Honorable City Council:

Re: Transfer of Jurisdiction / Surplus of Real Property. 450 W. Congress, Detroit, MI 48226 / Formerly Known as the Millennium Parking Garage.

The City of Detroit, Municipal Parking Department ("MPD") has recently requested that the Finance Department transfer jurisdiction of certain City-owned real property at 450 W. Congress, Detroit, MI, formerly known as the Millennium Parking, (the "Property") to the Planning and Development Department ("P&DD") to administer as surplus real property.

The Property is currently zoned PCA/Restricted Central Business District and is nine stories tall with approximately 28,600 square feet of space. The building is surplus because this facility is not essential as a public asset, and the operating and capital costs associated with the facility exceed the revenue that is realized. P&DD intends to assume jurisdictional control over the Property for sale to

450 Associates LLC for use as a parking garage. The proceeds of such sale will support economic development that creates thousands of new jobs in Detroit, affordable housing and capital improvements to other City parking facilities.

Pursuant to Sec. 14-8-3 of the Detroit City Code, it is hereby requested by the Finance Department that Detroit City Council approve the transfer of jurisdiction over the Property to P&DD. Additionally, pursuant to Sec. Sec. 14-8-4, it is hereby requested by P&DD that the Property be deemed surplus and available for sale.

Honorable City Council:

Re: Community Benefits Provision. Fiat  
Chrysler Automotive Projects.

The City of Detroit (“City”). City of  
Detroit Brownfield Redevelopment  
Authority (“DBRA”) and FCA US LLC  
 (“FCA”) have been in discussions to bring  
about the investment of approximately  
\$2.5 billion in FCA’s Mack 1, Mack 2 and  
Jefferson North Assembly Plants (collectively  
the “Projects”) to expand certain  
industrial automotive manufacturing in the  
City. It is anticipated that the Projects will  
result in the creation of approximately  
4,950 additional FCA jobs in the City, as  
well as increase business and economic  
opportunities for related supplier and support  
industries.

Under the City of Detroit Ordinance 35-  
16 (“Ordinance”), codified in Chapter 12,  
Article XII of the Detroit City Code  
 (“Code”), development projects that qualify  
as a “Tier 1 Development Project” are  
subject to certain community engagement  
procedures (the “CBO Process”). Because  
the Projects are expected to incur an  
investment of at least \$75 million and to  
involve the abatement of more than \$1  
million in City taxes, the Projects qualify  
as a Tier 1 Development Project under the  
Ordinance and thus are subject to the  
CBO Process.

The Projects were reviewed by a  
Neighborhood Advisory Council as part of  
a single CBO Process to ascertain the  
community’s concerns related to any  
impacts the Projects may have on the surrounding  
community and the ways by  
which FCA plans to address those  
impacts. A Community Benefits Report  
was prepared for the Projects as a result  
of the CBO Process and such report is  
submitted herewith in accordance with  
Section 14-12-3 of the Code as Exhibit A  
to the attached resolution (the “Report”).  
FCA has agreed to address the concerns  
raised during the CBO Process by entering  
into that certain “Community Benefits  
Provision for Tier 1 Development Projects  
— Fiat Chrysler Automotive Projects” that

is included as Exhibit B to the attached  
resolution (the “Provision”).

We hereby request that your Honorable  
Body adopt the attached resolution that  
receives and files the Report and approves  
the Provision in furtherance of the Projects.

Respectfully submitted,

MAURICE COX

Director

Planning and

Development Department

**EXHIBIT B  
COMMUNITY BENEFITS PROVISION  
FOR**

**TIER 1 DEVELOPMENT PROJECTS  
(Fiat Chrysler Automotive Projects)**

This Community Benefits Provision  
 (“Provision”) is entered into as of its Effective  
Date, as hereinafter defined, by and

Delaware limited liability company. The  
City and the Developer may each be  
referred to herein as a “Party” or collectively  
as the “Parties” to this Provision, as  
applicable.

**RECITALS**

WHEREAS, Developer is undertaking  
the following in the City of Detroit, which  
are referred to herein individually as a “Project,”  
and collectively as the “Projects”: (1)  
the construction of a new assembly plant  
and related improvements by renovating,  
retrofitting and expanding the Developer’s  
Mack 1 Plant, Mack 2 Plant and other  
parcels adjacent to or near such plants  
and (2) investments in Developer’s  
Jefferson North Assembly Plant.

WHEREAS, Under City of Detroit  
Ordinance No. 35-16 (“Ordinance”), codified  
in Chapter 14, Article XII of the Detroit City  
Code (“Code”), effective as of November  
29, 2016, certain development projects  
referred to therein as “Tier 1 Development  
Projects” are subject to certain community  
engagement procedures as set forth in  
the Ordinance (as in existence as of the  
date hereof, the “CBO Process”) to  
determine the outstanding issues related to  
the Projects; and the best means of  
mitigating the concerns of the community  
pertaining directly to the development of  
the Projects.

WHEREAS, Because the Projects are  
expected to incur an investment of at least  
\$75 million and to involve the abatement  
of more than \$1 million in city taxes,  
the Projects qualify as a ‘Tier 1 Project’  
under the Ordinance and thus are subject  
to the CBO Process.

WHEREAS, The Projects were reviewed  
under one CBO process by one  
Neighborhood Advisory Council (“NAC”) and  
the CITY has prepared a single Community

**Section 11: Breach and Default.** The failure by either Party to comply with its obligations under this Provision, which is not caused by the other Party's failure to comply with its own obligations under this Provision, will constitute a material breach of this Provision.

A. In the event of Developer's material breach of this Provision, the Developer will be considered to be in default of this Provision upon the Developer's failure to cure such breach within ninety (90) days after receipt of written notice of such breach and demand to cure by the City (a "Default"), provided, however, that if the nature of Developer's breach is such that more than ninety (90) days is reasonably required for its cure, then Developer will not be deemed to be in Default if Developer, with the City's acknowledgment and consent in writing such acknowledgement and consent not to be unreasonably withheld by the City, commences such cure within said 90-day period and thereafter diligently pursues such cure to completion.

In the event of a Default by Developer pursuant to this Section 10(A), Developer will comply with such enforcement and mitigation efforts as are determined by the Enforcement Committee in consultation with the NAC, or City Council (as applicable), until the City Council has determined that Developer is in compliance with this Provision or has taken adequate steps to mitigate the Default, all in accordance with Section 14-12-3(f) of the Code. After completing the enforcement process described in Section 14-12-3 (f) of the Code, if the Developer has not cured such Default to the satisfaction of the City, the City agrees that it will allow the Developer an opportunity to make a good faith request to the City for a waiver of such Default if it results from the requirements of the Ordinance which are impracticable or infeasible in accordance with the Section 14-12-5 of the Code.

