- 1 Detroit, Michigan
- 2 Monday, February 6, 2012
- 3 About 11:52 a.m.
- 4 COMMISSIONER WHITE: Let me say good
- 5 morning, afternoon to everyone. Welcome you to a
- 6 special called meeting of the Board of Police
- 7 Commissioners dated for Monday, February 6, 2012.
- 8 My name is Commissioner Donnell White,
- 9 I have the pleasure of serving as Chairman for
- the Board of Police Commissioners and today I'm
- joined with my colleagues Commissioner Jerome
- 12 Warfield, Commissioner Jessica Taylor and
- 13 representing the staff for the Board of Police
- 14 Commissioners is Executive Secretary Mr. George
- 15 Anthony.
- Mr. Anthony, can you please introduce
- 17 our staff?
- 18 SECRETARY ANTHONY: Thank you,
- Mr. Chair. For the record, George Anthony,
- 20 Secretary to the Board. Staff present is
- 21 Director Dalph Watson from Police Personnel,
- 22 attorney Celia Banks Washington who is the
- attorney to the Board, Mr. Robert Brown who is
- our office manager, Sgt. Alan Quinn who is
- 25 recording our proceedings and Mr. Dale Rose from

1	Hanson Court Reporting Service.
2	COMMISSIONER WHITE: Thank you,
3	Mr. Secretary. I certainly would like to note
4	the presence of Chief Godbee. Thank you for
5	being with us today, Chief.
6	CHIEF GODBEE: Mr. Chair, how are you?
7	COMMISSIONER WHITE: I'm well, thank
8	you, sir. At this time I would ask if
9	Commissioner Warfield can lead us in an
10	invocation.
11	COMMISSIONER WARFIELD: Let us pray.
12	(INVOCATION GIVEN).
13	COMMISSIONER WHITE: Thank you, sir.
14	Just for the benefit for those of you who do not
15	have an agenda, we will have a department
16	presentation followed by a discussion from the
17	Board and then opinion by counsel Celia Banks
18	Washington followed by public comments and then
19	adjournment, so we'll move in that order.
20	Chief Godbee?
21	CHIEF GODBEE: Thank you very much.
22	First of all, I want to reiterate to this body we
23	appreciate the opportunity to present
24	procedurally we will take reports in a different
25	manner, so I'm anxiously awaiting the opinion of

1	your counsel, but we're not reorganizing the
2	department, we're not restructuring. It's a
3	different manner by which we will take police
4	reports and the administration of the department
5	is under the purview of the Chief.
6	However, anytime we have an opportunity
7	to present to the public, we're certainly glad to
8	do so.
9	I just wanted to present that small
10	preamble before we got into the implementation.
11	With that, there are some things relative to what
12	we're presenting today that led us to the
13	decision to take police reports in a different
14	manner.
15	Within that construct, it allows us to
16	potentially put between 100 and 150 officers that
17	were behind desks back into active policing which
18	we think is the deliverable that this change in
19	procedure will give us.
20	With that, we have Commander Todd
21	Bettison and Mr. Jim Wilkins, our Six Sigma
22	coordinator who will talk us through some of the
23	preliminary findings from the pilot we ran at
24	Northeast District.

Commander Bettison?

1	COMMANDER BETTISON: Thank you, Chief.
2	Good morning, Board.
3	CHIEF GODBEE: And Commander Russell
4	Decrease also.
5	COMMANDER BETTISON: Good morning,
6	community. Like the Chief was saying, with the
7	economic downturn with what's going on adding
8	additional officers to the street and being able
9	to take reports for non-emergency incidents we
10	are able to do two things.
11	Add officers to the street and take the
12	reports and make it more convenient and easier
13	for the community, for the citizens.
14	You've heard a lot about it, our
15	Telephone Crime Reporting Unit. Could someone
16	hit the lights so we could see that a little bit
17	better? That gives you an idea of what our
18	Telephone Crime Reporting Unit looks like. We're
19	enhancing that, we adding extra staff, we're
20	hiring civilian TCOs to take non-emergency police
21	reports via our Telephone Crime Reporting number
22	that we've given out, 313-267-4600 and also with
23	our Virtual Precinct model when citizens go to
24	the station they will be able to pick up the
25	telephone and it directly connects to the Call

1	Center right there.
2	We have excellent trained staff. Also
3	with me I have
4	CHIEF GODBEE: Commander, slow down.
5	Is the Telephone Crime Reporting Unit a new unit?
6	COMMANDER BETTISON: No, it's not, no,
7	it's not. It's been around. What we're doing is
8	we're enhancing that unit with extra staff so
9	that they will be able to handle the call volume
10	that's coming from the precincts.
11	CHIEF GODBEE: Is the Telephone Crime
12	Reporting operator a new position?
13	COMMANDER BETTISON: No, it's not. The
14	position of the individuals that man the Call
15	Center are called TCOs for short. That's the
16	acronym Telephone Crime Operators and we just
17	posted for that position.
18	Next slide. The presentation contents.
19	We're going to talk about our goals and
20	objectives, pilot successes, timeline for
21	implementation of activities and then on January
22	9 we did a press conference. That's when we
23	kicked off the Virtual Precinct Pilot at the
24	Northeastern District.
25	Some of the things we'll be

1	highlighting as far as successes and stats,
2	number of overtime hours worked, total number of
3	accident reports taken, number of precinct visits
4	by citizens, calls transferred from 9-1-1 to TCRU
5	that didn't require the presence of a two-man
6	unit or wasn't designated or deemed in the
7	category as an emergency, number of CRISNET
8	reports taken by the TCRU TCOs meaning a
9	CRISNET report is actually a police report.
10	So when a citizen makes a police
11	report, we term it CRISNET.
12	Number of additional personnel on
13	patrol and future metrics to be analyzed and
14	process improvement activities because continuous
15	improvement is our goal and objective.
16	At this time I'm going to turn it over
17	to Deputy Chief Tolbert. He's going to run
18	through things relative to Patrol Operations
19	Bureau.
20	DEPUTY CHIEF TOLBERT: Good morning for
21	a minute. We're excited in Patrol Operations.
22	Actually we didn't have to do a lot. Most of the
23	heavy lifting was done through data analysis,
24	through Commander Bettison's, Commander
25	Decrease's shop.

1	We just had to look at how we would
2	apply any operational changes and how we would
3	get the manpower. Obviously, this wasn't done in
4	a vacuum. There was a it started off as a
5	matter of fact with a study done by Assistant
6	Chief Logan who looked at the type of duties that
7	our officers are doing and obviously we looked at
8	it, we found that there are instances where we
9	believe that officers who are sitting in a
10	station waiting on a crime to occur and take a
11	report will be better served if they were out in
12	front of that trying to prevent that crime from
13	happening in the first place.
14	And if a crime does occur, our overall
15	objective is to get people to be able to make a
16	report in a more convenient and a more conducive
17	way where it's not so it's not hindering them
18	at all to make a report, and therefore the
19	Virtual Precinct and we use it through the
20	technology developed process where citizens can
21	make a report on certain non-emergency crimes
22	without a police response and that will be broken
23	out later with the Commanders Decrease and
24	Bettison and Mr. Wilkins.

