Honorable City Council:
Re: Penrose Village — Payment in Lieu of Taxes (PILOT).

Penrose Village Development Corporation, Star SHCH Development Corporation and Samuel Thomas Jr., the sponsors have formed Penrose Village Limited Dividend Housing Association Limited Partnership. The partnership is developing a housing project consisting of the construction of 36 single family three and four bedroom units and a 1680 square foot community center. Twenty-four of the units will be 4-bedroom two baths and twelve will be 3-bedroom two baths. The project is being built on scattered sites in the area is bounded by Woodward to the west, John R to the east, W. Seven Mile to the north and W. Lantz to the south.

Financing for the development will be through: A construction Loan of \$1,250,000 and a permanent loan of \$500,000 from Detroit Commerce Bank at 7.5% for 20 years and Low Income Tax Housing Tax Credits. The total development cost for this project is eight million five hundred sixty nine thousand one hundred four dollars (\$8,569,104).

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA 125.1415A).

Fifty-percent (50%) of 18 units will be occupied by households with incomes no greater than 35% of the area median income adjusted for family size. Fifty-percent (50%) of 18 of the units will be occupied by households with incomes no greater than 40% of the area median income adjusted for family size.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a 4% service charge for this housing project.

Re: DeAngelo Stephens vs. P.O. Sheron Johnson. Case No. 05-516460 NO. File No. A37000.005283 (BLM).

On June 26, 2006, a case evaluation panel evaluated the above-captioned lawsuit and awarded One Hundred Twenty-Five Thousand Dollars and No Cents (\$125,000.00) in favor of Plaintiff. Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of One Hundred Twenty-Five Thousand Dollars and No Cents (\$125,000.00) payable to David A. Re: Maria Gomez, et al vs. City of Detroit,
et al. Case No.: 04-60179 USDC. File
No.: A37000-004900 (JS).

On February 17, 2006, your Honorable Body approved authority to settle the above identified civil matter in the amount of \$100,000.00, by way of payment with one draft, paid to the order of Maria Gomez, Personal Representative of the Estate of Alejandro Galvez Gomez (Deceased) and Attorney, Hugh M. Davis, Constitutional Litigation Assoc. P.C.

The information regarding the sum was correct, however, because the settlement contemplated a structured settlement and in order to purchase an annuity for the decedent's children, two drafts should have been requested.

We, therefore, request that your Honorable Body rescind the original resolution, adopt the amended resolution submitted herewith and direct the Finance Director to issue two drafts payable to:

Maria Gomez, as Personal Representative of the Estate of Alejandro Galvez Gomez (Deceased) and Attorney, Hugh M. Davis, Constitutional Litigation Assoc. P.C. in the amount of Forty Nine Thousand Four Hundred Twenty Eight Dollars and Eighty Seven Cents (\$49,428.87),
and

Aviva London Assignment Corporation, in the amount of Fifty Thousand Five Hundred Seventy One Dollars and Thirteen Cents (\$50,571.13), in order to purchase a structured annuity on behalf of Destiny Galvez, Carina Galvez, Alejandro Galvez, and Nayely Galvez, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 02-74656 approved by the Law Department. Re: Address: 8405-07 Gratiot. Name: Ernest Smith. Date ordered removed: February 19, 2003 (J.C.C. pg. 529).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on July 3, 2006 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of May 31, 2006.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:
 - Certificate of Acceptance related to building permits
 - Certificate of Approval as a result of a Housing Inspection
 - Certificate of Inspection, required for all residential rental properties.
2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

City Planning Commission

July 13, 2006

Honorable City Council:

Re: Proposal to rezone land generally bounded by the Detroit River on the south, Rivard extended on the west, Atwater on the north and a line parallel and approximately 416 feet east of Rivard extended on the east from a PD (Planned Development District)

zoning classification to a PR (Parks and Recreation) zoning classification (RECOMMEND APPROVAL).

The City Planning Commission (CPC) proposes to rezone City-owned land in the near east riverfront from a PD (Planned Development District) zoning classification to a PR (Parks and Recreation) zoning classification. The subject property, referred to in the past as the "Blain site", comprises 6.3 acres of land generally bounded by the Detroit River on the south, Rivard extended on the west, Atwater on the north and a line parallel and approximately 416 feet east of Rivard extended on the east. The southwest quadrant of the site is subject of a lease agreement between the City and the Detroit Riverfront Conservancy (DRFC), which allows the DRFC to improve, operate and maintain that portion of the site as a public amenity.

PURPOSE

The proposed rezoning would facilitate the development of parks and recreational facilities and their accessory uses along with the other uses allowed by the PR zoning classification. More specifically, the proposed rezoning will be consistent with the RiverWalk and related improvements proposed by the Detroit Riverfront Conservancy as well as the Economic Development Corporation's Waterfront East Development Project Plan, which was approved by your Honorable Body in the fall of 2005.

The subject property is currently zoned PD. The approved development proposal for that PD district called for a medium to high density residential development with corresponding parking facilities and provision for public access to and along the river. The PD district presently is abandoned as the previous development proposal has lapsed. While the existing PD could be modified to allow for the anticipated developments, the most appropriate and logical zoning district classification, given the nature of the proposed development is PR.

Please find attached for your information the conceptual drawings depicting the overall proposal for the Detroit RiverWalk and other riverfront public access. Also included is the current conceptual site plan for the plaza to be developed by the Conservancy and the parking lot to be undertaken by the DEGC.

SURROUNDING LAND USE AND ZONING

To the North — vacant commercial — SD4

To the South — Detroit River

To the East — industrial — M4

To the West — parking and recreational — PD

REVIEW

The current plans for the property include the RiverWalk and the comple-

mentary Rivard Plaza and a structure housing concessions, comfort facilities, storage and supporting offices. The Conservancy is also exploring the inclusion of a carousel within the plaza. This plan would cover the southwestern portion of the site. The northern portion is currently earmarked for a parking lot to serve the RiverWalk and surrounding area. The DEGC will be responsible for this development. The lot may be a temporary use. It is also possible that the Detroit Water and Sewerage Department will develop a combined sewer overflow facility beneath this portion of the site in the not-to-distant future. The southeast portion of the site is envisioned as hosting the expanded State Park, which would run east across the former LaFarge Cement Company site to the Tricentennial State Park and Harbor.

This rezoning is one of several zoning modifications that the Commission believes will be warranted to achieve or to otherwise be consistent with realizing dedicated public access and recreational opportunities along the riverfront and the redevelopment of the adjacent district. When the EDC was before you last summer requesting approval of the amended and restated Project Plan for the Waterfront Reclamation and Casino Development Project (now the Waterfront East Development Project), the Council was provided with an overview of the Detroit Riverfront Conservancy's plans as well as the district plan, which you subsequently approved. Your Honorable Body previously approved the two PD plan modifications for General Motors-owned land along the riverfront south and east of the Renaissance Center, which include the first two segments of the RiverWalk. The subject property adjoins the easternmost of these sites and was the first site slated for improvement by the DRFC subsequent to the lease agreement with the City. Therefore, it seemed logical that this site should be the next property to be rezoned.

The proposed PR zoning district would permit the activities currently envisioned for this site. The rezoning district will allow for other recreational uses as well as other public uses as future changes may warrant. The property exceeds the minimum size requirement of four acres and is publicly owned. The proposed rezoning and the development projects are consistent with Master Plan Policies and the public access portion of the EDC's Waterfront East Development Project Plan.

PUBLIC HEARING RESULTS

The CPC held a public hearing on this proposed rezoning on September 16, 2004. No testimony was taken, as there were no speakers present

CONCLUSION AND RECOMMENDATION

The City Planning Commission has reviewed and considered the proposal to rezone land in the near east riverfront from a PD (Planned Development District) zoning classification to a PR (Parks and Recreation) zoning classification. The proposed rezoning would eliminate a long abandoned PD zoning district and in its place provide for riverfront public access with recreational and other appropriate and complementary uses. At this time we understand the intended uses and those under consideration would include a plaza and pavilion for the RiverWalk, a surface parking lot, a portion of the expanded state park and, possibly in the distant future, an underground facility of the Detroit Water and Sewerage Department. These activities of the Detroit Riverfront Conservancy are governed by the existing agreement between it and the City. The proposed expansion of the state park would be achieved following your approval of a new agreement or revision to the existing agreement with the state.

The proposal by the Commission is the result of the overall planning effort for the east riverfront. In this instance, the PR zoning district is the most logical zoning district classification through which to carry out that plan. Therefore, CPC recommends approval of the proposed rezoning. The appropriate amendatory ordinance, approved as to form by the Law Department, is attached for your consideration.

Attached for your consideration please find a resolution and legal description which will establish the Cooley/Houghton Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992 ("the Act").

Your Honorable Body conducted a public hearing on this matter on July 13, 2006, as required by the Act. No impediments to the establishment of the NEZ were presented at the public hearing.

As you may recall the developer proposes to invest \$1.5 million to construct 14 new single-family dwellings.

The Act requires that at least 60 days must pass from the date of the notice of the public hearing to the date of your formal approval of a resolution establishing the NEZ. We request that you approve the resolution at your next regular formal session.

By Council Member S. Cockrel:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones

(NEZs), the exemption from *ad valorem* taxes, and the imposition of a specific property tax in lieu of *ad valorem* real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the establishment of the Cooley/Houghton NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the Cooley/Houghton NEZ was conducted before the Detroit City Council on July 13, 2006, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the establishment of the Cooley/Houghton NEZ were cited:

Now Therefore Be It

Resolved, That the land area described in the attached legal description, and shown on the attached map, is hereby established as the Cooley/Houghton NEZ pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

Honorable City Council:

Re: Property For Sale By Development. Development: 1931 Selden.

We are in receipt of an offer from Core City Estates I, LDHALP, a Michigan Limited Partnership, to purchase the above-captioned property for the amount of \$350 and to develop such property. This property measures approximately 30' x 95' and is zoned R-5 (Medium Density Residential District).

The Offeror proposes to landscape and create greenspace to enhance the appearance of their adjacent housing development. This use is permitted as a matter of right in a R-5 zone.

We, therefore, request that your Honorable Body adopt the sale and authorize the Planning & Development Department's Director, or his authorized designee, to issue a quit claim deed to the property and such other documents as may be necessary to effect the sale.

Respectfully submitted,
DOUGLASS J. DIGGS

Director

By Council Member Conyers:

Resolved, That in accordance with the Offer to Purchase and the foregoing communication, the Planning & Development Department's Director, or his authorized designee, be and is hereby authorized to issue a quit claim deed to the property more particularly described in the attached Exhibit A, and such other documents as may be necessary to effect the sale, with Core City Estates I, LDHALP, a Michigan Limited Partnership, for the amount of \$350.

Honorable City Council:

Re: Art Center Rehabilitation Project. Development: Parcels 19, 20, 21 & 381; generally bounded by Kirby, St. Antoine, Frederick & Beaubien.

On March 1, 2006, your Honorable Body authorized the transfer and assignment of Warren G. Smith's rights, title and interest in Parcels 19, 20 and 21 and the sale of Parcel 381 to Petit Bateau, LLC, a Michigan Limited Liability Company, to facilitate the development of approximately thirty-four (34) townhouse units with two-

car attached garages, for the amount of \$12,580.

It has come to our attention that the sales resolution was presented in error. Although the sale of part of the above-captioned property to Mr. Warren G. Smith was approved by your Honorable Body on October 10, 1979, it was not fully consummated by way of Quit Claim Deed and no physical improvements were made on the property as to date. Under these circumstances, the sale of Parcels 19, 20 and 21 to Mr. Warren G. Smith should be rescinded in order to make this site available for development to Petit Bateau, LLC, a Michigan Limited Liability Company.

The proposed redeveloper has submitted satisfactory evidence that they possess the necessary financial resources required to rehabilitate the property.

We, therefore, request that your honorable Body rescind the sale of Parcels 19, 20 and 21 to Warren G. Smith.

We, also, request that your Honorable Body authorize the Planning and Development Department Director, or his authorized designee, to execute an agreement to purchase and develop Parcels 19, 20, 21 and 381 with Petit Bateau, LLC, a Michigan Limited Liability Company, together with a deed to the property and such other documents as may be necessary to effect the sale, for the amount of \$12,580.

Respectfully submitted,
DOUGLASS J. DIGGS

By Council Member Watson:

Resolved, That in accordance with the foregoing communication, the authority to purchase and develop the property more particularly described in the attached Exhibit A, with Warren G. Smith, be rescinded.

Honorable City Council:

Re: Petition No. 264 — MACTEC Engineering & Consulting Inc., requesting for installation of four groundwater monitoring wells in right-of-way at West Jefferson Avenue, Zug Island Road, and Springwells Court.

Petition No. 264 of "MACTEC Engineering & Consulting Inc.", requests permission to install and maintain four (4) monitoring wells within West Jefferson Avenue, 66 feet wide, in the area between Spring Court Avenue, 100 feet wide, and Anderson Avenue, 60 feet wide. The purpose of the bored wells is to monitor the existence or extent of soil contamination.

The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

Soil boring and monitoring wells installations are equivalent to an "open cut" in a public street or alley. Necessary permits will have to be obtained for any street or alley opening, backfill, or occupancy of the City rights-of-way to install monitoring wells.

The Detroit Water and Sewerage Department (DWSD) reports existing water and sewer facilities in West Jefferson Avenue from Anderson Avenue to Spring Court Avenue. DWSD have no objection to the proposed encroachment for monitoring well installation provided minimum clearances are maintained. The attached requirements and provisions of DWSD must be followed.

Traffic Engineering Division — DPW reports no objection to the requested encroachment on West Jefferson 66 feet wide from Anderson Avenue to Spring Court Avenue provided that the grade shall be maintained in original condition after installation of the wells with flush covers for the holes.

Detroit Edison Electric Division (DTE) reports that the petitioner must know the specifically where these monitoring wells are being place.

All other city departments and privately-owned utility companies have requested that the petitioner make use of the "MISS DIG" facilities before any soil borings or permanent monitoring wells are installed in the public (street or alley) rights-of-way. Should damages to the utilities occur the petitioner shall be liable for all claims and damages to the encroaching installations.

Finally, the City Engineering Division — DPW will require "MACTEC Engineering & Consulting Inc." to submit certified "as-built" drawings, a map and survey showing exact location of the petitioner's complete permanent monitoring well installations within the public rights-of-way.

An appropriate resolution, granting the encroachments, is attached for consideration by your Honorable Body.

Respectfully submitted,

WILLIAM TALLEY

Head Engineer

City Engineering Division—DPW

By Council Member Conyers:

Whereas, City Council has adopted a resolution (June 6, 1990 — J.C.C. Pgs. 1325-26) urging the Michigan Department of Natural Resources and Environmental Protection Agency ("MDNR") to investigate, inspect, and remedy all environmental problems in the City of Detroit to ensure public safety; also

Provided, That said encroaching monitoring well installations shall be according to the specifications of the Detroit Water and Sewerage Department (DWSD), including the minimum vertical clearance of one foot, a minimum horizontal clearance of three and one half feet between DWSD sewers, drains, water mains, fire hydrants, catch basins, sewer and water manholes or shut-off (and any other DWSD facilities) and the proposed permanent monitoring well encroaching installations; and further

Honorable City Council:

Re: Petition No. 0626 — Dale Foster, requesting conversion to easement of a public alley in the area of 5945 Mt. Elliott.

Petition No. 0626 of Dale Foster, 2234 Pennsylvania Avenue, Detroit, Michigan 48214, as owner of all property abutting a public alley in the area of 5945 Mt. Elliott, requests the conversion of the north-south public alley, 18 feet wide, in the block bounded by Ellery Street, 60 feet wide, Mt. Elliott Avenue, 66 feet wide, Medbury Avenue, 50 feet wide and Holborn Avenue, 50 feet wide, into a private easement for public utilities.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report:

The petitioner plans to use the paved alley return entrance (into Holborn Avenue) and request such remain in its present status. The petitioner shall pay all incidental removal costs whenever discontinuance of use makes removal necessary.

All other city departments and privately owned utility companies have reported no objection to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

WILLIAM TALLEY

istrators and assigns, forever to wit:

First, Said owners hereby grant to and for the use of the public an easement or right-of-way over said vacated public alley herein above described for the purposes of maintaining, installing, repairing, removing, or replacing public utilities such as water mains, sewers, gas lines or mains, telephone, electric light conduits or poles or things usually placed or installed in a public alley in the City of Detroit, with the right to ingress and egress at any time to and over said easement for the purpose above set forth,

Second, Said utility easement or right-of-way in and over said vacated alley herein above described shall be forever accessible to the maintenance and inspection forces of the utility companies, or those specifically authorized by them, for the purpose of inspecting, installing, maintaining, repairing, removing, or replacing any sewer, conduit, water main, gas line or main, telephone or light pole or any utility facility placed or installed in the utility easement or right-of-way. Honorable City Council:
Re: Petition No. 248 — DTE Energy — Detroit Edison for permit to construct elevated walkway connecting MGM's shared parking deck to Detroit Edison's service building in the area of Third Avenue and Fisher Service Drive.

