Honorable City Council:

Re: Approval of an Application for an Obsolete Property Rehabilitation Exemption Certificate for 1521 Broadway, L.L.C. (Petition No. 575).

At this morning's public hearing on the above referenced issue, questions were presented regarding your Honorable Body's ability to approve the Application. Inasmuch as these questions may be answered favorably in the next few days, you requested that a resolution approving the Application be available for your April 2nd formal session, and such resolution is attached.

Respectfully submitted,  
HENRY B. HAGOOD

Director of Development Activities

By Council Member Bates:

Whereas, 1521 Broadway, L.L.C., has filed with the City Clerk an Application for an Obsolete Property Rehabilitation Exemption Certificate under Public Act 146 of 2000 ("the Act") in City of Detroit Obsolete Property Rehabilitation District No. 13 in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council on October 16, 2002 established by Resolution Obsolete Property Rehabilitation District No. 13 in the vicinity of 1521 Broadway, Detroit, Michigan, after a Public Hearing held October 16, 2002, in accordance with the Act; and

Whereas, The taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under the Act and under Public Act 198 of 1974 exceeds 5% of the total taxable value of property in the City of Detroit; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

Whereas, The Application is for obsolete property as that term is defined in Section 2(h) of the Act, which property is owned by the Applicant; and

Whereas, The Application has been provided to this City Council (including a completed line 9 of the Application); and

Whereas, Commencement of the rehabilitation of the subject facility did not occur before the establishment of the Obsolete Property Rehabilitation District; and

Whereas, The Application relates to a rehabilitation program that when completed constitutes a rehabilitated facility within the meaning of the Act and which is situated within the aforesaid City of Detroit Obsolete Property Rehabilitation District No. 13; and

Whereas, Completion of the rehabilitation is calculated to, and will at the time the Certificate is issued, have the reasonable likelihood of increasing and/or retaining employment, increasing commercial activity, revitalizing an urban area, or increasing the number of residents in the community in which the facility is located; and

Whereas, The rehabilitation includes improvements aggregating 10% or more of the true cash value of the property at the commencement of the rehabilitation as provided by Section 2(l) of the Act; and

Whereas, This City Council has granted until the end of 2004 for the completion of the rehabilitation; and

Whereas, On March 27, 2003, in the City Council Committee Room, 13th floor, Coleman A. Young Municipal Center, Detroit, Michigan, a public hearing was held on aforesaid Application, at which time the Applicant, the Assessor, the general public, and representatives of the affected taxing unit had an opportunity to be heard; and

Whereas, Notice was given by certified mail to the Detroit Board of Education, the City of Detroit Board of Assessors, the Wayne County Board of Commissioners, Wayne County Community College, the Wayne County Intermediate School District, the Huron-Clinton Metropolitan Authority, the Applicant, and by publication to the general public, informing them of the receipt of the Application, the date and location of the Public Hearing, and the opportunity to be heard;

Now Therefore Be it

Resolved, That it is hereby found and determined that the granting of an Obsolete Property Rehabilitation Exemption Certificate, considered together with the taxable value of Obsolete Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax with the City of Detroit; and be it further

Resolved, That it is hereby found and determined that the Applicant has complied with the requirements of the Act; and be it further

Resolved, That the application of 1521 Broadway, L.L.C., for an Obsolete Property Rehabilitation Exemption Certificate in City of Detroit Obsolete Property Rehabilitation District No. 13 is hereby approved for a period of twelve years from completion of the facility in accordance with the provisions of the Act; and be it finally

Resolved, That the City Clerk shall for-

ward said Application to the Michigan State Tax Commission as provided by the Act.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. Re: Requesting Alley Vacation and Conversion to Easement of Petitions Nos. 013, 242, 306, 587, 673, 809, 1096, 1104, 1185, 1427, 1808, 1872, 2401, 2426, 3138 and 3377.

The above-referenced petition has been filed with the Detroit City Council by more than two-thirds of the abutting property owners, as required by the Detroit City Code, Article VI, Section 50-6-1. In this instance, there is 100% property owners support of this request, therefore no public hearing is necessary. Our investigation of this petitions discloses the following:

1. That the alleys do not serve as the sole means of egress/ingress to any of the garages on the abutting properties.
2. The public utilities located in the alley can be properly served if these alleys are converted to an easement.

3. The alleys are not required for municipal services (trash collection).

4. No objections to these alley vacations have been received from Utilities or City Departments following notification of this request.

It is therefore the recommendation of the Planning and Development Department that these requests for alley closures be granted.

**Water and Sewerage Department

April 7, 2003

Honorable City Council:

Re: Resolution Requesting Authority to Acquire Properties, Easements and

Rights-of-Way from Crown Industries (11900-12000 E. Jefferson) for An Under Drain Relief System.

The Detroit Water and Sewerage Department (DWSD) is constructing the Conner Creek Pilot CSO Control Facility (Facility) as part of its long-term Combined Sewer Overflow (CSO) control plans. Combined sewage into this Facility will be routed through the Conner Creek Triple Barrel Outfall (Outfall) that was built in the late 1920's. This Outfall needs to be dewatered, cleaned and inspected. In addition, the Outfall was originally built to be full of water, which is the current mode of operation. During rain events and when the new Conner Creek CSO Facility is placed in operation, the Outfall will transport combined sewage to the Facility. During the period between rain events the Outfall will be drained. As a result, the drained Outfall structure will be under uplift pressure from groundwater.

Major concerns exist with the Outfall as it was originally designed and constructed regarding its ability to counteract ground water uplift pressure. When empty, structural failure could occur at weak points, resulting in collapse or breakup of the concrete Outfall. In order to protect the Outfall from such ground water uplift pressure, an under drain relief system needs to be constructed.

Permanent and construction easements are necessary in order to install the under drain relief system along the Outfall. DWSD will construct an under drain relief system for the existing Conner Triple Barrel Outfall at a cost of \$2.787 million.

DWSD respectfully request your Honorable Body's approval of the "Resolution of Necessity" to acquire the Crown Enterprises properties, easements and rights-of-way to construct an under drain relief system.

By Council Member McPhail:

Whereas, There exists in the City of Detroit, Michigan (the "City"), the need to provide a sanitary water supply and disposal system for City residents, to construct, equip, operate, maintain and improve works for the sanitary treatment, purification and disposal of City sewage, and to provide needed sewage services and facilities to the City and its residents; and

Whereas, Act 316 Public Acts of Michigan 1931, as amended, Act 279 Public Acts of Michigan 1909, as amended, Act 451 Public Acts of Michigan 1994, as amended and Act 211 Public Acts of Michigan 1949, as amended (the "Acts"), constitute full authority for the City to carry out the purposes set forth in the Acts, including but not limited to the institution of eminent domain proceedings to acquire the necessary property; and

Whereas, The City has previously established that the Detroit Water and Sewerage Department (the "DWSD" or the "Department") has the authority to exercise the powers and authority granted by the Acts, as amended; and

Whereas, The DWSD Board of Water Commissioners has authorized implementation of certain capital improvements to its wastewater treatment system, including but not limited to development of groundwater pressure relief underdrain adjacent to its Conner Creek combined sewer conduit between Jefferson and Freud, along with other related facilities (the "Project") to enhance the quality of wastewater treatment services in the City of Detroit and in order to provide for the City's continued compliance with its duly issued National Pollution Discharge Elimination System ("NPDES") Permit; and

Whereas, Engineers and consultants working on behalf of the DWSD have determined that from among nine alternatives detailed in the documentation attached as Exhibit A, the pressure relief underdrain system is the best and the most reasonable alternative which will ensure proper maintenance, optimize operational efficiency, minimize cost, maintain regulatory compliance and reduce the impact on private property interests while relieving groundwater pressure on the Conner Creek combined sewer conduit between Jefferson and Freud particularly after dewatering of the conduit; and

Whereas, The only suitable location for the installation of the Project is in permanent expanded easement immediately adjacent to the Conner Creek combined sewer conduit and easement between Jefferson and Freud in an expansion of the easement area by approximately ten feet on either side of and adjacent to the currently existing easement as shown more specifically on Exhibit B (the "permanent easement"); and

Whereas, In addition to the permanent expanded easement, the City also needs a temporary construction easement (the "temporary easement") that will be approximately fifty (50) feet wide running adjacent and parallel to the western boundary of the expanded easement as shown on Exhibit B for a period of six (6) months (together the permanent ease-

ment and the temporary easement constitute the "subject property"); and

Whereas, The City has determined that the construction of the Project on the subject property is the most feasible and cost effective design available; facilitates optimal operational performance; ensures minimal maintenance concerns; maintains regulatory compliance with the City's NPDES permit; and minimizes the impact on private property; and

Whereas, Pursuant to the Acts, as amended, the City is authorized to take private property necessary for public improvements and/or a public facility for the public purposes within the scope of its powers under the act for the use and benefits of the public and to institute and prosecute proceedings for such purpose, including but not limited to proceedings pursuant to 1980 Public Acts of Michigan 87, as amended; and

Whereas, It is necessary to acquire the subject property described on Exhibit B attached hereto and incorporated herein by reference to accomplish the public objectives, purposes, and uses of the Project, and it is essential for the public health, safety, general welfare and peace of the City; and

Whereas, It is necessary to acquire said private property (i.e., the subject property) for such public purposes within the scope of the statutory powers or the Acts for the use and benefit of the public; and

Whereas, The most recent state equalized valuation for the entire subject property was Six Million Two Hundred Seventy-Four Thousand Four Hundred Fifty Dollars (\$6,274,450); and

Whereas, The initial estimate of the total aggregate cost of acquiring the subject property, including but not limited to the estimated total aggregate just compensation to be paid plus contingencies, is Thirty-Three Thousand Seven Hundred Ninety-Five Dollars (\$33,795.00); and

Whereas, The initial estimate of the total aggregate relocation benefits to be paid to any displaced person in connection with the properties to be acquired plus contingencies is Twenty Thousand Dollars (\$20,000.00); and

Whereas, Based upon preliminary environmental investigations, past experience and representations by Hazen and Sawyer, P.C., and allowance for funds for site investigations, site assessments, responsive activities, remedial actions, removal actions, and abatement of any hazardous substance mandated by or anticipated to be performed in compliance with any applicable environmental law, including a Comprehensive Environmental Response Compensation and Liability Act ("CERCLA"), and the Michigan Natural Resources and Environmental Protection Act ("MNREPA"), and

the Toxic Substances Control Act ("TSCA"), plus contingencies, is sought in the amount of Three Million Six Hundred Thousand Dollars (\$3,600,000.00), the amount of any allowance retained will be finally determined by order of the court; and

Whereas, The costs associated with the acquisition, environmental assessments and remedial actions, if any, shall be borne by the DWSD and the Michigan Department of Environmental Quality ("MDEQ"); and

Whereas, The sources of funds for this acquisition, and the environmental assessments and remedial actions are DWSD Contract PC 793 and the DWSD's Sewage Disposal Capital Improvement Program Fund; and

Whereas, The Project is expected to enhance the quality of the wastewater treatment services in the City, and ensure the City's continued compliance with its NPDES Permit; and

Whereas, The approval of this Resolution of Necessity is necessary for the consummation of the transactions contemplated by implementation of this Project, and is in the best interests of the citizens of the City of Detroit:

Now, Therefore, Be It Resolved:

1. This Honorable Body hereby declares that the development of the groundwater pressure relief underdrain system and related appurtenances in the permanent easement area adjacent to the Conner Creek combined sewer conduit and the temporary construction easement adjacent and parallel to the permanent easement as shown on Exhibit B are necessary and essential to the interests of the public peace, health, safety and welfare of the City, and to the enhancement of the quality of wastewater treatment and sewage services to the City of Detroit and the residents of the City of Detroit and Southeastern Michigan;

2. This Honorable Body hereby (a) declares that the development of the groundwater pressure relief underdrain system and related appurtenances adjacent to the Conner Creek combined sewer conduit is necessary; (b) determines that the Project constitutes a major public improvement and/or the development of public facilities for the use and benefit of the public; (c) declares it necessary to take private property for the purpose of these public improvements; and (d) determines that the permanent and temporary easements necessary for such Project are located near Conner Creek in the City of Detroit, County of Wayne, Michigan, as shown more specifically in Exhibit B attached hereto;

3. The City of Detroit hereby declares its intention to acquire private property necessary for the development of the Project by gift, purchase, condemnation,

abandonment, or otherwise, for the purpose of transfer to the DWSD on terms and conditions that the City and the DWSD deem appropriate, and this Honorable Body hereby declares and determines that the taking, transfer and use of property is a necessary public improvement, is necessary for public purposes and for the health, welfare and benefit of the residents of the City of Detroit;

4. The Director of the City of Detroit Water and Sewerage Department or his designee is hereby authorized to make offers to purchase said property to initiate negotiations for the purchase of said property and to enter into the purchase and transfer agreements in connection with said property;

5. The Director of the City of Detroit Water and Sewerage Department or his designee shall comply with the terms and conditions of City of Detroit Ordinance 18-96 and has designated the DWSD Sewage Disposal Capital Improvement Program Fund and PC 793 as the sources of funds for this acquisition and the related environmental assessments and remedial actions, if any;

6. The Corporation Counsel for the City of Detroit is hereby directed to institute and bring to an appropriate conclusion the necessary condemnation proceedings on behalf of the City of Detroit in the Third Judicial Circuit, County of Wayne, State of Michigan to acquire said property through the exercise of the City's

power of eminent domain, if the City is unable to purchase the property from the property owners through negotiations pursuant to 1980 PA 87, as amended, and other applicable laws;

7. The Corporation Counsel or her designee is authorized to accept deeds and/or requisite documents related to the acquisition and to authorize payment of the estimated just compensation presently held by the City Treasurer;

8. The City Treasurer is directed to prorate all City and County taxes to the date of closing on property acquired;

9. The Finance Director or his designee is authorized to honor applications and/or vouchers covering payment for the estimated just compensation deposited with the City Treasurer or his designee when deeds and/or the requisite documents related to the acquisition are presented in advance of regular trial on any contested parcel;

10. In order to implement and facilitate the accomplishment of the Project, improvements and modifications, it is hereby found and determined that certain other official action may be taken by the City with respect to, but not limited to, changes in the zoning and the vacation and removal of streets, alleys, or the public ways and certain utilities and public facilities; and

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential attorney-client privileged memorandum that is being separately hand-delivered to each member of your Honorable Body. Honorable City Council:

Re: Neighborhood Enterprise Zone (NEZ) Certificate Applications for seven (7) units in the Midtown area (Recommend Approval).

The City Clerk's Office forwarded to this office seven (7) applications for NEZ certificates for 469 W. Willis (Wentworth Apts.). The NEZ designation for the area generally bounded by Hancock, Cass, Selden and the Lodge Freeway was approved by City Council on March 10, 1999. The City Planning Commission staff has reviewed the applications and recommends approval.

Certificates are being requested for the following addresses: 469 W. Willis, Unit #1, 469 W. Willis, and Unit #2, 469 W. Willis, Unit #3, 469 W. Willis, Unit #4, 469 W. Willis, Unit #5, 469 W. Willis, Unit #6, and W. Willis, Unit #7.

The property at 469 West Willis, with its above-referenced seven (7) units, is confirmed to be within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The Renaissance Investment Co., Inc. has applied for the certificates at this time, although buyers of the units have not been identified. The State Tax Commission, however, will not issue a certificate until each owner is identified. When an owner is identified, he or she can apply for the certificate. At that time, it would not be necessary for the City Council to pass another resolution.

Renaissance Investment Co., Inc. has proposed to convert the thirteen (13) units in the three-story brick apartment structure (Neo-Georgian style building) located on 469 West Willis into seven (7) units. The NEZ applications appear to have been submitted prior to the issuance of any applicable building permits.

Please contact our office should you have any questions.

WHEREAS, The government of Mexico issues to its nationals living abroad who provide an original birth certificate or other official identification a form of consular identification known as "Matricula Consular"; and

WHEREAS, The Matricula Consular consists of a photographic identification card displaying the bearer's full name, birth date, and U.S. address, that is valid for five (5) years; and

WHEREAS, Approximately fifty (50) cities across the nation accept the Matricula Consular cards as a form of identification; and

WHEREAS, Many communities in Michigan, including the cities of Grand Rapids, Lansing, Pontiac, Battle Creek, and Monroe currently accept the card as a form of identification; and

### Invocation

God of our Fathers we thank You this 16th day of April, 2003, for our life, our breath, and our being. Thank you God Almighty, for the council leaders of this great City of Detroit that You have gathered here today to give direction and

vision to this city that You so dearly love. It is written that "there is no authority except from God, and those (authorities) which exist are established by God." Romans 13:16 NASB. It is also written that "where there is no vision, the people perish." Proverbs 29:18 KJV. Therefore, we acknowledge that these council leaders gathered here today are done so according to Your sovereign will alone for we also know that, "many plans are in a mans heart, but the council of the Lord will stand." Proverbs 19:21 NASB. Therefore, "God be merciful to them and bless them (in this Your business), grant them wisdom in their decision oh God, Father, we ask You to cause Your face to shine upon this council today we pray, that Your way may be known in Detroit and Your saving health among its people. [Taken from Psalm 67:1-2; James 1:5]. In the name of Your Son, Jesus, the Messiah we pray. Amen.

### Planning & Development Department

April 4, 2003

Honorable City Council:

Re: Resolution to amend the Detroit Master Plan of Policies in the vicinity of Mack Avenue and Alter Road to accommodate a proposed commercial development.

Attached for your consideration and action is a proposed Amendment to the Detroit Master Plan of Policies for the area generally bounded by a line generally 200 feet north of Mack Avenue on the north, Alter Road on the east, a line generally 400 feet south of Mack on the south, and Manistique Avenue and the alley west of Manistique on the west. Adoption by your Honorable Body of this resolution would accommodate changes in the Mster Plan of Policies to allow for the construction of a phased commercial development encompassing the northwest and southwest corners of the Mack/Alter intersection and adjacent land.

### PROPOSED MODIFICATIONS

The subject area to be changed covers 7.42 acres and is shown on the Master Plan of Policies Chandler Park and Jefferson-Mack "Generalized Proposed Land Use" maps. Presently, the subject area is designated as "GC", General Commercial, "RL", Low Density Residential, and "RLM", Low-Medium Density Residential. It is recommended that the land use designation for the entire subject area be changed to "GC", General Commercial. Also proposed to be changed is the attached East Sector "Generalized Rezoning Concept" map. On this map, the subject area is recommended to be changed from R2 (Two-Family Residential District) and B4 (General Business District) zoning classifications to

a PD (Planned Development District) zoning classification.

**BACKGROUND**

The Planning & Development Department is requesting the proposed Master Plan Amendment to revive the Mack-Alter commercial strip and bring much needed retail options to the surrounding lower east side neighborhood. The proposed retail development is the culmination of on-going efforts for many years to revive this commercial strip involving public, private, and community interests. The new retail will complement the new residential development in the area (Morningside Commons), with potentially more new residential units to follow as a part of the Far East Side development initiative. The subject area, which centers on the northwest and southwest corners of the Mack/Alter intersection, includes adjacent residential parcels currently in blighted condition. The additional residential parcels are needed to create larger sites to accommodate modern retail uses. Presently, there are only two commercial storefronts along this portion of Mack, both on the southwest corner, one of which is vacant. Vacant land abounds throughout the area, particularly adjacent to the Mack commercial strip. This vacant land will make the proposed expansion of the commercial footprint much less intrusive on the neighborhood.

**DEVELOPMENT ACTIVITY**

The proposed development is to be constructed in three phases all fronting along Mack Avenue. The first phase is to be constructed at the northwest corner of Mack and Alter and will be developed as a 10-pump filling station that would include a bakery and convenience store. A second, larger phase to be located on the southwest corner of the intersection is presently planned to include four buildings encompassing a combined total of approximately 53,000 square feet of retail space. This phase would require the closing of Ashland and Manistique Avenues to the west of Alter. The third and final phase of the development to be located on the block immediately west of the proposed filling station has yet to be planned.

In summary, the Planning & Development requests the proposed Amendment to the Master Plan of Policies as it would accommodate construction of a new retail development in a rebuilding neighborhood that has been sorely lacking in commercial options for many years. Therefore, it is our recommendation that the proposed future land use on the Chandler Park and Jefferson-Mack Generalized Proposed Land Use maps be changed for the entire subject area to "GC", General Commercial.

Respectfully submitted,  
 BURNEY JOHNSON  
 Director of Planning Activities

**COMMUNICATIONS**  
**Finance Department**

March 12, 2003

Honorable City Council:

Re: FY 2002-2003 Budget Amendment.

The Detroit Recreation Department's (DRD) Recreation Activity Fund (RAF) has existed since 1933 for the purpose of facilitating timely payment for recreation activities around the City. This non-general ledger account is in fact a super imprest cash account that has grown significantly with the needs of the DRD over the years. In recent years, the size of the fund has made it a challenge to manage. As a result, the fund has been subject of recurring audit comments by the Auditor General.

The Finance Department has been working with the DRD to transition the RAF account to a special revenue fund. As a special revenue fund, all RAF purchases would be fully documented on the General Ledger and would be in full compliance with the City's purchasing ordinance. Also, all payments would be made through Accounts Payable rather than the DRD's central finance division. Additionally, as a special revenue fund, balances that remain at year-end will be carried forward into the succeeding fiscal year.

The Finance Department has met with more than 120 DRD staff members and provided several cash handling training seminars in preparation for this transition. Also, the Finance Department's Accounts Payable and Purchasing divisions have provided assurances that the DRMS and purchasing processes can accommodate the DRD's needs.

We therefore request that the 2002-2003 budget be amended as follows:

- Establish appropriations #11147 as the Recreation Activity Fund.
- Increase estimated revenue in Recreation for the Recreation Activity Fund in the amount of \$1,000,000.

Re: Address: 11322 Winthrop. Name: Karl Kipela for Sterling Bank & Trust. Date ordered removed: July 17, 2002 (J.C.C. p. 2156).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on March 24, 2003 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of March 24, 2003.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Honorable City Council:

Re: Address: 4701 Chene. Name: Matthew Tatarian. Date ordered removed: June 12, 2002 (J.C.C. p. 1751).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 2, 2003 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of March 31, 2003.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of six (6) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without fur-

ther hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Respectfully submitted,  
AMRU MEAH  
Director

Honorable City Council:

Re: Requested amended resolution for approval of site plans and elevations for Crosswinds Communities' Woodward Place at Brush Park.

Attached is the modified resolution for the approval of the site plans and elevations for the Crosswinds Communities' Woodward Place at Brush Park development. These modifications are to address the concerns raised at the April 15, 2003 discussion on this matter. City Planning Commission (CPC) staff worked with the Law Department to develop the language pertaining to the sale of City-owned property to the Yazbecks.

Respectfully submitted,  
MARSHA S. BRUHN  
City Planning Commission  
GREGORY MOOTS  
City Planning Commission

By Council Member McPhail:

Whereas, Crosswinds Communities proposes to construct an additional 98 units of housing and to modify the site plan approved in 1997 in the Brush Park neighborhood in a PD (Planned Development District) zoning district;

Whereas, The Zoning Ordinance states that for development in PD districts the site plan, building elevations, and other development proposals, must be reviewed by the City Planning Commission and approved by the City Council; and

Whereas, The City Planning Commission has reviewed the plans for the proposed modification and has submitted a report to City Council recommending approval of the site plan and elevations with a condition and modifications; and

Whereas, The Detroit City Council understands that the Planning and

Development Department is presently negotiating with Mr. and Mrs. Yazbeck for their purchase of the easterly portion of Parcel 143 (aka 75 Winder); and

Whereas, The Historic District Commission generally supports the proposed modifications.

Now, Therefore, Be It Resolved, That the Detroit City Council hereby approves the site plan and elevations as described in the foregoing communication from the City Planning Commission and depicted in plans drawn by Hamilton Anderson dated January, 2003 with the following modifications:

1. that the lots to the east and west of 97 Winder (a proposed bed and breakfast inn) be shown as being developed either as parking or as a use permitted in the adopted Development Plan for the area;

2. that the lot at 224 Winder adjacent to 234 Winder (a proposed bed and breakfast inn) and the lot across the street at 243 Winder be shown as being developed either as parking or as residential;

3. that the easterly portion of 255 Winder be shown as being developed as either open space or parking for the adjacent buildings;

4. that 103 Adelaide be shown as being developed as either open space or parking for the adjacent apartment building;

5. that 202 and 216 Alfred be shown as being developed as either open space or parking for the adjacent apartment building to the east or for the apartment building at 2627 John R.;

6. that the garden apartment building on Winder between Woodward and John R be moved to the west sufficient to enable Lot 103 to be used for additional off-street parking for the building; and

7. that the new north-south private road between Alfred and Adelaide, east of John R, be eliminated; and

8. that a minimum of 20% of the 111 additional units in the proposed modification be affordable to persons meeting HUD's low-moderate income guidelines.

Be It Further Resolved, That approval is conditioned on a minimum of 20% of the additional units being affordable to persons of low-moderate income; and

Be It Further Resolved, That when the development between Brush and Beaubien is presented by Crosswinds to the City, it is expected that the 20% affordable housing objective of the Brush Park Development Plan will be met and that there will be a choice of unit types that meet this objective.

**A RESOLUTION URGING THE UNITED STATES CONGRESS TO REJECT S. 659 AND H.R. 1036, LEGISLATION, WHICH SEEKS TO GRANT THE FIREARM INDUSTRY SPECIAL PROTECTIONS AGAINST LEGAL ACTION.**

By COUNCIL MEMBER McPHAIL:

WHEREAS, Nearly 30,000 Americans in this country die each year from gun violence; and

WHEREAS, More than half of Detroit's homicides, many being youth homicides, are committed by firearms; and

WHEREAS, Gun manufacturers and sellers are already exempt from federal consumer product safety regulation and the only other product that enjoys such an exemption is tobacco; and

WHEREAS, The State of California in 2002, recognized that an immunized gun industry lacks the motivation to avoid neg-

ligent or reckless behavior and creates grave dangers to the general public, repealed its 20-year old gun industry immunity statute, restoring the rights of victims of gun industry negligence to seek redress in court;

WHEREAS, The U.S. Congress has proposed legislation, S. 659 and H.R. 1036, which would take away the rights of gun victims by prohibiting qualified civil liability actions from being brought by the Federal Government, states, municipalities, and private interest groups and individuals in any Federal or State court; and

WHEREAS, The proposed federal legislation would deny the legal rights of current and future gun violence victims seeking to hold the gun industry accountable for irresponsible manufacturing and selling practices by giving an unprecedented special immunity from lawsuits to gun sellers; and

WHEREAS, Such legislation puts American law enforcement officers and the general public in danger by reckless gun sales practices as exemplified by the 2,938 firearms confiscated by the Detroit Police from streets in the first six (6) months of 2002, of which seventy-five percent (75%) were pistols and revolvers; and

WHEREAS, The City of Detroit and County of Wayne filed a lawsuit along with 29 other cities and counties against some manufacturers as their firearms are used in crimes so frequently that their sales strategies amount to a public nuisance and a violation of the public's safety and peace; and

WHEREAS, In the City of Detroit and County of Wayne, firearm dealers were videotaped by law enforcement officials selling firearms to felons through straw sales; and

WHEREAS, The NAACP's pending case against the gun industry alleging that negligent marketing practices by gun manufacturers and distributors fuel street violence that victimizes minorities and that gun makers knowingly sell their products to corrupt dealers who supply criminals, would be made invalid by the proposed legislation; NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council urges the United States Congress to reject S. 659 and H.R. 1036, legislation which seeks to grant the gun industry special protections against legal action, and BE IT FURTHER

RESOLVED, That the Detroit City Council directs the City Clerk to immediately send copies of this adopted resolution to President George W. Bush, the United States Senate and House Leadership, Chair of the House Judiciary Committee (Rep. James Sensenbrenner-WI) Chair of the Senate Judiciary Committee (Sen. Honorable City Council:

Re: An Ordinance Amendment to Conform the 1998 Defined Contribution Plan of the General Retirement System to the Requirements of Section 414(h)(2) of the Internal Revenue Code.

This proposed amendment to the 1998 Defined Contribution Plan ordinance is in response to a notification by the Internal Revenue Service that Sections 47-3-3

and 47-3-5 of the Plan ordinance do not comply with Section 414(h)(2) of the Internal Revenue Code. (See Department of Treasury, March 28, 2003 letter attached.) Failure to correct these deficiencies will result in after-tax, rather than pre-tax, treatment of employee contributions to the Plan.

Section 11-104 of the 1997 Detroit City Charter requires an actuarial study only in the event of changes in "future retirement benefits." No study is required in this instance because the proposed amendments will have no impact on such benefits. In order to secure prompt approval of the 1998 Defined Contribution Plan and begin its implementation, it is imperative that the amendment be introduced and set for hearing at your earliest possible session.

If we may be of further assistance on this matter, please do not hesitate to contact us.

Dear Ms. Thompson:

On March 13, 2003, a Conference of Right was held to discuss the General Retirement System of the City of Detroit Private Letter Ruling Request dated December 31, 2001. The participants were yourself, as authorized representative of the City of Detroit, and Robert Mumaw and Robert Brambilla of this office.

During the conference, the following matters were addressed.

1) Proposed favorable rulings to be issued with respect to Ruling Requests 1 and 3.

2) Ruling Request 9 must be withdrawn because it involves a qualification issue under section 401(a) of the Internal Revenue Code within the jurisdiction of the Service's appropriate area office.

3) Proposed adverse rulings to be issued with respect to Ruling Requests 2, 4, 5, 6, 7, and 8. However, favorable rulings are possible with respect to Ruling Requests as discussed below. Regarding whether the 1998 Defined Contribution Plan of the General Retirement System satisfies the requirements of Code section 414(h)(2), the Plan must satisfy the rule that an employee has a one-time irrevocable election to participate in and

contribute a selected percentage of pay and that election must carry forward during the employee's entire period of employment. Also, the election must be made within 24 months of date of hire or date the employee is first eligible to participate.