Also through data collection we

1	determined that DPD employs 71 people in
2	patrol-related administrative duties. Patrol-
3	related administrative duties, these are like
4	clerks, these are people who sit behind a desk.
5	These are the people who are waiting as an extra
6	clerk in a precinct waiting for something to
7	happen to come into the precinct for someone to
8	take a report.
9	We've also identified approximately 119
10	people and these numbers change daily due to
11	retirements and transfers on various
12	non-patrol-related administrative duties.
13	The non-patrol-related duties would be
14	your vehicle maintenance officers. These are
15	officers whom we their job is to take care of
16	the fleet, so we try to find efficiencies of how
17	we can take these people, maybe scale down the
18	number of people doing it and add more people to
19	patrol.
20	Through all these, by combining and
21	eliminating these duties we expect to deploy, as
22	the Chief said, 100, 150 officers to the street
23	from these various duties. We are reducing

report to two to three per shift depending on the

L	physical	makeup	of	the	facility	at	this	point.

A review of Communications Operations which will also be talked about later, we expect to realize a significant reduction in calls per service and they'll explain what that means because we're looking at all our processes and seeing how we can eliminate the ability for an officer to respond to a particular call for service if there's another way, why tie up an officer if there's another way we can get that done.

The added numbers to personnel and the reduced non-emergency requests for service will result in more resources to engage in a preemptive enforcement strategy. Preemptive enforcement strategy, on the front end where we're looking at crime, and then it all depends on deployment.

The Chief and AC has directed -- once we realized these people, they're going to be drilling down very hard on what these people are doing. You can't get these people and say well, I've got more people. Well, what are they doing? How many man-hours are you putting them in a particular area in which you say you have a

1	problem? What are the results?
2	So now you drill down exactly to what's
3	going on, what are you doing and are the results
4	working, and if not we have a measuring we
5	have a metric of measuring.
6	With this we expect to have an
7	immediate impact on crime. I'm going to turn it
8	over now to Commander Bettison for the pilot
9	successes.
10	COMMANDER BETTISON: Before we get into
11	our pilot successes, I want to introduce you to
12	our master black belt, Mr. Jim Wilkins, and he
13	has a master black in Six Sigma. And for the
14	community, I'm not talking about karate or
15	martial arts. That's what I originally thought
16	it was at first.
17	However, Six Sigma is a way of
18	analyzing data and process improvement metric
19	that basically manufacturing would traditionally
20	use and it was a methodology that allowed the Big
21	3 and General Electric and some of the other
22	businesses to really improve processes and
23	deliver a quality product.
24	So Chief Godbee instructed myself to
25	and the committee to work on process improvements

1	within the department and to bring this method,
2	the Six Sigma model, to the Detroit Police
3	Department and we want it to be one of the first
4	departments to actually merge the two so that we
5	could work on metrics and process improvement.
6	And thus far it's been successful and
7	we're one of the first law enforcement agencies
8	in the country to bring that business model as
9	far as metrics and process improvement to law
_ 0	enforcement.
.1	So our pilot successes. The
_2	Northeastern District command, one of the things
.3	we wanted to do is assemble all the stakeholders
_ 4	initially. That's exactly what we did. We
. 5	brought everybody in so that before we kicked off
_6	the pilot we would know exactly what to expect
. 7	and identify issues early in advance to ensure
_8	that we were on target.
9	Reduce the number of walk-ins into the
20	district station. Another thing, increase the
21	number of cars and officers on patrol. Several
22	key secondary metrics show signs of improvement.
23	By adding additional officers to the
24	street and taking officers from behind the desk

we believe that we will reduce the number of

1	overtime hours and you'll see that we actually
2	did that. And then another key component is
3	which is very important reduce the number of
4	citizen complaints and we actually got zero
5	citizen complaints as a result of this pilot.
6	And during the pilot over at the
7	Northeastern District we received testimonies
8	from various citizens saying basically what took
9	so long, and that this process was easier, it was
10	faster, it was more convenient.
11	And then also the $9-1-1$ operators at my
12	Call Center, they received satisfactory comments
13	from citizens saying that with the new processes
14	of accepting UDAAs via the telephone whereas
15	before we would direct citizens after their
16	vehicles were stolen to come into a district
17	station. We used to receive a lot of citizen
18	complaints in the area of, "How can I actually go
19	to the district station and my vehicle was
20	stolen, how am I going to get there, a cab or bus
21	or what?" Next slide.
22	Our implementation timeline. We didn't
23	do this in a vacuum. We looked at best
24	practices. We commenced kicking off looking at

best practices back in January, 2011. Six Sigma

1	Pilot Project. One of the projects dealt with
2	enhancement of TCRU and provided recommendations
3	to expand the role of TCRU.
4	Back in July working with Mr. Jim
5	Wilkins we actually had four pilot projects that
6	we kicked off. One of them was over in the 8th
7	Precinct and it dealt with reduction in alarms.
8	The other one was in Northeastern
9	District and it dealt with Telephone Crime
10	Reporting Unit and also transferring calls
11	directly to TCRU to provide better service.
12	We had another pilot over in the
13	Eastern District that dealt with in-car reporting
14	and a project in the 6th Precinct that dealt with
15	AVL, GSP locators as far as showing where the
16	vehicles would be.
17	But based off the projects the project
18	that was most successful was the one in the
19	Northeastern District and the recommendation that
20	came out of that pilot project was to enhance and
21	expand the role of our Telephone Crime Reporting
22	Unit and based off of that pilot or that project
23	that's exactly what we're doing today, and it
24	helped lead to one of the main components of the

Virtual Precinct model.

1	Northeastern District Virtual Precinct
2	Model of course was kicked off January 9 and
3	we're proposing that we go city-wide with the
4	Virtual Precinct rollout on February 7.
5	At this point I'm going to introduce
6	Mr. Jim Wilkins, our master black belt in Six
7	Sigma and he's going to walk us through the
8	results of the pilot program and the actual
9	metrics on it.
10	Mr. Wilkins?
11	MR. WILKINS: Thank you, Commander.
12	First things first. Good afternoon. My name is
13	Jim Wilkins, I'm from a company called SEI
14	Consulting. We specialize in Six Sigma as well
15	as other process improvement methodologies.
16	I've been working with the Chief for
17	about a year and a half now and I'm proud to say
18	we've been able to have some significant
19	improvements to providing better services to the
20	city.
21	I've been asked to go over part of the
22	data analysis that we've been able to gather and
23	analyze from the pilot project. I should mention
24	this is preliminary data because the pilot itself
25	did not come to an end until this weekend, so

1	naturally the data all the data has not been
2	collected nor has it been analyzed, but you'll
3	see some significant improvements to various
4	metrics.
5	But before I do that, I'd like to call
6	attention to two inspectors who were responsible
7	for the heavy lifting so to speak at
8	Northeastern, Inspector Allen and Inspector
9	Sroka. They actually led this implementation or
10	this pilot program.
11	So having said that, let's talk a
12	little bit about what the data is saying. The
13	first slide I'm showing you here is talking about
14	the number of emergency overtime hours by week
15	and basically this is one of those niceties, side
16	benefits, coming out of the pilot.
17	What this slide is showing you is that
18	we've seen a 70.5 percent reduction in overtime.
19	This is emergency overtime hours for the past two
20	weeks or the latest two weeks versus the
21	beginning week of the pilot. So a 70.5 percent
22	reduction in overtime. Now, this is an important
23	slide.
24	One reason is related to this idea. If

you look at this slide, this is basically showing

	1 490
1	you the efficiency or, if you will, to give it
2	another word productivity.
3	Productivity can be defined as the
4	amount of work done versus the amount of hours to
5	get that work done. If that ratio is increasing,
6	productivity is increasing and if productivity is
7	increasing, that basically means that we're doing
8	more with less.
9	Now, that's a charge or a challenge
_ 0	that the Chief and his staff have been asked to
.1	accomplish for a while now. So looking at this
_2	slide, we can say that we're actually finding
_3	ways to increase productivity, the amount of work
_ 4	done versus the amount of hours required to get
_5	that work done. We're becoming more efficient,
_6	so this is a very big deal. Side benefit, very
. 7	big deal. So now if anybody asked here's
_8	evidence we're doing more with less. Next slide.
9	Here's another important slide. It's
20	related to the total number of accident reports
21	by platoon and you'll see this is a first week of
22	the pilot program, second week of the pilot
23	program. 1, 2 and 3, those are the three
24	platoons operating throughout that week.

