Honorable City Council:

Re: Establishment of the Cadillac Limited Neighborhood Enterprise Zone.

Attached for your consideration please find a resolution and legal description which will establish the Cadillac Residences Ltd Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992 ("the Act").

Your Honorable Body conducted a public hearing on this matter on March 28, 2006 as required by the Act. No impediments to the establishment of the NEZ were presented at the public hearing.

As you may recall the Cadillac Residences Ltd proposes to invest \$16 million to convert former hotel rooms into 67 new condominiums at the Book Cadillac hotel.

The Act requires that at least 60 days must pass from the date of the notice of the public hearing to the date of your formal approval of a resolution establishing the NEZ. We request that you approve the resolution at your next regular formal session .

Respectfully submitted,
DOUGLASS J. DIGGS
Director

By Council Member Jones:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from *ad valorem* taxes, and the imposition of a specific property tax in lieu of *ad valorem* real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the establishment of the Cadillac Residences Ltd NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has

enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

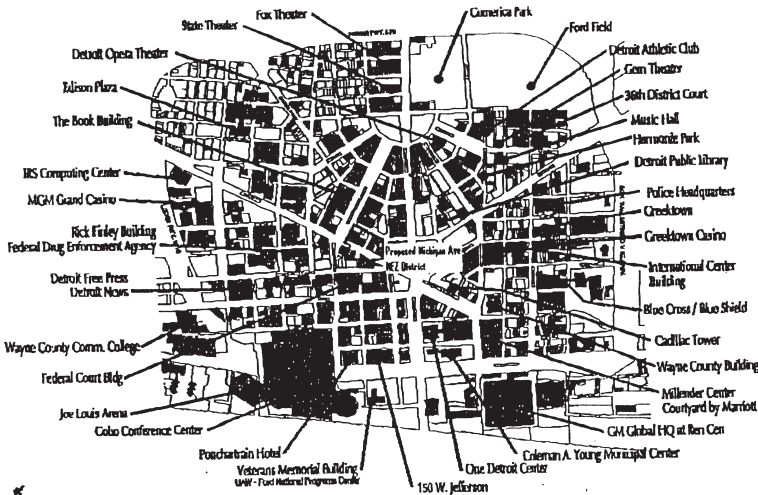

Whereas, A public hearing on the issue

of establishing the Cadillac Residences Ltd NEZ was conducted before the Detroit City Council on March 27, 2006, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the establishment of the Cadillac Residences Ltd NEZ where cited;

Now Therefore Be It

Resolved, That the land area described in the attached legal description, and shown on the attached map, is hereby established as the Cadillac Residences Ltd NEZ pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

Re: Correction of Legal Entity. Development: 4811 Martin.

On June 8, 2005, (Detroit Legal News, Page 14), your Honorable Body authorized the acceptance of the above-captioned property from the Detroit Public Schools of the City of Detroit to the Planning and Development Department and the subsequent conveyance of this property to Delray Non-Profit Housing Corporation, a Michigan Non-Profit Corporation, for the purpose of constructing approximately thirty-six (36) single-family homes with attached garages.

Honorable City Council:

Re: Petition #174 — Small Plates Detroit, requesting Outdoor Café Service Extension at 1521 Broadway and renewable annually thereafter.

The above named petitioner has requested permission to have Outdoor Café Service extended from March 1 to December 31 annually. This request if supported would be a change from the current operating hours/months and would alter the Outdoor Café Guidelines and Provisions currently in our Resolution.

Generally, Outdoor Cafes are permitted under Ordinance 214-G, which amends Chapter 58, Article 2 of the Detroit Code. Subsequently, Outdoor Café Guidelines were developed to ensure conformity with the City law and procedures. These guidelines stipulate the following:

Operating Hour/Months — Outdoor Cafés may transact business only during the hours of 7:00 A.M. through 1:00 A.M. Outdoor Cafés may operate only in the months of April through November. Operation during the months of December through March shall require the Outdoor Café area be enclosed and heated in conformance with materials and heating fixtures approved by the Buildings and Safety Engineering Department. During the months of non-operation, all moveable Outdoor Café equipment shall be removed from the public right-of-way and placed in storage.

The Planning and Development Department (P&DD), acting as the coordinating agency for such request, is in the process of soliciting the necessary input from the City Departments involved. We feel that the impacted departments need to reach same consensus on whether the extension of Outdoor Café service into the December to March period of the year is a good idea. Furthermore, if we support this request, we need to agree on the guidelines to be imposed upon the applicant by the City. A complete report of our recommendation pertaining to this request will be submitted to your Honorable Body under a separate cover, at a later date.

Due to time constraints, P&DD recommends that Small Plates Detroit, be afforded with a permit to operate in the regular period of April through November.

Attached herewith is the Resolution that will enable the City Council to take the formal action.

Respectfully submitted,
DOUGLASS J. DIGGS
Director of Planning and

Planning & Development Department

April 11, 2006

Honorable City Council:

Re: Surplus Property Sales.

The Planning and Development Department is in receipt of a proposal from National Faith HomeBuyers, a Michigan Non-Profit Corporation, to purchase and rehabilitate the following five (5) City-Owned Single-Family Residential properties that have been determined to be a nuisance to the neighborhood, for the sale price of One Thousand and 00/100 Dollars (\$1,000) per property.

14210 Greenlawn, 3717 Nottingham, 5035 Seminole, 11680 Indiana, 18900 Pierson.

As your Honorable Body knows, when residential structures remain vacant, abandoned and open to the elements,

they frequently become public nuisances and hazardous to the health, safety and welfare of city residents. Conversely, if such properties can be rehabilitated in a timely manner, the City can save housing stock, avoid the cost of demolition, and increase the City's tax base. Accordingly, our department is open to viable proposals to rehabilitate vacant housing. In many cases, however, a prospective purchaser of a vacant home lacks the experience, financial resources, or construction expertise to provide adequate assurance that the rehabilitation will be completed in a prompt and thorough manner.

National Faith HomeBuyers has submitted a proposal entitled the "Friendly Neighbor" program that addresses these issues. National Faith HomeBuyers is a 501c(3) organization with a substantial experience in renovating homes and placing families in homes. National Faith HomeBuyers will acquire the 5 homes, rehabilitate them up to code, and sell them to graduates of its comprehensive homebuyer training program. The training consists of, but is not limited to, helping participants understand property tax bills, refinancing, cost effective decorating, and home repairs. National Faith HomeBuyers is also a HUD-approved nonprofit credit counseling organization, and thus has the experience to assist the purchasers with credit counseling to ensure that they are financially prepared for home ownership. National Faith HomeBuyers has a proven track record of obtaining down payment assistance for families that complete its training program. National Faith HomeBuyers has assisted approximately 600 families in purchasing homes in the Metropolitan Detroit area and has administered and provided approximately \$2.6 million in down payment assistance for families in Wayne County.

We propose to initiate the "Friendly Neighbor" program with National Faith HomeBuyers on a pilot basis for the five properties described above. National Faith HomeBuyers has performed a cost-estimate for the rehabilitation of these properties, and has determined that the rehabilitation costs far exceed the established sales price stated by the Planning and Development Department, and on balance is likely to approach, if not exceed, the value of the homes when rehabilitated. In calculating the value of each property, the Planning and Development Department has taken into consideration the following benefits that would be realized by the City:

- The pilot program is designed to revitalize neighborhoods with the City working hand in hand with National Faith HomeBuyers toward that effort.
- Saving the City the cost of demolition.
- Increased tax-base for the City.

- Savings to the City on maintenance and management of the properties.
- Savings to the City from abatement of potential ownership liability.
- Reduction in the number of unsafe dwellings in the City.

Accordingly, the parties have agreed that a sales price of \$1000 per property is a full and fair exchange of value for value. This negotiated price is substantial enough to provide assurance to the City that rehabilitation of the properties will be diligently pursued, while low enough to fairly reflect the condition of the properties.

We therefore, respectfully request your Honorable Body approval of the attached resolution, authorizing the Planning and Development Department Director or his authorized designee to accept the offer from National Faith HomeBuyers, a Michigan Non-Profit Corporation to acquire and rehabilitate the five designated parcels pursuant to a pilot program called the "Friendly Neighbor Program," and to issue Quit Claim Deeds for the sale price of \$1000, plus an \$18.00 deed recording fee for each house on a cash basis.

Respectfully submitted,
DOUGLASS J. DIGGS

Director

By Council Member Tinsley-Talabi:

(All resolutions and/or ordinances except Resolutions of Testimonial or In Memoriam, are generally in the name of the Council Member who was chairperson of the day of the City Council Committee of the Whole Meeting on which the resolution was introduced.)

Mayor Kwame M. Kilpatrick, presented to City Council the following 2006-07 Budget for the City of Detroit.

Mayor's Office

April 12, 2006

Honorable City Council:

I am here to present to you the City of Detroit budget for the 2006-2007 fiscal year.

When I came before you last year at this time, there was a lot of talk in the newspapers and elsewhere in this city about the "R" word — receivership.

At that time, I told you that if we did nothing, we would face a \$300 million shortfall in revenues. Many Detroiters continue to ask me if we still have a \$300 million problem. The answer is, "No, we don't."

That's because we did something. We moved forward with a number of initiatives to bring what we spend in line with what we take in.

In fact, for the past four years we have continually implemented efficiencies and made cuts in city operations to bring our budget into balance. When we look at where we are today and compare that to where we were four years ago, the results are dramatic. Those who would have you believe that we have done nothing to bring our budget into balance simply have not been paying attention.

Major reductions achieved

Let me review for you some of the dramatic savings and reorganizations we have achieved in the past four years:

- We have eliminated more than 5,500 jobs from city government, reducing the overall work force by 25.9 percent and the General Fund work forced by 39 percent. Four years ago, the City of Detroit had

more than 20,000 employees. Today, we have fewer than 15,000 employees.

- We have reduced our gross payroll costs by \$272 million.
- We have laid off 2,400 workers, including police officers and fire fighters.
- We have reduced professional and contractual services city-wide by nearly 24 percent, or \$22 million.
- We have completely reorganized our Police Department.
- We have closed fire stations.
- We have spun off the Detroit Zoo.
- We have spun off the Detroit Historical Museum.
- We reduced the size of our general assigned vehicle fleet by more than 225 vehicles and the use of cell phones so sharply that we have achieved an annual combined savings of \$2 million.
- We have cut General Fund subsidies by \$48 million per year to city enterprise agencies such as the People Mover, the Detroit Zoo and the Detroit Historical Museum, the Parking Department and City Airport.
- We saved \$20 million per year by issuing pension obligation certificates last year.
- We anticipated the rise in natural gas prices early last fall, purchasing and stockpiling supplies of natural gas; in addition we hedged future fuel purchases to lock in lower prices.

These are just some of the reasons Detroit's city government today is leaner than it has been in the memory of anyone alive.

Dealing with structural costs

But we can't just keep laying people off if we want to maintain the core services our citizens deserve and have a right to expect. We can't just keep laying people off if we want Detroit to thrive in the 21st Century. We must dig into some of the structural costs that are built into our budget and bring them under control.

There are six specific areas with substantial structural costs that can, and must, be brought into line: the Department of Public Works, the Detroit Department of Transportation, the Public Lighting Department, the Greater Detroit Resources Recovery Authority and our biggest structural problems — pension and health insurance costs.

We have to rethink the way we operate in each area. We have to become more efficient. We have to bring our employees costs in line with what we can afford and in line with changes occurring in other parts of our economy in the 21st Century. And we have to take steps to assure that earmarked revenues we raise actually cover the costs they are supposed to cover.

A balanced budget

The budget I am presenting to you today does all those things.

To start with, it is a balanced budget. But it is balanced in a way that provides for a level of city services that we need if we are to realize the promise of the Next Detroit at the beginning of the 21st Century. As we prepared this budget, we focused on more than just the coming fiscal year. Based on current economic projections, this budget paves the way for balanced budgets for the next five years.

Those balanced budgets, combined with additional revenues we will realize in four years when we retire some major debt, means we will be in a position where we can actually start carefully and prudently growing and enhancing services as needed. After the past four years of deep cuts, I think you will agree that is very good news.

That plan for a string of balanced budgets is one reason this city is poised for a rebirth. We are poised to create the Next Detroit. For that to happen, city government must be a part of the process, not an anchor holding back progress. This budget makes us part of the process of growth.

Signs of rebirth and growth

Let me give you a few examples of why we can see the Next Detroit on the horizon:

- Last year, for the first time in decades, Detroit led our region in new housing starts. This year, we will more than double that pace and break ground for more than 2,400 new units.
- Our downtown office occupancy in class "A" buildings has been raised to more than 90 percent. And nearly 500,000 square feet of additional office space is under construction downtown with three-fourths of that pre-leased.
- Our entertainment industry is growing. We saw 33 new restaurants open in the last year and our casinos are spending well over \$1 billion to create three permanent facilities that will include 1,200 new hotel rooms downtown.
- Our east riverfront is bustling with activity. Construction continues on the riverwalk, the cement silos are coming down and new residential, office and public space is on the drawing boards.
- Housing prices have risen 46 percent in Detroit in the last four years, compared to 27 percent nationally and 26 percent in the State of Michigan.

There are many more signs of the Next Detroit, but this is a budget message, not a State of the City. I single these out only to make the point that it is critical that we in city government make the decisions necessary to assure that Detroit's government in the 21st Century is as state-of-the-art as the exciting growth and development we see around us.

New initiatives to streamline government

You will see in this budget new initia-

tives to streamline existing city services such as building maintenance and security that now are spread out among different agencies in a very inefficient pattern.

You will see in this budget a reflection of labor and management working together to get cost reductions in health care and other costs that have become badly out of sync with the world around us.

You will see in this budget an initiative to bring the cost of delivering trash pickup services in line with the revenues needed to support that service.

You will not see in this budget "if-come" items like the kind we put in the budget for the current year such as moving towards spin-offs of the Zoo and Historical Departments. We eventually got those done. But it took us almost until the end of the budget year to get them done. This budget is not dependent on "if-come" items that will take the year to work out.

You will not see substantial additional layoffs, either. This budget envisions only 77 layoffs in total, with largest number in any department being 11 layoffs at Cobo Hall.

The initiatives in this budget are all designed to improve our services to our citizens. The past four years, frankly, have been a continual rush to battle when it came to dealing with our budget. We faced soaring deficits, with huge gaps every year beginning the day we walked into the job. Every year we had to struggle to balance our budget.

Our challenge today is to change the structure of city government to produce the quality city services that people deserve and want while continuing to drive down costs to the citizens. We want to lower property taxes. We want to get back to reducing our city income tax, which already has been reduced to 2.5 percent for residents and 1.25 percent for non-residents. We want to make our departments more effective and more efficient. This budget is designed to move us in that direction.

Working together

Before I get into the highlights, I also want to speak personally to each member of this Honorable Body. Today is the beginning of the process where we will work together to produce a new budget for the 2006-2007 fiscal year.

I will be reaching out to each of you throughout this process. Following my message today my office will be in touch with each of you to schedule an individual meeting between you and me and key members of our budget and finance staff. Our goal will be to answer your questions and share whatever information you desire.

I also want the people of Detroit to know that we will be going out and having budget meetings throughout the City of Detroit in the coming weeks just as we

went out into the neighborhoods for conversations last year.

I am determined to make this process work for this Honorable Body, this City and the people of this City. I am determined to give Detroiters the modern, efficient and effective government they have a right to expect at the beginning of the 21st Century.

Trash collection

No issue has received more attention in recent weeks than the issue of trash collection. In the current fiscal year we eliminated monthly, curbside bulk trash pickup in the City of Detroit, saving approximately \$20 million for our general fund — the equivalent of about 250 police officers. I made that choice in the belief that most Detroiters would rather eliminate bulk pickup than lay off an additional 250 police officers.

In my State of the City message, I mentioned trash collection and disposal as one of the services that we needed to review to determine how it should be delivered and whether it required city employees to deliver it. We followed that up by contacting private contractors and looking at their pricing compared to our current costs. We found that for us, at this point in time, it didn't make cents — that's c-e-n-t-s.

Today, switching to a private contractor would not produce a savings in cost or a greater service than what we have now. It may be that in 2009, when the bonds expire on the Greater Detroit Resource Recovery Authority facility, the picture will change. But for now, the financially prudent decision is that trash collection should remain a city service delivered by city employees.

At the same time, we must change the way we pay for trash collection and disposal. Since 1976 Detroiters have paid a three-mill property tax that is earmarked for trash collection and disposal. This year those three mills raised \$28 million. Unfortunately, it costs us a little more than \$100 million a year to actually collect and dispose of trash in the City of Detroit, even after the elimination of bulk trash. That's about \$75 million in general fund revenue that is required to cover the additional cost — the cost of nearly 1,000 police officers.

Other communities, both in our immediate area and around the nation, who have faced a similar dilemma have gone to a "fee for service" approach to cover the cost of trash removal. That means charging a separate fee to cover the actual cost of the service being delivered. The City of Atlanta, Georgia has done this. Our neighboring community of Southfield has done this. Other communities have done this.

This budget calls for a residential trash collection fee of \$75 per quarter, or \$25 per month, per household to help finance

the cost of trash collection in Detroit. The fee will be billed and paid quarterly. There will be provisions for a 30 percent reduction in the fee for qualifying senior citizens and other limited income households. Our calculation is that 70 percent of seniors will qualify for the discount. The three-mill trash collection levy will be eliminated from your property tax bill. That lowering of the property tax will help produce an increase in property values in the city.

Even this quarterly fee will not fully cover the cost of trash collection and disposal. Our calculation is that with 280,000 households in this city, after allowing for discounts for seniors and delinquencies, it will raise \$67 million per year. That's a net of almost \$40 million more than the three mills currently being levied. While it won't cover the full cost of trash disposal, it will provide desperately needed additional funding tied directly to this specific service that will free up \$40 million in General Fund revenues to go elsewhere.

I recognize that there will be considerable debate over this proposal. I have given it very thoughtful consideration as we formulated our plan. It grows out of the reality that if we are going to maintain a basic level of city services and if we are going to live within our means, like every Detroit household what we spend must match what we take in. This is one area where the revenue stream originally developed to cover the cost — the three-mill property tax — long ago stopped being enough to cover the cost of the service it was intended to pay for.

I urge your Honorable Body to give this very careful consideration before you reach any conclusions. We stand ready to provide you all of the information that we have pulled together as we have formulated this plan.

Controlling illegal dumping

This budget also includes an aggressive effort to clean up and bring an end to the illegal dumping of trash that plagues our neighborhoods. I understand and share the concern of Detroiters that there is too much dumping in our city, in our neighborhoods and in our right of ways.

I've heard the suggestion of some that the end of bulk trash pickup has somehow worsened the problem of illegal dumping in Detroit. I would remind you of two things. The first is that this is Michigan, and every year this is the dirtiest time of the year throughout the state as winter departs and spring arrives. That is why we have spring cleaning.

Secondly, you may remember that last year in April, when we still had bulk trash pickup, we had more bulk trash piling up than ever. We had to call in special contractors to come clean up the City of Detroit. So illegal dumping and the accumulation of trash was a problem even with bulk pickup.

Instead of going back to bulk pickup, we need to aggressively target those who trash our city by illegally dumping in our city. This budget creates 33 additional positions in the Department of Public Works to be devoted to a full-time program to clean up illegal dump sites. Our expectation is that most if not all of those 33 positions will be filled by calling back laid off DPW workers. We also are linking our 311 call-in system with DPW so that citizens who see illegal dumping can report it immediately to a single location.

With a specific operation targeted solely to illegal dump sites, we will be able to clean them up much more efficiently. Today we have a backlog of more than 300 illegal dump sites that need to be cleaned up. This new task force will enable us to attack that problem. Part of the problem with these illegal dump sites is that we let them stay there too long because we don't have the resources within our department now to pick it up. Once a pile is there, sometimes even good people do bad by throwing trash on top of an existing pile. We must get rid of the illegal dump sites now.

As your Mayor, I pledge that we will clean up this illegal dumping situation. We are going to begin this effort to clean up our city in the month of May with our 2006 Motor City Makeover. But I need your help. We are asking all of our neighborhoods to participate. We are asking all of our businesses to participate. We are asking all of our citizens to participate. We want to scour this city clean.

Then, we are going to coordinate our Code Enforcement Task Force with DPW to step up enforcement actions against those who dump illegally in our city.

Starting June 1st, we are coming with the most aggressive code enforcement and anti-illegal dumping effort ever. Those who dump illegally show their contempt for Detroit and the people of Detroit. Illegal dumping is a crime. We will treat violators accordingly. There will be visible signs, there will be an intense public information effort and there also will be sting operations with media partners to help us catch, draw attention to and punish those who are illegally dumping.

As a unified community we must all be committed to keeping our city clean. We cannot and we will not bring back or create any initiative that promotes citizens putting trash out on our streets that is not in a Courville container. Putting trash on the curb is not the answer. Picking up the trash in our right-of-ways and in our communities and in our vacant lots is the answer.

The only way we can afford to do all this is to move, as other communities have, from a millage-based system to a fee-based system, with a fee that is earmarked to pay for the specific service. So

I urge you to carefully consider this plan to clean up our city and to help fund that clean up with a fee targeted specifically for that purpose.

General Services Department

A key part of our plan to cut costs and make our operations more efficient is the creation of a General Services Department for the City of Detroit. This department will manage functions such as security services, janitorial services and inventory management throughout city government.

The General Services Department will be the maintenance department for all of our city buildings and property, will coordinate security services for all city facilities and will consolidate our inventory management into one system.

We have completed a city-wide review of these functions and found that we are extremely inefficient in all of them. One of our most inefficient areas is inventory management. We found we have more than 100 different contracts for purchasing a wide variety of parts with 66 different vendors. We found no effort to coordinate or leverage those contracts to provide savings for the City.

The Fire Department literally still has a manual system where people write on a piece of paper what they have in inventory. Consolidating our inventory control will put all of these activities together under the direction of individuals who actually have an expertise in inventory systems.

We also found that we are spending far too much money on security and janitorial services. We have 15 or 16 different security contracts, all with different rates, in different city departments. The same is true for janitorial services — we have contracts with a lot of different companies at a lot of different rates. The new General Services Department will enable us manage these contracts in a much more efficient and effective manner.

We anticipate a savings in the first year of some \$1.7 million from consolidating and managing inventory and contracts and an additional savings of \$2.9 million through attrition as workers retire or resign and do not need to be replaced because of our increased efficiency.

Human Resources Management System

One of the ways to become more efficient is to assure that we have up to date technology in place to help us manage basic city services.

Our current payroll system is 29 years old. In technological terms, that is prehistoric. The system is totally incapable of meeting our needs in 2006. It has no time capture component. We don't know how long people work in city government. We don't know when they go to lunch. We don't know when they go on vacation sometimes.

We must make sure we better manage our time and our costs within those systems. Last year I proposed, and Council approved, \$25 million for a new Human Resource Management System. The new system will make sure we are capturing the time of our employees, capturing the proper cost of employees, paying people what they deserve and operating a modern 21st Century payroll system. It will more than pay for itself through the efficiencies it will enable us to achieve. We purchased and are implementing that system through financing from GE Capital. This budget includes \$7.4 million to service that debt.

Police officer recalls

Last fall when we announced that we were laying off 150 police officers, I said that most or all of them would be back within a year. Today I am announcing that the chief is sending out the first callback letters this week to 30 officers who have been laid off. By June 30 of this year we expect to have called back a total of 100 of the laid off officers to fill vacancies created by retirements.

Once all of those who were laid off have been called back, we will begin recalling the student police officers who were in the Training Academy last year we had to lay them off. We have cut our department back as far as we can prudently cut. As vacancies occur, we will continue to fill them.

10 percent pay cut

Last year's budget also included a one year, 10 percent pay cut for all city employees. I voluntarily took the cut immediately in March. So did all of my appointees. Our city non-union employees took the cut beginning July 1.

Earlier this year, the Public Attorneys Association, representing the attorneys in the law department, became the first bargaining unit to accept the 10 percent pay reduction for one year as well as changes in health care benefits. I want to publicly thank union President Phil Brown and the PAA for taking a leadership role in this effort. We are still seeking to secure that reduction from our other bargaining units and have budgeted the reduction from July 1st through June 30th.