B. In the event of the City's material breach of this Provision, the City will be considered to be in default of this Provision

upon the City's failure to commence its cure of such breach and thereafter diligently pursue such cure to completion within ninety (90) days after written notice of such breach and demand to cure by the Developer.

C. The sole and exclusive damages recoverable against each Party by reason of any breach of any of the representations and warranties made herein or in any ancillary document or the failure to comply with any of the covenants and agreements contained herein or in any ancillary documents to be performed or complied with shall be limited to reimbursement of the direct and documented out-of-pocket damages, expenses and costs incurred by the party as a result of such breach or failure to comply and each of Developer and the City disclaim and waive the right to recover any other damages, including without limitation, punitive, exemplary, treble damages that result from any application of multipliers, consequential and/or putative damages.

D. Notwithstanding anything in this Provision to the contrary, in no event shall Developer be responsible for payment of costs or damages, including without limitation any indemnification obligations under Section 6 hereof, to City in excess of the value of the Developer's commitments described in Exhibit A hereto which were not satisfied.

E. For the avoidance of doubt, a default by the Developer or the City under this Provision shall not be a default under the Development Agreement or any agreement between the City and Developer relating to an Act 198 tax abatement for either Project.

**Section 12: Effective Date, Term, and Termination.** This Provision has no force or effect until the date upon which it has been fully executed by the duly authorized representative of the City (if necessary, pursuant to the resolution of the Detroit City Council as approved by the Mayor of the City of Detroit), and has been approved by the City of Detroit Law Department ("Effective Date"). This Provision will remain in effect until completion of the Projects and until both Parties have satisfied all of their respective obligations set forth in this Provision, at which time and upon written notice by either Party the term of this Provision will expire; provided, however, this Provision may be terminated earlier by the Parties if so approved by the City Council; or, if the Development Agreement is terminated prior to its expiration, this Provision shall automatically terminate and be of no further force and effect effective as of the date of termination of the Development Agreement.

**Section 13: Amendments.** No amendment to this Provision will have any force or effect against either Party unless it is in writing, expressly makes reference to this Provision, is fully executed by the duly

authorized representative of the City (if necessary, pursuant to the resolution of the Detroit City Council as approved by the Mayor of the City of Detroit) and Developer, and is approved by the City of Detroit Law Department.

**Section 14: Notices.** All notices, requests, notifications, and other communications (collectively, "Notices") related to this Provision shall be given in writing, signed by an authorized representative of the Party and sent by United States mail, registered or certified, return receipt requested, postage prepaid, or sent by express, overnight courier to the respective parties at the addresses listed below, and shall be deemed delivered one (1) business day after the delivery or mailing date:

**A. Independent Parties; Effect of Agreement.** Each Party acknowledges that the City and the Developer are independent of each other and do not intend, as a result of this Provision or otherwise, to become a joint venture, partners, employees, servants, agents, representatives, contractors, or any type of related business entities to one another with respect to the subject matter of this Provision. Developer and City acknowledge and agree that this Provision, and the performance of the obligations hereunder, is intended to satisfy the obligations of the Ordinance and the CBO Process, and further acknowledge that each Party's commitments set forth at Exhibit A do not constitute conditions precedent to the other Party's commitments thereunder.

**B. Assignment.** This Provision sets forth Developer's intended activities to address impacts on the community by the Projects in accordance with the Ordinance. The Developer may not delegate or assign this Provision, or any portion thereof, either voluntarily or involuntarily, or by operation of law, except that Developer may delegate or assign this Provision to an Affiliate. In the event Developer sells, assigns or transfers (whether by operation of law, foreclosure or otherwise) a Project to a non-Affiliate, Developer's successor shall be bound by all of the obligations hereunder that accrue on and after the date of such sale, assignment or transfer, provided that Developer shall remain solely responsible for any breach of this Provision that occurs prior to the date of such sale, assignment or transfer. "Affiliate" means any entity that controls, is controlled by or under common control with Developer.

**C. Force Majeure.** In the event of enforced delay in the Developer's performance of its obligations under this Provision due to unforeseeable causes beyond its control and without its fault or negligence, including, but not restricted to, acts of God or of the public enemy, fires, floods, epidemics, or severe weather, the time for performance of such obligations shall be extended for the period of the enforced delays; provided that the Developer must within thirty (30) days after the beginning of such enforced delay, have first notified the City in writing of the causes thereof and requested an extension for the period of the enforced delay. In the event that there is any dispute as to what constitutes such force majeure event, the determination of the City will control.

**D. Choice of Law and Venue.** The Parties acknowledge that this Provision shall be governed by and interpreted in accordance with the laws of the State of Michigan, exclusive of conflict or choice-of-law rules, and the Parties hereby consent to the personal and exclusive jurisdiction and venue of the Michigan state courts and the federal and state courts located in Wayne County, Michigan.

**E. Severability.** In the event that any provision in this Provision is found by a court to be impermissible or illegal, then that provision shall be stricken from the Provision and shall be replaced by a provision that is permissible and legal and by mutual agreement of the Parties comes closest to expressing the intent of the stricken provision. The remainder of the Provision shall remain in full force and effect in accordance with its original overall intent.

**F. Counterparts.** This Provision may be executed in multiple counterparts, each of which shall be deemed to be an original, but all of which together shall constitute but one document. Each counterpart may be executed by facsimile or electronic signature, which will be

deemed to be an original signature, to the extent permitted by Applicable Law.

G. **Authority of City.** Notwithstanding anything in this Provision or otherwise to the contrary, the City is not authorized or obligated to perform any of its obligations pursuant to this Provision until this Provision has been fully executed by the duly authorized representative of the City (if necessary, pursuant to the resolution of the Detroit City Council as approved by the Mayor of the City of Detroit, and has been approved by the City of Detroit Law Department). Any amendments or modifications must likewise be duly signed (if necessary, authorized by resolution of the City Council and approved by the Mayor), and must be approved by the Law Department, to be enforceable against the City.

Honorable City Council:

Re: Agreement with FCA and DBRA Fiat Chrysler Automotive Projects.

The City of Detroit ("City"). City of Detroit Brownfield Redevelopment Authority ("DBRA") and FCA US LLC ("FCA") have been in discussions to bring about the investment of approximately \$2.5 billion in FCA's Mack 1, Mack 2 and Jefferson North Assembly Plants (collectively the "Projects") to expand certain industrial automotive manufacturing in the City. It is anticipated that the Projects will result in the creation of approximately 4,950 additional FCA jobs in the City, as well as increase business and economic opportunities for related supplier and support industries.

The City proposes to enter into that certain agreement with the DBRA and FCA, a summary of which is included as Exhibit A to the attached resolution (the "FCA Agreement"). The FCA Agreement codifies the obligations of FCA, the City and the DBRA required to accomplish the Projects, including but not limited to: (1) DBRA's assemblage of land for transfer to FCA, (2) DBRA's construction of certain road improvements and site preparation activities, (3) the City's commitment to provide certain economic development incentives to FCA and vacate certain streets and alleys, (4) FCA's construction and operation of the Projects and (5) FCA's commitment to provide certain job opportunities.