City Ordinance sections 47-3-3(A)(1), 47-3-3(B), 47-3-3(C)(1), 47-3-3(F)(1), 47-3-5(A), and 47-3-5(B) do not conform to this rule. Sections 47-3-3(A)(1) and 47-3-3(B) contain a 10 year election period. They must be amended to conform to the 24 month one-time irrevocable election rule. Section 47-3-3(C)(1) provides an additional employee election to transfer back to the Defined Benefit Plan from the Defined Contribution Plan. This provision must be deleted because the "transfer-back" election negates the requirement in a pick-up plan that an employee has a one-time irrevocable election to participate in the plan. Section 47-3-3(F)(1) states that the election to participate is made within 6 months of date of hire "unless another time period is specified in the employee's collective bargaining agreement." The collective bargaining clause must be removed because it prevents the Defined Contribution Plan from satisfying the 24 month one-time irrevocable election rule. Sections 47-3-5(A) and (B) fail to state when the election must be made and therefore do not conform to the 24 month rule. In addition, in order for the election under 47-3-5(B) to satisfy the 24 month one-time irrevocable election rule, it must be made at the same time as the election in section 47-3-5(A).

Pursuant to section 12.06 of Revenue Procedure 2003-4, 2003-1 I.R.B. 123 (January 6, 2003) you have 21 days from the date of the Conference to submit any additional information to the Service. If you have any questions please call Robert Brambilla, T:EP:RA:T1 (ID #50-00751), at (202) 283-9610.

Sincerely yours,  
ANDREW E. ZUCKERMAN  
Manager  
Employee Plans Technical Group 1

By Council Member Bates:

**AN ORDINANCE to amend Chapter 47, Article III, of the 1984 Detroit City Code, titled 1998 Defined Contribution Plan, by amending Sections 47-3-3(A)(1) and 47-3-3(B) to reduce the ten year election period for participation in the Plan to the twenty-four month period allowed by the Internal Revenue Service, which begins at the date of hire or the employee's eligibility in the Plan; by amending Section 47-3-3(C)(1) to delete the "transfer back" election which negates pre-tax treatment of employee contributions in connection with Internal Revenue Service**

**rulings that require pre-tax employee contributions to a government plan to be made pursuant to a one-time irrevocable election to participate in the Plan; by amending 47-3-3(F)(1) by limiting the election period to twenty-four months and by eliminating the six month waiting period; by amending 47-3-5(A) and 47-3-5(B) to add the requirement that the election to contribute pursuant to Section 47-3-5(B) must be made at the same time as elections under Section 47-3-5(A).**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 47, Article III, of the 1984 Detroit City Code be amended by amending Sections 47-3-3(A)(1), 47-3-3(B), 47-3-3(C)(1), 47-3-3(F)(1), 47-3-5(A), and 47-3-5(B), to read as follows:

**Sec. 47-3-3. Participation.**

(a) *Election of the Plan. Current DGRS members.*

(1) Any member of the DGRS who is also a member of the Coverage Group and who continues to be a member of the Coverage Group may become a participant in the 1998 Defined Contribution Plan if such individual elects to transfer to the Trust of the Plan, both the *Annuity Savings Fund* Balance and the actuarial present value of credited benefits of such individual under the 1973 Defined Benefit/Defined Contribution (Annuity) Plan. Such irrevocable election must be made within ~~ten years~~ twenty-four months of the implementation date of the 1998 Defined Contribution Plan. An individual who elects to make a transfer to this Plan shall become a participant in this Plan on a date which shall in no event be later than one hundred and twenty days after receipt of the individual's written election by the Board.

(2) The actuarial present value of credited benefits shall be calculated based upon the interest and mortality assumptions utilized at the date of such transfer upon the advice of the System's Actuary for purposes of determining the employer's annual contribution to the 1973 Defined Benefit/Defined Contribution Plan. The actuarial present value of the participant's credited benefits under the 1973 Defined Benefit/Defined Contribution Plan shall be transferred to the participant's Employer Contribution Account under this Plan and the participant's *Annuity Savings Fund* balance under the 1973 Defined Benefit/Defined Contribution Plan shall be transferred to the participant's *Annuity Savings Account* under this Plan. After any such transfer to this Plan, the participant's account balances shall be subject to the vesting schedules set forth in Section 47-3-8.

(B) *Current DGRS Members; Annual*

*election period.* Each calendar year following the implementation date of the 1998 Defined Contribution Plan, the Board of Trustees shall establish at least one election period for that year during which any member of the DGRS who is also a member of the Coverage Group may elect to become a participant in the 1998 Defined Contribution Plan; such election must be made within twenty-four months of the implementation date.

~~(C) Current DGRS Members; Revocability of election.~~

(1) A transfer election shall be revocable one time only and such revocation must be made within three years of the date of the original transfer election. No further revocations shall be allowed. This Section shall not apply to elections made pursuant to Section 47-3-3(E) or (F).

(2) The transfer back to the 1973 Defined Benefit/Defined Contribution Plan shall be based upon the present value of the participant's credited benefits under the ~~1973 Defined Benefit/Defined Contribution Plan~~ at the time of the retransfer, taking into account additional benefit accruals attributable to the period during which the participant participated in the 1998 Defined Contribution Plan ("Retrotransfer Amount"). For these purposes, the actuarial present value of credited benefits shall be calculated based upon the interest and mortality assumptions utilized at the date of such retransfer upon the advice of the System's Actuary for purposes of determining the employer's annual contribution to the 1973 Defined Benefit/Defined Contribution Plan.

(3) A portion or all of the participant's ~~Employer Contribution Account, the participant's Employee Contribution Account and the participant's Annuity Savings Account~~ under this Plan shall be transferred to the *Pension Accumulation Fund* under the 1973 Defined Benefit/Defined Contribution Plan (first, from the *Employer Contribution Account*, second, from the *Employee Contribution Account* and, finally, from the *Annuity Savings Account*) in an amount equal to the participant's retrotransfer amount. If, at the time of the retransfer, the combined value of the participant's ~~Employer Contribution Account, Employee Contribution Account and Annuity Savings Account~~ is greater than the retrotransfer amount, then such excess shall be added to the participant's *Contribution Savings Fund* balance under the 1973 Defined Benefit/Defined Contribution Plan. If the combined value of the participant's ~~Employer Contribution Account, the participant's Employee Contribution Account and the participant's Annuity Savings Account~~ at the time of the retransfer is less than the participant's retrotransfer amount, then such shortfall shall be paid, with interest, to the plan on

~~an after tax basis by the participant no later than ninety days following the retransfer. After any such retransfer to the 1973 Defined Benefit/Defined Contribution Plan, the participant's accounts/benefits shall be subject to the vesting schedules set forth in Section 47-2-4 of the 1973 Defined Benefit/Defined Contribution Plan. The participant's Rollover Account, if any, shall remain in the 1998 Defined Contribution Plan.~~

~~(B)(B) Election of the Plan. Members who separated from City service on or after July 1, 1998 with vested Article II pension rights. Any person who separated from City service with vested Article II pension rights on or after July 1, 1998, but prior to the implementation of the Plan, may become a participant in this Plan if such individual elects to transfer to the Trust of this Plan, both the Annuity Savings Fund Balance on the date of transfer, and the actuarial present value of the 1973 Defined Benefit Plan credited benefits as of the date of the member's transfer to this Plan, as if such individual were a member of the Coverage Group under (A) above. The Pension Board shall notify each former member of his or her eligibility for the Plan by certified mail. A former member's election to become a participant in the Plan must be made within six months after verification of the receipt of notice by the former member. Such election shall be irrevocable.~~

~~(E)(C) Election of the Plan. Members who separated from City service on or after July 1, 1998, but prior to the implementation of the Plan, without vested pension rights under Article II. Any person who separated from City service on or after July 1, 1998, but prior to the implementation of the Plan, without vested pension rights under Article II, may become a participant in this plan if such individual elects to transfer to the trust of this Plan, both the Annuity Savings Fund balance on the date of transfer and the actuarial present value of the 1973 Defined Benefit Plan credited benefits, as of the date of the member's transfer to this Plan as if such individual were a member of the Coverage Group under (A) above. The Pension Board shall notify each former member of his or her eligibility for the Plan by certified mail. A former member's election to become a participant in the Plan must be made within six months after verification of the receipt of notice by the former member. Such election shall be irrevocable.~~

~~(F)(D) Employees hired on or after the date of implementation of the Plan.~~

~~(+) "Election period." A person who becomes or again becomes a member of the Coverage Group on or after the date of the implementation of the 1998 Defined Contribution Plan may elect to participate in the 1973 Defined Benefit/Defined~~

~~Contribution (Annuity) Plan or the 1998 Defined Contribution Plan. Such election to participate in the 1998 Defined Contribution Plan may be made at any time during the period beginning with the participant's date of hire and ending on the first day of the calendar month following six months or during enrollment periods held during the participant's first two years of employment with the City ("Election Period")<sup>7</sup>, unless another time period is specified in the employee's collective bargaining agreement. During the Election Period, a participant may make an election and may revoke such election at any time, provided, however, the participant's election (or revocation) shall become effective and irrevocable at the end of the Election Period, that is, on the first day of the calendar month following six months of employment with the City.~~

~~Participant shall be a member of the 1973 Defined Benefit/Defined Contribution (Annuity) Plan until or unless an election is made to participate in the 1998 Defined Contribution Plan during the enrollment period.~~

~~A participant who elects to participate in the 1998 Defined Contribution Plan shall be entitled to receive employer contributions as provided under Section 47-3-4 of this Code retroactive to his or her date of hire. However, the participant shall not be entitled to make employee contributions as provided under Section 47-3-5 of this Code until after the effective date of his or her participation in the 1998 Defined Contribution Plan. Employer and employee contributions made on the participant's behalf to the 1998 Defined Contribution Plan shall be invested in the designated component fund(s) until such participant has chosen the investment vehicles in which his or her contributions will be invested. If no such choice is made within six months after the effective date of the participant's participation in the 1998 Defined Contribution Plan, such contributions shall remain invested in the designated component fund(s) until an appropriate change is processed by the member. A participant who elects to participate in the 1973 Defined Benefit/Defined Contribution Plan shall receive service credit under such Plan retroactive to the date of hire. However, the participant shall not be entitled to make contributions to the Annuity Savings Fund as provided under Section 47-2-18 of this Code until after the effective date of his or her participation in the 1973 Defined Benefit/Defined Contribution Plan.~~

~~(2) Failure to make election. A participant who fails to make any election during the Election Period, or who revokes a previous election without making a new election during the Election Period shall be deemed to have elected to participate in the 1973 Defined Benefit/Defined~~

~~Contribution Plan and such deemed election shall be irrevocable.~~

~~(3) *Disability during Election Period.* An employee who is determined during the Election Period to be totally and permanently incapacitated for duty in the employ of the employer under Section 47-2-6 of this Code shall be deemed to have elected to participate in the 1973 Defined Benefit/Defined Contribution Plan and such deemed election shall be irrevocable.~~

~~(G)(E) *Non-eligibility for participation in the Plan.* The following individuals shall not be eligible for participation in the Plan:~~

~~(1) *Contractual services.* Individuals whose services are compensated pursuant to a personal services contract or on another contractual or fee basis, and who are not members of the Classified Service<sup>1</sup> or elected or appointed to City positions as provided for in the 1997 Detroit City Charter.~~

~~(3) *Retirees.* Individuals who are retirees of the City of Detroit General Retirement Article II Pension Plan who return to employment with the City after a break in service of less than six years. However, vested Article II retirees returning to work after a break of more than six years of service, may enroll in this Article III Pension Plan with no loss of Article II Pension Plan benefits.~~

~~(4) *Members of other public employee plans.* Individuals who are members of any other public employee pension or retirement plan adopted by the State of Michigan, other than the Michigan National Guard, or any of its political subdivision, unless there is a reciprocity agreement between the city and such entities.~~

~~(H)(E) *Simultaneous participation in other plans prohibited.* On or after the date of implementation of the 1998 Defined Contribution Plan, a participant shall not take part in any other retirement plan for simultaneous service rendered to the employer unless otherwise provided for in an applicable collective bargaining agreement. This prohibition does not apply to deferred compensation plans established pursuant to Section 457 of the Internal Revenue Code.~~

~~(I)(G) *Termination of participation in Plan.*~~

~~(1) *Retirement, death, or termination of employment.*~~

A participant who retires from active service, is terminated from city employment, dies, or becomes ineligible to participate, shall become a former participant

beginning on the day immediately following the event that caused the ineligibility.

~~(2) *Termination for reasons other than duty disability; Re-employment.*~~

Subject to the provisions hereinafter stated in this subpart, if an employee terminates employment and ceases to be a participant for any reason other than duty disability, any service previously credited to the employee for purposes of vesting shall be disregarded. In the event of re-employment by the City as a member of the coverage group, such person shall again become a participant. If such re-employment occurs within a period of six years from and after the date city employment was terminated, prior service shall be restored for vesting purposes during the period of such re-employment. However, such vesting service shall only apply to employer contributions made on behalf of such employ subsequent to the date of re-employment. Vesting service credited after the employee's re-employment shall not be applied to increase his or her vested percentage in his or her pre-break Employer Contribution Account.

**Sec. 47-3-5. Employee Contribution Account.**

~~(A) *Basic employee contributions which are matched by the employer. At the time the Participant elects to participate in the 1998 Defined Contribution Plan pursuant to Section 47-3-3(A), a participant may elect to make a basic Employee contribution of zero, one, two or three percent (0%, 1%, 2%, 3%) of compensation, by irrevocably electing to have such participant's contribution "picked up" by the employer. Such election shall be irrevocable and the basic employee contribution shall be contributed* made to such participant's Employee Contribution Account under the 1998 Defined Contribution Plan. Subject to the approval of the Internal Revenue Service, basic employee contributions will be made on a pre-tax basis.~~

~~(B) *Additional voluntary employee contributions which are not matched by the employer. To the extent permitted by the Internal Revenue Service, the Plan will accept additional pre-tax voluntary contributions from the participants as follows: at the time the Participant elects to participate in the 1998 Defined Contribution Plan pursuant to Section 47-3-3(A), a participant may elect to make an additional voluntary employee contribution of zero, one, two or three percent (0%, 1%, 2%, 3%) of such participant's compensation, by irrevocably electing to have such participant's additional voluntary contribution "picked up" by the employer and Such election shall be irrevocable and the additional voluntary employee contribution shall be contributed* made to such participant's Employee Contribution Account under the 1998 Defined Contribution~~

Plan. Such additional voluntary contributions shall not be matched by the employer, and are in addition to the basic employee contributions described in Section 47-3-5(A) of this Code.

~~(C) Election not to have Contributions "picked up" by the employer. A participant who elects not to have such participant's contributions, as detailed in Section 47-3-5(A) and (B), "picked up" by the employer, may make a new election and change his or her contribution percentage annually in accordance with procedures established by the Board. Effective as of the adoption and approval of the 1998 Defined Contribution Plan by City Council or the implementation date, if later, the employer shall specify that basic employee contributions and additional voluntary employee contributions, although designated as employee contributions, shall be paid by the employer in lieu of contributions by the employee. In addition, no a participant may not elect to receive such participant's basic employee contributions or additional voluntary employee contributions that have been "picked up" by the employer directly instead of having them paid by the employer to the participant's Employee Contribution Account under the 1998 Defined Contribution Plan. If a participant irrevocably elects to have such participant's basic employee contributions and additional voluntary employee contributions "picked up" by the employer, such employee contributions shall be paid by the employer to the 1998 Defined Contribution Plan and not paid to the participant.~~

(D) Conversion of unused leave; Post-tax basis.

(1) Vacation time.

In accordance with the rules and procedures established by the Board, a participant who at the end of a Plan Year has accrued, but not used, an amount of vacation time, may make an irrevocable election to convert the value of some or all of such vacation time, in an amount not to exceed fifteen vacation days, as an additional contribution to such participant's Annuity Savings Account on an after-tax basis. The value of such additional contribution shall be one-half of the number of vacation hours converted multiplied by the hourly rate of pay applicable on each September thirtieth or such other date as approved by the Board.

(2) Sick time.

In accordance with rules and procedures established by the Board, a participant who is one hundred percent (100%) vested in the Employer Contribution Account pursuant to Section 47-3-8(B) of this Code, who has accrued but not used an amount of sick time, and who ceases to be a participant on or after the effective date of the Plan due to retirement or resignation, may make an irrevocable elec-

**STATEMENT BY COUNCIL MEMBER  
KENNETH COCKREL, JR. ON MBIA  
CONTRACT VOTE**

Today the Detroit City Council voted on the highly controversial contract MBIA Muniservices Company.

The Finance Department has proposed that this company be paid to provide collections on delinquent water and sewerage accounts, property tax accounts, and income tax accounts that are more than one year old. The total amount owed on such accounts is almost \$300 million.

On a four-four split, the contract failed to pass at today's meeting.

I voted against the contract. While I believe that there is much merit to having an outside contractor assist the City of Detroit in collecting on its delinquent accounts, flaws in the contract language ultimately forced me to vote no.

Discussions between the City Council and the Kilpatrick Administration on this contract have been long and intense. I commend the Finance Department's willingness to consider and address the concerns of some council members including myself. But I remain concerned about the provisions in the contract that call for "knowledge transfer" from the contractor to city workers who are charged with collections.

An earlier version of the contract provided that MBIA train up to five city workers annually. The latest version takes that amount up to 24 but the problem is that the amount remains a ceiling rather than a floor. This language provides no guarantee that a substantial number of city employees will be trained in the processes and technologies employed by this company on annual basis. This is critical.

If this training doesn't take place in this fashion, Detroit runs a very real risk of finding itself in the same situation it is now in the future. This will be because not enough of its own, in-house staff have learned how to do collections using state of the art procedures, technology, and skip-tracing techniques that are critical to finding delinquent account holders.

Furthermore, Council President Maryann Mahaffey earlier this month requested a written guarantee that no employees who are involved in collections currently would be laid off during the life of the contract. This request is valid and there is precedent for it. Nevertheless, the Finance Department did not respond to this request by the time of today's vote.

Given the failure of this contract it is clear that Kilpatrick Administration must

quickly do one of two things: either it must make further amendments and guarantees to make this contract viable or shift increased resources toward the training, technology, and staff needed to allow city personnel to do this work on their own.

This council member stands ready to explore both options with representatives of the administration.

STATEMENT BY COUNCIL MEMBER  
SHEILA M. COCKREL IN SUPPORT OF  
MBIA SERVICES PROFESSIONAL  
SERVICES CONTRACT

I voted in support of the MBIA Muni Services Professional Services Contract presented by the Administration for the following reasons:

The City of Detroit has a serious need to collect outstanding obligations for property taxes, income taxes, and water. In this time of looming budgetary crisis, the expeditious collection of revenues owed the City should be a priority. Unfortunately, there is an attitude and belief among certain corporations and private individuals, that the payment of obligations owed the City is not necessary because no meaningful collection efforts will be made. It is imperative for the current and future fiscal integrity of our City that this attitude be changed through a legal, but aggressive effort, to collect outstanding obligations.

MBIA Muni Services is able to provide state of the art technology for collection of outstanding taxes and water bills. As a nationally recognized specialist in the area of collections for municipalities, MBIA has brought a solid proposal to the City Council for collection of taxes and water bills owed the City. The Professional Services Contract presented today provided for the training by MBIA of City employees, so that our own personnel in the Law and Water and Sewerage Departments could acquire the knowledge and expertise necessary to perform increased collections activities. Additionally, it is important to note that no currently held positions within the City were imperiled by this contract. The Department of Water and Sewerage has recently begun implementation of an agreement to deploy Department personnel to bolster the Department's collection efforts.

The failure of Council to approve the MBIA Muni Services Contract leaves a \$24 million hole in the City Budget for Fiscal Year 2003-04. In a year of devastating budget cuts that involve difficult and sometimes heartbreaking decisions and choices, our City is now forced to find \$24 million additional dollars. Frankly, I find the failure of Council to approve this Professional Services Contract fiscally irresponsible.

STATEMENT BY COUNCIL MEMBER  
KAY EVERETT REGARDING MBIA  
CONTRACT

I voted in the affirmative on the approval of MBIA Contract because the contract would garner additional revenue needed to balance our extremely tight budget. We know there are millions of dollars (\$300 million) that have not been collected by the city that could be used to provide services to our community. The MBIA contract would train our employees up to 25 employees a year to efficiently collect revenue. This contract would not negatively effect the workers who are currently collecting revenues.

We as a city must do all we can to hold our city together until our economy turns around. The City of Detroit must do all that it can to seek opportunities to not waste or mismanagement funds.

Therefore, I voted YES to approve MBIA contract to collect much needed revenue for the City of Detroit.

STATEMENT BY COUNCIL PRESIDENT  
MARYANN MAHAFFEY FOR THE  
RECORD REGARDING THE  
PROPOSED MBIA COLLECTIONS  
CONTRACT

The vote by the Detroit City Council today rejecting the MBIA Muniservices collections contract was a vote for the people of Detroit. The Council sent a resounding message that it will not pay millions of dollars in commissions and fees to an out of state company while the city faces a deficit, city services are cut, and city workers are laid off.

MBIA would have been allowed to collect seventeen millions dollars in fees and commissions. Recently, AFSCME submitted a study that showed that the city could lease new technology, which would allow us to better identify delinquent taxpayers, and train city employees to do the collections work for approximately fifty thousand dollars. This type of arrangement has become a common practice and may be found in other states including California, Hawaii, Kansas, and Virginia. On the other hand, even the Mayor's Chief Financial Officer admitted that a contract of the magnitude proposed here could not be found anywhere else in the nation. It would have been fiscally irresponsible to ignore the common practice above in favor of awarding the collections contract to MBIA, Inc.

In addition, during the process of analyzing this contract I met with many city workers who insisted that if the staff of the relevant city departments was increased by approximately twenty workers, they could double or triple the effectiveness of their collections efforts. In previous years the City Council has allotted dollars in the budget to do this but the action was not taken. I repeatedly asked the current

administration for written confirmation that it would take this action and that the city's collections workers would not lose their jobs during the term of this contract. I never received this written confirmation. I challenge the current administration to take action to adequately staff the relevant departments and provide the resources necessary to give city workers a real chance to do this work.

It was irresponsible for the administration to prematurely place twenty-four million dollars in revenues from this contract in the budget without it having been approved by the legislative body. However, in order to recognize the projected gain the city could have paid out several million dollars in commissions and fees to the company this year alone. I firmly believe that we can find a more effective and less expensive method for collecting outstanding taxes. I am confident that by working together we can fill the hole left in the budget while doing what is right for city workers and the people of the city of Detroit.

**STATEMENT BY COUNCIL MEMBER SHARON McPHAIL REGARDING MBIA MUNI SERVICES CONTRACT**

I voted against the MBIA Muni Services Contract presented by the Mayor's Office because I believe it to be an unwarranted expenditure of city funds to perform a function that could be performed by city employees at a far lower cost to the city.

The amount of money owed to the city in overdue and unpaid taxes is estimated at over \$300 million. To pay a private contractor 100 million dollars to do that, when the Administration admits that city employees could perform this task for less than twenty percent of that amount is suspicious. The software, we are told, is available for under \$50,000.

The MBIA Company itself admitted that no money would be collected in the first year. For that reason, the Administration's inclusion of a \$24 million in this year's budget appears to be a tactic to pressure this Council to agree to a contract that is not in the City's best interest.

Unlike one of my colleagues, who referred to members of the Council who did not support this contract as "fiscally irresponsible," I respect my colleagues right to disagree. I must vote my own conscience.

Honorable City Council:

Re: Zofia Zygarcicka vs. City of Detroit.

Case No.: 02 218225 NO. File No.: A19000.002419 (PGR).

On April 8, 2003, a mediation panel evaluated the above-captioned lawsuit and awarded Five Thousand Dollars (\$5,000.00) in favor of Plaintiff. The parties have until May 6, 2003, to either accept or reject the mediation evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the mediation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the mediation award, and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Five Thousand Dollars (\$5,000.00) payable to The Law Firm of Carl Jackson III, attorneys, and Zofia Zygarelicka, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 02 218225 NO, approved by the Law Department.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will

obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Honorable City Council:  
 Re: Expansion of the Uptown Row Neighborhood Enterprise Zone.

Attached for your consideration please find a resolution and legal description which will expand the Uptown Row Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992 ("the Act"). Such establishment has been requested by Crosswinds Communities.

Your Honorable Body conducted a public hearing on this matter on April 3rd.

The Act requires that at least 60 days must pass from the date of the notice of the public hearing to the date of your formal establishment of the NEZ. The date of the notice was February 18th and we therefore recommend that you approve the resolution at your regular formal session of Wednesday, April 30th.

Respectfully submitted,  
 HENRY B. HAGOOD  
 Director of Development Activities  
 By Council Member K. Cockrel, Jr.:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment/expansion of Neighborhood Enterprise Zones (NEZs), the exemption from ad valorem taxes, and the imposition of a specific property tax in lieu of ad valorem real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the expansion of the Uptown Row NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has

adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation/expansion of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment/expansion of an NEZ; and

Whereas, A public hearing was conducted before the Detroit City Council on April 3, 2003, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the expansion of the Uptown Row NEZ are known;

Now Therefore Be It

Resolved, That the land area particularly described in the legal description attached hereto is hereby added to the Uptown Row NEZ pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

April 21, 2003

Honorable City Council:

Re: The Planning and Development Department's request to amend the Detroit Master Plan of Policies in the vicinity of East Grand Boulevard and Woodward Avenue to promote new residential, commercial, entertainment, and cultural uses (Recommend Approval).

The Planning and Development Department (P&DD) has submitted a request for following amendments to the Detroit Master Plan of Policies:

**Proposed Amendments to the Generalized Proposed Land Use map for the Middle Woodward Subarea, Woodward Area**

A. The area bounded by East Grand Boulevard, the Chrysler Freeway, the Ford Freeway, Beaubien Street, Piquette Avenue, the alley east of Woodward Avenue, and the alley south of Grand Boulevard is proposed to be shown as SRC/LT IND, Special Residential-Commercial/Light Industrial, where LT IND, Light Industrial and IND, General Industrial, are currently shown.

B. The frontage along the north side of East Grand Boulevard between Brush Street and the Chrysler Freeway is proposed to be shown as SRC, Special Residential-Commercial, where GC, General Commercial, is currently shown.

C. The frontage along the south side of East Grand Boulevard between Brush Street and Oakland Avenue is proposed to be shown as SRC, Special-Residential/Commercial, where GC, General Commercial, is currently shown.

**Proposed Amendments to the Generalized Rezoning Concept Map for the Woodward Area**

A. An amendment is proposed to show an SD2 (Special Development, commercial with limited residential) designation where M3 (General Industrial), M4 (Intensive Industrial), and TM (Transitional Industrial) designations are currently shown for the area bounded by Beaubien Street, Piquette Avenue, the Chrysler Freeway, and the Ford Freeway.

B. An amendment is proposed to show an M2 (Restricted Industrial) designation where an M4 (Intensive Industrial) designation is currently shown for the area bounded by Beaubien Street, the Grand Trunk Railroad, the Chrysler Freeway, and Piquette Avenue.

C. An amendment is proposed to show an SD2 (Special Development, commercial with limited residential) designation where a B4 (General Business) designation currently exists for the frontage along the north side of East Grand Boulevard between Brush Street and the Chrysler Freeway.

D. An amendment is proposed to show an SD2 (Special Development, commercial with limited residential) designation where a B4 (General Business) designation is currently shown for the frontage along the south side of East Grand Boulevard between Brush Street and Oakland Avenue.

**BACKGROUND INFORMATION**

The Planning and Development Department's request, if approved, would allow the development of a mixed-use district in the area generally bounded by the alley north of East Grand Boulevard on the north, the Chrysler Freeway on the east, the Ford Freeway and Piquette Avenue on the south, and Beaubien Street and Woodward Avenue on the west. This mixed-use district would potentially feature residential, commercial, entertainment, and cultural uses along with the existing light industrial uses.

Last year, the Vanguard Community Development Corporation requested that the City Council designate a portion of the subject area as a Neighborhood Enterprise Zone (NEZ) to help facilitate the development of residential lofts and infill housing. LoftWerks, a local developer, has also submitted a list of eight (8) recently completed or proposed residential or residential/commercial projects it is involved with in the area. The State NEZ Act requires that areas designated as NEZ's be consistent with the local Master Plan. The proposed amendments are,

therefore, needed to facilitate City Council's approval of the requested NEZ designation.

#### **PUBLIC HEARING RESULTS**

The City Planning Commission held a public hearing on the proposed Master Plan amendment request on March 6, 2003. During the public hearing, nine (9) attendees spoke on the proposed Master Plan amendment. Eight (8) people spoke in support of the proposal. One of these speakers representing New Center Stamping, Inc. indicated that the factory would like to expand within the next 12-18 months and wondered about the potential impact of the proposed Master Plan change on the future of the factory. One speaker, a resident of a nearby area, inquired as to the impact of the change on her property. It was also noted that the owner of the business at 510 Harper had called the CPC office concerned about the impact the amendments would have on expanding his business.

The Commission was also concerned about the fate of existing businesses in the area if the Master Plan was amended as proposed. The CPC staff noted that the current operations of the existing businesses would not be affected by the proposed Master Plan amendments.

