Also, the petitioner will be responsible for any damage to DWSD's facilities caused by the encroachment and also agrees to hold DWSD harmless for any damage to the encroaching device caused by a failure of DWSD's facilities. Provision for conversion to easement and for encroaching are part of the resolution.

Budget Department
May 30, 2006
Honorable City Council:
Re: Transfer of Funds for Law Department.
The Budget Department is requesting

approval to transfer funds for expenses incurred by the Law Department for legal and operational services. The FY 2005-06 Surplus/Deficit for Law Department estimated a 1.269 Million appropriation deficit excluding fringe benefits. This deficit is due to salaries higher than budget (DOWOP savings) and legal costs higher than budget. The department is currently in deficit and needs additional appropriations to meet current expenses.

The Department has outstanding invoices that must be paid for legal issues related to City matters. These expenses include various court and litigation services fees, as well as departmental operational expenses, that are required for the continued operation of the department. The FY 2005-06 assumed funding for Risk Management contract in Non Departmental that will not be used this year. This was included in the Surplus/Deficit estimate. These funds are available for transfer to Law.

The Budget Department respectfully requests that your Honorable Body approve the transfer of necessary appropriations to fund legal and operational expenses incurred by the Law Department.

The proposed resolution is attached.

Respectfully submitted,
PAMELA SCALES
Budget Director

By Council Member Watson:

Whereas, The Law Department requires additional funding to cover the cost of legal and operational expenses for services provided and will be provided on behalf of the City of Detroit through the end of Fiscal Year 2005-06, and

Whereas, The following transfers of appropriations are necessary in order to fund such transactions, now therefore be it

Resolved, That the Budget Director be and is hereby authorized to amend the FY 2005-06 Budget:

Increase Law Department Appropriation 11544 Risk Management by \$1,000,000;

Decrease Non Departmental Appropriation 00852 Risk Management Fund by \$1,000,000; and be it further

Resolved, That the Finance Director be and is hereby authorized to establish the necessary accounts, transfer funds, honor vouchers and process payrolls when presented with this resolution and in accordance with the foregoing communication.

Honorable City Council:

Re: Technical Correction to the 2006-2007 Budget as Amended by City Council.

In the process of reviewing the 2006-2007 City Council Budget by agency I discovered that Schedule B containing Council's changes to the budget did not locate the general appropriation funding for Project Fresh Start in 36th District Court where the program is run, but instead assigned it to the Police Department.

When the issue was discussed at the Council table during Executive Budget sessions the subject of drug forfeiture funds and their availability were discussed at the same time as appropriating General Fund money for Project Fresh Start which caused the confusion when the voting schedule was prepared.

We believe it was and still is the City Council's intent not to rely on Drug Forfeiture Funds for this program and this was properly stated in the 2006-2007 Legislative Budget Priorities, Policy, Planning and Action Resolution.

We have discussed this appropriation change with the Budget Department Director and she has no problem with moving it to 36th District Court. We will provide copies of this resolution to the City Clerk.

I can respond to any questions relating to this correction you may have.

Respectfully submitted,
IRVIN CORLEY, JR.,
Fiscal Analyst

By Council Member Watson:

Whereas, The Detroit City Council during the Budget Deliberation Process for Fiscal Year 2006-2007 wanted to be certain that funds were dedicated in the budget for "Project Fresh Start" out of 36th District Court, and

Whereas, The Detroit City Council agreed to appropriate general fund money of \$250,000 for "Project Fresh Start" and while it was authorized in Schedule B on May 24, 2006, it was incorrectly appropriated in the Police Department instead of 36th District Court, So Therefore Be It

Resolved, That the Appropriation Number 12221 "Project Fresh Start" be shifted in the official budget documents for Fiscal Year 2006-2007 from the Police Department to 36th District Court.

STATEMENT ON VOTE BY COUNCIL MEMBER MARTHA REEVES IN OPPOSITION TO THE INTRODUCTION OF AN ORDINANCE TO AMEND CHAPTER 22 OF THE 1984 DETROIT CITY CODE, HANDLING OF SOLID WASTE AND PREVENTION OF ILLEGAL DUMPING BY AMENDING SECTION 22-2-54, DOMESTIC SOLID WASTE, SECTION 22-2-56, CHARGES; COLLECTION OF COMMERCIAL SOLID WASTE

Today's vote to introduce the ordinance for the Solid Waste Fee failed because I chose to vote no. I voted not to introduce the ordinance because of the burden it would place on the backs of our citizens.

Previously, I requested that the administration make provisions for individuals who own multiple dwellings or buildings, providing them with some relief from these exhorbant costs prior to introducing the ordinance. That did not occur. The ordinance considered for introduction today was the same ordinance presented to me at an earlier date, in which I recommended be revised in a manner that would offer the people of this City some relief. In addition, I have grave concerns for our citizens who cannot afford to pay an additional fee for service.

We must be creative as an Administration, and as a City Council, and work to solve these difficult fiscal dilemmas. I am committed to working collectively with the Administration on improving the level of services provided to our citizens in a cost effective manner.

As a representative of the people, I must vote in their best interests, and today, I clearly believe I made the right choice.

Honorable City Council:

Re: 2nd Technical Correction to the 2006-2007 Budget as Amended by City Council.

In the process of reviewing the 2006-2007 City Council Changes to the Budget or "Schedule B" the Budget Department discovered that Schedule B did not transfer the estimated revenue for the Call Center to the Mayor's Office, but instead it remained with Non-Departmental.

The revenue is reimbursement from enterprise and grant agencies totaling \$596,784.

The Budget Department agrees that it should be moved to complete the Council's intent.

We believe it was and still is the City Council's intent to completely move this program to the Mayor's Office in Neighborhood City Halls and this was properly stated in the 2006-2007 Legislative Budget Priorities, Policy, Planning and Action Resolution.

Attached is a resolution that we would ask the Council to authorize at the next

formal session. We will provide copies of this resolution to the City Clerk.

I can respond to any questions relating to this correction you may have.

Respectfully submitted,
IRVIN CORLEY, JR.

Fiscal Analysis Director

By Council Member Conyers:

Whereas, The Detroit City Council during the Budget Deliberation Process for Fiscal Year 2006-2007 wanted to be certain that funds for the 311 Call Center were moved from Non-Departmental to the Mayor's Office/Neighborhood City Halls; and

Whereas, The Detroit City Council in their May 24, 2006 vote to amend the proposed budget did move the appropriations but not the revenues; Now Therefor Be It

Resolved, That the estimated revenue totaling \$596,784 in Appropriation Number 12169 "Call Center — Personal Services" in Non-Departmental be transferred to Appropriation Number 12158 "Call Center — Personal Services" in Mayor's Office/Neighborhood City Halls and be shifted in the official budget documents for Fiscal Year 2006-2007; Be It Finally

Resolved, That Detroit City Council directs the City Clerk to send copies of this resolution to the Honorable Kwame M. Kilpatrick and the City of Detroit Budget Department.

City Planning Commission

June 6, 2006

Honorable City Council:

Re: Technical Corrections to the 2006-07 CDBG Budget as Amended by City Council.

In the process of summarizing the City Council action on the Community Development Block Grant (CDBG) Budget with the Budget Department and Planning and Development Department, we have discovered the need for some corrections to appropriation numbers in the CDBG budget (Schedule A). These corrections reflect Council's intent to fund the five listed organizations.

The organizations are (Advantage Health Service, Effective Alternative Community Housing, Southwest Subzone Community Policing "SDBA", Greater Corktown Development, and Hartford Agape House). Advantage Health Service and Effective Alternative Community Housing have appropriation numbers listed in Schedule A assigned to the wrong City Department (Human Services) and

these appropriation numbers have been changed to reflect to correct department, Planning and Development. Southwest Subzone Community Policing "SDBA" was given a new appropriation number due to a change in its fiduciary from the last funded year. Greater Corktown Development's appropriation number was typed incorrect in the Schedule A. Finally, Hartford Agape House had an existing appropriation number, and therefore, did not require the new number listed in the Schedule A.

The incorrect appropriation numbers for the above organizations were published in the Detroit Legal News. Attached is a resolution containing Technical Corrections to Schedule A. We are requesting Council action on this resolution so that the correct appropriation numbers would be reflected in the Budget Department Red Book.

These changes in appropriation numbers do not in any way change the amounts allocated to the listed organizations. We apologize for any inconvenience and can respond to any questions you may have relating to these corrections.

By Council Member Conyers:

Be It Resolved, That the following technical corrections be made to the 2006-2007 City of Detroit Budget:

Honorable City Council:

Re: Springwells Partners IV — Payment in Lieu of Taxes (PILOT).

Southwest Solutions Corporation, the sponsor has formed Springwells Partners IV Limited Dividend Housing Association Limited Partnership. The partnership is rehabilitating two apartment buildings consisting of 50 units located at 2435 Woodmere and 6442-6450 Michigan Avenue. The project will have 15 3-Bedroom 1-bath units, 14 2-Bedroom 1-bath units, 15 1-Bedroom units and 6 Studios.

Financing for the development will be through: Charter One Bank with a loan of \$725,000 at 6.5% for 30 years; National City Bank — FHLBI-AHP \$150,000 at 5.50% for 15 years and Low Income Tax Housing Tax Credits for a total development cost of eight million two hundred eighty-one thousand two hundred ten dollars (\$8,281,210).

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996 (P.A. 346, as amended, MCLA 125.1415A).

At least forty-percent (40%) or 20 of the units must be occupied by households with incomes no greater than 60% of the area median income adjusted for family size. The Developer proposes rent levels targeting 26% of the units at or below 30% of the area median income; 44% at or below 40% of the area median income and 30% at or below 50% of the area median adjusted for family size. These income restrictions will be in effect for the time required under the Low Income Housing Tax Credit Program.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge for this housing project of: the lesser of the tax on the property before rehabilitation commenced or 10% of the annual net shelter rents obtained from the project.

Respectfully submitted,

J. CASTONE

 Re: Felameon Harris vs. City of Detroit and Detroit Police Officer Craig (Badge No. 71). Case No.: 05-506819 CZ. File No.: A37000.005267 (MRJ).

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that a settlement in the amount of Forty-One Thousand Dollars and No Cents (\$41,000.00) is in the best interest of the City of Detroit.

At its May 9,

2006 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On June 7, 2006, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

Honorable City Council:

Re: Winston Place Brownfield Redevelopment.

The enclosed Brownfield Plan for the Winston Place Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on May 22, 2006 to solicit public comments. At its May 9, 2006 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On June 7, 2006, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

The Urban Innovation Group (UIG) — 13115 E. Jefferson, LLC is the project developer ("Developer"). The project consists of rehabilitation of the former Savarine Hotel located at 13101-13115 E. Jefferson into 112 rental units at an "affordable market rate price", with remaining vacant parcels to north used for additional parking. This project will also have approximately 6,000 square feet of retail space available. Total project costs are estimated to exceed \$2.7 million with an eligible investment amount of \$2,772,700. The developer is requesting a SBT credit of \$277,270.

Purpose of the Proposed Plan

The proposed plan is intended to accomplish the following purpose: Upon approval of this Plan by City Council, the Developer will be entitled under State Law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project.

Property Subject to the Proposed Plan

The Property comprising the eligible property consists of ten parcels. 13101-13115 E. Jefferson is a building and the remaining nine parcels are to the north located on Lenox and Drexel Streets. The properties are located in Detroit's east side, bounded by property lines to the

north, Drexel Street on the east, E. Jefferson to the south, and Lenox Street to the west.

Basis of Eligibility

The property is considered "eligible property" as defined by Act 381, Section 2 because (a) the property was previously utilized for a commercial and/or residential purpose; (b) it is located within the City of Detroit, a qualified local government unit; and (c) the building at 13101-13115 E. Jefferson has been determined to be "functionally obsolete." The building has suffered a loss in value due to the current configuration of apartments and their small unmarketable size. Substantial investment is necessary to rehabilitate or replace all mechanical systems. The remaining nine parcels are tax reverted property owned by the City of Detroit and the State of Michigan and thus, blighted.

Eligible Activities and Projected Costs

The "eligible activities" planned for the Property are identified by Act 381 and include interior demolition, completion of lead and asbestos abatement (begun with previous HUD rehabilitation), and site preparation. The following eligible activities and budgeted costs are intended as part of the development of the property and are to be financed solely by the Developer. The DBRA is not responsible for any cost of eligible activities and will incur no debt.

Description of

<u>Eligible Activity</u>	<u>Budgeted Cost</u>
Demolition	\$350,000.00
Completion of Lead & Asbestos Abatement	\$ 25,000.00
Site Preparation	\$ 90,000.00
Total Eligible Activity Costs	\$465,000.00

It is currently anticipated construction will begin in the summer of 2006 and eligible activities will be completed within twelve to eighteen months.

Tax Increment Financing (TIF Capture)

This Plan will not capture tax increment revenues for financing costs of eligible activities under this Plan. The eligible activities are to be financed solely by the Developer. The DBRA is not responsible for any cost of eligible activities and will incur no debt.

Other Development Incentives

The property included in this Plan will request additional project support through the Obsolete Property Rehabilitation Act (OPRA) and a Federal Historic tax credit.

Honorable City Council:

Re: 1403 Woodward Lofts Brownfield Redevelopment.

The enclosed Brownfield Plan for the 1403 Woodward Lofts Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on May 22, 2006 to solicit public comments. At its May 9, 2006 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On June 7, 2006, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

Woodward Grand Realty, LLC is the project developer ("Developer"). The project involves the comprehensive re-develop-

ment of the six story "Aizer Building" at the corner of Woodward Avenue and Grand River Avenue, into a mixed-use building containing ground floor (and basement) restaurant/retail and five floors of loft style apartments or condominium residences. Total project costs are expected to exceed \$9,000,000 with an eligible investment amount exceeding \$7,300,000. The developer is requesting a SBT credit of \$735,700.

Purpose of the Proposed Plan

The proposed plan is intended to accomplish the following purpose: Upon approval of this Plan by City Council, the Developer will be entitled under State Law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project.

Property Subject to the Proposed Plan

The Property comprising the eligible property consists of one parcel located at 1401-1403 Woodward. The property is located in Detroit's Central Business District, bounded by 1413 Woodward to the north, Woodward Avenue to the east, Grand River Ave. to the south and a service alley to the west.

Basis of Eligibility

The property is considered "eligible property" as defined by Act 381, Section 2 because (a) the property was previously utilized for a commercial and/or residential purpose; (b) it is located within the City of Detroit, a qualified local government unit; and (c) the property has been determined to be "functionally obsolete." The current configurations do not meet market demand for the original purpose of the building. Mechanical and electrical systems, windows and the roof must be replaced. The elevators must be brought up to code. Interior finishes have been stripped. Life safety systems and a new security system must be installed.

Eligible Activities and Projected Costs

The "eligible activities" planned for the Property are identified by Act 381 and include interior demolition, lead abatement, asbestos abatement, site preparation, and due care activities. The following eligible activities and budgeted costs are intended as part of the development of the property and are to be financed solely by the Developer. The DBRA is not responsible for any cost of eligible activities and will incur no debt.

Description of

<u>Eligible Activity</u>	<u>Budgeted Cost</u>
Environmental Reports	\$ 10,000.00
Demolition and Clean-up (asbestos and lead)	\$131,000.00
Total Eligible Activity Costs	\$141,000.00

It is currently anticipated construction will begin in the summer of 2006 and eligible activities will be completed within twelve to eighteen months.

Tax Increment Financing (TIF Capture)

This Plan will not capture tax increment revenues for financing costs of eligible activities under this Plan. The eligible activities are to be financed solely by the Developer. The DBRA is not responsible for any cost of eligible activities and will incur no debt.

Other Development Incentives

The property included in this Plan will request additional project support through the Neighborhood Enterprise Zone (NEZ) and a City of Detroit Facade Improvement Grant.

Public Comments Received

The Committee's communication to the City Council and the Authority, dated May 23, 2006 (Exhibit C), recommending approval of the Plan including the minutes of the public hearing held by the Authority on May 22, 2006 are enclosed for the City Council's consideration.

Plan Review

The 1403 Woodward Lofts Project has been reviewed and received support from the City of Detroit Planning and Development Department, the Assessment Division of the City of Detroit Finance Department and the Michigan Economic Development Corporation.

After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

Grand Van Dyke, LLC is the project developer ("Developer"). The project consists of 26 parcels containing approximately four acres of property and an approximately 24,000 square foot building, which is currently used as a grocery store at 7811 Gratiot Avenue. This site will be redeveloped into a neighborhood shopping area. Total investment in this project is \$11,655,919 with eligible SBT project investment estimated at \$7,138,000. The developer is requesting a SBT credit of \$713,829. The project will also include a Tax Increment Financing (TIF) component.

Purpose of the Proposed Plan

The proposed plan is intended to accomplish the following purpose: Upon approval of this Plan by City Council, the Developer will be entitled under State Law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project. Secondly, this Plan anticipates the capture of tax increment revenues to reimburse the Developer for the costs of eligible activities under this plan in accordance with the reimbursement agreement.

Property Subject to the Proposed Plan

The Property comprising the eligible property consists of four acres of property and an approximately 24,000 sq. ft. building at 7811 Gratiot Avenue.

The "eligible activities" planned for the Property are identified by Act 381 and include environmental assessment activities, interior demolition, lead abatement, asbestos abatement, and site preparation. The following eligible activities and budgeted costs are intended as part of the development of the property and are to be financed solely by the Developer. The DBRA is not responsible for any cost of eligible activities and will incur no debt.

ESTIMATED COST OF ELIGIBLE ACTIVITIES

Description of Eligible Activities	Estimated Cost

Infrastructure Improvements	\$ 377,564
Subtotal	\$2,433,366
Contingency	\$ 365,004
Work Plan Preparation and Review	\$ 10,000
Phase I & II Environmental Site Assessments	\$ 8,915
Total	\$2,817,285

It is currently anticipated that site preparation will begin in Summer 2006 and construction will begin by Fall 2006. Construction will be complete approximately six to nine months after it begins.

Tax Increment Financing (TIF) Capture

This Plan anticipates the capture of tax increment revenues to reimburse the Developer for costs of eligible activities under this Plan in accordance with the Reimbursement Agreement. The costs to be reimbursed under this Plan include \$2,817,285 reimbursement to the Developer for eligible activities, \$1,581,304 in projected interest reimbursement, \$620,298 to the DBRA Revolving Loan Fund and \$264,152 for DBRA administrative fees.

The eligible costs are to be financed solely by the Developer. The Authority will reimburse the Developer for the cost of approved eligible activities, but only from tax increment revenues generated from the Property.

AN ORDINANCE to amend Chapter 25, Article II of the 1984 Detroit City Code by adding Section 25-2-162 to establish the Nelson Court and West Chicago Boulevard Apartments Non-Contiguous Historic District and to define the elements of design for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II of the 1984 Detroit City Code be amended by adding Section 25-2-162 to read as follows:

SEC. 25-2-162. Nelson Court and West Chicago Boulevard Apartments Non-Contiguous Historic District.

(A) A historic district to be known as the Nelson Court and West Chicago Boulevard Apartments Non-Contiguous Historic District is established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the non-contiguous portion of the district containing the West Chicago Boulevard Apartments are as follows:

On the east, the east boundary, extended north and south, of Lot 34 of the Dexter Heights Subdivision (L30 P81 Plats, WCR); On the south, the centerline of Chicago Boulevard; On the west, a line drawn fifteen (15) feet west of and parallel to the west line of Lot 37 of the Dexter Heights Subdivision (L30 P81 Plats, WCR); On the north, the centerline of the east-west alley lying between Chicago Boulevard and Rochester Avenue.

The boundaries of the non-contiguous portion of the district containing the Nelson Court are as follows:

On the east, the east boundary, extended north and south, of Lot 83 of the Dexter Heights Subdivision (L30 P81 Plats, WCR); On the south, the centerline of Chicago Boulevard; On the west, the west line, extended north and south, of Lot 86 of the Dexter Heights Subdivision (L30 P81 Plats, WCR); On the north, the centerline of the east-west alley lying between Chicago Boulevard and Rochester Avenue. (Legal Description: Lots 34 through 37 and the east fifteen (15) feet of

Lot 38; and Lots 83 through 86, Dexter Heights Subdivision [L30 P81 Plats, WCR]).

(D) The defined elements of design, as provided for in section 25-2-2 of this code, shall be as follows:

(1) *Height.* Both apartment buildings are four stories tall on high basements.

(2) *Proportion of Building's Front Facades.* Each building's front facade is configured in a "C" shape, resulting in two street facades per building facing the street and the entrances in the recessed court between the flanking wings. As a whole the facades are wider than tall, but each of the pair of street facades is taller than wide.

(3) *Proportion of Openings Within the Facade.* Each of the apartment buildings contain approximately thirty-five percent (35%) openings in their front facades.

(4) *Rhythm of Solids to Voids in The Front Facade.* A regular and formal rhythm of solids to voids exists throughout the facades. The arrangement of openings reflects the bays of the buildings' frame. On the West Chicago Boulevard Apartments at 2710-40 West Chicago Boulevard, each of the arms of the "C" of the pair of street facades is of three bays, the outer two brought forward slightly and containing paired windows at basement and first floor level, and large openings above. The central bay displays two widely spaced single windows at each floor. The bays of the entry court are similar to the outer bays of the street facades. Those bays closest to the street are like the outer bays of the street facades, but with a single window only. Further into the court, there is a slightly recessed bay on either side, three single openings in width, which have the entry doors, with stone surround, in the rearmost of the three vertical rows of openings. On either side there is a narrow bay at a forty-five degree (45°) angle, with a single window at each level, and a single blind arch in the parapet. The courtyard facade facing the street is divided into three, with a wide center bay and quite narrow bays flanking, the side bays displaying a single small window at each floor. The wide center bay has two widely spaced windows at each floor, those on the first floor arched like those on the street facades. The Nelson Court at 3410 West Chicago Boulevard features, in the center two bays of its four-bay pair of street facades, paired windows at each level, with single windows in the two outer bays. The treatment of the entrance court is similar, but on either side two bay windows rise through all the floors. The recessed main entrance on the rear wall of the court faces the street.