As a part of DBRA's land assemblage efforts, DBRA will acquire approximately 208 parcels of land, more or less, from the City in exchange for the DBRA's payment to the City of up to Nine Hundred Sixty Five Thousand Ninety Three and 00/100 Dollars (\$965,093.00), based on the land value assigned to each parcel by the City of Detroit Assessor as reflected in the 2018 City property tax records, upon the terms and conditions of a separate land transfer agreement and subject to certain other conditions and subordinations. Following certain environmental due diligence, remediation, and other site preparation activities, DBRA will convey these properties and other properties acquired from other parties to FCA for the Projects.

We hereby request that your Honorable Body adopt the attached resolution that approves the FCA Agreement in furtherance of the Projects.

Respectfully submitted,

Director  
Planning and

By Council Member Tate:

Whereas, Detroit City Council has received a copy of that certain Agreement for the Development of Mack Assembly Plant ("FCA Agreement") that is by and among the City of Detroit ("City"), City of Detroit Brownfield Redevelopment Authority ("DBRA") and FCA US LLC ("FCA"); and

Whereas, A summary of the FCA Agreement is attached hereto and incorporated herein as Exhibit A for convenience; now therefore be it

Resolved, That the FCA Agreement is hereby approved by Detroit City Council; and be it further

Resolved, That the final FCA Agreement shall include additional provisions that require FCA to provide Detroit Residents the opportunity to apply for both Production Jobs and Skilled Trades Jobs (as defined by the UAW Contract) pursuant to that certain Section 7.03 (d) of the FCA Agreement; and be it further

Resolved, That the Mayor, or his authorized designee, is hereby authorized to execute the FCA Agreement, substantially in the form that was given to Detroit City Council with the above referenced additional provisions included, and to execute and deliver such other instruments as may be necessary or convenient to carry out the intents and purposes of the FCA Agreement and this resolution; and be it further

Resolved, That the Mayor is authorized to execute any required instruments to make and incorporate technical amendments or changes to the FCA Agreement (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels or funds) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise during the term of the FCA Agreement, provided that the changes do not materially alter the substance or terms of the FCA Agreement; and be it finally

Resolved, That the FCA Agreement, including any amendments or changes made thereto, will be considered confirmed when executed by the Mayor, or his authorized designee, and approved by the Corporation Counsel as to form.

**EXHIBIT A**  
**SUMMARY OF FCA AGREEMENT**  
**Agreement for the Development**  
**of the Mack Assembly Plant**

**FCA's Project:**

- FCA will complete construction and commence operations of the Mack Plant by no later than December 1, 2022 (under certain delay conditions, the deadline may be extended to December 1, 2023).
- The project is intended to create approximately 3,850 net new full-time employees in the operation of the Mack Plant, plus another projected 1,100 jobs as part of the planned Jefferson North Assembly Plant retooling project.

**City/DBRA Land Assembly:**

- Purchase and Sale of Parcels: DBRA is delivering parcels in three categories: (1) delivering City-owned parcels to FCA; (2) purchasing a number of parcels from third parties, then conveying those parcels to FCA; (3), facilitating the transfer of parcels directly from third party owners to FCA, without entering the chain of title.
  - In connection with each parcel to be conveyed to FCA, the City/DBRA will facilitate rezoning (as necessary), conduct Phase I environmental studies and conduct additional environmental testing as directed by FCA.
  - DBRA will also conduct certain environmental remediation and site preparation activities on parcels to be delivered to FCA.

- DBRA is also taking down the berm west of the Mack Plant property, immediately to the west of St. Jean Street, between East Warren Avenue and Kercheval Avenue, and will construct a sound barrier in its place, to better separate the plant campus from the adjacent area and mitigate potential noise impacts from the project.

- The City will vacate portions of St. Jean Street Avenue, as well as partial sections of the East Vernor Highway, Charlevoix Street, Goethe Street, Conner Lane and East Canfield Street rights of way so that those vacated rights of way can be incorporated into the project's footprint.

**Workforce Commitments:** Subject to collective bargaining commitments, FCA will use good faith efforts to provide Detroit residents the opportunity to apply for production jobs in accordance with the following:

- **Initial Application Process:** DESC has agreed to support aspects of FCA's talent needs as they relate to recruiting, pre-screening and vetting, and work-readiness training related to production jobs with a value of at least \$2 million.
  - FCA will work with DESC to develop an initial application process that gives Detroit residents the opportunity to apply for production jobs, subject to FCA providing priority to UAW candidates.
  - Subject to priority being given to the UAW candidates, FCA will, in cooperation with DESC, open specified windows exclu-

sively for Detroit residents (anticipated to be 1 - 2 weeks each) to apply for production jobs (first, to Detroit residents who reside in the geographic areas most impacted by the project due to their proximity to the Mack Plant, second, to all other Detroit residents, including individuals who have successfully completed the DESC readiness program as a result of a criminal conviction, or who are military veterans).

- **Hiring After Initial Application Process:** After the initial application process is completed, FCA will consider continuing to provide the above-referenced application priorities for DESC candidates if FCA and DESC mutually agree in writing on the terms of such, including DESC continuing to provide in-kind support services to FCA.

**Financial Commitments:**

- FCA has projected a \$1.6 billion investment in the Mack Plant, and a \$900 million investment in the Jefferson North Assembly Plant.

- The City, in partnership with the State, has offered a \$107,590,000<sup>1</sup> financial package, which constitutes the “Municipal Project Funds” available for all activities under the Development Agreement.

- The City’s cash contribution consists of \$36 million of City bond proceeds, \$7.09 million in funds available from asset sales and a \$7.5 million loan to the DBRA, payable from TIF revenues,

- The City has requested \$57 million in grants and loans from the State to support site preparation.

- In addition, the City has contributed approximately \$14.35 million worth of land for land exchanges to acquire certain parcels for contribution to the project.

**Remedies/Repayments to the City/ DBRA:**

- FCA has agreed to report the various revenues produced by the project in the form of City income tax from new jobs, property tax increases (net of abatements and TIF capture), and growth in corporate City income tax as a result of expanded operations.

- If the City does not recoup its approximately \$57.4 million direct investment (\$43.09 million in cash granted, \$14.35 million in land) within thirty years, FCA will pay the City the shortfall.

- If FCA does not commence operations of the Mack Plant by December 1, 2023 (and its failure is confirmed through the arbitration process built in to the document) title to the contributed property may re-vest in the DBRA by either (1) a right of reverter, with respect to properties that are conveyed by the DBRA or (2) the enforcement of a “Grant of Rights” which functions like a reverter, but with respect to property conveyed directly by third parties to FCA.

