC via email detailing the reasons that their additional suggestions were not possible.

As it relates to the public hearing that was held for the proposal on November 17th, there was one neighbor of the subject property that spoke during public comment. That individual expressed concern about the estimated market rate pricing of the units. The same individual also expressed concern about the land that is being proposed for a PD modification.

Staff replied to the concern about the perceived rezoning area, clarifying the boundaries and resolving the issues by explaining the boundaries of the PD modification that were detailed in the public notice which was distributed to the community via U.S. postal service. The citizen was under the impression that her property would be rezoned, which is not the case.

To the issue of the unit pricing; the developer will not be requesting any tax credits or support from the City and therefore is not subject to provide low-moderate income units based on current practices of the Administration and City Council.

## RECOMMENDATION

At the January 5, 2017 meeting, the City Planning Commission voted to recommend approval of the proposal of Brush Park Development LLC for a nine (9) unit expansion (Phase 2) of the currently existing development commonly known as Brush Park Village North Condominiums with the following conditions:

1. That the developer have a meaning-

ful discussion with the Brush Park CDC, at one of their regularly held meetings, to address the concerns that the entity expressed in their letter of support for the project.

2. That the developer work with the immediately adjacent community to minimize disruption to the neighborhood during construction and address impacts that may arise; and;

3. That final site plans, elevations, lighting, landscape and signage plans be submitted by the developer to the staff of the City Planning Commission for review and approval prior to submitting applications for applicable permits.

<sup>1</sup> CPC staff while working with the Buildings and Safety Engineering Environmental Department and historic District Commission staffs, was not able to locate some of the necessary records stemming from the first phase of the Brush Park Village North project that currently exists and abuts

the subject parcels. Records that were not able to be located include: CPC reports or recommendation, City Council resolution or ordinance, and Certificate of Appropriateness. The current owner has recently acquired the original development and subject parcels and states that they are unaware of what took place regarding the previously required approvals.

<sup>2</sup> The Detroit Future City Strategic Framework is a document that is not legally binding but used as a reference as the City administration works to adopt a single document to outline the future development in the City of Detroit.

<sup>3</sup> Those concerns include the what the CDC expressed as a "sameness of the replicated units along the street" and also that, "the frontage of the town-homes could activate more street activity with variation to the porch and landscaping scheme." The complete scope of comments from the Brush Park CDC can be reviewed in the letter of support for the proposal as well as the CPC report dated November 17, 2016.

Re: Brush Park CDC Letter of Support —  
Brush Park Village North Development,  
John R and Erskine Streets

Brush Park Community Development Corporation (the "CDC") forwards this letter to show our support of the proposed Village North development at John R and Erskine Streets (the "Project").

The Project was presented before the CDC and the Brush Park community at a public meeting held in July of 2016. Much consideration was given to the project by the CDC Board. With a vote of 6 yes, 0 no,

and 1 abstention, the CDC Board voted to support the second phase of this Project.

While the general form and housing type is agreeable, the CDC Board still has concerns regarding the "sameness" of the replicated units along the street, coupled with the lack of opportunity for individual residents to add character through porches, window boxes, etc. The relatively small porches and large amount of landscaping in both the existing and proposed schemes seem to make the units' front facades unusable or an after-thought, creating an inactive frontage rather than an active one that would otherwise improve the street with increased natural surveillance, sociability, character, and activity. We look forward to working with your team to address these concerns as the project moves forward.

We thank you for your time and your interest in Brush Park. A copy of this letter will be forwarded to the City of Detroit Planning and Development office.

Sincerely,  
KARISSA HOLMES  
Secretary

**Housing and Revitalization Department**

March 22, 2017

Honorable City Council:

Re: 2nd Reprogramming Amendment to the 2016-17 Community Development Block Grant (CDBG) Annual Action Plan.

The Housing & Revitalization Department (H&RD) is requesting that changes be made to the City's 2016-2017 CDBG Annual Action Plan consistent with meeting the City's CDBG Timeliness Test on May 2, 2017.

The City has previously had significant challenges meeting its timeliness test, which requires that the City have no more than 1.5 times its CDBG allocation on hand at any time. A test of this metric is made sixty (60) days before the end of the program year for all CDBG recipients. This test is one of the primary ways in which the City's performance is measured by HUD.

H&RD would like to reprogram the Housing Pre-development Rehab to Housing Pre-development Construction to assist with the Gardenvue Estates New Construction project.

We ask that the Council approve this with a Waiver of Reconsideration so that the reprogramming can be approved by the Financial Review Committee (FRC) and help the City make the timeless test required by HUD on May 2, 2017.

We respectfully request the authorization of this change to amend the 2016-2017 CDBG Annual Action Plan for the stated purpose by approval of the attached resolution. This proposed amendment was posted on the City's website for the requisite thirty (30) day period beginning February 22, 2017. Upon City Council's approval, it will be transmitted to HUD.

Respectfully submitted,  
ARTHUR JEMISON  
Director

Approved:

FLOYD STANLEY  
Budget Director  
JOHN NAGLICK  
Finance Director

By Council Member Leland:

Whereas, The Detroit City Council hereby approves amending the HUD Consolidated Plan to reflect the reprogramming of 2016-17 Community Development Block Grant (CDBG) Annual Action Plan in accordance with the foregoing communication; and

Whereas, The Mayor of the City of Detroit, Michael E. Duggan, is hereby authorized to amend the HUD Consolidated Plan, including all understandings and assurances contained therein to the U.S. Department of Housing and Urban Development (HUD) in accordance with the foregoing communication; and

Now, therefore be it

Resolved, That the Budget Director be and is hereby authorized to increase Appropriation #20343 Housing Pre-development Construction by \$190,581.00; and

Be it further

Resolved, That the Budget Director be and is hereby authorized to decrease Appropriation #20342 Housing Pre-development Rehab by \$190,581.00; and

Be it finally

Resolved, That the Finance Director be and is hereby authorized to accept and process all documents reflecting these changes.

**Housing and Revitalization Department**

March 27, 2017

Honorable City Council:

Re: Request for Approval of the 2017 Spring HOME, CDBG and NSP Awards.

The City of Detroit Housing & Revitalization Department ("H&RD") has continued to work closely with the U.S. Department of Housing and Urban Development ("HUD"), in making required obligations and disbursements of City HOME, CDBG and NSP Development funds to meet upcoming project closeout, commitment and disbursement deadlines. H&RD issued a NOFA in December 2016, to assist in making allocations for "ready-to-proceed projects" from available HOME, CDBG and NSP funding. The HOME program is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act, and is designed exclusively to create affordable housing for low-income households. Eligible activities under the HOME program include:

- Providing home purchase or rehabilitation financing assistance to eligible homebuyers.
- Building or rehabilitating housing for rent or homeownership; and
- Other reasonable and necessary expenses related to the development of non-luxury housing.

HOME funds are awarded on a formula basis, are included in the annual entitlement award from HUD, and are part of the Consolidated Plan.

H&RD is requesting to increase the allocations for Gratiot Central Commons, Saint Rita Apartments, River Terrace and Palmer Park Square. These projects have final MSHDA awards and are closing or are already closed and under construction. Challenge Grants have been approved for Cots, Roberts III, University Meadows, Regent Park, Grant Trunk, Brush Park South and the Sanctuary. Gardenvue Estates is in the predevelopment stage and we anticipate an April 2017 closing, to assist the department's efforts in making CDBG timeliness expenditures required for the CDBG program. Melrose Square and Bridges To Homeownership are also in the predevelopment stage, and the department anticipates spring closings for both of these single-family housing projects.

Consistent with the new process adopted by City Council in 2012 for approving HOME, CDBG, development awards and development partners, the Department is requesting your Honorable Body's approval of the attached resolution with the list of developers and appropriate allocations. A Waiver of Reconsideration is requested.

Respectfully submitted,  
DARWIN L. HEARD  
Multi-Family Housing Director

By Council Member Leland:

Whereas, The City of Detroit receives an annual allocation of HOME, CDBG and NSP (program income) Development funds from the U.S. Department of Housing and Urban Development ("HUD"), through the Housing and Revitalization Department ("H&RD"), for the purpose of creating affordable housing opportunities in Detroit Neighborhoods; and

Whereas, The City Council authorized the Housing and Revitalization Department's Director to accept and utilize HUD HOME, CDBG and NSP Development funds according to HUD regulations during the City's annual Budgeting process; and

Whereas, The City Council also authorized the Budget Director to appropriate HUD HOME, CDBG and NSP Development funds, and establish appropriation numbers; and

Whereas, The Finance Director was also authorized to establish necessary accounts, and honor vouchers and pay-rolls in accordance with H&RD requests and HUD regulations; and

Resolved, That the City Council approves HOME, CDBG and NSP Loans and/or grants for Developers and/or borrowers in the amounts indicated on the attached list, provided that loan amounts may vary by not more or less than 10%; and

Resolved, That the Housing & Revitalization Department Director or his designee, is authorized to process, prepare and execute all loan and grant documents required to close, secure, and use HOME, CDBG and NSP funds according to HUD regulations for the approved list of developers and borrowers.

Waiver of Reconsideration per motions before adjournment.

Honorable City Council:  
 Re: Rosie Sanders vs. City of Detroit,  
 Case No.: 16-007133-NI, File No.:  
 L16-00402 (MBC).

On March 22, 2017, a case evaluation panel evaluated the above-captioned lawsuit and awarded a case evaluation award in the total amount of Sixteen Thousand Dollars and No Cents (\$16,000.00) in favor of Plaintiffs. The parties have until April 19, 2017 to either accept or reject the case evaluation.

Based upon our review of the facts and particulars of the lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation awards is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Sixteen Thousand dollars and No. Cents (\$16,000.00) payable to Rosie Sanders and her attorney, The Reizen Law Group, to be delivered upon mutual acceptance of the case evaluation award by the parties and entry of an Order of Dismissal in Lawsuit No. 16-007133-NI.

### City Planning Commission

April 3, 2017

Honorable Public Health and Safety

Standing Committee:

Re: Status of the Eight Mile Road designation as Major Corridor Overlay Area  
The City Planning Commission (CPC) received a memo from Council Member Benson requesting information on the existence and extent of provisions pertaining to the Major Corridor Overlay designation on Eight Mile Road. We hereby submit this report in response to the request.

### BACKGROUND

Article XI, Division 14 of the Zoning Ordinance is entitled Overlay Areas. Therein are contained the names, types, locations and corresponding provisions of the various overlays The Gateway Radial Thoroughfares (Sec. 61-11-201) and Traditional Main Street (Sec. 61-11-311) overlays are the most familiar and widely used of the overlay designations.

Subdivision C of the Overlay Areas establishes the Major Corridor Overlay. The designation was effective when Chapter 61 was first approved in 2005. The Major Corridor Overlay is described in Section 61-11-321 as follows:

*Certain wide major thoroughfares of the City of Detroit, typically zoned B4, pass through neighborhoods undertaking commercial revitalization efforts. Similarly, certain major thoroughfares pass through both Detroit and neighboring cities and townships that participate in multijurisdictional improvements to the vehicular corridor. In all such areas, the character and design of development is important to the attraction of additional development and to the improvement of environmental aesthetics. The Major Corridor Overlay Area provides the opportunity for more detailed review of proposed development.*

A copy of these provisions are attached for your review.

### REVIEW AND RECOMMENDATION

Presently, only two streets bear the Major Corridor designation: Woodward

Avenue from McNichols Road to Eight Mile Road and that portion of Eight Mile Road that falls within the boundaries of the City of Detroit. The presence and work of the Eight Mile Boulevard Associations was in part responsible for making the designation. However, other priorities kept the City from developing a full set of provisions for this corridor. Other than Section 61-11-326 prohibiting adult and sexually oriented businesses, only the framework for provisions is presently in place. Submitted in response to Line Item #3 on April 3, 2017 Calendar of the PHS Standing Committee.

Section 61-11-323 charges the Planning and Development Department (P&DD) with the development of design standards and guidelines for the overlay. These provisions could be developed in conjunction with CPC staff or independently, but must complete the amendatory process for the Zoning Ordinance through the CPC and City Council in order to be adopted as part of the Code.