(5) *Rhythm of Spacing of Buildings on Streets.* Not applicable due to non-contiguous nature of the district.

(6) *Rhythm of Entrance and/or Porch Projections.* No rhythm of entrances or porch projections is established due to the non-contiguous nature of the district. Entrances of both buildings are recessed, centered within the central courtyard.

(7) *Relationship of Materials.* The front facades and the first bay turning the outer corners to the side elevations are brick with stone elements and trim. Window sashes and frames, all replacements, are vinyl.

(8) *Relationship of Textures.* Brick laid in regular courses contrasts with the smoother textures of stone trim. On the first floor or basement levels, where every fifth course of brick is recessed, a rusticated textural effect is achieved. Repeated architectural details, such as dentils and console brackets provide textural interest. The vinyl, glass, and metal used in openings is very smooth.

(9) *Relationship of Colors.* Dark red brick is juxtaposed with beige masonry trim and matching beige window frames.

(10) *Relationship of Architectural Details.* Both buildings are vernacular, typical of the time they were built. The West Chicago Boulevard Apartments at 2710-40 West Chicago Boulevard displays modest Romanesque and classical influences. The fenestration of the first floor features blind arches with alternating voussiors of brick and stone. Brick walls laid with every fifth course of brick well recessed mimics rustication. At the top of the first floor, brick dentils are surmounted by a stone watertable. Walls above the first floor have stone roundels between the windows of the outer bays. A stone cornice supports a brick parapet with a blind arcade of stone pilasters and brick arches. In the courtyard, at the top of the central bay, the parapet rises into a simple triangular pediment with a shield and swags in stone in the center. The Nelson Court at 3410 West Chicago Boulevard also displays a rustication of the basement level, with brick every fifth course well recessed. At the top of the basement wall is a stone course containing projecting stone sills supported on console brackets below the first floor windows. All of the windows are surrounded by brickwork with stone squares marking the corners of the openings. Within the brick borders of the spandrels between the paired windows of the central bay is brick laid in herringbone pattern with a stone square placed on the diagonal centered in the panel. The cornice below the stepped parapet wall has been removed. The entrance court displays essentially the same treatment as the wings. The depressed main entrance on the rear wall of the court faces the street and has a stone surround with a heavy cornice above. The side and rear elevations bear no architectural details.

(11) *Relationship of Roof Shapes.* The flat roofs are hidden behind parapet walls.

(12) *Walls of Continuity.* Not applicable due to non-contiguous district.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* West Chicago Boulevard has a wide, grassy median strip that ends at Genesee Avenue. The street in front of the Nelson Court at 3410 West Chicago Boulevard does not have the grassy median but is still a wide street. Both blocks that these apartment buildings are located on have very wide tree lawns between the curb and public sidewalks, and both buildings are set back on their lots to provide ample front yards. Sidewalk and steps to properties are concrete. A long concrete walkway runs from front to back along the eastern side of the West Chicago Boulevard Apartments at 2710-40 West Chicago Boulevard. Beyond the property to the east is a vacant lot fenced with a chain-link fence with barbed wire. Young trees are planted on the front yard; twisted topiary bushes flank the concrete walkway leading to the front steps between the pair of street facades. To the west of this property is an asphalt-paved parking lot fenced with a six foot metal picket fence. Also to the west of the Nelson Court at 3410 West Chicago Boulevard is a parking lot. Bushes are planted at the foundations of the front of the building. An alley runs behind both apartment buildings.

(14) *Relationship of Open Space to Structures.* West Chicago Boulevard Apartments at 2710 West Grand Boulevard is the only building on the north side of its block, resulting in an abundance of open space to its east and west. While the Nelson Court has a few other neighbors to its east, it is still evident from the amount of vacant space that many substantial buildings have been demolished.

(15) *Scale of Facade and Facade Elements.* The facades are typical of moderate-to-large scaled apartment buildings of their period and, while there are smaller elements and details within the facades, the overall effect is one of large, older buildings.

(16) *Directional Expression of Front Elevation.* The front elevations of the apartment buildings are vertical in directional expression, since the paired facades project significantly from the recessed entrance sections in the courtyards.

(17) *Rhythm of Building Setbacks.* Not applicable due to non-contiguous building district.

(18) *Relationship of Lot Coverages.* The footprint of the building at 2710-40 West Chicago Boulevard, the West Chicago Boulevard Apartments, occupies approximately eighty percent (80%) of its

parcel, and the building at 3410 West Chicago Boulevard, the Nelson Court Apartments, occupies approximately eighty-five percent (85%) of its parcel.

(19) *Degree of Complexity Within the Facade.* The major facades are not complex; they are straightforward in the arrangements of openings, wall surfaces, and architectural elements and detail.

(20) *Orientation, Vistas, Overviews.* Both apartment buildings are oriented towards West Chicago Boulevard, a broad, divided (to Genesee Avenue) street continuing westward from the Boston-Edison Historic District. Directly across the street from the West Chicago Boulevard Apartments is the Sacred Heart Major Seminary, and in the block to its west on the corner of Lawton is a religious structure, formerly the Shaarey Zedek Synagogue, both of which are substantial and significant architectural resources in their own right.

(21) *Symmetric or Asymmetric Appearance.* Both apartment buildings are generally regular and symmetrical in appearance.

(22) *General Environmental Character.* The area, now mostly vacant lots, was once densely built up, with closely spaced apartment buildings of the character of the Chicago Boulevard Apartments and the Nelson Court. The streetscape once complimented the substantial nature of single-family houses of the Boston-Edison Historic District across Linwood.

Section 2. All ordinances or parts of ordinances, or resolutions, in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

Section 4. If this ordinance is passed by a two-thirds (2/3) majority of City Council members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 1997 Detroit City Charter.

Approved as to form only:

May 31, 2006

Honorable City Council:

Re: Petition No. 0068 — Paradise Properties Inc., request for vacation of the alleys in the area of Henry Street, West Fisher Freeway Service Drive, Park Avenue, and Clifford Street.

Petition No. 0068 of "Paradise Properties Inc." at 138 West Fisher Freeway, Detroit, Michigan 48201 request the conversion of the North-South and East-West public alleys, 15, 16, and 20 feet wide, (with a portion deeded to The City of Detroit on October 2, 1917) in the block bounded by Henry Avenue, 50 feet wide, West Fisher Freeway Service Drive Northbound, Clifford Avenue, 60 feet wide, and Park Avenue, 50 feet wide into a private easement for utilities. The closure will provide Paradise Properties Inc with a continuous parcel of land for a Greater Detroit Used Car Lot.

The request was approved by Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to City Engineering Division — DPW for investigation (utility review) and report. This is our report:

If the petitioner at any time plans to discontinue use of the paved alley return entrance (into Henry Avenue and West Fisher Freeway Service Drive Northbound), the petitioner shall pay all incidental removal cost.

All other city departments and private utility companies have reported no objections to the conversion of public rights-of-way into private easement for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,
WILLIAM TALLEY

We have reviewed the above-referenced consolidated lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. We, therefore, request authorization to settle this matter in the amount of Seventy Thousand Dollars and No Cents (\$70,000.00) and that your Honorable Body direct the Finance Director to issue a draft in that amount payable to Goodman Acker, P.C., attorneys, and Tracy Hughes, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 05-506960 NF, approved by the Law Department.

Furthermore, it is our considered opinion that a settlement of the civil matter of Detroit Medical Center vs. City of Detroit in the amount of Three Hundred Eighteen Thousand Eight Hundred Seventy Eight Dollars and No Cents (\$318,878.00) is in the best interest of the City of Detroit.

City Planning Commission

June 13, 2006

Honorable City Council:

Re: Proposal to amend the Master Plan of Policies for the vicinity of Gratiot and Van Dyke Avenues to make the generalized proposed land use map consistent with the zoning and to accommodate the construction of a neighborhood shopping center (RECOMMEND APPROVAL).

The Planning and Development Department is requesting your Honorable Body's approval of an amendment to the Detroit Master Plan of Policies that would change the Generalized Proposed Land Use Map for the East Sector, Kettering Subsector. The designation for the area generally bounded by Whipple, Van Dyke, the alley north of Gratiot and the alley east of Baldwin would be changed from RL (Low Density Residential) to GC (General Commercial).

Background

In 2005, Grand Van Dyke LLC submitted a request to rezone property generally bounded by Whipple, Van Dyke, Gratiot, and the alley east of Baldwin from R2 (Two Family Residential District) and B4 (General Business District) to B3 Shopping District) to allow for the development of a neighborhood shopping area. On November 18, 2005, City Council approved the rezoning as recommended by the City Planning Commission.

Purpose of Proposed Changes

The purpose of the proposed change to the Gratiot/Van Dyke area in the Master Plan is to accommodate the development

of a neighborhood shopping center and to make the Master Plan consistent with the recent rezoning. The proposed change to the Master Plan Generalized Proposed Land Use Map has been attached for your reference. A new and improved 26,000 sq. ft. Foodtown grocery store, along with 24,000 sq. ft. of additional retail for local residents is being proposed. The subject area currently hosts the Foodtown grocery store, located on Gratiot Avenue, which is currently flanked by vacant businesses and buildings. the proposed amendment would also enhance the marketability for other commercial development and potentially attract additional residential development to the area.

Public Hearing Results

The City Planning Commission held a public hearing on May 18, 2006 to consider the Planning and Development Department's (P&DD) proposal to amend the Master Plan of Policies. At the public hearing, no residents were in attendance. Councilwoman Alberta Tinsley-Talabi was present and voiced strong support for the amendment, noting its necessity to allow the construction of the neighborhood shopping center and its potential to attract additional economic investments to the area.

Response from Adjacent Communities

The City of Oak Park City Planning Commission felt the proposed changes were not inconsistent with the "City of Oak Park Master Plan. No suggestions or recommendations regarding the proposed amendment were made.

Review and Recommendation

The City Planning Commission believes that the overall proposed change to the generalized proposed land use map is appropriate and reflective of the zoning and the community's desire for more variety and higher quality retail. As a result, on June 1, 2006 the City Planning Commission took action to recommend approval of the proposed amendment to the Detroit Master Plan of Policies. The Planning and Development Department has already submitted the appropriate resolution for City Council consideration.

Planning & Development Department
August 12, 2005

Honorable City Council:
Re: A resolution to amend the Detroit Master Plan of Policies for the vicinity of Gratiot and Van Dyke Avenues to accommodate the construction of a neighborhood shopping center.

Pursuant to the City of Detroit's City Charter (Section 8-102), the Planning and Development Department's Planning Division has submitted for your consideration and action a proposed Amendment to the Detroit Master Plan of Policies. Adoption by your Honorable Body of this resolution would accommodate changes in the Master Plan of Policies that would permit the construction of a neighborhood shopping center at the northwest corner of Gratiot and Van Dyke Avenues.

Location

The subject area for the proposed change is bounded by Whipple Avenue on the north, Van Dyke Avenue on the east, the alley north of Gratiot Avenue on the south, and the alley east of Baldwin

Avenue on the west. The subject area is located in the East Sector, Kettering Subsector of the Master Plan of Policies.

Existing Site Information

Future general land use:

"RL", Low Density Residential

Existing land and/or building use:

Vacant land north of E. Kirby with parking on a parcel bounded by E. Kirby, alley north of Gratiot, and alley east of Baldwin.

Existing zoning:

B4 (General Business) for parcel bounded by E. Kirby, alley north of Gratiot, and alley east of Baldwin.

R2 (Two-Family Residential) for rest of subject area.

Size (acreage): Approximately 2.4 acres.

Surrounding Site Information

Future general land use:

North: "RL", Low Density Residential

East: "RL", Low Density Residential north of Gratiot frontage.

"GC", General Commercial along Gratiot frontage.

South: "GC", General Commercial.

West: "RL", Low Density Residential.

Existing land and/or building use:

North: Utility facility (SBC), vacant residential land, and parking.

East: Retail along Gratiot.

Residential and vacant land north of Gratiot.

West: Residential and vacant land.

South: Retail uses (including grocery store to be replaced).

Existing zoning:

North: R2 (Two-Family Residential).

East: R2 (Two-Family Residential) north of Gratiot frontage.

B4 (General Business) along Gratiot frontage.

South: B4 (General Business).

West: R2 (Two-Family Residential).

Project Proposal

Future general land use: "GC", General Commercial.

Proposed land and/or building use:

The proposed development involves construction of a neighborhood shopping center featuring a 26,000 square foot replacement grocery store, 24,000 square feet of additional retail space, 225 parking spaces, and landscaping on a four-acre site that includes the frontage along Gratiot. The grocery store will replace an existing 23,000 square foot store on Gratiot while the additional retail will feature clothing and shoe stores along with restaurants.

Proposed zoning: B3 (Shopping District).

Interpretation

Impact on Surrounding Land Use

The proposed Amendment's primary impact on the surrounding area will be to bring a needed commercial presence to a struggling neighborhood that lacks retail in both quality and quantity. An attractive retail center here will provide a positive impact on the surrounding community and may lead to additional investment. Care should be made to mitigate potential conflicts with adjacent residential property, particularly along Baldwin Avenue.

Impact on Transportation

Adoption of the proposed Amendment will bring more automobile traffic to a busy intersection. Facilitating pedestrian access to this automobile-oriented shopping center is a necessity, as 38% of the households in subject area Census Tract 5148 do not have access to cars. Automobile access to the site should be limited to Gratiot and Van Dyke, which will prevent retail traffic from invading the residential neighborhood. Access on Van Dyke should be designed to prevent traffic backups into the Gratiot/Van Dyke intersection.

Recommended Master Plan Amendment

The Planning and Development Department (P&DD) requests this proposed Amendment to the Master Plan of

Policies to accommodate the construction of a neighborhood shopping center in a community in urgent need of more retail options. The proposed retail development fits in with P&DD policy which encourages commercial expansion into nodes at major intersections such as Gratiot/Van Dyke. The proposed development will also offer a more modern and efficient retail design and bring about a higher and better use of land than the existing group of commercial uses fronting Gratiot flanked by parking and vacant land to the rear.

The Planning Division of the Planning and Development Department therefore requests that the Generalized Proposed Land Use map in the Master Plan of Policies be changed for the subject area from "RL", Low Density Residential to "GC", General Commercial.

*WAIVER OF RECONSIDERATION (No. 1), per Motions before Adjournment.

STATEMENT IN SUPPORT OF THE EASTERN MARKET CORPORATION MANAGEMENT AND PROMOTION AGREEMENT BETWEEN THE EASTERN MARKET CORPORATION AND THE CITY OF DETROIT

By Council Member Kenyatta:

I voted in support of the Eastern Market Corporation Management and Promotion Agreement because it is a good deal for the City of Detroit. The Eastern Market is a world-renowned Detroit treasure. Entering into this agreement will allow millions of dollars to be utilized to further promote, repair, and expand the Market District, which will only improve upon our special asset.

The major concerns surrounding the proposed transfer of the operations and management of the Eastern Market primarily have been resolved. The unions and the Black Farmers brought to the Council's attention the potentially harmful impacts the transfer would have on their livelihoods. After much discussion and negotiation, the Eastern Market Corporation reached an agreement with the organizations, giving written assurances that the transition would not be adverse to their interests. To the best of Council's and the organizations' knowledge, the Black Farmers' and the unions' concerns have been addressed.

The Eastern Market Corporation conceded other terms and provisions as well. The City Council may make two (2) appointments to the Board of Directors, and the Auditor General has access to the books. The operation and promotion agreement is limited in that it may be terminated at any time with ninety (90) days' notice. The bottom line is that the City maintains ownership and retains future control of the Eastern Market, without having to bear the expense of overhead costs. Furthermore, I proposed amendments to the City Code (§§ 31-1-7; 31-1-20) which would increase the variety of products sold in the Market District and widen the area in which products could be sold.

I foresee these changes at the Eastern Market as positive and necessary for the betterment of Detroit. It is for these reasons that I stand in support of the transfer agreement between the Eastern Market Corporation and the City of Detroit.

*ON WAIVERS OF RECONSIDERATION Council Member Jones moved to waive the right to reconsider the vote by which

each resolution designated for "Waiver of Reconsideration" and numbered 1 to 1, was adopted.

Council Member Kenyatta moved to suspend Rule 23 for the purpose of indefinitely postponing the motion to waive reconsideration, which motion prevailed.

Council Member Reeves then moved that the motion to waive reconsideration be indefinitely postponed, which motion prevailed.

And the Council then adjourned.

Honorable City Council:

Re: Faye Atkins vs. City of Detroit. Case No.: 05-507196 NI. File No.: A20000.002339 (JAS).

On June 6, 2006, a case evaluation panel evaluated the above-captioned lawsuit and awarded Eight Thousand Seven Hundred Fifty Dollars (\$8,750.00) in favor of Plaintiff. The parties have until July 3, 2006, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Eight Thousand Seven Hundred Fifty Dollars (\$8,750.00) payable to Jonathon H. Frank, attorney, and Faye Atkins, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 05-507196 NI, approved by the Law Department.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. *WAIVER OF RECONSIDERATION (No. 1) per motions before adjournment.

Law Department

June 16, 2006

Honorable City Council:

Re: Petition Number 4360 — Request for City Council Approval of a New Outdoor Service Area for Traffic Jam and Snug of Michigan, Inc., in Conjunction with Class C and Brewpub Liquor Licenses at 511 W. Canfield and 4254-4278 Second Boulevard.

The Traffic Jam and Snug of Michigan, Inc. ("Traffic Jam") operates a restaurant, bar, and brewpub at 511 W. Canfield and 4254-4278 Second Boulevard, in conjunction with a Michigan Liquor Control Commission ("MLCC") "Class C license" and a "Brewpub" license. In 1995, the Traffic Jam petitioned the Detroit City Council for permission to construct and maintain a building encroachment extending about nine (9) feet by one hundred forty-five (145) feet into the east public sidewalk space of Second Boulevard south of W. Canfield Avenue (Petition Number 3097), which was granted by resolution on October 4, 1995 (J.C.C. October 4, 1995), pages 2486-2489.

Pursuant to City Council's approval of its petition, the Traffic Jam has requested the MLCC to approve a new outdoor service area for the sale of alcoholic beverages within the encroachment granted by City Council. As a result of this request, and pursuant to the Michigan Liquor Control Code of 1998, being MCL 436.1101 *et seq.*, and MLCC Rule 436.1419, the MLCC has forwarded to City Council a Local Approval Notice (Request ID Number 322651) concerning Traffic Jam's request.

MLCC Rule 436.1419(1) provides that an on-premises licensee shall not have outdoor service without the prior written approval of the MLCC. The MLCC has advised the Law Department that when a proposed outdoor service area for the sale of alcoholic beverages is on public property, the MLCC requires the approval of the local legislative body of the municipality where the premises are located prior to its approval of an outdoor service area at a licensed premises. Accordingly, the MLCC's request for local approval or disapproval of an outdoor service area at the Traffic Jam has been designated by the City Clerk as Petition Number 4360.

The City Engineering Division of the Department of Public Works has confirmed that the encroachment granted by the City in 1995 is sufficient for the purposes of establishing an outdoor service area on the east public sidewalk space of Second Boulevard south of W. Canfield Avenue, abutting the Traffic Jam property and within the confines of the approved encroachment. Also, the City's permission to encroach was contingent upon the Permittee providing an executed indemnification agreement satisfactory to the City of Detroit Law Department that would be filed with the Finance Department and the City Engineering Division of the Department of Public Works. A copy of an Indemnity Agreement for Encroachment on City of Detroit property, signed by the president of Traffic Jam, has been provided the Law Department.

Consumer Affairs Department Business License Center records indicate that

the Traffic Jam is licensed by the City to operate a restaurant and a "Group A" Cabaret at 4268 Second Boulevard, and that the City business licenses for the location are in the process of being renewed. After investigation and review, the Detroit Police Department Liquor License Unit, on behalf of the Chief of Police, has recommended the approval of the request for an outdoor service area for the sale of alcoholic beverages at the Traffic Jam.

MLCC Rule 436.1419(2) provides where approval for outdoor service is granted, then the on-premises licensee shall ensure that the outdoor service area is well-defined and clearly marked and that the on-premises licensee shall not sell, or allow the consumption of, alcoholic liquor outdoors, except in the defined area. In accordance with City guidelines, the outdoor service area for the sale of food and beverages shall be approved by the Food Sanitation Division of the Health and Wellness Promotion Department.

Therefore, attached is a proposed resolution approving a new outdoor service area for the sale of alcoholic beverages at the Traffic Jam at 511 W. Canfield and 4254-4278 Second Boulevard, in conjunction with its MLCC "Class C" and "Brewpub" liquor licenses. If there are any questions or concerns, please do not hesitate to contact our office.