- If FCA (prior to the City’s recoupment of its investment or within 15 years,

whichever is later) ceases operations of the plant for a period of sixty (60) consecutive months, the DBRA has the opportunity to re-purchase a 58-acre assembling including the former Connors Creek Power Plant property for fair market value.

- If (prior to the City’s recoupment of its investment) FCA seeks to re-sell any parcels prior to the recoupment of the City’s investment, it must determine and notify the DBRA that the sale will result in similar use of the property, or receive City approval. In either case, the DBRA receives 75% of the sale proceeds.

<sup>1</sup>The State component only represents State funds requested by the City in support of the project.

Honorable City Council:

Re: Amended — Funding Agreement with DBRA / Loan to DBRA / Land Transfer Agreement with DBRA In Support of Mack 1 Plant, Mack 2 Plant, Jefferson North Assembly Plant.

The City of Detroit (“City”), City of Detroit Brownfield Redevelopment Authority (“DBRA”) and FCA US LLC (“FCA”) have been in discussions to bring about the investment of approximately \$2.5 billion in FCA’s Mack 1, Mack 2 and Jefferson North Assembly Plants (collectively the “Projects”) to expand certain industrial automotive manufacturing in the City. It is anticipated that the Projects will result in the creation of approximately 4,950 additional FCA jobs in the City, as well as increase business and economic opportunities for related supplier and support industries.

In support of progressing the Projects forward, the City wishes to: (1) provide certain funding to the DBRA under a funding agreement, (2) loan certain funds to the DBRA and (3) transfer certain City-owned parcels to the DBRA under a land transfer agreement; all of which are vital to bringing the Projects to fruition. Attached hereto are two (2) separate resolutions approving the agreements and the loan as summarized below:

**◦ Resolution 1 — Funding Agreement and Loan to the DBRA**

The City and the DBRA wish to enter into that certain funding agreement to provide for the City’s transfer of Thirty Three Million and Ninety Thousand and 00/100 Dollars (\$33,090,000.00) to the DBRA to assist in paying the cost of cer-

tain activities to be performed by DBRA in support of the Projects (the "Funding Agreement").

The City also wishes to provide a loan to the DBRA in the amount of Seven Million Five Hundred Thousand and 00/100 Dollars (\$7,500,000.00) for a period not to exceed thirty (30) years, at a rate of interest not less than one percent (1%) per annum on the outstanding amount thereof (the "Loan"). The Loan shall payable from tax increment revenues captured by the DBRA ("TIR") pursuant to a brownfield redevelopment plan and Act 381 Work Plan relating to a portion of the Projects and shall be non-recourse to DBRA. The terms of the Loan shall be set forth in a loan agreement between the City and the DBRA that will finalized at a later date.

◦ **Resolution 2 — Land Transfer Agreement with DBRA**

The City and the DBRA wish to enter into that certain land transfer agreement to convey approximately 208 parcels of land to the DBRA in exchange for the DBRA's payment to the City of up to Nine Hundred Sixty Five Thousand Ninety Three and 00/100 Dollars (\$965,093.00) (the "Purchase Price"), based on the land value assigned to each parcel by the City of Detroit Assessor as reflected in the 2018 City property tax records (the "Land Transfer Agreement"). Such payment will initially be made by a promissory note solely payable from TIR pursuant to a brownfield redevelopment plan and Act 381 Work Plan relating to a portion of the Projects. Further, DBRA's Payments to the City on the promissory note shall be subordinate to: (i) the repayment of obligations of the DBRA to the City and the Michigan Strategic Fund ("MSF") on account of loans anticipated to be made by the City and MSF to DBRA for the Projects and (ii) disbursements permitted by Act 381 and/or applicable DBRA or MSF guidelines for administrative fees, state and/or local revolving fund contributions, and other similar purposes. In the event the TIR remaining after the repayment of the above referenced payment obligations and permitted disbursements are not sufficient to pay the Purchase Price in full, the promissory note shall be non-recourse to the DBRA.

The City is hereby requesting that your Honorable Body adopt the attached two (2) resolutions that approve the above referenced Funding Agreement, Loan, Land Transfer Agreement and the sale of City-owned parcels to the DBRA in support of the Projects.

NOW, THEREFORE, in consideration of the foregoing premises and of the covenants and agreements hereinafter contained, it is mutually agreed as follows:

#### **ARTICLE I**

1.01 Sale. Subject to the terms, covenants and conditions of this Agreement, the DBRA agrees to purchase and the City agrees to convey the City Property for the Purchase Price (as defined below). The DBRA may request, from time to time, the conveyance of all or a portion of the City Property and, promptly following such request, such conveyance shall be made by one or more quit claim deeds executed by the City in the form attached hereto as Exhibit C.

1.02 Purchase Price. The "Purchase Price" shall be an amount up to Nine Hundred Sixty-Five Thousand Ninety-Three (\$965,093) and 00/100 Dollars, based on "land value" assigned to each Parcel by the City of Detroit Assessor, as reflected in the 2018 City property tax records. The Purchase Price shall be paid to the City pursuant to the terms of a promissory note, executed by the DBRA for the benefit of the City (the "Promissory Note"), which Promissory Note shall be in form and substance satisfactory to the City. The Promissory Note shall be payable solely from tax increment revenues (the "TIR") captured by the DBRA pursuant to a brownfield redevelopment plan and Act 381 Work Plan relating to the Project; pro-

vided, however that such repayment shall be subordinate to (i) the repayment of obligations of the DBRA to the City and the Michigan Strategic Fund on account of loans anticipated to be made by the City and MSF to DBRA for the Project and (ii) disbursements permitted by Act 381 and/or applicable DBRA or Michigan Strategic Fund guidelines for administrative fees, state and/or local revolving fund contributions, and other similar purposes. The City acknowledges and agrees that in the event the TIR remaining after the repayment of the above referenced payment obligations and permitted disbursements are not sufficient to pay the Purchase Price in full, the Promissory Note shall be non-recourse to the.

1.03 Title Commitment. The DBRA, at its option, may obtain a commitment for an owner's title insurance policy issued by a responsible title insurance company authorized to do business in the State of Michigan to insure the DBRA's title to any City Property, subject only to such conditions and exceptions as are provided for herein and reasonably acceptable to the DBRA. The cost of such title commitment and a policy issued pursuant to it, if any, shall be paid by the DBRA. Notwithstanding anything in this Agreement to the contrary, in the event DBRA determines, upon examination of the above-referenced title commitments, that a quiet title action (a "QTA") is necessary or desirable in order to provide insurable title to any Parcel to the Company, the DBRA is hereby authorized to transfer such Parcel or Parcels to the Detroit Land Bank Authority ("DLBA") on an interim basis solely for the purpose of carrying out a QTA with respect to the affected Parcel or Parcels. Further, upon the DBRA's election, the City agrees to transfer any Parcel or Parcels as indicated by the DBRA directly to the DLBA for purposes of carrying out a QTA, and such Parcel or Parcels shall be conveyed to the DBRA following the conclusion of such QTA.

