Re: Application for (31), Neighborhood Enterprise Zone Certificates for English Village/S 4 (Recommended Approval).

The Finance Assessment Division has received (2) applications for the Homestead Facilities Neighborhood Enterprise Zone certificates in the English Village/S 4 area. The Homestead Facilities Neighborhood Enterprise Zone (NEZ) designation for English Village/S 4 was approved by your Honorable Body on July 28, 2006. The Finance Assessments Division has reviewed the applications and recommends approval.

Homestead Facilities NEZ certificates are being requested for the following addresses attached to this memorandum. The properties have all been confirmed as being within the boundaries described above and should be eligible for the Homestead Facilities NEZ certificates as stipulated under the State Public Act 147 of 1992 as amended in 2005. The properties listed are homestead established properties and it is imperative that each homeowner file for a Primary Residence Exemption to establish their homestead.

The State Tax Commission will issue the Homestead Facilities NEZ certificates to homeowners who have been identified and filed an application. The Finance Assessments Division staff, therefore recommends that the City Council pass a resolution to establish the properties listed as qualified in the designated area.

By COUNCIL MEMBER S. COCKREL,

Joined By ALL COUNCIL MEMBERS:

WHEREAS, The voters in parts of the Cities of Highland Park, Hamtramck and Detroit have voted to elect Mr. Bert Johnson to represent them in the Michigan House of Representatives in the August 2006 primary and the November 2006 General Election. And

WHEREAS, Mr. Johnson has distinguished himself through his public service as Chief of Staff to Representative Bill McConico for 4 years. And

WHEREAS, Mr. Johnson has worked tirelessly, the neighborhoods of Detroit, Hamtramck and Highland Parks that comprises the 5th District. He has been assisting people in need throughout these neighborhoods. And

WHEREAS, Mr. Johnson in his youth made a mistake. A serious mistake for which he accepted full responsibility and has paid his debt to society. And

WHEREAS, Republican Speaker of the House, Craig DeRoche has publicly stat-

ed that he will seek to invoke a state constitutional provision that bars anyone from holding a seat in the State Legislature "who has within the preceding 20 years been convicted of a felony involving a breach of a public trust." And

WHEREAS, Mr. Johnson's no-contest plea was accepted by The Court and cannot be treated as a conviction that involves a breach of a public trust according to many leading Attorneys, Republican and Democrat alike. And

WHEREAS, The Republican attack aimed at suburban democrats Ms. Lisa Brown and Ms. Kate Ebli is the latest example of the willingness of members of the Republican Party to use racist tactics to disenfranchise African American voters and increase division between Detroit and the suburbs. And

WHEREAS, This callous and highly partisan, politically motivated attack by Speaker DeRoche (R-Nov) and Republican Party is outrageous on its face, in light of the moral bankruptcy of multiple members of the National Republican Party. And NOW THEREFORE IT BE IT

RESOLVED, That the Detroit City Council expresses its strong support of Mr. Johnson and that his election reflects the will of the voters of the 5th District. And BE IT FURTHER

RESOLVED, That the Detroit City Council expresses its outrage at the moral bankruptcy of the Republican Party that is evident not only in allegations of bribery that dog members of Republican delegation in Congress, to numerous to name. Suffice it to say that the access to Republican leadership, (including the White House) enjoyed by disgraced lobbyist, Jack Abramoff, is an indication of moral bankruptcy of the highest order. The most recent allegations surrounding the resignation of former U.S. representative Mark Foley only speak to the depths to which leadership has sunk. And BE IT FURTHER

RESOLVED, That we urge that the reasonable voices in the Republican delegation in Lansing prevail upon the more strident voices and let the will of the voters in the 5th District prevail. We note that the old maxim "People in Glass Houses should not throw stones" surely applies to this situation. And BE IT FURTHER

RESOLVED, That we urge that the voices of reason in the Republican delegation denounce the use of racist tactics as evidenced in the Brown and Ebli attacks ads. And BE IT FINALLY

RESOLVED, That copies of this resolution be circulated to the Governor, Jennifer Granholm, Mayor, Kwame M. Kilpatrick, Senate Majority Leader, Ken Sikkema, Senate Minority Leader, Bob Emerson, Speaker of the House, Craig DeRoche, House Democratic Leader,

Law Department

November 6, 2006

Honorable City Council:

Re: Petition Number 1050 — Request for City Council Approval for the Issuance of a Michigan Liquor Control Commission Dance Permit to The New Whitney, LLC for a Group 'A' Cabaret at 4421 Woodward.

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice (Request ID Number 334281), which has been designated by the City Clerk as Petition Number 1050. This Local Approval Notice requests approval or disapproval by City Council of a request for the issuance of a dance permit in conjunction with the transfer of ownership of a "2005 Class C" liquor license at 4421 Woodward from the Whitney Restaurant Corporation to The New Whitney, LLC.

Buildings and Safety Engineering Department ("B&SE") records indicate that 4421 Woodward is located in a B-4 (General Business) zoning district and the sale of alcoholic beverages for consumption on the premises, which is a permitted use in this zoning district, has been approved since at least 1950. Further, B&SE Business License Center records indicate that the location is currently licensed by the City as a Group 'A' Cabaret. A Group 'A' Cabaret license permits an establishment to sell or serve alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without dancing. Therefore, the continued use of this property for a 'Group A' Cabaret with patron dancing, only, is per-

mitted subject to compliance with all relevant codes and City ordinances.

B&SE Business License Center records indicate that the owner of The New Whitney, LLC, has paid the fee for the issuance of a 'Group A' Cabaret license for the location. Pursuant to Chapter 30 of the 1984 Detroit City Code, business owner and the premises will have to meet the applicable requirements of the City Code prior to the issuance of the business licenses for the location.

After investigation and review, the Detroit Police Department ("DPD") Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the transfer of the "Class C" license and the issuance of a dance permit to the New Whitney, LLC, at 4421 Woodward. A review of available records did not reveal any MLCC violations at the location within the preceding twelve (12) months, and the DPD Liquor License Unit reports that there have not been any violations of law at the location for the preceding twelve (12) months. The New Whitney, LLC, and the applicant, Arthur Liebler, do not operate any other establishments that are licensed to sale alcoholic beverages within the city.

Upon this Body's approval of the request for the issuance of a dance permit, in conjunction with the transfer of the "Class C license" at 4421 Woodward, and the issuance by the B&SE Business License Center of a Group 'A' Cabaret business license to The New Whitney, LLC, the location will be approved for patron dancing on the premises. Pursuant to Sections 916(2) of the Liquor Control Code, being MCL 436.1916(6)(2), the issuance of a dance permit does not allow for adult entertainment, such as topless activity, in a licensed establishment.

The Law Department recommends that this matter be placed on the City Council's agenda for the approval or disapproval of the request for the issuance of the dance permit in accordance with this Body's August 1, 2003 and July 7, 2004 resolutions on the procedures and criteria for the approval or disapproval of dance, entertainment, and topless activity permits. Attached is a proposed resolution approving the issuance of the dance permit to The New Whitney, LLC, for 4421 Woodward.

If there are any questions or concerns, please do not hesitate to contact our office.

Respectfully submitted,
BRENDA E. BRACEFUL
Deputy Corporation Counsel

Re: Neighborhood Enterprise Zone Certificate Application for 1 housing unit within the Bagley Neighborhood Enterprise Zone (Recommend Approval).

The City Clerk's Office forwarded to our office an application from the Bagley Housing Association for a Neighborhood Enterprise Zone (NEZ) certificate for 1742 St. Anne within the Bagley NEZ, which was approved by the Detroit City Council in September 1998.

The Bagley Housing Association is proposing rehabilitation of this condominium. City records show that 1742 St. Anne has a true cash value of about \$9,066; the owner hopes to invest about \$125,000 toward the rehabilitation of this unit.

The unit is located east of I-75 and just north of Bagley Avenue. The property is confirmed as being within the boundaries of the Bagley NEZ and should be eligible for an NEZ certificate under State legislation as currently written. Based on the above analysis, CPC staff recommends approval of the subject NEZ certificate.

Re: Proposed Third General Text Amendment to Chapter 61, Zoning (RECOMMEND APPROVAL).

On 12 June and 03 July, 2006, City Planning Commission (CPC) staff submitted reports to your Honorable Body regarding the new Michigan Zoning Enabling Act, Public Act 110 of 2006. This Act went into effect 01 July 2006. We indicated at that time that changes to Detroit's Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code, would be needed in order to comply with the new Zoning Act.

Attached to this report is a text amendment to the Zoning Ordinance, drafted and revised by CPC staff in conjunction with an interdepartmental review team consisting of staff from the Planning and Development Department (P&DD), Buildings and Safety Engineering Department, Law Department, and Board of Zoning Appeals (BZA). This is the Third General Amendment to Chapter 61. It contains the needed revisions for consistency with the Michigan Zoning Enabling Act (MZEA) as well as numerous items unresolved or undiscovered at the time of the Second General Amendment. A Fourth General Amendment is anticipated within the next six months.

SCOPE OF THE PROPOSED ORDINANCE

The proposed ordinance contains provisions in nine main areas:

1. **Michigan Zoning Enabling Act.** Both substantive (12 items) and non-substantive changes (19 items) are included to bring Detroit's Zoning Ordinance into compliance with new requirements of the State as a result of adoption of Public Act 110 of 2006, the Michigan Zoning Enabling Act.

2. **Procedure, Jurisdiction, and Administration.** Fifteen (15) clarifications and revisions are proposed related to the manner in which various provisions are applied.

3. **Regulations of specific land uses.** Use regulations for six (6) uses — dry

cleaners, deferred presentation centers (payday lending stores), party stores (SDD and SDM), abandoned vehicle storage yards, cell towers, and restaurants — are further clarified or modified.

4. **Intensity and dimensional standards.** Setback, yard, and related dimensional standards are addressed for rooming houses, gas stations, private garages, and town houses.

5. **Development standards.** Parking waivers, accessibility standards, stacking spaces, wheel stops and curbs, off-street loading standards, and landscaping provisions are clarified or modified.

6. **Nonconforming uses.** The list of nonconforming uses that may be considered by the BZA for re-establishment or change has been expanded to include most "food and beverage service" land uses as a way of avoiding possibly illegal "spot zoning" petitions.

7. **Definitions.** Definitions for five (5) terms are provided or modified — cemetery, Central Business District, child care center, Cultural Center, and minor motor vehicle services.

8. **Non-substantive "housekeeping" changes.** Nineteen (19) sections are amended to correct misspellings, punctuation, cross-references, numbering, formatting, and other scrivener's errors.

9. **Appendix A.** Seven (7) terms are added to Appendix A.

A detailed section-by-section, topic-by-topic summary of provisions will be provided prior to Council's interdepartmental discussion on this ordinance.

RESULTS OF CITY PLANNING COMMISSION PUBLIC HEARING

At the 05 October 2006 CPC public hearing on this matter, staff of the Downtown Development Authority (DDA) offered detailed comments, twelve (12) members of the public signed in to testify, and the Downtown Detroit Partnership submitted written comments prior to the hearing. In addition, there were questions and discussion raised by commissioners. Two issues raised by City Council and included in the draft of the proposed ordinance were the subject of lengthy discussion at the hearing and have been removed from the current draft, pending additional review — temporary outdoor retail sales (vending on private property) and temporary advertising signs (downtown supergraphics pilot project).

- The DDA recommended strongly against inclusion of the temporary signage provisions for a Central Business District (CBD) supergraphics pilot project noting that large advertising signs would make downtown buildings less attractive to those that the City and private sector have recently attracted. The DDA is the fee-simple title owner of fourteen (14) properties downtown that are being promoted for redevelopment and also has a

lease interest in both Comerica Park and Ford Field. The DDA's representative indicated that the proposed pilot project would undercut the ordinance which prohibited new advertising signs inside Grand Boulevard; that ordinance was viewed as a significant element of the framework within which the DDA, neighborhood organizations, and the private sector are making their commitments to downtown Detroit and the neighborhoods surrounding it. Concern was raised that a proliferation of large and distracting advertising signs would overshadow and overwhelm the areas neighboring the signs for significant periods of time.

- One resident voiced support for the supergraphics pilot project, mentioned other large cities where advertising is permitted on buildings and noted that the signage looks beautiful if done in a tasteful and controlled way, adding color and life to the City.

- Another resident strongly supported the addition of a City Planning Commission member to the Board of Zoning Appeals. The resident also supported the clarifications, reductions, and limitations for temporary outdoor retail sales. Her community has experienced problems with temporary signs distracting traffic and has been burdened with removing illegal temporary signs. She opposed supergraphics downtown and cell towers in small parks and schools.

- Three advertisers, whose proposal to City Council prompted the supergraphics pilot project provision, favored the temporary sign provisions and responded to concerns voiced by the DDA representative. They pointed out the time-limited nature of the proposed pilot project, the significant revenue that supergraphics can realize for buildings, and the limited scope of potential sites given the 1,500 square foot minimum sign size requirement. The advertising signs were viewed as consistent with downtown's focus as an entertainment venue and suggested that most advertising was artistically driven. One of the speakers also noted the job-creating benefit of vending.

- A resident and developer raised concerns about an overconcentration of signs, noting the negative impact experienced by residents in his building across from a signage-covered building, and that a speculator might view wall signage as the highest and best use for a skyscraper. He also noted problems with the site plan review process and urged immediate attention to it and revisions in the process.

- One person, who had to leave prior to speaking, indicated support for the ordinance. CPC staff discussions with the same party focused on the need to facilitate reoccupancy of commercial buildings in residential areas by non-residential

uses without the need to rezone the land.

- A west side block club representative supported advertising if done tastefully, citing both positive and negative examples. He also requested enforcement of zoning with regard to a muffler shop in his area.

- One resident, who had operated a retail establishment, objected to the proposed temporary outdoor retail sales revisions since they would help "vendors" undercut established retail businesses with higher employee and overhead costs. In speaking of Detroit as a "family town," she noted Detroit does not need "all that glitter" from large advertising signs and that the free advertising from illegal temporary signs posed a problem for the community having to remove them.

- A spokesperson for a neighborhood association objected to the illegal advertising in her area and the low fines for sign violations. She expressed concern over cell towers in business districts, felt that certain kinds of outdoor sales at gas stations were not safe, and supported the addition of a CPC member on the BZA.

- A resident offered a series of comments on proposed provisions: support for expansion of the BZA to include a member of the CPC; concern over vendors and the traffic problems they may cause and the difficulty of enforcement outside of regular business hours; the effect of supergraphics on the architecture of downtown and the need to preserve nice vistas for Detroit's citizens, agreeing with the DDA's suggestion to remove the supergraphics pilot project provisions.

- The final speaker agreed with earlier testimony about the problem of lack of enforcement of Zoning and other Code provisions, in particular relative to signage. She urged greater limitations on cell towers, noting their proliferation every few blocks on certain commercial streets.

CONCLUSION AND RECOMMENDATION

The City Planning Commission respectfully recommends approval of the attached ordinance, which has been forwarded to the Corporation Counsel for approval as to form. Your Honorable Body may wish to schedule the customary interdepartmental discussion at the earliest possible date. Because of the time constraints at the end of the year, we suggest Council not wait for the approved-as-to-form ordinance to hold this discussion. Once approval as to form has been received, the ordinance can be introduced and a public hearing scheduled.

Should Council choose to expand the size of the BZA from seven (7) to nine (9) members, as would be authorized, though not required, by the proposed ordinance, this text amendment would have to be passed prior to appointing additional members. Regardless of the size of the BZA, next year's BZA must include a

member of the City Planning Commission to comply with State law.

2. Procedure, Jurisdiction, and Administration

Licensing provisions — Page 21, Sec. 61-4-92(1).

In various sections of the Zoning Ordinance, cross-references are provided to other chapters of the 1984 Detroit City Code where licensing regulations include land use-type provisions. In some instances, the very provisions that appear in non-zoning chapters of the City Code are restated in Chapter 61 for the convenience of the reader. For example, the licensing provision, specifying a 12-car minimum for used car sales lots that appears in Sec. 49-6-14, is restated in the Zoning Ordinance at Sec. 61-12-213(1) as a use regulation.

While the Zoning Ordinance authorizes the Board of Zoning Appeals to adjust or waive use regulations specified in the Zoning Ordinance, the Board has no such authority to waive a licensing provision specified elsewhere in the City Code. Clarification is provided that the BZA may modify use regulations, except where such provisions are also specified elsewhere in the City Code as requirements for licensing or other regulatory purposes.

Use variances — Page 21, Sec. 61-4-92.

The same section, Sec. 61-4-92, further clarifies that the BZA’s authority to adjust or waive a use regulation applies only to those divisions of text within Article XII where general and specific use regulations are recited, as opposed to the divi-

sion of text where the very permissibility of a land use is indicated. To permit a use where Article XII indicates that such use is prohibited in a given district would constitute a use variance — an approval authority that was repealed from the Zoning Ordinance upon adoption of the new Chapter 61.

Assessed valuation — various sections.

There are various provisions within the Zoning Ordinance that are triggered when the dollar value of a permit application exceeds sixty percent (60%) of the assessed valuation of the property. This threshold disadvantages tax-exempt properties since their assessed valuation is zero. Since 60% of zero is zero, every permit application for work on tax-exempt premises would exceed the 60% threshold. This could result, for example, in a non-profit, tax-exempt organization having to go through the time and expense of a public hearing or abide by off-street parking or landscaping standards that a for-profit business would avoid.

A definition of “assessed valuation” is provided and a clarification is provided that, with respect to exempt properties for which the assessed valuation is zero, an independent valuation from a reputable source, subject to review and acceptance by the Buildings and Safety Engineering Department, may be presented by the owner as the basis for determinations required by the Zoning Ordinance. The following six (6) sections are amended to relate to that definition and clarification:

Item	Page(s)	Section
1.	18	61-3-246
2.	62-63	61-14-4
3.	71	61-14-192
3.	79-80	61-15-22
4.	80-81	61-15-36
5.	81	61-15-37
6.	83	61-16-33, Definition of Assessed valuation

Principal and accessory uses — various sections.

Certain uses, such as restaurants and child care centers may occur as either a principal use of the land or as accessory to another use. The following sections clarify the distinction between principal and accessory use.

Item	Page(s)	Section
1.	51	61-12-401 (Restaurants)
2.	51-52	61-12-402 (Child care centers)
3.	90	61-16-171, Definition of schools (use category)

Miscellaneous provisions on Procedure, Jurisdiction, and Administration — various sections.

- Membership of the Solid Waste Facility Review Committee is clarified — **Pages 6-7, Sec. 61-2-113.**

- The “lapse of approval” provision in PD Districts is modified to allow City Council to rezone the land to a previous

zoning classification or another appropriate zoning classification — **Pages 15-16, Sec. 61-3-98.**

- The schedule of fines for certain blight violations is revised to provide for greater fines at the Department of Administrative Hearings — **Page 22, Sec. 61-5-21.**

- The plan review process in PD (Planned Development) Districts is clarified — **Pages 31-32, Sec. 61-11-12.**

3. Regulations of specific land uses

- **Dry cleaning, laundry, or laundromat — Pages 37-38, Sec. 61-12-162(e).** Licenses required by the City Code are cross-referenced as a use regulation.

- **Payday lending stores — Page 40, Sec. 61-12-162.5.** After the State of Michigan passed legislation to subject **deferred presentment centers**, commonly known as “payday lending” or “check advance” center, to licensing by the Office Financial and Insurance Service (OFIS), City Council directed CPC staff to prepare an amendment that would bring such business under City regulation as well.

A use regulation for “financial services establishments” has been added that specified any deferred presentment center is required to obtain and maintain a State license from OFIS and that non-renewal or revocation of the OFIS license would constitute abandonment of the use.

- **Specially designated distributor’s (SDD) establishment or specially designated merchant’s (SDM) establishment — Pages 41-42, Sec. 61-12-234(3).** Wording in the use regulation regarding the 15,000 square foot threshold is corrected and reconciled with wording in the definition.

- **Police Department authorized abandoned vehicle storage yards — Pages 42-43, Sec. 61-12-265.** The masonry wall screening provision is expanded.

- **Cellular telephone antennas — Pages 43-50, Secs. 61-12-316, 61-12-317, 61-12-321.** Building-mounted antennas are permitted by right in certain districts, other than R1, R2, and R3, provided the antennas are effectively concealed or camouflaged. The prohibition of cell towers on land zoned R1, R2, and R3 is lifted at lighted athletic fields where they would be permitted on a conditional basis. Cell towers are newly required to be set back at least one hundred twenty (120) feet from any R1, R2, or R3 district.

- **Restaurants — Page 51, Sec. 61-12-401(2).** Concession stands in the PR (Parks and Recreation) zoning district are considered as an accessory use where they are under contract with the Recreation Department and other governmental or non-profit operating entities.

4. Intensity and dimensional standards.

- **Rooming houses — Pages 52-53.**

Sec. 61-13-4. The intensity and dimensional standards in the R3 district are deleted since rooming houses are prohibited in that district.

- **Motor vehicle filling stations — Page 55, Secs. 61-13-99, 61-13-100.** Equipment setbacks for diesel and kerosene pumps are established. Also, the maneuvering area provision is expanded.

- **Encroachments — Pages 55-61, Secs. 61-13-127, 61-13-146.** Permissible encroachments by accessory structures into required setbacks are clarified; a 3-foot setback from lot lines is generally required for garages, except where a damaged garage is being rebuilt on an existing foundation.

- **Town houses — Pages 61-62, Sec. 61-13-173.** The yard requirements for two or more buildings per lot apply to attached groups of town houses as well as apartment buildings.

5. Development standards

- **Parking waivers — Pages 64-65, Sec. 61-14-103.** The procedure for waivers of off-street parking requirements is clarified.

- **Accessibility — Pages 65 and 67-68, Secs. 61-14-122, 61-14-143.** The off-street parking requirements for accessible spaces is corrected to coincide with the Michigan Building Code.

- **Illustrations — Pages 66 and 70, Figures 16-14-131(B) and 61-14-177.** Illustrations are corrected to accurately reflect text provisions. The correct width of a stacking lane is ten (10) feet, not nine (9). Landscaping, that is not required, is removed from the illustration and the five (5) foot wide walkway adjacent to the building is depicted.

- **Stacking spaces — Page 67, Sec. 61-14-133.** The layout and design of stacking spaces and areas are clarified.

- **Wheel stops and curbs — Page 69, Sec. 61-14-153.** The placement of wheel stops and curbs in parking lots is clarified.

- **Off-street loading — Page 69, Sec. 61-14-161.** The design principles for maneuvering in an off-street loading area are clarified.

- **Landscaping — Pages 71-72, Sec. 61-14-193.** The landscaping requirements for single- or two-family residential dwellings are clarified.

6. Nonconforming uses — Pages 75-78, Secs. 61-15-18, 61-15-20.

Relaxation of the limitations on changes of active and abandoned nonconforming uses and on the re-establishment of abandoned nonconforming uses to facilitate the reoccupancy of existing commercial or industrial buildings in residential areas by restaurants, including those serving alcohol on the premises.

7. Definitions

- **Cemetery — Page 84, Sec. 61-16-51.** A definition is inserted to clarify that

the interring of the body or cremated remains of the dead are permitted.

- **Central Business District — Page 84, Sec. 61-16-51.** The definition is clarified to indicate that the boundaries follow the centerlines of streets.

- **Child care center — Page 84, Sec. 61-16-52.** The definition is expanded to include "Head Start" programs.

- **Cultural Center — Page 85, Sec. 61-16-54.** A definition is inserted to repeat the boundaries already mentioned in Sec. 61-12-437(1).

- **Minor motor vehicle services — Page 88, Sec. 61-16-133.** The definition is expanded to clarify that auto detailing shops are classified as minor motor vehicle services.

Section 916(10) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, a combination dance-entertainment permit, or a topless activity permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of (1) the chief law enforcement officer, and (2) the legislative body of the municipality within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded a Local Approval Notice (Request ID: 198399) to the Detroit City Council, which has been designated by the City Clerk as Petition Number 1392. This Local Approval Notice indicates that the applicant, H.D.V.-Greektown, LLC, requires local legislative approval for the issuance of a dance-entertainment permit and a topless activity permit by the MLCC in conjunction with the transfer of ownership of a Class "C" liquor license from K & P, Inc., at 415 E. Congress.

Buildings and Safety Engineering Department ("B&SED") records indicate that 415 E. Congress is located in a B6 (General Services District) inside the Central Business District. Further, B&SED records indicate that, pursuant to B&SED Case No. 15-94, dated April 26, 1994, K & P, Inc., was issued Building Permit No. 89128 on May 12, 1994 to add adult cabaret use (adult-type Cabaret 'D' entertainment) to an existing Class "C" bar.

Pursuant to Subsections 61-9-116(9) and 61-9-116(14) of the Detroit Zoning Ordinance, being Chapter 61 of the 1984 Detroit City Code, the use of 415 E. Congress for a cabaret or an establishment for the sale of beer or intoxicating liquor for consumption on the premises is on a by-right basis due to the location being within the Central Business District. Further, the adult cabaret use was approved for 415 E. Congress prior to the enactment of Ordinance No. 39-99, which, among other things, amended the Detroit Zoning Ordinance to prohibit adult cabarets on land zoned B6 within the Central Business District. Therefore, pursuant to Section 61-16-142 of the Detroit Zoning Ordinance, an adult cabaret at this location is a nonconforming use. In accordance with state law and the Detroit

Zoning Ordinance, an established non-conforming use may continue notwithstanding a change in ownership.

B&SED Business License Center records indicate that H.D.V.-Greektown, LLC, has applied for a Group 'D' Adult Cabaret License for 415 E. Congress in accordance with Sections 5-2-1 and 5-7-21 of the 1984 Detroit City Code. Section 5-2-1 of the City Code defines a Group 'D' Adult Cabaret as an establishment open to the public which sells or serves alcoholic beverages with or without food, and provides entertainment that is distinguished or characterized by an emphasis upon, or a relation to, specified anatomical areas or specified sexual activities.

It is the understanding of the Law Department that, upon approval of the transfer of the Class "C" liquor license and the issuance of the topless activity permit, H.D.V.-Greektown, LLC, desires to continue the nonconforming adult cabaret at 415 E. Congress. This use, and the use of the location for dance or entertainment, is subject to a Certificate of Compliance being obtained for the location and H.D.V.-Greektown being issued the appropriate City business licenses. Moreover, the operation of the business at this location would be subject to compliance with the Michigan Liquor Control Code, MLCC rules, and Chapters 5 and 30 of the 1984 Detroit City Code.

Police Department records indicate that there is an outstanding violation issued in April 2006 at 415 E. Congress concerning an allegation involving the allowance of the sale, possession, or consumption on the licensed premises of a prohibited controlled substance in violation of MLCC Rule 436.1011(5)(d). Also, MLCC records indicate that as a result of scheduled hearings on May 9 and May 16, 2006, concerning allegations of simulated sex in the premises, dancers entertaining without the required City Group 'D' adult cabaret identification card, and the sale, possession, or use of a controlled substance (marijuana) on the premises, K & P, Inc., a negotiated settlement was entered that provided for the payment of monetary fines or suspension of the liquor license. The Law Department is not aware of whether H.D.V.-Greektown, LLC, operates any MLCC licensed establishments within the City.

The Law Department recommends that this matter be placed on the City Council's agenda in accordance with this Body's August 1, 2003 and July 7, 2004 Resolutions on the procedures and criteria for the approval or disapproval of dance, entertainment, and topless activity permits, which include routine consideration by City Council of nonconforming use status when considering approvals of such permits. Accordingly, attached are proposed resolution ("A"), which approves

the issuance of dance-entertainment and topless activity permits to H.D.V.-Greektown, LLC, and proposed resolution ("B"), which disapproves the issuance of dance-entertainment and topless activity permits to H.D.V.-Greektown, LLC.

Whereas, Section 916(6)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(6)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, a combination dance-entertainment permit, or a topless activity permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located;

STATEMENT BY COUNCIL PRESIDENT
KENNETH V. COCKREL, JR. ON
K & P, INC./HDV GREEKTOWN, LLC

Today, the Detroit City Council voted against the transfer of the dance, entertainment, and topless activity permits associated with the existing Class "C" liquor license, from K & P, Inc. to HDV Greektown, LLC, an entity which plans to operate a topless entertainment club at a location in downtown Detroit.

Though I strongly believe that Detroit does not need any more strip clubs within its boundaries I reluctantly voted against the majority of Council and opted to support this transfer.

The City Council in 2003 did pass a resolution expressing its intent to avoid legislative actions and approvals that would have the effect of extending the life of nonconforming uses. This location has been a nonconforming use since the Zoning Ordinance was amended to prohibit adult entertainment establishments throughout the Central Business District in 1999. Approving transfer of the MLCC topless activity permit would have the effect of extending the life of this nonconforming use. However, K & P, Inc/HDV Greektown, LLC's began its process to transfer the liquor license prior to the adoption of the City Council resolution.

For this reason the applicability of the 2003 City Council resolution to this particular petition appeared to me to be unfair. Therefore, I reluctantly voted to support this transfer.

STATEMENT BY COUNCIL MEMBER
KENYATTA AFFIRMING MY VOTE OF
DISAPPROVAL FOR PETITION #1392
K & P INC./H.D.V.-GREEKTOWN LLC

Litigation pertaining to petition #1392 K&P Inc./H.D.V.-GREEKTOWN LLC, regarding the petitioner's request for a transfer of dance-entertainment and topless activity permits at 415 E. Congress is ongoing. Therefore, in light of Case No. 06-11282 H.D.V. Greektown LLC et al v City of Detroit my remarks will be limited in nature.

Petition #1392 involves the transfer of an existing license and associated permits to a new licensee.

It is the general policy of the City of Detroit that nonconforming uses be eliminated over time. It is also the adopted policy of this Council to not take actions that would extend the life of a nonconforming use. The transfer of the permit in question would extend the life of the nonconforming use.

There have, thus far, been insufficient reasons submitted by the petitioner to overcome the presumption against extending the life of this nonconforming use. And based on my assessment finding insufficient reasons to overcome the presumption, I chose to vote to disapprove petition #1392 K&P Inc./H.D.V.-GREEKTOWN LLC.

STATEMENT BY COUNCIL MEMBER
ALBERTA TINSLEY-TALABI
REGARDING THE H.D.V.-GREEKTOWN
LLC TRANSFER PERMITS RELATIVE
TO OWNERSHIP OF
315 E. CONGRESS

I voted yes to approve the H.D.V.-Greektown LLC dance/entertainment permit for two reasons. First, this is a transfer of an existing permitted use at the same location and would not expand the adult entertainment uses in the Central Business District. Second, there are extenuating legal issues that were conveyed during a Closed Session.

Topless establishments have a Constitutional right to exist. While it is my personal preference that the City of Detroit should not have any topless entertainment venues, as a public official, I must put the interests of the City before any personal agendas. So, for the two above stated reasons I thought it prudent to approve the dance/entertainment permit.

Honorable City Council:

Re: Address: 8893 American. Name: Olivia George. Date ordered removed: July 23, 2003 (J.C.C. pg. 2324).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following

information:

A special inspection on October 30, 2006 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of October 25, 2006.

The proposed use of the property is rehabilitation and rental.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Planning & Development Department

October 30, 2006

Honorable City Council:

Re: Correction of Sales Resolution.
Development: 253, 325 and 311 Harper.

On January 25, 2006, your Honorable Body authorized the Planning and Development Department to sell 253, 325 Harper and the South 50 feet of 311 Harper to Oakland Avenue Missionary Baptist Church, a Michigan Ecclesiastical Corporation, for the purpose of constructing a 10,000 square foot community center with a connecting breezeway. In exchange, Oakland Avenue was required to convey its property located at 247 and 301 Harper to the City of Detroit.

It has come to our attention that Oakland Avenue Missionary Baptist Church now wishes to purchase the City-owned property outright for the amount of \$1,000 without exchanging their property located at 247 and 301 Harper.

We, therefore, request that the sale of 253, 325 Harper and the South 50 feet of 311 Harper, in exchange for Oakland Avenue Baptist Church's conveyance of 247 and 301 Harper to the Planning and Development Department, be rescinded.

We, further, request that your Honorable Body authorize the Planning and Development Department Director or his authorized designee, to issue a Quit Claim Deed, and other documents as may be necessary to effect the sale, for 253, 325 and 311 Harper to Oakland Avenue Missionary Baptist Church, a Michigan Ecclesiastical Corporation, for the amount of \$1,000.

November 6, 2006

Honorable City Council:

Re: Petition No. 181 — Frank, McCormick & Khalaf, LLC - Architects (Acadie Cajun and Creole Cuisine) for installation of steel structure balcony, with an air right encroachment over City Property.

Petition No. 181 of "Frank, McCormick & Khalaf, LLC - Architects" whose address is 28 West Adams, Suite 1400, Detroit, Michigan 48226, request to encroach into the air right spaces 17.00 feet above grade, 50.00 feet in length, and 4.00 feet wide on Larned Avenue, 60 feet wide, with a steel Balcony. This request is to facilitate the final renovation of façade for the New Acadie Cajun and Creole Cuisine restaurant on 541 East Larned, Detroit, Michigan.

The encroachment petition was

referred to the City Engineering Division — DPW for investigation and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) reports existing water mains and sewers in East Larned between Beaubien and St. Antoine Avenues. DWSD has no objection to the requested encroachment for 17.00 feet (height) x 4.00 feet (width) x 50 feet (length) overhead balcony. When DWSD facilities are involved a minimum clearance must be maintained and the attached DWSD provisions for encroachment must be followed.

The Public Lighting Department (PLD) reports an underground feed street lighting circuit running, very close to the area requested for encroachment. PLD strongly recommend that the contractor call MISS DIG to verify PLD underground facilities. No structures can be built over PLD installations. Any structure proposed to be built must maintain a 4 and a half feet horizontal clearance from PLD conduit bank and manholes, also a 10 feet horizontal clearance from overhead PLD lines and installations. The contractor must take necessary precautions not to damage PLD's manholes and conduit banks if they plan to use heavy earth moving equipments. The contractor will be liable for any damages to any PLD underground facilities. PLD need easement rights with 24 hours heavy vehicle access to the area requested for encroachment.

All other involved City departments and privately owned utility companies reported no objections or that satisfactory arrangements have been made.

An appropriate resolution, granting the encroachments, is attached for consideration by your Honorable Body.

Respectfully submitted,

NADIM HAIDAR

Acting Head Engineer

City Engineering Division—DPW

By Council Member Kenyatta:

Provided, That the petitioner shall hold DWSD harmless for any damages to the encroaching device constructed or installed under this petition which may be caused by the failure of DWSD's facilities; and be it further

RESOLUTION REGARDING POLICE CHASES IN THE CITY OF DETROIT

By COUNCIL MEMBER TINSLEY-TALABI, Joined by ALL COUNCIL MEMBERS:

WHEREAS, Law enforcement officials use high speed chases to apprehend fleeing suspects; and

WHEREAS, High speed chases, particularly in urban and populated areas, pose great risk to the general public; and

WHEREAS, Federal statistics show that more than half of all high speed chases are due to minor traffic violations. Moreover, 40% of all chases end in a crash; and

WHEREAS, The Detroit Police Department current chase policy requires the suspect to be involved in a felony. However, this policy has not necessarily been adopted by other local law enforcement agencies or the state police. Each agency adopts their own chase policy; and

WHEREAS, While other law enforcement agencies that pursue a suspect into the City of Detroit normally must inform Detroit's police dispatcher, the Detroit Police Dept. cannot require any other police agency to shut-down their pursuit in the city; and

WHEREAS, Given the high rate of third party injury and death associated with high speed police pursuits, it is the opinion of the Detroit City Council that police agencies throughout the state must use a similar standard of care/caution when it comes to high speed chases in populated and urban areas that is used for discharging an officers' firearm. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council calls upon the Michigan State Legislature to develop a minimum standard for initiating a high speed police

chase to ensure that all law enforcement agencies are following the same guidelines and to severely increase the penalties for fleeing an officer; BE IT FURTHER

RESOLVED, That the City Council request the Consortium of Michigan Chiefs of Police and Wayne County Chiefs of Police to develop a coordinated chase policy amongst its members that will greatly reduce the chance of third party injury or death during police chases and to identify non-lethal alternatives to police chases similar to the steps the City of Los Angeles are implementing; AND BE IT FINALLY

RESOLVED, That a copy of this resolution be forwarded to the Detroit Delegation in the State House and Senate, the Consortium of Michigan & Wayne County Chiefs of Police, the Detroit Police Department, the Michigan State Police Agency, the Michigan Municipal League and the Detroit Delegation in the U.S. House of Representatives.

STATEMENT OF HONORABLE
ALBERTA TINSLEY-TALABI
REGARDING THE "JUNK & SCRAP
DEALERS" ORDINANCES

The Detroit City Council voted on a package of three ordinances to address the high theft rate of copper and other metals in Detroit. The ordinances would establish a new regulatory process to help police identify persons with stolen metals. I voted in support of two of the ordinances because I felt they were appropriate measures to address the issue. But I voted against the ordinance to amend Chap. 49, Article VII, because of the severe negative impact the ordinance could have on certain legitimate junk dealers in the City of Detroit.