Whereas, Pursuant to the Michigan Liquor Control Code of 1998, being MCL 436.1101 *et seq.*, and MLCC Rule 436.1419, the MLCC has forwarded to the City Council a Local Approval Notice (Request ID Number 322651) concerning

Traffic Jam's request for a new outdoor service area;

Whereas, MLCC Rule 436.1419(1) provides that an on-premises licensee shall not have outdoor service without the prior written approval of the MLCC;

Whereas, The MLCC has advised the Law Department that when a proposed outdoor service area for the sale of alcoholic beverages is on public property, the MLCC requires the approval of the local legislative body of the municipality where the premises are located prior to its approval of such an area at a licensed premises;

Whereas, The MLCC's request for local approval or disapproval of an outdoor service area at the Traffic Jam has been designated by the City Clerk as Petition Number 4360;

Whereas, The City Engineering Division of the Department of Public Works has confirmed that the encroachment granted by the City in 1995 is sufficient for the purposes of establishing an outdoor service area on the east public sidewalk space of Second Boulevard south of W. Canfield Avenue, which abuts the Traffic Jam property and is within the confines of the approved encroachment;

Whereas, The City's permission to encroach was contingent upon the Permittee providing an executed indemnification agreement satisfactory to the City of Detroit Law Department that would be filed with the Finance Department and the City Engineering Division of the Department of Public Works;

Whereas, A copy of an Indemnity Agreement for Encroachment on City of Detroit property, signed by the president of Traffic Jam, has been provided to the Law Department;

Whereas, The Consumer Affairs Business License Center records indicate that the Traffic Jam is licensed by the City to operate a restaurant and a "Group A" Cabaret at 4268 Second Boulevard, and that the City business licenses for the location are in the process of being renewed;

Whereas, After investigation and review, the Detroit Police Department Liquor License Unit, on behalf of the Chief of Police, has recommended the approval of the request for an outdoor service area for the sale of alcoholic beverages at the Traffic Jam;

Whereas, In accordance with City guidelines, an outdoor service area for the sale of food and beverages shall be approved by the Food Sanitation Division of the Health and Wellness Promotion Department; and

Whereas, MLCC Rule 436.1419(2) provides where approval for outdoor service is granted, then the on-premises licensee shall ensure that the outdoor service area is well-defined and clearly marked and

that the on-premises licensee shall not sell, or allow the consumption of, alcoholic liquor outdoors, except in the defined area.

Now Therefore It Is Resolved, That the Detroit City Council approves a new outdoor service area for the sale of alcoholic beverages at the Traffic Jam at 511 W. Canfield and 4254-4278 Second Boulevard, in conjunction with its MLCC "Class C" and "Brewpub" liquor licenses; and

It Is Further Resolved, That a copy of this Resolution, and the City Clerk's certification of this approval of MLCC Request ID Number 322651, be forwarded to the Michigan Department of Labor and Economic Growth, Liquor Control Commission, 7150 Harris Drive, P.O. Box 30005, Lansing, MI 48909-7575, the Detroit Police Department, Liquor License Unit, 2110 Park Street, Detroit, MI 48226, and the Food Sanitation Division, Health and Wellness Promotion Department, 1151 Taylor, Building 4, Detroit, MI 48202.

Department of Human Services

May 7, 2006

Honorable City Council:

Re: Request for Pre-Approval of Subcontracts for Department of Energy (DOE) and Low Income Home Energy Assistance Programs (LIHEAP).

The Department of Human Services (DHS) provides Weatherization Assistance program services to eligible low income City of Detroit residents. This program has been in existence for over twenty-four years. The services include home weatherization and energy education. The program is funded by the Michigan Department of Human Services (MDHS). Our agency is required to submit on an annual basis a plan to MDHS for approval of funds. Our grant year runs from April 1, 2006 thru March 31, 2007 for

Low Income Home Energy Assistance Program (LIHEAP) and Department of Energy (DOE) funds. The amount of funds that have been allocated to the Department of Human Services for DOE is \$2,723,327, and \$1,192,100 for LIHEAP. Please see the attached allocation sheets that provide a breakdown of allocated funds for Community Action Agencies. The Michigan Department of Human Services has changed its funding process and now requires a Letter of Intent from this Honorable Body to accept these funds to be utilized by DHS for the purposes specified in the plan as written.

Because we have not received the grant award from MDHS, we are not able to process a continuation contract with our subcontractors before the new program year begins on April 1, 2006. The time required to process these contracts might adversely affect service delivery. To avoid any disruption of service and circumvent cash flow problems that our subcontractors may experience, DHS is requesting that City Council pass a resolution authorizing DHS to enter into contracts with the subcontractors listed below. The Department intends to prepare and process the formal contracts as soon as possible. At this juncture, it is necessary to request pre-approval of these contracts.

The Budget Department has approved the Department of Human Services accepting these funds from the Michigan Department of Human Services for the

purposes specified in the plan as written. Your support in helping us to get our plans approved, and to maintain Weatherization services is very much appreciated. Please do not hesitate to contact me if you have any questions at (313) 852-5628.

RESOLUTION PROHIBITING THE INCLUSION OF CITY-OWNED PARCELS IN THE WAYNE COUNTY LAND BANK AUTHORITY UNTIL THE CITY OF DETROIT HAS ESTABLISHED ITS OWN LAND DEVELOPMENT POLICIES

By COUNCIL MEMBER KENYATTA, Joined By COUNCIL MEMBERS COLLINS and WATSON:

WHEREAS, Wayne County entered into an inter-governmental agreement with the State Land Bank Fast Track Authority in 2006, resulting in the creation of a Wayne County Land Bank Authority; and

WHEREAS, The Detroit City Council and the Detroit Wayne County Commissioners voiced significant objection to the creation of a Wayne County Land Bank Authority because of outstanding concerns regarding board composition and concerns relevant to the specific purpose and mission of a Land Bank Authority in Wayne County, and

WHEREAS, The majority of potentially affected parcels are located within the City of Detroit; and

*WAIVER OF RECONSIDERATION (No. 7), per Motions before Adjournment.

STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN OPPOSITION TO RESOLUTION TO PROHIBIT THE INCLUSION OF CITY-OWNED PARCELS IN THE WAYNE COUNTY LAND BANK AUTHORITY UNTIL THE CITY OF DETROIT HAS ESTABLISHED ITS OWN LAND DEVELOPMENT POLICIES

On Wednesday, June 21, 2006, I voted in opposition to the resolution referenced above. I wish to be crystal clear that I support the creation of the Wayne County Land Bank and the creation of a Detroit Land Bank. It is unfortunate that this Council has been unable to support the call from Community based Developers to set up a Detroit Land Bank as soon as possible. The creation of a Detroit Land Bank accomplishes the very thing that our constituents so desperately desire. It will create a mechanism for development by having extraordinary powers to "clear" titles on abandoned and delinquent buildings. It is a major tool for economic development.

I also oppose this resolution because it does little to promote regional cooperation that is so vital for regional economic development. This resolution only fuels the division in Wayne County.

Land Banks have been created to battle blight in St. Louis, Cleveland, Atlanta, Louisville, and Flint. Each one has built on the successes of their predecessors to become powerful tools in revitalizing communities and promoting economic development. The City of Detroit had an opportunity to take the lead by developing a comprehensive development strategy that includes the creation of a Detroit Land Bank. Now we are lagging behind.

In light of the reasons above, I voted no.

RESOLUTION

By COUNCIL MEMBER KENYATTA:

WHEREAS, On April 11, 2006 the City of Detroit Auditor General submitted his report entitled "Audit of the Detroit Neighborhood Development Corporation February, 2006" to the Detroit City Council; and

WHEREAS, During the Auditor General's June 15, 2006 presentation to

Council, serious questions and concerns were raised about certain behaviors, patterns, practices and procedures relating to the procurement, sale and management of City-owned real estate; and

WHEREAS, The Auditor General found that, from September 20, 2002 through January 7, 2005, the DNDC sold a large number of City-owned properties, at prices substantially below market rate, to Chayne Holding Group (Dalton Brown), Rayford Development and RAS Development Group (Rayford Jackson), New Detroit Real Estate (Mark Shows), and Walter Turner; and

WHEREAS, The Auditor General found evidence to suggest a pattern whereby Chayne Holding Group (Dalton Brown) and Rayford Development and RAS Development Group (Rayford Jackson) immediately sold these properties purchased from DNDC to MV Holdings (Marcellus and Vershawn Oree) and Lantech Custom Homes (Durand Jackson and Mary Coates) for what appeared to be a sizable profit; and

WHEREAS, It was immediately evident that safeguards designed to preclude collusion (i.e. fair and open competitive bidding and acceptance of the highest bid) were not followed; and

WHEREAS, There was an extreme lack of oversight and due diligence by the DNDC Board during which they spent public funds of at least \$10 million dollars; there was improper record keeping and reporting of these land transactions to an extent that may rise to the level of criminality; and

WHEREAS, An arm of government responsible for determining if crimes have occurred here should assume this investigation and take the appropriate action so that justice is served; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council urges the Wayne County Prosecutor to review the Auditor General's February, 2006 report and investigate the practices of the Detroit Neighborhood Development Corporation as they relate to this audit, and BE IT FURTHER

RESOLVED, That the Detroit City Council directs the City Clerk to send this adopted resolution and a copy of the Auditor General's Report of the Audit of the Detroit Neighborhood Development Corporation to the Wayne County Prosecutor, the Honorable Kim Worthy.

Not adopted as follows:

Yeas — Council Members Jones, Kenyatta, Watson, and President K. Cockrel, Jr. — 4.

Nays — Council Members S. Cockrel, Collins, Conyers, Reeves, and Tinsley-Talabi — 5.

STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN OPPOSITION TO TWO RESOLUTIONS TO REFER THE AUDITOR GENERAL'S REPORTS ON THE DETROIT NEIGHBORHOOD DEVELOPMENT CORPORATION AND THE CITY OF DETROIT PLANNING AND DEVELOPMENT DEPARTMENT TO THE WAYNE COUNTY PROSECUTOR, THE HONORABLE KIM WORTHY

My "no" vote on these resolutions to refer to the Wayne County Prosecutor the two separate audits of the Detroit Neighborhood Development Corporation (DNDC) and the Planning & Development Department by the Auditor General reflects my belief that the language of the two resolutions is inflammatory and extreme, and also my belief that resolutions need to be presented to City Council with enough advance notice for review and comment before a vote is needed.

Secondly, I am concerned that the language of the two resolutions infringes on the independence of the Auditor General's office. I believe that the protocol for an Auditor General's office requires them to report behavior that they believe to be criminal to appropriate authorities. It is my understanding that the Auditor General's Office was in contact with the U.S. Attorney's Office regarding this audit. While I believe that the Auditor General's office fulfilled their obligation, I am also in support of forwarding this matter to the Wayne County Prosecutor, the Honorable Kim Worthy, for review.

The language of the two resolutions contains unsubstantiated conclusions about the "criminality" of certain "alleged" behavior of named individuals. The resolutions had the Detroit City Council drawing legal conclusions that go far beyond the role of the Detroit City Council, as a legislative body.

Had the language of the two resolutions simply referred the audit to Wayne County Prosecutor, the Honorable Kim Worthy, I would have supported them. However the extreme, prejudicial and inflammatory language that was used is characteristic of political polemics, not reasonable, deliberate legislative resolutions.

These two resolutions were presented to Detroit City Council at 10:50 A.M. on the same day that we were expected to vote on them. This is not a practice that I support, even had the resolutions been flawless, since it takes from me my opportunity to do diligent research on the issue. In this case, the resolutions did need work and had they been presented to the Detroit City Council in advance, we would have been able to engage in discourse that would have modified the resolutions to reflect the will of this body.

Therefore, for the reasons stated above, I voted "no" on these two resolutions and I urge that there be a resolution that simply refers these audits to the Wayne County Prosecutor, the Honorable Kim Worthy.

STATEMENT BY COUNCIL MEMBER KWAME KENYATTA ON MY DECISION, AS A PRIVATE CITIZEN, TO REFER THE AUDITOR GENERAL'S DNDC AND THE P&DD REAL ESTATE DIVISION REPORTS TO THE WAYNE COUNTY PROSECUTOR'S OFFICE

On Wednesday, June 21, 2006, the Detroit City Council failed to approve (5-4) the resolution I sponsored urging the Wayne County Prosecutor to review the Auditor General's reports of the Detroit Neighborhood Development Corporation (DNDC) and the Planning and Development Department Real Estate Division's Sale of City-Owned Property. Despite Council's actions in this matter, I continue to stand in support of having the Wayne County Prosecutor to further examine these serious concerns. I believe that citizens have been harmed. The Prosecutor's Office is in the best position to make a determination as to how to proceed at this point. Therefore, as a private citizen, I will ask the Wayne County Prosecutor to conduct a thorough investigation into the recent audits and to take any necessary action to address possible collusion and wrongdoing by former public officials.

COMMUNICATIONS FROM: Mayor's Office

June 27, 2006

Honorable City Council:

Re: A Resolution Calling For A Total Moratorium On All New Public Event Service Fees In Connection With Special Events.

On June 19, 2006, your Honorable Body adopted a resolution calling for a total moratorium on all new public event service fees in connection with special events.

As you know, I am aware of the language cited in the Detroit City Charter which is provided via, Article 9: Miscellaneous Provisions, Chapter 5: Specific Powers, Section 9-507.

However given the current financial conditions of the City of Detroit, I am hesitant to support a moratorium on public event service fees provided that revenues

generated for such service fees are used to cover financial obligations and/or expenses incurred by various city departments.

For the foregoing reason, I will **neither approve nor veto** the above referenced resolution.

Sincerely,
 KWAME M. KILPATRICK

Re: Michael Banes vs. City of Detroit.
Case No.: 05-529197 NO. File No.:

On June 6, 2006, a case evaluation panel evaluated the above-captioned lawsuit and awarded Seventeen Thousand Five Hundred Dollars (\$17,500.00) in favor of Plaintiff. Honorable City Council:

Re: Address: 9150 Decatur. Name: Mark Tyler. Date ordered removed: March 23, 2005 (J.C.C. pg. 970).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on June 2, 2006 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of June 1, 2006.

The proposed use of the property is rehabilitation and rental.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Respectfully submitted,
VICTOR M. MERCADO
Director

By Council Member Kenyatta:

Resolved, That the water service agreement between Lenox Township and the City of Detroit, Michigan be and hereby is approved.

WATER SERVICE AGREEMENT
BETWEEN
CITY OF DETROIT
AND
LENOX TOWNSHIP

This Agreement made this _____ day of _____, 2006, by and between the City of Detroit, a municipal corporation, by its Board of Water Commissioners (hereinafter referred to as the "BOARD"), and the Township of Lenox, a municipal corporation (hereinafter referred to as "CUSTOMER").

Whereas, The BOARD owns and operates a water system, and

Whereas, The BOARD has contracted to supply potable water from its system to numerous governmental entities in southeastern Michigan, and

Whereas, The BOARD and CUSTOMER entered into an original Water Service Agreement dated July 5, 1988, and

Whereas, The original Water Service Agreement stated, "The distribution by Lenox of water supplied by the BOARD shall be limited to the area within the present boundary limits of Lenox, except that Lenox may supply water to such specific customers or areas beyond its limit as from time-to-time may be mutually agreed upon by Lenox and the BOARD," and

Whereas, The CUSTOMER now desires to distribute water beyond its present external boundary limits, as described in Section 4, and

Whereas, This Water Service Agreement shall supersede any Water Service Agreements(s) heretofore existing, and such prior Agreement(s) shall, upon the effective date hereof be terminated, null and void.

Now therefore, it is agreed among the Parties:

1. The BOARD shall sell water to CUSTOMER from the BOARD's water system in accordance with the terms of this Agreement for a period of thirty (30) years from the date hereof. The BOARD shall be the sole supplier of potable water to CUSTOMER.

2. Upon completion of the thirty (30) year term, this Agreement shall continue on a year to year basis, unless terminated by one of the parties, which shall give one

year's written notice, served upon the other party by delivering the same to the BOARD or to CUSTOMER as the case may be, or at any time upon mutual consent of both parties. The parties may agree to a longer extension of this Agreement.

3. Water shall be delivered by the BOARD to CUSTOMER at or near the Lenox Township existing Master Meter (LX-01) located at 26 Mile Road at the State Prison site, i.e., approximately 1500 feet west of I-94, and the new Master Meter (LX-02) that is located at the northeast corner of intersection of 26 Mile Road and Burdon Road, and at such other locations as may be mutually agreed upon by the BOARD and CUSTOMER.

It is mutually understood and agreed that the BOARD bears neither responsibility and nor has any liability for quality, quantity, or pressure of water and maintenance of the system beyond the points of delivery described in Section 3. Ownership of the water and responsibility for distributing water from the said points of delivery to its customers lies entirely with CUSTOMER. The Master Meters including the pit structure at the said points of delivery shall be owned and maintained by the BOARD.

4. The distribution of water supplied by the BOARD shall be limited to the area within the present external boundary limits of CUSTOMER and areas described in this Section and in EXHIBITS B, C and D and illustrated in EXHIBIT A, except that CUSTOMER may supply water to such specific customers or areas beyond its external boundary limits as from time-to-time may be mutually agreed upon by CUSTOMER and the BOARD.

i. The CUSTOMER may distribute water to customers within an Act 425 of 1984 area, pursuant to three different Act 425 of 1984 Agreements entered into between CUSTOMER and, the Township of Casco dated December 13, 1995, the Township of Columbus dated November 2, 1995, and the Township of Richmond dated November 2, 1995. The boundaries of the Act 425 of 1984 Agreements are set forth in the legal descriptions under Rider A to Act 425 of 1984 Agreements in EXHIBIT B, and are also defined by Parcel No., and address in EXHIBIT B.

ii. In addition, CUSTOMER shall distribute water pursuant to an Agreement entered into between CUSTOMER, the Township of Casco, the American Estates Mobile Home Park, and the St. Clair County Department of Public Works for the American Estates Mobile Home Park dated November 30, 1988, that the legal description of which property is described in EXHIBIT C.

iii. In addition, CUSTOMER shall distribute water pursuant to an Agreement

entered into between CUSTOMER, the Township of Casco, the Anchor Bay School District, and the St. Clair County Department of Public Works, to the Anchor Bay School District for a new school called McDonald Elementary School, which school is located at 5201 County Line Road, Casco, Michigan, 48064, the legal description of which property is described in EXHIBIT D.

It is mutually understood and agreed upon that a Five Hundred Thousand-gallon (500,000-gallon) reservoir and related booster pump station shall be designed and built by CUSTOMER before addition of the above described (Act 25 of 1984) service area to the CUSTOMER's water system. The subject reservoir and related booster station will serve the entire CUSTOMER service area.

5. The BOARD, to the extent practicable shall deliver water to the CUSTOMER at the designated points, described in Section 3. The pressure shall be neither less than 20 pounds per square inch (psi) nor more than 170 pounds per square inch (psi). The CUSTOMER's contracted maximum instantaneous flow rate (water demand) (CMIF) up to the year 2020 and for each year shall not exceed the following flow rates in gallons per minute (gpm). For purposes of this Section 5 and Exhibit E, "Year" shall mean the BOARD's fiscal year, July 1 to June 30.

Year	Cont. Max. Inst. Flow in gpm
2002	671
2003	737
2004	804
2005	871
2006	938
2007	1005
2008	1071
2009	1138
2010	1205
2011	1272
2012	1339
2013	1405
2014	1472
2015	1539
2016	1606
2017	1673
2018	1739
2019	1806
2020	1873

Bills for water service will be computed by applying the prevailing water rate (PWR) to the amount of water consumed by CUSTOMER, as defined herein. It is mutually understood and agreed that the amount of water consumed shall be subject to modification, if the above contracted maximum instantaneous flow rates (CMIF) are exceeded in any year. The modified water consumption (MWC) shall be a product of the water consumption (WC) — as measured or estimated in the manner described in Sections 9 and 10 — and the modified water consumption fac-

tor (MWCF). The MWCF shall be defined as the ratio of the actual maximum instantaneous flow (AMIF) to the contracted maximum instantaneous flow rate (CMIF) for that year $\{(MWCF) = (AMIF) / (CMIF)\}$. To the extent that the CMIF is exceeded in any given year, the rate shall remain the same for the remainder of that year. ~~bills for water service for the remainder of that year would then be computed as $[(WC) \times (MWCF)] \times (PWR)$.~~ The MWCF will remain in place for the balance of the year, and will be recomputed for subsequent years based on the actual experienced AMIF and the CMIF for the respective year. This modification process is illustrated in Exhibit E. All bills computed via this process shall be due and payable not more than thirty (30) days from the date shown on the bill. The modification process shall not apply to the extent that the reason the contracted maximum instantaneous flow rate is exceeded is caused by fire fighting flows. The CUSTOMER shall provide proper documentation of fire fighting flows to the BOARD for review and approval.

6. Per BOARD Policy of "Growth Pays for Growth", CUSTOMER shall pay to the BOARD a one-time connection fee for connecting to the BOARD at the new connection (Master Meter LX-02) described in Section 3, and based on half of CUSTOMER's requested water quantity described in Section 5, as follows:

\$337,175 (Three hundred thirty seven thousand and one hundred seventy five dollars) based on a absolute maximum flow rate of 936 (nine hundred thirty six) gallons per minute (gpm) for the new connection (Master Meter LX-02). CUSTOMER agrees to pay this amount to the BOARD from the revenues of its water supply system as part of the cost of water to be received from the BOARD within ninety (90) days of receiving water from the BOARD from the said connection. **[TO BE MODIFIED — NEED TO ADD THAT CONNECTION FEE MAY BE SUBJECT TO SAME MODIFICATION PROCESS AS PRESENTED IN SECTION 5]**

7. Budget Department

June 15, 2006

Honorable City Council:

Re: Transfer of Funds for Public Lighting Department.

The Budget Department is requesting approval to transfer funds for expenses incurred by the Public Lighting Department for purchased electric power and natural gas for citywide and departmental services. The FY 2005-06 Surplus/Deficit for the Public Lighting Department estimated a \$4.850 Million appropriation deficit excluding fringe benefits. This deficit is due to salaries higher than budget (DOWOP savings) and purchased electrical power and natural gas higher than budget. The appropriation is currently in deficit and needs additional appropriations to meet current expenses.

Currently the department is behind with payment for purchased electric power from DTE and currently has no funds to pay for natural gas purchases, and the associated administrative costs for local distribution. The FY 2005-06 budget assumed funding for Risk Management contract in Non Departmental that will not be used this year and a surplus in Wagering Tax collections. This was included in the Surplus/Deficit estimate. These funds are available for transfer to Public Lighting.

