The Law Department has prepared an ordinance proposed by Council Member Janee Ayers, which addresses short term rental activity within the City of Detroit. This local law will be amending the codified 1984 Detroit City Code that goes into effect on October 1, 2019, specifically Chapter 8, *Building Construction and Property Maintenance*, Article XV, *Property Maintenance Code*, Division 3, *Requirements for Rental Property*, by adding Subdivision C., *Short Term Rentals*, to include Sections 8-1-100.1 through 8-1-100.14, to define terms; to create a registration process; to require submission of an affidavit and an application fee; to set criteria for the application; to establish general provisions for operations of short term rentals; to establish requirements for short term rental platforms; to set forth an appeals process and to provide for violations for failure to comply with the requirements set forth in this ordinance. A copy of the ordinance, which has been approved as to form, is attached for your consideration.

I look forward to discussing this important legislation with this Honorable Body.

Honorable City Council:

Re: Annual HOME, CDBG, NSP Awards Modification of Scope and Funding Sources — LifeBuilders

The City of Detroit (“City”), through the Housing and Revitalization Department (“HRD”), makes annual funding available for “ready-to-proceed projects” from HOME, NSP and CDBG federal funds allocated to the City through the U.S. Department of Housing and Urban Development. HRD has continued to work closely with HUD to meet required commitment and disbursement deadlines for ongoing projects approved by the City.

In support of affordable housing opportunities, HRD is hereby requesting approval to modify the scope and funding source of a previously approved project as follows:

Previous Approved Loan Funding:

1. LifeBuilders (\$460,000) for six homes — \$350,000 of CDBG funds will be spent on this project from reprogrammed funding approved by this Honorable Body on October 16, 2018. Also, HRD will spend \$110,000 in NSP 1 funds on this project from an existing appropriation.

Revised Loan Funding:

1. LifeBuilders (\$460,000) for three homes — \$350,000 of CDBG funds will be spent on this project from reprogrammed funding approved by this Honorable Body on October 16, 2018. Also, HRD will spend an additional \$110,000 in CDBG funds on this project from its FY 2019-20 CDBG allocation.

We hereby request that your Honorable Body adopt the attached resolution that (1) amends the scope and funding source for the LifeBuilders project and (2) authorizes the Director of HRD to execute such loan documents as may be necessary or convenient to complete such modifications to the transaction.

Respectfully submitted,

Director

Whereas, On November 20, 2018, Detroit City Council adopted a resolution that included approval of \$460,000 in funding to the LifeBuilders project for rehab of six homes, with \$350,000 of the funding from CDBG funds and \$110,000 of the funding from NSP 1 funds (the “Previous Resolution”); and

Whereas, The City now desires to amend the Previous Resolution such that (1) the LifeBuilders project will include rehab of three homes and (2) the \$110,000 of funding from NSP 1 be revised to be funded from HRD’s 2019-20 CDBG allocation consistent with the attached Exhibit 1: Amended — Additions to 2018 HOME, CDBG and NSP Awards (“Exhibit 1”); now therefore be it

Resolved, That Detroit City Council hereby approves an amendment to the Previous Resolution that modifies the project description and funding allocations consistent with this resolution and the attached Exhibit 1; and be it further

Resolved, That the \$110,000 of funding from NSP 1 noted in the Previous Resolution shall now be funded from HRD’s 2019-20 CDBG allocation in Appropriation 20541; and

Resolved, That the HRD Director, or his designee, is authorized to process, prepare, and execute any and all loan and grant documents necessary or convenient to close on the LifeBuilders project loan consistent with this resolution and the attached Exhibit 1; and

**Historic Designation Advisory Board**  
January 8, 2019

Honorable City Council:

Re: Petition #598 — Interim designation of 550 West Fort Street, the former *Detroit Saturday Night* news building as a local historic district and the appointment of *ad hoc* representatives in connection to this matter.

Francis Grunow, chair of the Arena District Neighborhood Advisory Committee (NAC) has submitted a request for an interim designation for 550 W. Fort Street.

A provision in the local designation ordinance, Sec. 25-2-4(c), states, "Upon receipt of substantial evidence demonstrating definite ... significance in a proposed historic district, the City Council may, at its discretion, adopt a resolution of interim historic designation, requiring that all applications for permits for work within the proposed historic district be referred to

[Historic District] commission as provided for in section 25-2-18 et seq." Interim designation would require that, for a period of up to one year, the Historic District Commission would have the same powers as it would if 550 West Fort was designated as a local historic district.

Reasonable grounds for the study have been provided. I have attached a resolution for your consideration directing the Historic Designation Advisory Board staff to begin the designation process.

Should your Honorable Body adopt that resolution, you must appoint two persons to serve as *ad hoc* members of the Advisory Board in connection with the matter.

Staff is available to answer any questions you may have in regards to this proposed designation.

Respectfully submitted,  
JANESE CHAPMAN  
Deputy Director

Historic Designation Advisory Board  
By Council Member Tate:

Whereas, The Historic District Ordinance (Chapter 25-2) requires the appointment of *ad hoc* members to the Historic Designation Advisory Board to represent the interest of property owners and those having a demonstrated interest in the preservation of this historic resource.

Now, Therefore, Be It

Resolved, That the City Council appoints the property owner, their representative; and a resident of the neighborhood to serve as *ad hoc* members of the Historic Designation Advisory Board in connection with the study for the proposed 550 West Fort Historic Local Historic District.

Be It Further

Honorable City Council:

Re: The request to repeal Ordinance No. 26-18 and replace with a corrective ordinance for the project that was approved in 2018 for American Community Developers, Inc. to modify the provisions of an existing PD-H

(Planned Development-Historic) zoning classification on Article XVII District Map 4 of the 1984 Detroit City Code, Chapter 61, Zoning, on land bounded by Brush Street on the west, Watson Street on the north, Beaubien Street on the east and Wilkins Street on the south in order to allow for a three-building mixed-use development with below-grade parking. (RECOMMEND APPROVAL)

**REQUEST**

This request is to repeal Ordinance No. 26-18 and replace with a corrective ordinance that is now before your Honorable Body. The original ordinance that was laid on the table on October 30, 2018, was for the request to modify the provisions of an existing PD-H (Planned Development-Historic) zoning classification on Article XVII District Map 4 of the 1984 Detroit City Code, Chapter 61, Zoning, on land bounded by Brush Street on the west, Watson Street on the north, Beaubien Street on the east and Wilkins Street on the south in order to allow for a three-building mixed-use development with below-grade parking.

Ordinance No. 26-18 that was approved in 2018, omitted two private parcels that were a part of the development project site along with nine additional public parcels that were included in the ordinance.

The two parcels that were omitted are within the same city block adjacent to the public parcels that are included in the original ordinance. The two private parcels, although omitted from the original ordinance, were described in the public hearing notice and presentations that were considered by your Honorable Body.

City Planning Commission staff has worked with the Law Department to correct the deficient ordinance (Attached). No other details of the originally approved project would change as a result of this correction. For details of the project, please see below.

**BACKGROUND**

In October 2018, American Community Developers, Inc. (ACD) requested to modify the provisions of an existing PD-H zoning classification on land bounded by Brush Street on the west, Watson Street on the north, Beaubien Street on the east and Wilkins Street on the south in order to allow for a three-building mixed-use development with below-grade parking.

The subject site is an entire city block that exists as a grassy open space, void of any structures and is approximately 1.42 acres in area, consisting of 11 parcels. Of those 11 parcels, two are currently owned by the developer and the remainder are under control of the City and are to be subject of a development agreement with ACD, which was awarded the site after responding to the City's Request for Proposals (RFP). The subject site is located within the Brush Park Historic District.

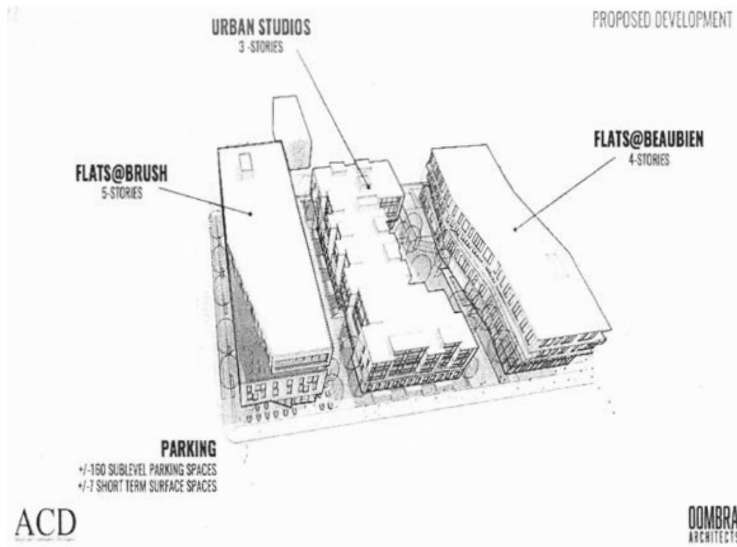

**PROPOSAL**

The proposed development calls for the construction of three multi-story buildings with one level of below grade parking providing approximately 160 spaces with an additional seven spaces above grade level. The Brush Street building (five-stories totaling 65 feet in height) will be roughly 56,000 sf and the Beaubien Street building (four-stories totaling, 45 feet in height) will be roughly 45,000 sf while the mid-block building (three-stories- 35 feet in height) is roughly 35,000 sf. The underground parking is planned to be 62,000 sf.

The structures would include retail/commercial space in the Brush and

Beaubien buildings. A promenade is planned to run through the middle of the site for short term parking for retail and also for other brief trips. ACD will be marketing the commercial space as a neighborhood market with a café (8,000-10,000 sf), but if a suitable market can't be found, the space will be marketed as neighborhood commercial/retail and/or restaurant use. There would be seven surface short term parking spaces at rear along the promenade for retail. Signage would be in place to limit these spaces to 30 minutes to encourage turn-over. The southwest corner of Brush and Wilkins would possibly be a cafe and include outdoor seating.

Below-grade parking would be accessed by a ramp at the mid-block. The underground parking is planned to be shared among the residential and retail users through a managed parking system. Residents would have keycard access. Retail users will have to take a ticket to be validated at the retail establishments. Amenities will include a dog park, fitness room, conference room, concierge system, indoor lounge and a rooftop patio.

The project will contain approximately 180 apartment units ranging from 63 efficiency units, 81 1-bedroom units and 36 2-bedroom units. Of the 180 units that are designated as affordable, 45 units are planned to reach the 30% - 60% area median income (AMI); 45 units are planned to reach the 80% AMI, leaving 90 units at market rate value.

The lighting and security plan for the site includes pole mounted fixtures, lighting at bollards and along each building. Buildings will be secured with card reader access for residents and security cameras will be placed around the buildings for full site coverage.

**RECOMMENDATION**

CPC staff is requesting **approval** of the subject corrective ordinance.

Respectfully submitted,  
 MARCELL R. TODD, JR.  
 Director

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request is being made for the proposed development of Crown Enterprises, Inc.'s warehouse expansion north side of Miller Avenue. Crown Enterprises, Inc. shall pay the costs required to abandon and relocate active utility lines in the subject streets and alleys. Alternatively, Crown Enterprises, Inc. may grant private easements to existing utilities to allow them to remain in place while providing access for repairs or replacement.

The request was approved by the Solid Waste Division — DPW, City Engineering — DPW and Traffic Engineering Division — DPW (TED).

DTE Energy — Electric objects to the property change. Crown Enterprises, Inc. continues to work with DTE to make mutually satisfactory arrangements for removal of DTE facilities or granting of a private easement.

Detroit Fire Department (DFD) reports involvement but no objection provided Crown Enterprises, Inc. maintains emergency vehicle access to all existing building structures and hydrants.

Detroit Water and Sewerage Department (DWSD) has no objection to the requested conversion to easement vacations and outright vacation of alleys, provided certain conditions are met. The specific DWSD conditions and provisions for granting of private easements are included in the resolution. DWSD reports that there are no water mains in the requested outright vacation of streets and alleys. The following conditions have been provided: that the sewers and water mains service no other properties and only service the properties owned by the petitioner, if not the petitioner must prepare relocation plans for the sewer and water mains signed by a registered engineer. DWSD will review the relocated plans, and the Petitioner must grant satisfactory easements for the relocated sewers and water mains where applicable, or obtain Right-of-Way approval for relocation. The Petitioner is to bear the entire cost of the proposed relocation plans, including construction, demolition, permitting, inspection, survey, etc.

All other involved City Departments, and privately owned utility companies informed of this petition have reported no objections to the vacations. Crown Enterprises, Inc.'s commitment to continue working with all involved public and private utilities to protect their installations is incorporated in the attached resolution.

I am recommending adoption of the attached resolution and further respectfully request that your Honorable Body adopt the following resolution with a Waiver of Reconsideration.

Respectfully submitted,  
RICHARD DOHERTY, P.E.

Honorable City Council:

Re: Petition No. 590 — First Latin American Baptist Church, request to vacate and convert to easement the alley adjacent to their property located at 2004 Scotten Ave.  
 Petition No. 590 — First Latin American

Baptist Church request to vacate and convert to easement part of the north-south alley, 20 feet wide, in the block of Vernor Highway, 66 feet wide, Wolff Avenue, 50 feet wide, Scotten Avenue, 66 feet wide, and Palms Avenue, 50 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request is being made to facilitate a future development.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the conversion to easement.

The specific DWSD provisions for easements are included in the resolution. DTE Energy reports involvement because they have services in the area; a specific provision to maintain access to DTE facilities is a part of the resolution.

All other involved City Departments, and privately owned utility companies have reported no objections to the conversion of the public right-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

**RESOLUTION IN SUPPORT OF RECOGNIZING DETROIT'S ORIGINAL NAME ON INDIGENOUS PEOPLES DAY**

By Council Member Castaneda-Lopez:

WHEREAS, In 2017, the Detroit City Council adopted a "Resolution Declaring the Second Monday in October Indigenous People's Day in Detroit", to show respect to the original and continuing inhabitants of the region. The City of Detroit acknowl-

edges the need to heal by honoring Detroit's Anishinaabe community and the federally recognized tribes of Michigan, as well as all Indigenous people who come from across the Americas to live and work within the City's limits; and

WHEREAS, The State of Michigan is home to 12 federally recognized Anishinaabek governments. (See, [www.michigan.gov](http://www.michigan.gov) "Tribal Governments") The self-descriptive name, "Anishinaabe", references the large group of culturally related Indigenous peoples (who identify by many names — i.e., Ojibwe, Odawa, Bodewadmi, etc.) residing in what is now Canada and parts of the United States, including Michigan. In Ontario, the Anishinabek Nation is a political advocate for forty member First Nations across the province, tracing its roots to the *Confederacy of Three Fires* (See, [www.anishinabek.ca](http://www.anishinabek.ca)); and

WHEREAS, The land on which Detroit sits, is within the traditional territory of the Confederacy of Three Fires, comprised of the Ojibwe (Chippewa), Odawa (Ottawa), and Bodewadmi (Potawatomi) Nations, and was home to many ancient nations, as evidenced by burial mounds and artifacts located along the Detroit River; and

WHEREAS, The land on which Detroit sits was not discovered, rather it has been occupied by Indigenous peoples long before Western written documented history; and

WHEREAS, The common language of the Anishinaabe community is Anishinaabemowin, which has its own place name for the land the city rests on — Waawiyatanong (Waa-wiya-ta-nong), or "where the water goes around"; and

WHEREAS, To this day, much of Detroit's existing roadway infrastructure is founded on Indigenous trail systems, created to travel and congregate here. NOW THEREFORE, BE IT

RESOLVED, That the Detroit City Council on behalf of the people of Detroit, recognize and honor the City of Detroit as Waawiyatanong (Waa-wiya-ta-nong), "where the water goes around", on Indigenous People's Day, the second Monday in October, in this year, 2019, and every year henceforth on the second Monday in October; and BE IT FURTHER

RESOLVED, The Detroit City Council encourages research be conducted on trail marking designations so that appropriate street names may be identified, and signage supplemented, to reflect both the modern and historical names of geographical places throughout the City.

**RESOLUTION IN MEMORIAM FOR**

**MOTHER QUEENIE HUNTER**

By COUNCIL PRESIDENT JONES:

WHEREAS, We, the members of the Detroit City Council, recognize and

bestow homage upon the late, Mother Queenie Hunter, who made her heavenly transition on September 16, 2019; and

WHEREAS, Queenie was born on January 28, 1926, in Eclectic, Alabama, a small town located in Elmore County. She was the seventh child born to the union of Viola Matilda (Robinson) Thompson and Johnnie Henry Thompson. Queenie had eleven siblings: Samuel Jones, John Wesley, Cora Bell, Mary Etta, Sessie Lee, Johnnie Mae, Clara Dora, Clarence Caleb, Hollywood, Carrie Marie and Naomi Annie. She graduated from Elmore County Training School and received a basketball scholarship to attend college; and

WHEREAS, Queenie met and married Bennie Wright. To this union one child was born, Johnnie Daniel, who preceded her in death. She later moved to Detroit, Michigan, to be with her best sister, Clara Dora. On her first day in Detroit, Queenie met the true love of her life, Percy. This union brought forth a beautiful daughter, Queenie. The couple created their legacy and enjoyed life to the fullest together for forty-three years, until Percy made his transition to join the Ancestors in 1993; and

WHEREAS, For over sixty years, Queenie was a dedicated, active member of her beloved church, Undenominational Church of God, under the leadership of Bishop Earl Baptiste. The church was later renamed United Prayer Temple Baptist Church (UPTBC), under the pastoral leadership of Reverend Ananias Holland. She served in various capacities: Missionary, Church Secretary, Executive Board Member, Sunday School Superintendent for over thirty years, and also was the Harvest Queen many times. On May 6, 2018, she moved her membership to New Mt. Olive Primitive Baptist Church, under the leadership of Pastor Carl J. Curry. Above all things Queenie totally loved to serve the Lord. The Word of God was embedded in her. She could quote scripture instantly and she prayed relentlessly; and

WHEREAS, The “Queen” truly lived a life full of love and grace. She enjoyed traveling around the world and attended the Robinson/Westbrooks Family Reunions every year until she was no longer able to. Queenie leaves a legacy of memories, three sisters, Clara Dora, Carrie Marie and Naomi; her loving and devoted daughter Queenie; grandchildren, William Donnell, Valerie (preceded her in death), Latiste, Katija, Tsigie and Angela; great-grandchildren and great-great grandchildren; adopted son, Jessie (Louise); god-daughters, Clarice, Beverly, Bernice, Evelyn and Lizzie; many favorite nieces, nephews and cousins; her best friend of more than ninety-years, Elsie; and a host of awesome, loving friends. Mother Queenie

Hunter has been a good servant and ensured that her impact would be forever embedded in the hearts of those she cherished for years to come. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council and Council President Brenda Jones extend our deepest sympathy and join with family and friends to celebrate the life of Mother Queenie Hunter.

**RESOLUTION IN MEMORIAM  
FOR  
THOMAS FONTAINE STALLWORTH, JR.  
“Pops”**

By COUNCIL PRESIDENT JONES, joined by COUNCIL MEMBER McCALISTER, JR.:

WHEREAS, We, the members of the Detroit City Council, join the family and friends of Mr. Thomas Fontaine Stallworth, Jr. in honoring his life and legacy. Mr. Stallworth made his heavenly transition on September 18, 2019, after a life well-lived. We pause to offer sincere condolences to his loving and devoted wife of 68 years, former State Representative Alma Stallworth; his eldest son, Thomas III; second son, KB; daughters-in-law, Nic Wells-Stallworth and Nicole Stallworth; grandchildren Thomas IV (Aja), Joseph, Misha, Tonie, KB Wellington, Madison, Lance and Harrison; Godson Clifford; brother William; two great-grandchildren and many, many other relatives and friends; and

WHEREAS, Mr. Stallworth’s mother, Lucy Stallworth, was an entrepreneur and instilled a good work ethic and business mind in young Thomas. As a young boy, he developed an ingenious business plan to have a paper route that covered Southwest Detroit, Dearborn, River Rouge, Ecorse and Inkster. Instead of carrying all of the papers across the large area, he strategically hid wagons with papers along the route to make for easier and quicker delivery! Like many smart men of today, Thomas offered profit sharing to friends who made paper deliveries for him and he had multiple bank accounts to save his earnings. Mr. Stallworth’s business savvy and financial acumen continued throughout life. He graduated from Southwestern High School and initially attended Wilberforce University. He transferred to Wayne State University (then Wayne University) and completed studies in Accounting. He also was a veteran having served in the Marines. Mr. Stallworth was a dedicated husband to the lovely Alma, and a strong role model for Thomas III and KB. Mr. Stallworth worked two jobs

to provide for his family. His hard work allowed the Stallworths to become one of the first of three African-American families to integrate into a largely Jewish Northwest Detroit neighborhood in 1962; and

WHEREAS, Mr. Stallworth passed the civil service exams with the City of Detroit and the State of Michigan and had a long career in accounting. While working for the State of Michigan, Mr. Stallworth held the positions of comptroller at the State Mental Health Hospital; Lead Auditor with the Michigan Department of Social Services; and ultimately, the State of Michigan, Director of Internal Audit for Wayne County Social Services. For many years he worked two jobs — he was an accountant by day and a salesman by night. He was a humble man who did not boast of his own professional accomplishments. Mr. Stallworth was the first African-American employed at Hudson’s in Northland Mall. He was affectionately known as “The Tax Man” because he helped people with their taxes right up until the 2019 season. Mr. Stallworth also was called “Mr. Hudsons due to his 41 years of service as a salesman at the store. Despite working many hours for many years, Mr. Stallworth enjoyed his leisure activities of discussing politics, listening to and collecting jazz and blues albums, gardening, playing cards, and telling jokes; and

WHEREAS, Mr. Stallworth also was a man ahead of his time because he was content to work as a civil servant and let his wife, Alma, follow her dreams and run for public office. He even became her campaign treasurer. He supported Representative Stallworth for over two decades in public service. He ensured the Stallworth family was good at home so she could ensure the well-being of her constituents. Then, when Mrs. Stallworth became ill, he continued to care for and support her — even learning home medical treatments and how to cook; and

WHEREAS, Mr. Thomas Fontaine Stallworth, Jr., leaves a legacy of strength, dignity, and service. Earthly reminders of this are his sons, Thomas III and KB, their children, and others whose lives were touched and made better by Mr. Stallworth. The hard work, sacrifice, and selflessness of Mr. Stallworth not only benefitted his family, but also so many in the City of Detroit and the State of Michigan. He will be greatly missed, and his contributions and lessons taught will live on forever. As the Bible says in **Matthew 25:21**, **“Well done good and faithful servant! As you have been faithful with a few things here on earth; I will put you in charge of many things in the kingdom of heaven.”** NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones, join with family and friends in honoring the life and legacy of Mr.

Thomas Fontaine Stallworth, Jr. — affectionately known as “Pops.”

**INVESTMENT MANAGEMENT AGREEMENT**

Investment Management Agreement between City of Detroit, Michigan, a Michigan municipal corporation by and through its Finance Department (the "Client") and Agincourt Capital Management, a Virginia limited liability company (the "Investment Manager") is made as of this 27th day of August, 2019.

Whereas, The Client wishes to appoint the Investment Manager to manage and control the investment of certain assets (the "Assets") held for the account of the Client by Bank of New York Mellon (the "Custodian") in a custody account (the "Custody Account").

Whereas, The Investment Manager is willing to perform the duties and accept the responsibilities as an investment manager with respect to the Assets to provide investment advice and to invest the Assets as directed by the Client and consistent with the Investment Guidelines as hereinafter defined.

Consistent with the Investment Guidelines, the Investment Manager shall have the discretionary authority to manage and control the Assets in the Custody Account, including the power to acquire and dispose.

The Client shall direct the Custodian to inform the Investment Manager promptly of all Assets segregated into the Custody Account. The Client, either alone or in conjunction with the Custodian, shall also establish reporting and accounting arrangements so the Investment Manager will be fully informed at all times as to the Assets segregated into the Custody Account.

The Investment Manager shall have no liability in connection with any act reasonably taken or omitted in good faith or at the request or instruction of the Authorized Officer. However, the Federal securities law imposes liabilities under certain circumstances on persons who act in good faith, and therefore nothing herein shall in any way constitute a waiver or limitation of any rights which the undersigned may have under any Federal securities or State laws.

**12. Modification of Agreement.** This Agreement may be amended only by a written instrument signed by the Client and the Investment Manager.

**13. Governing Laws.** This Agreement shall be construed in accordance with federal law and the law of the State of Michigan (without regard to the legislative or judicial conflict of laws or rules of any state).

**EXHIBIT A: POLICY STATEMENT**

**CITY OF DETROIT  
RETIREE PROTECTION FUND  
Investment Policy Statement**

**I. PURPOSE OF INVESTMENT POLICY STATEMENT**

Ordinance No. 21-17 amended Chapter 47 of the Detroit City Code to establish a Trust as a mechanism to save and invest funds and contributions of the City for later distribution to the General Retirement System and the Police and Fire System, and to authorize the creation of an Investment Advisory Committee (IAC). Furthermore, pursuant to CFO Administrative Order No. 2018-101-009, the IAC shall submit an Annual Advisory Committee Report to the CFO stating its recommendations regarding the investment of the Trust assets. The purpose of this Investment Policy Statement (Statement) is to provide 1) specific guidelines for the management of assets of the Trust and 2) the requirements of the Annual Advisory Committee Report.

