

What's your vision for better streets in your neighborhood?

STREETS

with safe routes

FOR

PEOPLE

who walk to school.

The City of Detroit (Department of Public Works) is developing Streets for People, a transportation plan with a singular focus — to make it easier and safer for all Detroiters to move around the city. The plan seeks to knit together diverse neighborhoods, prioritize safety of the most vulnerable road users, and identify clear implementation and design strategies for roadways improvement. Started in the Fall 2019, the plan will be completed by Fall 2021 and set a vision for the next decade to come.
