3 2:59 p.m.

4 --- --- ---

5 CHAIRPERSON BELL: Good afternoon. I am  
6 Police Commissioner Willie Bell from District 4 and I  
7 serve as the Chair of the Board and I will be  
8 conducting our meeting today. On behalf of the Board,  
9 for those in attendance, thank you for joining us. And  
10 for the people viewing this meeting on your government  
11 cable channel, thank you for viewing our meeting.  
12 Commissioner Eva Dewalsche, Commissioner Lisa Carter,  
13 Commissioner Mallet and Commissioner Holly asked to be  
14 excused from today's meeting. They're out of the City.  
15 I'm going to ask our chaplan, Doug Manning, please come  
16 forward. Thank you, sir.

17 (Whereupon the Chaplan lead the  
18 Commissioners in prayer.)

19 CHAIRPERSON BELL: I'm going to ask the  
20 Commissioners to introduce themselves starting on my  
21 far right.

22 COMMISSIONER DAVIS: William Davis, District  
23 7.

24 COMMISSIONER BURCH: Shirley Burch, District  
25 3.

1 COMMISSIONER BROOKS: Elizabeth Brooks, at  
2 large.

3 COMMISSIONER BROWN: Darryl Brown,  
4 Vice-Chair, District 1.

5 CHAIRPERSON BELL: Thank you. At this time  
6 I'm going -- well, it appears that we might not have a  
7 quorum.

8 MR. HICKS: Yes, Mr. Chair. We do not have a  
9 quorum.

10 CHAIRPERSON BELL: We don't have a quorum so  
11 we're going to bypass the formalities at this time and  
12 I'm going to go straight to Mr. Hicks to introduce the  
13 staff.

14 MR. HICKS: Thank you, Mr. Chair. I do want  
15 to indicate in addition to introducing the staff today  
16 that Sergeant Gwen is taping our meeting today. Media  
17 Services is providing the audio service work for us  
18 today and Shay Coleman is the court reporter.

19 To my immediate right is Robert Brown, and if  
20 we go to the first row we have Mr. Warwick, who is the  
21 Board Attorney. We have Ms. Theresa Blossom (ph), who  
22 is Media Outreach. We have Faye Johnson (ph) who is  
23 Financial and then I'll go to Dr. Polly McAllister, who  
24 will introduce herself and any of the OCI staff that's  
25 present.

1 MS. MCALLISTER: Good afternoon, Board. I'm  
2 Polly McAllister, Chief Investigator and attending the  
3 meeting with me today is Supervising Investigator  
4 Gatoya (ph), Investigator Stanton. She hasn't made it  
5 down yet. Investigator James and Investigator  
6 Calloway.

7 MR. HICKS: That does it for us.

8 CHAIRPERSON BELL: At this time we're going  
9 to introduce Assistant Chief Williams. Will you  
10 introduce yourself and any other staff members who may  
11 be in attendance.

12 ASSISTANT CHIEF WILLIAMS: Thank you.  
13 Through the Chair, I'm going to -- well, I think I'll  
14 do this. We have a short list. I'm Assistant Chief  
15 Williams sitting in for Chief Craig who couldn't make  
16 it today. I'll introduce Captain McGinnis from  
17 Homicide, Lieutenant Potts from Neighborhood Liaison,  
18 and I guess I can also introduce Brian Neal. He works  
19 HR. And I believe he will have a reporting out he will  
20 be doing for the Board.

21 CHAIRPERSON BELL: Thank you, sir. Welcome,  
22 Assistant Chief Williams sitting in for Chief Craig.  
23 Do we have any elected officials or representatives of  
24 any elected officials in the audience?

25 MR. SLAUGHTER: Good afternoon. My name is

1 James Slaughter, and I work for Congresswoman Brenda  
2 Lawrence, 14th Congressional District.

3 CHAIRPERSON BELL: Any other VIPs in the  
4 audience?

5 (None responded.)

6 CHAIRPERSON BELL: I do want to introduce a  
7 young man I met coming into the building and Ms.  
8 Blossom would be pleased with that. He received a  
9 newsletter in the mail at his household and he was at  
10 the security desk and had this in his hand and  
11 naturally I introduced myself after we got here and  
12 being somewhat inquisitive. So I wanted to introduce  
13 Ozie Cargile from the East Grand Boulevard area. Thank  
14 you for your attendance. He wanted to address the  
15 Board so we will hear from him a little bit later.

16 I saw that he had this in his hand. I said  
17 yes there's proof there was a mailing that went out.  
18 Thank you. And others have received it too. I think  
19 that's really been very meaningful for individuals to  
20 receive that mailing from the Board. So I'm going to  
21 move right on. On behalf of the Board I wanted to  
22 express our concern for fallen and injured officers and  
23 their families. The Board receives a weekly report  
24 from the Department listing injured officers. I would  
25 ask Assistant Chief during his remarks to provide us

1 with an additional report.

2 The Board of Police Commissioners meet every  
3 week except for the Thanksgiving and Christmas holiday  
4 period. We meet at Police Headquarters in regular  
5 sessions three weeks in the month on Thursday at 3 p.m.  
6 We also meet in the community area the second Thursday  
7 of the month at 6:30 p.m. The Board exists to provide  
8 civilian oversight for the work of the Police  
9 Department. As a Board we receive and investigate  
10 non-criminal citizen complaints, monitor the operation  
11 of the Department and work with the Mayor and the Chief  
12 of Police to make or modify police policy. I just want  
13 to ask that Ms. Blossom put a spin on it when I had  
14 opportunity to do an interview and he said we are the  
15 eyes and ears of the community.

16 I like that in terms of we are the eyes and  
17 ears in matter of what we see, what we hear. We hear  
18 from -- you report out and interact with the community  
19 and with the Department. That's a good concept to  
20 break it down for those who really want to understand  
21 our operation. Our objective is the same as the City  
22 of Detroit; to provide for the best use of your tax  
23 dollars to improve on the quality of life within our  
24 city. As a Board we bring a unique perspective to  
25 policing; the eyes and viewpoint of civilians.

1 Civilian oversight is as important as all the founding  
2 principles in our democracy. Separation of powers  
3 between and Government allow for accountability,  
4 transparencies, rights to appellate and citizen  
5 control. These principles are important nationally as  
6 well as locally, as one of our guests stated,  
7 everything relates locally and that is so true. You  
8 can identify and should be concerned what's happening  
9 in your backyard and front yard and in your  
10 neighborhood.

11 I want to place a special note -- I want to  
12 place a special note into the record. Yesterday on  
13 July 18, 2018 was the hundredth year birthday of Nelson  
14 Mandela. Nelson Mandela spent 27 years in prison; most  
15 of them isolated on Robben Island off the coast of Cape  
16 Town, South Africa. Mr. Mandela was a freedom fighter.

17 In the name of peace Mandela pulled together  
18 the people of South Africa and became the first black  
19 president of South Africa to defeat apartheid. And I  
20 had opportunity to visit the island and the tour guide  
21 was one of his cellmates. They had made a commitment,  
22 I think this was a certain time period, to share that  
23 experience with the people that visit the island there.  
24 I think they had like a five-year commitment of all the  
25 inmates in terms of that process so I was blessed to

1 have that interaction.

2 It was very eye opening for somebody who was  
3 a cellmate and a freedom fighter with Mr. Mandela.  
4 Today we're going to have a presentation for  
5 technologies used in fighting crime. The tool is  
6 COMPSTAT. We hear a whole lot about COMPSTAT.  
7 COMPSTAT is used to track and police resources in an  
8 effort to reduce crime that provide a basic road map  
9 for getting police officers back in the business of  
10 proactive fighting crime rather than just reacting to  
11 it.

12 Today's presentation will be by Captain Toski  
13 (ph) and Adam Foreman. Toward the end of the meeting  
14 we have oral communication. Please make sure you print  
15 your name on a speaker card. Cards are located in the  
16 back of the table or can be obtained by seeing  
17 Mr. Brown to my right and he needs your card before the  
18 beginning of the public comments. I would hope that in  
19 that process you respect the Board and we respect you  
20 and respect the people in attendance and respect the  
21 audience that this is the Board of Police Commissioners  
22 meeting so we just want to remind you of that.

23 This past Saturday I had opportunity to  
24 attend, make sure I get this right, Assistant Chief,  
25 Motown Showdown on the Riverfront -- Showdown in

1 Motown. Anyway, it's Motown and the Chief had his  
2 rides out there. Lieutenant, I don't know if you had  
3 your ride, but he had his motorcycle. But it was just  
4 an outstanding afternoon that continued, I think, from  
5 10 to 3 o'clock; well attended, and some classics. We  
6 don't have to go past Eight Mile Road. You can just  
7 make that an annual affair on the Riverfront. It  
8 really was outstanding activities.