And a couple of things jump out at you.

1	Number 1, look at the 1st Precinct. Not a lot of
2	activity. Now, if I had or if the precinct
3	had a fully staffed complement of officers to
4	address those complaints, there would have been a
5	lot of people with time on their hands.

So one of the things that we're seeing out of this is that we can start to balance the workload so to speak with this new concept Virtual Precinct and the expansion of TCRU. So what this slide is basically showing you is that we've got a 44.4 percent increase in the number of accident reports taken by TCRU.

Now, another big thing that comes off of this slide in terms of the analysis relates to the idea is that these reports are now taken by TCRU. That provides convenience for the citizen because now they don't have to come to the precinct and make out a report or stand in line to make out that report, they can simply call it in. So that's convenient on their part, but on a secondary issue now since TCRU is taking these reports you don't have to get the officers involved. So that's, again, freeing up ways — or freeing up time, if you will, for the police to go out and do what they're supposed to be

1	doing and that's to prevent crimes.
2	Here's another slide that shows you
3	basically the Northeastern District visits for
4	two weeks. This was the first week in the
5	precinct, January 9, the second week of the
6	precinct January 16. Now, the important thing
7	that's coming off here besides the idea that 44.4
8	percent of the visits are increasing in the lobby
9	relative to TCRU phone usage, but if you look at
_ 0	this slide basically you've got some categories
.1	here.
_2	Here's a category for TCRU reports,
_3	people coming in to the precinct to make a report
_ 4	that additionally would go to TCRU. There's
. 5	accident reports here. IOU which typically is a
_6	pass-through and a couple of other ones.
. 7	But basically half of this pie chart
. 8	that you see here existing relative to visits are
9	now taken by TCRU or TCO operators which means
20	what. The police don't have to deal with it, the
21	precinct doesn't have to deal with it.
22	And if you look at this idea about the
23	TCRU reports being or the reports being taken
24	by TCRU, it provides convenience for the citizen

at large because they don't have to stand in line

again. So this is a huge part -- a huge deal associated with Virtual Precinct. Next slide, please.

Here's the number of calls transferred from 9-1-1 to TCRU, so calls come in to 9-1-1, depending on the emergency or the type of call, a lot of them now are being transferred directly to TCRU. Again, what does that do for you? It does not require officers to become involved or the precinct to become involved, and you can see from this slide we've seen an increase of about 111 percent.

Look at the jump going from last year to this year for the second, third and four weeks of January which represents the first, second and third week of the pilot. So, again, we're freeing up time for operators — excuse me, POs, police officers, to do what they're supposed to be doing.

Here's the second piece of what's going on with regards to TCRU. Again, capturing the same we've got 72.5 percent increase in the calls 2011 versus 2012 for the first three weeks of the pilot. This also means that now the reports are going directly to the TCRU, the precincts don't

1	have to be involved with those types of reports
2	and it's freeing up time for police officers to
3	go do what they're supposed to be doing.
4	This last slide and this is
5	basically where the rubber meets the road so to
6	speak, this whole premise behind the Virtual
7	Precinct model was to put more boots on the
8	ground so to speak. This is just one week of the
9	impact of the Virtual Precinct model and this is
10	broken up by platoon, Platoon 1, 2 and 3. And
11	you can see from this graph that we've had an
12	increase in the number of officers, boots on the
13	ground so to speak, that are out there fighting
14	crime.
15	On the Platoon 1 you'll notice there's
16	a small decrease and that was due as the caption
17	is saying here, that decrease is caused by leave
18	time. Without those two data paints on Saturday
19	and Sunday they will have averaged around three
20	and a half to four more officers boots on the
21	ground for Platoon Number 1.
22	As it stood, we saw a 6.4 percent
23	average increase of officers on Platoon 2 and 5.6
24	additional police officers on Platoon 3. So with

data like this, it gives me great confidence that

1	this model Virtual Precinct will work and will
2	provide the Chief with 100 to 150 patrol officers
3	that are out helping to solve the city's crimes.
4	Any questions?
5	COMMISSIONER WHITE: Mr. Wilkins,
6	before if we could go back to that last slide
7	certainly could you talk a little bit about what
8	exactly this axis is, your X and Y axis, what are
9	we measuring in this particular I see the
10	number of police officers. What is
11	"observation"?
12	MR. WILKINS: Oh, this is each day, so
13	this would be Monday, Tuesday, Wednesday,
14	Thursday and Friday, Saturday and Sunday. And
15	that's actually the number of police officers on
16	the Y scale, so this is time actually even
17	though these numbers are going up sequentially,
18	this is also Monday, Tuesday, Wednesday and
19	Thursday and so on.
20	COMMISSIONER WHITE: Okay.
21	CHIEF GODBEE: And, Mr. Wilkins, if I
22	can add, there's an unanticipated benefit to the
23	Board that's not indicated in any of these
24	slides. The more traffic we push through
25	Telephone Crime Reporting relative to reports

1	from an investigative standpoint if there's an
2	allegation of demeanor or service, those calls
3	are recorded.
4	Right now, a lot of the interactions
5	that you have relative to visits to precincts are
6	basically one-on-one encounters where the
7	officers were versus the citizen, but with our
8	Telephone Crime Reporting all those calls are
9	recorded, so I would believe based on that
10	hypothesis, Number 1, lowering the traffic in the
11	precincts is probably going to have a reduction
12	in citizen complaints relative to those
13	interactions in the precinct.
14	And then if there's a service or
15	procedure complaint relative to the service that
16	is given, you'll have a recorded transaction.
17	MR. WILKINS: Excellent point. So a
18	couple of continuous improvement I should say
19	ongoing continuous improvement activities.
20	What I've recommended to the pilot team
21	as well as to the other precincts that are going
22	to roll out the Virtual Precinct model tomorrow,
23	continue to document and record data on key
24	metrics to gauge the full impact of the Virtual
25	Precinct model. We haven't seen the full

1	implementation or the full impact of all
2	activities related to the enhancement of the
3	Virtual Precinct model, at least to this point.
4	We should get much better gains.
5	Also, one other thing I'd like to
6	mention to the Board, besides some of the metrics
7	that you saw presented here, we're also going to
8	evaluate other customer or citizen-related
9	metrics like complaints as well as satisfaction,
10	customer satisfaction as well.
11	Continue to conduct meetings with the
12	citizens to basically get better or more buy-in
13	because at the very beginning of this rollout
14	there was a lot of negativity associated with it,
15	but the more but the more you understand what
16	the purpose is, putting more boots on the ground,
17	the more you'll start to buy into the model
18	itself.
19	And then one other thing that we're
20	going to try to do to improve efficiency is to
21	implement and I think that's already in place,
22	right, or going to be in place this week the
23	implementation of telephone prompts to basically
24	direct a caller. If your call is related to

this, it will automatically switch you to a

1	particular department, so that will speed up the
2	process as well, okay.
3	CHIEF GODBEE: And just before Q&A,
4	Mr. Chair, if it please the Board, just a last
5	point. It's important to note we're not
6	reorganizing or restructuring at this point.
7	However, given the continuous process
8	of improvement as we engage Mr. Wilkins there
9	probably will be some restructure and
10	reorganization from a process improvement
11	standpoint.
12	Right now we're just looking at
13	administrative processes that we can gain greater
14	efficiencies, but at some point we actually have
15	to physically restructure some things.
16	We're not at that point yet, but it's
17	quite possible as we continue this engagement
18	that it will be some time in the future.
19	COMMISSIONER WHITE: Thank you, chief.
20	At this time we'll have some discussion from the
21	commissioners.
22	Commissioner Warfield, any questions?
23	COMMISSIONER WARFIELD: Thank you,
24	Mr. Chair, a few questions. It was, I believe,
25	Commander Bettison who talked about the jobs that