This Statement is authorized by CFO Administrative Order No. 2018-101-008, CFO Administrative Order No. 2018-101-009, City Ordinance No. 21-17 and the Public Employees Retirement System Investment Act - Michigan Public Act 314 of 1965, MCL § 38.1132 et seq., as amended (Act 314).

Investment objectives are formulated in response to the financial needs of the Trust. 1. Manage the Trust's assets under its supervision in accordance with the guidelines and objectives contained in this Investment Policy Statement.

2. Exercise investment discretion in regard to buying, managing, and selling assets held in the portfolio, subject to any limitations contained in this Investment Policy Statement.

3. Perform its investment management duties with respect to the assets with the same care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a similar capacity and familiar with such matters would use in the conduct of a similar enterprise with similar aims.

4. Seek to obtain "best execution" with respect to portfolio transactions.

5. Vote all proxies consistent with the guidelines contained in the Manager's Investment Management Agreement or similar document. Investment managers shall provide documentation regarding the disposition of proxy solicitations to the IAC upon request.

6. Comply with the reporting requirements outlined in this Investment Policy Statement.

9. Promptly inform the IAC and Investment Consultant regarding all significant matters pertaining to the investment of the Trust's assets. The IAC shall be notified in writing of any material change in ownership, organizational structure, financial condition, senior staffing and management, or the management of the investment manager's portfolio.

10. Michigan law shall apply to all investment manager contracts where individual investment manager agreements are negotiated.

#### **D. Custodian**

The custodian (Custodian) will provide safekeeping and accounting services for the Trust. More specifically, the Custodian's responsibilities include:

1. Provide adequate safekeeping services.

7. Disburse funds as directed.

8. Provide monthly statements by investment managers' accounts and a consolidated statement of all assets.

9. To perform other services for the IAC as are customary and appropriate for custodians.

### III. INVESTMENT OBJECTIVES

The objectives of the Trust have been established in conjunction with a comprehensive review of the current and projected financial requirements as presented in an asset allocation review performed in 2019 by the Consultant. The objectives include:

- To have the ability to supplement the City's General Fund in making its annual required contributions to the Pension Systems when due.
- The Trust's overall investment objective is the preservation of principal.
- To maintain the purchasing power of the current assets and all future contributions by producing positive real rates of return on Trust assets.
- To control costs of administering the Trust and managing the investments.
- To meet all statutory requirements of the State of Michigan.

The following investment objectives, in order of priority, shall be applied in the management of the Trust:

The primary objectives, in priority order, of investment activities shall be safety, yield and liquidity.

• Safety. Safety of principal is the foremost objective of the Trust. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to manage credit risk and interest rate risk.

• Return on Investment. The Trust shall be designed with the objective of attaining the maximum market rate of return throughout budgetary and economic cycles, taking into account the IAC's investment risk constraints and cash flow needs and characteristics of the portfolio.

• Liquidity. The investment portfolio shall remain sufficiently liquid to meet all budgetary requirements that may be reasonably anticipated.

### IV. ASSET ALLOCATIONS

The asset allocation policy is developed 1) to attempt to achieve the investment objectives, 2) to achieve the expected investment returns with a prudent amount of investment risk, and 3) in recognition that the capital markets may behave differently over any time period, throughout the life of the Trust.

This strategic asset allocation policy is consistent with the achievement of the Trust's financial needs and overall investment objectives. Asset classes are selected based on their expected long-term returns, individual reward/risk characteristics, correlation with other asset classes, manager roles, and fulfillment of the Trust's long-term financial needs. Conformance with statutory investment guidelines is also considered.

The Investment Advisory Committee will recommend an allocation range for each asset class and provide the recommendation in the IAC's Annual Advisory Committee Report. The IAC recognizes the need to vary exposure within and among different asset classes, based on investment opportunities and changing capital market conditions. The IAC will take into consideration the Trust's current investments and present market conditions. The IAC intends to review these allocation targets at least annually, focusing on changes in the Trust's financial needs, investment objectives and asset class performance.

The IACs attitude regarding the Trust's assets combines both the preservation of capital and minimal risk-taking. The IAC recognizes that risk (i.e., the uncertainty of future events), volatility (i.e., the potential for variability of asset values), and the potential of loss in purchasing power (due to inflation) are present to some degree with all types of investment vehicles. While high levels of risk are to be avoided, the assumption of a limited level of risk is warranted in order to allow the opportunity to achieve satisfactory results consistent with the objectives and character of the Trust. The policies and restrictions contained in this statement should not impede the investment manager to attain the overall Trust objectives, nor should they exclude the investment manager from appropriate investment opportunities.

### V. INVESTMENT PERFORMANCE OBJECTIVES

#### A. Total Portfolio Performance

1. The Trust will be managed in accordance with the parameters specified in this Investment Policy. The portfolio should obtain a market average rate of return. A series of appropriate benchmarks shall be established against which the portfolio performance shall be compared on a regular basis. The benchmarks shall be reflective of the actual allocation of assets, securities held, and the risks undertaken.

#### B. Fixed Income Performance

The overall objective of the fixed income portion of the portfolio is to add stability and liquidity to the total portfolio.

### VI. INVESTMENT GUIDELINES

#### A. Overall

All investment guidelines and restrictions of the State of Michigan are incorpo-

rated by reference including, but not limited to Act 314.

#### **B. Pooled Funds**

Investments made by the Trust may include pooled funds. For purposes of this policy pooled funds may include, but are not limited to, mutual funds, commingled funds, exchange-traded funds, limited partnerships and limited liability corporations. Pooled funds may be governed by separate documents which may include investments not expressly permitted in this IPS. In the event of investment by the Trust into a pooled fund, the Trust will adopt the prospectus or governing policy of that fund as that manager's addendum to this Investment Policy Statement.

#### **C. Alternative Investments**

The Trust may invest in investments that would otherwise not be qualified under these Investment policies, to the extent permitted under Section 38.1140d of Act 314 (informally referred to as the "basket clause").

#### **D. Collective Investment Restrictions and Correcting Excess/Deficient Investments**

All Managers are restricted individually, and collectively, by this IPS. The Managers shall coordinate periodically with the Consultant, who shall (among other things) assure collective compliance with this IPS. In the event any investment based on changes in the market value of the Trust assets, causes the Trust to exceed or fall short of any range prescribed in this IPS, the assets may be reallocated in a prudent manner to comply with Act 314 and the strategic allocation and ranges outlined in this IPS.

#### **E. Guideline for Fixed Income Investments**

1. Per Act 314, as amended guidelines, not more than 15% of the Trust's assets may be invested in below investment grade bonds. Investment grade is defined as securities graded in the top 4 major grades as determined by 2 national rating services. Asset allocation guidelines may be more restrictive and provide for a lower amount of exposure to below investment grade bonds.

2. For mutual funds and collective trusts guidelines will be outlined in their prospectus or offering document.

### **VII. REPORTING**

#### **A. Monthly**

On a monthly basis, the Custodian shall supply an accounting statement that will include a summary of all receipts and disbursements and the cost and the market value of all assets.

#### **B. Quarterly**

On a quarterly basis the Investment Managers shall deliver a report detailing the Trust's performance, forecast of the market and economy, portfolio analysis

and current assets of their portfolio. Written reports shall be delivered to the IAC and the CFO within 30 days of the end of the quarter. A copy of the written report shall be submitted to the person designated by the City of Detroit Retiree Protection Fund and shall be available for public inspection. The Investment Managers will provide immediate written and telephone notice to the IAC of any significant market related or non-market related event impacting the portfolio and its performance.

The Investment Consultant shall evaluate and report on a quarterly basis the rate of return and relative performance of the Trust on a gross and net of fee basis.

#### **C. Annually - Annual Advisory Committee Report**

Pursuant to CFO Administrative Order 2018-101-009: Retiree Protection Fund Investment Advisory Committee, the Advisory Committee, through the chair, shall submit an annual written report to the CFO stating its recommendations regarding the investment of Trust assets and any additional information deemed relevant by the Advisory Committee of the CFO no later than the end of October each year.

At minimum, the following items shall be included in the Annual Advisory Committee Report:

1. Summary of activity of the IAC since submittal of the previous Annual Advisory Committee Report
2. Asset Allocation Recommendations and Justification (including analysis of Risk)
3. Earnings assumptions for total portfolio, as well as any portion as appropriate (e.g., Fixed Income)
4. Forecast which models Trust performance through life of the trust fund.

#### **D. As Necessary**

If an Investment Manager holds securities, that complied with section VI at the time of purchase, which subsequently exceed the applicable limit or do not satisfy the applicable investment standard, such excess or noncompliant investments may be continued until it is economically feasible to dispose of such investment in accordance with the prudent person standard of care, but no additional investment may be made unless authorized by law or ordinance. In addition, an action plan outlining the investment 'hold or sell' strategy shall be provided to the IAC immediately.

The IAC will meet periodically to review the Investment Consultant's performance report. The IAC will meet with the Investment Managers and appropriate outside consultants to discuss performance results, economic outlook, investment strategy and tactics and other pertinent matters affecting the Trust on a periodic basis.

**VIII. COMPLIANCE**

It is the direction of the IAC that the Trust assets are held by a third-party Custodian, and that all securities purchased by, and all collateral obtained by the Trust shall be properly designated as Trust assets. No withdrawal of assets, in whole or in part, shall be made from safekeeping except by an authorized member of the IAC or their designee.

At the direction of the IAC, operations of the Trust shall be reviewed by independent certified public accountants as part of any financial audit periodically required. Compliance with the IAC's internal controls shall be verified. These controls have been designed to prevent losses of assets that might arise from fraud, error, or misrepresentation by third parties or imprudent actions by the IAC or employees of the Trust sponsor, to the extent possible.

**IX. CRITERIA FOR INVESTMENT MANAGER REVIEW**

The Investment Consultant will monitor the performance for each component of the Trust on a monthly basis utilizing a time-weighted rate of return calculation. Certain managers, based on their individual investment mandates, may report results using an internal rate of return calculation. The Investment Consultant will review investment manager information monthly and will provide updates to the IAC as necessary. No investment manager will make a presentation to the IAC unless requested by the Investment Consultant due to probationary status as outlined below or any other extenuating circumstance where the Investment Consultant deems it appropriate that the IAC receives such presentation from the investment manager.

The Investment Consultant will evaluate each investment manager as outlined in this IPS and will then report to the IAC.

The IAC may initiate a change in investment manager at any time based upon performance results, a change in investment needs, a lack of confidence based upon the evaluation of the investment manager's results, or for any other or no reason at all.

The IAC wishes to adopt standards by which judgments of the ongoing perfor-

mance of a Manager may be made. The IAC will rely on the Investment Consultant to carefully monitor the Trust's investment managers on several key indicators outlined below:

- Style consistency or purity drift from the mandate.
- Management turnover in portfolio team or senior management.
- Investment process change, including varying the index or benchmark.
- Failure to adhere to the Investment Policy Statement or other compliance issues.
- Investigation of the firm by the Securities and Exchange Commission (SEC) or other regulatory agency
- Significant asset flows into or out of the company or strategy.
- Merger or sale of firm.
- Fee increases outside of the competitive range.
- Servicing issues — key personnel stop servicing the account without proper notification.
- Failure to attain a majority vote of confidence by the IAC.

Nothing in this section shall limit or diminish the IAC's right to terminate the Manager at any time.

**X. REVIEW AND AMENDMENTS**

The investment policy is intended to be flexible and should be reviewed and modified on an ongoing basis. The goals, objectives and guidelines may be amended to reflect material or sustained changes in the financial condition of the Trust, the economic environment, regulatory change or the opportunities available within the capital markets. All changes to this document will be subject to IAC and CFO approval and will be made on an as needed basis.

**MANAGEMENT REPORT:**

A. Asset Allocations - as of July 2019

| Asset Class*          | Target | Range   | Benchmark Index               |
|-----------------------|--------|---------|-------------------------------|
| Global Equity         | 0%     | 0-0%    | MSCI World Index              |
| Intermediate Gov/Cred | 50%    | 35-60%  | BB Intermediate Gov/Credit    |
| US AGG Fixed Income   | 50%    | 35%-60% | BB US Aggregate Bond          |
| High Yield            | 0%     | 0-10%   | BB US High Yield Bond         |

| Cash*                 | 0%     | 0%-30%  | 90-Day T-Bills                |

The IAC recognizes that from time to time the asset mix will deviate from the targeted percentages due to market conditions. A range has been established for each asset class to control the risk and maximize the effectiveness of the Trust's asset allocation strategy, while avoiding unnecessary turnover at the security level. The Investment Consultant will monitor the aggregate asset allocation of the portfolio and notify the Investment Advisory Committee to rebalance to the target asset allocations based on market conditions. To minimize turnover, an asset class that is outside of its allowable range, will be rebalanced towards its target allocation in a prudent manner. When possible, contributions and distributions will be utilized to maintain allocations within policy ranges and reduce transaction costs.

The IAC does not intend to exercise short-term changes to the target allocations.

**B. Portfolio Performance - as of July 2019**

The IAC recommends, on an absolute basis, a return of the total portfolio that will equal or exceed the budgeted earnings assumption of 3.0%. This absolute return objective will be evaluated in the context of the prevailing market conditions. The core fixed income portion of the portfolio is expected to perform at a rate at least equal to 1) the Bloomberg Barclays Capital U.S. Aggregate Bond Index, and 2) rank in the top 50th percentile of the total core fixed income universe over three (3) and five (5) year time periods.

**CITY OF DETROIT  
RETIREE PROTECTION FUND  
Investment Policy Statement**

**I. PURPOSE OF INVESTMENT POLICY STATEMENT**

Ordinance No. 21-17 amended Chapter 47 of the Detroit City Code to establish a Trust as a mechanism to save and invest funds and contributions of the City for later distribution to the General Retirement System and the Police and Fire System, and to authorize the creation of an Investment Advisory Committee (IAC). Furthermore, pursuant to CFO Administrative Order No. 2018-101-009, the IAC shall submit an Annual Advisory Committee Report to the CFO stating its recommendations regarding the investment of the Trust assets. The purpose of this Investment Policy Statement (Statement) is to provide 1) specific guidelines for the management of assets of the Trust and 2) the requirements of the Annual Advisory Committee Report.

1. Manage the Trust's assets under its supervision in accordance with the guide-

lines and objectives contained in this Investment Policy Statement.

2. Exercise investment discretion in regard to buying, managing, and selling assets held in the portfolio, subject to any limitations contained in this Investment Policy Statement.

3. 4. Seek to obtain "best execution" with respect to portfolio transactions.

5. Vote all proxies consistent with the guidelines contained in the Manager's Investment Management Agreement or similar document. Investment managers shall provide documentation regarding the disposition of proxy solicitations to the IAC upon request.

9. Promptly inform the IAC and Investment Consultant regarding all significant matters pertaining to the investment of the Trust's assets. The IAC shall be notified in writing of any material change in ownership, organizational structure, financial condition, senior staffing and management, or the management of the investment manager's portfolio.

10. Michigan law shall apply to all investment manager contracts where individual investment manager agreements are negotiated.

### D. Custodian

The custodian (Custodian) will provide safekeeping and accounting services for the Trust. More specifically, the Custodian's responsibilities include:

1. Provide adequate safekeeping services.

2. Upon receipt of proper, executable trade instructions, custodian shall seek to settle trades in a timely manner.

7. Disburse funds as directed.

8. Provide monthly statements by investment managers' accounts and a consolidated statement of all assets.

9. To perform other services for the IAC as are customary and appropriate for custodians.

### III. INVESTMENT OBJECTIVES

The objectives of the Trust have been established in conjunction with a comprehensive review of the current and projected financial requirements as presented in an asset allocation review performed in 2019 by the Consultant. The objectives include:

- To have the ability to supplement the City's General Fund in making its annual required contributions to the Pension Systems when due.

- The Trust's overall investment objective is the preservation of principal.

- To maintain the purchasing power of the current assets and all future contributions by producing positive real rates of return on Trust assets.

- To control costs of administering the Trust and managing the investments.

- To meet all statutory requirements of the State of Michigan.

The following investment objectives, in order of priority, shall be applied in the management of the Trust:

The primary objectives, in priority order, of investment activities shall be safety, yield and liquidity.

- Safety. Safety of principal is the foremost objective of the Trust. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be to manage credit risk and interest rate risk.

- Return on Investment. The Trust shall be designed with the objective of attaining the maximum market rate of return throughout budgetary and economic cycles, taking into account the IAC's investment risk constraints and cash flow needs and characteristics of the portfolio.

- Liquidity. The investment portfolio shall remain sufficiently liquid to meet all budgetary requirements that may be reasonably anticipated.

### IV. ASSET ALLOCATIONS

The asset allocation policy is developed 1) to attempt to achieve the investment objectives, 2) to achieve the expected investment returns with a prudent amount of investment risk, and 3) in recognition that the capital markets may behave differently over any time period, throughout the life of the Trust.

This strategic asset allocation policy is consistent with the achievement of the Trust's financial needs and overall investment objectives. Asset classes are

selected based on their expected long-term returns, individual reward/risk characteristics, correlation with other asset classes, manager roles, and fulfillment of the Trust's long-term financial needs. Conformance with statutory investment guidelines is also considered.

The Investment Advisory Committee will recommend an allocation range for each asset class and provide the recommendation in the IAC's Annual Advisory Committee Report. The IAC recognizes the need to vary exposure within and among different asset classes, based on investment opportunities and changing capital market conditions. The IAC will take into consideration the Trust's current investments and present market conditions. The IAC intends to review these allocation targets at least annually, focusing on changes in the Trust's financial needs, investment objectives and asset class performance.

The IACs attitude regarding the Trust's assets combines both the preservation of capital and minimal risk-taking. The IAC recognizes that risk (i.e., the uncertainty of future events), volatility (i.e., the potential for variability of asset values), and the potential of loss in purchasing power (due to inflation) are present to some degree with all types of investment vehicles. While high levels of risk are to be avoided, the assumption of a limited level of risk is warranted in order to allow the opportunity to achieve satisfactory results consistent with the objectives and character of the Trust. The policies and restrictions contained in this statement should not impede the investment manager to attain the overall Trust objectives, nor should they exclude the investment manager from appropriate investment opportunities.

### V. INVESTMENT PERFORMANCE OBJECTIVES

#### A. Total Portfolio Performance

1. The Trust will be managed in accordance with the parameters specified in this Investment Policy. The portfolio should obtain a market average rate of return. A series of appropriate benchmarks shall be established against which the portfolio performance shall be compared on a regular basis. The benchmarks shall be reflective of the actual allocation of assets, securities held, and the risks undertaken.

#### B. Fixed Income Performance

The overall objective of the fixed income portion of the portfolio is to add stability and liquidity to the total portfolio.

### VI. INVESTMENT GUIDELINES

#### A. Overall

All investment guidelines and restrictions of the State of Michigan are incorporated by reference including, but not limited to Act 314.

### **B. Pooled Funds**

Investments made by the Trust may include pooled funds. For purposes of this policy pooled funds may include, but are not limited to, mutual funds, commingled funds, exchange-traded funds, limited partnerships and limited liability corporations. Pooled funds may be governed by separate documents which may include investments not expressly permitted in this IPS. In the event of investment by the Trust into a pooled fund, the Trust will adopt the prospectus or governing policy of that fund as that manager's addendum to this Investment Policy Statement.

### **C. Alternative Investments**

The Trust may invest in investments that would otherwise not be qualified under these Investment policies, to the extent permitted under Section 38.1140d of Act 314 (informally referred to as the "basket clause").

### **D. Collective Investment Restrictions and Correcting Excess/Deficient Investments**

All Managers are restricted individually, and collectively, by this IPS. The Managers shall coordinate periodically with the Consultant, who shall (among other things) assure collective compliance with this IPS. In the event any investment based on changes in the market value of the Trust assets, causes the Trust to exceed or fall short of any range prescribed in this IPS, the assets may be reallocated in a prudent manner to comply with Act 314 and the strategic allocation and ranges outlined in this IPS.

### **E. Guideline for Fixed Income Investments**

1. Per Act 314, as amended guidelines, not more than 15% of the Trust's assets may be invested in below investment grade bonds. Investment grade is defined as securities graded in the top 4 major grades as determined by 2 national rating services. Asset allocation guidelines may be more restrictive and provide for a lower amount of exposure to below investment grade bonds.

2. For mutual funds and collective trusts guidelines will be outlined in their prospectus or offering document.

## **VII. REPORTING**

### **A. Monthly**

On a monthly basis, the Custodian shall supply an accounting statement that will include a summary of all receipts and disbursements and the cost and the market value of all assets.

### **B. Quarterly**

On a quarterly basis the Investment Managers shall deliver a report detailing the Trust's performance, forecast of the market and economy, portfolio analysis and current assets of their portfolio. Written reports shall be delivered to the IAC and the CFO within 30 days of the end of

the quarter. A copy of the written report shall be submitted to the person designated by the City of Detroit Retiree Protection Fund and shall be available for public inspection. The Investment Managers will provide immediate written and telephone notice to the IAC of any significant market related or non-market related event impacting the portfolio and its performance.

The Investment Consultant shall evaluate and report on a quarterly basis the rate of return and relative performance of the Trust on a gross and net of fee basis.

### **C. Annually - Annual Advisory Committee Report**

Pursuant to CFO Administrative Order 2018-101-009: Retiree Protection Fund Investment Advisory Committee, the Advisory Committee, through the chair, shall submit an annual written report to the CFO stating its recommendations regarding the investment of Trust assets and any additional information deemed relevant by the Advisory Committee of the CFO no later than the end of October each year.

At minimum, the following items shall be included in the Annual Advisory Committee Report:

1. Summary of activity of the IAC since submittal of the previous Annual Advisory Committee Report
2. Asset Allocation Recommendations and Justification (including analysis of Risk)
3. Earnings assumptions for total portfolio, as well as any portion as appropriate (e.g., Fixed Income)
4. Forecast which models Trust performance through life of the trust fund.

### **D. As Necessary**

If an Investment Manager holds securities, that complied with section VI at the time of purchase, which subsequently exceed the applicable limit or do not satisfy the applicable investment standard, such excess or noncompliant investments may be continued until it is economically feasible to dispose of such investment in accordance with the prudent person standard of care, but no additional investment may be made unless authorized by law or ordinance. In addition, an action plan outlining the investment 'hold or sell' strategy shall be provided to the IAC immediately.

The IAC will meet periodically to review the Investment Consultant's performance report. The IAC will meet with the Investment Managers and appropriate outside consultants to discuss performance results, economic outlook, investment strategy and tactics and other pertinent matters affecting the Trust on a periodic basis.

## **VIII. COMPLIANCE**

It is the direction of the IAC that the Trust assets are held by a third-party Cus-

today, and that all securities purchased by, and all collateral obtained by the Trust shall be properly designated as Trust assets. No withdrawal of assets, in whole or in part, shall be made from safekeeping except by an authorized member of the IAC or their designee.

At the direction of the IAC, operations of the Trust shall be reviewed by independent certified public accountants as part of any financial audit periodically required. Compliance with the IAC's internal controls shall be verified. These controls have been designed to prevent losses of assets that might arise from fraud, error, or misrepresentation by third parties or imprudent actions by the IAC or employees of the Trust sponsor, to the extent possible.

**IX. CRITERIA FOR INVESTMENT MANAGER REVIEW**

The Investment Consultant will monitor the performance for each component of the Trust on a monthly basis utilizing a time-weighted rate of return calculation. Certain managers, based on their individual investment mandates, may report results using an internal rate of return calculation. The Investment Consultant will review investment manager information monthly and will provide updates to the IAC as necessary. No investment manager will make a presentation to the IAC unless requested by the Investment Consultant due to probationary status as outlined below or any other extenuating circumstance where the Investment Consultant deems it appropriate that the IAC receives such presentation from the investment manager.

The Investment Consultant will evaluate each investment manager as outlined in this IPS and will then report to the IAC.

The IAC may initiate a change in investment manager at any time based upon performance results, a change in investment needs, a lack of confidence based upon the evaluation of the investment manager's results, or for any other or no reason at all.

The IAC wishes to adopt standards by which judgments of the ongoing performance of a Manager may be made. The

IAC will rely on the Investment Consultant to carefully monitor the Trust's investment managers on several key indicators outlined below:

- Style consistency or purity drift from the mandate.
- Management turnover in portfolio team or senior management.
- Investment process change, including varying the index or benchmark.
- Failure to adhere to the Investment Policy Statement or other compliance issues.
- Investigation of the firm by the Securities and Exchange Commission (SEC) or other regulatory
- Significant asset flows into or out of the company or strategy.
- Merger or sale of firm.
- Fee increases outside of the competitive range.
- Servicing issues — key personnel stop servicing the account without proper notification.
- Failure to attain a majority vote of confidence by the IAC.

Nothing in this section shall limit or diminish the IAC's right to terminate the Manager at any time.