#### **ANALYSIS**

P&DD had initially requested that the Rezoning Concept map for the north and south frontages of E. Grand Blvd. in the subject area be amended to indicate SD1 (Special Development, residential with limited commercial). The Commission questioned the appropriateness of the proposed SD1 because of the relatively large amount of active commercial uses on the street. The Commission requested staff to further survey and evaluate E. Grand Blvd. in light of this initial proposed amendment. Based on a further CPC staff survey and evaluation, it was noted that it was unlikely that housing would be the predominant land use on E. Grand Blvd. in the future although there would be a limited opportunity for housing development, especially loft apartments. Because the street has more commercial uses, including gas stations, the CPC felt a mixed-use development with limited residential would be a more realistic future land use goal for E. Grand Blvd.

The remainder of the subject area is generally comprised of sturdy structures

(factory buildings), offices, and vast areas of vacant land. The area also has businesses, institutions, residential/commercial lofts developments, new multi-family residential, and older housing. Most of the factories are now abandoned — especially on Piquette Street.

Currently, there is a demand for adaptive reuse of the properties in the area. The Vanguard Community Development Corporation's NEZ request and developments completed and planned by LoftWerks are clear illustrations of an emerging transition for this area from generally industrial to more mixed-used.

The proposed Generalized Rezoning Concept map will not have an effect on the existing land uses in the area. The Master Plan is only a guide for future land use decisions, and changes to the Rezoning Concept map do not constitute changes in zoning. However, if City Council at some point rezoned the subject portion of E. Grand Blvd. to SD2, as now proposed by P&DD and recommended by CPC, all of the currently active uses would be allowed uses in this district.

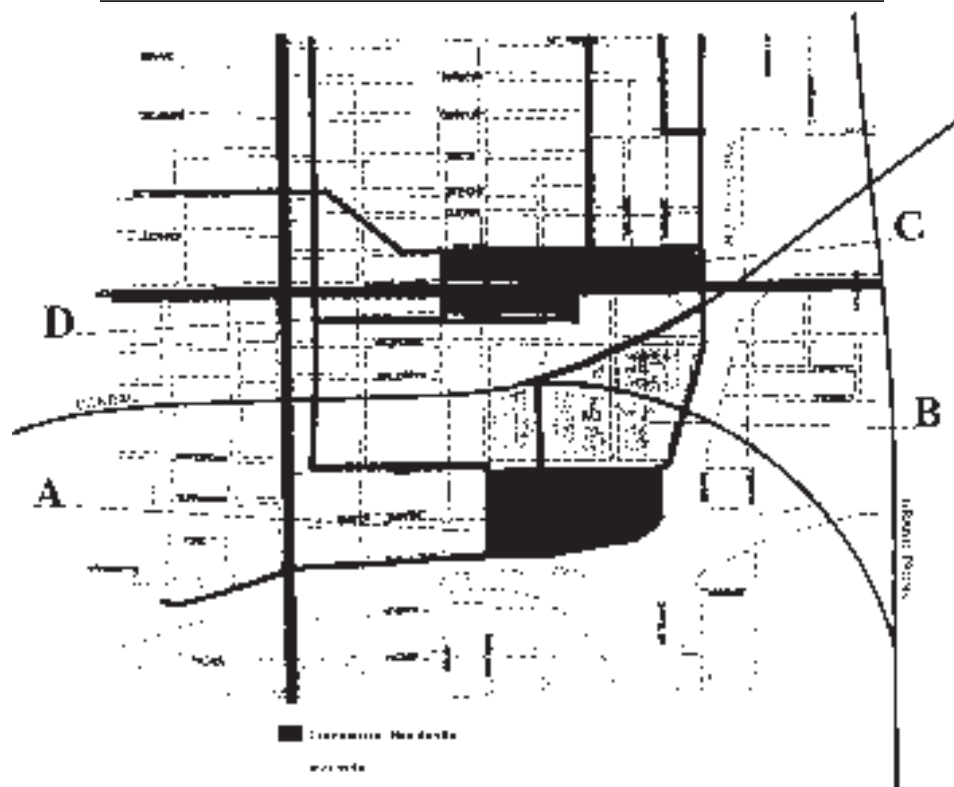

The current uses, including businesses, in the subject area would also be allowed to and encouraged to continue under the proposed land use designations of SRC, and SRC/LT IND.

#### **RECOMMENDATION**

The request of the P&DD for amendments to the Master Plan of Policies in the aforementioned area is appropriate for the anticipated mixed-use development, which would include residential, commercial and institutional uses. P&DD has revised its initial request on this matter to reflect the recommendation of the CPC for an SD2 designation in the Generalized Rezoning Concept map for the East Grand Boulevard frontage to replace the SD1 that was originally proposed. P&DD's revised resolution dated April 14, 2003 reflects the recommendation by CPC. The CPC, therefore, recommends approval of the amendment to the Master Plan of Policies as stated in the aforementioned resolution.

**Planning & Development Department**  
 April 14, 2003

Honorable City Council:

Re: A resolution to amend the Detroit Master Plan of Policies in the vicinity of East Grand Boulevard and Woodward Avenue to promote new residential, commercial, entertainment, and cultural uses (Revised Master Plan Change #41).

Attached for your consideration and action is a proposed Amendment to the Detroit Master Plan of Policies for the area generally bounded by the alley north of East Grand Boulevard on the north, the Chrysler Freeway on the east, the Ford Freeway and Piquette Avenue on the south, and Beaubien Street and Woodward Avenue on the west. Adoption by your Honorable Body of this resolution would accommodate changes in the Master Plan of Policies that would facilitate the creation of a mixed-use district featuring residential, commercial, entertainment, and cultural uses along with the existing light industrial uses. The proposed Amendment would also allow for a Neighborhood Enterprise Zone (NEZ) proposed for the northern portion of the aforementioned area.

**PROPOSED MODIFICATIONS**

The subject area to be changed, which covers approximately 100 acres, is shown on the Master Plan of Policies Map 311-10B, Middle Woodward Subarea, Woodward Area "Recommended Future Land Use Map". It is recommended that the proposed future land use in the Master Plan of Policies for the interior of the subject area be changed from "LT IND", Light Industrial and "IND", General Industrial to "SRC/LT IND", Special Residential-Commercial/Light Industrial. In addition, it is recommended that the frontage along Grand Boulevard east of Brush Street that is designated as "GC", General Commercial be changed to "SRC", Special Residential-Commercial. Also to be revised is the attached Woodward Area "Generalized Rezoning Concept" map. On this map, the portion of the subject area bounded by Beaubien Street, the Grand Trunk Railroad, the Chrysler Freeway, and the Ford Freeway is recommended to be changed from M3 (General Industrial), M4 (Intensive Industrial), and TM (Transitional Industrial) zoning district classifications to zoning district classifications of SD2 (Special Development,

commercial with limited residential) south of Piquette Avenue and M2 (Restricted Industrial) north of Piquette. The final revision to this map is for the bulk of the frontage along Grand Boulevard east of Brush, which is recommended to be changed from a B4 (General Business) zoning district classification to an SD2 (Special Development, commercial with limited residential) zoning district classification.

#### **BACKGROUND**

The Planning & Development Department is requesting that the proposed Master Plan Amendment be adopted to take advantage of an opportunity to create a new mixed-use district that could become a region-wide attraction. This represents a profound change in concept for the area. Presently, the majority of the subject area is developed as an aging industrial district with large, multi-story vacant buildings that are suitable for residential loft conversion. This area, however, has great untapped potential. Other communities have similar industrial areas that have successfully been converted to mixed-use development. The subject area presents an ideal opportunity to create a similar environment in Detroit. Potential uses for the proposed Detroit district include residential, commercial, entertainment, and cultural. Live-work environments are also a possibility for this area.

#### **DEVELOPMENT ACTIVITY**

Proposals for redeveloping the subject area and surrounding community have come from various entities. Among them are the Central City Alliance Community Economic Development Corporation, which has proposed the Hastings Street mixed-use development; Vanguard Community Development Corporation, which has proposed a residential infill project; Genesis Community Development Corporation, which is constructing a housing development immediately to the south and west of the subject area; and developer Dennis Ammerman, who is building residential lofts. To help facilitate all of this redevelopment activity are three incentive programs; the Central City Renaissance Zone, centered mainly south of Milwaukee Avenue; the aforementioned proposed NEZ, covering the area north of the Grand Trunk Railroad; and the Empowerment Zone, which encompasses the entire subject area. Once the various proposals are combined into one specific plan for the subject area, this area will have the potential for impressive redevelopment.

In summary, the Planning & Development Department believes that the proposed Amendment to the Master Plan of Policies would allow the City to facilitate the creation of a mixed-use district that will become a major regional attraction. Care must be taken, however,

to ensure that existing light industrial uses are allowed to remain. Therefore, it is our recommendation that the proposed future land use be changed to "SRC/LT IND", Special Residential-Commercial/Light Industrial for the interior of the subject area, and to "SRC", Special Residential-Commercial/Light Industrial for the interior of the subject area, and to "SRC", Special Residential-Commercial for the bulk of the Grand Boulevard frontage east of Brush.

Respectfully submitted,

BURNEY JOHNSON

Honorable City Council:  
 Re: Establishment of the East Grand Boulevard Neighborhood Enterprise Zone under Public Act 147 of 1992.

Attached for your consideration please find a resolution and legal description which will establish the East Grand Boulevard Neighborhood Enterprise Zone.

Your Honorable Body conducted a public hearing on this matter, as required by Public Act 147 of 1992, on April 15, 2002. Subsequent to the hearing some mem-

bers of the business community, whose properties were included within the proposed NEZ, expressed their opposition to the proposed boundaries of the NEZ. They preferred to have their properties within an expansion of the Central City Renaissance Zone, which was under consideration at that time, but which could not have been accomplished had the proposed NEZ been established. The City required that no area be overlapped by both kinds of these tax incentives due to the extreme tax forfeiture that would have been experienced.

Expansion of the Central City Renaissance Zone is no longer being considered and, in view of the City's and developers' desires to move forward with the development of new and rehabilitated housing units, it is important that the long-delayed East Grand Boulevard NEZ be established.

Finally, be advised that the Planning & Development Department (P&DD), in its February 1, 2002 letter to you requesting the establishment of a public hearing on this issue, stated in error that the proposed NEZ "...would be consistent with the Master Plan...". In fact, the current Master Plan designates much of the proposed NEZ as LT IND (light industrial), and therefore inappropriate for residential development. We apologize for this error. However, P&DD has since sent to you an amendment to the Master Plan which will bring it into conformity with the proposed NEZ and with the pronounced trend toward residential development, rather than industrial development, in the area. We request that your Honorable Body give approval to the Master Plan amendment prior to, or concurrent with, your approval of the attached resolution, inasmuch as the attached resolution contains a certification that the NEZ is consistent with the Master Plan.

Respectfully submitted,

HENRY B. HAGOOD

Director of Development Activities  
By Council Member Collins:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from ad valorem taxes, and the imposition of a specific property tax in lieu of ad valorem real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the proposed East Grand Boulevard NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine

compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing was conducted before the Detroit City Council on April 15, 2002, with notice of the public hearing having been given on March 11, 2002 to the general public and on March 6, 2002 by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the establishment of the East Grand Boulevard NEZ are known;

Now Therefore Be It

Resolved, That the land area particularly described in the legal description attached hereto, is hereby approved as the East Grand Boulevard Neighborhood Enterprise Zone pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

March 14, 2003

Honorable City Council:  
 Re: DEHOCO Property Real Estate Advisor.

The Planning & Development Department (P&DD) is in the process of procuring a detailed analysis of the DEHOCO property. In order to provide the level of investigation necessary to make the most informed decision regarding the property, P&DD has requested that the Detroit Economic Growth Corporation (DEGC) engage a Real Estate Advisor to facilitate that task. The DEGC has selected from a "Request of Qualifications" and has engaged under a Professional Services Agreement the firm of Jones Lang LaSalle, to develop an understanding and knowledge of the property and the City's goals. They will also provide consultation and advice to P&DD in the review of proposals from private developers.

The Agreement between the DEGC and Jones Lang LaSalle is for an amount not to exceed \$150,000. The Department is requesting that the DEGC be reimbursed by P&DD for the costs associated under this Agreement from any potential land sales proceeds.

Therefore, we are requesting approval by your Honorable Body of the attached Resolution authorizing such action.

Respectfully submitted,

HENRY B. HAGOOD

Director of Development Activities

By Council Member Collins:

Resolved, that in accordance with the foregoing communication, the Planning & Development Department is hereby authorized to reimburse the Detroit Economic Growth Corporation, not to exceed One Hundred Fifty Thousand Dollars (\$150,000) for costs associated with the Real Estate Advisor Agreement, for an analysis of the DEHOCO property site, from any potential land sales proceeds.

**STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN OPPOSITION TO PROFESSIONAL SERVICES CONTRACT WITH JONES LANG LA SALLE**

I voted to oppose the Professional Services Contract between Jones Lang LaSalle and the Detroit Economic Growth Corporation relative to the Detroit House of Correction (DEHOCO) parcels for the following reasons:

In the current budget situation facing the City, I believe that the Professional Services Contract presented to Council is unnecessary and wasteful. The contract calls for the payment of \$110,000.00 to Jones Lang LaSalle to study and promote the sale of the DEHOCO parcels. However, an additional \$40,000.00 was asked for by the Detroit Economic Growth Corporation, bringing the total cost of the contract to \$150,000.00. I cannot endorse the policy behind including the additional monies, especially in the current time of tight budgetary constraints.

Further, the City has previously contracted for, and received, studies of the DEHOCO property. A Phase I Environmental Site Assessment dated February 6, 2002 was prepared by NTH Consultants, and a Preliminary Natural Features Inventory Memorandum dated December 21, 2001 was prepared by Tilton & Associates. To spend City funds for additional study of the parcels is simply not necessary.

The City has previously promoted the sale of the DEHOCO property without out-

side assistance. A proposed sale of the DEHOCO parcels for \$50 million was presented to City Council in November of 2001. Unfortunately, Council delayed its vote to allow for further study. After Council finally did approve the sale in early 2002, certain issues had arisen and the land sale transaction was not completed.

It is my opinion that no good argument has been made that a contract of this nature is either necessary, or a prudent expenditure of the City's money.

**STATEMENT BY COUNCIL MEMBER  
KENNETH V. COCKREL, JR.  
REGARDING THE MBIA CONTRACT  
VOTE**

Today the Detroit City Council voted on a proposed contract with Chicago-based real estate firm, Jones, Lang & La Salle.

The Kilpatrick Administration has proposed that this company be paid to develop a plan for the marketing and eventual sale of the old city-owned Detroit House of Corrections (DEHOCO) site. I joined with the majority of the City Council in voting "no" on this contract.

I believe that there is merit to having a real estate firm facilitate the sale of this property so that the city can get the best price for this huge of piece of land. But I believe that this contract, which was only presented the week before Council went on its one-week Easter recess, has been rushed before the City Council and has not had the benefit of full discussion.

I personally submitted a number of questions to the Planning and Development Department regarding this contract almost a week ago. The answers I received were vague in some cases and incomplete in others.

While I am more than willing to take a close look at this idea and this particular contractor, I will not be rushed to action.

**STATEMENT BY COUNCIL MEMBER  
SHEILA M. COCKREL REGARDING  
THE APRIL 30, 2003 "NO" VOTE ON  
CONTRACT NUMBER 82405 FOR A  
CHENE PARK GENERAL MANAGER**

The Decision to award this contract to Mr. Ciccell/NOJO Entertainment was deeply flawed. It raises very serious questions regarding the policies and procedures employed by the Administration and the Recreation Department in awarding contracts regarding Chene Park.

Additionally disturbing is the December 20, 2002 Memorandum of Understanding that identifies an individual and/or an entity as authorized to solicit on behalf of the City of Detroit. This policy and process does not permit the proper oversight.

Historically, the Chene Park venue has been managed to produce quality entertainment that is widely supported by Detroiters. This success is evidenced by the Park's net revenue in excess of

\$200,000 for the 2002 season. Established city procedures must be followed in the contracting process. A dangerous precedent is set by lax procedures policies and processes that lead to the perception of favoritism. Change for its own sake is not necessarily good public policy. For these reasons, I voted "No" on Contract Number 82405.

STATEMENT BY COUNCIL MEMBER  
KAY EVERETT REGARDING  
CONTRACT #82405

On Wednesday, April 30, 2003 this Honorable Body was requested to approve a contract for Mr. Earl Ciccell/NOJO Entertainment to serve in the capacity of General Manager for Chene Park.

This contract represents a number of concerns relative to the policy and procedures of awarding contracts via the Recreation Department. Additionally, I am of the opinion that the proposed contractor is not qualified to perform the duties of a General Manager for such a grand venue as Chene Park. The credentials submitted were a misrepresentation of Mr. Ciccell. Many of the references had no knowledge of Mr. Ciccell and/or inferred he did not serve in the capacity of Head Promoter. However, he was a member of the marketing team, as a street promoter.

Chene Park is one of the city's finest jewels, and is affectionately known for its seasonal quality entertainment. Chene Park deserves to have a management team well equipped to promote/market musical concerts at the park. I am in concurrence to have a General Manager facilitate the daily operations of Chene Park; however, this city has policies and procedures that must be adhered to when awarding contracts.

Therefore, I am opposed to Contract #82405 for Mr. Earl Ciccell to serve as General Manager of Chene Park

April 23, 2003

Honorable City Council:

Re: Appointment of *ad hoc* members of the HDAB in connection with the study of the proposed Crescent Pin and Brass Historic District.

On April 9, 2003, your Honorable Body adopted a resolution directing the Historic Designation Advisory Board to study the Crescent Brass and Pin Complex as a proposed historic district. In connection with that study, Council must appoint two persons as *ad hoc* members of the Advisory Board. We are able to supply two names at this time.

Chadd Fox will represent the ownership

interest, Mr. Fox is not a Detroit resident, but the ordinance requires an owner's representative for the study of a single property, and there is no ownership interest resident in the city. Darren Reese, a near neighbor, will represent the community interest.

A draft resolution of appointment is attached for your consideration. As the ordinance requires *ad hocs* to be appointed within twenty-one days of the adoption of the resolution for study, it is important that the appointments take place at the formal session of April 30. Because of that restriction, and because this matter is scheduled for our agenda of May 8, I am requesting that the resolution be adopted with a waiver of reconsideration.

I am available if there are questions or concerns.

Respectfully submitted,

Whereas, The Historic District Ordinance (Chapter 25-2) requires the appointment of ad hoc members to the Historic Designation Advisory Board to represent the interest of property owners and those having a demonstrated interest in the area,

Now, Therefore, Be It Resolved, That the Detroit City Council appoints Chadd Fox of 340 West Drayton, Ferndale, Michigan 48220, representing the ownership interest; and Darren Reese, 1271 Elijah McCoy Drive, Detroit, Michigan 48208, as ad hoc members of the Historic Designation Advisory Board in connection with the study for the proposed Crescent Brass and Pin Historic District.

**City Planning Commission**

April 21, 2003

Honorable City Council:

Re: Neighborhood Enterprise Zone (NEZ) Certificate Applications for 10 units of new housing in the Crosswinds Communities/Brush Park NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office 10 applications from Crosswinds Communities, Inc. for Neighborhood Enterprise Zone (NEZ) certificates within the Crosswinds Communities Brush Park NEZ. The Crosswinds Communities Brush Park NEZ designation was

approved by City Council on July 17, 1996. CPC staff has reviewed the applications and recommends approval.

Certificates are being requested for the following properties: 29 Adelaide, 31 Adelaide, 33 Adelaide, 35 Adelaide, 37 Adelaide, 39 Adelaide, 41 Adelaide, 43 Adelaide, 71 Adelaide, and 73 Adelaide.

The properties involved are confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. Crosswinds Communities, Inc. has applied for the certificates, prior to the issuance of building permits, on behalf of future owners who will occupy the property. It is appropriate for Crosswinds Communities, Inc. to apply for certificates at this time, even if buyers have not yet been identified. The State Tax Commission, however, will not issue a certificate until an owner is identified. When an owner is identified, he or she can then apply for the certificate. At that time, it would not be necessary for City Council to pass another resolution.

Crosswinds Communities, Inc. proposes to build 10 units in townhouse-style buildings. The site has been cleared and construction is anticipated to begin soon. The developer will need to submit to the State Tax Commission a list of the parcels that are to receive the certificates with a map showing the parcels.

Please let us know if you have any questions.

**Planning & Development Department**  
April 16, 2003

Honorable City Council:

Re: Division of Platted property for: Assessors Petition No. 01-11 8899, 8911, 8919 and 8933 Woodmont Avenue; Assessors Petition No. 01-12 8863 and 8871 Woodmont Avenue; Assessors Petition No. 01-13 8904 and 8912 Woodmont Avenue; Assessors Petition No. 01-14 8884 and 8890 Woodmont

Avenue; Assessors Petition No. 01-15 8850, 8856, 8864 and 8870 Woodmont Avenue. (*Recommend Approval*).

The Planning & Development Department (P&DD) recommends **approval** of the request of West Detroit Inter-Faith Community Organization (W.D.I.F.C.O.) to divide residential property on Woodmont Avenue between Joy Road and Ellis Avenue in northwest Detroit. A meeting with Jamail Aikens, Executive Director, of W.D.I.F.C.O. was held on Friday, September 28, 2001. As discussed during this meeting, phase I of the proposal is to construct ten (10) new *affordable* dwellings in a one block area. Phase I and a subsequent II will strengthen the community with the elimination of blight. As discussed the area has many assets, which include Stoepele Park #2 and the existing semi-stable housing stock. Presently, phase I consists of vacant property littered with debris. In total the division would create larger buildable parcels to accommodate the new dwellings. After an investigation it was found that five (5) parcels are smaller than allowed in Ordinance 421-G, and substandard with regard to Buildings & Safety Engineering's policy for a minimal width of forty five (45) foot lots. WDIFCO indicated these five parcels (between 20 & 30 feet in width) would be intergraded into Phase II, if additional private property can be purchased, if otherwise the parcels will be added to the adjacent WDIFCO properties increasing each lot width. In order for an action like this to occur the Planning and Development Department (P&DD) must review and approve the application.

This request is before your Honorable Body to make the necessary accommodations for W.D.I.F.C.O. to initiate construction of the infill housing in the City. These five parcels (A, K, F, O, M) being reviewed will be the resultant parcels remaining in the reconstruction and replatting of this neighborhood. The remaining ten (10) parcels (B, C, D, J, I, H, G, E, N, L) are buildable lots, but are also being reviewed as with the five remnant parcels for utilities and zoning congruency. The five remnant parcels are approximately 20 to 30 feet wide by 123 feet deep. Attached is a sample of how these lots will be divided and later combined to make a buildable lot (Exhibit I).

W.D.I.F.C.O. will hold title to the remnant parcels until future development of the adjacent properties is prepared to move forward. The properties will be maintained and taxes paid by W.D.I.F.C.O. during this brief time period. If the five properties cannot be obtained in a two-year time period beginning with the adoption of the Council Resolution, the properties will then revert to the next adjacent property owner.

### Decription

The properties are described as follows and the document attached (Exhibit A).

Parcel A North 5' of Lot 83 (remnant parcel).

Parcel B Lot 83 except the North 5' thereof, together with the North 15' of Lot 84.

Parcel C Lot 83 except the North 15' thereof, together with Lot 85 excluding the South 10' thereof.

Parcel I North 15' of Lot 99, together with Lot 100, except the north 5' thereof.

Mayday Minors Subdivision (please see attached description of parcels), City of Detroit, Wayne County, Michigan and is shown on the attached property survey and land use maps.

### Legal Basis for Review

The Planning & Development Department reviewed this request under City of Detroit Ordinance 421-G of April 17, 1969, Chapter 58a, Article 1, Subdivision of Land, of the Detroit City Code and Sections 45.0200, 43.0200, and 104.0000 of the Official Zoning Ordinance 390-G.

### Zoning and Related Requirements

The subject property is zoned R-1 (single Family Residential District) which permits single-family houses as a matter of right. The current design and configuration of the site plan for each house are such that each complies with the required setback and parking requirements. However, section 81.0401 of the ordinance indicates the minimal lot width for lots within an R-1 district is fifty (50) feet. The Buildings & Safety Engineering Department, Zoning Unit indicated in a meeting on April 15, 2003 that section 80.0402 can be applied to approve a lot less than fifty feet in width. The section stipulates that a single family dwelling may be established on a lot of record on the effective date of the ordinance regard-

less of the size of the lot provided that all other requirements of the ordinance are met. The plat map indicates each parcel/lot was platted in the 1950's and is not subject to the maximum lot size of fifty feet as indicated in the ordinance. Additionally, the minimal lot size that B&SE approves for a Division of Platted Property is forty-five (45). Any smaller parcels cannot accommodate a single family home and are considered remnant parcels as cited within this report. The survey of the proposed platted lots shows each lot; except for the remnant parcels are forty five (45) feet in width. Copies of the zoning map (Exhibit E) and current land use maps (Exhibit C) are attached.

### Findings

The Finance Department, Assessments Division has reviewed this proposal and found that the property descriptions are accurate as listed and Law Department finds that all signatories have necessary interest in the subject property.

The Planning and Development Department's review involved a review of the proposal, interviews with the developer, a review of the Master Plan, (Exhibit G) zoning requirements and an investigation of the water and sewer in the subject area.

Based on our review and analysis, the Department makes the following findings relative to this proposal:

Finding #1 The proposal meets the conditions of Section 1, Paragraph 3 or Ordinance 421-G the unique circumstances the parcels created will assist in conforming to the planning principals for development of infill housing, be compatible with the surrounding land use and consistent with the spirit and purpose of the Ordinance.

Finding #2 The proposal meets the conditions of Section 1, Paragraph 4 of Ordinance 421-G by creating parcels accessible to public water and sewer systems which have the capacity to serve the resultant parcels.

Finding #3 The proposal is consistent with the Master Plan of Policies. Recommended Future General Land Use for the subject is shown on the Brooks Sub sector, West Sector Map is "RI" (Low Density Residential).

Finding #4 The proposal meets the conditions of Sections 43.0200, 45.0200 and 82.000 of the Official Zoning Ordinance 390-G relative to the division of the zoning lots, location of principal buildings and land use permitted on the subject property. Further, off-street parking and setbacks will be met with the proposal.

Finding #5 The proposal increases the possibility of homeownership within this area by creating an additional ownership interest.

Finding #6 The proposal when complete will improve the conditions of the

entire neighborhood creating a stabilizing effect and initiating a Phase II development initiative in the future. Lastly, this process will also clarify the legal descriptions of each parcel providing buildable infill development lots.

**Recommendations**

The Planning and Development Department recommends that this request for Division of Platted Property be approved as proposed and that the attached resolution relative to this Division is adopted.

April 28, 2003

Honorable City Council:

Re: Petition Number 749 — Request for Detroit City Council Approval for the Issuance of a Dance Permit by the Michigan Liquor Control Commission to Bailey Lounge, L.L.C., 11700-11702 Livernois.

Section 916(6) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(6), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of (1) the chief law enforcement officer, and (2) the legislative body within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded a Local Approval Notice to the Detroit City Council, which has been designated by the City Clerk as Petition Number 74981, for a licensed location at 11700-11702 Livernois. It is the Law Department's understanding that

this is a request from Bailey Lounge, L.L.C., for a dance permit, only, to be held in conjunction with the transfer of ownership of a 2002 Class C and SDM licensed business from J.T. Bailey.

Upon investigation, review, and consultation with other City departments, the Detroit Police Department, Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the issuance of the requested dance permit to Bailey Lounge, L.L.C. for 11700-11702 Livernois. The Business License Center reports that the location is in compliance with all of the requirements of the applicable City ordinances and is eligible to be licensed by the City to operate a "Group A" cabaret at this location.

In accordance with Section 916(6)(b) of the Michigan Liquor Control Code, being MCL 436.1916(6)(b), and the applicable provisions of the 1997 Detroit City Charter, the attached proposed resolution approving the issuance of a dance permit to Bailey Lounge, L.L.C. for 11700-11702 Livernois, is being submitted to this Body for consideration and approval.

We request that the proposed resolution be considered at the earliest possible sessions. If there are any questions or concerns, please do not hesitate to contact us.

Respectfully submitted,  
BRENDA E. BRACEFUL  
Deputy Corporation Counsel

By Council Member Tinsley-Talabi:

Whereas, Section 916(6)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(6)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body within which the premises are located;

Whereas, The MLCC has forwarded a Local Approval Notice to City Council, which has been designated by the City Clerk as Petition No. 749, concerning the issuance of a dance permit to Bailey Lounge, L.L.C. for 11700-11702 Livernois, in Detroit;

Whereas, The dance permit issued by the MLCC would be held in conjunction with the transfer of ownership of the MLCC Class C and SDM liquor licenses at 11700-11702 Livernois, in Detroit, from J.T. Bailey to Bailey Lounge, L.L.C.;

Whereas, Pursuant to Section 916(6)(c) of the Michigan Liquor Control Code, being MCL 436.1916(6)(c), the Detroit Police Department, Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the issuance of a dance permit to Bailey Lounge, L.L.C., contingent upon the location meeting the requirements of all of the appropriate provisions of the 1984 Detroit City Code and

the owner being licensed by the Consumer Affairs Department to operate a "Group A" cabaret at the location; and

Whereas, The City Council has considered the Local Approval Notice for the issuance of a dance permit to Bailey Lounge, L.L.C. for 11700-11702 Livernois in Detroit and the procedures and criteria for this Body's approval of the issuance of dance permits by the MLCC;

Now Therefore It Is Resolved, Pursuant to Section 916(6)(b) of the Liquor Control Code, being MCL 436.1916(6)(b), that the Detroit City Council, approves Petition No. 749 and the issuance of a dance permit to Bailey Lounge, L.L.C., to be held in conjunction with the proposed transfer of ownership of the MLCC Class C and SDM liquor licenses and the sale of alcoholic beverages at 11700-11702 Livernois, in Detroit; and

It Is Further Resolved, That a copy of this Resolution and the City Clerk's certification of this approval, MLCC request ID 144310, be forwarded to the Michigan Department of Consumer and Industry Services, Liquor Control Commission, 7150 Harris Drive, P.O. Box 30005, Lansing, MI 48909-7575 and that copies also be forwarded to the Detroit Police Department, Liquor License Unit, 1300 Park Street, and the Business License Center, 105 Coleman A. Re: Address: 14202 Freeland. Name: Andre Smith. Date ordered removed: March 26, 2003 (J.C.C. p. ).