9 And they had a young man from California --  
10 you can report out. I'll stop right there, Assistant  
11 Chief. I'm actually going to have Lieutenant come  
12 forward and see if she can report on that. Her team  
13 had a lot to do with planning that and executing it as  
14 well. We can move on to your report. My remarks has  
15 ended. Thank you, Assistant Chief.

16 ASSISTANT CHIEF WILLIAMS: Through the Chair,  
17 I will start off with the current condition of our  
18 wounded and injured officers. Officer Wallis Johnson  
19 is still on long-term care. The following officers are  
20 all recuperating at home. Officer Anthony Brown,  
21 Officer James Kissleberg, Officer Eric Smith, Sergeant  
22 Eric Bucey, Officer Jessie Merquinn (ph), Officer  
23 Christopher Bush and Officer Christopher Thurson (ph)  
24 is still in the hospital; and this is the officer who  
25 was involved in the motorcycle accident just recently.

1 So he's doing well. They were able to do some good  
2 work and his prognosis is going to be good.

3 We also have Officer Robert Kovac who has  
4 been returned to duty from a motor vehicle accident he  
5 was involved in. He is still on restricted duty but is  
6 actually working for a VMO for the Fleet Control  
7 Section right now.

8 I have a couple more things I want to  
9 announce before I go into crime. I think everyone is  
10 tracking the promotional ceremony that's taking place  
11 on July 27th for our lieutenants and sergeants who are  
12 taking our L-PAC/S-PAC course at this time. They'll  
13 officially be promoted on July 27th and the ceremony  
14 will be at Second Ebenezer Baptist Church at 10:30 a.m.  
15 on the 27th.

16 The DPD Field Day is going to be Saturday,  
17 July 28th from 10 a.m. to 6 p.m. It's going to honor  
18 Detroit Police Department fallen officers. It's going  
19 to take place at Wayne State University campus 42 West  
20 Warren Avenue. It's going to be many competitions  
21 there; from a 5K walk to 313 basketball, softball and  
22 obstacle course, tug of war, youth activities, hundred  
23 meter dash and a ton of other things that will be  
24 taking place as well that day.

25 We also have an upcoming graduation of a

1 recruit class and that will be August 3rd. That's  
2 going to take place at Greater Grace Temple at 10:30  
3 a.m. Going into the crime report-

4 MR. HICKS: Excuse me, Mr. Chair. If I can  
5 interrupt, and I'm sorry, Chief. We have a sixth  
6 member of our Board who has arrived and that would be  
7 Member Burton. With Member Burton we are now in a  
8 position where we have a quorum and we need to go back  
9 and accept the Agenda.

10 CHAIRPERSON BELL: Thank you, sir. Thank  
11 you, Mr. Burton, for your attendance. Its been stated  
12 that we now have a quorum so the Chair will entertain a  
13 Motion to Approve the Agenda for this meeting.

14 COMMISSIONER DAVIS: So moved.

15 COMMISSIONER BROWN: Support.

16 CHAIRPERSON BELL: Those opposed?

17 (None responded.)

18 CHAIRPERSON BELL: Motion carries. The next  
19 item would be Approval of Minutes from July 12, 2018.

20 COMMISSIONER DAVIS: So moved.

21 CHAIRPERSON BELL: Its been properly moved  
22 and supported. Discussion.

23 (None responded.)

24 CHAIRPERSON BELL: Those in favor aye.

25 (Several responded by indicating the

aye.)

CHAIRPERSON BELL: Opposed.

(None responded.)

CHAIRPERSON BELL: Motion carries. Thank you, sir. We will continue with Assistant Chief reporting out.

ASSISTANT CHIEF WILLIAMS: Thank you, Chair. We'll start off with homicides. We are down 3 percent. For sexual assaults we're up 50 percent again. Again, we've explained that this is due to our actual reporting. There's a reporting mechanism called LENS. Those LENS in the past were recorded as miscellaneous. Now they're actually being recorded as actual crime events and that's why we show increase in our sexual assaults at this time.

For robberies we're down 11 percent. For carjackings we are up 7 percent. Aggravated assaults we're down 8 percent. For non-fatal shootings we're down 22 percent. And for all total violent offenses we're down 6 percent. For our property offenses; burglaries we're down 18 percent. Larcenies we are actually zeroed out so we have nearly the same number of larcenies last year as we've had this year. For our stolen vehicles we're down 24 percent. For overall property offenses we're down 12 percent. That will

1 conclude the Chief's report and I'll take any questions  
2 the Board may have.

3 COMMISSIONER DAVIS: I have one question.  
4 What are you doing or what plans do you have to combat  
5 the carjacking since this is very disturbing to a lot  
6 of people. It is to me.

7 ASSISTANT CHIEF WILLIAMS: Our actual  
8 Commercial Auto Theft Section, they're working with  
9 every precinct throughout the City. They actually have  
10 three of the carjackings that took place. They have  
11 two of them that are closed with one suspect being in  
12 custody and will possibly close another one with the  
13 same suspect. There are a few that remain open. We  
14 are looking at a possible pattern of carjackings that  
15 take place between I believe -- it's I don't know if we  
16 have anybody from organized crime here, but I believe  
17 it is Highland Park. I think it's in the Highland Park  
18 border and Detroit border, but I'm not sure so I will  
19 have to get that back to the Board because it may be  
20 the Hamtramck border and the Detroit border. We'll try  
21 to work with that Department as well to ensure that we  
22 combat that pattern.

23 Overall right now our Commercial Auto Theft  
24 Team is actually just on overdrive trying to combat  
25 this. Any time we get a report of a carjacking they go

1 out. They conduct surveillance and they see if they  
2 can locate the vehicle. And then they also question  
3 the individuals making the reports. We have a couple  
4 of instances, just in the last, I want to say, last  
5 week we've had 13 reported carjackings and of those 13  
6 it's two of them that will be backed out. One may be  
7 backed out as a false felony report and the other one  
8 may be backed out as an actual straight steal. We are  
9 actively investigating these. We're bringing a lot to  
10 closure and it's a city wide enforcement that's taking  
11 place.

12 COMMISSIONER DAVIS: Thank you.

13 COMMISSIONER BURCH: I have a question. Is  
14 there a certain make up of car and a certain area where  
15 there's more burglaries that happen?

16 ASSISTANT CHIEF WILLIAMS: So city wide I  
17 think all the precincts right now are showing a  
18 decrease in actual burglaries if we're talking about  
19 regular burglaries. If we're talking about the smash  
20 and grab that we had with just a proliferation of  
21 vehicles smashing into institutions or businesses; and  
22 then once they get inside the business, whether it be a  
23 liquor store or dispensary, they're either going for  
24 the safe or going for items such as liquor, cigarettes.  
25 We've actually had a decrease in the smash

1 and grabs due to a lot of enforcement efforts. We've  
2 made numerous arrests for the smash and grabs and  
3 that's along with the outside agencies. Warren PD was  
4 actually involved in the chase where they will take two  
5 in custody who were possibly involved in smash and  
6 grabs. And we have a proliferation -- well, I won't  
7 say proliferation -- but we have two emerging patterns  
8 taking place now.

9           Again, we have a crew out right now that's  
10 basically hitting ATMs and stealing ATMs. I think  
11 we've had three or four instances of stolen ATMs and we  
12 have another burglary crew that's using pry tools to  
13 get inside of institutions or businesses and they are  
14 stealing safes. We haven't had one of those instances  
15 happen in a while. We're using a lot of technology to  
16 combat that. We actually have our crime intelligence  
17 unit preparing numerous products that are both  
18 predictive and actually they give us a geographical  
19 location and also a time frame of when we can do  
20 enforcement. So there's a number of different things  
21 that we're trying to do right now to combat the  
22 burglaries.

23           COMMISSIONER BURCH: I meant the personal  
24 vehicles of the citizens. You know, like you hear so  
25 many people say their car was stolen. So do you have a

1 certain make of car that these thieves are going after?

2 ASSISTANT CHIEF WILLIAMS: Are we talking  
3 about the carjackings?

4 COMMISSIONER BURCH: Yes.

5 ASSISTANT CHIEF WILLIAMS: For the  
6 carjackings there's no specific vehicle.

7 CHAIRPERSON BELL: Any other questions or  
8 comments?

9 COMMISSIONER BROOKS: Yes. On East Jefferson  
10 someone crashed into a drugstore; ran right into the  
11 window, the door, and they went back a second time and  
12 did the same thing. Do you call that smash and grab?