**X. REVIEW AND AMENDMENTS**

The investment policy is intended to be flexible and should be reviewed and modified on an ongoing basis. The IAC recognizes that from time to time the asset mix will deviate from the targeted percentages due to market conditions. A range has been established for each asset class to control the risk and maximize the effectiveness of the Trust's asset allocation strategy, while avoiding unnecessary turnover at the security level. The Investment Consultant will monitor the aggregate asset allocation of the portfolio and notify the Investment Advisory Committee to rebalance to the target asset allocations based on market conditions. To minimize turnover, an asset class that is outside of its allowable range, will be rebalanced towards its target allocation in a prudent manner. When possible, contributions and distributions will be utilized to maintain allocations within policy ranges and reduce transaction costs.

The IAC does not intend to exercise short-term changes to the target allocations.

**B. Portfolio Performance - as of July 2019**

The IAC recommends, on an absolute basis, a return of the total portfolio that will equal or exceed the budgeted earnings assumption of 3.0%. This absolute return objective will be evaluated in the context of the prevailing market conditions. The core fixed income portion of the portfolio is expected to perform at a rate at least equal to 1) the Bloomberg Barclays Capital U.S. Aggregate Bond Index, and 2) rank in the top 50th percentile of the total core fixed income universe over three (3) and five (5) year time periods.

Honorable City Council:

Re: RAHF IV Cambridge Limited Dividend Housing Association Limited Liability Company — Payment in Lieu of Taxes (PILOT).

Jonathan Rose Companies has formed RAHF IV Cambridge Limited Dividend Housing Association (LDHA) Limited Liability Company (LLC) in order to re-certify an existing low income housing Section 8 senior facility known as Cambridge Towers to a PILOT facility. The 12-story high rise building with a shared first floor community room is located in an area bounded by Vassar on the north, Evergreen on the east, West 7 Mile on the south and Fielding on the west.

Originally certified as Cambridge Tower Associates LDHA Limited Partnership, Cambridge Tower consists of two hundred

twenty-six (226) 1 bedroom/1 bath and twenty-four (24) 2 bedroom/1 bath apartments. The exemption was extinguished in 2011 after the property gave up its tax exempt status when the mortgage encumbering the property during its PILOT term was paid in full. The property was purchased in 2017 by RAHF IV Cambridge Tower, LLC which then was converted to RAHF IV Cambridge Tower LDHA, LLC.

The existing Project-based Section 8 Housing Assistance Payments (HAP) Contract provided by the U.S. Department of Housing and Development (HUD) has been renewed. The Renewal Contract began on December 31, 2011, and runs for a period of twenty (20) years. A FHA-insured mortgage note in the principal amount of \$5,680,000 was assumed by RAHF IV Cambridge, LLC on March 21, 2017.

The income of individuals and area median income shall be determined by HUD in a manner consistent with determinations of lower-income families and area median gross income under Section 8 of the U.S. Housing Act of 1937 and Promulgated at 24 CFR 812. All two hundred fifty (250) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge often percent (10%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,

ALVIN HORHN

Deputy CFO/Assessor

By Council Member Ayers:

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legisla-

Whereas, The Sponsor is proposing to convert to PILOT an existing housing project known as Cambridge Towers consisting of two hundred fifty (250) units in a building located on a parcel of property owned or to be acquired by the Sponsor as described by street address and tax parcel in Exhibit A to this resolution, with all units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve PILOT eligibility through the existence of federal-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bonafide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer — Office of the Assessor two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

The Project is an existing two hundred thirty-six (236) family units located in an 18-story high rise apartment building in an area bounded by East Hancock on the north, John R on the east, East Forest on the south and Woodward on the west.

The in-place rehabilitation Project will include one hundred seventy-one (171) studio and sixty-five (65) 1 bedroom/1 bath apartments and a community room. Residents will not be present during asbestos control processes and will be able to return home each evening. The renovation will not result in a rent increase for three (3) years for tenants who pay more than thirty percent (30%) of income toward rent and no rent increases greater than four percent (4%) for any of the existing residents for the duration of the Regulatory Agreement.

A permanent mortgage loan in the amount of \$10,000,000 will be provided by JLL Capital Markets. A loan in the amount of \$2,150,000 will be provided by Bedrock Management Services, LLC. Cinnaire will make Capital Contributions of \$13,950,000 which includes the purchase of Low Income Housing Tax Credits. Additionally, the Sponsor has agreed to defer \$110,776 of the developer fee.

On average, rents for all units have been set at or below sixty percent (60%) of the area median income, adjusted for family size. All two hundred thirty-six (236) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of a 91-unit multi-family residential mixed-use development located at 4417 Second Avenue in the Sheridan Propco Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the rehabilitation of a 91-unit multi-family residential mixed-use development located at 4417 Second Avenue. This application corre-

sponds to a qualified facility which will be newly renovated. The project consists of limestone repair, façade/lentil work, new windows, flooring, kitchen and bathroom renovation, lobby renovations inclusive of millwork, elevator work, security/intercom system, lighting and doors. CPC staff has reviewed the applications and recommends approval.

The subject property has been confirmed as being within the boundaries of the Sheridan Propco NEZ which was established by a vote of Council on September 10, 2019, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The anticipated cost of rehabilitation for 4417 Second Avenue is \$1,753,600.00, at a cost of \$19,270.00 per unit. The applicant is seeking a 15 year tax abatement. The NEZ certificate application appears to have been submitted after the issuance of applicable building permits. However, given the historic nature of the property the issuance of the requested certificate is permissible per Sec. 4(2)(g) of P.A. 147 of 1992 which states:

*(2) An application may be filed after a building permit is issued only if one or more of the following apply:*

*(g) For a rehabilitated facility if all or a portion of the rehabilitated facility is a qualified historic building.*

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of a 28-unit multi-family residential development located at 651 Hancock Avenue in the Wellesley Propco Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the rehabilitation of a 28-unit multi-family residential development located at 651 Hancock Avenue. This application corresponds to a qualified facility which will be newly renovated. The project consists of exterior front step replacement, refinishing of floors, painting, kitchen and bathroom renovation, lighting, security, lighting and tile work. CPC staff has reviewed the applications and recommends approval.

The subject property has been confirmed as being within the boundaries of the Wellesley Propco NEZ which was established by a vote of Council on September 10, 2019, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The anticipated cost of rehabilitation for 651 Hancock Avenue is \$622,500.00, at a cost of \$22,218.00 per unit. The applicant is seeking a 15 year tax abatement. The NEZ certificate application appears to have been submitted after the issuance of applicable building permits. However, given the historic nature of the property the issuance of the requested certificate is permissible per Sec. 4(2)(g) of P.A. 147 of 1992 which states:

*(2) An application may be filed after a building permit is issued only if one or more of the following apply:*

*(g) For a rehabilitated facility if all or a portion of the rehabilitated facility is a qualified historic building.*

Honorable City Council:

Re: Request of the City of Detroit Brownfield Redevelopment Authority to amend Article XVII, District Map No. 24 of the 1984 Detroit City Code, Chapter 61, Zoning, by showing an M3 (General Industrial District) zoning classification where an R2 (Two-family Residential District) zoning classification currently exists on three-hundred and twelve (312) parcels commonly identified as the former Kettering High School located at 6101 Van Dyke Avenue and the former Rose Elementary School located at 5800 Field Avenue, generally bounded by the I-94 Edsel Ford Expressway and Medbury Avenue to the north, Van Dyke Avenue to the east, Hendrie Avenue to the south and Townsend Avenue to the west. (RECOMMEND APPROVAL)

**NATURE OF REQUEST AND PROJECT PROPOSAL**

The City Planning Commission (CPC) has completed its review and deliberations on the request of the Detroit Brownfield Redevelopment Authority to amend Article XVII, District Map No. 24 of the 1984 Detroit City Code, Chapter 61, Zoning, by showing an M3 (General Industrial

District) zoning classification where an R2 (Two-family Residential District) zoning classification currently exists on three-hundred and twelve (312) parcels commonly identified as the former Kettering High School located at 6101 Van Dyke Avenue and the former Rose Elementary School located at 5800 Field Avenue, generally bounded by the I-94 Edsel Ford Expressway and Medbury Avenue to the north, Van Dyke Avenue to the east, Hendrie Avenue to the south and Townsend Avenue to the west.

**REVIEW**

The R2 district is designed to protect and enhance those areas developed or likely to develop with single- or two-family dwellings. The district regulations are designed to promote a suitable environment for homes and for activities connected with family life. The only principal uses permitted by right are single- and two-family dwellings. With limited additional uses being allowed on a conditional basis.

The M3 district is composed of property so situated as to be suitable for industrial development, but where the modes of operation of the industry may affect nearby residential uses. The purpose of this district is to permit the normal operation of certain industrial uses, subject only to those regulations needed to control congestion and to protect nearby residential districts. No new residential obstruction is permitted in this district with the exception of loft conversions of existing buildings and of residential uses combined in structures with permitted commercial uses. These requirements are to protect residences from an undesirable environment and to ensure reservation of adequate areas for industrial development.

The subject properties are located in Council District 5 and measure approximately 31.9 acres in area. The subject parcels are currently under the sole ownership of Detroit Public Schools Community District, however are being offered for sale to accommodate the pending Dakkota Integrated Systems manufacturing development on the subject site.

The subject properties are located in Census Tract 5159. Based on the most recent census data the total population for the area is 1,645. There are approximately 471 occupied residential units and 393 vacant residential structures which results in a vacancy rate of 45%.

**Proposed Development**

The proposed map amendment is being requested to allow for the establishment of an "high/medium-impact manufacturing facility" specifically an "automobile accessory manufacture" (not including tires, heat treating, or foundry work) at the former Kettering High School located at 6101 Van Dyke Avenue and the former

Rose Elementary School located at 5800 Field Avenue. The proposed use would be permitted on a by-right basis in an M3 zoning district per Sec. 61-10-57(12).

This rezoning request is being sought in order to allow the development of a 632,500 square foot automobile accessory manufacturing facility. Dakkota Integrated Systems is a joint venture with Rush Group LLC and Magna International Inc., that will manage the complete assembly and sequencing of interior components and suspension for the soon to be expanded FCA Jeep Plant in the area of St. Jean between E. Warren Avenue and Kercheval Avenue. It is anticipated that this proposed development will create approximately 625 new jobs for Detroit residents.

The parcels identified as 6101 Van Dyke Avenue and 5800 Field Avenue are presently both zoned R2. 6101 Van Dyke Avenue is presently the site of the former Kettering High School. 5800 Field Avenue is presently the site of the former Rose Elementary School. Both properties are anticipated to be demolished to accommodate the development of the proposed Dakkota manufacturing facility. The footprint of the main facility will primarily be on the site of the former Kettering High School. The entirety of the Kettering High School building will be razed, however, the iconic "K" in front of the property will remain as an homage to the history of the site and the thousands of Kettering High School alumni. 5800 Field Avenue is also anticipated to be razed, however this site is slated to accommodate a detention basin bounded by Medbury Avenue to the north, Van Dyke Avenue to the east, Hendrie Avenue to the south, and Field Avenue to the west. The entirety of the site is anticipated to be landscaped and buffered in order to screen the development from the adjacent residential communities. Preliminary site plans shows landscaped berms along Van Dyke Avenue to the east and Hendrie Avenue to the south. A narrow strip of landscaping is also present along Townsend Avenue where the majority of occupied residential is present.

**SURROUNDING LAND USE AND ZONING**

The zoning classifications and land uses surrounding the subject area are as follows:

North: I-94 Edsel Ford Expressway with B3; Shopping District beyond.

East: R2; Single-family and Two-family residential.

South: R2; Single-family and Two-family residential.

West: R2; Single-family and Two-family residential.

**CITY PLANNING COMMISSION PUBLIC HEARING & OTHER COMMUNITY MEETINGS**

One-hundred and two (102) notices were sent out to residents and property owners

within 300 radial feet of the subject site. Twelve (12) have been returned as undeliverable. To date, the Commission has received no communications via mail or telephone either in opposition or support of the requested rezoning.

On Tuesday, July 9, 2019 a community meeting was held regarding this proposed rezoning and development at Alkebu-Lan Village, located at 7701 Harper Avenue. There were approximately 74 members of the public in attendance. In anticipation of the aforementioned meeting, the Department of Neighborhoods District 5 Manager Ms. Melia Howard canvassed the area of the proposed plant along Townsend Avenue, Field Avenue, Sheridan Avenue, Van Dyke Avenue, Granger Avenue, E. Edsel Ford Service Drive, E. Palmer Avenue and Baldwin Avenue. In total contact was made with occupants of 75 residential structures. Residents provided mixed responses to the proposed development ranging from excited about employment opportunities, to not caring to engage because they felt their voices wouldn't matter in the process. Additionally, the project was discussed with several area block clubs and neighborhood associations in order to increase attendance at the July 9th meeting.

At the community meeting there were several questions with regards to Dakkota having a Community Benefits Agreement with the residents even though the proposed development does not meet the city's threshold criteria of \$75,000,000.00. The anticipated amount of capital investment for this development is \$55,000,000.00. Residents in attendance raised questions regarding truck traffic, air and noise pollution, jobs and wages, the preservation of the "Big K," being bought out of their homes in the future to expand the plant, and one resident asked Dakkota to have revenue sharing with residents within the impact area. Overall, the meeting was perceived as being productive with the majority of residents in attendance agreeing with and voicing support of the planned project.

On July 18, 2019, the City Planning Commission held a public hearing on this request. There were thirteen members of the public in attendance to address the rezoning request. All thirteen of those who spoke during public comment were in support of the proposed rezoning.

The Commission requested that staff report back with information pertaining to the ownership of vacant parcels adjacent to the project area; the administration's overall vision for industrial development on the east side of Detroit, (particularly along with I-94 industrial corridor) as well as what impacts, if any, would the pending development have on emergency services.

In response to Commission's questions regarding the ownership of the vacant

parcels adjacent to the Kettering/Rose - Dakkota site, CPC staff presented a detailed listing of publicly held vacant properties. In order to determine the feasibility of establishing an infield housing strategy in close proximity to the subject site.

#### **MASTER PLAN CONFORMANCE**

The subject site is located within the Kettering area of Neighborhood Cluster 3 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "Institutional" for the subject property. An amendment will be forthcoming to show "Light Industrial" as the future intended land use. Additionally, a review of the Van Dyke frontage between I-94 and Hendrie Avenue will be reviewed to determine the feasibility of establishing a commercial or mixed use character for that corridor.

#### **ANALYSIS**

The proposed zoning classification of M3 would permit the requested use of a "high/medium-impact manufacturing facility" specifically an "automobile accessory manufacture" (not including tires, heat treating, or foundry work) on a by-right basis.

The proposed M3 zoning classification would permit 113 by-right public, civic, institutional, retail, service, commercial and other uses. The most intensive uses in the M3 zoning classification include "Trucking terminals, transfer buildings, truck garages, recreational vehicle storage lots, and open areas for the parking of semi-trailers, buses, and other operable commercial vehicles, not including limousines and taxicabs" and "Storage or killing of poultry or small game for direct, retail sale on the premises or for wholesale trade."

The following analysis details how the proposed rezoning either meets or fails to meet the eight approval criteria of Section 61-3-80 of the Zoning Ordinance, which must be considered in making recommendations and decisions on standard rezoning requests.

(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;

With the dramatic decline in population of the City of Detroit over the past 20 years, several of the city's neighborhood schools have closed and have fallen into disrepair. Among them are the former Kettering High School and the former Rose Elementary School. In 2012, the City of Detroit adopted an adaptive reuse ordinance for the city's former school sites, however, the level of capital reinvestment in these properties has been nominal to nonexistent. The challenge remains as to what to do with these properties which have since become a blighting influence on our communities. The City of Detroit has taken the approach of re-energizing the manufacturing sector of our

economy. Many publicly held properties have been and are being sought for this purpose. The rezoning request is in line with this stated purpose.

(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

The proposed rezoning to M3 is not consistent with the Master Plan of Policies; however the Planning and Development Department is purposing a Master Plan amendment to accommodate this rezoning request, as well as to address other concerns raised by members of the public at the July 18, 2019 hearing regarding the potential for commercial frontage along the east side of Van Dyke, Avenue between I-94 and Hendrie Avenue.

(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;

Given the nature of the proposed development and the impact that the operations are anticipated to have on the adjacent community, mitigating factors are being implemented to minimize the negative impacts of noise, light and fumes, which may emit from the premises. There are approximately 14 residential properties along Townsend Avenue which will be impacted directly as a result of this development. The vast majority of the adjacent parcels are vacant and primarily publicly owned. The subject site is located directly south of the I-94 Expressway and west of a Major Corridor (Van Dyke Avenue). In general, an intensification in zoning adjacent to residentially zoned properties is not the preferred approach. However, the inclusion of 20 foot setbacks from residentially zoned land as required by the zoning ordinance as well as the implementation of landscaping and elevated berms along the perimeter of the property will aid in the goal of protecting the health, safety, and general welfare of the adjacent residents.

(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;

The physical characteristics of the subject property will change significantly as a result of the proposed rezoning. Preliminary site plans have been presented which show the layout of the proposed development. Given the anticipated consolidation of the subject parcels as well as the potential for street and alley vacations which will not be disruptive to the traditional street grid, disruption to city services is not anticipated.

(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding storm water management;

The proposed development is anticipated to create a vast amount of hard surface, where pervious green space currently exists. This was taken into account with the planning of the site, hence the inclusion of the detention basin on the former Rose Elementary School site, to address stormwater management concerns.

(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

The vast majority of the uses in the immediate area are residential. Given that the truck traffic will primarily be internal to the site, adjacent to Townsend Avenue, design elements are being implemented to mitigate any negative impacts which may occur.

(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

As noted previously, the existing R2 zoning classification is not conducive for the proposed use which is industrial in nature. Before making the recommendation to pursue an M3 zoning classification, CPC staff evaluated all zoning classifications and determined that the M3 zoning classification was the least intensive zoning classification that would allow for the proposed use.

(8) Whether the proposed rezoning will create an illegal "spot zone."

Given the commercial/industrial nature of the corridor in which this rezoning has been requested along with the size and proposed consistency with the pending Master Plan amendment, staff is of the opinion that the proposed rezoning would not constitute an illegal "spot zone."

#### **Suitability of the Property**

One of the aforementioned criteria for rezoning states, "The suitability of the subject property for the existing zoning classification and proposed zoning classification." Zoning Map No. 24 generally shows R2 zoning to the north, south, east and west of the subject property. This section of the Kettering subsector is primarily developed with residential and institutional uses. The existing residential properties along Townsend Avenue and Hendrie Avenue were primarily built between 1900 and 1921. The newer infield housing along Hendrie Avenue was built in 2011.

As previously stated, the M3 zoning classification allows for a variety of manufacturing type uses. Historically, the manufacture of automotive related uses necessitated the demand for parking for employees. Given automation and the implementation of the third shift, the parking demand for this use and similar uses has drastically declined since the advent of the current parking requirements, circa 1968.

The current parking standards for a Schedule A use require the greater of either one space per every 800 square feet, or one per three employees. With this current formula, the petitioner would be required to provide 790 off-street employee parking spaces, although they will only have approximately 200 employees per shift. The current site plans, which show approximately 230 off-street parking spaces will require the petitioner to appeal to the Board of Zoning Appeals (BZA) for a parking variance. A possible alternative would be the adoption of a proposed text amendment to allow the Planning and Development Department to make the determination on the number of spaces needed, similar to what was done in 2016 for "Recreation, indoor commercial and health club." In that situation, much like what is anticipated to occur with Dakkota Integrated Systems, and likely any other automotive supplier looking to break ground in the City of Detroit, the usable floor area is much greater than the number of individuals occupying the space at any given time.

The Commission recommends that language similar to that adopted in 2016 be adopted for manufacturing uses moving forward. Such language is currently before the Commission and is slated for a public hearing on September 5, 2019. As a point of reference the existing language for the aforementioned use is included below.

*"Because Schedule C uses have widely varying parking demands, it is difficult to specify a single requirement. The off-street parking requirement for such uses shall be established by the Planning and Development Department based on estimates of parking demand, which may include recommendations of the Institute of Traffic Engineers (ITE), data collected from uses that are the same or comparable to the proposed use, or other relevant information. The Planning and Development Department may require that a parking study be prepared at the applicant's expense. Said study shall provide analysis and justification for the proposed number of spaces to be provided. Parking studies shall document the source of data used to develop the recommendations. The Planning and Development Department shall review the submitted study along with any other traffic engineering and planning data that are appropriate and establish the off-street parking or loading requirements for the use proposed."*

Such a text amendment could benefit future developments by allowing the applicant to move straight towards permitting, rather than applying to the BZA for a parking variance. The text amendment is now being proposed.

In general, the CPC looks favorably on the rezoning of the subject parcel to accommodate the establishment of an automobile manufacturing supplier.

**Land Use**

The CPC is of the opinion that an M3 zoning classification is an appropriate designation consistent with the characteristics of the adjacent properties, which will allow for the establishment of industrial related uses.

**Significant Impact on Other Property**

The CPC is of the opinion that the rezoning of this property from an economic development stand-point will add to the sustainability of the surrounding community by allowing the establishment of an economically viable, job creating, tax revenue generating development. Given the landscape of the City of Detroit, wherein educational institutions are nestled in the midst of residential communities, an M3 zoning classification would not typically be ideal for such a site. However, given the sites adjacency to the I-94 Expressway as well as its adjacency to Van Dyke Avenue, along with the stated buffering and landscaping along Townsend Avenue and Hendrie Avenue, the Commission is of the opinion that any adverse impacts associated with locating an M3 zoning classification alongside an R2 zoning classification can be addressed.

**RECOMMENDATION**

On July 18, 2019 the City Planning Commission voted to recommend approval of the request of the City of Detroit Brownfield Redevelopment Authority to amend Article XVII, District Map No. 24 of the 1984 Detroit City Code, Chapter 61, Zoning, by showing an M3 (General Industrial District) zoning classification where an R2 (Two-family Residential District) zoning classification currently exists on three-hundred and twelve (312) parcels commonly identified as the former Kettering High School located at 6101 Van Dyke Avenue and the former Rose Elementary School located at 5800 Field Avenue, generally bounded by the I-94 Edsel Ford Expressway and Medbury Avenue to the north, Van Dyke Avenue to the east, Hendrie Avenue to the south and Townsend Avenue to the west.

The payments shall be made not more than 30 days after the Tax Increment Revenues are collected.

12. Disclaimer. By adoption of this Resolution and approval of the Plan, the City assumes no obligation or liability to the owner, developer, lessee or lessor of the Eligible Property for any loss or damage that may result to such persons from the adoption of this Resolution and Plan. If the Rehabilitation of the Property will include the provision of housing at the Property, the Applicant agrees to: 1) comply with Fair Housing Practices that meet the guidelines set forth by the U.S. Fair Housing Act (42 U.S.C. 3601 through 3619); and 2) comply with the Affordability Requirements set forth on Addendum 2, attached hereto.

3. Community Benefits Requirements.

Pursuant to City of Detroit Ordinance 35-16 (“Ordinance”), also known as the Community Benefits Ordinance, if the Property involves a Tier 2 Development Project (as defined by the Ordinance), then the Applicant will:

a. Partner with the City and, when appropriate, a workforce development agency to promote the hiring, training and employability of Detroit residents, consistent with State and Federal Law.

b. Partner with the Director of the Planning & Development Department to address and mitigate negative impacts that the Tier 2 Development Project may have on the community and local residents. The Applicant will adhere to the mitigation requirements, if any, stated in the attached Addendum 1 - 4. b. Requirements, which is incorporated herein by reference.

4. Reporting to the City by the Applicant.

Applicant agrees to provide the City with sufficient information, subject to review and audit by the City, in order to determine compliance with this Agreement. At a minimum, the Applicant shall provide the City with the following during the Term:

a. Upon request, the Applicant shall provide the Planning & Development Department copies of all construction plans, building permits and certificates of occupancy related to the Rehabilitation of the Property. These documents, along with periodic site visits to the Property by the City, will serve to establish whether the Applicant is completing the Rehabilitation to the Property as required by the Act and this Agreement.

b. Within two (2) weeks after the first year of the Term and for each year of the Term thereafter, Applicant shall submit to the Planning & Development Department a certified status report (“Status Report”) signed by an authorized officer of the

Applicant. The Status Report shall set forth for the previous year: 1) the Rehabilitation work completed at the Property; 2) Applicant’s financial investment in the Property for that year; and 3) the number of full-time employees at the Property for that year.

c. Within two (2) weeks after the last day of the first year of the Term and each year of the Term thereafter, the Applicant shall submit to CRIO the Annual Employment Report for Tax Abatements (the “Status Report”), including copies of proofs of residency that have been accepted by CRIO.

5. Revocation of OPREC and Termination of this Agreement.

The City may, in its sole discretion and by resolution of Detroit City Council, revoke the OPREC if the City finds that: 1) the completion of Rehabilitation of the Property has not occurred in the time or manner authorized by this Agreement; or 2) that the Applicant has not proceeded in good faith with the Rehabilitation of the Property in a manner consistent with the purposes of the Act, taking into account any circumstances that are beyond the control of the Applicant.

Good faith efforts include, but are not limited to, the following: 1) Applicant is actively working with an agency or City Department to hire and ascertain methods of recruiting and employing Detroit residents at the Property, and 2) Applicant is actively working with the Detroit Economic Growth Corporation, the City’s Planning & Development Department, and CRIO to ascertain methods of obtaining resources to improve Applicant’s business in a manner that will allow for compliance with this Agreement.