There are at least two initiatives, Pink Zoning and Signage, presently undertaken by the department that would be conducive to this effort. CPC staff recommends the department be requested to prepare the requisite provisions. Attached for your consideration is a resolution requesting the P&DD investigate and develop design standards and guidelines for the Eight Mile Road Major Corridor Overlay Area.

Respectfully submitted,

MARCELL R. TODD, JR.

Director

By Council Member Leland:

Whereas, Chapter 61 of the Detroit City Code, the Zoning Ordinance, applies the Major Corridor Overlay Area designation to Eight Mile Road under Section 61-11-322; and

Whereas, Design standards and guidelines have not been developed for this overlay area and it is the City Council's desire to do so; and

Whereas, Section 61-11-323 of the Detroit Zoning Ordinance requires the Planning and Development Department to develop design standards and guidelines for the overlay area.

Now, Therefore, Be It

Resolved, That the Detroit City Council requests that the Planning & Development Department to develop standards and guidelines for the Eight Mile Road Major Corridor Overlay Area in conjunction with the staff of the City Planning Commission for consideration as an amendment to the Zoning Ordinance.

Requesting that the Michigan State Legislature amend the Home Rule City Act to authorize cities to specify community service as a remedy for civil infractions such as blight violations. (On April 6, 2017, President Pro Tem Cushingberry, Jr. requested that the Legislative Policy Division (LPD) research the issue of whether or not the Department of Appeals and Hearings (DAH) can lawfully impose an equitable remedy — such as community service obligations — on persons found responsible for civil infractions, in lieu of financially burdensome fines. LPD was also asked to draft the attached resolution requesting the state legislature to offer such flexibility to local governments.)

### Planning & Development Department

March 31, 2017

Honorable City Council:

Re: Fitzgerald Revitalization Project  
Development: generally bounded by Stoepel, Puritan, Greenlawn, and W. Six Mile (W. McNichols).

On July 5, 2016, the City of Detroit's Housing & Revitalization (HRD) and Planning & Development (PDD) departments, in partnership with the Detroit Land Bank Authority (DLBA), released two Requests for Proposals (RFPs) to purchase DLBA property consisting of land and residential structures within the Fitzgerald Project Area ("Project Area"). The Project Area further described in the attached Exhibit A, is specifically bounded by Stoepel Street, Puritan Avenue, Greenlawn Street, and W. Six Mile Road (W. McNichols Road). Additionally, eleven (11) City-owned properties, described in the attached Exhibit B, are located in the Project Area and PDD is requesting your Honorable Body's authorization to transfer title to the DLBA.

Fitz Forward, LLC, a Michigan Limited Liability Company ("Developer"), timely submitted responses to the RFPs and, after review and consideration of all submittals, their proposal for the Project Area was selected. The Developer possesses the qualifications and has identified the potential financial resources necessary to complete the project.

The Developer proposes to renovate vacant homes, demolish dangerous and blighted structures, and install passive and productive landscaping within the Project Area. These proposed uses are by-right within the designated R1 (Single-Family Residential) and R2 (Two-Family Residential) zoning districts

The DLBA will enter into an agreement with the Developer for the redevelopment of the properties located within the Project Area, inclusive of the eleven (11) City-owned properties to be transferred to the DLBA. The initial phase, will include, but is not limited to, the properties listed in the attached Exhibit C.

Pursuant to the Memorandum of Understanding ("MOU") between the City of Detroit and the Detroit Land Bank Authority, approved by the Detroit City Council on May 5, 2015, the Detroit Land Bank Authority may not transfer ten (10) or more parcels of property received from the City to the same transferee within any rolling twelve (12)-month period without

the prior approval of the Mayor and City Council.

The Planning & Development Department, therefore, requests that your Honorable Body adopt the attached resolution authorizing the Planning and Development Director, or his authorized designee, to issue a Quit Claim Deed and such other documents as may be necessary, to effectuate the transfer of the eleven (11) City-owned properties referenced in the attached Exhibit B, to the Detroit Land Bank Authority, a Michigan public body corporate, for no consideration. Additionally, we further request that your Honorable Body authorize the Detroit Land Bank Authority to sell all properties within the Project Area to Fitz Forward, LLC, a Michigan Limited Liability Corporation, for a period of three years.

Respectfully submitted,

MAURICE COX

Director

By Council Member Leland:

Whereas, On July 5, 2016, the City of Detroit's Housing & Revitalization (HRD) and Planning & Development (PDD) Departments, in partnership with the Detroit Land Bank Authority (DLBA), released two Requests for Proposals (RFP) to purchase DLBA property consisting of land and residential structures within the Fitzgerald Project Area; and

Whereas, Fitz Forward, LLC timely submitted responses to the RFPs and, after review and consideration of all submittals, their proposal for the Project Area was selected; and

Whereas, The Detroit Land Bank Authority ("DLBA") was created to assemble and dispose of publicly owned properties – currently totaling over 96,000 – in a coordinated manner to foster the development of that property and to promote economic growth in the City of Detroit; and

Whereas, Pursuant to the Memorandum of Understanding ("MOU") between the City of Detroit and the DLBA, approved by the Detroit City Council on May 5, 2015, the DLBA may not transfer ten (10) or more parcels of property received from the city of Detroit to the same transferee within any rolling twelve (12)-month period without the prior approval of the Mayor and City Council; and

Whereas, The Project Area includes eleven (11) City owned properties, as more particularly described in the attached Exhibit B, for which the city wishes to transfer title to the DLBA; and

Whereas, The DLBA requests to convey properties within the Fitzgerald Project Area, as defined in Exhibit A, to Fitz Forward, LLC, a Michigan Limited Liability Company, for the purposes of renovating, demolishing, removing blight and landscaping.

Now, Therefore, Be It Resolved, That the Detroit City Council authorizes the

Detroit Land Bank Authority to transfer properties within the Fitzgerald project Area, as defined in the attached Exhibit A, to Fitz Forward, LLC, a Michigan Limited Liability Company; and be it further

Resolved, That the Detroit Land Bank Authority is permitted to sell properties to Fitz Forward, LLC within the Project Area for a period of three years; and be it further

Resolved, That the transfer of all properties to Fitz Forward, LLC is hereby approved and thereby exceeds the annual ten (10) property transfer limit agreed to within the City's Memorandum of Understanding with the Detroit Land Bank Authority; and be it further

Resolved, that the transfer from the City of Detroit to the Detroit Land Bank Authority of the eleven (11) properties, as more particularly described in the attached Exhibit B, for no consideration, is hereby approved; and be it further

Resolved, That the Planning and Development Director, or his authorized designee, be and is hereby authorized to

issue a Quit Claim Deed and such other documents as may be necessary, to effectuate the transfer of the eleven (11) City-owned properties referenced in the attached Exhibit B, to the Detroit Land Bank Authority, a Michigan public body corporate, for no consideration; and be it finally

Honorable City Council:  
 Re: Fitzgerald Revitalization Project —  
 Ella Fitzgerald Park and Greenway  
 Transfer of Jurisdiction and  
 Acceptance of Real Property.

We request that your Honorable Body  
 approve the transfer of jurisdiction of  
 16604 and 16610 San Juan (Exhibit A)  
 from the Planning & Development  
 Department to the Recreation Depart-  
 ment and the acceptance of additional  
 property (Exhibit B) from the Detroit Land  
 Bank Authority (“DLBA”), a Michigan pub-  
 lic body corporate, for the reasons stated  
 below.

The Recreation Department proposes  
 to combine 16604 and 16610 San Juan  
 with the property to be acquired from the  
 DLBA in order to construct a new park,  
 Ella Fitzgerald Park and Greenway. The  
 park will be located within the Fitzgerald  
 neighborhood as recommended in the  
 City’s Parks and Recreation Improvement  
 Plan approved by City Council on January  
 24, 2017.

The park will feature recreation ameni-  
 ties for children and families, such as new  
 basketball courts, a multi-purpose turf  
 field, a playground, and places to picnic  
 and gather. The park will also include a  
 greenway, consisting of a non-motorized  
 walking and bicycling path and other  
 streetscaping such as elevated cross-  
 walks, that will serve to connect the  
 neighborhood to the commercial corridors

as well as link Marygrove College and the University of Detroit-Mercy.

In accordance with Chapter 14, Article 8 of the Detroit City Code, the Finance Director has designated the Recreation Department responsible for the management of 16604 and 16610 San Juan (see attached Exhibit C).

The additional properties to be accepted from the DLBA will also be earmarked for transfer of jurisdiction to the Recreation Department with the DLBA's condition that the City own and restrict the properties to public recreational use for a minimum period of five years. In accordance with Chapter 2, Article 1, Division 2 of the Detroit City Code, these properties have been reviewed by the Planning & Development and the Buildings, Safety Engineering & Environmental Departments. It has been determined that an environmental inquiry is not required for their acceptance by the City.

We therefore, request that your Honorable Body approve the transfer of 16604 and 16610 San Juan from the Planning & Development Department to the Recreation Department (Exhibit A). Further, we request that your Honorable Body approve the acceptance of the additional property by the Planning & Development Department from the Detroit Land Bank Authority (Exhibit B) for no consideration, and the subsequent transfer of jurisdiction of these same properties to the Recreation Department. A Waiver of Reconsideration is requested.

Respectfully submitted,

MAURICE COX

RE: Transfer of Jurisdiction  
Ella Fitzgerald Park and  
Greenway

As part of the City of Detroit's 2016  
Parks and Recreation Improvement Plan,

the Parks & Recreation and the General Services Departments recommended the creation of a new park in the vicinity of the Marygrove and Fitzgerald neighborhoods. The Parks & Recreation and the General Services Departments have identified an opportunity to place that park within the Fitzgerald neighborhood. In collaboration with the Planning & Development Department and the Detroit Land Bank Authority, the Parks & Recreation and the General Services Departments has identified a list of publicly owned properties to support the design vision. The Director of Parks & Recreation has confirmed the list of target properties and the intended use via email (Attachment A).

Under the 2016 First Right of Refusal, the City of Detroit acquired 16610 San Juan and 16604 San Juan as tax foreclosed properties from the Wayne County Treasurer (see Attachment B). Additionally, the Detroit Land Bank Authority's Board of Directors has approved the conveyance of a list of parcels in its ownership to the City of Detroit specifically for public recreational uses (see Attachment C).

The Parks & Recreation Department has requested the transfer of jurisdiction of the identified properties from the Planning & Development Department, inclusive of the properties listed in Attachment C to be transferred from the Detroit Land Bank Authority. Upon receipt of the properties listed in Attachments B and C, the Parks & Recreation Department will build a new public park to be called Ella Fitzgerald Park and Greenway.

Pursuant to Section 14-8-3 of the Detroit City Code, it is hereby requested that the Finance Department approve the exchange and transfer of jurisdiction of the aforementioned property from the Planning & Development Department to the Parks & Recreation Department, subject to Detroit City Council approval.

In acknowledgement of this correspondence, please sign below as stipulated and return to:

Honorable City Council:

The Detroit Parks and Recreation Department is pleased to support the Planning and Development's "20-minute neighborhood" initiative that is originating in the Fitzgerald neighborhood. Our department has worked closely with your department in this project that will create a new public park and greenway in the Fitzgerald neighborhood. The Parks and Recreation Department stands ready to take ownership of the 50 parcels that will be developed per the project scope. The General Services Department has committed resources to maintain the newly developed park space once it opens.

Through our 2017 Parks and Recreation Improvement plan analysis, the Fitzgerald neighborhood is identified as an area in need of additional recreational facilities and open space. The creation of the "Fitzgerald Park and Greenway" will help us close the recreational gap in that area. In addition, the park and greenway will include the planting of hundreds of trees which will increase the urban canopy and enhance ecosystem services such as the infiltration and evapotranspiration of storm water runoff.

The greenway will include a number of native plantings that will enhance habitat creation, and provide access to nature in an urban environment. The addition of the walking and biking paths will encourage more physical activity and enable residents to have places for safe outdoor recreation.

This project aligns well with our goals of revitalizing our park system and providing healthy recreational opportunities in the City of Detroit. As future owners of the property the department will work to maintain and program the space for the enjoyment of the residents. We look forward to working to make this opportunity a grand success.