Petition No. 248 of "DTE Energy — Detroit Edison" whose address is 2000 Second Avenue, Detroit, Michigan 48226 request permission to construct and maintain two overhead pedestrian bridges, 18.00 feet wide, encroaching into Third Avenue, 60 feet wide, between Plum Avenue, 50 feet wide and West Elizabeth Avenue, 60 feet wide; Also West Elizabeth Avenue, 60 feet wide between Third Avenue, 60 feet wide, and Second Avenue, 60 feet wide, to provide safety to DTE's employees.

DTE Energy plans to build a pedestrian bridge over Third Avenue, 60 feet wide, between Plum Avenue, 50 feet wide and West Elizabeth Avenue, 60 feet wide to

connect DTE's service building to MGM's parking deck. DTE, also plans to build a second pedestrian bridge over West Elizabeth Avenue, 60 feet wide, Third Avenue, 60 feet wide, and Second Avenue, 60 feet wide, to connect two DTE's offices.

The encroachment petition was referred to the City Engineering Department — DPW for investigation and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) reports the sewer and water mains have to remain in service in said described area, however, DWSD have no objections to the proposed encroachment for a pedestrian Bridge and foundations provided that there will be a minimum 16 feet clearance between the ground surface and the bridge and the bridge foundations have no adverse impact on DWSD's facilities. Also, drawings for the pedestrian Bridge and foundations have to be submitted to DWSD for review and approval and the work is subject to inspection by DWSD. If any of DWSD's facilities located in the street break or are damaged as a result of the Petitioner's action, then the Petitioner will be liable for all costs to repair or replace DWSD's facilities.

The Public Lighting Department reports having a conduit bank running North-South feeding underground streetlights on Third Avenue in the area request for encroachment. Any structure proposed to be built shall maintain 4-1/2 feet vertical clearance and ten (10) feet horizontal clearance from an PLD conduit, lines, and installations. The contractors will be liable for any damages to any PLD underground facilities.

DTE Energy — Gas Division reports having a 4-inch plastic gas main approximately 4 feet west of the right-of-way and the West Elizabeth Bridge east of Third has no active gas main in that right-of-way.

AT&T/SBC Telecommunication reports having underground facilities running East-West on Elizabeth. AT&T must maintain 9 feet to our facilities. Petitioner and/or Contractor must avoid foundation work from damaging underground facilities.

All other City departments and privately owned utility companies reported no objections or that satisfactory arrangements have been made.

Comcast Cablevision reports a cost of \$517.06 for the removing and/or rerouting of such services in the project area.

Honorable City Council:

Re: Petition Number 0724 — Request from Greektown Casino, LLC, for City Council Approval to Remove Millennium Management Group, LLC, as Co-Licensee in its Class "C" Liquor License, with Dance-Entertainment Permit, at 555 E. Lafayette Boulevard.

Section 916(10)(b) of the Michigan Liquor Control Code of 1998 ("Liquor Code"), being MCL 436.1916(10)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, or a combination dance-entertainment permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded a Local Approval Notice (Request ID: 311271) to the Detroit City

Council, which has been designated by the City Clerk as Petition Number 0724. This Local Approval Notice is a request from Greektown Casino, LLC, for City Council approval in conjunction with Millennium Management Group, LLC, a Nevada company, being removed as co-licensee in a Class "C" Liquor License, with dance-entertainment permit, at 555 E. Lafayette Boulevard. Due to the fact that the Class "C" Liquor License, with dance-entertainment permit, will have to be reissued in the name of Greektown, LLC, only, the Law Department has been advised by the MLCC that Section 916(10)(b) of the Liquor Code, being MCL 436.1916(10)(b) requires that this Body approve the removal of Millennium Management Group, LLC, as co-licensee at 555 E. Lafayette Boulevard.

Therefore, The Law Department recommends that this matter be placed on the City Council's agenda for the approval or disapproval of the request by Greektown Casino, LLC, for removal of Millennium Management Group, LLC, as co-licensee in the Class "C" Liquor License at 555 E. Lafayette Boulevard and the issuance of dance-entertainment permit to Greektown Casino, LLC, only. Attached is a proposed resolution approving this action.

If there are any questions or concerns, please do not hesitate to contact our office.

Respectfully submitted,

BRENDA E. BRACEFUL

Deputy Corporation Counsel

By Council Member Kenyatta:

Whereas, Section 916(10)(b) of the Michigan Liquor Control Code of 1998 ("Liquor Code"), being MCL 436.1916(10)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, or a combination dance-entertainment permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located;

Whereas, Pursuant to this requirement, the MLCC has forwarded a Local Approval Notice (Request ID: 311271) to the Detroit City Council, which has been designated by the City Clerk as Petition Number 0724;

Whereas, The Local Approval Notice is a request from Greektown Casino, LLC, for City Council approval in conjunction with Millennium Management Group, LLC, a Nevada company, being removed as co-licensee in a Class "C" Liquor License, with dance-entertainment permit, at 555 E. Lafayette Boulevard; and

Whereas, Because the Class "C" Liquor License, with dance-entertainment permit, will have to be reissued in the name of Greektown, LLC, only, and the Law Department has been advised by the MLCC that Section 916(10)(b) of the

Liquor Code, being MCL 436.1916(10)(b), requires that this Body approve the removal of Millennium Management Group, LLC, as co-licensee in the Class "C" liquor license at 555 E. Lafayette Boulevard.

Now Therefore It Is Resolved, Pursuant to Section 916(10)(b) of the Liquor Code, being MCL 436.1916(10)(b), that the Detroit City Council, approves the removal of Millennium Management Group, LLC, as co-licensee in the Class "C" liquor license at 555 E. Lafayette Boulevard and the issuance of a dance-entertainment permit to Greektown Casino, LLC, only; and

It Is Further Resolved, That a copy of this Resolution, and the City Clerk's certification of this approval of MLCC Request ID Number 311271, be forwarded to the Michigan Department of Labor and Economic Growth, Liquor Control Commission, 7150 Harris Drive, P.O. Box 30005, Lansing, MI 48909-7575, the Detroit Police Department, Liquor License Unit, 2110 Park Street, Detroit, MI 48226, and the Buildings and Safety Engineering Department Business License Center, 105 Coleman A. Honorable City Council:

Re: Proposed Resolution to Approve the Amounts to be Charged for the Transport of Passengers in Pedal-Cabs and Rickshaws Under Chapter 58, Article VIII, of the 1984 Detroit City Code.

On July 19, 2006, the Detroit City Council passed an ordinance that amended Chapter 58 of the 1984 Detroit City Code ("City Code"), 'Vehicles for Hire', by adding Article VIII, 'Pedal-Cabs and Rickshaws'. As your Honorable Body is aware, this ordinance provides for the licensing and regulation of owners and operators of pedal-cabs and rickshaws in the City.

Section 58-8-4 of the City Code provides that the amount to be charged and collected for the use of a pedal-cab or rickshaw for a specified time, distance, or route by one (1) or more passengers shall be established by the Director of the Buildings and Safety Engineering Department and approved by resolution of City Council.

Accordingly, the attached proposed resolution for the amounts to be charged passengers for transport in a pedal-cab or

rickshaw is being submitted to your Honorable Body for review, consideration, and approval. The proposed resolution would approve an amount of one dollar (\$1.00) per City block on an approved street route or a fifty-dollar (\$50.00) per hour rate on an approved route on City streets or within City public parks.

We believe that the proposed amounts to be charged are fair and reasonable. These amounts shall be conspicuously displayed at all times on each pedal-cab or rickshaw, as required by Section 58-8-4 of the City Code.

We are available to answer any questions that you may have concerning this proposed resolution and request that this proposed resolution be adopted prior to your Summer Recess. Thank you for your consideration.

Honorable City Council:

Re: Proposed Resolution to Approve the Fees for the Issuance and Renewal of Business Licenses for Pedal-Cabs and Rickshaws Pursuant to Chapter 58, Article VIII, of the 1984 Detroit City Code.

On July 19, 2006, the Detroit City Council passed an ordinance that amended Chapter 58 of the 1984 Detroit City Code ("City Code"), 'Vehicles for Hire', by adding Article VIII, 'Pedal-Cabs and Rickshaws'. As your Honorable Body is aware, this ordinance provides for the licensing and regulation of owners and operators of pedal-cabs and rickshaws in the City.

Section 58-8-23 of the City Code provides that it shall be unlawful to operate, or permit another person to operate, for hire a pedal-cab or rickshaw within the City unless the owner has obtained a license from the Buildings and Safety Engineering Department ("B & SED") for each pedal-cab or rickshaw in accordance with Chapter 58, Article VII, Division 2, of the City Code. Further, Section 58-8-23 of the City Code provides that a non-refundable fee for the processing and issuance of a license under this division shall be established by the Director of the B & SED.

Accordingly, the attached proposed resolution for the fees to be charged for the processing and issuance of a business license for a pedal-cab or rickshaw is being submitted to your Honorable Body for review, consideration, and approval. The proposed resolution would approve a fee of one hundred fifty dollars (\$150.00) for both the issuance and for the renewal of an annual business license to own and provide pedal-cab or rickshaw transportation on approved routes on City streets or within City public parks.

The proposed license fee is based upon the cost of issuance, enforcement, and administration of licensing by the B&SED Business License Center. We believe that the proposed amount is reasonable and consistent with the fee charged for other vehicles for hire.

We are available to answer any questions that you may have concerning this proposed resolution and request that this

proposed resolution be adopted prior to your Summer Recess. Thank you for your consideration.

Re: Neighborhood Enterprise Zone Certificate Application for 1535 Sixth (Unit #1) in the Corktown NEZ (Recommend Approval).

The City Clerk's Office forwarded to our office an application for a Neighborhood Enterprise Zone (NEZ) certificate at 1535 Sixth (Unit #1). City Planning Commission (CPC) staff's research indicates that the above property is within the boundaries of the Corktown NEZ, which was approved by the City Council in October 1994.

The applicants, Josh Bassett and Michelle Martinez, propose to spend \$75,830 to rehabilitate a condominium unit which they own within an existing building at the subject location.

Based on the above analysis, CPC staff recommends approval of the subject NEZ certificate. Please contact us should You have any questions.

Honorable City Council:

Re: Request of Spectrum Neon to erect a business sign for Cobo Joe's at 422 W. Congress in a PCA (Restricted Central Business District) zoning classification (RECOMMEND APPROVAL).

Spectrum Neon is requesting approval to erect a business sign for Cobo Joe's at 422 W. Congress. This property is located in a PCA (Restricted Central Business District) zoning classification. PCA zoning districts are located in close proximity to the Public Center District and the controls of the PCA district are designed to prevent uses and structures from having a deleterious effect on the public center of the city. Section 61-11-96 of the Zoning Ordinance requires City Council approval of the design, appearance and location of any proposed sign in a PCA district after receiving a report and recommendation from the City Planning Commission.

The proposed sign would project from the Congress façade of the building between the two recently approved new awnings above the first floor windows of the building. The proposed sign would be round and about 5 feet in diameter, totaling about 20 square feet in area. The sign would be constructed of aluminum and contain the wording "Bar & Grill" "Cobo Joe's", and "Pizza" in neon letters. Colors would include blue, red, black and white.

City Planning Commission staff has reviewed the proposed sign and finds that it would be appropriate for the PCA district. The sign is relatively small and not out of scale for the site. We further find that the location and design of the proposed sign would be consistent with the spirit, purpose and intent of the PCA district. We therefore recommend approval of the location and design of the sign and submit the attached resolution for Your consideration.

Respectfully submitted,
MARCUS D. LOPER,
Deputy Director

By Council Member Kenyatta:

Whereas, the City Planning

Commission staff has reviewed the location and design of the sign and finds that they are consistent with the spirit, purpose and intent of the district as indicated in the foregoing communication;

Honorable City Council:

Re: Review of new signage, lighting and pathway proposed at the Detroit Historical Museum, 5401 Woodward, located in a PC (Public Center District) zoning classification (Recommend Approval).

PROPOSAL

The City Planning Commission (CPC) staff has received a building permit application from the Detroit Historical Museum, located at 5401 Woodward on the northwest corner of Woodward and W. Kirby, for the addition of new signage elements, lighting and a pathway. The proposed improvements focus on the south side of the building along Kirby.

The improvements include the introduction of three monument-type directional signs, which would serve to orient both vehicular and pedestrian traffic. Two of these signs would be placed along the driveway access to the parking lot at the west end of the building. The third sign would be located just west of Woodward near the stairway providing access up to the Woodward entry plaza. A new identification sign is also proposed for the canopy above the Kirby entrance to the museum.

Six new light poles with banners, three on either side of the Kirby entrance are proposed. Two additional light poles with banners would also be added at the west end of the building to complement a new pathway that would provide enhanced pedestrian movement between the parking lot and the Kirby entrance. Please see the attached drawings and renderings depicting these improvements. Since the museum falls within a PC (Public Center District) zoning classification, this project requires your review and approval before it can commence.

REVIEW AND RECOMMENDATION

The proposed improvements are simple in nature, but they come together to achieve significant enhancement to the appearance, security and access features of the museum. The additional signage will provide needed directional information for the museum patrons, orienting them to parking and museum access points. The new lighting will serve to better secure the grounds around the museum and, along with the banners, provide a new aesthetic without alteration to the façade of the building itself. Likewise, the pathway will offer improved security, providing a dedicated path for pedestrians separate from vehicular traffic. The new

pathway would also shorten the travel distance between the parking lot and the museum entrance. CPC staff finds that this proposal is consistent with the spirit and intent of the PC zoning classification and recommends approval.

The appropriate resolution to effectuate this recommendation is attached for your consideration.

Whereas, The SDG Architects and Planners, on the behalf of the Detroit Historical Society, has requested review and approval of proposed improvements to the grounds of the Detroit Historical Museum; and

Whereas, The museum is located within a PC (Public Center District) Zoning classification and, therefore, City Council approval is required for the design, appearance or location of any premises involved with this project in accordance with Section 61-11-76 of the Zoning Ordinance; and

Whereas, The Detroit Historical Museum is a vital component of the City's Cultural Center and the grounds thereof could benefit from some improvement; and

Whereas, The design and features of this proposal provide for better access to the museum, improved pedestrian security, offer an enhanced appearance and, overall, create a better space for public use and enjoyment; and

Whereas, The proposed project has been reviewed by the City Planning Commission staff and found to be both consistent with the spirit and intent of the Public Center zoning district and complementary to adjacent institutions;

Now, Therefore Be It

Resolved, That the Detroit City Council approves the design, appearance and layout of the site improvements to the Detroit Historical Museum as described and reviewed in the foregoing communication from the City Planning Commission staff and as depicted in the drawings prepared by SDG Architects and Planners and presented to this Honorable Body on July 27, 2006.

Honorable City Council:

Re: Detroit River International Crossing (DRIC) Study and related border issues (STATUS REPORT).

STATE LEGISLATIVE PUBLIC HEARINGS ON THE DRIC STUDY

When we last formally reported to your Honorable Body on the status of the Detroit River International Crossing (DRIC) study in May of this year, the State Legislature was completing public hearings on the project held before joint sessions of the transportation committees of each house. Following presentations by the Michigan Department of Transportation (MDOT) and the Federal Highway Administration these hearings took testimony of community members from Southwest Detroit and Sandwich Town in Windsor as well as other speakers, including the Deputy Mayor of the City of Detroit, City Planning Commission staff, a member of the Canadian Parliament Brian Masse, the Detroit River Tunnel Partnership, the Detroit International Bridge Company (DBIC) and its supporters. The hearings concluded on May 18, 2006 by bringing MDOT back to the table to respond to the testimony rendered and take questions from the members of the committees.

Statements issued by Phillip LaJoy, Chair of the State House Transportation Committee and Judd Gilbert, Chair of the State Senate Transportation Committee, at the close of the hearings were not supportive of the study. The tone was generally critical of MDOT for entering into such an extensive and costly study that could possibly result in an even costlier border project. They seemed to be more concerned with why the private sector plans of the DIBC to build a second span of the Ambassador Bridge were eliminated from consideration when it reportedly would not use any public funds. There seemed to be little or no recognition of the role of the US Federal Government of the Bi-National Partnership of the US and Canadian governments leading the study. In terms of the DIBC proposal, there was also a lack of respect for the needs and impacts that would face Windsor if it were to be pursued. Nor was there acknowledgement of the fact that the US and corresponding Canadian reviews and approvals were yet to be obtained.

As a result of the hearings, funding for the study was pulled from a working version of the state budget for the coming fiscal year. This language was later revised and funding was restored for the study. However, the funding is limited and cannot be used toward the design and construction of a border crossing or acquisition of the land where upon it or the related components would sit.