The Budget Department respectfully requests that your Honorable Body approve the transfer of necessary appropriations to fund legal and operational expenses incurred by the Public Lighting Department. The proposed resolution is attached.

Respectfully submitted,
 PAMELA SCALES
 Budget Director

By Council Member Kenyatta:

Budget Department

June 12, 2006

Honorable City Council:

Re: Transfer of Funds for Department of Public Works.

The Budget Department is requesting approval to transfer funds for expenses incurred by the Department of Public Works for \$3.5 Million. The FY 2005-06 Surplus/Deficit for the Department of Public Works estimated a \$9.5 Million appropriation deficit excluding fringe benefits. This deficit is due to salaries higher than budget (DOWOP savings) and higher fuel costs. The appropriation is currently in deficit and needs additional appropriations to meet current expenses.

There has been significant increase in the price of energy products during this fiscal year. While the Budget Department estimated increases in the price of gasoline just estimates were unable to predict a major hurricane in the Gulf of Mexico, or the continual problems in the Mid East. As a result DPW, which provides significant gasoline products to General Fund Departments, has experienced a deficit in its fuel accounts. The attached resolution provides necessary funding to allow the Department to pay the City's major vendor, Waterfront Petroleum. The Surplus/Deficit included a surplus in State Fire Reimbursement and Earnings on Investments accounts, which will used to transfer the funds.

The Budget Department respectfully requests that your Honorable Body approve the transfer of necessary appropriations to fund fuel expenses incurred by the Department of Public Works.

The proposed resolution is attached.

Respectfully submitted,

PAMELA SCALES

Honorable City Council:

Re: Authorization to accept a \$5,000 grant from the Baseball/Softball League Expansion Grant Program of the Cal Ripken, Sr. Foundation, for the 2006 C.A.L. Community Baseball/Softball Program Grant.

The Detroit Recreation Department is hereby requesting the authorization of your Honorable Body to accept and expend \$5,000 awarded us by the Cal Ripken, Sr. Foundation, through its *Baseball/Softball League Expansion Grant Program*.

The project will double the co-ed T-ball program that is currently conducted at the Adams/Butzel Recreation Complex, located in northwest Detroit. In order to accept and expend these funds, the Department requests authorization to set up Appropriation No. 12227. Within this

Appropriation, the Grant of \$5,000 will be received in Organization No. 398454.

The Cal Ripken, Sr. Foundation grant will enable the Detroit Recreation Department to expand the *Adams Butzel T-Ball League* to include an additional 100 T-ball players. The grant program will be directed at Detroit's youngest ball players — those aged 5-8. We will use Foundation dollars to purchase the equipment needed for our expanded T-Ball program, including balls, bats, gloves, helmets, hitting tees, pitching machines and double bases. Grant dollars will also help finance the training of coaches, the end-of-season events, trophies and tournament fees.

We respectfully request your approval to accept and expend these funds by adopting the following resolution, with a Waiver of Reconsideration.

Respectfully submitted,
CHARLES BECKHAM
Director

WHEREAS, As a result of numerous complaints that Black and Latino voters were fraudulently deceived into believing that the initiative would support affirmative action not effectively eliminate most public-sector affirmative action programs, the Board of Canvassers was initially unwilling to certify the proposal, but since have been ordered to do so by the Michigan Court of Appeals, thus placing the initiative on the ballot; and

WHEREAS, Mayor Kwame Kilpatrick has joined the other plaintiffs in the lawsuit in an attempt to remove the initiative

from the November ballot and preserve affirmative action programs in the State of Michigan; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council vehemently objects to the Michigan Civil Rights Initiative and adds its full and unconditional support to this legal attempt to remove the initiative from the November ballot, and BE IT FURTHER

Nays — Council Member S. Cockrel — 1.

STATEMENT BY COUNCIL MEMBER SHEILA COCKREL, REGARDING THE CITY COUNCIL RESOLUTION SUPPORTING EFFORTS TO REMOVE THE MICHIGAN CIVIL RIGHTS INITIATIVE FROM THE NOVEMBER BALLOT

Because of my concerns regarding the potential violations of sec 4(3)(a) of the Michigan Campaign Finance Act, Public Act 388, I voted No on the resolution. The mayor joined this lawsuit as an individual and not in his capacity as the chief executive officer of the City of Detroit.

I BELIEVE THAT INDIVIDUAL CITY COUNCIL MEMBERS WHO WISH TO JOIN OR SUPPORT THE LAWSUIT COULD ELECT TO DO SO AS AN INDIVIDUAL, PRIVATE CITIZEN.

I strongly believe as a member of this legislative body, that all members should be afforded the opportunity to receive and review all material before being asked to vote on an item. Due to the fact the Division of Research and Analysis prepared the resolution, I find it particularly troubling that the resolution was apparently not circulated to all Council Members at the table with sufficient time for review.

Furthermore, I believe that the approved action potentially places the City Council in violation of the Michigan Campaign Finance Act which prohibits "a public body or by an individual acting for a public body from authorizing the use of funds, personnel, office space, and other resources that are excluded from the definition of contribution under the section 4(3)(a) of Public Act 388".

For these reasons, I have voted No on this resolution and will use a personal forum to communicate my position in a personal statement, as a private citizen.

The question being "Shall this Ordinance Now Pass?"

The Ordinance was passed, a majority of the Council Members present voting therefore as follows:

Yeas — Council Members S. Cockrel, Conyers, Reeves, Tinsley-Talabi, and President K. Cockrel, Jr. — 5.

Nays — Council Members Collins, Jones, Kenyatta, and Watson — 4.

STATEMENT BY COUNCIL
PRESIDENT KENNETH V. COCKREL,
JR. ON SOLID WASTE ORDINANCE
VOTE

Today I joined with the majority of the Detroit City Council in voting to pass the

ordinance which authorizes the creation of an annual garbage fee.

This was without a doubt the most difficult vote I have ever participated in during my eight and a half years on the Detroit City Council. The hard truth is that the garbage fee though it is unpleasant is now a necessity if Detroiters want to continue to have weekly garbage pickup.

Contrary to popular belief, garbage pickup in Detroit has never been free. Property owners have been paying for it through a 3-mill levy on their property tax bills. The problem is that, due to Detroit's shrinking population this levy no longer generates sufficient dollars to finance weekly garbage pickup.

For this reason, the Mayor proposed the creation of the \$300 flat fee in April during his 2006-2007 fiscal year budget address to City Council.

The Mayor's proposal generated controversy instantly and many critics countered that the needed funds should be raised through an increase in the property tax millage rather than a flat fee.

Increasing the millage would have been problematic from a couple of standpoints. Again, the millage currently doesn't generate enough money to fund weekly garbage pickup, hence the Mayor's proposal for a fee. In order to generate at least the \$43 million needed to finance weekly garbage pickup through a millage, the 3 mills would have to be increased to at least 9 mills. For many homeowners this would have resulted in a bigger increase than a \$300 flat fee.

Had the voters rejected it for just that reason, we would have been left with no immediate way to fund garbage pickup. Even if the voters did approve this increase, you'd still have many property owners complaining about its impact on their personal bottom lines.

One other alternative that was considered was cutting the budgets of other departments to transfer that money to DPW for garbage pickup. Because over 80% of our costs are in personnel cuts to other departments means layoffs. City Council's Fiscal Analyst determined that the city would have had to lay off about 581 city employees at the minimum to produce the funds needed to finance weekly garbage pickup. Most of these employees would have been police and firefighters.

While some may see this is a more palatable solution, it is important to consider that many city departments have already been decimated by layoffs during this fiscal year. Additional massive layoffs could mean the closing of some departments that provide needed services like the Recreation Department. Laying off police and firefighters jeopardizes public safety. Furthermore, unless all these positions were to be left vacant permanently,

this course of action would only fund 12 months of weekly garbage pickup.

On July 1, 2007, the start of the 2007-2008 fiscal year, we'd be right back at square one in trying to figure out a way to fund garbage pickup.

A third alternative that was mentioned was pursuing money owed to the City by the State of Michigan in the form of promised revenue sharing dollars and money owned for the city's demolition of state-owned abandoned and dangerous properties. Though I wholeheartedly support pursuing these dollars, this is not a viable way to fund garbage pickup for the following reasons: First, though it remains unclear exactly how much the State does owe the city, it's a safe bet that that money wouldn't cover the cost of weekly garbage pickup on an annual basis. Secondly, given the state's own budget problems, the likelihood of any dollars coming from Lansing is slim. Thirdly, even if Governor Granholm were to pursue a payment to the city, this would require the approval of the State House and Senate, both of which are controlled by Republicans who've proven hostile to Detroit on more than one occasion. Bottom line: the odds of securing state dollars to fund weekly garbage pickup is somewhere between slim and nonexistent.

While no one likes the idea of a fee when you consider Detroit's fiscal realities, it's the only course of action that makes sense at this time.

Detroiters should, however, take comfort in the following: the City Council will continue to explore other options that might allow us to reduce or eliminate this fee. Also, the Council and the Mayor have also agreed to a plan for a 50% discount on this fee for senior citizens who make less than \$40,000 annually. Other hardship provisions will also be put in place for those in need.

It is also important to note that because of bond debt that will be retired in 2009, the fee will be reduced and possibly even eliminated assuming that hasn't already happened prior to that date. Lastly, as part of deal negotiated between the City Council and the Mayor during our budget sessions, bulk trash will be returning on a quarterly basis this fiscal year along with an enhanced system for the collection of yard waste.

STATEMENT BY COUNCIL MEMBER
SHEILA M. COCKREL IN SUPPORT OF
ORDINANCE TO SET SOLID WASTE
FEE

The City of Detroit is in a fiscal crisis that has been 50 years in the making. There are tough decisions being made by the Detroit City Council on a daily basis. No one on the Detroit City Council, including myself, wanted to collect an extra \$300 from Detroit residents, even with the

promise of 3 mills being taken off of our property taxes. But the current reality is that without the extra money that this fee will generate, we were guaranteed a reduction in City services.

I certainly understand that we must protect the neediest of our Detroit residents. I felt comfortable approving this fee knowing that there were provisions in this Ordinance for a Senior Discount program as well as a Hardship Exemption. The discount and exemption will be needs-based and it will help those residents who demonstrate that they can not afford the \$300.00 fee.

The decision to set this ordinance was not a decision I arrived at easily. Throughout the Council's deliberative process, I listened intently for a viable alternative to this fee. The bottom line was that the City has been subsidizing trash collection for its residents for way too long, and that given the financial situation of the City, this was no longer fiscally responsible. The two solutions were to either find over \$100 million dollars that it costs to provide the service, or to collect a fee that represents a larger allocation of the cost of the services. Please remember that the City's General Fund will still contribute \$35 million to the collection and disposal of solid waste.

It is very clear that a "no" vote on this fee would have left a hole in the budget that would have only been filled by layoffs. A "no" vote on this Ordinance would have been a yes vote to laying-off over 500 City of Detroit employees. The Mayor has already stated that it was the only viable alternative, and he has already outlined where the cuts would be made.

This is the beginning of a tough time in Detroit, possibly the toughest that the residents have seen. The solutions that will hold the City together in the future are going to be those based in fiscal responsibility and financial solvency. The City's leaders must do everything in their power to make responsible decisions that will keep the core services running for our residents, and that will keep generating the revenue needed to run those services. I voted "yes" on this Ordinance because I believe that it will allow us to generate the revenue needed to provide those core services.

STATEMENT OF HON. ALBERTA
TINSLEY-TALABI REGARDING THE
SOLID WASTE FEE

After much consideration, I voted to support the Solid Waste Fee contained in the FY 06-07 Budget approved by a majority of the Detroit City Council. The revenue to be generated by the fee is needed to maintain a balanced budget, protect the city's bond rating and maintain a decent level of vital city services for residents.

The City Council approved the FY 06-07 Budget that contained approximately \$70 million from the solid waste fee. After much debate and no viable alternative to replace these funds other than massive lay-offs of city employees, City Council adopted the proposal to balance the budget as required by state law. Today's vote on the ordinance implemented the budget approved by the Council which takes effect July 1, 2006.

I agonize knowing an additional \$300 fee will be a challenge for city residents. To minimize this, senior citizens will receive a 50% discount. Yet without the fee, the city's bond rating would drop. If the bond rating goes down, the city would not be able to sell bonds needed to make improvements to city parks or other necessary improvements. Without the fee, approximately 1000 city employees would be laid off. This would include hundreds of police officers, firefighters, bus drivers and other employees that provide vital city services. To maintain the current level of city services, I voted to support this temporary additional fee. Although not included in the solid waste fee, bulk trash service can also be restored.

This week, Council received a report from the Fiscal Analyst projecting a \$121 million deficit for the current fiscal year which ends today, June 30, 2006. This clearly demonstrates the fiscal challenges facing the City of Detroit. There are no easy solutions to moving the city to a brighter financial future and the fee will be one of the tough decisions that will have to be made along the way. But considering the options available to the Council, I believe the solid waste fee is the most prudent decision at this time.

STATEMENT BY COUNCIL MEMBER BARBARA-ROSE COLLINS

On Friday, June 30, 2006, I, after much consideration felt compelled to cast a vote of "No" on the reappointment of Mr. Jim Stone to the City of Detroit Brownfield Redevelopment Authority's Community Advisory Committee for the term expiring June 30, 2007. Although Mr. Stone has served the City of Detroit in an exemplary manner over the years, the fact that Mr. Stone resides outside of the City of Detroit poses a great concern for me.

It is my belief that within this great city of ours, resides a number of residents with the same fortitude, passion and desire to serve as Mr. Stone. If non-Detroit residents such as Mr. Stone, are permitted to continue to serve in such roles, the City of Detroit's residents who wish to serve may never get a chance.

The Brownfield Redevelopment Authority's Community Advisory Committee determines what city owned land is sold, to whom and at what price. I believe

that Detroit citizens should be the ones endowed with this power, not non-residents from other municipalities.

It is my position to support the residents of the City of Detroit. Therefore any outsourcing of jobs, appointments, re-appointments, etc. to non-Detroit residents will be met with a resounding "No Vote."

Honorable City Council:

Re: Status of Finance Department Special Assessment Division Special Assessment Roll relative to placing liens on properties due to outstanding bills.

In response to Honorable City Council's request, find attached the proposed Resolution regarding 2002 sidewalk assessments on Harper Avenue between Outer Drive and Conner, in proper form.

Please note that the issue was first brought to the attention of the Detroit City Council in 2002 as Petition #556; however, no Resolution was adopted in regard to this matter.

The attached Resolution enables this Honorable Body to determine which of the property owners were improperly assessed for the sidewalk repairs and which assessments were validly levied so that an appropriate solution might be fashioned for the Petitioners.

Respectfully submitted,
DAVID WHITAKER

Director

By ALL COUNCIL MEMBERS:

WHEREAS, The road surface of Harper Avenue from Outer Drive to Conner was resurfaced in 2002; and

WHEREAS, Also in 2002 the City of Detroit sent a "Notice to Repair" to property owners with unsafe sidewalks on Harper Avenue from Outer Drive to Conner; and

WHEREAS, Some of the property owners on Harper Avenue from Outer Drive to Conner paid out-of-pocket to have their sidewalks repaired pursuant to the "Notice to Repair" from the City of Detroit; and

WHEREAS, For some unknown reason, the City of Detroit replaced many of the sidewalks that had already been repaired by property owners, subsequently assessing the properties for the work; and

WHEREAS, Property owners on Harper Avenue petitioned the Detroit City Council in 2002 (Petition #556) relative to the sidewalk assessments; and

WHEREAS, In 2003 the Detroit City Council, after having first conducted extensive hearings on the matter, found that sufficient evidence existed that some property owners replaced damaged sidewalks at their own expense, but were subsequently billed by the City of Detroit

essentially for the same work; and

WHEREAS, In 2003 a majority of City Council was desirous of granting the Petitioners' request for waiver of the assessments where proof existed that they had been improperly assessed, but no Resolution apparently was passed by City Council manifesting its intent at that time; and

WHEREAS, In 2006 the Harper Avenue property owners were again levied for sidewalk replacement that occurred in 2002; and

WHEREAS, Based on testimony given in both 2002 and 2006, the Detroit City Council has found evidence that the City of Detroit Finance Department Assessment Division has erroneously levied 2002 sidewalk replacement costs to certain property owners on Harper Avenue between Outer Drive and Conner that had independently repaired the sidewalks or been otherwise improperly assessed; and NOW, THEREFORE BE IT

RESOLVED, That it is the intent of the Detroit City Council to waive the 2002 sidewalk assessment for property owners listed in petition #556 of 2002, a copy of which is on file in City Clerk's office, billed in error and who can establish that the assessment was erroneously levied.

Adopted as follows:

Yeas — Council Members S. Cockrel, Collins, Conyers, Jones, Kenyatta, Reeves, Tinsley-Talabi, Watson, and President K. Cockrel, Jr. — 9.

Nays — None.

City Planning Commission

May 25, 2006

Honorable City Council:

Re: Proposed text amendment to Chapter 61 (Zoning)/Far Eastside Overlay Area (Recommend Approval).

Before your Honorable Body is a text amendment to the Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code, that would establish an overlay area with special land use provisions and with special intensity and dimensional standards in order to facilitate the development of dense, infill housing in a portion of what is known as the Far Eastside area. This action is consistent with the previously approved Master Development Agreement for the area. No rezoning of land would take place and no clearance of existing housing or relocation of residents is involved.

This ordinance was drafted and revised by City Planning Commission (CPC) staff in conjunction with an interdepartmental review team consisting of staff from the Planning and Development Department (P&DD), Buildings and Safety Engineering Department, Law Department, and Board of Zoning Appeals (BZA) and in consultation with the petitioner, New Far East Side Development, LLC.

Background of project

In mid-2004, P&DD submitted to City Council the Pre-Development Agreement for the Far East Side Area, which was subsequently approved by Council in July of 2004 (*Journal of City Council, 14 July 2004, Pgs. 2378-2393*). That Agreement is between the City and New Far East Side Development Co., LLC, the Developer, and set forth the requirement that the Developer prepare a Master Plan, which is also an implementation plan, for the Far East Side area. This Master Plan was adopted as an exhibit to the Master Development Agreement that was submitted to and approved by City Council in 2005. (*Journal of City Council, 23 February 2005, Pgs. 661-662*).

The overall Far Eastside Area is bounded by East Jefferson Avenue, Alter Road, Warren Avenue, and Conner Avenue, and is approximately 1,200 acres in size. The Developer also serves as the Master Developer for a 700-acre portion of the area.

Design Guidelines for the area are incorporated into the Plan, guiding the general appearance, site layout, and location of the various building types. It is these guidelines that are being codified by the proposed Overlay Zoning area. The Plan will be implemented in phases, with the first phase occurring in the Fox Creek Neighborhood (New Town #1), bounded by East Jefferson, Kercheval, Manistique, Vernor, and Alter Roads. The proposed Overlay Zoning area would be established in this area.

CPC and City Council approval is necessary for each New Town Plan and for the proposed Overlay Zoning area. The Master Developer Agreement states that the project area will be rezoned to PD or some other appropriate zoning classification that would enable the developer to meet its goals. The proposed overlay zoning achieves this.

Exclusive authority is granted to the developer, New Far East Side Development Co., LLC, for a period of five (5) years, during which time the developer is required to develop 440 new residential housing units in New Town #1 and a total of improved lots to accommodate 1000 housing units. The Master Developer then has the option to extend the term.

Limitations of existing zoning

The land in the proposed overlay area is generally zoned R2 (Two-family residential district). Much of the land was platted on thirty-foot (30') wide lots, meaning that the homes built in the early part of the Twentieth Century were very close to each other.

When the 1968 Zoning Ordinance was passed, it established a more suburban style of development, requiring a 5,000 square foot lot having at least fifty (50)

feet in width. Exceptions to the lot area and lot width requirement were allowed but, because of the side yard requirements, new residential construction on 30-foot lots would result in very narrow homes, unless the developer secured a dimensional variance from the Board of Zoning Appeals.

The proposed infill housing referenced in the Master Plan for the Far Eastside Area shows single- and two-family dwellings being built on the existing small platted lots, as was the original housing, most of which has been demolished in recent decades. Unlike the original housing development, however, the residential infill development on land zoned R2 now would require dimensional variances from the Board of Zoning Appeals.

In order to facilitate, rather than frustrate, the proposed residential infill development in the Far Eastside area, several options were explored:

- Make no Zoning Ordinance text or map amendment.
- Rezone the land from R2 to R5 zoning district.
- Rezone the land from R2 to PD.
- Create an overlay area.
- Create an R7 or SD6 zoning district and rezone the land.

While each of the options presented certain advantages, and none was without shortcomings, the creation of an overlay area seemed to respond best to the needs of the petitioner and existing property owners without unduly burdening City resources. Specifically, an overlay area can be crafted to restrict unwanted uses or authorize unique features while leaving

the underlying zoning district intact. The time, staffing, and expense of public hearings is foregone and permit issuance is more predictable.

Scope of the proposed ordinance

The attached ordinance contains four main provisions unique to the Far Eastside Area, and one provision that would be applicable citywide, in addition to non-substantive corrections and revisions of a “housekeeping” nature:

1. The proposed Far Eastside Overlay Area would be established within a 140-acre area generally bounded by East Jefferson Avenue, the alley first west of Newport Avenue, the alley first north of Kercheval Avenue, the alley first west of Manistique Avenue, East Vernor Highway, and the City of Detroit City Limits east of Alter Road. (*Secs. 61-11-381, 61-11-382*)

2. The standards proposed for the overlay area would facilitate the construction of single-family dwellings, two-family dwellings, town houses, and multi-family dwellings at a greater density than presently allowed on land zoned in the R2 (two-family residential district) zoning classification (*Article XI, Division 14, Subdivision G*).