1	they've posted that are being added to that unit.
2	Approximately how many jobs do you
3	think or how many people will you hire as a
4	result of that?
5	COMMANDER BETTISON: Through the Chair,
6	Commander Bettison. It's going to be 29 TCO
7	positions.
8	COMMISSIONER WARFIELD: Are those
9	officers or are they civilians?
10	COMMANDER BETTISON: Civilian
11	employees.
12	COMMISSIONER WARFIELD: And those are
13	posted right now, currently posted?
14	COMMANDER BETTISON: Yes, sir.
15	COMMISSIONER WARFIELD: A couple other
16	things real quick. Actually some of them were
17	answered through our Sigma black belt, so I
18	appreciate that.
19	Could you define for me what is the
20	definition of "emergency overtime"?
21	CHIEF GODBEE: Emergency overtime is a
22	situation that exists, through the Chair, wherein
23	we have less than, I think, two hours notice that
24	we have an anticipated need for additional
25	personnel. Anything in excess of two hours will

1	be called pre-scheduled overtime and for
2	pre-scheduled overtime there's a roster that we
3	must go through prior to assigning the overtime
4	opportunity.
5	COMMISSIONER WARFIELD: And for the
6	stakeholders that were called together when this
7	was going on, who was invited to that meeting
8	from the Northeast District?
9	I'm assuming it was stakeholders in the
10	Northeast District?
11	COMMANDER BETTISON: Absolutely and the
12	most qualified best person to answer that
13	question would be Inspector Allen. He actually
14	called together the stakeholders.
15	Inspector Allen?
16	INSPECTOR ALLEN: Good morning,
17	Inspector Dan Allen, Northeast District.
18	Inspector Sroka and I felt that
19	important from the very onset to involve everyone
20	that would be associated with this project, and
21	to that end we called in our union people, we
22	called in the officers that would be affected,
23	those inside positions, we called in most
24	importantly our community groups, so we were able
25	to roll this out.

1	We sat down with these folks at the
2	conference table and we were able to field their
3	questions. That added the transparency that we
4	needed and that gained us the buy-in that we
5	needed to make this the success that it has been.
6	So we have had and experienced great
7	success with that and I would add and I don't
8	want to go too much off the script we really
9	never kept records or kept track of the amount of
10	walk-ins that we had to the station.
11	We had people sign in, but we never
12	tabulated that number. So we did and we've got
13	some pretty shocking results. On the midnight
14	shift and the afternoon shift there have been
15	days and quite a number of days where we
16	have had zero foot traffic. So from an
17	efficiency standpoint, I have an officer at the
18	door to screen someone who never comes and I have
19	an officer to take reports from someone who never
20	comes. Again, we didn't keep track of these
21	things before.
22	Now, when we do get people coming into
23	the station previously I had one officer to take
24	a report, so if three or four people did happen

to come in at the same time, which can happen,

1	they had to wait in line behind that person
2	because there was one officer there to take the
3	report.
4	Now we have three phones, so if three
5	people come in they're going to be serviced right
6	away. And, again, I don't mean to deviate from
7	the script, but these are things these are
8	just things that we found and, again, some we
9	found by accident.
_ 0	COMMISSIONER WARFIELD: You had
.1	mentioned, Lt. Allen [sic], some of the concerns
_2	that the citizens had in your stakeholders
_3	meeting. Can you just mention some of those
_ 4	concerns and how they were addressed if you
. 5	remember any of them at all?
_6	INSPECTOR ALLEN: I think when the
. 7	media first reported on this they put some
_8	misinformation out and they used some terminology
9	that we don't use, i.e. that the precincts were
20	closed. That station is never closed and access
21	is never denied to anyone that would come to our
22	doors requesting any kind of assistance.
23	But, again, and it was important,
24	that's why when you brought the citizens to the

table and they were able to express that concern

1	to us, we were able to dispel that false notion
2	that had already been put out there. So that
3	station remains a safe haven for the community
4	and always will.
5	COMMISSIONER WARFIELD: Let me ask you
6	this on that point just as a follow-up. I think
7	it was the night that the press conference was
8	done at the station or the night after that, one
9	of the local stations reported and had some
10	citizens there reporting that there was an
11	excessively long time before someone came on the
12	phone and answered their inquiry.
13	Are there time issues? Are there time
14	issues as it relates to how long it takes for
15	that call to get answered or was that just an
16	anomaly because the program had just began?
17	INSPECTOR ALLEN: Well, there have been
18	some kinks, but when you say "call", you mean the
19	call from the citizen to the front desk or the
20	call to TCRU?
21	COMMISSIONER WARFIELD: If I remember
22	correctly, in the report the citizen was there
23	waiting on the phone and I'm not sure if it was
24	to the front desk, nor am I sure if it was to
25	TCRU, but they were waiting on the phone and

1	they
2	CHIEF GODBEE: Through the Chair also,
3	that was a call to the front desk and the prompts
4	that Mr. Wilkins has referred to that will direct
5	a person to the right number will really erase
6	some of the issues of the call to the front desk.
7	As it goes to calling TCRU, I think the
8	average wait time has been about 20 seconds
9	before you get an operator.
10	COMMISSIONER WARFIELD: Great. I
11	appreciate the fact that there's probably going
12	to be less reports, through the Chair, taken at
13	the desk and I certainly appreciate the fact that
14	there will be more boots on the street. We
15	absolutely need that.
16	However, if I remember correctly that
17	last community meeting we had some citizens who
18	had concerns about how they were treated once
19	they're in the station at the desk and one
20	gentleman who was, I believe, a former airman in
21	the Army felt he was sorely mistreated.
22	And what we don't want to do is
23	transfer officers from the desk to the street
24	where they encounter more citizens who will
25	potentially have more interaction with those

1	citizens and I just hope that, again and I
2	know, I've said it before, the vast majority of
3	our officers in the department do an outstanding
4	excellent job every day.
5	But I just want to make sure that in
6	transferring individuals from the station to the
7	street that they understand that the care and the
8	concern of our citizens and the respect that they
9	deserve is very important and we hold those to be
10	very sacred and even as we review cases now that
11	come across our desk, and Chief, you know we have
12	just a few where our frequent fliers and we
13	definitely don't want to increase that number of
14	frequent fliers and have them more to have
15	more interaction with citizens, but we keep a
16	tight wrap on that.
17	CHIEF GODBEE: Yes, sir.
18	COMMISSIONER WARFIELD: That's all I
19	have. Thank you, Mr. Chair.
20	COMMISSIONER WHITE: Thank you,
21	Commissioner Warfield. Commissioner Taylor?
22	COMMISSIONER TAYLOR: I just have one
23	question and may have been answered in part, but
24	I would like to know is there any challenges that
25	you foresee the citizens having with this