STATUS OF DRIC STUDY

MDOT and its consultant team continue to move the project forward. In June, community members and other interested parties visited Toledo and Port Huron to gain firsthand knowledge of the operational

and design issues associated with the bridges located there, as well as the type and level of community participation in each instance. Presently, the study is exploring context sensitive solutions to the implementation of a new border crossing — essentially examining the various ways the design of a crossing can respond to and complement the unique environment into which it may be placed. The community planning process continues its evolution with the preliminary development of a land use plan for the study area. On the technical side, the study will begin geological work in September by conducting soil borings throughout the area. This work will run through the end of the year and will provide the study with an understanding of the underground suitability and/or challenges associated with the specific areas where a new bridge crossing is possible. This work is further detailed in the accompanying binder.

DETROIT INTERNATIONAL BRIDGE COMPANY

Consistent with its assertions of the past year or more, the DBIC has submitted to the Michigan Department of Environmental Quality (MDEQ) a permit application for a new bridge span immediately west of and parallel to the existing Ambassador Bridge (see attached). The application is filed under the number, 06-82-0121-P, and public notice was given of July 13th. The public comment period for this permit application ends on August 1st. In response to the request for public comment, attached is a letter to the MDEQ from the Gateway Community Development Collaborative expressing concerns for the proposed new span. There is no requirement for public hearing as part of the processing of this application. However, the MDEQ will hold a hearing if requested.

The DBIC has also submitted a preliminary document to the US Coast Guard, the primary agency responsible for the review and approval of the proposed new span. There appears to be one component needed to complete the application and formally begin the review process with the Coast Guard.

OTHER RELATED ACTIVITIES

In addition to Canada's participation in the Bi-National Partnership, the Canadian Parliament has been busy with new legislation governing border crossings. Bill C3 (see attached) would bring sweeping changes to the regulation of all Canadian border crossings, publicly and privately owned. The bill would give the provincial government charge over the establishment, expansion, design, construction, operation and management of these facilities. This will provide for a more comprehensive and rigorous review than is currently in place through Canada's environ-

mental review process. Bill C3 has been approved by the House of Commons and has been introduced in the Senate. Public comment before the Senate should begin in the fall with approval of the bill anticipated by the end of the year.

Your Honorable Body may recall that in April of this year members of the Windsor City Council and representatives of the Ontario Ministry of Transportation hosted a tour of Sandwich Town for members of the southwest Detroit community and City, County and State representatives. In June the Delray Community Council, with community support from the Gateway Communities Development Collaborative, hosted Windsor and Ontario representatives on a tour of Delray, Fort Wayne and the area around the Ambassador Bridge. Both tours provided participants with a chance to see for themselves the potential host communities of this new border crossing and to have a dialogue about this and related matters. During the Delray tour, Councilor Jones and Postma, along with Mayor Frances' Chief of staff, indicated the Windsor City Council's desire to move forward with the next joint meeting of the Windsor and Detroit City Councils.

On July 17th, Representative Steve Tobocman hosted a community forum on public ownership and involvement with border crossing facilities. Member of Parliament Brian Masse, who represents west Windsor and is one of the sponsors of Bill C3, presented the bill and other related information. Ron Rienas, General Manager of the Peace Bridge, presented the model of public ownership employed at the border crossing between Buffalo, NY and Fort Erie, ON. The Peace Bridge is publicly owned through the Peace Bridge Authority, a Bi-National Partnership, and privately operated under the authority's oversight. This model is quite different from what we are familiar with here between Detroit and Windsor. Please see the attached copy of Mr. Rienas' presentation for more information on the Peace Bridge.

RECOMMENDATIONS

Given the many activities and concerns involving ports of entry along the Detroit River, CPC staff would strongly urge the City Council to set a discussion on this matter shortly after your return from recess. We would also recommend that you have a preliminary discussion with CPC staff and, possibly, community representatives in order to better frame the various components of this matter, and then hold the larger discussion with the various proponents and stakeholders. We would respectfully suggest that the larger discussion be at an afternoon session similar to the one held by your Honorable Body in October of 2004.

As it concerns the DIBC permit application for a new span of the Detroit River,

CPC staff recommends that the City Council add its voice to that of others and request that a public hearing be held on the matter within the host community. To that end, we have prepared a resolution for your consideration.

Whereas, The Detroit International Bridge Corporation has made application with the Michigan Department of Environmental Quality (MDEQ) under file #06-82-0121-P, which seeks a permit for the construction of a new bridge immediately west of and parallel to the existing Ambassador Bridge; and

Whereas, The City of Detroit would be the host community on the United States end of this new span; and

Whereas, The Detroit City Council has various questions and concerns with this proposal and other activities of the Detroit International Bridge Company regarding the management operations and expansion of the Ambassador Bridge; and

Whereas, A Bi-National Partnership of the US and Canadian Governments is currently involved in an on-going study exploring the addition of a new border crossing within the Detroit/Windsor corridor; and

Whereas, The MDEQ's processing of the permit application does not require a public hearing; now, therefore, be it

Resolved, That the Detroit City Council requests that the Michigan Department of Environmental Quality hold public hearing on permit application 06-82-0121-P within the host community — the City of Detroit; and be it further

Resolved, That this resolution be forwarded to the Michigan Department of Environmental Quality, the US Coast Guard.

Re: Amendment to Lease Between the City of Detroit and the Detroit Salt Company, L.L.C.

Under a lease agreement dated December 22, 1999, and approved by the City Council on July 16, 1999, the Planning and Development Department has been leasing mineral rights to the Detroit Salt Company, L.L.C. ("DSC"), permitting DSC to mine for salt under certain specified properties which belong to the City of Detroit. DSC has requested certain additional properties be added to the original Lease in order to expand mining operations in areas where salt has been found. These additions will benefit both the City of Detroit and Detroit Salt Company, L.L.C. These additions are included in the exhibit entitled **Parcel "A"**. The proposed Amendment will add these properties and permit the subsequent addition of other properties by written agreement of the parties with the consent of the Director of the Planning and Development Department or his designee.

DSC estimates that execution of this agreement may result in increased royalty revenue to the City of Detroit of \$400,000 over the next two years. This amendment will require that when a complaint is filed regarding salt mine activities, that the Lessee shall notify the complainant that the complainant should file this complaint with both the Lessee and with the Office of Ombudsman of the City of Detroit.

We therefore request your Honorable Body to authorize the Planning and Development Department Director or his assigned designee to execute an Amendment Agreement to include Parcel "A" to Detroit Salt Company, L.L.C.

Re: Correction of Legal Entity.
Development: 5614-5618 Florida.

Honorable City Council:

Re: Correction of Sales Resolution. Development: Parcels 273-A, 273-B & 273-C; generally bounded by Vernor, Mt. Elliot, McDougall & Hunt.

Honorable City Council:

Re: City of Detroit, City Wide Sale of Adjacent Residential Vacant Lots.

The Planning and Development Department recommends the Citywide Sale of Residential Vacant Lots to owners of Adjacent and occupied Residential Dwellings. Once approved, the Adjacent Residential Vacant Lot program will provide comprehensive authorization for the sale of pre-identified adjacent residential lots. This program is designed to run from the Detroit City Council's approval date through June 30, 2007. During this period the Planning & Development Department will provide City Council with quarterly reports to include the name of purchasers, address of each lot sold, total number of lots sold and revenue generated. At the end of the approval period and in the event that satisfactory progress has been made, the Department will request that the program be extended.

Eligible property must fall within the following guidelines:

- City-Owned residential lots that are not located in any designated project areas
- Lots adjacent to residential structures
- Lots will be sold on a "Cash As-Is" basis
- Sales price of each vacant lot is \$200.00 with the lot size not to exceed 45 feet front footage

Eligible guidelines for purchaser are as follows:

- Purchasers will be required to provide proof of paid property taxes and proof of adjacent ownership

- Purchaser(s) to landscape and maintain the vacant lots to enhance the adjacent property

- Split lot sale will occur in the event two adjacent owners are interested in the same lot (\$100.00 per each half-lot)

Advantages of the program to purchaser:

- Purchase may be made by mail
- Elimination of multiple trips to City Offices
- Decreased cost associated with transportation and parking
- Shorter processing time for issuance of Quit Claim Deeds to perspective buyer

Additional benefits to be realized from the program:

- Increase in efficiency with which we dispose of our Surplus Property Inventory
- Reduction in surplus property inventory by approximately 12% annually
- Streamline this vital City service
- Increase revenue from land sale
- Additional tax revenue
- Potential maintenance costs savings
- Reduced legal liability to the City of Detroit
- Blight reduced and communities stabilized

We, therefore, request your Honorable Body's approval to authorize the Planning and Development Department Director or his authorized designee to issue Quit Claim Deeds to the purchaser(s) and accept the Offer(s) to Purchase for the sale of adjacent residential vacant lots for the sales price of \$200.00 per lot, with the lot size not to exceed 45 feet front footage of each vacant lot on a "Cash As-Is" basis plus the deed recording fee and in accordance with the conditions set forth in the Offer to Purchase, with the Deed to include an attachment clause.

STATEMENT BY COUNCIL MEMBER KWAME KENYATTA IN SUPPORT OF THE RESOLUTION AUTHORIZING THE ESTABLISHMENT OF HOMESTEAD FACILITIES NEIGHBORHOOD ENTERPRISE ZONES

At the Adjourned Session on Friday, July 28, 2006, I voted in favor of the resolution authorizing the establishment of homestead facilities Neighborhood Enterprise Zones. Although the new legislation was designed to primarily benefit those neighborhoods where a large share of the tax burden is carried, I believe there must be property tax relief for all Detroit neighborhoods.

Despite the exponential growth in

downtown Detroit, "For Sale" signs are posted all over the city's residential areas, evidencing rapid decline. We must do what is necessary to stabilize population and maintain residency. Neighborhood Enterprise Zones (NEZs) were originally created on the federal level as an incentive to states with distressed communities to help address blight and to encourage investment in those areas. Most recently, NEZs have been primarily used by developers of new and rehab constructions a purchase incentive tax abatement tool for a period of years.

State legislation regarding the governance of Neighborhood Enterprise Zones has been expanded to address the impact of the "pop-up" consequence of Proposal A, whereby the assessed value of a property becomes the taxable value when property is transferred to a new owner, and the new owner is faced with a 200%-400% increase in the tax obligation. The state legislation, however, establishes a discrete percentage of the local govern-

mental unit's total acreage to be designated as NEZ-eligible. Because there is a limitation set by the state on how much of the city can be designated as NEZ-eligible, the Administration has proposed that the plan be rolled out in three phases, with the first phase targeting 25 Detroit neighborhoods that carry the largest portion of the city's tax burden.

While the measure offers some property tax relief, it is not a panacea. The nature of the problem is structural and must be addressed holistically, with a thorough understanding of the long-range considerations. The Administration believes that this program is an investment despite the hefty upfront costs to the general fund. We must take a serious and creative approach to a solution that balances the city's fiscal challenges with the needs of the people in times of ever-increasing costs and ever-shrinking resources. Property taxes are disproportionately high all over Detroit and all property tax payers in this city deserves tax relief. I expect that this plan will be one step towards the attaining the ultimate goal. For these reasons, I voted "YES" on the resolution authorizing the establishment of the homestead facilities Neighborhood Enterprise Zone.

**STATEMENT BY COUNCIL MEMBER
ALBERTA TINSLEY-TALABI
REGARDING NEIGHBORHOOD
ENTERPRISE ZONES**

Given the high tax rate in the City of Detroit, it is incumbent on city leaders to embrace all useful tools to maintain property values, stay competitive with surrounding areas and reduce the tax burden on city residents. I voted in support of the proposal to create 25 new Neighborhood Enterprise Zones because, in my opinion, it is an effective way to begin to address high property taxes in Detroit.

Property taxes in most cities make up the majority of operating revenue. However, only about 10% of the Detroit's general fund budget comes from property taxes; the bulk of which is generated by a relatively small number of residents. The NEZ proposal approved today will provide a 18-35% tax cut to eligible property owners who purchased homes after 1997. These long established neighborhoods contained in today's action were beginning to enter into a state of decline as a result of factors such as foreclosure rates, taxes, insurance rates and vacancies. The NEZ program approved today should help combat all of these factors. Additionally, the program will be implemented so that it will have no effect on the FY 06-07 Budget that began on July 1, 2006.

While I realize that today's action is just a beginning, there are many more hard working men and women who are struggling to maintain their families and homes

in the face of high taxes. We must find ways to provide tax relief to other areas of the city as well. The City Council will have to continue to work with the administration to find a workable plan to cut taxes for all residents while maintaining an acceptable level of city services. This will not be an easy task and will further challenge the city's limited resources.

I am also aware that the tax cuts approved today means that there will be \$8-\$13 million less available in the next budget year. When Council begins to deliberate on next year's budget, we will have to carefully examine all city services and programs to make sure we strike a delicate balance between expanding tax cuts and service delivery. But that will be just one of a number of challenges that must be dealt with as we work to rebuild the City of Detroit.

Honorable City Council:

Re: Petition No. 0028. West Seven Mile Congregational Church Of God In Christ, Inc. request for the vacation of alley in the area of West Seven Mile Road, Mendota and Birwood Avenues.

Petition No. 0028 of "West Seven Mile Congregational Church Of God In Christ, Inc." request for the conversion of the East-West public alley, 20 feet wide, in the block bounded by Cambridge Avenue, 50 feet wide, West Seven Mile Road, 100 feet wide, Mendota Avenue, 60 feet wide, and Birwood Avenue, 60 feet wide into a private easement for utilities. This closure will facilitate the West Seven Mile Congregational Church Of God In Christ development of a new surface parking area.

The request was approved by the Planning and Development Department, Solid Waste Division — DPW, and Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

If the petitioner at any time plans to discontinue use of the paved alley entrance (into Mendota and Birwood Avenue(s)), the petitioner shall pay all incidental removal cost.

All other city departments and private utility companies have reported no objection to the conversion of the public right-of-way into a private easement for utilities. Provisions protecting utility installations are part of this resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
WILLIAM TALLEY
Head Engineer

City Engineering Division — DPW

Planning & Development Department

June 6, 2006

Honorable City Council:

Re: Transfer of Jurisdiction of Surplus Property. Development: 3364 Mack (Former 7th Precinct).

The Detroit Police Department has declared the above-captioned property surplus to its needs and requests that the Planning and Development Department (P&DD) assume jurisdictional control over the property (formally the Detroit Police Department 7th Precinct). This property consists of an approximately 24,750 square foot commercial brick structure situated on a 2.49 acre site and is presently zoned B-2 (Local Business and Residential District).

The property was offered to the general public by the Planning and Development Department (P&DD) twice via an advertised Request of Proposal (RFP). The first RFP was issued by P&DD from December 12, 2005 to January 16, 2006 in which no responses were received. The second RFP was issued from February 3, 2006 to February 24, 2006 at which time one (1) response was received from Jermor Plumbing and Heating, Inc. in the amount of \$200,000.00.

After a thorough review and consideration of the submittal from Jermor Plumbing and Heating Inc., P&DD has selected this proposal as it meets the City's development objectives for this area. The offeror proposes to develop the former 7th Precinct site into an office/corporation headquarters to facilitate the relocation of its corporate offices from Redford, Michigan to Detroit. The parking lot area will be repaved to provide off street parking for employees and customers. All areas not paved will be appropriately landscaped to enhance the overall appearance of the site.

The principal of Jermor Plumbing and Heating, Inc. is Jerome Morgan. Presently, Mr. Morgan is the CEO of (1) Jermor Plumbing and Heating, Inc. (2) Castle II Construction, Inc., which specializes in the construction of single-family homes and (3) J & M Construction Co., a concrete company that installs concrete slabs, sidewalks, etc., all 100% minority owned and operated. Mr. Morgan proposes to relocate the corporate offices of Jermor Plumbing and Heating, Inc. and J & M Construction Co. in the City of Detroit. Should this occur, the companies and its employees would become contributing factors to the City of Detroit tax base.

Given the City's current financial condition, and in an effort to meet revenue projections and return the property to the tax roll, P&DD is recommending this sale. The Developer possesses the qualifications and has indicated potential financial resources necessary to acquire and rehabilitate this property. The proposed devel-

opment is consistent with the development plan for the McDougall Hunt Rehabilitation Project and the McDougall Hunt Citizens District Council has been informed of the potential sale to Jermor Plumbing & Heating, Inc.

We, therefore, request that your Honorable Body approve the attached resolution authorizing the Detroit Police Department to transfer jurisdiction of the above-captioned property to the Planning & Development Department.

We, also, request that your Honorable Body adopt the sale and authorize the Planning and Development Department Director, or his authorized designee, to issue a Quit Claim Deed to the property and such other documents as may be necessary to effect the sale with Jermor Plumbing and Heating, Inc., a Michigan Corporation, for the sale price of \$200,000.00.

Respectfully submitted,
DOUGLASS J. DIGGS

Director

By Council Member Kenyatta:

Resolved, That in accordance with the foregoing communication, The Police Department is authorized to transfer jurisdictional control of the following described property to Planning & Development Department:

Hathon", 1846, Rec'd L. 27, P. 251-252-253 Deeds, W.C.R.