13 ASSISTANT CHIEF WILLIAMS: Yes, that's a  
14 smash and grab. That's Knights Drugs on Jefferson.  
15 They were hit on Friday. The crew that tried to hit  
16 them, they were up able to gain entry on the first hit.  
17 The second incident that occurred, that same crew that  
18 actually attempted another smash and grab on nights,  
19 they initially tried to do an ATM theft. So they  
20 initially tried to take a Chase ATM on Gratiot. They  
21 were unsuccessful.

22 At that point they basically, what I would  
23 call a crime of opportunity, they saw Knight's Drug was  
24 only store front was basically protected by plywood  
25 while they were waiting for the repairs to take place

1 and they attempted to hit that location. Once they  
2 made entry they tried to pry into one the medicine  
3 cabinets and they were unsuccessful in getting in and  
4 were unable to take anything. So we've had on both  
5 instances we've had the captain of the 7th Precinct go  
6 outs and speak to the owner as well as the deputy  
7 chief. And, after they had the conversation with the  
8 owner, the owner showed a lot of interest in becoming a  
9 green light, which will also help us in deterring  
10 individuals from doing these crimes in the future at  
11 that location.

12 COMMISSIONER BROOKS: Thank you.

13 CHAIRPERSON BELL: Any more questions?

14 COMMISSIONER BROWN: Chief, I just want to  
15 give some kudos to the Department in working with the  
16 Fire Department. I did see the news story on the  
17 marijuana facility that they broke in through the roof.  
18 And just the technology that this man had on his  
19 facility really helped facilitate catching these guys.  
20 I understand they were responsible for the break in of  
21 several facilities and it was good to see that  
22 everything came together with the alarm system and the  
23 response of both departments. I know ya'll needed some  
24 help getting up there, but it was a good thing. It was  
25 good to see how everything came together and worked

1 together.

2 Maybe we need to probably start talking with  
3 a lot of these businesses about doing the same thing  
4 with pressure switches and things like that to help  
5 assist them. This guy had the technology where he was  
6 watching it right on his phone while he's in route to  
7 his business. But kudos to all the men and women of  
8 the Detroit Police and Fire Defendant to apprehend  
9 these guys.

10 CHAIRPERSON BELL: Outstanding. Also we're  
11 going to have a report from the Lieutenant on Motown  
12 Showdown -- Showdown Motown. Come to the mic. And  
13 also we want to -- would you share remarks concerning  
14 the dedication of the Harbor Master.

15 LIEUTENANT POTTS: Good afternoon, Board. I  
16 am Lieutenants Potts, the lieutenant in charge of  
17 Chief's Network Liaison and we held the Chief's first  
18 annual Showdown in Motown off the river and we had  
19 approximately 450 cars with a hundred bikes, so it was  
20 a huge, huge community event. We didn't expect it to  
21 be as big as it was. It kind of threw us off. And  
22 we've also got an increase now for registration next  
23 year. So this will be something that will be annual  
24 due to the generosity of GM.

25 CHAIRPERSON BELL: And I want to say once

1 again it was outstanding for all the people to come  
2 together with their precious classic cars, even the  
3 Chief and Assistant Chief and others from the  
4 Department, were showcasing. And it was really  
5 wholesome. We hear a lot above Eight Mile Road but I'm  
6 hoping you can build on this and make this -- as you  
7 say, it was a tremendous turnout. As I was leaving  
8 people were still driving in registering who had just  
9 heard about it. So it was really a great afternoon for  
10 that type of activities but it reflected Detroit.

11 LIEUTENANT POTTS: Thank you, sir.

12 ASSISTANT CHIEF WILLIAMS: Through the Chair,  
13 to speak on the christening that took place yesterday  
14 on the 36-foot Boston Whaler that the Harbor Master  
15 unit received. It was a wonderful ceremony. They gave  
16 the Department an opportunity to honor one of our  
17 fallen Captain Kenneth Sharp (ph) and had his family  
18 there for the dedication of the body and his wife  
19 actually did the christening of the boat.

20 This boat is one of -- I think its been  
21 decades, many, many decades since the Detroit Police  
22 Department has had a new vessel added to its fleet at  
23 Harbor Master and this is one of our fastest boats. It  
24 was a long time coming and it was a wonderful ceremony.  
25 And the boat has been dedicated in memory of Kenneth

1 Sharp. And I just want to say I thank the  
2 Commissioners for being present at the event and also  
3 speaking. Thank you, Chairman and Commissioner Brooks.  
4 It's very much appreciated and it was a great event.

5 CHAIRPERSON BELL: And I want to thank  
6 Commissioner Brooks too. I could not stay for the  
7 entire program but she was there part of, what they do  
8 with the boat, christening. And that was really being  
9 supported and well-attended and well-deserving to  
10 recognize Captain Sharp and his family, you know, for  
11 he was a diver. It was really a nice ceremony and  
12 we're trying to catch up with the Fire Department in  
13 terms of their boat water activities and other  
14 activities. So its been 30 years since we had one. I  
15 took note of that so thank you.

16 COMMISSIONER BROWN: I was just glad it was  
17 floating.

18 CHAIRPERSON BELL: It was floating. Now  
19 we're going to move on to Chief's Summary of COMPSTAT  
20 with Captain-

21 ASSISTANT CHIEF WILLIAMS: It's going to be  
22 Captain Toski.

23 CAPTAIN TOSKI: Thank you, sir. Good  
24 afternoon. Through the Chair, Eric Toski (ph),  
25 Captain. I'm a captain at Investigative Operations,

1 which is part of the role. Since recently, about the  
2 end of the Summer, we have been taking on the COMPSTAT  
3 process. We've had the COMPSTAT process in the City of  
4 Detroit Police Department for many, many years and its  
5 gone through many different iterations and revisions.  
6 Most recently towards the end of December when I was  
7 tasked with this role and with me as you mentioned, I  
8 have analyst Adam Foreman who is standing behind me,  
9 civilian analyst, who has taken on this project.

10 COMPSTAT in and of itself is more than just a  
11 meeting as the way we look at it. It is adapting core  
12 principles and taking accurate information, accurate  
13 intelligence, having some type of strategy or plan  
14 implementing the plan and doing some type of follow up  
15 to make sure the plan is working. So, with this  
16 process, the meeting is holding the command officers  
17 accountable for things that are going on inside their  
18 respective areas of concern.

19 We hold our meetings bi-weekly on Thursday  
20 starting at 10:30, ending at 12, sometimes meetings  
21 goes a little longer. The way we've adopted the new  
22 revision starting in January was that two commands are  
23 reviewed on a continual basis. As you can see from the  
24 presentation, it starts from Precinct 8 and 9 and go on  
25 to 4 and 7 and so on. The meeting today that was held

1 at 10:30 was the 8th and 9th Precinct so in two weeks  
2 the 4th and 7th Precinct will come up. And when you  
3 get to the specialized units we did incorporate two  
4 specialized units into that as well.

5 In general, we break our inspections down  
6 into these four categories; that being crime trends,  
7 risks, a look at risk and policy, patrol management and  
8 investigative management. So an example of what we'll  
9 look at in crime trends, this is a very whittled down  
10 presentation, and for the sake of things, I did make  
11 some generics in this here. When we see some of the  
12 metrics as relates to the officers themselves, we will  
13 see Officer A, B, C, because at the meeting we find it  
14 very important to be very forthcoming with the data.

15 It's a very sensitive meeting. We only have  
16 folks that are the ranking of Lieutenant and above  
17 because we do talk about specifics as relates to  
18 command instead of talking about overall generalities.  
19 And, then I would say that for your knowledge, the  
20 average amount of slides we're looking at for each  
21 presentation is probably in the neighborhood of 80 to  
22 90 that we cycle through in that hour and a half.

23 Here's an example of four slides Crime Trends  
24 we're looking at in the first one on the top left  
25 quadrant of comparison of Cease Fire Statistics. We're

1 looking at the distance between amount of rapid  
2 responses versus the number of (inaudible). Going into  
3 the top right quadrant is commonly known as dashboard  
4 for that precinct looking at 28 days, looking at  
5 year-to-date comparisons from 2017 to 2018, month to  
6 month comparisons, week to week comparisons, and then  
7 we'll have some information about whether or not  
8 they're up in a certain crime category or not.

9 All the while, while these slides are being  
10 cycled through there's a panel that's comprised of the  
11 Deputy Chiefs and above who are asking the commands  
12 that are up questions about the information that's put  
13 up on the screens in the bottom left-hand quadrant is a  
14 map of self-defense via crimes. In this case it's part  
15 violent incidents and we also look at part one property  
16 crimes.

17 Then what we've also done is, like I said,  
18 this process has grown over time. We've adopted those  
19 quality of life type issues where we're looking at  
20 things such as burglaries and larcenies; things that  
21 might not meet the violent predatory crimes and we've  
22 whittled those down and had the command officers  
23 explain issues we have going on there and what they've  
24 done about it.