Since my appointed staff took their one year cut beginning last March, the 10 percent cut will end for them in May 1. Our non-union workers will revert back to their original salaries August 1st. As other bargaining units agree to the 10 percent cut, each agreement will last only one year.

I've always said I wouldn't ask anybody to do anything I wouldn't do. While my year is up as well, to show my commitment to this cut, I will continue to voluntarily take the 10 percent reduction until everybody else's cut has expired and every city employee is back to full salary.

Transportation

As many of you know, our DDOT system is the only one of the 24 largest transit systems in the nation that does not charge a fee for physically disabled riders. New York, Chicago, Philadelphia, Boston, San Francisco, Portland, Oregon and all the other systems charge a fee. The suburban SMART system charges a fee for physically disabled riders. The fare helps cover the cost of the service to the individual. It also recognizes that being physically disabled does not in and of itself mean an individual is financially disabled.

In most systems, the fare is set at one-half of the full fare. That is what this budget proposes — a fare of 75 cents for disabled riders that will raise approximately \$3 million annually to help pay the cost of DDOT.

We have made tremendous strides in improving the quality of service to the disabled and to all riders on the DDOT system over the past year. Our ridership in January, February and March of this year was up a total of 1.5 million riders over the same three months of 2005, a clear indication that people are finding the system more reliable and are using it. This modest fare is an equitable way to raise additional funds to help fund a system that will still require \$75 million from our General Fund this year.

Let me be clear, seniors will still ride free. The new fare will be paid only by disabled riders.

We also have to start working toward developing an effective regional transportation system if we are to move this city and this region forward.

It is absurd that we have the SMART system with more than 400 buses and the DDOT system with more than 400 buses and yet people are still waiting for buses. We need a cooperative regional operating agreement. We need to make regional transportation a reality in this city and this region.

The simplest problem to solve should be bus service. But we need to focus on more than just bus service. We need to be talking about rail — high-speed rail; center city loops; getting from the airport to the central business district. I am committed to solving that problem this year. It's not in this budget, but there will be teams aggressively working on this. As we make progress, we will keep this Honorable Body up to date on our progress.

Property sales

This budget also anticipates \$30 million from property sales, a reduction from this year's budget. Those of you who were here last year will remember that when I proposed \$40 million in revenue from property sales, some members of this body were skeptical. Some members said

that it would never be attained, that we would never get anywhere near that amount because it had never been done before. I am pleased to inform you that to date, we have sold or have commitments to purchase \$36 million in property.

This year we are developing whole new strategies, including bundling of properties as well as looking at the assets of city government that can be sold and placed back on the tax roles.

Recreation Centers

We are pursuing two strategies at the same time for these recreation centers that the city must close. For some we will partner with non-profit organizations and churches to take over the recreation responsibility at a center. The center will remain a city owned facility, but our partner organizations will keep it open for the community and bring their constituency base to some of these centers that otherwise would be left empty.

The other is to sell a few of our recreation centers to private developers who will actually put them back on the tax roles. We will be delivering a plan to you this year that includes the sale of everything from recreation centers to land near golf courses for new housing. For instance, at River Rouge Park we have four parcels that developers want to build houses on around the golf course, creating a golf course community. The result will be more new housing in Detroit, a vibrant new community in Detroit and new land and homes on our tax roles.

One of our ongoing problems is that we have an infrastructure that originally was designed to accommodate two million people but now have fewer than one million in the city. Proposals such as the sale of strategically selected land and closed facilities are a creative way to make good use of land that now is lying dormant and breathe new energy into our community. We are conducting a thorough review of these proposals now and will be coming back to the Council once we have a solid recommendation to put before you.

Pensions and health care

We continue to face serious challenges in trying to gain control of the cost of pensions and health care.

In the past four years, our pension costs have shot up more than 175 percent, from \$48 million to a projected \$133.6 million in the coming fiscal year.

Health care is even more costly. In the coming fiscal year alone, we project a 20% increase from the \$184 million we spent in the current year to \$218 million in 2006-2007. It would be even higher — \$48 million higher — were it not for savings that we are negotiating with our unions and that we have secured from our providers.

That projected cost includes an assumption that labor and management will successfully work together to achieve badly needed cost reductions in health care. We have been at the bargaining table with our largest civilian union — AFSCME — for the past year seeking agreement on a new Alternative Health Care Plan. The plan will increase employee co-pays to levels that reflect the realities of the workplace in this new century.

At the same time, we continue to seek an agreement to accept the one-year 10 percent pay cut that appointees, non-union workers and city attorneys already have taken. I remain confident that we will be able to achieve an agreement.

But I want you to know that if we can't reach an equitable agreement, I have the legal authority to impose our last best offer. If necessary, I will do that. I would much rather come to a meeting of the minds so we can work this out together with our unions. But I am committed to bringing these costs under control. We have been negotiating for the past year and now we are in fact-finding. One way or another, this will be resolved in time for the new budget.

I also today want to touch on two other initiatives that we will be working on over the year that you won't see reflected in this budget because we didn't want any "if-comes" items in it. But these are two areas for which we will find solutions this budget year.

Public Lighting Department

The first area is our Public Lighting Department. Clearly, we need to make the department more reliable. Public Lighting's reliability has been a frustrating problem for me and for mayors before me. With much of its infrastructure dating back to early in the last century, it has defied a solution. I can no longer tolerate our citizens and our city being in the dark. I am determined to solve this problem this year.

At the moment, we are looking into partnering with someone else to make the system more reliable. That does not necessarily mean selling the asset. It does mean reaching out for alternative solutions that we cannot do by ourselves. We are not a power company. We'll be communicating with you and the citizens of Detroit on that process as we move forward. My goal is for the lights to be on. My pledge to you is that they will be on and we will have a solution for this community.

Greater Detroit Resources Recovery Authority

We also will be working this year to determine what the City should do when we pay off the bonds for the Greater Detroit Resource Recovery Authority in the 2008-2009 Budget Year. This budget

includes \$85 million to cover payment on the bonds, the operation of GDRRA and the land filling of the ash produced from the 800,000 tons of trash that is burned each year at the facility.

We will be looking at what it would cost to continue operating the facility compared to what it would cost to return to land filling our waste without incinerating it. That review will include determining what it would cost to keep the facility up to date, what the impact would be on the landfill market if an additional 800,000 tons of waste were inserted into the market, how customers of GDRRA would continue to receive the steam heat that it now produces and other issues. We will have a recommendation by this time next year.

To give you an idea of what paying off the GDRRA bonds means, this year's bond payment totals \$79 million. The final GDRRA bond payment, in the 2008-2009 fiscal year, will be \$46 million. Combine that with the fact that in the same year we will make the final payment of \$40 million on our fiscal stabilization bonds. That means we start the following fiscal year with an additional \$86 million right off the top. So you can see why I am convinced that if we can hold the line on spending and continue to improve our productivity and efficiency, our future holds much promise.

A thoughtful and responsible budget

As you conduct your review of this budget in the coming weeks, I believe you will find it is a thoughtful and responsible approach to setting the foundation for the Next Detroit.

It builds on the tremendous progress we made in the past four years in cutting back on our costs to bring them in line with our revenues. It provides a more realistic revenue stream to meet those basic services that we must provide for our citizens. It continues the progress we have made in modernizing a governmental structure that is still in many areas stuck in the middle of the 20th Century. And it continues the transformation of Detroit city government into an entity that will nurture the growth of the Next Detroit.

When the history of this era is written you and I will be judged on whether we had the political will to make the tough decisions and the smart decisions to put this city in a position to thrive in the 21st Century. I believe this budget meets that test. I look forward to working closely with your Honorable Body in the coming weeks as we finalize the City Budget for fiscal 2006-2007.

Thank you.

Sincerely,
KWAME M. KILPATRICK

It is anticipated that the sale will occur in May. The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

Respectfully submitted,

Whereas, Such financial benefits shall be achieved in one or more of the transactions herein authorized, which constitute part of the services contemplated by the Funding Ordinance that each Corporation agreed, if requested by the City and approved by the City Council, to

undertake as an **Additional Funding** under Section 4.01 of its 2005 Service Contract;

Whereas, The City requested and the City Council desires to approve an Additional Funding of each Corporation as provided in this Resolution;

Whereas, Each Corporation can best accomplish its Additional Funding by means of one or more new Service Contracts with the City (each, a **2006 Service Contract**);

Whereas, Each Corporation will fund its obligations under each 2006 Service Contract by means of common or separate funding trusts (each, a **Funding Trust**) and selling participation interests in certain payments to be made by the City under the particular 2006 Service Contract or 2006 Service Contracts in the form of certificates of participation (**Certificates, Certificates of Participation** or **COPs**);

Whereas, This Resolution provides that no Funding Trust shall constitute or create any "indebtedness" of the City within the meaning of The Home Rule City Act or any Michigan constitutional or other non-tax statutory or City charter limitation;

Whereas, This Resolution shall not be deemed or interpreted to affect the amount of the 2005 Subject UAAL or any benefits under either the GRS or the PFRS or other subjects of collective bargaining or Act 312 arbitration awards in meeting its financial obligations to the Retirement Systems; and

Whereas, Maintaining such actuarial integrity is an important public purpose of the City; **Now, Therefore, Be It Resolved by the City Council that:**

These payments (**Contract Payments**) consist of (i) Service Payments (described in **subsection (e), below**) and (ii) Additional Service Payments (described in **Section 2.07**).

(d) Service payments (**Service Payments**) consist of the following:

(1) Amounts to be paid in installments (**Scheduled Payments**) aggregating the amount of the particular Transaction Amount and any additional amounts permitted by **Section 2.06(a)(1)** subject to the limitations contained in **Sections 2.06(a)(2)** through (5);

(2) Amounts payable periodically (**Service Charges**) sufficient to pay periodic expenses (**Funding Costs**), incurred by a Funding Trust in funding the particular Transaction Amount and the additional amounts referred to in **paragraph (1), above** and calculated in the same manner as interest, expressed as an annual percentage (a **Funding Rate**), on the outstanding Scheduled Payments, *subject* to the limitations contained in **Section 2.06(b)**; and

(3) Such periodic amounts (**Hedge Periodic Payables**) and termination payments (**Hedge Termination Payables**) as may become payable by the Corporation in accordance with any Authorized Hedge.

(e) Each 2006 Service Contract shall permit the sale of COPs representing participation interests under the respective Funding Trust in certain components of the Service Payments of the City to be made under such 2006 Service Contract *subject* to the limitations contained in **Article IV**.

Section 2.06. Limitations on Service Payments.

(a) **Scheduled Payments**

(1) In addition to the particular Transaction Amount, the aggregate amount of Scheduled Payments in a 2006 Service Contract may include (i) amounts, not in excess of 12 percent of the particular Transaction Amount acceptable to the Finance Director, in connection with the Corporation funding such Transaction Amount through the issuance of COPs, including: Financial Facility Provider fees, Costs of Issuance, a reserve against delinquent Service Payments and Underwriters' Discount plus (ii) pre-funded Service Charges and (iii) accretions in connection with any Capital Appreciation

COPs so long as the Accreted Value of Capital Appreciation COPs does not result in such COPs having a yield-to-maturity (computed in accordance with customary municipal finance practice) that exceeds the Maximum Funding Rate.

(2) Scheduled Payments shall be paid over a period not longer than permitted by the Funding Ordinance now or as it may be hereafter amended.

(3) Scheduled Payments may be prepaid in accordance with a schedule of mandatory prepayment installments (**Sinking Fund Installments**) as determined by the Finance Director.

(4) Provider Scheduled Payments may be subject to such mandatory prepayment as required by the respective Provider (**Provider Prepayments**).

(5) Except for Sinking Fund Installments and Provider Prepayments, no Scheduled Payment shall be subject to mandatory prepayment or acceleration; *provided* that, nothing in this prohibition shall prohibit the payment of amounts necessary to purchase COPs with a mandatory or optional tender option feature.

(b) **Service Charges**

(1) No Service Charge shall be based on a Funding Rate (expressed as an annual percentage) in excess of the maximum interest rate permitted by law (the **Maximum Funding Rate**).

(2) Funding Rates may be fixed or variable (or any combination of fixed or variable) and if variable may be determined by Dutch auction, index (such as the London Interbank Offered Rate or "LIBOR") or by remarketing or any other means customarily used to determine variable rates in municipal finance (**Funding Rate Methodology**).

(3) It is not required that Service Charges for all installments of Scheduled Payments under a 2006 Service Contract be computed on the basis of one Funding Rate or under one Funding Rate Methodology. Service Charges with respect to different installments of Scheduled Payments under a 2006 Service Contract may be computed under a different Funding Rate or Funding Rate Methodology *subject* in all cases to **paragraph (b)(1)** above.

(4) Service Charges may provide for a rate or rate methodology required by a Provider (a **Provider Rate**) to compensate it for any unrepaid disbursements in respect of its Financial Facility. A Provider Rate shall not exceed the maximum rate permitted by law.

(5) Each 2006 Service Contract may provide that Funding Costs of the Corporation shall be the Provider Rate with respect to Service Payments representing unrepaid amounts in respect of the Financial Facility and that the relevant Service Charges shall be adjusted accordingly.

Section 2.07. Additional Service Payments.

Each 2006 Service Contract may provide for the following in addition to the Service Payments (**Additional Service Payments**):

(1) Periodic amounts equal to customary trustee fees and expenses to compensate each Trustee of a Funding Trust;

(2) Periodic amounts equal to customary administration and custodial fees and expenses to compensate each administrator of a 2006 Service Contract (a **Contract Administrator**);

(3) Periodic amounts equal to customary fees of remarketing agents, auction agents and broker-dealers if the Finance Director determines that it is in the best interest of the City that some or all of the COPs are of the variable rate type;

(4) Periodic amounts equal to customary fees and expenses of a Provider or Providers if the Finance Director determines that it is in the best interest of the City that some or all of the COPs have the benefit of a Financial Facility provided by any such Provider;

(5) To the extent not otherwise provided in a 2006 Service Contract, periodic amounts equal to customary fees and expenses of tender agents and holders of any escrow in connection with an Additional Funding Transaction; and

(6) Periodic amounts for the general administration of the Corporation *subject* to the limitations contained in the Funding Ordinance.

Section 2.08. Hedge Provisions.

(a) No Service Contract shall provide for Service Payments based on payments in respect of a Hedge other than any Authorized Hedge.

(b) A 2006 Service Contract shall contain provisions to the following effect if such 2006 Service Contract provides for Service Payments in respect of an Authorized Hedge:

(1) Any amount due the respective Corporation as a periodic payment of Service Charges shall be offset by any amount (a **Hedge Periodic Receivable**) received by the Trustee on behalf of such Corporation as a correlative periodic payment from the counterparty to the Hedge (the **Hedge Counterparty**) to the extent the City is otherwise current in making Service Payments.

(2) Payments of Hedge Periodic Payables and Hedge Termination Payables shall be made by the City on behalf of the respective Corporation in the amounts and on the due dates thereof.

(3) Any amount received by or on behalf of the Corporation as a termination payment from the Hedge Counterparty (a **Hedge Termination Receivable**) shall be applied as determined by the Finance Director to the financial benefit of the City to the extent the City is current in making Service Payments.

(c) A 2006 Service Contract may contain provisions permitting the Finance Director to terminate any Authorized Hedge at any time in accordance with the City's Swap Management Plan.

Section 2.09. Financial Facilities.

If the Finance Director determines that one or more Financial Facilities will result in more favorable terms to the City, the Finance Director is authorized to sign a Service Contract on behalf of the City containing provisions with respect to any such Financial Facility.

Section 2.10. Tender Transactions.

(a) A 2006 Service Contract may permit the Corporation to solicit one or more tenders of Tender Certificates through a broker-dealer acting as its tender agent.

(b) The tender price payable for any Tender Certificate tendered shall not exceed the principal amount of such Tender Certificate *plus* such fair market premium (expressed as a percentage of the principal amount of such Tender Certificate) as is necessary to purchase substantially all Tender Certificates of the same series and with the same Scheduled Payment Date (as defined in the 2005 Service Contract) at a single tender price. No Tender Certificates of the same series and with the same Scheduled Payment Date shall be purchased as a greater tender price.

(c) In addition to paying the tender price, the purchase price of any tendered Tender Certificate shall include related 2005 Service Charges accrued in respect of such Tender Certificate from the last related Index Rate Service Charge Payment Date (as defined in the 2005 Service Contract) before the date of purchase to the date of purchase *if* such purchase date is not also a related Index Rate Service Charge Payment Date.

(d) A 2006 Service Contract may also make provision for the payment of tender agent fees and expenses and fees and expenses of the holder of the escrow of the Tender Amount, determined in the same manner as if such fees and expenses were Additional Service Payments.

Section 2.11. Non-Tender Transactions.

(a) A 2006 Service Contract may permit the Corporation to engage in one or more Non-Tender Transactions by establishing an escrow for each such Non-Tender Transaction (a **Non-Tender Escrow**) to provide funds for the payment or prepayment of the particular Subject 2005 Scheduled Payments during a particular Escrow Period, together with any prepayment premium due in connection with any prepayment of such Subject 2005 Scheduled Payments and related 2005 Service Charges coming due or accrued during such Escrow Period.

(b) A 2006 Service Contract may authorize or permit funds in the Non-Tender Escrow to be used to pay some or

all 2006 Service Charges coming due or accrued during such Escrow Period.

(c) A 2006 Service Contract may also make provision for the payment of fees and expenses of the holder of the Non-Tender Escrow, determined in the same manner as if such fees and expenses were Additional Service Payments.

(d) For the avoidance of doubt, it is acknowledged that nothing in this Resolution permits or authorizes any modification of the provisions of any 2005 Service Contract.

Section 2.12. 2005 Authorized Hedges.

(a) A 2006 Service Contract may permit the Corporation to terminate, in whole or in part, one or more of the respective 2005 Authorized Hedges if the Finance Director determines that the termination of such 2005 Authorized Hedge is necessary or desirable as part of the Additional Funding Transactions.

(b) If a 2006 Service Contract permits any 2005 Authorized Hedge to be terminated, then the Finance Director may make provision in such 2006 Service Contract to apply such 2005 Hedge Termination Receivable to the reduction of the costs of the particular Additional Funding Transaction.

Section 2.13. Limitations on Funding Trusts.

(a) No Funding Trust shall constitute or create any "indebtedness" of the City within the meaning of The Home Rule City Act or any Michigan constitutional or other non-tax statutory or City charter limitation.

(b) Each Funding Trust and all Certificates of Participation issued thereunder shall contain a statement to the effect set forth in **subsection (a)** above, but it shall not be a violation thereof if a Funding Trust grants participations in the subject Service Contract or Service Payments to be made thereunder or grants a security interest in any such Service Contract or such Service Payments.

**Article III
Hedges**

Section 3.01. Express Approval.

Such instruments as are acceptable to the Finance Director as being in accordance with **Section 3.03** shall constitute a Hedge (an **Authorized Hedge**) for which the City may make Service Payments under a 2006 Service Contract. One or more Authorized Hedges are permitted for each 2006 Service Contract with Hedge Counterparties selected by the Finance Director.

Section 3.02. References to Act 34 and Swap Management Plan.

(a) The City Council recognizes that neither the Revised Municipal Finance Act, being Act 34 of the Public Acts of Michigan of 2001, as amended (**Act 34**), nor the City of Detroit, Michigan, Swap Management Plan as adopted in

November 26, 2002, as the same may be thereafter amended (the **Swap Management Plan**), is applicable to the Corporation; however, since a 2006 Service Contract will obligate the City to make payments correlative to payments made by the Corporation under an Authorized Hedge, the City has determined to generally apply criteria of Act 34 and the Swap Management Plan as a prudential matter as they relate to Authorized Hedges.

(b) The use of Act 34 and the Swap Management Plan as prudential criteria shall not make or be interpreted to make Act 34 or the Swap Management Plan applicable to the Corporation or its transactions as a matter of law.

Section 3.03. Requirements.

(a) **Counterparty.** The counterparty shall meet the applicable requirements of Act 34.

(b) **Term.** The term of the Hedge shall not extend beyond the due date of the last Scheduled Payment installment.

(c) **Notional Amount.** The notional amount shall not exceed the aggregate amount of the Scheduled Payments.

(d) **Corporation Rate.** The rate payable by the Corporation shall not exceed the Maximum Funding Rate.

(e) **Counterparty Rate.** The rate payable by the counterparty shall not unduly expose the Corporation to material basis risk in the opinion of the Finance Director.

(f) **Termination.** The termination events shall be customary for interest rate swaps of the nature of the Hedge and shall comply with the Swap Management Plan.

(g) **Compliance.** The Hedge shall conform to the requirements of Act 34 and comply with the Swap Management Plan in all material respects under the circumstances.

Section 3.04. Risk Acknowledgement.

(a) Hedges have inherent risks. Inherent risks that are generally recognized and reasonably foreseen are set forth in the Swap Management Plan as previously approved by the City Council. Any evaluation of risks necessary involves expectations and assumptions about future events, which by their nature are uncertain and may not occur as anticipated. Furthermore, unforeseen events may occur which may have material adverse effects on present expectations and assumptions. Hence, there can be no assurance that all risks, regardless of remoteness or other unforeseeability, have been evaluated.

(b) Subject to the limitations in any risk evaluation, the City Council expressly acknowledges the risks associated with each Authorized Hedge.

(c) The City Council understands that in order to prudently manage Service Charges and reduce Funding Cost volatil-

ity, a 2006 Service Contract may obligate the City to make Service Payments in respect of Hedge Periodic Payables and Hedge Termination Payables even though, due to events beyond the control of the City or the Corporation, the particular Transaction Amount is not funded.

Article IV.

Public Offering of Certificates of Participation

Section 4.01. Underwriting Agreement.

(a) Since the offering of the COPs is for the benefit of the City, the Finance Director shall make the City a party to the Underwriting Agreement by executing it in the name and on behalf of the City.

(b) The City shall not be a party to the Underwriting Agreement if it provides for compensation to underwriters in excess of one percent of the aggregate amount of Scheduled Payments (**Underwriters' Discount**) or if the original issue discount in connection with the initial public offering of the COPs exceeds the limitation contained in **subsection (c), below**.

(c) The original issue discount for any COPs shall not result in such COPs having a yield-to-maturity (computed in accordance with customary municipal finance practice) that exceeds the Maximum Funding Rate.

(d) An Underwriting Agreement may provide for liquidated damages payable by the City in the event the closing conditions required to be satisfied by either the City or the Corporation are not satisfied. If a good faith check in the amount of the liquidated damages payable by the Underwriters is required to be provided by the Representative, then such good faith check shall be payable to the order of the City.

Section 4.02. Disclosure Information.

(a) The Finance Director is authorized to prepare or cause the preparation of information relating to the City (the **City Information**) for inclusion in the Disclosure Document: to deem the City Information "final" for purposes of Rule 15c2-12 promulgated by the Securities and Exchange Commission under the Securities and Exchange Act of 1934, as amended (the **Disclosure Rule**); and to sign the City Information in the name of and on behalf of the City.

(b) The Finance Director may authorize the distribution of the City Information by the Underwriters in connection with the initial public offering of the COPs.

Section 4.03. Continuing Disclosure.

This Local Approval Notice requests City Council approval or disapproval of a request from N9NE Industries, LLC, for the issuance of a new dance permit to be held in conjunction with the transfer of a "Class C license" from Dino's Lounge, LLC, at 2896-2898 W. Grand, to 201 Michigan Avenue.

Buildings and Safety Engineering Department ("B & SE") records indicate that 201 Michigan Avenue is located in a B-5 (Major Business) zoning district and the use of this property for a Class "C" bar and cabaret was conditionally approved pursuant to B & SE Case Number 40-05 201-17 Michigan Avenue, effective June 30, 2005. Pursuant to the Detroit Zoning Ordinance, the use of this property for a Group "A" Cabaret is permitted subject to compliance with all relevant City ordinances and codes and the conditions of approval, as specified in the aforementioned B & SE approval.