Resolved, That in accordance with the Offer to Purchase and the foregoing communication, the Planning and Development Department Director or his authorized designee, be and is hereby authorized to issue a Quit Claim Deed to the property more particularly described in the attached Exhibit A, and such other documents as may be necessary to effect the sale, with Jermor Plumbing and Heating, Inc., a Michigan Corporation, for the amount of Two Hundred Thousand and 00/100 Dollars (\$200,000.00). and be it further

Resolved, That any change from or addition to the use of this property must comply with all applicable regulations, including the governing McDougall Hunt Rehabilitation Project Development Plan, and also subject to the site plan review process of the Planning and Development Department including review and approval by the City Planning Commission.

**State of Michigan
Department of Transportation
Lansing
Metro Region Office**

July 25, 2006

Dear Honorable City Council:

Re: Ambassador Bridge/Gateway Project; Request of the Detroit International Bridge Company (DIBC), Petition Nos. 3254 and 3255, for the outright vacation of several streets and alleys in the area of I-75, the Ambassador Bridge, West Fort Street, and W. Grand Boulevard, and for the City to accept an easement over DIBC's land for the construction of a cul-de-sac near Lafayette Avenue and 22nd Street.

The subject petitions for the vacation of city streets and alleys are important for implementation of the Ambassador Bridge/Gateway Project (Gateway). These petitions are scheduled to come before the City Council on Wednesday, July 26, 2006, and approval is needed in order for the Michigan Department of Transportation (MDOT) to proceed with proposed construction of the remaining phase of freeway and ramp construction for the Gateway Project.

As presented to the City Council on June 9, 2006, study for this project began in 1995, and included extensive coordination between the City, state and federal agencies, and the local community. The last phase of construction (Contract #4) of this \$206 million project will take 2 years to complete, and construction is currently scheduled to begin in early 2007. The project will reconstruct I-96 and I-75, and will include direct access between the Ambassador Bridge, I-75 and I-96. This will address traffic congestion and outstanding issues related to trucks traversing adjacent city streets. The project will also accommodate access to the proposed Mexicantown International Welcome Center and Mercado currently under construction, and include construction of a "signature" pedestrian bridge connecting East and West Mexicantown

across I-75/I-96, along with extensive landscaping and other architectural treatments.

Implementation of the Gateway Project is being completed in accordance with the October, 2004 development agreement between MDOT and the City of Detroit. Continuous and on-going coordination with various City of Detroit departments has been an integral part of the Gateway Project planning and design, etc. As noted, the last phase of construction includes mainline freeway reconstruction, and provides direct connection with new ramps between the freeway and the proposed Ambassador Bridge Plaza. The freeway and related ramps are the responsibility of MDOT, and development of the plaza is the responsibility of the DIBC. With respect to any remaining properties in the area of the plaza, direct access is to be maintained to M-85 (Fort Street) as part of the plaza design and construction by DIBC. Both the plaza and freeway/ramp reconstruction are integral to proceeding with completion of the Gateway Project.

Approval at this time by the City Council of the respective request of the DIBC (Petition Nos. 3254 and 3255) for vacation of several streets and alleys is vitally important to MDOT toward completing the Gateway Project, and to meet scheduled construction beginning in 2007. Your favorable consideration of this matter will be greatly appreciated.

Please contact me at 248-483-5108 if you require additional information, or if you have any questions.

Sincerely,
ANDREW J. ZEIGLER
Region Planner

Honorable City Council:

Re: Petition No. 3254 — Detroit International Bridge Company, for closure of the following streets and to grant the city an easement in the area of Lafayette, Twenty-Second, Twenty-first, Savoy, and Fort Streets. Petition No. 3254 of "Detroit International Bridge Company (DIBC)", request for the outright vacation of certain rights-of-way in the block bounded by West Lafayette Avenue, 70 feet wide, West Fort Street, 100 feet wide, Twenty-Third Street, 60 feet wide, and Twenty-First Street, 60 feet side, (vacated on July 31, 1991). Also requesting that the Honorable City Council accept an easement over the DIBC/petitioner's land for the construction of a turn-around for vehicular traffic as requested by the Traffic Engineering Division — DPW for the Ambassador Bridge Gateway Project. This project will facilitate improvements

and further enhance the existing border crossing.

The request was approved by the Planning and Development Department, the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW with conditions. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) reports the portion of West Lafayette east of Twenty-Second Street to be vacated contains a sewer, and DWSD must retain an easement of the full width right-of-way. All other rights-of-way to be vacated DWSD has no objection provided that the petitioner/DIBC owns all of the adjacent properties.

Traffic Engineering Division — DPW reports that a cul-de-sac connecting West Lafayette is constructed and operational before the closing of the public rights-of-way. Twenty-Third Street between Fort and Northbound I-75 Service Drive shall remain open at all times for accessing the properties north of Fort Street, located within the project limits. The petitioner/DIBC shall notify all impacted property owners before closing the public rights-of-way.

The Public Lighting Department (PLD) reports that portion of West Lafayette requested for outright vacation has man-holes with 24KV cables. The vacation of West Lafayette and relocation of PLD facilities are part of the Ambassador Gateway project. The outright vacation of the public rights-of-way cannot be considered until the Ambassador Gateway project is implemented and PLD facilities are re-routed. Design for the re-routing of PLD facilities is in progress. Construction activities are scheduled by the Michigan Department of Transportation. PLD have no objection to the other requested outright vacation of public rights-of-way.

Detroit Edison company (DTE) reports a cost of \$134,000.00 for the removing and/or rerouting of such service in the area.

Comcast cablevision reports a cost of \$602.00 for removing and/or rerouting of such service in the requested area.

AT&T/SBC Telecommunication reports that there are both underground and aerial facilities within the requested area. Any relocation of AT&T/SBC facilities is billable to the petitioner/DIBC.

All other city departments and private utility companies have reported no objections to the changes of the public rights-of-way. Provisions protecting utility installations are part of this resolution (if necessary).

I am recommending adoption of the attached resolution.

Respectfully submitted,
WILLIAM TALLEY
Head Engineer
City Engineering Division — DPW

Honorable City Council:

Re: Petition No. 3255 — Detroit International Bridge Company request for outright vacation of streets and alleys in area of W. Boulevard, Fort Street, Walter P. Chrysler (I-75) Hwy. Northbound

Service Drive, Twenty-Fourth Street, and Savoy Street.

Petition No. 3255 of the "Detroit International Bridge Company (DIBC)", request the outright vacation of streets and alleys (previous vacated and converted to easement on August 3, 2001-J.C.C. Pgs. 2387-2389) in the area of West Fort Street, 100 feet wide, Walter P. Chrysler (I-75) Hwy. South Service Drive, W. Lafayette Avenue, 70 feet wide, Twenty-Third Avenue, 60 feet wide, West Grand Boulevard, 150 feet wide as part of the Ambassador Bridge Gateway Project. This project will facilitate improvements and further enhance the existing border crossing.

The request was approved by the Planning and Development Department,

the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW with conditions. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report:

The Detroit Water and Sewerage Department (DWSD) reports a 10-inch, 12-inch and 15-inch sewer mains in the requested outright vacation of streets and alleys. Recommend that a private easement be retained for DWSD the full width of said rights-of-ways and the DWSD provisions must be followed.

Traffic Engineering Division — DPW reports no objection to the requested outright vacation of certain rights-of-way provided that the DIBC maintain and open the North-South alley (previously vacated and converted to easement on August 3, 2001 — J.C.C. Pgs. 2387-90) North of Savoy Avenue and West of Twenty-Third Street and good condition for maintaining traffic circulation. The DIBC is required to install and maintain "Local Traffic Only" sign at the Northwest corner of Savoy Avenue and Twenty-Third Street. The DIBC must have 100% of signatures of the abutting property owners.

The Public Lighting Department (PLD) reports they have underground and overhead facilities consisting of high voltage primary feeders, street lighting and traffic signal installations in the requested area to be outright vacated. The total estimate cost for the removal, relocation of PLD facilities is \$300,000.00.

Comcast Cablevision reports an estimated cost of \$2,369.43 for the removing and/or rerouting such services in the requested outright vacated area.

AT&T/SBC Telecommunication reports AT&T/SBC met with DIBC on site, and AT&T/SBC will remove all aerial cable except the feed to a Cell Phone Site. Charges will apply for work required. AT&T/SBC also has underground feed, conduit, and manholes that will remain on 24th Street between Fort Street and Lafayette Avenue. The underground facilities will be excluded at this time until the DIBC authority provides another path for AT&T/SBC.

Detroit Edison Company — Gas and Electric Divisions (DTE) reports the Electric division has a cost of \$143,000.00 to remove and/or rerouting such services. The Gas Division reports DTE needs a private easement for the 24-inch cast iron (10 psig) gas main in 24th to maintain services to the DIBC and other customer near the I-75 area and North of Porter Street. DTE also reports a cost of \$1,465.00 for the abandonment of the existing 2 and 3-inch plastic (2 psig) gas main in 25th Street Right-of-way and alleys to be vacated West of 25th Street.

All other city departments and private utility companies have reported no objec-

tions to the changes of the public rights-of-way. Provisions protecting utility installations are part of this resolution (if necessary).

I am recommending adoption of the attached resolution.

Respectfully submitted,
WILLIAM TALLEY
Head Engineer

Mayor’s Office

August 7, 2006

Honorable City Council:

Re: Two Resolutions Regarding the “Agreement Relating To Springing

Interest And Master Concession Agreement By and Between The City of Detroit And The Ambassador Port Company”.

On Friday, July 28, 2006 at the Adjourned Session, your Honorable Body adopted two resolutions regarding the “Agreement Relating to Springing Interest and Master Concession Agreement By and Between The City of Detroit and The Ambassador Port Company”.

Over the past eighteen (18) months there have been many discussions relating to the future of our port and how we might work together to create a vibrant world-class port district. With the reopening of the port we have made tremendous progress. Although your Honorable Body has expressed concerns with the *Springing Interest Agreement*, I am hopeful that this single issue does not hinder the progress we have made. To this end it is critically important that we continue the dialogue upon your return from Summer Recess.

I reiterate my respect for the role your Honorable Body plays in the legislative process, and the separation of powers that exists between the legislative and executive branches of government and I believe that over the past six (6) months we have made tremendous strides working together to move our great city forward.

Therefore I respectfully **veto** the two (2) referenced resolutions hoping that we might continue the open and honest discussions regarding how we can work cohesively to enhance our port.

Sincerely,
 KWAME M. KILPATRICK
 Mayor

**STATEMENT BY SHEILA COCKREL:
RE: OVER-RIDE OF MAYORAL VETO
OF PORT RELATED RESOLUTIONS**

I have voted YES to over-ride the Mayoral veto of the two resolutions re: the Port Authority "Springing Interest Agreement" and the role of the Deputy Mayor in the signing of official City documents.

First, the need to develop the City of Detroit Port cannot be underestimated. For many years, efforts to revitalize the Port have limped along without necessary resources from the City or County. A stronger commitment is necessary to take a dormant major regional economic development asset and make it a vital force in the state's transportation system.

Second, the Kilpatrick administration has shown real leadership in understanding the significance of Port development in diversifying this City's economic base.

Third, I voted for the assignment in the May 2005 because I believed that it was

vital to the City's long-term interest to keep public control of the Nicholson terminal and bring into the Port a mix of public and private participants who could speed up the redevelopment of our port.

Fourth, it is unfortunate that subsequent to the Mayor's ill-advised and unnecessary veto, a barrage of misinformation has been generated in the community that has confused the issue of port development with Riverfront development. The Riverfront has not been "turned over to Mr. Matty Moroun". It is preposterous on its face to make such an assertion. It is disingenuous and only helps those whose agenda is to keep our Port non-competitive with the City of Windsor, Port Huron and other down river interests. I am not clear what the Mayors reason are for his veto. They were not articulated in his veto message. I am curious as to why the Mayor would veto a council action that is consistent with the advice of the City's Corporation Council.

Fifth, it is equally unfortunate that members of this Council have once again chosen to use misinformation to achieve their political agendas by urging people to call certain members offices and "threaten" members about their vote on this override or the signing the call for a Special Session. Let me make myself crystal clear. This Council is on recess. I was not available to sign for a Special Session. I do not believe that any Council member should allow a staff member to sign their name for a Special Session or that any Council member should sign for a Special Session **BEFORE** the date and time have been determined. I did not sign for this session because I was **NOT** able to provide my signature and there was **NO** date and time provided by the document that had the signatures of President Cockrel and Ms. Watson. It is not necessary for Ms. Watson to instruct her supporters to call me and threaten recall if I don't vote to over-ride. I will follow my conscience and do what I know to be the appropriate legal action that conforms to the City Charter, the City Code and the laws of the State of Michigan. Furthermore, I will vote for what I believe to be the best public policy that serves the interests of the people of this City.

Finally, I wish to see a thorough review, of the "Springing Interest Agreement" in September. This analysis should include the harmonizing of the May 6, 2005 Council resolution with the Master Concession Agreement, any actions by the Port of Detroit Corporation and the Springing Interest Agreement. This evaluation should take place prior to any consideration of any version of "Springing Interest" agreement by this City Council.

It is for the above mentioned reasons I have voted to override the Mayor's vetoes.

**STATEMENT BY KWAME KENYATTA
AFFIRMING MY VOTE OVERRIDING
THE MAYOR'S VETO OF COUNCIL'S
RESOLUTIONS AT THE AUGUST 10,
2006 SPECIAL SESSION**

At today's Special Session of the Detroit City Council, I voted to override the Mayor's veto of the two resolutions unanimously approved by this Honorable Body on Friday, July 28, 2006. The first resolution declared the Master Concession Agreement and the Springing Interest Agreement non-binding upon the City of Detroit and the second resolution called for the forfeiture of Deputy Mayor Anthony Adams' position if he continued to persist in unauthorized activity.

I want to reiterate my position regarding the circumstances that led up to today's events. My concern about the Master Concession Agreement and Springing Interest Agreement stems from the proposed passage of House Bills 5028 and 5029 that purported to greatly expand the role of the Master Concessionaire beyond the control of the local governmental unit. From this discovery, even more concerns continued to arise, leading Council to seriously question the validity of the Master Concession and Springing Interest Agreements. Charter mandated protocol was not followed and Council's intentions were disregarded.

Although I am unclear as to what the overall plan is for our Port, I do support its development. I believe that the expansion of the Port opens up vast opportunity for international trade, including trade with Africa. If Port development truly means economic development in Detroit, then I am fully supportive of any activity that fiscally benefits people and that is not tantamount to more taxation of the people. Council's resolutions are not to be confused with non-support of development. Council's actions more appropriately reflect its opposition to a "Master" monopoly. For these reasons, I stand by my original decision and I voted in the affirmative to override the Mayor's veto.

**STATEMENT BY ALBERTA TINSLEY-TALABI
REGARDING THE
RESOLUTION DECLARING THAT
NEITHER "AGREEMENT RELATING TO
SPRINGING INTEREST AND MASTER
CONCESSION AGREEMENT BY AND
BETWEEN THE CITY OF DETROIT
AND THE AMBASSADOR PORT
COMPANY" NOR THE "MASTER
CONCESSION AGREEMENT
BETWEEN THE DETROIT/WAYNE
COUNTY PORT AUTHORITY AND THE
AMBASSADOR PORT COMPANY" IS
BINDING ON THE CITY OF DETROIT.**

Today, I voted yes to override the Mayor's veto of the resolution declaring that the Springing Interest Agreement and the Master Concessionaire Agreement

are not binding on the City of Detroit ("City"). This decision was based on the following two facts: 1) The Springing Interest Agreement was never approved by Detroit City Council and as such is void and not binding on the City; and 2) The Master Concession Agreement is not binding upon the City of Detroit because the City is not a party to the Master Concession Agreement.

Together Sections 4-112 and 4-122 of the Detroit City Charter indicate that no contract or disposition of land may be approved without the approval of Detroit City Council. Both of these charter provisions are applicable to the Springing Interest Agreement. It is clear that Springing Interest Agreement was never proffered to City Council for its approval and that City Council never approved the Springing Interest Agreement. Therefore, the Agreement is not binding on the City of Detroit.

The Master Concession Agreement is an agreement between the Port Authority and the Ambassador Port Company. The City is not a party to that agreement nor did the City negotiate it terms; therefore, the agreement is not binding on the City. Neither of these parties have any authority to bind the City to the tenants of this agreement.

To fully understand the importance of these two documents, a little historical background is necessary. In Spring 2005, City Council was notified that the City was in danger of losing ownership of the Detroit Marine Terminal Site because the bond payments on the port had been accelerated due to non-payment. In May 2005, City Council agreed to assign the right to receive title to the property upon payment of the bonds to the Detroit/Wayne Port Authority ("Port Authority") and allow the Ambassador Port Company to exercise some control over the port in exchange of the Ambassador Port Company paying off the balance of those bonds. The City maintained the ownership of the port and would receive 40% of the revenues at the location. At the time this seemed to be beneficial to the City, however, three actions were underway that changes the importance of any approvals relating to the Port Authority and the Ambassador Port Company.