25 Moving into Risk and Policy, top left

1 quadrant. You see here a comparison of precincts to  
2 each other with access data. So we're looking at a  
3 comparison of at-fault and not-at-fault accidents. We  
4 generally look for a ninety day period of time, so we  
5 look at a year comparison and we look at the last  
6 ninety days when we call them up for inception. So the  
7 command officers are going to be expected to talk in  
8 details about specifics for that ninety days. So in  
9 this case, for example, we might say that we have one  
10 at-fault accident and we're going to discuss that at-  
11 fault accident with that command officer.

12 Moving into the top right quadrant is Use of  
13 Force. So what we've done here is we've broken down  
14 use of force by comparison to the forth quarter to the  
15 first quarter of 2017 and see where they stand in that  
16 and see where the changes are; the changes in different  
17 platoons, the changes in officers. There are more  
18 slides to indicate officers that have used force more  
19 than one time, more than two times in that monitoring  
20 period. Looking in the bottom left hand quadrant  
21 looking at training, mandatory training, to see where  
22 that command stands as of that date, who's failed to  
23 attend training, if they are meeting the training  
24 requirements, et cetera. Then the bottom right  
25 quadrant here we're looking at use of body worn

1 cameras.

2 So every COMPSTAT, not only looking are we  
3 looking at ninety days, but we pick one specific day  
4 for inspection. And on that day of inspection we  
5 whittle down everything. So in here, for example,  
6 we're looking at May 19th. This is the amount of body  
7 cam use versus the amount of times the body cam should  
8 have been used. So here you can see that there might  
9 have been like one or two events in a particular  
10 precinct that would be up where the body cam use was  
11 not captured. At the date of this one here for this  
12 example looking at the second precinct and there were  
13 two events that were captured.

14 Another area, Risk of Policy, is Citizen  
15 Complaints. This is information that we get from the  
16 Office of the Chief Investigator and the analyst  
17 foreman does the data analysis and puts this together.  
18 So here we're looking at a year's worth of citizens'  
19 complaints by precinct. And then what we do is we  
20 break that down. We set a threshold of officers.  
21 We're looking at the last six months and we're seeing  
22 which officers have two or more. And then out of those  
23 we may take the top three or top two and talk about  
24 what types of allegations they have.

25 So you can see that Officer A has four

1 citizen complaints and out of that four citizen  
2 complaints there are six allegations; one harassment,  
3 two procedure, three demeanor. And we do the same with  
4 the next two officers who have three citizen complaints  
5 as well. We look into Patrol Management top left  
6 quadrant here. We're looking at records management in  
7 terms of officers who are submitting any amount of  
8 records that exhibit errors. One of the things that we  
9 pride ourselves in, I'm also in Records Management, and  
10 since we switched over to the sunguard assessment what  
11 I would say is we have excellent data more so than  
12 ever, I think, the Department has had before. And our  
13 data should be very highly respected. And one of the  
14 reasons that it's highly respected is we have a 24/7  
15 data quality team that works not only looking at the  
16 reports that come in but generating reports and the  
17 precinct commands who are verifying reports.

18 So we constantly track and measure error  
19 rates and reports. There's a wide variety of those  
20 types of error rates and we track that and at this  
21 meeting here talk about officers who have a higher  
22 amount of error rates and talk about supervisors who  
23 have higher reports that have errors. Right now we're  
24 looking at overtime trends, so this is a ninety day  
25 comparison of pre-scheduled overtime and emergency

1 overtime; just those generate their own questions for  
2 the panel.

3 The bottom left quadrant here, this is an  
4 example of looking at that same ninety days on a  
5 different graph of the precinct itself to see where  
6 they were. So that generates questions as well. You  
7 might have a question about why is overtime decreased  
8 so much in this area. Was there something that was  
9 done here, captain commander, that could be emulated  
10 throughout the Department, and then we had a spike on  
11 certain days or certain weeks that looks like week by  
12 week time. The bottom right quadrant is an example of  
13 how we measure sick time. So this is precinct or  
14 command specific. It's looking at the ninety day  
15 window. And then you can see on the right hand side it  
16 indicates all the different officers who are on some  
17 type of discipline. The question can be raised what's  
18 going on with this command and raise it, for example,  
19 from 13 to 22 days of sick time from that week to the  
20 next week.

21 We have investigative management. This is  
22 mostly dealing with reports that come in at precinct  
23 and detective units you see in the top left quadrant.  
24 This is looking at open cases so we're looking at the  
25 open cases from the start and carry on from 2016 by the

1 end of December 2017 and 2018. So we're looking at all  
2 the detectives that are in the precincts and the  
3 polices and their cases or see what cases they have  
4 open. There's not a negativity to having cases open.  
5 For example, just making sure that the precinct  
6 detective, lieutenants and sergeants are properly  
7 managing the detective units.

8 The top right quadrant is looking at the  
9 amount of case load. So we can see here if the case  
10 load is appropriate for the amount the detectives they  
11 have if the case load is appropriate for the  
12 month-to-month or why there might be a spike or  
13 different tools that the panel can ask if the precinct  
14 detective, lieutenant and their staff, including the  
15 captain, are properly managing the Department.

16 On the bottom left quadrant looking at the  
17 specific day, again, for the inspections to what we do.  
18 It is prior to telling the command officers what the  
19 inspection date is. Myself and Adam, we go in and we  
20 look at all the cases for that precinct on that day.  
21 We look to see if the cases are properly assigned, look  
22 to see if the cases properly have notes, if there's  
23 been proper follow up. So in this case here you see 44  
24 reports generated on this date. Out of those 30  
25 require assignments. Some, for example, might not

1 require. That might be pulled in error. There's no  
2 deletions of cases so those cases stay and get a  
3 different class. It could be a tow or some case that  
4 didn't require the follow up of its detective to a  
5 victim.

6 So 30 required assignments and 30 were  
7 assigned. You can see there that the command had 20  
8 cases assigned; 20 cases that were supposed to be  
9 assigned -- I'm sorry -- 29 cases supposed to be  
10 assigned, 29 cases were assigned, 28 of those have  
11 notes. And then there will be the question to say why  
12 was this case without notes. And then the command  
13 officer would have to respond why the case didn't have  
14 notes. Then it talks about other units and then  
15 there's a break out of where those cases are for that  
16 day and the ideas that you can extrapolate that one  
17 given day either as a generalization for how the  
18 committee runs or perhaps that day is an anomaly.

19 Lastly, you can see here on the bottom right  
20 hand quadrant the adjourned or resubmitted cases.  
21 These are cases that are coming back from the  
22 Prosecutor's Office and being returned for any specific  
23 reason that the Prosecutor may determine. In this case  
24 here you see how many cases each detective has had  
25 returned and whether or not the detective has returned

1 the case. So questions could arise if one detective  
2 has a lot of cases returned why that's the case. The  
3 question could arise if one detective has some cases  
4 returned and haven't resubmitted them back to the  
5 Prosecutor's Office why that hasn't happened.

6 Then we go into some specifics here. So what  
7 we'll do is we'll look at on the date in question we'll  
8 look at specific case reports and calls for service.  
9 We looked to see what the travel time was, what the  
10 intake time was, what the time to dispatch was, see if  
11 that was appropriate. If there's any questions the  
12 panel might have to look at it and see if the case was  
13 supposed to be assigned. If it was assigned, any  
14 follow up and the panel really has an opportunity to  
15 talk with the command officers about the specifics of  
16 that case.

17 Last, we look at green light. We have the  
18 green light specific approach for the day in question.  
19 So here the precinct that was up had twelve green light  
20 events. Eight of those happened to be special effect  
21 ones and in this case one disturbance, one destruction  
22 of property, one person with weapon; and then we chose  
23 one that we're going to inspect a little bit further  
24 that day. So in this case we look at the person with  
25 the weapon and we break it down again and take the time

1 to dispatch travel time, look at the officer's response  
2 and look and see what the detective follow up has been  
3 on that. With that, that's the conclusion of how our  
4 COMPSTAT process is. If you have any questions.

5 CHAIRPERSON BELL: Questions.

6 COMMISSIONER DAVIS: I have a question. When  
7 you have a detective that has a lot of cases returned  
8 from the Prosecutor's Office what's usually done if  
9 somebody has a disproportionate; odd number return  
10 rate?

11 CAPTAIN TOSKI: Okay. Fortunately we have  
12 not come across that. We have not come across that.  
13 The numbers have been very low for returns looking at  
14 both 2017 and 2018. A lot of the cases have been in  
15 that kind of range where that question really hasn't  
16 come up. I would say answering hypothetical if that  
17 does come up then you start looking at why they're  
18 returned. If they're returned for the same issues; if  
19 they're returned for mistakes or if they're return for  
20 the same issues.