Pursuant to Section 5-7-1 of the 1984 Detroit City Code, a Group "A" Cabaret business license is required for an establishment open to the public which sells or serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without dancing. Consumer Affairs Department Business License Center records indicate that N9NE Industries, LLC, has applied for a Group "A" Cabaret license for the premises at

201 Michigan Avenue. Pursuant to Chapter 30 of the 1984 Detroit City Code, N9NE Industries, LLC, and the premises will have to meet the applicable requirements of the 1984 Detroit City Code prior to the issuance of a Group "A" Cabaret business license for 201 Michigan Avenue.

After investigation and review, the Detroit Police Department Liquor License Unit ("DPD"), on behalf of the Chief of Police, has recommended the approval of the transfer of the "Class C license" and the issuance of a new dance permit to N9NE Industries, LLC, for 201 Michigan Avenue. DPD reports that there have not been any serious crimes or incidents at this location for the preceding twelve (12) months.

Upon this Body's approval of the request for the issuance of a new dance permit, in conjunction with the transfer of the "Class C license" to 201 Michigan Avenue, and the issuance of a Group "A" Cabaret business license by the Consumer Affairs Department Business License Center to N9NE Industries, the location will be approved for dancing by patrons on the premises. Pursuant to Section 916(2) of the Liquor Control Code, being MCL 436.1916(2), the issuance of a dance permit under this section does not allow topless activity in a licensed establishment.

The Law Department recommends that this matter be placed on the City Council's agenda for the approval or disapproval of the request for the issuance of a new dance permit in accordance with this Body's August 1, 2003 and July 7, 2004 resolutions and the procedures and criteria for the approval or disapproval of dance, entertainment, and topless activity permits. Attached is a proposed resolution approving the issuance of a new dance permit to N9NE Industries, LLC, for 201 Michigan Avenue.

If there are any questions or concerns, please do not hesitate to contact our office.

Respectfully submitted,
 BRENDA E. BRACEFUL

Re: Neighborhood Enterprise Zone (NEZ) Certificate for 19469 Vaughan in the Longacre NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office an application for an NEZ certificate in the Longacre NEZ. The NEZ designation for the area generally bounded by Evergreen, Pembroke, Vassar, and Kentfield was approved by the City Council on September 8, 1999. The City Planning Commission staff has reviewed this application and recommends approval.

The certificate is being requested for 19469 Vaughan. The property is located

within the NEZ boundaries described above and should be eligible for an NEZ certificate as stipulated under State Public Act 147 of 1992 as currently written.

Longacre New Hope Non-Profit Housing Corporation plans to develop a single-family house on the subject property. The home would be priced at \$127,000 according to the petitioner. The aforementioned organization has applied for the certificate at this time, although a buyer of the unit has not been identified at this time. When an owner is known, he or she can apply for the certificate. At that time, it would not be necessary for the City Council to pass another resolution.

The CPC staff recommends that the NEZ certificate for 19469 Vaughan be approved as submitted.

Re: Neighborhood Enterprise Zone (NEZ) Certificate applications for 8 units of housing to be established through the rehabilitated and conversion at 626-628 and at 636-638 E. Ferry within the Ferry Street NEZ (Recommend Approval).

The office of the City Planning Commission (CPC) has received eight applications for Neighborhood Enterprise Zone Certificates from the office of the City Clerk. Having reviewed these applications, CPC staff recommends approval of the NEZ certificates.

The properties include two structures located at 626-628 E. Ferry (Unit 1, Unit 2, Unit 3 and Unit 4) and 636-638 E. Ferry (Unit 5, Unit 6, Unit 7 and Unit 8) have been confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. In review of the year 2005 tax records for 626-628 E. Ferry we estimate a true cash value of \$24,480 for the entire property, which equals \$6,120 per proposed unit. At 636-638 E. Ferry the true cash value is estimated at \$26,010 for the entire property, which equals \$6,505 per proposed unit. These amounts are well below the maximum eligible true cash value of \$80,000.

The owner and applicant, East Ferry L.L.C., intends to conduct the necessary repairs and improvements in order to modify and repair the existing structures and convert them to four unit buildings. The estimated investment by the owner is \$30,000 per unit, which exceeds the minimum amount required for eligibility for an NEZ certificate. The estimated total investment is \$240,000. The NEZ certificate applications appear to have been submitted prior to the issuance or application for building permits to do the work presently proposed by the developer.

Honorable City Council:

Re: Petition No. 3760 — Huron Environmental, LLC, requesting to install and maintain encroachment of four (4) monitoring wells in the area of East Seven Mile Road and East Outer Drive.

Petition No. 3760 of "Huron Environmental, LLC", requests permission to install and maintain four (4) monitoring wells within East Seven Mile Road, 86 feet wide, and the east-west public

alley, 20 feet wide, vacated and converted to an easement on July 27, 1983 — JCC Pgs. 1468-75. The purpose of the bored wells is to monitor the existence or extent of soil contamination.

The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

Soil boring and monitoring wells installations are equivalent to an "open cut" in a public street or alley. Necessary permits will have to be obtained for any street or alley opening, back fill, or occupancy of the City rights-of-way to install monitoring wells.

The Public Lighting Department (PLD) has underground concrete encased ducts with high voltage lines cables in the locations where drilling is proposed. Any drilling should have a horizontal clear-

ance of three and a half feet from the conduit bank. There is an Overhead line in the alley South of Seven Mile Road. Any equipment should maintain 10 feet clearance from the PLD line and installations.

The Detroit Water and Sewerage Department (DWSD) require a minimum vertical and horizontal clearances from sewers, drains, water mains, fire hydrants, catch basins, sewer and water manholes (and any other DWSD facility) and provisions for encroachments must be followed.

The Detroit Edison Company (DTE) has no objection provided that their overhead and underground conduit systems; also a minimum clearance of three feet from any and all existing gas mains in the proposed drilling area are not disturbed.

All other city departments and privately-owned utility companies have requested that the petitioner make use of the "MISS DIG" facilities before any soil borings or permanent monitoring wells are installed in the public (street or alley) rights-of-way. Should damages to the utilities occur the petitioner shall be liable for all claims and damages to the encroaching installations.

Finally, the City Engineering Division — DPW will require "Delta Environmental Consultants Inc." to submit certified "as-built" drawings, a map and survey showing exact location of the petitioner's complete permanent monitoring well installations within the public rights-of-way.

An appropriate resolution, granting the encroachments, is attached for consideration by your Honorable Body.

Respectfully submitted,
WILLIAM TALLEY

By Council Member Collins:

Whereas, City Council has adopted a resolution (June 6, 1990 — J.C.C. Pgs. 1325-26) urging the Michigan Department of Natural Resources and Environmental Protection Agency ("MDNR") to investigate, inspect, and remedy all environmental problems in the City of Detroit to ensure public safety; also

The petitioner shall apply to the Buildings and Safety Department for approval and permits to place any monitoring wells on privately owned property (if necessary); and further

Honorable City Council:

Re: Petition No. 4420 — Eastside Land Inc., requesting for additional vacation of Ashland Avenue in the area of Mack, Alter and Manistique.

Petition No. 4420 of "Eastside Land Inc.", at 11148 Harper Avenue, Detroit, Michigan 48213, request to outright vacate and conversion to easement of portion of Ashland Avenue, 60 feet wide, in the block bounded by Mack Avenue, 120 feet wide, Charlevoix Avenue, 60 feet wide, Alter Avenue, 66 feet wide, and Manistique Avenue, 60 feet wide for the completion of a New Multi-Shopping Plaza.

The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) reports there are an existing 13-foot 6-inch sewer and a 6-inch water main all in Ashland Avenue. DWSD have no objection provided a 30 feet easement is retained for maintenance and/or repair and provisions for conversion to easement are part of the resolution.

The Planning and Development Department (P&DD) is responsible for the construction of the connector street to Ashland and Manistique Avenues per City standards as stated on a letter dated March 23, 2006 to Cathy Square, Director of DPW from Douglas Diggs, Director of P&DD.

Public Lighting Department (PLD) reports having a streetlight located at the Northwest corner of Ashland Avenue. This light is outside (South) of the development boundary wall. PLD have no objection to the proposed vacation contingent upon the City of Detroit written authorization from the petitioner to maintain the pole in the current location.

SBC/AT&T telecommunication reports having underground facilities that service the New Multi-Shopping Plaza from the rear. Any relocation of SBC/AT&T facilities will be at the expense of the petitioner and/or the requestor.

All other City Departments and privately owned utility companies reported no objections to the proposed right-of-way changes or that satisfactory arrangements have been made. Provisions protecting utility installations (if necessary) are part of the resolution.

An appropriate resolution is attached for consideration by your Honorable Body. Respectfully submitted,

WILLIAM TALLEY

A HEALTH AND SAFETY ISSUE**

By COUNCIL MEMBER WATSON, joined by COUNCIL MEMBERS JONES, COLLINS KENYATTA & REEVES:

WHEREAS, The City of Detroit announced to citizens in late 2005 that the monthly hauling of bulk trash from curbsides would be discontinued after the 2005 Holiday Season, and

WHEREAS, The Executive Branch held meetings throughout the city and issued Communiqués to advise citizens that 5 bulk trash "stations" were available to receive bulk dropped off by citizens, but citizens have reported that the "stations" are not customer friendly, and

WHEREAS, The condition of Detroit's neighborhoods are spiraling downward from the Best homeowner homes in the nation to a city filled with illegal dump sites. The residential neighborhood are drowning in trash, refuse and bulk after only 3 months of no bulk pick-up. THEN, THEREFORE, BE IT

RESOLVED, That the Executive Branch immediately resume bulk trash service as urged by thousands of citizens who are protesting the elimination of bulk trash pick-up with their voices and with their feet, and BE IT FURTHER

RESOLVED, That the Executive Branch and Legislative Branch work together to reduce costs in other areas of governmental operations and aggressively generate increased revenue owed to the city by the State of Michigan and other sources, AND BE IT FINALLY

RESOLVED, That the Executive Branch be reminded that while The Mayor opted to provide bulk trash services from July 1, 2005 to December 31, 2005 monthly, the City Council approves a budget calls for bulk trash services every other month which would provide service until June 2006; and that the preamble of the City Charter approved by the City of Detroit requires the City to protect the Health,

safety and security of our citizens; all of which are gravely challenged by the abrupt disruption of the bulk trash pick-up and the absence of a workable solution or alternative.

STATEMENT IN OPPOSITION TO AN ORDINANCE TO AMEND CHAPTER 55 OF THE 1984 DETROIT CITY CODE, TRAFFIC AND MOTOR VEHICLES BY AMENDING SECTION 55-1-1, DEFINITIONS, AND ADDING SECTION 55-4-28, USE OF A HAND-HELD MOBILE PHONE WHILE OPERATING A MOTOR VEHICLE PROHIBITED, EXCEPTIONS; PENALTY, ETC.

On Wednesday, May 3, 2006, I voted no on the ordinance referenced above. Simply stated, the ordinance as passed, bans the use of hand-held cell phones while driving unless the person is talking to a police department, fire department, authorized emergency vehicle, hospital or doctor's office during an emergency. The burden of proof to prove that the use of the cell phone was an emergency is placed on the defendant and a violation of this ordinance is a civil infraction with a fine of not more than \$100.00.

The role of the City Council is to enact laws that benefit the residents of the City of Detroit after full and thoughtful consideration of the issues lead to the principled decision that the enacted laws best meets the needs of the people. I am not convinced that this particular piece of legislation does that for several reasons.

There is a growing body of research that links driver distractions, including the use of hand-held cell phones, with an increase in the likelihood of being involved in a vehicular accident. However, it must be emphasized that this link relates to all distractions, not just hand-held cellular phones. To illustrate, the ordinance does not prohibit the use of a hands-free cellular phone device while driving, eating while driving, putting on make-up while driving, watching television while driving,

or turning around in your seat to discipline children while driving.

These are types of actions in which many motorists engage in on a daily basis yet the empirical data tends to show that these types of activities are no less likely to cause accidents than the use of a hand-held phone. To pass a reactionary piece of legislation on only one potential problem does nothing to address the broader issue involved — traffic safety. If the considered legislative determination is that the best course of action for the residents of our City is to ban those things that cause driver distraction, then we should ban all things, not just one. Such an action is akin to prohibiting driving while under the influence of alcohol, but only if the alcohol is beer.

Secondly, as I interpret the ordinance, it makes the use of a hand-held cellular device a primary offense for which a traffic stop can be effectuated. Given the reality of racism in certain elements of the law enforcement community, there is a question of whether this ordinance will merely serve to provide another tool to unethical police officers to effect pretextual traffic stops. When this potential is weighed against the small likelihood that this ordinance would truly increase safety, this ordinance does not make sense.

Lastly, and in a related vein, I am concerned that this ordinance will only serve to increase insurance rates in the City. In order for a cell phone ban to lower insurance rates, it would need to be effective in lowering the actual rate of accidents within the City. This effect would be offset by the number of traffic citations individuals would receive for violating the ordinance as the number of tickets a person receives is positively correlated with that individual's insurance rates. However, if the ban on hand-held cell phones does not lower the accident rate, because individuals still get involved in accidents when using hands-free devices, then the ordinance would only serve to drive up the cost of insurance having done nothing to address the problem of traffic safety.

Referring to research linking driver distraction to the risk of accidents, Lt. Col. Jim Champagne, chairman of the Governors Highway Safety Association was quoted in an April 20 AP article by Ken Thomas, "I urge legislators not to interpret these results as a need for new legislative initiatives. It is simply not good public policy to pass laws addressing every type of driver behavior." On Wednesday, May 3, 2006, all of my colleagues voted in favor of this half-baked reactionary attempt to deal with a broad issue by narrowly focusing on a single root. I do not believe in supporting legislation that is thinly disguised as grandstanding and for all of the reasons stated above, I voted no.

 Re: Proposed Ordinance to Amend Sections 13-8-3 of the 1984 Detroit City Code, *Membership in Plan*, and 13-9-4 of the 1984 Detroit City Code, *Classification of Members*.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above-referenced proposed ordinance is being submitted to your Honorable Body for consideration. Re: Proposed Ordinance to Amend Section 47-2-1 of the 1984 Detroit City Code, *Membership*.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above-referenced proposed ordinance is being submitted to your Honorable Body for consideration. This proposed amendment to Chapter 47, Article II, of the 1984 Detroit City Code, titled *1973 Defined Benefit/Defined Contribution (Annuity) Plan of the General Retirement System*, amends Section 47-2-1, *Membership*, to eliminate the eligibility of persons who are

On April 11, 2006, a case evaluation panel evaluated the above lawsuit and made an award of Six Thousand Five Hundred Dollars (\$6,500.00) on Plaintiff's

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 10, 2006 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of April 7, 2006.

The proposed use of the property is rehabilitation and rental.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Honorable City Council:

Re: Acceptance of Settlement Benefits
for *Sparks Cedarlee Farm vs. AT&T Corp.*

In late 2004, the City of Detroit was notified that it was a potential class member in the class action lawsuit in *Sparks Cedarlee Farm vs. AT&T Corp.* (No. IP02-C-7002-H/K S.D. Ind.). The lawsuit alleged that AT&T installed more than 440 miles of fiber optic or other telecommunications cable in Michigan in land that is or once was subject to a right-of-way for railroad purposes. The lawsuit alleged that AT&T entered into contracts with the railroads for the right to install its fiber optic cable in the railroad corridors and generally did not negotiate with owners of adjoining property.

A Michigan "telecommunication cable"/ railroad corridor settlement class has been conditionally approved by the court, consisting, generally speaking, of the current (and certain past) owners of land underlying or adjacent to twenty-one (21) railroad corridors in Michigan.

The City of Detroit has been offered settlement benefits as part of the class

action in the amount of \$2.00 per lineal foot for the portion of the cable line installed in or adjacent to any land owned by the City, in exchange for the granting of an easement to AT&T for the cable line that is already in place. It has been determined that the City owns over fifty (50) applicable parcels.

We respectfully request that this Honorable Body grant the Planning and Development Department, through its representative in the Law Department, the authority to accept the settlement benefits on behalf of the City of Detroit.

Respectfully submitted,

DOUGLASS J. DIGGS

Director of Development Activities

Planning & Development Department

By Council Member Kenyatta:

Whereas, It is the desire of the City of Detroit, through its Planning and Development Department, to accept the settlement benefits offered and grant the requested easement in the class action lawsuit *Sparks Cedarlee Farm vs. AT&T Corp.* (No. IP02-C-7002-H/K S. D. Ind.)

Now Therefore Be It Resolved, That the City of Detroit be and is hereby authorized to accept the settlement benefits offered and grant the requested easement in the class action lawsuit *Sparks Cedarlee Farm vs. AT&T Corp.* (No. IP02-C-7002-H/K S. D. Ind.)

Resolved Further, That the City of Detroit Planning and Development Department, through its representative in the City of Detroit Law Department, is authorized to execute all related documents necessary to accept the above described benefits, including but not limited to a Claim for Landowner Benefits and a Grant of Communications System Easement/Release.

A waiver of reconsideration is requested.

Honorable City Council:

Re: 19630 W. Seven Mile Rd.

The Planning and Development Department requests authorization to convey real property owned by the City of Detroit, located at 19630 W. Seven Mile Rd., to Kimberly Ward, Pamela Beard and Kim Turner pursuant to an assignment of an interest in a land contract between the City of Detroit and George Eason, a married man.

Mr. Eason entered into a land contract with the City of Detroit on June 20, 1989, recorded, liber 24813, page 182, Register of Deeds, Wayne County, Michigan. Just over a year later, Mr. Eason executed another land contract on the same prop-

erty. Here, Mr. Eason was the vendor and the vendees were Kimberly Ward, Pamela Beard and Kim Turner, recorded in liber 27913 page 458. Several years later, Mr. Eason and his wife Carolyn Eason executed a warranty deed conveying their interest in the property to the vendees, March 16, 1995. The deed was never recorded.

The land contract between the City of Detroit and Mr. Eason requires that any assignment of the contract be subject to receipt of notice by the City of Detroit. Recently, the Planning and Development Department received notice that Mr. Eason assigned his interest in the land contract by executing the aforementioned land contract with Kimberly Ward, Pamela Beard and Kim Turner by executing a warranty deed to the same people. Accordingly, our records reveal that the City of Detroit received full payment for the land contract several years ago, but never issued a deed. Several years after the City of Detroit received full payment, George Eason passed away.

We therefore request your Honorable Body's approval of the assignment of the aforementioned land contract between the City of Detroit and George Eason, a married man to his assignees Kimberly Ward, Pamela Beard and Kim Turner, tenants in common.

We further request that your Honorable Body authorize the Planning and Development Department Director or his authorized designee to issue a Quit Claim Deed to the property and such other documents as may be necessary to effect the transfer of title to Kimberly Ward, Pamela Beard and Kim Turner, tenants in common.

Honorable City Council:

Re: Surplus Property Modifications Assignment, Assumption and Consent Agreement Development: 7450 Melville.

On April 21, 2004 (Detroit Legal News April 28, 2004) your Honorable Body, authorized the sale of the above-captioned property to Russo Group, Inc. a Michigan Corporation, for the purposes of constructing a warehouse.

The Russo Group, Inc., has informed the Planning & Development Department (P&DD) that due to changing circumstances, they no longer have the need for a warehouse at this location and wishes to assign all interest in this property to B.W.R. Realty, LLC., a Louisiana Limited Liability Company, who will use the property for the storage of intermodal tank containers.

B.W.R. Realty, LLC, possesses the qualifications and has indicated potential financial resources to develop 7450 Melville. B.W.R. Realty, LLC, owns the

property at 7650 Melville which is adjacent to 7450 Melville. The purchase of 7450 Melville by B.W.R. Realty, LLC, will allow for the expansion of the business at 7650 Melville. The property is zoned "M4" Intensive Industrial District and allows this use as a matter of right. The disposal of this land by negotiation is an appropriate method for making the land available for redevelopment, and the proposed Modification, Assignment, Assumption and Consent agreement is in satisfactory form.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing and approving a Modification, Assignment, Assumption and Consent agreement between Russo Group, Inc., a Michigan Corporation, B.W.R. Realty, LLC., a Louisiana Limited Liability Company, and the City of Detroit, a Michigan Public Body Corporate.

Respectfully submitted,
DOUGLASS J. DIGGS

Director

By Council Member Watson:

Resolved, That in accordance with the foregoing communication, the Planning and Development Department's Director be and is hereby authorized to execute a Modification, Assignment, Assumption and Consent Agreement for the following described property between Russo Group, Inc., a Michigan Corporation, B.W.R. Realty, LLC, a Louisiana Limited Liability Company, and the City of Detroit, a Michigan Public Body Corporate.

Exhibit A

Land in the City of Detroit, County of Wayne and State of Michigan being the East 556.43 feet of the South 297.85 feet of that part of Private Claim 67 lying North of and Adjacent to Melville, West and Adjacent to Green. Containing 165,733 square feet more less.

Resolved, That this Modification, Assignment, Assumption and Consent agreement be considered confirmed when signed and executed by the Planning and Development Department's Director and approved by the Corporation Counsel as to form.

On April 26, 2006 your Honorable Body adopted a second resolution to demand the restoration of bulk trash pick-up.

Although I acknowledge that the above referenced resolution is a statement of your desire to restore bulk trash pick-up, Section 5-102 of the Detroit City Charter clearly states, executive and administra-

RESOLUTION SUPPORTING SAME PERCENTAGE INCREASE IN REVENUE SHARING FOR DETROIT AS OTHER MICHIGAN MUNICIPALITIES IN HOUSE BILL 5780

By COUNCIL PRESIDENT K. COCKREL, JR.:

WHEREAS, Since December 2003, the Michigan Legislature has cut revenue sharing to the City of Detroit by the same across-the-board percentage that it did other municipalities, with absolutely no regard to the actual dollar amount said cuts cost the state's largest city.

WHEREAS, Reductions to revenue sharing for Michigan cities, villages and townships have totaled \$227 million since December 2003; and Detroit — home to roughly 10 percent of the state's population — has absorbed \$51.6 million, or 23 percent, of those cuts.

WHEREAS, The Legislature, pursuant Public Act 532 of 1998, promised to appropriate to the City of Detroit \$333.9 million each state fiscal year from October 1, 1998 through June 30, 2007 — unless during that period, state sales tax collections, which pay for the revenue sharing program, dropped from one state fiscal year to the next.

WHEREAS, Total state sales tax collec-

tions have remained robust since enactment of Public Act 532 of 1998 and never fallen from one state fiscal year to the next; yet, the Michigan Legislature still cut revenue sharing to the City of Detroit from \$333.9 million per year to today's level of about \$285 million per year.

WHEREAS, The Michigan House of Representatives has proposed in House Bill 5780, the 2007 General Government budget bill, an across-the-board 2 percent increase in revenue sharing, with a cap of no more than \$2 million to any one municipality.

WHEREAS, A 2 percent increase in its current revenue sharing allocation would amount to an additional \$5.7 million for the City of Detroit, but the \$2 million cap currently in House Bill 5780 would compel the city to forgo \$3.7 million.

WHEREAS, The \$2 million cap affects only the City of Detroit and would represent to the city a 0.7 percent increase in revenue sharing in 2007 over the current year appropriation.

WHEREAS, The prospective 0.7 percent increase in revenue sharing amounts to roughly one-third of the raise the Legislature plans to award other Michigan municipalities and, by its very nature, sets up the City of Detroit for disparate treatment from other local units of government.

WHEREAS, Revenue sharing pays for such direct city services as police and fire protection streetlights and roads — areas in which City of Detroit needs are no less important than other municipalities. NOW, THEREFORE, BE IT

RESOLVED, That the Detroit City Council urges the Michigan Legislature to remove the \$2 million cap currently in House Bill 5780 and to give the City of Detroit the same percentage increase in revenue sharing that it plans to afford other municipalities in the state's 2007 budget. AND BE IT FINALLY

RESOLVED, That a copy of this resolution be sent to Mayor Kwame M. Kilpatrick, Governor Jennifer Granholm, all members of the Michigan House and Senate, City of Detroit Lansing Lobbyist Marge Malarney & Associates and the Michigan Municipal League.