This ordinance would require a complex and costly licensing process for all junk dealers. The City Council heard testimony from many people that such a process would put them out of business and they would be unable to provide for their families. I could not vote to take such action when there is a better alternative. I believe a registration process would be just as effective without most of the costly fees.

The other two ordinances are good steps in the right direction but their scope is limited to the City of Detroit. Ultimately, legislation must be enacted at the state level to effectively address this issue; the Detroit City Council has already passed a resolution asking the state legislature to act. Without it, thieves will be able to steal metals in Detroit and sell them in neighboring cities.

However, the unintended consequences of the ordinance to amend Chap. 49, Article VII were to great and i thought it prudent to vote against passage.

Law Department

November 14, 2006

Honorable City Council:

Re: Petition Number 0732 — Request for City Council Approval for the Transfer and Issuance of a Michigan Liquor Control Commission Dance-Entertainment Permit to Rome-Joe's LLC, for a Group 'A' Cabaret at 15535 W. Eight Mile Road.

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, or a combination dance-entertainment permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded to your Honorable Body a Local Approval Notice (Request ID Number 363124), which has been designated by the City Clerk as Petition Number 0732. This Local Approval Notice requests approval or disapproval by City Council of a request for the transfer and issuance of a dance-entertainment permit in conjunction with the transfer of ownership of a "Class C license" at 15535 W. Eight Mile Road from LMCD, LLC, to Rome-Joe's, LLC.

Buildings and Safety Engineering Department ("B & SE") records indicate that the current legal, permitted use of the property at 15535 W. Eight Mile Road is 'Class C' Bar (including accessory patron dancing and entertainment) and Restaurant per Building Permit Number 3658, dated September 26, 1960. The Journal of City Council indicates that your Honorable Body approved the issuance of the dance-entertainment permit to the LMCD, LLC, on November 5, 2003 pursuant to a Local Approval Notice (Request ID No. 229195), which was designated by the City Clerk as Petition Number 1834. Also, B & SE Business License Center records indicate that 15535 W. Eight Mile Road is currently licensed by the City as a 'Group A' Cabaret. Therefore, the continued use of this property for a 'Group A' Cabaret is permitted subject to compliance with all relevant codes and City ordinances.

Pursuant to Section 5-7-1 of the 1984 Detroit City Code, a Group 'A' Cabaret business license is required for an establishment open to the public which sells or

serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without dancing. B & SE Business License Center records indicate that Rome-Joe's, LLC, has paid the application fee for the issuance of a 'Group A' Cabaret license for 15535 W. Eight Mile Road. Pursuant to Chapter 30 of the 1984 Detroit City Code, Rome-Joe's, LLC, and the premises will have to meet the applicable requirements of the City Code prior to the issuance of the business license for the location.

After investigation and review, the Detroit Police Department ("DPD") Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the transfer of the "Class C license" and the issuance of a dance-entertainment permit to Rome-Joe's, LLC, for 15535 W. Eight Mile Road. A review of available records does not reveal any MLCC violations at the location within the preceding twelve (12) months, and the DPD Liquor License Unit reports that there have not been any violations of law at the location for the preceding twelve (12) months.

Upon this Body's approval of the request for the transfer and issuance of a dance-entertainment permit, in conjunction with the transfer of the "Class C" license at 15535 W. Eight Mile Road, and the issuance of a Group 'A' Cabaret license by the B & SE Business License Center to Rome-Joe's, LLC, the location will be approved for patron dancing and entertainment on the premises. Pursuant to Sections 916(1) and 916(2) of the Liquor Control Code, being MCL 436.1916(6)(1) and MCL 436.1916(6)(2), the issuance of a dance-entertainment permit does not allow for adult entertainment, such as topless activity, in a licensed establishment.

The Law Department recommends that this matter be placed on the City Council's agenda for the approval or disapproval of the request for the transfer and issuance of the dance-entertainment permit in accordance with this Body's August 1, 2003 and July 7, 2004 resolutions and the procedures and criteria for the approval or disapproval of dance-entertainment, entertainment, and topless activity permits. Attached is a proposed resolution approving the transfer and issuance of the dance-entertainment permit to Rome-Joe's, LLC, for 15535 W. Eight Mile Road.

If there are any questions or concerns, please do not hesitate to contact our office.

Respectfully submitted,
BRENDA E. BRACEFUL
Deputy Corporation Counsel

By Council Member S. Cockrel:

Whereas, Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that

prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, or a combination dance-entertainment permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located;

Whereas, Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice (Request ID Number 363124), which has been designated by the City Clerk as Petition Number 0732;

Whereas, The Local Approval notice requests City Council approval or disapproval of a request for the transfer and issuance of a dance-entertainment permit in conjunction with the transfer of ownership in a "Class C license" at 15535 W. Eight Mile Road from LMCD, LLC, to Rome-Joe's, LLC;

Whereas, Buildings and Safety Engineering Department ("B & SE") records indicate that the current legal, permitted use of the property at 15535 W. Eight Mile Road is 'Class C' Bar (including accessory patron dancing and entertainment) and Restaurant per Building Permit Number 3658, dated September 26, 1960;

Whereas, The Journal of City Council indicates that this Honorable Body approved the issuance of the dance-entertainment permit to the LMCD, LLC, on November 5, 2003 pursuant to a Local Approval Notice (Request ID No. 229195), which was designated by the City Clerk as Petition Number 1834;

Re: Kaye Simuel-Everage vs. City of Detroit. Case No.: 06-605450 NO. File No.: A19000.003142 (SH).

On November 6, 2006, a case evaluation panel evaluated the above-captioned lawsuit and awarded Fifteen Thousand Dollars (\$15,000.00) in favor of Plaintiff. Honorable City Council:

Re: Neighborhood Enterprise Zone (NEZ) Certificate Application for one

(1) unit of housing to be rehabilitated at 421 E. Ferry within the Ferry Street NEZ (Recommend Approval).

The Office of the City Planning Commission (CPC) has received one application for a Neighborhood Enterprise Zone Certificate from the Office of the City Clerk. Having reviewed the application, CPC staff recommends approval of the NEZ certificate.

The property located at 421 E. Ferry has been confirmed as being within the boundaries of the NEZ and should be eligible for an NEZ certificate under State Act 147 of 1992 as currently written. Based upon the year 2004 tax record for 421 E. Ferry, staff estimates the true cash value for the entire property to be \$60,000. This is below the maximum eligible true cash value of \$80,000 per unit.

The owner and applicant, Nailah L.L.C., intends to conduct the necessary repairs and improvements in order to completely renovate the structure. The estimated investment by the owner is \$200,000, which exceeds the minimum amount required for eligibility for an NEZ certificate. The NEZ certificate application was submitted prior to the application or issuance of building permits to do the work presently proposed by the developer.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for one housing unit at 1515 18th Street within the Bagley Neighborhood Enterprise Zone (Recommend Approval).

The City Clerk's Office forwarded to our offices an application from the Bagley Housing Association for a Neighborhood Enterprise Zone (NEZ) certificate for 1 housing unit within the Bagley NEZ, which was approved by the Detroit City Council in September, 1998.

The address for the certificate is 1515 18th Street. The Bagley Housing Association is proposing to construct a new single-family house that would cost \$160,000.

The property is confirmed as being within the boundaries of the Bagley NEZ and should be eligible for an NEZ certificate under State legislation as currently written. Based on the above analysis, CPC staff recommends approval of the subject NEZ certificate.

Please let us know if you have any questions.

Honorable City Council:
Re: Three (3) Neighborhood Enterprise Zone (NEZ) Certificate Applications for new housing at 3973 Miracles Blvd., 4131 Aretha Ave. and 4216 Aretha Ave. in the Woodbridge Estates NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office three (3) applications from Scripps Park Associates, LLC for a Neighborhood Enterprise Zone (NEZ) certificates at 3973 Miracles Blvd., 4131 Aretha Ave. and 4216 Aretha Ave. within the Woodbridge Estates NEZ. Your Honorable Body approved the Woodbridge Estates NEZ designation on September 19, 2001. City Planning Commission staff has reviewed the applications and recommends approval.

The properties involved are confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. Scripps Park Associates, LLC has applied for the certificates, prior to the issuance of building permits, on behalf of the future owners who will occupy the properties. It is appropriate for them to apply for a certificates at this time, even if buyers have not yet been identified. The State Tax Commission, however, will not issue certificates until owners are identified. When owners are identified, they can then apply for the certificates. At that time, it would not be necessary for City Council to pass another resolution.

The petitioner proposes to build three 3-bedroom single-family homes. The site has been cleared and construction will begin soon. The developer will need to submit to the State Tax Commission the parcels to receive the certificate with a map showing the parcel.

Please let us know if you have any questions.

Honorable City Council:

Re: Proposed Specially Designated Merchant's (SDM) Establishment Permit for Andiamo Riverfront Bistro in a PD (Planned Development District).

The Andiamo Riverfront Bistro on Level 1 (Space A-403) of the Renaissance Center has applied to the Buildings and Safety Engineering (B&SE) Department for a permit to authorize the sale of carry-out beer and wine in conjunction with its restaurant and Class C bar. The applicant intends to sell holiday gift baskets that include bottles of wine.

Because the land at the Renaissance Center is zoned PD (Planned Development District), B&SE is unable to issue permits to establish or change land use without authorization from your Honorable Body. B&SE referred the permit application to the City Planning Commission (CPC) staff for processing.

CPC staff finds the following with respect to the permit application in question:

- The planned development for Renaissance Center contemplated a broad array of retail uses in addition to the office space and hotel with no specific exclusions for SDMs.
- SDMs are considered a "Controlled Use" by the Zoning Ordinance (*Sec. 61-3-292*).
- The Zoning Ordinance prohibits more than two (2) Controlled Uses within a 2,000-foot radius (*Sec. 61-3-293(2)*).
- The addition of an SDM at Andiamo Riverfront Bistro would add to the over-concentration of SDMs in the vicinity.
- The Zoning Ordinance allows for the waiver of the "over-concentration" provision where the "proposed Controlled Use" would be the only one within a neighborhood shopping center which is comprised of a group of two (2) or more commercial establishments, organized or operating as a unit, that consists of not less than fifty thousand (50,000) square feet of usable

retail space (*Sec. 61-3-313(1)*).

- The retail space at the Renaissance Center on Levels A, 1, and 2 equals 234,000 square feet, far exceeding the 50,000 square foot threshold.

Although the Renaissance Center is not a typical "neighborhood shopping center," CPC staff believes the spirit of the Zoning Ordinance is to allow for substantially similar complexes to be eligible for waiver consideration.

CPC staff recommends approval of the proposed change of use at Andiamo Riverfront Bistro to include an SDM. A resolution is attached for your consideration and action.

Whereas, Andiamo Riverfront Bistro has applied to the Buildings and Safety Engineering Department for a permit for a Specially Designated Merchant's (SDM) establishment, which would allow for the sale of carry-out beer and wine, as might be contained in holiday gift baskets, for consumption off the premises; and

Whereas, City Council is authorized and responsible for land use decisions involving PD zoning districts; and

Whereas, SDMs are classified by the Zoning Ordinance as a Controlled Use; and

Honorable City Council:

Re: Installation of a business sign at the Wells Fargo office in a PCA (Restricted Central Business District) zoning classification located at 525 East Jefferson (Recommend Approval).

On November 4, 2006 the staff of the City Planning Commission (CPC) received a sign permit application for a business sign to be mounted on the recently-opened Wells Fargo office at 525 East Jefferson. A temporary sign was installed while the appearance of the permanent sign was negotiated. The PCA (Restricted Central Business District) zoning classification in which the building is located calls for City Council approval of the location and design of exterior modifications following the review and recommendation of CPC (Section 61-11-96 of the Zoning Ordinance). CPC staff has reviewed the application and submits this report and recommendation.

PROPOSED SIGN

The proposed bas-relief sign is made of wood, with the letters projecting from the background. The wood will be painted. The proposed size of the sign is 30 inches tall (the height of the sign band on the building) by 10 feet 3 inches wide, and it would be externally lit (see attached illustration). Previously, there was a rectangular "light-box" style sign for the previous business.

REVIEW

In accordance with the PCA provisions of the Zoning Ordinance (Section 61-11-96) reviews of proposed construction or modifications such as the signs proposed should be conducted in light of the following criterion, "Urban design elements of form and character should be carefully considered; such as elements include, but are not limited to: richness/interest of public areas through the provision of storefronts, window displays, landscaping, and artwork; color, texture and quality of struc-

tural materials; enclosure of public spaces; variations in scale; color, texture and quality of structural materials; enclosure of public spaces; variations in scale; squares, plazas and/or "vest pocket parks" where appropriate; continuity of experience, visual activity and interest; articulation and highlighting of important visual features..." The proposed sign meets this criterion and would add texture and quality to the building. It is an improvement over the previous sign.

RECOMMENDATION

CPC staff has completed its review of the proposed sign, as has the Planning and Development Department staff. We find that the sign would be in keeping with the spirit and intent of the PCA zoning district. Therefore, staff recommends approval of the location and design of the proposed sign. Please find attached the appropriate resolution to effectuate your approval.

Whereas, The Aver Sign Co. desires to install a sign on the storefront at 525 East Jefferson, the current Wells Fargo office; and

Whereas, The building is subject to provisions of Section 61-11-96, the PCA (Restricted Central Business District) zoning classification of the Official Zoning Ordinance of the City of Detroit; and

Whereas, The PCA zoning district classification requires that exterior alteration of any existing building, structure, or premises, or part thereof, shall be reviewed by the Planning and Development Department and by the City Planning Commission for consistency with the spirit, purpose, and intent of the district and those modifications must be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission; and

Whereas, Both the Planning and Development Department and the staff of the City Planning Commission have received the proposal in order to ensure that the proposed sign is in keeping with the spirit, purpose and intent of the PCA zoning district classification;

Now, Therefore, Be It Resolved, That the Detroit City Council approves the sign for the storefront at 525 East Jefferson, described in the foregoing communication from the City Planning Commission staff and depicted in the illustration prepared by U.S. Signs with the revised date of October 9, 2006.

Honorable City Council:

Re: Request for approval of resolution authorizing the submittal of an application to the State Historic Preservation Office for a federal grant of not greater than \$25,000 for the hiring of a consultant to prepare intensive level surveys and National Register Nominations for two to three neighborhoods within the City of Detroit.

The purpose of the request to submit an application for a historic preservation grant is to augment staff activities by using a federally-funded grant to accomplish the historical research and architectural survey requirements of our mandated responsibilities. The staff of the Advisory Board will be providing 40% of the total project costs in-kind. The products of the grant will provide information to be used to make determinations of eligibility for the National Register for Section

106 review, provide the state-required survey should the neighborhoods studied ever request local designation, and provide historical and architectural information in a National Register nomination form. Should the neighborhood be nominated to the National Register of Historic Places by the State Historic Preservation Office, that status places no restrictions on individual property owners. The Advisory Board has received grants for these purposes before, and the studies, while resulting in National Register nominations, have not always led to local designation.

The resolution as submitted to your Honorable Body for approval does not specify the areas to be studied under the grant proposal. Before selecting a neighborhood, the staff of the Advisory Board will consult with the neighborhood association and other known parties with interest to receive concurrence in undertaking the survey. The grant requires public meetings in the neighborhoods and input from community members. The awareness and cooperation, of the neighborhood is essential to conduct such a project.

The deadline for submission of the grant request is December 15, 2006; therefore, we are requesting your autho-

rization to apply before your Honorable Body goes on recess.

Respectfully submitted,

MARCUS D. LOPER

Whereas, The application for an Intensive Level Survey of two to three neighborhoods in Detroit has been prepared by the Historic Designation Advisory Board for submission to the State Historic Preservation Office to be considered for federal historic preservation grants;

Now, Therefore, Be It Resolved, That Marcus Loper, Deputy Director of the City Planning Commission, is authorized and directed to submit the above mentioned application totaling \$25,000 to the State Historic Preservation Office, Michigan Department of History, Arts and Libraries, for consideration of funding, and that upon approval of the above mentioned application by the State Historic Preservation Office, Michigan Department of History, Arts and Libraries, Marcus Loper, Deputy Director of the City Planning Commission, or his successor appointed by the Detroit City Council, shall be authorized to sign the contract and any necessary amendments to the contracts.

Proposed

Rosedale Park Historic District

Final Report

By a resolution dated February 22, 2006, the Detroit City Council charged the Historic Designation Advisory Board, a study committee, with the official study of the proposed Rosedale Park Historic District in accordance with Chapter 25 of the 1984 Detroit City Code and the Michigan Local Historic Districts Act.

The proposed Rosedale Park Historic District is located on the city's northwest side, approximately twelve miles from downtown Detroit. It is located south of Grand River Avenue and the North Rosedale Park neighborhood. The proposed district is primarily residential, consisting of over fifteen hundred single-family houses built between 1917 and 1955 during height of Detroit's substantial growth in both population and area. The proposed Rosedale Park Historic District has the same properties and boundaries as the National Register district of the same name, which will be listed in 2006.

Boundaries: The Rosedale Park Historic District boundaries follow the traditional perimeters for the neighborhood, as delineated by original plat maps. They encompass the Rosedale Park Subdivisions located south of Grand River Avenue, including Rosedale Park Subdivision, Rosedale Park Subdivision #1, Rosedale Park #4, and part of Minock's Sub, the latter to include both sides of West Outer Drive. Combined, these plats contain over 1500 residential lots, and cover approximately 340 acres.

The boundaries of the proposed district are as shown on the attached map, and are as follows:

Beginning at a point, that point being the intersection of the west line of the right-of-way of the west service drive of

the Southfield Freeway with the centerline of Lyndon Avenue; thence west along the centerline of Lyndon Avenue to its intersection with the centerline of Westwood Avenue; thence north along said centerline of Westwood Avenue to its intersection with the south boundary of Rosedale Park Sub. The following study report is taken wholly from the National Register Registration Form submitted to the Historic Designation Advisory Board by its consultant, Commonwealth Cultural Resources Group, Inc.

SIGNIFICANCE

The Rosedale Park Historic District is significant under National Register Criterion A, for its association with street-car and automobile suburban development in relation to early twentieth century transportation corridors such as Grand River Avenue, Southfield Road, and Outer Drive West. It is also significant for its role in the westward expansion of the City of Detroit, as this planned community, platted between 1916 and 1921, populated a portion of Redford Township that was annexed by the City in 1926. The Rosedale Park Historic District is also significant for early suburban architecture under National Register Criterion C, as it contains a distinctive group of twentieth century residential architectural styles. It exhibits a moderate to high degree of integrity of feeling, setting, and contributing architectural resources. It also retains the park-like setting planned by its developers, with landscaped traffic islands, tree-lined streets, and a varied housing stock that dates from the 1910s to the 1950s.

Developmental and Planning History

The earliest section of Rosedale Park was platted by the Rosedale Park Land Company in September, 1916, on farmland in Redford Township, Michigan, located approximately twelve miles northwest of the center of Detroit. The property was originally deeded in 1835, as two 80-acre parcels in Sections 23 and 24 of Redford Township, to Otis C. Freeman and George Bellamy (Rosedale Park Improvement Association 2000:1). The parcels were further divided in subsequent decades, but the majority later came under the ownership of A. J. Stahelin, a Redford Township farmer (Belden 1876, Sauer 1916, Rosedale Park Improvement Association 2000:1). A large portion of the Stahelin property was purchased in 1916 by the Rosedale Park Land Development Company, which had been formed in the same year as a joint venture group for the purpose of "subdividing and selling real estate" (Rosedale Park Plat Maps 1916:2514 and Rosedale Park Land Development Company 1917-1918:1).

In 1916, the newly formed Rosedale Park Land Company's combined assets amounted to \$530,638.99, the majority of which was tied up in land. Despite this lack of liquid assets, board members seemed to be confident about their promotional efforts and connections within the construction trades community. It appears that several board members utilized their business interests in raw materials and skilled services to meet the company's business objectives of development and construction. Although property buyers were free to contract with an independent construction company to build their houses, many buyers found it convenient to meet deed restrictions regarding size, style, and quality by engaging the Rosedale Park Land Company or its associates as their contractors (City of Detroit Building Permits). The company's connections included those of board president Frederick W. Harrison in Coal and Coke Wholesale and Retail; joint venture associate William J. Burton as president of Detroit Applied Ready Roofing and Window Manufacturers, with offices in the Builders and Traders Exchange; and joint venture associate Henry W. Harding as president of H. W. Harding Lumber Company (Marquis 1914:86, 221; Polk 1918).

The business connections of these board members were augmented by the experience and tenacity of board secretary Ernest Otto Knight, the son of a Detroit merchant with interests in men's furnishings, a grocery brokerage, and general mercantile (James T. White and Company 1966:314). Knight left the retail business in 1915, at the age of 42, to pursue real estate development with the

Clements, Knight, Menard and Paul Company, the "parent" company for the Rosedale Park Land Company. During his tenure with the company, "...it was responsible for the subdivision and sale of some 600 acres in Detroit" (James T. White and Company 1966:314). Among their developments were Greenfield Park (1915-1916), Glendale Gardens (1915), Glendale Courts (1916), Beverly Hills (c.1916), Rosedale Park (1916-1921), and North Rosedale Park (1919-1920, 1924-25, and 1937) (Statewide Search for Subdivision Plats 2004). All were located near Grand River Avenue, in what is now northwest Detroit, in the direct path of Detroit's suburban expansion.

Rosedale Park and North Rosedale Park, which were developed as abutting neighborhoods on the south and north sides of Grand River Avenue, respectively, were by far the company's largest and most ambitious developments. These two neighborhoods included over 2500 occupied residential lots, in comparison to the less than 600 occupied residential lots in their earlier large-scale attempt, Greenfield Park. The board members' business associations, combined with an established partnership with each subdivision's development company through their shared treasurer, E. Percy Ashton, allowed the Clemens, Knight, Menard and Paul Company to negotiate materials prices at reduced or volume rates, thereby making their construction costs attractive to potential buyers.

In addition to these business ties, the company principals were confident that their investments would enjoy a profitable return similar to those of other development firms of the time period, which had learned that "transit access would make undeveloped farmland attractive to potential commuters and thus raise its value" (Jackson 1985:120). This marketing tactic had been employed in Detroit for nearly two decades, with developers campaigning as early as 1892 by advertising the "repaving of Woodward Avenue" as an incentive to purchasers" in the Highland Park area (Jackson 1985:165). In considering this strategy, board members likely took into account the location of their property holdings in relation to the availability of streetcar and interurban service, the relatively well-maintained Grand River Avenue as a direct automobile link to downtown Detroit, and the contemporaneous construction of Outer Drive, a concrete parkway connection the outer suburbs of Detroit (Polk 1918).

Despite their city holding the title of motor capital of the world, the concepts of concrete automobile roadways and non-recreational motoring were relatively new to Detroiters. It had only been a few years since city officials opened the "nation's first paved [concrete] highway" in 1909,

on Woodward between Six Mile and Seven Mile Roads (Gavrilovich and McGraw 2000:237). In an attempt to impose order on increasing traffic pandemonium, the city had installed the first boulevard stop signs in 1915, while the invention of the stoplight by a Detroit police officer would not occur until 1920 (McShane 1994:127).

Regardless of the dangers and inconveniences associated with automobile transportation and Rosedale Park's distance from the city center, the company seemed to be confident that the combined options of both automobile and streetcar transportation were sound choices. They had learned from previous experience with other successful developments that transportation options, along with the development's attractive, picturesque character, would be the key points of attraction for early Rosedale Park residents. The company's speculative actions began to pay off in 1917, when its worth nearly doubled in a one-year period to \$909,127.58. These profits were realized as returns on sales in Rosedale Park and other simultaneous subdivision developments by members of the joint venture group (Rosedale Park Land Development Company 1917-1948:4).

In response to increased land value and interest in the development, the company expanded its initial Rosedale Park development by adding the Rosedale Park #1 plat in 1917, west of the existing plat (Rosedale Park Plat Maps 1917:2599-2600). The new plat provided residential lots with frontage on the north-south streets of Outer Drive West, Westwood Boulevard, Grandville Boulevard, Harvard Boulevard, Rosedale Boulevard, Franklin Boulevard, Stahelin Boulevard, Harrison Boulevard, Greenview Boulevard, Faust Boulevard, Tennyson Boulevard, Rosemont Boulevard, Ashton Boulevard, and Mill Road (now the Southfield Freeway).

The plat for Rosedale Park was drawn and submitted to the township by Blaine T. Colman, a construction engineer who would later become the president of both Colman and Harding Construction Engineers, Inc., and Wayne Trucking Company, as well as the mayor of Highland Park during the mid-1920s (Rosedale Park Plat Maps 1917:2599-2600; Polk 1918, 1925-26). Among the many sales offices of the Clemens, Knight, Menard and Paul Company was a location at the corner of Mill Road and Grand River Avenue, at the northeastern edge of Rosedale Park (Polk 1918). According to local history accounts, the company entices Detroit city residents to buy into the development with the slogan "Out of the Smoke Zone into the Ozone" (Rosedale Park Improvement Association 2000:1). This campaign propagated

visions of bucolic country living with frequent reliable streetcars, close to well-maintained local roads and convenient markets, and flush with healthy, clean air.

Four years after the first addition was platted in 1917, Rosedale Park was enlarged a second time by the Rosedale Park Land Company with an addition at the junction of Outer Drive West and Westwood Boulevard (Rosedale Park Plat Maps 1921:17611). This additional expansion was located west of the north/south portion of Outer Drive West, and was bounded by Fenkell on the north and Stoepele Park on the south. It extended as far west as the residential lots fronting the east side of Evergreen Road, and included all of Plainview Boulevard, Auburn Boulevard, Minock Boulevard, Westwood Boulevard, and the curve of Outer Drive West. This second expansion was likely in response to the city's prodigious growth in the mid-1920s. It may also have anticipated future annexation by the City of Detroit, which took place in 1926 (Scott 2001:85). The annexation resulted in regular water and sewer service, but onset of the Great Depression in 1929 slowed expected development for several years. A building resurgence occurred after 1934, with the availability of mortgage loans through the relaxation of crediting procedures by the FHA (Jackson 1985:205).

The planning concepts for the second Rosedale Park addition appears to have differed from those for the earlier plats in a variety of ways. This plat features residential lots fronting both sides of Outer Drive West, which is a major ring-road boulevard, as opposed to the earlier practice of fronting residential lots only on secluded north-south side streets. With the exception of the large-scale boulevard landscaping on Outer Drive West, these additional street lacked the signature landscaped traffic islands of the original plat and first addition. In contrast, the landscaped islands on residential streets in the earlier portions act as a defining characteristic, creating a park-like setting. These shifts in design for the second addition may have been an effort to accommodate lots on Outer Drive West, which had been opened in 1918 and thus pre-dated this 1921 expansion (Polk 1918).

In comparison to the original plat and subsequent first addition, the second Rosedale Park addition is much more utilitarian in form. In addition to the lack of traffic islands and unexpected lot orientation to a wider ring-road, the plat exhibited a reduction in lot size and the resulting neighborhood shifted away from high-style architecture. Such an alteration in design suggests that this portion of Rosedale Park was deliberately platted to accommodate the financial circumstances in which potential buyers found

themselves after years of Depression. Accordingly to the City of Detroit Building Permits, this section did not undergo development until the mid-1930s, after the advent of the automobile as an everyday mode of transportation. The majority of construction did not occur until the late 1930s and early 1940s. Vacant lots continued to be purchased and developed with modest houses in the early post-World War II era. Although the 1921 section presents a distinctly separate appearance and design, it nevertheless reflects another stage in the development of Rosedale Park. While three non-contributing apartment buildings were built in the 1970s on the district's fringe at Outer Drive West and Grand River Avenue, the most recent contributing structure in this section, an International Style house at 14901 Minock, was built in 1955 (City of Detroit Building Permits).

In 1925, four years after the final addition to Rosedale Park and nearly a decade after its original platting, the City of Detroit issued a Master Plan that detailed what the Rosedale Park Land Company had already known. The city's plans for transportation and suburban development targeted Grand River Avenue as a 204-foot wide major transportation artery for the northwest side of the city (City of Detroit Common Council Advisory Committee 1925:5). Due in part to his vision and connections for the development of Detroit, Ernest Otto Knight later joined the Detroit City Planning Commission in 1938. He served in that position until 1953. Although the City of Detroit's plans to expand Grand River Avenue were later abandoned in favor of constructing Interstate 96 in a similar direction, the path of suburban development nevertheless continued in the direction that the company had predicted.

Early residential suburbs such as Rosedale Park "fostered an emerging American aspiration for life in a semi-rural environment, apart from the noise, pollution, and activity of a crowded city, but close enough to the city for commuting daily to work" (Ames and McClelland 2002:3). Rosedale Park was served by streetcar and interurban service with stops at thirty and sixty minute intervals on Fenkell (Gavrilovich and McGraw 2000:232). Grand River Avenue, also known as the Lansing Road, was the principal carriage and automobile route between Detroit and points northwest (Hudson and Lillie 1948:2). It was also a connection to the business district in Redford, located only a few miles west of Rosedale Park, on the other side of the newly completed Outer Drive Concrete Road (Polk 1918). According to Polk's 1918 city directory, the Township of Redford, in which Rosedale Park was

located, also got into the act of suburban promotion. In that year, it took out a full-page advertisement extolling the virtues of suburban living in Redford Township, including the village center's location on Grand River Avenue, "the paved highway which crosses the state," its municipal water system; and eleven miles of paved sidewalks. The advertisement listed other desirable features of this "village fast becoming a residence section" of Detroit, including Redford Township's fine schools, two state deposit banks, a variety of Protestant and Catholic houses of worship, and proximity to grocery and general stores (Polk 1918:2483). Despite the competitive presence of an established commercial district in the nearby village of Redford, the developers of Rosedale Park also included in their plans nearly ninety commercial lots. Located on the fringes of the residential lots, with frontage on Fenkell and Grand River Avenue, the majority of these lots were never developed due to road widening.

Although the majority of commercial lots within Rosedale Park remained undeveloped, commercial interests soon appeared near the district, catering to new residents with basic goods and services in direct competition with similar services located in Redford Township and Detroit. A. J. Stahelin, the former owner of the Rosedale Park lands, continued to maintain a residence on Fenkell and opened a country market on a triangular lot between Grand River Avenue, Fenkell Avenue, and Glastonbury Boulevard. Stahelin's farm market thrived on the business brought by the expanding local population, and helped create for residents a sense of country living in the city. Stahelin's house was replaced by the First Church of the Nazarene in 1950 (City of Detroit Building Permits). It is presently occupied by the Greater Ebenezer Missionary Baptist Church and listed as a contributing resource to the district. The farm market property is located directly adjacent to the Rosedale Park Historic District and is currently the location of the c. 1970s Grandland Shopping Center.

In addition to the amenity of market shopping, Rosedale Park residents were also able to conduct their banking business close to home. According to *Detroit Today* (Polk 1921:214), in 1920 Detroit had twenty-five banking institutions but a combined total of 191 banking main offices and branches. These numbers continued to expand, with the "visible evidence of growth and prosperity of the banks...found in the magnificent main and branch banking houses which they are constantly building" (Polk 1921:214). Central Savings Bank, with eight branches listed by Polk in 1921, continued to expand well through the 1920s. The simplified Neoclassical style Rosedale Park

branch was a minor work from the famed Detroit architectural firm of Albert Kahn and built in 1927 for the Central Savings Bank (City of Detroit Building Permits). It is located at 18203 Fenkell, on the flat-iron corner of Grand River Avenue, Fenkell Avenue, and Ashton Boulevard near the Southfield Freeway. Included as a contributing resource in the Rosedale Park Historic District, this bank building is currently occupied by a Bank One branch office. Little exterior ornament was used on the flat-roofed building, which was limited to minimal dentils along the cornice and recessed framing around each door and window. Large plate-glass windows punctuate the stone façade on two sides, facing both Ashton Boulevard and the Southfield Freeway to the east and Fenkell and Grand River Avenue to the north. The main entrance, signified by double doors and a sign overhead, is thoughtfully oriented to face northeast into the intersection.

Located on the northern border of the district and facing Grand River Avenue and Fenkell, Rosedale Park's eastern group of commercial lots borders an elaborate set of brick and stone piers erected by the developers at the northern terminus of Ashton Boulevard at the intersection of Fenkell and Grand River Avenue. These piers are echoed by a somewhat less ornate version of few blocks west of Glastonbury Boulevard and Grand River Avenue; this set is adorned with a plaque stating the area was "Developed by Clemens Knight Menard Co." Finally, the westernmost gates, located in the 1917-platted subdivision, were erected at Grand River Avenue and Peidmont Boulevard with piers topped by large stone gloves. These piers were likely erected in the 1930s during the construction of many homes in that section of the district (City of Detroit Building permits).

The combined elements of commercial activity and monumental entry features serve to signify the shift to a residential area upon entering the district from Grand River Avenue or Fenkell. This shift in atmosphere is further emphasized by landscaped traffic islands placed in the center of many north/south street blocks, which require the road to curve around them. In addition to regular traffic on Fenkell and a narrow service alley behind the commercial lots on Grand River Avenue, five additional streets provide residents with east-west access to the area at regular intervals and include Midland Avenue, Keeler Avenue, Chalfonte Avenue, Eaton Avenue, and Lyndon Avenue. From the 1920s on, these side streets provided access to side yard driveways and garages by affording street parking and garage access for corner lots.

Architectural History

The first house in Rosedale Park was

built in 1917 at 15001 Ashton Boulevard for Thomas Barkley and family (Rosedale Park Improvement Association 2000:1; United States Department of Commerce 1920). This two-story side gable masonry house occupies a lot at the corner of Ashton Boulevard and Chalfonte Street, one block west of the Southfield Freeway and one block south of the streetcar service on Fenkell.

This location provided the Barkley family both easy access to transportation and the attractive feature of relative seclusion. The neighborhood developed slowly at first, with only fifteen families residing in Rosedale Park just after the end of World War I (United States Department of Commerce 1920). The small community soon grew, however, with building surges in the mid-1920s and late 1930s. Development moved west from Ashton and Rosemont Avenues, with homes dotting the street during the 1920s. By the end of the decade, building and home sales ground to a halt when "between 1920 and 1933, the construction of residential property [nationwide] fell by 95%" and "half of all home mortgages in the United States were in default" (Jackson 1985:193).

Construction and home purchase activities made a slow comeback in the mid-to-late 1930s, in response to several Federal incentive programs for home financing. These programs included the Federal Home Loan Bank Act in 1932, the Home Owners' Loan Act in 1933, and the National Housing Act in 1934 (Ames and McClelland 2002:30). The Federal programs resulted in the rapid acceleration of mortgage closings after 1936 (Jackson 1985:203, 205). Development in Rosedale Park was resuscitated by these and other economic improvements, resulting in an increase in housing construction in the late 1930s and early 1940s (City of Detroit Building Permits). In 1938, a particularly active year for new home construction in Rosedale Park, 399,000 homes were built or sold nationwide through the FHA (City of Detroit Building Permits: Jackson 1985:205). As shown on a 1938 Sanborn Fire Insurance Map, the blocks of the original 1917 subdivision located to the west of Outer Drive and Westward was somewhat more sparsely occupied. This area averaged six or eight vacant lots per block, with some blocks containing as many as fourteen vacant lots in a forty-lot block. This western end of Rosedale Park was completed by postwar development of the late 1940s (Rosedale Park Improvement Association 2000:1).

Architectural styles and forms are widely varied in Rosedale Park. Builders and buyers selected their design ideas based on personal taste, popular opinion, perceived status, cost, and the fashion of the times. Between the years 1917 and 1955,

residences were built in styles identified as English Tudor Revival, Arts & Crafts, Bungalow, Colonial Revival, Dutch Colonial Revival, Foursquare, Prairie, French Renaissance, Ranch, Garrison Colonial, and International Style. Throughout the history of Rosedale Park's development, mass-produced pattern books and house plans were constant sources of inspiration. It appears that private architects were rarely engaged for construction in Rosedale Park; rather, development companies or contractors, such as the Rosedale Park Land Company worked with plans that owners obtained from pattern books or those from a building company's standard offerings. These designs were often christened with romantic names, such as "The Glastonbury," or "The Warwick." The romantic names of these house plans appear to have influenced the renaming of several streets within Rosedale Park in the mid 1920s to names reflective of "merry old England — places like . . . Glastonbury and Warwick" (Scott 2001:86). Although many new subdivisions of the time included deed restrictions setting minimal building requirements and dictating particulars such as cost of construction, square footage, building materials, design guidelines, or contractors for the purpose of uniformity or neighborhood character, no deed restrictions have been uncovered for the English country theme of Rosedale Park.

The perpetuation of this English country aesthetic appears to have been encouraged by the Rosedale Park Land Company, Rosedale Park's developers-turned-building contractors. Favored choices included the artificially aged appearance of the English Tudor Revival style, the naturalistic Bungalow, and the stately Colonial Revival style, all styles of many early Rosedale Park homes. Other styles occurred in more episodic fashion, such as the Dutch Colonial Revival and French Renaissance. These imposing abodes were both costly and labor intensive to construct, but fit the financial means of many Rosedale Park residents during the years prior to 1929 and the onset of the Great Depression.