If the average number of full-time employees at the Property for any given year of the Term is less than the Employee Commitment Number, the Applicant agrees to pay to the City, in addition to the Obsolete Properties Tax due under the OPREC, an amount equal to the difference between the amount of ad valorem tax that would be due on the Property without the OPREC, and the amount of Obsolete Properties Tax due on the Property under the OPREC, for that given year, multiplied by a fraction, the numerator of which is the shortfall in the number of full-time employees indicated in the Status Report, and the denominator of which is the Employee Commitment Number. Prior to taking any action to require the Applicant to pay an amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present reasons for the employment shortfall at a public hearing.

In the event that the Applicant fails to report the number of full-time employees

at the Property for a given year of the Term in either the Status Report or Employment Plan, the number of full-time employees at the Property for purposes of this Section shall be deemed to be zero (0).

7. Notice to City of Discontinuance of Operations.

If during the Term the Applicant intends to discontinue operations at the Property, the Applicant will provide thirty (30) days' prior written notice of such shutdown of operations to the Director of the Planning & Development Department.

8. Reservation of Remedies.

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgment, court order or otherwise shall not invalidate any of the other provisions of this Agreement.

9. Transfer.

Neither the OPREC nor this Agreement may be transferred or assigned by the Applicant to a new owner of the Property unless the City, in its sole discretion, approves such transfer or assignment upon application by the new owner.

10. Headings.

Honorable City Council:

Re: Amendment of Legal Description and Extension of Development Agreement Development: West Portion of 5622 Kopernick (a/k/a 5408 Kopernick)

On January 12, 2011, the Municipal Parking Department declared a portion of the parking behind 4835 through 5517 Michigan Avenue (the West portion of 5622 Kopernick — a/k/a 540 Kopernick), surplus to their needs and your Honorable Body authorized the transfer of jurisdiction to the Planning and Development Department. Subsequently, on March 8, 2011, your Honorable Body authorized the execution of a deed to the property to Mr. Noberto Garita, together with the execution of a Development Agreement. Mr. Garita proposed to pave the property for it to be used as a surface parking lot by customers and employees of his existing business, El Barzon Restaurant, located at 3710 Junction.

The sale to Mr. Garita was transacted and he has almost finalized construction. It has been determined, however, that the legal description issued was in error and requires revision. Although he has not done so, based on the footprint outlined in the original legal description, the reconstruction of the parking lot would negatively impact the adjoining public parking area by shutting off vehicular turn-around access along the western perimeter. Also, public access to the surrounding concrete walkway is eliminated by the original legal description.

To correct this situation, the Municipal Parking Department has agreed, via a transfer of jurisdiction to the Planning and Development Department (P&DD), to transfer two (2) sections of land to Mr. Garita; approximately 1,875 square feet of land located immediately east of his current parking area (Area A), and an additional 647 square feet along the southwest boundary (Area D). In exchange, upon the revision of the legal description, P&DD would reacquire approximately 1,376 square feet of land, located at the southeast portion of the El Barzon parking lot (Area B). This reconfiguration will open up the vehicular turn-around access within the public parking area adjacent to the El Barzon parking lot.

Additionally, the concrete walkway surrounding the El Barzon parking lot (Area E) would be reacquired, re-establishing safe public access to the neighboring businesses. These changes result in an adjustment of the overall size of the El Barzon parking area from 19,776 to 19,139 square feet (Area C). Further, Mr. Garita has committed to allow the community access to the El Barzon parking lot during non-peak business hours, generally Monday thru Friday 9:00 am - 5:00 pm, Saturday 9:00 am - 3:00 pm and Sunday 9:00 am - 2:00 pm.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing the exchange of the jurisdiction of land between the Planning and Development Department and the Municipal Parking Department. Further, we request that your Honorable Body authorize the Director of the Planning and Development Department, or his authorized designee, to execute an amendment to the Development Agreement or such other documents as may be necessary, to reflect the revision of the legal description for the sale of 5622 Kopernick (a/k/a 5408 Kopernick), to capture in writing the commitments of Mr. Garita, to address the issues as outlined and to extend the completion of the development to September 30, 2019.

Respectfully submitted,

**MAURICE COX**

Director

Planning and

Development Department

By Council Member Tate:

Whereas, On January 12, 2011, the Municipal Parking Department declared the parking lot behind 4835 through 5517 Michigan Avenue (the West portion of 5622 Kopernick — a/k/a 5408 Kopernick) surplus to their needs and your Honorable Body authorized the transfer of jurisdiction to the Planning and Development Department; and

Whereas, The sale to Mr. Garita was transacted and he has finalized construction. It has been determined, however, that the legal description issued was in error and requires revision. Based on the footprint outlined in the original legal description, the reconstruction of the parking lot would negatively impact the adjoining public parking area by shutting off vehicular turn-around access. Also, public access to the surrounding concrete walkway is eliminated; and

Whereas, To correct this situation, the Municipal Parking Department has agreed, via a transfer of jurisdiction to the Planning and Development Department (P&DD), to transfer two (2) sections of land to Mr. Garita; located immediately east of his current parking area and another section along the southwest boundary. In exchange, P&DD would reacquire land located at the southeast portion of the El Barzon parking lot, opening up vehicular turn around access within the public parking area. Additionally, the concrete walkway surrounding the El Barzon parking lot would also be reacquired, allowing safe pedestrian access via the walkway to neighboring businesses; and

Whereas, The Finance Director has agreed to the aforementioned transfers of jurisdiction and declaration of the properties to be transferred to the Planning and Development Department as surplus, subject to your Honorable Body's approval;

Now, Therefore, Be It

Resolved, That in accordance with the foregoing communication, the authority to sell for development the West Portion of 5622 Kopernick (a/k/a 5408 Kopernick), more particularly described in the attached Exhibit A-1, to Norberto Garita, be amended to reflect the revised legal description as described in the attached Exhibit C; and

Resolved, That the exchange of jurisdiction of properties and the declaration of these properties as surplus, as more particularly described in the attached Exhibits A and D, from the Municipal Parking Department to the Planning and Development Department, is hereby approved; and

Resolved, That the Director of the Planning and Development Department, or his authorized designee, be and is hereby authorized to execute an Amendment to the Agreement to Purchase and Develop the West Portion of 5622 Kopernick (a/k/a 5408 Kopernick), with Norberto Garita, or such other documents as may be necessary, to reflect the revision of the legal description and an extension of the time period for completion to September 30, 2019; and

Be It Further

Resolved, That the Director of the Planning and Development Department, or his authorized designee is authorized to execute any required instruments to make and incorporate technical amendments or changes to such aforementioned documents (including but not limited to corrections to or confirmations of legal descriptions) to correct minor inaccuracies or technical matters that may arise prior to the conveyance of the Property, provided that the changes do not materially alter the substance or terms of the transfer and sale; and

Be It Finally

Resolved, That the Amendment to the Agreement to Purchase and Develop be considered confirmed when executed by the Director of the Planning and Development Department, or his authorized designee and approved as to form.

Honorable City Council:

Re: Recommendation for Deferral.  
Address: 6764 Grandmont. Name: Abdul-Galil Allahmed. Demolition Ordered: November 8, 2017 (J.C.C. pages 2574-2580).

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection on September 13, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, we respectfully recommend that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties.

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect

actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding three (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

Director

**RESOLUTION IN MEMORIAM  
FOR  
TESSIE HILL  
Legendary Gospel Singer**

By COUNCIL PRESIDENT JONES,  
joined by COUNCIL MEMBERS  
LELAND AND CASTANEDA-LOPEZ:

WHEREAS, We, the members of the Detroit City Council, join the family and friends of Mrs. Tessie Hill in honoring her life and musical legacy. Detroit and the gospel music industry lost a legend when Tessie Hill made her heavenly transition. We pause to offer sincere condolences to

her surviving five children, Brenda Hill, twins Dr. Fairest Hill and Ferrell Hill-Richardson, Jacqueline Moore and Elder Reginald L. Hill; three grandchildren who she raised as her own, Nicole Hill, Tiffany Tomlin and Jermaine Hill; and 10 other grandchildren. Three children and five siblings preceded her in death; and

WHEREAS, Tessie Hill was born on October 9, 1934, in Monroe, GA. At the age of eight, her family moved to Detroit, where she began singing in the choir at Polk Street Church of God in Christ (COGIC) in 1960. The church choir, with Tessie Hill singing lead, was signed to Savoy Records in 1964. In 1975, Tessie Hill signed with Hobbs Record Label and recorded her first solo album, *"Beams of Heaven."* The following year she moved to Peacock Records, now known as ABC Records. There Tessie Hill was a trail-blazer because she recorded several gospel albums that were considered contemporary for gospel music. Several hits came from her recordings produced by Eddie Robinson and Sylvia Moy — songs like *"I Must Tell Jesus," "Don't Forget to Remember," "Leave It in the Hands of the Lord,"* and others. But the song *"Great Things,"* from the self-titled album, *"Tessie Hill,"* that was added just to fill space, would become the biggest and most noteworthy song of her career; and

WHEREAS, The song, *"Great Things,"* earned Tessie Hill national recognition, as the song helped open the door for Contemporary Gospel music. And, she was one of the first gospel artists to be played on secular radio. *"Great Things,"* crossed over the areas of popular music, propelling Tessie Hill's music sales and earning her a Gold Album and "Artist of the Year Award" by *Record World* magazine. In 1978, *Record World* magazine named Tessie Hill its *"Top Female Gospel Artist,"* and

WHEREAS, She shifted her life's focus in 1981 due to her husband's cancer diagnosis and subsequent death in 1983. But, a few years later, Tessie Hill pursued recording again only to find that the music industry's taste in gospel music had changed and now catered to songs that did not include God's name. However, her ministry, built on the foundation and principle of God's promises, would not be compromised. In 1991 and 1997, Tessie Hill faced her own major health challenges. But her faith remained strong, God showed up, and she was healed. In 1998, Tessie Hill's producer, Eddie Robinson, called her to work on a new project and they picked up right where they left off many years before. In 2006, she recorded the appropriately-named CD *"It's Me Again."* In 2010 she released *"Stepping Out."* And, in 2017, Tessie Hill recorded a song with her son, Dr. Fairest Hill; and

WHEREAS, Throughout her career,

Tessie Hill was known for fashion that was just as bold as her voice. When asked about her style, she once said, "I want to look like I sound." She also said, "I won't retire. When God calls me and says, 'Well done,' that's when it will be over, and then I'll probably be up there singing with the angels." And, on July 28, 2019, God said, "Well done, Tessie Hill, come sing with the angels." NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones, join with family and friends in honoring the life and musical legacy of Mrs. Tessie Hill. Her songs will live on forever!

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Leland, McCalister, Jr., Spivey, Tate and President Jones — 8.

Re: Neighborhood Enterprise Zone Certificate Application for the rehabilitation of a single-family home located at 1793 Seyburn Avenue in the Islandview Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received an application requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the rehabilitation of a single-family home located at 1793 Seyburn Avenue. This application corresponds to a qualified facility which will be newly renovated. The project consists of a complete and total renovation of the property. CPC staff has reviewed the application and recommends approval.

The subject property has been confirmed as being within the boundaries of the Islandview NEZ which was established by a vote of Council on April 30, 1996, and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The anticipated cost of rehabilitation for 1793 Seyburn Avenue is \$176,247.00. The applicant is seeking a 17 year tax abatement based on the historic nature of the property which is located in the West Village historic district. The NEZ certificate application appears to have been submitted after the issuance of applicable building permits. However, given the historic nature of the property the issuance of the requested certificate is permissible per Sec. 4(2)(g) of P. A. 147 of 1992 which states:

*(2) An application may be filed after a building permit is issued only if 1 or more of the following apply:*

*(g) For a rehabilitated facility if all or a portion of the rehabilitated facility is a qualified historic building.*

Honorable City Council:  
 Re: Request from Pogoda Companies to rezone 15999 Joy Road and a portion of 15801 Joy Road from an R5 (Medium Density Residential) and an M4 (Intensive Industrial) zoning classification to a B4 (General Business District) zoning classification to develop a self-storage facility/public storage house. (RECOMMEND DENIAL)

Pogoda Companies is requesting to rezone 15999 Joy Road and a portion of 15801 Joy Road, generally located on the south side of Joy Road west of Greenfield Avenue, from an R5 (Medium Density Residential) and an M4 (Intensive Industrial) zoning classification to a B4 (Gen-

eral Business District) zoning classification on Zoning Map No. 40. The change in zoning is being requested to allow for the development of a self-storage facility/public storage house. Please see the attached rezoning application and public hearing notice which includes a map of the subject location.

**BACKGROUND AND REQUEST**

The subject property, which is located more specifically at the southeast corner of Joy Road and St. Marys Avenue, is presently zoned R5 with the smaller M4 section at the northeast corner of the property. The site, which is currently owned by the Episcopal Diocese of Michigan, contains 4 acres and is presently vacant with grass and trees.

Zoning Map No. 40 from 1940 shows the subject area south of Joy Road and west of Greenfield zoned as heavy manufacturing, most likely due to the proximity to the rail corridor to the south. The 1968 zoning map shows the subject area zoned M4. In the past, the Episcopal Diocese of Michigan owned overall about 22 acres in this area, which included St. Martha's Church built in 1954, St. Peter Home for Boys, and a small cemetery. In 2007, due to dwindling membership, St. Martha's ceased holding regular Sunday services and sold the building to Triumph Church. In 2010, St. Peter Home for Boys closed and later demolished.

In 2007, Presbyterian Villages of Michigan and Saint Luke's Health Ministries petitioned the City to rezone the aforementioned 22 acres to R5 (except for two small M4 areas). This request was approved by City Council (Ordinance No 25-07) in order to allow for the development of the Presbyterian Villages of Michigan facility west of the church, as well as a senior continuum of care retirement community on the south and east edges of the campus including 11 apartment buildings adjacent to the church and home for boys. In 2008, Presbyterian Villages constructed the Village of St. Martha's, a 3-story senior independent living facility on 2.8 acres. Saint Luke's Health Ministries project was never built.

Pogoda Companies is proposing to purchase the subject 4 acres and construct a self-storage development with free-standing units including climate controlled and standard units in a drive up configuration. Pogoda Companies, founded in 1987 and based out of Farmington Hills, MI, is one of Michigan's largest self-storage operators and brokers in 35 locations. A preliminary site plan, which is attached for reference, for the proposal shows 7 rectangular shaped buildings. The Zoning Ordinance first allows public storage houses as conditional in B4 and B5 and by-right in M1 through M5.

**PUBLIC HEARING RESULTS**

On May 16, 2019, the City Planning Commission held a public hearing on the rezoning request. At the hearing, the petitioner provided an overview of the development, including:

- The petitioner explained how the facility would operate;
- The company's research showed the area is underserved for storage facilities; and
- The project is proposing simulated wrought iron along Joy Road and to save as many mature trees as possible.

At the hearing, an administrator of St. Martha's spoke in opposition and 4 residents of St. Martha's spoke in opposition. Some of the concerns included:

- The proposed commercial use would be incompatible with the adjacent residential senior building;
- There are concerns about traffic, noise, lighting, visual impacts, neighborhood security, etc.; and
- The facility should be built in a non-residential area.

During the hearing, the City Planning Commissioners also discussed the following issues:

- One Commissioner noted at recent community meetings held on the proposal, it appeared the majority of residents who attended were not interested in the proposed facility;
- One Commissioner stated the proposed use can be very helpful to have in a community, especially if a house has flooding problems, etc., and
- One Commissioner raised concerns about the loss of the natural green area and asked what types of businesses are allowed in B4.

**ANALYSIS**

***Surrounding Zoning and Land Use***

The zoning classification and land uses surrounding the subject area are as follows:

- North: B4; developed with a church, party store, vacant land, and apartments
- East: R5; developed with a senior independent living facility
- South: M4; vacant land
- West: B4 and R3; vacant with residential beyond

***Community Input***

The subject site is located within the larger community area referred to as the Cody Rouge Community Action Alliance, which is generally bounded by 1-96 on the north, Greenfield Road on the east, Ford Road on the south, and Rouge Park on the west. Prior to the public hearing, the developer met with representatives of the community in order to present the project.

***Zoning Ordinance Criteria***

Section 61-3-80 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. The CPC's analysis of the criteria is as follows:

1. *Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;*

The proposed amendment would not correct an error on the zoning map. Regarding changing trends, in 2007, the subject area was rezoned from M4 to R5 to encourage medium density residential development west of the existing church.

2. *Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;*

The subject site is located within the Brooks area of Neighborhood Cluster 7 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Institutional for the subject area. It is assumed this area was designated Institutional, because over the last 60 plus years, the area has included the church, boys home, and 2 former high schools to the south.

3. *Whether the proposed amendment will protect the health, safety, and general welfare of the public;*

It is CPC's determination, the proposed zoning map amendment would not serve to protect the general welfare of the public. The B4 district provides for business and commercial uses of a thoroughfare-oriented nature. In the 2008, Presbyterian Villages of Michigan constructed the 3-story senior building with 46 apartments. The proposed zoning map amendment would adversely affect the general welfare, because it could result in the establishment of commercial uses of a thoroughfare-oriented nature that would negatively impact the existing residential character of the area.

4. *Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;*

Not applicable.

5. *Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management;*

The existing site is developed with a number of mature trees. The developer indicated a willingness to save as many mature trees as possible. The nature of most commercial uses is to have high visibility from the adjacent commercial corridor. There is a higher probability that developing the site with medium density residential uses would result in the need to remove less existing vegetation. Furthermore, the proposed development would have a significant number of buildings and paved area to access the buildings, which would leave little remaining permeable surface area on the entire 4 acre site.

6. *Whether the proposed amendment*

*will have significant adverse impacts on other property that is in the vicinity of the subject tract;*

The proposed rezoning has the potential to have significant adverse impact on the property that is in the vicinity of the subject tract. The subject site contains 4 acres with a depth of 587 feet along St. Marys Avenue. The proposed commercial use would bring additional lighting, traffic, noise, and activity in close proximity to the adjacent 3-story senior building adjacent to the site.

7. *The suitability of the subject property for the existing zoning classification and proposed zoning classification; and*

While there presently is some B4 zoned land (vacant) on the south side of Joy Road just west of St. Mary's Avenue. The larger tract of land to the west is zoned R3 (Low Density Residential) which is presently vacant and to the east which is zoned R5 which is developed with senior housing and vacant space owned by the nearby church. As a result, the proposed B4 commercial land would be located primarily between two residentially zoned areas. The subject request might be more appropriately at the intersection of two major thoroughfares.

8. *Whether the proposed rezoning will create an illegal "spot zone."*

Not applicable.

**RECOMMENDATION**

Based on the analysis presented in the above report and the results of the public hearing, at its meeting on June 20, 2019, the City Planning Commission voted to recommend DENIAL of proposed rezoning request. Attached is a resolution for your consideration.

Respectfully submitted,

**RESOLUTION**

By Council Member Tate:

WHEREAS, The Detroit City Planning Commission (CPC) has concluded its deliberations regarding the request of Pogoda Companies to amend Article XVII, District Map No. 40 of the 1984 Detroit City Code Chapter 61, 'Zoning' to show a B4 (General Business District) zoning classification where an R5 (Medium Density Residential) and an M4 (Intensive Industrial) zoning classification currently exists at 15999 Joy Road and a portion of 15801 Joy Road, located at the southeast corner of Joy Road and St. Marys Avenue, to allow for the development of a self-storage facility/public storage house which is permitted as a conditional use in the B4 zoning district classification; and

WHEREAS, The CPC has held the statutorily required public hearing on this request on Thursday, May 16, 2019 and has submitted to Council its report and recommendation for denial of the aforementioned rezoning request dated July 12, 2019, stating in part that the Commission is of the opinion that a B4 (General Business District) zoning classification has the potential to have a significant adverse impact on other property that is in the vicinity of the subject tract. Now, THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby denies the request of Pogoda Companies to amend Article XVII, District Map 40 of the 1984 Detroit City Code Chapter 61, 'Zoning' to show a B4 (General Business District) zoning classification where an R5 (Medium Density Residential) and an M4 (Intensive Industrial) zoning classification currently exists at 15999 Joy Road and a portion of 15801 Joy Road, located at the southeast corner of Joy Road and St. Marys Avenue.

**City Planning Commission**

October 4, 2019

Honorable City Council:

Re: Request of the City of Detroit Planning and Development Department to amend Article XVII, District Map No. 45 of the 2019 Detroit City Code, Chapter 50, Zoning, by showing an M3 (General Industrial District) zoning classification where an R2 (Two-family Residential District) zoning classification currently exists on 175 parcels, generally bounded by the McGraw Avenue and W. Warren Avenue to the north, the 1-94 Edsel Ford Expressway to the south and east, and 35th Street and Parkdale Avenue extended to the west. (RECOMMEND APPROVAL)

**NATURE OF REQUEST AND PROJECT PROPOSAL**

The City Planning Commission (CPC) has completed its review and deliberations on the request of the City of Detroit Planning and Development Department (P&DD) to amend Article XVII, District Map No. 45 of the 2019 Detroit City Code, Chapter 50, Zoning, by showing an M3 (General Industrial District) zoning classification where an R2 (Two-family Residential District) zoning classification currently exists on 175 parcels, generally bounded by the McGraw Avenue and W. Warren Avenue to the north, the 1-94 Edsel Ford Expressway to the south and east, and 35th Street and Parkdale Avenue extended to the west.

**REVIEW**

The R2 district is designed to protect and enhance those areas developed or likely to develop with single- or two-family dwellings. The district regulations are designed to promote a suitable environment for homes and for activities connected with family life. The only principal uses permitted by right are single- and two-family dwellings, with limited additional uses being allowed on a conditional basis.

The M3 district is composed of property so situated as to be suitable for industrial development, but where the modes of operation of the industry may affect nearby residential uses. The purpose of this district is to permit the normal operation of certain industrial uses, subject only to those regulations needed to control congestion and to protect nearby residential districts. No new residential construction is permitted in this district with the exception of loft conversions of existing buildings and of residential uses combined in structures with permitted commercial uses. These requirements are to protect residences from an undesirable environment and to ensure reservation of adequate areas for industrial development.

The subject property is approximately 27.2 acres and is located in Council District 6. The subject parcels are currently under the ownership of the City of Detroit P&DD, Care of Detroit Building Authority (DBA), Detroit Land Bank Authority, McGraw-94 Land, LLC, Detroit Economic Development Corporation, Darnell Jackson, Detroit Parks & Recreation, Alejandro S. Gonzales, Y Do It Yourself Construction, Nelson J Megar & Jocelyn Paredes, Lesily C Bufkin, L & E Page, and the Miles' Family Trust.

The subject property is located in Census Tract 5273. Based on the most recent census data, the total population for the area is 984. The estimated residential vacancy rate is 64%.

**Proposed Development**

The proposed map amendment is being requested to allow the industrial redevelopment of a largely publicly-owned, predominantly vacant underutilized site. With the Mack Avenue and St. Jean Avenue Jefferson North Assembly Plant (JNAP) and Mack Ave Fiat Chrysler Automotive (FCA) facility expansion, multiple auto suppliers are seeking large, contiguous, industrially-zoned sites on which to construct facilities, which could lead to job creation, one of the top goals of the City Administration. The Administration believes the subject site is appropriate for a supplier, given its adjacency to existing industry, its location along truck routes, and, its adjacency to the 1-94 expressway. Upon the successful completion of the rezoning of this site, the Administration intends to market this location to host another automotive supplier.

## BACKGROUND

The area generally bounded by 1-94 to the south, Livernois Ave. on the west, Joy Rd. to the north and Epworth Ave. (Wesson Ave, south of Warren Ave.) on the east has served predominately as an industrial corridor since the early 20th century. Less than five percent of that land mass has been occupied by residential and commercial concerns, while the vast majority has hosted corporations such as Kelsey Hayes, Lear, BASF, DTE, Coca-Cola and Thyssen Steel. In 1991 the City was approached by Thyssen, offering to purchase the western 4.6 acres of the then 14.7 acre Atkinson Playfield, the remainder of which is the western end of the subject property of this rezoning request. That offer to purchase initiated the eastward industrial expansion into the neighborhood that continues today.

Due to certain Federal funds being used to acquire or improve the park, Federal and State approvals are needed to be disposed of Atkinson or any portion thereof. One of the requirements of the approval process is identification and acquisition of qualified replacement park land. As this would take some time to accomplish, CPC recommended that a study of the area be undertaken to determine the future growth and needs of the area. Over the course of the next six years, Thyssen acquired the originally requested portion of the park, private property south of the park to 1-94 (including the related public rights-of-way) and finally, another 4 plus acres of the playfield. These properties were rezoned from R2 (Two Family Residential) to TM (Transitional Industrial) and some portions to PD (Planned Development) to provide protection to the neighborhood. Today, Thyssen Steel occupies the land bounded by 1-94, the rail line east of Livernois, McGraw and Parkdale extended.