3. To achieve a greater density, certain lot area (*Sec. 61-11-383*), lot width (*Sec. 61-11-384*), setback (*Secs. 61-11-385, 61-11-386, 61-11-387*), lot coverage (*Sec. 61-11-388(a)*), recreational space ratio (*Sec. 61-11-388(b)*), height (*Sec. 61-11-389*), and floor area ratio (*Sec. 61-11-390*) specifications are modified to allow for greater housing density without need for dimensional variances from the Board of Zoning Appeals (see following table).

Issue	Citywide provision (R2 district)	Overlay area provision
Lot area	Sec. 61-13-3 Single-family = 5,000 sq. ft. Two-family = 6,000 sq. ft. Multiple-family = 7,000 sq. ft. Town houses = 7,000 sq. ft.	Sec. 61-11-383 Single-family = 3,000 sq. ft. Two-family = 3,000 sq. ft. Multiple-family — no change Town houses = 4,320 sq. ft.

Front setback	Sec. 61-13-3 Single-family = 20 ft. Two-family = 20 ft. Multiple-family = 20 ft. Town houses = 20 ft.	Sec. 61-11-385 Single-family — no change Two-family — no change Multiple-family = 15 ft. or 10 ft. Town houses — no change
Side setbacks	Sec. 61-13-3 Single-family = 4 ft./14 ft. Two-family = 4 ft./14 ft. Multiple-family = 10 ft. each side Town houses = Formula B	Sec. 61-11-386 Single-family = 4 ft. each side Two-family = 4 ft. each side Multiple-family = 4 ft. each side Town houses = 4 ft. each side
Rear setback	Sec. 61-13-3 Single-family = 30 ft. Two-family = 30 ft. Multiple-family = 30 ft. Town houses = 30	Sec. 61-11-387 Single-family — no change Two-family — no change Multiple-family = 2 ft. Town houses — no change

Issue	Citywide provision (R2 district)	Overlay area provision
Lot coverage	Sec. 61-13-3 Single-family = 35% Two-family = 35% Multiple-family = 35% Town houses = 35%	Sec. 61-11-388(a) Single-family = 50% Two-family = 50% Multiple-family = 50% Town houses = 50%
Recreational space ratio	Sec. 61-13-3 Single-family = n/a Two-family = n/a Multiple-family = n/a Town houses = n/a	Sec. 61-11-388(b) Single-family = n/a Two-family = n/a Multiple-family = n/a Town houses = n/a
Height	Sec. 61-13-3 Single-family = 35 ft. Two-family = 35 ft. Multiple-family = n/a Town houses = 35 ft.	Sec. 61-11-389 Single-family = 47 ft. (or 135%) Two-family = 47 ft. (or 135%) Multiple-family — no change Town houses — no change
Floor area ratio	Sec. 61-13-3 Single-family = n/a Two-family = n/a Multiple-family = 0.50 Town houses = n/a	Sec. 61-11-390 Single-family = n/a Two-family = n/a Multiple-family = 2.5 (or 135%) Town houses = n/a

4. Other provisions that would apply to the overlay area would make multiple-family dwellings (*Sec. 61-11-391*) and outdoor recreation facilities (*Sec. 61-11-393*) by-right uses, rather than conditional uses, in the R2 district. Additionally, the 8-unit limit on the size of multiple-family dwellings in an R2 district would not apply within the overlay area (*Sec. 61-11-(a)(2)*). Also, more appropriate setback provisions are stated for mixed-use buildings in business districts (*Sec. 61-11-392*). Clarification is made that the Zoning Ordinance's Alternative Residential Development Options do not apply within the overlay area (*Secs. 61-11-381 and 61-13-171*).

5. On a citywide basis, the Board of Zoning Appeals would be empowered to consider dimensional variance requests for new construction, such as for lot area, lot width, setback, lot coverage, recreational space ratio, height, and floor area ratio; presently the Board's authority is limited to dimensional variance requests involving existing buildings. (*Sec. 61-4-91*)

6. Numerous non-substantive revisions and corrections are made to properly state cross-references (*Sec. 61-13-159(1)*); an obsolete agency reference is updated (*Sec. 61-4-91(3)*); the phrasing of certain provisions is changed for greater clarity (*Sec. 61-4-91(3)* and *(6)*).

RESULTS OF THE PUBLIC HEARING

At the April 20, 2006 CPC public hearing on this matter, 13 members of the public spoke. In addition, there were questions raised by Commissioners.

A summarization of issues follows with analysis and comment provided in italics:

- Several members of the public were concerned that property taxes would significantly increase due to the new construction and improvements in the area.

Property taxes are capped by Proposal A, which limits property tax increases for

existing property owners to the cost-of-living, generally in the range of 2-4 percent per year. This is regardless of the actual increase in the property's value.

- Another concern was how traffic in the alleys, which are proposed to remain open to traffic, would be handled and whether there should be any garages accessed from the alleys at all.

The alleys in the area are proposed to remain open to vehicular traffic, though they may be converted to easements and would be maintained by the developer or homeowners' association.

- Both the public and the Commissioners questioned the criteria for, the amount of, and the distribution of funds from both the City HOME program and from the developer's foundation to assist current homeowners with bringing their homes up to code.

The developer has acknowledged the creation of a foundation that will augment the City's HOME program in assisting current homeowners in bringing their homes up to current building codes. The foundation would likely have more latitude than the City's program in funding rental properties or those containing households with a different range of income. This likely will have to be resolved before City Council acts on this request.

- Representatives from St. Ambrose Church requested that the area previously designated for the PIFU (People in Faith United) playground be maintained as recreational space.

The developer is discussing the question of the PIFU park/open space with the representatives from St. Ambrose Church. The scale of the park is the main question. The Planning and Development Department (P&DD) must also be a part of these discussions, as much of the proposed park is on City-owned land.

- A request was made that building

materials of the new homes match those of the existing ones.

The proposed buildings are brick on the front, so they should be comparable to, or better than, the existing housing stock.

- The price of the proposed homes was a concern.

The price of the proposed homes in this first phase is the price that the developers feel they must charge to cover the expense of the new infrastructure that the developer is installing (new east-west streets, etc.) and to realize a profit on the project. The developer feels that based on the marketing study, people will pay the proposed prices.

- One speaker opposed the change in the character of the area by the proposed addition of multi-family buildings.

This is a matter of whether the City sees the area as being redeveloped in the same pattern that the area was first developed or whether the pattern should change. The City Council has endorsed change by its adoption of the Master Developer Agreement, in which the apartment buildings and other high-density features are shown. The provisions of the proposed overlay area are what would regulate the specifics of this increase in density and the development's exact scale.

- A block-club representative felt that neighbors had not been adequately consulted regarding the nature of the future development.

The developer indicates having worked with various groups in the area and having presented the concept to them. It is apparent that not every group was talked to. Since the public hearing, the block club representative was invited to, and reportedly attended, a neighborhood meeting with the developer held by the River Bend Community Association.

- Another speaker felt that the provision allowing four-foot side yards, was inadequate putting the new homes too close to the existing ones.

The proposed four (4) foot side setbacks actually reflect the proximity of houses as originally constructed in this area.

- The director of the Board of Zoning Appeals felt that the current zoning regulations should be maintained, with all necessary dimensional variances going through the usual BZA variance process, possibly grouped by block. He also stated that overlay areas ought not lessen the requirements of the underlying zoning district.

If large areas, possibly blocks, were to come before the BZA, this would introduce a fair amount of uncertainty to the development process, with the developer never knowing exactly what would be approved for any given block. In addition, the hearing process adds time and

expense to the development process. The overlay zoning district option would require only one public hearing, showing the entire project, noticing everyone affected by the change, as opposed to multiple hearings on each building or group of buildings in the project. The BZA's preference for that body to consider dimensional variances as part of this infill development would still require a text amendment to the zoning ordinance, as the BZA currently is not authorized to consider dimensional variance requests for other than "existing buildings." The Ordinance amendment currently before the Commission contains language that would give the BZA that authority.

It should be noted that at each new phase of the far eastside development, a text amendment to the Zoning Ordinance will be required to expand the boundaries of the overlay area. This will provide the opportunity to revisit and reevaluate the issue of jurisdictional appropriateness as well as offering the public a recurring forum in which to voice concerns, raise questions, and offer observations.

- How narrow are the proposed homes, and will they be as narrow as those recently built in Highland Park?

The developer indicates that a twenty-one (22) foot wide home would be built on a thirty (30)-foot wide lot. Many of the new units built in Highland Park south of McNichols between Woodward and Oakland were very small, measuring about 14'3" in width.

- What is the cost savings to the developer of an overlay zoning district being approved compared to the project having to go to the BZA?

The developer reports that the dollars involved would be significant, but more precise information remains to be provided.

CONCLUSION AND RECOMMENDATION

In light of the additional information received at the public hearing, and subsequent to it, it appears that the overlay area approach provides more advantages and fewer disadvantages to both the developer and the City compared to the other alternatives: not rezoning the land; rezoning the land to a higher density residential zoning district classification; or establishing a planned development (PD).

At its May 4, 2006 meeting, the CPC took action to recommend adoption of the proposed text amendment to the Zoning Ordinance, Chapter 61 of the 1984 Detroit City Code.

Said dimensional variances may be granted in the following seven (7) instances based on the approval criteria of Sec. 61-4-81 of this Code, except as may be limited or restricted by other provisions of this Zoning Ordinance:

(1) *Location or Amount of Off-Street Parking.* For a variance from the required location of off-street parking facilities or the amount of off-street parking facilities required, or both, where, after investigation by the Board, it is found that such modification is necessary to secure an appropriate development of a specific parcel of land, provided, that any such modification will not be inconsistent with other requirements and general purpose of this Zoning Ordinance; or

(2) *Loading Spaces.* For a variance of the loading space provisions of ARTICLE XIV, DIVISION 1, Subdivision D of this Chapter where, after investigation by the Board, it is ascertained that the volume of vehicular service will not require complete

ARTICLE XI. SPECIAL PURPOSE ZONING DISTRICTS AND OVERLAY AREAS

DIVISION 14. OVERLAY AREAS
Subdivision G. Far Eastside Overlay Area.

Sec. 61-11-381. Far Eastside Overlay Area created; description; applicability of provisions.

Certain areas of the City of Detroit are

characterized by a high concentration of vacant land once occupied by dwellings on small lots. East Warren Avenue, Alter Road and the Grosse Pointe Park city limits, East Jefferson Avenue, and Conner Avenue generally bound one such broad area, which has been found to be ripe for infill housing development.

To facilitate residential infill development within this broad area, a Far Eastside Overlay Area is created, the boundaries of which are specified in Sec. 61-11-382 of this Chapter. The provisions in this Subdivision for the Far Eastside Overlay Area will allow for the reestablishment of dwellings similar in placement, character, and massing to the dwellings originally built on the lots of this broad area and will further allow for an even greater density of such dwellings, notwithstanding the intensity and dimensional standards that govern such construction elsewhere in the City. However, where no special provision is recited in this Subdivision, the standard provisions of Article XIII of this Chapter that apply city-wide shall govern development within the overlay area.

This overlay area is created in the spirit of the Alternative Residential Development Options of Article XIII, Division 3 of this Chapter, however, the provisions of this Subdivision shall apply in lieu of Article XIII, Division 3 of this Chapter.

As the Planning and Development Department identifies contiguous neighborhoods within this broad area for concentrated redevelopment, the boundaries of the overlay area may be expanded only by amendment of this Chapter.

Sec. 61-11-382. Boundaries of the Far Eastside Overlay Area.

The Far Eastside Overlay Area is bounded by a line beginning on the south side of East Vernor Highway at the north/south alley first east of Phillip Avenue, proceeding east to the north/south alley first east of Alter Road at the Grosse Pointe Park city limits, then proceeding south to the north side of East Jefferson Avenue, then proceeding west to the centerline of Newport Avenue, then proceeding north to the east/west alley first north of East Jefferson Avenue, then proceeding west to the north/south alley first west of Newport Avenue, then proceeding north to the centerline of Kercheval Avenue, then proceeding east to the centerline of Newport Avenue, then proceeding north to the east/west alley first north of Kercheval Avenue, then proceeding east to the north/south alley first east of Phillip Avenue, then proceeding north to the point of beginning.

The zoning district classifications for land within the Far Eastside Overlay Area are specified in Article XVII on Zoning District Map No. 32.

Where the boundaries of the Far

Eastside Overlay Area overlap with the boundaries of any Traditional Main Street Overlay Area, the standards established for both overlay areas shall apply. Where there is conflict between the standards of the two overlay areas, the provisions of the Traditional Main Street Overlay Area shall control.

Sec. 61-11-383. Minimum lot area for single-family dwellings, two-family dwellings, and town houses.

Notwithstanding the lot area requirements of Article XIII, Division 1, Subdivision A of this Chapter, in the Far Eastside Overlay Area:

(1) Single-family dwellings and two-family dwellings may be built on any zoning lot having a minimum of three thousand (3,000) square feet in area;

(2) Town houses may be built on any zoning lot having a minimum of four thousand three hundred twenty (4,320) square feet in area.

Sec. 61-11-384. Minimum lot width for single-family dwellings, two-family dwellings, town houses, and multiple-family dwellings.

Notwithstanding the lot width requirements of Article XIII, Division 1, Subdivision A of this Chapter, in the Far Eastside Overlay Area:

(1) Single-family dwellings, two-family dwellings, and multiple-family dwellings may be built on any zoning lot having a minimum width of thirty (30) feet;

(2) Town houses may be built on any zoning lot having a minimum width of sixty (60) feet.

Sec. 61-11-385. Minimum front setback for multiple-family dwellings.

(a) Notwithstanding the front setback requirements of Article XIII, Division 1, Subdivision A of this Chapter for residential zoning districts, multiple-family dwellings in the Far Eastside Overlay Area shall provide a minimum front setback of:

(1) Fifteen (15) feet where the multiple-family dwelling has six (6) or fewer units; and

(2) Ten (10) feet where the multiple-family dwelling has seven (7) or more units.

(b) Notwithstanding the front setback requirements of Article XIII, Division 1, Subdivision C of this Chapter for business zoning districts, no minimum front setback shall be required for multiple-family dwellings in the Far Eastside Overlay Area.

(c) For residential uses combined in structures with permitted commercial uses, see Sec. 61-11-392 of this Code.

Sec. 61-11-386. Minimum side setbacks for single-family dwellings, two-family dwellings, town houses, and multiple-family dwellings.

(a) Notwithstanding the side setback requirements of Article XIII, Division 1,

Subdivision A of this Chapter for residential zoning districts, single-family dwellings, two-family dwellings, town houses, and multiple-family dwellings in the Far Eastside Overlay Area shall provide a side setback of not less than four (4) feet on each side of the building.

(b) Notwithstanding the side setback requirements of Article XIII, Division 1, Subdivision C of this Chapter for business zoning districts, in the Far Eastside Overlay Area:

(1) No minimum side setback for multiple-family dwellings shall be required along a side lot line abutting a right-of-way; and

(2) A minimum side setback of not less than four (4) feet shall be required along any interior side lot line for multiple-family dwellings.

Sec. 61-11-387. Minimum rear setback for town houses and multiple-family dwellings.

(a) Notwithstanding the rear setback requirements of Article XIII, Division 1 of this Chapter for residential and business zoning districts, town houses and multiple-family dwellings in the Far Eastside Overlay Area shall provide a rear setback of not less than two (2) feet. However, where a town house or multiple-family dwelling would be located directly across an alley from an existing or approved town house or multiple-family dwelling which has a two-foot rear setback, the proposed town house or multiple-family dwelling shall provide the minimum required rear setback as specified in Article XIII, Division 1 of this Chapter in order to avoid the creation of a canyon-type effect in the alley. At no point in a public or private alley may two (2) principal buildings be separated from each other at any point merely by the width of the public or private alley and a two-foot rear setback on each side of the alley.

Sec. 61-11-388. Maximum lot coverage for single-family dwellings, two-family dwellings, town houses, and multiple-family dwellings; recreational space.

(a) Notwithstanding the maximum lot coverage requirement of Article XIII, Division 1, Subdivision A of this Chapter for residential zoning districts, single-family dwellings, two-family dwellings, town houses, and multiple-family dwellings in the Far Eastside Overlay Area, and all buildings accessory to them, shall cover no more than fifty percent (50%) of the zoning lot.

(b) Recreational space shall be provided in accordance with Article XIII, Division 1, Subdivision A of this Chapter for residential zoning districts and Sec. 61-13-159 of this Code; however, the minimum dimensions specified in Sec. 61-13-159(1)(e) of this Code do not apply in the Far Eastside Overlay Area.

Sec. 61-11-389. Maximum height of new single-family and two-family dwellings and town houses adjacent to existing dwellings.

(a) Where a new single-family or two-family dwelling or town house is to be constructed on a lot adjacent to, or across an alley from, the side lot line of an existing single-family or two-family dwelling, the height of the new single-family or two-family dwelling or town house shall not exceed one hundred thirty-five percent (135%) of the height of the existing single-family or two-family dwelling or thirty-five (35) feet, whichever is less.

(b) Except as provided in Subsection (a) of this section, the maximum height of single-family and two-family dwellings in the Far Eastside Overlay Area shall be forty-seven (47) feet, notwithstanding the maximum height provisions of Article XIII, Division 1, Subdivision A of this Chapter for residential zoning districts.

Sec. 61-11-390. Maximum floor area ratio (FAR) for multiple-family dwellings; maximum height of new multiple-family dwellings adjacent to existing dwellings.

(a) Notwithstanding the Chapter for residential zoning districts, the maximum FAR for multiple-family dwellings in the Far Eastside Overlay Area shall be 2.5.

(b) However, where a multiple-family dwelling is to be constructed on a lot adjacent to, or across an alley from, the side lot line of an existing single-family or two-family dwelling, the height of the new multiple-family dwelling shall not exceed one hundred thirty-five percent (135%) of the height of the existing single-family or two-family dwelling or the maximum FAR specified in Article XIII, Division 1, Subdivision A of this Chapter for residential zoning districts, whichever is less.

Sec. 61-11-391. Multiple-family dwellings permitted by right; residential uses combined in structures with permitted commercial uses permitted by right in B4.

(a) Notwithstanding Sec. 61-8-40(2) of this Code:

(1) Multiple-family dwellings shall be permitted on a by-right basis on land zoned R2 within the Far Eastside Overlay Area;

(2) The total number of units in a multiple-family dwelling in the R2 district within the Far Eastside Overlay Area may exceed eight (8) dwelling units.

(b) Notwithstanding Sec. 61-9-80(4) of this Code, multiple-family dwellings shall be permitted on a by-right basis on land zoned B4 within the Far Eastside Overlay Area;

(c) Notwithstanding Sec. 61-9-80(7) of this Code, residential uses combined in structures with permitted commercial uses shall be permitted on a by-right

basis on land zoned B4 within the Far Eastside Overlay Area.

Sec. 61-11-392. Residential uses combined in structures with permitted commercial uses.

Notwithstanding the setback requirements of Article XIII, Division 1, Subdivision C of this Chapter for business zoning districts, in the Far Eastside Overlay Area, residential uses combined in structures with permitted commercial uses shall be subject to the following:

(1) Buildings shall be placed on the front lot line and the new building footprint and facade shall be located parallel to the street system;

(2) No minimum side setback shall be required along a side lot line abutting a right-of-way;

(3) A minimum side setback of not less than four (4) feet shall be provided along any interior side lot line; and

(4) A rear setback of not less than two (2) feet shall be provided.

Sec. 61-11-393. Outdoor recreation facilities.

Notwithstanding Sec. 61-8-41(3) of this Code, outdoor recreation facilities are permitted on a by-right basis in the Far Eastside Overlay Area.

**ARTICLE XIII. INTENSITY AND DIMENSIONAL STANDARDS
DIVISION 2. MEASUREMENTS, REQUIREMENTS, AND EXCEPTIONS
Sec. 61-13-159. Recreational space requirements.**

The following recreational space requirements shall apply:

(1) The Recreational Space Ratio (RSR) shall be used to determine the minimum required amount of recreational space to be provided on a zoning lot. As used in this section, gross floor area shall include all the floor areas of all the floors of a building or buildings on the zoning lot, measured from the exterior faces of exterior walls or from the centerlines of party walls and shall include elevator shafts and stairwells at each floor, interior balconies and mezzanines, and enclosed porches, but need not include any area that is devoted exclusively to off-street parking or loading where said area is an integral part of the principal building, floor areas in accessory parking structures, or any area described in ~~Sec. 61-13-159~~ Sec. 61-13-157(1) through Sec. 61-13-157(6) of this Code. Required recreational space shall be determined by multiplying the gross floor area of all existing and proposed structures by the RSR. The resulting amount, which is the minimum required recreational space, shall include only that part of the ground area of a zoning lot which:

(a) Is devoted to outdoor recreational space, greenery, or service space for household activities that are normally carried on outdoors; and

(b) Is not devoted to private roadways that are open to vehicular transportation, driveways, accessory off-street parking space or aisles, or accessory off-street loading berths; and

(c) Contains no structures on the ground except:

(i) Open porches;

(ii) Terraces;

(iii) Recreational equipment;

(iv) Clotheslines;

(v) Arbors, trellises, walls or fences, bird baths, ornamental features, window boxes or other planting boxes;

(vi) Flagpoles;

(vii) Seating.

(d) Is accessible to the occupants of all dwelling units within the structure; and

(e) Is located in a side or rear setback and has a minimum dimension of eighteen (18) feet where the development served has nine (9) or fewer dwelling or rooming units, or is so located and has a minimum dimension of twenty-five (25) feet where the development served has ten (10) or more dwelling or rooming units, or is so located and has a minimum dimension of twenty-five (25) feet where the development served has ten (10) or more dwelling or rooming units. All required recreational spaces shall comply with the minimum dimension delineated in this article and said dimension shall be measured along a perpendicular line drawn from any point on one (1) side of the recreational space to the opposite side; and

(f) Is unobstructed between the ground and the sky, except that not more than twenty-five percent (25%) of the total recreational space provided on any zoning lot may be roofed, and in such case not more than fifty percent (50%) of the perimeter of the roofed section shall be enclosed. The provisions of this subsection may only be modified as provided ARTICLE IV, DIVISION 6 of this Chapter.