1.04 Payment of Miscellaneous Expenses. The DBRA shall be responsible for recording and paying any fees for recording the quit claim deed and any other documents that the City determines must be recorded in connection with the transfer and development of the City Property. DBRA, at its option, may have the Company pay the costs contemplated by this Section 1.04.

1.05 Condition of City Property. The DBRA shall accept the City Property "AS IS", without any representation by or warranty from the City as to the condition of the Property.

## **ARTICLE II**

2.01 Development. The DBRA shall transfer the City Property to the Company

in accordance with the terms of the Development Agreement.

2.02 Certificate of Completion. Upon the Company's delivery to the DBRA of the Operations Notice and recording of the Certificate of Completion (each as defined in the Development Agreement) pursuant to Section 10.01 of the Development Agreement and notice to the City of such delivery, the DBRA's obligations pursuant to this Agreement shall be deemed satisfied, and the parties shall have no further obligations hereunder, except as provided in the Promissory Note described in Section 1.02 of this Agreement.

## **ARTICLE III**

3.01 Termination of Development Agreement Prior to Conveyance to DBRA.

If, prior to the City's conveyance of any City Property to the DBRA, the Development Agreement is canceled or terminated for any reason whatsoever, the City may cancel this Agreement, whereupon the DBRA shall have no further rights and the City shall have no further obligations hereunder with respect to the City Property not yet conveyed to the DBRA. Within thirty (30) days after receipt of written notice from the City of such cancellation, the DBRA shall acknowledge such cancellation and the termination of the DBRA's rights and the City's obligations hereunder with respect to the City Property not yet conveyed to the DBRA. In the event that the DBRA fails to acknowledge such cancellation and the termination in accordance with this Section 3.01, the DBRA hereby irrevocably appoints the City as its attorney-in-fact with power to execute any and all documents necessary to acknowledge such cancellation and the termination, including but not limited to a quit claim deed from the DBRA conveying to the City any and all right, title, and interest in and to the not yet conveyed City Property.

3.02 Termination of Development Agreement Prior to Conveyance to Company.

If, prior to the DBRA's conveyance of any City Property to the Company, the Development Agreement is canceled or terminated for any reason whatsoever, the DBRA shall, within thirty (30) days after receipt of written notice from the City, convey the not yet conveyed City Property back to the City by quitclaim deed and assign to the City the DBRA's interest in such City Property. In the event that the DBRA fails to convey the not yet conveyed City Property and assign its interest in such City Property in accordance with this Section 3.02, the DBRA hereby appoints the City its attorney-in-fact, with full power and authority to execute any and all documents necessary or convenient to convey such City Property by quitclaim

deed from the DBRA to the City and otherwise assign the DBRA's interest in such City Property to the City.

**3.03 Election by Company not to Receive City Property.** In the event that the Company elects, pursuant to the Development Agreement, not to accept any portion of the City Property after such City Property has been conveyed by the City to the DBRA and before such City Property is conveyed to the Company, the DBRA shall, within thirty (30) days after receipt of written notice from the City, convey such City Property back to the City by quitclaim deed and assign to the City the DBRA's interest in such City Property. In the event that the DBRA fails to convey such City Property and assign its interest in such City Property in accordance with this Section 3.03, the DBRA hereby appoints the City its attorney-in-fact, with full power and authority to execute any and all documents necessary or convenient to convey such City Property by quitclaim deed from the DBRA to the City and otherwise assign the DBRA's interest in such City Property to the City. Any City Property not requested to be reconveyed to the City pursuant to the foregoing may be conveyed by the DBRA to a party other than Company in connection with an alternative development plan upon the prior written consent of the PDD Director.

**3.04 Failure to Provide Operations Notice Subsequent to Conveyance.** In the event of the Project Default (as defined in the Development Agreement), the DBRA shall, within thirty (30) days after receipt of written notice from the City, exercise its rights under Section 11.03 of the Development Agreement in accordance with the terms of the Development Agreement. In the event that the DBRA exercises a remedy under the Development Agreement that includes the exercise of reversionary rights for all or a portion of the City Property, the DBRA shall, within thirty (30) days after receipt of written notice from the City, convey such City Property back to the City by quitclaim deed and assign to the City the DBRA's interest in such City Property. In the event that the DBRA fails to convey such City Property and assign its interest in such City Property in accordance with this Section 3.04, the DBRA hereby appoints the City its attorney-in-fact, with full power and authority to execute any and all documents necessary or convenient to convey such City Property by quitclaim deed from the DBRA to the City and otherwise assign the DBRA's interest in such City Property to the City. Any City Property not requested to be reconveyed to the City pursuant to the foregoing may be conveyed by the DBRA to a party other than Company in connection with an alterna-

tive development plan upon the prior written consent of the PDD Director.

**3.05 Remedies.** The rights and remedies provided to the City in Sections 3.01, 3.02, 3.03 and 3.04 hereof shall be cumulative of all other remedies at law or in equity, and shall not be the exclusive remedy of the City against the DBRA for default by the DBRA under this Agreement. In the event of the City breaches any of its obligations under this Agreement, then, after reasonable notice and opportunity to cure, the DBRA shall have the right solely to seek injunctive relief, specific performance or other equitable remedies for the City's breach of this Agreement, and in no event and under no circumstances shall the DBRA be entitled to monetary damages.

#### **ARTICLE IV**

**4.01 Independent Contractors.** The relationship of the City and the DBRA is, and shall continue to be, an independent contractor relationship and no liability or benefits such as workers' compensation, pension rights or liabilities, insurance rights or liabilities or other provisions of liabilities arising out of or relating to a contractor for hire or employer/employee relationship shall arise or accrue to either party or either party's agents or employees with respect to the City as a result of this Agreement or the Development Agreement.

**4.02 Mutual Cooperation.** The parties acknowledge that mutual cooperation will be required to accomplish the intent and objectives of this Agreement, and therefore agree to cooperate mutually in the development of the City Property in order to best serve the respective interests of the public, the City and the DBRA.

#### **ARTICLE V**

**5.01 Soave Agreements.** If, upon the expiration of the Site Prep Escrow, as described in the Soave Agreements, there are any sale proceeds remaining in the Site Prep Escrow, such remaining sale proceeds shall be distributed by the DBRA to each of the City, DBRA and EDC in a manner that is proportionate to the value of the property transferred by each of the City, DBRA and the EDC under the Soave Agreements.

#### **ARTICLE VI**

**6.01 No Individual Liability.** No official or employee of the City shall be personally liable to the DBRA or its successor in interest in the event of any default or breach by the City of any of the terms of this Agreement. No official or employee of the DBRA shall be personally liable to the City or its successor in interest in the event of any default or breach by the DBRA of any of the terms of this Agreement.