In June of 1997, the City Council adopted an Economic Development Corporation (EDC) Project for the area. The vision at that time acknowledged three key factors: industrial expansion, recreational need, and residential decline and vacancy east of Junction. The EDC Project Plan called for the conversion of the entire playfield for industrial use and the development of a large park and playfield east of Junction served by a renovated Kronk Recreation Center. Unfortunately, the Kronk Center suffered major damage from frozen pipes, and in 2018 a catastrophic fire, leading to the center's closure and subsequent demolition. The City's financial challenges and a failing national economy would not allow the EDC Project to be pursued.

On Thursday, October 3, 2019, the Detroit City Council's Planning and Economic Development Standing Committee submitted a recommendation of approval to effectuate the following:

- 1) Termination of the Project Plan;
- 2) Negotiation of the termination of the "Funding Agreement" by and between the City and the EDC;
- 3) Authorization of the transfer of any property acquired by the EDC to the City;
- 4) Release of the property acquired by the City and/or EDC pursuant to the project from the requirements of the Project Plan; and
- 5) Termination of the Citizens District Council created pursuant to the Project Plan as provided in Section 20(d) of Act 338 of 1974 (MCL 125.1520).

Each of these actions is intended to aid the City of Detroit Brownfield Redevelopment Authority with land assembly activity aimed at establishing market-ready industrial sites within City limits in order to attract manufacturing and logistics companies.

## SURROUNDING LAND USE AND ZONING

The zoning classifications and land uses surrounding the subject area are as follows:

North: R2 & B4; Single-family residential and Commercial.

East: B4; Commercial and the 1-94 expressway.

South: 1-94 expressway with R2; Single-family and Two-family residential beyond.

West: TM; Developed with industrial (Thyssenkrupp Steel).

## COMMUNITY MEETINGS AND THE CITY PLANNING COMMISSION PUBLIC HEARING

Four-hundred and thirty-one notices were sent out to residents and property owners within 300 radial feet of the subject site. None have been returned as undeliverable. To date, no communications via mail or telephone, either in opposition or support of the requested rezoning has been received.

On Tuesday, September 10, 2019, a community meeting was held at Onasis Coney Island, located at 8001 Livernois Avenue, regarding this proposed rezoning and development. A 120-person mailing list was used to inform the community about the meeting and convey details included on the public hearing notice signs. Fifteen members of the public were in attendance. In anticipation of the meeting, the Department of Neighborhoods District 6 Manager, Ms. Eva Torres, canvassed the occupied homes and businesses within the proposed footprint, knocking on ten doors and speaking with three people.

At the community meeting, business owners had questions about whether or not their businesses would be allowed under the proposed zoning. Residents' questions included potential park replacement; whether or not current residents will have to move, or, if private property will be bought by the developer or the City of Detroit; who the developer is; what review

there will be of future development, and what input the community will have in its design; what uses would be allowed under new zoning; and the proposed truck routes. Overall, the meeting was perceived as being productive with the majority of the residents' questions being answered. Answers to some questions, of course, will have to wait until a specific development is known and a site plan is presented. There is a desire on the community's behalf to be engaged in the process.

On September 19, 2019, the City Planning Commission held a public hearing on this request. There were six members of the public in attendance, of which four rendered testimony. The participants raised questions regarding setbacks and buffers, truck traffic routes, and the continuation of commercial uses along W. Warren Avenue. There were no comments received either in support or opposition to the proposed rezoning.

The Commission did not raise any particular concerns regarding the proposed rezoning; their questions generally focused on land ownership and elimination of blight.

#### **MASTER PLAN CONFORMANCE**

The subject site is located within the Tireman area of Neighborhood Cluster 6 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows a mixture of "Medium Density Residential" and "Light Industrial" for the subject properties. An amendment will be forthcoming to show "Light Industrial" as the future intended land use for the entire site.

#### **ANALYSIS**

The proposed zoning classification of M3 would permit the requested use of a "high/medium-impact manufacturing facility" specifically an "automobile accessory manufacture" (not including tires, heat treating, or foundry work) on a by-right basis.

The proposed M3 zoning classification would permit 113 by-right public, civic, institutional, retail, service, commercial and other uses. The most intensive uses in the M3 zoning classification include "Trucking terminals, transfer buildings, truck garages, recreational vehicle storage lots, and open areas for the parking of semi-trailers, buses, and other operable commercial vehicles, not including limousines and taxicabs" and "Storage or killing of poultry or small game for direct, retail sale on the premises of for wholesale trade."

The following analysis details how the proposed rezoning either meets or fails to meet the eight approval criteria of Section 50-3-80 of the Zoning Ordinance, which must be considered in making recommendations and decisions on standard rezoning requests.

1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;

With the dramatic decline in population of the city of Detroit over the past 20 years,

several of the city's neighborhoods have virtually been emptied. Large areas of the city have been razed and currently sit vacant and blighted. The City of Detroit has taken the approach of re-energizing the manufacturing segment of our economy, creating jobs. Many publicly held properties such as those in the area of Junction and McGraw have been and are being sought for this purpose. The rezoning request is in line with this stated purpose.

2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

The proposed rezoning of M3 is not consistent with the Master Plan of Policies, however the Planning and Development Department is developing a Master Plan Amendment to accommodate this rezoning request.

3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;

Given that a developer for this site has not yet been selected, the Commission cannot opine on the specific impacts a future development, not knowing the specifics of the proposed development's operations. The vast majority of the adjacent parcels are vacant and primarily publicly owned. The subject site located directly north of the 1-94 Expressway and south of a Major Corridor (W. Warren Avenue). In general, an intensification in zoning adjacent to residentially zoned properties is not the preferred approach. However, the remaining parcels adjacent to the subject site are commercially zoned as B4. The Commission would like to review the City's strategy for mitigating any negative impacts which may occur for the few remaining residents within the area of the subject rezoning.

4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;

The physical characteristics of the subject property will change significantly as a result of the proposed rezoning. Given the vast amount of vacancy in the subject area, the anticipated consolidation of the subject parcels, the potential for street and alley vacations (which alter the traditional street grid), it is not anticipated that there will be disruption to city services.

5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding storm water management;

The proposed development is anticipated to create a vast amount of hard surface, where pervious green space currently exists; however stormwater management requirements should mitigate possible negative impacts.

6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

The vast majority of the adjacent uses in the immediate area are commercial and industrial. Given the sites proximity to the 1-94 Expressway impacts as a result of this proposed rezoning will primarily be presented by increased and changing patterns of traffic and noise.

7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

As noted previously, the existing R2 zoning classification is not conducive for the proposed uses which are industrial in nature. Before making the recommendation to pursue an M3 zoning classification, the Commission evaluated all zoning classifications and determined that the M3 zoning classification was the least intensive zoning classification that would allow for the proposed use and likely dimensional needs. Zoning Map No. 45 generally shows a mixture of R2 and B4 zoning to the north, south, east and west of the subject property. This section of the Tireman subsector is primarily developed with residential, commercial and industrial uses.

8) Whether the proposed rezoning will create an illegal "spot zone."

Given the commercial/industrial nature of the corridor, along with the size and proposed rezoning's consistency with the pending Master Plan amendment, the Commission is of the opinion that the proposed rezoning would not constitute an illegal "spot zone."

**Suitability of the Property**

In general, the Commission would prefer that existing industrially zoned land be utilized, rather than repurposing residential and recreational land in this way. However, given previous and current trends, this area appears to be in transition. Therefore, the Commission looks favorably on the rezoning of the subject parcel to accommodate the establishment of an automobile manufacturing supplier.

**CONCLUSION**

The CPC is of the opinion that an M3 zoning classification is an appropriate designation consistent with the characteristics of the adjacent properties, which will allow for the establishment of industrial related uses.

The rezoning of this property from an economic development stand-point will add to the sustainability of the surrounding community by allowing the establishment of a development that is economically viable, and both creates jobs and generates tax revenue. Based on the above analysis and consistent with the approval criteria of Sec. 50-3-80 of the Zoning Ordinance, the CPC supports the rezoning request. However, it should be noted

that staffs historical review of this matter caused some concern for the integrity of the record of amendments to Map No. 45, so further review may be warranted.

**RECOMMENDATION**

On October 3, 2019 the City Planning Commission voted to recommend approval of the request of the City of Detroit Planning and Development Department to amend Article XVII, District Map No. 45 of the 2019 Detroit City Code, Chapter 50, Zoning, by showing an M3 (General Industrial District) zoning classification where an R2 (Two-family Residential District) zoning classification currently exists on 175 parcels, generally bounded by the McGraw Avenue and W. Warren Avenue to the north, the 1-94 Edsel Ford Expressway to the south and east, and 35th Street and Parkdale Avenue extended to the west. Additionally the Commission authorized staff to work the Law Department in order to reconcile any related errors on District Map No. 45. Finally, given that the pending development would be a matter of right in the M3 zoning classification, and therefore not subject to legislative site plan review, the Commission recommends that the City Council make staff level site plan review for any development chosen for this site a condition of any land sale, right-of-way, street, or alley vacation subject to Council's approval.

Lastly, the history of the Kronk Recreation Center and the many people who have come through its doors are quite significant. As part of the land transfer or when a developer is selected for the site, City Council should consider how best to ensure that history is acknowledged and commemorated.

Honorable City Council:

Re: Request for the Establishment of an Obsolete Property Rehabilitation District at 511 Woodward.

Please accept this letter as a request to establish an Obsolete Property Rehabilitation Development District for the property located at 511 Woodward and described on Attachment A.

**District Description**

The "Dream 511" project involves the rehabilitation of the vacant and obsolete building located at 511 Woodward for commercial and retail uses.

**Parcel Information**

|                        |                           |
|------------------------|---------------------------|

| <b>Parcel</b>          | 02001900-9                |
| <b>Owner of Record</b> | Wayne County<br>Land Bank |
| <b>Acreage</b>         | .186                      |

The current 30,240 square foot building was constructed in 1972. The building is a four (4) story glass curtain wall building on three (3) sides with a brick and block center section over the building entry with a block and brick rear side. The building was originally occupied by various professional offices and a financial institution from 1973 until at least 2006, when the building was vacated. The building has been vacant and unutilized since 2006.

#### **Project Start and Completion Date**

Pursuant to a Purchase and Development Agreement executed on April 1, 2019 between Wayne County, the Wayne County Land Bank, and ICONIC-511, LLC, the property at 511 Woodward is being purchased from the Land Bank by ICONIC-511, LLC, an entity which has been established for the project. The purchase is slated to close in September, 2019. Construction will begin immediately and follow a fifteen-month schedule to completion.

#### **Purpose for Renovation of 511 Woodward**

The building is currently cleared out down to the building structural elements. Renovation of the building is essential for removal of functionally obsolescent existing building elements. Most of these elements revolve around building core and façade elements.

Current building code requires the building to have fire suppression, alarm and exit devices installed prior to occupancy. Electrical systems need to be updated to support 600 amps/floor of service as well as ensuring the electrical service room provides adequate operational room. The existing electrical room will be reconfigured to meet the current code requirements.

The elevator needs to be certified and approved by the City prior to use. Updates to the elevator will be specified to enhance its appearance to match the Class A Lobby renovations that are proposed.

Existing exterior curtain wall systems need to be upgraded to meet current energy codes and provide a U value of .25 - .27 with shading coefficient of .70 on the upper floors. The new curtain wall and proposed screen wall will provide an energy efficient exterior wall system.

#### **Benefits to the Community**

Dream 511 represents the expansion of a partnership between The Elia Group and the Downtown Detroit Partnership (DDP), which includes a strong track record transforming under-utilized downtown parcels into vibrant community parks, restaurants and landmarks. The organizations collaborated to create Pare Restaurant, which has received local and national critical acclaim since opening in 2016, serving as a reputable anchor in arguably the most iconic location in

Downtown Detroit: Campus Martius. Additionally, they created The Fountain Detroit, a 340-square-foot restaurant that brought one of the first adaptive reuses of old shipping containers in Detroit to Campus Martius.

The partnership is also a driving force in activating Campus Martius as an all-season community gathering space, operating the Rink Side Bar and Arctic Zone concession areas, which flank the ice rink during the winter months, and providing free live entertainment to visitors and families all year long.

The Elia Group-DDP team remains committed to providing opportunities for workforce training, growth and employment in Detroit. This is exemplified through their relationship with programs such as the city's Grow Detroit's Young Talent program, from which several graduates have been hired at The Fountain Detroit restaurant.

The Dream 511 project will produce a minimum of 75 construction jobs, one-third of which are anticipated to be specific to low-income Wayne County residents. The new space will allow for the hiring of approximately 100 new retail and office employees in Downtown Detroit. One Property Manager will be hired directly by the new Owner. The Purchase and Development Agreement contains community benefit requirements that will be monitored by Wayne County.

DDP's headquarters will anchor the space. DDP's support of workforce development and creative talent are central to its mission. For example, many of DDP's Downtown Detroit Business Improvement Zone (BIZ) Clean and Hospitality Ambassadors are referred through "second chance" programs such as Goodwill Industries of Detroit, and DDP provides wraparound services to facilitate the success of this initiative. DDP's landscape vendor utilizes the Greening of Detroit and its training programs. DDP served as the fiduciary for the launch of the Grow Detroit's Young Talent program at the request of Mayor Duggan and engages the region's creative talent to perform in Downtown public spaces.

The rehabilitation of the facility would not be undertaken without the applicant's receipt of the exemption certificate. This exemption will allow a reduced rental rate for DDP, a nonprofit organization. Without this exemption, DDP would not be able to create the Welcome Center and continue to provide their ongoing programming and services in the Downtown area. Therefore, the Obsolete Property Rehabilitation Certificate is requested for the full twelve years allowed by statute.

#### **Eligibility**

The current building, constructed in 1972, is "functionally obsolete" for the commercial uses it was originally

intended for. Changes in technology and building code require a complete replacement of major heating, cooling and electrical systems in the building.

**Property Ownership**

The Wayne County Land Bank currently owns the property located at 511 Woodward. The sale to ICONIC-511, LLC is slated to close in September 2019.

**Total Capital Investment**

The Purchase and Development Agreement contains minimum investment requirements that will be monitored by Wayne County. Under these terms, ICONIC-511, LLC will invest at minimum \$4.5 million into the property, an amount that increases under certain circumstances to \$7 million.

On October 10, 2019, a public hearing in connection with establishing an Obsolete Property Rehabilitation District was held before your Honorable Body. No impediments to the establishment of the District were presented at the public hearing.

Please find attached, a resolution and legal description, which will establish an

Obsolete Property Rehabilitation District in the area of 2119 Field, Detroit, MI in accordance with Public Act 146 of 2000 ("the Act"). Such establishment will materially assist in the development of the site in accordance with the plans of the developer of the property.

By Council Member Tate:

Whereas, Pursuant to Public Act No. 146 of 2000 ("Act 146"), this City Council has the authority to establish "Obsolete Property Rehabilitation Districts" within the boundaries of the City of Detroit; and

Whereas, K8 Partners LLC has requested that this City Council establish an Obsolete Property Rehabilitation District in the area of 2119 Field, Detroit, Michigan, the area being more particularly described in the map and legal description attached hereto; and

Whereas, The aforesaid property is obsolete property in an area characterized by obsolete commercial property or commercial housing property; and

Whereas, Act 146 requires that, prior to establishing an Obsolete Property Rehabilitation District, the City Council shall provide an opportunity for a hearing on the establishment of the District, at which a representative of any jurisdiction levying *ad valorem taxes*, or any owner of real property within the proposed District, or any other resident or taxpayer of the City of Detroit may appear and be heard on the matter; and

Whereas, A public hearing was conducted before City Council on October 10, 2019, for the purpose of considering the establishment of the proposed Obsolete Property Rehabilitation District described in the map and legal description attached hereto; and

Whereas, No impediments to the establishment of the proposed District were presented at the public hearing.

Now, Therefore Be It

Resolved, That Obsolete Property Rehabilitation District, more particularly described in the map and legal description attached hereto, is hereby approved and established by this City Council in accordance with Act 146.

On a long-term basis the proposed redevelopment associated with the District will create approximately four FTE jobs and house at least eight new Detroit residents. Therefore, it is anticipated the City of Detroit will collect approximately 2.4% income tax per resident per year. The table below illustrates the resident tax impact the development will have following completion.

| Residential Benefits                   | Annual Amount      |
|--|--------------------|
| Minimum of 8 apartment units           |                    |
| Median Household Income x Units x 2.4% | \$7,948.80         |
| \$41,400 x 8 x 2.4%                    |                    |
| Four FTE permanent jobs                |                    |
| \$70,000 x 2 x 2.4%                    | \$3,360.00         |

Additionally, there will be other indirect benefits such as spin off spending in the City that will contribute to the economic benefits produced by this investment. It will further help meet the demand for housing in Detroit, with a reported 2.6% vacancy rate across metro Detroit (Crain's, 5/13/17). As one of ten neighborhoods targeted by Detroit's second Strategic Neighborhood Fund, several hundred residential units and thousands of square feet of retail space are planned for Islandview (Crain's, 11/16/2018). These investments into the community will have long-term effects and provide sustainable principals that will retain and foster local talent that is vital to securing the City's economic future.

Following expiration of the 12-year abatement the building will deliver a significant increase in tax revenue. Over time, the successful redevelopment and cultural growth will have a city-wide impact.

## Planning and Development Department

September 27, 2019

Honorable City Council:

Re: Termination of the Thyssen Steel Group Project Plan and Funding Agreement and Request for Property Transfers to the City of Detroit Brownfield Redevelopment Authority in Connection with the Land Assembly Project.

On June 18, 1997, the Detroit City Council approved the Economic Development Corporation of the City of Detroit ("EDC") project plan for the Thyssen Steel Group Project (the "Project Plan"), which Project Plan contemplated the conversion of Atkinson Playfield to industrial uses and the balance of the Project Plan project area (depicted on **Exhibit A**) to be used for recreational purposes. However, in 2005, the City of Detroit's Recreation Department ("Recreation Department") and Planning and Development Department ("P&DD") determined that the remaining property within the Project Plan area the was no longer appropriate as a replacement for Atkinson Playfield. Consequently, on September 13, 2005, the Board of Directors of EDC approved the termination of the Thyssen Steel Group Project Plan, and requested that the Detroit City Council approve each of the following:

- i. Termination of the Project Plan;
- ii. Negotiation of the termination of that certain Funding Agreement (the "Funding Agreement") by and between the City and the EDC;
- iii. Authorization of the transfer of any property acquired by the EDC to the City;
- iv. Release of the property acquired by the City and/or the EDC pursuant to project from the requirements of the Project Plan; and
- v. Termination of the Citizens District Council created pursuant to the Project Plan as provided in Section 20(d) of Act 338 of 1974 (MCL 125.1620).

As City Council is aware, at the request of the City of Detroit, the City of Detroit Brownfield Redevelopment Authority ("DBRA") has been engaged in land assembly activities aimed at establishing market-ready industrial sites within City limits in order to attract manufacturing and logistics companies (the "Land Assembly Project"). DBRA has identified the Project Plan project area, as well as adjacent areas, both as depicted in **Exhibit B** hereto, as a potential Land Assembly Project site (the "Junction McGraw Project Area").

In addition to the foregoing requests, in order to facilitate the use of the Junction McGraw Project Area for the Land Assembly Project, the DBRA has requested that the City, through its Recreation Department and P&DD, sell all

parcels now or hereinafter owned by the City or the EDC within the Junction McGraw Project Area, including but not limited to the parcels described on **Exhibit C** hereto (the "City Parcels") to the DBRA for purposes of the Land Assembly Project, for a purchase price equal to the City assessor's land value for each City Parcel, payable upon the sale of such City Parcels to a third party developer and/or end user. In support of the foregoing request, the Recreation Department has determined that the parcel located at 5555 McGraw (the "Kronk Parcel") is "surplus" to its operational needs and, in support of this determination, the Finance Director requests City Council's approval of the transfer of jurisdictional control of the Kronk Parcel to P&DD. The DBRA also requests that the City may first deed any or all such properties to the Detroit Land Bank Authority (the "DLBA") to expeditiously resolve any deficiencies in title, whereupon the DLBA will convey such properties to the DBRA. Accordingly, P&DD seeks City Council's approval to enter into a Land Transfer Agreement substantially in the form attached hereto as **Exhibit D**.

In addition, the DBRA has requested approval of City Council of the conveyance by the DLBA of all parcels now or hereinafter owned by the DLBA within the Junction McGraw Project Area, including but not limited to the parcels described on **Exhibit E** hereto (the "DLBA Parcels") to the DBRA for purposes of the Land Assembly Project, subject to the approval of the DLBA Board of Directors.

Based on the foregoing, we respectfully request that this honorable body process the attached Resolution in furtherance of the transactions described in this letter.

Respectfully submitted,

Resolved, That Detroit City Council hereby approves the Land Transfer Agreement in the form attached hereto as **Exhibit D** (the "Land Transfer Agreement"); and be it further

Resolved, That the P&DD Director, or his authorized designee is authorized to execute any required instruments to make and incorporate technical amendments to the Land Transfer Agreement or the quit claim deeds (including but not limited to corrections to or confirmations of legal descriptions, or timing of closing and/or tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required

due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the City Parcels, provided that the changes do not materially alter the substance or terms of the transfer and sale; and be it further

Resolved, That any City Parcels authorized to be conveyed to the DBRA under this resolution may, at DBRA's election and subject to the consent of the Detroit Land Bank Authority (the "DLBA"), be conveyed by the City or EDC, as applicable, to the DLBA for purposes of quieting title, with the DLBA thereafter deeding a property so transferred either back to the City, to the DBRA, or to DBRA's designee; and be it finally

Resolved, That the City Council hereby approves the conveyance by the DLBA of all parcels now or hereinafter owned by the DLBA within the Junction McGraw Project Area, including but not limited to the parcels described on **Exhibit E** hereto (the "DLBA Parcels") to the DBRA for purposes of the Land Assembly Project, subject to the approval of the DLBA Board of Directors.

**EXHIBIT D  
Form of Land Transfer Agreement  
LAND TRANSFER AGREEMENT  
Industrial Land Assembly Project:  
Junction McGraw Site**

This Transfer of Land Agreement (“Transfer Agreement”) made this day of \_\_\_\_\_, 2019, by and between the **City of Detroit**, a Michigan municipal corporation, acting by and through its Planning and Development Department (hereinafter referred to as the “City”), and **The City of Detroit Brownfield Redevelopment Authority**, a Michigan public authority and body corporate organized and existing under the Authority of Act 381 of the Public Acts of Michigan 1996, as amended (hereinafter referred to as the “DBRA”).

**WITNESSETH:**

WHEREAS, At the request of the City, the DBRA has been engaged in land assembly activities aimed at establishing market-ready industrial sites within City limits in order to attract manufacturing and logistics companies (the “**Land Assembly Project**”); and

WHEREAS, The DBRA has identified a Land Assembly Project site which includes the location for the former Thyssen Steel Group Project Plan as well as adjacent areas, as depicted on **Exhibit A** hereto (the “**Junction McGraw Project Area**”).

WHEREAS, In order to facilitate the use of the Junction McGraw Project Area for the Land Assembly Project, DBRA has requested that the City convey all parcels

now or hereinafter owned by the City within the Junction McGraw Project Area, including but not limited to the parcels described on **Exhibit B** hereto (collectively, the “**Property**”), to the DBRA; and

WHEREAS, The City has agreed to transfer the Property to the DBRA in accordance herewith, pursuant to resolution of the City of Detroit City Council dated \_\_\_\_\_, 2019 and attached hereto as **Exhibit C**; and

WHEREAS, The City and the DBRA have determined that the transfer of the Property by the City to the DBRA is in the best interests of the City and will promote economic growth in the City.

NOW, THEREFORE, In consideration of the foregoing premises and of the covenants and agreements hereinafter contained, it is mutually agreed as follows:

**ARTICLE I**

1.01 **Sale**. Subject to the terms, covenants and conditions of this Transfer Agreement, the DBRA agrees to purchase and the City agrees to convey the Property for the Purchase Price (as defined below).

1.02 **Purchase Price**. The “**Purchase Price**” shall be an amount equal to the City assessor’s land value for each parcel, as reflected in the most recent City property tax records. The Purchase Price shall be paid to the City pursuant to the terms of a promissory note, executed by the DBRA for the benefit of the City (the “**Promissory Note**”), which Promissory Note shall be in

form and substance satisfactory to the City. The Promissory Note shall be payable upon the sale of the Property to a third-party developer and/or end user (the "Developer") and shall be payable solely from the net sale proceeds received by the DBRA following the sale of the Property to Developer. The City acknowledges and agrees that in the event that the net sale proceeds following the DBRA's sale of the Property to Developer are insufficient to pay the Purchase Price in full, the Promissory Note shall be non-recourse to the DBRA and the DBRA's payment of a portion of the Purchase Price shall fulfill all obligations contained under the Promissory Note. The City further agrees that any net sale proceeds received by the DBRA which are in excess of the amount of the Promissory Note will be retained by the DBRA for the Land Assembly Project or for other permissible purposes to which the Director of the City's Planning and Development Department ("**P&DD**") consents in writing, which such consent shall not be unreasonably withheld.

**1.03 Title Commitments and Insurance.** The DBRA may obtain and review commitments for title insurance insuring marketable title to a fee simple interest in the Property, at DBRA's sole cost and expense. If the DBRA objects to the condition of title to any portion of the Property, the DBRA may decline to accept the transfer of such portion of the Property until the title is resolved to the DBRA's satisfaction.