1	process?
2	CHIEF GODBEE: Through the Chair,
3	potentially just the different service delivery
4	model. It's different. I mean, this is the way
5	we've done business I'm coming up on my 25th
6	year with the department and this is the way
7	we've always handled police reports.
8	So I think the education, utilization
9	of Channel 10 and community engagement to help
10	people became acclimated to what service they
11	will receive when they come to the precinct,
12	that's a leadership challenge that I think
13	Inspector Allen and Inspector Sroka have
14	challenged very forthrightly and head on,
15	particularly with Kimberly Jackson, the president
16	of the Northeastern District Police Community
17	Relations who's been very helpful in citizens
18	understanding the different services.
19	COMMANDER BETTISON: Through the Chair,
20	I'd just like to add that we're presently working
21	with our Audio-Visual Department to actually make
22	a video, a tutorial, showing citizens exactly how
23	the use the Virtual Precinct, so I'm currently
24	working with Sgt. Quinn.
25	CHIEF GODBEE: And on that point, the

1	term "Virtual Precinct", Virtual Precinct is a
2	methodology, it's the use of the Telephone Crime
3	Reporting Unit. The reason why we the
4	terminology Virtual Precinct, Milwaukee,
5	Wisconsin, they did the same thing by utilizing
6	restricted-duty officers to staff what they term
7	as a Virtual Precinct.
8	We already have the existing
9	infrastructure. There are a lot of things that
_ 0	the Detroit Police Department has done right in
1	the past, but have gone by the wayside. We
_2	talked about civilianization. We have already
_3	had that civilian capacity, but typically in past
_ 4	budget administrations with different
_5	administrations when there was a cut to avoid
_6	cutting police they cut civilians as opposed to
. 7	doing a cost benefit to see what the civilian was
_8	performing to better make sure that we have more
_9	boots on the ground.
20	So we've been more thoughtful in that
21	analysis, so basically we're utilizing a tool
22	that we already have in our toolbox.
23	COMMISSIONER WHITE: Thank you, Chief.
2.4	Anything further, Commissioner Taylor?

COMMISSIONER TAYLOR: No.

1	COMMISSIONER WHITE: Thank you very
2	much. I have a few questions, some of which have
3	been answered and some of which I need a few
4	additional points of clarification.
5	Just for the record, as it relates to
6	new precinct hours, where does that stand?
7	CHIEF GODBEE: Precinct hours are 24
8	hours a day seven days a week 365 days a year.
9	That construct has not changed.
10	From 4 PM to 8 AM the only difference
11	is as opposed to a police officer face to face
12	taking a police report from you, you will utilize
13	a telephone to talk to Telephone Crime Reporting
14	Unit.
15	So the hours of operation are seven
16	days a week, 24 hours a day, 365 days a year.
17	COMMISSIONER WHITE: That's a
18	clarification that leads to my next question. Is
19	the Virtual Precinct what we're calling this
20	initiative as we go forward because I do think
21	there is a misnomer.
22	As I stated earlier on in this process
23	and I was in agreement with the direction we were
24	moving, but in disagreement in how we were
25	communicating it out and how particularly the

1	media was communicating it out, that the
2	precincts would be closed, but in fact as you
3	stated seven days a week 365 days a year, so how
4	do what do we call this initiative as we talk
5	about it amongst our individual circles?
6	CHIEF GODBEE: It's a Virtual Precinct
7	methodology, I think that's fair to say. I mean,
8	that nomenclature, it is what it is. Without
9	making a broad brush generalization on the media,
10	there was a channel who thought they had a scoop.
11	There were people that gave them information that
12	they felt would help better protect their job
13	inside, so the alarmist of closing the precincts,
14	it caught hold. They source everything they
15	want. They call my cell phone, they follow me,
16	but on that one particular issue they didn't
17	decide to source, they decided to run with it and
18	they were wrong.
19	So to that end it's just continual
20	community education, but continuing to do the
21	right thing. If nomenclature becomes an issue, I
22	ain't married to it. If I got 150 police
23	officers on the street, they can call it hickory
24	dickory dock, I don't care.
25	The important thing is that the

1	methodology and I don't mean that flippantly
2	but I'm not married to the terminology, but
3	since we've started down that road, since it's
4	been successful in another community and it is
5	just a reinstitution or a re-polishing of what we
6	already have, and further communications, we have
7	known and parenthetically Telephone Crime
8	Reporting Unit.
9	COMMISSIONER WHITE: Thank you, and
10	Chief, for the record we're not saying that
11	precincts are closed at any point in time?
12	CHIEF GODBEE: Yes, sir, I know you're
13	not.
14	COMMISSIONER WHITE: No, I mean as a
15	department, we're not indicating
16	CHIEF GODBEE: Absolutely not.
17	COMMISSIONER WHITE: No precincts are
18	closed?
19	CHIEF GODBEE: As a matter of fact, we
20	want to encourage our communities to utilize that
21	precinct and district as a community center for
22	their functions, for block club meetings, the
23	same things that they would be utilizing the
24	community rooms for, we want to encourage them to
25	continue to utilize it for that.

1	COMMISSIONER WHITE: Thank you, Chief.
2	Some of what was talked about on how we're
3	communicating this program was already talked
4	about. I heard the implementation of a new video
5	coming which should be running on Channel 10.
6	But if you could talk a little bit
7	about what is inside the precinct. What will an
8	individual see as relates to is there a
9	one-two-three step process that is visible or
10	what will individuals see when entering the
11	precinct that will instruct them on what they
12	should do next?
13	COMMANDER BETTISON: Chairperson, what
14	we've done is we've created signage, so when the
15	citizen walks in there's different size signs
16	posted that directs them and illustrates how to
17	utilize the telephone bank as well as officers
18	there available if further assistance is needed.
19	So when you walk into the if you
20	looked at the Northeastern District, for example,
21	the sign is posted on the outer door area right
22	at the front desk, there's signs posted above the
23	telephones as well with a step by step telling
24	the citizens how to utilize that.
25	And we still have two persons manning

1	the front desk area as well, a supervisor and a
2	report officer, there to be able to give them
3	additional instructions.
4	CHIEF GODBEE: The one thing that's
5	consistent, through the Chair, is that the
6	officer in charge of the station desk is a
7	supervisor and that has not changed. So it's
8	their responsibility to ensure that as citizens
9	enter our precincts and districts that they're
10	given any additional instruction that the signage
11	does not provide.
12	Also, I believe the signage is
13	bilingual to deal with members of our community
14	who may not speak English.
15	COMMISSIONER WHITE: Thank you for
16	that, Chief. Forgive me if I overlooked it in
17	the data, but as it relates to the number of
18	visitors to the station between 4 and 8 PM, has
19	that been modified?
20	COMMANDER BETTISON: We have
21	COMMISSIONER WHITE: The pilot?
22	COMMANDER BETTISON: We did and we're
23	we have to break it down actually by shift.
24	We looked at the total numbers and one of the
25	things that we looked at, it was a big category

1	as far as others, and by doing this pilot as far
2	as metrics, it actually gave us lessons learned,
3	so we're as we implement it city-wide we'll go
4	back and look at and better categorize that
5	category.
6	Some of the things that fell into other
7	things was sex offender registry with individuals
8	coming into the precinct to register. Another
9	category would be on citizens utilizing the
10	district or precinct for custody-related issues
11	where you're dropping off a child to the mother
12	for visitation. And that was done around the
13	clock, but we did learn some lessons and we will
14	with our continuous improvement process measure
15	categories more specifically, sir.
16	COMMISSIONER WHITE: And, Commander,
17	just for clarity the slide that showed
18	Northeastern District visits week of January 9
19	versus January 16, those are visits from the 4 to
20	8 AM window 4:00 PM to 8:00 AM window or is that the
21	total visits for the day?
22	COMMANDER BETTISON: If I'm not
23	mistaken, that was the total visits for that day.
24	COMMISSIONER WHITE: Thank you for
25	that. As relates to the timing, and I know,