In 1935, the FHA's Better Housing Program launched its pamphlet, *How to Have the Home You Want*, in conjunction with new lending programs. Mail-order catalogs, such as those from Sears, Roebuck and Company as well as Detroit area firms also influenced popular taste to a certain degree (Stevenson and Jandl 1986; Schweitzer and Davis 1990). Locally produced brochures and pamphlets had particular impact, as they placed model homes in familiar contexts and offered assistance in obtaining plans or even building contractors. These publications included *Homes of Distinction*, by

Thomas A. Parks of Detroit, and plan books published by several Detroit newspapers that reproduced designs originally printed in their weekend home sections. As budgets got tighter and materials and labor became more costly, the popularity of period styles faded in favor of less elaborate Colonial Revivals, early Ranches, and, to a lesser degree, moderne style dwellings. These structures, however, still conveyed a scale and presence appropriate to Rosedale Park. Many dwellings of this time period blurred stylistic lines between two or more styles. A common example is the hybrid of a scaled-back Colonial Revival style, typically a one-and-one-half story home with sparse eaves and low pitched roof, and the English Tudor Revival, with artfully random stonework, arched entries, and irregular, massive chimneys.

Garages also figured prominently in the building tastes of Rosedale Park homebuilders and homebuyers. As discussed earlier, the automobile played an increasingly important role in the lives of Rosedale Park residents. After World War II, the personal automobile was very often the transportation model of choice for at least one member of the average household. According to an article entitled "A House for the Automobile: the Changing Garage" in the *Old House Journal*, the "garage evolved in surprising ways to meet the demands of the automobile age" (Wahlberg 1998:60). Housing for the family car was a natural outgrowth from this new transportation lifestyle, sparking a range of one, one-and-on-half, and two car garages. These automobile shelters could be as simple as an enclosed stall or, in some cases, were built as miniature carriage houses for the car, echoing the construction style and materials of the home. The wider lots in Rosedale Park permitted side drives, so garages were most often placed behind the house at the rear of the lot. Corner-lot owners who saved side yard space by placing the garage to face the side street achieved particularly convenient garage placement. Other owners wished to prominently declare their automobile ownership by placing porte-cocheres or archways adjoining the house. This feature may be observed in the previously discussed English Tudor Revival residence at 14626 Artesian, as well as the Prairie style dwelling at 15034 Rosemont. A small percentage of residences featured garages integrated into the main body of the dwelling, but the combined factors of relatively narrow lots and aesthetic preferences resulted in the dominance of free-standing garage structures in Rosedale Park. The majority of builders and homeowners tended to select modest, utilitarian designs, "sett[ling] for the simple box garage with a gable or hipped roof, double

doors, and perhaps a stock window or two" (Wahlberg 1998:62). Approximately half of original garages remain in Rosedale Park, while the remaining examples either have been torn down or replaced with larger, newer versions dating from around the mid-twentieth century to the present.

Social History

In addition to examining the geographic and architectural history of Rosedale Park, a variety of social, cultural, and historical factors must also be taken into consideration to properly evaluate its significance and place it in its proper historical context. As stated by public historian Delores Hayden in *The Politics of Public Memory*, "finding these buildings and interpreting their history is one additional way to fuse the social and political meanings of space with the history of the urban landscape" (Hayden 1995:39).

Rosedale Park was developed in the late 1910s and early 1920s during a surge of suburban development on the western fringe of Detroit. New residents moved to Rosedale Park to remove their families from locations in the urban core that were perceived as unhealthy and potentially dangerous. These new subdivisions, located on the outskirts of large cities with ample lots and a country feel were popular for their promise of fresh air and clean streets.

Rosedale Park was a community where small families could grow, like the upwardly mobile family of David J. Griffith and his wife, Mamie. The Griffiths moved to 14626 Artesian in 1930 as a young couple from the Carolinas. According to the 1930 census, Mrs. Griffith worked outside the home as a sales lady in a department store, while Mr. Griffith was listed in auto sales, where he began in 1927. He later became the owner of D. J. Griffith Sales and Service and Griffith Oldsmobile Company as well as a board member of the National Auto Dealers Association.

Compared with other contemporary neighborhoods such as Palmer Woods and parts of North Rosedale Park, Rosedale Park is more modest in house and lot sizes and, correspondingly, reflects the economic status of its original homeowners. While newly-subdivided Palmer Woods and the Grosse Pointes were among the neighborhoods of choice for Detroit's leaders in business and industry, Rosedale Park was generally home to an educated, solidly middle and upper-middle class.

Original owners included medical professionals like physician Jason B. Cooper at 15035 Grandview (1921) and dentist Jason H. Van Doren, the first owner of 15065 Grandville (1941). Among other business professionals were Roy C. Zimmerman, an accountant with the American Heater Company and Ternstadt

Manufacturing Company, residing at 14527 Rosemont (1927), and Waldso Turner, president of Turner Engineering Company and treasurer of Electrical Warehouse, Inc., at 15094 Ashton (c. 1917). The bungalow at 15352 Glastonbury was built for the family of Frederick A. Melmoth, the vice president of the Detroit Steel Casting Company.

Many of Rosedale Park's early owners were employed by the automobile companies, such as Cleveland Ford Nixon, a chemical engineer with General Motors; Claude A. Crusoe, an auto worker and purchasing agent for Fisher Body Corporation; and Ralph Marsh, an assistant service manager of GM Truck and Coach. The Marsh family also demonstrates the tradition of long-term ownership in Rosedale Park; his family lived at 10144 Outer Drive West from 1937 until approximately 1980.

Common to the establishment of a new middle-to-upper class subdivisions in the early twentieth century were restrictions that regulated physical characteristics of development, and these were included in the documents establishing the Rosedale Park Subdivisions. In addition to these subdivision restrictions, research has revealed a warranty deed between the Rosedale Park Land Company and the Union Trust Company, a trust mortgage company that handled many real estate transactions within the area. That deed specifically stated, "No part of the above property shall be sold to or occupied by any person or persons of the Ethiopian blood or race." (Wayne County Record of Deeds, 16 July 1923, Liber 37:74-75). Presumably, this odd language was meant to exclude all people of color and it seems fair to assume that race restrictions were included in all or most deeds issued by the developers.

Such restrictions were set to expire to 1 January, 1944, but were extended, at least for those properties whose owners agreed, through a Restriction Extension Agreement recorded 6 October 1943, to be operative and binding through 1 January 1974 (Wayne County Record of Deeds, 6 October 1943, Liber 6725:34). This agreement was voided in 1948, when all race restrictions related to real estate ownership and occupancy were struck down by the United States Supreme Court ruling that covenants based on race were deemed "unenforceable" and "contrary to public process" (*Shelly v. Kraemer* 334 U.S. 1, as cited in Ames and McClelland 2002:36). That ruling, of course, did not cause integration of the neighborhood, which is said to have taken place beginning in the 1970s. (Harriett Mottley, personal communication 26 July 2004).

In order to capture a better look at the population and typical middle-class occu-

pations of Rosedale Park residents during its period of significance, three neighborhood blocks have been traced through four decades of Polk's *Detroit City Directory* listings. These three blocks, including the 14800 block of Ashton between Eaton and Chalfonte, 15300 block of Artesian between Fenkell and Keeler, and 15100 block of Auburn between Outer Drive West and Fenkell, were chosen to represent the original 1916 Rosedale Park plat, the 1917 addition, and the 1921 addition, respectively.

In 1927, the first year Rosedale Park addresses were included in Polk's *Detroit City Directory*, seven households were recorded in the 14800 block of Ashton Boulevard, located in the original Rosedale Park plat. They listed occupations such as law clerk, department head at Dodge Motor Company, teacher, and automotive toolmaker. Further west, in somewhat shorter 15300 block of Artesian located in the first addition, five households were recorded with occupations including barber, building superintendent, and bank branch manager. The second addition was by far the least-populated, as illustrated by the 15100 block of Auburn, where a pharmaceutical company president resided.

Within a decade, however, Rosedale Park's population appeared to be expanding. According to Polk's 1937 *Detroit City Directory*, the 14800 block of Ashton Boulevard listed eighteen households with occupations including advertising manager, auditor, building superintendent, clerk, coal company manager, editor at the Detroit Free Press, engineer, fur salesman, manufacturing company vice president/secretary, and teacher. The 15300 block of Auburn experienced marginal growth to eight households by 1937, with occupations including building superintendent and salesman, as well as chemical, electrical and mechanical engineers. The 1500 block of Auburn posted similar occupation types in seven households, including auditor, auto sales clerk, electrical engineer, general contractor, telephone company manager, and yard superintendent.

According to Polk's 1941 *Detroit City Directory*, one of the last city directories published before World War II, Rosedale Park had enjoyed significant growth in the late 1930s and early 1940s. The 14800 block of Ashton recorded twenty-nine households, with a wider range of occupations including accountant, bank branch manager, clerk, clothing salesman, dentist, engineer, foreman, grocer, minister, medical instructor, manufacturing company vice-president/secretary, plumber, production manager, purchasing agent, railroad freight agent, and watchman. The 15300 block of Artesian also grew to fifteen households in 1941. Occupations

listed included bank branch manager, company president, fire department chief, foreman, marine engineer, and salesman. In 1941, the 15000 block of Auburn included sixteen households, and listed occupations of accountant, automotive company vice-president, auto dealer, bank manager, engineer, electrician, foreman, general building contractor, linotype printing operator, and salesman.

The mid-1950s, near the end of this district's period of significance, saw Rosedale Park with a house on nearly every lot, likely a result of the post-World War II building boom. According to Polk's 1953 *Detroit City Directory*, thirty-five households were listed in the 14800 block of Ashton, with listed occupations including accountant, auditor, automotive engineer, automotive toolmaker, barber, building contractor, business agent, dentist, electrician, foreman, insurance company vice-president, lumber company manager, machinist, plumber, superintendent, teacher, vice-president. By 1953, 15300 block of Artesian had grown to a nearly full block of twenty households, with listed occupations of accountant, automotive engineer, electric company president, electrical engineer, factory worker, fire fighter, foreman, manager, salesman, toolmaker, and US Naval officer. The 15000 block of Auburn was not quite as populated, with only fifteen households; occupations listed included automotive inspector, automotive production engineer, bank branch manager, carpenter, electrical engineer, machinist, salesman, secretary, and shipping clerk.

During the mid-twentieth century, suburban expansion continued westward, southward, and northward from Detroit. Amid this development of newer suburbs outside the city limits, the quality of construction and level of craftsmanship in the mature Rosedale Park subdivision proved to be its greatest asset. Due to its high grade housing stock, charming setting, and active neighborhood association, the Rosedale Park neighborhood has been consistently listed on *Bresser's New Standard Cross Index Directory of Detroit, Michigan Marketing Area Ratings* map as an "A" listed district (Bresser 1946 to 1999). This evaluation is based not only on the perceived grade of the area, but also on property values, crime rates, and levels of income, education, and home-ownership in the district.

Complementing the architectural appeal and quality construction present in Rosedale Park is the Rosedale Park Improvement Association. Neighborhood associations of this type gained nationwide popularity around the turn of the twentieth century. By 1908, "over 2,500 improvement societies were striving to uplift their surroundings" (Kay 1997:144). The Rosedale Park Improvement

Association was organized in 1922. Its first order of business was to address the issue of fire protection for the neighborhood, a problem solved by contracting with the City of Detroit Fire Department for response service on a per-call fee basis (Rosedale Park Improvement Association 2000:1). It later tackled the issue of water and sewer services by lobbying for annexation by the City of Detroit, which came to pass in 1926 ('Scott 2001:85).

Although little else is known about the early history of the Rosedale Park Improvement Association, this organization has fought in recent decades to maintain the consistent qualities of clean neighborhood appearance, security, active homeownership, and community involvement. The Rosedale Park Improvement Association continues to act as a community advocate, promoting neighborhood involvement, safety, and security in maintaining Rosedale Park as a neighborhood of distinction. According to *Detroit Beginnings: Early Villages and Old Neighborhoods*, "many executives, teachers, doctors, and other professionals live in the Rosedale Park neighborhood — still very much a quiet place of charm and comfort within the city" (Scott 2001:86). The work of the Rosedale Park Improvement Association, combined with the neighborhood's size and variety of housing stock, as well as its lush setting within the city, have contributed to maintaining Rosedale Park as a significant early historic suburb of Detroit.

DESCRIPTION

Rosedale Park, located approximately twelve miles west of downtown Detroit, was developed in the early twentieth century as a streetcar and automobile suburb. Situated south and west of the corner of Grand River Avenue and the Southfield Freeway and covering over 340 acres, Rosedale Park with its stately homes, tree-lined streets, and proximity to the countryside attracted an elite group of residents. The buildings in this district are primarily residential in use, exhibit a wide range of architectural styles, and range from one to two-and-one-half stories in height. Rosedale Park's building stock presents a variety of architectural styles and patterns, but maintains a shared rhythm and cadence of residential construction with uniform setbacks and tree-filled medians between sidewalks and streets.

Originally developed at the edge of metropolitan Detroit's urban area, Rosedale Park was soon surrounded by the westward suburban expansion of Detroit. Adjacent farmland was filled with other housing developments, such as the Brightmoor, Grandmont, Grandmont 1, and North Rosedale Park neighborhoods, as well as commercial interests lining

Grand River Avenue. The most visually prominent contributing resources in the district are the former Central State Bank (now Bank One), built in 1927 at 18203 Fenkell, and the former First Church of the Nazarene (now Greater Ebenezer Missionary Baptist Church), built in 1950 at 18751 Fenkell (City of Detroit Building Permits).

The present-day Bank One branch is a single-story stone veneer commercial structure designed by the firm of famed Detroit architect Albert Kahn. The pared-down neoclassical style branch is located at the flat-iron corner of Grand River Avenue, Fenkell Avenue, and Ashton Boulevard. Although it was only a minor project from Kahn's office, this building was designed with a keen eye for optimal location, presentation, and function. Despite alterations to the windows and entry with replacement glass and a relocated entrance, the building continues to capture maximum exposure and accessibility from each roadway. The First Church of the Nazarene, now the Greater Ebenezer Missionary Baptist Church is located on the south side of Fenkell between Glastonbury and Artesian. This red brick veneer church is composed of a slightly vaulted central sanctuary portion rising nearly three stories in height, flanked by two single-story wings extending to the east and west of the north-facing central portion. A large stylized cross, a triple set of double doors, and substantial stone piers demarcate the principal entrance.

Today, the district is bordered by visually prominent developments including the Grandland Shopping Center, a strip-mall development located in a triangular lot between Grand River Avenue, Fenkell Avenue, and Glastonbury Boulevard, as well as two apartment complexes of moderate size on Outer Drive West near Grand River Avenue. Stoepel Park, located on the western edge of the district, south of Outer Drive West, preserved some open space for area residents to enjoy. The setting and feel of Rosedale Park within the district, however, have changed little since development ended in the mid-twentieth century.

Placed on generally flat terrain, the principal residential streets are alternately eighty and one hundred feet wide, and are oriented in north-south fashion. These streets average between three to six blocks in length, from Lyndon Avenue on the south to the northwesterly angled Grand River Avenue on the north. Each street is lined with a range of approximately ten to nineteen lots per block, per side, with each lot measuring between thirty and sixty feet wide. Blocks tend to be longer in the southern portion of the neighborhood, while they are shorter in the northern portion between Fenkell and Grand River Avenue as well as the western

portion between Outer Drive West and Fenkell. Sidewalks line each side of the streets, and are set back from the road by a tree-lined median. East-west traffic within the district is provided by five fifty-foot-wide streets located at regular intervals, including Midland, Keeler, Eaton, Chalfonte, and Lyndon Avenues.

Garages are nearly ubiquitous accessories for houses in Rosedale Park, with the majority of lots each containing one single bay or double bay detached garage. A small percentage of houses in Rosedale Park have an attached garage, but this feature most usually a later addition to a pre-existing dwelling. A few exceptions to this rule are seen in the western portion of the neighborhood, in houses built in the late period of development in Rosedale Park. For example, 15043 Minock and 15080 Minock, were both constructed in the spring of 1938 in the Moderne style (City of Detroit Building Permits). These houses feature single bay garages integrated into the main portion of the structure. Construction types of these ancillary buildings vary from detailed efforts to match a house in roofline and materials to astylistic structures built simply to provide shelter for the family car. The earliest house in Rosedale Park may have included garages for leisure vehicles, but as residents became more reliant on automobiles for everyday transportation in the 1920s, a garage was usually constructed along with a new house. Approximately half of original garages remain in Rosedale Park, with the remaining portion replaced with more recently constructed versions.

Garages are usually located in the side or back yard, parallel to or behind the house, and are accessed from the street by a driveway along one side of the lot. As few shared driveways exist in Rosedale Park, driveways are usually private. While garages on corner lots are also typically located on the lot in the same manner, corner lots deviate from their neighbors by orientating garages toward the side street. As a result, east-west side streets are uniformly lined with corner-lot garages accessed from the side street, and include almost no residential lot frontages.

For most of those streets platted between 1916 and 1917 in Rosedale Park Subdivision and Rosedale Park Subdivision #1 (Rosedale Park Plat Maps 1916:2599, 1917:2600), each block also features a focal point of community cooperative effort: a landscaped traffic island. These curbed and manicured spaces serve the dual purpose of creating visual appeal and regulating traffic. This section's residential streets are positioned perpendicular to adjacent commercial and transportation thoroughfares in an effort to discourage unwanted traffic and

noise. These early streets include Ashton, Rosemont, Penrod, Faust, Greenview, Glastonbury, Stahelin, Artesian, Warwick, Piedmont, and Grandville boulevards. The 1921 westward expansion of Rosedale Park Subdivision #4 included the addition of the north-south streets of Minock, Auburn, and Plainview boulevards and Evergreen Road bounded on the north and south by Outer Drive West and Fenkell Avenue (Rosedale Park Plat Maps, 1921:17611). These additional four blocks differ in the lack of landscaped traffic islands, although wide medians exist in portions of Outer Drive West.

While the busy corridors of Grand River Avenue and the Southfield Freeway only skirt the edges of Rosedale Park, both Fenkell Avenue and Outer Drive West actually pass through the district. Fenkell Avenue, which pre-dates the development of Rosedale Park, originally served the modest purpose of a farm lane. It has since been expanded to accommodate between three and four lanes of traffic and an access road for Grandland Shopping Center and a short-cut between Grand River Avenue, the Southfield Freeway, and Outer Drive West. Only a small percentage of residential frontages exist on Fenkell Avenue. Outer Drive West, with six traffic and parking lanes, also goes through Rosedale Park. Residential frontage on high-traffic roads is limited to those lots lining Outer Drive West and corner lot on intersection streets.

In addition to strategically aligned streets and selective lot frontages, three sets of brick and stone piers mark major entrance points into the district. The earliest and most elaborate are located at the juncture of Ashton Boulevard and Fenkell Avenue, next to Bank One and near the intersection of Grand River Avenue and the Southfield Freeway. Rising to over fifteen feet in height, these piers flank the Ashton Boulevard entrance to the district. The second pair of piers, located at the intersection of Glastonbury Boulevard and Grand River Avenue, echoes the form and material of those at Ashton Boulevard but is considerably smaller in scale. The final set, located at Piedmont Boulevard and Grand River Avenue, is the most modest in size.

These entry symbols abutting elements of commercial activity serve to signify the shift to a residential landscape and encourage conservative driving upon entering the district from either Grand River Avenue or Fenkell. This shift in atmosphere is further emphasized by the aforementioned traffic islands placed in the center of many north/south street blocks, which require the driver to curve around them. These islands, filled with flowers and large trees, serve to slow traffic, buffer noise, and provide a pleasing focal point of visual interest. Over the

years, they have been a source of pride for residents, who have organized themselves into block groups to share in their upkeep and beautification.

Lining the streets are rows of oak and maple trees that cast heavy shadows over the neighborhood, with branches reaching toward the street's center to form a lush canopy in the warm months. Some of these trees were planted in the 1910s and 1920s, while others are younger replacements of trees lost to disease, storms, or age. Sidewalks, lining both sides of each street, act as semi-public spaces between the tree rows and private yards. The balance of each street, punctuated with landscaped islands and lined with trees and sidewalk, is echoed in the yard setbacks and lack of front yard fencing. Each house is placed on its lot with a minimum of thirty feet between the street and the house, thus creating a pleasing and unbroken greenbelt on both sides of the street.

Between the years 1917 and 1955, over 1500 houses were built in Rosedale Park in a variety of sizes, styles, and forms. Construction materials for these houses include wood, aluminum, shingle, and vinyl siding; half timbering; stucco; and masonry units of both solid and veneer brick, stone, and concrete block, with masonry construction as a significant element in the majority of houses in Rosedale Park. These construction materials were utilized in the expression of a diversity of styles spanning the aesthetic tastes and economic capabilities of five decades of homebuyers. To maintain a certain level of construction quality and desirability of setting, building and deed restrictions were imposed by the developers. It appears that these restrictions were not imposed uniformly throughout the entire development, but were limited to a street-by-street or block-by-block basis. They typically dictated an approval process for building plans through the Clemons, Knight, Menard Company as well as a list of acceptable materials, the depth of building setbacks, and limitations on fencing materials. For example, according to a warranty deed dated 25 June 1919 for Lot 1206 Rosedale Park Subdivision Number 1, located at 15352 Glastonbury Boulevard (formerly Harrison Boulevard):

On said lot no structure shall be built except for dwelling house purposes only to cost not less than \$6,000 and said dwelling shall be at least two stories in height or an approved type of bungalow and for a period of five years no building shall be built thereon until the plans have first been approved by Clemons Knight Menard Co. Said dwelling shall have full basement of brick, stone, or cement and must be built on a distance of 30 ft from the front lot line and not nearer than three feet of side lot line, projections forming

part of the body of the house must be set within the building line. Nothing by [sic] ornamental wire fences not over 5 ft. high may be erected on the property and said fences shall not be erected nearer to the front line than the rear of the building (Wayne County Register of Deeds, Liber 1246:360).

A number of Detroit-area building companies and contractors were prepared to meet these requirements. According to *Detroit's Beginnings: Early Villages and Old Neighborhoods*, many of the homes in Rosedale Park were "custom-built by their owners with a variety of architectural styles and features such as libraries and breakfast rooms" (Scott 2001:85). As described in a neighborhood promotional publication, homes in the district typically have "between three and five bedrooms, and two thousand to twenty-five hundred square feet . . . [with] fireplaces, two car-garages, and are tree-shaded and landscaped" (Rosedale Park Improvement Association Ephemeral Files, c.1985; courtesy of Harriet Mottley).

Presented below are brief descriptions of representative examples of the architectural styles found in Rosedale Park. These descriptions are followed by a complete inventory of all 1,533 properties encompassed by the Rosedale Park Historic District, including a street address, building permit number, building permit date, architectural style, and contributing or non-contributing status.

Colonial Revival — 15094 Ashton Boulevard

This side-gable brick dwelling, located in the far eastern portion of the district, was likely built in the late 1920s as one of the earliest residential structures in Rosedale Park (no documentation of its construction date has been located). Rising to two-and-one-half stories in height, this traditionally appointed residence is a fine example of the Colonial Revival style. The principal façade presents a balanced five-bay fenestration pattern, with the remaining elevations following the pattern to a lesser degree. The first story is composed of a flat-roofed entry porch, with slender Doric columns framing a transom-lit doorway. Paired six-over-nine windows flank the entry, while the second story is punctuated with five evenly spaced six-over-six windows. The first story windows are topped with brick jack-arches and a centered stone key-stone. Both the first and second story windows have stone sills and are framed by well-proportioned wooden louvered shutters with functioning hardware. The side gable roof is underscored by a wide cornice and side returns. Three gable front dormers with arched windows and tracery complete the uppermost story.

Bungalow — 15352 Glastonbury Boulevard

This one-and-one-half story Craftsman bungalow dwelling was likely built in the

late 1920s. With its walls of stone and half-timbered stucco, this fine example of a bungalow is in keeping with Craftsman precepts of unaltered natural materials and uncomplicated design. Dwellings of this type lacked excessive ornamentation, and relied on the strength and honesty of their materials for aesthetic appeal. In doing so, they “display[ed] a fine degree of craftsmanship and [were] constructed of materials left as close as possible to their natural state” (Poppeliers, Chambers, and Schwartz 1983:76). The first story is built of random fieldstone. The main entrance at the north on the principal façade and the triple window adjacent are sheltered by a wide porch covered by the main roof, which has exposed rafter tails and is supported by four substantial wooden columns. The low-pitched roof with wide, overhanging eaves supports a wide shed roof dormer with two pairs of six-over-one windows. The dormer and gable ends are half-timbered with stucco infill, while the south side of the dwelling features a random fieldstone chimney and stuccoed rectangular bay window.

Foursquare — 14805 Faust Boulevard

This two-and-one-half story brick structure was most likely built in the mid-1920s, during a surge in construction in Rosedale Park. It is a solid example of the American Foursquare housing type. This structure has a block-like form characteristic of the type. The main entry on the north side of the principal facade is adjacent to a triple set of six-over-six windows with stone sills, and is sheltered under a hip-roofed brick porch with stone half-wall caps. The second story is dominated by two sets of paired six-over-six windows, also with stone sills. Although the first and second story windows are most likely replacements, they are in keeping with the original fenestration pattern for this house. The shallow hipped main roof has a center hipped dormer, there is a brick chimney toward the front on the south side wall. The large proportions and variety of usable space made the American Foursquare among the “most popular house types during the first two decades of the twentieth century,” with “virtually every company offering mail-order houses or plans advertising models of this type” (Gordon 1992:137).

Arts & Crafts — 15363 Artesian Boulevard

This stone and frame two-and-one-half story dwelling was likely built in the mid 1920s and is a robust example of the Arts and Crafts style. It presents a pleasant visual appearance and a dominating lot presence with unexpected height and eclectic design. The first story is built of random stone, as are the porch piers and south wall chimney. A stone porch foundation runs the length of the principal façade, which is anchored by a gabled porch over the central door that is flanked

on each side by a heavy timber pergola sheltering a triple window with steel easements. The second story is composed of half-timbered stucco, with two sets of three steel casement windows flanking a center set of three leaded-glass windows. The roofline is punctuated with two half-timbered gables, between which is a simple wood-sided shed roof dormer, lit with three small steel casement windows.

Prairie — 15054 Rosemont Boulevard

This imposing two-story dwelling was built around 1925. Sheathed with dark striated brick veneer applied to balloon frame construction, this hipped roof dwelling with overhanging eaves is complemented by a large brick automobile porte-cochere with corresponding hipped roofline. Although the form of the house is of the foursquare type, the wide eave overhang is characteristic of the Prairie style, claimed by some architectural historians as one of the few truly American housing styles. The Prairie style was developed near the beginning of the twentieth century by architects associated with Frank Lloyd Wright and other Chicago studios (Gordon 1992:1-7). According to *What Style Is it?: A Guide to American Architecture* (Poppeliers, Chambers and Schwartz 1983:80), the “architects of the Prairie School consciously rejected currently popular academic revival styles and sought to create buildings that reflected the rolling Midwestern prairie terrain,” implying a horizontality that this house lacks. Although this house is an anomaly among the profusion of period revivals in Rosedale Park, its solid proportions, battered walls, and paired or tripled nine-over-one windows combine to create a pleasing, thoroughly American appearance for this dwelling.

Dutch Colonial Revival — 15090 Stahelin Boulevard

This two-story wood frame house presents a nearly symmetrical appearance, with a low pitched gable entry hood over a recessed central entrance, flanked by two sets of tripartite windows. A hipped-roof single story portion, likely a sunroof is appended to the south side of the residence. The upper level of the gambrel roof is punctuated by a central shed dormer with tripartite window and is flanked by a simple shed roof dormer on each side. Its gable ends are highlighted by two simple double hung windows, with half fanlights at attic level. Although this house was likely constructed in the 1920s, the Dutch Colonial Revival style was a standard offering in architectural plan books and mail order catalogues, as well as architect-designed residences (Gordon 1992:104). For example, “Sears, Roebuck and Company manufactured 27 different Dutch Colonial Revival homes from 1904 to the early 1940s” (Gordon 1992:104). The attractive exterior and balanced floor

plan of this gambrel-roofed Dutch Colonial Revival dwelling made it a somewhat popular choice in Rosedale Park.
Art Deco — 14635 Warwick Boulevard

This two-story, rectilinear Art Deco style house was built in the late 1930s and reflects the fashion for classically-based structures with little or no ornament. Here a simplified English Regency is veneered in blonde glazed brick, and features a balanced, symmetrical fenestration pattern, broken only by a chimney on the south side. The first floor includes a central entry flanked by a six-over-one window on each side, while the second floor has two evenly spaced six-over-one windows on both sides of a central octagonal window. The structure's brick veneer was applied in an assortment of patterns, including vertical lintels above first floor windows, layered borders around the recessed entry, and two belted courses on the second story. The house is topped by a shallow hipped roof, which is screened by a parapet wall.

Tudor Revival — 14626 Artesian Boulevard

This one-and-one-half story side gable brick dwelling is a classic example of the Tudor Revival style popular in Rosedale Park. The house features a prominent triple-flue chimney, random corner stone work, a steeply pitched front-facing gable, and an entry with arched door and side light covered by a steep gabled roof, curved on one side. It would appear to be a variation on several popular house plans of the time period. These house plans were popularized by such publications as *Homes of Distinction*, published by Thomas Parks of Detroit. Parks christened his house plans with elegant, English manor-like names like "The Strathmore," "The Pinehurst," and "The Roselawn" (Parks c. 1930:9,13,21). An unusual element is the wrought iron automobile archway over the driveway. Topped with an electric coach lamp, the archway is anchored to two stone piers flanking the driveway, with one pier integrated into the south wall of the structure. Although the original garage has since been replaced with a c.1960 two-car frame garage, the function of this feature remains the same.
French Renaissance — 14803 Rosemont Boulevard

This one-and-one-half story brick veneer house was constructed in the late 1930s and is a simplified version of the French Renaissance style. Executed in brick, this structure has as its most prominent element a corner turret entry framed with stone and topped by a conical roof. This side gable dwelling with its prominent intersecting front gable also features stone sills for its single, double, and triple sets of double-hung windows. Oriented to face the intersection of Rosemont and Eaton, it succeeds in establishing a corner presence, which is substantial for this

relatively diminutive dwelling.

English Tudor Influenced — 15065 Grandville Boulevard

This one-and-one-half story dwelling at 15065 Grandville Boulevard was constructed in 1941 (Detroit City Building Permits). This side gable brick dwelling expresses architectural characteristics of a simplified Tudor Revival house, including its prominent chimney with substantial massing, the random decorative stonework near the corners and entry, and the stone lintels above some windows. Other elements, however, reflect the period, such as the simple eaves, windows with only horizontal muntins, and double gable front façade that creates an illusion of a larger second story. Houses of this type became popular in the late 1930s and early 1940s. Their blend of traditional elements with low cost proved to be an appealing combination for many families building homes in Rosedale Park.

Colonial Revival — 15067 Auburn Boulevard

Modest dwellings like this house, sometimes called minimal traditional for their reduced use of Colonial Revival details on modified traditional housing forms, were encouraged during the 1930s by the Federal Housing Administration (FHA). At the time of construction, such houses were most frequently referred to as "bungalows," for their use of the efficient one-and-half-story plan, even though they do not resemble the classic bungalow in appearance. These models of American suburban architecture were touted in a brochure entitled *How to Have the Home You Want*, published by the FHA's Better Housing Program near the end of the Great Depression (FHA 1935). In it, the FHA asserted that "an owned home should be the birthright of every American," no matter the size. While a few larger residences are featured in this brochure, the majority of homes pictured are of modest proportions with minimal detailing, thus making them more affordable for "every American." This side-gable, one story brick veneer dwelling follows the pragmatism of the time period. It has a brick chimney on the south side, a shed-roofed front porch, a tripartite front picture window, and a prominent gable-front portion with a simple double-hung window and contrasting siding. The limited details on the house, however, derive from the "colonial" of the period, such as the porch pillars, the returns on the front-facing gable, and the window given importance by a blind panel below and shutters on each side.

Ranch — 9756 Outer Drive West

This modest hip-roofed Ranch-type house was built in 1954 (City of Detroit Building Permits). Clad in pale gray brick veneer, this residence presents a sleek, modern appearance. Its principal façade faces east, and is dominated by a large

picture window on the north side. This window is canted out from its base at a shallow angle, with extruded aluminum mullions dividing the glass into six equal sections. The simple entry is directly to the south, placed slightly off center on a brick and concrete entry pad. The house is embellished with five horizontal lines of black brick on each corner of the principal façade, perhaps in imitation of quoins.

Garrison Colonial — 15156 Plainview Boulevard

This two story wood frame, side gable dwelling was constructed in 1941 with a variety of materials and textures, including cladding of brick veneer, random fieldstone, and (presumably later) aluminum siding (City of Detroit Building Permits). Houses of this form, with a second-story front overhang, were popularized by pattern books in the years prior to World War II, as well as the post-war era. This form, called Garrison Colonial, was claimed by pattern books to have a "combination of brick veneer and wood frame on the outside [that] is pleasing to the eye" (Griffiths, Williams, and Dennis 1948: Home #87). The west facing principal façade of this example features on the first floor a recessed door to the north with a simple "colonial" surround adjacent to a tripartite picture window. Two evenly spaced double-hung windows pierce the second story. This house's Colonial Revival antecedents, coupled with its moderate size and price, made this building type a popular choice for later construction in Rosedale Park; indeed, hundreds of houses built to this plan exist in many areas of the city of Detroit.

International Style — 14901 Minock Boulevard

This International Style dwelling was built in 1955 (Bresser 1955). The lot, which is located at the end of a dead-end street and faces Stoepel Park, suits the style of this house. Finished in brick veneer and vertical wood siding on a steel and glass frame with a flat, gravel-topped roof, this rectilinear structure embodies many design qualities associated with the International Style. Its principal façade faces Stoepel Park to the south with a ribbon of windows on the first and second floors. In contrast to this emphasis on light and expanded views, the Minock Street façade has a windowless eastside wall and a flat-roofed carport. A wooded balcony runs the length of the second floor windows, terminating at the secluded rooftop deck, shrouded by trees, at the west end of the dwelling. This house turns its back on the street, an orientation emphasized by low gray brick walls screening the deck and windows from street view, and is augmented by a steel pergola extending from the carport. The building's sleek, modern appearance is complimented by sculpted juniper bushes

at the intersection of the driveway and the end of the street.

Criteria:

The proposed historic district meets criteria A and C as provided in the Michigan Local Historic Districts Act in local ordinance. These criteria refer to resources:

A. That are associated with events that have made a significant contribution to the broad patterns of our history.

C. That embody the distinctive characteristics of a type, period, or method of construction or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction.

Recommendation:

The Historic Designation Advisory Board recommends that City Council adopt an ordinance of designation for the proposed historic district. A draft ordinance is attached for City Council's consideration.

(D) The defined elements of design, as provided for in section 25-2-2 of this code, are as follows:

(1) *Height.* The height of the single-family residential structures in the Rosedale Park Historic District range from one (1) story to two-and-one-half (2-1/2) stories tall, the half-stories contained within the roof. The standards, as defined in original deed restrictions, shall be met by new single-family residences. Additions to existing buildings shall be related to the existing structure. Garages are generally one-story tall. The three (3) apartment buildings on West Outer Drive near Grand River Avenue are two-stories tall on a high basement. The red brick church on Fenkell at Stahelin has a slightly vaulted sanctuary section that is nearly three stories in height and two single-story wings.

(2) *Proportion of building's front facades.* The typical front facades of residential buildings in the Rosedale Historic District are often wider than tall or as wide as tall to their eaves. Tall half-stories with dormers provide additional height.

(3) *Proportion of Openings Within the*

Facade. Proportion of openings varies greatly according to the style of the building. Typical openings are taller than wide, but individual windows are often grouped together to fill a single opening which is wider than tall. Windows are often subdivided; buildings designed in English Revival styles frequently display leaded glass in casement windows and transoms. In buildings derived from classical precedents, double-hung sash windows are further subdivided by muntins. A variety of arched openings and bay windows exist throughout the district. Modernistic-style residential buildings have large openings with a variety of proportional relationships. Dormers projecting from the front roof slopes of many houses in the district add to the window area. Openings range from twenty percent (20%) to seventy-five percent (75%) of the front facades, most falling into the twenty-five percent (25%) to thirty-five percent (35%) range.

(4) *Rhythm of Solids to Voids in Front Facades.* In buildings derived from classical precedents, voids are usually arranged in a symmetrical and evenly-spaced manner within the facades. In buildings of other styles, particularly those of English Revival sub-styles, voids are arranged with more freedom, but usually result in balanced compositions. Voids often dominate the design of the front facades of modernistic style houses.

(5) *Rhythm of Spacing of Buildings on Streets.* The spacing of the buildings is generally determined by the lot sizes and the setbacks from side lot lines. There is a general regularity in the widths of subdivision lots from one block to another, and a shared rhythm and cadence along the streetscapes. Generally, all residences or parts thereof, including cornices, balconies, pergolas or porches, are not nearer than three (3) feet to the side lot line, or as defined by specific subdivision or deed restrictions.