In response to the request for a deferral of the demolition order on the property

The owner has paid the current taxes due as of April 3, 2003.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Honorable City Council:

Re: Address: 4642 15th. Name: Deanna R. Neely, Date ordered removed: March 5, 2003 (J.C.C. p. ).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 2, 2003 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of March 3, 2003.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits.
- Certificate of Approval as a result of a Housing Inspection.
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City and it is not listed for sale, lease or rent, regardless of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

Re: Proposal of Fusco, Schaffer & Pappas, Inc. to rezone land generally bounded by Fenkell Ave. to the north, Griggs to the east, Chalfonte to the south, and Birwood to the west from an R1 (Single-Family Residential District) zoning classification to a PD (Planning Development District) zoning classification to allow for development of a senior citizens

housing facility (Recommend Approval)

The petitioner, Fusco, Shaffer & Pappas, Inc., on behalf of Presbyterian Villages of Michigan (PVM), has requested that property generally located in the area of Fenkell Ave. to the north, Chalfonte to the south, Birwood to the east, and Griggs to the west be rezoned from an R1 (Single-Family Residential District) zoning classification to a PD (Planned Development District) zoning classification to allow for the development of a senior citizens housing facility.

**Proposed Development**

The subject area is approximately 2.27 acres. Presbyterian Villages of Michigan proposes to construct a two-story senior citizen apartment structure of approximately 39,742 square feet of gross floor area. The facility would include 43 one-bedroom units. One (1) two-bedroom unit and 32 parking spaces. To accommodate the proposed development, the developer is also requesting vacation of a public alley on the development site (Petition #0138). The applicant has received a HOME commitment in the amount of \$1,841,749 for this development and is also in the process of closing on HUD Section 202 funds.

Presbyterian Villages of Michigan has indicated that the five (5) existing residential structures on the site have been acquired and demolition is underway. Immediately adjacent to the proposed northern and southern boundaries of the site are four (4) and three (3) single-family residences, respectively. According to the preliminary site plan, the seven structures would be excluded from the development site. The developer has indicated, however, that the five parcels containing the four (4) residences to the north of the site have been acquired. Plans for the additional parcels include increased landscaping.

Single-family homes and vacant lots characterize the area surrounding the subject site. The east-side of Griggs consists of stable, well-maintained single-family residences. The west side of Birwood, however, is already characterized by vacant, City-owned lots with approximately five single-family residences. The general area to the east, south, and west are single-family residential uses. There is commercial frontage to the north, along Fenkell Ave.

**Surrounding Zoning and Land Uses**

To the north: R1 & B2 — single-family residential and commercial

To the south: R1 — single-family residential

To the east: R1 — single-family residential

To the west: R1 — single-family residential

### Master Plan Consistency

The subject property is located in the Northwest Sector, Harmony Village Subsector of the Master Plan of Policies. The existing land use designation for the subject property is RL (Low Density Residential). The proposed land use designation for the property is also RL. In a letter dated April 18, 2002, the Planning & Development Department (P&DD) indicated that the proposed development is consistent with the Master Plan.

### Public Hearing Results

During the City Planning Commission public hearing held on Thursday, April 18, 2002, five people spoke in support of the proposal and no one spoke in opposition. Of the persons that spoke, none were residents of the immediate area of the subject site.

Subsequent to the public hearing, CPC staff was contacted by the president of a block club in the immediate area (Three-B Birwood Block Club) requesting a community meeting. In response to the same, a community meeting was held on May 8, 2002 at the Adams-Butzel Recreation Center.

Approximately 35 people were in attendance, including residents, Presbyterian Villages of Michigan (PVM) staff and board members, property owners, and the project architect. One of the main concerns of the residents was the fact that prior to receiving the public hearing notice, they knew nothing about the project. Residents felt that they should have been informed earlier on in the process about the project and been provided with an opportunity to contribute input. The other major concern of residents dealt with relocation of persons displaced by the development.

### Analysis

This project was delayed for a period of time due to concerns related to relocation. Since that time, however, both the Department of Housing and Urban Development (HUD) Multi-family Division and P&DD — Acquisition and Relocation Sections have indicated that the requirements and conditions set forth by these agencies have been satisfied for the applicants' requests for both Section 202 and HOME funds.

With respect to parking, the CPC agrees that the 32 spaces proposed by the developer will be sufficient to accommodate the development, considering the resident population and based on parking counts at similar developments. Additionally, concerns about the design of the proposed development have been addressed and incorporated into the conditions for proposal approval.

### Recommendation

At its meeting of January 3, 2003, the City Planning Commission took action to recommend that the proposed rezoning to

PD along with the revised plans for the proposed senior housing be approved subject to the following conditions:

1. that the site plan/elevation plans be amended to show:

a) a clear indication of the circulation pattern, including directional signage, for ingress and egress for the parking lot;

b) a clear indication of the design element to be used to visually break up the fencing along the eastern perimeter of the site;

c) the description and location of mechanical equipment;

d) paving and seating in the northeastern portion of the site to accommodate outdoor resident interaction; and

2. that the final site, landscaping, signage plans and elevations be submitted to the City Planning Commission staff for review and approval prior to the time of the application for applicable permits.

The Commission further recommends that the petitioner submit a new application for the rezoning of the recently acquired parcels to the north of the property for future greenspace.

The Law Department's approval as to form of the amendatory ordinance to effectuate this recommendation is attached for your consideration. We request that the ordinance be introduced and the required public hearing be scheduled at your next formal session. The customary discussion should take place prior to the public hearing.

Honorable City Council:  
 Re: Petition No. 972 — Warren/Conner Development Coalition, requesting to vacate public alleys in the area of Alter, Ashland and Mack Avenues.

Petition No. 972 of "Warren/Conner Development Coalition" 11148 Harper Avenue, Detroit, Michigan 48213, requests for the outright vacation of the east-west public alley, 18 feet wide, a portion of the north-south public alley 16 feet wide; and request the conversion of the remaining portion of the north-south public alley, 16 feet wide, all in the block bounded by Ashland Avenue, 50 feet wide, Alter Road, 66 feet wide, Mack Avenue, 120 feet wide, and Lozier Avenue, 50 feet wide, into a private easement for public utilities.

The request was approved by Planning and Development Department, the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The Public Lighting Department (PLD) reports underground conduit bank with 4800V cable, where the requested outright vacations are to occur. 3-phase overhead line, Cable Pole and a Traffic Signal Transformer and overhead lighting circuits in the north-south alley where easement is proposed. The PLD is hereby requesting easements for its facilities be officially granted. The PLD will also require 24-hr. UN-impeded heavy vehicle access for the entire length of the easement and physical access to all facilities within the easement. Any damage done to existing PLD facilities by the proposed construction must be repaired at project cost.

The Detroit Water and Sewerage Department (DWSD) has no objection to the outright vacation provided the Petitioner relocates the sewer and provides a suitable easement to DWSD. Also, provided that the petitioner owns all the property adjacent to that part of the public rights-of-way to outright vacated.

Detroit Edison has reported an estimated cost of \$41,000.00 for the removal and/or rerouting of its services within that part of the public rights-of-way to outright vacated.

Comcast Cablevision reports an estimated cost of \$390.00 for the removal and/or rerouting of its services within that

part of the public rights-of-way to outright vacated.

SBC reports that before the Petitioner vacates the public rights-of-way it will be necessary to place a request with its Customer Growth Group.

All other City departments and privately owned utility companies have reported no objections to the outright vacation and the conversion of public rights-of-way into a private easement for public utilities or that satisfactory arrangements have been made. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Honorable City Council:  
 Re: Petition No. 834 — MGM Grand Detroit, LLC, for vacation of streets, alleys and utility easements, in the area of Bagley Ave., Lodge Freeway, Third Ave. and The Fisher Freeway.  
 Petition No. 834 of "MGM Grand Detroit, LLC" requests to vacate (outright) the public rights-of-way and utility easements in the area of the Fisher Freeway, Third Avenue, 60 feet wide, Bagley

Avenue, 90 feet wide, and the John C. Lodge Freeway, in order to facilitate the construction of the MGM Grand Permanent Casino.

The Traffic Engineering Division — DPW has no objection to the outright vacation of the public rights-of-way and utility easements in the area of the Fisher Freeway, Third Avenue, 60 feet wide, Bagley Avenue, 90 feet wide, and the John C. Lodge Freeway as shown in drawing no. 834 dated September 20, 2002, (attached) provided that 100% property ownership is secured. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report:

The Public Lighting Department (PLD) has no objection to the proposed outright vacation of the public rights-of-way and utility easements in the area of the MGM

Grand Permanent Casino project site. However, the PLD is in the process of working with the general contractor to relocate/remove PLD facilities. PLD has an existing high voltage underground conduit run located adjacent to the two freeway boundaries on this site. The general contractor has informed the PLD that the conduit is in an area that will become a utility easement. The PLD is hereby requesting that this easement for underground conduit and manholes be officially granted. The PLD will also require 24-hr. UN-impeded heavy vehicle access for the entire length of the easement and physical access to all manholes within the easement. Any damage done to existing PLD facilities by the proposed construction must be repaired at project cost.

The Detroit Water and Sewerage Department (DWSD) reports no objection to the requested right-of-way changes provided that any alterations to the City's water mains and sewers be done under DWSD's permit and inspection, in accordance with plans approved by DWSD. Also, these alterations are to be done at the developer's expense at no cost to DWSD.

The developer shall deposit with DWSD, in advance of engineering, inspection and survey, such amounts as DWSD deems necessary to cover the costs of these services, and that all work necessary to maintain the existing sewer service and/or to modify, alter, relocate and construct the sewer and access manholes is to be done by the petitioner at no cost to DWSD.

The Detroit Edison Company (DECO) estimates the costs of removing and/or rerouting its services are not to exceed \$595,000.00.

SBC reports that the developer must make arrangements for any removing and/or rerouting of its services with the SBC Customer Growth Group.

The Michigan Consolidated Gas Company reports that the estimated costs of abandoning its facilities within the MGM Grand Permanent Casino project site to be \$5,274.79.

The Petitioner "MGM Grand Detroit, LLC" has provided to the City Engineering Division of DPW a letter of commitment, authorized by Mr. John Redmond, Chairman of MGM Grand Detroit, LLC, to pay all cost of relocation and removal of all utilities listed above or any others lying within the existing public utility easements, public streets and public alleys located within the MGM Grand Permanent Casino project site. The letter is dated April 28, 2003 addressed to Mr. James Foster, Supervisor of Maps and Records, City Engineering Division, Detroit Department of Public Works, 1000 Cadillac Tower, Detroit, Michigan 48226, from Dickinson Wright, PLLC, Counselors at Law, signed by Mr. James N. Candler.

All other city departments and privately owned utility companies have reported no objections to the changes in public rights-of-way or that satisfactory arrangements have been made. Provisions protecting utility installations (if necessary) are part of the resolution.

An appropriate resolution containing the necessary conditions is attached for consideration by your Honorable Body.

Honorable City Council:

Re: Acceptance of FY 2002 Project Authorization Agreement 2002-0033/Z4 Pass-Through Agreement for the Detroit Employment and Training Department

Your Honorable Body is respectfully requested to accept the above-referenced, pass-through grant agreement for the Detroit Employment and Training Department.

Although the Michigan Department of Transportation (MDOT) previously sent this project authorization agreement to

the Detroit Department of Transportation (DDOT) in August 2002 (and DDOT processed and received City Council approval), MDOT is reissuing this same agreement because MDOT released the original agreement without obtaining the required approvals on their end. Therefore, MDOT made an adjustment to the agreement date. The originally sent agreement is dated July 19, 2002, and the present one is dated October 1, 2002. In addition, the original agreement shows an authorization effective date of September 15, 2002 and an expiration date of September 14, 2003. The current agreement sent by MDOT does not display an authorization effective date. However, the authorization expiration date is shown as September 30, 2004.

This agreement will transport persons receiving public assistance to job opportunities at the Detroit Metropolitan

Airport, thereby, being a valuable resource for persons making the transition from welfare to work.

There is no local share required from the City of Detroit. A Waiver of Reconsideration is respectfully requested, and your Honorable Body's approval of this grant agreement is greatly appreciated.

Respectfully submitted,  
CLARYCE GIBBONS-ALLEN  
Director

**STATEMENT BY COUNCIL MEMBER  
KENNETH COCKREL, JR., ON MBIA  
CONTRACT VOTE**

Today the Detroit City Council voted on a new version of the highly controversial contract with MBIA Muniservices Company.

The Detroit Finance Department proposed that this company be paid to provide collections on delinquent water and sewerage accounts, property tax accounts, and income tax accounts that are more than one year old. The total owed on such accounts is almost \$300 million.

On a four-four split, an earlier version of this contract failed to pass at last week's City Council formal session.

Though I voted against the contract last week, today I joined with a minority of Council Members to pass the new version of the contract. Why? The concerns that led me to vote against the contract previously have been addressed in the revised version.

I had concerns that the earlier version of the contract did not guarantee a minimum number of city employees would undergo training in MBIA's collections techniques and technology. The new contract guarantees that a minimum of 15 employees will receive this training annually. The number could actually go up to 24.

The Finance Department has also submitted a written commitment that no employees charged with collections will be laid off during the three-year term of the contract and has also pledged to fully staff collections divisions so that they can ultimately resume collections on their own.

While many of the affected labor unions are still opposed to this contract it is important to note that city employees will continue to collect on delinquent accounts that are less than 12 months old. This fact, coupled with the other positive changes to

the contract language made it an agreement worth supporting this time around.

Honorable City Council:

Re: A Resolution Authorizing the Issuance and Sale of Sewage Disposal System Revenue and Revenue Refunding Bonds of the City of Detroit of Equal Standing and Junior Standing with the City's

Sewage Disposal System Revenue Bonds and Sewage Disposal System Revenue Refunding Bonds Now Outstanding and Which May Remain Outstanding, for the Collective Purposes of Defraying Part of the Cost of Acquiring and Constructing Replacements, Repairs, Extensions and Improvements to the City's Sewage Disposal System and Refunding Certain Sewage Disposal System Revenue Bonds, Providing for the Form of the Securities Herein Authorized; Providing for the Rights of the Owners of such Securities and Enforcement Thereof; Providing for Financial Facilities and Interest Rate Exchange Agreements; and Determining Other Matters Relating to such Securities and the System.

The attached Resolution authorizes the issuance and sale of approximately \$550 million for financing the ongoing Sewage Disposal System Capital Improvement Program. In addition, because of a continued decline in interest rates, an additional \$350 million of previously issued Bonds may be refinanced, thereby producing interest savings.

It is anticipated that the sale will occur in mid May, 2003. The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session on May 7, 2003. If there are any questions, we are prepared to address them Tuesday, May 6, 2003 at 3:00 p.m. in the Finance Department (Small Conference Room).

Respectfully submitted,  
SEAN K. WERDLOW  
Chief Financial Officer

(a) Disposition of Proceeds.

(1) Accrued and Capitalized Interest.

First, an amount from the proceeds of each Priority of Series 2003 Securities shall be immediately deposited in the Redemption Fund established by the Bond Ordinance for such Priority, equal to any accrued interest received on the delivery of such Priority of Series 2003 Securities and any Capitalized Interest on such Priority of Series 2003 Securities, and the City may take credit for the amount so deposited against the amount required to be deposited in such Redemption Fund for payment of the next maturing interest payment on such Priority of Series 2003 Securities.

(2) Reserve Requirements. Next, an amount from the proceeds of the Series 2003 Securities shall be used to acquire an irrevocable surety bond in an amount at least equal to the Reserve Requirement for each priority of Series 2003 Securities or an amount shall be deposited in each Reserve Account at least equal to the Reserve Account Requirement for such Reserve Account.

(ii) The Finance Director may establish separate subaccounts in each Reserve Account to relate to each separate series of Series 2003 Securities in such amounts as shall be confirmed in the Sale Order.

(3) Escrow Deposit. Next, an amount from the proceeds of the Series 2003 Securities shall be used, together with any other funds made available by the City for such purposes, to acquire Government Obligations, which together with any remaining balance of such proceeds in the form of cash, shall constitute the Escrow Deposit for the Bonds to be Refunded to be held in the Escrow Fund established for the Bonds to be Refunded or transferred to the paying agent for the Bonds to be Refunded as provided in subsection (c)(4) below.

(4) Construction Fund. The balance of the proceeds from the sale of the Series 2003 Securities shall be deposited in the Construction Fund Series 2003.

(2) Application. Moneys in the Construction Fund Series 2003 shall be applied solely in payment of:

(i) the Issuance Costs of the Series 2003 Securities; and

(ii) the costs of the Project, including

engineering, legal and other expenses incident thereto and to the financing thereof.

(3) Construction Disbursements. Payments for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file with the Finance Director a signed statement to the effect that the work has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor, that such work is satisfactory and that such work has not been previously paid for.

(4) Issuance Costs and Other Disbursements. Payment of Issuance Costs and the costs of engineering and other costs of the Project except payments for construction shall be made upon submission of appropriate documentation to the Finance Director.

(5) Unexpended Balance. Any unexpended balance remaining in the Construction Fund Series 2003 after completion of the Project may in the discretion of the Finance Director be used for meeting requirements of the Bond Reserve Account and, to the extent such monies are not needed to meet the requirements of the Bond Reserve Account, for meeting requirements of the Second Lien Bond Reserve Account or for further improvements, replacements, enlargements and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury, Municipal Finance Division, if such permission is then required by law, and if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on Series 2003 Securities from gross income for federal income tax purposes.

(6) Remainder. Any balance remaining after all expenditures made pursuant to subsection (b)(5) above, if any, have been made shall be paid into the redemption Fund or the Second Lien Bond Redemption Account, as the Finance Director shall determine, for the purpose of redemption or purchase, at not more than the fair market value, plus accrued interest, of outstanding Series 2003 Securities. Series 2003 Securities acquired by purchase shall be canceled.

(c) Escrow Fund.

(1) Style of Escrow Fund. Subject to subsection (c)(4) below, the Escrow Deposit for the Bonds to be Refunded shall be held in or credited to an account designated as the "City of Detroit Sewage Disposal System Revenue and Revenue Refunding Bonds [Series designation of Series 2003 Securities issued for Refunding Purposes] Escrow Fund" pursuant to an escrow deposit agreement (an "Escrow Agreement").

(2) Authorization for Escrow Agreements. Subject to subsection (c)(4) below, the Finance Director is authorized to enter into an Escrow Agreement on behalf of the City with U.S. Bank National Association as "Escrow Trustee" with respect to the Bonds to be Refunded and, if determined by the Finance Director upon advice of Bond Counsel to be necessary or desirable, an additional Escrow Agreement with respect to the cash defeasance hereinafter authorized.

(3) Escrow Agreement Requirements. Subject to subsection (c)(4) below, each Escrow Agreement:

(i) shall be in the form and substance customary for refunding escrow agreements;

(ii) may permit any balance after paying the principal (and premium, if any) and interest on the applicable Securities to be applied to any lawful purpose of the System if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on the relevant Securities from gross income for federal income tax purposes; and

(iii) shall otherwise be in the best interests of the City.

(4) In the event all Bonds to be Refunded will be paid or redeemed within 90 days of the date of issuance of the Series 2003 Securities, then in lieu of the establishment of an Escrow Fund and the execution of an Escrow Agreement as described above, the Finance Director is authorized to transfer the Escrow Deposit (or cash sufficient to acquire the securities making up all or a portion of the Escrow Deposit) to the paying agent for the Bonds to be Refunded together with irrevocable instructions to (i) call the Bonds to be Refunded on the applicable call date and (ii) use the Escrow Deposit to pay principal of and interest and redemption premiums, if any, on the Bonds to be Refunded to and including the scheduled call date. The procedures described in this subsection (4) shall be employed only if, in the opinion of Bond Counsel, after use of such procedures the Bonds to be Refunded will no longer be Outstanding under the Bond Ordinance.

**Section 13. Tax Covenant.**

The City hereby covenants and represents with the registered owners of the Series 2003 Securities that so long as any of the Series 2003 Securities remain outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all action within its control to maintain, and will refrain from taking any action which would impair the exclusion of the interest on the Series 2003 Securities from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as currently amended, including, but not limited to, actions relating to any required rebate

of arbitrage earnings and the expenditure and investment of Series 2003 Security proceeds and moneys deemed to be Series 2003 Security proceeds, and to prevent the Series 2003 Securities from being or becoming "private activity bonds" as that term is used in Section 141 of the Internal Revenue Code of 1986, as currently amended.

**Section 14. Preliminary and Final Official Statements.**

(a) The Finance Director shall cause the preparation of one or more Preliminary Official Statement or Statements and other offering materials in a form satisfactory to him to be used in conjunction with the offering of the Series 2003 Securities and is authorized to deem any Preliminary Official Statement "final" for purposes of the Rule.

(b) The Preliminary Official Statement or Statements with such changes and additions as the Finance Director shall approve shall constitute the final Official Statement or Statements, and the Finance Director is authorized to execute the final Official Statement or Statements on behalf of the City approved by him with such changes as the Finance Director may authorize.

(c) Such final Preliminary Official Statement or Statements and final Official Statement or Statements and other offering materials satisfactory to the Finance Director are authorized to be distributed by the Underwriters in conjunction with the offering and sale of the Series 2003 Securities.

(d) Nothing in this Section shall require the Finance Director to prepare a Preliminary Official Statement for a Type of Series 2003 Securities if it is acceptable municipal finance practice to market such Type of Securities without a preliminary official statement.

**Section 15. Continuing Disclosure.**

Unless otherwise set forth in the Sale Order because of an exemption from the Rule, the Series 2003 Securities are hereby made subject to the Continuing Disclosure Agreement, and if so subject, the City hereby agrees to abide by the provisions thereof so long as any Series 2003 Securities are outstanding.

(b) In addition to determinations authorized elsewhere in this Resolution, the Finance Director shall determine the aggregate principal amount of Series 2003 Securities to be issued, but not in excess of the aggregate principal amount authorized by this Resolution, on the basis of his evaluation of the maximum amount of Series 2003 Securities which can be sold, given anticipated interest rates and the revenue coverage requirements with respect to the Series 2003 Securities and for any other reasons the Finance Director deems appropriate.

(1) Such determination shall also include the Type or Types of Series 2003

Securities to be issued and if in one or more issues and whether to issue Series 2003 Securities as Senior Lien Bonds or Second Lien Bonds or a combination thereof and the redemption provisions for Series 2003 Securities.

Honorable City Council:

Re: Proposed Ordinance to Amend Chapter 38, Article IX, of the 1984 Detroit City Code Titled "Indecent and Immoral Conduct."

Pursuant to the 1997 Detroit City Charter, the above-referenced proposed ordinance is being submitted to your Honorable Body for consideration. The proposed ordinance amends Chapter 38, Article IX, of the 1984 Detroit City Code by amending the title of the article to be "Indecent and Improper Conduct"; by

amending Section 38-9-3; by repealing Section 38-9-7; and by repealing Section 38-9-1, 38-9-2, 38-9-4, 38-9-5, and 38-9-6 and adding substitute Sections 38-9-1, 38-9-2, 38-9-4, 38-9-5, and 38-9-6.

This proposed ordinance is sought, in part, in response to a legal challenge brought in *Triangle Foundation vs. City of Detroit*, United States District Court Case No. 01-74768. The addition of Section 38-9-6, which makes only undesired and unwelcome accosting unlawful, fulfills a requirement of the Consent Judgment entered in that case. In addition, this proposed ordinance is sought to modernize the prohibitions contained therein to conform to federal and state constitutional provisions, and to provide for uniform mandatory minimum penalties.

We are available to answer any questions that you may have concerning this proposed ordinance. Thank you for your consideration.

Respectfully submitted,  
BRENDA E. BRACEFUL  
Deputy Corporation Counsel

By Council Member McPhail:

**City of Detroit  
Municipal Parking Department  
Auto Parking System**

April 29, 2003

Honorable City Council:

Re: Municipal Parking Department Facility Rate Increase.

The Municipal Parking Department is requesting your approval of the attached resolution to increase the parking rates at specified garages and lots.

The increases are necessary to support capital improvement projects, the need for continued improvements that maintain our facilities and ensure the safety of our customers, and the construction of new facilities.

In addition, parking rates at municipal garages and lots have remained unchanged since 1998. The increase in parking rates would improve the Department's bottom line while still remaining well under the rates of our competitors.

Thank you for your consideration.

**Planning & Development Department**

April 14, 2003

Honorable City Council:

Re: Request for authorization to amend the HUD Consolidated Plan and to submit a Section 108 Loan Guarantee Application for the Garfield Development Plan.

The Garfield Development Plan is a mixed-use project located in Detroit's Cultural Center bounded by East Forest to the north, John R to the east, Canfield to the south, and Woodward Avenue to the west. The project will result in the rehabilitation of three buildings, creating seventy residential rental units 20% of which will be reserved for low and moderate-income tenants. Three additional commercial buildings will be rehabilitated for commercial use. The project will construct new commercial space and also three parking decks in order to meet the needs of both the commercial and residential space. Project costs are estimated at \$33,032,462 of which \$17,000,000 will be financed through a Section 108 loan guarantee and \$3,000,000 will be financed through an Economic Development Initiative Grant. These funds were originally committed to the Focus Hope Tech Villas Project in 1997 and due to the need to reassess the feasibility of this project; Focus Hope is not ready to proceed at this time. Therefore the City of Detroit had to identify another project to avoid a forfeiture of these funds and the Garfield Development Plan satisfies the criteria for funding as set forth by the Department of Housing and Urban Development.

The Planning and Development Department (P&DD) conducted a public hearing on the Consolidated Plan amendment and the Section 108 application on January 21, 2003. A copy of the notice announcing this hearing and describing the amendment is attached for your information. Furthermore the proposal was presented and supported by the Mid City Citizen District Council Downtown Citizen District Council at their March 6, 2003 meeting.

It is respectfully requested that you adopt the following resolution to authorize the amendment to the Consolidated Plan and to authorize the submission of the Section 108 application to the U.S. Department of Housing and Urban Development for review and approval.

### Invocation

A word from the Lord:  
God says, "I want you to see yourselves the way I see you — as elders of the city.

As elders who sat at the city gates brought wisdom, stability and unity, so I have ordained you as elders of this city. As you function as elders marked by humility, unoffendable hearts, wisdom from above and a spirit of unity — I will bless your lives and I will bless this city.”

Prayer:

Father, I come into Your courts with thanksgiving, thanksgiving expressed by many in the region, for these men and women who have stepped into this position of leadership and responsibility.

We bless them now in the powerful name of Jesus. Pour out Your unmerited favor on their lives. Bless their marriages, their children, their health. Fill them with joy and energy and peace.

Protect them from the evil one who would form weapons against them and seek to bring them into unholy alliances that would take from them and hurt them.

We agree with Jesus who said, “A kingdom divided against itself cannot stand, and every city and house divided against itself cannot stand.” So we take authority over the spirit of division that exists in this region and destroy its strength by the power of Christ. We declare unity here. The unity and peace that the Spirit produces.

Give wisdom and understand to these elders over the pressing matters of this day. Unit their hearts together. Give them a common vision of a transformed Detroit.

In the Name of Jesus, Amen.

Honorable City Council:

Re: Resolution Authorizing the Issuance and Sale of a Sewage Disposal System Revenue Bond to the Michigan Municipal Bond Authority, of Junior Standing to the City's Sewage Disposal System Revenue and Revenue Refunding Bonds now outstanding.

The attached Resolution authorizes the issuance and sale of approximately \$62 million of Sewage Disposal System Revenue Bonds for the purpose of defraying part of the cost of acquiring and constructing repairs, extensions and improvements to the City's Sewage Disposal System Capital Program.

This financing is for participation in the Michigan Municipal Bond Authority's Clean Water Revolving Fund 3rd Quarter Financing, to take advantage of the Authority's lower cost of borrowing.

It is anticipated that the sale will occur in late June. Bond Counsel has prepared the attached Resolution and I recommend its adoption by your Honorable Body, with

waiver of reconsideration, at your next formal session. If there are any questions, we are prepared to address them Friday, May 9, 2003 at 3:00 p.m. in the Finance Department (Small Conference Room).

Respectfully submitted,

In addition, further notice shall be given by the Transfer Agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all or any portion of such further notice shall in any manner affect the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

called for redemption, to the date fixed for redemption, together with the amount of the redemption premium, if any. Upon deposit of cash or sufficient Government Obligations, as provided in the previous sentence, the statutory lien herein referred to shall be terminated with respect to the Bonds for which such deposit was made, and, the holders of such Bonds shall have no further rights under this Resolution except for payment from the deposited funds and registration and replacement of bonds, and such Bonds shall no longer be considered to be outstanding under the Bond Ordinance and this Resolution.

**Section 7. Funds and Accounts; Flow of Funds.** Except as otherwise provided in this Resolution, all of the provisions relative to funds and accounts, their maintenance, the flow of funds and other details relative thereto, shall remain as specifically set forth in the Bond Ordinance.

**Series 8. (b) The balance of the proceeds of the sale of the Bonds, as received, shall be deposited in the Series 2003-SRF1 Construction Sub-Account, which sub-account shall be established and maintained as a separate depository account in accordance with the Bond Ordinance. Moneys in the Construction Sub-Account shall be applied solely in payment of the costs of the Project and any engineering, legal, financial or printing costs, and other expenses incident thereto and to the financing thereof. Payments for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file a signed statement with the Commissioners to the effect that the work has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor, that such work is satisfactory and that such work has not been previously paid for. Payment of the costs of engineering, legal, financial, printing, and other costs of issuance with respect to the Bonds as provided in this section shall be made upon submission of appropriate documentation to the Finance Director of the City.