1	Chief, we're moving towards getting out of
2	detainee visits, but certainly will detainee
3	visits be impacted by this new standard?
4	CHIEF GODBEE: No, sir. Those are a
5	part of our reasons why someone may visit a
6	precinct or district, assuming they have a
7	holding cell. I think five of our eight
8	facilities have holding cells.
9	COMMANDER BETTISON: Correct.
10	COMMISSIONER WHITE: And are detainee
11	visits at a 24-hour window? Is that a 24-hour
12	process that individuals can visit?
13	CHIEF GODBEE: Currently it is. We
14	look at other communities, they have windows for
15	visitation, but right now as it stands it's still
16	24 hours.
17	COMMISSIONER WHITE: It's not impacted,
18	okay. And we reference best practice
19	communities. That was Milwaukee, Wisconsin?
20	COMMANDER BETTISON: That was one right
21	there, Milwaukee. We've looked at Nashville. In
22	even local communities, Flint PD and Inspector
23	Rivers is here. Her shop with Planning
24	Inspections actually looked at those communities
25	and Inspector Rivers

1	INSPECTOR RIVERS: Good afternoon.
2	Inspector Robin Rivers. When this idea came
3	about through the Assistant Chief he asked Labor
4	Relations to do some comparable along with
5	Planning and we did do that. It wasn't ill
6	advised and in fact I was actually personally in
7	Nashville, Tennessee and it was on a Saturday. I
8	actually went up to the door and it was locked.
9	A scout car pulled up shortly thereafter and I
10	asked him the question, "Are you closed on the
11	weekends? He advised me that they were and the
12	sign was posted on the door "Monday through
13	Friday 9 to 5".
14	So then that spurred me to check into
15	other agencies. As the commander had indicated,
16	Wisconsin does it. In Houston the mini station
17	is 9 to 5. San Antonio, San Diego, San Jose,
18	Indianapolis is 7 to 11. Columbus, Taylor,
19	Michigan, Flint, and just a number of others that
20	when I ask the question I actually in
21	Nashville I asked the officer because when you
22	have a paradigm change even I thought that was
23	strange because all my career I was used to being
24	24 hours.

And so when I asked them and I found he

1	was to give me a curious answer why I asked
2	him, "You're not open 24 hours?" and his
3	response was, "You are?"
4	And he talked about the savings and how
5	they're able to put more officers on the street
6	and how the traffic in the evening is not enough
7	to lose that type of manpower to the street.
8	And sometimes as a community and as a
9	body as a whole we get stuck in a box, but it
10	really is becoming the practices throughout the
11	country, it really is.
12	COMMISSIONER WHITE: Thank you,
13	Inspector.
14	CHIEF GODBEE: We're not quite ready to
15	move to the 24 hours or the closed concept yet.
16	It's not anything I'm prepared to do.
17	COMMISSIONER WHITE: Thank you, Chief.
18	If I could backtrack, I overlooked a question as
19	related to the average caller time. I heard the
20	wait time was 20 seconds. Have we measured how
21	much time an individual caller is spending on the
22	phone to complete that process?
23	COMMANDER BETTISON: I'm going to have
24	my subject matter expert, Sgt. Shirley Jones,
25	come to the mic right now and she's been assigned

1	to the unit for and running it for I'll let
2	her tell you exactly how long, but she'll be able
3	to break that down and we have a system that's
4	similar where all the data is captured there.
5	That's how we actually are able to keep track of
6	that.
7	SGT. JONES: Good afternoon. I'm Sgt.
8	Shirley Jones from Telephone Crime Reporting. As
9	the commander indicated, I've been at Telephone
_ 0	Crime Reporting the majority of my career. I am
.1	in my 26th year. Prior to becoming a police
_2	officer I was a telecommunications operator for
_3	five years.
_ 4	The average call wait time is
. 5	approximately 20 seconds. That amount of time
_6	varies depending upon the time of day, the
. 7	manpower that we have scheduled and the volume of
_8	calls that are coming in at that particular time.
9	There are certain periods of the day
20	where we experience longer call wait times and
21	there are other times when it's shorter. During
22	the midnight shift the majority of people are
23	asleep, so we don't get that much traffic.
2.3	asicop, so we don't get that math trailie.

of 2 PM to 6 PM we get the most volume because

1	that's when the majority of people are getting
2	off work, getting off school getting out of
3	school and they have time available to handle
4	that kind of business when it doesn't interfere
5	with the rest of their lives.
6	Specifically the amount of time that a
7	person spends on a call will depend on what
8	they're trying to report. Sometime citizens just
9	call for information, could you give me the
10	number to this place or I want to know if this
11	person is under arrest, and other times they're
12	trying to report an accident, which is a lot more
13	extensive than just a call for information.
14	So the time that a call takes could
15	vary from anywhere to a minute if they just want
16	information or a phone number to we've seen
17	them take a half an hour. Sometimes people's
18	homes are broken into and they have a detailed
19	list of the items already prepared that they want
20	to add to that report.
21	COMMISSIONER WHITE: Thank you.
22	SGT. JONES: You're welcome, sir.
23	COMMISSIONER WHITE: Last question
24	before I wrap up here. The expected 150 officers

that were projected to be available for the

1	street for these various duties, individuals who
2	are assigned to administrative functions were
3	included in this number, is it those individuals
4	who are restricted duty and if so, how will they
5	be reallocated out?
6	CHIEF GODBEE: Restricted-duty people
7	now are utilized to supplement the positions at
8	Telephone Crime Reporting Unit until we're able
9	to fill the requisition for the TCOs.
10	Additionally, some of the current
11	report clerks will fill in the gap until we have
12	that unit up and functioning. We have to also
13	look at the competency of the person to take the
14	report.
15	The reason why the TCOs are more
16	efficient, their typing skills are typically
17	better, so manipulating the crisnet report for
18	them is much simpler. There are some officers
19	that are restricted due to they've never used
20	crisnet, so their learning curve is much steeper,
21	so every restricted-duty officer is not really
22	have a competency we need.
23	So between those two entities, that's
24	how we're filling the gap until we're able to
25	fill the requisition with the TCOs.

1	COMMISSIONER WHITE: Thank you, Chief.
2	Anything further, Commissioner Warfield?
3	COMMISSIONER WARFIELD: Just a couple
4	of follow-ups with Commander Bettison. You had
5	mentioned the sex offender register.
6	So are those individuals still able to
7	get registered and is there a window of time when
8	they need to come in?
9	COMMANDER BETTISON: Yes, sir, they're
10	still able to get registered and there is a
11	window of time. That window has passed right now
12	and I'm not sure of the exact window, how the
13	schedule is via the State.
14	COMMISSIONER WARFIELD: Okay. Same
15	thing with the custody drop-offs. Are those
16	still able to happen?
17	COMMANDER BETTISON: 24/7.
18	COMMISSIONER WARFIELD: Great, thank
19	you.
20	COMMANDER BETTISON: What we did,
21	through the Board, is we looked at best practices
22	and then tailor-made our plan for the citizens of
23	Detroit, taking the best of the best.
24	So we will not limit access to the
25	districts and precinct stations to our citizens.