(6) *Rhythm of Entrance and/or Porch Projections.* Entrance and porch types usually relate to the style of the building. Generally, entrances and porches on buildings of English Revival precedents exhibit freedom of placement and orientation, while buildings of classical inspiration typically have porches and entrances centered on the front facade. A common entry arrangement on vernacular English Revival houses is that of a slightly projecting, steeply gabled vestibule or gabled wall punctured with an arch opening. On smaller scaled buildings of later building styles, such as the Garrison Colonials, minimalist traditionals, and ranches, entrances and porches are positioned on one side of the front facade. Some houses have entrances that recede while others have porches, steps, and/or entrances that project. Most porches occupy a single

bay while others, particularly on Arts and Crafts and Bungalow style houses, span the length of the front facade. Side and rear secondary entrances and porches and enclosed sunrooms are common. A rhythm of entrances and porches is not discerned due to the variety of house designs in the district.

(7) *Relationship of Materials.* Masonry is the most significant material in the majority of houses in the Rosedale Park Historic District, in the form of pressed or wire cut brick, often combined with wood, stone, and/or stucco. Wood is almost universally used for window frames, half-timbering, and other functional trim. Windows are commonly either of the metal casement or wooden sash variety. Aluminum siding and aluminum canted windows on later buildings are sometimes original; vinyl siding and vinyl windows, where they exist are replacements. Glass block exists as an original material in some window openings of buildings in "modern" styles. Roofs on the majority of the houses in the Rosedale Park Historic District are asphalt shingled, while several original slate roofs still exist. Garages, where they are contemporary with the residential dwelling, often correspond to it in materials.

(8) *Relationship of Textures.* The major textural relationship is that of brick laid in mortar, often juxtaposed with wood or smooth or rough-faced stucco and/or stone elements and trim. Textured brick and brick laid in patterns creates considerable interest, as does half-timbering, leaded and subdivided windows, and wood shingled or horizontally-sided elements. Some Arts and Crafts style buildings have stone as their major first floor material, providing a rustic, organic appearance, and stucco or wood at second story level. Slate roofs have particular textural values where they exist; asphalt shingles generally do not.

(9) *Relationship of Colors.* Natural brick colors — such as red, yellow, brown, or buff-dominate in wall surfaces. Natural stone colors also predominate: where stucco or concrete exists, it usually remains in its natural state, or is painted in a shade of cream. Roofs are in natural slate colors, and asphalt shingles are predominantly within this same dark color range. Paint colors often relate to style. The buildings derived from classical precedents, such as the Neo-Dutch Colonials and Garrison Colonials, generally have woodwork painted in the white or cream range. English Revival style buildings generally have painted wood trim and window frames of dark brown, gray, buff, or shades of cream, depending on the main body color. Half timbering is most frequently stained or painted dark brown. Stained and leaded glass, where it exists as decoration visible on the front

facade, contributes to the artistic interest of the building. The original colors of any building, as determined by professional analysis, are always acceptable for a house, and may provide guidance for similar houses. Colors used on garages should relate to the colors of the main dwelling.

(10) *Relationship of Architectural Details.* The architectural elements and details of each structure generally relate to its style. Contributing residential buildings, constructed between 1917 and 1955, were designed in styles identified as English Tudor Revival, Arts and Crafts, Bungalow, Colonial Revival, Dutch Colonial Revival, Foursquare, Prairie, French Renaissance, Ranch, Garrison Colonial, Minimal Traditional, and International, or hybrids of these styles. Characteristic elements and details displayed on vernacular English Revival-influenced dwellings include arched windows and door openings, steeply pitched gables, towers, clustered chimneys, and sometimes half-timbering. Classically-derived styles display modest detail and architectural elements, mostly in wood in the form of columned porches, shutters, cornices, and keystones. A great variety of dormer types (shed, gabled, hipped, round-arched, and wall dormers), complementary to the style of pre-circa 1935 buildings, are very common throughout the district. Porte cocheres and archways adjoining the main body of the house add architectural interest where they exist. Modern styles are generally characterized by smooth, relatively unadorned wall surfaces, horizontal bands of windows, and simplicity. The bank building at the corner of Grand River Avenue and Fenkell at 18203 Ashton was designed in a pared down Neo-classical style typical of its period. The red brick church on Fenkell at Stahelin features a triple set of double doors, stylized cross, and substantial stone piers demarcating its principal entrance. In general, the district is rich in early to mid-twentieth century architectural styles.

(11) *Relationship of Roof Shapes.* A variety of roof shapes exists, relating to the style of the dwellings. Common on English Revival buildings are steeply sloped pitched or hipped roofs with complex arrangements of secondary roof shapes, including steeply sloped gables, clipped gables, and shed roofs. These roofs are commonly interrupted by gabled, shed, and multi-sided dormers, and substantial chimneys which are sometimes clustered. Bungalows feature low-slung, side facing gable roofs with shed dormers. Classically-inspired buildings display pitched or hipped roofs with less slope, with or without dormers. Roofs of houses built later in the period of development of the district, such as those of

modern inspiration, tend to have significantly lower slopes. Flat roofs are not typical except on porches, sunrooms, and other small extensions of a primary building with a pitched roof, with the exception of the International style building facing Stoepel Park No. 1 at 14901 Minock. Flat roofs as the main roof of a primary building are generally not appropriate in the district.

(12) *Walls of Continuity.* The common setbacks of houses on straight residential streets create strong visual walls of continuity. This is augmented by the landscaped features in the public right-of-ways such as the traffic islands and tree lawns planted with mature trees.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* Monumental features mark the entrance to Rosedale Park near Grand River Avenue at Ashton Boulevard and Fenkell with an elaborate set of brick and stone piers; at Glastonbury with brick piers and masonry globes, bearing a plaque identifying the area's developers; and at Piedmont, the more modest of the three with its very squat brick piers bearing masonry globes. The flat terrain of the area is divided with principal streets oriented north-south and alternating eight (80) feet and one hundred (100) feet in width, and five east-west streets fifty (50) feet wide. The district is separated from the Grand River Avenue commercial lots by an alley. The typical treatment of individual residential properties is that of a dwelling erected on a flat or slightly grade front lawn. The front lawn area is generally covered with grass turf, subdivided by a straight or curving concrete or brick walk leading to the front entrance and a single width side driveway leading to a garage. There is variety in the landscape treatment of individual properties. Lack of front yard fencing in all but the western part of the district is a result of subdivision restrictions that prevent fences near to the front line of the property than the rear of the building. The placement of trees on the tree lawn between the concrete public sidewalk and masonry curb varies from block to block or street to street. Lots in Rosedale Park Subdivision No. 4, on Auburn, Minock, and Plainview, have no curbs, and feature wide tree lawns. Replacement trees on the public right-of-way should be characteristic of the area and period. Original street lighting standards throughout the district have tall fluted poles with crane's necks and replacement lanterns. Many have been replaced by tall, modern steel poles. A specific light standard was designed for Outer Drive, and many still exist.

(14) *Relationship of Open Space to Structures.* The curbed landscaped traffic islands in the center of the north-south streets blocks require that the road curve

around them. Minock, Auburn, and Plainview on the western end of the district do not have the landscaped islands in the public right-of-way, although West Outer Drive has some wide medians. Public sidewalks line each side of the street, and are set back from the road by a tree-lawn that widens not opposite a landscaped traffic island. All houses have ample rear yards as well as front yards. Wider lots in Rosedale Park permitted side drives with garages at the rear of the lots. Where dwellings are located on corner lots, garages face the side street. Garages, when original, often correspond in materials to the main body of the dwelling, but are of modest, one-story, simple box design with single or double-doors. Some later houses in the west part of the district were originally built with garages that were integrated into the main body of the dwelling. About half of the original garages in the district have been removed and/or replaced. Fences of metal, wood, or stone separate individual properties from the alley behind the Grand River Avenue commercial frontage. While there are a few hedges between properties in front, hedges and backyard fences are common along the east-west streets, and backyard fences are common throughout the district. Stoepel Park No. 1, outside the district's southern and western edge, preserves open space, as does Flintstone Park, outside of the district at its southeastern edge.

(15) *Scale of Facades and Facade Elements.* The Rosedale Park Historic District comprises a single-family residential neighborhood of moderately scaled dwellings. Houses erected in the 1940s and 1950s are generally smaller in scale than those built in the earlier phase of development. Three (3) multi-unit apartment buildings, on the west side of West Outer Drive near Grand River Avenue, are also moderately scaled. Elements and details within are appropriately scaled, having been determined by the style, size and complexity of the individual buildings. Window sash are usually subdivided by muntins and casement windows are leaded, affecting the apparent scale of the windows within the facades.

(16) *Directional Expression of Front Elevations.* The houses in the Rosedale Park Historic District are horizontal or neutral in directional expression. Large architectural elements within facades are frequently vertical in directional expression, such as multi-storied projecting gables sections, clustered chimneys, or columns. The three (3) apartment buildings on West Outer Drive are horizontal in directional expression.

(17) *Rhythm of Building Setbacks.* Front yard setbacks are generally consistent on each residential street in the Rosedale Park Historic District, as pre-

scribed by the deed restrictions, although porches, entrance arrangements, window projections, and irregular massing result in the appearance of variety.

(18) *Relationship of Lot Coverages.* The lot coverage for the single-family dwellings ranges generally from twenty-five percent (25%) percent to thirty-five percent (35%), including the garage, whether freestanding or attached.

(19) *Degree of Complexity Within the Facades.* The degree of complexity has been determined by what is typical and appropriate for a given style. Overall, there is a higher degree of complexity in the English Revival style buildings, where their facades are frequently complicated by gables, bays, irregularly placed openings and entrances, and irregular massing, than those of other styles. The facades of classically inspired buildings and modernistic buildings are more straightforward in their arrangement of elements and details.

(20) *Orientation, Vistas, Overviews.* The orientation of buildings is generally toward the north-south streets, with the exception of the house at 14901 Minock, which faces Stoepel Park No. 1. The primary vistas are created by the landscaped traffic islands. Because of the standard setbacks and lack of front yard fencing, the streetscape appears as an unbroken greenbelt.

(21) *Symmetric or Asymmetric Appearance.* Front facades of buildings range from completely symmetrical to asymmetrical but balanced compositions. English Revival style buildings are irregular in layout and asymmetrical in appear-

ance. The classically-inspired buildings are generally symmetrical. The modernistic buildings are not symmetrical but result in highly ordered compositions.

(22) *General Environmental Character.* The Rosedale Park Historic District is a solid, fully developed large residential area of just under 1600 moderately-scaled single family dwellings, built-up in the period between World War I and World War II and complemented with typical examples of compatible houses from the 1950s. Its landscaped features within the public right-of-ways results in a park-like setting. Located approximately twelve miles from the city's center, the Grand River Avenue commercial strip is to its north; otherwise, the area features several other substantial residential subdivisions, including North Rosedale Park and Grandmont.

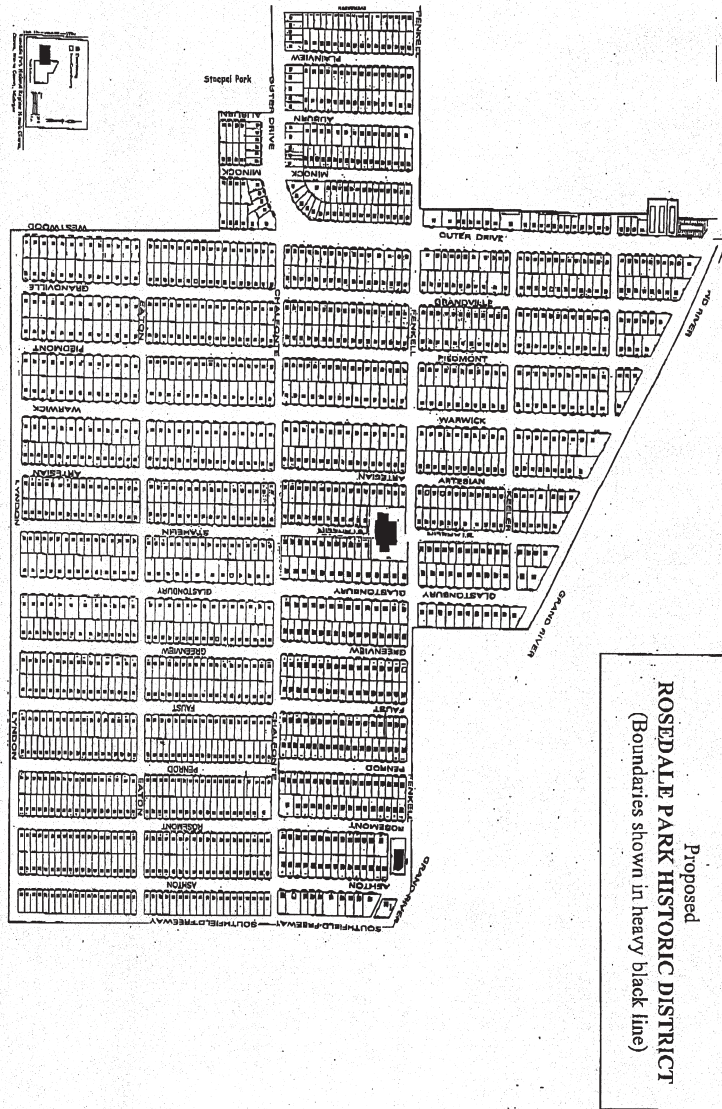

Section 2. All ordinances or parts of ordinances, or resolutions, in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

Office of Homeland Security and Emergency Management

May 8, 2006

Honorable City Council:

Re: Acceptance of Federal Emergency Management Agency (FEMA) Reimbursement.

The City of Detroit, Office of Homeland Security and Emergency Management, will be receiving reimbursement from FEMA for a total of \$156,671.72 in expenditures made during the Hurricane Katrina Reception Center effort. The State of Michigan received an emergency declaration in September 2005, to receive evacuees from areas impacted by Hurricane Katrina. These expenditures included employee overtime, supplies, services and resources.

Working with the State of Michigan Emergency Management Division, the City of Detroit and Wayne County implemented a reception center for evacuees to provide health and human services to evacuees relocating to the Detroit area. Within two days, the center became operational and provided evacuees with an opportunity to receive assistance in obtaining their FEMA number, public and mental health services, housing information, postal assistance, banking, Detroit Public School information, employment opportunities, general information and much love and support from the over 250 people working at the center. In addition, a warehouse at Coleman A. Young International Airport was the main collection site for donations from all over the metro Detroit Area. Volunteers staffed the warehouse and sorted through clothes, books, toys, food, water, cleaning supplies, furniture and many other donated items. They assisted evacuees in selecting supplies to help them start a new life here in Detroit.

In the twenty-six days the Hurricane Katrina Evacuee Reception Center was open, over 866 evacuees were serviced. This opportunity provided the city and county practical experience in working together in a non-emergency situation. This also set a precedent for responding to emergencies even when they do not occur in Detroit or Michigan. The reimbursement for expenditures occurred during the months of September, October, and November 2005 and include costs to set up, implement and break down the center as well as specific cost allowed by FEMA to assist the Katrina evacuees.

I respectfully request your approval to accept this federal reimbursement for assisting the Detroit area, Hurricane Katrina evacuees during their challenging transition from a traumatic experience to a stabilizing situation.

Sincerely yours,

Re: Transfer of Jurisdiction of Surplus Property Development: 10100 W. Ten Mile Road (Rackham Golf Course).

The Detroit Recreation Department has declared the above-captioned property surplus to its needs and requests that the Planning and Development Department (P&DD) assume jurisdictional control over the property so that it may be sold via purchase agreement. This property consists of an approximately 120.709 acre Golf Course site with nine (9) holes and is zoned R-1B (Single Family Residential District), located in the City of Huntington Woods.

The property was offered to the general public by P&DD via an advertised Request for Proposal (RFP) from July 26, 2006 to August 8, 2006 with a minimum bid of \$6,250,000.00 in which three (3) responses were received.

After a thorough evaluation of the Bids received, P&DD selected Premium Golf LLC, a Michigan Liability Company as the most responsive bidder for this property based on their proposed purchase price

of Eleven Million Two Hundred Fifty Thousand and 00/100 Dollars (\$11,250,000.00).

The developer proposes to purchase the property outright, without any conditions for the existing use as a golf course and/or deed restrictions.

The Developer possesses the qualifications and has indicated potential financial resources necessary to acquire this property.

Honorable City Council:

Re: Surplus Property Sale — Parcel 1; Located in Northville Township (Part of Fomer DEHOCO Site).

On July 28, 2004, (J.C.C. Page 2606), your Honorable Body authorized the sale of Parcel 1; located in Northville Township (part of Former DEHOCO Site), for the amount of \$3,955,400 to Grand/Sakwa of

Northville/Plymouth, L.L.C. a Michigan Limited Liability Company for use as a Industrial Technology Park.

Since that time, Grand/Sakwa decided not to proceed with the purchase for business reasons. The disposal of this land by negotiation is an appropriate method for making the land available for sale. Accordingly, we are now in receipt of an offer from Real Estate Interests Group, Inc., a Michigan Corporation to purchase the above-captioned property for the amount of \$3,891,600 and to develop such property. This property contains approximately 153.55 gross acres of which a portion constitutes the right-of-way for public roads and the Chesapeake & Ohio Railroad Easement leaving approximately 129.72 developable acres. The property is currently vacant and is zoned for industrial use (zoned I-1 Restricted Industrial District).

The Offeror proposes to construct an Industrial Park. This Industrial Park will be located on the north side of Phoenix (Five Mile Road) between Ridge and Napier Roads. Current zoning supports an Industrial Park. The surrounding properties include high-end residential, industrial and commercial uses.

Real Estate Interests Group, Inc. (REI) is based in Bloomfield Hills, Michigan, and specializes in complicated planning and rezoning projects, and Brownfield Redevelopment projects. Real Estate Interests Group, Inc. (REI) was established in 1983. The Company's focus is the identification, zoning and development of land. Over the years, REI has successfully completed many residential, commercial and industrial developments through Southeast Michigan. The Company's skill at tackling large, complex rezoning and redevelopment efforts is well recognized in the industry. Currently, REI is involved in several large-scale Brownfield Redevelopment projects in Southeast Michigan. These projects range from 80 to 400 acres and possess highly complex legal, environmental, geotechnical, financing and planning components.

Real Estate Interests Group, Inc. has developed a unique team of experts to facilitate the redevelopment of Brownfield sites, all of which, coincidentally, have significant experience on redevelopment projects in the City of Detroit. REI and its professional staff also have established strong working relationships with state and federal agencies such as the U.S. Environmental Protection Agency, helping to facilitate precedent setting solutions for the redevelopment of complex Brownfield sites. These relationships, and the collective skill of the REI team, have placed REI in a unique position to tackle Brownfield sites of various degrees of complexity on a national level.

We, therefore, request that your Honorable Body adopt the sale and authorize the Planning and Development Department Director or his authorized designee to issue a quit claim deed for this property and such other documents as may be necessary to effect the sale to Real Estate Interests Group, Inc., a Michigan Corporation for the amount of \$3,891,600.

Respectfully submitted,

Honorable City Council:

Re: Request to amend the Detroit Riverfront Conservancy Lease Agreement (the RiverWalk Lease) to revise the legal description to add the Cemex Parcel, 2122 E. Atwater.

On April 15, 2005, your Honorable Body adopted a resolution authorizing the execution of a lease agreement between the City of Detroit and the Detroit Riverfront Conservancy to assist in the implementation of the RiverWalk along the Detroit River between Hart Plaza and Gabriel Richard Park to the east of the MacArthur (Belle Isle) Bridge. Pursuant to that resolution, the City and the Conservancy entered into the "Detroit Riverfront Conservancy Lease Agreement" dated as of May 31, 2005.

Since the date the lease was executed, however, the City has acquired the riverfront property known as the Cemex (formerly Medusa Cement) parcel, 2122 E. Atwater. This parcel was not included in the lease because the City did not own it at that time. However, it has always been contemplated that the RiverWalk would be located along the river's edge of the Cemex parcel. The attached proposed resolution authorizes the inclusion into the RiverWalk lease of the southern 65 feet of the Cemex parcel. This will allow the Conservancy to maintain the continuity of the RiverWalk as originally planned.

Accordingly, we respectfully request authorization to amend the Riverwalk lease to incorporate the Cemex parcel. A proposed resolution is attached for your consideration.

Respectfully submitted,
DOUGLASS J. DIGGS

Re: Request for permission to apply for a grant with the Michigan Commission on Law Enforcement Standards (M.C.O.L.E.S.).

The Michigan Commission on Law Enforcement Standards distributed over \$4,000,000.00 in grant funding to various agencies for the 2006 calendar year. Currently, M.C.O.L.E.S. is accepting competitive grant applications for the 2007 calendar year.

The Detroit Police Department has identified a police sensitivity training program entitled, Alternative Training for Neighborhood Enforcement (AT-ONE PROJECT). This program was developed to bridge the communication and cultural gap between the community and law enforcement. This program meets the criteria for the 2007 M.C.O.L.E.S. competitive grant. The **AT-ONE PROJECT** was founded by President/Chief Executive Officer Mr. Dennis Muhammad, and has been implemented with great success in various cities throughout the United States.

Funding for the **AT-ONE PROJECT** will be utilized to train 330 sworn and civilian employees from the Eastern District in police sensitivity. A grant application has been prepared, which seeks \$135,285.00 in funding; with a **25% cash match**. Ms. Kimberly Williams, of the Department's Fiscal Operations, has confirmed that funds are available. Deputy Chief Ralph Godbee, Jr., of the Eastern District, will serve as the Project Director.

Honorable City Council:

Re: Request Approval of Fee Schedule for Pedal-Cabs and Rickshaws.

On July 19, 2006, the Detroit City Council approved an ordinance that amended Chapter 58 of the 1984 Detroit City Code, "Vehicles for Hire," by adding Article VIII, "Pedal-Cabs and Rickshaws."

This ordinance provides for the licensing and regulation of owners and operators of pedal-cabs and rickshaws in the City; Section 58-8-31 of the ordinance provides that it shall be unlawful for any person to transport passengers in a pedal-cab or rickshaw within the City without having a valid pedal-cab or rickshaw operator's license from the police department. Section 58-8-34 of the ordinance provides that a non-refundable fee for the pedal-cab and rickshaw operator's license shall be established by the Chief of Police, with the approval of City Council, and charged for the processing, issuance and renewal of the license.

It is estimated that there will be approximately 10 to 15 applicants for the pedal-cab or rickshaw operator licenses during the next fiscal year, as at least 4 to 5 companies have expressed an interest in having a business license (which will be a separate license issued by the Buildings and Safety Engineering Department (Business License Center) to own and

operate pedal-cabs or rickshaws in the City.

Division 3 of the ordinance requires the police department to ensure that the applicant has a valid Michigan operator's license, is 18 years of age, view the applicant's physical characteristics and review the applicant's ability to work in the United States. The police department will also administer a minimum test for knowledge of applicable traffic regulations and a criminal background check.

It is estimated that it will take a police officer approximately 40-45 minutes to process the application for the operator's license. The Maximus Cost of Service Report, revised 2/1/05, states that the hourly rate for city police officers, which include salaries, benefits, allocation of overtime or overhead and administration cost, is \$65.94, in round numbers, the projected cost of 10 new applicants for pedal-cabs and rickshaw operator's license, with 40 minutes per applicant would be \$66.00 (hourly DPD rate) x .7 hours per applicant x 10 applicants would be approximately \$462.00. This amounts to a cost of \$46.20 per license applicant for a new applicant.

Therefore, it is recommended that an annual fee of \$50.00 for a new pedal-cab or rickshaw license and a \$25.00 annual fee for the renewal of a license. A review of existing fees currently being charged for operating other vehicles for hire in the City pursuant to Charter 58 of the 1984 Detroit City Code, suggests that this is a reasonable fee to charge.

Should you have any additional questions or concerns regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

Sincerely,
 ELLA M. BULLY-CUMMINGS

Honorable City Council:

Re: Petition No. 3259 — "Plunkett and Cooney/Fifth Third Bank" for conversion of the alley into easement at 3927 W. Eight Mile Road.

Petition No. 3259 of "Plunkett and Cooney/Fifth Third Bank" request for the conversion of the East-West public alley, 18 feet wide, and a portion of the North-South public alley, 18 feet wide, all in the block bounded by West Eight Mile Road,

204 feet wide, Norfolk Avenue, 50 feet wide, Sheffield Avenue, 50 feet wide, and Gardendale Avenue, 50 feet wide into a private easement for utilities.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

Plunkett & Cooney whose address is 38505 Woodward, Suite 2000, Bloomfield Hills, Michigan 48304, on behalf of Fifth Third Bank and in conjunction with the Greenacres Woodward Civic Association (Neighborhood Community Group) have went door to door three times to obtain signature from property owners to consent to dead ending the north-south public alley to Lots 101 and 110 (a.k.a. 20528 Sheffield and Gardendale Avenues). Plunkett & Cooney and Greenacres Woodward Civic Association was not able to obtain signatures from 20414 Sheffield, 20444 Sheffield, 20516 Sheffield, and 20441 Gardendale, 20445 Gardendale, 20491 Gardendale for their consent to dead end the north-south public alley. Plunkett & Cooney have also sent certified letters to the outstanding property owners to secure their signatures, and the certified letters returned after three attempts from the Postal Office with the notations of unclaimed or vacant. These certified letters (originals) are on file in the office of the City Engineering Division — DPW. Eighty-Three percent (30 out of 36 owners) have consented to the dead-ending of the public alley (on file in the office of City Engineering — DPW). The ten property owners mostly affect by the dead ending of the public alley have consent to the dead ending of the north-south public alley as long as the remaining portion of the north-south public alley stay open (as the petition request/resolution before your Honorable Body stands) to provide access to their garage. The Neighborhood Community Group — Greenacres Woodward Civic Association have held public hearings with the community to address any concerns of the dead ending of the north-south public alley. The Neighborhood Community Group and residents have welcomed the new development of the bank to the area.

All City departments and privately owned utility companies have reported no objections to the conversion of the public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of this resolution.

The resolution is attached for your Honorable Body for consideration.

November 9, 2006

Honorable City Council:
 Re: Petition No. 437 — SDG Architects &
 Planners for permanent street
 encroachments (pedestrian bridge
 and foundations below grade) and
 vacation of an alley easement in con-
 nection with proposed permanent
 Greektown Casino project, in the
 area of St. Antoine and Monroe.
 Petition No. 437 of "Petition No. 437 —
 SDG Architects & Planners" whose

address is 615 Griswold — Ford Building
 — Suite 103, Detroit, Michigan 48226, on
 behalf of Greektown Casino, requests 1)
 Permission to construct and maintain an
 overhead pedestrian bridge 20.00 feet
 wide, encroaching into the intersection of
 St. Antoine Avenue, 50 feet wide, and
 Monroe Avenue, 50 feet wide. 2) Per-
 mission to encroach no greater than six
 (6.00) feet into Monroe Street, 50 feet
 wide and St. Antoine Avenue, 50 feet wide
 with bridge support foundation below
 grade. 3) To vacate a portion of the East-
 West public alley, 20.00 feet wide (vacat-
 ed and converted to easement on
 December 4, 1998 — J.C.C. Pgs. 3119-
 22) in the block bounded by Monroe
 Avenue, 50 feet wide, East Lafayette
 Avenue, 120 feet wide, Beaubien Avenue,
 60 feet wide, and St. Antoine Avenue, 50
 feet wide. This request is to facilitate the

construction of Greektown Hotel/Parking Structure and Casino.

SDG Architects & Planners on behalf of Greektown Casino plans to build a pedestrian bridge 20.00 feet wide with a minimum of 16.00 feet above grade and bridge support foundation (no greater than 6.00 feet from property line) in the intersection of St. Antoine Avenue, 50 feet wide, and Monroe Avenue, 50 feet wide to connect the Greektown Hotel/Parking Structure to Greektown Permanent Casino.

The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) reports there are water mains and sewers located in the intersection of St. Antoine and Monroe that have to remain in service. However, DWSD has no objections to the proposed encroachments for the pedestrian bridge and foundations provided that a minimum of 16 feet of clearance is maintained between the ground surface and the bottom of the pedestrian bridge. Also, the caissons for the foundation are to be drilled and encroach into the right-of-way a maximum of six feet from the property line. There is also a sewer located in the easterly portion of the east-west alley that has been request to be outright vacated. This sewer service the property located at the southwest corner of St. Antoine and Monroe, Lot 16, which is not owned by Greektown Casino at this time, however, we have no objections to the requested vacation provided that a private easement for sewers be reserved for that portion of the alley south of and adjacent to Lot 16. Provisions for the encroachments and easements are part of this resolution.

The Public Lighting Department (PLD) reports having already removed its overhead facilities in response to an earlier petition 424 in July 3, 1998. PLD have abandoned the PLD manholes and conduit bank running east-west in the alley as per the request for vacation. However, PLD recommend that before any construction begins, the contractor should contact PLD to verify that the abandoned feed to the engine house is disconnected at manhole 6630 on St. Antoine Avenue. Please return the Manhole covers and frames back to PLD once the vacation is completed. Also PLD has Traffic Signal master arms, underground traffic signal and street lighting conduits running in the area where the overhead bridge encroachment is proposed at Monroe and St. Antoine. Any structure proposed to be built shall maintain a four and half feet (4' 1/2") horizontal clearance from the PLD conduit bank and manholes. Also 10 feet horizontal clearance for the overhead PLD lines and installations. The contractor

will be liable for any damages to any PLD underground facilities.

Traffic Engineering Division (TED) reports no objection to the requested encroachment into the intersection of St. Antoine and Monroe Avenues with a pedestrian bridge and outright vacation of the remaining portion of the east-west public alley provided that 1) The roadway infrastructures are not reduced in any shape or form for maintaining uninterrupted vehicular and pedestrian traffic at all times. 2) The superstructure support columns/structures shall be located such that it does not compromise the sight distance/visibility necessary to maintain safety of vehicular and pedestrian traffic. 3) The sight distance/visibility of the traffic signal at Monroe and St. Antoine is not affected by the construction of the superstructure with the proposed 16 feet vertical clearance over the roadway to maintain safety of vehicular and pedestrian traffic. 4) Any work needed to maintain the safe visibility and height (minimum 16 feet under clearance) of traffic signals shall be done and paid for by the petitioner, Greektown Casino, and/or their heirs or assigns.

DTE Energy and gas Division reports is in very close proximity to gas service for 598 Monroe Avenue and if it needs to be relocated by construction the petitioner, Greektown and/or their heirs or assigns will have to pay for the relocation as needed. DTE Energy has to maintain services for the Greektown Casino Fire Pump as well as Trapper Alley. However, DTE will approve the vacation with the reservation of an private easement for DTE Energy within said alley to ensure that service to these facilities are maintained.

AT&T/SBC communication reports that the pedestrian bridge encroachment will have no impact on AT&T/SBC, unless supports columns interfere with AT&T/SBC St. Antoine run. AT&T must maintain feeds to existing customers. To relocate, charges will apply and please contact AT&T Customer Growth Group.

Comcast Cablevision reports a cost of \$20,931.82 for the removal and/or rerouting of such services.

All other involved City departments and privately owned utility companies reported no objections or that satisfactory arrangements have been made.

Respectfully submitted,
NADIM HAIDAR

Honorable City Council:
Re: Petition No. 4122 — Pewabic Pottery request for the installation and maintenance of non-standard streetscape in the public right-of-way, at 10125 East Jefferson Avenue.

Petition No. 4122 of "Pewabic Pottery" whose address is 10125 East Jefferson Avenue, Detroit, Michigan 48214 request to maintain encroachments into East Jefferson Avenue, 120 feet wide, and Cadillac Boulevard, 100 feet wide with a iron fence, shrubs, signage, planters, exposed aggregate and granite sidewalks and foundations for concrete columns; also request the Honorable City Council accept an easement over the Pewabic Pottery/petitioner's land, a ten (10) feet wide strip of land, for landscaping purpos-

es all in the area of East Jefferson Avenue, 120 feet wide, Hurlbut Avenue, 60 feet wide, and Cadillac Boulevard, 100 feet wide. This request is to enhance the landscape and beautification of East Jefferson.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance and review) and report. This is our report:

All public right-of-way work, including maintenance, must be subject to city permits, inspection, and specifications. "Pewabic Pottery" and/or their assigns must obtain permits from City Engineering Division — DPW for any public right-of-way work together with building permits.

The Public Lighting Department (PLD) reports PLD has a 24 KV high voltage underground feeders, manholes, underground fed street lighting standards, and traffic Signal feeds running in the requested area for encroachment and easement. PLD strongly recommend that the contractor should call MISS DIG to verify PLD's underground facilities. No structure can be built over PLD installations. Any structure proposed to be built shall maintain a four and a half feet (4'6") horizontal clearance from the PLD conduit bank and manholes; also a ten (10) feet horizontal clearance for the overhead PLD lines and installations. The contractor should take necessary precautions not to damage PLD manholes and conduit banks, which carry high voltage feeders if they plan to use heavy earth moving equipments. The contractor will be liable for any damages to any PLD underground facilities. PLD need easement rights with 24-hour heavy vehicle access to the requested area for encroachment.

The Detroit Water and Sewerage Department reports involvement but no objection to the requested encroachment provided that minimum clearances are maintained and DWSD provisions are followed.

Detroit Edison Company (DTE) Gas Division reports that DTE has an 8-inch cast iron (10 psig), 8-inch cast iron (2 psig), and 12-inch cast iron (2 psig) gas mains located in the request area of encroachment. DTE — Gas division will only relocated at the petitions request and a cost will be determined.

Detroit Edison Company (DTE) Electric Division reports DTE has Overhead lines, Underground lines, and system conduits along the alley north of East Jefferson and East of Cadillac Boulevard. DTE have no objection provided the Overhead and Underground lines are not disturbed. Foundation for the columns cannot disturb any Underground lines or conduits.

AT&T/SBC Telecommunication reports AT&T has facilities in the requested area of encroachment and can be re-located at

the petitioner/requesters expense.

All other City Departments and privately owned utility companies reported no objections. Provisions protecting utility installations are part of the attached resolution.

Jefferson, Detroit, MI 48214, ("Pewabic"), does hereby accept the terms and conditions of the City Council Resolution granting Petition #4122 of 2006, which authorizes the establishment of a Streetscape Improvement Project. Pewabic agrees to comply with its requirements; and further, pursuant to the said Resolution, Pewabic does hereby agree to save harmless the City of Detroit ("the City") from any and all liabilities, obligations, penalties, costs, charges, losses, damages, or expenses (including without limitation, fees and expenses of attorneys, expert witnesses and other consultants) which may be imposed upon, incurred by or asserted against the City by reason of the issuance of said Permit(s), or the performance or non-performance by Pewabic of the terms of the Permit(s).

All such insurance shall be effected at Pewabic's expense, under valid and enforceable policies, issued by insurers of recognized responsibility that are well-rated by national rating organizations and are acceptable to the City.

3.04 All insurance policies shall name Pewabic as the insured and provide a commitment from the insurer that such policies shall not be cancelled or reduced without at least thirty (30) days prior written notice to the City.

3.05 Pewabic shall be responsible for payment of all deductibles contained in the insurance required hereunder. Honorable City Council:
 Re: Petition No. 3442 — Addendum Redico Management, Inc. ("REDICO"). Office-Retail Building on the Kennedy Square Block at Campus Martius "As-Built" Easements within city rights-of-way area bounded by Griswold, Woodward, Fort and Michigan.

Redico Management Inc. ("REDICO") completed construction of a multi-story

office-retail building on the Kennedy Square Block site. The building added about 240,000 square feet of office-retail space in downtown Detroit. The structure is built above the renovated Kennedy Square Block underground parking garage. The REDICO office-retail building stands facing Campus Martius Park.

City Council approved a resolution (Petition No. 3442; November 18, 2005 — J.C.C. pages 3510-22) granting REDICO certain public street right-of-way easements, variances, roadway alterations and encroachments. The building structure activities are complete, and REDICO finished an 'as-built' land survey on July 28, 2006. Based upon the 'as-built' land survey, REDICO submitted a Kennedy Block Condominium Subdivision Plan to Wayne County for recording a master deed; containing three-dimensional legal

descriptions. The condominium documents necessitate adjustments in some of the legal descriptions of easements approved by City Council in the November, 2005 resolution. Also, to operate the renovated underground parking garage certain 'as-built' easements must be retained by the Detroit Downtown Development Authority ("DDA").

The attached resolution will serve as an "addendum" to Petition No. 3442 of REDICO. The 'as-built' legal descriptions within this resolution will reestablish the REDICO and DDA "three-dimensional land easements". The 'as-built' easements in this resolution are shown within the Kennedy Block Condominium Plan.

I am recommending adoption of the attached resolution.