The first of these three actions is the introduction of HB 5029. City Council did not know when approving the Assignment Agreement that legislation in Lansing, HB 5029, was being proposed that would greatly expand the Port Authority's powers. The bill would equip the Port Authority with broad powers to acquire and develop port economic development facilities. These powers would include powers to condemn or take properties through eminent domain. The Port Authority would be allowed to sell bonds to fund projects and

could exercise all powers granted under the Brownfield Redevelopment Funding Act and the Local Development Financing Act. These are powers they don't currently possess without passage of the bill.

The second action was the development of the Master Concession Agreement. The Port Authority and the Ambassador Port Company entered into the Master Concession Agreement. This is a 99 year and 364 day agreement that grants a concession to the Ambassador Port Company. Through this relationship the Ambassador Port Company can exercise the powers granted to the Port Authority. The effect of this is that the Ambassador Port could use all of those powers given in HB 5029.

At the same time, the Deputy Mayor attempted to authorize the Springing Interest Agreement between the City and the Port Authority creating the third event. This agreement would make the City subject to the Master Concession Agreement; however, any changes to the Master Concession Agreement would not have to come back to the City for approval. Additionally, the Ambassador Port Company as the Master Concessionaire would be granted the right of first refusal of any port facility property in the event it ever reverted back to the City for ownership.

When the Assignment Agreement was passed, there was only one site being considered; however, these further developments have expanded to the entire Wayne County riverfront. These three actions have broadened the powers of both the Port Authority and the Ambassador Port Company exponentially. It has become patently clear that the issues surrounding the development of port economic development have to be discussed at length. The impact of these actions need to be studied to make sure that one private entity is not in control over the entire riverfront.

This Detroit City Council has the charter-mandated responsibility to approve all contracts. It is in circumstances such as this that illuminates the necessity and importance of that function. The future of riverfront and the port development is important to development of our city. So any further actions must be done prudently and with great deliberation. The interest of the City and our citizens must come first. Discussions must happen so that everyone can fully understand that impact of any further actions and how the City can benefit from those decisions.

Invocation

As we begin this season of sessions Lord, remind us that we are the brushes and you are the painter, and that the canvas you have assigned us to work is the City of Detroit. Help us Lord to feel the weight of this city each day as we carry our part, then remind us who carries us. As we work in large groups, reveal to us how we connect to this city in the life of one person. As we work with hundreds of thousands and millions of dollars, whisper to us how one dollar in your hands Lord can change a life. As we work in grand thoughts and large scale ideas, knock us down Lord with power of a child's simple question. Give to us Lord, eyes to see the struggle in birth and the struggle in death, that we understand the struggles in between and seek to give each struggle meaning. And then Lord, as we lay down each night, show us where we need to improve, where we have done well, and what we need to just leave alone. Thank you, in advance Lord for this year's painting we are about to work, in Jesus' name. AMEN.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Re: Neighborhood Enterprise Zone Certificate Applications for 13 housing units within the U-SNAP-BAC Neighborhood Enterprise Zone (Recommend Approval).

The City Clerk's Office forwarded to our office applications from Habitat for Humanity for Neighborhood Enterprise Zone (NEZ) certificates for 13 housing units within the amended U-SNAP-BAC NEZ, which was approved by the Detroit City Council in July 1997.

The addresses for the certificates are as follows: 4102 Maryland, 4133 Maryland, 4138 Maryland, 4145 Maryland, 4157 Maryland, 4201 Maryland, 4220 Maryland, 4230 Maryland, 4237 Maryland, 4242 Maryland, 4251 Maryland, 4254 Maryland, and 4278 Maryland. Habitat for Humanity, in partnership with U-SNAP-BAC, is proposing to construct 13 new single-family homes that would each cost \$110,000 to build.

All 13 units would be built on Maryland Avenue between Lozier Avenue on the south and Waveney Avenue on the north. The properties involved are confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State legislation as currently written. Based on the above analysis, CPC staff recommends approval of the subject NEZ certificates.

City Planning Commission

August 30, 2006

Honorable City Council:

Re: Extension of time to consider rezoning request of the Detroit International Bridge Company (Resolution Attached for Consideration).

On January 18, 2006 the City Council received the report of the City Planning Commission (CPC) on the petition of the Detroit International Bridge Company (DIBC) to rezone numerous parcels adjacent to the Ambassador Bridge to make the zoning more consistent with the Hubbard Richard urban renewal plan and to better reflect the current use of the properties.

The City Council held discussions on this petition on January 31, 2006 and February 20, 2006. At that time, Michigan State Representative Steve Tobocman asked that Council not approve the rezoning for any parcels that are the subject of a lawsuit between the DIBC and the City of Detroit. These parcels, which are a part of the overall rezoning request, are located on the west side of Ste. Anne Street just north of Fort Street. City Council has not yet scheduled a public hearing for the rezoning request.

Section 61-3-79 of the Zoning Ordinance states, "Where a petition for a proposed amendment of a zoning map in ARTICLE XVII of this Chapter is not acted upon by the City Council within one hundred twenty (120) days of the date of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council."

The initial 120-day period expired on May 18, 2006 at which time Council passed a resolution extending the period for Council's consideration for an additional 120 days until Wednesday, September 6, 2006. CPC staff understands that the Michigan Court of Appeals has not yet ruled on the aforementioned lawsuit.

Attached for your consideration is a resolution that would extend the period for Council's consideration of this petition for an additional 120 days.

City Planning Commission

September 5, 2006

Honorable City Council:

Re: Proposed replacement of signage at 333 W. Fort located within a PCA (Restricted Central Business District) zoning classification. (Recommend Approval).

The staff of the City Planning Commission (CPC) has received and reviewed a sign permit application from the LaVanway Sign Company for the property located at 333 W. Fort. The property in question is an existing office building with lower level parking and ground floor tenant space. This property is located within a PCA (Restricted Central Business District) zoning classification, where any exterior alteration to the premises requires the approval of Your Honorable Body.

PURPOSE

The location of the proposed replacement sign is along the ground floor of the Fort façade. The existing sign cabinet contains gold anodized metal to match the window framing of the lobby. The existing sign within that cabinet bears the building name, "333 West Fort Building". The new sign would read, "333 West Fort Street Fort Washington Plaza", the

address and new name of the building. The new sign and metal envelope are burgundy in color, picking up the similar hues in the existing marble cladding of the building. From the architectural aesthetic point of view, both the staff of the Planning and Development Department and the Commission would prefer that the metal envelope of the sign, at the least, continue to match the window framing. However, this new color scheme is concurrent with the name change, and the sign as proposed is complementary to other elements of the building façade.

CONCLUSIONS AND RECOMMENDATION

This request was received while your Honorable Body was on recess. Therefore, no action could be taken until the resumption of Council meetings. CPC staff finds this alteration to be harmonious with the existing context and consistent with the spirit and intent of the PCA zoning district. CPC staff recommends approval of the proposed replacement sign and we respectfully request action on this matter as soon as possible. Attached for your consideration is a resolution approving this request.

Respectfully submitted,
MARCUS D. LOPER
Deputy Director

By Council Member Reeves:

Whereas, The City Planning Commission has received a sign permit application for the replacement of an existing sign for property located within a PCA (Restricted Central Business) district zoning classification at 333 W. Fort; and

Whereas, The proposed work would result in the alteration of the Fort street facade of this building; and

Whereas, Section 61-11-96 of the Detroit Zoning Ordinance requires City Council approval of such work after review by the City Planning Commission and the Planning and Development Department; and

Whereas, The proposed replacement sign has been reviewed by the City Planning Commission and the Planning and Development Department and found to be complementary to the existing building, and consistent with the spirit and intent of the PCA zoning district classification.

Now, Therefore Be It

Resolved, That the Detroit City Council approves the design and appearance of the proposed replacement sign as described and reviewed in the foregoing communication from the City Planning Commission staff and depicted in the drawing attached thereto.

Detroit Fire Department

August 1, 2006

Honorable City Council:

Re: Proposed Resolution to Establish Certain Service Fees for the Fire Department.

Section 9-507 of the 1997 Detroit City Charter provides that any agency of the City may, with the approval of City Council, charge service fees for any services provided, by the agency.

Pursuant to the above, the Fire Department has reviewed current fees charged to the public for certain services. Our review of the Michigan Medical Records Access Act, MCL 333.26261 et. seq., that became effective April 1, 2004, indicates a health care provider, health care facility or medical records company may charge the patient or their duly authorized representative a fee for the access of medical records.

The Act defines medical records as information that pertains to a patient's health care, medical history, diagnosis, prognosis or medical condition and is maintained by a health care provider or health facility in the process of the patient's health. MCL 333.26263(j).

The fees set forth are as follows:

No charge for the first 5 pages

\$1.00 per page for pages 6-20

\$0.50 per page for pages 21-50

\$0.20 for pages 51 and over

The Fire Department has determined that because of the costs incurred by the City in delivering the subject service, fees must be established. Further, our review reveals that other communities have established similar fees to help recover the costs of providing this service to the public.

Specifically, the Fire Department is recommending that fees be established for the following service.

Official Medical Records Access:

The Fire Department is often required to provide copies of medical records upon the written request of department personnel. This process involves the retrieval of medical records from on-site and/or off-site storage facilities. Copies are made within 30 days of the written request that is dated and signed not more than 60 days before being submitted to the Fire Department — Medical Division. The department does not currently charge a fee for copying services. The Fire Department responds to several hundred request of this type each year.

We request that this matter be placed on this Body's agenda for consideration and approval as soon as possible. We are available to answer any questions that this Body may have concerning this proposed resolution and fee schedule. Thank you for your consideration of this matter.

 Honorable City Council:

Re: Request for a Public Hearing on the
 Establishment of the Merrill Place
 Neighborhood Enterprise Zone as
 Requested by the S & S Development
 Group, Inc., in Accordance with Public
 Act 147 of 1992.

The Planning & Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development

goals of the City, and find that the establishment of the "Merrill Place" Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an *ad valorem* tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached. The developer proposes to construct 20 single-family units and rehabilitate 6 additional units at an approximate cost of \$2 million.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration please find a resolution establishing a date and time for the public hearing, together with the aforesaid map and legal description of the proposed NEZ.

Respectfully submitted,
DOUGLASS J. DIGGS
Director

By Council Member Reeves:

Whereas, Pursuant to Public Act No. 147 of the Public Acts of 1992 ("the Act") this City Council has the authority to establish "Neighborhood Enterprise Zones (NEZs)" within the boundaries of the City of Detroit; and

Whereas, The S & S Development Group, Inc., has requested establishment of the "Merrill Place, Seward Street Town Homes NEZ" NEZ whose boundaries are particularly described in Exhibit A (legal description) and illustrated in the map attached hereto; and

Whereas, The Act requires that, prior to establishing an NEZ, the City Council shall provide an opportunity for a Public Hearing on such establishment, at which Public Hearing representatives of any taxing authority levying *ad valorem* taxes within the City, or any other resident or taxpayer of the City of Detroit may appear and be heard on the matter;

Now Therefore Be It

Resolved, That on the 13th day of October, 2006 @ 10:30 a.m. in the City Council Committee Room, 13th floor, Coleman A. Young Municipal Center, a Public Hearing be held on the above described application for establishment of an NEZ within the boundaries described in Exhibit A (legal description) as illustrated in the map attached hereto; and be it finally

Resolved, That the City Clerk shall give notice of the Public Hearing to the general public and shall give written notice of the Public Hearing by certified mail to all taxing authorities levying an *ad valorem* tax within the City of Detroit, such notices to be provided no earlier than sixty (60) days prior to the public hearing.

Honorable City Council:

Re: Petition No. 0316 — The "Rhino" Restaurant and Bar, to establish outdoor café, in the lower plaza at 1407 Gratiot, on the corner of Gratiot Avenue and Randolph Street.

The above named Petitioner has requested permission to have Outdoor Café Service at 1407 Randolph Street.

The Department of Public Works/City Engineering Division has approved this petition provided that the Café meets the regulation set by the "Outdoor Café Guidelines" as supported by the City Council and guided by Chapter 58, Section 50-2-8.1 of the City Code.

The Health Department has approved this petition, subject to petitioners strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21.

The petitioner has indicated, in his attached Memorandum of Understanding with the Detroit Recreation Department, a desire to operate during adverse weather conditions and outside the normal operational months. The "Outdoor Café Guidelines" indicate that outdoor cafes may operate only during the months of April to November. If the applicant wishes to operate during the months of December through March, the proposed café area will need to be enclosed, heated and will require the approval of the Buildings and Safety Engineering Department (B&SE) and the Department of Public Works (DPW). Typically, an extension of the original petition is granted by the DPW upon the request of the petitioner, provided the proper approvals are served.

By the attached resolution we are recommending outdoor café service from April 1, 2006 through November 30, 2006. Anything beyond this period can be granted by application for an extension through the DPW. The Planning and Development Department (P&DD) is not aware of any objections from any other city agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to terms and conditions provided in the attached Resolution.

Honorable City Council:
 Re: Departmental Recommendation of Approved Residential Alley Vacation for Petition Numbers: 652, 683, 857, 2093, 3931, 3992, 4084, 4096 and 4444.

The above-referenced nine (9) petitions were presented by the Planning and Development Department (P&DD) for consideration at a public hearing before your Honorable Body on July 27, 2006.

A total of eleven (11) petitions were presented at this public hearing. However,

following public comments, Petition No. 438 was put on hold to await input from our Law Department regarding a waiver on a deficiency of signature consent. Petition No. 3493 was denied due to objections from two property owners regarding the need for alley access to their properties. Departmental reports and recommendations for Petitions No. 438 and 3493 will be forwarded to your Honorable Body under a separate cover.

The balance of nine (9) petitions referenced above were supported both by the P&DD and your Honorable Body following the July 27, 2006 public hearing. Attached herewith, is the Resolution that will enable the City Council to take formal action causing the vacation of the nine petitions.

The above-referenced petitions have been processed in compliance with the

Detroit Code, Article VI, Section 50-6-1. Our investigation of each of these petitions discloses the following:

1. The public utilities located in the alley can be properly served if this alley is vacated and converted into an easement.
 2. These alleys are not used for municipal trash collection.
 3. No objections to this alley vacation have been received from Utility Companies or City Departments involved.
- Therefore, it is the recommendation of the Planning and Development Department that the attached resolution be approved.

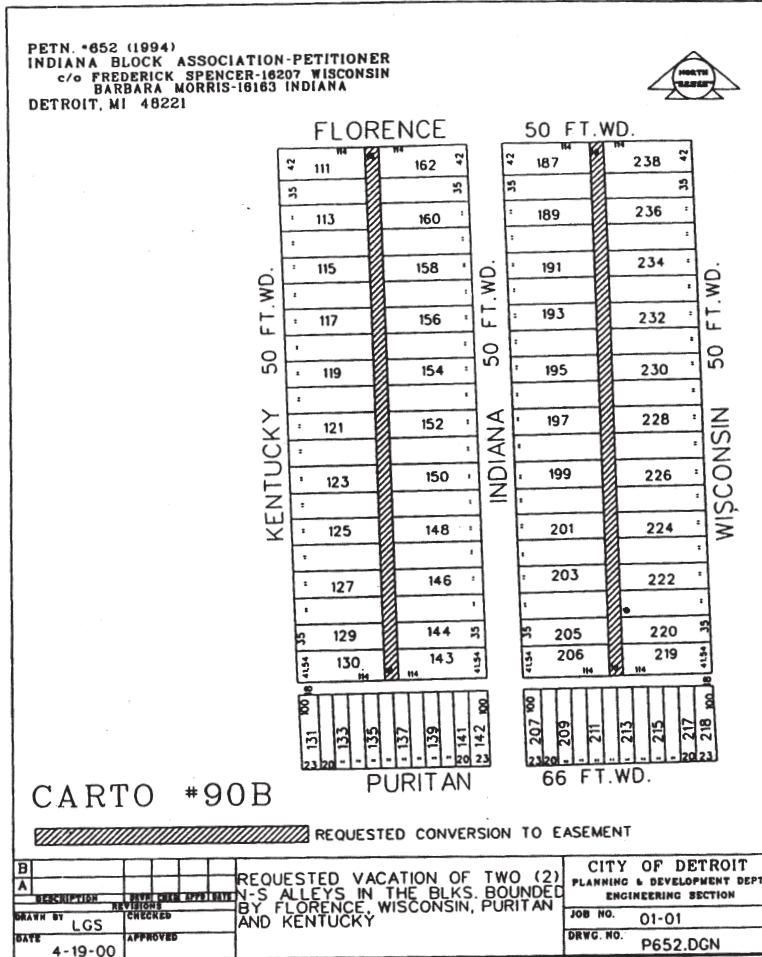

Respectfully submitted,
DOUGLASS J. DIGGS
Director of Planning and
Development Department

Department of Human Services

July 19, 2006

Honorable City Council:

Re: Request for Pre-Approval of Sub-contracts for Community Services Block Grant (CSBG).