Adopted as follows:

Yeas — Council Members S. Cockrel, Collins, Conyers, Jones, Kenyatta, Reeves, Tinsley-Talabi, Watson, and President K. Cockrel, Jr., — 9.

Re: Gloria Newman vs. City of Detroit.
Case No. 04434189 NF. File No. A37000-005062 (PLC).

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that the City should agree to the entry of an Order of Dismissal and enter into an Agreement to Arbitrate on the terms and conditions set forth in the following resolution.

We, therefore, request authorization to agree to entry of an Order of Dismissal and to enter into an Agreement to Arbitrate on the terms and conditions set forth in the following resolution and, upon certification by the Law Department that the arbitrators has announced a decision requiring the City to pay a designated sum to the Plaintiff, that your Honorable Body direct the Finance Director to issue a draft payable to Gloria Newman and her attorney, Ernest Friedman, in the amount the City is to pay the Plaintiff pursuant to the arbitrators' decision, but said draft may not be less than Five Thousand Dollars (\$5,000.00) and shall not exceed Seventy-Five Thousand Dollars (\$75,000.00).

Re: U.S. EPA Administrative Order on Consent — Settlement Offer in the Matter of: Mercury Refining Superfund Site, Towns of Guilderland and Colonie, New York, U.S. EPA Docket No. CERCLA-02-2006-2012.

We have reviewed the above-captioned matter, the facts and particulars of which are set forth in a separately submitted confidential settlement memorandum. From this review, it is our considered opinion that the U.S. EPA Administrative Order on Consent Settlement Offer in the amount of Twelve Thousand Five Hundred Ninety-Seven Dollars and No Cents (\$12,597.00) is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize participation and entry into the U.S. EPA Administrative Order on Consent and direct the Finance Director to issue a check in the amount of Twelve Thousand Five Hundred Ninety-Seven Dollars and No Cents (\$12,597.00) made payable to the "EPA Hazardous Substance Superfund," upon notification by the U.S. EPA that the Administrative Order on Consent is effective.

Honorable City Council:

Re: Michael C. Lee v. City of Detroit.
Wayne County Circuit Case No. 05-502988 CD.

On April 24, 2006, this matter was evaluated for \$30,000.00 against the City of Detroit. The parties have until May 22, 2006, to either accept or reject the case evaluation award. The failure to file a written acceptance or rejection within this period constitutes a rejection. If all parties accept the mediation panel's evaluation, judgment will be entered in that amount, which includes all fees, costs, and interest to the date of judgment. If a party rejects the evaluation, the case proceeds to trial, however, the party rejecting the evaluation must pay additional sanctions if the trial results are not favorable.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in the memorandum. From this review, it is our considered opinion that an acceptance of the case evaluation in the amount of Thirty Thousand Dollars (\$30,000.00) is in the best interest of the City of Detroit. The acceptance of the mediation evaluation does not guarantee settlement of the matter in this amount since the plaintiff has the right to reject the award and proceed to trial, however, the amount of the award is fair and reasonable and an eventual settlement of this matter in this amount is prudent.

We, therefore, request you to authorize the acceptance of the evaluation and to direct the Finance Director to issue him a check in the amount of Thirty Thousand Dollars (\$30,000.00) payable to Michael C. Lee and Bertram Marks, his attorney, to be delivered upon receipt of the notice of case evaluation settlement, properly executed Releases and Order of Dismissal.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

By copy of this letter, we will notify all

utility companies to immediately start utility disconnects.

Re: Applications for 18 Neighborhood Enterprise Zone Certificates for the Gratiot McDougall area (Recommend Approval).

The City Clerk's Office forwarded to this office 18 applications from Gratiot McDougall Homes, LLC for Neighborhood Enterprise Zone (NEZ) certificates at 2707 Hendricks, 2614 Joseph Campau, 2617 Joseph Campau, 2721 Hendricks, 2726 Hendricks, 2928 Hunt, 3156 Hendricks, 3169 Hendricks, 3181 Hendricks, 3358 Hendricks, 3384 Hendricks, 3404 Hendricks, 3410 Hendricks, 3442 Hendricks, 3648 Hendricks, 3677 Hendricks, 3691 Hendricks, and 2639 Elmwood. Your Honorable Body approved the Gratiot McDougall NEZ designation on February 11, 2004. City Planning Commission staff has reviewed the applications and recommends approval.

The properties involved are confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. Gratiot McDougall Homes, LLC has applied for the certificates, prior to the issuance of building permits, on behalf of the future owners who will occupy the property. It is appropriate for them to apply for certificates at this time, even if buyers have not yet been identified. The State Tax Commission, however, will not issue certificates until owners are identified. When owners are identified, they can then apply for the certificates. At that time, it would not be necessary for City Council to pass another resolution.

The petitioner proposes to construct new single family housing structures. The developer will need to submit to the State Tax Commission the parcels to receive the certificates with a map showing the parcels.

Please let us know if you have any questions.

Re: Extension of time to consider rezoning request of the Detroit International Bridge Company (Resolution Attached for Consideration).

On January 18, 2006 the City Council received the report of the City Planning Commission on the petition of the Detroit International Bridge Company to rezone numerous parcels adjacent to the Ambassador Bridge to make the zoning better comply with the Hubbard Richard urban renewal plan and to better reflect the current use of the properties. The City Council held discussions on this petition on January 31, 2006 and February 20, 2006.

Section 61-3-79 of the Zoning Ordinance states, "Where a petition for a proposed amendment of a zoning map in ARTICLE XVII of this Chapter is not acted upon by the City Council within one hundred twenty (120) days of the date of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council." The 120-day window expires on May 18, 2006. City Council has not yet scheduled a public hearing for the subject request, and because of budget review, it

would be difficult to hold a hearing prior to the May 18th deadline.

Therefore, attached for your consideration is a resolution that would extend the period for Council's consideration of this petition for an additional 120 days.

Respectfully submitted,

MARCUS D. LOPER

Whereas, The Detroit City Council has not yet acted on the Detroit International Bridge Company's petition;

Now, Therefore, Be It Resolved, That pursuant to Section 61-3-79 of the City of Detroit Zoning Ordinance, the Detroit City Council hereby extends the time period for its consideration of the petition of the Detroit International Bridge Company to rezone numerous parcels adjacent to the Ambassador Bridge for an additional 120 days from the date of passage of this resolution.

Re: Cash-Match to Detroit Area on Aging Fiscal Year 2005-2006. Appropriation No. 00145. CPO #2672870.

The City of Detroit Senior Citizens Department requests permission of your Honorable Body to process payment for an annual cash-match to Detroit Area on Aging in the amount of \$100,000.00. Payment provides the local administrative match for Detroit Area on Aging to operate in planning and service area 1-A. The cash-match is mandated by the Michigan Office of Services to the Aging to provide elder care services to the aging population in the City of Detroit. Contract Purchase Order Number 2672870 would be increased by \$100,000.00 to reflect a second-year renewal of the contract. This renewal reflects a 17 percent reduction of projected costs to accommodate budget cuts being instituted in the department's overall budget. This cash-match is included in the Senior Citizens Advocacy annual budget and will not increase the council approved budget amount for 2005-2006.

For Budget Year 2005-2006, Appropriation No. 11730, a payment of \$100,000.00 to Detroit Area Agency on Aging is requested.

RESOLUTION

By COUNCIL MEMBER KENYATTA:

WHEREAS, The Michigan Legislature is considering the State's public health budget for the coming year; and

WHEREAS, The budget for tobacco use prevention education, which received significant cuts in the current budget, is in jeopardy of further cuts; and

WHEREAS, Tobacco use continues to be the single most preventable cause of premature death and preventable disease in Michigan, impacting the City of Detroit disproportionately; and

WHEREAS, Studies indicate that African-American children in Detroit are twice as likely as other children to be hospitalized and die from asthma; and

WHEREAS, Secondhand smoke also contributes to the development of new cases of asthma in healthy children; and

WHEREAS, Tobacco use is a major risk factor for other chronic diseases — including diabetes, cancer, and cardiovascular disease — with estimates of treatment costs accounting for \$1.04 billion, or fourteen percent, of Michigan's Medicaid budget in fiscal year 2000; and

WHEREAS, The Detroit City Council passed a stringent Clean Indoor Air Ordinance in July 2005, affecting buildings open to the public and places of employment; and

WHEREAS, To maintain the positive momentum toward cleaner air and an environmentally safe City, continued education of the risks inherent in tobacco use is imperative; and

WHEREAS, Further cuts in the State's tobacco prevention program funding will inevitably result in an increase in the smoking rate, particularly among young people, with accompanying increases in health care costs, smoking-related fires, and litter, as well as decreases in work productivity; and

WHEREAS, Maintaining substantial tobacco prevention funding is the right course for the State of Michigan and the City of Detroit. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council send correspondence to Governor Jennifer Granholm and Director of the Department of Community Health Janet Olszewski strongly urging them to oppose further cuts to these valuable programs and support restoration of the funds previously cut.

RESOLUTION

WHEREAS, Some of the largest corporations in the telecommunications industry — namely AT&T and Verizon, have falsely accused local governments of preventing them from expanding their businesses into local cable operations, and have mobilized a massive national political effort to eliminate local cable franchising agreements; and

WHEREAS, The Michigan Legislature has responded to this corporate effort by creating H.B. 5895 and S.B. 1157, and is expected to be voted on by the Legislature in the next several days; and

WHEREAS, Current law and local franchise agreements unequivocally guarantee service to all local residents, unlike the H.B. 5895 and S.B. 1157, which, in addition to eliminating local control and fairness to all residents, will favor a statewide franchise system where both old and new cable companies have no obligation to serve certain residents and communities if they are deemed unprofitable or of "low-value". Such "low-value" communities often include low to medium income families, senior citizens, minorities, and rural residents; and

WHEREAS, In addition to allowing cable companies to discriminate against persons they serve based on race/national origin, income, and location, H.B. 5895 and S.B. 1157 would also allow companies to discriminate in providing a quality of service, rates, response time, and the like, which would be tantamount to "redlining" areas with minorities or large lots (which are expensive to serve); and

WHEREAS, The H.B. 5895 and S.B. 1157 allows the Michigan Secretary of State to act as a right-of-way management authority, when it has no knowledge or experience in such matters, since rights of way can only be managed locally, hence providing insufficient local enforcement authority over the management of rights-of-way and consumer protection matters; and

WHEREAS, Passage of the H.B. 5895 and S.B. 1157 would result in the immediate reduction of community revenues received from local franchise fees and up

to \$100 million loss to local governments; and

WHEREAS, The H.B. 5895 and S.B. 1157 also limits revenues for public, educational, and governmental (PEG) channels and institutional networks for local government needs such as fire, police, and other governmental communications; and

WHEREAS, Local government has a long and very successful history of supporting the introduction of cable service, a successful deployment made possible in large part by the current system of local cable franchising; and

WHEREAS, Passage of H.B. 5895 and S.B. 1157 would create a monopoly among the large telecommunication providers and actually result in less competition and overall choice for Detroit residents. The City of Detroit's current cable franchise agreement and enabling ordinance does not create exclusive rights in its current cable franchisee, and would encourage bids and competition from a variety of telecommunication companies wishing to provide cable service to Detroit residents; and NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly opposes passage of H.B. 5895 and S.B. 1157 and affirms its support for the local cable franchise agreement system, and BE IT FURTHER

RESOLUTION

By ALL COUNCIL MEMBERS:

WHEREAS, Some of the largest corporations in the telecommunications industry — namely AT&T and Verizon, have falsely accused local governments of preventing them from expanding their businesses into local cable operations, and have mobilized a massive national political effort to eliminate local cable franchising agreements; and

WHEREAS, The U.S. Congress has responded to this corporate effort by creating H.R. 5252, known as the "Communications, Opportunity, Promotion and Enhancement Act of 2006" (COPE), and is expected to be voted on by the U.S. Senate in the next several days; and

WHEREAS, The City of Detroit's current franchise agreement and enabling ordinance does not create exclusive rights in its current cable franchise, and would encourage bids and competition from a variety of telecommunication companies wishing to provide cable service to Detroit residents; and

WHEREAS, Current law and local franchise agreements unequivocally guarantee service to **all** local residents, unlike the COPE Bill, which, in addition to eliminating local control and fairness to all residents, will favor a national franchise system where both old and new cable companies have no obligation to serve certain residents and communities, if they are deemed unprofitable or of "low-value". Such "low-value" communities often include low to medium income families, senior citizens, minorities, and rural residents; and

WHEREAS, In addition to allowing cable companies to discriminate against persons they serve based on race/national origin, income, and location. The COPE Bill would also allow companies to discriminate in providing a quality of service, rates, response times, and the like, which would be tantamount to "redlining" areas with minorities or large lots (which are expensive to serve); and

WHEREAS, The COPE Bill turns the Federal Trade Commission (FCC) into a national right-of-way management authority, when it has no knowledge or experience in such matters, since rights of way can only be managed locally, hence providing insufficient local enforcement authority over the management of rights-of-way and consumer protection matters; and

WHEREAS, Passage of the COPE Bill would result in the immediate reduction of community revenues received from local franchise fees. It is estimated that upon the Bill's passage, franchise fees would decrease by thirty percent (30%) immediately, and upon the complete termination of all cable agreements a \$100 million loss to local governments; and

WHEREAS, The COPE Bill also limits revenues for public, educational, and governmental (PEG) channels and institutional networks for local government needs such as fire, police, and other governmental communications; and

WHEREAS, The COPE Bill changes the Internet from a fast super highway with equal access for all users, to one where some customers get the fast lane and others get the slow lane; and

WHEREAS, Local government has a long and very successful history of supporting the introduction of cable service, a successful deployment made possible in large part by the current system of local cable franchising; and

WHEREAS, The Communications,

Opportunity, Promotion, and Enhancement Act of 2006 ignores this history and would actually result in less competition and overall choice for Detroit residents; NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges federal policy-makers to only support legislation that maintains local control of the cable franchise process; and BE IT FINALLY

RESOLVED, That copies of this resolution be forwarded to our Congressional delegation and lobbyists in Washington, D.C., as well as Governor Jennifer Granholm and lobbyists in Lansing, Michigan.

Re: Proposed Ordinance to Amend Chapter 55 of the 1984 Detroit City Code, Traffic and Motor Vehicle by Amending Section 55-1-1, Definitions, and adding Section 55-4-28, Use of A Hand-Held Mobile Phone While Operating a Motor Vehicle Prohibited, Exceptions; Penalty.

On Wednesday, May 3, 2006 at your formal session your Honorable Body adopted an ordinance to amend chapter 55 of the Detroit City Code, *Traffic and Motor Vehicles*. this ordinance bans the use of hand-held phones while operating a motor vehicle.

Hand-held cell phone use should not be considered a primary offense in Detroit while other behaviors that cause drivers to lose focus such as eating, reading, and operating navigation systems are not regulated.

After reviewing similar laws adopted by states such as New Jersey, Colorado, Maryland, and West Virginia, I believe the best course of action would be to adopt an ordinance that makes the usage of a hand-held mobile phones while operating a motor vehicle a *secondary offense*.

In the spirit of cooperation, I have been in touch with the author of the referenced ordinance and have reached an agreement that the recommended change be adopted; therefore, I **neither approve nor veto** the ordinance as submitted.

Sincerely,

Re: Resolution For City Sponsorship of Bi-Annual Property Sales of Detroit Land to Detroit Citizens.

On Wednesday, May 3, 2006 at your formal session your Honorable Body adopted a resolution for city sponsorship of bi-annual property sales of Detroit land to Detroit citizens.

We can all agree that the City's inventory largely consists of residential and commercial structures and vacant land. Much of the inventory is scattered vacant lots where some of our major challenges have been land assemblage and marketable title.

Additionally we must address the following issues prior to making a commitment to city sponsorship of bi-annual property sales of Detroit land to Detroit citizens.

- Having two (2) divisions (Development Division and Real Estate Division) sell property from the same inventory.
- Limitation of sale of City-Owned properties at auction to City Residents only.

Given the necessary due diligence, I

will *neither approve nor veto* the above referenced resolution.

Sincerely,
 KWAME M. KILPATRICK

 Re: Establishment of the St. Regis Condominium Neighborhood Enterprise Zone.

Please find attached a resolution and legal description, which will establish the St. Regis Condominium Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992 ("the Act").

Your Honorable Body conducted a public hearing on this matter on March 31, 2006 as required by the Act. No impediments to the establishment of the NEZ were presented at the public hearing.

As you may recall the St. Regis Holdings LLC proposes to invest \$3 million to convert former hotel rooms into 30 residential dwellings. The average units will be marketed upward of \$200,000.

The Act requires that at least 60 days must pass from the date of the notice of the public hearing to the date of your formal approval of a resolution establishing the NEZ. The date of the notice of the public hearing was March 7, 2006 and we therefore request that you approve the resolution at your next formal session after May 5, 2006.

Respectfully submitted,
 DOUGLASS J. DIGGS
 Director

By Council Member S. Cockrel:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from *ad valorem* taxes, and the imposition of a specific property tax in lieu of *ad valorem* real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the establishment of the St. Regis Condominium NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the St. Regis Condominium NEZ was conducted before the Detroit City Council on March 31, 2006, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the establishment of the St. Regis Condominium NEZ are known:

Now Therefore Be It

Resolved, That the land area described in the attached legal description, and

shown on the attached map, is hereby established as the St. Regis Condominium NEZ pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

Honorable City Council:

Re: Petition No. 232 — SDG Architects and Planners, for permanent vacations and encroachments in connection with the permanent Greektown Casino project, in the area of Macomb, St. Antoine, I-375 Service Drive, and Monroe.

Petition No. 232 of "SDG Architects and Planners" whose address is 615 Griswold Avenue — Suite 103, Ford Building, Detroit, Michigan 48226 for the Greektown Casino, 1. Requests the outright vacation (with easements retained for vehicular and pedestrian traffic) of the North 75.00 feet of East Lafayette Avenue, 120 feet wide, between Beaubien Avenue, 60 feet wide, and St. Antoine Avenue, 50 feet wide, (a portion deeded to the City of Detroit on July 17, 1996 — J.C.C. Pgs. 1565-71). 2. Requests to encroach 6.00 feet into the south side of Macomb Avenue, 50 feet wide, between St. Antoine Avenue, 50 feet wide, and I-375 Southbound Service Drive and the North side of Monroe Avenue 50 feet wide, between St. Antoine Avenue, 50 feet wide and I-375 Service Drive, and 5.00 feet into St. Antoine Avenue, 50 feet wide, between Macomb Avenue, 50 feet wide, and Monroe Avenue 50 feet wide, with foundation. 3. Requests that the Honorable City Council accepts an easement over that portion of East Lafayette Avenue to be outright vacated for vehicular and pedestrian traffic as requested by the Traffic Engineering Division — DPW.

SDG Architects and Planners consultants for the Greektown Casino intends to construct a hotel and parking structure on one site, and expand the existing casino on the existing site. Part of this construction requires that portions of the new Greektown Hotel and Parking Structure encroach a maximum of five feet into St. Antoine Avenue and six feet into Macomb and Monroe Avenues. Plus the expansion of the Greektown Casino will require that portion to be outright vacated with easements retained for vehicular and pedestrian traffic as requested by the Traffic Engineering Division — DPW.

The petition was referred to the City Engineering Division — DPW for investigation (utility clearances) and report. This is our report:

The Traffic Engineering Division — DPW reports no objections to the requested encroachments into Macomb, Monroe and St. Antoine for the placement of foundations and the outright vacation of the North 75.00 feet of East Lafayette Avenue, 120 feet wide, provided that the Greektown Casino follow the attached provision that are part of this resolution.

The Public Lighting Department (PLD)

reports the following comments for the Overhead building on East Lafayette Avenue is to have a minimum vertical clearance of 16.00 feet above ground from the building on the north side of East Lafayette up to and including the center island of East Lafayette between St. Antoine Avenue and Beaubien Avenue. Being the proposed columns conflicts with PLD's existing conduit bank in the center island of East Lafayette Avenue, the relocation of the conduit bank and cables, including the design of the relocation have to be done at the petitioner's (Greektown Casino) project expense. Also, the existing streetlights on the north side of East Lafayette Avenue must be replaced with yet to be determined lights attached to the future casino structure. These lights will be on a PLD circuit and must be maintained by PLD. The Greektown Casino Project is responsible for all the expenses incurred in replacing the existing streetlights. Greektown Casino project will also be responsible for all legal documents allowing PLD to attach lights to their building and to maintain them. PLD has the feeder to the existing Greektown — Macomb Garage and the legal right to provide power to any future building on that site.

The Detroit Water and Sewerage Department (DWSD) reports there is a 30-inch transmission main located in the portion of E. Lafayette Avenue. However, DWSD has no objection to the proposed vacation of the North 75.00 feet of East Lafayette Avenue, 120 feet wide, provided that the conditions contain in the attached easement agreement between Greektown Casino and the City of Detroit as revised below are followed and a part of the vacating resolution. 1) Article 3 on Page 2 is to be modified to provide the Grantee with a perpetual exclusive easement for utilities. 2) Article 4 on Page 2 is to be modified to include a provision that the Grantor will be responsible, at its sole cost and expense, for repairing any damage to existing utilities caused by this construction activities. Also, the Grantee will not be liable for any damage to the Casino Expansion or any other improvements done by the Grantor in the Vacation Area caused by the failure of the Grantee's facilities and utilities. 3) Article 4 is to be modified so that any easements granted by the Grantor in the Utility Easement Area will be done after the review and approval of the Grantee.

The Detroit People Mover (DPM)/Detroit Transportation Corporation (DTC) reports the DTC's existing guideway easement is maintained and the Greektown Casino addressed the concerns and/or provision that are part of this resolution.

The Detroit Edison Company — DTE (Gas and Electric Divisions) reports that

DTE has Three (3) primary switch cabinets located on the proposed site that will have to be relocated at the Petitioner's expense. Also the Six (6) feet encroachment on St. Antoine Avenue be limited to a maximum of Five (5) feet to accommodate the existing 3-inch plastic (10 psig) gas main inserted in a dead 6-inch cast iron main located Six (6) feet west of the East right-of-way line of St. Antoine Avenue, and the outright vacation of the northerly 75.00 feet of East Lafayette Avenue, 120 feet wide, DTE have to abandon the existing 3-inch gas main on the North side of E. Lafayette and reroute and install a 3-inch gas main on the South side of E. Lafayette. The cost of the rerouting and installation is estimated to be \$19,477.55 to be borne by the petitioner and/or Greektown Casino.

AT&T Telecommunication reports AT&T has facilities in Macomb Avenue that may interfere with the development. The petitioner is to contact Miss Dig to locate facilities and if AT&T needs to remove and/or reroute such services the cost will be determined at that time. All associated cost for removing and/or rerouting will be at petitioner's expense.

All other involved City departments and privately owned utility companies reported no objections or that satisfactory arrangements have been made. Provisions protecting utility installations are part of this resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
WILLIAM TALLEY
Head Engineer

City Engineering Division — DPW

Grantor hereby grants to Grantee a perpetual, non-exclusive easement for the location, operation, construction, repair, replacement and/or maintenance of utilities and appurtenances thereto (collectively, "Utility Lines"), over, under, through and across the Road Easement Area and the Sidewalk Easement Area (collectively, the "Utility Easement Area").