**1.04 Quitclaim Deed.** Within ten (10) days after the later of the Effective Date or the date upon which the DBRA has accepted the condition of title, in accordance with Section 1.02 hereof, the City shall convey the Property to the DBRA by one or more quitclaim deeds.

**1.05 Payment of Miscellaneous Expenses.** The DBRA shall be responsible for recording and paying any fees for recording the quitclaim deed(s) and any other documents that the City determines must be recorded in connection with the transfer and development of the Property.

**1.06 Condition of the Property.** The DBRA shall accept the Property "**AS IS**", without any representation by or warranty from the City as to the condition of the Property.

## **ARTICLE II**

**2.01 Developer.** The DBRA may enter into one or more development agreements (each such agreement singularly referred to as a "**Development Agreement**" and all such agreements collectively referred to as the "**Development Agreements**") with one or more Developers. Any such Development Agreements shall provide for the sale of all or any portion of the Property to one or more private developers who shall develop the Property in accordance with the Development Agreement and such other conditions and/or limitations as the

DBRA may require. In addition, the Development Agreements shall require that, in conjunction with site plan approval by the City's Buildings, Safety Engineering and Environmental Department, the Developers implement appropriate and reasonably continuous buffering on any portions of the Property that are immediately adjacent to residential areas (but excluding the portion of Property bordering the 1-94 Freeway or 1-94 Service Drive) pursuant to buffering standards for the Property that are approved by the Director of P&DD and staff for the City Planning Commission. DBRA's obligations with respect to the net proceeds received by the DBRA from the disposition of the Property shall be governed by Section 1.02 of this Transfer Agreement. The DBRA shall, prior to executing or amending any Development Agreement, submit such Development Agreement or amendment to the City for review and approval by the Director of P&DD.

**2.02 Certificate of Completion.** With respect to any portion of the Property conveyed to a developer pursuant to a Development Agreement (the "**Developed Parcels**"), upon the satisfaction of the terms and conditions of such Development Agreement by the Developer, the DBRA may record a certificate of completion acknowledging that the development of the Developed Parcels has been completed in accordance with the Development Agreement (the "**Certificate of Completion**"). Upon the recording of said Certificate of Completion, the DBRA's obligations pursuant to this Transfer Agreement with respect to the Developed Parcels shall be deemed satisfied, and the terms and conditions of this Transfer Agreement, including but not limited to the provisions of Article III, shall no longer apply to any Developed Parcels which are described in the Certificate of Completion.

## **ARTICLE III**

**3.01 Default.** If the DBRA fails to comply with any material terms of this Transfer Agreement, the DBRA shall within thirty (30) days after receipt of written notice from the City, convey the Property back to the City by quitclaim deed and assign to the City the DBRA's interest in the Property, including any mortgage, security interest, promissory note or other instrument pertaining to the Property that was executed pursuant hereto. In the event that the DBRA fails to convey the Property and assign its interest in the Property in accordance with this Section 3.01, the DBRA hereby appoints the City its attorney-in-fact, with full power and authority to execute any and all documents necessary or convenient to convey the Property by quitclaim deed from the DBRA to the City and otherwise assign the DBRA's interest in the Property to the City.

**3.02 Non-exclusive Remedy.** The remedy provided for in Section 3.01 hereof

shall be cumulative of all other remedies at law or in equity and shall not be the exclusive remedy of the City against the DBRA for default by the DBRA under the terms of this Transfer Agreement.

#### ARTICLE IV

4.01 Independent Contractors. The relationship of the City and the DBRA is, and shall continue to be, an independent contractor relationship and no liability or benefits such as workers' compensation, pension rights or liabilities, insurance rights or liabilities or other provisions of liabilities arising out of or relating to a contractor for hire or employer/employee relationship shall arise or accrue to either party or either party's agents or employees with respect to the City as a result of this Transfer Agreement.

#### ARTICLE V

5.01 Mutual Cooperation. The parties acknowledge that mutual cooperation will be required to accomplish the intent and objectives of this Transfer Agreement, and therefore agree to cooperate mutually in the development of the Property in order to best serve the respective interests of the public, the City and the DBRA.

#### ARTICLE VI

6.01 Conflict of Interest. No officer or employee of the City or the DBRA shall have any personal interest, direct or indirect, in this Transfer Agreement or the Property, nor shall any such official or employee participate in any decision relating to this Transfer Agreement which affects his or her personal interest or the interest of any corporation, partnership, association or other legal entity in which he or she is directly or indirectly interested.

6.02 No Individual Liability. No official or employee of the City shall be personally liable to the DBRA or its successor in interest in the event of any default or breach by the City of any of the terms of this Transfer Agreement. No official or employee of the DBRA shall be personally liable to the City or its successor in interest in the event of any default or breach by the DBRA of any of the terms of this Transfer Agreement other than Section 6.01 hereof.

#### ARTICLE VII

7.01 Fair Employment Practices. In accordance with the United States Constitution and all federal legislation and regulations governing fair employment practices and equal employment opportunity, including but not limited to Title VI of the Civil Rights Act of 1964 (P.L. 88-352, 78 STAT. 252) and United States Department of Justice Regulations (28 C.F.R. Part 42) issued pursuant to the title, and in accordance with the Michigan Constitution and all state laws and regulations governing fair employment practices and equal employment opportunity, including but not limited to the Michigan Civil Rights Act (1976 PA 220), the DBRA agrees that it will not dis-

criminate against any person, employee, consultant or applicant for employment, training, education, or apprenticeship connected directly or indirectly with the performance of this Land Transfer Agreement with respect to his or her hire, promotion, job assignment, tenure, terms, conditions or privileges of employment or hire because of his (her) religion, race, color, creed, national origin, age, sex, height, weight, marital status, public benefit status, sexual orientation or handicap that is unrelated to the individual's ability to perform the duties of a particular job or position. The DBRA recognizes the right of the United States and the State of Michigan to seek judicial enforcement of the foregoing covenants against discrimination against itself or its subcontractors.

Breach of the terms and conditions of this section may be regarded as a material breach of this Land Transfer Agreement.

#### ARTICLE VIII

**Department of Public Works City Engineering Division**

September 27, 2019

Honorable City Council:

Re: Petition No. 454 — Detroit Department of Public Works City Engineering Division, request to vacate Brooklyn Avenue 50 feet wide, from north line Temple Avenue, 50 feet wide, to the south of Elm Street, 50 feet wide, with reservations of easements in parts of vacated area.

The petition was referred to the City Engineering Division — DPW for investi-

gation (utility review) and report. This is our report.

The request is being made so that Detroit Entertainment, L.L.C. d/b/a MotorCity Casino Hotel can construct an expansion to existing parking structure on the west side of Brooklyn Street between Elm Street, 50 feet wide, and Temple Street, 50 feet wide.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the reservation of easement and outright vacation. The specific DWSD provisions for easements and vacations are included in the resolution.

DTE Energy reports having services in the area. Provisions to maintain access to DTE facilities in the easement area; and to pay for the removal work for the vacation is a part of the resolution.

Detroit Fire Department (DFD) reports involvement but no objection provided Detroit Entertainment, L.L.C. d/b/a MotorCity Casino Hotel maintains emergency vehicle access to all existing building structures and hydrants.

All other involved City Departments, and privately owned utility companies have reported no objections to the outright vacation of the public right-of-way, and the reservation of part of the public right-of-way for a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

**RESOLUTION AFFIRMING SUPPORT TO DECLARE OCTOBER 2019 AND EVERY YEAR HENCEFORTH AS NATIONAL DOMESTIC VIOLENCE AWARENESS MONTH**

By Council Member Benson:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural, and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, The threat of violence is a powerful instrument of control. National Domestic Violence Awareness Month, which evolved from the "Day of Unity" held in October 1981, was conceived by the National Coalition Against Domestic Violence; and

WHEREAS, According to the Centers of Disease Control and Prevention, on average, 20 people per minute are physically abused by an intimate partner in the United States. In one year, this equates to more than 10 million women and men being victimized by some kind of violent attack; and

WHEREAS, One out of every fifteen children are exposed to intimate partner violence each year, and 90% of these children are eyewitnesses to this violence. Domestic victimization is directly correlated with higher rates of depression and suicidal behavior; and

WHEREAS, That the Detroit City Council acknowledges the health of any community is predicated on protecting the most vulnerable, and in doing so, supports this year's National Domestic Violence Awareness Month, during October and throughout the year; and

WHEREAS, Domestic Violence Awareness Month is an important reminder for all of us to focus on preventing domestic violence in our community thereby strengthening our community; AND THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby designates the month of October, in this year, 2019, and every year, henceforth as National Domestic Violence Awareness Month in the City of Detroit; AND BE IT FINALLY

**RESOLUTION AFFIRMING SUPPORT TO DECLARE OCTOBER 2019 AND EVERY YEAR AFTER, NATIONAL DISABILITY EMPLOYMENT AWARENESS MONTH**

By Council Member Benson, joined by Council Member Leland:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural, and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, The purpose of National Disability Employment Awareness Month (NDEAM) is a campaign to educate the public about disability employment issues and celebrate the many contributions of America's workers with disabilities, and

WHEREAS, The history of National Disability Employment Awareness Month traces back to 1945 when Congress enacted a law declaring the first week in October each year "National Employ the Physically Handicapped Week." In 1962, the word "physically" was removed to acknowledge the employment needs and contributions of individuals with all types of disabilities. In 1988, Congress expanded the week to a month and changed the name to National Disability Employment Awareness Month; and

Honorable City Council:

Re: TWW Employment Solutions Corp vs. Detroit Employment Solutions Corp. and City of Detroit, WCCC No 18-009704-CK (the "Lawsuit") — proposed settlement.

**BACKGROUND**

Prior to the City's bankruptcy filing, TWW Employment Solutions, LLC and the City entered into a one year contract, with options to extend at the City's election. TWW was engaged to provide services in connection with the City's job training efforts.

In June 2012, before the conclusion of its one year term, the City gave notice to TWW that the contract would be wound down early and not extended further. The federal funds supporting the contract were then re-programmed elsewhere. After taking these actions, the City retained Detroit Employment Solutions Corporation (DESC) to act as its Fiscal Agent in the administration of all of its federal workforce development funding. The Governance Agreement between the City and DESC includes mutual indemnities. The wind-down of the TWW contract was one of the legacy projects DESC took over for the City. DESC continues to provide those services to the City and uses federal funding to pay the salaries of the employees providing job training services for the City.

TWW sued the City and DESC for breach of contract and quantum meruit. TWW alleges that it continued to provide services after the notice of termination and after the bankruptcy. The City was released from the action because TWW did not file a claim against the City in the City's bankruptcy. DESC continued in the action on its own. Against TWW's demands for several hundred thousand dollars, a case evaluation panel awarded \$15,000 to TWW against DESC.

At a recent settlement conference held in advance of oral argument on DESC's pending motion for summary disposition, Hon. Brian Sullivan facilitated an agreement calling for DESC to pay \$30,000 in exchange for a release and a non-disclosure agreement. Because of its very limited discretionary funding, DESC's counsel contacted the City's counsel to see if the City would contribute to the settlement.

Due to DESC's near total reliance on restricted federal funding, it has very limited access to discretionary funds which would be available to meet the \$30,000 legacy obligation. Further, DESC has a potential contractual indemnity claim against the City under the Governance Agreement.

Rather than engage in litigation with DESC, the Law Department recommends that the City contribute \$20,000 toward the TWW-DESC settlement, with DESC paying the remaining \$10,000. We believe that is a good resolution of this matter.

If approved, the City would issue a \$20,000 payment to DESC and its counsel. The payment will not issue until execution of a settlement agreement between TWW and DESC and provision of a fully executed copy to the City. The agreement will provide a full release of the City and its current and former employees and agents.

**RECOMMENDATION**

The Law Department recommends that the Honorable City Council adopt a resolution which authorizes payment of \$20,000 to "Detroit Employment Solutions Corporation and John M. Allen, its attorney," to be delivered in exchange for a release in favor of the City from TWW Employment Solutions Corporation. The payment should be mailed to:

**Sec. 4-4-3. Enforcement**

This article shall be enforced by the Buildings, Safety Engineering, and Environmental Department.

**Sec. 4-4-4. Noncommercial messages.**

**Sec. 4-4-5. Requirements for business and identification signs.**

(a) It shall be unlawful to erect or maintain a business sign, including identification signs, except in accordance with the following requirements:

(1) Every sign shall be classified and conform to the requirements of such classification as set forth in this Code.

(2) A business sign, including an identification sign, shall not cover or conceal architectural features of a building including, but not limited to, windows, arches, eills, moldings, cornices, and transoms;

(3) Except for signs within developments that require City Council approval of plans, animated sign space or electronic message board sign space within any business or identification sign shall

not comprise more than 25 percent of the total sign area;

(4) In the case of an animated sign, as defined in Section 50-6-4 of this Code, located on the premises of a City-owned convention or exhibit building on land requiring City Council approval of plans, not less than 75 percent of the display time in any calendar month shall be devoted to events or activities on the premises.

a. Be limited in placement to 15 days;

b. Be placed on the premises as determined by the Buildings, Safety Engineering, and Environmental Department; and

e. Be limited in placement to no more than two permits per year; and

(6) Where the sections of an individual letter sign are connected by a common structure, generally referred to as a "raceway", which provides for the electrical or mechanical operation of a sign, the raceway shall be painted to match the color of the building or other structure to which the sign is mounted and shall be limited to a height of no more than one half of the tallest letter.

(b) The following illumination standards shall apply to all business sign types except where other specific standards apply:

(1) Signs may be illuminated, provided, that flashing signs are permitted only where farther than 100 feet from existing developed residential property, and from property which is designated as "residential" in the applicable future General Land Use Map of the Detroit Master Plan of Policies;

**Sec. 4-4-5. Computing sign area, height, and clearance.**

(a) The area of a sign is computed as follows:

(1) In general, the area of a sign is the entire area of a square, rectangle, or other regular geometric figure that reasonably contains the entire sign face and all of the sign's copy. Blank spaces between individual figures, letters, words, graphics, and other elements of a sign's copy are included in the computation of the sign's area. If a sign is enclosed in a frame or case, the area of the sign includes the area of the frame or case.

(2) The area of a double-face sign is the area of the largest of the sign's two faces.

(3) The area of a multiple-face sign is the sum of the areas of each sign face of the sign.

(4) The area of a painted sign includes the area of any background colors that are different from the color of the façade on which the sign is painted, if any.

(b) The height of a sign is computed as the difference in vertical elevation between the highest point of the sign, including its frame and support structure, and the established grade of the sign.

(c) The clearance of a sign is computed as follows:

(1) In general, the clearance of a sign is computed as the difference in vertical elevation between the lowest point of the sign, including its frame and support structure, if any, and the established grade of the sign.

(2) The clearance of a ground sign is computed as the difference in vertical elevation between the lowest point of the sign face, including its frame, but excluding its pole, monument, or other support structure, and the established grade of the sign.

(3) The clearance of a sign under which vehicular or pedestrian passage is possible, such as arcade signs and projecting signs, is computed as the difference in vertical elevation between the lowest point of the sign face, including its frame and support structure, if any, under which clear passage is possible, and the established grade underneath the sign.

(4) The clearance of a sign that is affixed to and supported by a building or other structure, such as wall signs and projecting signs, is computed as the difference in vertical elevation between the lowest point of the sign face, including its frame and support structure, if any, but excluding the building or structure to which the sign is affixed and supported, and the established grade of the sign.

**Sec. 4-4-6. Computing the area of business signs.**

(a) The area of a business sign shall be computed as the entire area circumscribed by a parallelogram, triangle, circle, or semicircle, or any combination of these

figures, which includes all of the display area, any window sign, as defined in section 4-4-2 of this Code, and any building number that is larger than ten inches in height. Because they are integral to understanding the message of display of a business sign, the blank areas between letters, words, illustrations, graphics, and the like shall be included in the computation of the area of a sign or the area of a message, letter, word, or graphic that is part of a business sign.

(b) Where the sign faces of a double face sign are parallel, or the interior angle formed by the faces is 15 degrees or less, only one display face shall be counted in computing sign area. Where the two faces of a double face sign are of unequal area, the area of the sign shall be the area of the larger sign face. In all other cases, the areas of all faces of a multiple face sign shall be added together to compute the area of the sign.

(c) The height of a business sign shall be the distance between the highest part of the sign and the grade of the nearest sidewalk. REPEALED.

**Sec. 4-4-6. Computing the measurement of spacing.**

Unless expressly specified otherwise, for the purposes of this article, spacing is computed either radially or linearly.

(1) Radial spacing between two points is computed as the length of the shortest straight line connecting the perimeters of the premises at which each point is respectively located, drawn without regard to any property lines, rights-of-way, or other features, whether natural or constructed, that such line may cross.

(2) Linear spacing between two points is computed as the length of the shortest line connecting the perimeters of each premises at which each point is respectively located, following the centerline of the right-of-way connecting each premises, without regard, unless expressly stated, to the side of the right-of-way on which each such premises may be located.

**Sec. 4-4-7. General restrictions on maximum business sign area.**

(a) Except for businesses regulated under sections 4-4-8(e) and (f) of this Code, each business is entitled to a minimum of 32 square feet of business sign area, regardless of the business' building frontage elevation or street frontage. Except for businesses within developments that require City Council approval of plans, the maximum total area of all business signs for each business shall be the greater of 20 percent of a business' building frontage elevation or one square foot per each linear foot of business street frontage, not to exceed a total of 500 square feet. Buildings or businesses shall be allowed one professionally prepared window sign not exceeding ten square feet in size and adhered to the inside of

the window for every 30 feet of building or storefront width, provided that any such sign shall not require a permit and shall not count toward the maximum allowed sign area. For the purposes of this article, the building frontage elevation is calculated by multiplying the length of the front facade of the building of which the signage is to serve by 12 feet. There can be only one building frontage for each street faced by a building. Portions of facades visible from more than one street, such as those containing curves cylindrical shapes, or angles, shall only be measured once when determining building frontage.

(b) Except as specified in section 4-4-10 of this Code, there is no restriction on the number of signs allowed, and all types of business signs are allowed, including ground signs, wall signs, awning signs, painted wall graphic signs, and projecting signs as long as the aggregate total area of the sign or signs does not exceed the maximum business sign area allowed. Roof signs that serve as business signs, and are not otherwise prohibited in section 50-6-52 of this Code, are allowed, provided that the height of the uppermost element of the sign does not exceed the applicable height limitation for the building.

(c) On corner lots, the allowable sign area for each street frontage shall be calculated separately. The total square footage allowed is obtained by adding the allowable sign area for each street frontage.

(d) For multiple tenant, multiple story buildings where tenants do not have clearly separate building frontage of their own, the 20 percent of building frontage calculation shall be based upon the portion of the building occupied by the respective business.

(e) Where multiple buildings are occupied by the same institutional use, as on the campus of a hospital or educational institution, the permitted business sign area for each building shall be calculated as if a separate business, provided that the permitted business sign area is not transferable from one building to another. REPEALED.

**Sec. 4-4-7. Prohibited signs.**

The following signs are prohibited City-wide, unless expressly allowed in this chapter:

- (1) Signs that substantially cover or conceal any architectural feature of a building;
- (2) Advertising signs that wrap two or more facades of a building or structure;

(2) Where the building has front and rear customer entrances and rear display windows, 100 percent of the front street wall is allowed, plus 50 percent of the rear, or secondary street wall area.

(3) The additional allowable business sign area shall be used at the rear customer entrance, but not to enlarge the primary sign.

(b) Multiple story buildings. Business signs placed on the wall of a multiple story building shall be permitted only in the following locations:

(1) On the building frieze or on the roof of a building, provided, that the sign is not otherwise prohibited by section 50-6-52 of this Code and that the height of the uppermost element of the roof sign does not exceed the applicable height limitation for the building;

(2) On an awning;

(3) On a first story wall; and

(4) In the area between the first floor and the windowsill of the second story window, provided, that where a building does not have second story windows, a sign may be placed within the first four feet of the second story level.

(c) Commercial parking lots.

(1) Only one business sign shall be permitted at each point of ingress and egress to a parking lot to indicate the name of the operator, address of the location, hours of operation, parking rates, and directions of movement, provided, that the sign shall not exceed 50 square feet in area and shall not be less than six feet six inches in height above grade and shall be located entirely on the parking lot property.

Where a shopping center has exposure along two streets, the allowable sign area for the corner or end unit shall be calculated separately for each street frontage. The total area of all business wall signs for the corner or end business shall not exceed one square foot of area for each one lineal foot of street frontage. In no instance shall the total business signage for any one business in a multiple tenant shopping center exceed 500 square feet. **Sec. 4-4-19. Amortization.**

Any sign for which a permit, grant, or other approval has been issued under the authority of Chapter 50 of this Code, *Zoning*, that is in compliance with all terms and conditions of such approval, and that is a nonconforming use, as defined in Section 50-16-322 of this Code, shall not be subject to this chapter until January 1, 2030. **SUBDIVISION B.  
ENTERTAINMENT DISTRICT**

**Sec. 4-4-81. Purpose.**

The purpose of the Entertainment District is to leverage the display of vivid and dynamic signage to foster a vibrant and exciting entertainment-based area within the City. Signage regulation in the Entertainment District is intended to be less restrictive than in surrounding areas in order to allow for signs that are larger, higher, more brightly illuminated, and more dynamic than what is permissible elsewhere. To achieve this purpose without negatively impacting the surrounding area, the Entertainment District is structured in multiple zones, such that the most intense signage is contained in the District's core areas, which are most effectively screened from properties outside of the District. For zones in which signage is anticipated to be more visible from outside the District, signage regulations are relatively more restrictive.

**Sec. 4-4-82. Entertainment District: boundaries and zones.**

(a) The Entertainment District consists of the area within the boundary beginning at the intersection of the Southbound Fisher Freeway Service Drive and Woodward Avenue and continuing to Sprout Street, then to Clifford Avenue, then to the Southbound Fisher Freeway Service Drive, then to Woodward Avenue, then to the Northbound Fisher Freeway Service Drive, then along the westerly line of the parcel known as 28 W. Montcalm Street, then along the westerly line of the parcel known as 2211 Woodward Avenue, then along the westerly line of the parcel known as 2125 Woodward Avenue, then along the westerly line of the parcel known as 54 W. Elizabeth Street then along the westerly line of the parcel known as 25 W. Elizabeth Street, then along the east-west alley parallel to and south of W. Elizabeth Street to the easterly line of Witherell Street, then to Broadway Street, then to Randolph Street, then to E. Lafayette Street, then to Southbound Chrysler Service Drive, then to Gratiot Avenue, then to Brush Street, then to Beacon Street, then to St. Antoine Street, then along the northern line of the parcel known as 1900 St. Antoine Street, then

along the easterly line of the parcel known as 2000 St. Antoine Street, then to Montcalm Street to the easterly line of the parcel known as 2354 Brush Street, then to the Northbound Fisher Freeway Service Drive, then to Woodward Avenue, excluding the church located at 50 E. Fisher, and then to the point of beginning.

(b) The Entertainment District comprises four unique zones, each described as follows:

(1) *Zone 1: Entertainment Core.* The entertainment core consists of the premises, or frontages thereof, that abut Witherell Street between Adams Avenue and Montcalm Street, Montcalm Street between Witherell Street and Brush Street, Brush Street between Montcalm Street and Beacon Street, and Adams Avenue between Montcalm Street and Brush Street.

(2) *Zone 2: Theater District.* The theater district consists of the premises, or frontages thereof, that abut Montcalm Street, Columbia Street, and Elizabeth Street, each between the western boundary of the Entertainment District and Witherell Street, Broadway Street between Witherell Street and John R Street; Madison Street between Witherell Street and Brush Street; Brush Street between Mechanic Street and Beacon Street; and Henry Street between Park Avenue and Clifford Avenue.

(3) *Zone 3: Woodward North Corridor.* The Woodward north corridor consists of Woodward Avenue between the North Fisher Freeway Service Drive and Sprout Street.

(4) *Zone 4: Entertainment Buffer.* The entertainment buffer consists of the premises, or frontages thereof, within the Entertainment District that are not included in the entertainment core, the theater district, or the Woodward north corridor.

(c) Adjustment or waiver under Section 4-4-20 of this Code of the boundaries set forth in this section is prohibited.

**Sec. 4-4-83. Entertainment core: purpose and sign regulations.**

(a) The entertainment core is intended to provide a maximally vibrant and energetic and well contained space through high-intensity signage. Oversized, intense, and dynamic signs, including animated signs, are encouraged. All signage must be screened from the surrounding area by intervening buildings or structures to minimize light spillover.

(b) Notwithstanding regulations set forth in this chapter that may be more restrictive, signs located in the entertainment core are subject to the following:

(1) The maximum permissible aggregate area for all signs on any premises is 15 square feet per linear foot of building frontage.

(2) Dynamic signs are permissible without limitation as to their number or

individual size. The minimum clearance of any dynamic sign must be not less than ten feet, and the maximum height of any dynamic sign must be not more than 40 feet. Dynamic signs are permissible at any location where the sign is oriented toward, and reasonably screened by, a building or other opaque structure, the height of which is not less than the height of the sign. Dynamic signs may operate as such without time restrictions. The illuminance of any dynamic sign must not exceed 2,500 nits.