21 Sometimes the cases get returned because the  
22 Prosecutor needs more information that the Detective  
23 simply doesn't have because they're unable to locate a  
24 witness or victim can't provide the information. If  
25 that's the case then there's a little less work that

1 can be done. But if you have something where  
2 corrective action is necessary then a supervisor would  
3 come in and help to re-train the detective to get  
4 things flowing back on track.

5 COMMISSIONER BURCH: I have a question. Just  
6 want to share with you, at least in my eyesight, can  
7 you make your narrative here a little better, you  
8 print, because you can hardly see it. It's not very  
9 clear.

10 And I also wanted to ask you, regarding  
11 citizens, we get a lot of complaints that say they  
12 don't get returned calls from detectives specifically.  
13 And I want to know how do you monitor from the  
14 citizens' perspective to what your officers, sergeants  
15 and captains, all of them, are saying about these  
16 reports. How does that relate to the citizens? Did  
17 they really get back with them on cases? They say I  
18 never heard from the detective on my particular case.

19 CAPTAIN TOSKI: In regards to your first  
20 point about the size, that's just an example. That's  
21 not how the presentation looks. The presentation is  
22 probably about 80, 90 slides. On the page there we  
23 have four slides per page. It looks like this. It  
24 would look like this whole giant slide here. The  
25 information goes out to the command staff as a PDF so

1 they can look at it on their screen and blow it up as  
2 they want to. But at the COMPSTAT meeting it shows up  
3 like this. What you have there is just a sample for  
4 presentation purposes but not how it actually goes out.

5 MR. HICKS: Can we simply make the request.  
6 I think what the Commissioners are saying is they  
7 cannot read the presentation as it was given to them.  
8 That's what they're saying. We simply make a request  
9 to get a full-sized reproduction of the slides that you  
10 did use in this presentation and have that returned to  
11 them.

12 CAPTAIN TOSKI: Sure. Those are all pasted  
13 and cut. It's going to take me next week to do it. I  
14 apologize. It's not a real presentation. Those are  
15 all imitation slides because the real presentation has  
16 real officers' information and things like that.

17 ASSISTANT CHIEF WILLIAMS: We'll make sure we  
18 get this blown up to scale.

19 CHAIRPERSON BELL: We just can't really see  
20 it.

21 CAPTAIN TOSKI: As for the second question,  
22 it depends, in my opinion, how that information is  
23 conveyed. If it's conveyed to the command officers,  
24 the command officers can easily look and see if the  
25 detective has made contact. In many of the cases that

1 I've seen throughout inspection I see that the victims  
2 have provided phone numbers that are no longer  
3 connected.

4 We routinely look to see if detectives  
5 followed up with phone calls or visits to the house.  
6 If they say that a detective is not getting back to  
7 them it behooves them to get ahold of the command  
8 officers of that precinct and they can always call the  
9 administrative office to do that. Does that answer  
10 your question?

11 COMMISSIONER BURCH: Not really, but I think  
12 that's the best you can do. I'm saying we get a lot of  
13 reports or complaints. How do you really get to the  
14 person that's saying the investigator, detective didn't  
15 call me back? How do you formulate a background about  
16 them returning calls to citizens?

17 ASSISTANT CHIEF WILLIAMS: Through the Chair,  
18 one of the things that Captain Toski was eluding to is  
19 we have -- every activity that that investigator does  
20 on a case is placed in his case notes. So when he  
21 makes a phone call to that complainant, when he sends a  
22 letter or correspondence to that complainant, all of  
23 that is actually captured and documented into our  
24 system.

25 So the supervisor or OIC of the precinct

1           detective unit who goes in and assigns the cases and  
2           goes back to review to see what the officer has done.  
3           They can actually see what the status of and how the  
4           officer is actually managing a case. Now, of course  
5           it's not a perfect system and those are the reasons why  
6           we have the ability for those complaints who are not  
7           being serviced correctly to make complaints. And  
8           that's more reason for the Board to be here. When we  
9           do get those complaints we take corrective action  
10          against those members to make sure that that doesn't  
11          happen.

12                           CHAIRPERSON BELL: Commissioner Burton.

13                           COMMISSIONER BURTON: Thank you. To Captain  
14           Toski, I just want to say I enjoyed your presentation  
15           and I appreciate your service.

16                           MR. HICKS: Mr. Chair, I just wanted to raise  
17           another question. If it's the pleasure of the body  
18           then the body can indicate this. But the captain  
19           indicated that it would take him some time to get this  
20           information largely because he cut and pasted this  
21           information. You are the Board and I don't know why  
22           the information is being doctored; meaning certain  
23           types of information, even though it may contain names  
24           and so forth of individual officers, I don't know why  
25           that's being extracted and withheld from you.

1           If a citizen, for example, were to FOIA this  
2 information, this is normal information that's kept in  
3 the normal run of the Department. They get much more,  
4 not all, but much more information which is being  
5 displayed to you.

6           So I don't understand why things are, one,  
7 being doctored and brought to you. But I would step  
8 back at the same time and say if the Board did not have  
9 a problem with it being doctored then it can be  
10 doctored. But I did want to point out that there's no  
11 particular reason for him to extract that information  
12 out prior to it coming to you.

13           ASSISTANT CHIEF WILLIAMS: I just want to  
14 address that. Because this is an open public forum  
15 there are some reports and some information that should  
16 not be shared with the public for citizens' privacy.  
17 If the Board wants a complete COMPSTAT we can supply  
18 that information. That's not an issue at all. But for  
19 this presentation this is open to the public and that's  
20 why its been censored, not doctored. This is just an  
21 example of the report, but we can give a complete  
22 uncovered report to the Board at any time.

23           MR. HICKS: Not to continue the dialogue, the  
24 Department does supply our office with a copy of this  
25 in advance, the full presentation, and this week it was

1 some 80 something slides as I recall and I used that in  
2 attending the COMPSTAT meetings. So that you can get  
3 an appreciation, because what I think they do in  
4 COMPSTAT is actually very good. For you to get an  
5 appreciation of what they do, what I'll do is I'll make  
6 copies of the presentation that was sent to me and make  
7 it available to each one of the Commissioners. Because  
8 they really need to get a full sense. Because in some  
9 ways the information as you make selections of what you  
10 bring, you will miss some of the discussion that takes  
11 place. Because there is a certain drilling down that  
12 takes place in the meeting.

13 And I have had a conversation, this was some  
14 time ago, with AC Williams who suggested maybe at some  
15 point one, two or some number of Commissioners may want  
16 to attend a COMPSTAT meeting so you can get a sense of  
17 the type of accountability, if you will. I think is  
18 being pushed inside of those particular meetings. This  
19 COMPSTAT process is at least a million miles away from  
20 the way in which the COMPSTAT process was a year or two  
21 years ago. The improvements have been substantial.  
22 And this is one of the areas that I think the  
23 Commissioners should really understand.

24 So I will supply that information off of the  
25 piece that I gave that was provided to me. It will be

1 a packet of some 80 something slides that will be  
2 printed on paper made available to the Commissioners  
3 and that will go out tomorrow.

4 COMMISSIONER BURCH: Mr. Chair, I just want  
5 to say thank you to Mr. Hicks, because when I first saw  
6 this I was thinking of the COMPSTAT that was held once  
7 a month at each precinct. Now, like Mr. Hicks is  
8 saying, it's a whole lot of information that you  
9 receive at those meetings and they're usually shared  
10 with community leaders and you have your officers  
11 there. And, like you said, they have such details  
12 about what each precinct or your particular precinct is  
13 experiencing just like you have the data in here but  
14 it's more thorough.

15 So, when I saw the COMPSTAT presentation, are  
16 you kind of similar to that what I'm talking about; the  
17 monthly meetings held in each precinct used to be  
18 Number 11, but to my knowledge they don't have it  
19 anymore.

20 CAPTAIN TOSKI: The Community COMPSTAT  
21 meeting is separate. There's a wide variety of metrics  
22 that we are looking at in our Department COMPSTAT  
23 meeting that is not looked at at the Community COMPSTAT  
24 meeting. The Community COMPSTAT meeting specifically  
25 will look at crime issues. Everyone that's there signs

1 a confidentiality agreement. So you can talk about  
2 certain offenders and victims. It goes over hot spots.

3 In our COMPSTAT meeting we do look at crime  
4 in terms of hot spots and pinpoint where things are,  
5 but there's considerably more metrics that we're  
6 looking at. So it's not just focused on crime but  
7 focused on those other things that we're talking about;  
8 risk and policy, investigator follow up and so on.