The Department of Human Services (DHS) provides a variety of social service programs to eligible, low income City of Detroit residents. These services have been available to area residents for over twenty-five years. The services include, but are not limited to, emergency food, transportation, and employment training and placement services. These program services are funded by the Michigan Department of Human Services (MDHS). Our agency is required to submit, on an annual basis, a plan to MDHS for approval of funds. Our grant year runs from October 1, 2005 thru September 30, 2006 for Community Services Block Grant (CSBG) funds. The amount of funding that has been allocated to the Department of Human Services for CSBG is \$6,451,196.00 (which was previously approved) plus the \$340,334.00 in carry-forward funding (for which approval is now being requested) for a total of \$6,791,530. Please see the attached allocation sheets

that provide a breakdown of allocated funds for Community Action Agencies. The Michigan Department of Human Services has changed its funding process and now requires a Letter of Intent from this Honorable Body to accept these funds to be utilized by DHS for the purposes specified in the plan as written.

Additionally, since the time required to process the associated contracts might adversely affect service delivery and to avoid any disruption of service and circumvent cash flow problems that our sub-

contractors may experience, DHS is requesting that City Council pass a resolution authorizing DHS to enter into contracts with the subcontractors listed below. The Department intends to prepare and process the formal contracts as soon as possible. At this juncture, it is necessary to request pre-approval of these contracts

All expenditures will be in accordance with the budget approved by the Michigan Department of Human Services. The contract amounts are as follows:

CSBG				
Contractor's Name	Contract Amount	CPO #	Purpose	Advance Amount
Detroit Urban League	\$170,000	#2689245	Provide fiduciary services	N/A
Detroit Area Agency on Aging	\$ 61,000	#2689282	Meals to seniors	N/A

Re: Address: 17208 Waltham. Name: Gregory R. MacKay — Trott & Trott.

Date ordered removed: July 19, 2006 (J.C.C. p.).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on August 17, 2006 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of August 15, 2006.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Re: Address: 1110 E. Grand Blvd. Name: Jeri Boyd. Date ordered removed: June 18, 2003 (J.C.C. p. 1884).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

On October 21, 1992, your Honorable Body established Neighborhood Enterprise Zones. I am in receipt of two (2) applications for Neighborhood Enterprise Zone Certificates. Therefore, the attached Resolution, if adopted by your Honorable Body, will approve these applications. A waiver of reconsideration is requested.

Honorable City Council:

Re: Applications for two (2) Neighborhood Enterprise Zone Certificates for the Silvercup Redevelopment Area (Recommend Approval).

The City Clerk's Office forwarded to this office two (2) applications from Silvercup JV, LLC for Neighborhood Enterprise Zone (NEZ) certificates at 2616 Chene and 2624 Chene. Your Honorable Body approved the Silvercup NEZ designation on November 17, 2004. City Planning Commission staff has reviewed the applications and recommends approval.

The properties involved are confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. Silvercup JV, LLC has applied for the certificates, prior to the issuance of building permits, on behalf of the future owner who will occupy the property. It is appropriate for them to apply for certificates at this time, even if buyers have not yet been identified. The State Tax Commission, however, will not issue certificates until owners are identified. When owners are identified, they can then apply for the certificates. At that time, it would not be necessary for City Council to pass another resolution.

The petitioner proposes to construct multi-family townhouse dwellings. The developer will need to submit to the State Tax Commission the parcels to receive the certificates with a map showing the parcels.

Please let us know if you have any questions.

Respectfully submitted,
 MARCUS D. LOPER
 Deputy Director

By Council Member Conyers:

Whereas, Michigan Public Act 147 of 1992 allows the local legislative body to establish Neighborhood Enterprise Zones for the purpose of providing exemption from ad valorem property taxes, and the imposition of specific property tax in lieu of ad valorem taxes; and

Whereas, The Detroit City Council has established a Neighborhood Enterprise Zone for the following area, in the manner required by and pursuant to Public Act 147 of 1992, on November 28, 2001.

Now, Therefore, Be It Resolved, That the City Council approve the following addresses for receipt of Neighborhood Enterprise Zone Certificates for a twelve-year period:

<u>Zone</u>	<u>Address</u>	<u>Application Number</u>
Silvercup Redevelopment	2616 Chene	06-71-14
Silvercup Redevelopment	2624 Chene	06-71-15

Honorable City Council:

Re: Request for a Public Hearing on the Establishment of the Rutland Outer Neighborhood Enterprise Zone as Requested by the People First Community Outreach & NPHC, in Accordance with Public Act 147 of 1992.

The Planning & Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that the establishment of the "Rutland Outer" Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an *ad valorem* tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached. The developer proposes to construct 24 single-family units at an approximate cost of \$4 million.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration, please find a resolution establishing a date and time for the public hearing, together with the aforesaid map and legal description of the proposed NEZ.

Respectfully submitted,
DOUGLASS J. DIGGS

Director

By Council Member Watson:

Whereas, Pursuant to Public Act No. 147 of the Public Acts of 1992 ("the Act") this City Council has the authority to establish "Neighborhood Enterprise Zones (NEZs)" within the boundaries of the City of Detroit; and

Whereas, The People First Community Outreach & NPHC, has requested estab-

lishment of the "Rutland Outer" NEZ whose boundaries are particularly described in Exhibit A (legal description) and illustrated in the map attached hereto; and

Whereas, The Act requires that, prior to establishing an NEZ, the City Council shall provide an opportunity for a Public Hearing on such establishment, at which Public Hearing representatives of any taxing authority levying *ad valorem* taxes within the City, or any other resident or taxpayer of the City of Detroit may appear and be heard on the matter;

Now Therefore Be It

Resolved, That on the Thursday, September 21, 2006 @11:30 a.m. in the City Council Committee Room, 13th floor, Coleman A. Young Municipal Center, a Public Hearing be held on the above described application for establishment of an NEZ within the boundaries described in Exhibit A (legal description) as illustrated in the map attached hereto; and be it finally

Resolved, That the City Clerk shall give notice of the Public Hearing to the general public and shall give written notice of the Public Hearing by certified mail to all taxing authorities levying an *ad valorem* tax within the City of Detroit, such notices to be provided no earlier than sixty (60) days prior to the public hearing.

Re: Fort Shelby Hotel — Section 108 Loan Guarantee.

On November 26, 2003, your Honorable Body approved the amendment to the Consolidated Plan to accommodate the rehabilitation of the Fort Shelby Hotel and the submission of the Section 108 Loan Guarantee application on behalf of MCP Development, Inc. and RSC and Associates.

The Developer proposes to rehabilitate the historic Fort Shelby Hotel located at 525-529 West Lafayette into a Doubletree Hotel, which contains two hundred four (204) guest suites, a 38,000 square foot conference center and approximately sixty-three (63) residential units. The project will also consist of the construction of a parking structure located at 500 West Fort Street.

The United States Housing and Urban Development Department (HUD) has approved the application for the Fort Shelby Hotel and has determined that it meets the criteria for the Contract for Loan Guarantee Assistance Program Under Section 108 of the Housing and

Community Development Act of 1974, as amended, 42 U.S.C. § 5308.

We, therefore, request that your Honorable Body authorize the acceptance of the \$18,700,000 in Section 108 loan guarantee proceeds for the Fort Shelby Hotel.

DOUGLASS J. DIGGS

Honorable City Council:

Re: Petition No. 0876. Permission to Design and Construct a 12-Inch Water Main in the Easement of the former Byron Street between W. Grand Blvd. and Bethune Street.

Attached is Petition No. 0876 from Daniel D. Murakami, Director of Support Services for Henry Ford Hospital, requesting to upgrade an existing 8-inch city water main to a 12-inch water main to service proposed improvements for Henry Ford Hospital at 2799 West Grand Blvd.

Approximately 500 linear feet of 12-inch city water main is to be constructed to replace an existing 8-inch city water main in the easement of former Byron Street between the existing Eleanor Clay Ford Pavilion and the former Bethune Street. This water main is necessary to improve existing pressure problems and to provide more water capacity to the west side of the Henry Ford Hospital Campus.

The Detroit Water and Sewerage Department (DWSD) has no objections to the replacement of an existing 8-inch city water main located in Byron with a new 12-inch water main. The work is to be done under DWSD's permit and inspection in accordance with plans approved by DWSD. All the work is to be done at the Petitioner's expense and at no cost to DWSD.

Therefore, we recommend that the petition be granted in accordance with the attached resolution. After City Council has acted on this petition, please send a copy of the resolution to the Water and Sewerage Department (DWSD) addressed to: Mr. Bharat Doshi, Head Engineer of Water Systems, 1420 Washington Blvd., 6th Floor, Detroit, MI 48226.

CORRECTED LETTER

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for 66 units of housing to be rehabilitated at 2900 East Jefferson Ave. (the Garden Court apartment building) in the E. Jefferson-McDougall-Franklin-Joseph Campau NEZ (Recommend Approval).

The office of the City Planning Commission (CPC) has received copies of 66 applications for Neighborhood Enterprise Zone Certificates from the office of the City Clerk. These applications correspond to units 1-66 in the Garden Court apartment building located at 2900 E. Jefferson Ave. Having reviewed these applications, CPC staff recommends approval of the NEZ certificates consistent with the provisions of the Act 147.

Please note that per City Council's request, CPC staff has met with the tenants association in the building and was presented with numerous tenant concerns. A report conveying these concerns will be provided your Honorable Body in the next few days.

The property at 2900 E. Jefferson Ave. has been confirmed as being within the boundaries of the E. Jefferson-McDougall-Franklin-Joseph Campau NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The owner and applicant, the Farbman Group, intends to rehabilitate all 66 units and the common areas of this structure. The estimated investment by the owner for the entire project is \$4.5 million. The NEZ certificate applications appear to have been submitted prior to the issuance or application for building permits to do the work presently proposed by the developer.

Please contact us should you have any questions.

Respectfully submitted,
 MARCUS D. LOPER
 Deputy Director

RESOLUTION

By COUNCIL MEMBER CONYERS joined by ALL COUNCIL MEMBERS:

WHEREAS, Jails are undesirable places even for short periods of time and many citizens of the City of Detroit are from time-to-time embroiled in the criminal justice system under circumstances where the evidence supporting the charge(s) against them is questionable; and

WHEREAS, The United States Constitution's recognition of a citizen's fundamental right to obtain a writ of habeas corpus as a protection against illegal imprisonment is the only individual right deemed so integral to a free society that the Framers saw fit to include it in the original text of the Constitution; and

WHEREAS, Section 600.4304 of the Michigan Compiled Laws (MCL) states, in relevant part, that the writ of habeas corpus may be issued by the circuit courts or a judge thereof, thus making it clear that any circuit court judge may issue a writ of habeas corpus; and

WHEREAS, MCL 600.4313 further mandates that any judge who willfully or corruptly refuses or neglects to consider an application, action, or motion for habeas corpus, is guilty of malfeasance in office; and

WHEREAS, Chief Judge Mary Beth Kelly recently issued Administrative Order 2006-04, "Procedure for the Issuance of Writs of Habeas Corpus in the Third Judicial Circuit", under which writs of habeas corpus may be issued only by the Presiding Judge or Super-Alternate Judge of the Criminal Division on pre-charged matters during court hours and only by the Emergency Judge during non-court hours; and

WHEREAS, The Emergency Judge, as

designated by the Chief Judge, has purportedly been frequently inaccessible to defense counsel thus denying the incarcerated person his/her right to be speedily brought before a judge to determine the legality of the arrest, thus potentially victimizing these individuals a second time by extending an unjust detention; and

WHEREAS, Even if Administrative Order 2006-04 is intended as an effective docket management tool implemented pursuant to Chief Judge Kelly's authority as Administrator of the Third Judicial Circuit, it is nonetheless in conflict with state law governing the duties of judges and is an unnecessary restraint on the constitutionally guaranteed privilege of the writ of habeas corpus;

NOW THEREFORE BE IT

RESOLVED, That the Honorable Detroit City Council strongly urges Chief Judge Mary Beth Kelly to rescind Administrative Order 2006-04, "Procedure For the Issuance of Writs of Habeas Corps in the Third Judicial Circuit", and return to the previous policy of permitting any circuit court judge to issue a writ of habeas corpus; and

BE IT FURTHER

RESOLVED, That the Detroit City Council directs the City Clerk to send a copy of this approved resolution to the Honorable Chief Judge Mary Beth Kelly, Third Judicial Circuit Court, the State Court Administrative Office, the State Bar of Michigan, the Honorable Mayor Kwame M. Kilpatrick, the Wolverine Bar Association, the National Conference of Black Lawyers, the National Lawyers Guild, the American Civil Liberties Union, and the National Association for the Advancement of Colored People.

RESOLUTION

OPPOSING DTE ENERGY'S CREDIT REPORTING PROGRAM

By ALL COUNCIL MEMBERS:

WHEREAS, Credit scoring is often based on factors that are subjective and that constantly fluctuate; and

WHEREAS, Having a good credit score has become essential to obtaining reasonable rates, goods, services, employment, and necessities; and

**RESOLUTION TO SUPPORT THE
DEMANDS OF THE CUSTOMERS OF
DTE THAT THE MICHIGAN PUBLIC
SERVICE COMMISSION (MPSC) STOP
ALL FURTHER CUTS IN THE
CUSTOMER SERVICES**

By COUNCIL MEMBER WATSON joined by COUNCIL MEMBER KENYATTA:

WHEREAS, Detroit Edison/MichCon (DTE) plans to close call centers as well as all their customer service (credit) offices where utility consumers can actually talk face-to-face with a company employee, pay their bills, make arrangements for payments over time, have utility service restored, prevent having their utilities shut off, apply for utility assistance programs and order home service and repair when necessary; and

WHEREAS, The vast majority of the users of customer service offices are people of color, single mothers with young children, senior citizens on low, fixed incomes, immigrants and those of us who have the least, are most vulnerable to cuts in services, and cannot afford extra charges to pay their bills; and

WHEREAS, DTE is a regulated monopoly selling both gas and electricity, commodities requiring a skilled and competent workforce to respond to the potentially deadly dangers to consumers in their own homes; and

WHEREAS, The vast majority of workers in the customers service offices and the call centers are themselves women with children, many single mothers supporting families, and a majority of these workers are people of color; and

WHEREAS, DTE has failed to sufficiently invest in infrastructure resulting in more frequent and longer outages which a shrinking workforce is unable to repair in a timely fashion, leaving customers in the dark and at the mercy of weather conditions; and

WHEREAS, The CEO of DTE, Tony Earley, who is responsible for these cuts to those of us who have the least, makes millions, much of it paid for by the very people whose health, safety and financial well-being his policies now threaten; THEREFORE BE IT

**TESTIMONIAL RESOLUTION
TO HONOR THE LEGACY OF
REVEREND MILTON ROBINSON
HENRY, J.D.: "THE
REVOLUTIONARY'S
REVOLUTIONARY!"**

By COUNCIL MEMBER WATSON:

WHEREAS, Reverend Milton Robinson Henry, J.D. was a man who eloquently epitomized the term "greatness", notwithstanding the reality that he carried his larger than life legacy with a level of humility and a 'down to earth' persona that is rarely evident among Internationally recognized Icons, Attorneys, Ministers or Public Officials — all positions which he held during his 87 years as one of the most Revered Revolutionary Standard Bearers of the 20th and 21st centuries, and

WHEREAS, One of the first things you recognized about this Magnificent Mountain of Manhood was the reality that many of the Giants in the Movement actually looked to Milton Henry as 'their' leader, as 'their' mentor & role model. For example, hours after Malcolm X (El Hadj Malik Shabazz) had suffered the bombing of his residential home in New York; Malcolm flew to Detroit to speak at a major community meeting organized by Milton Henry, and which included luminaries like Fannie Lou Hamer. Malcolm advised many that the only force that was strong enough for him to leave his family during this crisis was the request of his close ally, friend and counsel, Milton Henry. Similarly, during the Bay of Pigs showdown between Cuba and the United States during the administration of President John F. Kennedy; the renown Activist Robert Williams was in need of 'safe' passage from Cuba back to the United States and Milton Henry traveled to Cuba to assist his comrade Robert Williams; and eventually Milton Henry and Robert Williams require the direct intervention of Fidel Castro to assure their return to America, and

WHEREAS, As a Founder of the Group on Advanced Leadership (GOAL) organization, with his brother Imari Obadele (aka Richard Henry), Milton Henry worked closely with the Founder of the Shrine of the Black Madonna, Jaramogi Abebe Agyeman (aka Reverend Albert Cleage), Reverend Dr. C. L. Franklin, Whitney Young of the National Urban League, Kenneth C. Cockrel, Sr., and Pan-Afrikanists and Nationalists around the world to advance an agenda for the Liberation of Afrikan people. GOAL spear-

headed one of the most successful Independent Black Political Parties — the Michigan Freedom Now Party; which sponsored a slate of progressive Blacks for public office. As a co-founder of the Republic of New Afrika, which called for the establishment of an Independent Nation of 'New Afrikans' founded in five Southern States, Milton Henry and his brother Imari Obadele put into practice the Revolutionary Principles they had been advocating for years, and