4. Grantee expressly acknowledges that it shall have no right whatsoever in the areas depicted on Exhibit C hereto which are intended to be used by Grantor for the purpose of the construction and location of columns and associated footings (collectively, the "Support Columns") to support the improvements to be constructed on the Casino Property, provided, however, Grantor shall be responsible, at its sole cost and expense, for the relocation of any existing utilities (both private and public) from the Vacation Area necessitated by the construction and location of the Support Columns or otherwise directly required by construction activities on the Casino Property. Grantor agrees to grant (i) utility easements to the private easement holders for the relocated private utilities and (ii) utility easements, from time to time, for future private utilities in areas of the Utility Easement Area in its reasonable discretion and Grantor shall hold Grantee harmless for any claims with respect to the granting of such easements. Grantor shall further be responsible, at its sole cost and expense, for the relocation, reconstruction and replacement, as necessary, of the roadways, sidewalk areas, and other improvements in accordance with the plans and specifications for such work (Drawing _____, dated _____, Project No. _____) which have been reviewed and approved by Grantee and any necessary municipal departments so that same are in the general appearance as depicted on Exhibit C hereto. Upon commencement of such work, Grantor shall work with diligence and shall use commercially reasonable efforts to complete same within eighteen (18) months of commencement of such work (but in no event longer than three (3) years from the commencement of such work). Grantor hereby acknowledges and

agrees that in connection with its construction of the improvements on the Casino Property it will provide for at least sixteen (16') feet of above ground clearance in the Road Easement Area. Grantor acknowledges that the work in the roadway may include lane reconfiguration, traffic patterns, curbing, curb cuts, signalization and drainage, meeting standards and specifications of Grantee for public roads and in accordance with all applicable governmental requirements. Grantors shall supply and install lighting fixtures of size, style and illumination power for street lighting of the Road Easement Area within the area where the building is constructed over the Road Easement Area, meeting specifications of the Grantee, at Grantor's cost and responsibility. Grantee shall provide, at its cost and responsibility, street lighting for the remainder of Lafayette Avenue. Grantor may install pavers or other special sidewalk surface treatment and special curbing material as part of its improvements, at Grantor's cost, expense and responsibility, subject to the approval of Grantee. Grantor shall not install or cause to be installed any non-standard road surface for vehicular traffic between curb faces within the Roadway Easement Area.

5. (a) After the completion of all of the work to be performed by Grantor under Paragraph 4 above and subject to Section 5(b) below, Grantee, at its sole cost and expense, shall be responsible for repairing, replacing and maintaining the Road Easement Area and the Utility Lines. All work performed by Grantee and its contractors, in and about the maintenance, repair, and/or replacement of the Road Easement Area and the Utility Lines shall be performed with diligence and conducted in a manner that avoids disruption with Grantor's business on the Casino Property and, upon the completion of any work, Grantee shall remove all debris, materials and equipment and restore the surface of the land and installations thereon to substantially the same condition as existed prior to such work. Grantee agrees that it shall be responsible for, and shall perform the following obligations: Grantee shall supply, operate and maintain all traffic control devices; Grantee shall maintain and repair the driving surface (from curb face to curb face) in the same manner as if they were any dedicated public street; and Grantee shall provide city services for street cleaning, fire, police, snow removal, cleaning of catch basins, striping of traffic lanes and the placing of street, directional and other signage, in a manner comparable to neighboring public rights-of-way, subject to limitations resulting from proximity of the building to the Roadway Easement Area.

(b) Grantor shall be responsible for and shall cause to be maintained, and

replaced, repaired or reconstructed as necessary the Support Columns. Grantor assumes and bears all risk and responsibility for subsurface conditions affecting the roadway improvements as a result of the Support Columns. In no event shall Grantor's utilization of the building materially interfere with or adversely affect the Roadway Easement Area or the use thereof by Grantee or the public. Except as otherwise provided herein, any future construction on the Vacation Area that it may materially affect the improvements on the Roadway Easement Area shall require the prior written consent of Grantee, which shall not be unreasonably withheld or delayed. Grantor shall operate, maintain, repair and replace (except electrical service which shall be provided at Grantee's cost) the street lighting facilities and equipment which it installs pursuant to Paragraph 4 of this Agreement. Street lighting provided by Grantor shall at all times meet Grantee's typical and customary requirements for public street lighting. Grantor shall maintain, repair and replace the Sidewalk Easement Area. Grantor shall also be responsible for planting and maintaining the landscaping on the Lafayette Avenue median area as depicted on Exhibit C hereto.

6. During the initial period of construction of the improvements by Grantor under Paragraph 4 hereof, the Vacation Area shall be closed to public access and passage of vehicular traffic and pedestrians, subject to provision for continuation of utility services therein satisfactory to Grantee. Thereafter, Grantor shall not erect, construct, or permit to remain any fences or walls, guardrails or other obstructions whereby Grantee's use of the Road Easement Area or the Sidewalk Easement Area would be denied. Notwithstanding the foregoing, Grantor shall have the right (i) to close temporarily the Road Easement Area and the Sidewalk Easement Area after reasonable notice to Grantee, from time to time, solely for the purpose of preventing a public dedication thereof and only for such time as is necessary for the same, (ii) to construct and locate temporary and permanent improvements and signage in the Sidewalk Easement Area (a) to insure the orderly pick-up and drop-off of riders for both private busing companies and public modes of transportation who might from time to time have the right to use the "bus drop-off lane" in the Road Easement Area and (b) to otherwise promote effective and safe pedestrian traffic flow through the Sidewalk Easement Area provided none of such improvements and signage shall materially interfere with pedestrian traffic flow and (iii) to locate and maintain planters and other decorative objects and elements in the Sidewalk Easement Area which will enhance the overall appear-

ance and image of the Casino Property so long as such planters and objects to not materially interfere with pedestrian traffic flow.

7. Grantor reserves the right, from time to time and at its sole costs and expense, to make minor modifications to the Road Easement Area and the Sidewalk Easement Area so long as such modifications do not materially impair Grantee's use and enjoyment of the easement rights granted hereunder. Grantor shall have the right to grant utility and other easements within the Road Easement Area and the Sidewalk Easement Area so long as such easements do not materially impair Grantee's use and enjoyment of the easement rights granted hereunder.

8. Grantor hereby agrees to indemnify, defend and hold harmless Grantee from any and all suits, claims and actions (threatened or actually asserted), losses, costs, liabilities, expenses and/or damages, including, but not limited to attorneys' fees, which may be incurred by Grantee as the result of any personal injury, including death, and/or property damage as shall occur in the Vacation Area, including in connection with Grantor's obligations under Paragraph 4 hereof. Notwithstanding the foregoing, Grantor's obligation to defend, indemnify and hold harmless Grantee shall not apply to any liability, obligation, damage, loss, cost or expense which arises from the gross negligence or intentional or willful acts or omissions of Grantee, its officers, contractors, employees, departments or agents or the exercise by Grantee of (or its failure to exercise) its obligations under Paragraph 5(a) hereof or the failure of Grantee to otherwise perform its obligations required under this Agreement.

9. Grantor shall maintain in effect commercial general liability insurance against claims for personal injury or death, or property damage suffered by others occurring on or about the Vacation Area or any improvement or equipment located thereon, such public liability insurance to afford protection to the limits of not less than Five Million Dollars (\$5,000,000.00). Such insurance shall be with reputable companies authorized to issue such policies in such amounts in the State of Michigan, and may be carried under blanket policies that include other properties and provide separate coverage for the Vacation Area. Such policies may include reasonable deductibles. Such insurance shall name Grantee as an additional insured and may, at the option of Grantor, name such other persons as Grantor may direct. Each such policy of insurance shall provide that it shall not be cancelled by the insurance for nonpayment of premiums or otherwise until at least ten (10) days after service of notice of the pro-

posed cancellation upon Grantee. The insurance required hereunder may from time to time be increased by mutual agreement of the parties to the extent that the parties deem the amount of insurance coverage to be insufficient to cover reasonably foreseeable risk of loss, damage, expense or injury.

10. (a) Grantor shall maintain, or cause to be maintained, at its expense during periods of performance of work in the Vacation Area (in addition to the insurance required to be carried in Paragraph 9 above), the following insurance:

(i) Workers' compensation insurance for employees which meets Michigan's statutory requirements and Employers' Liability insurance with minimum limits of \$100,000.00 each accident;

(ii) Professional liability (errors and omissions) insurance for the principal architect or engineer, with minimum limits of \$1,000,000.00 each claim; and

(iii) All-risk builder's risk insurance or comparable property insurance covering its construction activities.

(b) Grantor shall either require its direct contractors to provide the insurance coverages required in this Agreement (except errors and omissions) or shall provide a policy of insurance providing such coverages for its direct contractors; and Grantor and its contractors shall provide and file a surety performance bond for any work performed in a public right-of-way as required by Grantee. Acceptable certificates of insurance evidencing coverage shall be provided by Grantor to Grantee prior to commencement of work.

11. If Grantor or Grantee shall be in default in performing any of the terms of this Agreement, the non-defaulting party shall give the defaulting party written notice of such default, and if the defaulting party shall fail to cure such default within thirty (30) days after receipt of such notice (provided the thirty (30) day notice period shall not be required in the event of an emergency), or if the default is of such a character as to require more than thirty (30) days to cure, then, if the defaulting party shall fail within said thirty (30) day period to commence and thereafter proceed diligently to cure such default, then, and in either of such events, the non-defaulting party shall be entitled to correct such default or breach. The defaulting party shall pay such amount so expended. The foregoing shall not limit any other rights or remedies at law or in equity which the non-defaulting party may have against the defaulting party for a default under this Agreement.

12. Notwithstanding anything contained in this Agreement, each party shall be excused from performing any obligation under this Agreement, and any delay in the performance of any obligation

under this Agreement shall be excused while and so long as the performance of the obligation is prevented, delayed or otherwise hindered by acts of God, fire, earthquake, floods, explosion, actions of the elements, war, riots, mob violence, acts of terrorism, inability to procure or a general shortage of labor, equipment, facilities, materials or supplies in the open market, failure of transportation, strikes, lockouts, actions of labor unions, condemnation, court orders, laws, regulations or orders of governmental or military authorities or any other cause, whether similar or dissimilar to the foregoing, not within the control of such party (other than lack of or inability to procure funds or financing to fulfill its commitments and obligations under this Agreement).

13. No waiver of any provision hereof shall be deemed to imply or constitute a further waiver thereof or any other provisions set forth herein. Should any provision hereof be declared invalid by legislative, administrative or judicial body of competent jurisdiction, the other provisions hereof shall remain in full force and effect and should be unaffected by same.

14. Any notice required, permitted or desired to be given under this Agreement shall be in writing and shall be deemed to have been sufficiently given or served for all purposes upon receipt or refusal of receipt when sent by (a) registered or certified mail, return receipt requested, (b) personal hand delivery, or (c) overnight courier service, to the parties at the addresses shown above or at such other address as the respective parties may from time to time designate by like notice.

15. This Agreement may only be amended by the mutual written agreement of the parties hereto.

16. All of the covenants, conditions, agreements and restrictions set forth in this Agreement are intended to be and shall be construed as covenants running with the land, binding upon, and inuring to the benefits of and enforceable by the parties hereto, their respective successors and assigns, upon the terms, provisions and conditions hereinabove set forth.

17. Upon completion of the improvements to be constructed by Grantor in the Vacation Area, if it is necessary to correct the depiction of the easement areas set forth on Exhibit C hereto or to provide legal descriptions of same, an addendum to this Agreement shall be executed by the parties and shall be recorded in the public records containing the corrected depiction and/or legal descriptions as applicable.

18. At the request of a party, the other party shall execute and deliver within thirty (30) days an estoppel certificate addressed as requested stating that: (i) this Agreement is in full force and effect and has not been modified or amended or, if it has been modified or amended, the dates of any such modifications or amendments; and (ii) such other information as such requesting party may reasonably require.

IN WITNESS WHEREOF, The undersigned have executed this Agreement.

City Planning Commission

May 10, 2006

Honorable City Council:
Re: Neighborhood Enterprise Zone (NEZ) Certificates for 19700 Heyden, 19720 Heyden, 19714 Heyden, 19712 Heyden, 19458 Heyden, 19466 Heyden and 19755 Heyden in the Longacre NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office seven (7) applications for NEZ certificates in the Longacre NEZ. The NEZ designation for the area generally bounded by Evergreen, Pembroke, Vassar, and Kentfield was approved by the City Council on September 8, 1999. The City Planning Commission staff has reviewed these applications and recommends approval.

Certificates are being requested for 19700 Heyden, 19720 Heyden, 19714 Heyden, 19712 Heyden, 19458 Heyden, 19466 Heyden, and 19755 Heyden. The properties are located within the NEZ boundaries described above and should be eligible for NEZ certificates as stipulated under State Public Act 147 of 1992 as currently written.

Longacre New Hope Non-Profit Housing Corporation plans to develop single-family houses on the subject properties. The homes would be priced at \$120,000 according to the petitioner. The aforementioned organization has applied for the certificates at this time, although buyers have not yet been identified. When the owners are known, they can apply for the certificates. At that time, it would not be necessary for the City Council to pass another resolution.

The CPC staff recommends that the NEZ certificates for 19700 Heyden, 19720

Heyden, 19714 Heyden, 19712 Heyden, 19458 Heyden, 19466 Heyden and 19755 Heyden be approved as submitted.

Respectfully submitted,
MARCUS D. LOPER
Deputy Director
MICHAEL O. ADEBAYO
CPC Staff

By Council Member Collins:

**RESOLUTION OPPOSING CHANGES
TO MICHIGAN ELECTION LAW,
AS PRESCRIBED IN
HOUSE BILLS 4228 AND 5659**

By COUNCIL PRESIDENT K. COCKREL, JR.:

WHEREAS, House Bill 4228 and House Bill 5659 both seek to amend Michigan Election Law, specifically Public Act 116 of 1954.

WHEREAS, House Bill 4228, in particular, would require the clerk of each city, township or village to create an inactive voter file; compel the clerk of each city, township or village to place on the inactive voter list the name of any voter who fails to vote in more than 5 consecutive elections, including at least two (2) general November elections; and require issuance of "provisional ballots" to voters on the inactive voter list who which to vote.

WHEREAS, Current election law permits increased scrutiny of voters issued a provisional ballot and allows for their votes to be challenged more easily by election officials.

WHEREAS, House Bill 4228 would also mandate the director of the Department of Corrections (or his or her designee) to send to the Secretary of State a list of all felons confined to a prison in this state . . . compel the Secretary of State to cross-check that list with the qualified voter file and remove from said file the name of any voter on the list furnished by the Department of Corrections. The Secretary of State would have to share that information with the appropriate city, township or village clerks, who would have to remove those felons from municipal voting records.

WHEREAS, House Bill 4228 would require the Secretary of State to create a form for requesting an absentee ballot and to send said form to each qualified and registered voter in the state "for purposes of determining whether the (voter) wants to be placed on a permanent absent voter list."

WHEREAS, House Bill 4228 would place on the inactive voter list the names of voters who fail to respond to the form sent by the Secretary of State or whose

form is returned to the Secretary of State as undeliverable.

WHEREAS, House Bill 4228 passed the Michigan House by a vote of 70-31 on March 2, 2006, and currently is before the Senate Government Operations Committee.

WHEREAS, House Bill 5659, which is on the floor of the Michigan House of Representatives, would permit the governing body of a city, township or village to adopt a resolution authorizing that local's clerk to cancel the voter registration of a person who has failed to vote in more than five (5) successive elections that include at least two (2) general November elections.

WHEREAS, House Bill 5659 would permit the city, township or village clerk "to search a national database containing death records to obtain information concerning the last known address and birth date of all persons over 18 years of age who have died within that (local unit of government)". Equipped with that information, the clerk may compare the national information with his or her local records and cancel the registration of all deceased voters.

WHEREAS, House Bill 5659 would require the clerk of the City of Detroit, before the August 2006 primary, to compare the voter registration address of each voter in the city with the address of each building in the city that has been demolished, and cancel the registration of those voters whose address matches that of a razed building . . . and compel the clerk of each city, township or village, before the November 2008 general election, to compare the voter registration address of each voter in the city with the address of each building in the city that has been demolished, and cancel the registration of those voters whose address matches that of a razed building.

WHEREAS, Both House bill 4228 and House Bill 5659 have the potential to impose an unfunded mandate on local units of government, and House Bill 5659, in particular, targets the City of Detroit with an un-funded mandate for August 2006 election.

WHEREAS, House Bill 4228 represents an inappropriate use of provisional ballots, which are more geared toward people with questionable voting credentials than those who simply chose not to vote; thus, House Bill 4228 has the potential to place unfair burdens on people who might desire to vote.

WHEREAS, House Bill 4228 sets up people who desire to vote absentee to be denied their right to vote by compelling the Secretary of State to put their name on the inactive voter file if they do not respond to Secretary of State correspondence.

WHEREAS, House Bill 4228 could create a hardship for freed felons to vote, and House Bill 5659 leaves a lot of room for error in making the comparisons between national and local death records. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council urges the Michigan Legislature to remove vote "No" on House Bill 4228 and House Bill 5659. AND BE IT FINALLY

RESOLVED, that a copy of this Resolution be sent to Mayor Kwame M. Kilpatrick, Governor Jennifer Granholm, City of Detroit Lansing Lobbyist Marge Malarney & Associates and the Michigan Municipal League, and all members of the Michigan House of Representatives and Senate.

Adopted as follows:

Yeas — Council Members S. Cockrel, Collins, Conyers, Jones, Reeves, Tinsley-Talabi, Watson, and President K. Cockrel, Jr. — 8.

Nays — Council Member Kenyatta— 1.

beyond that allowed under the Michigan Constitution; and

FIRST INDEPENDENCE BANK

By COUNCIL MEMBER TINSLEY-TALABI:

WHEREAS, First Independence Bank was founded based on the desire of Detroit's Black community leaders to satisfy the need for greater self-determination and financial independence. The founders of the bank realized that economic independence among minorities is one of the keys to self-determination. Concerned citizens assembled in late 1967 to form a financial institution that would be responsive to the depository and lending needs of Detroit's black community. Their premise was financial independence is strength, a political voice, and a means to self determination; and

WHEREAS, Organizers of the bank included business, academic, professional, and church leaders from the greater Detroit area. These organizers later became the first members of the board of directors. On May 11, 1970, First Independence Bank opened its doors and became Metropolitan Detroit and Michigan's first minority owned and operated commercial bank; and

WHEREAS, During the 1970's, First Independence remained committed to extending loans and mortgages to aspiring business owners in the Detroit community. In the late 1970's, inflation and high unemployment rates caused many of those well-intentioned business owners to default on their loan obligations. The number of delinquent loans weakened the bank's balance sheet necessitating a need to re-capitalize. In 1980, the bank completed a successful re-capitalization of \$1.4 million resulting from the sale to institutional and individual investors of subordinate notes, preferred stock, and new common stock. Businessman Donald Davis, the owner of the United Sound Systems, Inc., purchased 51% of the outstanding shares. Davis still holds a majority of the outstanding shares of the bank and serves as its Chairman and CEO; and

WHEREAS, With total assets of \$153 million as of December 31, 2002, First Independence became the 13th largest African American owned bank in the country. First Independence is enjoying record earnings by its delivery of traditional and nontraditional banking products and services. The bank is proud to be a part of the rich history of the Detroit community for more than 30 years. First Independence Bank will continue to grow and remain profitable by providing superior customer service and competitive products and services. NOW, THEREFORE BE IT

RESOLVED, That the entire Detroit City Council hereby congratulates First Independence Bank and Donald Davis on the successful grand opening of its fifth branch. The Detroit City Council extends its admiration and appreciation for their

Planning & Development Department

May 17, 2006

Honorable City Council:

Re: Transfer of Jurisdiction of Surplus Property. Development: 21310-21394 W. Grand River.

The Detroit Police Department has declared the above-captioned property surplus to its needs and requests that the Planning and Development Department assume jurisdictional control over the property (formally the Detroit Police Department 8th Precinct) which consists of a two-story commercial brick structure located on an area of land measuring approximately 143,038 square feet and is zoned B-4 (General Business District).

We are now in receipt of an offer to purchase the captioned property from Grand River & Six Mile, LLC, a Michigan Limited Liability Company, for the amount of \$344,000.00. The Offeror proposes to develop the former 8th Precinct site into a retail shopping center of approximately 20,000 square feet. This will include such stores as a fashion retail clothing store, a shoe store, food establishment and one of the financial institutions. The parking lot will be paved for off street parking for customers and employees. All areas not paved will be appropriately landscaped to enhance the appearance of the site.

Mr. Eddie Bacall and Mr. Zuher Qonja are the owners of Grand River & Six Mile, LLC, a Michigan Limited Liability Company. Within the past five (5) years they have developed several sites within the City of Detroit. These sites includes Seven Mile/Van Dyke, Livernois/Six Mile, Mack/Conner and Livernois/Michigan Avenue. They have also developed an additional fifteen (15) sites in the City including the Walgreens, on Seven Mile/Gratiot. All have been successful developments: Accordingly, Mr. Bacall and Mr. Qonja have the ability, experience and financial resources necessary to successfully undertake, complete and incorporate efficient use of the site.

We, therefore, request that your Honorable Body approve the attached resolution authorizing the Detroit Police Department to transfer jurisdiction of the

above-captioned property to the Planning & Development Department.

Invocation

Today Lord, we your children, who come from varied backgrounds, of different but respective faiths, have come collectively for prayer to acknowledge that we need that balance of spirituality as well as perspicacity to govern the affairs of this great but weakened city.

The Good Book, for some the Bible, for others, a Koran, for others, the Torah, reminds us that God does not change, He stated: I change not (Mal.3:6). Yet, as I pray we have realized that changes have

taken place within and on this Council. We have a new President, who must navigate the affairs of the city with a multiplicity of minds and conduct waves of juggling minds between the Mayor's office and the constituency of council representative to propel a balancing level to bring about resolutions that will aid our city forwardness and progressiveness. Guide his mind.

We pray that their minds might seek your Wisdom, and the experiential wisdom in which you endowed Solomon will seduce favorable acts beneficial for all this Council represents. Yes, you don't change, yet we have four new council representatives, neophyte in the affairs of this city but not novices in sharing and caring for those who have interest of their hearts. They need compelling and usurping prowess to move at snails speed to garner the true essence of governmental affairs.

Lord, you don't change but without your staying balance we are easily willing to sway on sides that best influence us and not necessarily what might best influence the betterment of our city. Help us to understand that we don't have direct answers at times, nor do we have the ready solutions at our finger tips. Teach us that if we sincerely believe in the Spiritual powers we process, allow us to manifest a cognitive life of comradeship and respect to bring about harmonious resolve for this decadent economy.

We are your people. We represent you before we can represent those who voted and called us to speak and act on their behalf. Keep us grounded on the truth when you said: I am the same yesterday, today and for ever (Heb.13:8). Teach us that we too must be the same in our dealing and that we cannot be altered or suited for no other cause but for what is Right. These representatives of the Council have joined forces with old and new members not to be myopic but to perspicacious. May lucidity be apart of all nine men and women who drape this city with allured respect and honorable prowess as governmental agents of the City of Detroit.

Let them lastly be crowned with again the marquee of Solomon wisdom when he instructed us to remember our Creator in the days of our youth, while evil days come not, nor the years draw nigh . . . (Ecc.12:1abc). The evil days are looming and we have begun to see dark shadows cascading the corridors of this nation but Creator, allow the promise of our youth, that said: . . . You would not leave us nor forsake us, . . . be that ever lasting mark of security as they weigh in balance the prodigious affairs of this French founded city.

In your loving Name . . .

We Pray . . . Amen.

Re: Address: 7400-2 Chalfonte, Name: Alfred McClinton, Date ordered removed: October 16, 2002 (J.C.C. p.).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 28, 2006 revealed the building is secured and appears to be sound and repairable. The owner will pay the current taxes due at the closing. The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained.

Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. Re: Address: 62 W. Savannah, Name: Jeffrey Najor, Date ordered removed: September 28, 2005 (J.C.C. p. 2878).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 24, 2006 revealed the building is secured and appears to be sound and repairable. The owner has paid the current taxes due as of April 24, 2006. The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

City Planning Commission
May 19, 2006

Honorable City Council:

Re: Applications for 67 Neighborhood Enterprise Zone (NEZ) Certificates for the Cadillac Residences NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office 67 applications from Cadillac Residences, LLC for Neighborhood Enterprise Zone (NEZ) certificates for the top six floors of the former Book Cadillac Hotel, located at 114 Washington Blvd. These floors would be divided into approximately 67 market-rate luxury residential units. The addresses of these units are: 220 Michigan Avenue, Units 2401-2412, 2501-2512, 2601-2612, 2701-2713, 2801-2812, 2901-2906.