Respectfully submitted,
WILLIAM L. TALLEY

Head Engineer

City Engineering Division — DPW

By Council Member Watson:

The condominium documents necessitate adjustments in some of the legal descriptions of easements approved by City Council in the November, 2005 resolution. Also, to oper-

ate the renovated underground parking garage certain 'as-built' easements must be retained by the Detroit Downtown Development Authority ("DDA"); therefore be it

Resolved, To maintain the REDICO office-retail building within the Kennedy Block Condominium Subdivision Plan it is necessary to reestablish "three-dimensional land easements" previously granted by City Council (Petition No. 3442; November 18, 2005 — J.C.C. pages 3510-22). Land surveys have determined the precise position of the 'as-built' structure and its appurtenances. Parts of the structure are permissible projections into City public rights-of-way as shown within the condominium plan. Also, to operate the renovated underground parking garage certain 'as-built' easements must be retained by the DDA. Firstly, the DDA and REDICO easement areas are summarized in a "table" in this resolution. Secondly, the DDA and REDICO "three-dimensional land easements" are more particularly described in this resolution:

NOTES: In this resolution "easement(s)" means a non-possessory interest — delimited elevations in city datum; aboveground and surface-grade — within public street rights-of-way to construct and maintain parts of the "REDICO" office-retail building." When this specific purpose is extinguished (meaning if the "REDICO office-retail building" is razed by its land title holders) the public lands, street rights-of-way, revert back to their full height(s)-width(s)-depth(s) [elevations defined within the condominium plan records] free of "REDICO office-retail building" burden(s) or easement(s).

The REDICO office-retail building and DDA garage three-dimensional 'as-built' easements are shown within a set of drawings, prepared by Metco Services, Inc., entitled "Kennedy Block Condominium." The drawings will be recorded as an exhibit to the master deed of "Kennedy Block Condominium, City of Detroit, Wayne County, Michigan.

FIRSTLY, the DDA and REDICO easements are summarized in the following table:

Honorable City Council:

Re: Petition No. 4379(A) — Economic Development Corporation (EDC) of the City of Detroit, requesting that the Detroit City Council accept the dedication of land as new public right-of-way in connection with the

“Dequindre Cut Greenway Project”, between Gratiot and Woodbridge Avenues.

Petition No. 4379(A) of the “Economic Development Corporation of the City of Detroit” (EDC), on behalf of the Department of Public Works (DPW) request the opening and dedication of certain vacated public rights-of-way and private property acquired from Grand Trunk Western Railroads and Jefferson Holdings for the purpose of redevelopment, establishing public open space, and creation of a transportation corridor, to be known as the “Dequindre Cut Project Area”.

The Project Plan states that the former

rail corridor may be used for non-motorized transportation purposes. The corridor is proposed to be a pedestrian/bikeway. The City of Detroit is in receipt of grants and funding from the Michigan Department of Transportation. It is necessary that the area described in this resolution be opened or dedicated as public right-of-way and placed under the jurisdiction of the DPW, in order to use these funds for this project.

As a condition of the development, the City of Detroit Law Department is currently preparing a "Maintenance and Use Agreement" between the City of Detroit and the Detroit Riverfront Conservancy Incorporated that will also come before your Honorable Body.

An appropriate resolution is attached for your consideration.

Respectfully submitted,
NADIM HAIDAR
Acting Head Engineer

City Engineering Division—DPW
By Council Member Watson:

Water and Sewerage Department General Administration

August 28, 2006

Honorable City Council:

Re: Resolution of Necessity of the City Council of Detroit for the Taking of Private Property for the Benefit and Use of the Public for the Detroit Water and Sewerage Department Oakwood Pump Station and Combined Sewer Overflow (CSO) Control Facility and other Municipal Public Purposes from Equilon Enterprises, LLC, dba Shell Oil Products US 777 Walker Street, Room 1248, Houston, Texas.

The Detroit Water and Sewerage Department (DWSD) is obligated by its National Pollutant Discharge Elimination System (NPDES) Permit to provide a Combined Sewer Overflow (CSO) control facility to treat discharge from the Oakwood Pump Station. The NPDES Permit issued by the Michigan Department of Environmental Quality (MDEQ) requires that the basis of design report for the Oakwood CSO facility be completed by May 1, 2005. This report has been completed. The final plans and specifications must be completed by November 1, 2006. Construction must

start by July 1, 2007, and must be completed by December 1, 2009.

The engineering and design of the facility proceeded with the knowledge that the Shell Oil Company desired to sell the property. Although there are other sites that are vacant, their use would significantly increase the cost of engineering, design and construction; and those properties would likely also have to be acquired by condemnation. Delay in property acquisition would jeopardize completion of construction by the date prescribed in the NPDES Permit.

The existing Oakwood Pump Station serves the nearly 1,500 acre, Oakwood Sewer District located in the southwest portion of the City of Detroit. The engineering design of the CSO Control Facility requires extensive work on the 7.9-acre site owned by the Shell Oil Company. To meet the needs of DWSD, a reconnaissance of properties and evaluation of alternatives identified the vacant property at 12082 Pleasant Drive, Detroit, Michigan, as the most suitable site for the construction.

The cost of the land to be acquired (in fee simple) is two hundred fifty thousand (\$250,000.00) dollars based upon a site appraisal as of June 4, 2004, which estimates the market value "As Is" for a taking of the entire "subject" property.

After 27 months of negotiating, DWSD made a "Good Faith Offer" of \$250,000.00 to the Shell Oil Products US. The offer has been rejected, and the Department has elected to proceed with condemnation if authorized to do so by the Detroit City Council. At its meeting of October 27, 2004, the Board of Water Commissioners gave their authorization.

Time is important since the National Pollutant Discharge Elimination System (NPDES) Permit (for regulated discharges into the Detroit and Rouge Rivers) contains certain dates to complete and initiate operations of various capital improvements.

DWSD respectfully requests your Honorable Body's approval of the "Resolution of Necessity for the Taking of Private Property for the Benefit and Use of the Public for the Detroit Water and Sewerage Department Oakwood Pump Station and Combined Sewer Overflow Control Facility and other municipal public purposes."

Respectfully submitted,
VICTOR M. MERCADO
Director

By Council Member S. Cockrel:

Whereas, There exists in the City of Detroit, Michigan (the "City"), the need to provide a sanitary water supply and disposal system for City residents, to construct, equip, operate, maintain and improve works for the sanitary treatment, purification and disposal of City sewage,

and to provide needed sewage services and facilities to the City and its residents; and

Whereas, Act 316 Public Acts of Michigan 1931, as amended, Act 279 Public Acts of Michigan 1909, as amended, Act 451 Public Acts of Michigan 1994, as amended and Act 211 Public Acts of Michigan 1949, as amended (the "Acts"), constitute full authority for the City to carry out the purposes set forth in the Acts, including but not limited to the institution of eminent domain proceedings to acquire the necessary property; and

Whereas, The City has previously established that the Detroit Water and Sewerage Department (the "DWSD" or the "Department") has the authority to exercise the powers and authority granted by the Acts, as amended; and

Whereas, The DWSD Board of Water Commissioners has authorized implementation of certain capital improvements to its wastewater treatment system, including but not limited to constructing a CSO detention and treatment basin and a new pumping station for this Oakwood Sewer District, along with other related facilities (the "Project") to enhance the quality of wastewater treatment services in the City of Detroit and the Detroit Metropolitan Region and in order to provide for the City's continued compliance with its duly issued National Pollution Discharge Elimination System ("NPDES") Permit; and

Whereas, Engineers and consultants working on behalf of the DWSD have determined that from among other alternatives, the provision of a Combined Sewer Overflow Control (CSO) Facility and replacement of the existing Pump Station is the best and the most reasonable alternative which will ensure adequate CSO control, proper maintenance, optimize operational efficiency, minimize cost, maintain regulatory compliance and reduce the impact on private property interests while addressing the current sewer overflow requirements in the City's NPDES Permit; and

Whereas, The most suitable location for the installation of the Project is in a vacant 7.9 acre site immediately adjacent to the existing Oakwood Pump Station as shown more specifically on Exhibit A and B ("Parcel 1"); and

Whereas, Phase I and II Environmental Assessment Reports have been prepared, which revealed contaminants in soil and water at various locations that exceed residential criteria as defined in Michigan Act 451, Part 201 Generic Residential Criteria.

Whereas, Based upon preliminary environmental investigations, by Advanced Engineering Solutions, Inc., past experience and representations by Camp Dresser and McKee, P.C., an allowance

for funds for site investigations, site assessments, response activities, remedial activities, remedial actions, removal actions, and abatement of any hazardous substance mandated by or anticipated to be performed in compliance with any applicable environmental law, including a Comprehensive Environmental Response Compensation and Liability Act ("CERCLA"), and the Michigan Natural Resources and Environmental Protection Act ("MNREPA"), and the Toxic Substance Control Act ("TSCA"), plus contingencies, is sought in the amount of approximately \$2.3 million dollars (\$2,274,600.00). The amount of any allowance retained will be finally determined by order of the court; and

Whereas, The City has determined that the construction of the Project on the subject property is the most feasible and cost effective design available; facilitates optimal operational performance; ensures minimal maintenance concerns; maintains regulatory compliance with the City's NPDES permit; and minimizes the impact on private property; and

Whereas, Pursuant to the Acts, as amended, the City is authorized to take private property necessary for public improvements and/or a public facility for the public purposes within the scope of its powers under the act for the use and benefit of the public and to institute and prosecute proceedings for such purpose, including but not limited to proceedings pursuant to 1980 Public Acts of Michigan 87, as amended; and

Whereas, It is necessary to acquire the subject property described on Exhibit B attached hereto and incorporated herein by reference to accomplish the public objectives, purposes, and uses of the Project, and it is essential for the public health, safety, general welfare and peace of the City; and

Whereas, It is necessary to acquire said private property (i.e., the subject property) for such public purposes within the scope of the statutory powers or the Acts for the use and benefit of the public; and

Whereas, The most recent state equalized valuation for the entire subject property was \$78,200 Dollars as of 2002; and

Whereas, The initial estimate of the total aggregate cost of acquiring the subject property, including but not limited to the estimated total aggregate just compensation to be paid plus contingencies, is Two Hundred Fifty Thousand Dollars (\$250,000.00); and

Whereas, The initial estimate of the total aggregate relocation benefits to be paid to any displaced person in connection with the properties to be acquired plus contingencies is zero Dollars (\$0); because the property is vacant, underdeveloped land; and

Whereas, The Project is expected to enhance the quality of the wastewater treatment services in the City, and ensure the City's continued compliance with its NPDES Permit; and

Whereas, The approval of this Resolution of Necessity is necessary for the consummation of the transactions contemplated by implementation of this Project, and is in the best interests of the citizens of the City of Detroit:

Now, Therefore, Be It Resolved:

1. This Honorable Body declares that the development and use of a Combined Sewer Overflow (CSO) Control Facility and a new Pump Station, to serve the Oakwood Sewer District, on Parcel 1 located at 12082 Pleasant as shown on Exhibits A and B are necessary and essential to the interests of the public peace, health, safety and welfare of the City, and to the enhancement of the quality of wastewater treatment and sewage services to the City of Detroit and the residents of the City of Detroit and Southeastern Michigan;

2. This Honorable Body hereby (a) declares that the development of the CSO Control Facility and Pump Station is necessary; (b) determines that the Project constitutes a major public improvement and/or the development of public facilities for the use and benefit of the public; (c) declares it necessary to take private property for the purpose of these public improvements; and (d) determines that the land necessary for such Project is located at 12082 Pleasant in the City of Detroit, County of Wayne, Michigan, as shown more specifically in Exhibits A and B attached hereto;

3. The City of Detroit hereby declares its intention to acquire property necessary for the development of the Project by gift, purchase, condemnation, abandonment, or otherwise, for the purpose of transfer to the DWSD on terms and conditions that the City and the DWSD deem appropriate, and this Honorable Body hereby declares and determines that the taking, transfer and use of such property is a necessary public improvement, is necessary for public purposes and for the health, welfare and benefit of the residents of the City of Detroit.

4. The Director of the City of Detroit Water and Sewerage Department or his designee is hereby authorized to make offers to purchase said property, to negotiate for the purchase of said property, and to enter into the purchase and transfer agreements in connection with said property;

5. The Director of the City of Detroit Water and Sewerage Department or his designee shall comply with the terms and conditions of City of Detroit Ordinance 18-96;

6. The Corporation Counsel for the

City of Detroit is hereby directed to institute and bring to an appropriate conclusion the necessary condemnation proceedings on behalf of the City of Detroit in the Third Judicial Circuit, County of Wayne, State of Michigan to acquire said property through the exercise of the City's power of eminent domain; if the City is unable to purchase the property from the property owners through negotiations pursuant to 1980 PA 87, as amended, and other applicable laws;

7. The Corporation Counsel or her designee is authorized to accept deeds and/or requisite documents related to the acquisition and to authorize payment of the estimated just compensation presently held by the City Treasurer;

8. The City Treasurer is directed to prorate all City and County taxes to the date of closing on property acquired;

9. The Finance Director or his designee is authorized to honor applications and/or vouchers covering payment for this estimated just compensation deposited with the City Treasurer or his designee when deeds and/or the requisite documents related to the acquisition are presented in advance of regular trial on any contested parcel;

10. In order to implement and facilitate the accomplishment of the Project, improvements and modifications, it is

hereby found and determined that certain other official action may be taken by the City with respect to, but not limited to, changes in the zoning and the vacation and removal of streets, alleys, or the public ways and certain utilities and public facilities; and

11. This Resolution is to take immediate effect.

(b) Based on the advice of the City's financial advisors (the "Financial Advisors") the Council estimates that the refunding

of the Refunded Bonds will result in a net present value savings to the City and otherwise allow the City to improve its consolidated debt repayment schedule for outstanding general obligation bonds.

Section 202. Declaration of Borrowing. The City shall borrow, under this Resolution on the authority of and in accordance with the provisions of the Charter, Act 34 and Act 279, a sum not to exceed the Maximum Aggregate Principal Amount and the Bonds shall bear interest on a fixed and/or variable rate and tax-exempt or taxable basis as provided herein and in the Sale Order, and the City shall issue the Bonds as hereinafter provided and as finally confirmed by the Finance Director in the Sale Order, secured by the unlimited tax full faith, credit and resources of the City which will be payable from ad valorem taxes levied on all taxable property within the City without limitation as to rate or amount, to provide funds for the purposes stated herein.

ARTICLE III AUTHORIZATION, REDEMPTION AND ASSIGNMENT OF THE BONDS

Section 301. Authorization of Bonds and Pledge. (a) The City hereby authorizes the issuance of the Bonds in such series in such principal amounts as shall be confirmed in the Sale Order, not in excess of the Maximum Aggregate Principal Amount in accordance with Section 302. The Bonds shall be general obligations of the City, and the unlimited tax, full faith, credit and resources of the City are hereby irrevocably pledged for the prompt payment of the principal of and interest on the Bonds. The City pledges to pay the principal of and interest on the Bonds from the proceeds of an annual levy of ad valorem taxes on all taxable property in the City without limitation as to rate or amount for the payment thereof.

(b) Series 2006-A Bonds of the City aggregating the principal amount of not to exceed Sixty Million Dollars (\$60,000,000), shall be issued for the purpose of financing certain portions of the costs of the City relating to the following Prior Voter Authorized Projects in the following not to exceed amounts as previously appropriated by the Council: (i) \$150,000 for the Detroit Institute of Arts Improvements; (ii) \$4,810,000 for Neighborhood Redevelopment and Economic Development (including \$3,000,000 for Cobo Hall Parking Garage Improvements and \$1,810,000 for Coleman A. Anything in this Resolution to the contrary notwithstanding, in no event shall the initial proceeds of such Series 2006-A Bonds be used to finance Projects in amounts which have not been appropriated by the Council. Unless issued in more than one series as determined by the Finance Director in the Sale Order for such series and designated as provided in Section 302(a) hereof, the Series 2006-A Bonds shall be designated "GENERAL OBLIGATION BONDS (UNLIMITED TAX), SERIES 2006-A".

Unless issued in more than one series and designated as provided in Section 302(a) hereof, the Series 2006-B Bonds shall be designated "GENERAL OBLIGATION REFUNDING BONDS (UNLIMITED TAX), SERIES 2006-B".

Section 302. Designations, Dates, Interest Rates, Maturities, Redemption and Other Terms of the Bonds.

(a) The Bonds shall be designated as provided in Section 301 and may bear such later dates and additional or alternative designations as the Finance Director may determine in the Sale Order, shall be issued in fully registered form and shall be consecutively numbered from "RA-1" and "RB-1" upwards, respectively, unless otherwise provided by the Finance Director in the Sale Order. The Bonds

shall be dated and issued in such denominations all as determined by the Finance Director and confirmed by the Finance Director in the Sale Order.

(b) The Bonds shall mature on such dates and shall bear interest at such rates on a fixed and/or variable and tax-exempt or taxable basis not exceeding the Maximum Interest Rate, payable on such dates as shall be determined by the Finance Director and confirmed by the Finance Director in the Sale Order. Unless otherwise provided by the Finance Director in the Sale Order, interest on the Bonds shall be calculated on the basis of a 360 day year consisting of twelve, 30 day months. Notwithstanding the foregoing, the Finance Director is authorized to determine and confirm in the Sale Order whether all or any portion of the Bonds shall be issuable as capital appreciation bonds.

(c) Unless otherwise provided by the Finance Director in the Sale Order, interest on the Bonds shall be payable on the first day of each April and October (such first day of April or October or such other day or days of any month or months as the Finance Director shall determine in the Sale Order on which interest shall be scheduled to be paid on Bonds, an "Interest Payment Date"), commencing on [April 1, 2007] or such other Interest Payment Date or dates as shall be determined by the Finance Director in the Sale Order.

(d) The Bonds shall be payable, as to principal and interest, in lawful money of the United States of America. Except as may be otherwise determined by the Finance Director in the Sale Order, interest on the Bonds shall be payable to the Registered Owner as of the 15th day of the month, whether or not a Business Day (a "Regular Record Date"), prior to each Interest Payment Date. Interest on the Bonds shall be payable to such Registered Owners by check or draft drawn on the Paying Agent on each Interest Payment Date and mailed by first class mail or, upon the written request of the Owner of \$1,000,000 or more in aggregate principal amount of Bonds (with complete wiring instructions no later than the Regular Record Date for such Interest Payment Date), by wire transfer by the Paying Agent to such Owner. Such a request may provide that it will remain in effect with respect to subsequent Interest Payment Dates unless and until changed or revoked at any time prior to a Regular Record Date by subsequent written notice to the Paying Agent.

(e) Interest on Bonds not punctually paid or duly provided for on an Interest Payment Date shall forthwith cease to be payable to the Registered Owners on the Regular Record Date established for such Interest Payment Date, and may be paid

to the Registered Owners as of the close of business on a date fixed by the Paying Agent (a "Special Record Date") with respect to the payment of such defaulted interest to be fixed by the Paying Agent, or may be paid at any time in any other lawful manner. The Paying Agent shall give notice to the Registered Owners at least seven days before any such Special Record Date.

(f) The principal of the Bonds shall be payable to the Owners of the Bonds upon the presentation of the Bonds to the Paying Agent at the principal corporate trust office of the Paying Agent.

(g) The Bonds shall be subject to redemption and/or tender for purchase prior to maturity or shall not be subject thereto, upon such terms and conditions as shall be determined by the Finance Director and confirmed in the Sale Order, provided that any premium payable in connection with the optional redemption of the Bonds shall not exceed 3%.

Unless waived by any registered owner of Bonds to be redeemed, official notice of redemption shall be given by the Bond Registrar and Paying Agent on behalf of the City. Such notice shall be dated and shall contain at a minimum the following information: original issue date; maturity dates; interest rates, CUSIP numbers, if any; certificate numbers, and in the case of partial redemption, the called amounts of each certificate; the redemption date; the redemption price or premium; the place where Bonds called for redemption are to be surrendered for payment; and that interest on Bonds or portions thereof called for redemption shall cease to accrue from and after the redemption date.

In addition, further notice shall be given by the Paying Agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all or any portion of such further notice shall in any manner defeat the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

(h) In making the determinations set forth in this Resolution with respect to the Sale Order for the issuance and sale of the Bonds, the Finance Director shall be limited to the parameters as follows:

(1) The first maturity date or mandatory sinking fund redemption date for the Bonds shall not be later than five (5) years from the date of issuance (except for Bonds issued in more than one series, which shall have first maturity dates not later than five (5) years from the date of issuance as determined by the Finance Director at the time of sale thereof), and the final maturity dates for the Bonds shall not be later than the earlier of (i) the last year of the weighted average estimated

period of usefulness of the improvements being financed or (ii) 30 years from their dated date.

(2) The compensation to be paid to the Underwriters of the Bonds shall not exceed 2% of the original principal amount of the related series of Bonds.

(3) Unless the Finance Director determines to issue all or a part of the Bonds as capital appreciation bonds, the amount of any original issue discount with respect to the Bonds shall not exceed 10% of the original principal amount of the related series of Bonds.

(4) To the extent permitted by applicable law, each series of the Bonds may be sold with an original issue premium in an amount as determined by the Finance Director; provided that the aggregate principal amount of the Bonds plus the net original issue premium shall not exceed the Maximum Aggregate Principal Amount of Bonds authorized under this resolution.

(5) The net present value of the principal and interest to be paid on the Series 2006-B Bonds, including the cost of issuance, shall be less than the net present value of the principal and interest to be paid on the Refunded Bonds.

Section 303. Execution, Authentication and Delivery of Bonds. The Bonds shall be executed in the name of the City by the manual or facsimile signatures of the Mayor and the Finance Director and authenticated by the manual signature of the Finance Director or an authorized representative of the Bond Registrar and Paying Agent, as the case may be, and the seal of the City (or a facsimile thereof) shall be impressed or imprinted on the Bonds. After the Bonds have been executed and authenticated for delivery to the original purchaser thereof, they shall be delivered by the Finance Director to the purchasers thereof upon receipt of the purchase price. Additional Bonds bearing the manual or facsimile signatures of the Mayor and the Finance Director and upon which the seal of the City (or a facsimile thereof) is impressed or imprinted may be delivered to the Bond Registrar and Paying Agent for authentication and delivery in connection with the exchange or transfer of Bonds. The Paying Agent shall indicate on each Bond the date of its authentication.

Section 304. Authentication of the Bonds. (a) No Bond shall be entitled to any benefit under this Resolution or be valid or obligatory for any purpose unless there appears on such Bond a Certificate of Authentication substantially in the form provided for in Section 307 of this Resolution, executed by the manual or facsimile signature of the Finance Director or by an authorized signatory of the Paying Agent by manual signature, and such certificate upon any Bond shall

be conclusive evidence, and the only evidence, that such Bond has been duly authenticated and delivered hereunder.

(b) The Paying Agent shall manually execute the Certificate of Authentication on each Bond upon receipt of a written direction of the Finance Director of the City to authenticate such Bond.

Section 306. Regulations with Respect to Exchanges and Transfers. (a) In all cases in which the privilege of exchanging Bonds or transferring the registration of Bonds is exercised, the City shall execute and the Paying Agent shall authenticate and deliver Bonds in accordance with the provisions of this Resolution. All Bonds surrendered in any such exchanges or transfers shall be forthwith canceled by the Paying Agent.

(b) For every exchange or transfer of Bonds, the City or the Paying Agent may make a charge sufficient to reimburse it for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer and, except as otherwise provided in this Resolution, may charge a sum sufficient to pay the costs of preparing each new Bond issued upon such exchange or transfer, which shall be paid by the person requesting such exchange or transfer as a condition precedent to the exercise of the privilege of making such exchange or transfer.

Whenever the Security Depository requests the City and the Paying Agent to do so, the Finance Director on behalf of the City and the Paying Agent will cooperate with the Security Depository in taking appropriate action after reasonable notice to make available Bonds registered in whatever name or names the Beneficial Owners transferring or exchanging Bonds shall designate.

(c) Notwithstanding any other provision of this Resolution or the Sale Order to the contrary, so long as the Bonds are held pursuant to the book-entry-only system maintained by the Security Depository.

ARTICLE IV SPECIAL COVENANTS

Section 401. Tax Exemption Covenant. The City covenants that it will not take any action, or fail to take any action required to be taken, if taking such action or failing to take such action would adversely affect the general exclusion from gross income of interest on the Bonds (determined by the Finance Director to be issued on a tax-exempt basis), from federal income taxation under the Code.

Section 402. Arbitrage Covenant. (a) The City will not directly or indirectly (1) use or permit the use of any proceeds of the Bonds (determined by the Finance Director to be issued on a tax-exempt basis) or other funds of the City or (2) take or omit to take any action required by Section 148(a) of the Code in order to maintain the exclusion from gross income of the interest on the Bonds (determined by the Finance Director to be issued on a tax-exempt basis) for federal income tax purposes. To that end, the City will comply with all requirements of Section 148 of the Code to the extent applicable to the Bonds and the requirements set forth in the Non-Arbitrage and Tax Compliance

Certificate of the City.

(b) Without limiting the generality of subsection (a), above, the City agrees that there shall be paid by the City from time to time all amounts, if any, required to be rebated to the United States pursuant to Section 148(f) of the Code. This covenant shall survive payment in full or defeasance of the Bonds.

(c) Notwithstanding any provision of this Section, if the City obtains an opinion of Bond Counsel to the effect that any action required under this Section is no longer required, or that some further action is required, to maintain the exclusion from gross income of the interest of the Bonds (determined by the Finance Director to be issued on a tax-exempt basis) for federal income tax purposes pursuant to Section 103 of the Code, the City may conclusively rely on such opinion in complying with the provisions hereof.

**ARTICLE V
FUNDS AND ACCOUNTS;
DISPOSITION OF BOND PROCEEDS**

Section 501. Establishment of Accounts and Funds. The City hereby establishes and creates the following special, separate and segregated accounts and funds which shall be held for and on behalf of the City by a bank or banks or other financial institution which the Finance Director or Treasurer of the City designates as depository of the City:

- A. Debt Retirement Fund;
- B. Bond Issuance Fund;
- C. Escrow Fund; and
- D. Construction Fund.

The Finance Director is hereby authorized to establish such accounts, sub-accounts or funds as shall be required for the Bonds, if any, to accommodate the requirements of such series of Bonds, including, but not limited to, such accounts, subaccounts or funds necessary to facilitate the allocation and use of bond proceeds to finance the Projects or the purchase and payment of variable rate bonds.

Section 502. Debt Retirement Fund. From the proceeds of the sale of the Bonds there shall be set aside in the Debt Retirement Fund the accrued interest, capitalized interest and premium, if any, received from the purchasers of the Bonds at the time of delivery of the Bonds. General funds of the City, proceeds of all taxes levied pursuant to Section 301 hereof and any amounts transferred from the Construction Fund under Section 505 hereof shall be used to pay the principal of and interest on the Bonds when due. The foregoing amounts shall be placed in the Debt Retirement Fund and held in trust by the Paying Agent, and so long as the principal of or interest on the Bonds shall remain unpaid, no moneys shall be withdrawn

from the Debt Retirement Fund except to pay such principal and interest. Any amounts remaining in the Debt Retirement Fund after payment in full of the Bonds and the fees and expenses of the Paying Agent shall be retained by the City to be used for any lawful purpose.

Section 503. Bond Issuance Fund. From the proceeds of the Bonds there shall be set aside in the Bond Issuance Fund a sum sufficient to pay the costs of issuance of the Bonds. Moneys in the Bond Issuance Fund shall be used solely to pay expenses of issuance of the related series Bonds. Any amounts remaining in the Bond Issuance Fund after payment of issuance expenses shall be transferred to the Construction Fund.

Section 504. Escrow Fund. After making the deposits required by Sections 502 and 503, there shall be deposited from the remainder of the proceeds of the sale of the Series 2006-B Bonds and any moneys transferred by the City at the time of delivery of the Series 2006-B Bonds from the debt retirement fund for the Refunded Bonds, into the Escrow Fund (which shall be maintained in cash or invested in direct obligations of or obligations guaranteed by the United States of America, not redeemable at the option of the issuer), an amount, as hereinafter described, sufficient to pay the principal of and interest on the Refunded Bonds as they become due and, except as otherwise herein provided, shall be used only for such purposes. The Escrow Fund shall be irrevocably held by U.S. Bank National Association, Detroit, Michigan as escrow trustee (the "Escrow Trustee") in trust pursuant to an escrow deposit agreement between the City and the Escrow Trustee (the "Escrow Agreement"), which Escrow Agreement shall irrevocably direct the Escrow Trustee to take all necessary steps to pay the principal of and interest on the Refunded Bonds when due and to call for redemption the Refunded Bonds in whole or in part, as and when specified in the Escrow Agreement. The amounts, including the investments thereof, held in the Escrow Fund shall be such that the cash and investments and income received thereon will be sufficient, without any reinvestment, to pay the principal of and interest on the Refunded Bonds when due at maturity or by redemption as required by this Section. Any balance remaining in the Escrow Fund after payment in full of principal and interest on the Refunded Bonds shall be applied as provided in the Escrow Agreement.

The Escrow Trustee means and includes any company into which the Escrow Trustee may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company

to which the Escrow Trustee may sell or transfer all or substantially all of its corporate trust business, provided such company shall be a trust company or bank which is qualified to be a successor to the Escrow Trustee as determined by the Finance Director, shall be authorized by law to perform all the duties imposed upon it by this Resolution, shall be the successor to the Escrow Trustee without the execution or filing of any paper or the performance of any further act, anything herein to the contrary notwithstanding.

The Council hereby authorizes the Finance Director to approve the form of and to execute the Escrow Agreement with the Escrow Trustee for and on behalf of the City.

Section 505. Construction Fund. (a) After making the deposits required by Sections 502 and 503 the remainder of the proceeds of the sale of the Series 2006-A Bonds shall be deposited in the Construction Fund. Except for investment pending disbursement and as hereinafter provided, moneys in the Construction Fund shall be used by the City solely and only to pay the costs of the Projects as such costs become due and payable and, if necessary, to rebate arbitrage earnings, if any, to the United States Department of Treasury as required by the Code.

(b) The Finance Director is hereby authorized and directed to expend money from the Construction Fund for costs of the Projects, including reimbursement to the City for moneys previously expended in anticipation of issuance of the Series 2006-A Bonds, to the extent reimbursement for such Project expenditures has been properly induced by resolution of the City Council in accordance with the Code, if required, except for such Series 2006-A Bonds not issued on a tax-exempt basis.

(c) Gross proceeds or disposition proceeds, as defined in the regulations under Code Sections 141 and 148, respectively, resulting from any sale of any portion of the Projects shall be deposited in separate accounts established in the Construction Fund and used in the discretion of the Finance Director to pay additional costs of the Projects or transferred to the Debt Retirement Fund and used to pay the principal of or interest on the Bonds. The Finance Director shall assure that such gross proceeds or disposition proceeds are invested and expended in accordance with the requirements specified in Section 506 hereof and in the Non-Arbitrage and Tax Compliance Certificate.

(d) Upon payment of all costs of the Projects, any balance in the Construction Fund shall be transferred to the Debt Retirement Fund or used in any other manner which in the opinion of nationally recognized bond counsel is permitted by law and which will not cause the interest

on the Bonds (issued on a tax exempt basis) to become includible in gross income for federal income tax purposes.

Section 506. Investment of Monies in the Funds and Accounts. (a) The Finance Director shall direct the investment of monies on deposit in the Funds and Accounts established hereunder, and the Paying Agent, upon written direction or upon oral direction promptly confirmed in writing by the Finance Director, shall use its best efforts to invest monies on deposit in the Funds and Accounts in accordance with such direction.

(b) Monies on deposit in the Funds and Accounts may be invested in such investments and to the extent permitted by applicable law.

ARTICLE VI

Section 601. Paying Agent. The Paying Agent for the Bonds shall act as bond registrar, transfer agent and paying agent for the Bonds and shall be initially U.S. Bank National Association, Detroit, Michigan, or such other bank or trust company located in the State which is qualified to act in such capacity under the laws of the United States of America or the State. The Paying Agent means and includes any company into which the Paying Agent may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be party or any company to which the Paying Agent may sell or transfer all or substantially all of its corporate trust business, provided, that such company shall be a trust company or bank which is qualified to be a successor to the Paying Agent as determined by the Finance Director, shall be authorized by law to perform all the duties imposed upon it by this Resolution, and shall be the successor to the Paying Agent without the execution or filing of any paper or the performance of any further act, anything herein to the contrary notwithstanding. The Finance Director is authorized to enter into an agreement with such a bank or trust company, and from time to time as required, may designate a similarly qualified successor Paying Agent and enter into an agreement therewith for such services.

ARTICLE VII

SUPPLEMENTAL RESOLUTIONS

Section 701. Supplemental Resolutions Not Requiring Consent of Holders of the Bonds. The City may without the consent of any Bondowner adopt resolutions supplemental to this Resolution for any one or more of the following purposes:

(i) to confirm or further assure the security hereof or to grant or pledge to the holders of the Bonds any additional security;

(ii) to add additional covenants and agreements of the City for the purposes of

further securing the payment of the Bonds;

(iii) to cure any ambiguity or formal defect or omission in this Resolution;

(iv) to amend provisions in the Resolution relating to rebate to the United States Government or otherwise, which in the opinion of Bond Counsel are required in order to maintain the exclusion of interest on the Bonds from gross income for federal income tax purposes; and

(v) such other action not materially, adversely and directly affecting the security of the Bonds;

provided that (A) no supplemental resolution amending or modifying the rights or obligations of the Paying Agent shall become effective without the consent of the Paying Agent and (B) the effectiveness of any supplemental resolution is subject to Section 702 to the extent applicable.

Section 702. Opinion and Filing Under Act 34. Before any supplemental resolution under this Article shall become effective, a copy thereof shall be filed with the Paying Agent and as provided in Act 34, if applicable, together with an opinion of Bond Counsel that such supplemental resolution is authorized or permitted by this Article; provided that, Bond Counsel in rendering any such opinion shall be entitled to rely upon certificates of the Finance Director or other City official, and opinions or reports of consultants, experts and other professionals retained by the City to advise it, with respect to the presence or absence of facts relative to such opinion and the consequences of such facts.

ARTICLE VIII DEFEASANCE

Bonds shall be deemed to be paid in full upon the deposit in trust of cash or direct obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by, the United States of America, or any combination thereof, not redeemable at the option of the issuer thereof, the principal and interest payments upon which, without reinvestment thereof, will come due at such times and in such amounts, as to be fully sufficient to pay when due, the principal of such Bonds and interest to accrue thereon, as confirmed by a verification report prepared by an independent certified public accountant; provided, that if any of such Bonds are to be called for redemption prior to maturity, irrevocable instructions to call such Bonds for redemption shall be given to the Paying Agent. Such cash and securities representing such obligations shall be deposited with a bank or trust company and held for the exclusive benefit of the Owners of such Bonds. After such deposit, such Bonds shall no longer be entitled to the benefits of this

Resolution (except for any rights of transfer or exchange of Bonds as therein or herein provided for) and shall be payable solely from the funds deposited for such purpose and investment earnings, if any, thereon, and the lien of this Resolution for the benefit of such Bonds shall be discharged.

ARTICLE IX REIMBURSEMENT PROVISIONS

Section 901. Advancement of Costs of the Projects. At the direction of the Finance Director, the City may advance certain costs of the Projects from the City's general fund prior to the issuance of the Series 2006-A Bonds. The City intends to reimburse itself for any costs of the Projects paid or incurred by the City prior to the issuance of the Series 2006-A Bonds with proceeds of the Series 2006-A Bonds. The Internal Revenue Service has issued Treasury Regulation Section 1.150-2 pursuant to the Code, governing proceeds of tax-exempt bonds used for reimbursement, pursuant to which the City must declare official intent to reimburse expenditures with bond proceeds as provided in Section 902 below.

Section 902. Reimbursement Declarations. The City makes the following declarations for the purpose of complying with the reimbursement rules of Treas. Reg. Section 1.150-2 pursuant to the Code:

(a) As of the date hereof, the City reasonably expects to be reimbursed for the expenditures described in (b) below with proceeds of the Series 2005-B Bonds, as debt to be incurred by the City.

(b) The expenditures described in this paragraph (b) are for the costs of acquiring, constructing and equipping the Projects, together with the sites therefor and all necessary appurtenances and attachments thereto which were or will be paid subsequent to sixty (60) days prior to the date of adoption hereof from the general funds of the City.

(c) The maximum principal amount of debt expected to be issued for the Projects, including issuance costs, is \$60,000,000.

(d) A reimbursement allocation of the expenditures described in (b) above with the proceeds of the borrowing described herein will occur not later than 18 months after the later of (i) the date on which the expenditure is paid, or (ii) the date the Projects are placed in service or abandoned, but in no event more than three (3) years after the original expenditure is paid. A reimbursement allocation is an allocation in writing that evidences the City's use of the proceeds of the debt to be issued for the Projects to reimburse the City for a capital expenditure made pursuant to this Resolution.

(e) The expenditures described in (b) above are "capital expenditures" as defined in Treas. Reg. §1.150-1(b), *i.e.*,

any costs of a type which are properly chargeable to a capital account (or would be so chargeable with a proper election or with the application of the definition of placed in service under Treas. Reg. §1.150-2(c)) under general Federal income tax principles (as determined at the time the expenditure is paid).