9 COMMISSIONER BURCH: And, just to AC  
10 Williams, we don't have COMPSTAT in Number 11 anymore?  
11 I'm just asking.

12 ASSISTANT CHIEF WILLIAMS: Every precinct  
13 should still have precinct COMPSTAT, Community  
14 COMPSTAT. I'll double check with the commander and  
15 captain to see if they are in doing it. But we  
16 actually have secured funding for that and it should be  
17 taking place.

18 COMMISSIONER BURCH: Thank you. I'll wait to  
19 hear from you.

20 COMMISSIONER BROWN: Fine presentation. I  
21 know you guys do a lot of work with this. I'm very  
22 impressed with everything you guys are doing. To the  
23 Board, I don't think they were watering down, to answer  
24 Commissioner Burch's question, to get clarity to it,  
25 just not print the little four squares; just do a page.

1 I think that's what we're asking. I do agree with  
2 Mr. Hicks that if we want to get a deep dive in this we  
3 should probably be at the meeting and I will probably  
4 be at the next one. Secondly, are you familiar with  
5 the ring.com; that camera system?

6 CAPTAIN TOSKI: Yes.

7 COMMISSIONER BROWN: Is there any way we can  
8 extrapolate any of the footage from that? Because I  
9 have that camera at one of my buildings, and when you  
10 go on there it's like this little community group and  
11 you can see people posting videos of folks stealing  
12 packages of their porch. One lady had a guy stealing  
13 water. Every day he was coming and filling up a bucket  
14 of water. And another guy was walking around someone's  
15 backyard checking car doors. Is there any way we can  
16 tie in this information? When you brought up the green  
17 light thing, we can look at this information so these  
18 crimes can be investigated.

19 There was some shootings on there and  
20 different crimes. And even though we don't have those  
21 type of eyes and ears out there, but a lot of  
22 residences that have these cameras and have this  
23 footage. How can we get that tied in to help with the  
24 investigations that go on with crimes against property  
25 and people in this City?

1 CAPTAIN TOSKI: A lot of that stuff is being  
2 used. That's just one aspect. For example, AT&T has  
3 digital life. This is another one. People have their  
4 own private one. And when detectives go out we try to  
5 get out there as timely as possible at that point and  
6 send our avert out so we can get it for evidentiary  
7 purposes and that information is captured.

8 COMMISSIONER BROWN: And then with the  
9 detectives calling back. We see the citizen  
10 complaints. I understand when the detective has the  
11 case, how is that tracked? Is that something he's  
12 physically writing or is it electronically tracked that  
13 he actually made this call? How is that tracked?

14 CAPTAIN TOSKI: It's all electronically  
15 tracked with the new system. And, as the AC mentioned,  
16 even a letter. So let's say that I'm a detective and I  
17 call you. I'm unable to get ahold of you. And I walk  
18 out and knock on your door and I'm unable to get ahold  
19 of you that way. I would then generate a letter. The  
20 letter gets automatically generated from the system and  
21 gets mailed out to the house.

22 So that's also tracked that way too or if a  
23 case has been assigned or reassigned to a different  
24 detective. That gets tracked as well. That day of  
25 inspection for COMPSTAT we look to see if those things

1 have been met. Like I said, there's cases that come up  
2 that don't have notes or have failed to be assigned and  
3 that's why the COMPSTAT process is important because we  
4 need to hold command officers accountable for things  
5 that happen.

6 COMMISSIONER BROWN: Great job. Thank you  
7 for your presentation. I really appreciate it.

8 CHAIRPERSON BELL: Thank you, Captain. I  
9 think it's been outstanding too. I assume that we  
10 track detectives' work similar to how we track OCI.  
11 When you read those cases there's a log there. And I  
12 know from my past experience that you track them, the  
13 supervisor tracks. You probably do a better job today  
14 because of the technology. But also the other part of  
15 it is that citizens fail to cooperate. The same way we  
16 handle cases here we don't get that cooperation. So  
17 that's another part of it. And we get a whole lot of  
18 individuals don't show up for the warrant request. So  
19 it's two-fold; it's DPD and also citizen participation.

20 They will file a complaint, especially  
21 domestic violence, and you spend time working it up and  
22 no show. Could you speak to that in terms of volume of  
23 work that they are doing and the citizen cooperation?  
24 Could you speak to that matter.

25 CAPTAIN TOSKI: Sure. Just as a small

1 example, on the day in question we looked at an  
2 inspection today for the 8th and 9th Precinct. On a  
3 given day both precincts had reports that are generated  
4 for that day. So you extrapolate that over a course of  
5 time that shows the case load that the detectives will  
6 have. So obviously every case has to be triaged a  
7 little differently but every victim deserves a call  
8 back and deserves to have their justice.

9 Sometimes victims, in my personal experience,  
10 have been victims who may have an outstanding warrant,  
11 who was a legitimate victim of crime, but does not want  
12 to disclose the proper way to get ahold of the victim  
13 because they know the police in due diligence might  
14 arrest them on that warrant so they might provide a  
15 false number for that. So that happens a lot.

16 We do have victims that we're unable to  
17 locate. We'll go to their house and the address is a  
18 bad address or maybe there's a cross path where the  
19 victim isn't home. So the detective will leave a  
20 business card at the door and say I was here; please  
21 give me a call so we can talk about your case. So  
22 there's different types of mechanisms where we ask the  
23 victims to come in. And those notes are generated in  
24 the records management system.

25 Say the victim and I talked. The victim said

1 he or she was going to come to the station for an  
2 interview on the 25th. And when the 25th comes,  
3 whether or not the victim comes in and has a  
4 discussion, that note will be generated as well. So  
5 there's a better record keeping because now if I am the  
6 detective on the case and I get transferred or promoted  
7 or I leave the job, those notes are memorialized for  
8 the rest of the time as long as we have the system and  
9 the next person that will come on can take on the case.

10 So there's a lot better management in terms  
11 of stuff like that versus before when you have written  
12 notes and those notes might be hard to located. It's a  
13 standardized system across the board that at any time  
14 any level of management can look into. So if a  
15 commander is working on a case he can go back and look  
16 and say well, let's see what's going on with this case.  
17 It's much more streamlined that way.

18 CHAIRPERSON BELL: Thank you. Outstanding.  
19 And we're looking forward to hearing more from you.  
20 But I think it's a very important part. I like the  
21 part you included the citizen complaints in that  
22 COMPSTAT meeting too. We all know that Community  
23 COMPSTAT, this managerial administration type reporting  
24 out, as Mr. Hicks and others mentioned, I haven't been  
25 there in quite some time. And you mentioned also it

1 behoooves us to take advantage of it. Then you can get  
2 a full flavor of what transpired in terms of that  
3 meeting. You're meeting bi-weekly?

4 CAPTAIN TOSKI: Right. So not next Thursday,  
5 but the Thursday after we will meet. As long as  
6 there's no holiday. So we moved our meeting, for  
7 example, the day after July 4th because of holiday  
8 constraints. And then we want to make sure the command  
9 officers are well prepared to answer the questions  
10 prior to as well.

11 CHAIRPERSON BELL: That's a great deal of  
12 accountability -- I mean, interaction, so I appreciate  
13 that. We've come a long way in terms of interfacing  
14 the whole process citywide and I like that.

15 CAPTAIN TOSKI: Thank you.

16 CHAIRPERSON BELL: Any standing or ad hoc  
17 committee reports?

18 (None responded.)

19 CHAIRPERSON BELL: Mr. Hicks.

20 MR. HICKS: Thank you, Mr. Chair. I do want  
21 to indicate listed on the Agenda there are two items.  
22 These are incoming items for information. One of them  
23 Assistant Chief Williams already talked about; that was  
24 the graduation ceremony that's set for July 27th. But  
25 in addition to that, there is a three-page attachment

1 to your Agenda that talks about the 2018 legislation  
2 that's recently signed into public act.

3 This list is a compilation of a wide range of  
4 legislation that has recently been signed. In the  
5 varying pages there are several of them that are  
6 highlighted that give you an indication of legislation  
7 that impacted law enforcement. So we just thought that  
8 that would be some good information for you to, number  
9 one, have. In the event that you wanted us to pull any  
10 of those pieces of legislation you would have the  
11 information in order to do that. With that, Mr. Chair,  
12 that concludes any remarks that I would want to make  
13 this evening.

14 CHAIRPERSON BELL: Comments or questions for  
15 Mr. Hicks?

16 COMMISSIONER BROOKS: Yes. Is the graduation  
17 for the recruiters July or August?

18 CHAIRPERSON BELL: This one is for  
19 lieutenants and sergeants. The promotion ceremony is  
20 this month.

21 COMMISSIONER BROOKS: Friday the 27th. I  
22 needed to get that clear. Thank you.

23 CHAIRPERSON BELL: And August the 3rd is  
24 recruit class and that's going to be at Greater Grace.  
25 Any old business?