(c) Any unexpected balance remaining in the Construction Sub-Account after completion of the Project may, with the prior approval of the Authority and at the discretion of DWSD, be used for further

improvements, enlargements, and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury, Municipal Finance Division, if such permission is then required by law, and if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on the Bonds from gross income for federal income tax purposes. Any remaining balance after such expenditure shall, with the prior approval of the Authority, be paid into the Redemption Fund for the purpose of redemption or purchase, at not more than the fair market value, of the outstanding Bonds or portions thereof. Bonds acquired by purchase shall be canceled and shall not be reissued.

**Section 9. Bond Form.** The Bonds shall be in substantially the form set forth in Appendix A hereto, with such changes and additions as shall be determined appropriate by the Finance Director.

**Section 10. Covenants Regarding Exclusion of Interest on the Bonds for Federal Tax Purposes.** The City hereby covenants with and represents to the Authority and any other registered owners of the Bonds that so long as any portion thereof remains outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all actions within its control to maintain, and will refrain from taking any action which would impair, the exclusion of the interest on the Bonds from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"), including, but not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of Bond proceeds and moneys deemed to be Series 2003-SRF1 Bond proceeds, and to prevent the Bonds from being or becoming a "private activity bond" as that term is used in Section 141 of the Code.

**Section 11. Act 34 Compliance; Sale of Bonds.** The Mayor and the Finance Director, each acting alone, is authorized and directed to do all such things, take all such actions and make such applications and filings with the Michigan Department of Treasury as may be necessary or appropriate to comply with Act 34, Public Acts of 2001, as amended, or otherwise precedent to or in connection with the issuance, sale and delivery of the Bonds.

**Section 12. Finance Director and Deputy Finance Director Authorizations.** During the Finance Director's absence or disability, or while the Finance Director's position is vacant, the Deputy Finance Director shall exercise all the powers, perform all the duties, and make all the determinations herein required or permitted with respect to the Bonds.

**Section 13. Execution of Bonds.** The

Mayor and the Finance Director are hereby authorized and directed to execute the Bonds by manual or facsimile signature for and on behalf of the City and in its name, to affix thereto the official seal of the City either by manual signature or by facsimile, and to deliver the Bonds to the Authority upon the terms and conditions set forth in the respective Purchase Contract.

**Section 14. Sale of Bonds; Execution of Authority's Documents.** The Bonds shall be sold to the Authority pursuant to the Purchase Contract. The Purchase Contract, Supplemental Agreement and the Issuer's Certificate, in the forms on file with the Finance Director, are hereby approved; and the Mayor, the Finance Director, and the Director of the DWSD or their deputies are each hereby authorized to execute and deliver, for and on behalf of the City, such Purchase Contract, Supplemental Agreement, and the Issuer's Certificate to the Authority in the forms hereby approved with such changes thereto and insertions therein as the Finance Director shall determine are necessary or desirable. The executed forms of the Purchase Contract, the Supplemental Agreement, and the Issuer's Certificate shall be deemed to be the final forms thereof.

**Section 15. Authorization of Other Officials.** The Mayor, City Clerk, Finance Director, Treasurer, Corporation Counsel, Director of DWSD, other officials of the City, their deputies and staff, or any of them, are hereby authorized to execute and deliver such certificates, documents, instruments, opinions, and other papers as may be deemed necessary or appropriate to complete the sale, execution, and delivery of the Bonds as determined by such officials executing and delivering the foregoing items. Any actions heretofore taken by such persons in furtherance of the foregoing are hereby ratified and confirmed.

**Section 16. Declaration of Official Intent.** The City makes the following declarations for the purpose of complying with the reimbursement rules of Treas. Reg. §1.150-2 pursuant to the Code:

(a) The City plans to finance the Project through the issuance of the Bonds in amount not to exceed the Maximum Bond Amount.

(b) The City Council of the City hereby declares its intent to reimburse itself from the proceeds of the Bonds for expenditures made or to be made for the Project.

(c) The maximum aggregate principal amount of the Bonds expected to be issued for the Project is the Maximum Bond Amount for the Bonds.

(d) Advances to be made for the Project will be borrowed from the Improvement and Extension Fund of the City's Sewage Disposal System Fund, which shall be reimbursed upon the issuance of the Bonds.

**Section 17. Resolution Constitutes a Contract Interpretation; Modification.**

The provisions of this Resolution shall constitute a contract between the City and each registered owner of a Bond. The provisions of this Resolution shall be construed and interpreted liberally in order to effectuate the purposes of the Bond Ordinance, Act 94, the Shared Credit Rating Act, Act No. 227, Public Acts of Michigan, 1985, as amended, which creates the Authority, and the State Clean Water Assistance Act, Act No. 317, Public Acts of Michigan, 1988, as amended. The provisions of this Resolution, including, but not limited to, provisions with respect to disbursements of bond proceeds, disbursements, and payments of capitalized interest on the Bonds and payments by the City to the Authority in amortization of the Bonds, may be modified by agreement of the City and the Authority without the consent of the holders of Securities outstanding under the Bond Ordinance, so long as such modifications do not prejudice such holders of Securities of higher priorities.

**Section 18. Repeal; Savings Clause.**

All other ordinances, resolutions or orders, or parts thereof, in conflict with the provisions of this Resolution are, to the extent of such conflict, hereby repealed.

**Section 19. Severability; Paragraph Headings; Conflict.**

REGISTERED OWNER: Michigan  
Municipal Bond Authority  
PRINCIPAL AMOUNT: \*\*\*\*\$ \_\_\_\_\_ \*\*\*\*  
The City of Detroit, Wayne County, Michigan (the "Issuer") for value received, promises to pay to the Michigan Municipal

Bond Authority (the "Authority"), out of the hereinafter described Net Revenues of the Issuer's Sewage Disposal System, the principal amount of \_\_\_\_\_

Dollars (\$ \_\_\_\_\_) or so much thereof as shall have been advanced to the Issuer pursuant to the Purchase Contract between the Issuer and the Authority dated as of \_\_\_\_\_, 20\_\_ and a Supplemental Agreement by and among the Issuer, the Authority, and the State of Michigan, acting through the Department of Environmental Quality, in lawful money of the United States of America, with interest on the principal from the date each disbursement of such principal is advanced by the Authority to the Issuer at the rate of two and one-half percent (2.50%) per annum until paid. Interest is first payable on \_\_\_\_\_ 1, 20\_\_ and semiannually on each \_\_\_\_\_ 1 and \_\_\_\_\_ 1 thereafter, and principal is payable on the first day of \_\_\_\_\_, commencing \_\_\_\_\_ 1, 20\_\_ (as identified in the Purchase Contract), and annually thereafter in the principal installments indicated on the Payment Schedule attached as Appendix A hereto, unless prepaid prior thereto as hereinafter provided. The bond is payable as to principal, premium, if any, and interest at the corporate trust office of Bank One Trust Company, NA, or to such other place as shall be designated in writing to the issuer by the Authority (the "Authority's Depository").

This Bond may be subject to redemption prior to maturity by the Issuer only with the prior written consent of the Authority and on such terms as may be required by the Authority.

Notwithstanding any other provision of this Bond, so long as the Authority is the owner of this Bond, (a) this Bond is payable as to principal, premium, if any, and interest at Bank One Trust Company, N.A. or such other place as shall be designated in writing to the Issuer by the Authority (the "Authority's Depository"); (b) the Issuer agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on this Bond in immediately available funds at least five business days prior to the date on which any such payment is due whether by maturity, redemption or otherwise; in the event that the Authority's Depository has not received the Issuer's deposit when scheduled, the Issuer shall immediately pay to the Authority its losses associated with such failure at the demand of and in an amount determined by the Authority; and (c) written notice of any redemption of this Bond shall be given by the Issuer and received by the Authority's Depository at least 40 days prior to the date on which such redemption is to be made.

In the event of a default in the payment

of principal hereof or interest hereon when due, whether at maturity, by redemption or otherwise, the amount of such default shall bear interest (the "additional interest") at a rate equal to the rate of interest which is two percent above the Authority's cost of providing funds (as determined by the Authority) to make payment on the bonds of the Authority issued to provide funds to purchase this bond, but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the Authority has been fully reimbursed for all costs incurred by the Authority (as determined by the Authority) as a consequence of the Issuer's default. Such additional interest shall be payable on the interest payment date following demand of the Authority. In the event that (for reasons other than the default in the payment of any municipal obligation purchased by the Authority) the investment of amounts in the reserve account established by the Authority for the bonds of the Authority issued to provide funds to purchase this bond fails to provide sufficient available funds (together with any other funds which may be made available for such purpose) to pay the interest on outstanding bonds of the Authority issued to fund such account, the Issuer shall and hereby agrees to pay on demand only the Issuer's pro rata share (as determined by the Authority) of such deficiency as additional interest on this bond.

During the time funds are being drawn down by the Issuer under this bond, the Authority will periodically provide the Issuer a statement showing the amount of principal that has been advanced and the date of each advance, which statement shall constitute prima facie evidence of the reported information; provided that no failure on the part of the Authority to provide such a statement or to reflect a disbursement or the correct amount of a disbursement shall relieve the Issuer of its obligation to repay the outstanding principal amount actually advanced, all accrued interest thereon, and any other amount payable with respect thereto in accordance with the terms of this bond. Capitalized terms not defined herein and defined in the hereinafter defined Bond Ordinance are used herein as therein defined.

For the prompt payment of the principal of and interest on this bond, the revenues of the Sewage Disposal System of the City (the "System"); including all appurtenances, extensions, and improvements thereto, after provision has been made for reasonable and necessary expenses of operation, maintenance, and administration (the "Net Revenues"), are irrevocably pledged, and a statutory lien thereon is recognized and created. The bonds of this series are of equal standing and priority of

lien on Net Revenues as all other SRF Junior Lien Bonds issued under and in accordance with the Bond Ordinance and are of junior standing and priority of lien as to Net Revenues, and secured on a subordinate basis, to all Senior Secured Obligations, Senior Subordinated Bonds heretofore and hereafter issued under and in accordance with the Bond Ordinance, and such Junior Subordinated Bonds hereafter issued under and in accordance with the Bond Ordinance with a higher lien than that granted SRF Junior Lien Bonds, and any Ancillary Obligations related to any of the foregoing.

For a complete statement of the revenues from which and the conditions under which this bond is payable, a statement of the conditions under which additional bonds of equal standing may hereafter be issued, and the general covenants and provisions pursuant to which this bond is issued, reference is made to the Bond Ordinance.

The Issuer has covenanted and agreed, and does hereby covenant and agree, to fix and maintain at all times while any bonds payable from the Net Revenues of the System shall be outstanding, such rates for service furnished by the System as shall be sufficient to provide for payment of the interest on and the principal of this bond and any other bonds of superior and equal standing payable from the Net Revenues as and when the same shall become due and payable, and to create and maintain a bond redemption fund therefor, to provide for the payment of expenses of administration and operation and such expenses for maintenance of the System as are necessary to preserve the same in good repair and working order, and to provide for such other expenditures and funds for the System as are required by the Bond Ordinance.

Honorable City Council:

Re: Petition Number 1304 — Request for City Council Approval for the Issuance of a New Dance-Entertainment Permit by the Michi-

gan Liquor Control Commission to 88, Inc., 14060 Telegraph.

Section 916(6) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(6), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance-entertainment permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of (1) the chief law enforcement officer, and (2) the legislative body within which the premises are located.

Pursuant to this requirement the MLCC has forwarded a Local Approval Notice to the Detroit City Council, which has been designated by the City Clerk as Petition Number 1304, for a licensed location at 14060 Telegraph Road. The petition requests City Council consideration and approval of a request from 88, Inc. for the issuance of a new dance-entertainment permit for the subject location, in conjunction with the proposed transfer of ownership of a 1998 MLCC Class C license (in escrow) from Walsh's Pub, Inc., 20551 W. Grand River, Detroit, to 88, Inc. The approval and issuance of a new dance-entertainment permit for this location would allow dancing by patrons and entertainment on the premises, only.

Upon investigation, review, and consultation with other City departments, the Detroit Police Department, Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the issuance of the dance-entertainment permit to 88, Inc. for 14060 Telegraph Road. The Consumer Affairs Department, Business License Center, reports that the owner and the location are in compliance with all of the applicable provisions of the 1984 Detroit City Code and that the owner has obtained all necessary approvals for the issuance of a "Group A" cabaret business license for the location.

In accordance with Section 916(6)(b) of the Michigan Liquor Control Code, being MCL 436.1916(6)(b), and the applicable provisions of the 1997 Detroit City Charter, the attached proposed resolution approving the issuance of a new dance-entertainment permit to 88, Inc., for 14060 Telegraph is being submitted to this Body for consideration and approval.

We request that the proposed resolution be considered at the earliest possible sessions. If there are any questions or concerns, please do not hesitate to contact us.

Respectfully submitted,  
BRENDA E. BRACEFUL  
Deputy Corporation Counsel

By Council Member Tinsley-Talabi:

Re: Request to Amend the 2002-2003 Official Compensation Schedule to establish a Pay Rate for a New Classification.

The Human Resources Department is in receipt of request from the City of Detroit Health Department, which seeks to establish a Public Health Preparedness Coordinator classification. This position will be responsible for responding to medical/emergency situations generated by Weapons of Mass Destruction (WMD), nuclear, biological, and chemical agents. A review of the essential duties and responsibilities as well as the knowledge, skills and abilities required to perform them, and market data pertaining to salaries typically paid to employees performing this kind of work results in the following recommendation:

The Planning and Development Department hereby respectfully requests the City Council to act on the attached resolution authorizing the reprogramming of \$250,000 of Block Grant funds for the organization's home rehabilitation and repair program. This year HUD did not fund Young Detroit Builders for the first time since 1993. This action has jeopardized the program.

Young Detroit Builders is a nonprofit corporation using on-the-job work experience to teach skilled construction trades to City of Detroit residents. The program to date has been very successful with about 80% of the graduates able to find jobs in the construction trades averaging \$9.50 per hour. Working with Habitat for Humanity and other nonprofit housing organizations, Young Detroit Builders have renovated more than 200-housing units while learning viable construction skills.

Re: Request for a Public Hearing on the Establishment of an Obsolete Property Rehabilitation Exemption District for the Book Cadillac Hotel.

Recently the Planning & Development Department petitioned your Honorable Body for the establishment of an Obsolete Property Rehabilitation District under Public Act 146 of 2000.

The Detroit Economic Growth Corporation will lead the redevelopment of the property, which we estimate will require an investment of \$142,000,000, and which will result in the provision of 475 hotel rooms and 70 permanent rental residential units. This project is not feasible without the tax relief provided by the Act.

The Act authorizes you to establish such a District on your own initiative, which will be necessary due to the Act's requirement that initiative from a private source must come from the owner or owners of at least 50% of the taxable value within a proposed District, and due to the fact that questions regarding title to the property remain to be clarified.

Attached for your consideration please find a resolution and legal description which will establish a Public Hearing on this issue as required by the Act. Due to our project timetable, which calls for the start of improvements by late summer, and due to the need for approvals subsequent to the establishment of a District, we request that you establish an early date and time for the Public Hearing.

Honorable City Council:

Re: Request to Rescind that portion of the City Council Resolution Approved on April 9, 2003 relating to Petition No. 306.

On April 9, 2003, the Planning and Development Department (P&DD) recommended to your Honorable Body that the vacation of a group of residential alleys be approved. A copy of our recommendation is attached. Such action to approve these alley vacations was taken. Subsequently, the P&DD received a complaint from a resident abutting the alley vacated pursuant to Petition No. 306.

To all parties who did not sign the petition, registered mail notices were sent advising them of the proposed recommended action to be taken by the City. This is standard procedure and typically

enables all abutting property owner concerns to be heard in advance of the recommendation to cause vacation of the subject alley(s). In this instance, the mortgage company, which was listed as owner of said property, did not object to this alley vacation. However, the resident living in the house abutting the alley subsequently indicated that the vacation of the subject alley would restrict vehicular access to the garage abutting the alley.

P&DD staff has visited the site and confirmed that the use of this garage would require alley access. The property owner was not interested in waiving this right of entry by signing the petition. Therefore, the P&DD recommends that the City Council Resolution approved on April 9, 2003, be amended to rescind the portion relating to Petition No. 306. An amended Resolution is hereby submitted to your Honorable Body.

Respectfully submitted,

Re: Requesting Alley Vacation and Conversion to Easement of Petitions Nos. 013, 242, 306, 587, 673, 809, 1096, 1104, 1185, 1427, 1808, 1872, 2401, 2426, 3138, and 3377;

The above-referenced petition has been filed with the Detroit City Council by more than two-thirds of the abutting property owners, as required by the Detroit City Code, Article VI, Section 50-6-1. In this instance, there is 100% property owners support of this request, therefore no public hearing is necessary. Our investigation of this petitions discloses the following:

1. That the alleys does not serve as the sole means of egress/ingress to any of the garages on the abutting properties.
2. The public utilities located in the alley can be properly served if these alleys are converted to an easement.
3. The alleys are not required for municipal services (trash collection).
4. No objections to this alley vacations have been received from Utilities or City Departments following notification of this request.

It is therefore the recommendation of the Planning and Development Department that these requests for alley closure be granted.

Respectfully submitted,

HENRY B. HAGOOD

Director of Development Activities

By Council Member Bates:

Whereas, On April 9, 2003 (Detroit Legal News, April 14, 2003, pp. 8-9), the Detroit City Council adopted a resolution vacating (with reservation of easement for public utility purposes and other public purposes) all or portions of alleys pur-

suant to sixteen (16) separate petitions; and

Whereas, Petition No. 306 (2002) seeking the conversion to easement of the N-S alley in the block bounded by Alter Road, Wayburn, Frankfort and Southampton Avenues was among the 16 petitions acted upon by the Detroit City Council; and

Whereas, Information from one of the adjoining property owners of the alley described in Petition No. 306 (2002) objecting to the vacation was not made available to the Planning & Development Department or to the Detroit City Council until after April 9, 2003; and

Whereas, This information rendered incorrect the premises upon which the Detroit City Council acted to vacate the alley described in Petition No. 306 (2002), specifically the premise that 100% of the property owners support the action and the premise that the alley does not serve as the sole means of egress/ingress to any of the garages on the abutting properties; and

Whereas, Upon due consideration, the Detroit City Council deems the action to approve Petition No. 306 (2002) to have been improvidently granted; and

Whereas, Upon due consideration, the Detroit City Council deems it fit and proper to rescind the action to approve Petition No. 306 (2002); now, therefore, be it

Resolved, That the portion of the resolution adopted by the Detroit City Council on April 9, 2003 (Detroit Legal News, April 14, 2003, pp. 8-9) pertaining to Petition No. 306 (2002) vacating the alley described as

"All that part of the North-South public alley, 18 feet wide, lying West of and abutting the West line of Lots 157 thru 176, both inclusive; also, lying East of and abutting the East line of Lots 179 thru 208, all in ABBOTT AND BEYMER'S SUNDERLAND PARK SUBDIVISION of Lot 5 and part of Lot 6 of Subdivision of Lot 4 of Alter's Plat dividing the Westerly part of P.C. 570, Gratiot Township, Wayne County, Michigan, as recorded in Liber 36, Page 93 of Plats Wayne County Records,"

is hereby rescinded and shall be deemed to have no effect; and be it

Resolved Further, That the City Clerk is directed to delete any reference to the property described above or to the rescinded portion of the resolution from the certified copy of the resolution adopted on April 9, 2003 before it is submitted to the Wayne County Register of Deeds for recording.

Re: Request to re-apply for the Bulletproof Armored Vest Partnership Grant.

The Bureau of Justice Assistance (BJA) is providing federal funds for states and units of local government to equip their law enforcement officers with armored vests. This reimbursement grant provides funding for up to (50%) of the total costs, including taxes, shipping and handling charges of vests purchased by the law enforcement agency. The law enforcement agency is responsible for the remaining cost of the vests.

The entire application and payment process for the grant occurs electronically via the Internet. In 2002, the Department purchased approximately 511 vests at a cost of \$424.95 per vest, for a total of \$217,149.45. A determination from the granting agency will be made in May, 2003 concerning the amount of funding each applicant will receive. The Department can be awarded up to (50%) of the total cost of \$217,149.45. This is the fifth year the Department is requesting funding from this program.

The Board of Police Commissioners has been notified of the Department's intent to request that your Honorable Body adopt the attached resolution authorizing the City of Detroit to participate in this grant program.

tion on Hwy. M-10 from Hwy. I-175 to Fort Street and Washington Blvd. to Griswold Superstructure Replacement Howard St. over M-10. State Agreement #01-5443. CPO #2567665.

On February 13, 2002 (J.C.C. Page 421) your Honorable Body approved Contract Purchase Order #2567665 with the Michigan Department of Transportation which provided for an estimated amount of \$258,300 for the City's share for the project described below:

**PART A (JN 47085)**

Reconstruction work on Highway M-10 (John Lodge Expressway) from Highway I-75 to Fort Street (Highway M-3), and on Highway M-10 (Jefferson Avenue) From Washington to Griswold; together with necessary related work; located within the corporate limits of the CITY; and

**PART B (JN 51485)**

Superstructure replacement on structure S13 of 82111 which carries Howard Street over Highway M-10; together with necessary related work; located within the corporate limits of the CITY; and

**PART C (JN 51486)**

Superstructure replacement on structure P02 of 82111 which carries the Porter Street walkover Highway M-10; removal of structure P03 of 82111 which carries the Elizabeth Street walkover over Hwy. M-10; and placement of deep bituminous overlay on Structure S14-5 of 82111 which carries the Bagley Ave. ramp over Hwy. Based on the bid price and best available information from the Michigan Department of Transportation, the project is anticipated to cost \$14,852,794. The estimated City's share of the revised cost would now be \$291,960, an increase of \$33,660 from the originally estimated City's share of \$258,300.

We therefore recommend adoption of the attached resolution, which authorizes the Finance Director to increase the amount of Contract Purchase Order #2567665 from \$258,300 to \$291,960. The increase will come from Appropriation No. 4189, Major Street Fund — Traffic Control Improvement — State.

**STATEMENT BY COUNCIL MEMBER ALONZO BATES REGARDING COMBINED RESOLUTION OF THE TERMINATION OF DEPUTY CHIEF GARY BROWN**

At this time, I chose not to support the resolution of my colleagues to request a Federal Investigation of the Mayor. Presently, all that is in front of Council are allegations. I am supportive of the Ombudsman and the Police Commission doing an investigation, because these entities are local and responsive to the concerns of the Citizens of Detroit.

To many times when federal agencies are brought in they conduct a "witch hunt" that will not stop until someone has been persecuted, justified or not. I have known investigations that have discredited some of the greatest leaders in history, Paul Robeson, Malcolm X, Coleman A. Young, and Dr. Martin Luther King. Pending an investigation we should not be quick to judge. Based on my experience, calling for a Federal Investigation when all we have are allegations is something that I will not support in good conscience. I support our Mayor and I will not react to allegations that have yet to be proven.

## Mayor's Office

Honorable City Council:

Re: Executive Organization Plan, Reorganization of the Consumer Affairs Department

Section 7-102 of the 1997 Detroit City Charter authorizes the Mayor to prepare and subsequently amend an organization plan for the Executive Branch of City government. That plan and its amendments are to be submitted to your Honorable Body and made public. After a public hearing, the City Council is required to approve, recommend modification, or reject the plan within sixty (60) business days. Lacking such action, the plan automatically goes into effect.

This communication is submitted to your Honorable Body setting forth a proposed amendment to the current Executive Organization Plan which would eliminate the Consumer Affairs Department as a City Agency but insure the continuation of all of its functions by:

1. Transferring the responsibilities of the Advocacy Division of the Consumer Affairs Department to the Senior Citizens Department Office of the Consumer Advocate to provide broader information and referral services and continue to mediate consumer complaints, counsel consumers, and offer consumer education services in active collaboration with the Customer Outreach Service Team (COST) which will increase citizen access.

2. Transferring the responsibilities of the Licenses and Permits Division of the Consumer Affairs Department, to the Building & Safety Engineering Development Department (B&SE) to utilize B&SE's expertise and experience in the licensing and permit area.

3. Transferring the responsibilities of the Weights and Measures Division of the Consumer Affairs Department to the Traffic Enforcement Section of the Detroit Police Department, which already enforces traffic laws and regulations and inspects taxicab meter seals.

The purpose of this amendment and transfer of responsibilities from the Consumer Affairs Department is to provide immediate savings on space and appointive positions within the Department while insuring that the Department's mandate will continue to be carried out in a more streamlined and efficient manner.

Your Honorable Body's approval of this Executive Organization Plan amendment in advance of the maximum sixty (60) business day time limit will enable us to implement these changes in accordance with the 2003-2004 Executive Budget now before you. I look forward to your support of the resolution.

That plan and its amendments are to be submitted to your Honorable Body and made public. After a public hearing, the City Council is required to approve, recommend modification, or reject the plan within sixty (60) business days. Lacking such action, the plan automatically goes into effect.

This communication is submitted to your Honorable Body setting forth one of several proposed amendments to the current Executive Organization Plan which will be submitted simultaneously. This amendment would create the Grants Acquisition Office and the Program Management Office as non-Departmental agencies. The Grants Acquisition Office will provide a centralized organization to identify, pursue, and secure grant oppor-

tunities in order to maximize external resources and program innovation in City service delivery. The Program Management Office is designed to deliver consistent project oversight and management services. Its focus will be on projects that improve City services, maintain financial solvency and enhance technological systems within City government.

Your Honorable Body's approval of this Executive Organization Plan amendment in advance of the maximum sixty (60) business day time limit will enable us to implement these changes in accordance with the 2003-2004 Executive Budget now before you. I look forward to your support of the resolution.

Honorable City Council:

Re: Executive Organization Plan — Creation of Department of Administrative Hearings

Section 7-102 of the 1997 Detroit City Charter authorizes the Mayor to prepare and subsequently amend an organization

plan for the Executive Branch of City government. That plan and its amendments are to be submitted to your Honorable Body and made public. After a public hearing, the City Council is required to approve, recommend modification, or reject the plan within sixty (60) business days. Lacking such action, the plan automatically goes into effect.

This communication is submitted to your Honorable Body setting forth a proposed amendment to the current Executive Organization Plan creating a new "Department of Administrative Hearings," to adjudicate municipal civil infraction ordinance violations to replace the Municipal Ordinance Violations Bureau (MOVV) established by Section 35.5-2-1 of the 1984 Detroit City Code.

Once the appropriate State legislative authorization is obtained, and appropriate ordinance amendments are approved by your Honorable Body, the current Zoning and Solid Waste enforcement branches of the MOVV will be dissolved and replaced by Divisions administered under the new Department. The intention is to create a hearings tribunal to assess civil fines and costs pursuant to schedules of municipal civil infraction violations, to alleviate pressures on the 36th District Court, to eliminate disproportionate penalties, and to replace time-consuming court-centered adjudication procedures with a more streamlined, but independent and impartial administrative system by:

1. Creating a new Department of Administrative Hearings to strengthen Code enforcement efforts by assessing and collecting civil fines and costs for violations of the Municipal Civil Infractions Ordinances.

2. Concentrating and consolidating enforcement of all municipal civil infraction ordinances in a single unified Department that is independent from the specific code-enforcing agencies.

Your Honorable Body's approval of this Executive Organization Plan amendment in advance of the maximum sixty (60) business day time limit will enable us to implement these changes in accordance with the 2003-2004 Executive Budget now before you. I look forward to your support of the resolution.

May 1, 2003

Honorable City Council:

Re: A request for a transfer of funds from the Mayor's Office of Neighborhood Commercial Revitalization (ONCR) to the City Planning Commission (CPC) to fund a training course on neighborhood commercial revitalization for organizations interested in becoming ONCR Re\$tores Detroit! designated districts.

The Mayor's Office of Neighborhood Commercial Revitalization (ONCR) and the City Council's Planning Commission (CPC), hereby respectfully requests the City Council to act on the attached resolution authorizing the transfer of funds from Appropriations #10540 (ONCR) to Appropriations #10692 (D.O.C.T.O.R. Program) in the amount of \$200,000 (Two Hundred Thousand Dollars).

**Background:**

Under the Memorandum of Understanding between the Mayor, the Council, and the Funders' Collaborative that established the ONCR, CDBG money was allocated to provide basic training on neighborhood commercial revitalization to both ONCR designated districts and non-designated districts. In order to begin the non-designated district training, the ONCR has partnered with the CPC to utilize the CPC's D.O.C.T.O.R. program. D.O.C.T.O.R. is an acronym for "Developing Organizations' Capacity To Operate Resourcefully". A previous round of this program was conducted successfully using the Neighborhood Partnership Academy (NPA) as the training coordinator.

**Funding:**

Funding for this training will come from CDBG monies previously allocated to the ONCR for this purpose. Since the CPC is currently working on a contract amendment with the Neighborhood Partnership Academy to remain the DOCTOR program provider for this second round of training, the most efficient way to fund the contract is to transfer \$200,000 from the ONCR to Appropriations #10692 (DOCTOR) which is an appropriation administered by the City Planning Commission. This is an eligible use of CDBG funds under CFR 572.02P and 572.05 Non-profit.

We thank you for your attention to this matter.

WHEREAS, Numerous confidential police documents are being leaked to the media, and

WHEREAS, Such leaks threaten the organizational integrity of the Professional Accountability Bureau, and

WHEREAS, The recent spectacle of the Police Chief engaged in a debate of "dueling documents" absolutely undermines the ongoing reform efforts of the Police Department and the confidence of the public, and

WHEREAS, The Detroit City Council passed a resolution requesting your good offices to investigate the patterns and practices of the Detroit Police Department procedures as it relates to the firing of Deputy Chief Gary Brown.