(f) No proceeds of the borrowing paid to the City in reimbursement pursuant to this Resolution will be used in a manner described in Treas. Reg. §1.150-2(h) with respect to abusive uses of such proceeds, including but not limited to using funds corresponding to the proceeds of the borrowing in a manner that results in the creation of replacement proceeds (within Treas. Reg. §1.148-1) within one year of the reimbursement allocation described in (d) above.

(g) Expenditures for the Projects to be reimbursed from the proceeds of the borrowing that are subject to the limitations set forth in this Resolution do not include (i) costs for the issuance of the debt, (ii) an amount not in excess of the lesser of \$100,000 or five percent (5%) of the proceeds of the borrowing, or (iii) preliminary expenditures not exceeding twenty percent (20%) of the issue price of the borrowing within the meaning of Treas. Reg. §1.150-2(f) (such preliminary expenditures include architectural, engineering, surveying, soil testing and similar costs incurred prior to construction of the Projects, but do not include land acquisition, site preparation, and similar costs incident to commencement of construction).

ARTICLE X

OTHER PROVISIONS OF GENERAL APPLICATION

Section 1001. Credit Enhancement; Remarketing Agreement; and Interest Rate Exchange Agreements. (a) There is hereby authorized to be obtained municipal bond insurance or other credit enhancement or a combination thereof to secure the payment of all or part of the Bonds, if, and provided that, it shall be determined by the Finance Director that such cost of such Municipal Bond Insurance Policy or other credit enhancement or a combination thereof is less than the interest rate savings therefrom or otherwise that it is in the best interest of the City. Such municipal bond insurance or other credit enhancement providers may be afforded certain rights and remedies to direct the proceeding with respect to the enforcement of payment of the Bonds as shall be provided in the documents relating thereto. In the event a commitment for a Municipal Bond Insurance Policy is obtained or a commitment for other credit enhancement is obtained, the Finance Director is hereby authorized, to approve the terms, perform such acts and execute such instruments that shall be required, necessary or desirable to effec-

tuate the terms of such commitment and the transactions described therein and in this Resolution and the Sale Order provided that such terms are not materially adverse to the City.

(b) In the event that any of the Bonds are issued bearing interest on a variable rate basis and are subject to tender for purchase from time to time by the holders thereof as determined in the Sale Order, the Finance Director is authorized in his discretion to enter into a Remarketing Agreement for tendered bonds with a qualified firm, chosen by the Finance Director, as remarketing agent. The Finance Director is also authorized to negotiate and enter into an auction agent agreement, broker-dealer agreement or such other agreements with such qualified firms chosen by the Finance Director as may be necessary to accomplish the sale and delivery of the Bonds as determined by the Finance Director within the parameters of this Resolution and confirmed in the Sale Order.

(c) For the purpose of more effectively managing the debt service with respect to all or any portion of the Bonds, of either series or the Other Outstanding Bonds, the Finance Director is authorized in his discretion and in accordance with the requirements of Act 34, to negotiate the terms of an Interest Rate Exchange Agreement with respect to such Bonds or the Other Outstanding Bonds with Interest Rate Exchange Agreement providers, all as determined by the Finance Director and confirmed by the Council by resolution.

(d) In connection with the execution of any of the agreements authorized by this Section, the Finance Director is authorized to include therein such covenants as shall be appropriate.

Section 1002. Approval of Other Documents and Actions; Treasury Approval. The Mayor, the Finance Director, the Treasurer and the City Clerk are hereby authorized and directed on behalf of the City to take any and all other actions, perform any and all acts and execute any and all documents that shall be required, necessary or desirable to implement this Resolution.

The Finance Director is authorized to file applications with and to pay the related fees, if any, to the Michigan Department of Treasury at his discretion under Act 34 for an Order or Orders of Approval to issue all or a portion of the Bonds, and to enter into one or more Interest Rate Exchange Agreements, remarketing agreements, letters of credit and reimbursement agreements, and such waivers or other Treasury approvals as necessary to implement the sale, delivery and security for the Bonds, and as required by the Michigan Department of Treasury and Act 34. The Finance

Director is authorized and directed to pay any post closing filing fees required by Act 34 to the Michigan Department of Treasury or other specified agency, as a cost of issuance or from other legally available funds.

Section 1003. Continuing Disclosure Undertaking. The City shall enter into a continuing disclosure undertaking pursuant to Rule 15c2-12 promulgated by the Securities and Exchange Commission (the "Rule") for the benefit of the holders and beneficial owners of the Bonds as to which the Rule is applicable, as more specifically set forth in Exhibit A hereto (the "Undertaking"); provided, however, that the terms of the Undertaking are subject to completion and modification prior to delivery of the Bonds by the Finance Director to such extent as the Finance Director shall deem necessary to comply with law or market requirements of the Underwriters. The Finance Director is authorized to execute and deliver the Undertaking after completion and modification as provided in this Resolution and the Sale Order.

Section 1004. Delegation of City to, and Authorization of Actions of the Mayor and the Finance Director. (a) Prior to the sale date for the Bonds, the Mayor and/or the Finance Director may cause the preparation and approve the form and distribution of a Preliminary Official Statement and an Official Statement and other offering materials to be used in conjunction with the sale or offering of the Bonds, and the Mayor or Finance Director shall deem the Preliminary Official Statement "final" for purposes of Rule 15c2-12 of the Securities and Exchange Commission.

(b) The Finance Director is hereby authorized and directed to do and perform any and all acts and things with respect to the Bonds which are necessary and appropriate to carry into effect, consistent with this Resolution, the authorizations therein and herein contained, including without limitation, the securing of ratings by bond rating agencies, if cost effective, the negotiation for and acquisition of bond insurance and/or other credit enhancement, if any, to further secure the Bonds or any portions thereof, the acquisition of an irrevocable surety bond to fulfill the City's obligation to fund any reserve account, the printing of the Bonds and the incurring and paying of reasonable fees, costs and expenses incidental to the foregoing and other costs of issuance of the Bonds including, but not limited to fees and expenses of bond counsel, financial advisors, accountants and others, from Bond proceeds or other available funds, for and on behalf of the City.

(c) Except as otherwise provided herein, all determinations and decisions of the Finance Director with respect to the

issuance and sale of the Bonds or the negotiation, execution or delivery of Interest Rate Exchange Agreements as permitted or required by this Resolution shall be confirmed by this Finance Director in a Sale Order or Sale Orders, and such confirmations shall constitute determinations that any conditions precedent to such determinations and decisions of the Finance Director have been fulfilled.

Section 1005. Act 34 Approval of the Bonds. The Bonds shall neither be sold nor issued unless and only so long as the issuance of the Bonds as provided herein shall have been authorized and approved in accordance with the applicable provisions of Act 34.

Section 1006. Approving Legal Opinions with Respect to the Bonds. Sale of the Bonds shall be conditioned upon receiving, at the time of delivery, the approving opinion of Bond Counsel, approving legality of the Bonds and, with respect to Bonds determined by the Finance Director to be issued on a tax-exempt basis, the exclusion from gross income of the interest paid thereon from federal and State income taxation only.

Section 1007. Sale of Bonds/Good Faith Check. (a) Pursuant to Section 309(1) of Act 34 the Council determines to sell the Bonds at a negotiated sale. The Bonds shall be sold by negotiated sale to the Underwriters as represented by the Representative, all as determined by the Finance Director in the Bond Purchase Agreement, at prices and on terms and conditions provided in the Bond Purchase Agreement approved by the Finance Director within the parameters established hereby, and confirmed by this Finance Director in the Sale Order. The reasons for choosing a negotiated sale instead of a competitive sale include the belief of Council based on recommendation of the Finance Director and the City's Financial Advisor that a negotiated sale will allow the Bonds to be offered to investors in the most efficient manner possible while also allowing sufficient flexibility to adjust to market structuring and timing demands in order to result in the lowest possible borrowing costs for the City. Sale may be on a forward delivery basis if determined by the Finance Director to be beneficial to the City, on the terms and conditions contained in the Bond Purchase Agreement.

(b) Subject to the foregoing, the Bond Purchase Agreement shall be dated the date of the sale of the Bonds. The Finance Director is hereby authorized and directed to execute the Bond Purchase Agreement for and on behalf of the City.

(c) The Finance Director is authorized to determine whether to require a good faith check from the Underwriters or in lieu thereof or not whether to require the

Underwriters to pay liquidated damages to the City for the failure (other than as permitted by the Bond Purchase Agreement) to accept delivery of and pay for the Bonds.

Section 1008. Delivery of Bonds. Subject to the approval of the Sale Order, the Finance Director is hereby authorized to deliver the Bonds to the Underwriters upon receiving the purchase price therefor in lawful money of the United States.

Section 1009. Escrow Deposit Agreement and Verification Agent. The Finance Director is hereby authorized and directed to negotiate with the Escrow Trustee the terms of the Escrow Agreement and, if necessary, to select and retain a verification agent to verify the mathematical sufficiency of the securities and cash amounts to be deposited in the Escrow Fund.

Section 1010. Official Statement. The Finance Director is hereby authorized to execute the Official Statement or other offering materials with respect to the Bonds in the form approved by him with such changes as the Finance Director may authorize. Such Official Statement or other offering materials to be used in conjunction with the sale or offering of the Bonds are hereby authorized to be printed and used by the Underwriters in connection with the sale of the Bonds to the public. Circulation of the Preliminary Official Statement, if any, or other preliminary offering materials by the Underwriters is hereby approved.

Section 1011. Appointment of Bond Counsel; Engagement of Other Parties. The appointment by the Finance Director of the law firm of Miller, Canfield, Paddock and Stone, P.L.C. of Detroit, Michigan, as Bond Counsel for the Bonds is hereby ratified and confirmed, notwithstanding the periodic representation by Miller, Canfield, Paddock and Stone, P.L.C., in unrelated matters of other parties and potential parties to the issuance of the Bonds. The fees and expenses of Miller, Canfield, Paddock and Stone, P.L.C. as Bond Counsel and other accumulated bond related fees and expenses shall be payable as a cost of issuance from proceeds of the Bonds or other available funds in accordance with the letter of such firm on file with the Finance Director.

The Finance Director is authorized to engage other consultants, financial advisors, or other parties as he deems necessary and appropriate in connection with the sale, issuance and delivery of the Bonds and to pay the fees and expenses thereof from the proceeds of the Bonds or other available funds.

Section 1012. Preservation of Records. So long as any Bond remains Outstanding, all documents received by the Paying Agent under the provisions of this Resolution shall be retained in its posses-

sion and shall be subject at all reasonable times to the inspection of the City, and the Bondowners, and their agents and representatives, any of whom may make copies thereof.

Section 1013. Parties in Interest. Nothing in this Resolution, expressed or implied, is intended or shall be construed to confer upon, or to give to, any person or entity, other than the City, the Paying Agent and the Owners of the Bonds, any right, remedy or claim under or by reason of this Resolution or any covenant, condition or stipulation hereof, and all covenants, stipulations, promises and agreements in this Resolution contained by and on behalf of the City or Paying Agent shall be for the sole and exclusive benefit of the City, the Paying Agent and the Bondowners.

Section 1014. No Recourse Under Resolution. All covenants, agreements and obligations of the City contained in this Resolution shall be deemed to be the covenants, agreements and obligations of the City and not of any councilperson, member, officer or employee of the City in his or her individual capacity, and no recourse shall be had for the payment of the principal of or interest on the Bonds or for any claim based thereon or on this Resolution against any councilperson, member, officer or employee of the City or any person executing the Bonds in his or her official individual capacity.

Section 1015. Severability. If any one or more sections, clauses or provisions of this Resolution shall be determined by a court of competent jurisdiction to be invalid or ineffective for any reason, such determination shall in no way affect the validity and effectiveness of the remaining sections, clauses and provisions hereof.

Section 1016. Cover Page, Table of Contents and Article and Section Headings. The cover page, table of contents and Article and Section headings hereof are solely for convenience of reference and do not constitute a part of this Resolution, and none of them shall affect its meaning, construction or effect.

Finance Department

October 4, 2006

Honorable City Council:

Re: Resolution authorizing the issuance and sale of not to exceed \$75,000,000

General Obligation Capital Improvement Bonds (Limited Tax), Series 2006-A and not to exceed \$45,000,000 General Obligation Capital Improvement Refunding Bonds (Limited Tax), Series 2006-B.

The attached Resolution authorizes the issuance and sale of the subject Bonds for the purpose of providing approximately \$75 million to finance the acquisition of certain vehicles, cars, trucks, equipment, land or other personal property for use by the various departments of the City, and the publication of a notice of intent to issue said bonds. Additionally because of a continued decline in interest rates, approximately \$45 million of previously issued Bonds may be refinanced, thereby producing interest savings.

It is anticipated that the sale will occur in early December. The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

Respectfully submitted,

ROGER SHORT

Finance Director

(b) The Bonds of each series shall mature on such dates and shall bear interest at such rates on a fixed and/or variable and tax-exempt or taxable basis not exceeding the Maximum Interest Rate, payable on such dates as shall be determined and confirmed by the Finance Director in the Sale Order. interest shall be scheduled to be paid on Bonds, an "Interest Payment Date"), commencing on April 1, 2007 or such other Interest Payment Date or dates as shall be determined by the Finance Director in the Sale Order.

(d) The Bonds shall be payable, as to principal and interest, in lawful money of the United States of America. Except as may be otherwise determined by the Finance Director in the Sale Order, interest on Bonds shall be payable to the Registered Owner as of the 15th day of the month, whether or not a Business Day (a "Regular Record Date"), prior to each Interest Payment Date. Interest on Bonds shall be payable to such Registered Owners by check or draft drawn on the Paying Agent on each Interest Payment Date and mailed by first class mail or, upon the written request of the Owner of \$1,000,000 or more in aggregate principal amount of Bonds (with complete wiring instructions no later than the Regular Record Date for such Interest Payment Date), by wire transfer by the Paying Agent to such Owner. Such a request may provide that it will remain in effect with respect to subsequent Interest Payment Dates unless changed or revoked at any time prior to a Regular Record Date by subsequent written notice to the Paying Agent.

(e) Interest on Bonds not punctually paid or duly provided for on an Interest Payment Date shall forthwith cease to be payable to the Registered Owners on the Regular Record Date established for such Interest Payment Date, and may be paid to the Registered Owners as of the close of business on a date fixed by the Paying Agent (a "Special Record Date") with respect to the payment of such defaulted interest to be fixed by the Paying Agent, or may be paid at any time in any other lawful manner. The Paying Agent shall give notice to the Registered Owners at least seven days before any such Special Record Date.

issue date; maturity dates; interest rates, CUSIP numbers, if any; certificate numbers, and in the case of partial redemption, the called amounts of each certificate; the redemption date; the redemption price or premium; the place where Bonds called for redemption are to be surrendered for payment; and that interest on Bonds or portions thereof called for redemption shall cease to accrue from and after the redemption date.

In addition, further notice shall be given by the Paying Agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all or any portion of such further notice shall in any manner defeat the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

(h) In making the determinations set forth in this Resolution with respect to the Sale Order for the issuance and sale of the Bonds, the Finance Director shall be limited to the parameters as follows:

(1) The first maturity date or mandatory sinking fund redemption date for the Bonds shall not be later than five (5) years from the date of issuance (except for Bonds issued in more than one series, which shall have first maturity dates not later than five (5) years from the date of issuance as determined by the Finance Director at the time of sale thereof), and the final maturity dates for the Bonds shall not be later than the earlier of (i) the last year of the weighted average estimated period of usefulness of the improvements being financed or (ii) 30 years from their dated date.

(2) The compensation to be paid to the Underwriters of each series of the Bonds shall not exceed 2% of the original principal amount of the related series of Bonds.

(3) Unless the Finance Director determines to issue all or a part of the Bonds as capital appreciation bonds the amount of any original issue discount with respect to each series of the Bonds shall not exceed 10% of the original principal amount of the related series of Bonds.

(4) To the extent permitted by applicable law, each series of the Bonds may be sold with an original issue premium in an amount as determined by the Finance Director; provided that the principal amount of each series of the Bonds plus the net original issue premium shall not exceed the Maximum Aggregate Principal Amount of Bonds authorized under this Resolution.

(5) To the extent permitted by the Code, the Finance Director is authorized to allocate costs of issuance among the series of Bonds in a manner which is in the best economic interest of the City.

(6) The net present value of the principal and interest to be paid on the Series 2006-B

Bonds, including the cost of issuance, shall be less than the net present value of the principal and interest to be paid on the Refunded Bonds.

Section 303. Execution, Authentication and Delivery of Bonds. The Bonds shall be executed in the name of the City by the manual or facsimile signatures of the Mayor and the Finance Director and authenticated by the manual signature of the Finance Director or an authorized representative of the Paying Agent, as the case may be, and the seal of the City (or a facsimile thereof) shall be impressed or imprinted on the Bonds. After the Bonds have been executed and authenticated for delivery to the original purchaser thereof, they shall be delivered by the Finance Director to the purchasers thereof upon receipt of the purchase price. Additional Bonds bearing the manual or facsimile signatures of the Mayor and the Finance Director and upon which the seal of the City (or a facsimile thereof) is impressed or imprinted may be delivered to the Paying Agent for authentication and delivery in connection with the exchange or transfer of Bonds. Section 306. Regulations with Respect to Exchanges and Transfers. (a) In all cases in which the privilege of exchanging Bonds or transferring the registration of Bonds is exercised, the City shall execute and the Paying Agent shall authenticate and deliver Bonds in accordance with the provisions of this Resolution. All Bonds surrendered in any such exchanges or transfers shall be forthwith canceled by the Paying Agent.

(b) For every exchange or transfer of Bonds, the City or the Paying Agent may make a charge sufficient to reimburse it for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer and, except as otherwise provided in this Resolution, may charge a sum sufficient to pay the costs of preparing each new Bond issued upon such exchange or transfer, which shall be paid by the person requesting such exchange or transfer as a condition precedent to the exercise of the privilege of making such exchange or transfer.

Reference is hereby made to the Resolution for the provisions with respect to the nature and extent of the security for the Bonds, the manner and enforcement of such security, the rights, duties and obligations of the City, and the rights of the Paying Agent and the Registered Owners of the Bonds. As therein provided, the Resolution may be amended in certain respects without the consent of the Registered Owners of the Bonds. Copies of the Resolution are on file and available for inspection at the office of the Finance Director and at the principal corporate trust office of the Paying Agent.

The City and the Paying Agent may treat and consider the person in whose name this Bond is registered on the Bond Registry as the absolute owner hereof, whether this Bond shall be overdue or not, for the purpose of receiving payment of, or on account of, the principal hereof and interest hereon and for all other purposes whatsoever, and all such payments so made to such person or upon his order shall be valid and effectual to satisfy and discharge the liability hereon to the extent of the sum or sums so paid.

The registration of this Bond is transferable only upon the Bond Registry by the

Registered Owner hereof or by his attorney duly authorized in writing upon the presentation and surrender hereof at the designated corporate trust office of the Paying Agent together with a written instrument of transfer satisfactory to the Paying Agent, duly executed by the Registered Owner hereof or his attorney duly authorized in writing, and thereupon one or more fully executed and authenticated Bonds in any authorized denominations of like maturity and tenor, in equal aggregate principal amount shall be issued to the transferee in exchange therefor as provided in the Resolution upon the payment of the charges, if any, therein prescribed.

Section 308. Registration. The City and the Paying Agent may treat and consider the Bondowner of any Bond as the absolute owner of such Bond, whether such Bond shall be overdue or not, for the purpose of receiving payment of, or on account of, the principal (and premium, if any) thereof and interest thereon and for all other purposes whatsoever, and all such payments so made to such Bondowner or upon his order shall be valid and effectual to satisfy and discharge the liability upon such Bond to the extent of the sum or sums so paid.

Section 309. Mutilated, Destroyed, Stolen or Lost Bonds. (a) Subject to the provisions of Act 354, Public Acts of Michigan, 1972, as amended and any other applicable law, if (i) any mutilated Bond is surrendered to the Paying Agent or the City and the Paying Agent and the City receive evidence to their satisfaction of the destruction, loss or theft of any Bond and (ii) there is delivered to the City and the Paying Agent such security or indemnity as may be required by them to save each of them harmless, then, in the absence of notice to the City or the Paying Agent that such Bond has been acquired by a bona fide purchaser, the City shall execute and the Paying Agent shall authenticate and deliver in exchange for

or in lieu of any such mutilated, destroyed, lost or stolen Bond, a new Bond of like tenor and principal amount, bearing a number not contemporaneously outstanding.

(b) If any such mutilated, destroyed, lost or stolen Bond has become or is about to become due and payable, the City in its discretion may, instead of issuing a new Bond, pay such Bond.

(c) Any new Bond issued pursuant to this Section in substitution for a Bond alleged to be mutilated, destroyed, stolen or lost shall constitute an original additional contractual obligation on the part of the City, and shall be equally secured by and entitled to equal proportionate benefits with all other Bonds issued under this Resolution.

Section 310. Book-Entry Only System Permitted. (a) If determined by the Finance Director in the Sale Order, the Bonds shall be issued to a securities depository selected by the Finance Director (the "Security Depository") to be held pursuant to the book-entry-only system maintained by the Security Depository and registered in the name of the Security Depository or its nominee. Ownership interests in Bonds held under such book-entry-only system shall be determined pursuant to the procedures of the Security Depository and Article 8 of the applicable Uniform Commercial Code (such persons having such interests, "Beneficial Owners").

(b) If (i) the City and the Paying Agent receive written notice from the Security Depository to the effect that the Security Depository is unable or unwilling to discharge its responsibilities with respect to the Bonds under the book-entry-only system maintained by it or (ii) the Finance Director determines that it is in the best interests of the Beneficial Owners that they be able to obtain Bonds in certificated form, then the City may so notify the Security Depository and the Paying Agent, and, in either event, the City and the Paying Agent shall take appropriate steps to provide the Beneficial Owners with Bonds in certificated form to evidence their respective ownership interests in the Bonds. Whenever the Security Depository requests the City and the Paying Agent to do so, the Finance Director on behalf of the City and the Paying Agent will cooperate with the Security Depository in taking appropriate action after reasonable notice to make available Bonds registered in whatever name or names the Beneficial Owners transferring or exchanging Bonds shall designate.

(c) Notwithstanding any other provision of this Resolution or the Sale Order to the contrary, so long as the Bonds are held pursuant to the book-entry-only system maintained by the Security Depository.

(i) all payments with respect to the

principal and interest on such Bonds and all notices with respect to such Bonds shall be made and given, respectively, to the Security Depository as provided in the representation letter from the City and the Paying Agent to the Security Depository with respect to such Bonds; and

(ii) all payments with respect to principal of the Bonds and interest on the Bonds shall be made in such manner as shall be prescribed by the Security Depository.

**ARTICLE IV
SPECIAL COVENANTS**

Section 401. Tax Exemption Covenant. The City covenants that it will not take any action, or fail to take any action required to be taken, if taking such action or failing to take such action would adversely affect the general exclusion from gross income of interest on the Bonds (determined by the Finance Director to be issued on a tax-exempt basis), from federal income taxation under the Code.

Section 402. Arbitrage Covenant. (a) The City will not directly or indirectly (1) use or permit the use of any proceeds of the Bonds (determined by the Finance Director to be issued on a tax-exempt basis) or other funds of the City or (2) take or omit to take any action required by Section 148(a) of the Code in order to maintain the exclusion from gross income of the interest on the Bonds (determined by the Finance Director to be issued on a tax-exempt basis) for federal income tax purposes. To that end, the City will comply with all requirements of Section 148 of the Code to the extent applicable to the Bonds and the requirements set forth in the Non-Arbitrage and Tax Compliance Certificate of the City.

(b) Without limiting the generality of subsection (a), above, the City agrees that there shall be paid by the City from time to time all amounts, if any, required to be rebated to the United States pursuant to Section 148(f) of the Code. This covenant shall survive payment in full or defeasance of the Bonds.

(c) Notwithstanding any provision of this Section, if the City obtains an opinion of Bond Counsel to the effect that any action required under this Section is no longer required, or that some further action is required, to maintain the exclusion from gross income of the interest of the Bonds (determined by the Finance Director to be issued on a tax-exempt basis) for federal income tax purposes pursuant to Section 103 of the Code, the City may conclusively rely on such opinion in complying with the provisions hereof.

**ARTICLE V
FUNDS AND ACCOUNTS;
DISPOSITION OF BOND PROCEEDS**

Section 501. Establishment of Accounts and Funds. The City hereby estab-

lishes and creates the following special, separate and segregated accounts and funds which shall be held for and on behalf of the City by a bank or banks or other financial institution which the Finance Director or Treasurer of the City designates as depository of the City:

- A. Debt Retirement Fund;
- B. Bond Issuance Fund;
- C. Escrow Fund; and
- D. Acquisition Fund.

The Finance Director is hereby authorized to establish such accounts, sub-accounts or funds as shall be required for each series of the Bonds, if any, to accommodate the requirements of such series of Bonds, including, but not limited to, such accounts, subaccounts or funds necessary to facilitate the allocation and use of bond proceeds to finance the Projects or refund the Refunded Bonds, or the purchase and payment of variable rate bonds. The Finance Director is authorized to allocate any net original issue premium received upon the sale of the Bonds to such accounts and in such amounts as permitted by applicable law and the Code.

Section 502. Debt Retirement Fund. From the proceeds of the sale of the Bonds there shall be set aside in the Debt Retirement Fund the accrued interest, if any, received from the purchasers of the Bonds at the time of delivery of the Bonds. General funds of the City, proceeds of all taxes levied pursuant to Section 301 hereof and any amounts transferred from the Acquisition Fund under Section 505 hereof shall be used to pay the principal of and interest on the Bonds when due. The foregoing amounts shall be placed in the Debt Retirement Fund and held in trust by the Paying Agent, and so long as the principal of or interest on the Bonds shall remain unpaid, no moneys shall be withdrawn from the Debt Retirement Fund except to pay such principal and interest. Any amounts remaining in the Debt Retirement Fund after payment in full of the Bonds and the fees and expenses of the Paying Agent shall be retained by the City to be used for any lawful purpose.

Section 503. Bond Issuance Fund. From the proceeds of the Bonds there shall be set aside in the Bond Issuance Fund a sum sufficient to pay the costs of issuance of the Bonds. Moneys in the Bond Issuance Fund shall be used solely to pay expenses of issuance of the related series Bonds. Any amounts remaining in the Bond Issuance Fund after payment of issuance expenses shall be transferred to the Acquisition Fund or Project Fund as determined by the Finance Director.

Section 504. Escrow Fund. After making the deposits required by Sections 502 and 503, there shall be deposited from the remainder of the proceeds of the sale

of the Series 2006-B Bonds and any moneys transferred by the City at the time of delivery of the Series 2006-B Bonds from the debt retirement fund for the Refunded Bonds, into the Escrow Fund (which shall be maintained in cash or invested in direct obligations of or obligations guaranteed by the United States of America, not redeemable at the option of the issuer), an amount, as hereinafter described, sufficient to pay the principal of and interest on the Refunded Bonds as they become due and, except as otherwise herein provided, shall be used only for such purposes. The Escrow Fund shall be irrevocably held by U.S. Bank National Association, Detroit, Michigan as escrow trustee (the "Escrow Trustee") in trust pursuant to an escrow deposit agreement between the City and the Escrow Trustee (the "Escrow Agreement"), which Escrow Agreement shall irrevocably direct the Escrow Trustee to take all necessary steps to pay the principal of and interest on the Refunded Bonds when due and to call for redemption the Refunded Bonds in whole or in part, as and when specified in the Escrow Agreement. The amounts, including the investments thereof, held in the Escrow Fund shall be such that the cash and investments and income received thereon will be sufficient, without any reinvestment, to pay the principal of and interest on the Refunded Bonds when due at maturity or by redemption as required by this Section. Any balance remaining in the Escrow Fund after payment in full of principal and interest on the Refunded Bonds shall be applied as provided in the Escrow Agreement.

The Escrow Trustee means and includes any company into which the Escrow Trustee may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be a party or any company to which the Escrow Trustee may sell or transfer all or substantially all of its corporate trust business, provided such company shall be a trust company or bank which is qualified to be a successor to the Escrow Trustee as determined by the Finance Director, shall be authorized by law to perform all the duties imposed upon it by this Resolution, shall be the successor to the Escrow Trustee without the execution or filing of any paper or the performance of any further act, anything herein to the contrary notwithstanding.

The Council hereby authorizes the Finance Director to approve the form of and to execute the Escrow Agreement with the Escrow Trustee for and on behalf of the City.

Section 505. Acquisition Fund. (a) After making the deposits required by Sections 502 and 503 the remainder of the pro-

ceeds of the sale of the Series 2006-A Bonds or other series of new money bonds, if any, shall be deposited in the Acquisition Fund. Except for investment pending disbursement and as hereinafter provided, moneys in the Acquisition Fund shall be used by the City solely and only to pay the costs of the Projects as such costs become due and payable and, if necessary, to rebate arbitrage earnings, if any, to the United States Department of Treasury as required by the Code.

(b) The Finance Director is hereby authorized and directed to expend money from the Acquisition Fund for costs of the Projects, including legal and consulting fees and expenses and for reimbursement to the City for moneys previously expended in anticipation of issuance of the Series 2006-A Bonds, to the extent reimbursement for such Project expenditures has been properly induced by resolution of the City Council in accordance with the Code, if required, or is subject to the reimbursement provisions of Article IX of this Resolution.

(c) Gross proceeds or disposition proceeds, as defined in the regulations under Code Sections 141 and 148, respectively, resulting from any sale of any portion of the Projects shall be deposited in separate accounts established in the Acquisition Fund and used in the discretion of the Finance Director to pay additional costs of the Projects or transferred to the Debt Retirement Fund and used to pay the principal of or interest on the Bonds. The Finance Director shall assure that such gross proceeds or disposition proceeds are invested and expended in accordance with the requirements specified in Section 506 hereof and in the Non-Arbitrage and Tax Compliance Certificate.

(d) Upon payment of all costs of the Projects, any balance in the Acquisition Fund shall be transferred to the Debt Retirement Fund or used in any other manner which in the opinion of nationally recognized bond counsel is permitted by law and which will not cause the interest on the Bonds (issued on a tax exempt basis) to become includible in gross income for federal income tax purposes.

Section 506. Investment of Monies in the Funds and Accounts. (a) The Finance Director shall direct the investment of monies on deposit in the Funds and Accounts established hereunder, and the Paying Agent, upon written direction or upon oral direction promptly confirmed in writing by the Finance Director, shall use its best efforts to invest monies on deposit in the Funds and Accounts in accordance with such direction.

(b) Monies on deposit in the Funds and Accounts may be invested in such investments and to the extent permitted by applicable law.

**ARTICLE VI
THE PAYING AGENT**

Section 601. Paying Agent. The Paying Agent for the Bonds shall act as bond registrar, transfer agent and paying agent for the Bonds and shall be initially U.S. Bank National Association, Detroit, Michigan, or such other bank or trust company located in the State of Michigan which is qualified to act in such capacity under the laws of the United States of America or the State of Michigan. The Paying Agent means and includes any company into which the Paying Agent may be merged or converted or with which it may be consolidated or any company resulting from any merger, conversion or consolidation to which it shall be party or any company to which the Paying Agent may sell or transfer all or substantially all of its corporate trust business, provided, that such company shall be a trust company or bank which is qualified to be a successor to the Paying Agent as determined by the Finance Director, shall be authorized by law to perform all the duties imposed upon it by this Resolution, and shall be the successor to the Paying Agent without the execution or filing of any paper or the performance of any further act, anything herein to the contrary notwithstanding. The Finance Director is authorized to enter into an agreement with such a bank or trust company, and from time to time as required, may designate a similarly qualified successor Paying Agent and enter into an agreement therewith for such services.

- provided that (A) no supplemental resolution amending or modifying the rights or obligations of the Paying Agent shall become effective without the consent of the Paying Agent and (B) the effective-

**ARTICLE VIII

Such cash and securities representing such obligations shall be deposited with a bank or trust company and held for the exclusive benefit of the Owners of such Bonds. After such deposit, such Bonds shall no longer be entitled to the benefits of this Resolution (except for any rights of transfer or exchange of Bonds as therein or herein provided for) and shall be payable solely from the funds deposited for such purpose and investment earnings, if any, thereon, and the lien of this Resolution for the benefit of such Bonds shall be discharged.

Such municipal bond insurance or other credit enhancement providers may be afforded certain rights and remedies to direct the proceedings with respect to the enforcement of payment of the Bonds as shall be provided in the documents relating thereto. The Finance Director is also authorized to negotiate and enter into an auction agent agreement, broker-dealer agreement or such other agreements with such qualified firms chosen by the Finance Director as may be necessary to accomplish the sale and delivery of the Bonds as determined by the Finance Director within the parameters of this Resolution and confirmed in the Sale Order.

(c) For the purpose of more effectively managing the debt service with respect to all or any portion of the Bonds, of any series or the Outstanding Prior Bonds, the Finance Director is authorized in his discretion and in accordance with the requirements of Act 34, to negotiate the terms of an Interest Rate Exchange Agreement with respect to such Bonds or the Outstanding Prior Bonds with Interest Rate Exchange Agreement providers, all as determined by the Finance Director and confirmed by the Council by resolution.

(d) In connection with the execution of any of the agreements authorized by this Section, the Finance Director is authorized to include therein such covenants as shall be appropriate.

Section 1102. Approval of Other Documents and Actions; Treasury Approval. The Mayor, the Finance Director, the Treasurer and the City Clerk are hereby authorized and directed on behalf of the City to take any and all other actions, perform any and all acts and execute any and all documents that shall be required, necessary or desirable to implement this Resolution.

The Finance Director is authorized to file applications with and to pay the related fees, if any, to the Michigan Department of Treasury at his discretion under Act 34 for an Order or Orders of Approval to issue all or a portion of the Bonds, and to enter into one or more Interest Rate Exchange Agreements, remarketing agreements, letters of credit and reimbursement agreements, and such waivers or other Treasury approvals as necessary to implement the sale, delivery and security for the Bonds, and as required by the Michigan Department of Treasury and Act 34. The Finance Director is authorized and directed to pay any post closing filing fees required by Act 34 to the Michigan Department of Treasury or other specified agency, as a cost of issuance or from other legally available funds.

Section 1103. Continuing Disclosure Undertaking. The City shall enter into a continuing disclosure undertaking pursuant to Rule 15c2-12 promulgated by the Securities and Exchange Commission (the "Rule") for the benefit of the holders and beneficial owners of the Bonds as to which the Rule is applicable, as more specifically set forth in Exhibit A hereto (the "Undertaking"); provided, however, that the terms of the Undertaking are subject to completion and modification prior to delivery of the Bonds by the Finance Director to such extent as the Finance Director shall deem necessary to comply with law or market requirements of the Underwriters. The Finance Director is authorized to execute and deliver the Undertaking after completion and modification as provided in this Resolution and the Sale Order.

Section 1104. Delegation of City to, and Authorization of Actions of the Mayor and the Finance Director. (a) Prior to the sale date for the Bonds, the Mayor and/or the Finance Director may cause the preparation and approve the form and distribution of a Preliminary Official Statement and an Official Statement and other offering materials to be used in conjunction with the sale or offering of the Bonds, and the Mayor or Finance Director shall deem the Preliminary Official

Statement "final" for purposes of Rule 15c2-12 of the Securities and Exchange Commission.

(b) The Finance Director is hereby authorized and directed to do and perform any and all acts and things with respect to the Bonds and the Projects which are necessary and appropriate to carry into effect, consistent with this Resolution, the authorizations therein and herein contained, including without limitation, the securing of ratings by bond rating agencies, if cost effective, the negotiation for and acquisition of bond insurance and/or other credit enhancement, if any, to further secure the Bonds or any portions thereof, the acquisition of an irrevocable surety bond to fulfill the City's obligation to fund any reserve account, the printing of the Bonds and the incurring and paying of reasonable fees, costs and expenses incidental to the foregoing and other costs of issuance of the Bonds including, by not limited to fees and expenses of bond counsel, financial advisors, accountants and others, from Bond proceeds or other available funds, for and on behalf of the City.

(c) Except as otherwise provided herein, all determinations and decisions of the Finance Director with respect to the issuance and sale of the Bonds or the negotiation, execution or delivery of Interest Rate Exchange Agreements as permitted or required by this Resolution shall be confirmed by this Finance Director in a Sale Order or Sale Orders, and such confirmations shall constitute determinations that any conditions precedent to such determinations and decisions of the Finance Director have been fulfilled.

Section 1105. Act 34 Approval of the Bonds. The Bonds shall neither be sold nor issued unless and only so long as the issuance of the Bonds as provided herein shall have been authorized and approved in accordance with the applicable provisions of Act 34.

Section 1106. Approving Legal Opinions with Respect to the Bonds. Sale of the Bonds shall be conditioned upon receiving, at the time of delivery, the approving opinion of Bond Counsel, approving legality of the Bonds and, with respect to Bonds determined by the Finance Director to be issued on a tax-exempt basis, the exclusion from gross income of the interest paid thereon from federal and State income taxation only.