Sincerely,  
DAVID A. MILLER  
Interim Director  
Detroit Parks & Recreation

RESOLUTION APPROVING  
EXECUTIVE DIRECTOR TO CONVEY  
PROPERTY TO THE CITY OF DETROIT  
FOR THE ELLA FITZGERALD PARK  
AND GREENWAY**

Whereas, The Detroit Land Bank Authority ("DLBA") was created in order to assemble or dispose of vacant, tax foreclosed and public property in a coordinat-

ed manner to foster the productive use of that property, including public purposes and

Whereas, The City of Detroit (the "City") develops and implements its programs and policies regarding public facilities through certain City departments and agencies, including but not limited to the Office of Jobs and Economic Growth, the Planning and Development Department ("P&DD"), and the Housing and Revitalization Department (collectively, the "City Economic Development Offices"), the Parks and Recreation Department ("Parks"), and the General Services Department ("GSD"); and

Whereas, The DLBA desires to support the public facilities programs and policies of the City Economic Development Offices, Parks and GSD, and to that end is willing to assist and cooperate with them to make property available for public facilities projects identified and approved by the City Economic Development Offices, Parks and GSD; and

Whereas, As part of the City's 2016 Parks and Recreation Improvement Plan (The "Parks Improvement Plan"), Parks and GSD recommended the creation of a new park in the vicinity of the Marygrove and Fitzgerald neighborhoods; and

Whereas, On July 5, 2016, the City released two Requests for Proposals for neighborhood-scale "Productive Landscape Development" and "Housing Redevelopment" projects (the RFPs") in the Fitzgerald neighborhood, specifically the area bounded by Stoepele Street, Greenlawn Street, West McNichols Road (also known as West Six Mile Road), and Puritan Avenue (the "Project Area"); and

Whereas, In response to the recommendations of the Parks Improvement Plan and in support of the neighborhood redevelopment objectives of the RFPs, the City Economic Development Offices, Parks and GSD have proposed the creation of a new public park and greenway in the Project Area (the "Ella Fitzgerald Park and Greenway"); and

Whereas, The City Economic Development Offices, Parks and GSD intend for the Ella Fitzgerald Park and Greenway to consist of a new public park featuring recreation amenities for children and families, such as new basketball courts, a multi-purpose turf field, a playground and places to picnic and gather, plus a greenway consisting of a new non-motorized walking and bicycling path and other streetscaping such as elevated sidewalks that, together, will form a greenway linking Marygrove College and the University of Detroit-Mercy; and

Whereas, The City Economic Development Offices, the Parks Department and GSD have requested that the DLBA convey the parcels described in Exhibit A (the "Property") to the City so that the Property may be ded-

icated to public use for the Ella Fitzgerald Park and Greenway; and

Whereas, The DLBA staff believes that conveyance of the Property to the City is necessary and appropriate, and recommend that the Board of Directors authorize the Executive Director to convey the Property to the City, subject to the condition that, for a period of five (5) years following conveyance to City, the use of the Property shall be restricted to public recreational uses and shall, for those five (5) years following such conveyance, remain under the ownership of the City.

Now, therefore, be it hereby resolved by the Board of Directors of the Detroit Land Bank Authority, that the Executive Director is authorized to convey the Property to the City of Detroit; provided that this resolution is expressly subject to the condition that, prior to the transfer, the Detroit City Council first authorizes the acceptance of the Property; provided further that this resolution is further expressly subject to the condition that, pursuant to the First Amended memorandum of Understanding between the City of Detroit and the Detroit Land Bank Authority, prior to the transfer, the Detroit City Council authorizes DLBA to convey more than nine (9) properties to the City of Detroit, since there are more than nine (9) parcels in the Property; and provided further that this resolution is further expressly subject to the condition that, for five (5) years following conveyance to the City of Detroit, the use of the Property shall be restricted to public recreational uses and shall, for those five (5) years following such conveyance, remain under the ownership of the City of Detroit, and provided further that this resolution is further expressly subject to the condition that, prior to the transfer of any parcel in the Property encumbered by a mortgage held by the Michigan Homeowner Assistance Nonprofit Housing Corporation, acting through the Michigan State Housing Development Authority ("HMA"), the HMA discharges such mortgage as to such parcel in the Property.

Honorable City Council:

Re: Petition No. 1244 — Detroit Collaborative Design Center, request for an encroachment into the right-of-way in order to construct a public art installation on the median of Livernois Avenue.

Petition No. 1244 — Detroit Collaborative Design Center, request to install and maintain encroachments with a public art installation and protective bollards on the median of Livernois Avenue, 120 feet wide, between Cambridge Avenue, 60 feet wide and West Outer Drive, 100 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made to enhance the streetscape with a fiber art installation.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW.

Detroit Water and Sewerage Department (DWSD) and the Great Lakes Water Authority (GLWA) both report being involved, but they have no objection provided the DWSD encroachment provisions and the GLWA provisions are followed.

The DWSD and GLWA provisions have been made a part of the resolution.

All other involved City Departments including the Public Lighting Department and Public Lighting Authority; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

**RESOLUTION TO ESTABLISH CITY COUNCIL'S AUTHORITY OVER DETROIT WATER AND SEWERAGE DEPARTMENT RATES AND BUDGET UNDER THE CITY CHARTER AND CITY CODE, OR TO INVOKE SECTION 7.5-208 OF THE CHARTER**  
By DETROIT CITY COUNCIL:

WHEREAS, On September 30, 2016, the City Law Department, acting under the direction of the City's Corporation Counsel, issued an opinion arguing that City Council should have no role in approving the budget or retail water or sewerage rates of the Detroit Water and Sewerage Department (DWSD); and

WHEREAS, On October 5, 2016, Council's Legislative Policy Division (LPD) issued a report<sup>1</sup> reiterating their previously stated position, that the City Charter and the City Code authorize and require Council to approve DWSD's rates and budget; and

WHEREAS, Section 8-208 of the City Charter states "Consideration of the budget shall be completed by the City Council as provided by ordinance"; and

WHEREAS, However in 2016 DWSD's budget was submitted directly to the state Financial Review Commission (FRC) by the Board of Water Commissioners, bypassing City Council; and

WHEREAS, Section 9-507 of the City Charter states "Any agency of the City may, with the approval of the City Council,

charge an admission or service fee to any facility operated, or for any service provided, by an agency. The approval of the City Council shall also be required for any change in any such admission or service fee"; and

WHEREAS, Retail water and sewerage rates are, and must be legally defined as, fees for services provided by DWSD under Section 9-507 of the charter. DWSD is a department of City government, whose budget is funded by these rates. DWSD's status as an agency of City government underlines the necessity for City Council approval of their budget and rates; and

WHEREAS, Section 56-3-12(c) of the Detroit City Code states that "The rate to such users [of DWSD's services] shall be established by the board of water commissioners and shall be approved by the city council in accordance with state and local law."; and

WHEREAS, Section 7.5-208 of the City Charter requires mandatory dispute resolution procedures in the event of "all disputes between branches or units of city government..."; and

WHEREAS, City Council has therefore been forced to retain outside legal counsel to assert its claims and restore its rights under the charter and laws; fulfilling Council's obligation to approve water and sewerage rates and the DWSD budget has required incurring some expenses to be paid with taxpayer funds. City Council has attempted to minimize these costs by remaining open to a proffered amicable resolution of the issues; and

WHEREAS, Corporation Counsel subsequently and repeatedly expressed his decision and intention to end this dispute amicably, leading City Council's representatives to believe that the dispute can and would be resolved by stipulation – a document which Corporation Counsel said he would draft and forward to City Council's representatives – formalizing an agreement to submit DWSD's future rates and budget to City Council for approval; and

WHEREAS, The documentation necessary to resolve this matter has not been forthcoming from Corporation Counsel for several months at this point in time, after repeated promises to provide it. Therefore City Council has been required to incur further expense and devote time and other resources to pursue resolution of the matter, although Corporation Counsel has repeatedly stated that it will be resolved by agreement to City Council's satisfaction; and

WHEREAS, Because of the existence of the dispute outlined by the Law Department opinion dated September 30, 2016, and the LPD Report dated October 5, 2016 – with which latter report the majority of City Council agrees – Council has retained the services of an indepen-

dent attorney to represent Council's interests in this dispute with the executive branch and Corporation Counsel, pursuant to Sections 7.5-201 and 7.5-208 of the City Charter; and

WHEREAS, Pursuant to Section 7.5-208 of the City Charter, Corporation Counsel provided a written legal opinion on September 30, 2016, which detailed which party's position Corporation Counsel believes is consistent with the current state of the law. Corporation Counsel then in terms of the Charter Section instructed City Council to retain legal assistance and representation from an outside law firm or outside attorney for purposes of instituting legal proceedings, if necessary; and

NOW THEREFORE, BE IT

RESOLVED, That City Council formally invokes Section 7.5-208 of the City Charter, based on the dispute between Council, the executive branch, DWSD and Corporation Counsel, regarding City Council's authority over the budget and rates of DWSD; and

BE IT FURTHER

RESOLVED, That Council's representatives shall meet with the executive branch's representatives and facilitate this dispute within fourteen (14) business days, as required by Section 7.5-208, and Council's representatives shall initiate litigation if necessary thereafter to establish Council's lawful authority under the Charter and laws of the City of Detroit; and

BE IT FINALLY

RESOLVED, That Copies of this resolution shall be provided to the Mayor, Corporation Counsel, the City Clerk, and interested media and citizen groups.

**RESOLUTION IN MEMORIAM**

**SYLVIA ROSE MOY**

By COUNCIL PRESIDENT JONES:

WHEREAS, We, the members of the Detroit City Council, solemnly pause today to honor the memory of the late Sylvia Moy, a pioneering Motown songwriter and record producer, who was granted her angel wings on April 15, 2017; and

WHEREAS, Born in 1939, Sylvia Moy was raised on the northeast side of Detroit with her eight brothers and sisters. The siblings amused themselves with pots and pans in the home, which inspired Sylvia's musical career. Sylvia studied and performed jazz and classical music at Northern High School, before she was seen performing in a club in 1963 by Marvin Gaye and Mickey Stevenson. She was given recording and songwriting contracts by the legendary Motown Records, but was urged to prioritize her songwriting because the company was short of mate-

rial for its artists. While at Motown, Sylvia was the first woman at the label to be named a record producer; and

WHEREAS, According to Berry Gordy's autobiography, he wanted to drop Little Stevie Wonder from the label as his voice began changing due to puberty. Sylvia Moy convinced Gordy to keep Wonder on the label but only if she could craft a hit song for him. Her first writing success came with *Uptight (Everything's Alright)*, which she co-wrote with Henry "Hank" Cosby after hearing Wonder improvising on piano. Sylvia wrote the lyrics to the song. Among the subsequent hit songs she wrote and/or produced while at Motown were Stevie Wonder's *My Cherie Amour*, *I Was Made to Love Her*, *Never Had a Dream Come True*, *Honey Chile* and *Love Bug Leave My Heart Alone* by Martha Reeves and the Vandellas. She also co-wrote *This Old Heart of Mine* with Holland-Dozier-Holland for the Isley Brothers and the classic duet, *It Takes Two* with Mickey Stevenson for Marvin Gaye and Kim Weston; and

WHEREAS, Aside from her work with Motown, Sylvia Moy also wrote the theme songs for several hit television shows: *Blossom*, *The Wonder Years* and *Growing Pains*. She also created music for films like *Mr. Holland's Opus*, *Dead Presidents* and *It Takes Two*. Sylvia was nominated for six Grammy Awards and had 20 BMI Awards. In 1974, she co-founded a non-profit group, The Center for Creative Communications, also known as Masterworks, which trained young people in telecommunications and media arts. Sylvia Moy was inducted into the Songwriters Hall of Fame in 2006; the ceremony features a surprise performance by Stevie Wonder. Sylvia Moy ensured that her impact would be forever embedded in the hearts of family, friends and fans alike.

RESOLVED, The Detroit City Council and the Office of Council President Jones, hereby expresses its condolences and joins with family and friends in honoring the life and legacy of Sylvia Rose Moy, the first female producer in music history.