The Cadillac Residences NEZ was approved by City Council on April 12, 2006. The subject properties are confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. It appears that the requests for certificates have been filed prior to construction, as the State Act requires. Cadillac Residences LLC applied for the certificates, prior to the issuance of building permits, on behalf of future owners who will occupy the property. It is appropriate for Cadillac Residences LLC to apply for certificates at this time even if buyers have not yet been identified. The State Tax Commission, however, will not issue a certificate until an owner is identified. When an owner is identified, he or she can then apply for the certificate. At that time, it would not be necessary for City Council to pass another resolution.

The property has received additional public support through a Michigan State Housing Development Authority grant, and a Downtown Development Authority Gap Fund loan. The bottom 22 floors (slated to become a hotel) are the subject of a separate Brownfield Plan. The estimated projected cost for the condominiums is \$16 million.

The City Planning Commission staff, therefore, recommends approval of the requested certificates in the Cadillac Residences NEZ. Please contact Mr. Gregory Moots of my staff at 224-2110 with any questions.

City Planning Commission

May 19, 2006

Honorable City Council:

Re: Installation of Awnings and Signs on the market at 951 West Jefferson in the Riverfront Towers complex (Recommend Approval).

On May 19, 2006 the staff of the City Planning Commission (CPC) received an awning permit application for fourteen awnings to be mounted on the renovated store/deli at 951 West Jefferson, the health club building in the Riverfront Towers (the former Riverfront Apartments) complex. The name for the new store is "The Signature Market". The proposed awnings will be over each of the 14 windows on the building. The name of the market will be painted on several of the awnings. The PCA (Public Center Adjacent District) zoning classification in which the building is located calls for City Council approval of the location and design of exterior modifications following the review and recommendation of CPC (Section 61-11-96 of the Zoning Ordinance). CPC staff has reviewed the application and submits this report and recommendation.

PROPOSED AWNINGS

The proposed awnings are made of canvas and are maroon in color. They will vary in width from 2 to 8 feet, and will project three feet from the building. They will be mounted to a tubular steel frame. Presently there are no awnings on the building.

REVIEW

In accordance with the PCA provisions of the Zoning Ordinance (Section 61-11-96) reviews of proposed construction or modifications such as the awnings proposed should be conducted in light of the following criterion, "Urban design elements of form and character should be carefully considered; such elements include, but are not limited to: richness/interest of public areas through the provision of storefronts, window displays, landscaping, and artwork; color, texture and quality of structural materials; enclosure of public spaces; variations in scale; squares, plazas and/or "vest pocket parks" where appropriate; continuity of experience, visual activity and interest; articulation and highlighting of important visual features." The proposed awnings meet this criterion and would help enhance the retail store and add texture and quality to the building.

RECOMMENDATION

CPC staff has completed its review of the proposed awnings, as has the Planning and Development Department staff. We find that the awnings would be in keeping with the spirit and intent of the PCA zoning district. Therefore, staff recommends approval of the location and design of the proposed awnings. Please find attached the appropriate resolution to effectuate your approval.

By Council Member Tinsley-Talabi:

Whereas, The Marygrove Awning Co. desires to install 14 new awnings on the store/deli at 951 West Jefferson, the health club building, at the Riverfront Towers (the former Riverfront Apartments); and

Whereas, The building is subject to provisions of Section 61-11-96, the PCA (Public Center Adjacent District) zoning classification of the Official Zoning Ordinance of the City of Detroit; and

Whereas, The PCA zoning district classification requires that ". . . exterior alteration of any existing building, structure, or premises, or part thereof, . . . shall be reviewed by the Planning and Develop-

ment Department and by the City Planning Commission for consistency with the spirit, purpose, and intent . . ." of the district and those modifications must be approved by resolution of the City Council following receipt of a written report and recommendation from the City Planning Commission; and

Whereas, both the Planning and Development Department and the staff of the City Planning Commission have reviewed the proposal in order to ensure that the proposed awnings are in keeping with the spirit, purpose and intent of the PCA zoning district classification;

Now, Therefore Be It

Resolved, That the Detroit City Council approves the location and design of the proposed awnings for the store/deli at 951 West Jefferson in the Riverfront Towers described in the foregoing communication from the City Planning Commission staff and as depicted in the drawing prepared by RonandRoman and dated March 15, 2006.

Honorable City Council:

Re: Amendment to Lease Agreement Between the City of Detroit and the Detroit Salt Company, L.L.C.

Under a lease agreement dated December 22nd, 1999, and approved by the City Council on July 16, 1999, the Planning and Development Department has been leasing mineral rights to the Detroit Salt Company, L.L.C. ("DSC"), permitting DSC to mine for salt under certain specified properties which belong to the City of Detroit. DSC has requested certain additional properties be added to the original Lease in order to expand mining operations in areas where salt has been found. The additions will benefit both the City of Detroit and Detroit Salt Company, L.L.C. These additions are included in the exhibit entitled Parcel "A". The proposed Amendment will add these properties and permit the subsequent addition of other properties by written agreement of the parties with the consent of the Director of the Planning and Development Department or his designee.

DSC estimates that execution of this amendment may result in increased royalty revenue to the City of Detroit of \$400,000 over the next two years. This amendment will require that when a complaint is filed

regarding salt mine activities, that the Lessee shall notify the complainant that the complainant should file this complaint with both the Lessee and with the Office of Ombudsman of the City of Detroit.

We therefore request your Honorable Body to authorize the Planning and Development Department Director or his assigned designee to execute an Amendment Agreement to include Parcel "A" to Detroit Salt Company, L.L.C.

Honorable City Council:

Re: Petition No. 4379 — Economic Development Corporation of the City of Detroit, for easements in connection with the Dequindre Cut Greenway Project, in the area of Gratiot and Dequindre, and the Dequindre right-of-way from Woodbridge Ave. to Atwater St.

Petition No. 4379 of the "Economic Development Corporation of the City of Detroit" (EDC), requests the establishment of an easement at the southeast corner of Gratiot Avenue and the Dequindre Avenue / Railroad rights-of-way, in order to serve as a transportation corridor for pedestrians, bicyclists and emergency vehicles, to access the proposed Dequindre Cut Greenway. Also, the EDC also request an easement area, 10.00 feet wide, abutting the easterly line of Dequindre Avenue, from the north line of Woodbridge Street extending southerly to the north line of Atwater Street. Said easement area will consist of the installation and maintenance of conduit and cabling encroaching in certain portions of public right-of-way, for security cameras serving portions of the Dequindre Cut Greenway and the proposed Tri-Centennial State Park.

The request was approved by the Planning and Development Department and the Traffic Engineering Division—DPW. The petition was referred to the City Engineering Division—DPW for investigation (utility review) and report. This is our report.

All other city departments and privately owned utility companies have reported no objections to the establishment of an easement to access the proposed Dequindre Cut Greenway and the installation and maintenance of conduit and cabling encroaching in certain portions of public right-of-way, for security cameras. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Finance Department

May 22, 2006

Honorable City Council:

Re: Finance Department's Responses to the Fiscal Analysis Division's Questions for the Finance Department on Lease Renewals and Extensions at the First National Building (Law, Internal Affairs, & Environmental Affairs).

The following are the Finance Department's responses to Questions received from the Fiscal Analysis Division on March 27, 2006 regarding the First National Building. You will be provided the responses regarding other locations at a later date. The spreadsheet and the summary of the First National Building Lease are on file in the City Clerk's office.

1. Council needs to be given a complete copy of the lease for the First National Building — Exhibits B, C and D are missing from the document given to them.

Please see Attachment A for the signed lease of the 1st National Building. Exhibit B are the floor plans,

which are included. Exhibit C relates to the excess premises of 42,500 square feet, which the City will occupy and not be obligated to pay Base Rent or Operating Expenses. The lessor and the City will identify the excess premises within thirty (30) days of the date the lease is approved by the City Council. City Council will be provided with a copy upon completion. Exhibit D does not exist.

2. First National Building — what is intended to be done with the Lease Improvement Allowance and the Option Improvement Allowance totaling \$1.25 million? Will renovation be done or will it be used as a rent credit?

During the original lease term, the Tenant Improvement Allowance for 1st National is \$937,500, which will be used as rent credits to be spread over 48 months. After the proposed original lease term expires, if the City of Detroit decides to renew the lease with GS Equities, the Option Improvement Allowance will be for \$312,500. At this time, it has not been decided how the Option Improvement Allowance would be utilized.

3. Please provide a schedule of the number of employees and square footage, by department in the First National Building.

The schedule for 1st National is as follows:

Department	# of Sq. Ft.	Employees
Law	86,753	147
Environmental Affairs*	9,517	10
Police (Internal Affairs)	8,750	45
Totals	105,020	202

*Environmental Affairs is considering bringing 5 contractual employees to the 1st National building starting July 1, 2006. Currently, the Environmental Affairs suite can accommodate 9 additional employees. If additional staff moved into the suite, the suite would need to be remodeled. Parking costs would also be increased.

4. Besides Internal Affairs, what other divisions or departments are planning to move into this space?

At this time, there are no plans for another department to move into 1st National.

Respectfully submitted,
MATTHEW A. GRADY, III
Finance Director

By Council Member Tinsley-Talabi:

Whereas, The Finance Department has negotiated a new lease for the First National Building with a start date of January 1, 2006 and a termination date of December 31, 2018 with options for

Re: Proposed Ordinance to Amend Chapter 55 of the 1984 Detroit City Code, *Traffic and Motor Vehicles*, by Amending Section 55-4-28, *Use of a Hand-held Mobile Phone While Operating a Motor Vehicle in a Freeway, Highway, Street, or Alley Prohibited; Not Applicable to a Hands-free Mobile Phone; Exceptions; Burden of Proof; Penalty.*

On May 3, 2006, your Honorable Body passed a proposed ordinance to amend Chapter 55 of the 1984 Detroit City Code, *Traffic and Motor Vehicles*, by amending Section 55-1-1, *Definitions*, and adding Section 55-4-28, *Use of a hand-held mobile phone while operating a motor vehicle in a freeway, highway, street, or alley prohibited; not applicable to a hands-free mobile phone; exceptions, burden of proof; penalty.* On May 16, 2006, the Mayor returned the ordinance to the City Clerk neither approved nor vetoed. Subsequently, the Mayor discussed with Council Member JoAnn Watson, who was the proponent of the original amendment, making enforcement of Section 55-4-28 a secondary offense. It is our understanding that Council Member Watson is in agreement with the Mayor's proposal, and, therefore, this proposed ordinance reflects the same.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, this proposed ordinance is being submitted to your Honorable Body for consideration and passage. We are available to answer any questions that you may have concerning this proposed ordinance.

Thank you for your consideration.

Respectfully submitted,

Honorable City Council:

Re: Correction of Errors and Amendments to the 2006-2007 Mayor's Budget.

After further review of the 2006-07 Budget, presented to City Council on April 12, 2006; errors and amendments have been discovered which should be corrected. There are two categories of corrections. First, there are "substantive" errors, which must be corrected as an amendment to the Recommended Budget. Second, there may have been typographic and/or data entry errors, which do not affect appropriation totals or budget balancing. The "substantive" corrections will be identified with (*), and will be addressed in the attached resolution.

STATEMENT BY COUNCIL MEMBER MONICA CONYERS OF SUPPORT
FOR THE 2006-2007 FISCAL YEAR CITY OF DETROIT BUDGET

City Council should be the voice of the people of Detroit not a rubber stamp during budget deliberations.

I am extremely pleased with the spirit of cooperation between the Kilpatrick administration and the Detroit City Council that placed the citizens of Detroit first as council made tough budgetary decisions without engaging in petty bickering.

Controversial budget decisions such as restoring bulk trash pick-up on a quarterly basis were the direct result of this council responding to the reasonable and understandable outcry of the people of Detroit. I fought to lower the administration's proposed bus fare increase from 75 cents to 50 cents for seniors and the disabled. It would have been great to charge nothing but we simply could not afford to do that.

I did not like instituting to stopgap three hundred dollar annual garbage fee. Frankly, the options to the garbage fee would have severely crippled the ability of city to protect the people of Detroit. We would have been forced to lay off nearly 600 employees including police and firemen. Detroit deserved better. That is why I supported a budget that adequately ensures the safety of our citizens.

It was not easy and I took plenty of heat for providing leadership that challenged the administration to develop and implement a Water Affordability plan. We still have to do more with limited resources to ensure that water is available to all of our citizens.

I will continue to fight to ensure that citizens of Detroit receive their money's worth from city government. When calls are made to the police we must have a reasonable response. City lights must work. City employees must be courteous and respect the people of Detroit. City streets must be clean. Illegal dumping must be stopped. Schools must be safe places to learn. We can do better. We will do better.

STATEMENT BY COUNCIL MEMBER BARBARA-ROSE COLLINS

After much consideration, deliberation and careful review of all amendments and recommendations submitted by the Detroit City Council as it relates to the 2006-2007 Fiscal Year City Budget, I have decided to vote my conscience and vote against the proposed Budget as amended.

Although the 2006-2007 City Budget as submitted by the administration has many fine points and shows evidence of progressiveness, I could not, in good conscience, support the solid waste fee, which will be imposed on the residential citizens of the City of Detroit. Contrary to the majority of the proposed Budget this single provision is blatantly regressive.

It is my belief that this fee will become an even greater burden on the backs of the citizens of the City of Detroit who are at the lower end of the social economic ladder. This provision will clearly give citizens with a higher economic standing a tax break, which will amount to hundreds of dollars, while those who possess holdings of a lesser property value will be penalized with this crippling fee.

It is in my opinion that this fee needs to be reviewed and corrected before it is imposed upon the citizens of this city.

STATEMENT BY COUNCIL MEMBER KWAME KENYATTA REGARDING MY
AFFIRMATIVE VOTE FOR THE 2006-2007 AMENDED BUDGET

I would like to commend the Administration, the Budget Department, my colleagues, and especially our Fiscal Analysis Division for all of the hard work and long hours put into helping address the budget that was presented to this Honorable Body on April 12.

When citizens expressed concern regarding the increase in bus fare for the disabled and seniors, the proposed bus fare increase was lowered from \$.75 to \$.50 to bring D-DOT in line with SMART. When citizens expressed concern regarding the reinstatement of bulk pickup, some progress was made in coming to a resolution, as the Administration agreed to quarterly bulk pickup and weekly yard waste removal. With respect to the solid

waste fee, I firmly stand in opposition. If this Body decides to approve the trash collection fee, I implore my colleagues to ensure that any liens stemming from the trash collection fee do not trigger foreclosure proceedings. We must do all that we can to protect our citizens from losing their homes unnecessarily.

I believe this budget contains realistic projections and it paints a truer picture of the fiscal health of this city. However, I am deeply concerned about balancing this budget and future budgets on the backs of citizens and the working poor.

Historically, Detroiters have accepted increases in taxes and millages to save schools and to save the city. Ironically, Detroiters pay the highest insurance rates in the state, the highest property taxes in the state, and resoundingly feel as if they receive the lowest quality of respect and the lowest quality of city services. Our citizens are victims of high crime and low police response; unlighted, damaged streets; neglected inner-city neighborhoods, suffering schools, and fading recreational outlets. The solid waste fee is a punishment for people who have continued to live and pay unabated property taxes in this city. Many loyal citizens who truly love Detroit will view this fee as the last straw, and will leave.

Attempts at providing redress on behalf of citizens have not been without a fight. To illustrate, when the Administration proposed to increase the water rates, I and four other members of this Council battled for a Water Affordability Plan that was included in this budget with a \$5M appropriation from the Water Department. This small victory merely dents the wholistic support our citizens desperately need from city government. The Water Affordability Plan extends some relief, but not enough.

The solid waste fee, in and of itself, is not breaking the backs of citizens. It is the aggregate of problems that continue to nag, fester and eat away at our citizens' faith in this city's ability to manage debt, revenue, while simultaneously providing quality services.

I am voting for this amended budget because there is no acceptable solution to the \$43M deficit in the Department of Public Works (DPW). Council looked for alternate cuts across the board, but over 580 employees would be laid off, with the majority coming from the Police and Fire Departments. In this climate of crime, I believe that it is in the best interest of our city to retain as many police and fire officers as possible.

However, I must reiterate that I oppose the solid waste fee for all of the reasons previously stated. According to the Administration, the \$300.00 annual solid waste fee is a temporary measure to address the deficit in DPW until the Greater Detroit Resource Recovery Authority (GDRRA) debt is paid off in 2009. As explained to Council, the plan is that the fee will roll back in 2009. In my opinion, the fee should permanently roll away. I will be working diligently to find funding sources to alleviate the additional burden imposed on citizens because of the solid waste fee.

I believe that there must be a fundamental re-engineering of city government that seriously takes into account the consolidation of overlapping departments and the elimination of structural deficit spending. In the upcoming 2007-2008 Fiscal Year, the Administration and Council must earnestly resolve to address these critical issues. We cannot continue to borrow and we cannot continue to balance the budget on the backs of those who choose to stay in this city. I applaud the Administration for walking in the right direction by presenting a pragmatic budget this year, but now is the time to break into a sprint when it comes to providing quality core services for citizens.

STATEMENT BY COUNCIL MEMBER MARTHA REEVES ON THE
ADOPTED 2006-2007 CITY OF DETROIT BUDGET

Since the April 12, 2006 Budget Presentation much conversation has been had at the table and in the community about the City of Detroit and its financial status and the implications of it for the citizens who've chosen to remain in the city they love.

The concern that I heard most as I listened to citizens was their level of service does not coincide with the cost of living in the City of Detroit. Specifically, the concerns raised about the elimination of Bulk Trash Pick Up and the proposed fee for Refuse Collection.

While I understand that our city has seen better economic times it is important to remember our city, in its period of great economic prosperity had far more residents which resulted in more property taxes deposited into the City's General Fund. During our city's time of great economic prosperity residency was a requirement for our uniformed employees, which resulted in wages paid out further boosting our local economy.

I do not wish to harp on days past but I do wish to impart to the citizens of Detroit that in the present this city CANNOT continue to operate as it did in years past. Our budget as adopted May 24, 2006 is a step towards restructuring city government to deliver the services our citizens demand, deserve, and are entitled to in a cost effective manner.

It is important for me to emphasize that this council will revisit the fee for Refuse Collection annually and in 2009 we project that the fee will be lowered substantially as the cost of service decreases with the cessation of our annual payment to the Greater Detroit Resource Recovery Agency.

Most importantly, I wish to impart to the people of this great city my actions today were not taken without careful deliberation and thought. The consequences of not approving

the Refuse Collection fee would be far-reaching and devastating to this city's survival. To be clear, choosing to continue the general fund subsidy without imposing an annual fee of \$300.00 per household would result in nearly six hundred layoffs citywide. The majority of which would occur in the Police Department, Transportation Department, and the Fire Department.

The public health and safety of the residents of this city is my number one priority and we cannot continue to be without bulk trash pick-up or withstand additional layoffs in our Police and Fire departments.

Love and God Bless.

**STATEMENT BY COUNCIL MEMBER ALBERTA TINSLEY-TALABI
REGARDING THE CITY COUNCIL VOTE ON THE 2006-07 BUDGET**

After much deliberation, the Detroit City Council voted to approve the 2006-07 Budget for the City of Detroit that does into effect on July 1, 2006. I voted in support of the budget, as amended by the Detroit City Council, because I believe Council's deliberations and decisions resulted in a prudently prepared budget given the fiscal challenges facing the city.

The two biggest issues that emerged during Council's deliberations on the 2006-07 Budget were bulk trash pick-up and the \$300 annual garbage fee. The mayor originally proposed eliminating bulk trash pick-up. However, citizens demanded that some level of bulk be provided. Working together, the mayor and Council agreed to quarterly bulk service. This joint effort reduced the overall cost of bulk from \$20 million for monthly bulk service to \$9.3 million.

The other controversial issue dealt with charging property owners \$300 annually for regular trash collection and eliminating the current 3 mills. Although I have concerns about the fees as do all of my colleagues, the fee would reduce the city's subsidy to the Department of Public Works and allow those resources to be used to maintain other city services such as police and fire.

Removing the \$300 fees from the budget would have required Council to replace \$43 million with another funding source. The only viable alternative would have been cutting other city departments. Given that police and fire comprises about 50% of the General Fund Budget, replacing the \$43 million would have required further cuts to police and fire. A preliminary report estimated that over 580 employees would have to be laid off to generate \$43 million; over 170 police officers would be included.

Some members wanted to use money owed to the City of Detroit from the State of Michigan as a replacement for the fee. However, it would have been, in my opinion, irresponsible for the City Council to include funds in the 2006-07 Budget that would have never materialized during the 2006-07 fiscal year. Doing so would have created a \$43 million deficit, severely impacted the city's credit rating which would have made it difficult for the city to generate funds for basic services and resulted in unnecessarily layoffs to correct the problem.

Even though the 2006-07 Budget has been finalized, the Detroit City Council must continue to be steadfast in finding ways to further reduce costs and transform the City of Detroit into a more efficient government. Achieving this goal will be determined by prudent and responsible decision-making rather than knee-jerk reaction that will create bigger problems down the road.

**THE DETROIT CITY COUNCIL
2006-2007 FINANCIAL AND BUDGETARY PRIORITIES,
PUBLIC POLICY, PLANNING AND ACTION RESOLUTION**

By ALL COUNCIL MEMBERS:

WHEREAS, The Detroit City Council has held extensive hearings and deliberations on the 2006-2007 budget as proposed by his Honor, the Mayor; and

WHEREAS, On this day, Wednesday, May 24, 2006, the Detroit City Council adopted a budget that is based on sound budgetary principles for municipalities, well reasoned financial assumptions, past performances, stated goals and projections for city departments, divisions and agencies, and in consideration of the profound fiscal uncertainties of the current economy and the anticipated revenue reductions from federal and state funding sources, and

WHEREAS, The Detroit City Council has adopted a budget that incorporates the City Council's fiscal and public policy priorities to provide for improved and efficient government operations and service delivery to all communities, residents, citizens, institutions and businesses in this great city; and

WHEREAS, The Detroit City Council adopted its 2006-2007 Budget including reallocation, reprogramming and restructuring of \$20.3 million in governmental appropriations to be consistent with the priorities of the City Council including providing for bulk trash collection; and

WHEREAS, Although not presently reflected in this budget, shrinking revenue projections and a shrinking population requires the City to undertake a major restructuring of city government that will necessitate a revision of the City Charter to allow for the consolidation of departments and the elimination of divisions and functions that overlap and do not provide core city services; and

WHEREAS, The Detroit City Council recognizes that a major funding source within the Mayor's proposed budget, is the anticipation that all City employees who have not yet accepted a ten (10%) percent reduction in pay for a period equaling one year will do so; and

WHEREAS, The Detroit City Council, through its action in reviewing the Mayor's proposed budget has acted to restore or provide funding for the following:

- Quarterly collection of bulk trash,
- Funding for the Explorer and Drug Prevention Leadership Development programs from the Drug Forfeiture Fund,
- A continuation of the Drug Court's Project Fresh Start,
- One (1) FTE in the Office of Targeted Business Development
- Restoration of partial funding to the Auditor General for two (2) Auditor positions and funding for educational training,
- Three (3) professional positions within the Purchasing Division of the Finance Department to monitor the Living Wage Ordinance,
- Restoration of funding for the City Council to enable the transition from the current committee-of-the-whole structure to a standing committee structure,
- The replacement of antiquated media/video equipment for the daily taping of City Council sessions,
- Partial funding for outside legal counsel for the Office of the Ombudsman; and
- An increase in the subsidy for the Charles H. Wright Museum of African American History; and

WHEREAS, The Detroit City Council has completed its review process for the 2006-2007 Community Development Block Grant (CDBG) program, including review of recommendations by the Mayor, the City Planning Commission and the Citizen Review Committee; and

WHEREAS, During its deliberations, the Detroit City Council was mindful of the 2004 U.S. Department of Housing and Urban Development's (HUD) "City of Detroit Management Report", which raised issues related to the manner in which the City expends HUD funding, and, more specifically, whether the funds are allocated in a manner that increases the quality of life for City residents; and

WHEREAS, the HUD report also stressed the need for the Five-Year Consolidated Plan to be used as the basis for setting priorities for funding, with the highest emphasis placed on housing stabilization, new housing construction for low-income families, homeless services and prevention, services to special and/or underserved populations (especially the homeless, elderly, disabled, domestic abuse survivors, persons with HIV/AIDS, and persons with alcohol/other drug addictions), lead-based paint hazard reduction, anti-poverty measures, and economic development;

NOW THEREFORE BE IT RESOLVED, THAT THE 2006-2007 BUDGET OF THE DETROIT CITY COUNCIL INCLUDES THE FOLLOWING LEGISLATIVE BUDGET PRIORITIES, POLICY AND PLANNING ACTIONS:

1. City Council adopts Schedule B, City Council changes to the 2006-2007 Budget.
2. City Council hereby advises the union leadership and all unionized personnel that have not agreed to a ten (10%) percent pay reduction, that without this cut the City will

continue to face massive budget shortfalls and additional layoffs will be necessary in order to achieve the savings reflected in this budget.