WHEREAS, On May 15, 2003, Mayor Kwame Kilpatrick held a news conference that revealed more information surrounding the incident that we therefore, respectfully request be added to your investigation.

WHEREAS, This incident has a wide-ranging serious implications we would like the following questions added to your investigation:

1. How did Mr. Berg, a consultant to the Mayor, get access to such a confidential document?

2. Who within the Police Department had access to this document?

3. Is there a pattern and practice of inappropriate influence both administratively and politically by the Mayor and his appointees with the Police Department and Police Commission?

4. According to the *Detroit Free Press*, **The Board of Police Commissioners: Mayor intervened in hires, chair says**, May 16, 2003, Chairperson Megan Norris states she received two phone calls from Kilpatrick's chief of staff, Christine Beatty and the Mayor himself relative to the replacement of two staff members with the Commission with people chosen by the Mayor. **Budget Department**

May 13, 2003

Honorable City Council:

Re: Correction of Errors and Amendments to the 2003-04 Mayor's Budget.

After further review of the 2003-04 Budget, presented to City Council on April 14, 2003; errors and amendments have been discovered which should be corrected. There are two categories of corrections. First, there are "substantive" errors, which must be corrected as an amendment to the Recommended Budget. Second, there are typographic and/or data entry errors, which do not affect appropriation totals or budget balancing. The "substantive" corrections will be identified with an asterisk (\*), and will be addressed in the attached resolution.

**Hospitalization**

The most significant corrections relate to appropriations for hospitalization insurance. After the Mayor submitted his proposed budget to City Council, the Employee Benefit Board approved a Blue Cross — Hospitalization increase of 29%. The budget assumed a rate of 15.9% based on use of the reserve funds to reduce the cost to the City. This higher rate means the City does not have sufficient dollars budgeted to cover hospitalization costs. In light of this new information we are amending our budget for Police and Fire pension contributions by \$10 million to cover these escalated hospitalization costs. The details are as follows:

**DETROIT CITY COUNCIL**  
**2003-04 LEGISLATIVE POLICY, PLANNING AND ACTION RESOLUTION**  
**ADOPTING THE 2003-04 CONSOLIDATED PLAN**

By ALL COUNCIL MEMBERS:

WHEREAS, The Detroit City Council has completed its review process for funding for the 2003-04 Community Development Block Grant including the Neighborhood Opportunity Fund; and

WHEREAS, Shortly before the conclusion of this review process, the City Council was presented with the U.S. Department of Housing and Urban Development's (HUD) "City of Detroit Management Report", at which time HUD representatives expressed concerns about the City Council's preliminary CDBG funding recommendations in light of the issues identified in the HUD report and encouraged the City Council to revisit the preliminary CDBG budget; and

WHEREAS, The HUD report identified four major concerns with regard to how the City expends HUD funding including whether the funding has impact in terms of increasing the quality of life for City residents; whether the City complies with federal statutes and regulations; the general administration of HUD funding; and the manner in which funding decisions are made, which tends to result in a large number of funded groups that receive insufficient funding to achieve large-scale impact; and

WHEREAS, The HUD report stressed the need for the Five-Year Consolidated Plan to be used as the basis for setting priorities for funding, with the highest emphasis placed on housing stabilization, new housing construction for low-income families, homeless services and prevention, services to special and/or underserved populations (especially the homeless, elderly, disabled, domestic abuse survivors, persons with AIDS, and persons with alcohol/other drug addictions), lead-based paint hazard reduction, anti-poverty measures, and economic development; and

WHEREAS, The City Council determined that it would have been unfair to the 392 community-based applicants, whose CDBG proposals had been in the 2003-2004 funding evaluation process since November 2002, to stop the current process altogether and begin a new process with different funding criteria; and

WHEREAS, The City Council took HUD's comments into consideration in reducing the preliminary budget by \$5 million by using the Consolidated Plan as the basis for setting priorities, reducing the number of projects/activities funded, and taking into account the Mayor's recommendations, which were based in part on Cluster planning information, as well as taking into account the Citizen Review Committee and City Planning Commission recommendations, which utilize performance information collected through an on-going evaluation project; and

WHEREAS, City Council's CDBG budget removes Neighborhood Opportunity Fund (NOF) Minor Home Repair funding due to an \$8 million backlog of previously allocated funding and replaces it with a single line-item for a new, Targeted Minor Home Repair Pilot program in one or more areas to be designated by the City Council through a coordinated planning process that will establish selection criteria with the goal of rotating the program in neighborhoods across the City over time; and

WHEREAS, City Council's CDBG budget clearly reflects priorities in the areas of home repair (\$4.6 million), emergency services (\$2.1 million), economic development (\$1.4 million), new construction \$1.4 million), and lead hazard reduction (\$1.3 million), all of which are consistent with priorities emphasized in the Five-Year Consolidated Plan; and

WHEREAS, City Council's CDBG budget reduces the number of activities funded from a preliminary proposed figure of 301 down to 224, while still allocating fundings to 11 new applicants; and

WHEREAS, The City Council continues to be alarmed at the number of Detroit children under age 6 (5,002 in 1998; 3,739 in 1999; 2,561 in 2000; 3,228 in 2001; and 2,830 in 2002) that have been tested and found with dangerously high blood lead levels (10 micrograms/deciliter or higher) that can lead to decreased IQ, reduced performance on standardized tests, motor development delays, behavioral problems, and impaired growth and hearing — all of which play a significant role in children's ability to learn and to succeed in society; and

WHEREAS, The City Council continues to fund programs to provide assistance to the families of lead poisoned children by 1) allocating \$1 million to the Minor Home Repair/Citywide Lead Program to serve families with lead poisoned children age 6 or under; 2) allocating \$940,000 for Minor Home Repair, which is required by federal lead-based paint regulations to address lead hazards in homes assisted with federal funding;

---

and 3) allocating \$270,598 to community-based non-profits with a track record of providing lead hazard reduction to Detroit's families; and

**DETROIT CITY COUNCIL  
2003-04 LEGISLATIVE POLICY, PLANNING AND ACTION RESOLUTION  
ADOPTING THE 2003-04 CONSOLIDATED PLAN**

WHEREAS, The Detroit City Council has completed its review process for funding for the 2003-04 Community Development Block Grant including the Neighborhood Opportunity Fund; and

WHEREAS, Shortly before the conclusion of this review process, the City Council was presented with the U.S. Department of Housing and Urban Development's (HUD) "City of Detroit Management Report", at which time HUD representatives expressed concerns about the City Council's preliminary CDBG funding recommendations in light of the issues identified in the HUD report and encouraged the City Council to revisit the preliminary CDBG budget; and

WHEREAS, The HUD report identified four major concerns with regard to how the City expends HUD funding including whether the funding has impact in terms of increasing the quality of life for City residents; whether the City complies with federal statutes and regulations; the general administration of HUD funding; and the manner in which funding decisions are made, which tends to result in a large number of funded groups that receive insufficient funding to achieve large-scale impact; and

WHEREAS, The HUD report stressed the need for the Five-Year Consolidated Plan to be used as the basis for setting priorities for funding, with the highest emphasis placed on housing stabilization, new housing construction for low-income families, homeless services and prevention, services to special and/or underserved populations (especially the homeless, elderly, disabled, domestic abuse survivors, persons with AIDS, and persons with alcohol/other drug addictions), lead-based paint hazard reduction, anti-poverty measures, and economic development; and

WHEREAS, The City Council determined that it would have been unfair to the 392 community-based applicants, whose CDBG proposals had been in the 2003-2004 funding evaluation process since November, 2002, to stop the current process altogether and begin a new process with different funding criteria; and

WHEREAS, The City Council took HUD's comments into consideration in reducing the preliminary budget by \$5 million by using the Consolidated Plan as the basis for setting priorities, reducing the number of projects/activities funded, and taking into account the Mayor's recommendations, which were based in part of Cluster planning information, as well as taking into account the Citizen Review Committee and City Planning Commission recommendations, which utilize performance information collected through an on-going evaluation project; and

WHEREAS, City Council's CDBG budget removes Neighborhood Opportunity Fund (NOF) Minor Home Repair funding due to an \$8 million backlog of previously allocated funding and replaces it with a single line-item for a new, Targeted Minor Home Repair Pilot program in one or more areas to be designated by the City Council through a coordinated planning process that will establish selection criteria with the goal of rotating the program in neighborhoods across the City over time; and

WHEREAS, City Council's CDBG budget clearly reflects priorities in the areas of home repair (\$4.6 million), emergency services (\$2.1 million), economic development (\$1.4 million), new construction (\$1.4 million), and lead hazard reduction (\$1.3 million), all of which are consistent with priorities emphasized in the Five-Year Consolidated Plan; and

WHEREAS, City Council's CDBG budget reduces the number of activities funded from a preliminary proposed figure of 301 down to 224, while still allocating funding to 11 new applicants; and

WHEREAS, The City Council continues to be alarmed at the number of Detroit children under age 6 (5,002 in 1998; 3,739 in 1999; 2,561 in 2000; 3,228 in 2001; and 2,830 in 2002) that have been tested and found with dangerously high blood lead levels (10 micrograms/deciliter or higher) that can lead to decreased IQ, reduced performance on standardized tests, motor development delays, behavioral problems, and impaired growth and hearing — all of which play a significant role in children's ability to learn and to succeed in society; and

WHEREAS, The City Council continues to fund programs to provide assistance to the families of lead poisoned children by 1) allocating \$1 million to the Minor Home Repair/Citywide Lead Program to serve families with lead poisoned children age 6 or under; 2) allocating \$940,000 for Minor Home Repair, which is required by federal lead-based paint regulations to address lead hazards in homes assisted with federal funding; and 3) allocating \$270,598 to community-based non-profits with a track record of providing lead hazard reduction to Detroit's families; and

RESOLVED, That City Council and City Council staff will continue to support, participate in, and provide leadership to the Detroit Lead Partnership, a collaborative, volunteer task force seeking to eradicate lead poisoning in Detroit, the LEAP Advisory Group, the Mayor's Emergency Task Force on Lead-Based Paint, and any other task forces involving representatives from the Planning and Development Department, City Planning Commission, Health Department, Human Services Department, and/or Wayne State University to establish a long term strategy for programmatic solutions to address this health care crisis; and

BE IT FURTHER RESOLVED, That the City Council intends to respond more thoroughly to the comments in the HUD report by working with the City Administration to develop a comprehensive, coordinated planning process that will be the basis for deciding Community Development Block Grant funding allocations beginning in the 2004-05 fiscal year.

**THE DETROIT CITY COUNCIL

By ALL COUNCIL MEMBERS:

WHEREAS, The Detroit City Council has held extensive hearings and deliberations on the 2003-2004 budget as proposed by His Honor, the Mayor; and

RESOLVED, THAT THE 2003-2004 BUDGET OF THE DETROIT CITY COUNCIL INCLUDES THE FOLLOWING BUDGETARY ACTIONS IN KEEPING WITH THE CITY COUNCIL MISSION TO PROMOTE PROCESS IMPROVEMENT IN GOVERNMENT OPERATIONS, ACCOUNTABILITY AND PROGRAMMING THROUGH THE USE OF BEST PRACTICES FOR BETTERMENT OF ALL RESIDENTS AND ENTITIES LOCATED IN THE CITY OF DETROIT:

**Administrative Hearings (Department)** — It is the opinion of the City Council that this concept has promise but is premature at this time; state enabling legislation is under consideration but has not been adopted; the administration has ordinance amendments that are being drafted, but have not been presented to the City Council; the critical need at present, is for general fund dollars to be allocated in other areas is greater; look at implementation after (if) the enabling legislation is passed in Lansing.

**Auditor General** — The City Council has allocated funding of the Risk Management Council staffing under the AG as the Risk Management Office; the AG projects a potential savings of \$10 million in conducting risk management reviews for each agency.

**BS&E** — Given the need for demolition funds apart from the use of federal dollars, the City Council has requested and expects a status report on the Fire Escrow Account. Questions to be addressed include how is in the Fund in total? How much is available to be used for demolition? And an analysis of the increased costs for demolition. This report is expected by July 1, 2003.

Additional personnel was added to the Housing Division of B&SE, in the funding of 1 FTE position for a receptionist, to better serve the public, 2 additional information clerks, so the public can get through on the phone lines. Inspection reports are backlogged and so owners and prospective owners do not know what work needs to be done. Two additional file clerks were added in order to reduce same backlog in filing that currently impedes record and information retrieval. Four clerk positions were added to process paperwork for billings, posting inspections into computers and mailing. This City Council agrees that inspectors need hand held computers.

This need was first identified eight years ago, and promised for seven. Improved technology and software for the inspectors must be a major objective for the department's 2004-2005 budget request.

**City Clerk's Office** — The Administration is requested to balance forward \$295,000 in the current budget in order for the Legislative Branch to begin implementation of its records and information archival and imaging project that is presently under the direction of the City Council Archival and Imaging Task Force. This is in addition to \$275,000 in 2003-2004 fiscal year for a total of \$570,000.

**City Council** — The City Council has funded the re-establishment of the Women's Commission and re-institutes Women's Equality Day; establish AIDS Commission under the City Council. Consider amendment of ordinance setting budget deliberation time requirements, beginning in July, 2003. As determined necessary and relevant to the issues before the City Council subject to the Rules and Order of Business, any Councilmember may seek creation of a Cultural Affairs task force or special committee to consider issues like the establishment of African Town, Media Affairs, and to establish task forces or special committees to consider issues including economic development, education, quality of life issues, utility shutoffs, traffic safety and prevention education, and health.

**City Council AIDS/HIV Commission** — The City Council allocated fifty thousand (50,000) dollars to fund an HIV and AIDS Commission. The commission is to conduct several meetings to gather information on possible solutions to reduce to the infection rate of HIV and AIDS in Detroit. The Commission is to begin the task of developing recommendations for appropriate legislation, at all levels of government, to increase public awareness of this critical health issue. In addition, receive funding for the prevention and spread of HIV and provide treatment in the City of Detroit.

It is urgent that the AIDS and HIV Commission begin its work because information from the United States Center for Disease and Control has documented the AIDS/HIV is a crisis in the African-American population. The CDC found that although African-Americans make up only 12% percent of the U.S. population, African-Americans accounted for half of the all new AIDS/HIV cases in 2001. AIDS is now the leading cause of death among African-American women 25-34 and African American men ages 35-44. CDC has further identified that among all women, African-American Women accounted for 64 percent of HIV cases reported in 2001.

Here in Michigan, the Michigan State Communicable Disease and Immunization Division and the Bureau of Epidemiology that maintains statistics and characteristics on Michigan residents diagnosed, and living with HIV and/or AIDS has estimated there are 15,500 HIV-infected persons (including those with AIDS) living in Michigan. The Detroit estimate is 6,810 infected individuals of whom 6,200 are black males and females is almost half the statewide total.

This advisory commission will include those living with HIV/AIDS, community-based organizations serving the Detroit AIDS/HIV population, public health and medical professionals. These individuals may include representatives from the City of Detroit Health Department, Wayne State University, Children's Hospital of Michigan, Wayne State University/University Health Center, Wayne State University/Hutzel Hospital, AIDS Partnership Michigan, AIDS Consortium of Southeast Michigan, Detroit Community Health Connection, CHAG and religious organizations and other organizations as appropriate. The specific mission and charge of this commission will be set forth in a subsequent resolution establishing the membership and charge of the commission.

**CCSD** — The budget of the CCDS should include the following benchmarking and monitoring: Develop and create methods that will generate increase utilization of Minority, Women owned, and Detroit-Based companies.

The City Council requests that the Department report and monitor the usage of the above mentioned companies to Council on a quarterly basis, the City Council will monitor the department in its efforts and methods to improve recruiting and developing contracts with Minority, Women owned, and Detroit-Based companies to help them develop growth and become a viable part of the Detroit economic picture.

**Cultural Affairs & Tourism** — Rejecting the majority of the Mayor's budgetary proposal to fund the department of Cultural Affairs and Tourism, the City Council has voted to fund the Cultural Affairs Department as it presently operates under its 2002-2003 budget. The City Council expects that the Administration will follow the dictates of the 1997 Charter, through the appointment of the required Council of the Arts for that department. Accordingly the City Council funded the move of Eastern Market to Cultural Affairs; the restoration of Hart Plaza back to Civic Center, and Chene Park back to Recreation Department.

**Consumer Affairs Department** — The Detroit City Council has fully restored the operations of the Consumer Affairs Department as a single unit, as it existed in the 2001-2002 fiscal year and as funded for the 2002-2003 fiscal year. This action is consistent with the City Council's rejection of the Mayor's proposed amendments to the Executive Organizational Plan for 2002-2003.

**DDA** — City Council directs its divisions, the Research and Analysis and the Fiscal Analyst to work with Budget, Finance, Downtown Development Authority and the Detroit Transportation Authority to explore options available for funding operations of the People Mover in subsequent fiscal years; Council divisions are to report back all findings and recommendations to City Council and the Mayor by November 30, 2003.

**DDOT** — The City Council is concerned about the numbers of management in various departments, and especially in the Detroit Department of Transportation. This is a concern that the City Council will monitor throughout the coming budget year. To address this concern, the Department has stated that it will implement a new supervisor to employee ratio, creating smaller teams in the area of maintenance of buses.

Last November the City Council voted to increase D-DOT bus fares by .25 cents as long as five benchmarks were met by the Department of this years' budget. While, not all the benchmarks have been met, the Department of Transportation has shown that the effort is being made to increase ridership and improve service to those already utilizing the City's bus system.

To ensure these efforts are forthcoming, the City Council is implementing a D-DOT Compliance Monitoring Task Force. Included in this Task Force will be City Councilmembers, D-DOT and the Budget Department. MOSES, Transportation Riders United, CUBS, AFSCME, ATU and the Chamber of Commerce will all be invited to participate. This group will monitor D-DOT's compliance on issues such as developing a comprehensive marketing plan to increase revenues and a public participation plan to allow for more bus rider feedback to the Department. If the Department does not show an improvement in services, the Council will then rollback the 25 cent increase in fares for the 2004-2005 budget.

**DPW & City Engineering** — Recently it was reported that Detroit leads all big cities in the rate of pedestrian deaths. The City Council has experienced a significant increase in request for additional traffic control in the vicinity of the City schools. The City Council is allocating \$800,000 to begin to install Driver Feedback signs near the City Schools. These signs, which register a vehicles' speed as cars drive by has led to a 67% reduction in speeding in school zones around the Country. Many major cities have used these Feedback Signs to protect children from speeders.

**DWSD** — The director has advised and therefore the City Council is expecting to receive status reports on the hiring of (4) additional collectors and increased collections activity within (90) days. The Department is also to address the issue of requiring back-flow devices on water hydrants when used by lawn services, avoiding contamination from chemicals. Additionally, the City Council is awaiting recommendations to address Fire Department concerns about servicing of fire hydrants throughout the City.

**Environmental Affairs** — The City Council will expect to receive the administration's City strategy to address city-owned properties as it relates to the Civil Infractions Bureau. This strategy is a critical element missing in the strategy, planning and presentations for a proposed Administrative Hearings Department.

**Finance** — The City Council has reinstated two positions to monitor the implementation and enforcement of the Living Wage Ordinance. This will reveal any improvements that need to be made in the ordinance, and provide the documentation for it. Under the public library, the intention of money granted in the 2002-2003 budget was to restore positions to the Burton Historical collection, bring personnel back from other divisions that had been transferred to the Burton, and books transferred to other collections were to be transferred back to the Burton as well. We expect that to happen this year 2003-2004.

City Council, by restoring full funding to the **Office of Targeted Business Development**, has demonstrated its commitment to local Detroit based businesses. This issue of awarding contracts to local businesses has been raised for years within the business community and at the Council table. By beginning this project, we have established the foundation to not only grow Detroit businesses but also create new ones. Ultimately, the Office of Targeted Business Development is revenue producing as indicated in their strategic plans.

**Fire** — City Council restored funding for the “Curtis Randolph” water boat. The department has indicated that it will seek a joint funding arrangement with the City of Windsor for the use of this boat on the waterway; City Council heartily concurs with pursuit of such an agreement.

**General Retirees** — The City Council has adopted the recommendations of its Fiscal Analysts that Council not fund the pension factor improvements request at this time (\$2 million), but instead wait until next fiscal year to review the reports submitted by the committee and look at other ways to reduce health care costs for retirees. Instead the City Council will consider a budget amendment regarding General Retirees budget request after receipt of recommendations and analysis of the request by legal counsel and Deloitte and Touche. Council did add \$750,000 to be placed in Non-Departmental for and emergency meds program for retirees meeting certain household income requirements. The terms and conditions of the 1 time program are to be worked out with the administration, including location and administration of the program...

**Grants Acquisition Office** — Although reducing the number of requested positions from (6) to (2), the Detroit City Council is supportive of the Office of Grants Management. Primary functions of the office will include but are not limited to following:

1. Monitoring of existing grants;
2. Identification of new funding sources;
3. Preparation and presentation of a quarterly report to the City Council to include:
  - a. Number and type of grant applications;
  - b. Status update on grant proposals submitted;
  - c. Partnership towards acquisition of grants.

The City Council herein requests and will expect to receive quarterly reports on the status of all grants sought, applications submitted, awards received, requests denied, reports filed, renewals sought and obtained or lost.

**Human Rights** — The City has funded and will take over the re-establishment of the Women’s Commission. This should improve the ability of the Commission and its staff to fully monitor and investigate contract compliance for EO 4 and EO 22, relevant purchasing ordinance requirements and the new Office of Targeted Business Development ordinance; certification of Detroit based, Minority and Women owned companies, and to assess and monitor Human Rights compliance for entities seeking various tax abatements through the year.

The City Council is dedicated to addressing the continuing need to actively pursue a course of discussion and program implementation to improve opportunities to increase Detroit resident participation of tradespersons/journey persons programs. The Building Trades Unions must be approached by the Administration and this Council with a stronger commitment to work for immediate and lasting change within the skilled trades unions that will result in more women, more people of color and more Detroit residents.

The City Council will monitor the Department for the following benchmarking and monitoring plans.

1. The Department, and the Office of Targeted Business Development are requested to submit a quarterly review and report given to this Council, to confirm the measures and progress within Contract Compliance with the development and utilization of Minority and Women owned companies and Detroit Based businesses on publicly funded and partnered projects, in city contracts for goods, services and revenues.
2. The Department and the Office of Targeted Business Development, are requested to develop a plan and mechanisms that will facilitate and foster the above-mentioned companies to increase their business capacity and ability to that will improve services, thereby improving the likelihood of successful service and growth.

**Law** — City Council provided increase funding for support staff in the Law Department. The funding of new personnel for the Law Department is permit and ensure faster collection of current due bills, to reduce the backlog. These personnel would then be a part of those trained in the new MBIA contractual process, thereby enhancing the City’s ability to collect due revenue at the conclusion of said contract.

**Mayor** — The City Council agrees that there is a need to analyze and reconsider management, operational and procedural activities within city agencies for improvements, and implementation of best practices, thus has funded the Mayor’s proposed **Program Management Office (PMO)** at partial request. The funding is for 3 full time positions at management level. The City Council recommends and strongly urges the Mayor to provide clerical assistance from his current mayoral staff resources to assist the PMO with

its implementation work. Given the specifics of the work to be performed by this office, the City Council expects, and the administration agrees that these 3 positions shall be filled with persons who have an MBA and at least 3 years of practical and professional experience in project management or process re-engineering.

The City Council is deeply concerned about the matter in which the Mayor presented and linked major structural changes to the operations of city government within his budget recommendations for 2003-2004. The proposed budget raised substantial public policy questions, and engendered extensive question and answer, and debate, which remain incomplete at this time. Therefore, the decision to fund certain changes like the Administrative Hearings Department and the Cultural Affairs and Tourism Department, and to partially fund others. (This Council believes that such changes should be a part of more extensive planning and public consideration, therefore the Council requests that the Mayor present such changes well in advance of bringing his budget recommendations in future years.) In the event that any proposed budget will contain structural changes, the Mayor is strongly urged and encouraged by the City Council to initiate public policy discussions before such changes are incorporated into the budget recommendations and well in advance of the budget deliberations process by the City Council.

**Non-Dept Capital Improvements** — The Detroit City Council recommends that the Administration approach the Riverfront Conservancy for funds to demolish Ford Auditorium; and consider the use of bond proceeds available to P&DD for development of low and moderate income housing programs citywide.

**Non-Departmental/Lifeline Retiree Prescription Program** — The City Council was presented with a number of pension improvement proposals from both of the City Retirees Associations. Due to the condition of the budget, the immediate funding of these proposals was deferred in order to examine their actual cost and to better determine the retirees that would be served. The City Council Fiscal Analyst will be concluding its medical benefit study and will receive a final report on the possible savings and program improvements for both retirees systems in the up-coming year.

The most economically challenged are city retirees and this program would provide assistance based on economic and health needs of each individual. The Council allocated \$750,000 to a non-departmental category to fund the program.

City Council requests that the Health Department contact the State of Michigan to determine whether the City of Detroit can purchase medications in bulk through the State Program to reduce the cost and maximize the number of retirees served.

**Northwest Activity Center** — City Council directs the Research and Analysis Division to examination all agreements, enabling resolution codes and statutes to determine whether the articles of incorporation or bylaws of the Northwest Activities Center may be amended to provide for one person to be elected by the membership, including the health club members to serve on the board.

**Police** — The City Council has adjusted the budget within the Police Department's Rape Crisis Center to accurately reflect the current positions of (3) senior social workers and the driver to take people to and from court as well as other sessions related to their cases.

Additionally funding is provided in the budget to employ another person in the Police Lab to do the testing on rape kits that are backlogged because the department does not have a perpetrator identified. Without adequate staff, to process those kits, it is impossible to apprehend the perpetrator if they are apprehended while committing another crime.

The City Council continues to call for increased civilianization within the Police Department. The City Council will monitor the department of its activity in increasing the number of more civilian positions made available next fiscal year.

The Department and administration are urged to actively pursue additional federal funds to secure helicopters from Office of Homeland Security. Given the prominence and importance of the City of Detroit as a border city, with the busiest port and international gateway in the country, the Council is of the opinion that greater resources must be allocated from the federal government in order to accomplish the objectives of Homeland Security.

Additional funding is provided for dedicated police personnel to be assigned to the Missing Person's Unit to reduce the number of open Missing Persons cases and to also increase the closure rate of these cases. In a Missing Children Task Force survey, of more than 15 urban areas' Missing Person Units, the City of Detroit by comparison suffered from a lack of dedicated personnel assigned to handle more than 4,000 annual cases of Missing Persons reported a year. The survey also looked at the resources, communication procedures, case management systems, and general orders of other Police Missing Person Units.

The City of Detroit has sub-par case closure rates and suffers from thousands of open cases that cannot be resolved by existing precinct personnel and the one officer assigned to the Missing Person Unit. The City of Detroit has continuously failed State and Federal audits for timely entry of missing person reports into the LEIN and NCIC databases for

missing persons and children. With the City of Detroit having 4,170 uniformed officers and 683 civilians in the Police Department, there should be a priority made of reassignment of personnel and additional resources to the Missing Person Unit: The Chief has agreed to do this.

Due to the adoption of a new Federal Amber Alert Law, the existing requirements of the Uniform Crime Reporting System Act 319 of 1968, and the requirements of the new Detroit Police Manual that became effective in April, 2003, that missing person reports be reviewed and new information entered "every thirty (30) days". The City of Detroit must add personnel. Failure to add personnel and resources will result in increased open cases not investigated and updated, lower case closure rates, and failure to serve the citizens, families and parents of missing persons. As the Police Department would not agree to submit a letter detailing assignment additional personnel to the missing person unit, so City Council funded the following in the budget for \$650,000:

- (1) LT
- (1) SGT
- (4) Police Officers
- (3) Senior Clerks for a cost of \$609,636

The remaining \$44,636 is funded to be used by the Missing Person Unit for related support expenses such as computers, supplies, and other expenses associated with the operation of this unit.

**Police and Fire retirees** — The City Council is unable to fund requests for pension improvements for Police and Fire retirees at this time. There is a need for an actuarial study for any proposed improvements and an analysis of what is needed to ensure that the retirees with the greatest need for improvements are served. The Retirees Association and the Pension Board are requested to take steps during the next fiscal year to engage such studies and report any recommendations to the City Council well in advance of the next budget deliberations.

**Public Lighting Dept.** — Council members continue to renew their request for the department's time limited and measurable objectives. Additionally the City Council requests that there be a citywide implementation of an "eyes and ears" program for the purpose of identifying lighting outages, downed lines, inoperable traffic lights and signage. It is the view of the City Council that city employees in PLD, Police, Fire, Water and BSE to identify report and record light out, malfunctioning traffic signals and missing traffic signs, low and falling wires, dangerous buildings, etc.

**Recreation** — The Mayor's proposed plan to close 6 recreation centers cannot and will not be supported by this City Council. Therefore the City Council has adopted a budget that will:

1. Keep four of the six designated recreations centers open, specifically Bradby, Evans, St. Hedwig and Wigle.
2. The Council concurs with the closing of Lighthouse, and the repositioning of Delray to move to People's Community Center for maintenance, upkeep and general running of the facility.

The City Council urges a commitment from the Administration to recruit and hire College students with a degree in recreation, or physical education for the position of Junior Recreation Instructors. This will infuse the Department with new blood and create fresh ideas that revitalize the Department.