George was a proud graduate of Northern High School and also matriculated at Wayne State University, the University of Detroit and Cameron State Agricultural College in Lawton, Oklahoma; and

WHEREAS, George excelled in many areas of life and was truly a renaissance man. He was an artist, singer, played piano and was very athletic. Although he enjoyed participating in several sports, his first love was swimming. George was an excellent instructor and supervisor at a number of pools throughout the city. He also supervised the summer programs at Rouge Park and Belle Isle for many years. George was highly regarded as a manager and respected for the way he trained and developed workers. He took great pride in the young people he taught to swim and held numerous swim meets to help them to excel in competitions; and

WHEREAS, George served honorably in our nation's military for the United States Army in 1962. Following his discharge, he returned to Detroit and joined Central Congregational Church, under the leadership of Rev. Albert B. Cleage, Jr. (Jaramogi Abebe). It was at the church that he met his wife, Mary. The couple subsequently received their African names, Diabate (King) and Rashida (Generous). They were devoted to each other and to their two sons, Chaka and Dedan. After the church became the Shrine of the Black Madonna, George became very engaged with the Shrine's many socially active ministries. He organized the men's service group, The Brotherhood, which engages in activities and special programs to support the church's needs. The group takes great pride in honoring the church sisters on their annual "Mother's Day" program. Honorable City Council:

Re: Termination of the Gardenvue Estates Sector II and Fox Creek I Redevelopment Plans.

The Gardenvue Estates Sector II and Fox Creek I Brownfield Redevelopment Plans (the "Plans") were approved by City

The DBRA subsequently adopted resolutions (Exhibit B) approving the termination of the Plans and authorizing the submission of a copy of its resolution to request that City Council adopt a resolution terminating the Plans.

Authority's Request

The Authority is respectfully requesting the following action from the City Council:

- a.) April 25, 2017

The equipment used for the required digital video surveillance shall at all times meet the following minimal acceptable standards and specifications.

(i) The digital video Unit (DVR) may consist of either a single, or series of modular self-contained units capable of video image export via CD/DVD, SD card, and/or USB thumb drive. The DVR(s) may be "PC" based utilizing the Microsoft Windows operating system or, in the alternative, a dedicated device. The DVR(s) must record at a rate of at least seven (7) images per second, per camera. Motion activated systems must record at a rate of seven (7) images per second, per camera, when activated.

(ii) The DVR(s) must be capable of retaining all original recorded data for a minimum of ten (10) days. Recognizing that there currently are no industry standards for the coding and decoding of digital data (codec), any unit placed in operation by the licensee must be capable of exporting video in its native format with an accompanying player, and in an industry standard file format capable of display on any Windows XP or updated Windows operating system.

(iii) Video equipment placement.

(A) *Indoor Cameras.* Cameras must be equipped with a minimum 1/3" CCD with a minimum resolution of 480 TV lines. The cameras must be placed so that all areas accessible to customers may be viewed and recorded. In addition, cameras shall be placed in areas that a person involved in illegal activity would use and at possible points of illegal entry. Ceiling mounted cameras should not be placed over door-

way entrances or exists, but positioned so that the face of an individual can be seen. This requirement does not apply to cameras positioned to capture "Point(s) of Sales." Cameras mounted to cover low, or no light areas should be mounted in a manner that encompasses the area needed to be captured. Where the distance/area to be viewed is sixty five (65) feet, or more, two (2) cameras, or a single camera with an IR range of sixty five (65) feet shall be used.

(B) ~~Outdoor~~ ~~Cameras~~. Cameras should be equipped with a minimum 1/2" CCD with a minimum resolution of 490 TV lines with a minimum IR (Infrared) range of thirty five (35) feet. Cameras mounted to cover low, or no light areas should be mounted in a manner that encompasses the area needed to be captured. Where the distance/area to be viewed is sixty five (65) feet, this would require two (2) cameras, or a single camera with an IR range of sixty five (65) feet. The cameras must be placed so that all customer accessible areas may be viewed and recorded, including customer parking areas, fuel service islands and compressed air dispensers. Cameras shall be positioned so images can be captured of all adjoining walkways of the business, and commonly used ingress and egress points. Overhang mounted cameras should not be placed directly over doorway entrances or exists in order to avoid downward views. Motion detection, if used, shall be configured to capture significant movement within the viewed range of the video camera.

(C) ~~Pan and Tilt Cameras~~. Unmanned pan and tilt camera installations may not be used to satisfy the requirements of this section due to the amount of time required more most cameras to "sweep" from side to side limits the capture of images significantly.

(iv) ~~Digital Video Unit accessibility~~. While the primary concern of the business licensee is to maintain the security and integrity of their DVR System, accessibility to the video system by authorized City of Detroit officials is required. Subject to any constitutional restrictions or unreasonable searches and seizures and upon reasonable notification to the business licensee of the need to conduct an investigation at the licensed establishment, the Chief of Police is authorized to designate Detroit Police Department personnel to enter a business licensed under this section for the purpose of accessing, obtaining, or reviewing digital video recordings installed by the licensee pursuant to this section. Where access to digital recordings is denied by the licensee, or the employee certified by the Fire Marshal to have access to all areas of the self-service gas station, or where access is otherwise

not obtained, the Detroit Police Department may pursue recourse, as provided by law, to review and obtain digital video recordings created and maintained pursuant to this section. Accordingly, the licensee shall be responsible for making arrangements for access to a key to the office, or access to the equipment, so that accessibility to the video surveillance is achieved within one (1) hour of the notification by the Detroit Police Department of an investigation at the business. Also, where exigent circumstances exist, video system passwords shall be made available to authorized members of the Detroit Police Department to facilitate review of video recordings. Failure to provide accessibility to digital video equipment required by this section may result in the Police Department making a request for a search warrant to seize the video equipment, or any part or unit of the equipment, depending on the nature of the incident.

(b) ~~Additional public security requirements~~. In addition to the video surveillance requirements of subsection (a) of this section, a licensed self-service station that has had three (3) or more separate documented criminal incidents at the location in the previous license year shall be required to provide additional public security measures as recommended and approved by the Detroit Police Department prior to the renewal of the City business license for the location. Additional public security measures may include, but are not limited to, assigned bonded security personnel at the location or mobile security patrols.

(e) ~~Compliance with state statutes or regulations and the Detroit City Code~~. The licensee of a self-service station shall comply with all state statutes and provisions of this Code regulating, controlling, or in any way relating to the sale of food, as defined by the Michigan Food Law, public Act 92 of 2000, being MCL 280.1101 et seq., or any other good or commodity regulated or prohibited for sale by the federal or state governments.

(d) ~~Enforcement~~. In accordance with the prescribed procedures of the City, the Director of the Buildings, Safety Engineering and Environmental Department, the Public Health Director, or any successor, the Detroit Fire Marshal, and the Chief of Police shall have the authority to designate technical officers and personnel to ensure compliance with this section of the Code, conduct inspections and re-inspections, and to issue and serve upon a person a written order, where the authorized local official has reasonable cause to believe that there has been a violation of this section.

**28-2.1.6.5 Investigations Required.** Upon application and before any license

required by Section 28-2.1.6 of this Code shall be issued or renewed, it shall be the duty of the Buildings and Safety Engineering Department to refer such application to the Finance Director who shall cause an investigation to be completed to determine whether any property tax, income tax, and/or special assessments are unpaid, outstanding and/or delinquent.

A self-service station license shall not be issued or renewed by the Buildings and Safety Engineering Department until the Finance Director has given his or her written confirmation that the applicant is not in arrears for taxes, or assessments, which are delineated in this section.

**28-2.1.6.6 License Posting Required; Non-transferable.** Upon issuance by the Buildings and Safety Engineering Department and after receipt by the applicant, a self-service station license shall be posted at all times by the licensee inside the licensed premises in a conspicuous location near the entrance.

Where there is evidence of the escape of flammable liquids or the vapors thereof into a sewer, drain, or manhole, or into soil or the like, the Fire Marshal may order corrective measures such as sumps, interceptors, or the like, as he or she deems necessary, or where corrective measures are not effective, he or she may order the discontinuance of the operation or practice, which, in his or her judgment, is responsible for the condition. An interceptor test well shall:

(1) Have a minimum of eight (8) inches inside diameter, which consists of a suitable porous material and installed in the sand back fill of each tank or tanks, and shall extend at least twelve (12) inches below the bottom of the tank or tanks, terminate at grade level, and be maintained tightly capped but readily accessible for

inspection at any time and for pumping purposes to remove the ground saturation of flammable liquids;

(2) Be installed at each end of an underground tank or group of tanks in the same excavation; and

(3) Be maintained, including its pump, as requested, and failure to do so shall result in ordering that the tank or tanks be removed from the ground.

This requirement does not apply to cameras positioned to capture "Point(s) of Sales." Cameras mounted to cover low, or no light areas should be mounted in a manner that encompasses the area needed to be captured. Where the distance/area to be viewed is sixty-five (65) feet, or more, two (2) cameras, or a single camera with an IR range of sixty-five (65) feet shall be used.

(B) *Outdoor cameras.* Cameras should be equipped with a minimum 1/3" CCD with a minimum resolution of 480 TV lines with a minimum IR (Infrared) range of thirty-five (35) feet. Cameras mounted to cover low, or no light areas should be mounted in a manner that encompasses the area needed to be captured. Where the distance/area to be viewed is sixty-five (65) feet, this would require two (2) cameras, or a single camera with an IR range of sixty-five (65) feet. The cameras must be placed so that all customer accessible areas may be viewed and recorded, including customer parking areas, fuel service islands and compressed air dispensers. Cameras shall be positioned so images can be captured of all adjoining walkways of the business, and commonly used ingress and egress points. Overhang mounted cameras should not be placed directly over doorway entrances or exits in order to avoid

downward views. Motion detection, if used, shall be configured to capture significant movement within the viewed range of the video camera.

(C) *Pan and tilt cameras.* Unmanned pan and tilt camera installations may not be used to satisfy the requirements of this section due to the amount of time required for most cameras to "sweep" from side to side limits the capture of images significantly.

(iv) *Digital video unit accessibility.* While the primary concern of the business licensee is to maintain the security and integrity of their DVR System, accessibility to the video system by authorized City of Detroit officials is required. Subject to any constitutional restrictions or unreasonable searches and seizures and upon reasonable notification to the business licensee of the need to conduct an investigation at the licensed establishment, the Chief of Police is authorized to designate Detroit Police Department personnel to enter a business licensed under this section for the purpose of accessing, obtaining, or reviewing digital video recordings installed by the licensee pursuant to this section. Where access to digital recordings is denied by the licensee, or the employee certified by the Fire Marshal to have access to all areas of the self-service gas station, or where access is otherwise not obtained, the Detroit Police Department may pursue recourse, as provided by law, to review and obtain digital video recordings created and maintained pursuant to this section.

Accordingly, the licensee shall be responsible for making arrangements for access to a key to the office, or access to the equipment, so that accessibility to the video surveillance is achieved within one (1) hour of the notification by the Detroit Police Department of an investigation at the business. Also, where exigent circumstances exist, video system passwords shall be made available to authorized members of the Detroit Police Department to facilitate review of video recordings. Failure to provide accessibility to digital video equipment required by this section may result in the Police Department making a request for a search warrant to seize the video equipment, or any part or unit of the equipment, depending on the nature of the incident.

(b) *Additional public security requirements.* In addition to the video surveillance requirements of subsection (a) of this section, a licensed self-service station that has had three (3) or more separate documented criminal incidents at the location in the previous license year shall be required to provide additional public security measures as recommended and approved by the Detroit Police Department prior to the renewal of the City business license for the location.

Additional public security measures may include, but are not limited to, assigned bonded security personnel at the location or mobile security patrols.

(c) *Compliance with state statutes or regulations and the Detroit City Code.* The licensee of a self-service station shall comply with all state statutes and provisions of this Code regulating, controlling, or in any way relating to the sale of food, as defined by the Michigan Food Law, Public Act 92 of 2000, being MCL 289.1101 et seq., or any other good or commodity regulated or prohibited for sale by the federal or state governments.

(d) *Enforcement.* In accordance with the prescribed procedures of the City, the Director of the Buildings, Safety Engineering and Environmental Department, the Public Health Director, or any successor, the Detroit Fire Marshal, and the Chief of Police shall have the authority to designate technical officers and personnel to ensure compliance with this section of the Code, conduct inspections and reinspections, and to issue and serve upon a person a written order, where the authorized local official has reasonable cause to believe that there has been a violation of this section.