1 (None responded.)

2 CHAIRPERSON BELL: New business?

3 (None responded.)

4 CHAIRPERSON BELL: Announcements. Next  
5 meeting will be Thursday July 26th at 3 p.m. at Public  
6 Safety Headquarters 1301-3rd Street. Next community  
7 meeting will be Thursday, August 9, 2018 at 6:30 p.m.  
8 at Northeast Guidance Center Wellness Academy Building  
9 A, 2900 Conner City of Detroit on the east side. And  
10 that is just south of Mack just south of the 5th  
11 Precinct. So you can't miss it between Mack and  
12 Joseph. Either way that's at 6:30 p.m.

13 The next item will be Oral Communication and  
14 public comments from the audience. Please give your  
15 name and limit your comments to two minutes. Mr. Brown  
16 will be holding up a card. I'm going to have Mr. Brown  
17 to call all individuals who are going to speak and take  
18 the first row since it's open to my left. When he  
19 calls your name come up to the first row and we will  
20 perhaps expedite the process and we know that you're in  
21 line to speak.

22 MR. BROWN: Ms. Faith, Mr. Eric Blunt and  
23 Mr. Ozie Cargile.

24 MS. FAITH: Welcome to everyone and welcome  
25 to the Board. Through the Chair, my name is Ms. Faith,

1 and I come to the meetings when I can come to the  
2 meetings. I appreciate everyone and the work, the hard  
3 work, that you have been doing down through the years  
4 even when I wasn't coming to the meetings. And I just  
5 look at you and I'm astounded by the way you conduct  
6 yourselves openly and publically here and anywhere else  
7 I might see you. Commissioner Brooks is one I'm  
8 thinking of because I see her outside of here sometimes  
9 and she always conducts herself in a very commendable  
10 way. And I just wanted to say I'm thankful for all of  
11 you and everything that you have done.

12 Since, you know, I've been coming for about  
13 almost two years consistently. You're very diligent  
14 about your professional behavior. And, the people in  
15 the audience, you are always patient with them if  
16 they're elder or whoever they are; it doesn't matter  
17 who they are. Whenever they have a grievance or  
18 anything to speak about there is always respect there  
19 and treatment of dignity to the person speaking. Thank  
20 you for letting me speak.

21 CHAIRPERSON BELL: Thank you.

22 MR. BROWN: Mr. Eric Blunt.

23 MR. BLUNT: Good afternoon, Board. For the  
24 record, my name is Eric Blunt, a lifelong Detroiter.  
25 Recently the City has been given another bad title.

1 This most recent title is the most stressful City  
2 within the country. I wonder how do we get away from  
3 that? How do we make improvements? As I listen to  
4 COMPSTAT, I'm also just reminded that there are several  
5 large neighborhoods in this City that are sad, special  
6 assessment districts, and they spend tens of thousands  
7 of dollars for privately policed security forces that  
8 are armed.

9 So I'd like to know what the crime stats are  
10 for those neighborhoods that are not spending tens of  
11 thousands of dollars for privately armed security  
12 forces versus all the others. Because if overall crime  
13 is so bad and these special assessment districts have  
14 these private security forces that reduce crime, the  
15 neighborhoods that don't have private security armed  
16 forces must be catching hell. That's about all I can  
17 say.

18 The other thing I'd like to bring up is the  
19 whole idea of going forward to maybe even prevent these  
20 communities from deciding to have armed private  
21 security forces. And that is, correct me if I'm wrong,  
22 is there a policy within the Department that allows  
23 officers to take home a Department issued car if they  
24 are citizens and residents of the City? Is that true  
25 or false?

1 CHAIRPERSON BELL: AC Williams will speak  
2 first.

3 ASSISTANT CHIEF WILLIAMS: Through the Chair,  
4 that is correct. For our neighborhood police officers  
5 if they live within the City limits they are allowed to  
6 take that marked unit home. For all individuals on the  
7 Department or members of the Department who are subject  
8 to re-call, they are also allowed to take a marked  
9 vehicle home as well.

10 MR. BLUNT: Through the Chair, what is that,  
11 subject to re-call?

12 ASSISTANT CHIEF WILLIAMS: So, Homicide  
13 Section, we have a number of units that can be  
14 re-called at any time day or night and they are given a  
15 vehicle to be able to respond.

16 MR. BLUNT: The breakout between COMPSTAT  
17 non-special assessment districts with private police  
18 and those that don't, is that something the Board would  
19 be interested in requesting?

20 CHAIRPERSON BELL: Are you speaking to  
21 communities like Palmer Park who have their own  
22 security? Maybe perhaps Assistant Williams can speak.  
23 I can speak for my neighborhood. We do not have luxury  
24 of hiring armed security. At one time we had a general  
25 patrol vehicle on two or three hours, but I don't know

1 all the units in the communities. Perhaps AC Williams  
2 is familiar with those. I know Palmer Park has a long  
3 history of that. I don't know how long. I don't know  
4 about Boston Edison. I don't know about Indian  
5 Village.

6 ASSISTANT CHIEF WILLIAMS: Through the Chair,  
7 I'm not aware of all the different neighborhoods that  
8 may have armed security. I know in my neighborhood I  
9 don't have armed security. But the one thing I do know  
10 and the one thing I will suggest is that for anyone who  
11 lives in the City who is interested in augmented  
12 patrols, we have CB patrollers on west side and east  
13 side neighborhoods, and those actually do help augment  
14 the eyes and ears for the Police Department.

15 And, as far as trending down crime city wide,  
16 we are trending downward for violent crime and for our  
17 property crime as well. I can't speak specifically to  
18 those areas that have armed security because I don't  
19 know them all, but I know that the strategies we're  
20 putting in place for the Department as a City as a  
21 whole are working.

22 COMMISSIONER BROWN: You can go and Google  
23 crime viewer and that's the Detroit crime viewer  
24 presentation, that COMPSTAT group; that information is  
25 there. It's a website. You can go on there and you

1 can search your neighborhoods. You can search by  
2 council district, ZIP codes. They even have the  
3 information categorized down to the types of crimes,  
4 how many. You can even draw a map to show what happens  
5 at one specific area.

6 So I can show you. We can go upstairs and  
7 look at the computer and I can show you how to use that  
8 website and it's very informative. It's another part  
9 of the COMPSTAT program that they're doing with all the  
10 information and how this stuff ties in together and  
11 what they're doing. I think it was first presented in  
12 the 8th Precinct. It is very informative. It is user  
13 friendly. It is not hard to do and I can take ten  
14 minutes of your time and we can sit at a computer and I  
15 can show you.

16 MR. HICKS: Mr. Chair, is there any place --  
17 and I think this goes to the core of the question -- is  
18 there any place where a community patrol, particularly  
19 a patrol that is armed, has to register so therefore it  
20 would create a list of communities? Because I think  
21 you have to start with a registration. You have to  
22 define which communities they are and I think  
23 registration might be the place to start with. Is  
24 there such a registration?

25 ASSISTANT CHIEF WILLIAMS: I'll answer your

1 question the best way I know how. All security  
2 companies are registered with the State of Michigan.  
3 As long they're registered with the State of Michigan  
4 they can be employed or hired by anybody.

5 MR. HICKS: So there's no requirement then  
6 for them to register with the local police department?

7 ASSISTANT CHIEF WILLIAMS: I'm not aware of  
8 any registration for the Detroit Police Department.  
9 We'll look to see if there is.

10 MR. HICKS: Can you check that.

11 MR. BLUNT: I'll share with you what I do  
12 know. There's a concentration of those armed security  
13 forces; Palmer Woods, the University District and  
14 Sherwood Forest. They're all in the 10th Precinct. I  
15 can only imagine-

16 CHAIRPERSON BELL: Well, you just identified  
17 the three.

18 MR. BLUNT: That I know of.

19 CHAIRPERSON BELL: That probably stands out  
20 right there in terms of those three districts, because  
21 I know on the east side, I don't know about Indian  
22 Village, but all of us live in the City of Detroit and  
23 we don't have that luxury. But as AC Williams  
24 mentioned, I would hope that more and more communities  
25 take commitment to CB patrol, which they've been trying

1 to beef up.

2 At one time they were going around all over  
3 the city organizations and trying to get people  
4 encouraged to volunteer, whether it be two hours, three  
5 hours. It's one way to combat that. But if you have  
6 luxury to live in those communities and you can afford  
7 it that's great. You're entitled to that. And your  
8 security system at home, whatever you feel as though is  
9 going to make you safe, you should take advantage of  
10 it. I'm not jealous. I don't think none of us are,  
11 because that's your well-being. I want to say safety  
12 is the number one issue.