6.02 Conflict of Interest. No officer or employee of the City or the DBRA shall have any personal interest, direct or indirect, in this Agreement, nor shall any such official or employee participate in any decision relating to this Agreement which affects his or her personal interest or the interest of any corporation, partnership or association in which he or she is directly or indirectly interested.

7.01 Fair Employment Practices. In accordance with the United States Constitution and all federal legislation and regulations governing fair employment practices and equal employment opportunity, including but not limited to Title VI of the Civil Rights Act of 1964 (P.L. 88-352, 78 STAT. 252) and United States Department of Justice Regulations (28 C.F.R. Part 42) issued pursuant to the title, and in accordance with the Michigan Constitution and all state laws and regulations governing fair employment practices and equal employment opportunity, including but not limited to the Michigan Civil Rights Act (1976 PA 220), the DBRA agrees that it will not discriminate against any person, employee, consultant or applicant for employment, training, education, or apprenticeship connected directly or indirectly with the performance of this Agreement with respect to his or her hire, promotion, job assignment, tenure, terms, conditions or privileges of employment or hire because of his (her) religion, race, color, creed, national origin, age, sex, height, weight, marital status, public benefit status, sexual orientation or handicap that is unrelated to the individual's ability to perform the duties of a particular job or position. The DBRA recognizes the right of the United States and the State of Michigan to seek judicial enforcement of the foregoing covenants against discrimination against itself or its subcontractors.

Breach of the terms and conditions of this section may be regarded as a material breach of this Agreement.

#### **ARTICLE VIII**

8.01 Notices. Honorable City Council:  
Re: Corrected — Land Exchanges /  
Property Sales. In Support of Mack 1  
Plant, Mack 2 Plant, Jefferson North  
Assembly Plant Projects

The City of Detroit ("City"), City of Detroit  
Brownfield Redevelopment Authority  
("DBRA") and FCA US LLC ("FCA") have  
been in discussions to bring about the  
investment of approximately \$2.5 billion in  
FCA's Mack 1, Mack 2 and Jefferson North  
Assembly Plants (collectively the "Pro-  
jects") to expand certain industrial automo-  
tive manufacturing in the City. It is  
anticipated that the Projects will result in the  
creation of approximately 4,950 additional  
FCA jobs in the City, as well as increase  
business and economic opportunities for  
related supplier and support industries.

In support of progressing the Projects  
forward, the City has worked with the  
DBRA to negotiate an additional series of  
real estate transactions that are vital to  
land assembly required to bring the Pro-  
jects to fruition (the "Real Estate Transac-  
tions"). Attached hereto are four (4)  
separate resolutions approving the Real  
Estate Transactions by and through the  
City's Planning and Development Depart-  
ment ("P&DD"), and an additional resolu-  
tion authorizing the Detroit Land Bank  
Authority ("DLBA") to transfer certain  
parcels to DBRA to support the Projects,  
which are summarized as follows:

o **Resolution 1 — Property Sale /  
Land Exchange — Fodale Group &  
Associates**

The City has received an offer from  
Fodale Group & Associates ("Purchaser")  
to purchase 4 City-owned properties and  
68 parcels, more or less, owned by the  
Detroit Land Bank Authority ("DLBA") in  
exchange for: (1) Purchaser's transfer of  
12001 and 12017 Mack Avenue (the "Pur-  
chaser's Exchange Properties") to the  
DBRA and (2) monetary consideration Two  
Hundred Eighty Thousand and 00/100 Dol-  
lars (\$280,000.00) as further described in  
the attached Resolution 1. Sale proceeds  
received by the City and DBRA pursuant to  
this sale, and related sales to Lynch Road  
Land LLC (described in Resolution 2) and  
Trident Huber LLC will be escrowed and  
made available to Purchaser to offset cer-  
tain costs as described in Resolution 1.

It is DBRA's intent to transfer the Pur-  
chaser's Exchange Properties to FCA for  
the Projects.

◦ **Resolution 2 — Property Sale / Land Exchange — Lynch Road Land LLC**

The City has received an offer from Lynch Road Land LLC ("Purchaser") to purchase certain City-owned parcels at 10600 Gratiot and part of 10644 Gratiot for a purchase price calculated at \$60,000/acre ("Purchase Price") as further described in the attached Resolution 2. In the event that the DBRA acquires part of the adjacent parcel located at 10780 Gratiot, such parcel will be included in the sale at DBRA's cost of purchase. Sale proceeds received by the City and DBRA pursuant to this sale, and related sales to Fodale Group & Associates (described in Resolution 1) and Trident Huber LLC will be escrowed and made available to Purchaser to offset certain costs as described in Resolution 2.

◦ **Resolution 3 — Property Sale / Land Exchange — Crown Enterprises, Inc.**

The City has received an offer from Crown Enterprises, Inc. ("Crown") for Crown to transfer 12141 Charlevoix (the "Budd Plant Property") to the DBRA for a purchase price of Fifty-Four Million and 00/100 Dollars (\$54,000,000.00). The purchase price shall be payable in part by Crown's election to purchase any of the approximately 261 properties, more or less, owned by City, the Detroit Land Bank Authority, or the Economic Development Corporation of the City of Detroit, in which event the value of such property shall be credited against the purchase price as further described in the attached Resolution 3. The purchase price is subject to a potential increase in the amount of Twenty Million and 00/100 Dollars (\$21,000,000.00) in the event certain conditions are not met, a portion of which may be payable by the City and DBRA according to the terms of the Development Agreement with FCA.

The Budd Plant Property will be transferred to FCA for the Projects.

◦ **Resolution 4 — Land Transfer — Detroit Land Bank Authority ("DLBA") to DBRA**

The DLBA wishes to transfer certain parcels to the DBRA by land transfer agreement in furtherance of the Projects and as further described in the attached Resolution 4.

The City is hereby requesting that your Honorable Body adopt the attached four (4) resolutions that approve the above referenced Real Estate Transactions in support of the Projects.

Respectfully submitted,  
MAURICE COX  
Director  
Planning and  
Development Department

**PURCHASE OF BUDD PLANT SITE**
**Description**

The City of Detroit Brownfield Redevelopment Authority ("DBRA") is acquiring the 82-acre site of the former the Budd Plant (the "Budd Plant Property") from Crown Enterprises, Inc. ("Crown"). The \$54 million purchase price would be funded by a combination of \$43.5 million in cash consideration and other City-owned land valued at up to \$10.5 million. If the swap properties are not acceptable through due diligence, etc., the DBRA will replace the land with the cash value identified for each property. The purchase price is subject to a \$21 million increase in the event certain conditions are not met, a portion of which may be payable by the City and DBRA according to the terms of the development agreement with FCA.

The acquired Budd Plant Property will be used by FCA for finished vehicle parking for the new Mack facility and JNAP.

Public Lighting Authority (PLA) reports involvement and that due to the time sensitive nature of the work, they have already removed all of their equipment.