**Sec. 19-1-99. Investigations Required.**

In addition to the inspections and reports required by Section 19-1-99 of the 1984 City Code, upon application and before any license required by Section 19-1-94 of the 1984 Detroit City Code shall be issued or renewed, it shall be the duty of the Buildings, Safety Engineering and Environmental Department to refer such application to the Finance Director who shall cause an investigation to be completed to determine whether any property tax, income tax, and/or special assessments are unpaid, outstanding and/or delinquent.

A self-service station business license shall not be issued or renewed by the Buildings, Safety Engineering and Environmental Department Business License Center until the Finance Director has given his or her written confirmation that the applicant is not in arrears for taxes, or assessments, which are delineated in this section.

**Sec. 19-1-100. License Posting Required; Non-transferable.**

Upon issuance by the Buildings, Safety Engineering, and Environmental Department and after receipt by the applicant, a self-service station license shall be posted at all times by the licensee inside the licensed premises in a conspicuous location near the entrance.

All self-service station licenses that are issued pursuant to this Chapter shall not be transferable.

**Sec. 19-1-101. Expiration and Renewal Dates.**

All self-service station licenses that are

issued pursuant to this Chapter shall expire on August 31st of each year.

All applications for renewal of a self-service station license shall be filed with the Business License Center before September 1st of each year.

**Sec. 19-1-102. License suspension, revocation, or denial of renewal.**

**TESTIMONIAL RESOLUTION CELEBRATING THE 10TH ANNIVERSARY OF NEW LIFE FAMILY CHURCH AND FOUNDER REVEREND WELTON T. SMITH IV**

By COUNCIL PRESIDENT JONES:

WHEREAS, New Life Family Church, is driven by the message of Christ and grounded by the true Word of God. Their mission is to continually operate as a Kingdom-Driven, Christ-Centered outreach ministry focused on the holistic development of people and the community. New Life Family Church was blessed with Reverend Welton T. Smith IV, a man of God that had a vision; and

WHEREAS, New Life was formed by Pastor Welton T. Smith IV. He was led by the Spirit of God to create a church that operates under the Kingdom Authority, rather than man-made traditions. On April 8, 2007, the church held worship services in the Hyacinth Court Community Center, in River Rouge, Michigan. In January 2008, God opened the door for New Life to move into The Upper Room Christian Entertainment Complex in Detroit, Michigan. After much prayer for direction in securing their own worship edifice, God

prevailed, and it was in July 2008 that New Life was blessed to lease and secure their first worship edifice at 14700 Puritan Avenue in Detroit, Michigan. In 2010, God released a vision to Pastor Smith, it was at that time the shepherd led his flock to their new home where they made their first purchase of 13881 Joseph Campau. God enlarged New Life's congregation abundantly and blessed them to have two worship services, causing them to outgrow their Joseph Campau location. In 2015, New Life relocated to Bailey Cathedral at 7045 Curtis in Detroit, Michigan, where they could have a combined dynamic worship experience as one; and

WHEREAS, Pastor Smith is the evidence of God's hand upon his life and a great servant of the Lord. God rewarded him by being officially licensed to preach in January 2002 and ordained in February 2006! This man of God conveys a fierce, bold and uncompromising delivery. He fervently clarifies the Word of God by his utter dependence on the Lord, a passion for souls and his determination to hold fast to integrity. Thank God for Pastor Smith's radical, down-to-earth preaching and teaching style that has transformed the lives of many men, women, boys and girls from all walks of life. It has offered them a new life and a new beginning with the Lord.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council and Office of Council President Brenda Jones, hereby joins with the members of New Life Family Church in their glorious celebration. May the Lord continue to bless you and your Church family to continue walking by faith and not by sight!

Honorable City Council:  
Re: Request of the City of Detroit Planning and Development Department on behalf of Wolverine Packing Company to modify the provisions of an existing PD (Planned Development) zoning district on Article XVII, District Maps 4 and 6, of the 1984 Detroit City Code, Chapter 61, Zoning, consisting of approximately nine (9) acres of the eastern portion of land generally bounded by Canfield Avenue on the north, Dequindre Avenue on the east, Mack Avenue on the south and Russell Street on the west (**RECOMMEND APPROVAL WITH CONDITIONS**) **Petition #1460.**

**NATURE OF REQUEST**

Before Your Honorable Body is the request of the Planning and Development Department (P&DD) on behalf of the Wolverine Packing Company to modify the provisions of an existing Planned Development (PD) zoning district on Article XVII, District Maps 4 and 6, of the 1984 Detroit City Code, Chapter 61, Zoning, consisting of approximately nine (9) acres of the eastern portion of land generally bounded by Canfield Avenue on the north, Dequindre Avenue on the east, Mack Avenue on the south and Russell Street on the west.

This request is being proposed by the petitioners in order to allow for a company to expand its operations within the City and construct new facilities in the form of a 147,220 square foot, cold refrigeration and production facility. The petitioner is also proposing to make physical improvements to the remaining portion of Forest Park. Please see attached map (Attachment A.)

**BACKGROUND**

As the family owned, Wolverine Packing Company celebrates its 80th anniversary, it seeks to increase its presence in the City beyond existing facilities in Eastern Market. The company is in the business of meat processing and international distribution with the Eastern Market hub serving as its base of operations and currently employing 500 full-time employees, of which 35% are Detroit residents. Company sales in 2015 total more than \$1.2 billion.

Due to business growth, the company now faces the dilemma of needing more space. Currently, the lack of room to refrigerate 30 million pounds of product in its existing facilities is burdening the company with very expensive temporary refrigeration methods that are not efficient and are very costly, leading to the request that is before Your Honorable Body.

The subject parcel consists of just under nine (9) acres of the Forest Park playfield located in the former Forest Park Rehabilitation Project Area'. The site is located at the southwest corner of Canfield and Dequindre Streets. The plan includes the new construction of a 40-foot tall, one (1) story cold refrigeration and production space, the grounds of which will also incorporate a stormwater management system to address run-off. The plans also include physical improvements to the portion of Forest Park that will remain as a public park, subsequent to the actual cold storage facility being built. The park improvements that Wolverine has committed to contribute to, include an athletic field, new playground, basketball court, baseball diamond, walking path, security, picnic area, and landscaping (See attachment B). The proposed development would create an estimated 50-100 permanent jobs once at full capacity.

The total investment for the entire project including construction of the facility, plus contribution to park improvements is approximately \$30,000,000. The new facility is currently planned to be self-funded by Wolverine and would have an immediate construction start date if and when land is acquired and properly zoned. The land is to be sold at market-rate value. The petitioner may be contemplating a possible tax abatement, but at this time that is not in the plans.

#### **Master Plan Consistency**

The subject site is located within the Middle East Central area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area currently shows Recreation (PRC) for the subject property. P&DD has been consulted on this proposal and it has been determined that a Master Plan amendment would be necessary to satisfy the request. A resolution to request a Master Plan Amendment has been submitted by P&DD and CPC has begun the process required by state law to effectuate an amendment. Once all notice requirements have been met, the statutory public hearing will be held by CPC to consider the request. Approval of this PD modification request cannot be granted unless the Master Plan is amended.<sup>2</sup>

#### **Urban Renewal Plan and Zoning**

The subject area was rezoned to Planned Development (PD) in 1981, along with a larger rezoning effort. The PD zoning is attached to the Forest Park Rehabilitation Project Urban Renewal development plan<sup>3</sup>. On the subject parcels known as Forest Park in general, the land uses that the development plan designates are Open Space and commercial on the western portion approximately 70-80% of subject land<sup>4</sup>. While the eastern-most portion of the site is slated for the following uses (See Attachment C):

- Institutional
- Low Density Residential
- Medium Density Residential
- Light Industrial

According to Emergency Manager Order No. 36, the development plan is null and void, but for those instances when a PD zoning classification is predicated upon the plan. Whether this is the case or not the CPC still uses the plans as a reference point to the vision of the community at the time the urban renewal plan was adopted. The project development plan that is being proposed exceeds the land dimensions that were intended for Light Industrial and crosses over into the portion that reflects Open Space/Commercial. According to the zoning ordinance, cold storage by definition constitutes an industrial use<sup>5</sup>. This combined with the ramifications of removing open space that currently functions as a park by ordinance, triggers the need for review for PD modification.

#### **ANALYSIS**

The Zoning Ordinance outlines certain criteria for review and approval of a Planned Development district under Sec. 61-3-96; approval criteria. Generally, the proposal satisfies these criteria, but CPC would like to highlight certain issues.

Criterion #(3) specifies that the following should be achieved: *That the development will result in a recognizable and substantial benefit to the ultimate users of the project and to the City, where such benefits would otherwise be unfeasible or unlikely to be achieved. The benefits can be accomplished through a higher quality unified design that would be required by the typical regulations of this Zoning Ordinance. These benefits shall be demonstrated in terms of preservation of natural features, unique architecture, extensive landscaping, special sensitivity to land uses in the immediate vicinity, particularly well-designed access and circulation systems, and/or integration of various site features into a unified development;*

In response to criterion #(3), it can be said that the proposal in its totality will be beneficial to the City of Detroit as well as the residents of the Forest Park neighborhood. Based on observations by staff and engagement with the community, it seems that the park as it currently exists may not be efficiently utilized. In its current state, the park has not received updates in some time and some portions of the site are in disrepair.

From site observations, institutional knowledge and community input it could be determined that the park does not draw the number of community members that one of this size should typically attract. During the community meeting held at the Forest Park leasing office, it seems that community residents statements revealed that the greatest use the park may receive is from the Police Athletic League (PAL) football team that holds practices on-site during the months of the league's season. During those times, the park may host up to 300 youth according to residents. Staff also notes that the community has held a cookout event at the park for all surrounding community members annually. Outside of this, it is questionable as to whether the park may induce the activity that it would take to maximize such a large space. Additionally, community members voiced concern regarding flooding on Canfield Street that results from heavy rainfalls. The high level of storm water run-off seems to be a common occurrence and an issue that has existed for a significant amount of years.

The proposal that is before your Honorable Body, in its current form seems to address some of the issues that currently exist at the subject site. The PD criteria asks, *whether the proposed PD*

*will benefit the City, whether it will accomplish something that would not otherwise be possible, and whether it will create unity in design for the subject properties.* Staff has the notion that all of the mentioned criteria would be accomplished through the proposed development. Based upon the current capital agenda and annual budget for the City, based upon staff's knowledge, there has been no appropriation in particular to upgrade equipment and amenities for Forest Park with the exception of possible standard maintenance practices. It is staff's understanding that Forest Park is not scheduled for any investment by the Recreation Department in the foreseeable future, without the investment that is being offered by Wolverine.

The investment from this proposal would present an opportunity that may not have been realized otherwise. There were at least two other proposals that have come forward in the last several years in relation to the subject site. Due to various reasons, those proposals were not fruitful. This proposal and partnership with a private sector organization, which has a history of contributing to the community, will allow an opportunity to bring investment to a neighborhood that would otherwise not see it in the short and possibly long term.

When it comes to public spaces, planners and urban designers have come to understand by studying human behavior that people generally are attracted to defined spaces that have definite edges and defined boundaries. The park as it exists today may suffer from underutilization, for several reasons, one of which could very well be that it lacks defined edges. If you were to visit the park now, you will find that it is a vast open space that lacks much in character and amenities. The proposed plan for the park seeks to change that by enhancing the landscaping plan, which will include many more tree plantings that will benefit park-goers by shading areas and providing relief from the sun. It will also enrich the site by creating a more defined space and adding to the intimate experience of the park. In many examples, it can be said that smaller more densely concentrated parks are found to be more vibrant, versus spaces that are large and take more populace to become active. Final plans will also include other amenities that will help to enhance the park-going experience.

Staff is also concerned with Approval Criterion # (4) which asks *whether the location of the proposed Planned Development district is appropriate;*

Staff believes that the proposed location is appropriate. From the perspective of Wolverine Packing Co., this site is advantageous because it allows the com-

pany's operations to remain in proximity to its current headquarters in Eastern Market.