13 So if you can afford it and you want to  
14 invest -- I know at one time our community had snow  
15 removal and all that, but people got too cheap to do  
16 any of that but they want service. But they just did  
17 not support it anymore so we don't have it. So very  
18 few people support it. Thank you for bringing it to  
19 our attention. You have already identified the three  
20 communities that engage in that and I say kudos to  
21 them.

22 MR. BROWN: Mr. Cargile.

23 MR. CARGILE: So, for the record, my name is  
24 Ozie Cargile. I'm a resident here in the City of  
25 Detroit. I want to say that it is an honor to address

1 the Board primarily in so much as you exist and you are  
2 open to the public. Before I received the mailer I did  
3 not know there was a weekly meeting that's open to the  
4 community. And I also wanted to commend the Detroit  
5 Police Department for the culture and its outreach in  
6 the community. I actually had a chance to hear a  
7 presentation with Chief Craig and LGBT Detroit, so we  
8 have a very progressive police department and my  
9 experience has been largely positive.

10 Looking toward the future, we see that the  
11 City of Detroit is changing. There's a lot of activity  
12 going on downtown spreading abroad. And while it is  
13 great to see, you know, the abandoned buildings being  
14 renovated, there's quite a bit of gentrification that  
15 is looming over the City. And my concern is that in  
16 light of that there may eventually be a push, not  
17 through the current administration or the current  
18 Chief, but in your progressive movement with regard to  
19 the City, to return to a much more intimidating police  
20 department to accommodate the influx of residents that  
21 might not vibe so well with the current residents.

22 So my question is to the Board, the  
23 Commissioner Board, is is this a priority of yours in  
24 terms of maintaining the culture that we have with the  
25 Detroit Police Department? I think it's wonderful now,

1 and like I said, I'm really proud of the Board and the  
2 Police Department. But looking forward, is there some  
3 policy or agenda that you have to ensure that Detroit  
4 stays friendly to Detroiters?

5 CHAIRPERSON BELL: Yes, sir. That is the  
6 core of our mission since 1974 and that was embellished  
7 in 2012 expanding the Commission to eleven. Seven are  
8 elected by the District, same as the council, and four  
9 are appointed by the Mayor with approval of the  
10 council.

11 So what you see here is normally ten, eleven.  
12 So that is the focal point; to make sure that we are  
13 engaging in quality police service, community police  
14 service and constitutional. As I stated earlier, we  
15 are the eyes and the ears and we have the oversight of  
16 the Detroit Police Department and we engage constantly.  
17 Now you know and I would hope you take this opportunity  
18 to share it with your neighbors. Are you involved with  
19 a block club?

20 MR. CARGILE: Unfortunately we do not have a  
21 block club on our block.

22 CHAIRPERSON BELL: Well, you need to start a  
23 block club. I hope it's not your first time. Feel  
24 free to come back over and over again. It appears that  
25 you are consciousness anxious and we are looking

1 forward to perhaps a block club. Just a start. You  
2 don't need everybody on the block. You just need two  
3 or three and you can build on that. Can you take that  
4 initiative?

5 MR. CARGILE: I believe that I can.

6 CHAIRPERSON BELL: Do you know your NPO?  
7 What precinct?

8 MR. CARGILE: Precinct 5.

9 CHAIRPERSON BELL: That's my precinct.

10 MR. CARGILE: I'm sorry.

11 CHAIRPERSON BELL: You're in the 7th  
12 Precinct.

13 MR. CARGILE: East Grand Boulevard 94 and 75  
14 area.

15 CHAIRPERSON BELL: Okay. They have community  
16 meetings. You need to drop in at the 7th Precinct and  
17 meet your NPOs and whoever is on the desk and they have  
18 monthly community meetings. In most cases they take  
19 place at St. Bernard. Perhaps Ms. Blossom will let you  
20 know their meeting time and you can sort of start that  
21 engagement, because we want to reach out to you. This  
22 is your first time. We want to make sure you're  
23 welcome and you can make sure we're accountable to you.  
24 Is that fair enough?

25 MR. CARGILE: It's wonderful. Thank you.

1 CHAIRPERSON BELL: Thank you, sir.

2 COMMISSIONER BROOKS: I just want to say  
3 thank you because we go back. I remember when you  
4 asked me to do something for you in the community. I'm  
5 looking forward to you starting a block club. But I do  
6 want you also to know that we are actively recruiting.  
7 So when you get your block club together we will meet  
8 you there so that we can do some recruiting. And thank  
9 you, young man, because I remember you. I didn't  
10 remember you at first, but when they called out your  
11 name because it's kind of unusual, I remember you. So  
12 you continue to work and I do hope that you get a block  
13 club.

14 Also, I would like people to remember do not  
15 forget the NPOs. Those are some hard working people.  
16 We all appreciate what the police do. We're thankful  
17 and we know that they do the best job they can do, but  
18 our NPOs are great men and women. So think about them  
19 when you're thinking about your community, your safety  
20 in your community and what you're doing. Don't forget  
21 who they are.

22 And I would think that anybody with a green  
23 light would be helpful to help anyone else in their  
24 neighborhood so I think I've said enough. I normally  
25 don't just talk; it's got to be something. But I'm so

1 thankful that we have such a wonderful police  
2 department. Yesterday I felt out in the breeze with  
3 the ship -- boat being christened and I thought where  
4 else except in Detroit do we have something like this.  
5 It was an honor to be out there to watch the widow  
6 christen the boat, to watch his children.

7 So I think we all need to be thankful and we  
8 all need to stop complaining and be thankful for what  
9 we have and to help others to reach the goals that  
10 they're trying to reach. That's all I have to say  
11 today.

12 CHAIRPERSON BELL: Thank you, Commissioner  
13 Brooks.

14 ASSISTANT CHIEF WILLIAMS: Just real quick.  
15 The open data portal that Vice-Chair Brown was talking  
16 about, that's going to be data.detroitmi.gov. Also,  
17 for the Community COMPSTAT, to respond to Commissioner  
18 Burch's question, I just received information that the  
19 Community COMPSTAT lost funding back in April earlier  
20 this year. We just got back on track. The 3rd  
21 Precinct had their first one, I believe, earlier this  
22 week, and the rest of the precincts will be picking up  
23 in August. So they will start picking up.

24 Then for the security companies, the Detroit  
25 Police Department doesn't regulate licensed security

1 companies; that's the State's job. The forth thing is  
2 to the individual who was at the podium. Sir, our  
3 department, we are not looking to be intimidating. We  
4 know that we are servants of the community, and we want  
5 to make sure that we continue to be servants of the  
6 community. We want to be approachable and we want to  
7 make sure that as partners, the community and the  
8 police department, that we can go forward and combat  
9 the crime and combat the issues that we have in the  
10 community in the city as a whole.

11 COMMISSIONER BURCH: Mr. Chair, can I say  
12 something, please, regarding that?

13 CHAIRPERSON BELL: Yes, ma'am.

14 COMMISSIONER BURCH: I just want to say to  
15 the young man, getting involved in your community --  
16 because I represent Number 3, I live there. So  
17 naturally I'm going to be with the police, make sure  
18 that they're taken care of. And, what I mean by that,  
19 they need better pay, better benefits; that's what  
20 hopefully this Board is going to do. And one day all  
21 police will reside in the City of Detroit. They may be  
22 your next door neighbor. So, yes, we want to make them  
23 better. They're good now but they can be better if  
24 they live in the City of Detroit. Get involved and  
25 join your block club. You start it. Come back and say

1 you started it. God bless you.

2 CHAIRPERSON BELL: Thank you, Assistant  
3 Williams, for reporting out. Technology or somebody  
4 must be listening to us communicating out and getting a  
5 response. So if there's no other business -- first of  
6 all, I want to make sure officers stay cool and drink  
7 plenty of water. Some of them have air conditioned  
8 cars?

9 ASSISTANT CHIEF: Everybody should have air  
10 conditioned cars.

11 CHAIRPERSON BELL: So I just want to make  
12 sure they are safe and drink water for this unusually  
13 hot weather. And Commissioners, if there's no other  
14 business, the Chair will entertain a Motion for  
15 Adjournment.

16 COMMISSIONER BROWN: So moved.

17 COMMISSIONER DAVIS: Support.

18 CHAIRPERSON BELL: Its been moved and  
19 supported. Those in favor?

20 (Several Commissioners responded by  
21 indicating aye.)

22 CHAIRPERSON BELL: We stand adjourned. Thank  
23 you.

24 (The proceedings concluded at 4:23 p.m.)