It is unfortunate that the Mayor's initiative was not discussed with Council prior to his budget address. The City Council members and staff from all offices toured the 6 sites slated for closure. We analyzed the neighborhoods and community's surrounding the proposed sites and made the following findings:

If the 4 centers, Bradby, Evans, St. Hedwig and Wigle were to be closed, we find that approximately 6,300 children and young people (5-17 years of age) will be without a recreation center. The alternative sites are approximately 1.5 miles away from these neighborhoods. Additionally, poor and working class communities were the only neighborhoods slated for closure.

We concur with the closure of the Lighthouse for the reason that the facility is in significant disrepair and there is very little programming. The Delray site has been programmed by the People's Community Services for a number of years. This Center is not slated for closure, but rather will be turned over to Peoples' Community Services to monitor under a public/private partnership lease agreement.

The elimination of senior programs from the six centers could affect our estimated 3,000 seniors who reside in these neighborhoods.

The City Council, through its funding actions, mandates that the four centers, Bradby, Evans, St. Hedwig and Wigle remain open and funded at their current levels.

In addition to the decision to keep the centers open, the City Council has again determined to allocate \$50,000 per recreation center and to continue specific improvements to each of the 28 open centers. Additionally, the Council allocated \$75,000 to upgrade the Stone Pool, which has been closed for sometime. An additional \$350,000 has been funded in Recreation. In summation, the City Council has restored this funding because we

believe that this department needs to be supported and strengthened as a core and necessary City service.

**Risk Management** — The City Charter calls for an annual appropriation for Risk Management. The City Council has appropriated \$234,000 for Risk Management in the Auditor General's office. The Risk Management Council is beginning to meet on a regular basis. It is Council's expectation that the allocation of monetary resources will permit the Risk Management Council to develop a city-wide risk management system in order to address the hemorrhaging of city dollars in lawsuit settlements and judgments.

**36th District Court** — The 36th District Court established as a drug treatment court project with a primary goal of identifying substance abusing offenders and involving them in Substance Abuse Treatment. In December, 2002, the Drug Treatment Court marked its — 4th year with a multitude of accomplishments. The work that the court has begun needs to continue if we are to make any impact in this area. The Detroit City Council continues to recognize and address alternative treatment in lieu of incarceration. The 2003-2004 Budget places \$250,000,000 of funding to restore the 36th District Drug Court.

**Planning** — In the 2002-2003 budget the City Council appropriated \$100,000 in the Planning and Development Department for the important "Demolition by Neglect" program under the Historic District Commission. As of this date that money remains unspent, although one case is underway. The Department has indicated that it will spend some of this money on city-owned historic buildings, which is contrary to the City Council's intent. The Mayor's proposed 2003-2004 budget includes no funding for this program and in view of the lack of progress and the stated intent to spend the money on other projects, the City Council is leaving the program unfunded. The City Council hopes that in the future this essential and useful tool will be able to be properly utilized in our historic districts.

Additionally, the City Council reiterates the following requests and expectations, putting the respective departments on notice that these issues will continue to be matters monitored and investigated by the Council during the course of the fiscal year:

- Restoration of the Burton Collection and the allocation of staff to pursue the restoration, funding having been placed in the budget for the Detroit Public Library for a second consecutive year, beginning with the 2002-2003 budget;
- The consideration of amendments to the Code and Charter to increase and adjust the budget consideration time and process.
- Improvements in the delineation of goals and objectives from all city departments, divisions and agencies in time limited and measurable terms.
- Monitoring of the Executive protection positions for a match of funded allocations through monthly reports; listing of officers assigned to Mayor's Office and notification when the unit exceeds 21.
- Reports and information from Historic regarding the status of Moross House, its proposed usage and continued ownership operation as a city owned historic facility;
- City Council takes public notice of the inclusion of all FTE positions in the Housing Commission staffing are contained within the adopted budget and White Book of salaries and compensation for 2003-2004, thereby continuing Council's legal and legislative determination to retain all Detroit Housing Commission positions as employees of the City of Detroit;
- Councilmembers have expressed concerns regarding many issues that may be the subject of task forces or special committees. Some of these issues include: Establishment of an Africa Town District, Education, Health issues, Media Affairs, Economic Development initiatives, and Traffic Safety; Councilmembers may request establishment of such task forces and special committees in accordance with the Rules and Order of Business, at such time as they deem appropriate. NOW THEREFORE BE IT FINALLY

RESOLVED, That copies of this resolution be immediately transmitted to the Mayor and all directors and managers of all agencies, boards, commissions, departments and divisions, of the City of Detroit.

Adopted as follows:

Yeas — Council Members Bates, K. Cockrel, Jr., S. Cockrel, Collins, McPhail, Tinsley-Talabi, Watson, and President Mahaffey — 8.

Nays — None.

#### **Detroit City Council 2003-2004 Budget Address Council President Maryann Mahaffey, Tuesday, May 20, 2003**

The 2003-2004 General Fund budget presented to City Council was developed under the most challenging economic conditions since the early 1980's. The Mayor presented his proposed budget which outlines strategies for closing a budget deficit estimated at \$196 million. These strategies included closing six recreation centers and laying off 193 city employees to help balance the city's \$1.4 billion general fund budget. To deal with the projected General Fund deficit, and arrive at a balanced budget, City Council successfully shifted funds to address critical needs of our community, while at the same time painfully accepted some of the Mayor's proposed spending reductions.

Clearly, the city's budget crisis will not be resolved without incurring some pain. The City Council was careful in its attempts to target spending reductions where the least harm will occur. While facing the most difficult challenges posed by our budget crisis, City Council determined that the people who need the most protection — children, low income families and seniors — would not be its latest casualties. Our budget reaffirms what Detroiters voiced during this painstaking budget process: what each citizen wants is a community that is healthy and sustainable, one that meets basic human needs such as housing, health care, and recreation.

The importance of understanding the reasons for our city's economic crisis cannot be overstated. We continue to face fiscal challenges due to an unsure national economy that waivers from threats of continued conflict abroad. No city is immune to the overriding economic forces of our nation, that are to a great extent influenced by the political decisions made in Washington.

One by one, states and cities are becoming casualties of the national recession and costs of war in Iraq and Afghanistan. Taxpayers in Michigan will pay \$2.2 billion for the funding request for war in Iraq. With the federal government already predicting a record \$307 billion deficit for next year, the war in Iraq substantially adds to this deficit and severely affects the domestic economy.

As we wait for the national economy to turn around and flood state and city coffers with desperately needed revenues, soup kitchens and homeless shelters are besieged with cries for help. There seems to be plenty of cash to pay for war and empire building in Iraq but when it comes to meeting America's needs for housing, health care, food, education and other necessities, the cash drawer is empty. The United States is spending more than a billion dollars a day on the military while a whole spectrum of domestic needs are severely under funded.

Federal tax and spending decisions significantly impact Detroit's budget. The President's tax proposals affect state revenues and it is predicted that these proposals will cause states to lose up to \$64 billion over the next ten years. Under President Bush's proposal, hundreds of billions of dollars will be diverted from the Social Security Trust Fund, health care, education and homeland defense in order to pay for tax cuts that benefit the top one percent of tax filers, a group whose average income is about \$1 million, according to the Center for Community Change.

Michigan is facing a \$1.6 billion budget gap in FY 2004, with no promise of any state aid from Washington.

As the state faces its worse budget crisis in forty years, revenue sharing payments to local governments have been reduced and represent an overall cut of 27%. Revenue sharing funds are a critical source of funding for Detroit. The Mayor has informed us that state revenue sharing cuts will total more than \$21 million. We are also expected to receive \$8 million less in income tax revenues due to layoffs and the weak economy. Finally, if we are forced to cut income taxes again, the result will be an additional loss of \$15 million.

The scheduled reduction in the income tax rates also hurt our ability to raise revenues to fund services. According to the Washington DC based Institute on Taxation on Economic Policy, nearly one third of the benefits of the income tax rates cuts have gone to households with average annual incomes in the top 5% of income (\$317,000) and only 1.1% of the benefit has been realized by households at the bottom 20%. An average family with income of \$50,000 is saving only \$50 as a result of the rate cut. Obviously, the reduction in individual income tax rate fails to target relief where it's needed most — to low and moderate income taxpayers.

The city's anticipated deficit is real, resulting not from mismanagement or temporary circumstances, but from a structural imbalance between all the declining revenue sources and necessary expenses for services. We agree that long term considerations are important. The erosion of revenue tax sources results in a structural deficit for which permanent solutions need to be found. With no guarantee that larger economic forces will cause our economy to improve, additional revenues will be necessary in order to continue vital programs. For that reason it is important to continue to explore revenue solutions that provide opportunity for future growth.

We recognize the Mayor's attempt to balance the need for new programs to create new sources of revenue and the need to maintain necessary levels of services. City Council, however, changed budget priorities to reflect our commitment to fund direct services rather than administrative initiatives. While many of the Mayor's proposals represent new and creative efforts to improve bureaucratic efficiencies and bring in much needed revenues, we simply cannot, at this time, afford new, unproven ideas at the expense of after school programs for youth and life sustaining medicine for retirees.

Neither can we afford to balance the budget on the backs of city workers, many of whom make less than \$35,000 per year. While we painfully and reluctantly accepted some of the Mayor's proposed funding reductions achieved through layoffs of city workers, we found funding for thirty-five employees

**LAYOFFS OF CITY WORKERS**

The proposed budget included laying off 60 workers in the Department of Public Works. This department is charged with the essential tasks of garbage pick up and street maintenance. In the midst of the struggle to improve the image of our city and maintain cleaner, safer streets, it is imperative to have the necessary resources and manpower to get the job done.

We unequivocally believe that every single city employee is highly valued. We fully recognize the possible impact of proposed layoffs on the lives of our city employees, their families and citizens of Detroit. It is this realization that prompted City Council to attempt to locate enough funding to restore every single position slated for layoffs. In this difficult process, we were unfortunately not able to identify funding to restore every position. Council did reallocate funding to restore thirty four positions in the Department of Public Works and the Recreation Department — steps in the right direction, but not enough.

**SOURCES OF REVENUE: PARTIAL FUNDING FOR PROGRAM MANAGEMENT AND GRANTS ACQUISITION OFFICES**

The Mayor's Executive Organization Plan included the creation of two new departments and offices along with the transfer of certain functions to various other departments, and the elimination of the Consumer Affairs Department. City Council agrees with the conceptual logic of the need for coordinating grant seeking functions as well as the enforcement process for civil infractions.

Before new departments are created, however, clearly defined plans that include time limited and measurable goals and objectives should be developed by the Administration, City Council and our taxpaying residents. We heed the wisdom of the Auditor General who reminds us that "when we fail to plan, we plan to fail."

In order for a Department of Administrative Hearings to succeed in processing municipal civil infractions, several other pieces of legislation have to be enacted. Neither state enabling legislation nor the city's ordinance have yet been presented to City Council for its review and approval. A property maintenance code still has to be submitted and discussed. We are hopeful that all of these components will be in place for next year's budget, along with a clear plan for implementation. At that time, we will be able to more rationally consider funding a Department Of Administrative Hearings. For now, City Council shifted \$2.7 million budgeted for the Department to meet more pressing needs in the community.

City Council also downsized the proposed offices of Program Management and Grants Acquisition to fund other priorities.

**PROGRAM MANAGEMENT OFFICE**

Particularly in hard economic times we must continue to make city government more efficient while improving the quality of services delivered to residents. The Administration calls this process the "re-engineering" of city government.

To re-engineer city processes, the Mayor proposed the creation of a "Program Management Office". The office will examine city departments and processes to find ways to streamline service, update technology and thereby improve quality of service. The proposal called for six (6) managerial level employees at a cost of nearly \$1 million.

The City Council had many questions regarding the specific goals of this new office. There was lively debate about adding a new office when city workers are being laid off. There are questions about the credentials of the managers in this office as well as the compatibility of technology and specific objectives for the first year of operation.

The goals for the proposed Program Management Office, aimed at improving efficiencies and re-engineering bureaucratic process can be achieved with fewer staff and more concrete plans. We funded three provisions to give this effort the start it needs. By eliminating four proposed positions, we saved more than \$400,000 to pay for existing programs.

In the end, City Council decided to fund three employees, with the understanding that we would be kept fully informed about the office's progress and development of specific programmatic objectives. We will closely monitor the efforts of this office to find ways to improve efficiency with refuse and bulk collection, traffic lights and streetlights services.

It should be clearly and strongly stated that City Council expects that the Administration will not present any proposals in the future for the creation of new departments and functions without first involving the City Council, city employees and the public at large in designing and outlining program goals and its mission. It is simply not good government to expect the legislative body of government to approve significant organizational changes, without first fully and publicly explaining its vision and intent.

We also agree that it is important to seek accountability and coordination of grant seeking functions. Given the current economy, continued cuts to Detroit's revenue sharing dollars and a continuing decline in tax revenues, we must identify and aggressively target alternative revenue sources.

The importance of finding more money for city services should not be understated. Its importance, though, has to be balanced with the need to restore positions of employees threatened with layoff. For that reason, City Council agreed to partially fund the Mayor's

proposal, two positions in a new Grants Acquisition Office, with the understanding that a strategic plan to improve our ability to secure outside grants and monitor them will be developed for City Council review. We are requiring information on what current grants are being sought, descriptions of intended purposes for grants being sought, applicable time lines for each grant and delineation of who is specifically responsible for grant compliance. All of these requirements are further outlined in City Council's closing resolution.

By partially funding this new department, we were able to utilize \$378,000 for other programs.

#### **MBIA**

Recently, City Council approved a contract with a private collections firm, MBIA Muniservices Inc., for the collection of delinquent income and property taxes and water and sewerage receivables. The Administration assures us that this is a temporary arrangement to collect outstanding revenues as quickly as possible.

At City Council's insistence, the contract includes training for city employees and assurances that we will have long term access to the company's technology at a reasonable cost. In addition, we insisted that the Administration provide a written commitment that no city employee who currently performs collections work will lose his or her job during the term of this contract.

Finally, we funded collections positions in the city's Law Department and Water Department so the city can continue to collect more current accounts efficiently. This will also ensure the city is able to take over the collections work at the end of MBIA's contract period.

MBIA is forecasted to collect \$24 million over the next three years. The 2003-2004 General Fund budget includes \$3 million of that revenue. This money has been used to offset a portion of the projected budget deficit in order to retain city employee positions.

#### **CIVIC CENTER DEPARTMENT AND CULTURAL AFFAIRS**

The Mayor proposed in his budget a structural change, to combine the current Civic Center and Cultural Affairs Departments into one Department of Cultural Affairs and Tourism. Hart Plaza, Chene Park and Eastern Market would all have been folded under this department umbrella to focus on tourism and thus add jobs in Detroit.

The focus on tourism, against a backdrop of 193 employees possibly losing their jobs, is a poorly placed priority. There already exists the Detroit Convention and Visitors Bureau which works on issues of tourism and jobs. In addition, the Cultural Affairs Department has a broader charge under the Charter than fostering tourism.

City Council maintained the current Civic Center Department and Cultural Affairs Department as separate and distinct entities. Responsibility for Hart Plaza was shifted to the Civic Center Department, as a more appropriate assignment than in the Recreation Department.

#### **COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM**

Like the deliberations of the General Fund budget, the 2003-2004 Community Development Block Grant allocations process was challenging. The City Council ultimately succeeded in funding significantly more groups for home repair, homeless services, new construction and economic development activities than were included in the Mayor's proposed 2003-2004 CDBG budget.

Every year, the city is required to allocate its HUD resources in accordance with its five year Consolidated Plan. When Ms. Diane Johnson, interim Director of the Detroit HUD office informed City Council on May 6th that decisions about how to distribute CDBG funds needed to adhere more closely to the goals outlined in the Consolidated Plan, in order to ensure that federal funds would not be lost or returned, City Council promptly responded to the directive.

What is strikingly clear from the HUD monitoring report is the lack of overall policies to govern the administration of federal funds. Repeatedly, HUD cites the lack of coordination of programs and procedures with the broad goals set out in the 2000-2005 Consolidated Plan and Detroit Housing Commission's Five Year plans. The lack of any overall housing policy, particularly, impacts all of the areas covered in the latest HUD report. Clearly, the City Council and the Administration need to jointly develop specific policies that govern the processes needed to rationally carry out clearly stated goals and objectives. City Council has developed a framework for a housing strategy policy with Wayne State University and is committed to developing a housing strategy in partnership with the Mayor's office and community based organizations. This work should be completed in six months.

Out of a total of 391 applications submitted to the CDBG program for consideration, City Council is funding 223 groups. Consistent with the Consolidated Plan, which prioritizes housing for low and very low income individuals, homeless needs and special needs, nearly \$10 million was appropriated for emergency, home repair, housing counseling and rehabilitation services.

In addition to funding groups which provide critical housing services for at-risk, very low income individuals and families, City Council funded 9 community organizations for home repair in addition to three citywide programs (Senior, Lead and Targeted), which should

have a demonstrable impact on neighborhood stabilization across the city. Concerned about targeting resources in order to achieve even greater impact, City Council created a single line item for home repair for a targeting pilot program. Home repair funds will continue to be targeted to families with lead poisoned children age 6 or under, in line with City Council priorities set two years ago. We look forward to greater discussion among community representatives and city staff to determine goals and objectives for this pilot program.

There was considerable discussion among Council Members about the need to build capacity among new and smaller groups, so that more people become skilled in delivering services and programs to their neighborhoods. City Council funded eleven such new groups and commits itself to providing any and all technical assistance to these groups to ensure their success.

Another point raised in HUD's monitoring report is the need to reduce the number of projects and activities funded annually. City Council agreed and reduced the overall number of groups funded. At the same time, City Council calls once again for an examination of the entire CDBG contract payment process. Streamlining this process may result in administrative staff being able to work with a greater number of groups with more efficiency.

A set of criteria was developed eight years ago to ensure more impartiality in the process of distributing funds to community groups. It has succeeded in improving the system. However, as community needs continually change in response to economic and social realities, City Council needs to re-evaluate and amend these criteria. Discussions will occur in July, 2003.

There remain many other unresolved issues with the entire CDBG allocations process. The future and shape of Citizen District Councils needs to be discussed. Evaluation of performance has to be improved. The cluster planning approach needs to be examined and defined. The Consolidated Plan needs closer scrutiny and analysis and perhaps amendment.

For all of these issues and more, City Council has resolved to hold discussions and public hearings this summer. It is imperative that representatives from the nonprofit housing corporations and neighborhood based organizations participate in every step of the decision making process so that our dwindling, precious federal resources are used with the greatest impact on improving the quality of life for everyone, but particularly those of low and moderate incomes.

#### **RECREATION CENTERS WILL REMAIN OPEN!**

Upon election to Mayor for the City Detroit, Kwame M. Kilpatrick announced at his State of the City Address the initiative that would be the platform for his tenure in office: "Kids, Cops, Clean". In doing so, Mayor Kilpatrick pledged to the citizens of Detroit that, among other things after-school programs would be a primary focus for his Administration.

There is no one who disagrees with the importance of placing our "kids" first. There can be no revitalization in this city without our commitment to equip the next generation of Detroiters with the skills and support necessary to succeed.

It is no surprise, then, that City Council unanimously disagreed with the Mayor's recommendation to close six (6) of thirty-three (33) recreation centers and dispatch some recreation functions to a newly proposed Department of Cultural Affairs and Tourism. We remain steadfast in our determination to ensure that recreation, particularly for youth and seniors, remains an integral part of government's commitment to the citizens of Detroit. Recreation should be a part of every crime-prevention strategy envisioned for the City.

We have restored funding to keep four recreation centers open and thwarted the proposed move of recreation functions to other departments.

Currently, Delray Center, located in the South District, is operated by People's Community Services. The Recreation Department maintains one Recreation Instructor and one Building Attendant at this location. Delray continues to be a vibrant and active community facility, thanks to the successful private/public partnership.

After touring the recreation centers and collecting information, City Council agreed that the Lighthouse Center be closed due to significant disrepair and limited programming that currently exists.

The four remaining centers, Bradby, Evans, St. Hedwig and Wigle will remain open. The Mayor's proposal to close these centers and have people travel to alternative sites is not acceptable. The fact that the only centers slated for closure are located in working class and low income neighborhoods is cause for concern.

City Council's action to fund the four recreation centers will allow 6,300 children and 3,000 seniors to continue to have a place to go to have their minds and bodies nurtured and developed. We believe in the adage, "if you build it, they will come".

Therefore City Council is allocating \$50,000 for each of the 28 open recreation centers to continue specific facilities improvements. Additionally, \$75,000 is allocated to upgrade the Stone Pool so that it can re-open. City Council restored all but two positions in the Recreation Department and retained its responsibility for Chene Park.

**MORE PROGRAMS FOR PROTECTING CHILDREN'S LIVES**

City Council created a separate appropriation within the Department of Public Works to create and implement additional safety measures around 268 public schools in Detroit. This program includes posting "driver feedback" signs around elementary schools to inform drivers when they are speeding and help ensure the safety of school children at street crossings.

**TRANSPORTATION RIDERS UNITE IN NEED FOR BETTER SERVICES**

During the 2002 budget deliberations, City Council identified critical issues that needed to be addressed with both bus services to citizens, as well as internal maintenance and workplace quality of life issues. At the same time, the Department of Transportation and the Administration requested that Council authorize a bus fare increase. With input from the citizen bus riders advocacy group Transportation Riders United (TRU), Council passed an ordinance and resolution requiring that DDOT meet certain benchmarks within one year of that increase.

While the department has demonstrated some movement in repairing internal problems at DDOT garages and progress with other maintenance issues, city transportation is still not cleaner, safer or on time according to citizens who depend upon and ride city busses every day. Because of failure to perform, TRU appealed to City Council to lower bus rates to the original fare amount.

Reluctantly, City Council has agreed to allow DDOT one more year to make substantive changes to the department. DDOT commits to better, measured on-time service, cleaner bus interiors, development of a comprehensive marketing plan to increase revenues and public involvement in providing feedback and recommendations for improved service.

City Council has set up a DDOT Compliance Monitoring Task Force, comprised of City Council, DDOT, Administration, Chamber of Commerce, CUBS, AFSCME, ATU, TRU and MOSES representatives. We will closely monitor DDOT's compliance to the original ordinance and resolution

**FUNDING FOR RETIREES**

City Council diligently attempted to locate money to fund the requests of General Retirees for increases in minimum pensions and assistance for co-payments. The total cost of these requests was over \$6 million, and these costs would have to be paid every year for the next fifteen years. There simply are not enough revenues to cover these requests.

However, City Council fully understands the plight of senior citizens who live on fixed incomes, and the need to increase pensions to cover rising costs of housing and health care. We did succeed in securing the Administration's commitment to set up a program, with \$750,000 to start, to assist retirees with the costs of life sustaining medications. This Lifeline Retiree Prescription Program is targeted to those retirees with the lowest incomes, and will be housed within the Health Department.

City Council is awaiting important recommendations from Deloitte and Touche for cost initiatives aimed at reducing health care costs for both retirees and active employees. It will recommend how to provide financial assistance to pre-1992 employees, while maintaining the fiscal integrity of the pension system and avoiding any negative impact on the city's current financial condition. We anticipate the findings from this study will be presented to City Council this summer. By next fiscal year, City Council will hopefully be in the position to adequately address the needs of those workers who dedicated many years of service to our city.

**CITY COUNCIL AIDS/HIV COMMISSION**

The City Council has allocated \$50,000 to fund an HIV/AIDS Commission. The goal of this commission is to find possible solutions to reducing the infection rate of HIV and AIDS in Detroit.

Information from the U.S. Center for Disease Control shows that AIDS/HIV is at crisis levels in the African American population. The CDC found that although African Americans comprise only 12% of the U.S. population, they accounted for half of all new AIDS/HIV cases in 2001. AIDS is now the leading cause of death among African American women between the ages 25-34 and African American men between the ages of 35 and 44.

The Michigan State Communicable Disease and Immunization Division and Bureau of Epidemiology estimates there are 15,500 HIV-infected persons living in Michigan. It is estimated that the number of infected people in Detroit totals nearly half the statewide total.

The Detroit City Council will invite health professionals throughout the city to participate on the commission. Specific expectations for the commission will be outlined in the enabling resolution.

**POLICE DEPARTMENT**

The City Council allocated funds to hire an additional person in the Police Laboratory Rape Crimes section to perform DNA analysis and testing of rape kits and to reduce the

backlog. The city now tests only those kits where the perpetrator is known. By testing the others, more perpetrators may be identified.

Six additional police personnel were funded for the Missing Person's Unit. Currently there are thousands of Missing Persons cases and only one police officer assigned to this unit. The City has routinely failed state and federal audits for timely entry of missing person reports into the LEIN and NCIC databases. Also, the new federal Amber Alert Law requires that missing person reports be reviewed and new information entered every thirty days.

Our actions will help ensure compliance with state and federal mandates. Even more important, our actions will increase the closure rate for these cases and provide long awaited answers to anguished family members.

#### **FIRE DEPARTMENT**

The region's oldest fireboat, the Curtis Randolph, was named after an African American firefighter killed in the line of duty. Due to Council's budget actions, the fireboat will be back in full operation. We look to Windsor to cooperate with us in sharing the costs to help bolster protection of our waterways.

#### **RISK MANAGEMENT**

The City Charter calls for an annual appropriation for Risk Management. The City Council has appropriated \$234,000 for risk management in the Auditor General's office. The Risk Management Council is beginning to meet on a regular basis. It is Council's expectation that the allocation of monetary resources will permit the Risk Management Council to develop a city wide risk management system in order to address the hemorrhaging of city dollars in lawsuit settlements and judgements.

#### **LIVING WAGE ENFORCEMENT — FINALLY**

Voters resoundingly approved a living wage ordinance for Detroit, which City Council enacted. This ordinance requires contractors doing business with the city to pay their employees a living wage.

Each year, City Council funds two living wage monitor positions to ensure compliance with this ordinance. Each year, these positions do not get filled and the Mayor proposed eliminating these positions altogether.

Two positions are funded in the Finance Department for 2003-2004 to monitor compliance with the Living Wage ordinance. City Council urges the Administration to respect the voters' wishes, the law and, more importantly, paying workers a living wage. It is time to implement City Council's budgetary actions!

#### **MORE SUPPORT FOR HOUSING INSPECTIONS**

Funding was added to the 2003-2004 budget for clerical support in the Housing Division of the Buildings Safety and Engineering Department. These additional employees will improve responsiveness to the public. Inspection reports will be able to be more quickly filed and recorded, thus improving compliance and enforcement with Rental Registration and housing codes. We are committed to finding funds next year to pay for sorely needed hand held computers for each inspector.

#### **BURTON HISTORIC COLLECTION**

City Council appropriated money last year to the Burton Collection in the Library Department to restore positions. This has not been done. We are again making known our intention to see that funds are used to bring personnel from wherever they were transferred back to Burton Historical Collection.

#### **CONSUMER AFFAIRS**

Another legally required action is the restoration of the Consumer Affairs Department as it was budgeted for by City Council last year. According to the City Charter and the current Executive Organization Plan, the Consumer Affairs Department is a stand alone entity. The issue of impounding funds appropriated by City Council for this department is in litigation. In the meantime, however, the Administration is required - by law - to keep it whole.

#### **WOMEN'S COMMISSION**

City Councils across the country have recognized the vital importance of establishing Women's Commissions to advocate for and create policies for protection of civil and human rights of women.

The City Council has dedicated \$150,000 for a Women's Commission in the City Council's budget. The money will allow a staff director and a clerical support person to be hired.

Women are the majority of the population in Detroit. Yet, women still do not have pay equity nor freedom from discrimination in employment and from sexual harassment. Protection of rights for lesbians is critical. It was out of Women's Equality Day events that the major civil rights law, the Elliott Larsen Act, was enacted for the State of Michigan. Interim House, the domestic violence shelter was established, because of Women's Equality Day.

The role of women in shaping significant human and civil rights policy for Michigan is hereby formally acknowledged by the creation of a Women's Commission. It will be responsive to all of these issues and guarantee that women's issues are discussed and resolved through advocacy and legislation.

#### **CONTRACT COMPLIANCE FOR MINORITY OWNED SMALL BUSINESSES**

City Council appropriated money last year for employees to monitor compliance with Executive Order 22. E.O. 22, enacted by the late, great Coleman A. Young, requires that construction projects funded with city, state or federal funds must be performed by not less than 50% Detroit residents, not less than 25% minorities and at least 5% women. Our city's economic revitalization depends upon our *exceeding* these *minimum* standards.

We fully anticipate the Administration will implement the contract compliance function in the Human Rights Department. Simultaneously, City Council is finalizing an ordinance to create an Office of Targeted Business to more rigorously monitor and implement Executive Order 22.

#### **LOOKING TO THE FUTURE**

Many new initiatives and policy recommendations are contained within the City Council's closing resolution. This important policy document is used as a guideline for major policy initiatives that will be undertaken over the next fiscal year. All are aimed at improving the quality and delivery of city services to Detroiters.

City Council's 2003-2004 budget has been developed with the clear priority of maintaining funding for the most critically needed core services to residents.

We must be mindful of continued threats to the sustainability of this and future budgets. The economy is tenuous and federal policies currently hurt, rather than help, urban areas such as Detroit.

The city cannot continue on the current road and expect to solve its long term problems. There is no single road map and no one way to address the city's systemic and complex problems.

We need dialogue involving both city and community leadership. We need broad based strategies including those that focus on intergovernmental and regional relationships. We need to, with **full** public participation, develop a constructive vision for the city, multi year strategies and financing plans that do not threaten but instead sustain our common values and humanity.

The City Council gratefully acknowledges the hard work of its Division Directors, Irvin Corley, Kathie Dones Carson, Marsha Bruhn and William Worden, and all of their staffs. We are indebted to Joseph Harris, Auditor General; John Eddings, Ombudsman; Roger Short, Budget Director and all of their staffs. We thank the hard working Committee clerks, Jackie Currie and our own individual staffs who labored with us during this arduous and challenging budget period.

