Subject: [EXTERNAL] Re: 3844 Bagley questions

Good evening,
Add the siding to the back of the house where it is missing.

We do have the spindles and railings but the pillars are very deteriorated. The plan is to replace them in order for the porch roof to be well supported. A picture will be attached. We would also like to overlay a plywood on top of the floorboards in order to add an additional layer. (as you can see the floorboards are rundown).

<https://www.menards.com/main/building-materials/columns-accessories/porch-posts-wood-columns/trimmable-primed-pine-turned-porch-post/1113258/p-1475244570092-c-5726.htm>

Windows that want to be cancelled will be shown on the picture attached. (6 windows with plywood covering them, and the one window that has a 2x4 in the middle).

The red outlines an existing door that was covered with plastic, we will install a back door and back steps. Steps outline will be drawn up and attached.