In regard to the public welfare, it could be argued that the site is appropriate because it is generally consistent with the urban renewal development plan's land use designation for the space. As stated previously, the Forest Park Rehabilitation Plan that community envisioned at the time of its crafting, called for light industrial<sup>6</sup> at the eastern portion of the subject site and lists commercial as an optional use for the remaining central and western portions of the site.

Where this proposal diverges from the development plan is in the fact that it exceeds the boundary, which was envisioned for light industrial, in which the cold storage use is presently allowed. However, the rest of the park space was also viewed as being conducive for commercial uses, revealing that the community did not merely see the space as intended for recreational use only. This information coupled with the fact that the proposed remaining park space, approximately five (5) acres, although downsized, would not lose any of the current amenities, but would upgrade current infrastructure and amenities, seemingly benefiting the community.

Another criterion that was essential in evaluating this proposal is criterion # (7) which states, *"That the proposed type and density of use shall not result in an unreasonable increase in traffic or the use of public services, facilities and utilities, that the natural features of the subject site have the capacity to accommodate the intended development, and that the development shall not place an unreasonable burden upon surrounding land or land owners";*

In regard to traffic, this development will not result in any injurious effect to the surrounding residential community, as the truck traffic is bounded by current traffic patterns. In this area, the current truck traffic for the Pepsi Cola plant is subject to utilizing Mack and Dequindre Avenues. The western boundary being Russell St. currently exists as a cul-de-sac created for the purpose of thwarting any potential truck traffic that would be abrasive to the housing developments and residents of the Forest Park community. However, there may be future opportunities to reconnect the street grid, while also implementing other strategies to prohibit truck traffic from utilizing Russell Street.

As it relates to infrastructure, this proposal will result in an increased need for services, but is likely to be a catalyst for more infrastructural investment. DTE Energy according to DEGC and P&DD staff, is prepared to make investment to the power grid to sustain the proposed operations by Wolverine. CPC, DEGC and

PDD staff's also see this as an opportunity to draw investment into other infrastructure projects that can connect the existing housing complexes, the proposed plant facility and the nearby Dequindre Cut. Lighting, decorative sidewalks, improved tree lining and other enhancements are being discussed as possible connections for the community assets in the neighborhoods. As was mentioned before, the proposed development would help to mitigate the storm-water overflow that is created along Canfield Street with its planned bioswales, permeable pavement for parking spaces, rain gardens and storm water detention ponds. The Eastern Market neighborhood study that is now taking place will help to inform all of the opportunities that may be possible through this investment.

Lastly, Sec. 61-11-15 of the Zoning Ordinance addresses the Planned Development District Design Criteria. These criteria provide additional regulation to ensure that a development shall provide a desirable environment and shall not be out of harmony with its surroundings. While the PD zoning district allows more flexibility the following criterion are intended to provide safeguards and standards.

When criterion (b) is evaluated, it can be said that the *scale, form, massing and density* proposed are appropriate for this type of development and relate well to the surrounding area. The facility would host a freezer storage (totaling 88,285 square feet), a production area (35,050 sq. ft.), mezzanine (35,050 sq. ft.), shipping receiving dock (14,695 sq. ft.), machine room (2,740 sq. ft.), and office space (5,185 sq. ft.). The structure when built, would reach a maximum height of 48 ft. which would not be visually abrasive to any existing buildings. The materials present in the elevations are what one would typically expect from an industrial use, being composed of an insulated metal paneling system that assists in the freezing temperatures needed to maintain product on-site. The two (2) story office space portion of the building is a visually appealing contribution to the facility, being located off of the Dequindre street frontage and the first portion of the facade that a visitor is greeted by, upon entering the facility. The office space plans for a large portion of the front facade to consist of horizontal panels and tinted glass also adding to its appeal.

Criterion (c) of this section also acknowledges that a development should be *compatible* with surrounding development in appearance and function. Since this facility will abut the Pepsi Cola plant, it corresponds to the industrial nature that currently exists in the area, while honoring the fact that it would be neighbor to a park. It is also conceivable that this land use can be considered an extension of the Eastern Market community, being in

proximity of the food hub. While this is an industrial use, it can be considered one of lesser intensity sense it will not emit odors or significant pollution from the processing and storage of frozen meat.

In regard to criterion (e) parking and loading, this development will be in conformance with typical zoning standards, as Sec. 61-14-51 of the zoning ordinance requires one (1) parking space per three (3) employees. The current site plan shows 57 parking spaces allotted for cars with additional truck docking and standing areas. The anticipated number of full-time employees will range from 50-100.

Criterion (f) speaks to *environmental impacts* addressing issues such as noise, air, soil and water quality, toxic waste, odor, radiation, etc. and mandating that impacts must be within acceptable levels at all times<sup>7</sup>. Speaking to this standard, it is conceivable that the company's current operation located within Eastern Market would be a representation of what their proposed facility would resemble. Staff has done site visits to Wolverine Packing Company's current facility<sup>8</sup>. On multiple occasions, CPC staff observed pristine conditions inside and outside of current facilities. No detectable odors were present and noise was minimal, limited to truck traffic. Other community business neighbors have concurred with Wolverine's environmental excellence.

According to criterion (g) and (j), *Open Space* and *Screening* should be adequate for the development. When it comes to open space, staff has expressed to Wolverine representatives that it would be a benefit to their employees if they provide reasonable access to the adjacent Forest Park, park space that would remain if this proposal were to proceed. This space could become a very valuable amenity to the company and its employees if there is immediate access to the park that does not require a long distance to access the space. Wolverine is currently working to address this concern while also taking security into consideration. As far as green space on their property is concerned, their plan succeeds in providing a landscaping plan that beautifies its property and adds value to the community. Screening in the plan also adequately conceals the trucking operations on the site from the public right-of-way with a tree line and detention ponds that create a buffer for the street.

#### **COMMUNITY INPUT & PUBLIC HEARING RESULTS**

On Wednesday, March 8, 2017, the petitioner in concert with the Detroit Economic Growth Corporation and P&DD held a community meeting at the Forest Park community room located at 1130 E. Canfield. CPC staff was also in attendance to observe and contribute as necessary.<sup>9</sup>

At the March 8th meeting there was

also discussion about a possible committee being formed to allow for continued input and community expertise during the design development for the site if this proposal were to proceed. There is still room for meaningful engagement and response to community input in addition to what has already been taken into account by Wolverine and partners. This can be executed without hindering the project timeline, especially as it relates to the remaining parkland. The Parks and Recreation Department has already committed to engaging the community concerning the park site plan.

At the CPC public hearing that was held on March 16th, there was one member of the public who spoke; that person being Daniel Carmody, President of the Eastern Market Corporation. In his remarks, he spoke to Wolverine Packing Company having a reputation for being a good business neighbor that has been actively engaged in the community over the years. In regard to Wolverine's outreach efforts related to their proposed expansion, Mr. Carmody vouched for the company, stating that they made efforts to inform current neighbors within the Eastern Market area as well as their hopeful future corporate neighbors in the Forest Park area. At least eight (8) letters of support from local businesses were submitted for public record during the public hearing.

Lastly, at the April 20th CPC meeting, a representative of Mother of Divine Mercy, Sweetest Heart of Mary Church spoke favorably to the subject proposal at public comment. However, the representative also expressed that the church is concerned as to how the proposed development would affect their annual weekend Pierogi Festival. As it stands, according to the representative, the church raises most of its funds for the year from the festival to maintain programs such as their food pantry and other charitable services. The representative expressed that parking is a concern as most patrons of the festival have annually parked on the grassy field and sporting courts of Forest Park during this festival and the church is concerned as to what will happen if the parking for hundreds of cars on the field is no longer accessible.

Apparently, Eastern Market Corporation is working with the church to identify other opportunities for parking. Wolverine has also volunteered their parking lot to help the churches need.

#### **CONCLUSION**

During this process, CPC was initially concerned with the proposal to reduce the park open space in the Forest Park community. However, after hearing from the community through public meetings that were held regarding this proposal and seeing the support that it has received, it

has generally relieved those concerns. Also, again, using the Forest Park development Plan, that the community supported, as a guide, it shows the intent of what the community saw as a possibility on the subject property which Wolverine. Furthermore, this development seemingly can function as a catalyst development of sorts for this community that might not otherwise see investment for a considerable period of time. Lastly, this proposal would retain an adequate park space, maintain all existing amenities with the addition of others and upgrade a space that would likely not experience such, otherwise.

#### **RECOMMENDATION**

CPC and the Detroit Economic Growth Corporation have worked out a schedule whereby the Master Plan amendment, PD modification and land sale can advance through to City Council with a projected completion in June. According to the projected timeline, all items necessary for action would be presented on the same day for a holistic review to be considered by Your Honorable Body.

The City Planning Commission having completed its review and assessment of the requested PD modification and corresponding project in the above report voted to the approved the project on April 20, 2017. The CPC recommends approval of the request of the Wolverine Packing Company along with the drawings prepared by TI Design Build as well as the proposal by the City of Detroit Parks and Recreation Department, Forest Park redevelopment, as depicted in the drawings prepared by the City of Detroit General Services Department, and dated April 4, 2017 with the following conditions:

1. that the developer and appropriate City agencies continue to work cooperatively with the host community through completion of the industrial facility and the park projects;
2. that the developer work with the Planning and Development Department (PDD), Parks and Recreation Department (PRD) and the City Planning Commission staff to further refine any aspect of the projects design and signage be erected on site identifying the future projects;
3. that the developer work with CPC staff to address changes to the project subsequent to approval and that CPC staff is hereby authorized to reconcile such changes that may be in conflict with the consistent section 61-3-97 of the Zoning Ordinance;
4. that the developer maintain the property in a neat and orderly fashion, managing dust and collecting and disposing of debris and rubbish, throughout all phases of construction from site preparation through occupancy of the building; and
5. that the developer submit final site plans and elevations, landscaping, lighting,

and signage plans to the staff of the CPC for review and approval prior to submitting applications for applicable required permits.

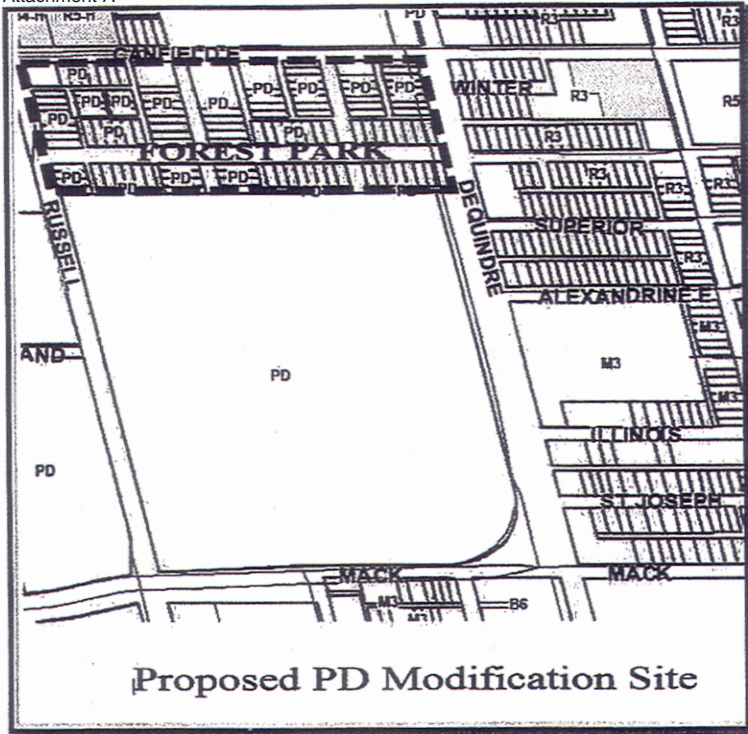

The Commission also recommends that the Parks and Recreation Department erect a minimum of two (2) signs on the subject park property for the purpose of informing the public of the projected redevelopment plans and the schedule for park construction, completion and opening.

The Commission further recommends that the monetary donation voluntarily committed by the Wolverine Packing

Company, to the City of Detroit amounting to \$300,000.00 as referenced in the letter dated April 19, 2017 be earmarked specifically for the improvement and construction of the remaining portion of the Forest Park playfield.