#### **\*ON WAIVERS OF RECONSIDERATION**

Council Member McPhail moved to waive the right to reconsider the vote by which each resolution designated for "Waiver of Reconsideration" and numbered 1 to 12 incl., was adopted.

Council Member Tinsley-Talabi moved to suspend Rule 23 for the purpose of indefinitely postponing the motion to waive reconsideration, which motion prevailed.

Council Member Watson then moved that the motion to waive reconsideration be indefinitely postponed, which motion prevailed.

The regular order was resumed.

And the Council then adjourned.

### Invocation

If you want a better world, composed of better nations, inhabited by better states, filled with better counties, made up of better cities, comprised of better neighborhoods illuminated by better churches, populated with better families, then you have start by becoming a better person.

(CT)

Lord God,

Remembering Yours words from scripture... "to whom much is given, much is required" we pray for our City of Detroit. We pray that You would have mercy on us,

bless us, and help us to live lives that please You.

— We pray for our mayor,

— We pray for our servant/leaders here on this city council,

— We pray that you make us people of discerning, able to separate truth from falsehood...fact from fiction.

We pray for justice to be carried out on behalf of all the residents of this city. We pray especially for those among us who have the least power economically and politically. We pray that you be their defender, looking after their best interests... and that we would fear You.

We pray for our sick, as hospital beds decrease. We pray for our unemployed as jobs are taken elsewhere. We pray for our schools, for young and old alike.

In all the business which comes before this City Council today, we ask You to lobby for justice and mercy on behalf of each and every resident of this city.

May the business of this city be so conducted that hope is renewed especially among the poor.

Forgive each of us our self interest and help us to do better, to be better.

Help us to be kind to each and all.

In the Name of Our Lord we pray.

Honorable City Council:

Re: A Resolution Approving Certain Interest Rate Exchange Agreements Entered into a Forward Starting Basis in Anticipation of the Related Future Issuance and Sale of Sewage Disposal System Revenue Bonds of the City of Detroit and the Related Future Issuance and Sale of Water Supply System Revenue Bonds of the City of Detroit for the Collective Purposes of Defraying Part of the Cost of Acquiring and Constructing Replacements, Repairs, Extensions and Improvements to the City's Sewage Disposal System and Water Supply System, Respectively.

The attached Resolution authorizes the City to utilize certain Interest Rate Exchange Agreements to effectively lock in historically low interest rates today for Securities to be issued for both the Water Supply and the Sewage Disposal Systems in the 2005 and 2006 calendar years. Resolutions will be presented for City Council approvals at the time of the actual bond issuances.

The attached Resolution was previously presented for Council approval, with meetings conducted with Council staff and Irvin Corley of the Fiscal Analysis Section. After those meetings, certain definitions needed to be clarified with the Water and Sewerage Department's normal bond insurer. Those definitions have been clarified.

Bond Counsel has prepared the attached Resolution and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

Respectfully submitted,  
SEAN K. WERDLOW

Financial Director

**AMENDED AND CERTAIN SEWER ORDINANCES AND RESOLUTIONS OF THE CITY COUNCIL OF THE CITY, INCLUDING ORDINANCE NO. 27-86, AS SUPPLEMENTED AND AMENDED BY ORDINANCE NOS. 7-87, 38-92, 3-93, 31-95, 16-97, 24-97, 36-99 AND 18-01, AND CERTAIN WATER ORDINANCES AND RESOLUTIONS OF THE CITY COUNCIL OF THE CITY, CURRENTLY AMENDED AND RESTATED BY ORDINANCE NO. 30-02, AS THE SAME MAY BE SUPPLEMENTED AND AMENDED FROM TIME TO TIME, AND DETERMINING OTHER MATTERS RELATING TO SUCH INTEREST RATE EXCHANGE AGREEMENTS AND SUCH FUTURE RELATED SECURITIES OF THE SEWAGE DISPOSAL AND WATER SUPPLY SYSTEMS, INCLUDING CERTAIN ACKNOWLEDGEMENTS REQUIRED BY SECTION 317 OF ACT 34 OF THE PUBLIC ACTS OF MICHIGAN OF 2001, AS AMENDED.**

By Council Member Watson:

Whereas, Ordinance No. 27-86, including all effective amendments and supplements thereto (the "*Sewer Bond Ordinance*"), provides for the issuance of Securities (as therein defined) by the City of Detroit, Michigan (the "*City*"), to finance repairs, extensions and improvements to the Sewage Disposal System of the City (the "*Sewage Disposal System*"); and

Whereas, Ordinance No. 30-02, including all effective amendments and supplements thereto (the "*Water Bond Ordinance*" and, together with the Sewer Bond Ordinance, the "*Bond Ordinances*"), provides for the issuance of Securities (as therein defined) by the City, to finance repairs, extensions and improvements to the Water Supply System of the City (the "*Water Supply System*" and, together with the Sewage Disposal System, the "*Systems*"); and

Whereas, It is deemed necessary for the public health, benefit and welfare of the City to acquire and construct certain of the repairs, extensions and improvements to the Systems described in the Capital Improvement Program (the "*CIP*") of the Detroit Water and Sewerage Department (the "*Department*"), as of July 1, 2002, as it may be modified by the Department from time to time (the "*Projects*"); and

Whereas, To finance the described costs of the Projects as set forth in the CIP (the "*Project Costs*"), the Finance Director anticipates recommending the issuance of Securities as provided in the CIP through the term of the CIP for the purpose of financing costs of the Projects and to provide for expenditures ancillary thereto; and

Whereas, It is currently anticipated in the CIP that the future Securities shall be

issued in accordance with Act No. 94, Public Acts of Michigan, 1933, as amended ("Act 94"), and the applicable provisions of the Bond Ordinances during the 2005 and 2006 calendar years; and

Whereas, Opportunities exist for the City to utilize certain Interest Rate Exchange Agreements to effectively lock in comparatively low interest rates today for Securities to be issued in the future; and

Whereas, The City has assumed interest rates under the CIP with respect to the issuance of Securities in the future, which assumed interest rates can be effectively lowered or firmly established by entering into certain forward starting Interest Rate Exchange Agreements; and

Whereas, All things necessary for execution of the Approved Interest Rate Exchange Agreements (as defined in this Resolution), under the Constitution and laws of the State of Michigan, including Section 317 of Act 34 of the Public Acts of Michigan of 2001, as amended ("Act 34"), and the applicable provisions of the Bond Ordinances have been or will be done prior to the execution of the Approved Interest Rate Exchange Agreements, and the City Council (the "Council") is now empowered and desires to authorize the final negotiation and execution of the Approved Interest Rate Exchange Agreements by adopting this Resolution and making the acknowledgements it is required to make under Act 34; and

Whereas, The Council desires to authorize the Finance Director to execute the Approved Interest Rate Exchange Agreements in substantially the forms put on file with the City Clerk in connection with the adoption of this Resolution, and directs the Finance Director and all other authorized persons to perform all acts consistent with the Bond Ordinances and this Resolution necessary and appropriate to complete the transactions contemplated by this Resolution as determined by the Finance Director within the parameters established herein; and

Whereas, The Council desires to authorize the Finance Director to establish the relevant rates, notional amounts, effective dates, amortization of notional amounts and designations of notional amounts to Future Related Securities (as defined in this Resolution) subject to the restrictions of Act 34, the Swap Management Plan, the Debt Management Plan, the Bond Ordinances and this Resolution and to make such other determinations with respect to the Approved Interest Rate Exchange Agreements as shall be set forth in the executed versions of the Approved Interest Rate Exchange Agreements.

Now, Therefore, be it Resolved by the Council at a regular meeting thereof that:

### **Section 1. Definitions.**

(a) Capitalized terms defined in the preambles to this Resolution or in the Bond Ordinances shall have the meanings set forth therein except as otherwise specifically stated in this Resolution.

(b) Except when otherwise clearly required by the context, the following terms shall have the following respective meanings:

"*Approved Interest Rate Exchange Agreements*" means the Interest Rate Exchange Agreements authorized by this Resolution and approved by the Council in accordance with Section 317 of Act 34, as further described in Section 2 of this Resolution.

"*Debt Management Plan*" means the plan by that name approved by the Finance Director on November 26, 2002, as the same may be amended from time to time.

"*Future Related Securities*" means, (i) with respect to each Transaction under an Approved Interest Rate Exchange Agreement, the Senior Lien Bonds or Junior Lien Bonds issued pursuant to the Sewer Bond Ordinance or the Water Bond Ordinance which are designated in the supplemental ordinance or resolution approving such Securities as being related to such Transaction and (ii) with respect to all Transactions under the Approved Interest Rate Agreements, collectively, all Securities so designated.

"*Interest Rate Exchange Agreement*" means an interest rate exchange agreement described in and meeting the requirements of Section 317 of Act 34.

"*Swap Management Plan*" means the plan by that name approved by the Council on November 26, 2002, as the same may be amended from time to time.

"*Transaction*" means, with respect to an Approved Interest Rate Exchange Agreement, a transaction evidenced by a separate Confirmation which takes into account the anticipated priority (after the issuance of Future Related Securities that are related to such transaction), the applicable notional amount, the amortization of such notional amount and the effective date for such transaction.

### **Section 2. Approved Interest Rate Exchange Agreements.**

(a) For the purpose of managing debt service requirements of outstanding Securities, and Future Related Securities expected to be issued on or before December 31, 2006, the Finance Director is authorized in his discretion to enter into one or more of the following Interest Rate Exchange Agreements meeting the requirements of the City's Swap Management Plan and Debt Management Plan and Act 34:

(1) Floating (based on the BMA Index) to fixed rate forward starting Interest Rate

Exchange Agreement between the City and Morgan Stanley Capital Services Inc. (the "Counterparty") related to Securities issued under the Sewer Bond Ordinance (the "Sewer Swap"). The City may enter into multiple Transactions under the Sewer Swap with different priorities and effective dates in connection with the proposed issuance of Senior Lien Bonds and Junior Lien Bonds under the Sewer Bond Ordinance in 2005 and/or 2006.

(2) Floating (based on the BMA Index) to fixed rate forward starting Interest Rate Exchange Agreement between the City and Morgan Stanley Capital Services Inc. (the "Counterparty") related to Securities issued under the Water Bond Ordinance (the "Water Swap"). The City may enter into multiple Transactions under the Water Swap with different priorities and effective dates in connection with the proposed issuance of Senior Lien Bonds and Junior Lien Bonds under the Water Bond Ordinance in 2005 and/or 2006.

(b) With respect to each Approved Interest Rate Exchange Agreement, the forms of the ISDA Master Agreement, Schedule and Confirmation (one Confirmation to be entered into for each Transaction under an Approved Interest Rate Exchange Agreement) on file with the City Clerk are hereby expressly approved (subject to completion, correction and amendment prior to execution as approved by the Finance Director and determined by the Finance Director not to be materially adverse to the City nor to materially increase the risks of the City described below).

(c) With respect to the Approved Interest Rate Exchange Agreements, the Council acknowledges the potential risks associated with entering into them as set forth and described in the Swap Management Plan, including, specifically, counterparty risk, termination risk, basis risk, rollover risk and amortization risk.

(d) The Finance Director is authorized to negotiate the final terms of Transactions under the Approved Interest Rate Exchange Agreements (including relevant rates, notional amounts, effective dates, amortization of notional amounts and designations of notional amounts to Future Related Securities), subject however, to the restrictions of Act 34, the Swap Management Plan, the Debt Management Plan, the Bond Ordinances and this Resolution.

(e) The Finance Director is further authorized to enter into such ancillary agreements in connection with the Interest Rate Exchange Agreements as may be necessary or appropriate and are consistent with Act 34 and the terms of the Swap Management Plan, the Debt Management Plan, the Bond Ordinances and this Resolution.

(f) The Finance Director is further authorized, pursuant to the terms of the Approved Interest Rate Exchange Agreements, in connection with the issuance of any series or sub-series of Future Related Securities (of any priority), to assign notional amounts from Transactions under either of the Approved Interest Rate Exchange Agreements to any other Transaction under such Approved Interest Rate Exchange Agreement or under the other Approved Interest Rate Exchange Agreement so as to better match notional amounts (and amortization thereof) with the principal amounts (and amortization thereof) of Future Related Securities as issued (which may be different than projections made at the time the Approved Interest Rate Exchange Agreements are executed and delivered).

**Section 3. Authorization of and Limitations on Actions of Finance Director.**

(a) The Finance Director shall make all determinations authorized to be made under this Resolution through completion, execution and delivery of the Approved Interest Rate Exchange Agreements, through amendments thereof as contemplated therein, and/or through any order or other designation made by the Finance Director pursuant to authority granted in any supplemental ordinance or resolution authorizing the Future Related Securities.

(b) In making the determinations authorized to be made in this Resolution the Finance Director shall observe the following limitations:

(1) The aggregate notional amount of all Transactions under the Approved Interest Rate Exchange Agreements shall not exceed \$800,000,000.

(2) The fixed interest rate payable by the City for each Transaction under an Interest Rate Exchange Agreement shall not exceed 6.0%.

(3) The effective date or effective dates for each Transaction under an Approved Interest Rate Exchange Agreement shall be not earlier than January 1, 2005, and not later than March 1, 2007.

(4) The stated termination date of each Transaction under the Approved Interest Rate Exchange Agreement shall not be later than July 1, 2037.

(5) As of any effective date for a Transaction, if Future Related Securities related to such Transaction have not been issued in an amount equal to the notional amount for such Transaction then the Finance Director shall do one or more of the following in furtherance of the requirements set forth in Section 3(b)(6) below:

(i) He may terminate such Transaction in whole or in part.

(ii) He may assign the notional amount for such Transaction, in whole or in part, to another Transaction if the Finance

Director reasonably believes that Future Related Securities related to another Transaction will be issued within 90 days of such effective date and that such assigned notional amount can be used as a Qualified Hedge or Qualified Swap (as defined in the Bond Ordinances) in connection with such Future Related Securities.

(iii) If and to the extent the Finance Director reasonably believes that Future Related Securities contemplated in such Transaction will be issued within 90 days of the effective date for such Transaction, he may continued such Transaction pending the issuance of such Future Related Securities.

(iv) He shall in any event terminate such Transaction, in whole or in part, with respect to the notional amount for such Transaction to the extent it has not otherwise been terminated, assigned or been related to Future Related Securities issued within 90 days of the effective date for such Transaction.

(6) The Finance Director shall take the actions set forth in subsection 3(b)(5) above so that not later than 90 days after the effective date for each Transaction:

(i) The notional amount for such Transaction equals the principal amount of Future Related Securities that have been issued and are related to such Transaction.

(ii) The amortization of the notional amount for such Transaction is the same as the required amortization of the principal amount of Future Related Securities that have been issued and are related to such Transaction.

(iii) The Approved Interest Rate Exchange Agreement, with respect to such Transaction, constitutes a Qualified Swap or Qualified Hedge under the Sewer Bond Ordinance or the Water Bond Ordinance, as applicable.

(c) During the Finance Director's absence or disability, or while the Finance Director's position is vacant, the Deputy Finance Director shall exercise all the powers, perform all the duties and make all the determinations herein required or permitted by the Finance Director.

#### **Section 7. Appointment of Swap Counsel; Engagement of Other Parties.**

The appointment by the Finance Director of the law firm of Howard & Howard Attorneys, P.C., as counsel ("*Swap Counsel*") in connection with the transactions contemplated by this Resolution is ratified and confirmed, notwithstanding the periodic representation by this firm in unrelated matters of other parties and potential parties to the transactions described in this Resolution. Such termination shall constitute an Additional Termination Event under Section 6(e) of the Agreement with Party B as the sole Affected Party, and this Transaction as the sole Affected Transaction. In the event of such termination, the Calculation Agent shall determine the amount owed in connection with such termination using its commercially reasonable judgment. If Party B disputes such calculation, the Calculation Agent shall seek bids from Reference Market-makers consistent with the provisions of Section 6 of the Agreement.

Such election shall be effective with respect to the Converted Transaction on the Source of Payment Conversion Date if the following conditions are satisfied on said Source of Payment Conversion Date:

(b) Party B has issued Securities (i) in an aggregate principal amount equal to the notional amount of such Converted Transaction, (ii) with a final maturity date equal to the Termination Date and amortization equal to the amortization of the notional amount of such Converted Transaction, and (iii) for the purpose of financing repairs, extensions and improvements to the Water Supply System (the "Water Securities");

(c) Water Securities are issued as either Senior Lien Bonds or Senior Subordinated Bonds; and

If all of the foregoing conditions have been satisfied and Water Securities are issued as:

(a) Senior Lien Bonds, the Converted Transaction shall constitute a Senior Lien Transaction under the Water System Agreement from the Source of Payment Conversion Date to and including the Termination Date for the Converted Transaction; and

(b) Senior Subordinated Bonds, the Converted Transaction shall constitute a Senior Subordinated Transaction from the Source of Payment Conversion Date to and including the Termination Date for the Converted Transaction.

Any portion of the Notional Amount of the Transaction for which the option under the second preceding paragraph has been exercised (the "Unconverted Transaction") shall continue to be governed under the Sewer System Agreement and any reference herein, in respect to such Unconverted Transaction, shall be deemed to be to the Sewer System Agreement.

On and after the Source of Payment Conversion Date, all terms of the Transaction specified in paragraphs 2, 3 and 4 shall remain unchanged; provided, however, that the Notional Amount specified in Schedule I for each period shall be allocated pro rata between the Converted Transaction and the Unconverted Transaction based on the notional amount of the converted Transaction on one hand the notional amount of the Unconverted Transaction on the other hand on the Source of Payment Conversion Date.

Party A shall use its best efforts to give Party B a notice of its right to exercise the option pursuant to this paragraph 6 at least 45 days prior to the Effective Date; provided, however, that the failure of Party A to give such notice to Party B shall not constitute an Event of Default or an event that if not cured by certain date could become an Event of Default under the Agreement.

7. The occurrence of any of the following events shall constitute an Additional Termination Event:

(a) Party B fails to either (i) issue the Sewer Securities as Senior Lien Bonds or Senior Subordinated Bonds on or prior to the Effective Date or (ii) exercise its option under paragraph 6 above and satisfy all of the conditions for the effectiveness of such option on or prior to the Effective Date;

(b) Party B issues the Sewer Securities as Senior Lien Bonds and fails to deliver a

legal opinion of its counsel to Party A within 30 days of such issuance to the effect that the Transaction constitutes a Senior Lien Transaction under the Sewer System Agreement and that such Transaction is payable from the secured by a validly perfected security interest in Net Revenues as described in respect of Senior Lien Transactions in Part 4(e) of the Schedule to the Sewer System Agreement;

(d) The principal amount of outstanding Sewer Securities (or, if Party B exercises its option under paragraph 6 and satisfies all of the conditions for the effectiveness of such option, the principal amount of outstanding Water Securities) on any date after the Effective Date is less than the Notional Amount for such date; provided, however, that upon the occurrence of the Additional Termination Event pursuant to this subparagraph (b), either party shall only be permitted to designate an Early Termination Date with respect to that portion of the Transaction by which the Notional Amount exceeds the outstanding principal amount of such Sewer Securities or Water Securities, as the case may be.

Upon the occurrence of any of the foregoing Additional Termination Events, each party shall be the Affected Party and the Transaction shall be the sole Affected Transaction.

Please confirm that the foregoing correctly sets forth the terms of our agreement MSCS Ref. No. [ ] by executing this Confirmation and returning it to us promptly.

(ii) **Security and Source of Payments for Senior Subordinated Transactions.** Party B hereby agrees that the obligation of Party B to make regularly scheduled payments and any termination payments relating to Senior Subordinated Transactions under this Agreement prior to the effective date of the Amended and Restated Ordinance shall be secured by a lien on and security interest in and payable out of Net Revenues on a basis that is subordinate only to the payment, and lien on and security interest in Net revenues in favor, of Senior Lien Bonds and related Ancillary Secured Obligations and Senior Subordinated Bonds.

Net Revenues are hereby irrevocably pledged by Party B to Party A as security for the obligation of Party B to make regularly scheduled payments and any termination payments relating to Senior Subordinated Transactions under this Agreement prior to the effective date of the Amended and Restated Ordinance, subject and subordinate in all respect to the pledge thereof made by the Covered Agreement in favor of Senior Lien Bonds and related Ancillary Secured Obligations and Senior Subordinated Bonds.

Party B hereby agrees that the obligation of Party B to make regularly scheduled payments and any termination payments relating to Senior Subordinated Transactions under this Agreement on and after the effective date of the Amended and Restated Ordinance shall be secured by a lien on and security interest in and payable out of Pledged Assets on a parity with Senior Subordinated Bonds.

(iii) **Security and source of Payments for Senior Lien Transactions.** Party B hereby agrees that the obligation of Party B to make regularly scheduled payments and any termination payments relating to Senior Lien Transactions under this Agreement prior to the effective date of the Amended and Restated Ordinance shall be secured by a lien on and security interest in and payable out of Net Revenues on a basis that is subordinate only to the payment, and lien on and security interest in Net Revenues in favor, of Senior Lien Bonds.

Net Revenues are hereby irrevocably pledged by Party B to Party A as security for the obligation of Party B to make regularly scheduled payments and any termination payments relating to Senior Lien Transactions under this Agreement prior to the effective date of the Amended and Restated Ordinance, subject and subordinate in all respect to the pledge thereof made by the Covered Agreement in favor of Senior Lien Bonds.

(f) **Isolation of each Class of Transactions.**

(i) **Designation of Early Termination Date.** Notwithstanding Section 6 of this Agreement, any designation of an Early Termination Date in respect of a Class of Transactions by any party shall apply only to such Class of Transactions and not to any other Transactions under this Agreement, unless such party shall designate an Early Termination Date in respect to such other Transactions.

(ii) **No Netting.** Notwithstanding Section 2(c) of this Agreement, in no event shall any party be entitled to net its payment obligations in respect of one Class of Transactions against the payment obligations of the other party in respect of another Class of Transactions, it being the intention of the parties that their payment obligations under each Class of Transactions be treated separate and apart from all other Transactions. Section 6(e) of this Agreement shall apply to any Class of Transactions with the same effect as if all Transactions that are part of such Class of Transactions constituted a single master agreement. Notwithstanding Section 6(e) of this Agreement, the amount payable under Section 6(e) of this Agreement upon the termination of any Transaction that is part of a Class of Transactions shall be determined without regard to any transaction other than the Transactions that are part of such Class of Transactions, it being the intention of the parties that their payment obligations under such Class of Transactions be treated separate and apart from all other Transactions unless otherwise specified in such other Transaction.

(iii) **No set-off or counterclaim.** In no event shall any party be entitled to set-off its payment obligations in respect of a Transaction that is part of one Class of transactions against the payment obligations of the other party (whether by counterclaim or otherwise) if such obligations are not in respect of a Transaction that is part of same Class of Transactions; provided, however, that party A shall be entitled to set-off its payment obligations in respect of a Transaction that is part of one Class of Transactions against the payment obligations of Party B (whether by counterclaim or otherwise) if such obligations have the same or higher priority of security and payment as the obligations of Party B under such Class of Transactions.

(g) **Compliance with Covered Agreement.** Party B will observe, perform and fulfill each covenant, term, and provision relating to Party B's Securities in the relevant Covered Agreement applicable to Party B in effect on the date hereof as any of those covenants, terms, and provisions may be amended, supplemented or modified for the purposes of this Agreement (with the prior written consent of the other party hereto if such consent is required) (the "Incorporated provisions"), with the effect, among other things, and without limiting the generality of the foregoing, that Party A will have the benefit of each of the Incorporated Provisions (including without limitation, covenants, right to consent to certain actions subject to consent under the relevant Covered Agreement and delivery of financial statements and other notices and information). In the event the relevant Covered Agreement ceases to be in effect for any reason, including, without limitation, defeasance of the Securities issued in connection with such Covered Agreement, prior to the termination of this Agreement, the Incorporated provisions (other than those provisions requiring payments in respect of bonds, notes, warrants or other similar instruments issued in connection with the relevant Covered Agreement) will remain in full force and effect for purposes of this Agreement as though set forth herein until such date on which all of the obligations of Party B under this Agreement and any obligations of Party B have been fully satisfied. The Incorporated Provisions are hereby incorporated by reference and made a part of this Agreement to the same extent as if such provisions were set forth herein. For purposes of this Agreement, the Incorporated Provisions shall be construed as though (i) all references therein to holders of Securities (the "Financings") were to part A (except that Party A shall in no event be deemed to have remedies which conflict with, interfere with or limit the effectiveness of remedies given to the holders of Securities under the Authorizing Law) and (ii) to the extent that such Incorporated provisions are conditioned on or related to the existence of such Financings or Party B having any obligations in connection therewith, all references to such Financings or obligations were to the obligations of Party B under this Agreement. Any amendment, supplement, modification or waiver of any of the Incorporated Provisions without the prior written consent of Party A shall have no force and effect with respect to this Agreement; provided that, Party B shall not be required to obtain the consent of Party A as a condition to the effectiveness of (i) the Amended and Restated Ordinance or (ii) any amendment, supplement or modification of the Incorporated provisions that would not materially adversely affect the rights or obligations of Party A under this Agreement. If the Incorporated Provisions are amended, supplemented or modified, such amendment, supplement or modification shall be part of the Incorporated provisions to the same extent as if such amendment, supplement or modification were set forth herein; provided that, if the consent of Party A was required for such amendment, supplement or modification then such amendment, supplement or modification shall only be considered part of the Incorporated Provisions if such consent was obtained.

Party B shall provide Party A with at least ten (10) Business Days prior written notice of any proposed amendment, supplement or modification of the Incorporated Provisions

whether or not the proposed amendment, supplement or modification will adversely affect the rights or obligations of Party A under this Agreement and shall provide executed copies of any amendment, supplement or modification of the Incorporated Provisions within ten (10) Business Days of execution thereof whether or not such amendment, supplement or modification adversely affects the rights or obligations of Party A under this Agreement.

(h) **Rate Covenant.** As required under the Covered Agreement, Party B shall fix and revise rates from time to time as may be necessary to provide for the payment of operating and maintenance expenses relating to the Project/Program, any Indebtedness of Party B and any Ancillary Obligations (including, without limitation, regularly scheduled and any termination payments payable by Party B under this Agreement) when due.

(i) **Negative Pledge.** Party B hereby agrees that it shall not, on or prior to the termination date of any Unsecured Transaction, create any lien on, pledge of or encumbrance on the Net Revenues to secure any of its obligations (other than Senior Lien Bonds and related Ancillary Obligations, the Senior Subordinated Bonds and related Ancillary Obligations and Junior Subordinated Bonds and related Ancillary Obligations) unless such lien, pledge or encumbrance is created in favor of Party A to secure the obligations of Party B in respect of all Unsecured Transactions under this Agreement. The foregoing shall not limit the ability of Party B to use Net Revenues in the ordinary course of business for purposes set forth in the Covered Agreement and under Authorizing Law.

(j) **Notice of Incipient Illegality.** If an Incipient Illegality occurs, the Government Entity will, promptly upon becoming aware of it, notify the other party, specifying the nature of that Incipient Illegality and will also give such other information about that Incipient Illegality as the other party may reasonably require.

(k) **Termination of Specified Transactions.** The occurrence or designation of an Early Termination Date on account of an Event of Default or Additional Termination Event with respect to a party hereto ("Y") shall constitute a material breach and event of default (howsoever described) under all Specified Transactions to which Y is a party, whereupon the Non-defaulting Party ("X") or any Affiliate of X shall have the right to terminate, liquidate and otherwise close out any such Specified Transactions (and Y shall be liable for any damages suffered by X and any Affiliate of X as a result thereof).

(l) **Setoff.**

(i) Upon the occurrence or designation of an Early Termination Date on account of an Event of Default or Additional Termination Event with respect to a party hereto ("Y"), any amount payable by the other party ("X") or any Affiliate of X under this Agreement, any Specified Transaction with Y, or in respect of any other matured, liquidated or terminated obligation to Y will, at the option of X or any Affiliate of X (and without prior notice to Y), be reduced by its setoff and recoupment against any amount(s) payable by Y to X or any Affiliate of X under this Agreement, any Specified Transaction with Y or in respect of any other matured, liquidated or terminated obligation of Y (and any such amount(s) payable by Y will be discharged promptly and in all respects to the extent it is so set off). X or an Affiliate of X, as appropriate, will give notice to Y after any setoff and recoupment is effected under this paragraph.

(ii) For purposes of the foregoing, X and any Affiliate of X shall be entitled to convert any obligation denominated in one currency into another at such rates of exchange as it deems appropriate in good faith and in a commercially reasonable manner, to convert any obligation to deliver non-cash property into an obligation to deliver cash in an amount determined by it as it deems appropriate in good faith and in a commercially reasonable manner, and amounts may be set off and recouped irrespective of the currently, place of payment or booking office of any obligation to or from Y.

(iii) If an obligation is unascertained, X or any Affiliate of X, as appropriate, may in good faith estimate that obligation and set off and recoup in respect of that estimate, subject to the relevant party's accounting to the other(s) when the obligation is ascertained.

(iv) Nothing in this subsection shall be effective to create a charge or other security interest. Honorable City Council:

Re: Address: 13417 Corbett. Name: Nancy D. Ponkowski. Date ordered removed: June 26, 2002 (J.C.C. p. 1912).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 30, 2003 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of April 7, 2003.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

4. In accordance with Ordinance 290-H, as amended, this building may be deemed dangerous if: it remains unoccupied continuously for more than six months; it is not maintained according to the official Building and Property Maintenance Codes of the City; and it is not listed for sale, lease or rent, regard-

less of the timeliness of tax payments and regardless of whether building is secure.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been met or that substantial progress toward rehabilitation has been made. If the building becomes open to trespass or if conditions of the deferral are not complied with, we will proceed with demolition without further hearings. We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.