WHEREAS, During this period, Milton Henry was also elected as a City Commissioner in the City of Pontiac, Michigan; but left the post in order to pursue the rigorous demands on his schedule as a Social activist litigator, a Fearless Crusader/Freedom Fighter and his role as an award-winning defense attorney, insuring constitutional protections for many in his community — whether they could afford to pay for representation or not, and

WHEREAS, Reverend Milton Robinson Henry's natural leadership abilities surfaced in his early years as he won the highest recognition in the Boy Scouts, and as a summa cum laude graduate of Yale Law School. Noteworthy among the recorded events of his young adulthood is his demand for respect during his stint as a Fighter Pilot, Class 43-F in the United States Air Force serving as a Tuskegee Airman 99th Pursuit Squadron, and

WHEREAS, On one occasion, wearing full uniform, Milton Henry and many of his fellow military colleagues boarded a bus for travel, when the bus driver informed the passengers that the "colored men would have to go to the back of the bus..." Some of the other passengers complied with the bus driver's request, but Milton Henry said: "I am not going to the back of the bus! I've been fighting for this nation, and I will not be disrespected!" At this point, the bus driver stood up and reached for a weapon to assault Milton who was continuing to loudly voice his opposition, when many of the Caucasian service men surrounded the bus driver, separating him from Milton. All of the Black passengers subsequently de-boarded the bus with Milton, who probably averted violence or death by the intervention, and

WHEREAS, Later in his life, Milton Henry was asked by a friend to accompany him to Yale to take the Law School entrance exam — while there, Milton decided he would take the exam as well. To Milton's amazement, he passed the examination with flying colors, while his friend did not. Milton Henry, J.D. met the love of his life, Marilyn, and they were blessed with a daughter Shannon. His family core provided much of the substance and the stability that strengthened Milton's professional and community work, and

WHEREAS, The life of Reverend Milton Henry, J.D. expanded to even greater dimensions when he founded the Christ Presbyterian Church, following a 5-year Pastorate assignment at St. John's Presbyterian Church in Detroit. Reverend Milton Henry's Pastoral aura was like every other field he conquered... he was Powerful, Passionate, and Prolific. When you were blessed to hear Reverend Milton R. Henry, J. D. preach — whether at Christ the King Presbyterian Church — or in the gallery as he argued in the courtroom on behalf of Affirmative Action at the University of Michigan, or on the sidelines as he litigated on behalf of Black students at the University of Detroit, or in the 'Amen' corner when he was President of the Oakland County NAACP; one was simply awestruck, THEN, THEREFORE BE IT

RESOLVED, That the Detroit City Council wishes to extend their sympathy to the family of the late Rev. Milton R. Henry, and God Bless the Memory of one who was truly a Great Giant in our midst. His generosity, humility, courage, and God-Driven centeredness shall shine as beacons of light forever. Long Live the Revolutionary's Revolutionary: Reverend Milton Robinson Henry, J.D. Free The Land!!!

INDUSTRIAL FACILITIES EXEMPTION CERTIFICATE AGREEMENT

THIS AGREEMENT, made this 15th day of August, 2006, by and between the City of Detroit, acting by and through its Planning and Development Department ("the City") and Michigan Bottling and Custom Pack Company, ("the Applicant").

WITNESSETH:

WHEREAS, the Applicant has submitted an Application ("Application") to the City for adoption of a resolution giving the City's approval to an Industrial Facilities Exemption Certificate ("IFEC"), pursuant to Public Act 198 of 1974, as amended, for real and personal property ("Facility") located at 8063 Decatur, Detroit, Mi 48234. (A copy of the application is attached hereto as Exhibit "A"); and

WHEREAS, The Applicant is making real and personal property improvements for the purpose of expanding capacity; and

WHEREAS, as part of its application for an IFEC, the Applicant has submitted an employment plan to the City of Detroit Human Rights Department (a copy of the employment plan is attached hereto as Exhibit "B") wherein it has represented that during the term of the IFEC it shall not discriminate in its employment practices because of an individual's age, sex, race, color, creed, religion, marital status, national origin, political orientation, sexual orientation, or non-disabling handicap, and that it will take affirmative action to recruit and hire minority persons and women in accordance with specified targets; and

WHEREAS, pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter into a "written agreement" prior to approval and issuance of an IFEC by the Michigan State Tax Commission; and

WHEREAS, to encourage approval of the IFEC and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

1. General.

a. The Applicant will complete the real and personal property improvements set forth in the Application.

b. The Applicant will be required to create sixty-four (64) new full time employees at the Facility within two years of the approval date.

For the purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty hours (40) per week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

2. Annual Affirmative Action Report by the Applicant.

On or before November 1, 2007 and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report (Form EEO-1); and 2) a current Employer Information Report Form (EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan, which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

3. Annual Status Report by the Applicant.

On or before November 1, 2007 and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of this agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is attached hereto as Exhibit "C".

4. Review and Audit of Application Employment Information.

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will pro-

vide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

5. Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements.

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Departments, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility cost is substantially less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an Industrial Facilities Exemption Certificate. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing, reasons for any shortfall by the applicant in its compliance with this Agreement.

6. Payment of Abated Taxes for Shortfall of Employment.

If the average number of new and retain full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in

the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing, reasons for any shortfall by the Applicant in its compliance with this agreement.

7. Reimbursement of City Costs upon Discontinuance of Operations.

a. To enable the Applicant to make the improvements or to install the equipment, machinery, future and fixtures as set forth in the amended Application, or to enable the applicant to operate the Facility, the City may incur cost for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of Development Activities of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination of the Director of Development Activities of the City Planning and Development Department.

8. Living Wage Ordinance.

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance ("Ordinance") which copy is attached as Exhibit "D" and made a part hereof, and the Applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

9. **Prevailing Wage Requirements.**
 The Applicant agrees that Detroit Ordinance ch 18, at 5 div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. See Exhibit E for a copy of the applicable Ordinance and the rates.

10. **Reservation of Remedies.**
 The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgment, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

11. **Effective Date.**
 This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the facility, and shall be null and void and of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

12. **Headings.**
 The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this agreement as of the date first above written.

Honorable City Council:

Re: Young Manor — Payment in Lieu of Taxes (PILOT).

Young Manor is an existing housing complex, located at 2500 West Grand Boulevard near Wayne State University and Henry Ford Hospital. This development is currently paying a PILOT Service Charge. Keystone Management Group is in negotiations with MSHDA to purchase Young Manor from the current owner by assuming the outstanding mortgages. The purchaser is to preserve the existing Section 236 and RAP Contracts for their remaining terms ending in 2017. One hundred (100) percent of the 153 units are covered by the Section 236 contract and 80% or 122 units are covered under the tenants base subsidy RAP contract. In addition the Purchaser will agree to restrict occupancy and rents consistent with its Low Income Housing Tax Credit (LIHTC) application. These restrictions will remain in effect for the longer of the period the Authority mortgage loans remain outstanding, or the period required by the LIHTC Regulatory Agreement.

According to a Capital Needs Assessment dated July, 2004, the development's 20-year capital needs plan totals \$2,820,590. Anticipated near-term needs include rebuilding or resurfacing the parking area, replacement of rooftop mechan-

ical equipment, and the continued upgrade of in-unit finishes and equipment. Capital Needs Assessment repairs and renovations are expected to provide long-term viability for the development's physical plant while improving its liquidity position and vacancy rate.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of 10% of the net shelter rent.

Re: Genevieve Palczynski vs. City of Detroit. Case No.: 06-601662 NO. File No.: A19000.002943 (MVW).

On September 11, 2006, a case evaluation panel evaluated the above-captioned lawsuit and awarded Forty-Five Thousand Dollars (\$45,000.00) in favor of Plaintiff. Honorable City Council:

Re: Greektown Casino Garage Entrance Indemnity.

By Ordinance No. 24-06, adopted July 26, 2006, amending Article XVII, District Map 2 of the City's zoning ordinance to show an SD5 (Special Development District for Casino) Zoning Classification for those parcels upon which Greektown Casino LLC ("Greektown") has proposed to construct its expanded casino gaming facility with hotel and garage, Council approved Greektown's drawings, building elevations and other preliminary development proposals, subject to certain conditions set forth in the Ordinance with specificity. Among the conditions was the following:

"That Developer continue to work with the City Planning Commission staff, [and other Departments] as appropriate toward the refinement and finalization of the traffic analysis and the design of the casino complex including, but not limited to: a) entering into an agreement with the City, satisfactory to the Law Department, indemnifying the City with respect to traffic concerns prior to the issuance of building permits; ..."

Transmitted herewith, for your information, is a copy of a fully executed Indemnification and Maintenance Agreement, satisfactory to the Law Department, that in our opinion demonstrates satisfaction and compliance by Greektown with Council's requirement that Greektown enter into such Agreement indemnifying the City with respect to traffic concerns related to Greektown's proposed garage structure prior to the issuance of any building permits for improvements to the site.

A copy of the published Ordinance is on file in the City Clerk's Office. If you have any questions, let us know and we will be happy to respond.

**ST. CYPRIAN'S EPISCOPAL CHURCH
88TH ANNIVERSARY**

By COUNCIL MEMBER WATSON, Joined
By CONYERS:

WHEREAS, St. Cyprian's Protestant Episcopal Church has the distinction of being the only Episcopal Church established by and for African-Americans on the west side of Detroit. This historical parish mirrors the growth and emergence of Detroit's black population and its struggle for justice and equality, and

WHEREAS, St. Cyprian's is the daughter church of St. Matthew's Church which was founded on the east side of Detroit in 1846, and was the oldest black Episcopal Church in Michigan. African-Americans who lived on the west side of Detroit traveled across town to St. Matthew's Church for Sunday School and other church services. Usually, this was a time-consuming trip by streetcar on Sunday morning, and

WHEREAS, Among those who made this weekly round-trip from Thirtieth Street were Mrs. Nellie Warren and her son, Francis, who was crippled. Mrs. Warren sought a better way to provide the Sunday School experience for her family. She asked Father Robert Bagnall, the Rector of St. Matthew's Church to petition the Diocese to establish an Episcopal Church School on the city's west side, and

WHEREAS, The response was a plan for Francis Warren and the other Westside children to attend Sunday School in their neighborhood at 3:00 in the afternoon at St. James Episcopal Church on Twenty-Eighth Street and Warren Avenue. However, when this small group of black children and their parents arrived at the church, the Rector withdrew his promise to accommodate the Sunday School in his church even though it was scheduled for a different time than the Sunday School for the white children. The group was refused entrance, and

WHEREAS, The closed door was a catalyst for other doors to open; and, literally, six women arranged to carry the Church School from house to house; namely:

Beulah Carter, Clara Fullum, Veronica Lucas, Maud Stevens, Nellie Warren and Gussie Wheeler. First, the Church School was housed in the residence of Mr. and Mrs. Lucas on Thirtieth Street. Next, it was moved to the home of Mrs. Gussie Wheeler on Hartford Street; and later, a building was rented on Stanford Street which, in addition to housing the Church School, was used as a general neighborhood house and community social center. When the school outgrew this building, Father Bagnall, supported by Bishop Williams, persuaded the Diocese to establish a parish in this Westside community, and

WHEREAS, Accordingly, the Episcopal Diocese of Michigan purchased three lots and erected a temporary, framed church at Twenty-Eighth Street and Milford Avenue. St. Cyprian's was born in its mission stage, and the proud congregation of African-Americans moved into the Mission building, although it was incomplete, on October 1, 1919, and

WHEREAS, It was fitting that the new Episcopal mission for African-Americans would be dedicated to the patron, St. Cyprian, an African bishop from Carthage who, during the third century, suffered persecution unto death because of his unwavering claim to Christianity. St. Cyprian's Mission Church developed with the leadership of three vicars: Father Charles S. Sedgwick from 1919-1924; Father James Satterwhite from 1924-1930; and Father J. R. Lewis from 1930-1936.

WHEREAS, Both Father Satterwhite and his successor, Father Lewis, attempted, without success, to obtain building funds and sanction from the Diocese for a new church. It was not until a January meeting in 1938, that the Diocese honored the request from Father Malcolm G. Dade who had been installed as Deacon-in-charge of St. Cyprian's Mission, on January 16, 1936 and ordained as priest by Bishop Herman Page on August 23, 1936, and

WHEREAS, Father Dade, a visionary priest for Bedford, Massachusetts provided the mandate for a contract signing on March 10, 1936 between the Diocese and St. Cyprian's Mission and the cornerstone was laid on Easter Sunday, April 17, 1938. St. Cyprian's, the New Church with a New Vision, was dedicated on Sunday, September 25, 1938. Two years after the dedication of the new church building, St. Cyprian's Mission became the first African-American mission to become an independent, self-sustaining parish, St. Cyprian's.

WHEREAS, On April 20th, St. Cyprian's Church was consecrated, debt free, by Bishop Richard Emrich of the Diocese of Michigan. Incorporators of the 1950 Parish were Thomas A. Brown,

Wallace J. Cox, William S. Hall, Roy J. Morton, Arthur J. Tomlinson, and Herbert U. White. Growing from 100 members in 1936 to over 500 during the 1960's, St. Cyprian's became one of the most politically and community active churches in Detroit with the leadership of Father Dade and many parishioners who were labor and civic leaders. Moreover, the Diocese was well served by the following: Roy J. Morton, Willis M. Graves, Esq. Emella Cabule, Sadie Ramsey, Mavis Mason, Horace Rodgers, Esq., THEN, THEREFORE BE IT

RESOLVED, That the Detroit City Council congratulates the Rev. Dr. Donald M. Lutas, Rector/Pastor and the St. Cyprian Episcopal Church family for 88 years of service to the greater Detroit community and wishes for 188 more years of Christian ministry.

City Council

Division of Research & Analysis

September 21, 2006

Honorable City Council:

Re: Proposed Scrap Iron and Metal Processor Ordinance; and Proposed Junk Dealers Ordinance.

Pursuant to your Honorable Body's request to the City Council Research and Analysis Division (RAD) to amend the appropriate ordinance(s) for the purpose of deterring theft and subsequent sale of metals to junk dealers and scrap iron and metal processors, RAD has attached two proposed amended ordinances.

1. Background

In the course of RAD's research on this issue, it appears there is a recent nationwide problem with people stealing metal from construction sites, vehicle radiators, copper from air conditioning units at businesses and homes, and even bronze vases from gravesites. Due to the increased demand for metals in China, the selling price of these items has gone up substantially. The result is a lucrative trade in the selling and buying of these articles. This has resulted in an additional financial burden on homeowners and businesses for replacement and also has the potential to increase property insurance rates.

Solving this problem will require the coordinated efforts of the community, local and state government. In addition to these proposed ordinances, the eyes of the community watching over neighboring properties, prompt reporting of property crimes in progress followed by a swift response from the Police Department, and expeditious enforcement in the courts will deter this activity. Catching the thief red-handed is the most efficient way to curb this type of crime, since there are no serial numbers on copper wires and pipes that can be used to convict a criminal.

On suggestion is a "theft hotline" that would allow the police to send out an "Amber Alert" type of notice to scrap metal processors and junk dealers that someone was seen stealing metals from a building or home. Once the processors and dealers are on notice of specific crime activity, this awareness on the part of both the police and business communi-

ty should result in a reluctance to purchase or receive metals that may be linked to that crime. Adherence to the documentation procedures in the ordinances will also help expose whether recently acquired materials were obtained by criminal means. Further, to ensure compliance with the documentation requirements under the ordinances, we suggest an increased level of inspection at the dealer/processor's premises by an "inspector" whether civilian or police.

It is also suggested that the administration make contact with neighboring municipalities to ask them to review and amend their ordinances to achieve a co-ordinated attack on this problem. The intent is to deter a thief from simply crossing Detroit's borders to a suburban scrap yard, in order to avoid Detroit's stringent ordinances.

Finally, to ensure the collection of fines for violations of the ordinances, your Honorable Body may want to increase the bond from \$2,000 to \$10,000 or whatever amount seems appropriate. This would be amended under a different ordinance.¹

2. Proposed changes to Junk Dealers ordinance and Scrap Iron and Metal Processor ordinance.

The most significant change pertains to scrap processors, who were literally unregulated with regard to the receipt and purchase of metals. This hampered police efforts to deter theft of metals. The amendments to the scrap processor's ordinance will now follow the amended junk dealers' ordinance.

The main areas of change to the ordinances include:

(a) Record keeping has been completely revised to provide that certain documentation is required when receiving *any* metals (expect for scrapped vehicles from a licensed dealer). This documentation must be *sent* to the police department on a *weekly* basis, rather than the current practice of the police having to come to the various businesses to check records. The dealer/processor is required to keep a duplicate set of records at its business, as well.

(b) A statement by the party bringing *any* articles to the dealer/processor requires more detailed information and a thumbprint. The statement/thumbprint is sent to the Detroit Police Department and state police as was required previously, but only for some items.

(c) Receipt of articles with altered or obliterated serial numbers, suspected as stolen, or the property of the City of Detroit is specifically prohibited. The dealer/processor has the burden of determining whether the City of Detroit authorized the sale of any of its property before the dealer/processor accepts same. Dealers/processors are required to advise the Police Department if a party presents

articles that are suspected of being stolen.