DETROIT ECONOMIC  
GROWTH CORPORATION**

February 20, 2017

To: Councilmember Sheffield  
From: Detroit Economic Growth Corporation, Real Estate and Financial Services Department, Catherine Frazier  
Re: Wolverine Packing Company Expansion Plans

**A. Company Background**

Wolverine Packing Company is celebrating its 80th Anniversary this year. Founded in the City of Detroit in 1937, the family owned and operated business continues to operate a majority of its operations out of the Eastern Market area in six different facilities. They specialize in meat processing with an international distribution base. Wolverine Packing Company Vital Statistics include:

- \$1,268,000,000 Total sales in 2015.
- A "Sub S" Michigan corporation. Stock is held by 8 family members.
- Wolverine employs approximately 500 full time employees.
  - o approximately 200 are members of the United Food and Commercial Workers Union
  - o 35 are members of the teamsters Union
- Wolverine also employs 30 to 50 temporary workers each day because the Company has a great deal of difficulty locating candidates for open positions.
  - Approximately 35% of Wolverine's full time employees are Detroit residents.
  - Wolverine's total payroll in 2015 was in excess of \$34,000,000.
  - Wolverine paid \$950,357 in property taxes to the City of Detroit in 2015.
  - Wolverine paid \$317,439 in corporate Income Taxes to the City of Detroit in 2015.
  - Wolverine provides comprehensive employee benefits to all of its employees.

**B. Expansion Needs:**

Wolverine is out of space, and is seeking 7-10 acres of vacant property to construct a 120,000 square foot building. It will consist of 30,000 square feet of freezer space and 40,000 square feet of production space. They currently store over 30

million pounds of product in three Public Cold Storage facilities and is using 20 to 30 semi-trailers with refrigeration units on them, as temporary storage on a daily basis. This is very inefficient and costly. As such they are pursuing the following opportunity:

- 7 to 10 acres of vacant property
- \$30,000,000 invested in real estate acquisition, building construction and equipment purchases
  - A new facility will create an additional 50 to 100 permanent jobs when fully operational.
  - There is no financing contingency. Everything is in place to proceed once the land is acquired.

**C. Proposed Real Estate Sale:**

The City of Detroit Real Estate team is recommending that a portion of Forest Park, located at southwest corner of Canfield St. and Dequindre St. is sold to Wolverine Packing Company to accommodate their expansion needs. Currently Forest Park is 14.33 acres. We are proposing a sale of the eastern portion of 8.58 acres to Wolverine, with Forest Park remaining on the western portion of 5.75 acres. The 5.75 acres remaining is the utilized portion of the park. Please see attached map.

The proposed sale price of the land is \$1,222,783.80.

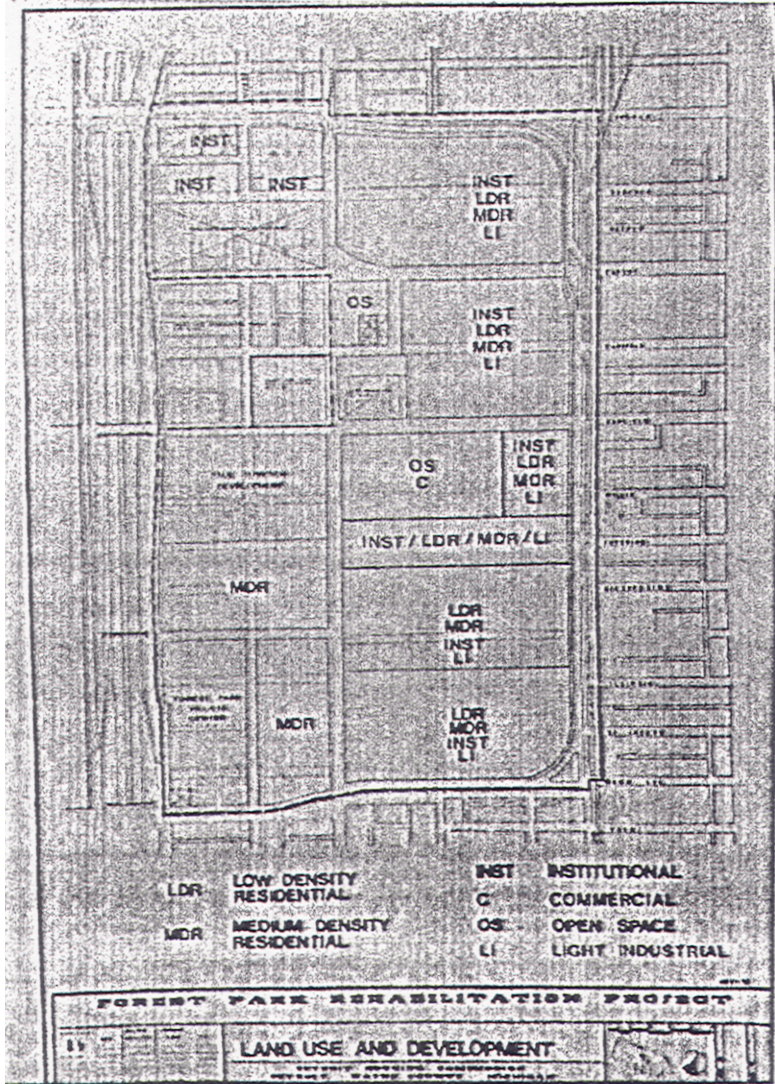

In addition to purchasing the land, Wolverine is generously willing to invest in several improvements of Forest Park. Wolverine will coordinate the design and construction in collaboration with their contractor and the City of Detroit General Services Department and Parks and Recreation Department. The proposed improvements which will hopefully take place during the same construction period, include:

1. new athletic field
2. new playground
3. new basketball court
4. new baseball diamond
5. new walking path
6. new picnic area
7. improved security
8. trees and landscaping

**D. Community Outreach:**

The Department of Neighborhoods, in partnership with the Planning Department, the City of Detroit Real Estate Team, and Wolverine Packing are planning on hosting a preliminary Community Outreach meeting at the Forest Park Apartments during the week of March 6th. Once the date is finalized, the team would sincerely appreciate Councilmember Sheffield's participation in the meeting, as her schedule permits.

Honorable City Council:

Re: Address: 9850 Rosa Parks. Name: Max Ed Out Design LLC. Date ordered removed: May 9, 2017 (Jcc pg. \_\_\_\_).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information.

A special inspection on February 16, 2017 revealed the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.
2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:
  - Certificate of Acceptance related to building permits
  - Certificate of Approval as a result of a Housing Inspection
  - Certificate of Inspection, required for all residential rental properties.
3. The owner shall not occupy or allow

occupancy of the structure without a certificate (as outlined above).

4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

Director

**City Council  
Legislative Policy Division**

April 13, 2017

Honorable City Council:

Re: Department of Appeals and Hearings (DAH); equitable remedies for civil infractions.

On April 6, 2017, Council Member Cushingberry, Jr. requested that the Legislative Policy Division (LPD) research the issue of whether or not the Department of Appeals and Hearings (DAH) can lawfully impose an equitable remedy — such as community service obligations — on persons found responsible for civil infractions, in lieu of financially burdensome fines. LPD was also asked to draft the attached resolution requesting the state legislature to offer such flexibility to local governments.

The administration has introduced a proposed ordinance, Chapter 8.5 of the City Code, creating a Department of Appeals and Hearings (DAH) with jurisdiction expanded beyond that of the existing department of Administrative Hearings<sup>1</sup>. The Home Rule City Act, authorizing state legislation for this proposed ordinance, at MCL Sec. 117.4(1) and (2) (attached), expressly states that "a city may adopt an ordinance that designates a violation of the ordinance as a civil infraction **and provides a civil fine** for that violation". (emphasis added) The statute does not authorize the City to adopt such an ordinance that provides for an equitable remedy such as community service as a penalty for such a civil infraction.

The statute continues, at MCL Sec. 117.4q(1) (attached), to state that the City "may establish an administrative hearings bureau to adjudicate and impose sanctions for violations of the charter or ordinances designated in the charter or ordinance as a blight violation. The bureau may accept admissions of responsibility for blight violations. Pursuant to a schedule of civil fines and costs, the bureau may collect civil fines and costs for blight violations."

Subsection (5) of the latter further states: "To initiate a proceeding for a blight violation, **the city shall issue and serve upon an alleged violator a written violation notice on which an authorized local official records the occurrence or existence of 1 or more blight violations by the person cited and which directs the named person to pay a civil fine for the violation** or appear at the administrative hearings bureau as provided in this section." (emphasis added)

Subsection (12) of this section also states: "The authority and duties of a hearing officer shall include all of the following: . . . (e) Imposing reasonable and proportionate sanctions consistent with applicable ordinance provisions and assessing costs upon a finding that the alleged violator is responsible for the alleged violation. The maximum monetary civil fine allowed under this section excludes costs of enforcement or costs imposed to secure compliance with the city's ordinances and is not applicable to enforce the collection of any tax imposed and collected by the city."

Subsection (20) of this section states in relevant part: ". . . if the civil fine and costs imposed against a person under this section are \$1,000.00 or more and the person does not pay the civil fine and costs imposed within 30 days after a final decision and order of the hearing officer or of the circuit court under this section, the person is subject to the following:

(a) For a first violation, the person is responsible for a state civil infraction and

may be ordered to pay a civil fine of not more than \$500.00.

(b) For a second violation, the person is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than \$500.00, or both.

(c) For a third or subsequent violation, the person is guilty of a misdemeanor and may be imprisoned for not more than 1 year and shall be fined \$500.00.

As detailed above, the Home Rule City Act spells out in explicit and mandatory terms that a civil fine is the state-authorized remedy for a civil infraction such as a blight violation that is the subject of this proposed ordinance expanding the jurisdiction of the DAH. The statute does not authorize equitable remedies such as community service, and LPD concurs with the remarks of the Law Department, DAH and the Detroit Water and Sewerage Department, to the effect that attempting to impose such alternative sanctions would be vulnerable to challenge as being inconsistent with state law. As Council Members know, the City may not pass ordinances that are inconsistent with state law.

A draft of the requested resolution urging the state legislature to offer cities this option is attached, per Council Member Cushingberry, Jr.'s request.

If Council has any other questions or concerns regarding this subject, LPD will be happy to provide further research and analysis upon request.

<sup>1</sup>Although the expansion of DAH's jurisdiction, as contemplated by this proposed ordinance, would permit the department to hear administrative appeals from other city departments that do not participate in the blight violation adjudication process, such an expansion would seem to exceed the authority of the department pursuant to its enabling legislation.

By Council Member Ayers:

**RESOLUTION REQUESTING THAT THE MICHIGAN STATE LEGISLATURE AMEND THE HOME RULE CITY ACT TO AUTHORIZE CITIES TO SPECIFY COMMUNITY SERVICE AS A REMEDY FOR CIVIL INFRACTIONS SUCH AS BLIGHT VIOLATIONS**

Whereas, A State statute, at MCL 117.4l and MCL 117.4q, provides that the City may establish civil fines for civil infractions such as blight violations; and

Whereas, Significant monetary penalties may be and often are very burdensome for impoverished or even working poor residents, who would be better able to pay the consequences of such violation via reasonable community service obligations imposed in lieu of monetary fines as penalties for violation.

Now, therefore, be it

Resolved by the City Council of the City of Detroit, County of Wayne, State of

Michigan, That: Detroit City Council respectfully requests that the Michigan State Legislature amend State law, to authorize cities to impose reasonable terms of public community service as a penalty for civil infractions such as blight violations; and

Be it further

Resolved, That copies of this resolution shall be provided to the Mayor, Corporation Council, the members of the Detroit delegation in the State legislature, the City's State government lobbyist and other appropriate parties, including but not limited to media representatives and leaders of neighborhood associations in the City.

**Department of Public Works**

April 19, 2017

Honorable City Council:

Re: Traffic Signal Removal at eleven (11) locations.

The following eleven (11) signalized intersections are currently operating on full time "STOP control" mode in compliance with the Michigan Manual of Uniform Traffic Control Devices (MMUTCD) and are scheduled for removal due to changes in traffic conditions.

The traffic volumes, accident reports and physical conditions were analyzed prior to placing the signals on full time flashing operation. The traffic volumes have dropped significantly over the years at these locations. As a result, currently none of the MMUTCD warrants are satisfied and therefore, continued operation of the traffic signals is no longer justified. Moreover, being unwarranted, these traffic signals will pose unnecessary liability for City unless removed.