(2) Recreational space on a roof, or private balcony, private patio, or similar private area may be substituted for ground recreational space in accordance with the following:

(a) *Substitution of roof space.* Each square foot of recreational space on a roof may be substituted for one (1) square foot of ground recreational space provided, that the following conditions are met:

(i) *Minimum dimension.* Such recreational space on a roof shall have a minimum dimension of fifteen (15) feet, measured from inside of parapet or railing to inside of parapet or railing, or to the exterior face of any wall or other obstruction projecting above roof level;

(ii) *No obstructions.* Such recreational space on a roof shall be free of all obstructions, except for arbors, trellises, window boxes or other planting boxes, awnings or canopies, flagpoles, plumbing

or air vents, recreational or clothes drying equipment;

(iii) *Design and safety precautions.* Such recreational space on a roof shall be suitably surfaced and shall be protected by a parapet or railing in accordance with the safety regulations of the Michigan Building Code; and

(iv) *Accessibility.* Such recreational space shall be accessible to the occupants of all dwelling units within the structure.

(b) *Substitution of private balcony, private patio, or similar private area.* Each square foot of recreational space on a private balcony, private patio, or similar private area, as determined by the enforcing official, may be substituted for one (1) square foot of ground or roof recreational space provided, that the following conditions are met:

(i) *Minimum dimension and area.* Such areas shall have a minimum dimension of four (4) feet, six (6) inches, measured perpendicularly from one (1) side to the other side, and a minimum net area of twenty-two and one-half (22-1/2) square feet;

(ii) *No obstructions.* Such areas shall be free of all obstructions, except arbors, trellises, window boxes or other planting boxes, awnings or canopies, recreational or clothes drying equipment; and

(iii) *Safety precautions.* Such areas shall be protected in accordance with the safety regulations of the Michigan Building Code.

(c) At least fifty percent (50%) of the total required recreational space shall be accessible to all residents and shall be provided on the ground or roof, and provided further, that where a portion of the recreational space is provided on a private balcony or similar area, the minimum dimension of the required ground or roof space may only be adjusted as provided for in ARTICLE IV, DIVISION 6 of this Chapter. However, in no instance shall the minimum ground or roof dimensions be less than twelve (12) feet.

(d) The formula is as follows: Minimum Recreational Space = Gross Floor Area x Recreational Space Ratio.

DIVISION 3. ALTERNATIVE RESIDENTIAL DEVELOPMENT OPTIONS

Sec. 61-13-171. In general.

This division presents options for residential development patterns that may be undertaken as alternatives to the dimensional requirements that are set out in DIVISION 1 and DIVISION 2 of this article. Pursuant to ARTICLE III, DIVISION 5, all development options that are set out in this division must be approved during Site Plan Review. These alternative development options may be further limited or modified by other applicable provisions of this Zoning Ordinance. In the Far Eastside Overlay Area, the provisions of Article XI,

Division 14, Subdivision G of this Chapter shall apply in lieu of the provisions of this Division.

Section 2. All ordinances, or parts of ordinances, that conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the People of the City of Detroit.

Section 4. In the event that this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter. If this ordinance is passed by less than a two-thirds (2/3) majority of City Council Members serving, it shall become effective on the thirtieth (30th) day after enactment, or on the first business day thereafter, in accordance with Section 4-115 of the 1997 Detroit City Charter.

Planning & Development Department
June 6, 2006

Honorable City Council:

Re: Transfer of Jurisdiction of Surplus Property Horace H. Rackham Golf Course.

The Detroit Recreation Department has declared the above-captioned property surplus to its needs and request that the Planning and Development Department assume jurisdictional control over the property (commonly referred to as Horace H. Rackham Golf Course). The property is situated in Huntington Woods, Oakland County, State of Michigan and bounded by I-696 (Walter P. Reuther Freeway), Scotia Avenue, Ludlow Avenue and the

Detroit Zoological Park, measuring approximately 120.7 acres.

We are in receipt of a request from Premium Golf LLC, a Michigan Limited Liability Company to purchase the above captioned property for the amount of \$6,250,000. Premium Golf LLC has offered to purchase the property and continue to use it as a golf course. Given the City's financial condition and in an effort to meet our land sales projections we are recommending this sale.

It is the intent of the City of Detroit and Premium Golf LLC to maximize the potential/profitability for this property. Accordingly, the purchasers have also proposed that if they are able to remove the deed restrictions within 36 months of the closing of this sale transaction, they will redevelop the property for residential housing. In the event this occurs, the City of Detroit shall be entitled to an increase in the purchase price based on the type (i.e. single-family, cluster-style, multiple family) and total number of units/lots approved by the City of Huntington Woods (the "Approved/Dwelling Units"). The purchase price shall be increased for each Approved Dwelling Unit as follows:

(i) \$10,000 per lot for each single family detached lot (further defined as a 60, 70, and/or 80' linear front footage of the detached single family lot),

(ii) \$8,000.00 per unit for each cluster-style home (further defined as an attached 2, 3, or 4 unit building/townhouse or zero-lot line detached), and

(iii) \$5,000.00 per unit for each multiple family dwelling unit (further defined as an apartment style for-sale multiple dwelling unit/staked housing with 8 unit or more per building).

The principals of Premium Golf LLC are Steven Friedman, Gary Shiffman and Howard Fingerroot, who are partners of Diversified Property Group LLC with a track record of profitable acquisition and development of major land parcels, both commercial and residential, as well as successful investment in income producing properties. The company has the capital, infrastructure, system and vision to produce successful transactions through its wide range of creative development investment programs (i.e., investment in excess of \$10 billion of equity during their careers, the development of over 10,000 acres of residential, commercial and mixed-use land and construction of over 20,000 single family and attached homes.) Their headquarters is located in Farmington Hills, Michigan, maintaining a strong regional presence in the Midwest, Southeast, Southwest markets operating through an established network of proprietary relationships to source and executive land development opportunities.

We, therefore, request that your Honorable Body approve the attached

resolution authorizing the Detroit Recreation Department to transfer jurisdiction of the Horce H. Rackham Golf Course to the Planning and Development Department.

We, also, request that your Honorable Body adopt the sale and authorize the Planning and Development Department's, Director, or his authorized designee to execute a Purchase Agreement with Premium Golf LLC, a Michigan Limited Liability Company, together with a quit claim deed to the property and such other documents as may be necessary to effect the sale for the amount of \$6,250,000.

Respectfully submitted,
O'NEAL EDWARDS
Executive Manager
Real Estate Division

STATEMENT ON THE SALE OF
RACKHAM GOLF COURSE
COUNCIL PRESIDENT
KENNETH V. COCKREL, JR.
June 30, 2006

Today, the Detroit City Council voted on the proposed sale of the Rackham Golf Course in Huntington Woods.

I joined with the majority of Council in voting against this proposed sale. I voted against this sale for the following reasons:

First, the Mayor and the City Council have not had a policy discussion about the sale of this or any of the other city-owned golf courses. The Kilpatrick Administration has indicated that it wants

the City to move towards a core service model meaning that it will focus primarily on providing only charter-mandated services like police, fire, street repair, etc., etc.

While I support this overall direction, I believe the City should not rush to sell all of its assets without a comprehensive plan. It is also worth noting that the Rackham Golf Course has been consistently profitable for the City.

Secondly, the Administration initially proposed to sell this property to a private developer, Premium Golf for \$5 million up front with additional dollars to come later or on per unit basis as the developer builds homes on this site. I am concerned that this offer was accepted in the absence of a formal bid process. When one considers that this 18-hole golf course is prime real estate located in Oakland County, one of the nation's wealthiest counties, approving this deal without competitive bidding is

irresponsible. Simply put, the lack of a bid process means that the City has no way of knowing if it has gotten the highest and best offer.

Thirdly, and related to my second concern, the Kilpatrick Administration did not secure its own appraisal of this land. In fact, the only appraisal of the property was done by the buyer, Premium Golf. For the City to accept this would have meant that it was essentially allowing the buyer to name the sale price.

Lastly, though the property is owned by Detroit, it's located in Huntington Woods. The Kilpatrick Administration proposed to sell this property without any conversation with Huntington Woods officials. This does little to enhance communication and dialog between the two cities.

For these and other reasons, I voted **no** on the sale of the Rackham Golf Course to Premium Golf.

STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN OPPOSITION TO THE PROPOSED TRANSFER OF JURISDICTION AND SALE OF SURPLUS PROPERTY BY THE CITY OF DETROIT LOCATED AT THE HORACE H. RACKHAM GOLF COURSE TO A PRIVATE DEVELOPER

I voted no on the proposed transfer of jurisdiction of surplus property from the Recreation Department to the Planning and Development Department. To begin with, I believe the process of determining the value of the Rackham golf course has been extremely flawed. The City of Detroit through its Executive Branch relied solely on a comparable analysis of recently sold golf courses and the appraisal by the developer to determine the value of the course. I believe that the City of Detroit should have had its own appraisal done prior to accepting the deal.

I am also concerned that the city may be lacking mid range foresight and planning. Are we acquiescing and assisting in the further exodus of Detroiters to surrounding suburbs by supporting the building of housing stock that competes directly with well established neighborhoods like; Palmer Woods, Sherwood Forest and the University District? It seems to me that the city would benefit from such a development within its corporate limits.

I also feel strongly after reviewing and receiving documents that constitute interest by other parties, that the Administration might better serve the interest of the city by putting the property on the open market through a Request for Proposal.

I voted no for the abovementioned reasons.

STATEMENT OF COUNCIL MEMBER MARTHA REEVES ON RESOLUTION AUTHORIZING THE RECREATION DEPARTMENT TO TRANSFER

JURISDICTIONAL CONTROL OF THE HORACE H. RACKHAM GOLF COURSE TO THE PLANNING AND DEVELOPMENT FOR EXECUTION OF A PURCHASE AGREEMENT WITH PREMIUM GOLF, LLC

Gifts should never be disposed of and the Rackham family was explicit in their desires, that it should remain a public golf course, when it was given.

I voted in opposition of the sale of the Rackham Golf Course to Premium Golf, LLC because I believe the way in which the agreement came to be was fundamentally flawed. I want to see all property sales of large-scale real estate to be handled in a fair and equitable manner. In this instance, I wish to see all interested parties engaged in an open bid process. I believe that this will produce a healthy level of competition and ultimately yield a more profitable property sale for the City of Detroit.

Budget Department

June 19, 2006

Honorable City Council:

Re: City of Detroit Tax Statement and Amendment to the City of Detroit FY 2006-07 Adopted Budget — Current Property Tax Revenues.

In accordance with Section 18-2-24 of the City Code, we are submitting a statement of the amounts to be raised by taxation in fiscal year 2006-2007, to be known as the Tax Statement. Also submitted is a 2% limitation statement based upon 2005 equalized valuations.

The Budget Department is also requesting authorization to amend FY 2006-07 Adopted Budget for the General Fund Current Property Tax revenue account. The City is seeking to levy 2.9928 mills for garbage disposal on Commercial and Industrial properties only. The FY 2006-07 Budget, as adopted, does not include revenues for the 2.9928 mills, which is expected to generate \$9.997 million if 100% of the levy is collected. The Budget Department estimates collection of approximately \$9.5 million for FY 2006-07 based on a 95% collection rate. The Commercial and Industrial properties will have no change from the current year. In addition, we are also revising our collection estimates for the General City millage based upon the final taxable valuation figures certified by the County of Wayne. The revised taxable valuations reflects a \$84 million reduction in the General Ad Valorem roll, excluding the Renaissance Zone resulting in a \$1.995 million estimated deficit in the General Fund. In total, the net impact on the General Fund is an \$8 million increase in revenues resulting from the additional revenues generated from the garbage millage and the reduction in the General Ad Valorem roll taxable valuation.

Attached for this Honorable Body's consideration and approval is the Tax Statement containing the amount to be raised by taxation based upon the revised taxable valuations and the additional garbage mills discussed above.

Therefore, the Budget Department is requesting to amend the FY 2006-07 Adopted Budget as follows:

Increase Revenue	
Appropriation No. 04739	
Current Year Property Tax	\$8,002,000
Increase Appropriation No. 00444, Prior Year's Deficit	\$4,170,370
Decrease Revenue	
Appropriation No. 00035	
Refuse Collection	\$3,831,630
Increase Appropriation and Revenue	
Appropriation No. 00212 General Bond Redemption by \$113,000.	
Decrease Appropriation and Revenue	
Appropriation No. 10454 DPL Administrative Management by \$295,000.	

The attached resolution authorizes the increase to the FY 2006-07 appropriations and revenues for the revised property tax levies.

A waiver of reconsideration is requested.

Respectfully submitted,
PAMELA SCALES

I voted in favor of the fifty percent discount for seniors because I realize that they will be among the most impacted by the adoption of this fee. Additionally, all citizens to whom this presents a hardship have the right to appear before the Board of Review and seek relief, similar to the way property tax hardship applications are handled.

Adler, to be delivered upon receipt of properly executed Releases and Order of Dismissal in Workers Compensation Claim No, 13298, approved by the Law Department.

Re: Address: 6606 Boxwood. Name: Joyce Anderson. Date ordered removed: January 29, 2003 (J.C.C. pg. 312).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on June 8, 2006 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of June 7, 2006.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on June 14, 2006 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of June 13, 2006.

The proposed use of the property is rehabilitation and rental.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

RESOLUTION

By COUNCIL MEMBER COLLINS:

RESOLVED, That due to security concerns, the Detroit City Council Committee of the Whole sessions for Thursday, July 6, 2006 and Friday, July 7, 2006 are hereby suspended.

Not adopted as follows:

Yeas — Council Members Collins, Jones, and Watson — 3.

Nays — Council Members S. Cockrel, Conyers, Kenyatta, Reeves, Tinsley-Talabi, and President K. Cockrel, Jr. — 6.

STATEMENT OF COUNCIL MEMBER SHEILA M. COCKREL IN SUPPORT OF VOTING AGAINST SUSPENDING THE CITY OF DETROIT CITY COUNCIL COMMITTEE OF THE WHOLE SESSIONS FOR SECURITY CONCERNS

Today I voted against suspending the City of Detroit City Council Committee of the Whole sessions in light of recent security concerns.

I believe that it was not productive for us to discuss this issue today for several reasons. First is that there is an ongoing security investigation, and today we risked giving away important details. The Detroit Police Department is conducting an investigation, the City Council Detail continues to provide Council with security services, and our open discussion of the details could have given away sensitive information. Second, there was nothing to be gained by openly discussing this issue.

Canceling Council sessions would only give the impression that we will be intimidated by those who disagree with the work that we are doing. Someone has targeted members of the Detroit City Council, and giving them "air time" only helps promote this anti City Council agenda. There was nothing to be gained by openly requesting to cancel our Committee of the Whole sessions other than legitimizing these challenges to the autonomy of the Detroit City Council as a whole.

Any Council member who feels that they are personally in danger is entitled to extra security, or may stay away from the table. But if we cancelled two Council sessions this week, then what happens next week?

As a final observation, I was particularly disturbed that those of my colleagues who have openly encouraged Detroit residents to aggressively oppose those City Council members that they do not agree with were among those voting to cancel our meetings in light of security concerns. It seems that there is a bit of a conflict in the message that is being sent by some City Council members. On the one hand they are encouraging the Detroit residents to put the heat on Council members on particular issues, yet on the other hand, they want to stop doing Council business when the heat gets too high.

I believe that we must continue with our business, that we must not cower to threats, and that we must let our Council security tend to the matter at hand. I therefore voted no to canceling our Detroit City Council Committee of the Whole sessions.

Re: Address: 1702-4 Fischer. Name: Otis Henderson.

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on June 13, 2006 revealed the building is secured and appears to be sound and repairable.

The owner will pay the current taxes due at the closing.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

Re: Neighborhood Enterprise Zone (NEZ) certificates for 19474 Vaughan, 19488 Vaughan, 19504 Vaughan, 19703 Vaughan, and 19709 Vaughan in the Longacre NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office five (5) applicants for NEZ certificates in the Longacre NEZ. The NEZ designation for the area generally bounded by Evergreen, Pembroke, Vassar, and Kentfield was approved by the City Council on September 8, 1999. The City Planning Commission (CPC) staff has reviewed these applications and recommends approval.

Certificates are being requested for 19474 Vaughan, 19488 Vaughan, 19504 Vaughan, 19703 Vaughan, and 19709 Vaughan. The properties are located within the NEZ boundaries described above and should be eligible for NEZ certificates as stipulated under State Public Act 147 of 1992 as currently written.

Longacre New Hope Non-Profit Housing Corporation plans to develop single-family houses on the subject properties. The homes would be priced at \$120,000 according to the petitioner. The

forementioned organization has applied for the certificates at this time, although buyers have not been identified. Once an owner is identified, he or she can apply for the certificate. At that time, it would not be necessary for the City Council to pass another resolution.

The CPC staff recommends that the NEZ certificates for 19474 Vaughan, 19488 Vaughan, 19504 Vaughan, 19703 Vaughan, and 19709 Vaughan be approved as submitted.

Honorable City Council:

Re: Request of Greektown Casino LLC (#0089) to rezone five areas in the Greektown area to show an SD5 (Special Development District for Casinos) zoning classification where B4 (General Business District), B6 (General Services District) and PD (Planned Development District) zoning classifications are presently shown to allow for the construction of a casino complex and to approve the related development proposal (Recommend Approval with Conditions).

Nature of Request

Your Honorable Body has received the request of Greektown Casino, L.L.C. to amend District Map No. 2 of the Detroit Official Zoning ordinance to show an SD5 (Special Development District for Casinos) zoning classification where B4 (General Business District), PD (Planned Development District), and B6 (General Services District) zoning classifications are presently shown on property generally described as the areas bounded by:

- Beaubien, East Lafayette, St. Antoine, and Monroe (the existing temporary Greektown casino and adjacent buildings on Monroe Street), including the vacated portion of E. Lafayette;
- Macomb, St. Antoine, the Chrysler Service Drive, and Monroe (The Foster-Winter garage and Parkwyck Apartments site);
- Randolph, Monroe, Brush, and East Lafayette (the parking garage used by the casino);
- Brush, East Lafayette, a line approximately 135 feet east of Brush, and the alley south of East Lafayette (the existing surface parking lot used by the casino); and
- Fort, Beaubien, the alley south of East Lafayette, and a line approximately 70 feet east of Brush St. (the newly-constructed parking garage used by the casino).

These areas combined comprise a total of approximately 9.65 acres.

Pursuant to the Development Agreements between the City and each casino developer, the developers are responsible for the costs of satisfying the conditions of approval of site plans, building elevations, and development plans for the casino. In order to provide a mechanism for the expenditure of funds received for this purpose, the approving ordinance includes language proposed by the Law Department to establish a budget appropriation that would be used to pay infrastructure cost related to the casino.

Project Proposal

The proposed rezoning is being requested to allow the development of a casino complex on several non-contiguous parcels of land, some of which are in within the bounds of the Central Business District Project No. 3. The casino complex is proposed to include:

- approximately 100,000 square feet of gaming area (representing an approximately 30,000 square foot expansion of the temporary casino);
- a new 13-story, 2,875 parking space parking structure on the site of the Foster-Winter garage, with provisions for 2,000 square feet of retail space along Monroe developed in conjunction with the hotel described below (5,100 parking spaces are provided overall between the new and existing parking facilities);
- a 27-story (including seven for parking and three as a base), 310 foot tall, 400 room hotel immediately west of the new parking garage, with up to 3,000 square feet of retail space (provision is made for 400 additional hotel rooms to be added above the parking garage);
- approximately 21,877 square feet of banquet and meeting space in the hotel; and
- a 1,200 seat entertainment space to be included in the expanded area of the temporary casino facility.

There are also other related uses to be included (restaurants, bars, other entertainment, administrative offices, etc.). Several parking facilities already exist, and these are not proposed to be changed. Provision is made for a pedestrian bridge over Monroe at the St. Antoine intersection to link the gaming area with the hotel and parking garage. The current design shows the casino expanding southward out to the middle of E. Lafayette, with the westbound lanes remaining open to the flow of traffic under the casino's second floor. The vacation of this portion of E. Lafayette (with maintenance of a vehicular easement) has been approved by your Honorable Body. The space at the northeast corner of the casino would contain an interim use as a surface lot with retail to be constructed when the anticipated skywalk is constructed.

The anticipated palette of materials will include tinted (not mirrored) glass, metal panel, brick and precast concrete.

Surrounding Land Use and Zoning (related to the new construction)

To the North — commercial and institutional (Juvenile Detention Center), B4 and PD

To the South — institutional (churches) and commercial (Blue Cross/Blue Shield), PD & B4

To the East — churches and the I-375 expressway, B4

To the West — commercial and institutional (Wayne County Sheriff), B6 (General Services District), B4 and PD

Development Plan and Master Plan

There are a number of inconsistencies between the proposal and the Fifth Modified Development Plan and Declaration of Restrictions for Central Business District Project No. 3, which governs the area containing the proposed parking garage and hotel. These inconsistencies fall under the areas of zoning, land use and height/density. The appropriate amendment to resolve these issues has been developed by the Planning & Development Department (P&DD), and is the subject of a City Council public hearing scheduled for July 26, 2006. The Development Plan modification should be approved prior to approval of the rezoning.

The City's Master Plan of Policies shows I (Institutional) as the future land use for the parking garage/hotel parcel and SC (Special Commercial) for the parcel containing the casino. The P&DD is preparing an appropriate amendment to the Master Plan that has not yet been submitted to City Council.