(3) A sign may cover or conceal architectural features, provided that, if a sign covers a window, it must be constructed of vinyl mesh or other semi-transparent material.

**Sec. 4-4-121. Purpose.**

The Central Business District is characterized by a degree of density, height, scale, and diversity in the built environment, a concentration of historic and otherwise architecturally significant buildings and structures, and an intensity of vehicular and pedestrian traffic and activity that is unique within the City. The Central Business District also features continuous and extensive evolution in its built environment, through the development and redevelopment of new and existing buildings, structures, open spaces, and rights-of-way, such that the potential suitability of particular spaces for advertising signage over time is necessarily limited. As a result, in furtherance of the significant governmental interests set forth in Section 4-4-1 of this Code, the regulation of advertising signs in the Central Business District mer-

its heightened standards and stricter requirements, as well as the ability to revise the implementation of such standards and requirements on a periodic basis, than might be necessary in other areas of the City. The purpose of this division is to set forth such standards and requirements for advertising in the Central Business District.

**Sec. 4-4-122. Advertising permit required.**

Upon the applicant's satisfaction of such requirement, the Department may approve the application and issue an advertising permit. Upon the applicant's failure of such requirement, the Department shall consider its conditional approval to have lapsed and shall deny such application. quent to the final application that, upon its approval, is permissible under the applicable advertising permit cap identified in Subsection (d) of this section. The Director of the Department may maintain a waitlist of such applications, and may consider such applications, in the order submitted, as additional advertising permits become available under the applicable cap for the remainder of the current term, as set forth in Section 4-4-122 of this Code. **Sec. 4-4-132. Mitigation of harmful visual aesthetics created by Super Advertising Signs through promotion of public art.**

(a) In acknowledgment that:

(1) The City has a significant governmental interest in protecting its aesthetic values and in mitigating instances of visual blight;

(2) Signs, by their very nature, wherever located and however constructed, can be perceived as an aesthetic harm through their imposition of negative visual aesthetics;

(3) Because of the Central Business District's role as the City's primary hub of activity, the aesthetic harm created by signs in the Central Business District is imposed on all businesses and individuals who may live, work, do business, recreate, or visit therein, or travel through the Central Business District, and compromises their overall aesthetic experience of the City on a citywide basis;

(4) The magnitude of any given sign's negative visual aesthetics can depend on various dimensional and operational parameters, such as its area, construction, illumination, and dynamic operation, that serve to increase its visibility;

(5) The negative visual aesthetics of a sign can, based on such dimensional and operational parameters, become so great as to outweigh any positive consequences that the sign might provide, including the facilitation of protected speech and the promotion of local commerce; and

(6) The City may, through the exercise of its legitimate police powers in furtherance of its significant governmental interests, mitigate the particularly negative visual aesthetics of the most visually impactful signs without compromising the positive consequences of such signs by promotion, construction, and maintenance of elements that serve to improve visual aesthetics to a proportionate degree, including the public display of art murals and other forms of public art;

the Department is authorized to evaluate each application for a permit for a super advertising sign and determine whether such proposed sign will, by its nature, impose negative visual aesthetics of such magnitude that mitigation through the display of one or more art murals and other public art may reasonably be necessary.

(b) Upon its determination that mitigation of the negative visual aesthetics imposed by a proposed super advertising sign for which a permit is applied will be necessary, the Department may request payment of a monetary contribution by the applicant, in an amount to be determined

by the Department in accordance with the limitations set forth in this section, as a prerequisite to issuance of a permit for such sign. Such contribution need not be submitted prior to the Department's evaluation of the application for a super advertising sign permit, but must be submitted prior to the Department's issuance of such permit.

(c) The Department may make any determination pursuant to its authority established in Subsections (a) and (b) of this section in consultation with the City's Director of Arts and Culture, and the director of any department or agency that it may desire, or any such director's designee.

(d) To ensure a reasonable nexus between the proposed super advertising sign's negative visual aesthetics and the City's mitigation thereof, the Office of the Chief Financial Officer shall establish a special purpose account for contributions made pursuant to Subsection (b) of this section. The Department shall deposit all such funds directly into such account promptly upon receipt. All funds must be disbursed from such account solely for purposes of the commission, construction, siting, display, and maintenance of art murals and other public art that is fairly anticipated to improve overall visual aesthetics in the City, and no funds in any amount may be disbursed from such account for any other purpose, except if reimbursement of such funds shall be made in accordance with Subsection (g) of this section.

(e) To ensure rough proportionality between the proposed super advertising sign's negative visual aesthetics and the City's mitigation thereof, the contribution associated with any sign shall not exceed an amount equal to the greater of:

(1) An amount, equal to two dollars if the super advertising sign is proposed to be internally illuminated, one dollar if the super advertising sign is proposed to be a wall sign, and 80 cents if the super advertising sign is proposed to be a wall sign, for each square foot of the proposed super advertising sign, for each year of the term of the permit for which application is made; or

(2) An amount equal to the expected cost, as the Department may reasonably determine, for the commission and installation of an art mural of an area equal to (i) 200% of the area of the proposed super advertising sign if such sign is proposed to be internally illuminated, (ii) the area of the proposed super advertising sign if such sign is proposed to be constructed as a wall sign, or (iii) 80% of the area of the proposed super advertising sign if such sign is proposed to be constructed as a painted sign, as well as the cost of the maintenance thereof for a period equal to the term of the super advertising permit for which application is made.

(f) The Department shall cause all contributions made pursuant to this section for the purpose of mitigating the aesthetic harm of any super advertising sign to be disbursed for a purpose allowed by this section no later than the termination date of the permit for such sign.

(g) If the Department denies an application for a super advertising sign permit for which a contribution has been made, the Department shall refund such contribution to the applicant. If a permit for a super advertising sign has been issued and a contribution for such sign has been made, and such permit has been suspended or revoked in accordance with Section 4-4-131 of this Code prior to the completion of its term, no refund of such contribution may be made.

**Sec. 4-4-133. Adjustment or waiver prohibited.**

Adjustment or waiver under Section 4-4-20 of this Code of the dimensional standards set forth in this division is prohibited.

**Secs. 4-4-134 — 4-4-160. Reserved.**

**DIVISION 6. REGULATION OF SIGNS IN THE RIGHT-OF-WAY**

**Sec. 4-4-162. Department of Public Works approval required.**

No sign that is subject to the regulations of this division may be permitted unless authorized by the Department of Public Works as a legal encroachment in the right-of-way. A copy of the valid encroachment permit for the sign must be submitted as part of the application for construction or erection of the sign. All conditions of approval, dimensional or operational standards, and other standards set forth in the encroachment permit shall be incorporated by reference into the permit, and compliance with all such standards shall be a condition of approval for such permit. Any standards set forth in the encroachment permit that are more restrictive than comparable standards set forth in this chapter shall control.

**Sec. 4-4-163. Business signs located in the right-of-way.**

**City Planning Commission**

Honorable City Council:

Re: Extension of review period for Zoning Ordinance text amendment — Short Term Rentals.

Because the City Planning Commission's report and recommendation to approve the Zoning Ordinance text amendment relative to the repeal of the "home occupation" prohibition of short term rentals was taken up by your Honorable Body on June 25, 2019, the 120-day review period is scheduled to expire on October 23, 2019.

As provided in Sec. 50-3-48 of the 2019 Detroit City Code, where a proposed text amendment is not acted upon by the City Council within one hundred twenty (120) days of the date of receipt of the City Planning Commission's report, it shall be deemed to have been denied, unless extended by the City Council.

Council's deliberations concerning the Chapter 8 provisions relative to short term rentals are continuing and it would be appropriate to act on the Zoning Ordinance amendment for short term rentals at the same time as the Chapter 8 ordinance. An extension of the review period for the Zoning text amendment can be authorized by a vote on the attached resolution.

Respectfully submitted,  
MARCELL R. TODD, JR.

Director

Whereas, The 120-day review period shall expire on October 23, 2019; and

Honorable City Council:

Re: Request of Wayne County Community College District (WCCCD) for PCA (Public Center Adjacent) Special District Review of proposed signs on the Downtown Campus Buildings at 901 W. Fort Street. (RECOMMEND APPROVAL)

**REQUEST**

The City Planning Commission (CPC) has received a request from Wayne County Community College District (WCCCD) for PCA (Public Center Adjacent) Special District Review of proposed signs to be located at 901 W. Fort Street. This request is being made consistent with the provisions of Section 50-3-222 of the Detroit Zoning Ordinance.

**PROPOSED PROJECT**

The petitioner proposes to install seven new signs on the buildings of the Downtown Campus. This is the first phase of signs to be reviewed; the overall plan calls for a total of 19 signs.

**Office Building** — Three of the new signs are proposed for the Office Building located at the corner of West Fort and Third Streets. One sign will be located above the main entrance on the front of the building and one over the rear

entrance. A third sign is proposed near the top of the building as an identification sign facing Fort Street. Generally, 2.6 square feet of signage is allowed per lineal foot of building frontage up to a maximum of 500 square feet for the building. Based on the building's frontage, 873 square feet would be allowed, therefore the 500 square foot maximum controls. The proposed signs total 496 square feet, complying with the size allowed.

**Main Building** — One sign is proposed for the main building. The sign is proposed to be 115 square feet and located above an entrance. This building is also large enough to warrant the entire 500 square feet of signage. Three additional signs are proposed for this building in a future phase.

**Health & Wellness Education and Sports Center** — Three signs are proposed for the new Health & Wellness Education building which is currently under construction. Two of the signs are large identification signs proposed for the front (Fort Street) and rear (parking lot) facades. The third sign is proposed above the entrance near the northeast corner of the building. Two additional signs are proposed in a future phase.

Based on the size of this building, 819 square feet of signage would be allowed if not for the 500 square foot maximum. The three signs in this phase total 750 square feet. For developments that require City Council approval, the 500 square foot maximum may be waived per Section 4-4-7(a). In this case, because the building is very large and not all of the signs will be visible from one vantage point, the additional area is justifiable.

**REVIEW & ANALYSIS — PCA District**

**Review Criteria**

There are eighteen PCA District Review Criteria listed in Section 50-11-97 of the Zoning Ordinance. Only one applies specifically to signage:

(11) Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner.

*Generally, WCCCD's Downtown Campus does not stand out. Appropriate signage is necessary to identify the campus and assist the public in locating an important institution. Although several of the signs are rather large, due to the size of the buildings and the nature of the use, additional signage is reasonable.*

**Design**

The Planning & Development Department has reviewed the proposed signage and recommends approval. A formal letter is forthcoming.

**CONCLUSION & RECOMMENDATION**

Consistent with the above, the City Planning Commission recommends

approval of the seven proposed signs. The additional signs will be reviewed in a future application.

Honorable City Council:

Re: Recommendation for Deferral.

Address: 570 Kenilworth. Name: Maria Serrano. Demolition Ordered: April 1, 2014 (J.C.C. pages 1284-1297).

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection conducted on July 19, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, we respectfully recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits.
  - Certificate of Approval as a result of a Housing Inspection.
  - Certificate of Compliance, required for all rental properties.
4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
  5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.
  6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Re: Petition No. 1772 — Capital Park Partnership, request for encroachment into Griswold Street Public right-of-way.

Petition No. 1772 — Capital Park Partnership, request for an encroachment with sidewalk café on the west side of Griswold Street, 60 feet wide, between State Street, 60 feet wide and Grand River Avenue, 60 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The request is being made for an outdoor seating area at 1249 Griswold Street.

The request was approved by the Solid Waste Division — DPW, and City Engineering Division — DPW, and Traffic Engineering Division — DPW (TED). TED has conditions that are a part of the resolution.

The Downtown Detroit Partnership has reviewed the proposed sidewalk cafe and supports the 18-foot café encroachment with a 20-foot emergency access lane.

Detroit Water and Sewerage Department (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

The encroachments are on the west side of Woodward Avenue, 190 feet wide, between Larned Street, 60 feet wide, and Congress Street, 60 feet wide.

**Law Department**

October 16, 2019

Honorable City Council:  
Re: Scheduling a Closed Session Regarding Legal Representation and Indemnification in lawsuit of Ariel Moore vs. City of Detroit; Civil Action Case No.: 19-006175-NO for Police Officer Gary Steele.

Your Honorable Body, through the Internal Operations Standing Committee, requested that the Law Department schedule a closed session regarding the above-referenced matter.

The Law Department’s recommendation is to DENY representation and indemnification of the following officer in this matter:

**Police Officer Gary Steele, Badge #4279**

The past practice of City Council is to hold hearings for police officers who may be denied representation, in accordance with arbitration awards issued by the Voluntary Labor Arbitration Tribunal. After consultation with the Council President’s office, the Law Department is respectfully requesting that a closed session be held on Tuesday, November 5, 2019 at 2:00 p.m. for P.O. Steele in accordance with the attached resolution.

**Required Hearings Regarding Representation and Indemnification of Certain Members of the Detroit Police Department**

By Council Member McCalister, Jr.:  
Whereas, Section 7.5-203, *Civil Litigation*, of the 2012 Detroit City Charter provides, in relevant part, that “[upon request, the Corporation Counsel may represent any officer or employee of the city in any action or proceeding involving official duties[;]” and,

Whereas, Section 13-1 1-5, *Civil Service and Personnel Regulations*, of the 1984 Detroit City Code provides, in pertinent part, that “[the city council shall consider and determine whether the corporation counsel shall represent the officer or employee in the matter and find and determine whether or not the claim, demand or suit arises out of or involves the performance in good faith of the official duties of such officer or employee [;]” and,

Whereas, Arbitration awards issued by the Voluntary Labor Arbitration Tribunal recognize the past practice of City Council holding hearings for police officers who have been denied representation (see Grievance Nos. 79-237, 82-055, 90-047, and 92-200/92-202); Now Therefore Be It

Resolved, That, pursuant to the above and MCL 15.268(a), closed sessions are to be held on Tuesday, November 5, 2019 for the purpose of conducting hearings related to the following:

Legal Representation and Indemnification in lawsuit of *Ariel Moore vs. City of Detroit*; Civil Action Case No.: 19-006175-NO for Police Officer Gary Steele, Badge No: 4279; and Be It Further

Resolved, That the Law Department’s recommendation is to DENY indemnification of P.O. Steele in this matter, which will be discussed with Law Department attorneys, representatives from the Detroit Police Department, Gary Steele and counsel, representatives from the Detroit Police Officers Association, as well as attorneys from the Legislative Policy Division; and Be It Further

**50th Jubilee Anniversary Celebration**  
By COUNCIL PRESIDENT JONES:

WHEREAS, Since its inception in 1969, Self-Help Addiction Rehabilitation, Inc. (SHAR) has provided high-quality behavioral healthcare services to individuals in the Greater-Detroit area. Founded by Father Dan Kuchars and two recovering individuals, Seymour Feiner and Jerry Stephens, in the basement of St. Agnes Church in Detroit, Michigan, SHAR has grown and evolved from a small therapeutic community to a multi-million dollar human service agency serving approximately 6,000 individuals annually; and

WHEREAS, SHAR's mission is to assist socially and economically disadvantaged individuals and to promote lifestyle enhancement. Regardless of whether the challenge the person faces is alcohol or other drug addictions, being a veteran or homeless, battling with mental or physical health issues, struggling women with children, or any number of other issues, SHAR has consistently developed innovative programming and services aimed at alleviating the pain of the individual; and

WHEREAS, The late Allen Bray, served as the Executive Director/CEO of SHAR from August 1983 to June 2006. Since 2008, SHAR has been operating under the leadership of Dwight Vaughter. Initially, he was faced with the challenge of revitalizing an agency that was on the verge of closing its doors. He aggressively, strategically and prudently tackled the various operational and funding challenges, while continuing to expand service delivery. This resulted in SHAR acquiring two additional sites, SHAR Macomb and SHAR Academy; and

WHEREAS, Today, SHAR has four facilities: SHAR Main, SHAR Academy, Maybury — Grand and SHAR Macomb. SHAR's service delivery ranges from detoxification for males and females to male-specific residential substance abuse treatment, outpatient programs, transitional housing, to recovery support and prevention services. SHAR has specialty programs for men, employed persons, individuals under correctional supervision, and individuals with co-occurring disorders. SHAR also offers on-site Alcoholics Anonymous (AA) and Narcotics Anonymous (NA) support meetings; and

WHEREAS, SHAR's focus always has been aimed at stopping substance use and providing relief to the individuals and their families who are so adversely impacted. SHAR has provided the necessary and ever-growing list of wrap-around services to help thousands of people change their lives. SHAR's operation is inspired by Dr. Booker T. Washington's

quote: "SUCCESS is to be measured not so much by the position reached in life as by the obstacles overcome while trying to succeed." NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones recognize SHAR, Inc. on this momentous occasion celebrating its 50th Jubilee Anniversary.

Honorable City Council:

Re: Request for approval to enter into short term leases for temporary property use up to 30 days and under \$10,000.

The Office of Contracting and Procurement Department (“OCPP”) is hereby requesting the authorization of your Honorable Body to allow the Coleman A. Young Municipal Airport Department (“Airport”) to enter into short term leases of Airport T-Hanger properties as requests for such are received, provided that the term of said leases charge rent of less than \$25,000 and include a lease term of up to 30 days.

The current terminal (built in 1966) is used for private, cargo, and corporate airplanes under the Department of Transportation, Federal Aviation Administration (FAA) jurisdiction. The department may make, with the approval of the City Council, all contracts or leases necessary to carry out the objectives and purposes of the department, as provided in this section. These requests are frequently received by the Airport with insufficient time to negotiate a short term lease and seek the approval of your Honorable Body. In these instances, the City sometimes foregoes certain revenue that it might otherwise realize.

With authority to execute and approve short term leases, Airport may better perform its duty under Section 4-1-2 of the Detroit City Code “to supervise, manage and control all city properties and equipment devoted to aviation activities, both as to supervision, maintenance and operation,” as well as to better capitalize on revenue from temporary use of the City’s T-Hangers. The Airport shall work with the

Law Department to ensure that all short term leases under this authority are approved as to form and work with the Finance Department to certify that such revenue has been received by the City. The Airport Director or his designated staff will provide a quarterly report of all short term leases to the City Council.

We respectfully request your approval and grant of authority to the Airport Department to enter into such short term leases pursuant to the above referenced conditions and for the benefit of the City of Detroit by adopting the attached resolution. We ask that this authority remain in full force and effect for a period of 18 months from the date of approval to allow the Airport time to codify this policy into the appropriate section of the Detroit City Code.

Respectfully submitted,  
BOYSIE JACKSON  
Chief Procurement Officer

By Council Member Ayers:

**RESOLUTION APPROVING  
AUTHORIZING THE DIRECTOR OF  
COLEMAN A. YOUNG MUNICIPAL  
AIRPORT TO NEGOTIATE AND  
EXECUTE CERTAIN SHORT  
TERM LEASES**

WHEREAS, The Coleman A. Young Municipal Airport Department (“Airport”) was established to exercise and perform in accordance with the general laws of the United States and this state, the rules and regulations of the Federal Aviation Administration and the state department of aeronautics, the Detroit City Code, including Section 4-1-2 (“Applicable Law”) to acquire, hold and operate real property at the Airport, including, but not limited to, heliports, seaplane bases, landing fields, t-hangers, bays or sites and any other aeronautical facilities or spaces appropriate for t-down rentals (“Airport Property”) in the name of the City;

WHEREAS, Pursuant to Applicable Law the Airport is authorized to lease Airport Property for occupancy and use by private and public parties (“Leases”);

WHEREAS, The Director of the Airport is responsible for the efficient operation of the Airport in compliance of Applicable Law;

WHEREAS, In connection with the responsibility for the efficient operation of the Airport in compliance of Applicable Law, the Director of the Airport is authorized to negotiate and execute Leases on behalf of the City; and

WHEREAS, The City Council desires to authorize the Director of the Airport to negotiate and execute on behalf of the City certain short term Leases as hereafter more precisely described, with such terms and conditions are in the best financial interest of the City.

Now therefore be it resolved, as follows:

1. The Director of the Airport is hereby delegated the authority to negotiate, and execute on behalf of the City,

Leases permitting the use and occupancy of Airport Property within the following parameters:

- a. For a period of time up to 180 days;
  - b. Total rent amounts not to exceed Twenty Five Thousand Dollars (\$25,000.00);
  - c. Rents shall be negotiated by the Director of Airports and shall be consistent with the parameters set forth on Exhibit A attached to, and made a part of, this Resolution.
  - d. Compliance with all laws applicable to airport leases;
  - e. Require that the tenant provide both insurance and indemnification of the City;
  - f. With such terms and conditions as are in the best financial interest of the City;
  - g. With the review and approval of the Corporation Counsel and the Chief Procurement Officer ("Short Term Leases").
2. Short Term Leases executed by the Director of Airports shall be effective as of the date such Short Term Leases are executed by both parties.
3. Short Term Leases shall not be renewable. If the tenant to a Short Term Lease wants to continue to lease Airport Property, a long term lease must be negotiated between the parties and such long term lease must be approved by City Council.
4. The Director of the Airport is hereby required to submit written reports to the City Council on each January 15, April 15,

July 15 and October 15 of every year, that contain at least the following information for all Short Term Leases executed in the previous 3 months:

- a. Number of Short Term Leases;
  - b. Name(s) of the tenant;
  - c. Amount of monthly and annual rent for each;
  - d. The square footage for each of the spaces rented;
  - e. Total amount of annual rent for all;
  - f. Identification of the Airport Property being leased;
  - g. Use of the Airport Property;
  - h. Identification of Short Term Leases which were listed on any previous report; and
  - i. Expiration date(s).
5. This Resolution shall take effect immediately upon its adoption by the City Council.
6. The authority granted in this resolution shall terminate twenty four (24) months after the date of its adoption by the City Council.
7. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded

October 17, 2019

Honorable City Council:

Re: Request of Parkstone Development Partners on behalf of Wilbur Block, LLC to amend District Map No. 7 of the Detroit Zoning Ordinance to show an SD2 (Special Development District, Mixed Use) zoning classification where an M4 (Intensive Industrial District) zoning classification is currently shown for the properties generally bounded by Baltimore Avenue on the north, the Lodge Expressway on the east, Holden Avenue on the south, and Lincoln Avenue on the west and more commonly known as 6302, 6310, 6320 Lincoln and 1262, 1240 and 1234 Wilbur Street. (RECOMMEND APPROVAL)

**RECOMMENDATION**

On June 6, 2019 the City Planning Commission voted to recommend approval of the request of Parkstone Development Partners on behalf of Wilbur Block, LLC to amend District Map No. 7 of the Detroit Zoning Ordinance to show an SD2 (Special Development District, Mixed Use) zoning classification where an M4 (Intensive Industrial District) zoning classification is currently shown for the properties described above.

Proposed Wilbur and Lincoln mixed-use development

**NATURE OF REQUEST**

The proposed rezoning is planned for the properties located east of Lincoln Street and between Wilbur Street and the public alley just north of Wilbur Street.

The development proposes a five story, 55 ft tall, 46,475 square foot (sf) mixed-use building. The development would encompass 43 apartment units on upper floors. The residential unit mix includes 15 studio, 23 one-bedroom and four two-bedroom units.

The proposal also plans for 5,605 sf of retail space on the ground floor which would utilize the public alley for loading access. Parking is planned to be adjacent and will total 44 spaces.

**PLANNING CONSIDERATIONS**

**AND ANALYSIS**

**Surrounding Zoning and Land Use**

The zoning classification and land uses surrounding the subject area are as follows:

**North:** M4; Industrial building, parking lot

**South:** M4; Commercial, auto-related use building

**East:** M4; underutilized lot

**West:** R5; surface parking lot, vacant building

**Zoning**

The request that is being considered is for a zoning map amendment to show a SD2 Special Development District, Mixed-Use zoning classification, where an M4 Intensive Industrial District currently exists.

The M4 zoning district primarily allows for industrial uses which are usually considered objectionable and not appropriate next to residential uses. New residences are prohibited in this district, with the exception of very minimal residential uses such as loft conversions of existing buildings. These requirements are to protect residences from an undesirable environment and to ensure reservation of adequate areas for industrial development.

The petitioner is seeking to replace this zoning classification with the SD2 zoning district, which in general is designed to encourage a complementary mixture of pedestrian- and transit-oriented uses that may be compatible with a neighborhood center, or with a location along major or secondary thoroughfares. This district generally allows for parking requirement reductions to encourage non-motorized transportation and lessen the demand for off-street parking

**COMMUNITY ENGAGEMENT AND**

**PUBLIC HEARING RESULTS**

During the May 2nd public hearing, no one spoke in reference to this agenda item. The development team did, however, submit letters of support for the project from various entities with interests in the area.

The development team has engaged the West Grand Boulevard Collaborative

(which consists of a number of community organizations in the Northwest Goldberg community), Midtown Detroit Inc., and Henry Ford Health Systems regarding this proposal.

**ANALYSIS**

According to Sec. 50-3-70 of the Zoning Ordinance, certain criteria must be met to facilitate the requested petition. The following are considered for map amendment petition:

(1) *Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact:*

The proposed rezoning will meet the changing condition of underutilized, industrially zoned land transitioning to Special Development District, Mixed-Use (SD2) in nearby areas. In the East Grand Boulevard area known as Milwaukee Junction, there was a rezoning to allow for the SD2 zoning classification in a historically industrial area. Other areas around the city are also transitioning to the mixed-use (SD1-SD2) districts.