1	Only thing that's limited as far as report
2	taking.
3	COMMISSIONER WHITE: Anything further,
4	Commissioner Taylor?
5	COMMISSIONER TAYLOR: No.
6	COMMISSIONER WHITE: Thank you,
7	Commander, et al, and Chief, thank you very much.
8	CHIEF GODBEE: Thank you, sir.
9	COMMISSIONER WHITE: Counsel?
10	MS. WASHINGTON: Through the Chair,
11	Chief, you made me feel so important waiting an
12	opinion but I have to first say that all
13	opinions with regard to legal issues come through
14	the Law Department, so this is not and certainly
15	is not my opinion.
16	But last week I believe it was last
17	week that it was put on the record that the Board
18	asked me to research an issue specifically
19	whether the department needed the approval of the
20	Board to switch to the Virtual Precinct model.
21	I had the pleasure of sitting in a room
22	with four other lawyers for four hours. It was
23	extremely it was intellectually challenging.
24	And let me again, before I even get
25	into that, I don't believe and I'm not

1	speaking for the Board, I'm certainly not
2	intending to do that, but I don't believe that it
3	was the Board's intention to interfere with the
4	Chief's plan or implementation of a Virtual
5	Precinct model.
6	I think the Board is keenly aware based
7	on my understanding and again this is the
8	first time that I've presented this, so there's
9	been no deliberation behind the scenes never
10	the intention to interfere, just to make sure
11	that everybody follows the Charter.
12	And, again, as I said, after spending
13	an afternoon with all the lawyers we went through
14	the old Charter and the new Charter and first of
15	all and I'm going to read the opinion to make
16	sure Inspector Allen said that I don't go off
17	script, but that there are it's not as cut and
18	dry as maybe the Board would understand it to be
19	or that the department would understand it to be,
20	that there's very few operations or functions
21	that are purely operational or purely
22	organizational. I think that that was an
23	important distinction.
24	So if you will allow me. Again, the

issue was whether the department needs the

1	approval of the Board to switch to the Virtual
2	Precinct model. In making this determination we
3	reviewed the 1997 and the 2012 charters.
4	Under the 1997 Charter in Section
5	7-1102 the Board of Police Commissioners headed
6	the police department. Section 7-1103(1) read
7	the Board shall,
8	"In consultation with the Chief of
9	Police and with the approval of the
10	Mayor establish policies, rules and
11	regulations."
12	Section 7-1106 of the '97 Charter
13	further provided that the Chief of Police,
14	"Shall administer the department under
15	the policies, rules and regulations
16	established by the Board and shall, 2,
17	recommend rules, regulations and
18	procedures to the Board for its
19	approval."
20	The City has always interpreted these
21	provisions to mean that the Chief of Police had
22	the authority to make decisions regarding the
23	operations of the department, and that the Board
24	of Police Commissioners had decision-making
25	authority over matters which impact the

1	department organization.
2	The latest charter revision commission
3	amended the above sections of the 2012 Charter.
4	Section 7-802 of the 2012 Charter now reads that,
5	"The Board of Police Commissioners has
6	supervisory control and oversight of
7	the police department as set forth in
8	this chapter."
9	Section $7-803(1)$ provides that the
10	department shall, "In consultation with the Chief
11	of Police and with the approval of the Mayor
12	establish policies, rules and regulations."
13	Section 7-806 of the 2012 Charter
14	further provides that the Chief of Police,
15	"Shall administer the department
16	consistent with the policies, rules and
17	regulations established by the Board
18	and shall organize the department with
19	the approval of the Board."
20	Subsection 2 of Section 7-806 provides
21	that the Chief shall, "Recommend rules,
22	regulations and procedures to the Board for its
23	approval."
24	Subsection 4 of Section 7-806 provides
25	that the Chief has the authority to, "Direct

1	employees in the performance of their duties."
2	When taking these two sections together
3	the Board of Police Commissioners has to consult
4	with the Chief regarding adoption of policies,
5	rules and regulations and secure mayoral approval
6	and that the Chief has to administer the
7	policies, rules and regulations established by
8	the Board which the Chief can recommend and
9	organize the department with the Board's
10	approval.
11	Unfortunately, Board, neither the
12	provisions of the 2012 Charter nor their
13	commentary offer any real assistance or insight
14	in defining what types of matters are purely
15	"organizational" within the sole purview
16	excuse me, purely "operational" within the sole
17	purview of the Chief or purely organizational
18	within the sole purview of the Board of Police
19	Commissioners.
20	Because of the changes that will occur
21	when DPD adopts the Virtual Precinct model, there
22	are arguments which tend to support the
23	conclusion that this situation is really a hybrid
24	which will cause both operational and
25	organizational changes.

1	A review of the DPD policy manual
2	reveals that the Board of Police Commissioners
3	had not adopted any rules or a policy regarding
4	the hours of operation for DPD precincts or
5	districts.
6	Therefore, the Board may not be able to
7	successfully claim that adoption of the Virtual
8	Precinct model constitutes a change in policy.
9	The Chief would in all probability respond to any
_0	such claim that the hours of operation of police
.1	precincts are thus department procedures within
_2	the purview of the Chief of Police to modify and
_3	direct.
_ 4	And again I would emphasize that the
_5	Charter does not speak to the word "procedures".
_6	However, based on BOPC or the Board's
_7	position in the past where similar instances have
_8	come up, for example changing from precincts to
_ 9	districts or districts to precincts, those types
20	of changes have been brought before the Board for
21	vote.
22	The 2012 Charter unfortunately failed
23	again to offer any clarity with respect to
2.4	specific functions of the Chief and of the Board.

While the Commission changed the

1	language, the Charter Commission, changed the
2	language from stating the Board, "Heads DPD" to
3	the Board now has supervisory control and
4	oversight of the department, again this does
5	nothing to definitively answer the question.
6	In short, it is a hybrid if there is
7	an "in short", there is a hybrid of the two.
8	There are no purely operational or organizational
9	changes and if the Board and if the Chief I
10	think both sides understand that there must be
11	some dialog and there must be some consultation.
12	I don't think that's an issue.
13	But again the only reference that we
14	have, Mr. Chair, is past practice.
15	COMMISSIONER WHITE: Thank you,
16	counsel. Questions, Commissioner Warfield?
17	COMMISSIONER WARFIELD: No, none.
18	COMMISSIONER WHITE: Commissioner
19	Taylor?
20	COMMISSIONER TAYLOR: No.
21	COMMISSIONER WHITE: Thank you for
22	that. At this time we'll move for public comment
23	for individuals who are wishing to address the
24	Commission specifically as it relates to the
25	Virtual Precinct model. I would like to hear

1	from you at this time.
2	Please come forward. For the record,
3	please state and spell your first and last name.
4	Be mindful of the two-minute allotted time.
5	Any comments? Any comments. Good
6	afternoon.
7	MS. SMITH: Good afternoon. Thank you.
8	I'm Mary Jo Smith. I bet you can spell it. I'm
9	president of the University District Radio Patrol
_ 0	and as some to you know from the meeting in the
.1	12th Precinct I spent a lot of time doing things
_2	connected with the police department.
_3	I'm not remotely distressed by the idea
_4	of Virtual Precinct. What has been a nightmare
.5	to me from my perspective is the abysmal lack of
_6	correct information, and I don't see that people
. 7	in our neighborhood yet understand what's
-8	happening.
_9	I see two questions remaining that I
20	get asked a lot and I have no answers for. Has
21	this change also altered how you make a police
22	report if your vehicle is stolen? Previously you
23	had to go into the precinct and sign affidavits.
2.4	If that's changed, that's something I'd like to

know to be able to tell people.