Public Hearing Results

At the April 18, 2006 CPC public hearing on this matter, 4 members of the public spoke: 3 in support and one in opposition. The person opposed was a Greektown business owner who felt that the casino had a negative impact on surrounding businesses. A representative of CityScape Detroit supported the rezoning and made several suggestions regarding the appearance and design of the new construction, such as making it visually appealing at street level, breaking up the mass of the buildings, encouraging pedestrian activity, using high-quality materials, and the provision of as much retail as possible. Two persons representing Second Baptist Church supported the rezoning and said that the casino has worked with them to address parking concerns.

In response to a Commission question about the impact of the proposed construction on the historic buildings in the area, the Historic District Commission has made a finding of "no negative impact" on the Detroit Cornice and Slate Building.

In response to other Commission questions it was indicated that minors would not be able to enter the entertainment center, and that the total employment will be approximately 3,000, with the goal being to increase the current Detroit resident employment rate of 50%.

Analysis

Massing and Appearance

At 9.65 acres, this site is smaller than the MGM and Motor City Casino sites, but larger than the site previously approved for Greektown along Gratiot. The size constraint has caused the complex to be taller and more densely configured across the various sites, impacting two items regulated by the Development Plan for the area. The massing of this complex must

be carefully dealt with in order to successfully merge it with its surroundings, while concurrently recognizing that it is a casino. It appears that the casino designers have been generally successful in this. The materials of the new construction (the casino expansion, the hotel, and the parking garage) at the lower levels seem to blend with the surroundings, while the hotel's guest room levels are of tinted glass and would form a distinctive signature feature of the complex.

The anticipated palette of materials will include glass, metal panel, brick and pre-cast concrete. The glass will be primarily for the hotel tower, and will not be mirrored. The brick will be similar to what is presently on the casino building. The base of the new construction will be precast concrete or simulated stone in a light color. Metal panels will be used on the northern portion of the hotel tower and on portions of the casino. The metal panel selection is yet to be finalized.

The entertainment venue at the southeast corner of the casino, built over E. Lafayette, provides a signature visual denoting the entrance into the district and to downtown itself. The facade of the building has been successfully broken up with different elements limiting the occurrence of excessive flat planes while providing greater depth and character.

The landscaping plan submitted shows textured and/or patterned sidewalks and driveways around the hotel/garage site, with planters and street trees where sidewalk width permits. There is a landscaped area along Monroe. A portion of this may be developed as retail in the future.

Traffic and Parking

The casino is proposed to remain in its current location, so its impacts are generally known, though there will be an increase in traffic from the entertainment venue and increased gaming space as well as an immediate impact upon the I-375 service drives. The large increase in the size of the garage on the current Foster-Winter garage site and the change in the entrance location have been analyzed. The entry to the hotel from St. Antoine also will affect traffic on that street at peak casino/hotel times.

Access to the new parking garage has been the subject of intense discussion and study. This has ultimately resulted in the tentative approval of the primary entry into the parking deck from the I-375 Service Drive, midway between Monroe and Macomb streets. That main entrance will be closed Monday-Friday mornings between 7:00 AM and 10:00 AM to avoid adding to the existing backups in the area during the AM peak traffic time. During those hours, the only access to the garage will be from the entrance on Monroe. Traffic will exit the garage onto Monroe. From there, traffic can continue

eastward over I-375 and enter I-375 via the northbound service drive. Traffic going south on the I-375 service drive from Gratiot will be forced to exit the service drive at Macomb to avoid drivers from entering the already congested Macomb/I-375 intersection. The immediate right-hand turn at the top of the Lafayette ramp onto Macomb will be maintained. The Traffic Engineering Division (TED) of the Department of Public Works (DPW) has reviewed and conditionally accepted the traffic study and casino access plan. The Michigan Department of Transportation (MDOT) has not yet completed its review of the traffic study.

The valet parking operations will be unchanged in the expanded casino. Valet operations for the hotel will be conducted from the drop-off area for the hotel, with the cars being driven through what is in essence a tunnel through the first floor of the hotel to enter the parking deck. Bus and taxi operations will also be unchanged.

The provisions of the SD5 zoning district would require approximately 2,580 parking spaces for the size and type of uses proposed in the casino complex. A total of 5,100 parking spaces are proposed across the various parking facilities, well in excess of zoning requirements.

A moving sidewalk originally proposed to move pedestrians between the parking structure and the casino may be built in the future.

Uses

The provision of the ground-floor retail and other commercial uses (restaurants) is generally provided for, where possible. The hotel will also have retail and a restaurant on the second floor. The retail along Monroe, on the north side of the casino building, will likely be built when the skywalk is constructed above it. The interim use for that space will be a surface parking lot. The area behind the retail frontage (once the retail is built) will either be warehouse or framed in and developed in the future.

Recommendation

The City Planning Commission has formally received the letter (see attached) from the Traffic Engineering Division (TED) of the Department of Public Works communicating its approval of the traffic plan for the proposed casino. While the Michigan Department of Transportation (MDOT) is still in review of this matter and the TED's support is based in part on MDOT's concurrence, the Commission is comfortable with the progress being made and recommends approval of the proposed rezoning. The Commission has also completed its review of the conceptual design of the proposed casino complex and recommends approval with the following conditions:

1. that the developer will not utilize the entrance to the proposed parking garage along the I-375 service drive between the hours of 7 AM and 10 AM Monday through Friday (excluding holidays);

2. that the developer continue to work with City Planning Commission staff, the Planning and Development Department, Traffic Engineering Division and other agencies as appropriate toward the refinement and finalization of the traffic analysis and the design of the casino complex including, but not limited to:

- entering into an agreement with the City indemnifying the City with respect to traffic concerns prior to the issuance of building permits;
- modifications within the Lafayette and Monroe rights of way;
- modifications to the adjacent I-375 Service Drive and addressing the related concerns of the Michigan Department of Transportation;
- provision of a two lane vehicle exit from the parking garage to Monroe;

3. that signage and graphics will be subject to staff level review and approval, after the developer has finalized the signage proposal and the Commission has finalized its signage guidelines for the SD5 zoning district classification; and

4. that final site plans and elevations, landscaping, lighting and signage plans be submitted to the City Planning Commission staff and Planning and Development Department for review and approval prior to the issuance of applicable required permits.

The amendatory ordinance to effectuate this recommendation is attached for your consideration, after its introduction and the holding of the required public hearing.

City Planning Commission

July 10, 2006

Honorable City Council:

Re: Request of the Detroit Wayne County Port Authority to modify the plans for an existing PD (Planned Development District) zoning classification in order to accommodate its proposal to build a public dock and terminal facility on the riverfront at the foot of Bates Street (Recommend Approval).

Nature of Request

The City Planning Commission (CPC) has formally received and reviewed the request of the Detroit Wayne County Port Authority (DWCPA) to modify the plans for an existing PD (Planned Development District) zoning classification in order to accommodate its proposal to build a public dock and terminal facility. The subject property is located on the south side of Atwater at the foot of Bates. The DWCPA has been working toward the goal of this development for well over a decade moving from one potential site to another. The vision developed for the east riverfront included such a facility, and the proposed project is now recognized as an element of the redevelopment scheme reflecting the work of the Detroit Riverfront Conservancy (DECFC) and the Detroit Economic Growth Corporation.

Project Proposal

The public dock and terminal would be designed to harbor and attract cruise ships and other transient vessels visiting the city. Vessels such as naval frigates, historical tall ships, racing yachts, tour boats and dinner cruisers requiring a place to dock could be accommodated along the wharf which would be constructed just off of and parallel to the shoreline. The building would be two stories tall and contain approximately 25,000 square feet of space. The structure would be clad in a combination of glass, metal and masonry materials. It would allow for ticketing, screening, baggage handling and embarkation/disembarkation of vessels and would also house required equipment and infrastructure for transient operations, U.S. Customs and cruise line personnel. The facility would also house offices of the DWCPA and could be used for special events (see attached drawings).

Surrounding Land Use and Zoning

To the North — parking and US border

crossing facility — PD (Planned Development District)

To the South — Detroit River

To the East — utility, parking and mixed use office building — PD

To the West — parking, utility, institutional use and recreation — PD, PC (Public Center District)

Master Plan

The Planning and Development Department (P&DD) reviewed the proposal for consistency with the Master Plan of Policies. The Generalized Future Land Use map for the Central Business District calls for office, retail and residential land uses in the area. However, Policy 301-12 does call for a feasibility study for a marine transportation passenger dock. This text seems to lend itself more toward a smaller scale facility like a water taxi or ferry dock. However, P&DD determined the scale and nature of the proposal to be consistent with the provisions of the Master Plan.

Public Hearing Results

The City Planning Commission held a public hearing on this proposal on March 2, 2006. At that time, no members of the public spoke.

Analysis

The subject property is a vacant 1.2 acre site along the River. It has good access via Atwater and Bates. However, heavy traffic periods may be problematic on occasion given the narrow width of these streets. For this reason the designer has devoted a large portion of the ground floor level to vehicle staging and drop-off on site. The drop-off area can handle buses, shuttles, and passenger vehicles in separately designated areas.

The site also has the unrealized potential for great pedestrian movement via the planned RiverWalk. The ground level water-side plaza runs concurrent with the planned RiverWalk. Serving the DWCPA, the plaza would provide for the movement and staging of passengers, personnel, and baggage between the proposed facility and vessels tied to the wharf. To the west of the site are Hart Plaza and the Civic Center Promenade. To the east at the Renaissance Center is the General Motors (GM) Plaza and Promenade. The RiverWalk would run through the plaza along the water's edge connecting the existing segments.

It is anticipated that the RiverWalk improvements shown on the conceptual site plan will be constructed at the same time as the DWCPA facility. That particular aspect of this proposal is being coordinated with the DRFC, which holds an easement across the site, and GM, the former owner of the land. The treatment on the west side of the subject property would match the Civic Center Promenade. The treatment on the east side of the site would match that of GM.

When international vessels, and possibly other ships as well, are docked at the facility, homeland security will require that this area be secured from the public. This will move RiverWalk traffic off of the river to the north and around the perimeter of the site. This is not the most desirable circumstance, but this reality would have to be addressed no matter where this facility is placed along the River where public access is also desired.

The appearance of the facility is unique. There is an attempt to combine a somewhat high tech look with some slightly more rustic nautical features. Materials and selected hues present much desired warmth and color to an otherwise cold and gray vista along the water's edge. The application of glass in the façade reduces the overall mass of the building and allows for some interplay between the interior and exterior activities. Signage, which is yet to be finalized, will complete the visual as depicted in the accompanying drawings. In addition to the one sign as shown, a logo is to be added and some super graphics are being contemplated. In that this project falls within a PD zoning district some latitude regarding maximum sign area is possible with City Council concurrence, but the business sign ordinance provisions of Chapter 3 of the Detroit City Code will guide the review in this regard.

Issues

The Detroit Windsor Tunnel Corporation, while supportive of the project, had expressed some concern for increased risk to its operation. The concern involves the potential damage to the tunnel from the dropped anchor of large vessels. The DWCPA indicates that in circumstances such as this, a ship's anchor is not used. When docking in this setting, vessels are tied-off to the shore.

The DRFC has also expressed some concerns relative to the design and operation of the RiverWalk portion of the project. They share our disappointment with the potential homeland security measures to disrupt pedestrian traffic flow along the river, but understand that they are necessary to properly secure the area and that the interruption is only likely to occur three to five times a year.

Conclusions and Recommendations

The City Planning Commission has completed its review of the requested PD plan modification. We find the proposed use to be consistent with the Master Plan of Policies and the generally held vision for riverfront redevelopment and activities. The facility will complement the riverfront face of downtown bringing additional color and warmth. It will provide another node of activity along the RiverWalk. The addition of a fully outfitted public dock and terminal facility will benefit existing water traffic and, hopefully, build up the Great Lakes

cruising to the benefit of the City and State. The City Planning Commission, therefore, recommends approval with the following conditions:

1. that with specific regard to the design and operation of the RiverWalk, the developer ensure the details of the alternative route's final design provides a RiverWalk experience, character, visual and physical continuity, operations and safety for all users, and that the design must reflect the RiverWalk's common elements in the selection of lighting, paving materials/patterns, landscaping features and the like;

2. that particular consideration be given to views of the roof from above and the screening of roof top units and the like from all views;

3. that the developer continue to work with the Planning and Development Department, the City Planning Commission staff and other agencies as appropriate toward the refinement of various aspects of the design of the facility;

4. that if the design is significantly altered as a result of reviews by homeland security agencies, the project return to the City Planning Commission for review and action; and

5. that the developer submit final site plans and elevations, landscaping, lighting and signage plans to the City Planning Commission staff for approval prior to the issuance of applicable required permits.

Downtown Development Authority
June 26, 2006

Honorable City Council:
Re: Downtown Development Authority FY 2006-2007 Budget.

Pursuant to Article 28, Act 197, as amended, we have prepared the attached FY 2006-2007 Downtown Development Authority's General Fund Budget. This budget is submitted to your Honorable Body for review and approval, prior to its adoption by the Authority.

The amount of funds available from the one mill tax for FY 2005-2006 has been estimated at \$810,000, net of collection delinquencies and reserves for tax settlements, reflecting no change from the

actual receipts for Fiscal Year 2005-2006. Transfer from the DDA's Tax increment Fund of an amount of \$500,000 will remain level at the 2005-2006 allocation. The FY 2006-2007 budget reflects revenues of \$800,000 to be generated from the parking operations, representing a substantial increase from FY 2005-2006 attributable to the lease revenues of the Kennedy Garage. Transfer from Fund Balance has been estimated at \$307,000, which is needed to offset the anticipated shortfall in revenue for FY 2006-2007. This amount represents a decrease from FY 2005-2006 of \$33,000, contributable to the increased revenues from parking operations.

On the appropriations side, contractual services of \$1,520,000, reflects almost no increase from last year. The budgeted amount of \$385,000 for professional services and fees, inclusive of a \$10,000 expense for Computer Support, reflects a \$20,000 increase from the 2005-2006 Fiscal Year primarily due to an increase in anticipated Insurance expenses. The FY 2006-2007 budgeted expenses of \$20,000 related to parking operations shows a substantial decrease of \$30,000 from last year's expenses as parking operations declined with the lease of the Kennedy Garage. Finally, \$500,000 of allocated funds for Special Projects and Contingencies for FY 2006-2007 indicates no increase from last year.

We respectfully request City Council's approval of the attached budget at its

June 28, 2006 formal meeting. A waiver of reconsideration is requested.

Sincerely,
ART PAPANOS

Honorable City Council:

Re: Public Hearing on the Establishment of "Homestead" Facilities Neighborhood Enterprise Zones as in Accordance with Public Act 147 of 1992 as amended in 2005.

The Planning and Development Department and the Assessor's Division of the Finance Department have reviewed the recently approved legislation; Senate Bill No. 530 of Public Act 147 of 1992 as amended at the Regular Session of 2005; generally referred to as the "Homestead" facilities provision, and find that the implementation of the "Homestead Facility" provision would provide wanted taxation uniformity and would be consistent with the City's neighborhood preservation, of the Master Plan and development goals.

The "homestead" facilities provision of the Public Act 147 of 1992 as amended in 2005 states that a local governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones, not to exceed 10% of the total acreage of a city but

could be increased to 15% with approval of the county. Prior to acting upon a resolution establishing a NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an *ad valorem* tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The attached maps illustrate the boundaries of the proposed twenty five (25) NEZ communities:

Arden Park, Berry Sub, Boston Edison, South English Village, Golf Club Addition, Detroit Golf Club, Grandmont, Grandmont Sub, Greenacres, Greenlawn, Indian Village Sub, LaSalle Gardens, Livernois Parkside, Longfellow Sub, Oakman West, Oakman East East Outer Drive, Palmer Woods, Rosedale (North), Rosedale (South), Russel Woods, Sherwood, West Outer Drive/Vassar, Aviation & the Bagley.

We request that a Public Hearing be scheduled on the issue of establishing these communities as NEZs, consistent with the provision provided by the NEZ Act of 1992 as amended in 2005. Attached for your consideration, please find a resolution establishing a date and time for the public hearing, together with the aforesaid maps of the proposed NEZ.

Respectfully submitted,

Honorable City Council:

Re: Establishment of the Cass Corner Neighborhood Enterprise Zone.

Attached for your consideration please find a resolution and legal description which will establish the Cass Corner Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992 ("the Act").

Your Honorable Body conducted a public hearing on this matter on May 8, 2006 as required by the Act. No impediments to the establishment of the NEZ were presented at the public hearing.

As you may recall the DPC, LLC proposes to invest \$4 million to rehabilitate three buildings establishing 36 new condominiums.

The Act requires that at least 60 days must pass from the date of the notice of the public hearing to the date of your formal approval of a resolution establishing the NEZ. We request that you approve the resolution at your next regular formal session subsequent to May 27th, 2006.

Respectfully submitted,

DOUGLASS J. DIGGS

Director

By Council Member Conyers:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from *ad valorem* taxes, and the imposition of a specific property tax in lieu of *ad valorem* real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs

is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the establishment of the Cass Corner NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the Cass Corner NEZ was conducted before the Detroit City Council on May 8, 2006, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the establishment of the Cass Corner NEZ were cited;

Now Therefore Be It

Resolved, That the land area described in the attached legal description, and shown on the attached map, is hereby established as the Cass Corner NEZ pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

Re: Request for Public Hearing. Residential Alley Vacation and Conversion to Easement for Petitions No. 438, 652, 683, 857, 2093, 3493, 3931, 3992, 4084, 4096 and 4444.

The Planning and Development Department (P&DD), in accordance with the Detroit Code, Article VI, Section 50-6-1, has reviewed requests for residential alley conversion to easement for the above-referenced petitions which were previously filed with the Office of the City Clerk. An attached listing provides specific information for each petition. Our investigation of the subject petitions discloses the following:

1. The submitted petitions for residential alley vacation received no objections from impacted utility companies or city departments.
2. The alley means of ingress/egress to abutting properties have been reviewed.
3. The alley is not required for municipal services (trash collection).
4. The public utilities located in the alley can be properly serviced if this alley is converted to an easement. The conversion to easement will have covenants and agreements, uses and regulations to be observed by the abutting property owners.

The P&DD finds that these requests for residential alley vacation would be beneficial to both the City and abutting property owners. It is requested that your Honorable Body

hold the required public hearing for each petition as provided in the Detroit Code to ensure that the unforeseeable objections are addressed by the City Council.

**Human Resources Department
Labor Relations Division**

July 10, 2006

Honorable City Council:

Re: Implementation of Labor Agreement with the DOT Foremen's Association; SEIU, Local 517M (Professional and Technical Unit); AFSCME Supervisory; AFSCME Forestry and Landscape Foremen; AFSCME Non-Supervisory; Income Tax Investigators Association; License Investigators Association; AFSCME Paving Foreperson's; SAAA, SEIU, Local 517M, Supervisory; SEIU, Local 517M Non-Supervisory.

The Labor Relations Division has recently reached agreement on a 2005-08 labor contract with the DOT Foremen's Association; SEIU, Local 517M (Professional and Technical Unit); Income Tax Investigators Association; License Investigators Association; SEIU, Local 517M, Supervisory; and SEIU, Local 517M Non-Supervisory and is allowed to impose the terms of the 2005-08 labor contract on the following bargaining units: AFSCME Supervisory; AFSCME Forestry and Landscape Foremen; AFSCME Non-Supervisory; AFSCME Paving Foreperson's and SAAA. The major changes from the 2001-05 contract is the reduction of the standard two week pay period from eighty (80) to seventy-two (72) hours for salaried employees, and from forty (40) to thirty-six (36) hours for hourly employees, for the period extending from July 17, 2006 through July 15, 2007 and the Unions acceptance of the City's desired health care benefit changes.

Due to the extensive time required to compile, type, proofread and process the entire contract before submission for formal approval by your Honorable Body, a long delay would occur before normal implementation steps could proceed.

In accordance with the City's longstanding practice, we are, therefore, recommending that your Honorable Body authorize action to reduce the standard two week pay period to seventy-two (72) hours, to reduce the weekly pay period to thirty-six (36) hours, to reduce proportionately those fringe benefit qualifiers which are based upon hours worked, and to implement health care benefit changes and other benefit changes, as set forth in the attached Exhibit A. The complete

labor agreement will be submitted to your Honorable body as soon as it is ready.

We are further asking that this action betaken with a Waiver of Reconsideration.

Respectfully submitted,

BARBARA WISE-JOHNSON

Labor Relations Director

Honorable City Council:

Re: Petition Number 3192 — Request for City Council Approval for the Issuance of a New Michigan Liquor Control Commission Dance-Entertainment Permit to The Baltimore Bar, LLC, for a Group "A" Cabaret at 660 W. Baltimore.

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, or a combination dance-entertainment permit, a location licensed by the MLCC for the sale of alcoholic bev-

erages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice (Request ID Number 274459), which has been designated by the City Clerk as Petition Number 3192. This Local Approval Notice requests City Council approval or disapproval of a request from The Baltimore Bar, LLC, for the issuance of a new dance-entertainment permit to be held in conjunction with a Class "C" liquor license at 660 W. Baltimore.

Building and Safety Engineering Department ("B&SE") records indicate that 660 W. Baltimore is located in an M-3 (General Industrial) Zoning District and that the current approved use of the property includes a Class "C" Bar and accessory nightclub (cabaret with dance and entertainment) per B&SE Case Number 107-04, as amended on August 24, 2004. Therefore, the use of this location for a Group 'A' Cabaret with dance and entertainment is permitted by the Detroit Zoning Ordinance under Sections 61-3-241 and 61-10-62 of the 1984 Detroit City Code subject to compliance with all conditions of approval and all relevant codes and ordinances.