3. The Council is mindful of the many accomplishments the 36th District Court has achieved and believes its efforts should continue to be a priority. Families, citizens and businesses value a community that is both safe and sober. Drug prevention and rehabilitation programs play a critical role in the resurgence of our City. The drug court is a vital and important part of this work, which is why Council chose to move this program into the General Fund. We encourage the Detroit Police Chief to release monies from the Drug Forfeiture Fund for the Explorer program as well as the Drug Prevention Leadership Development program. Additionally, City Council provides \$250,000 for the administration of Project Fresh Start. Council notes that two components of the Court namely, security and building maintenance, have been removed and transferred to the new General Services Department. Council urges the City's Administration to work with the Court to address any shortfall in an effort to ensure the Court's continued viability and success.

4. The Auditor General provides a critical service for the City through its independent audits of city departments and agencies. At no time in the City's history has this work been more important than it is now as the City faces economic instability and financial uncertainty. In recent years, the staff of the Auditor General has been reduced significantly thus impairing their ability to perform. Council has restored two auditor positions and provided additional money for required training to enable them to keep abreast of current legislation and accounting practices.

5. It is the responsibility of the City Clerk to maintain and have published all ordinances of the City as passed by the City Council. The City Charter mandates that an updated Code be published every ten (10) years. It has been more than twenty years since the Detroit City Code was recodified. Funds were initially allocated several years ago but were unencumbered and taken as surplus. The work of the Recodification Committee has resulted in the publication of an RFQ and a firm has been identified to accomplish this task. Council has included \$70,000 in the budget to enable the Committee to move forward with this endeavor.

6. The City Council is in the process of implementing a standing committee structure as mandated by the City Charter. The current manner of operating through a committee-of-the-whole is uncommon to most legislative bodies. While certain efficiencies will be achieved through this move, it is undetermined what staffing levels will be required to operate effectively. Therefore, Council has restored the proposed cuts to its budget until the transition to a standing committee structure is in place. City Council resolves to conduct a thorough evaluation of its funding requirements during the coming fiscal year by reviewing the staff levels of all divisions in order to make the necessary adjustments.

7. The City Council has provided funds for the purchase of media/video equipment upgrades. The equipment currently being used is antiquated, having been purchased in the early 1980's, and is often in need of extensive repairs. It produces an inferior video/audio transmission quality. The purchase of new equipment will cost \$250,000.

8. City Planning Commission (CPC) staff plays an integral role in preparing the Council for its NOF/Block Grant decisions each year. Much time throughout the year is spent conducting site visits, reviewing plans and documents, meeting with prospective NOF recipients and regarding the application process. Because of the extensive amount of effort that is directed to this program, it has been determined that these costs should be supported by the program. Council resolves to explore the possibility of shifting CPC staff costs to the Block Grant Administration Allocation for the 2007-2008 fiscal year recognizing that this will require a reduction in the Planning and Development Department's costs for the same program.

9. Council also believes it is necessary to amend the current ordinance governing the actions of the Department of Administrative Hearings in an effort to adjust fees that are assessed in order to make the rates more appropriate to the violation.

10. The Detroit Department of Transportation (D-DOT) has required increased subsidies from the General Fund in recent years. In an effort to reduce costs, the department has been streamlined and routes eliminated or the number of runs reduced. These changes have not been enough. D-DOT continues to lose riders to the SMART transportation system. In order to keep D-DOT from operating at a competitive disadvantage the Council has agreed to institute a fee schedule for seniors and the disabled that mirrors SMART. Effective July 1, 2006 a fifty-cent (\$0.50) fare for seniors and disabled riders will be introduced. Transfers will be included in this fare. Council will research the funding mechanisms of other transportation systems in order to reduce the burden on the General Fund.

11. The City Council recognizes that the current three-mill property tax falls far short of the amount necessary to cover the costs of trash collection within the city. The Council is also cognizant of the feelings expressed by citizens who do not want to pay an additional fee for a service that has, until now, been a benefit to all residents. The cessation of bulk trash collection and the initiation of a fee for garbage pick-up was something the

Council struggled to avoid. After exhausting all practical possibilities for funding trash and bulk collections, it is with great reluctance that the Council concedes to the temporary imposition of a \$300.00 annual service fee for the collection of solid waste. This fee will be in effect for three years but will be reviewed at least annually to determine whether the fee can be reduced or eliminated. In 2009, the debt service on the Greater Detroit Resource Recovery Authority incinerator will be retired thus freeing up funds that can be used to cover trash collection costs.

12. In consideration of the public response to the institution of a fee for garbage collection the Council has required that the current millage for trash collection be suspended during this three (3) year period. City Council requests that the Law Department provide a legal opinion whether it will be permissible to reinstate the three (3) mills for garbage collection without a vote of the people. It is Council's desire that any new lien resulting from non-payment of the trash collection fee not initiate foreclosure proceedings and to this end Council also resolves to explore alternative methods for enforcement.

13. In furtherance of Council's efforts to provide Detroit residents with the services we believe all residents deserve, Council has identified a source of funding to provide citizens with a quarterly pickup of bulk trash.

14. The Mayor's budget includes an Executive Organization Plan (EOP) that moves the Consumer Advocacy function and the Senior Citizens Advocacy function of Consumer Affairs to the Recreation Department. The Council believes the citizens will be better served by placing these functions and staff within the Neighborhood City Halls. Some recreation centers within the city are closed. This action will position these services in an environment that is easily accessible to the public and in association with staff experienced in providing assistance to the public.

15. The proposed EOP also designates the 311 Call Center and the Citizen's Radio Patrol placed under the control of the Mayor's Office. However, the Mayor's budget reflects the funds for these operations within the Non-Departmental. The City Council believes the budget should reflect reality and has reallocated these monies to the Mayor's Office.

16. The City Council believes it is imperative that there be complete compliance with the City's Living Wage Ordinance. To that end Council has funded three (3) professional positions within the Finance Department to monitor compliance.

17. The City Council has also provided funds to enable the Office of Targeted Business Development to add one Full Time Equivalent (FTE) position in order to comply with ordinance requirements and meet the expected goals and standards for the office.

18. The Fireboat is a key component of the City's ability to respond to fire emergencies on the riverfront for Detroit and the City of Windsor. The Detroit River is also an international border and must be protected against threats both domestic and from abroad. The City Council resolves to use its efforts to explore expanded use of and alternative sources of continued funding for the Fireboat including the use of Homeland Security Grants and the support of other cities, both domestic and international, on the riverfront.

19. City Council received a request from the General Retirees Association for pension improvements for retirees who separated from the City prior to 1987. While sympathetic to the needs of the retirees, Council was unable to fully consider this request because the actual costs were indeterminate. Therefore Council resolves that all future requests for pension or benefit increases must be accompanied with an actuarial valuation detailing the current and proposed benefit costs of annual and total cost basis.

20. City Council has provided \$53,000 to provide a dental and optical benefit improvement request for the widows of uniformed personnel who retired prior to 1987. The Council has granted this request because of the relatively small number of persons this will affect. Any future benefit request must be accompanied by and actuarial report that shows current and future costs of the proposed improvement.

21. Increases in pension benefits have an effect that goes far beyond present costs. Every benefit increase also increases the Unfunded Actuarially Accrued Liability that is borne by the City. The City Council urges both civilian and sworn retiree associations to begin an ongoing dialogue with the employee unions and the Administration regarding these issues in an effort to eliminate the need for yearly requests.

22. City Council urges the General Retirement System to give serious consideration to the suspension of distribution of excess earnings in the form of a 13th (thirteenth) check that is currently provided to active and retired employees, unless the pension system is fully funded for a period of time.

23. City Council has been unsuccessful in its attempts to monitor the funds that are received or dispersed through the Department of Homeland Security. Therefore, the Council advises the Administration that the City Council's Research & Analysis Division shall be responsible for reviewing all grants prior to the Council's acceptance. Council also urges the Administration to ensure that the Homeland Security Director appears before Council and provides written reports to Council on a quarterly basis.

24. Council also directs the Administration to create a separate appropriation for the Fusion Center and advise the Council of the department staff that is paid by federal funds.

25. The Charles H. Wright Museum of African American History is an important institution within the City of Detroit. The Council has added \$400,000 to the Mayor's appropriation in order to meet the Museum's request of \$1.8 million.

26. As pertains to the prior year deficit, Council has given great scrutiny to the relative positions advanced by the Administration and the advice of its own Fiscal Analysis Division. Council has accepted a number of initiatives advanced by the Administration that must be brought to fruition in order to achieve a balanced budget in this fiscal year. To accomplish this goal, Council will closely monitor the components that make up each projection outlined in the Administration's analysis.

27. Additionally, Council has determined that it must monitor the revenue projections as well. In order to accomplish this, Council will initiate a Revenue Consensus Strategy whereby the Administration and City Council will meet on a quarterly basis in order to reach a consensus as to the City's true financial picture.

28. City Council has elected to include \$3 million to offset the interest payments on the Revenue Anticipation Notes and the Tax Anticipation Notes. Given that the City is in the process of issuing these notes, Council has determined this is not only a prudent, but necessary, course of action under existing state law.

29. City Council encourages the Administration to include the rent to be paid by the Recreation Department for use of the Northwest Activities Center in all future budgets.

30. The City Charter provides that the Office of the Ombudsman has the right to obtain outside counsel when necessary. The Council recognizes this right and provides \$50,000 in funding for the use of outside legal counsel.

31. While the Council does not agree with many of the recent changes within the Recreation Department, it realizes there are few alternatives considering the financial condition of the City. After reviewing the Strategic Master Plan, the Council is relying on the Mayor's promise to provide funding for the department so that it can return to a position of prominence as one of the core services the citizens deserve.

32. Council is providing funds to enable the Board of Review to perform its work for an additional two (2) weeks each year.

33. Council strongly encourages the Administration to provide a quarterly update regarding the implementation of the new General Services Department to keep Council abreast of the changes and the achievement of anticipated benchmarks.

BE IT ALSO RESOLVED, Council hereby calls for a revolutionary restructuring of City government that will involve revising the City Charter to allow for the consolidation of departments and the elimination of divisions and functions that overlap or that do not provide core city services; and

BE IT FURTHER RESOLVED, Council and the Administration will work together to explore all possible avenues, including legal remedies, to secure for the City of Detroit unpaid revenue sharing and any other funds overdue from the State of Michigan; and

BE IT FURTHER RESOLVED, That Council demands comprehensive monitoring and enforcement of all contracts and regular review of vendors doing business with the City to ensure strict compliance of policies, procedures, and ordinances such as the Living Wage Ordinance and Executive Order 22; and

BE IT FURTHER RESOLVED, That at least once during each quarter the City Council review the matters contained within this resolution to monitor compliance; and

BE IT FINALLY RESOLVED, That the City Clerk is directed to provide a copy of this resolution to the Mayor, the Budget Director and all agencies, departments and divisions of the City of Detroit upon publication.

Honorable City Council:
Re: Petition No. 4380. Detroit Medical Center — Wayne State University DMC — Main Campus. Partial Vacation(s) of Brush Street Mall in the area bounded by John R, Beaubien, Mack and Canfield.

City Council adopted a Project Plan for the Medical Center Rehabilitation Project No. 2 on March 1, 1966. That Plan provided for public street and alley modifications. Over forty years of expansion projects include various hospital operating facilities, Wayne State University — Medical School buildings, and condominium structures that enfold the Brush Street Mall at the Detroit Medical Center (DMC — Main Campus). A variety of permitted hospital support facilities, an existing tunnel system; also the existing DMC telecommunication cable and equipment network intertwine beneath the surface of the Brush Street Mall at the DMC — Main Campus.

NOTES: The City Engineering Division — DPW participated in the review of reference engineering drawings known as Job No. DMC-1, dated October 24, 1985, prepared by Harris McBurney Services, Inc. This project permitted the placement, easements and maintenance of underground (UG) lines for the existing DMC telecommunication cable and equipment network. A joint document, "Declaration of Easements" — containing covenants that bind lands owned by DMC — Hospitals, Wayne State University and the City of Detroit — is dated October 31, 1985 and recorded in Liber 22728, Pages 097-119, Wayne County Records.

DTE Energy — Edison Company, DTE Energy — MichCon Gas Company, Detroit Thermal L.L.C. and the Water and Sewerage Department (DWSD) reviewed the Brush Street Mall, "Wertz Center — Expansion Area A". Necessary conditions that obligate "Detroit Medical Center — Wayne State University" to protect and/or relocate certain utility installations are part of the resolution.

All other involved city departments and privately owned utility companies reported no objections to the outright vacation. Provisions protecting certain utility installations within Brush Street Mall are part of the resolution.

I am recommending adoption of the attached resolution.

Whereas, The Detroit Medical Center

is unable to find a City Council resolution that will permit part(s) of the Brush Mall at the DMC — Main Campus to be conveyed into a condominium form of ownership. (1) Vacate and convert into a private easement for public utilities, part of the Brush Street Mall (described in the Council resolution adopted on January 12, 2000 — J.C.C. pages 80-81); and

(2) Outright vacate part of the Brush Street Mall, "Wertz Center — Expansion Area A"; subject to conditions that obligate the relocation of certain existing public utilities.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report:

RESOLUTION ON SETTLEMENT OF LABOR AGREEMENT WITH AFSCME
By COUNCIL MEMBER JONES:

WHEREAS, The City of Detroit, due to its financial difficulties, has sought large concessions from AFSCME in the area of Health Care and Wages; and

WHEREAS, On May 22, 2006

AFSCME has informed the City of Detroit that it has agreed to significant concessions by accepting the City's Last Best Offer. NOW, THEREFORE BE IT

RESOLVED, The Detroit City Council extends its support for the leadership of AFSCME and its pledge to its members and the employees of the City of Detroit that the City will not forget their sacrifice and calls upon the Mayor to continue to work in good faith with AFSCME on the consummation of an agreement based on the City's proposal of April 27, 2006.

STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN OPPOSITION TO RESOLUTION ON SETTLEMENT OF LABOR AGREEMENT WITH AFSCME

On Wednesday, May 24, 2006, I voted no on the resolution above. On April 27, 2006, the City made its last best offer to the American Federation of State, County and Municipal Employees (union) which the union rejected. Thereafter, the City and the union were engaged in a hearings process before a fact finder appointed by the Michigan Employment Relations Commission (MERC).

During the tail end of these proceedings, the union moved to withdraw its petition for fact finding and accepted the April 27 offer. The city however declined to accept the union's acceptance. Part of the rationale for declining the union's acceptance was because too much time had elapsed and that it would not be possible to implement the terms of the last best offer to realize the necessary savings. Therefore, the April 27 offer was no longer under consideration.

Today, the Detroit City Council passed the resolution referenced above which "calls upon the Mayor to continue to work in good faith with AFSCME on the consummation of an agreement based on the City's proposal of April 27, 2006."

As one member of this Council, I believe that it is poor policy for the legislative branch of the City to interfere in labor negotiations. We do not have an in-depth understanding of all of the details and strategies involved in negotiating with our unions. We are not intimately aware of all of the possible ramifications of accepting any particular proposal. In this, the executive branch of the City is entrusted with the duty of negotiating with its labor force in good faith and that process is ongoing.

It is our overriding duty to act in the

best interests of the City as a whole rather than to act as the handmaiden of a special interest such as a labor union. This is best achieved by putting faith in the established process of negotiation between the union leadership and the City's executive branch noting that the process is overseen by MERC and ultimately, the Council through its final approval authority. For all these reasons, I voted no.

DETROIT CITY COUNCIL'S 2006-2007 BUDGET

To the Taxpayers of the City of Detroit, Honorable Colleagues and Mayor Kilpatrick.

Detroit is at an exciting crossroads. We know we have the potential to be as great as we imagine being. We proved that to the nation on more than one occasion. Once, when we hosted the National Baseball League All-Star Game in June of 2005 and again this February in hosting Super Bowl XL. We will need to replicate this Herculean effort each day of our collective lives — as we move forward into the 2006-2007 fiscal year.

As many of you know, last year City Council took the dramatic and historic step of rewriting much of Mayor Kilpatrick's budget. Historically, changes made by City Council to the Mayor's budget have amounted to, on average, 1% of the overall budget. Last year, Council's changes to the proposed 2005-2006 budget amounted to 33% of the overall budget.

Because of this, there were doubtless many who were expecting Council would do something similar with the Mayor's 2006-2007 fiscal year budget. This was not the case.

Our changes to the 2005-2006 budget were motivated largely by concerns about that budget's over-reliance on dubious funding sources like a fast food tax and the regionalization of Cobo Hall and the Detroit Department of Transportation.

We are grateful after this year Mayor Kilpatrick presented City Council with a proposed 2006-2007 budget that was grounded in reality. As a result, while the Council has indeed made what we believe to be important changes, surgery in this case was done with a scalpel rather than a broadsword.

COMMUNITY DEVELOPMENT BLOCK GRANTS

The City of Detroit has a vested interest in the redevelopment of those neighborhoods that are hurting and in the sustainability of those that continue to thrive. The City Planning Commission (CPC) staff plays a critical role in preparing City Council for its decisions in allocating Community Development Block Grant (CDBG), Neighborhood Opportunity Fund (NOF) dollars. City Council wants to continue to use these funds to enrich the quality of life in Detroit neighborhoods.

However, we also recognize that we will also have to do this against the backdrop of policy discussions in Washington D.C. which could affect the future of this program. President Bush last year announced his intention to eliminate the Community Development Block Grant program and shift the dollars to the U.S. Department of Commerce. Though widespread bi-partisan opposition this move blocked it in 2005, the writing is clearly on the wall. Future CDBG allocations are not guaranteed.

The US Department of Housing and Urban Development's CDBG distributions to Detroit have been declining steadily for several years. The 2006-2007 CDBG amount is \$43,719.53, a 7.8% decrease from our last fiscal year amount. More than 330 proposals for CDBG and NOF were submitted by community-based organizations and public service agencies throughout the city including 33 from new groups.

Therefore, City Council will be meeting in September to consider new priorities for the spending of these dollars. This could include a plan to target these dollars based on geographic areas as well as to fund a smaller number of groups with larger amounts of money so that these groups could have a greater impact.

City Council will also explore the possibility of shifting CPC staff costs to the Block Grant Administration Allocation for the 2007-2008 Fiscal year.

Historically, one of the major activities funded through CDBG is demolition. Over the past 20 years over \$225 million in CDBG funds have been spent and over 30,000 structures have been demolished. For 2006-07 the Mayor has proposed spending about \$7.2 million on demolition and the Council has concurred with this amount. This represents about a \$1.5 million decrease from 2005-06.

In other areas of the CDBG budget, the Council has made significant changes. The Council's CDBG funding allocations include over \$1.1 million more than the Mayor for

public services operated by community-based organizations and agencies. The Council also increased funding for economic development activities by over \$500,000 than the Mayor's amount.

Realizing that there continues to be a dire need for home repair for low and moderate income home owners in our city, the Council increased the amount of funding for home repair activities by over \$1.2 million more than what the Mayor recommended, providing funds in response to requests from 39 organizations, while the Mayor recommended 25 groups. There is a clear and growing need to make the preservation of housing for low-income individuals, families and seniors a priority. City Council has continued providing funds for economic development projects including the New Paradise Valley Business District. The City Council also provided funds for public facility rehabilitation, jobs and health services.

TRASH FEE AND BULK TRASH SERVICE

One of the most controversial proposals in the Mayor's 2006-2007 fiscal year budget was a call for an annual \$300 fee for regular garbage pickup. After much deliberation and analysis the City Council has agreed to support inclusion of this fee in the budget.

In a perfect world, the implementation of this fee would not be necessary but as we all know, it is not a perfect world. It has become clear to City Council that as we continue to wrestle with declining financial resources, many established methods of service delivery must change to ensure our survival.

As an alternative, to imposing this fee, the City Council explored making across the board cuts in personnel to almost all major departments to produce the \$43 million needed to fund weekly garbage pickup. The findings of our Fiscal Analyst showed that to produce this dollar amount, the city would need to lay off 581 employees including 172 police officers and 73 firefighters. This was unacceptable.

For this reason, the Council has opted to support use of this fee at this time. However, we plan to monitor closely its implementation as well as explore alternative funding mechanisms that would allow the city to eliminate this fee. Because the Council also remains concerned about widespread foreclosures throughout the city, we are also exploring ways to collect this fee from delinquent homeowners that will not involve this placement of liens on their property.

The Council has also listened to the cries of outrage from citizens everywhere from North Rosedale Park, to Corktown, to Core City, to Brightmoor, to East English Village about the elimination of bulk trash. As a result, bulk trash pick up will return in the 2006-2007 fiscal year.

It is worth repeating at this time that City Council never called for the elimination of bulk trash. In fact, during last year's budget process and in recognition of our fiscal constraints, Council identified funding for bi-monthly bulk trash pickup. Nevertheless, Mayor Kilpatrick chose to eliminate bulk trash pick up beginning in February of this year.

However, the numerous complaints about the elimination of bulk trash pick up and its impact on our city's cleanliness, health, and safety could not be ignored. City Council identified \$9.2 million in funding for this service through a combination of surplus dollars in the Mayor's Office of Targeted Business Development, revenue generated from various pending fee increases in the Police and Public Works Departments, and increased revenues from the Waging Tax.

Our discussions with the Kilpatrick administration have produced what we believe will be an effective compromise: Quarterly bulk trash pickup. Additional, good news is that the city will also soon be incorporating a more effective system for the pick up of yard waste in our regular weekly garbage pickup schedule during the warm weather months.

The Kilpatrick Administration has indicated that they are targeting November to resume the bulk trash service so that they can ramp up education efforts that will inform Detroiters about how this new process will work. We have asked them to consider moving up this timetable in accordance with the wishes of so many of our citizens.

Though this is good news we also want to stress that we support the enhanced enforcement efforts targeted at illegal dumping that the Mayor has recently announced. We also call upon our citizens, our community groups, and our churches to assist in educating their neighbors about this process so that innocent, well-meaning citizens are not unfairly ticketed because of unfortunate mistakes.

DEPARTMENT OF TRANSPORTATION

We believe that an effective public transportation system is of paramount importance to our citizens. In this spirit we recognize the need for a regional solution to our public transit problems. The Detroit Department of Transportation (D-DOT) costs our general fund roughly \$83 million annually. It is important to note that Detroit is the only city in the nation without a dedicated source of revenue for its bus system.

For the coming fiscal year, Mayor Kilpatrick proposed assessing our disabled bus riders a .75 fare. Council has chosen to go a different route by passing an ordinance which calls for a .50 cent fare for disabled riders AND senior citizens who up to this point have rode for free.

This was not a decision that was arrived at lightly and was made after extensive discussion with D-DOT officials and three public hearings. Though we have nothing but love for our cherished senior citizens, we believe that singling out one vulnerable group for a fare increase while holding another one harmless is not only unfair but could leave the city open to a legal attack on grounds of disparate treatment.

Furthermore, we also believe it will generate at least \$2.4 million in revenue in the long run for our cash strapped bus system. We take this fare proposal increase into account considering that no other major city offers its citizens free bus fares. In an effort to reduce costs the department has been streamlined and routes eliminated or the number of runs reduced. These changes have not been enough. D-DOT continues to lose riders to the SMART Transportation system.