1	And the other thing that concerns me,
2	it sounded today as though police will no longer
3	respond to traffic accidents.
4	CHIEF GODBEE: Traffic accidents where
5	there is not injuries and the vehicles are
6	drivable, those will be taken by phone. That is
7	the best practice across the country.
8	Secondly as it goes to stolen cars,
9	those reports will, again, be taken by phone with
10	the requisite information that the Telephone
11	Crime Reporting Unit officers will apprise you of
12	which will be registration, proof of insurance.
13	The affidavit that has previously been
14	filled out in person will be read verbally and we
15	will have a manner by which we can capture it on
16	tape which will give the same effect.
17	MS. SMITH: Good, thank you. The one
18	thing
19	CHIEF GODBEE: Which we hope is more
20	convenient for the citizen.
21	MS. SMITH: Oh, it would have to be,
22	especially if you don't have a vehicle.
23	The other thing I would like to say,
24	having been with all sorts of people having

conniptions with the rollout of the verified

1	response for burglar alarms, and knowing that I
2	really liked the idea because my experience said
3	it was only a plus, and this which also has the
4	opportunity to be a plus, can we please do better
5	on the PR rollouts of these things.
6	If I had been able when this happened
7	to say to people, "No, you don't get it. Virtual
8	Precinct means there's another one, another
9	precinct on the telephone live and ready for your
10	call," that's so much better and so much more
11	realistic than saying your police precinct is
12	going to shut the doors at 4 o'clock in the
13	afternoon and roll up the sidewalks and come back
14	tomorrow at 8.
15	CHIEF GODBEE: Duly noted, but please
16	appreciate the police department did not give
17	that information out.
18	MS. SMITH: I understand that.
19	CHIEF GODBEE: Fox 2 did and I'll
20	name them now that you've asked, Fox 2 thought
21	they had a scoop and went with it.
22	Ill advised and it caused a panic
23	throughout the community. Hence, that's why we
24	they tried to preempt our announcement and
25	they did it incorrectly.

1	MS. SMITH: I understand that, but
2	I think that we as a community with all our
3	facets, Police Board of Commissioners, citizen
4	groups, has other options for more effective
5	response.
6	CHIEF GODBEE: Agreed, agreed, but
7	please appreciate when they let the genie out of
8	the bottle incorrectly I have no control over
9	that.
10	MS. SMITH: No, I understand that.
11	I've been torpedoed myself in other situations,
12	but I think there could have been other responses
13	and I think since this one happened, maybe next
14	time we can do better.
15	COMMISSIONER WHITE: Point well taken.
16	Thank you very much.
17	Are there other comments?
18	MR. WELBORNE: Good afternoon,
19	Commission and the Chief. My name is Bill
20	Welborne. I'm the president of City-Wide. I got
21	a couple of things I'd just like to bring up
22	that's been brought to me.
23	A lot of people ask me about the time,
24	4 o'clock. They want to know if the time could
25	be extended to 6:30. To me, 4 o'clock is okay

1	but a lot of seniors I met with a lot of
2	seniors last week and they were concerned about 4
3	o'clock. I don't know why.
4	CHIEF GODBEE: What is the concern
5	about 4 o'clock?
6	MR. WELBORNE: They just said they
7	thought it was too early.
8	CHIEF GODBEE: Too early for what?
9	MR. WELBORNE: For the precincts to be
10	closing up from 4 to 8.
11	CHIEF GODBEE: The precincts are not
12	closed.
13	MR. WELBORNE: They're not closed, I
14	know that, but that's the understanding they're
15	getting.
16	CHIEF GODBEE: Okay, but now you got to
17	correct them and say the precincts will not, are
18	not, shall not be closed.
19	MR. WELBORNE: Yeah, I told them that,
20	but is there any plans also to come out to the
21	different community relations meetings to explain
22	to these people what's going on.
23	CHIEF GODBEE: That's why we have very
24	talented precinct inspectors and that will be
25	their charge.

1	MR. WELBORNE: Okay, that's what I
2	wanted to know about because I've tried I
3	explained it to them, they don't want to take it
4	from me and since I'm the president of City-Wide
5	I got all the precinct presidents there at one
6	time and I can tell them what's going on, but
7	when you deliver it to the people, it's a
8	different thing.
9	CHIEF GODBEE: Absolutely, but that's
10	what we do.
11	MR. WELBORNE: I'm glad to see that
12	you're tightening up on man-hours. That's one
13	thing I believe in. When I was in he military,
14	man-hours meant a lot to me. If you get more
15	done with less, it's the best thing in the world.
16	CHIEF GODBEE: Yes, sir.
17	MR. WELBORNE: And I compliment you for
18	that.
19	CHIEF GODBEE: Thank you, sir.
20	COMMISSIONER WHITE: Thank you,
21	President Welborne. Any other comments? Any
22	other comments? Any other comments?
23	Seeing none, Commissioners, before us
24	is a model for the Virtual Precinct pilot and at
25	this time the Chair would entertain a motion to

1	approve the department's Virtual Precinct model
2	as presented by the Chief.
3	COMMISSIONER WARFIELD: Sir, I move
4	that this Board approve the Virtual Precinct
5	model as put forth by the Chief of the
6	department.
7	COMMISSIONER TAYLOR: Second.
8	COMMISSIONER WHITE: It's been properly
9	moved and supported. Any discussion? Chief,
10	during discussion I certainly want to say I
11	commend you and the department for thinking
12	outside of the box and coming up with a creative
13	way to move this department forward, as you
14	stated, in a climate of diminishing resources to
15	give a better service model to the citizens of
16	Detroit.
17	CHIEF GODBEE: Thank you, sir.
18	COMMISSIONER WHITE: And I also would
19	echo the sentiments of some of our community
20	members that I think we all can share in the
21	responsibility in how we communicate this process
22	out.
23	That's something to the benefit of the
24	community something as great as this initiative

should not be thwarted by a lack of communication

1	out to individuals because there will be those
2	who seek to tear this process down for lack of
3	communication and lack of proper information as
4	we move forward.
5	So, again, I commend you for an
6	excellent presentation and wish you much success
7	as this program begins to roll out.
8	CHIEF GODBEE: Think you, sir.
9	COMMISSIONER WHITE: Any other
10	discussion? Seeing none, all those in favor?
11	COMMISSIONERS: Aye.
12	COMMISSIONER WHITE: Opposed? Thank
13	you very much. Chief, I also will put forth as a
14	request that the Board receive a presentation 30
15	days after implementation of how we're doing
16	across the city so we can continue to monitor the
17	success of this program as we move forward.
18	CHIEF GODBEE: Sir, I would request we
19	do it at a community the evening meeting, the
20	first evening meeting after that 30 days so there
21	will be a wider audience.
22	COMMISSIONER WHITE: Let's just take a
23	quick second to come up with a date now. March
24	8, is that enough time to gather data to see?
25	CHIEF GODBEE: Yes, sir, I think we'll

2/6/2012

	Page 64
1	be able to close out our pilot information and
2	also have substantive data relative to the
3	city-wide implementation, and specifically how
4	many officers we've freed for police service.
5	COMMISSIONER WHITE: Thank you, Chief.
6	At this time there's no further business before
7	this body. Chair will entertain a motion for
8	adjournment.
9	COMMISSIONER WARFIELD: So moved.
10	COMMISSIONER TAYLOR: Second.
11	COMMISSIONER WHITE: It's been properly
12	moved and supported. Any discussion? Seeing
13	none, all those in favor?
14	COMMISSIONERS: Aye.
15	COMMISSIONER WHITE: Opposed? Thank
16	you, thank you everyone.