Pursuant to Section 5-7-1 of the 1984 Detroit City Code, a Group "A" Cabaret License is required for an establishment open to the public which sells or serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without dancing. B&SE Business License Center records indicate that the current owner of The Baltimore Bar, LLC, has applied for a Group "A" Cabaret License for 660 W. Baltimore and has met the applicable requirements of the 1984 Detroit City Code for the issuance of the business license.

After investigation and review, the Detroit Police Department ("DPD") Liquor License Unit, on behalf of the Chief of Police, has recommended the approval of the issuance of a new dance-entertainment permit to The Baltimore Bar, LLC, for 660 W. Baltimore. The owner of The Baltimore Bar, LLC, does not operate any other MLCC licensed premises within the City. The DPD Liquor License Unit reports that there have not been any MLCC violations or serious crimes at the subject location for the preceding twelve (12) months.

Therefore, upon this Body's approval of the request for the issuance of a new dance-entertainment permit and the issuance of a Group 'A' cabaret license by the B&SE Business License Center to The Baltimore Bar, LLC, for 660 W. Baltimore, the location will be approved

for patron dancing and entertainment on the premises. Pursuant to Sections 916(1) and (2) of the Michigan Liquor Control Code, being MCL 436.1916(6)(1) and (2), the issuance of a dance-entertainment permit under this section does not allow for topless activity in a licensed establishment.

The Law Department recommends that this matter be placed on the City Council's agenda for the approval or disapproval of the requested new dance-entertainment permit in accordance with this Body's August 1, 2003 and July 7, 2004 resolutions on the procedures and criteria for the approval or disapproval of dance, entertainment, and topless activity permits. Attached is a proposed resolution approving the issuance of a new dance-entertainment permit to The Baltimore Bar, LLC, for 660 W. Baltimore.

If there are any questions or concerns, please do not hesitate to contact our office.

Honorable City Council:

Re: Resolution Requesting the Mayor Provide to City Council Financial Information on a Monthly and Quarterly Basis.

On June 30, 2006 your Honorable Body passed a resolution requesting that I provide you with financial information on a monthly and quarterly basis. I believe it is critically important that we continue to work through the City's financial challenges.

The process that has been established provides that my Budget and Finance Department provide quarterly financial reports to your Honorable Body, communicate and address concerns raised relative to the report and discuss the matter at your Committee of the Whole meetings. This process has resulted in honest dialogue retarding the financial situation of our great city.

Although the final resolve that request that we provide quarterly financial reports is something I believe your Honorable Body deserves, monthly reports of City expenditures is something I cannot commit to therefore I must **veto** the reference resolution.

Thank you in advance and I look forward to working with you as we move toward the Next Detroit.

Sincerely,
KWAME M. KILPATRICK
Mayor

Honorable City Council:

Re: Resolution to Waive 2002 Sidewalk Assessments for Property Owners Listed in Petition #556.

On June 30, 2006 your Honorable Body adopted a resolution to waive all assessments of Petition #556 which is dated July 18, 2006. The issues raised in the petition

deserve scrutiny and consideration. I recognize the citizens' and business owners' concerns and believe it is important to engage in honest dialogue in an effort to resolve the aforementioned matters.

As it relates to granting Petition #556 there is a legal implication I must consider. Section 8-605 of the City of Detroit Home Rule Charter provides the legal process for a waiver or contest of assessments Section 8-605(c) specifically states:

If the corporation council submits a written opinion finding the roll illegal, in whole or in part, the city council may revoke its confirmation, correct the illegality if possible, and reconfirm it, provided that no property shall be assessed more than was imposed upon the original confirmation without further notice and hearing thereon.

According to my review of this matter the referenced section of the charter was not followed and granting the petition would be in violation therefore I must **veto** the referenced resolution.

Sincerely,
KWAME M. KILPATRICK
Mayor

Council Member Watson moved to reconsider the vote by which the resolution relative to requesting the Mayor provide to City Council Financial Information on a Monthly and Quarterly Basis, was adopted, which motion prevailed as follows:

Budget Department

July 5, 2006

Honorable City Council:

Re: Cash Advance for the Airport Department.

As you know, the FY2006-07 Adopted Budget for the Airport Department provides for no City Subsidy for its administration, operation and maintenance activities. Excluding \$5M budgeted for capital revenue and appropriation for the Airport French Road Land Acquisition Project, the FY2006-07 Adopted Budget provides for a total appropriation of \$1,542,110 and an equivalent amount budgeted for total revenues. The following detail is an allocation of the Airport Department's operating revenues budgeted for FY 2006-07:

Self Service Fuel Sales	\$ 423,000
Hanger Rental	326,962
Bay Rentals	268,000
Public Buildings & Space	160,000
Misc. Property Rental	136,848
Landing Fees	102,000
Tenant Electrical	
Reimbursements	18,000
Tie-Down Rental	<u>1,000</u>
Total Operating Revenues	\$1,542,110

While the Airport Department will pursue a Management Company, with City Council approval; to operate, develop and market the Airport; the department has made significant progress in being self-sufficient. However, because of the time lag between rental payments and other revenues from our tenants it is conceivable that the Airport Department may experience periodic cash flow shortages that will make it difficult to make necessary expenditure payments.

Thus, we respectfully request that your Honorable Body authorize, with waiver of reconsideration, the Finance Director to make monthly cash advances up to \$100K from the General Fund, as neces-

sary during the first six (6) months of FY2006-2007.

Repayment to the General Fund for any advances will be made immediately after the Airport Department collects sufficient rental and other revenues.

cations for Neighborhood Enterprise Zone (NEZ) certificates for 3071 W. Grand Boulevard, Units 3 through 32 in the St. Regis NEZ list on the attachment forwarded from the Office of the City Clerk. CPC staff has reviewed the applications and recommends approval of the certificates.

The subject properties have been confirmed as being within the boundaries of the NEZ. The Master Plan designation for this area is Major Commercial. City Planning Commission

July 10, 2006

Honorable City Council:

Re: Request of Strather and Associates to amend District Map No. 65 of the Detroit Zoning Ordinance to show a PD (Planned Development District) zoning classification where an R1 (Single-Family Residential District) zoning classification is currently shown on property bounded by the alley first west of Lindsay Avenue, the alley first south of Outer Drive, Lindsey, Santa Maria Avenue, the vacated alley first east of Biltmore Avenue, and the alley first north of W. McNichols Road (RECOMMEND APPROVAL WITH THE EXCLUSION OF THE WEST SIDE OF LINDSAY NORTH OF SANTA MARIA, WITH CONDITIONS).

NATURE OF REQUEST

The City Planning Commission has received the request of Strather and

Associates to amend District Map No. 65 of the Detroit Zoning Ordinance to show a PD (Planned Development District) zoning classification where an R1 (Single-Family Residential District) zoning classification is currently shown on property bounded by the alley first west of Lindsay Avenue, the alley first south of Outer Drive, Lindsey, Santa Maria Avenue, the vacated alley first east of Biltmore Avenue, and the alley first north of W. McNichols Road. The petitioner plans to develop single family and multi-family housing on the subject property, which will be cleared of existing structures (please see attached public hearing notice and map). The petitioner, Strather and Associates, is partnered with Amandla, the non-profit arm of the Fellowship Chapel Church.

PROJECT PROPOSAL

The proposed rezoning is being requested to allow the development of 120 units of market rate housing and accessory uses. The developer intends to vacate Gilchrist between the alley north of McNichols and Santa Maria, and consolidate the abutting blocks into one land mass. In this location would be developed 80 stacked ranch housing units containing 1,400 square feet each with single car attached garages. Along the Santa Maria frontage, 16 units of 1,600 square foot town-houses are to be constructed including two car attached garages. Access roads and walking paths, surface parking and green space featuring a central court replacing the Gilchrist right-of-way would compliment the units.

Flanking this core portion of the project, along the east and west edges, would be 18 single-family detached structures, 9 units each along both Biltmore and Lindsey, of approximately 1,600 square feet each. The proposal is completed by 6 larger single-family homes of 2,000 square feet each on the west side of Lindsey north of Santa Maria (these six units were removed from further consideration for the PD rezoning as explained below). The single-family homes can be customized with various options increasing the size and quality of the homes.

All structures are to be clad primarily with brick. Cedar siding and shakes are to be used in portions of the upper façade to complement the brick. This appearance is generally consistent with the surrounding neighborhood.

SURROUNDING LAND USE AND ZONING

To the North — Fellowship Chapel Church, retail, medical offices, parking and residential — R1 (Single Family Residential District), PD (Planned Development District)

To the South — retail, business, parking and residential — B2 (Local Business and Residential District), R1

To the East — residential — R1
 To the West — residential and institutional — R1, PD

MASTER PLAN

The subject property falls within the Greenfield Subsector of the City's Master Plan of Policies. The Future Land Use map for the subsector indicates an RM (medium density residential) designation in this area. The Planning and Development Department has submitted a letter indicating that the proposed development conforms to the future land use designation for the subject area and conforms to the intent of the Master Plan of Policies.

PUBLIC HEARING RESULTS

CPC held a public hearing on this matter on May 4, 2006. The hearing did not yield any opposition to the proposal. One speaker wanted to clarify that his property was not involved in the proposal, and, in fact, it is not. The second speaker was a resident of the project site residing in one of the homes to be demolished. She supported the project, and has since met with the developer to discuss her situation further. They are currently working with her to find new accommodations within the development or elsewhere.

ANALYSIS

The requested rezoning would facilitate the first phase of a larger redevelopment effort rooted in the original vision of Fellowship Chapel Church for the entire area. That vision began to be realized with last year's completed construction of the new church just north of the subject property, fronting the south side of W. Outer Drive. The larger vision calls for additional phases of residential development to the east and west, and the potential for commercial activities along McNichols to the south. The subsequent phases include the construction of additional single-family detached homes, multi-family units and infill housing. This is clearly an area in transition. The developer will return before the Commission and the City Council for required approvals as the details of subsequent phases warrant.

The location of single-family homes along Lindsey and Biltmore provide for better continuity with the existing single-family structures to the rear of the proposed homes across the alley. The park-like setting designed for the multi-family portion of the project would provide an amenity for the proposed development, the church and the neighborhood.

The Commission is concerned about the unnecessary use of PD zoning districts. As a result, staff took a hard look at the single-family portion of this project in order to determine if any portion could be deleted from the PD proposal and constructed under the existing R1. It was found that there were side yard and rear

yard deficiencies with the units proposed along Biltmore south of Santa Maria. There were also side yard deficiencies involved with the units of Lindsey south of Santa Maria. However, the plans for the single family units proposed for the west side of Lindsay north of Santa Maria appear to conform with the zoning regulations for the R1 district.

CONCLUSIONS

In completing our review of this request the CPC made the following findings. The Planning and Development Department has determined that the proposed rezoning and proposed project is consistent with the City's Master Plan of Policies. It would appear that the single-family units on the west side of Lindsey north of the Santa Maria can be constructed as proposed within the regulations of the existing R1 district and therefore do not need to be included in the proposed PD. In light of these findings, the Commission concludes that the requested boundaries of the rezoning should be amended to exclude the single-family component north of Santa Maria. We find the remainder of the proposal to be consistent with and appropriate for the requested PD rezoning.

RECOMMENDATION

The City Planning Commission recommends approval of the proposed rezoning with the exclusion of the property on the west side of Lindsay north of Santa Maria with the following conditions:

1. that the developer maintain the property in a neat and orderly fashion, managing dust and collecting and disposing of debris and rubbish, throughout all phases of construction from site preparation through occupancy of the last dwelling; and
2. that the developer submit final site plans and elevations, landscaping, lighting, and signage plans to the City Planning Commission staff for approval prior to the issuance of applicable required permits.

Honorable City Council:

Re: Public Hearing on the Establishment of the Village Estates Neighborhood Enterprise Zone as Requested by the Amanda Community Development Corporation in Accordance with Public Act 147 of 1992.

The Planning & Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that the establishment of the Village Estates Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood

Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached. The developer proposes to construct 120 single-family units at an approximate cost of \$14 million.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration, please find a resolution establishing a date and time for the public hearing, together with the aforesaid map and legal description of the proposed NEZ.

Respectfully submitted,
DOUGLASS J. DIGGS
Director

By Council Member Tinsley-Talabi:

Whereas, Pursuant to Public Act No. 147 of the Public Acts of 1992 ("the Act") this City Council has the authority to establish "Neighborhood Enterprise

Zones (NEZs)" within the boundaries of the City of Detroit; and

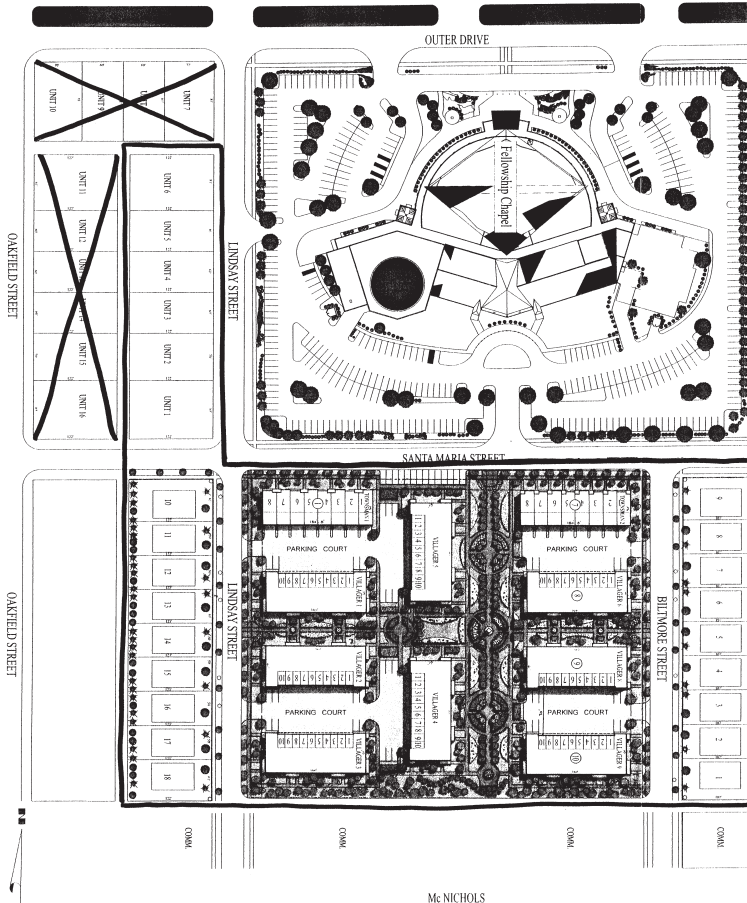

Whereas, The Amandla Community Development Corporation has requested establishment of the "Village Estates" NEZ whose boundaries are particularly described in Exhibit A (legal description) and illustrated in the map attached hereto; and

Whereas, The Act requires that, prior to establishing an NEZ, the City Council shall provide an opportunity for a Public Hearing on such establishment, at which Public Hearing representatives of any taxing authority levying *ad valorem* taxes within the City, or any other resident or taxpayer of the City of Detroit may appear and be heard on the matter;

Now Therefore Be It

Resolved, That on the 7th day of September, 2006 at 10:30 A.M. in the City Council Committee Room, 13th floor, Coleman A. Young Municipal Center, a Public Hearing be held on the above described application for establishment of an NEZ within the boundaries described in Exhibit A (legal description) and illustrated in the map attached hereto; and be it finally

Resolved, That the City Clerk shall give notice of the Public Hearing to the general public and shall give written notice of the Public Hearing by certified mail to all the taxing authorities levying an *ad valorem* tax within the City of Detroit, such notices to be provided no earlier sixty (60) days prior to the public hearing.

Re: Petition No. 3536 Detroit Economic Development Corporation (EDC)
Vacation of remaining part of Guoin Street Between Rivard and Riopelle.
Petition No. 3536 of the "Detroit Economic Development Corporation" (EDC) requests the outright vacation of the remaining part of Guoin Street (50 feet wide and variable width) between Rivard and Riopelle Streets. The pro-

posed street vacation will allow the EDC to assemble a land parcel for redevelopment in the East Riverfront District.

Human Resources Department Labor Relations Division

July 18, 2006

Honorable City Council:

Re: Implementation of Labor Agreement with the Assistant Supervisors of Street Maintenance and Construction.

The Labor Relations Division has recently reached agreement on a 2005-08 labor contract with the Assistant Supervisors of Street Maintenance and Construction. The major changes from the 2001-05 contract is the reduction of the standard two week pay period from eighty (80) to seventy-two (72) hours for salaried

employees, and from forty (40) to thirty-six (36) hours for hourly employees, for the period extending from July 17, 2006 through July 15, 2007 and the Union's acceptance of the City's desired health care benefit changes.

Due to the extensive time required to compile, type, proofread and process the entire contract before submission for formal approval by your Honorable Body, a long delay would occur before normal implementation steps could proceed.

In accordance with the City's long-standing practice, we are, therefore, recommending that your Honorable Body authorize action to reduce the standard two week pay period to seventy-two (72) hours, to reduce the weekly pay period to thirty-six (36) hours, to reduce proportionately those fringe benefit qualifiers which are based upon hours worked, and to implement health care benefit changes and other benefit changes, as set forth in the attached Exhibit A. The complete labor agreement will be submitted to your Honorable Body as soon as it is ready.

We are further asking that this action be taken with a Waiver of Reconsideration.

Respectfully submitted,
 BARBARA WISE-JOHNSON

Mr. Richards won a Tony Award for his direction of *Fences*; and

WHEREAS, After leaving Detroit he found his way to New York where he worked as an actor in small theater productions and in early TV dramas. Besides August Wilson, Richards helped shape the career of many playwrights, working with writers primarily at three major theatrical institutions — The National Playwrights Conference at the Eugene O'Neill Center in Waterford, Conn., (which "he ran for more than 30 years from 1966 to 1999); as dean of the Yale School of Drama and artistic director of the Yale Repertory Theatre from 1979 to 1991. NOW, THEREFORE, BE IT

RESOLVED, That the Detroit City Council hereby expresses its heartfelt sympathy to the family of the late Lloyd Richards and their gratitude for his many years of dedicated service to the development of Black playwrights and plays that broadened the cultural and artistic landscape in theatre worldwide.

RESOLUTION IN MEMORIAM FOR

"MAMA" DIANE STEPHENS

By ALL COUNCIL MEMBERS:

WHEREAS, "Mama" Diane Stephens had a lifestyle and a schedule that belied her 83 years as she was a proud mover and shaker with Activist groups like: Keep The Vote No Take-over, & the Reparations Movement, while playing a pivotal role in the campaigns of many political power-brokers like her daughter, Judge Cynthia Diane Stephens; and

WHEREAS, "Mama" Diane worked diligently on numerous political campaigns: she was a stalwart, indefatigable campaigner for Mayor Coleman A. Young, Black Slate endorsed candidates, and candidates who promoted progressive agendas on Black-owned media outlets like WHPR radio and TV-33, owned by R. J. Watkins; and

WHEREAS, When Keep the Vote No Take Over held its weekly meetings,

Mama Diane regularly provided the donuts and other refreshments for the attendees, and whenever the group sponsored a protest, demonstration or activist event, Mama Diane was there ... and she was always on time and on point; and

WHEREAS, In her 83rd year, "Mama" Diane could have just been satisfied with her legacy as a brilliant retired educator. She could have simply enjoyed her role as a key member of St. Stephen's A.M.E. Church, where she served as a member of the Missionary Society as well as other auxiliaries. She could have spent all of her time relishing in her maternal pride on the accomplishment of her brilliant, only-child daughter, The Honorable Cynthia Diane Stephens, a longtime, highly respected Jurist; and similarly, she could have been completely consumed with her role as the Loving, Devoted Grandmother of Imani Diane, her only Grandchild, who is matriculating at FAMU. She could have spent more social time with her beloved sister, Matilda, or she could have engaged in recreational activities beyond her daily exercise walks with her many friends; and

WHEREAS, "Mama" Diane never assumed that her elder status meant relinquishing her right to be a warrior Queen, like Nzingha. She fiercely believed that we must work and pray without ceasing, and she was a no-nonsense, take no prisoner advocate for justice and the liberation of people of African Descent; and

WHEREAS, The entire community proudly stands in humble reverence to a Movement Matriarch, a Warrior Queen, a humble servant of The Lord, who aptly lived out two scriptures: "Blessed are they who hunger and thirst for Righteousness, for they shall be filled" and "Who can find a virtuous woman, for her price is far above rubies ... and her children shall rise up and call her blessed"; NOW, THEREFORE BE IT RESOLVED

RESOLVED, That the Detroit City Council hereby expresses its heartfelt sympathy to the family of the late "Mama" Diane Stephens and their gratitude for her many years of dedicated service to the cause of freedom, justice and liberation.

Adopted as follows:

Yeas — Council Members S. Cockrel, Collins, Conyers, Jones, Kenyatta, Reeves, Tinsley-Talabi, Watson, and President K. Cockrel, Jr. — 9.

Nays — None.

COMMUNICATIONS FROM: Mayor's Office

July 20, 2006

Honorable City Council:

Re: Resolution Objecting to the Detroit Police Department Holding Auctions of Confiscated Items Outside the City of Detroit.

On July 12, 2006 your Honorable Body adopted a resolution objecting to the Detroit Police Department holding auctions of confiscated items outside of the City of Detroit.

I understand your sentiment, however no company within the city limits could be identified that provided the services required for police auction services of general merchandise. The auction com-

pany selected for the sale of police evidence property is required to provide for picking up, cleaning, advertising, an auction site, and the necessary security. These services were to be provided at the auction company's expense. Any relocation of the auction site may cause greater expense, which impacts the City's revenue share.

As you are aware, City Council approved the contract, with Claud McMillen Auction Company, on July 27, 2005.

In short, I **neither approve nor veto** the referenced resolution. However, it is important to note that the auction is open to the public and all Detroit citizens are welcomed to attend.

Sincerely,
KWAME M. KILPATRICK
Mayor