Section 1107. Sale of Bonds/Good Faith Check. (a) Pursuant to Section 309(1) of Act 34 the Council determines to sell the Bonds at a negotiated sale. The Bonds shall be sold by negotiated sale to the Underwriters as represented by the Representative, all as determined by the Finance Director in the Bond Purchase Agreement, at prices and on terms and

conditions provided in the Bond Purchase Agreement approved by the Finance Director within the parameters established hereby, and confirmed by this Finance Director in the Sale Order. The reasons for choosing a negotiated sale instead of a competitive sale include the belief of Council based on recommendation of the Finance Director and the City's Financial Advisors that a negotiated sale will allow the Bonds to be offered to investors in the most efficient manner possible while also allowing sufficient flexibility to adjust to market structuring and timing demands in order to result in the lowest possible borrowing costs for the City. Sale may be on a forward delivery basis if determined by the Finance Director to be beneficial to the City, on the terms and conditions contained in the Bond Purchase Agreement.

(b) Subject to the foregoing, the Bond Purchase Agreement shall be dated the date of the sale of the Bonds. The Finance Director is hereby authorized and directed to execute the Bond Purchase Agreement for and on behalf of the City.

(c) The Finance Director is authorized to determine whether to require a good faith check from the Underwriters or in lieu thereof or not whether to require the Underwriters to pay liquidated damages to the City for the failure (other than as permitted by the Bond Purchase Agreement) to accept delivery of and pay for the Bonds.

Section 1108. Delivery of Bonds. Subject to the approval of the Sale Order, the Finance Director is hereby authorized to deliver the Bonds to the Underwriters upon receiving the purchase price therefor in lawful money of the United States.

Section 1109. Official Statement. The Finance Director is hereby authorized to execute the Official Statement or other offering materials with respect to the Bonds in the form approved by him with such changes as the Finance Director may authorize. Such Official Statement or other offering materials to be used in conjunction with the sale or offering of the Bonds are hereby authorized to be printed and used by the Underwriters in connection with the sale of the Bonds to the public. Circulation of the Preliminary Official Statement, if any, or other preliminary offering materials by the Underwriters is hereby approved.

Section 1110. Escrow Deposit Agreement and Verification Agent. The Finance Director is hereby authorized and directed to negotiate with the Escrow Trustee the terms of the Escrow Agreement and, if necessary, to select and retain a verification agent to verify the mathematical sufficiency of the securities and cash amounts to be deposited in the Escrow Fund.

Section 1111. Appointment of Bond Counsel; Engagement of Other Parties.

The appointment by the Finance Director of the law firm of Miller, Canfield, Paddock and Stone, P.L.C. of Detroit, Michigan, as Bond Counsel for the Bonds is hereby ratified and confirmed, notwithstanding the periodic representation by Miller, Canfield, Paddock and Stone, P.L.C., in unrelated matters of other parties and potential parties to the issuance of the Bonds. The fees and expenses of Miller, Canfield, Paddock and Stone, P.L.C. as Bond Counsel and other accumulated bond and preliminary project related fees and expenses shall be payable as a cost of issuance from proceeds of the Bonds or other available funds in accordance with the letter of such firm on file with the Finance Director.

The Finance Director is authorized to engage other consultants, financial advisors, or other parties as he deems necessary and appropriate in connection with the sale, issuance and delivery of the Bonds and the disbursement of the Acquisition Fund to finance the Projects, and to pay the fees and expenses thereof from the proceeds of the Bonds or other available funds.

Section 1112. Preservation of Records. So long as any Bond remains Outstanding, all documents received by the Paying Agent under the provisions of this Resolution shall be retained in its possession and shall be subject at all reasonable times to the inspection of the City, and the Bondowners, and their agents and representatives, any of whom may make copies thereof.

Section 1113. Parties in Interest. Nothing in this Resolution, expressed or implied, is intended or shall be construed to confer upon, or to give to, any person or entity, other than the City, the Paying Agent and the Owners of the Bonds, any right, remedy or claim under or by reason of this Resolution or any covenant, condition or stipulation hereof, and all covenants, stipulations, promises and agreements in this Resolution contained by and on behalf of the City or Paying Agent shall be for the sole and exclusive benefit of the City, the Paying Agent and the Bondowners.

Section 1114. No Recourse Under Resolution. All covenants, agreements and obligations of the City contained in this Resolution shall be deemed to be the covenants, agreements and obligations of the City and not of any councilperson, member, officer or employee of the City in his or her individual capacity, and no recourse shall be had for the payment of the principal of or interest on the Bonds or for any claim based thereon or on this Resolution against any councilperson, member, officer or employee of the City or any person executing the Bonds in his or her official individual capacity.

Section 1115. Notice of Limited Tax

Full Faith and Credit Pledge. The City Council hereby expressly acknowledges and confirms that the Notice of the meeting at which this Resolution was considered for adoption contained the statement that the proposed Bonds will contain a limited tax full faith and credit pledge of the City as required by Section 308 of Act 34. The form of such notice is attached hereto as Exhibit B.

Section 1116. Severability. If any one or more sections, clauses or provisions of this Resolution shall be determined by a court of competent jurisdiction to be invalid or ineffective for any reason, such determination shall in no way affect the validity and effectiveness of the remaining sections, clauses and provisions hereof.

Section 1117. Cover Page, Table of Contents and Article and Section Headings. The cover page, table of contents and Article and Section headings hereof are solely for convenience of reference and do not constitute a part of this Resolution, and none of them shall affect its meaning, construction or effect.

Section 1118. Conflict. All resolutions or parts of resolutions or other proceedings of the City in conflict herewith shall be and the same hereby are repealed insofar as such conflict exists.

Section 1119. Governing Law and Jurisdiction. This Resolution shall be governed by and construed in accordance with the laws of the State.

COMMUNICATIONS FROM:

Mayor's Office

November 30, 2006

Honorable City Council:

Re: Contracts for Construction of New Housing Units at Gardenview

Estates, Formerly Known as Herman Gardens.

The City of Detroit and the Detroit Housing Commission have agreed upon a project for the construction of new housing units at Gardenview Estates, formerly known as Herman Gardens. The DHC will be entering into contracts with developers for the construction of new housing units. The project will receive significant funding from the Department of Housing and Urban Development.

The federal funding requirement for Gardenview Estates is comparable to that of Woodbridge Estates in that the City of Detroit must contribute local funding. It has been agreed between the City, DHC and HUD that the City will construct the infrastructure for the development; streets, sidewalks, power lines, water lines and sewers (see attached Memorandum of Understanding). The City proposes to contract for that construction with the Detroit Building Authority.

Presented for your approval are resolutions for two contracts for the referenced project.

The Agreement for Construction of Infrastructure for Gardenview Estates is the contract between the City and the Detroit Housing Commission that commits the City to funding the infrastructure for the project. The Contract of Lease between the City of Detroit and the Detroit Building Authority for Gardenview Estates is the contract under which the Detroit Building Authority will build the infrastructure for Gardenview Estates.

We are respectfully requesting your approval of the two resolutions. Thank you in advance for your consideration.

Respectfully submitted,

ANTHONY ADAMS

Deputy Mayor

AGREEMENT FOR CONSTRUCTION OF INFRASTRUCTURE FOR GARDENVIEW ESTATES BETWEEN DETROIT HOUSING COMMISSION AND

CITY OF DETROIT, MICHIGAN

THIS AGREEMENT is made and entered into this 11th day of December, 2006 by and between The Detroit Housing Commission, a Michigan public body corporate ("DHC") and The City of Detroit, a Michigan municipal corporation, acting by the Department of Public Works ("DPW"), the Detroit Water and Sewerage Department ("DWSD") and the Public Lighting Department ("PLD"), collectively referred to as the "City".

RECITALS:

A. DHC and DPW entered into a Memorandum of Understanding regarding Herman Gardens Urban Revitalization HOPE VI Grant Program Infrastructure Funding Proposal signed by DHC on August 2, 2004, and by DPW on July 26,

2004. DHC and DWSD entered into a Memorandum of Understanding regarding Herman Gardens Urban Revitalization HOPE VI Grant Program Infrastructure Funding Proposal dated September 7, 2004. DHC and PLD entered into a Memorandum of Understanding regarding Herman Gardens Urban Revitalization HOPE VI Grant Program Infrastructure Funding Proposal dated September 8, 2004, (the "MOU's").

B. The MOU's were executed in furtherance of each organization's desire to work toward their mutual goals of providing safe, and clean thoroughfares throughout the city; providing safe drinking water and efficient sewers and providing electric utilities for public housing and other DHC development residents within and as part of the Herman Gardens Revitalization Program.

C. The Herman Gardens Housing Project is now known as Gardenview Estates.

D. The DHC is no longer a department of the City, but is a separate legal entity, which necessitates a contract to supersede and replace the MOU's described above.

E. The U.S. Department of Housing and Urban Development (HUD) is not a party to this agreement.

F. The funding for the infrastructure described in this Agreement, to the limits described in Exhibit B, will be provided by the City as a local funding share of the project funding provided by the United States Department of Housing and Urban Development ("HUD") under its HOPE VI Grant Program.

G. HUD has requested further clarification of the obligations and responsibilities of the DHC and the City.

H. DHC and the City desire to clarify and amend the obligations and responsibilities of each party.

I. The Detroit City Council adopted a resolution in support of this project on December 19, 2002.

NOW, THEREFORE, in consideration of the foregoing, DHC and the CITY do hereby agree to amend the MOU as follows:

This **Agreement replaces and supersedes** the above referenced Memoranda of Understanding ("MOU's"), clarifies and re-assigns the responsibilities of this joint effort to construct, own and maintain the infrastructure improvements at the Gardenview Estates (Formerly Herman Gardens Estates) Development and shall be regarded as the "governing agreement" in the event of a dispute.

II. Responsibilities of the Parties

DHC is responsible for the following:

- Furnishing the City with the design and plans for the public infrastructure to be built pursuant to this Agreement. The plans shall be furnished in a timely man-

- Furnishing the City with a site suitable for construction.

- Furnishing the City and the DBA with all soil information related to the Site that is in its possession or control.

DHC and its designer are responsible for any errors or omissions in the designs furnished to the City. DHC and its developer(s) are responsible for all permit fees.

- If the costs for the design, construction and inspection of the Infrastructure described in Exhibit B are less than the total City contribution identified in Exhibit B, the City shall retain the balance of the funds.

- If the costs for the design, construction and inspection of the Infrastructure described in Exhibit B exceed the total City contribution identified in Exhibit B, DHC shall be responsible for the additional cost, except for additional construction costs incurred as a result of the (a) negligent acts or omissions of the City, (b) delays in meeting the construction schedule or milestones not caused by DHC or acts of force majeure. DHC shall have the right to review the bids for the Infrastructure construction work before the contracts are awarded.

- DHC or HUD shall place the sum of \$2,000,000 in an HUD LOCCS escrow account. That sum shall be used to cover the cost of change orders to the Infrastructure construction contracts caused by site conditions at the project site. The full amount of the City's financial contribution must be spent before the

escrowed funds may be used for project cost. If the bids for the Infrastructure construction work exceed the City's financial contribution to the project, the City and DHC may agree that the escrowed funds may be used for the increased costs.

The City is responsible for the following:

- Causing all public infrastructure to be constructed on time and within budget. The construction schedule and milestone dates are attached as Exhibit D.

If additional work is required as a direct result of errors in the design furnished to the City by DHC, design changes requested by DHC, work needed to provide the City with a suitable site for construction and for any infrastructure work not to be maintained by the City, DHC shall be responsible for those inspection costs.
- The City shall cause the DBA or its contractor's to be responsible for all damages to persons or property that may occur as a result of the default or negligence of the City or any employee or contractor of the City. The City, its employees and its contractors shall take proper safety and health precautions to secure the worksite, protect the work, the workers, the public, and the property of others.
- For costs caused by construction defects, including the cost of repair and replacement.

Upon completion of construction of the public infrastructure and final close out procedures, receipt of all necessary easements, as-built drawings and dedication of streets to the City, the City shall own, operate and maintain the infrastructure built pursuant to this Agreement, except the storm water retention pond, which shall be owned and maintained by DHC. DHC shall grant all necessary easements at no cost to the City. The City shall have

the right of access to the Gardenview Estates Development for the purpose of inspecting, operating and maintaining all the utility and service connections located within City streets and easements. The DHC will be responsible for operating and maintaining all utility and service connections located outside of City streets and easements.

If the DHC Construction Manager reasonably determines, that the City may not meet a scheduled event and/or milestone, written notice shall immediately be issued by the DHC Construction Manager to the City. The City shall take the appropriate, necessary to improve the construction progress, including those steps that may be required by the DHC Construction Manager. IV. Contracting of Construction Services

V. Insurance and Indemnification

To the extent permitted by law, the City

and the City's permitted successors and assigns agree to protect, indemnify, hold free and harmless, and defend the DHC, and its appointed officials, recovery directors, its officers, agents and employees, successors and assigns, from and against all claims, actions, causes of action, judgments, fines, penalties, losses, damages and, liabilities for personal injury or property damage occasioned by the City's negligence. The City shall require the DBA's contractors to name the City, DBA and DHC as additional insured parties on the contractors' commercial general liability insurance and excess liability insurance. If the cost of the construction is less than that amount, the City shall retain the balance. Construction draws will be based on work completed, inspected and approved by the DBA and the DHC Construction Manager. The DBA Project Manager and the DHC Construction Manager shall approve progress payments to the construction contractors engaged by the DBA and dual signatures (i.e. one on behalf of the City and one on behalf of DHC) shall be required for all checks to Contractor.

Costs associated with design and engineering work contracted or performed prior to the date of this Agreement shall be the responsibility of the City and shall be distributed from the City's capital outlay. HUD COST CONTROL AND SAFE HARBOR STANDARDS

Cost Control and Safe Harbor Standards

for Rental Mixed-Finance Development

Revised: April 9, 2003

In order to expedite the mixed-finance review process and control costs, HUD is instituting safe harbor and maximum fee ranges for a number of costs. In addition, HUD has provided guidance on several development issues. Unless otherwise noted, the cost controls and safe harbors apply to those phases for which a mixed-finance proposal is submitted after January 1, 2000. Any terms previously approved by HUD through

approval of a pre-development agreement, development agreement, or program manager contract will not be reviewed again. This guidance is specific to rental developments, and does not apply to homeownership phases.

These policies were developed in consultation with housing authorities, HUD staff, and industry representatives, over the course of more than a year. Once drafted, they were circulated for public review, and the final cost controls included here reflect the many valuable comments received. HUD will continue to review the policies, based on experiences reported by housing authorities and other program participants, and may make alterations to the standards in the future.

Changes from the revised Cost Control and Safe Harbor Standards (January 2, 2002) are italicized in this alert and include the following:

- HOPE VI or other public housing funds may be used, on a case-by-case basis, to pay for up to 15% of the total developer fee/overhead amount to the developer prior to closing. A loan is not required.
- Operating subsidy and tenant rents used to fund a reserve must be used for eligible operating subsidy expenses.
- The property management fee for the public housing units may be calculated as 6% of imputed tax credit rents.

HUD's cost controls and safe harbors are contained in the following chart. The chart provides a brief definition of each term, lists the safe harbor and maximum allowable fees, and briefly describes the risk factors or circumstances that may result in a fee above the safe harbor standards. These guidelines should be used by housing authorities, developers, and consultants when negotiating terms and drafting documents for HUD review.

HUD will review the project terms when receiving Predevelopment and Development Agreements, Program Manager contracts, mixed-finance proposals, and/or other documents that contain negotiated terms. If a project is at or below a safe harbor standard, no further review will be required by HUD. If a project is above a safe harbor standard, additional review by HUD will be necessary. In order to approve terms above the safe harbor, the housing authority must demonstrate to HUD in writing that the negotiated terms are appropriate for the level of risk involved in the project, the scope of work, any specific circumstances of the development, and the local or national market for the services provided.

Cost Control and Safe Harbor Standards

Item	Defining Criteria	Safe Harbor	Maximum
Net Developer Fee for Rental Mixed-Finance Developments	The safe harbor and maximum standards apply to the net developer fee, i.e., the portion of the developer fee received by the developer to cover overhead and profit.*	9% or less of the project costs (profit and overhead); projects that do not have both LIHTC and public housing financing should have fees well below 9%.	12% of the project costs (profit and overhead).
(Developer Fee and Overhead)	<p>Net developer fee is expressed as a percentage of the project costs. Project costs are defined as all hard and soft costs of constructing a particular component with the exclusion of the following:</p> <ul style="list-style-type: none"> • Third-party costs paid by the PHA under contracts entered into directly by PHA and third parties, which will not be reimbursed to PHA at a mixed-finance closing (e.g., where the PHA contracts separately for demolition services); • The developer fee itself; • All costs related to family self-sufficiency and resident relocation activities; and, • All reserve accounts regardless of how characterized, including start-up reserves, operating deficit reserves, capital improvement reserves, initial operating period reserve, etc. 		Fees above 12% will be considered only if allowed by the State Housing Finance Agency and with significant justification from the PHA and developer demonstrating the increased risk.

Payments to developers such as "deferred developer fee" are considered part of the fee/overhead amount.

Developers may receive up to a 1% additional fee (with a cap of 12% developer fee) if cost savings are realized. This 1% incentive fee must be paid from non-public housing funds.

Developers with fees above the safe harbor standard should meet most or all of the following risk factors:

- Developer guarantees are for large dollar amounts in proportion to project size and/or long terms;
- Developer independently obtains financing, including tax credits (fee increases with both amount of financing and number of sources);
- Developer obtains site control from an entity other than a PHA or PHA affiliate (fee increases with number of sites);
- Project is small (i.e., 50 units or less);
- Project is complex (e.g., in financial, legal, environmental, and/or political terms);
- Project contains units without operating subsidy (i.e., market-rate or LIHTC-only units);
- Developer bears more than 25% of the predevelopment costs (until reimbursement at closing); and/or
- The Developer Fee is deferred (paid out of positive cash flow from market-rate units).

All criteria apply to both for-profit and non-profit developers.

PHAs or PHA affiliates that act as developer can only receive fees if they are first returned to the project and, to the extent that funds are remaining, subsequently classified as program income and used for low-income housing purposes.

Pay-Out
Schedule for
Developer
Fee/Overhead

Public Housing funds may not be used for payment of developer fee/overhead. HUD recommends the following limit on the pay-out schedule, to the extent that non-public housing funds are available, by phase:

- Closing: Not to exceed 50% of the fee/overhead amount.
- Construction Completion: 25% of the fee/overhead amount.
- Stabilized Occupancy: 25% of the fee/overhead amount.

A portion of the fee can be further deferred.

On a case-by-case basis, HUD will consider advancing the developer fund where there is an extended predevelopment period caused by such external factors as environmental remediation, consent orders, etc. If HUD determines such an advance is warranted, HUD will advance up to 15% of the total developer fee/overhead amount to the developer prior to closing using HOPE VI or other public housing funds.

Within
recommended
pay-out
schedule.

Payments of
greater than
50% at closing
or less than
25% at
stabilized
occupancy will
be closely
scrutinized.

Contractor Fee

- Percentages are based on hard construction cost.
- General Conditions includes the bond premium.

Overhead: 2%
Profit: 6%
General
Conditions:
6%

14% is the maximum for these combined costs provided that the PHA justifies why the 2/6/6 percentages for the individual costs cannot be met.

PHA Administrative/ Consultant Costs	<ul style="list-style-type: none"> Costs should reflect only actual documented expenditure of time and overhead cost (supplies, equipment, telephone, etc.) Such costs include both in-house staff time and outside consultants (program manager, development advisors, relocation specialists, etc.), but exclude outside legal and community and supportive services costs. On the HUD budgets, these costs may be captured under multiple BLIs. This cap applies to HOPE VI grantees awarded funds in 1998 or later, as well as to any non-HOPE VI mixed-finance project with proposals submitted after January 1, 2000; HUD will evaluate earlier grants on a case-by-case basis. HUD will continue to evaluate whether this cap provides helpful guidance and controls costs without hampering the PHA's ability to implement the grant. 	3% of the total project budget (basis includes all hard and soft development costs excluding CSS expenses).	6% of the total project budget
Sharing of Third-party Pre-development Costs	<p>HUD recommends the following cost-sharing schedule:</p> <ul style="list-style-type: none"> PHA and Developer split third-party costs 75/25. Developer's share of third-party costs (25%) will be reimbursed at closing out of available sources. <p>Costs to be shared area all third-party costs under the developer's scope of work (e.g., A/E, market study, financing fees, etc.) incurred during the predevelopment period). Public housing funds may not be used to reimburse developer legal counsel prior to closing, and developer legal costs do not contribute to the developer's share of third-party costs.</p> <p>Exceptions to the schedule may be made for small, local, non-profit, and/or minority/disadvantaged firms on a case-by-case basis.</p>	Costs are shared up to 75% by the PHA and at least 25% by the Developer.	N/A
Equity Raise and Pay-In Schedule	HUD will not adopt a safe harbor equity raise or standard pay-in schedule, as these are highly competitive, market-driven numbers.	Current market standard.	N/A
Identify of Interest Parties	<ul style="list-style-type: none"> Identity of interest parties are those that share an ownership interest. Identity of interest relationships are most common between a developer/owner and construction management, general contractor (GC), private management firm, and/or investor. PHAs are required to ensure cost competitiveness to the extent possible. Where a developer and GC have an identity of interest, the PHA needs to show the GC was the lowest bidder in response to a public request for bids or request a waiver from HUD under 24 C.F.R. 941.606(n)(1)(ii)(B). While the use of related or preferred entities as investors is permitted, HUD encourages PHAs to have their procured developer "shop around" to ensure they are getting a competitive yield. 	N/A	N/A
Property Management Fees	<ul style="list-style-type: none"> Can be defined on a percentage of gross income or per-unit per month (PUM) basis. PHAs and PHA Affiliates cannot earn a fee 	<p>a) 6% effective gross income or,</p> <p>b) a flat PUM fee for occupied units that is supported by</p>	Proposals above the safe harbor will be closely scrutinized; higher fees will require

Price for Program Management Services	<ul style="list-style-type: none"> Typically a fixed-price contract. Contracts must be performance-based with payments fixed to milestones (or monthly if tied to milestones). Size of fee should be related to the specific scope and role PM is expected to play. Costs for program management (either a full team or independently procured consultants) must be included in the PHA's Administrative Cost Cap. PHAs must comply with the provision of the procurement regulations that requires a PHA to prepare a cost estimate for procured services prior to receipt of bids. 	<p>N/A; the fee must be contained within the PHA's overall Administrative Cost Cap. Use checklist of responsibilities and clearly defined scope to limit costs.</p>	<p>N/A</p>
Legal Fees	<ul style="list-style-type: none"> Largely independent of the size of the phase. Attorneys should be used for legal functions. Legal fees should be tied to a scope of work, which should be monitored. HUD will review PHA legal costs when reviewed HOPE VI development budgets. In order to reduce costs and provide an incentive to reach closing, public housing funds may not be used to pay developer legal costs prior to closing. HUD intends to produce further guidance on how PHAs should utilize their attorneys. The procurement regulations state that for any RFP, the PHA must undertake a cost or price analysis prior to receipt of proposals. 	<p>No express limit; public housing funds may not be used to reimburse developer legal counsel prior to closing. All legal costs will be reviewed by HUD.</p>	<p>N/A</p>
Operating Deficit Reserve and Operating Subsidy Reserve	<ul style="list-style-type: none"> HUD is not establishing maximum or minimum levels of reserves to be maintained, as appropriate reserve levels depend upon the specific project and investor requirements. Both reserves must be established with non-public housing funds, but may be replenished with public housing funds (i.e., operating subsidy or tenant rents from PHA-assisted units). <i>If public housing funds are contributed to a reserve at any time, those funds in the reserve must be dedicated to the project or returned to the PHA to be used for eligible purposes.</i> 	<p>N/A</p>	<p>N/A</p>

- *The portion of the reserve funded with public housing funds may not be used to pay for partnership exit taxes, debt repayment, or any other expense that is not an eligible use of public housing funds.*

*The safe harbor and maximum guidelines assume the net developer fee excludes any portion of the fee received by the developer or co-developer (including a PHA) that is returned to the project to fund operating reserves or to cover project costs.

Re: Neighborhood Enterprise Zone (NEZ) Certificate Applications for 2 units of housing to be established through the new construction at 411 and 423 E. Ferry in the Ferry Street NEZ (Recommend Approval).

The office of the City Planning Commission (CPC) has received the applications for Neighborhood Enterprise Zone (NEZ) certificates for 2 units of new housing construction, one each at 411 and 423 E. Ferry forwarded from the City

Clerk's office. Having reviewed these applications, CPC staff recommends approval of the NEZ certificates.

The subject properties have been confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The applicant is proposing development costing approximately \$125,000 at 411 E. Ferry and \$100,000 at 423 E. Ferry. Both should be eligible for certificates.

The subject properties are the vacant rear yards of lots with structures fronting Ferry Street, one at 405 and the other at 421 E. Ferry. These properties are located within the Art Center community. The owner and applicant, Nailah LLC, intends to construct a carriage house providing parking on the ground floor, with a condominium above at each site. The NEZ certificate applications appear to have been submitted prior to the issuance of any applicable building permits.

These properties being located within the boundaries of an urban renewal area, are subject to the provisions of the Art Center Rehabilitation Project. This project is consistent with the development plan for the area.

Honorable City Council:

Re: Application for (1), Neighborhood Enterprise Zone Certificates for Rosedale N/19 (Recommended Approval).

The Finance Assessment Division has received (1) applications for the Homestead Facilities Neighborhood Enterprise Zone certificates in the Rosedale N/19 area. The Homestead Facilities Neighborhood Enterprise Zone (NEZ) designation for Rosedale N/19 was approved by your Honorable Body on July 28, 2006. The Finance Assessments Division has reviewed the applications and recommends approval.

Homestead Facilities NEZ certificates are being requested for the following addresses attached to this memorandum. The properties have all been confirmed as being within the boundaries described above and should be eligible for the Homestead Facilities NEZ certificates as stipulated under the State Public Act 147 of 1992 as amended in 2005. The properties listed are homestead established properties and it is imperative that each homeowner file for a Primary Residence Exemption to establish their homestead.

The State Tax Commission will issue the Homestead Facilities NEZ certificates to homeowners who have been identified and filed an application. The Finance Assessments Division staff, therefore recommends that the City Council pass a resolution to establish the properties listed as qualified in the designated area.

Honorable City Council:

Re: Request of Hussein Jaafar for rezoning of 11183 Rosemary Avenue at Gratiot Avenue from P1 (Open Parking District) to B4 (General

Business District) (Recommend Approval). Ordinance Attached.

A business person in the City of Detroit, Hussein Jaafar, has petitioned the City to amend District Map No. 26 of the Detroit Zoning Ordinance, Chapter 61, Article XVII to show a B4 (General Business District) zoning classification where a P1 (Open Parking District) zoning classification currently exists at 11183 Rosemary Avenue near Gratiot Avenue.

BACKGROUND

The property in question is a single lot located just east of the Coleman A. Young International (formerly City) Airport on the north side of Rosemary Avenue adjacent to the closed alley behind Gratiot Avenue and is identified as 11183 Rosemary Avenue, Lot 112 of the David Trombley Estate Subdivision. This property was originally rezoned from an R2 (Two-Family Residential District) classification to the current P1 classification some time between 1949 and 1953.

The subject property is an irregularly shaped former parking lot for the Gratiot Avenue property; no buildings are located on the lot. The width of the frontage on Rosemary Avenue is only about twenty (20) feet.

The subject lot is located on the block bounded by Charlemagne Avenue on the north, Gratiot Avenue on the east, Rosemary Avenue on the south, and Conner Avenue on the west. The property is owned by the petitioner, as is the land at 11131-11135 Gratiot Avenue.

REZONING REQUEST

The petitioner has requested the rezoning of the P1 property on Rosemary Avenue to use in conjunction with his property on Gratiot Avenue for the construction and operation of a car wash. Currently, a vacant 2-story commercial building stands at 11135 Gratiot. Mr. Jaafar's plans are to demolish the existing building to make way for the car wash. Car washes, and any land use other than open parking, are prohibited on land zoned P1 but are permitted as a conditional use in the B4 district. Immediately adjacent to the proposed car wash on Gratiot is a BP gas station operated by the petitioner.

The Buildings and Safety Engineering Department has already held a public hearing for the car wash on August 2, 2006 to consider a special land use grant under B&SE Case #67-06. No decision has been finalized in that case and no permit could issue for the car wash unless the P1 property on Rosemary Avenue is rezoned.

CITY PLANNING COMMISSION PUBLIC HEARING

The City Planning Commission held a public hearing on this matter on October 5, 2006. Two members of the public spoke.

One longtime resident of Charlemagne Avenue, immediately to the north of the subject property, spoke in support of the proposed rezoning and the proposed car wash. He emphasized the importance, though, of keeping the alley behind Gratiot Avenue closed. It should be noted that the petitioner intends to keep the alley closed.

A second resident, residing on the south side of Rosemary, across from the subject property, also supported the rezoning and was also one of those who had supported the closing of the alley between the subject property and the Gratiot Avenue commercial frontage.

PLANNING CONSIDERATIONS

The areas along Gratiot Avenue to the east and south are developed commercially, and the subject property has been used for many decades in conjunction with those commercial uses. The petitioner's request for rezoning to B4 would allow a wide range of commercial uses, including those that customarily attract a large amount of vehicular traffic. However, since the new Zoning Ordinance went into effect, proper buffering between future commercial use of 11183 Rosemary and the residential land immediately to the west will be required. Since the petitioner has already had a special land use hearing for a car wash, it is reasonable to assume that the likely land use to be established will be the car wash.

The subject property is a nonconforming lot for residential purposes. The proposed rezoning to B4 would enable the property to be productively used in conjunction with the proposed car wash at 11135 Gratiot. Many similar situations have arisen over the years on small residential lots across an alley from commercial properties on diagonal streets such as Grand River and Gratiot. In the past, these cases were resolved at the Board of Zoning Appeals. Now that the Zoning Ordinance no longer permits use variances, a map amendment is the appropriate mechanism facilitating the issuance of a permit.

MASTER PLAN CONSISTENCY

The Master Plan of Policies places the subject within the Conner Subsector of the Northeast Sector. The "existing land use" and "recommended future general land use" map both indicate an RL (Low Density Residential) designation for all the east/west residential streets in the vicinity; they also both indicate a GC (General Commercial) designation for the Gratiot Avenue frontage.

Neither the existing P1 zoning nor the proposed B4 zone would appear to be consistent with the Low Density Residential designation, however, as noted above, the subject property is a nonconforming lot for residential purposes.

In its letter, dated October 16, 2006, the Planning and Development Department (P&DD) also indicated that the proposed rezoning does not conform to the low-density residential (RL) designation in the Master Plan, but noted further that the subject property had been used for 50 years for parking rather than for residential use and would not change the general character of the surrounding residential area. Given other nearby precedents along Gratiot, P&DD has recommended that the proposed project be allowed to proceed without requiring an immediate amendment to the Master Plan.

RECOMMENDATION

After consideration of the above factors, on October 19, 2006, the City Planning Commission voted to recommend approval of the requested rezoning of 11183 Rosemary Avenue from P1 (Open Parking District) to B4 (General Business District). The appropriate ordinance to effectuate this recommendation is attached for your Honorable Body's consideration and has been forwarded to the Law Department for approval as to form.

Honorable City Council:

Re: Proposed entry signage at Comerica Tower (Woodward Ave.) located within a PCA (Restricted Central

Business District) zoning classification (Recommend Approval).

The staff of the City Planning Commission (CPC) in concert with a representative of the Planning and Development Department (P&DD) has received and reviewed a sign permit application from Carroll Installations/Araneae Signs for the property located at 500 Woodward Ave., the Comerica Tower. The property in question is an existing office building with ground floor tenant space including a Comerica Bank branch. The proposed sign is classified as an on-premises business sign and must therefore be considered under the applicable provisions of Chapter 3 of the 1984 Detroit City Code. This property is located within a PCA (Restricted Central Business District) zoning classification, where, among other provisions, any exterior alteration to the premises thereof requires the review and approval of your Honorable Body.

REVIEW

The location of the proposed sign is just above the entryway along the Woodward

façade. The proposed sign is the traditional blue, trapezoidal shaped Comerica sign bearing the text "Comerica Bank". It measures 18 feet x 4 feet and would be suspended 16-18 inches from the soffit. From an architectural aesthetic point of view the sign is well-sized and placed and honors the architecture of the building.

CONCLUSIONS AND RECOMMENDATION

GPC staff finds this alteration to be harmonious with the existing context and consistent with the spirit and intent of the PCA zoning district. Staff recommends approval of the proposed entry sign and we respectfully request your urgent attention to this matter. Attached for your consideration you will find a resolution approving this request.

Honorable City Council:

Re: Transfer of Jurisdiction and Sale of Surplus Property. Development: Parcel 432.

The Director of the Recreation Department has indicated to the Planning & Development Department (P&DD) that Parcel 432 is surplus to their needs and is requesting that P&DD assume jurisdictional control over the property.

On or about November 9, 2005, your Honorable Body approved a Resolution in Support of the above-referenced Center wherein it is stated that subject to the necessary preconditions being satisfied City Council supports the sale and development thereon of two (2) parcels of City land located on the east side of Detroit aggregating at least 27 acres. The largest parcel was land (approximately 18 acres) encumbered by a United States Department of Housing and Urban Development ("HUD") Declaration of Trust and the smaller parcel (approximately 11 acres) was a portion of Chandler Park.

Subsequent to said Resolution of Support the parcel encumbered by HUD was deeded to the City of Detroit Housing Commission ("DHC") as part of an overall transfer of public housing use parcels from the City to DHC. Consequently, the Salvation Army is now purchasing that parcel directly from DHC and only the Chandler Park parcel from the City. Since the Kroc Center will be constructed on the DHC parcel and only playfields on the Chandler Park parcel the City's Development Agreement requires that the Salvation Army complete the construction of the Kroc Center as a condition of its Development Agreement. Moreover, the nature of the Development has not changed. The Kroc Center will be a multi-purpose social, recreational and educational facility with a minimum cost of \$20,000,000; however, if the fund raising campaign is as successful as expected the Center will be a \$35,000,000 structure. In either scenario monies raised from a local fund raising campaign and obtained from the Kroc Foundation will also provide an endowment to sustain the Center's operation and programs for years. However, if the Salvation Army does not complete the development, the City of Detroit will have the right, pursuant to a development agreement with Salvation Army, to retake title to the Chandler Park property.

We, therefore, request that your Honorable Body approve the attached resolution authorizing the transfer of jurisdiction of Parcel 432, from the Recreation Department to the Planning and Development Department.

We, also, request that your Honorable Body adopt the sale and authorize the Planning & Development Department's Director, or his authorized designee, to execute an agreement to purchase and develop this property with The Salvation Army, an Illinois Non-Profit Corporation, together with a deed to the property and such other documents as may be necessary to effect the sale.

Re: Formal Request of the Planning and Development Department (P&DD), for the authorization to encumber \$2.0 million in General Obligation Bonds to support the Morgan Waterfront Estates Residential Development (formerly known as Lora Coal Site) Infrastructure Improvements.

The Planning and Development Department (P&DD) is requesting the authorization of your Honorable Body to utilize General Obligation Bond funds to support public right of way improvements, infrastructure improvements, seawall reinforcing and land stabilization in the residential development bounded by Freud St. on the north, the Detroit River on the south, ST Jean on the west and Lycaste St. on the east.

The site improvements will include, but may not be limited to, the following project activities: 1.) Street lighting, 2.) New sidewalks and street paving, including curb cuts in compliance with ADA (Americans with Disabilities Act) requirements, 3.) Water and sewer upgrades, 4.) Landscaping and beautification to ST Jean right of way 5.) Seawall restoration and reinforcement 6.) Land stabilization and environmental clean up 7.) P&DD has identified as the bonding source, a portion of the funds encumbered for the previously approved Chalmers Heights, LLC infrastructure project, contract CPO #2672074. The total amount of this contract was \$2.6 million where \$1.5 million was reprogrammed to support infrastructure improvements for the Burns Drive/ East Jefferson area. The remaining balance is \$1.1 million in CPO #2672074. To supplement this balance, \$900,000.00 from Morgan Development LLC. CPO #2715360 (formerly known as Lenox Water Front Estates) has not been utilized and is available to support the proposed project. Both Chalmers Heights LLC, Morgan Development, LLC, and the City have agreed to make these funds available to support the Morgan Waterfront Estates Residential project.

Therefore, the P&DD respectfully requests that the Honorable City Council approve and adopt the attached resolution, with a waiver of Reconsideration. This resolution will provide the authorization for P&DD to unencumber \$1.1 million of the \$2.6 million currently encumbered in the Chalmers Heights, LLC infrastructure contract and transfer \$900,000.00 from CPO #2715360 currently in place for the Lenox Water Front Residential Project Area and obligate this \$2.0 million to provide public infrastructure improvements to support the Morgan Waterfront Estates Residential project.

Respectfully submitted,
DOUGLASS J. DIGGS
Director

By Council Member Collins:

Whereas, The Planning and Development Department has identified much needed public right of way improvements for the Morgan Waterfront Estates Residential area.