The traffic signals were placed in 24-hour flash mode for a minimum of 90 days beginning at flashing date listed in the table below. During this time period, further evaluation of the intersections was completed; the evaluation included a review of vehicle and pedestrian volumes, crash data and overall intersection operation. The table below illustrates the crash data for each intersection for an equal time period before and after flashing. Crash analysis at the eleven (11) intersections did not indicate any significant increase in correctable (angle) crashes.

No.	Location	Flashing Date	Crashes Before Flashing			Crashes After Flashing			
			Angle	Rear End	Other	Total	Angle	Rear End	Other
1	Schoolcraft and Ward	1/8/2016	0	1	1	2	0	0	0
2	Chicago W and Freeland	2/4/2016	0	0	1	1	2	2	4
3	Broadstreet and Collingwood	2/4/2016	0	0	0	0	0	0	0

11	Clairmount and LaSalle	3/1/2016	1	0	0	1	0	0	0

As such, the Department of Public Works respectfully requests the adoption of the attached resolution for the removal of the traffic signals at the above mentioned eleven (11) locations based on the following:

1. Traffic volumes no longer meet warranting criteria for signalization.
2. Pedestrian activity does not warrant signalization.
3. No correctable crash pattern exists at the intersections.

Respectfully submitted,  
**RON BRUNDIDGE**  
 Director  
 Department of Public Works

By Council Member Ayers:

Resolved, That, in accordance with the foregoing communication, removal of traffic signals at the following eleven (11) locations is hereby approved.

**TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE TESTIMONIAL RESOLUTION FOR**

**MRS. ANNIE CRAWFORD 'In Recognition of Your Centennial 100th Birthday'**

By COUNCIL PRESIDENT JONES:

WHEREAS, On November 6, 2016, Mrs. Annie Crawford attained the age of one hundred years, a very significant milestone, reserved for very few. The Detroit City Council would like to publicly acknowledge this important event in her life; and

WHEREAS, Mrs. Annie Crawford, one of our esteemed centenarian citizens, has lived a rich and blessed life, having experienced, first-hand, 100 of the most eventful and productive years in American and world history. Annie was born on November 6, 1916, in Greenville, Mississippi. She was the third of eight children born to Catherine and Harry Harris. Annie received her adolescent education in the Detroit Public School system and spent most of her life in the City of Detroit. She worked for Chevrolet and the Detroit Board of Education; and

WHEREAS, Annie first married Walter Brooks and to this union five children were born: Walter, Eston, Alvin (wife Margaret), Phyllis and Donald. Annie later married Tommie Crawford and they had two children: Marquette (husband Danny) and Broderick (wife Dianne). Tommie retired from the City of Detroit and preceded Annie in death. Mrs. Crawford loves the Lord and was a faithful, tithing member of Sacred Heart Catholic Church for many years; and

WHEREAS, At 100 years young, Annie still has her independence and is cared for her by her loving family. She is blessed to have in-laws, grandchildren, great grandchildren, nieces, nephews and many friends. Annie has a great memory and is a reliable source for remembering family history. Her mother, Catherine Harris, lived for 102 years and her heavenly siblings lived long lives as well. Mrs. Annie Crawford's warm and friendly spirit is embodied in her gracious smile, which touches the heart of everyone fortunate to know her.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones, wishes to take this opportunity to honor and recognize one of Detroit's centenarian citizens, Mrs. Annie Crawford.

**TESTIMONIAL RESOLUTION  
FOR HARTFORD MEMORIAL  
BAPTIST CHURCH**

**100th Year Anniversary**

By COUNCIL PRESIDENT JONES:

WHEREAS, Hartford Memorial Baptist Church is celebrating 100 Years of loving God and serving the world community. During the 100 Years of its existence, Hartford has developed the reputation of not only being a religious institution that feeds its members and the community spiritually, but also became a trailblazer during perilous times for social change. Hartford has challenged many unpopular issues that have confronted mankind and society. Because of these trailblazing efforts, the City of Detroit, its surrounding communities and their citizenry have benefited spiritually, personally, professionally and socially; and

WHEREAS, Rev. Edgar Wendell Edwards served as the founding pastor of Hartford from 1917 to 1920 before he relocated to Chicago. After a diligent search, the church called Rev. Dr. Charles A. Hill, Sr., assistant pastor of Detroit's historic Second Baptist Church. Rev. Hill was installed as the new pastor in November of 1920, serving for 48 years until he retired on April 28, 1968. During his progressive pastorate, Dr. Hill built new church facilities and a community recreation facility. He was a strong supporter of organized labor and an outspoken champion of civil rights in the difficult days before the Civil Rights Movement. Dr. Hill was at the forefront of the struggle for equality in the 1930s, 40s and 50s. He was one of the first Blacks to run for the Detroit City Council. Courageously, he opened the Hartford pulpit to such non-conformists as W.E.B. DuBois and Paul Robeson; and

WHEREAS, On April 6, 1969, the congregation of Hartford gleefully received its son, Rev. Dr. Charles Gilchrist Adams, as pastor of the church in which he had been reared, indoctrinated, baptized, licensed, ordained and married. At that time, Dr. Adams, an honors graduate of the University of Michigan and Harvard Divinity School, had just begun his seventh year as pastor of the historic Concord Baptist Church of Boston. In 1971, Hartford's old mortgage was burned. On April 10, 1977, Dr. Adams and the Hartford congregation moved to the current beautiful edifice on James Couzens. Under his strong and vigorous leadership, this mortgage was burned in 1983, nine years ahead of schedule. With an increasing church family, Hartford has become one of the largest congregations in Detroit. Widely known for its music ministry, Hartford boasts of the largest pipe organ built by a Black church; and

WHEREAS, Dr. Adams' vision of community outreach led to the establishment of the Agape House for charitable and com-

munity ministries. The Agape House continues to offer much-needed social services that include: daily senior citizen programs, a hunger task force, multi-media ministry, scholarship and college preparation programs, support groups for alcohol and substance abuse, and a bookstore and resource center. Hartford purchased commercial real estate along Seven Mile Road, which supported the establishment of fast-food restaurants such as McDonald's, Long John Silver, Kentucky Fried Chicken, a former Super Kmart department store. Home Depot and other businesses. These businesses have provided employment for hundreds of local residents and a tax base for the city and state. On other church properties, Hartford established a Head Start Agency, tutorial programs and the Hartford Institute for Biblical Studies. On February 27, 2017, Hartford celebrated the grand opening of Hartford Village, a unique and modern senior living community. Rev. Dr. Charles Adams is truly a model of what a visionary pastor can and should be. He continues to be an advocate for change in the community. In 2007, Dr. Adams was selected as the first professor of the Practice of Ethics and of Ministry at Harvard University. His full teaching schedule at Harvard did not prevent his weekly delivery of soul-saving sermons at Hartford. For Dr. Adams, the greater impact is being rooted in the community, to know what is needed and finding ways to empower the underserved. Assisting Dr. Adams is his son, Rev. Charles Christian Adams, who was unanimously appointed as Hartford's first Presiding Pastor, continuing the Adams' pulpit legacy. Hartford believes in "Sincere Service, Social Justice and Soul Salvation." We celebrate and praise God for the ever expanding ministry of Hartford Memorial Baptist Church. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones congratulates Hartford Memorial Baptist Church on the celebration of its 100th Church Anniversary. May God continue to bless everyone in abundance.

Adopted as follows:

Yeas — Council Members Ayers, Castaneda-Lopez, Leland, Sheffield, Spivey and Tate, and President Jones — 7.  
Nays — None.

And the Council then adjourned.

**MEMORANDUM OF UNDERSTANDING  
BETWEEN  
CITY OF DETROIT BOARD  
OF WATER COMMISSIONERS  
AND  
CITY COUNCIL OF  
THE CITY OF DETROIT**

1. **Parties.** This Memorandum of Understanding (hereinafter referred to as "MOU") is made and entered into by and between the City of Detroit Board of Water Commissioners (Board) and the City of Council of the City of Detroit.

2. **Purpose.** To provide the community with increased opportunities for public comment to the Board and, specifically, on the Detroit Water and Sewerage Department budget, rates, contract decisions, and overall operations, the Board will hold five (5) evening community meetings in various non at-large districts. The five (5) evening community meetings are in lieu of and replace regular monthly business meetings held during the day in Board chambers.

3. **Background.** The Detroit City Council, as the duly elected representatives of the citizens of Detroit, requests the Board to hold several community meetings per year in various Districts and desires to enter into this MOU to increase citizens' accessibility to Board meetings. The Board has a commitment to public engagement, welcomes this request and will move expeditiously to host meetings

in the community. The Board will hold five (5) evening community meetings each calendar year in various Districts, including one (1) meeting in January during which the Board will hold its annual budget discussion, one (1) meeting during which the Board will hold its annual public hearing on rates, and one (1) meeting during which the Board will vote on rates that will be separate from meetings on rates held before City Council. Seven (7) other regular monthly meetings will be conducted during daytime hours in Board chambers.

**4. Procedure and Responsibilities.**

A. The five (5) evening community meetings are in lieu of and replace regular monthly business meetings held during daytime hours in the Board chambers, and the Board will conduct its normal business, including approval of contracts, setting policies and procedures, attending to employment issues, etc.

B. The evening community meetings shall begin between the hours of six (6) o'clock P.M. and seven (7) o'clock P.M. at a location in one of the seven (7) City Districts and shall not conflict with an evening City Council meeting scheduled under City Charter Section 4-102 or a Mayoral meeting scheduled under City Charter Section 5-110.

C. The meeting shall be published and noticed in the manner set forth in the Michigan Open Meetings Act. The Board will also notify City Council Members and Department of Neighborhoods District Managers representing the district in which the meeting will be held and the two or three districts with the closest proximity to the meeting location.

D. The Board shall hold its January meeting in the community, during which time it will hear public comment regarding the Detroit Water and Sewerage Department budget and any other matters.

E. The Board will similarly hold two (2) separate meetings in the community on water, drainage and sewer rates. One meeting will include a public hearing on the rates and a subsequent meeting will be called during which the Board will vote on rates and any other business matters.

F. The Board will set two (2) additional evening community meetings during the calendar year.

G. Each community meeting will be held in a different City District. At least two (2) of the five (5) meetings will combine two adjacent districts (i.e. District 3 & 4 will be a combined meeting).

H. The Detroit City Council will not approve a resolution to submit a ballot proposal for amendment of Charter Section 7-1202 unless the Board fails to uphold the terms of this MOU.

I. Should a Charter amendment addressing Board evening community meet-

ings be presented to the Detroit City Council by the citizens of the City of Detroit, the Detroit City Council retains the right to approve or deny the proposed amendment for placement on a ballot. Upon successful approval by the voters of the City of Detroit, this MOU becomes null and void.

5. **General Provisions.**

A. **Amendments.** Either party may request changes to this MOU. This MOU shall be revisited and potentially amended whenever a new Chairperson is elected to the Board. Any changes, modifications, revisions, or amendments to this MOU which are mutually agreed upon by and between the parties to this MOU shall be incorporated by written instrument, and effective when voted for approval by a majority of the members of the respective parties.

B. **Applicable Law.** The construction, interpretation and enforcement of this MOU shall be governed by the laws of the State of Michigan.

C. **Entirety of Agreement.** This MOU, consisting of three (3) pages, represents the entire and integrated agreement between the parties and supercedes all prior negotiations, representations and agreements, whether written or oral. No supplement, modification, or amendment of this Agreement shall be binding until there is a majority vote by the respective parties. A waiver of any of the provisions of this Agreement shall not constitute a waiver of any other provisions of this Agreement, nor shall any one waiver constitute a continuing waiver.

D. **Severability.** Should any portion of this MOU be judicially determined to be illegal or unenforceable, the remainder of the MOU shall continue in full force and effect, and either party may renegotiate the terms affected by the severance.

E. **Good Faith Performance.** Each party covenants, warrants, and represents that it shall comply with all laws and regulations applicable to this MOU and that it shall exercise due care and act in good faith at all times in performance of its obligations under this MOU.