In order to keep D-DOT from operating at a competitive disadvantage the Council has agreed to institute this new fee schedule for seniors and the disabled, which mirrors SMART's effective July 1, 2006. The financial climate of our city demands that everyone has to share in the cost burden.

LIVING WAGE ORDINANCE

In this 2006-07 City of Detroit budget — the Detroit City Council, again listening to the voice and the vote of the people, sought to strengthen the Living Wage Ordinance. Detroit's living wage ordinance seeks to bring workers above the poverty line.

Studies have shown that workers who earn a living wage show increased productivity, turnover at a lower rate, and show increased morale. It is the opinion of this Council, that no matter the skill level, workers deserve a living wage to adequately support themselves and their family.

In 1998, the people of Detroit voted by an overwhelming margin of 81% to enact a living wage ordinance. We are proud to announce that the Detroit City Council will fund three positions in the Purchasing Department to fully execute the data gathering and compliance monitoring called for in the ordinance. Though it may seem counter-productive to fund new positions in a time of budget woes, Council recognizes that the Living Wage ordinance is not only a law but also a law that Detroit's voters have overwhelmingly spoken in support of. For this reason, we believe the city must ensure that those who do business with the City of Detroit are complying with this law.

Council will also pursue an amendment to this ordinance that will allow these monitors to be transferred to the Human Rights Department, a department that is better equipped for the task of monitoring contract compliance with city law.

OTHER GOOD NEWS BY WAY OF THIS BUDGET WILL BE REFLECTED IN COUNCIL'S BUDGET RESOLUTION INCLUDES:

Implementation of a Standing Committee Structure within the Detroit City Council will improve Council's efficiency and time management, cultivate expertise, and will allow for in-depth investigation of matters important to the citizens. To ensure that the 2006-2007 budget is being properly implemented, the new Committee Structure will include a Budget Committee who will monitor and oversee this and all future fiscal year budgets.

Secondly, Council is prepared to amend the current ordinance impacting the fee structure of the Department of Administrative Hearings (DAH) in order for the department to align fine structure with pertinent violations.

Furthermore, in Council's closing resolution, we will recommend strong language that will support drug intervention programs through the Detroit Police Department using drug forfeiture fund. This is a no-brainer given the fact that since January there have been over 100 narcotic-related deaths in Wayne County alone. Illegal narcotics being sold on our streets today have created an environment of intimidation and fear that must stop.

RESTRUCTURING DETROIT CITY GOVERNMENT

We believe that the budget presented by Mayor Kilpatrick contained tentative steps toward the reengineering and restructuring of City Government. We believe that this is something that must take place. While the Council doesn't necessarily embrace all the recommendations presented in a separate document by the Mayor's Next Detroit Transformation Team, it is clear that City Government cannot continue to operate the way it has in the past. Failure to change and evolve to reflect changing times can only lead to stagnation.

Council agrees with the administration's goal of restructuring health care. Personnel costs, especially legacy costs associated with pensions and healthcare have burdened this and future budgets in an inordinate way. If the headlines about exploding health care and pension costs in the airline and automotive industries have taught us anything it is that no organization, private or public is immune from this problem.

While we are encouraged by the news late yesterday that some of our unions have chosen to accept the Kilpatrick Administration's last best offer in contract negotiations the full ramifications of this have yet to play out and be understood. What we do know, is that Detroit's Health care costs have climbed to over 80 percent of salaries. The City Council agrees that if this matter is not addressed across all city departments and addressed quickly it threatens to cripple our city and stifle our efforts and renewal.

CLOSING

Considering the financial constraints that face our great city it is imperative that all methods of addressing the budget shortfalls are taken into account and given serious consideration. During the budget hearings the City Council conducted a prudent and painstaking review of the Administration's objectives for the 2006-2007 fiscal year.

Council's willingness to accept many of the Administration's solutions should indicate to the Administration that while the City Council may have different priorities, it is our responsibility to review, question, and understand each and every proposal. We are also pleased to note that this year's budget process involved what was arguably an unprecedented level of cooperation between the Administrative and Legislative branch.

We hope that this fact hasn't been lost on the Mayor and that this process will serve as a model for better appreciation of the give and take between the two branches of city government. At the end of the day, everyone is served to a greater extent when both branches work together.

Ralph Waldo Emerson once said that, "What lies behind us and what lies before us are tiny matters compared to what lies within us." And today, what lies within us will determine our course of actions, the strength of our convictions, and the measure of our faith as we collectively bring the City of Detroit to world class status that we know she can and will achieve. Together, as a community, as a city, and as a great people we will prevail.

Dear Heavenly Father,

I thank You for this day.

I thank You for Your grace and mercy, and I thank You for loving us the way that You do.

I thank You for allowing these men and women to realize that they can do nothing without You. It is in You they live and move and have their being.

Today Father, we lift them up before You as they prepare to make decisions for the city.

Father, please give them wisdom, knowledge and understanding, so that they will make the decisions that You want them to make.

Give them a clear vision of the city, and help them to see the time in which we live. Help them to realize that because You are the Creator, You have the answer to all the questions, and the solutions to all the problems, and as they yield themselves to You and become conduits, You can flow through them.

Bless them today and we will give You the praise, in Jesus' Name.

May 2, 2006

Honorable City Council:

Re: Authorization to accept and expend a grant from the Great Lakes Commission for the 2006 Rouge Park River Clean-Up project.

The Detroit Recreation Department is hereby requesting the authorization of your Honorable Body to accept and expend \$4,828.50 from the Great Lakes Commission for the 2006 Rouge Park River Clean-Up project. The Department is further requesting your authorization to accept, for this project, cash and in-kind donations from The Friends of the Rouge and Friends of Rouge Park organizations, which have a value of \$2,102.50.

The total project, in the amount of \$6,931.00, will remove debris along the banks of the Rouge River and its tributaries in Rouge Park. The goal of this project is to remove debris in and along the banks of the Rouge River and its tributaries in Rouge Park. The park encompasses more than 2 miles of the Main Branch of the Rouge River, and has several minor tributaries. The goal of the project will be to clean the accessible areas of the river and tributaries. We hope to recruit over 300 volunteers and remove at least 300 cubic yards of material. The Clean-Up will be held on Saturday, June 3, 2006 (rain day — one week later on June 10, 2006) in conjunction with Friends of the Rouge's (FOTR) annual river cleanup (Rouge Rescue) and the Friends of Rouge Park's (FORP) annual Rouge Park Appreciation Day.

Volunteers will be recruited through local Scout Councils, community organizations and businesses. Site coordinators will be recruited from the local volunteers. Volunteers will be treated to a picnic lunch and entertainment in Rouge Park as part of the festivities, following the Clean-Up.

In order to accept and expend these funds, the Department requests authorization to set up Appropriation No. 12174. Within this Appropriation, the Grant of \$4,828.50 will be received in Organization No. 398451.

We respectfully request your approval to accept and expend these funds by adopting the following resolution, with a Waiver of Reconsideration.

Re: Four (4) Neighborhood Enterprise Zone (NEZ) Certificate Applications for new housing in the Woodbridge Estates NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office four (4) applications from Scripps Park Associates, LLC for Neighborhood Enterprise Zone (NEZ) certificates at 4329, 4333, 4337, and 4341 Miracles Blvd. within the Woodbridge Estates NEZ. Your Honorable Body approved the Woodbridge Estates NEZ designation on September 19, 2001. City Planning Commission staff has reviewed the applications and recommends approval.

The properties involved are confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. Scripps Park Associates, LLC has applied for the certificates, prior to the issuance of building permits, on behalf of the future owners who will occupy the property. It is appropriate for them to apply for certificates at this time, even if buyers have not yet been identified. The State Tax Commission, however, will not issue certificates until owners are identified. When owners are identified, they can

then apply for the certificates. At that time, it would not be necessary for City Council to pass another resolution.

The petitioner proposes to build two and three bedroom townhomes. The sites have been cleared and construction will begin soon. The developer will need to submit to the State Tax Commission the parcels to receive the certificates with a map showing the parcels.

July 1, 2006, the start of the new 2006-07 fiscal year, the permanent cost centers will be in place. Two (2) of the temporary cost centers require additional funding to complete their set up, for a total of \$104,119.00. TESTIMONIAL RESOLUTION FOR

SOJOURNER TRUTH

By ALL COUNCIL MEMBERS:

WHEREAS, Born into slavery as one of the youngest of thirteen children of James and Elizabeth in Hurley, which is in Ulster County, New York, in approximately 1797, Sojourner Truth's given name was Isabella Baumfree. Almost all of her brothers and sisters had been sold to other slave owners. Some of her earliest memories were of her parents' stories of the cruel loss of their other children, and

WHEREAS, Isabella was sold several

times to various slave owners and suffered many hardships under slavery, but throughout her life she maintained a deep and unwavering faith that carried her through many difficult times, and

WHEREAS, In 1817, the New York State Legislature passed the New York State Emancipation Act, which granted freedom to those enslaved who were born before July 4, 1799. Unfortunately, however, this law declared that many of those men, women and children could not be freed until July 4, 1827, ten years later. While still enslaved and at the demand of her then owner, John Dumont, Isabella married an older slave named Thomas, with whom she had a least five children — Diane, Peter J. Hannah, Elizabeth and Sophia, and

WHEREAS, As the date of her release came near — July 4, 1827 — she learned that Dumont was plotting to keep her enslaved, even after the Emancipation Act went into effect. For this reason, in 1826, she ran away from the Dumont plantation with her infant child, leaving behind her husband and other children, and

WHEREAS, Isabella had always been very spiritual, and soon after being emancipated, she had a vision that affected her profoundly, leading her — as she later described it — to develop a "perfect trust in God and prayer". In 1843, deciding her mission was to preach the word of God, Isabella changed her name to Sojourner Truth — her name for a traveling preacher, one who speaks the truth — and left New York. That summer she traveled throughout New England, calling her own prayer meetings and attending those of others. She preached "God's truth and plan for salvation", and

WHEREAS, Throughout the 1870s, Sojourner Truth continued to speak on behalf of women and African Americans. Failing health, however, soon forced Sojourner to return to her Battle Creek, Michigan home, where she died on November 26, 1883, and

WHEREAS, This brief recounting of Sojourner Truth's life story only begins to speak of her faith, courage, intelligence, and steadfastness in the face of extraordinary circumstances and volatile times in our nation's history. though she could neither read nor write, her eloquence commanded the attention of thousands of Americans, both black and white. It therefore comes as no surprise to learn that among her many friends, admirers and staunch supporters were Frederick Douglass, Amy Post, Olive Gilbert, Parker Pillsbury, Mrs. Francis Gage, Wendell Phillips, William Lloyd Garrison, Laura Haviland, Lucretia Mott, and Susan B. Anthony, and

WHEREAS, The legislation we are introducing today pays tribute to

Sojourner Truth by calling for her inclusion in the portrait monument with three of her fellow leading suffragettes. That is why this legislation has the strong bi-partisan support of so many of my colleagues and of many organizations, including the National Council of Women's of Women's Organizations, The National Congress of Black Women, and Women Empowered; NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council supports the movement to honor Sojourner Truth with a bust at the United States Capitol Rotunda; along with other pioneers of the Women's Suffrage Movement.

COMMUNICATIONS FROM: Mayor's Office

June 2, 2006

Honorable City Council:

In all my years as a resident and as an elected official, I do not believe that the City of Detroit has experienced or witnessed a better budget process than the one that produced the 2006-2007 Fiscal Year Budget. I acknowledge the hard work and diligence of each City Council member during this process to produce a balanced budget with initiatives that will strengthen the financial position of the City of Detroit.

As we work our way out of the fiscal challenges that we are experiencing and transform into the NEXT Detroit, we will have to continue to make bold and strategic decisions to keep the City's costs in line with its spending, relieve the City of debt; and allow us to create the leverage to attract investment and job opportunities. Therefore, it will always be incumbent upon us to make those decisions while remaining focused on the future of our City and our citizens.

I am proud to say that this budget is reflective of two elected branches of government moving in one accord to achieve the greatest efficiencies as one government serving all people. An example would be the new General Services

Department that I proposed and Council approved in this budget. This will allow the City of Detroit to streamline procurement and contracting processes, thus realizing tremendous cost-savings. Most importantly, this new department will allow other departments to remain focused solely on service delivery and how to improve upon those services, free of certain administrative duties.

A point of clarification, in the Council's wisdom, the decision was made to move certain independent operations under the direct supervision of the Mayor's Office. I agree that under the executive supervision of the Mayor's Office, the integrity of such critical functions performed by Senior Citizens, Consumer Advocacy, 311 and Citizen CB Patrol, is preserved. However, it should be clear that the \$2,402,051 associated with those functions and employees are not reflective of a staffing increase or an increase in the Mayor's Office administrative budget. Since 2002 the budgeted positions in the Mayor's Office have been reduced from 85 positions to 69 in this fiscal year. The current staffing level in the Mayor's Office represents the lowest it has been since 1994, when it was 77 positions.

Council's action to approve the Solid Waste Fee showed tremendous courage despite uncertainty that temporarily overcame our citizenry. While change often comes amid great struggle and challenges, City Council acted responsibly by passing the fee that substantially lowers the City's General Fund obligation to subsidize the cost of trash collection and disposal.

Indicative of our ability to compromise in the best interest of our citizens was the restoration of bulk curbside pickup on a quarterly basis. As we launch what will be the most aggressive illegal dumping effort in the City's history, I recognize the need for providing a scaled back version of the monthly service, but at a substantially reduced cost. I am comfortable that we will be able to effectively eradicate illegal dumping in the City of Detroit and keep our city clean by doubling our environmental inspectors in the Department of Environmental Affairs; hiring 33 new public works employees responsible for cleaning up illegal dump sites; and adjudicating offenders through the efforts of the Department of Administrative Hearings.

I believe that the 2006-2007 Fiscal Year Budget proceedings was one that should be encouraging to Detroiters. The deliberation and compromises that took place is an indication that the two branches of government are committed to working together in the best interest of our citizens and creating the NEXT Detroit.

Respectfully Submitted,
KWAME M. KILPATRICK

**STATEMENT BY COUNCIL MEMBER
 KWAME KENYATTA OPPOSING THE
 INTRODUCTION OF THE SOLID
 WASTE ORDINANCE**

Today, I voted against the introduction of the substitute Ordinance to Amend Chapter 22 of the 1984 Detroit City Code, Handling of Solid Waste and Prevention of Illegal Dumping. This ordinance seeks to impose a three hundred dollar fee on already overly burdened city residents for the collection and disposal of trash. There are many problems associated with the ordinance, starting with the reality that this fee-for-service model does not cover the entire cost of the service. The Administration projects that the \$300 fee would raise approximately \$67M in revenue; however, the cost for garbage collection and disposal is a little over \$100M, leaving a \$33M shortfall that must be subsidized somehow. Citizens have spoken out, loud and clear, against the fee, and I have heard them. The fee hurts multiple property owners and residents who do not generate much weekly garbage. Although the City Council was successful in taking the trash fee off of the foreclosure track, the fee can still potentially ruin a citizen's credit. Furthermore, there are outstanding questions pertaining to a citizen's ability to opt-out of the program. I opposed the fee in the Mayor's Proposed 2006-2007 Budget, and I still stand firmly opposed. While I am poised to cooperate with a sound plan to address the deficit in the Department of Public Works, it is incumbent upon the Administration to find alternatives that work and alternatives that do not oppress people. I have stated before that we cannot balance the budget on the backs of our citizens. We must be fiscally creative and we must seek avenues of relief for Detroiters. It is for these reasons that I oppose a solid waste fee and voted "NO" on the introduction of the ordinance that would establish the parameters to implement the fee.

***ON WAIVERS OF RECONSIDERATION**
 Council Member Watson moved to waive the right to reconsider the vote by which each resolution designated for "Waiver of Reconsideration" was adopted. Council Member S. Cockrel moved to suspend Rule 23 for the purpose of indefinitely postponing the motion to waive reconsideration, which motion prevailed. Council Member Conyers then moved that the motion to waive reconsideration be indefinitely postponed, which motion prevailed.

The regular order was resumed.
 And the Council then adjourned.

CITY COUNCIL

(REGULAR SESSION)

(All action of the City Council appearing herein is subject to reconsideration and/or approval of the Mayor).

Detroit, Wednesday, June 7, 2006

Pursuant to adjournment, the City Council met at 11:30 A.M., and was called to order by the President Kenneth V. Cockrel, Jr.
 Present — Council Members S. Cockrel, Collins, Conyers, Jones, Kenyatta, Reeves, Tinsley-Talabi, Watson, and President K. Cockrel, Jr., — 9.
 There being a quorum present, the City Council was declared to be in session.

Invocation

Most gracious God our Father,
 It is once again that we humbly, yet boldly approach your throne of grace. First and foremost, just to say thank you. We thank you for your mercy, grace and compassion that has brought us to this destination. It is now Lord that we petition you on behalf of our city officials and city council, asking that you would crown their heads with your divine wisdom, knowledge and understanding. We also ask that you will place these, our council on one accord, with a clear perception of your vision and purpose for this our great city. Thus, we will be forever careful to give to you all the praise, glory and honor. It is in Jesus' name we ask this all, and thank you.
 Amen.

Honorable City Council:

Re: Petition Number 4460 — Request for City Council Approval for the Issuance of a Michigan Liquor Control Commission Dance-Entertainment Permit to Pandora's Boxx, LLC, for a Group "A" Cabaret at 6221 East Davison.

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, or a combination dance-entertainment permit, a location licensed

by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice (Request ID Number 271722), which has been designated by the City Clerk as Petition Number 4460. This Local Approval Notice requests City Council approval or disapproval of a request from Pandora's Boxx, LLC, for the issuance of a dance-entertainment permit to be held in conjunction with the transfer of a "Class C license" from R & K Zippers, Inc., at 6221 E. Davison.

Buildings and Safety Engineering Department ("B&SE") records indicate that 6221 E. Davison is located in a B-4 (General Business) Zoning District and that the current use of this property is "Tavern (Standard Restaurant and Class "C" Bar with accessory patron dancing) per building permit number 40886, dated October 11, 1954 and related permits." Consumer Affairs Department Business License Center records indicate that the current owner, R & K Zippers, Inc., was issued a Group "A" Cabaret license in 1991 for the business at 6221 E. Davison, with subsequent annual renewals. Further, the MLCC has previously issued a dance-entertainment permit to R & K Zippers, Inc., for the location. B&SE indicates that the continued use of this location for bar with accessory patron dancing is permitted by the Detroit Zoning Ordinance under Section 61-9-82 of the 1984 Detroit City Code subject to compliance with all relevant codes and ordinances.

Consumer Affairs Department Business License Center records indicate that the owners of Pandora's Boxx, LLC, have applied for a Group "A" Cabaret license for the premises at 6221 E. Davison. Pursuant to Section 5-7-1 of the 1984 Detroit City Code, a Group "A" Cabaret business license is required for an establishment open to the public which sells or serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without dancing. Pursuant to Chapter 30 of the 1984 Detroit City Code, Pandora's Boxx, LLC, and the premises will have to meet the applicable requirements of the 1984 Detroit City Code prior to the issuance of a Group "A" Cabaret business license for the establishment at 6221 E. Davison.

After investigation and review, the Detroit Police Department Liquor License Unit ("DPD"), on behalf of the Chief of Police, has recommended the approval of the transfer of the "Class C license" and the issuance of a dance-entertainment permit to Pandora's Boxx, LLC, at 6221 E.

Davison. The DPD reports that there have not been any serious crimes or incidents at this location for the preceding twelve (12) months.

Upon this Body's approval of the request for the issuance of a dance-entertainment permit, in conjunction with the transfer of the "Class C license" to 6221 E. Davison, and the issuance of a Group "A" Cabaret business license by the Consumer Affairs Department Business License Center to Pandora's Boxx, LLC, the location will be approved for dancing by patrons and entertainment on the premises. Pursuant to Section 916(1) and (2) of the Michigan Liquor Control Code, being MCL 436.1916(1) and (2), the issuance of a dance-entertainment permit under this section does not allow topless activity in a licensed establishment.

The Law Department recommends that this matter be placed on the City Council's agenda for approval or disapproval of the request for the issuance of a dance-entertainment permit in accordance with this Body's August 1, 2003 and July 7, 2004 resolutions on the procedures and criteria for the approval or disapproval of dance, entertainment, and topless activity permits. Attached is a proposed resolution approving the issuance of a dance-entertainment permit to Pandora's Boxx, LLC, for 6221 E. Davison.

If there are any questions or concerns, please do not hesitate to contact us.

Respectfully submitted,

BRENDA E. BRACEFUL

Deputy Corporation Counsel

By Council Member Jones:

Whereas, Pursuant to Section 916(1) and (2) of the Michigan Liquor Control Code, being MCL 436.1916(1) and (2), the issuance of a dance-entertainment permit under this section does not allow topless activity in a licensed establishment; and

Whereas, The Detroit City Council has considered the Local Approval Notice for the approval of the issuance of a dance-entertainment permit to Pandora's Boxx, LLC, in conjunction with the transfer of the "Class C license" at 6221 E. Davison, in accordance with this Body's August 1, 2003 and July 7, 2004 resolutions on the procedures and criteria for the approval or disapproval of the issuance of MLCC dance, entertainment, or topless activity permits to licensed establishments.

Now Therefore It Is Resolved, Pursuant to Section 916(10)(b) of the Michigan Liquor Control Code, being MCL 436.1916(10)(b), that the Detroit City Council, approves the issuance of a dance-entertainment permit to Pandora's Boxx, LLC, for 6221 E. Davison; and

It Is Further Resolved, That a copy of this Resolution, and the City Clerk's certification of this approval of MLCC request ID number 271722, be forwarded to the Michigan Department of Labor and Economic Growth, Liquor Control Commission, 7150 Harris Drive, P.O. Honorable City Council:

Re: Address: 8896 Auburn. Name: Edward F. Polson-North Park Enterprises. Date ordered removed: November 20, 2002 (J.C.C. pg. 3568).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on May 10, 2006 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of April 28, 2006.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits

- Certificate of Approval as a result of a Housing Inspection

- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Honorable City Council:

Re: Address: 19522 Joy Rd. Name: Delores Key. Date ordered removed: January 24, 2001 (J.C.C. pg. 273).

In response to the request for a deferral of the demolition order on the property

noted above, we submit the following information:

A special inspection on May 19, 2006 revealed the building is secured and appears to be sound and repairable.

The owner will pay the the current taxes due at the closing.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Respectfully submitted,

Re: Proposed Ordinance to Amend Chapter 24 of the 1984 Detroit City Code, "Health and Sanitation", by Amending Article 10 to Codify the Requirements for the Testing of Children More than Six (6) Months of Age for Elevated Lead Blood Levels at Certain Age Intervals, to Revise the Provisions Concerning Lead Poisoning Controls, Including the Use of Lead-based Paint, and to Make this Article Commensurate with Federal and State Law.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above-referenced proposed ordinance is being submitted to your Honorable Body for consideration and approval. This pro-

posed ordinance has been approved as to form by the Law Department.

This proposed ordinance amends Chapter 24 of the 1984 Detroit City Code, "Health and Sanitation", by amending Article X by retitling the article "Lead Based Paint Poisoning Prevention" to "Lead Poisoning Testing and Prevention", by adding Division 1, titled "In General", Division 2, "Testing for Elevated Lead Blood Levels", and Division 3, "Lead Poisoning Prevention", by amending, repealing, and adding certain sections to codify the requirements for the testing of children more than six (6) months of age for elevated lead blood levels at certain age intervals, to revise the provisions concerning lead poisoning controls, including the use of lead-based paint, and to make this article commensurate with federal and state law.

As you are well aware, childhood lead poisoning is one of the most significant environmental health hazards confronting the children of Detroit. Amending Chapter 24, Article X, is an essential goal of the City of Detroit Strategic Plan to Eliminate Childhood Lead Poisoning by 2010. This proposed ordinance provides much needed updates and enhancements to the City Code, and supports Department of Health & Wellness Promotion efforts to eliminate this preventable hazard threatening our children.

We are available to answer any questions that your Honorable Body may have concerning this proposed ordinance. Thank you for your consideration.

Respectfully submitted,