(2) *Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance:*

The subject site is located within the Rosa Parks area of Neighborhood Cluster 6 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Light Industrial (IL) for the subject property. This land use designation is described as *consisting of industrial uses of low intensity that have minimum undesirable effects on adjacent residential or commercial land uses. Small-scale industrial uses may include machine shops, small scale assembly or packaging, warehousing or technology parks.* The amendment is considered to be consistent with the Master Plan of Policies. The proposed SD2 zoning district aligns with the IL Master Plan designation, as a district that is appropriate for this future land use designation.

(3) *Whether the proposed amendment will protect the health, safety, and general welfare of the public:*

The proposed amendment can be considered an improvement to the health, safety and general welfare of the surrounding neighborhood. If adopted, the proposed amendment would serve to reduce the intensity of uses that are currently allowed from industrial uses to residential and commercial uses.

(4) *Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development:*

There are not expected to be any major concerns regarding access to public facilities and services.

(5) *Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water,*

soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management:

The proposed rezoning is not expected to negatively impact the natural environment, but should be an improvement due to what is currently allowable on the subject site.

(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract:

The proposed amendment is not anticipated to have adverse impacts on property in the vicinity.

(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification:

The proposed zoning and project that is being put forward requires the requested zoning classification change in order to proceed. The previous use that existed on this site was a single-family dwelling

adding to the rationale that this site is appropriate for the proposed zoning classification.

(8) Whether the proposed rezoning will create an illegal "spot zone".

The proposed rezoning will not create an illegal spot zone as it involves multiple parcels that are contiguous and at the end of the subject block.

**CONCLUSION**

This proposal meets the criteria set forth for rezoning. Surrounding neighborhood organizations are seemingly supportive of this project. Based on all factors that were considered, the City Planning Commission voted to recommend approval of this request.

Respectfully submitted,

**City Planning Commission**

October 18, 2019

Honorable City Council:

Re: Request by the City Planning Commission staff to rezone several blocks/properties on Zoning Map No. 52 near I-75/Fisher Freeway and Pleasant Street in the 48217 zip code/Boynton Area generally to show R2 (Two-Family Residential District) and M2 (Restricted Industrial District) zoning classifications where B4 (General Business District) and M4 (Intensive Industrial District) zoning classifications are currently shown. (RECOMMEND APPROVAL)

The City Planning Commission (CPC) staff is requesting to rezone several blocks/properties on Zoning Map No. 52 near I-75/Fisher Freeway and Pleasant Street in the 48217 zip code/Boynton Area. The change in zoning is being requested in order to make the area's zoning more consistent with the City's Master Plan of Polices and to limit the influence of intensive industrial uses on nearby residential uses. Please see Attachment A for a map of the proposed rezoning.

**Background and Proposal**

In 2010, then Council Member Kwame Kenyatta spearheaded a Southwest Community Task Force to look at various issues impacting Southwest Detroit. At these Task Force meetings, community members expressed concerns about the large number of industrial uses in their community, especially ones with significant air emissions. In response, the Detroit City Council requested that the CPC staff

review areas in Southwest Detroit that could be rezoned, beginning with properties within the 48217 zip code. In February 2013, the City Planning Commission held a public hearing and voted to rezone numerous parcels. However, with the City operations disrupted by the bankruptcy proceedings, the subject down zoning was never forwarded to City Council for consideration.

In late 2017, Council Member Castaneda-Lopez asked the CPC staff to revisit the past 48217 down zoning initiative. Council Member Castaneda-Lopez's office hosted, in the past two years, four community meetings in the 48217 area to analyze and discuss potential rezonings.

CPC staff researched the previous 2013 request, studied existing land use patterns, analyzed the Detroit Master Plan of Policies, and processed feedback from the community meetings. Based on this analysis, CPC staff is proposing to downzone 16 addresses north of Pleasant Street and 49 addresses (seven blocks or parts thereof) south of Pleasant Street. In general, the proposed amendments would:

- Rezone the industrial land bounded by the rail corridors on the north, Detroit City limits on the east, Pleasant Street on the south, and South Fort Street on the west from a M4 (Intensive Industrial District) zoning classification to a M2 (Restricted Industrial) zoning classification; and
- Rezone land on the south side of Pleasant Street from the Fisher Freeway to just east of South Liddesdale Street and from South Beatrice Street to South Ethel Street from a B4 (General Business District) zoning classification to a R2 (Two-Family Residential) zoning classification.

The subject south side of Pleasant Avenue contains very few buildings and is primarily vacant. However, the south side of Pleasant Avenue between Ethel and Bassett Avenues is developed with an operating welding shop; as a result, this block was not included in the proposed downzoning from B4 to R2. When land is proposed to be rezoned, sometimes the land uses permissibility changes in the new district. The attached table (Attachment B) lists each of the addresses that are part of the subject rezoning, including permit/land use info, proposed zoning change, and any land use impacts from the proposed rezoning. There are a few properties that appear to have zoning violations — they do not have permits to use the land as currently zoned. From this research, it appears, the proposed rezoning would not render any current legal land uses as nonconforming.

#### **Public Hearing Results & Follow-up**

On February 21, 2019, the City Planning Commission held a public hearing on the subject rezoning request. Prior to the hearing, one letter of support from area

an resident, one email of support from an area resident, and one memorandum dated February 21, 2019 in opposition from Corrigan Oil Company were submitted. For public comment, two representatives of Corrigan Oil, two representatives of Goch and Sons Towing, and one representative of Industrial Fence Co. spoke in opposition. Three area residents spoke in support. For a summary of the comments made at the hearing, please see Attachment C. In response to this proposal, Corrigan Oil submitted petition #719 opposing the proposed rezoning and requesting City Council be required to pass the rezoning by a minimum of three-fourths of the City Council. After the hearing, Goch & Sons submitted a letter and Corrigan Oil submitted an additional letter dated May 2, 2019 opposing the rezoning. Below are responses to some of the questions posed at the public hearing.

***The Commission asked, beyond the required notifications, was there any one-on-one communication with property owners to determine their position?***

In the past two years, Council Member Castaneda-Lopez's office held at least four community meetings in the 48217 area to analyze and discuss the potential downzonings. CPC staff understands that primarily area residents were invited to these meetings; however, some of these meetings were attended by area businesses, as well.

***The Commission asked if M2 gave the greatest amount of protection that could be given to the community and why it couldn't be taken to M1?***

CPC staff research shows that the proposed downzoning would not render any current legal land uses as nonconforming. In particular, truck terminals (Corrigan Oil) and contractor yards (Industrial Fence) are by-right in both M4 and M2; tow yards (Goch & Sons) are conditional in both M4 and M2. In M1, contractor yards are also by-right and tow yards are also conditional, however, truck terminals become conditional in M1. Additionally, CPC staff conducted a more thorough analysis of the differences between the M1, M2, and M4 districts. Staff found (either by-right or conditional) that M1 allows 189 specific types of uses, M2 allows 198 types of uses, and M4 allows 341 types of uses.

***The Commission asked whether industrial or residential was developed first in the area?***

A review of records show in 1922 Detroit annexed Oakwood Heights/Oakwood Village. Sanborn maps from the 1920s, prior to the construction of I-75, show the outline of long strips of ribbon farms leading from the Rouge River. There were also several rail lines leading to the Detroit River or southwest Detroit. Besides the railroads, the area shows little industry, but there was some, including

the Salt Mine to the northeast and Detroit Edison. It appears, many of the houses built in the area north and south of Pleasant Street were built in the 1920s. The industrial areas of Corrigan Oil and Goch Towing appear to still be vacant ribbon farms. In summary, most of the land in the 1920s was residential adjacent to rail corridors and rural land. The Marathon refinery to the north was not established until 1930 by the then Aurora Gasoline Company.

***The Commission had concerns about the problems of truck traffic in the area.***

CPC staff reported at the hearing, it appeared that Pleasant Street was used by a number of trucks exiting I-75 at Schaefer and then proceeding to South Fort Street to Pleasant Street. It appears from State, Wayne County, and City truck maps that some of the primary designated truck routes leading to industrial areas to the south near West Jefferson Avenue are in the subject area (i.e. I-75, Fort Street and Schaefer Avenue). It appears trucks use Pleasant Avenue to access industrial lands north of Pleasant Avenue or as a route to access industrial lands to the south.

***The Commission raised concerns about the air quality and water quality in the area, asked about feedback from the MDEQ/EGLE, and wondered if the subject rezoning would cause the air quality to get worse or better.***

It is often cited that the 48217 area is one of (or the most) polluted zip codes in Michigan. While the west/south end of Boynton is primarily low density residential, the east/north end has numerous industrial uses, including the Marathon Oil Refinery. Furthermore, Boynton is surrounded by River Rouge, Ecorse, Lincoln Park, Melvindale, and Dearborn, all of which have significant industrial facilities nearby. As noted in the City's Master Plan of Policies, "Boynton economy and quality of life is tied to that of the adjacent communities. Its residential areas are surrounded by heavy industrial facilities". Within a three mile radius of the 48217 zip code are some very large industrial uses, including the Marathon Refinery, Detroit Wastewater Treatment Plant, US Steel on Zug Island, DTE EES Coke, and the DTE River Rouge power station. CPC staff spoke with several Michigan Department of Environment, Great Lakes and Energy (EGLE) staff members about air quality issues and trends in southwest Detroit. EGLE staff indicates the subject area and downriver are a nonattainment area for sulfur dioxide (those that have concentrations over the National Ambient Air Quality Standards) and Ozone. EGLE staff indicate in the past few years it has partnered with community residents in the 48217 area to better monitor air quality issues and to provide better enforcement.

**Analysis**

***Surrounding Zoning and Land Use***

The zoning classification and land uses surrounding the subject area are as follows:

- North: M4; the area north of the rail corridor is developed with intensive industrial uses, including indoor scrap metal processing and outdoor bulk petroleum storage
- East: Industrial uses within the City of River Rouge
- South: R1 and R2; developed with a residential neighborhood
- West: M4 and R2 (across South Fort Street); developed with rail lines, Marathon Oil properties, Detroit Salt Mine, and largely vacant Oakwood Heights neighborhood

***Proposed & Existing Zoning Districts***

The B4 zoning classification currently exists on the south side of Pleasant Street with R2 beyond. The B4, in general, provides for business and commercial uses of a thoroughfare-oriented nature. The R2 designation is designed to protect and enhance those areas developed or likely to develop with single- or two-family dwellings. The R2 district regulations are designed to promote a suitable environment for homes and for activities connected with family life! Presently, the Master Plan of Policies does not designate Pleasant Street as a secondary or major street. The south side of Pleasant Street is primarily vacant and has very little commercial development, except the aforementioned welding shop.

The M4 district currently exists on the north side of Pleasant Street. The M4 district, in general, permits uses which are usually objectionable and, therefore, the district is rarely located adjacent to residential districts. A broad range of uses is permitted in this district. The M2 district is designed for a wide range of industrial and related uses which can function with a minimum of undesirable effects. Industrial establishments of this type provide a buffer between residential districts and intensive industrial districts.

***Impact on Existing Land Uses***

As stated earlier in this report, it appears, the proposed rezoning would not render any current legal land uses as nonconforming. In particular, truck terminals (Corrigan Oil) and contractor yards (Industrial Fence) are by-right in both M4 and M2, and tow yards (Goch & Sons) are conditional in both M4 and M2. Therefore, these existing land uses are treated the same from the current and proposed zoning districts.

Corrigan Oil, in its letter dated February 21, 2019 opposing the rezoning, states (footnotes not included):

"By contrast, the residents to the south also purchased their properties on notice of the industrial uses to the north, as well as the M4 zoning attendant to those uses.

In their case, however, they seek to realize a windfall. They, too, purchased their residential property at a market price reflecting the realities of location, in their case proximity to heavy industrial zoning, and likely paid a reduced price for their property accordingly. In requesting the present restrictions, the residents have followed the similar path well-trodden by those who move to a nuisance — moving in with full knowledge of their neighbors and then objecting to them. As preserving the present zoning protects the investment backed expectations of the industrial owners, and only denies the owners of the residential properties a windfall...”

The CPC objects to the notion that the residents to the south seek to realize a windfall from the proposed rezoning. The CPC disagrees with the notion that the residents moved with full-knowledge to neighborhood near heavy industry, etc. This argument ignores the possible impacts in this residential neighborhood of factors such as segregation, environmental injustice, and redlining.

**Zoning Ordinance Criteria**

Section 61-3-80 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. The CPC finds that the present request meets the criteria for the following reasons:

1. *Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact.*

There is no error in the current zoning map which the proposed amendment would correct. However, it does meet the challenge of a changing condition or trend for the south side of Pleasant Street. Over the years, most of the buildings on the south side Pleasant Street have been removed and the land is primarily vacant. Also, several of the parcels, north of Pleasant Avenue, along the rail corridor are vacant as well.

2. *Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance.*

The subject site is located within the Boynton Area of the Neighborhood Cluster 5 of the Detroit Master Plan of Policies. The Future Land Use map shows Low Density Residential for all of the property on the south side of Pleasant Street and Light Industrial for all of the property on the north side of Pleasant Street and south of the rail line. The Planning & Development Department (P&DD) submitted a memo dated February 19, 2019 concluding the proposed rezoning conforms to the Master Plan of Policies.

Within the Master Plan, there are listed specific Issues, Goals, and Policies for the Boynton Area. This section includes the following five Goals for Boynton:

- GOAL 1: Reinforce sound neighborhoods

- GOAL 2: Increase the vitality of neighborhood commercial thoroughfares
- GOAL 3: Increase the vitality of neighborhood commercial areas
- GOAL 4: Reduce conflicts between industrial and residential areas
- GOAL 5: Increase open space and recreational opportunities

For Goal 1 to “Reinforce sound neighborhoods,” the CPC maintains the proposed rezoning would limit the impact of thoroughfare-oriented business and intensive industry on the adjacent residential area. For Goal 4, Policy 4.2 states, “Buffer the negative impacts of industrial land uses upon residential areas in the north-east”. The CPC maintains the proposed rezoning would reduce conflicts between industrial and residential areas by limiting intensive industrial uses that could develop.

A broader goal of the Master Plan, under Environment and Energy, Goal 2 states, “Ensure environmentally healthy neighborhoods,” with Policy 2.3 stating, “Examine “down-zoning areas” (less intensive zoning designation) where there are land use conflicts and/or are in transition from industrial to residential uses to protect residential areas from more intensive uses”. The CPC maintains downzoning the subject M4 and B4 areas would help lesson conflicts between residential uses and intensive industrial and general business uses.

A broader goal of the Master Plan, under Industrial Centers, Goal 3 states, “Minimize conflicts between industrial centers and residential areas”. The CPC maintains that reducing potential high intensity industrial uses so close to a residential area would be beneficial.

Corrigan Oil in its February 21, 2019 letter points out that within the Master Plan, under Industrial Center, Goal 1 is to “Enhance the economic potential of industrial centers,” with Policy 1.1 to “Develop a coordinated method to clear title, assemble land, and sell industrial parcels”, and Policy 1.3 to “Support the demolition of obsolete industrial structures”. Corrigan maintains that the policy of downzoning conflicts with the Master Plan’s goal of encouraging reinvestment and cleanup of industrial land. The CPC notes that this subject broader goal is one of the many more general goals listed in the Master Plan. The CPC appreciates Corrigan’s redevelopment of an abandoned parcel to meet its business needs, however, the CPC does not agree that downzoning land from Intensive Industrial (M4) to Restricted Industrial (M2) inherently conflicts with the goal of encouraging industrial reinvestment.

Within the Master Plan, under Boynton, Industrial Centers, it states, “Issues. Industrial disinvestment is prevalent in the

north and northeast areas. In some cases industrial uses encroach upon adjacent residential areas". Corrigan maintains that this disinvestment may have been the case previously, and is the case no longer with the investment of Marathon, Corrigan, Goch, etc. The CPC acknowledges there has been some investment by some industries in the Boynton area, but the impacts of disinvestment remain. Furthermore, the investment by some industries, does not negate the need to buffer the negative impacts of industrial land uses upon residential areas.

3. *Whether the proposed amendment will protect the health, safety, and general welfare of the public.*

It is the CPC's determination that the proposed amendment will protect the health, safety, and general welfare of the public. Downzoning the subject area to R2 and M2 would limit the impacts of potential future general business and intensive industrial uses in close proximity to residential areas.

4. *Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development.*

Not applicable.

5. *Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding stormwater management.*

It is not anticipated the proposed rezoning will have significant adverse impacts on the natural environment.

6. *Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract.*

The proposed amendment will not have significant adverse impacts on property in the vicinity of the subject tract. Land to the north is developed with rail lines and industrial uses; land to the east is developed with a rail line and industrial uses; land to the south is developed with residential uses; land to the west is developed with the 1-75 freeway and industrial uses.

7. *The suitability of the subject property for the existing zoning classification and proposed zoning classification; and*

The land on the south side of Pleasant Street, while currently zoned B4, is primarily vacant. The Master Plan calls for this land to be redeveloped as low-density residential. The land north of Pleasant Street (of the subject rezoning), while zoned M4, is developed currently with uses that are allowed in M2. The Master Plan calls for this area to be designated Light Industrial.

8. *Whether the proposed rezoning will create an illegal "spot zone."*

The proposed rezoning will not create

an illegal spot zone, because there exists industrial land to the north and residential land to the south.

**Conclusion and Recommendation**

The Boynton area of Detroit (the 48217 zip code) is the southernmost part of the city with a mix of residential neighborhoods, commercial areas, and large and small industry, surrounded by downriver communities on 3 sides. The Detroit Master Plan of Policies recommends the subject area, on the south side of Pleasant Street, be developed as low density residential and, the north side of Pleasant Street, be developed as light industrial. The proposed rezoning is more consistent with the Master Plan and seeks to limit the potential impact of intensive industrial and commercial uses on nearby residential areas. The proposed rezoning does not render any of the legally existing uses as nonconforming.

Based on the above analysis and consistent with the approval criteria of Sec. 61-3-80 of the Zoning Ordinance, the City Planning Commission recommends **APPROVAL** of the proposed rezoning request. The ordinance approved as to form, is attached for your consideration.

By Council Member Tate:

Whereas, Prince Realty, LLC has filed with the City Clerk an Application for a

Commercial Property Rehabilitation Exemption Certificate, under Public Act 210 of 2005 ("the Act") in City of Detroit Commercial Property Rehabilitation District in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council on April 11, 2017 established by Resolution a Commercial Property Rehabilitation District at the intersection of West Grand River and West Warren, Detroit, Michigan, after a Public Hearing held, in accordance with the Act; and

Whereas, The taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under the Act and under Public Act 210 of 2005 does not exceed 5% of the total taxable value of property in the City of Detroit; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

Whereas, The Application is for Commercial property as that term is defined in Section 2(a) of the Act, which property is owned by the Applicant; and

Whereas, Commencement of the rehabilitation of the subject facility did not occur before the establishment of the Commercial Property Rehabilitation District; and

Whereas, The Application relates to a rehabilitation program that when completed constitutes a rehabilitated facility within the meaning of the Act and which is situated within the aforesaid City of Detroit Commercial Property Rehabilitation District and

Whereas, Completion of the rehabilitation is calculated to, and will at the time the Certificate is issued, have the reasonable likelihood of increasing and/or retaining employment, increasing commercial activity, revitalizing an urban area, or increasing the number of residents in the community in which the facility is located; and

Whereas, The rehabilitation includes improvements aggregating 10% or more of the true cash value of the property at the commencement of the rehabilitation as provided by the Act; and

Whereas, This City Council has granted until August 1, 2020 for the completion of the rehabilitation; and

Whereas, On October 24, 2019, in the City Council Committee Room, 13th Floor, Coleman A. Young Municipal Center, Detroit, Michigan, a formal public hearing was held on aforesaid application, at which time the Applicant, the Assessor, the general public, and representatives of the affected taxing units had an opportunity to be heard; and

Whereas, Notice was given by certified mail to the Detroit Board of Education, the City of Detroit Board of Assessors, the

Wayne County Board of Commissioners, Wayne County Community College, the Wayne County Intermediate School District, the Huron-Clinton Metropolitan Authority, the Applicant, and by publication to the general public, informing them of the receipt of the Application, the date and location of the Public Hearing, and the opportunity to be heard;

Now Therefore Be It

Resolved, That it is hereby found and determined that the granting of a Commercial Property Rehabilitation Exemption Certificate, considered together with the taxable value of Commercial Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates if previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax with the City of Detroit; and be it further

Resolved, That it is hereby found and determined that the Applicant has complied with the requirements of the Act; and be it further

Resolved, That the application of Prince Realty, LLC, for a Commercial Property Rehabilitation Exemption Certificate, in the City of Detroit Commercial Property Rehabilitation District is hereby approved for a period of Ten (10) years, with the certificate beginning December 31, 2019 and the certificate expiring December 31, 2029, in accordance with the provisions of the Act; and be it finally

Honorable City Council:

Re: Friendship Meadows Limited Dividend Housing Association Limited Liability Company — Payment in Lieu of Taxes (PILOT).

Communities of Hope, Inc. and SPM Property Group, Limited Liability Company (“LLC”) have formed Friendship Meadows Limited Dividend Housing Association (“LDHA”) LLC in order to develop the Project known as Friendship Meadows Apartments. The Project is an existing one hundred fifty-three (153) senior rental units located in three (3) two-story buildings in an area bounded by Superior on the north, Russell on the east, Leland on the south and Chrysler Service Drive on the west.

The substantial rehabilitation Project will include one hundred seven (107) 1 bedroom/1 bath and forty-six (46) 2 bedroom/1 bath apartments and a community center. The preservation and renovation of the development will not result in a rent increase for the existing tenants.

A construction loan in the amount of \$7,000,000 will be provided by Citizens Bank and will convert to a Greystone serviced Freddie Mac Targeted Affordable Permanent Loan totaling \$5,900,000. RBC Tax Credit Manager II, Inc. will make Capital Contributions of \$9,600,000 which includes the purchase of Low Income Housing Tax Credits. Additionally, the Sponsor has agreed to defer \$143,968 of the developer fee.

Rents for all units have been set at or below eighty percent (80%) of the area median income. Thirty-eight (38) Section 8 voucher residents will contribute only thirty percent (30%) of their adjusted gross income towards the rent amount. All one hundred fifty-three (153) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346 as amended, MCL 125.1415A). Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of five percent (5%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,

ALVINO HORHN

Deputy CFO/Assessor

By Council Member Spivey:

Whereas, Pursuant to the provisions of the of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 se seq. (the "Act"), a request for exemption from property taxes has been received on behalf of Communities of Hope, Inc. and SPM Property Group, LLC (the "Sponsors"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the housing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolutions of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is proposing to undertake the rehabilitation of an existing housing project to be known as Friendship Meadows Apartments consisting of the rehabilitation of one hundred fifty-three (153) units in three (3) buildings located on two (2) parcels of property owned or to be acquired by the Sponsor as described by street address and tax parcel in Exhibit A to this resolution, with all units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is to serve low to moderate income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federal-aided financing for the Project,

provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsors first obtain MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as Friendship Meadows Apartments as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of five percent (5%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.; and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Office of the Chief Financial Officer; and be it further

Resolved, That specific legal description for the Project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or Federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemptions; and be it further

Resolved, That the City Clerk furnish the Office of the Chief Financial Officer — Office of the Assessor two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Re: CITY COUNCIL RECESS from:  
Wednesday, November 27, 2019  
through Tuesday, January 7, 2020.

Ordinance No. 15-00, Chapter 21, Article 3, requires the approval of your Honorable Body for the purchase of Goods and Services over the value of \$25,000, all Contracts for Personal Services, Renewals, or Extensions of Contracts, or the exercise of an option to renew or extend a Contract. Ordinance No. 37-14, Chapter 18, Article IV, requires approval of your Hon-

orable Body of an application for a federal, state, or other grant to be used, in whole or in part to fund any City programs, services, or activities.

Based upon the above scheduled Recess, there will be a delay in obtaining your approval for needed Goods and Services, and Grant Applications and Awards. As a result, we will be unable to meet our obligation to obtain needed Goods and Services, approve Grant Applications and accept Grant Awards, for the user agencies, and they, in return, will be unable to meet their obligation to supply mandated services to the People of the City of Detroit.

Therefore, during the Recess, I request that your Honorable Body approve our purchase of Goods and Services requiring your Approval under Ordinance No. 15-00, and approve Grant Applications and accept Grant Awards requiring your approval under Ordinance No. 37-14, under provisions as follows:

I. Weekly list of Contract Agenda Items, Grant Applications, and Grant Award Notifications, which are distributed by the Office of the City Clerk to Members of the City Council each Thursday, will be held through Wednesday of the following week.

II. In the event any Council Member objects to the Contract or Purchase Order or the Grant Award the Contract; Contract or Grant award will be held either until formal action by the City Council or withdrawal of the objection by the objecting Council Member.

No Contract or Purchase Order shall be issued if a Protest has been filed, or if a Supplier has not obtained any required Tax clearances, Insurance, Affidavits, or Bonding.