(d) Video surveillance is required at the junk dealer and scrap processor's premises to record footage of persons bringing articles to their business. The video must be kept for 30 days and made available to the police at any time.

(e) Penalties for violations of these ordinances constitutes a misdemeanor and will immediately revoke the dealer/processor's license for one year. If a dealer or processor accepts and disposes of City of Detroit property, the City will impose a lien against the business assets for the value of the property.

(f) Standard language has been added at Sections 2 through 5 of the ordinance to provide a savings clause and other provisions.

3. Conclusion and Recommendation

These proposed amendments to the ordinances are quite extensive and propose a tough stance in the fight to stop the receipt and sale of stolen metals. This issue and proposed ordinances should also be referred to the Police Department, the city-licensing agency, which is the Buildings and Safety Engineering Department, and the Law Department for approval as to form. If your Honorable Body decides to waive approval as to form, RAD can provide a resolution to suspend City Council Rule 27 by waiving approval as to form for the introduction of the two ordinances.

¹VII Junk Dealers, Division 2, License addresses the licensing of junk dealers and bond amount. Bond amount is currently \$2,000 under Section 49-7-25.

*WAIVER OF RECONSIDERATION (No. 2) per motions before adjournment.

STATEMENT BY COUNCIL PRESIDENT KENNETH V. COCKREL, JR., REGARDING INTRODUCTION OF SCRAP METAL AND PROCESSING ORDINANCES

Today the Detroit City Council voted to introduce two ordinances intended to curb the plague of scrap metal thefts in our city.

I wholeheartedly support the spirit of these ordinances. Thefts of copper wiring from street lights, air conditioning units, lighting fixtures, and other metals have climbed to what is widely believed to be an all time high. I have, myself, had gutters stolen from my garage recently.

However, I voted "no" on the introduction of these ordinances. This is primarily because the ordinances have yet to be thoroughly reviewed by the city's Law Department, which is customary in council's ordinance approval process. Furthermore, the ordinances have also not been reviewed either by the Police or Buildings Safety and Engineering Departments. Since these departments will be directly involved in enforcement, their input is critical prior to introduction of the ordinance.

This leads to my second concern. Because the input of these departments may lead to substantive changes in the ordinance language, these changes would force the Council to have to re-introduce the ordinance so that notice of these changes can be given to the public. While this is a critical public safety issue, I believe it makes sense to address the potential need for language changes on the front end rather than after the fact.

Based on a cursory review of the ordinances, the Law Department has already said it has identified some "legal problems."

When one considers this, the need to ensure that these ordinances are well-crafted and pass legal muster becomes paramount.

SUSPENSION OF CITY COUNCIL RULE NO. 27

Council Member Watson moved that Rule No. 27 of the "Rules and order of Business of the City Council", which requires that every ordinance previous to its introduction, shall be approved as to form by a proposed ordinance amending Chapter 49 of the 1984 Detroit City Code, "Secondhand Goods" by amending Article VIII "Scrap Iron and Metal Processor", by amending Sections 49-8-1,

49-8-2, 49-8-3, by adding Sections 49-8-4 through 49-8-14; to add "a person, corporation, co-partnership or firm" to the definition of scrap iron and metal processor; to add that no scrap iron and metal processor shall pledge or pawn any article nor loan money on the security of any article; to require the scrap iron and metal processor to exhibit on demand, by designated persons from the Police Department and Buildings & Safety Engineering Department, all articles on the premises; to submit a weekly record or log to the Police Department of all purchases containing a detailed list of information, etc., which motion prevailed as follows:

Re: Address: 2531 Canton. Name: Yvonne Castriota. Date ordered removed: March 8, 2006 (J.C.C. pg. 717).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on September 1, 2006 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of August 28, 2006.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.

2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. City Planning Commission

Honorable City Council:

Re: Request of Steven C. Flum, Inc., on behalf of Jayogeshawar, Ltd., for modification of plans in a PD-H (Planned Development District — Historic) zoning classification, generally bounded by Mack Ave., Brush St., Beabien St., and vacated Eliot St. to allow for the expansion of the existing medical office at 430 Mack (Recommend Approval).

NATURE OF REQUEST

Steven C. Flum, Inc. is petitioning on behalf of its client, Jayogeshawar, Ltd., for approval of plans for the PD-H (Planned Development District — Historic) zoning classification in the area generally bounded by Mack Ave., Brush St., Beaubien St., and vacated Eliot St., .47 acres in size. The request is to expand the existing medical office to add additional exam rooms and an accessory pharmacy. The existing 1,975 square foot building would be expanded to a total of 6,639 square feet. Fifteen (15) additional parking are proposed east of the alley, for a total of 19.

The proposed expansion would be one story in height, approximately twenty feet to the top of the parapet wall. The north and east facades of the building would be of a brown brick with cast limestone trim. The south elevation would be of scored concrete with glass block windows, with the west elevation partially made of these materials and partially brick.

All existing concrete and brick on the west and south sides will be painted a light brown/dark tan. A flat roof with a parapet is proposed. The parapet wall around the roof would be of brick on all four sides. A wrought-iron-style gate is proposed across the entrance to the parking lot adjacent to the building and a four-foot tall wrought-iron-style fence with brick piers would be constructed around the parking lot to the east.

MASTER PLAN AND DEVELOPMENT PLAN CONFORMANCE

The subject site is in the Lower Woodward sector of the Master Plan of Policies. The Master Plan shows SRC (Special Residential Commercial) as the future land use of the site. As the use of the site will not change, the proposed development will continue to be in conformance with the Master Plan.

The site is in the Brush Park Rehabilitation Project and, therefore, is controlled by the Brush Park Modified Development Plan. That plan shows Institutional as the "Proposed Land Use" for the subject site, and the medical facility is an allowed use in that land use category, as is the integrated commercial (pharmacy) use. The proposed development was presented to the Brush Park Citizens' District Council

(CDC) at its June 13 meeting. The CDC declined to take action on the proposal, citing a desire to review the Historic District Commission's (HDC) report. The HDC has reviewed the plans and on June 26 approved the proposal. To our knowledge the CDC has not met since June. The CDC was invited to the July 6 CPC discussion of the proposal, but did not attend.

PUBLIC DISCUSSION RESULTS

At the July 6, 2006 CPC public discussion of this matter, no members of the public spoke. A Commissioner had questions about the height of the proposed wrought-iron-style fence. Staff provided a survey of fence heights in the area. Wrought iron fences of at least 6 feet in height were found around 5 of the 7 uses near 430 Mack. The other two uses had 6 foot high chain link fences. The applicant has subsequently reduced the height of the proposed fence around the parking lot to the east to four feet.

A staff member from the Planning and Development Department (P&DD) raised questions and concerns from that department regarding the proposed development. Those issues were subsequently responded to by the petitioner, who made some revisions. P&DD now finds the current plans acceptable.

ANALYSIS

The proposed expansion is in conformance with the Master Plan and the Development Plan for the Brush Park area. As the site is located in the Brush Park Historic District, the appearance of the proposed building was reviewed and approved by the Historic District Commission at its June 26, 2006 meeting. The comments of the P&DD have been or will be incorporated to the extent possible.

RECOMMENDATION

City Planning Commission (CPC) recommends that the proposed plans for the 430 Mack Project be approved with the condition that final site plans, landscaping, and elevations be approved by CPC staff prior to the issuance of building permits.

After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

Springham Development, LLC is the project developer ("Developer"). The property is currently vacant following demolition of a cement storage facility by the Michigan Department of Environmental Quality in cooperation with the City of Detroit. Developer proposes to develop one nine-story tower containing ninety-five (95) residential condominium units, including parking garages on the first and second floors. Two buildings containing three City Homes each (total 6 units) and two groups of Marina Homes each containing five units (10 units) will also be constructed. A Pavilion containing a fitness center and pool will be included in the redevelopment of this site. Total eligible investment is estimated at \$58,000,000.

Purpose of the Proposed Plan

The proposed plan is intended to accomplish the following purpose: Upon approval of this Plan by City Council, the Developer will be entitled under State Law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project. Secondly, this Plan anticipates the capture of tax increment revenues to reimburse the Developer for the costs of eligible activities under this plan in accordance with the reimbursement agreement.

Property Subject to the Proposed Plan

Further environmental assessments are underway to verify the full extent of the contamination, and the Due Care requirements and additional response activities that may be required.

Eligible Activities and Projected Costs

The "eligible activities" that are intended to be carried out at the Property are considered "eligible activities" as defined by Sec 2 of Act 381, because they include due care activities, additional response activities, public infrastructure improvements, and site preparation. A summary of the eligible activities and the estimated cost of each eligible activity intended to be paid for with Tax Increment Revenues from the Property are shown in Plan it is currently anticipated construction will begin in the early winter of 2006 and eligible activities will be completed within 18 months.

Tax Increment Financing (TIF) Capture

This Plan anticipates the capture of tax increment revenues to reimburse the Developer for costs of eligible activities under this Plan in accordance with the Reimbursement Agreement. **City of Detroit
Brownfield Redevelopment Authority
September 22, 2006**

Honorable City Council:

Re: Regina Lofts Brownfield Redevelopment.

The enclosed Brownfield Plan for the Regina Lofts Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on August 14, 2006 to solicit public comments. At its August 2, 2006 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On August 16, 2006, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

253 Erskine LLC is the project developer ("Developer"). The project will entail the complete renovation of the building located at 253 Erskine and the construction of an additional building to house first floor garages and four second floor "Carriage house" style residential units on property located at 239 Erskine. The original building was constructed as a single family home. In the 1920s, an addition was constructed and the entire building was later converted to 28 very small units. This renovation will transform the existing building into 8 marketable-sized units. Eligible investment is estimated at \$2,967,797.

Purpose of the Proposed Plan

The proposed plan is intended to accomplish the following purpose: Upon approval of this Plan by City Council, the Developer will be entitled under State Law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project.

Property Subject to the Proposed Plan

The property comprising the eligible property consists of two (2) parcels: 253 Erskine and 239 Erskine, located in Detroit's Brush Park district, bounded by the alley between Eliot and Erskine Streets to the north, Brush to the east,

Erskine to the south and John R to the west.

Basis of Eligibility

The property is considered "eligible property" as defined by Act 381, Section 2 because (a) the property was previously utilized for a commercial and/or residential purpose; (b) it is located within the City of Detroit, a qualified local government unit; and (c) the building has been determined to be a "functionally obsolete." The building at 253 Erskine is functionally obsolete because it can not be used for the function it was originally intended, a single family home, due to a substantial loss in value caused by severe deterioration of the building, inadequate or non-existence electrical/plumbing/heating/life safety/telecommunication systems and very small unmarketable unit configuration.

Eligible Activities and Projected Costs

The "eligible activities" planned for the Property are identified by Act 381 and include demolition. The following eligible activities and budgeted costs are intended as part of the development of the property and are to be financed solely by the Developer. The DBRA is not responsible for any cost of eligible activities and will incur no debt. It is currently anticipated construction will begin in the first quarter of 2007.

Tax Increment Financing (TIF) Capture

This Plan will not capture tax increment revenues for financing costs of eligible activities under this Plan. The eligible activities are to be financed solely by the Developer. The DBRA is not responsible for any cost of eligible activities and will incur no debt.

Other Development Incentives

The property included in this Plan will request additional project support through the Neighborhood Enterprise Zone (NEZ).

Public Comments

The Regina Lofts public hearing was held Monday, August 14, 2006 at 11:00 A.M. at the Johansen Charles Gallery. One member of the public spoke in support of the project. There were no members of the public who spoke in opposition to the Regina Lofts project.

Plan Review

The Regina Lofts Project has been reviewed and received support from the City of Detroit Planning and Development Department, the Assessment Division of the City of Detroit Finance Department and the Michigan Economic Development Corporation.

Honorable City Council:

Re: Correction of Legal Entity Development: 4811 Martin.

On June 8, 2005, (Detroit Legal News, Page 14), your Honorable Body authorized the acceptance of the above-captioned property from the Detroit Public Schools of the City of Detroit by the Planning and Development Department and the subsequent conveyance of this property to Delray Non-Profit Housing Corporation, a Michigan Non-Profit Corporation, for the purpose of constructing approximately thirty-six (36) single-family homes with attached garages.

It has come to our attention that the name of the legal entity was issued in error. Accordingly, the sale to Delray Non-Profit Housing Corporation, a Michigan Non-Profit Corporation should be amended to show Delray United Non-Profit Housing Inc., a Michigan Non-Profit Corporation, as the buyer. This developer possesses the qualifications and has indicated potential financial resources necessary to acquire and develop the land in accordance with the Development Plan.

We, therefore request that your Honorable Body adopt the attached resolution authorizing an amendment to the sales resolution to reflect the name change in the purchaser from Delray Non-Profit Housing Corporation, a Michigan Non-Profit Corporation to Delray United Non-Profit Housing Inc., a Michigan Non-Profit Corporation.

Respectfully submitted,

Re: Amendment of Sales Resolution.

Development: Parcel 78A; generally bounded by Agnes, Fischer, Leach & Crane.

On February 9, 2005, (J.C.C. It has come to our attention that the name of the assignee's legal entity was issued in error. Accordingly, the assignment to East Village, LLC, a Michigan Limited Liability Company, should be amended to show East Village Development Group, LLC, a Michigan Limited Liability Company.

East Village Development Group, LLC, a Michigan Limited Liability Company, is also requesting that the Development Agreement be amended to extend the development period to August 31, 2008.

The Planning & Development Department has reviewed the request of East Village Development Group, LLC, a Michigan Limited Liability Company, and has determined it to be reasonable and consistent with the terms and conditions set forth in the Development Agreement. East Village Development Group, LLC, possesses the qualifications and has indicated potential financial resources necessary to develop the land in accordance with the Development Plan.

Under the terms of an Assignment, Assumption and Consent Agreement, East Village Development Group, LLC, will complete the development of approximately seventeen (17) single-family homes.

The disposal of this land by negotiation is an appropriate method for making the land available for redevelopment and the

proposed Assignment, Assumption and Consent Agreement is in satisfactory form.

We, therefore request that your Honorable Body adopt the attached resolution authorizing an amendment to the sales resolution to reflect a name change in the assignee from East Village, LLC, a Michigan Limited Liability Company to East Village Development Group, LLC, a Michigan Limited Liability Company.

Re: Request permission to accept a grant award earmarked in the 2006 Congressional Mandate from the United States Department of Justice.

The United States Department of Justice has offered the Detroit Police Department's Community Service an opportunity to accept a Congressionally Mandated award in the amount of \$197,446 with no cash match. The grant is entitled "Community Policing, Education and Outreach Program."

The Detroit Police Department will continue to enhance the Citizen Police Academies. There will be fifteen (15) academies over the three year grant period, ending June 30, 2009. In addition, the grant will purchase two "Mobile Mini-Stations" that will travel throughout the community and provide services to high crime areas. Wayne State University will provide professional assistance and install a technical assistance (Dashboard Indicator) system, including implementation, setup and training.

Community Service has projected that, as a result of this grant, there will be increased cooperation between the police department and the community. The police department will be more accessible and visible in the neighborhood, thus preventing criminal activity. If approved, Lieutenant Terry Herbert, Commanding Officer of Community Service, will be the project director for the grant.

Participation requires the approval of your Honorable Body, via adoption of the attached resolution. The Board of Police Commissioners has been notified of the grant and approved participation.

If you have any additional concerns or questions regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

Re: Address: 1521-25 17th. Name: Michael Koehler. Date ordered removed: October 20, 2004 (J.C.C. p. 3457).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on September 25, 2006 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of September 18, 2006.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilita-

tion is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Honorable City Council:

Re: Neighborhood Enterprise Zone (NEZ) Certificate Applications in the Gratiot Woods Area (Recommend Approval).

The City Clerk's Office forwarded to this office four (4) applications from the Detroit Catholic Pastoral Alliance for Neighborhood Enterprise Zone (NEZ) certificates for 9305 Felch, units 1-4, within the Gratiot Woods NEZ.

The Gratiot Woods NEZ was approved by City Council on February 18, 2004. The petitioners are proposing to rehabilitate a three-story commercial/residential building into two commercial storefronts on the first floor and four condominium units on the two floors above.

The subject properties are confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. It appears that the request for certificates have been filed prior to construction, as the State Act requires. Detroit Catholic Pastoral Alliance has applied for the certificates, prior to the issuance of building permits, on behalf of future owners who will occupy the property. It is appropriate for Detroit Catholic Pastoral Alliance to apply for certificates at this time even if buyers have not yet been identified. The State Tax Commission, however, will not issue a certificate until an owner is identified. When an owner is identified, he or she can then apply for the certificate. At that time, it would not be necessary for City Council to pass another resolution.

The City Planning Commission staff, therefore, recommends approval of the requested certificates in the Gratiot Woods NEZ. Please contact Mr. Gregory Moots of my staff at 224-2110 with any questions.

Respectfully submitted,
MARCUS D. LOPER
Deputy Director