Whereas, \$2.0 million will be required to complete the infrastructure improvements in the public right-of-way.

Whereas, P&DD has identified \$1.1 million that is currently available in an existing contract for the Chalmers Heights Development, LLC (total contract is \$2.6 million) and \$900,000 from Morgan Development LLC, CPO #2715360 (formerly known as Lenox Water Front Estates). These funds are General Obligation Bonds which are eligible to be used to support public infrastructure improvements.

Whereas, P&DD is herein formally requesting that the Detroit City Council approve and adopt this resolution, with a Waiver of Reconsideration, in support of the public improvements.

Now Therefore Be It Resolved, That the Honorable Detroit City Council grant the authorization to the City of Detroit, through the Planning and Development Department, to un-encumber \$1.1 million of the \$2.6 million contract currently in place in the Chalmers Heights Development, LLC contract (CPO #2672074) and \$900,000 from Morgan Development LLC, CPO #2715360 (formerly known as Lenox Water Front Estates) so that these funds, in the amount of \$2.0 million can be utilized to support the public infrastructure improvements required for the Morgan Waterfront Estates Residential Developments.

Honorable City Council:
Re: Dequindre Cut Project Maintenance & Use Agreement With the Conservancy.

On April 15, 2005 the City and the Detroit Riverfront Conservancy, Inc. (the

"Conservancy") entered in to the "Detroit Riverfront Conservancy Lease Agreement," the "Lease Agreement") which leases to the Conservancy certain property along the Detroit River for the purposes of maintaining and operating a linear public park known as the River walk on the aforementioned property.

As set forth in the recitals to the Lease Agreement, the City has created an overall vision for the planning, development and use, including recreational use of the Riverfront District of the City of Detroit.

With the assistance of grants from the Michigan Department of Natural Resources and the Michigan Department

of Transportation "MDOT," along with a grant from the Community Foundation of Southeastern Michigan to the Conservancy, the City will construct a non-motorized pathway open to the general public and related recreational purposes in the area commonly known as the "Dequindre Cut Area."

The Dequindre Cut Area generally lies between St. Aubin Boulevard on the east, Orleans Avenue on the west, Woodbridge Street on the south and Gratiot Avenue on the north.

It is the intention of the City and the Conservancy that the maintenance and use of the Dequindre Cut Area be integrated into the operation and maintenance of the Riverwalk.

In exchange for the opportunity to integrate the programming of activities for the Dequindre Cut Area into the programming of activities for the Riverwalk, the Conservancy has agreed to assume the responsibilities of the City to maintain the Dequindre Cut Area in accordance with the terms and conditions of a "Maintenance and Use Agreement" between the City and the Conservancy.

Therefore, we respectfully request your Honorable Body to adopt the attached resolution which authorizes:

1. That the Director of the Department of Public Works is hereby authorized to execute a Maintenance and Use Agreement, attached as Exhibit A hereto, with the Conservancy for the maintenance of the Dequindre Cut Area greenway improvement.

2. That the Director of the Department of Public Works is authorized to execute instruments required to make and incorporate technical amendments or changes to the Maintenance and Use Agreement, including corrections to or confirmations of legal descriptions, in the event that changes are required to correct minor inaccuracies or are technical matters that may arise during the term of the Maintenance and Use Agreement, provided that the changes do not materially alter the substance or terms of the Maintenance and Use Agreement.

**MAINTENANCE AND USE AGREEMENT
(DEQUINDRE CUT GREENWAY AREA)**

This **MAINTENANCE AND USE AGREEMENT** (this "Agreement"), is made as of the last date set forth on the signature page of this Agreement, by and between the **CITY OF DETROIT**, a

Michigan municipal corporation, acting through its, Department of Public Works, whose address is 513 Coleman A. Young Municipal Center, Detroit, Michigan 48226 (the "City"), and the **DETROIT RIVERFRONT CONSERVANCY, INC.**, a Michigan nonprofit corporation, whose principal address is 200 Renaissance Center, Mail Code 482-B13-004, Detroit, Michigan 48265-2000 (the "Conservancy").

RECITALS

This Agreement is based on the following recitals:

A. The City, acting through its Planning and Development Department and the Conservancy entered into a certain Detroit Riverfront Conservancy Lease Agreement (the "Lease") pursuant to the terms of which the City agreed to lease to the Conservancy certain property along the Detroit River for the purposes of maintaining and operating a public linear park to be constructed on the aforesaid property known as the Riverwalk (the "Riverwalk").

B. As set forth in the recitals to the Lease, the City has created an overall vision for the planning, development, and use, including recreational use of the Riverfront District of the City of Detroit.

C. With the assistance of grants from the Michigan Department of Transportation ("MDOT") and the Michigan Department of Natural Resources ("MDNR") and the Conservancy through the use of a matching grant from the Community Foundation of Southeastern Michigan (the "Community Foundation"), the City has or will construct in the area commonly known as the "Dequindre Cut Area" (as more particularly described in Recital D and Section 1.01 below) a non-motorized pathway open to the general public and for related recreational purposes. The grants from MDOT, MDNR and the Community Foundation shall hereinafter be referred to collectively as the "Grants".

D. The Dequindre Cut Area generally lies between St. Aubin Boulevard on the east, Orleans Avenue on the west, Woodbridge Street on the south and Gratiot Avenue on the north and is adjacent to predominantly residential neighborhoods (streets and neighborhoods collectively being the "Adjacent Properties").

E. It is the intention of the parties that the operation and maintenance of the Dequindre Cut Area shall be integrated into the operation and maintenance of the Riverwalk.

F. Pursuant to the terms of the Grants, the City must provide for the perpetual maintenance of the improvements to be constructed in the Dequindre Cut Area.

G. In exchange for the opportunity to integrate the programming of activities for the Dequindre Cut Area into the programming of activities for the Riverwalk, the Conservancy has agreed to assume the

responsibilities of the City to maintain the Dequindre Cut Area facilities as provided in this Agreement.

H. The parties are desirous of reducing their mutual understandings with regard to the matters set forth herein to writing and have therefore entered into this Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby mutually acknowledged, the parties agree as follows:

ARTICLE 1

Description of the Dequindre Cut Area

Section 1.01 Description

The area that will be the subject of this Agreement commonly known as the Dequindre Cut Area shall be the property described in Exhibit A attached hereto and by this reference made a part hereof (referred to herein as the "Property" or "Dequindre Cut Area").

ARTICLE 2

Term of Agreement

Section 2.01 Term

The term of this Agreement shall be the same as the term of the Lease and any extensions thereof. This Agreement shall terminate at the same time as the Lease expires. If the Lease is extended, this Agreement shall be extended for an equivalent period. Such term shall be deemed to be in perpetuity for the purposes of any funding associated with the Property. Notwithstanding the foregoing, the Conservancy's obligations under this Agreement shall not commence until such time as the City completes construction of the improvements (the "Improvements") described in the "contract documents" for the Improvements prepared by JJR L.L.C. (Project Description: City of Detroit in cooperation with Michigan Department of Transportation Federal Highway Administration Dequindre Cut Greenway MDOT Job #: JN 82619A, Control Section: STE 82702, Federal Project #: STP-0582(142) Federal Item #: RR 4750) (collectively, the "JJR Documents") in accordance with the MDOT and MDNR grants and that certain Agreement (Dequindre Cut Greenway Project) between the Economic Development Corporation of the City of Detroit and the Conservancy dated December __, 2005. The City shall promptly notify the Conservancy of any material changes to the JJR Documents and the City shall not change the JJR Documents without the Conservancy's prior written consent if such change will materially affect the Conservancy's obligations under this Agreement. The City shall deliver at least thirty (30) days' prior written notice to the Conservancy when the Improvements will be completed in accordance with this Agreement and the Conservancy's obligations are to commence under this Agreement.

Section 2.02 Construction of Improvements

In no event will the Conservancy have any liability or obligation to the City to complete the initial construction of the Improvements or to construct any additional improvements within Dequindre Cut Area other than replacements of the Improvements as provided in this Agreement. In the event of any defect in the Improvements to be initially constructed and/or installed by the City, the City shall enforce its rights against the contractor (the "Contractor") who constructed and/or installed such Improvements to repair or replace such defect if such defects are covered under warranty and detected during the warranty period. The Conservancy shall promptly notify the City if it becomes aware of any such defective Improvements and shall cooperate with the City in bringing any claims against the Contractor under applicable warranties related to such defective Improvements; provided, however, the Conservancy shall have no obligation to maintain, repair and/or replace any such defective Improvements if it is covered under warranty.

ARTICLE 3

Operation, Use, and Maintenance of the Dequindre Cut Area

Section 3.01 Operation and Use

A. The Conservancy shall have the right to use, operate and program activities in the Dequindre Cut Area subject to the provisions set forth below.

B. The Conservancy shall use and operate the Improvements to be constructed in the Dequindre Cut Area for the benefit of the public in a manner consistent with its mission of enhancing general public access and connections to the Riverfront District of the City of Detroit and promoting programming activities designed to foster broad-based community participation in such activities and events while respecting ecological and conservation standards. Such activities may include strolling, jogging, biking, rollerblading, roller skating, parades, special events, festivals, street entertainers, food, beverage and merchandise concessions, educational activities, conservation programs and other activities which may, from time to time, be conducted in other riverfronts developed for public access. All such activities requiring permits shall be subject to the City's normal permitting processes.

C. The City and the Conservancy agree to coordinate the scheduling and programming of activities on the Dequindre Cut Area and on the City parks adjacent to the Dequindre Cut Area so as to minimize conflicts and provide an integrated and complementary series of events and programming. The Conservancy acknowledges that the City may from time to time need to temporarily restrict the use

of the Dequindre Cut Area for maintenance, repair, removal or reconstruction of City utilities and highway bridges that cross the Dequindre Cut Area or in connection with the removal of the Reserved Right-of-Way (as defined below) as provided in sections 4.05 and 5.02 hereof.

D. The Conservancy shall not sponsor or promote the use of the Dequindre Cut Area for conduct that would be illegal or a nuisance, or would materially interfere with the use of any portion of the Adjacent Properties. Should the City believe that any such use is being sponsored or promoted, the City shall notify the Conservancy which shall promptly rectify the situation.

E. The Conservancy will be solely responsible for procuring and paying for services required to operate and maintain the Dequindre Cut Area in accordance with this Agreement.

Section 3.02 Fees

No fee or charge may be imposed for entry onto and general use of the Dequindre Cut Area. However, programming sponsored or allowed by the Conservancy may include events or activities of a fundraising nature and may involve events or activities for which a fee or charge is imposed. All such fees and charges shall be reasonably based on covering the cost of the event or activity, the need to regulate use, the desire for fees and charges to be within the affordable reach of residents, and any restrictions or conditions imposed by the terms of grant-making authorities.

Section 3.03. Maintenance

The Conservancy shall maintain, repair and replace the Improvements in the Dequindre Cut Area set forth on Exhibit B (Section A-1) attached hereto and by this reference made a part hereof and with the standards set forth in Section 3.03(A)-(C) below and on Exhibit B (Section A.2). All such maintenance, repair and replacement work shall be performed by the Conservancy in a good and workman-like manner. The Conservancy's obligation to maintain, repair and replace the Improvements within the Dequindre Cut Area shall cease temporarily or permanently (in the case of the Reserved Right-of-Way area if removed from the Dequindre Cut Area as provided in Section 4.05 hereof) during such times and only in such areas as the City is working on the Dequindre Cut Area as provided in Sections 4.05 and 5.02 hereof. Notwithstanding anything to the contrary contained herein, the Conservancy agrees that with respect to the existing improvements (the "Existing Improvements") in the Dequindre Cut Area set forth on Exhibit B (Section C), the Conservancy will (i) remove weeds and other vegetation, (ii) paint and (iii) provide patching, grouting and crack filling in such areas. The Conservancy shall

have absolutely no other maintenance or repair obligations whatsoever with respect to the Existing Improvements and under no circumstance will the Conservancy have any responsibility for replacement and/or removal work in connection with the Existing Improvements.

The Conservancy's obligations for maintenance, repairs and replacements with respect to the Dequindre Cut Area (other than those items to be maintained, repaired and/or replaced by the City as provided in Exhibit B (Section B) and the Existing Improvements which limited maintenance and repair obligations of the Conservancy are set forth above and in Exhibit B (Section C)) shall be:

The parties anticipate and expect that the Dequindre Cut Area will be entitled to exemption from property tax. The Conservancy shall pay all Taxes levied on or assessed against the Property as a consequence of any activities conducted or contracted for by the Conservancy. If necessary, the City and the Conservancy agree to cooperate in obtaining separate tax parcel identification numbers for the Property distinct from the tax parcel identification numbers of any other tax parcels.

ARTICLE 4

Covenants of the Conservancy and the City

Section 4.01 Maintenance of Existence and Purpose

The Conservancy shall remain in existence as an organization qualified under Section 501(c)(3) of the Internal Revenue Code with its principal corporate purpose being the design, construction, develop-

ment, establishment, operation, programming, maintenance and security of parks, promenades and other green spaces along the Detroit River.

Section 4.02 Amendments to Corporate Documents

The Conservancy shall not amend its articles of incorporation or bylaws in such a way as to materially affect its existence, tax-exempt status, corporate purposes, or governing structure (including numbers and method of choosing directors and officers) without providing at least thirty (30) days' notice to the City.

Section 4.03 Public access to Dequindre Cut Area and Public Benefit

The Conservancy and the City acknowledge that the parties are entering into this Agreement for the express purpose of benefiting the public and providing improved access for and enjoyment of the public with respect to the Dequindre Cut Area. Accordingly, the Conservancy and the City covenant that the Dequindre Cut Area is intended to provide a pedestrian and bicycle access route to the Riverfront District of the City of Detroit and shall always be open and available to the public except for temporary closures permitted under this Agreement.

Section 4.04 Records

The Conservancy shall maintain at its principal office complete and separate books, records, and documents) the "Records") relating to the management and operation of the Dequindre Cut Area. The Conservancy agrees to make the Records available to the City for inspection and copying at the City's request.

Section 4.05 Compliance with restrictions affecting the Dequindre Cut Area

The Conservancy and the City acknowledge that portions of the Property have been improved with Federal, State and/or private grants, and that the terms of such grants (such as the MDOT, MDNR and the Community Foundation grants) place perpetual restrictions on the use of property improved with such grants. Accordingly, the Conservancy agrees to comply with all applicable requirements and restrictions of the Grants. The City agrees to comply with all applicable requirements and restrictions of the MDOT and MDNR grants. In the event that the City elects to discontinue the use of the Dequindre Cut Area for recreational purposes by the general public (other than the removal of the Reserved Right-of-Way) and such election by the City results in a declaration of breach from the Community Foundation of Southeastern Michigan to the Conservancy, the City agrees to return to the Community Foundation all grant money paid to the Conservancy for the Dequindre Cut Area plus interest in strict accordance with such grant. The City acknowledges that (i) it has received a true, correct and com-

plete copy of the Community Foundation grant and (ii) the Conservancy would not otherwise agree to enter into this Agreement but for the City's agreement to return the Community Foundation grant funds plus interest if the City breaches the Community Foundation grant. The Conservancy and the City also acknowledge that the western thirty (30') feet of the vacated Dequindre right-of-way (the "Reserved Right-of-Way"), extending from the northern to the southern boundaries of the Dequindre Cut Area, is reserved by a resolution of the Detroit City Council for future motorized transportation facilities and may be removed by the City from recreational use for such transportation use at any time. If the Reserved Right-of-Way is removed by the City from recreational use, upon notice by the City to the Conservancy of this action, all rights of usage and obligations for maintenance and repair by the Conservancy shall terminate with respect to the Reserved Right-of-Way area only. In connection with the removal of the Reserved Right-of-Way area from the Dequindre Cut Area, the City shall complete such removal work (i) in a good, safe and workmanlike manner, (ii) in a prompt manner so as to minimize closures and disruption of access through the Dequindre Cut Area and (iii) so as to leave the remainder of the Dequindre Cut Area in a condition that will be in compliance with the terms and conditions of the MDOT and MDNR grants.

Section 4.06 Performance Standards

A. The Conservancy agrees to perform any repairs and maintenance work (i) with due diligence and good and workmanlike manner in accordance with the generally accepted standards of the industry; (ii) in accordance with all applicable laws, rules, requirements and regulations including specifically the applicable zoning ordinance, ordinances, and regulations of all governmental and quasi-governmental agencies and authorities having jurisdiction over such repairs and maintenance; and (iii) in accordance with the terms and provisions of this Agreement.

B. In the performance of its repairs and maintenance, the Conservancy shall (i) not unreasonably interfere with any other construction being performed on the Property; (ii) not impair in any more than an incidental manner the use, occupancy, or enjoyment of the Adjacent Properties by the owners thereof; and (iii) obtain the prior written approval from the City of Detroit Department of Public Works of any and all plans and specifications for sub-surface repairs to ensure compliance with requirements and regulations of the City except in the event of an emergency in which event only written notice to the City shall be required.

C. Once the Conservancy commences repairs or maintenance activities, the

Conservancy shall diligently pursue such activities to completion.

Section 4.07 Safety Measures

The Conservancy will at all times take all safety measures reasonably required to protect the City and the public from injury and/or damage caused by or resulting from the performance or its repairs and maintenance activities. If required by code or generally accepted practices, the Conservancy will erect or cause to be erected an appropriate barricade, and will maintain such barricade until the maintenance and/or repairs have been substantially completed.

Section 4.08 Security

The Dequindre Cut Area is a public right-of-way and will be patrolled by the police consistent with other public rights-of-way within the city limits. The Conservancy shall have no obligation to provide any security personnel or to take any security or surveillance measures or actions whatsoever with respect to the Dequindre Cut Area; provided, however, the Conservancy has agreed that, upon the City's initial construction of its security cameras and call stations in the Dequindre Cut Area and its connection of same to the Conservancy's Rivard Pavilion security monitoring and control center located on the Riverwalk, the Conservancy will operate and monitor the security cameras and call stations located in the Dequindre Cut Area in a manner consistent with the operation and monitoring of the security cameras and call stations located on the Riverwalk.

ARTICLE 5

City Obligations

Section 5.01 Facilitation of Permitting/ Approvals for Events

The City through its various departments will cooperate with the Conservancy in providing the required permits and approvals for special events on, or in connection with, the Dequindre Cut Area and will expedite the processing of such permits and approvals.

Section 5.02 Utility and Bridge Repairs, Removal of Reserved Right-of-Way and other work in the Dequindre Cut Area

The City will endeavor to complete in a timely fashion any work that requires access through, beneath or adjacent to the Dequindre Cut Area and to schedule such repairs so as to minimize any disruption of the Dequindre Cut Area events or activities. The City and the Conservancy agree to cooperate and use reasonable efforts to provide other access in the event ingress and egress through the Dequindre Cut Area is closed or materially disrupted in connection with such work. Once the work is complete, the City will promptly return the Dequindre Cut Area to substantially the condition existing at the time the work was commenced except for the Reserved

Right-of-Way area if removed from the Dequindre Cut Area as provided in Section 4.05 hereof.

ARTICLE 6

Insurance and Indemnification

Section 6.01 Duty to Carry Liability Insurance

A. The Conservancy shall carry with financially responsible insurance companies rated "Excellent" (at least A-VIII) or better by the then current A. M. Best Company Insurance Reports (or comparable rating from a comparable rating agency should A. M. Best Company cease to issue its insurance reports), commercial general liability insurance covering its legal liability in connection with claims for bodily injury, including death, contractual liability, property damage and personal injury written on an occurrence basis incurred in connection with the maintenance and/or repair of the Dequindre Cut Area or arising out of its operation of the Dequindre Cut Area. Such insurance shall have limits of Five Million (\$5,000,000) Dollars per occurrence. Each such policy of insurance shall name the City as an additional insured.

B. In addition, the Conservancy shall maintain as to the Dequindre Cut Area and the Improvements and shall require its contractors performing work in the Dequindre Cut Area to maintain the following:

1. Workers' Compensation with statutory benefits and Employers' Liability Insurance (or its equivalent) with limits of liability of not less than Five Hundred Thousand (\$500,000) Dollars.

2. Automobile (motor vehicle) Liability insurance with coverage for all owned, non-owned and leased vehicles, with combined single limits of not less than One Million (\$1,000,000) Dollars for bodily injury and/or property damage.

Section 6.02 Indemnification by Conservancy

A. The Conservancy agrees to defend, indemnify and save the City, its officers, employees and agents harmless against and from all claims, loss, damages, causes of action, costs and expenses, including reasonable attorneys' fees, related to personal injury, bodily injury or death of persons or destruction of or damage to property resulting from or arising out of or in any manner connected with the Conservancy's repair, maintenance and/or operation of activities on the Dequindre Cut Area. Notwithstanding the foregoing, the Conservancy's obligation to indemnify and hold harmless the City shall not apply to any liability, obligation, damage or expense which arises from or in connection with the gross negligence, or intentional or willful acts or omissions of the City, its officers, employees or agents or the exercise by the City of its rights under Section 5.02 or in connection

with the City's initial construction obligations under this Agreement with respect to the Improvements. Notwithstanding anything to the contrary contained herein, the Conservancy shall have absolutely no obligation to indemnify, defend and/or hold the City harmless in connection with any claim or cause of action regarding or related to the method, procedure, type or manner in which security is being provided in the Dequindre Cut Area by the Conservancy or otherwise.

B. In the event that a claim arises, and indemnification is sought by the City pursuant to this Section, the City shall promptly notify the Conservancy of such claim and, if known, the facts constituting the basis for such claim (a "Third Party Claim"); provided, however, that in the event a claim for indemnification arises from or in connection with legal proceedings, the City shall give such notice thereof to the Conservancy no later than ten (10) days prior to the time any response to the asserted claim is required; and, provided further, that the failure to give such reasonably prompt notice shall not release, waive or otherwise affect the Conservancy's obligation with respect thereto, except to the extent of any loss or prejudice as a result thereof. In the event a Third Party Claim arises, the Conservancy may assume the defense of such Third Party Claim if either (i) the defense of the Third Party Claim is tendered to the Conservancy by the City and within thirty (30) days thereafter such tender is accepted by the Conservancy; or (ii) within thirty (30) days after the date on which written notice of a Third Party Claim has been given to the Conservancy, the Conservancy shall acknowledge in writing to the City the Conservancy's indemnity obligations as provided in this Section. Except as authorized by the Conservancy, the City shall not, in such instances have the right to be represented by separate counsel at the expense of the Conservancy in any such contest, defense, litigation or settlement conducted by the "Conservancy. So long as the Conservancy has assumed the defense of any Third Party Claim, and is defending such claim in good faith, the Conservancy shall have the exclusive right, in its sole discretion, to settle any such claim, either before or after the initiation of litigation, at such time and on such terms as the Conservancy deems appropriate provided that such settlement does not impose any obligations on the City. If the City is entitled to indemnification against a Third Party Claim, and the Conservancy fails to assume the defense of such Third Party Claim pursuant to this Section, the City shall have the right, without prejudice to its right of indemnification hereunder, to contest, defend and litigate such Third Party Claim; provided that the City may

not settle such Third Party Claim without the prior written consent of the Conservancy, such consent not to be unreasonably withheld or delayed. The City shall cooperate and assist the Conservancy with the review, adjudication and/or settlement of all claims against the City subject to the indemnity obligations set forth in this Section.

Section 6.03 Contractual Liability Insurance

The Conservancy further agrees to maintain contractual liability insurance insuring its obligations set forth in Section 6.02, with the same limits as provided in Section 6.01 for the commercial general liability insurance policy, which policy may be endorsed to include the contractual liability insurance coverage to satisfy this requirement.

Section 6.04 Certificate of Insurance

The Conservancy shall, on the request of the City, promptly furnish a certificate evidencing the Conservancy's compliance with the insurance coverage requirements of this Article. Each certificate of insurance shall name the City as an additional insured, where permitted by law, and stipulate therein that the insurance evidenced thereby shall not be materially reduced, cancelled or not renewed unless thirty (30) days' prior written notice shall have been given to the insurer to City addressed to the persons stated in Article 8 hereof. The Conservancy shall not be required during any given one (1) year period to honor more than one such request from the City.

Section 6.05 Future Increases in Coverage

The Conservancy shall, upon the request of the City, provide additional insurance and/or increase the coverage amounts described in the preceding sections to be consistent with general insurance requirements of the City applicable to parties contracting with the City, as established from time to time by the risk management section of the City Finance Department, or successor agency fulfilling substantially the same function, provided that such insurance is commercially available. Any such increase in coverage shall be required upon expiration of the insurance policy then in effect, or one year from the date the City notifies the Conservancy of the requirement of additional or increased coverage, whichever occurs earlier.

ARTICLE 7

Default and Remedies

Section 7.01 Default, Including Failure to Maintain

If the Conservancy defaults in its obligations or breaches any of its covenants under the terms of this Agreement, the City may at any time give a written notice to the Conservancy setting forth the specific default or breach. If such default or

breach involves the Conservancy's failure (i) to discharge any lien filed against the Dequindre Cut Area for the actions or inactions of the Conservancy whether for taxes, utilities, judgments or other purposes, (ii) to maintain the Dequindre Cut Area as provided in Section 3.03 (unless such breach is caused by the City's failure to initially construct the Improvements in accordance with this Agreement), (iii) to take adequate safety measures under Section 4.07, and/or (iv) to carry the insurance required under Sections 6.01 and 6.03, and such failure is not corrected with reasonable promptness and in any event, within thirty (30) days after receipt of such notice, or if such default or breach is such that it cannot be corrected within such time and the Conservancy fails to commence the correction of such default or breach with thirty (30) days and diligently prosecutes the same to completion thereafter, then, in either such event, the City shall have the right to correct such default or breach, including the right to enter upon the Dequindre Cut Area to correct such default or breach, at the cost of the Conservancy. The Conservancy shall pay any reasonable amounts so expended, with interest, in accordance with Section 7.02 hereof; provided, however, these provisions shall be without prejudice to the Conservancy to contest the right of the City to make such repairs or expend such monies. Notwithstanding anything herein to the contrary, in the event of an emergency situation, either party, as appropriate, may, with such notice as may be possible or appropriate under the circumstances, cure any default or breach and thereafter shall be entitled to the benefits of this Section 7.01.

Section 7.02 Payment on Default

If the City is compelled or elects to pay any sum of money or do any acts that require the payment of money by reason of the Conservancy's failure or inability to perform any of the provisions of this Agreement to be performed by the Conservancy, The Conservancy shall promptly, upon demand, reimburse the City of such sums. All such sums shall bear interest at the applicable rate set forth in Michigan Compiled Laws §600.6013(8), commonly known as the money judgment interest rate, but without compounding. A determination of interest rate in effect as aforesaid shall be made on the date of expenditure and shall remain in effect until the effective date of the next determination of the money judgment interest rate.

Section 7.03 Termination of this Agreement

Any Material Breach under this Agreement that is not cured after notice and reasonable opportunity to cure if curable, shall entitle the other party to terminate, cancel and otherwise rescind this

Agreement upon ninety (90) days' notice to the other party; provided, however, this remedy shall not affect any other rights or remedies the parties may have by reason of any default under this Agreement. In the event of termination by either party the Conservancy shall offer to assign to the City all contracts held by the Conservancy executed in performing its obligations under this Agreement. The City shall have sixty (60) days to assume or reject each such contract. The City shall not be bound to accept the assignment of any contract unless it has affirmatively agreed to assume it. For purposes of this Section 7.03, a "Material Breach" shall mean the Conservancy's (i) failure to maintain its status as a non-profit corporation exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, (ii) failure to maintain the Dequindre Cut Area in accordance with Section 3.03 for a period of ninety (90) days (unless such breach is caused by the City's failure to initially construct the Improvements as required under this Agreement), (iii) abandonment of the Dequindre Cut Area or (iv) subject to the following two sentences, failure by the Conservancy to indemnify the City and/or reimburse the City for indemnified expenses within ninety (90) days. If the Conservancy contests any such indemnity obligation in good faith, the failure to indemnify or pay indemnity shall not be deemed a material breach until the indemnity obligations are determined by the appropriate tribunal. Failure to pay indemnity in the aggregate of less than Ten Thousand (\$10,000) Dollars shall not be deemed a Material Breach unless the indemnity obligation has been reduced to a court judgment.

Section 7.04 Right to Enjoin

In the event of any violation or threatened violation of any of the provisions of this Agreement, either party shall have the right to immediately apply to a court of competent jurisdiction for an injunction against such violation or threatened violation, and/or for a decree of specific performance.

Section 7.05 Waiver of Default

A waiver of any default by a party must be in writing and no such waiver shall be implied from any omission by a party to take any action in respect of such default. No express written waiver of any default shall affect any default or cover any period of time other than the default and period of time specified in such express waiver. One or more written waivers of any default in the performance of any provision of this Agreement shall not be deemed to be a waiver of any subsequent default in the performance of the same provision or any other term or provision contained herein. The consent or approval by a party to or of any act or request by another party requiring consent or

approval shall or be deemed to waive or render unnecessary the consent or approval to or of any subsequent similar acts or requests. Unless expressly herein provided to the contrary, the rights and remedies given to a party by this Agreement shall be deemed to be cumulative and no one of such rights and remedies shall be exclusive of any of the others, or of any other right or remedy at law or in equity which a party might otherwise have by virtue of a default under this Agreement, and the exercise of one such right or remedy by a party shall not impair such party's standing to exercise any other right or remedy.

ARTICLE 8

Honorable City Council:

Re: Petition No. 482 — Dickerson Wright, PLLC — MGM Grand Detroit, LLC ("MGM"), for approval of the dedica-

tion of land for the widening of Third Avenue, and Bagley Avenue.

Petition No. 482 of "Dickerson Wright, PLLC — MGM Grand Detroit, LLC ("MGM")", request City Council to accept the dedication of private land for the widening of Third Avenue, 60 feet wide, between Bagley Avenue and the Fisher Freeway. Also Bagley Avenue, 90 feet wide, between Third Avenue 60 feet wide, and Fourth Avenue, 50 feet wide, (vacated on 5-7-03). The widening of the public rights-or-way is to facilitate vehicular access to and from the Permanent MGM Grand Detroit Hotel and Casino Complex.

The City Engineering Division—DPW/ Street Design Bureau and the Traffic Engineering Division of DPW approved the request. The petition was referred to the City Engineering Division—DPW for investigation (utility review) and report. This is our report.

City Council is requested to accept the deed and widening of Third Avenue and Bagley Avenue for public purposes; provided said property complies with the requirements of Detroit codes and ordinance No. 29-94; Detroit Code Sections 2-1-11 through 2-1-15 also known as the "Environmental Review Guidelines", and that the fee owner submit a properly executed "warranty" deed; proof of lien-free ownership; proof of paid Wayne County Taxes and proof of paid Detroit property taxes. The new public widening must be constructed to City Engineering Division — DPW specifications.

All other city departments and privately owned utility companies have no objections to the requested widening of the public rights-of-way.

An appropriate resolution is attached for consideration by your Honorable Body.

Respectfully submitted,
NADIM HAIDAR
Acting Head Engineer

Honorable City Council:
 Re: Petition No. 4118 (*addendum*). Detroit Entertainment, L.L.C. ("MotorCity Casino — Expansion Site") Requesting easements for

subsurface (underground) footings surrounding the MotorCity Casino — New Continental Building in the area bounded by Brooklyn, Lodge Expressway, Spruce and Temple.

On April 7, 2006 City Council approved Petition No. 4118 of Detroit Entertainment, L.L.C. ("MotorCity Casino — Expansion Site"). That approved petition requested one street and four alleys to vacation, a public access easement to vacation, two overhead walkways and a vehicular bridge crossing city rights-of-way, and easements for building façade projections in the area bounded by

Trumbull, Elm, Grand River, Lodge Expressway and Spruce.

The City Engineering Division — DPW received design drawings showing underground (subsurface) footings for the planned MotorCity Casino — New Continental Building. The footings will extend into the eastern margin of Brooklyn Avenue, the western margin of John C. Lodge Expressway Service Drive, and two public alleys (vacated, but reserving DWSD sewer provisions). Therefore, said Petition No. 4118, requires an *addendum* to include underground “easement(s) for permissible building street projection purposes”.

The resolution delineates by land description (relationship to property lines) the horizontal position of each underground footing, which will extend into various rights-of-way. Vertically, the footings are positioned between City of Detroit elevation 124.7 and City of Detroit elevation 128.7.

We obtained reports from DTE-Edison, DTE-MichCon Gas and the Water and Sewerage Department. The privately-owned utilities and the city departments state no objections to the MotorCity Casino — New Continental Building plan.

The western margin of the John C. Lodge Expressway (limited access right-of-way) Service Drive, is under the jurisdiction of the Michigan Department of Transportation (M-DOT). “Detroit Entertainment L.L.C.” must make application to M-DOT for grants of underground easements at this location. However, the resolution *recommends* to M-DOT the granting of three-dimensional easements for permissible subsurface building street projection purposes.

I am recommending adoption of the attached resolution.

Respectfully submitted,
NADIM HAIDAR

By Council Member Collins:

Whereas, On April 7, 2006 City Council approved Petition No. 4118 of Detroit Entertainment, L.L.C. (“MotorCity Casino — Expansion Site”). That approved petition requested one street and four alleys to vacation, a public access easement to vacation, two overhead walkways and a vehicular bridge crossing city rights-of-way, and easements for building façade projections in the area bounded by Trumbull, Elm, Grand River, Lodge Expressway and Spruce; and

Lodge Expressway Service Drive, and two public alleys (vacated, but reserving DWSD sewer provisions). Therefore, said Petition No. 4118, requires an *addendum* to include underground “easement(s) for permissible *BUILDING STREET PROJECTION* purposes”; and

Whereas, The previously approved Petition No. 4118 resolution listed easement sections as follows:

MotorCity Casino Building
[Section A] ground level, and [Section B] above ground level; also
MotorCity Continental Buildings
[Section C] ground level, and [Section D] above ground level; and

Whereas, The requested easement section (addendum to Petition No. 4118) is identified in this *addendum* resolution as follows:

MotorCity — New Continental Building
[Section E] underground (subsurface) footings;

NOTES: In “Section E” of this (addendum to Petition No. 4118) resolution “easement(s) for permissible *BUILDING STREET PROJECTION* purposes” means a non-possessing interest — delimited elevations in city datum [under ground level (meaning below surface-grade)] — within public lands, street and alley rights-of-way, to expand, construct and maintain parts of subsurface footings for the planned MotorCity Casino — New Continental Building. Vertically, the footings are positioned between City of Detroit elevation 124.7 and City of Detroit elevation 128.7. The horizontal position is shown in the table below in this resolution. When this specific purpose is extinguished (meaning if the MotorCity Casino — New Continental Building is razed by its land title holders) the public lands, street rights-of-way, revert back to their full height(s), widths, depth(s) [defined by city and state records] free of MotorCity Casino — New Continental Building — burden(s) or easement(s); therefore be it

Resolved, The City Engineering Division — DPW is hereby authorized and directed to sign-off on building permits (issued by Buildings and Safety Engineering Department; (in conjunction with the Water and Sewerage Department [DWSD]) to the “Detroit Entertainment L.L.C.” to place and maintain the following underground footings related to the “MotorCity” Casino — New Continental Building” [addendum to Petition No. 4118]:

PETITION NO. 4118 Addendum

On April 07, 2006 City Council approved Petition No. 4118 of Detroit Entertainment, L.L.C. ("MotorCity Casino --Expansion Site"). That approved petition requested one street and four alleys to vacation, a public access easement to vacation, two overhead walkways and a vehicular bridge crossing city rights-of-way, and easements for building facade projections in the area bounded by Trumbull, Elm, Grand River, Lodge Expressway and Spruce.

City Engineering Division --DPW received design drawings showing underground (subsurface) footings for the planned MotorCity Casino --New Continental Building. The footings will extend into the eastern margin of Brooklyn Avenue, the western margin of John C. Lodge Expressway Service Drive, and two public alleys (vacated, but reserving DWSO sewer provisions), therefore, said Petition No. 4118, requires an addendum to include underground "easement (s) for permissible BUILDING STREET PROJECTION purposes".

Vertically, the footings are positioned between City of Detroit elevation 124.7 and City of Detroit elevation 128.7. The horizontal position is shown in the table.

On April 07, 2006 City Council approved Petition No. 4118 of Detroit Entertainment, L.L.C. ("MotorCity Casino --Expansion Site"). That approved petition requested one street and four alleys to vacation, a public access easement to vacation, two overhead walkways and a vehicular bridge crossing city rights-of-way, and easements for building façade projections in the area bounded by Trumbull, Elm, Grand River, Lodge Expressway and Spruce.

City Engineering Division --DPW received design drawings showing underground (subsurface) footings for the planned MotorCity Casino --New Continental Building. The footings will extend into the eastern margin of Brooklyn Avenue, the western margin of John C. Lodge Expressway Service Drive, and two public alleys (vacated, but reserving DWSD sewer provisions). Therefore, said Petition No. 4118, requires an addendum to include underground "easement(s) for permissible BUILDING STREET PROJECTION purposes".

Vertically, the footings are positioned between City of Detroit elevation 124.7 and City of Detroit elevation 128.7. The horizontal position is shown in the table above.