DTE Gas Company reports involvement, but no objections to the changes provided an easement is reserved for their facilities.

AT&T reports involvement, but no objections to the changes provided an easement is reserved for their facilities.

DTE Energy — Electric reports involvement, and objects to the changes, because they have underground cable, conduit, manholes and electrical circuits in St. Jean Avenue.

Detroit Fire Department (DFD) reports involvement, but no objection provided access is maintained to businesses, homes and Fire Department connections.

All other involved City Departments, and privately owned utility companies informed of this petition have reported no objections to the vacations. FCA's commitment to continue working with all involved public and private utilities to protect their installations is incorporated in the attached resolution.

I am recommending adoption of the attached resolution and further respectfully request that your Honorable Body adopt

**RESOLUTION IN SUPPORT OF HOUSE BILL 4326 OF 2019**

By Council Member Sheffield, joined by Council President Jones and Council Members Castaneda-Lopez and McCalister.

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit’s citizens through Charter-mandated legislative functions; and

WHEREAS, Formerly incarcerated people need stable jobs, access to affordable housing for the same reasons as everyone else: to support themselves and their loved ones, pursue life goals, which culminates in strengthening our community; and

WHEREAS, In April 2011, The Pew Research Center released the report, *Revolving Door of America’s Prisons* suggests that states could lower recidivism rates by just 10 percent, they could save an average of \$635 million annually; and

WHEREAS, After decades of repressive laws and policies that continue to punish offenders well after they have completed their sentences, even hard line law and order advocates are finally admitting, that discriminatory policies, make reentry to the community extremely difficult for someone previously incarcerated. But most importantly, they are recognizing the potential cost savings to government by reforming this system; and

WHEREAS, On September 7, 2018, then Governor Snyder signed an executive directive instructing all state departments and agencies to remove the felony question box; and

WHEREAS, The Detroit City Council is committed to welcoming returning citizens into the community by implementing ordinances that remove barriers for housing and employment, in an effort to decrease rates of recidivism:

- In 2010, the City enacted the “Ban the Box” ordinance, which limits questioning applicants about criminal convictions until after they are determined to be qualified for hiring; and
- Further, in 2012 the City also asked its vendor and contractors to remove the conviction history question from job applications; and
- Council Member Ayers, introduced the *Fair Chance Access to Rental Housing Ordinance*, affords citizens with criminal records a fair opportunity to secure housing by regulating the use of criminal background checks as part of the tenant screening process. The ordinance will become effective in July 2019.

WHEREAS, House Bill 4326, known as the *Job Applicant Criminal History Act* is sponsored by the *Honorable Cynthia A. Johnson, Michigan State Representative, 5th House District*, if enacted, would prohibit public and private employers from inquiring about an applicant’s criminal history during the application process before making a conditional offer of employment;

**RESOLUTION IN MEMORIAM  
FOR  
HONORABLE  
DAMON JEROME KEITH**

By ALL COUNCIL MEMBERS:

WHEREAS, We, the members of the Detroit City Council, solemnly pause today to recognize and bestow homage upon the late legendary Hon. Judge Damon Jerome Keith, a devoted husband, beloved father, grandfather, mentor, friend and Senior Judge of the United States Sixth Circuit Court of Appeals, who made his heavenly transition on April 28, 2019. Judge Keith was the longest-serving black judge in the nation; and

WHEREAS, A grandson of slaves, Damon Jerome Keith was born in Detroit, Michigan, on Independence Day July 4, 1922. He was the youngest of seven children born to Perry and Annie Keith. His father moved the family from Georgia in the 1920s to get a job at a Ford plant,

earning \$5-per-day as a foundry worker. Judge Keith's inspiration began with the vital lessons he learned from his father who was also a real estate business owner. Perry Keith taught his son that he was somebody; to love your family; and to work hard for it. He insisted that college was in his son's future. Keith graduated from Northwestern High School in 1939. He then moved on to West Virginia State College where he earned a Bachelor of Arts degree in 1943. Keith served in a segregated Army unit during World War II, from 1943 to 1946. He was honorably discharged as a Sergeant. His aspiration to become a lawyer was partly sparked by the racism he experienced when he came home from his wartime service, having to still ride on the back of the bus, drink from separate water fountains and use separate bathrooms, and not being able to go into restaurants. Keith enrolled at Howard University School of Law where he received a Bachelor of Laws in 1949. There, he studied under the renowned civil rights warrior, Thurgood Marshall, who later became the first African-American U.S. Supreme Court Justice. Marshall showed Keith how to use the courts and the U.S. constitution to battle segregation and Jim Crow laws. After graduating from Howard, Keith worked as a janitor at the Detroit News while studying for his bar exam. He became a clerk for Loomis, Jones, Piper & Colden, a black law firm and later returned to the firm as a lawyer. Keith received a Master's in Law in 1956 from Wayne State University and in 1964 opened his own law firm, which eventually became known as Keith, Conyers, Anderson, Brown & Wahls; and

WHEREAS, In 1953, Damon J. Keith was united in marriage to Rachel Boone. Born in Monrovia, Liberia. Rachel broke racial and gender barriers, earning a medical degree from Boston University in 1949. Dr. Rachel Keith worked at Detroit Receiving Hospital and later opened her own practice. To this union three daughters were born: Cecile Keith Brown, Debbie Keith and Gilda Keith. They were the proud grandparents of two granddaughters, Nia Keith Brown and Camara Keith Brown. His beloved wife of fifty-three years, Rachel Boone Keith, made her transition in 2007; and

WHEREAS, Keith served as a Wayne County Commissioner (1958-63), president of the Detroit Housing Commission (1958-67) and co-chair of Michigan's first Civil Rights Commission (1964-67). In 1967, he was appointed to the U.S. District Court for the Eastern District of Michigan by President Lyndon Johnson. Keith, who served as chief judge of the district court, was elevated to the U.S. Circuit Court of Appeals for the Sixth District in 1977 by President Jimmy Carter. Serving more

than fifty years in the federal courts, Judge Keith was one of the most influential Federal jurists of the 20th and 21st centuries. His rulings in a string of high-profile cases catapulted him to the status of national civil rights icon. In 1970, when Keith was a U.S. District Court judge, he ordered citywide busing to desegregate public schools in Pontiac, Michigan. It was the first decision on federal court-ordered busing outside of southern states, and prompted serious death threats. In 1971, Judge Keith made another groundbreaking decision, finding that the City of Hamtramck, Michigan, illegally destroyed black neighborhoods to make way for the Chrysler Freeway in the name of urban renewal, with the federal government's help. That same year, he captured the nation's attention again with the wiretapping case against President Richard Nixon's administration. Judge Keith ruled that Nixon's attorney general had to disclose the transcripts of illegal wiretaps that were authorized without first obtaining a search warrant. He also upheld Detroit Mayor Coleman A. Young's affirmative action program, which desegregated the city's mostly white police force; and

WHEREAS, Judge Keith received more than forty honorary degrees and some of the highest accolades from civic, academic and civil rights organizations across the country. He also received the Edward J. Devitt Distinguished Service to Justice Award, the highest award that can be bestowed on a member of the federal judiciary. In 2011, Wayne State opened the Damon J. Keith Center for Civil Rights in the university's law school. In later years, Judge Keith hosted his popular annual Soul Food Luncheon to honor an African-American leader for contributions to the community. Judge Damon Jerome Keith has left his indelible mark on the Detroit community and beyond. He has been a good servant and ensured that the values and traditions by which he lived, would exist in the hearts of those he cherished for years to come. *"He did the best he could with his God-given talent, and he used his life and the law to try to make things better for all Americans."* — Judge Damon Jerome Keith.

NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones, joins with family and friends in honoring the life and legacy of Judge Damon Jerome Keith. He will be greatly missed and his contributions and the lessons he taught will live on forever.

**City Planning Commission**

May 19, 2019

Honorable City Council:

Re: Request of Mr. JaJuan Thomas to amend Article XVII, District Map No. 77 of the 1984 Detroit City Code, Chapter 61, Zoning, by showing a B4 (General Business District) zoning classification where an R1 (Single-Family Residential District) zoning classification currently exists on one (1) parcel commonly identified as 11620 Westwood Avenue, generally bounded by Wadsworth Avenue to the north, Chesapeake and Ohio Railway to the east, Plymouth Road to the south and Westwood Avenue to the west. (RECOMMEND APPROVAL)

**NATURE OF REQUEST AND PROJECT PROPOSAL**

The City Planning Commission (CPC) has completed its review and deliberations on the request of Mr. JaJuan Thomas to show a B4 (General Business District) zoning classification where an R1 (Single-Family Residential District) zoning classification currently exists on one (1) parcel commonly identified as 11620 Westwood Avenue, generally bounded by Wadsworth Avenue to the north, Chesapeake and Ohio Railway to the east, Plymouth Road to the south and Westwood Avenue to the west.

The proposed map amendment is being requested to allow for the establishment of a "Store of a generally recognized retail nature whose primary business is the sale of new merchandise" at 11620, 11610 and 11600 Westwood Avenue. The proposed retail use would be permitted on a by-right basis in the proposed B4 zoning classification per Sec. 61-9-76(38) as a by-right retail use.

**BACKGROUND**

The City Planning Commission (CPC) has received a request from Mr. JaJuan Thomas requesting the City of Detroit to amend Article XVII, District Map No. 77 of Chapter 61 of the 1984 Detroit City Code. 'Zoning' to show a B4 (General Business District) zoning classification where an R1 (Single-Family Residential District) zoning classification currently exists on one (1) parcel commonly identified as 11620 Westwood Avenue, generally bounded by Wadsworth Avenue to the north, Chesapeake and Ohio Railway to the east, Plymouth Road to the south and Westwood Avenue to the west.

The subject property is located in Council District 7 and measures less than half an acre in area. The parcel commonly identified as 11620 Westwood Avenue is currently under a lease to own agreement between Mr. Thomas and the Harvey Goldberg Trust, which gives the applicant legal standing to pursue the requested rezoning.

The subject property is located in Census Tract 5468. Based on the most recent census data, the total population for the area is 3,171. There are approximately 1,173 occupied residential units and 480 vacant residential structures which results in a vacancy rate of 29%.

#### **Proposed Development**

The proposed map amendment is being requested to allow for the establishment of a "Store of a generally recognized retail nature whose primary business is the sale of new merchandise" at 11620, 11610 and 11600 Westwood Avenue. The proposed retail use would be permitted on a by-right basis in the proposed B4 zoning classification per Sec. 61-9-76(38) as a by-right retail use.

#### **SURROUNDING LAND USE AND ZONING**

The zoning classification and land uses surrounding the subject area are as follows:

North: R1; Single-Family Residential along Westwood Avenue.

East: M4; Vacant Industrial Site.

South: B4; Vacant Land.

West: R1 & B4; Single-Family Residential / Vinny's Beer and Wine.

#### **CITY PLANNING COMMISSION PUBLIC HEARING & OTHER COMMUNITY MEETINGS**

Prior to the submittal of the petitioner's application CPC staff, along with the petitioner's representative, Mr. Mike Semma reached out to several adjacent property owners and residents in an effort to inform them of the pending rezoning request. Residents of the subject block of Westwood Avenue conducted a community meeting, at which the rezoning request was discussed. As a result of the meeting approximately seven residents have voiced their support for the proposed rezoning, citing that they are excited about additional retail offerings along Plymouth Road, and that they would rather see general retail on the three subject parcels slated for development, rather than the illegal dumping which currently occurs.

#### **PUBLIC HEARING RESULTS**

On January 31, 2019, the City Planning Commission held a public hearing on this request. There were no members of the public in attendance to address the rezoning request.

The Commission requested that staff reach out to the established neighborhood association to inform them of the requested rezoning and pending develop-

ment and to solicit feedback. With the assistance of Commissioner Webb, contact was made with the Weathersby neighborhood association in this regard.

#### **MASTER PLAN CONFORMANCE**

The subject site is located within the Cody area of Neighborhood Cluster 7 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "Light Industrial" for the subject property. The Planning and Development Department (P&DD) has submitted a report dated January 28, 2019 which states in part:

*"While the project use is not industrial in nature, it does sit within a region bound by similar uses also operating under B4 zoning classifications. The proposed district rezoning conforms to the City's Master Plan of Policies."*

#### **ANALYSIS**

The proposed zoning classification of B4 would permit the requested uses of general retail or standard or carry-out restaurants on a by-right basis. The proposed B4 zoning classification would permit 74 by-right public, civic, institutional, retail, service, commercial, manufacturing, industrial and other uses, compared to the 5 permitted by right uses in the existing R1 zoning classification. The most intensive uses in the B4 zoning classification includes "Motor vehicle services" inclusive of repair and steam cleaning. However, staff will note that many automotive related uses would not be able to achieve licensure, given the Mayor's moratorium which is scheduled to go into effect on April 1, 2019.

The following analysis details how the proposed rezoning either meets or fails to meet the eight approval criteria of Section 61-3-80 of the Zoning Ordinance, which must be considered in making recommendations and decisions on standard rezoning requests.

*(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;*

The petitioner is currently under a land contract which includes two parcels presently zoned B4. The intent of the rezoning is to increase the depth of the commercial frontage and to allow for the aforementioned commercial uses. There are similarly situated commercial offerings along Plymouth Road.

*(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;*

While the subject rezoning is not a one-for-one match to the Master Plan of Policies land use designation, the Planning and Development Department finds the request generally consistent with the Master Plan as detailed later in this report.

*(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;*

The intensification of zoning adjacent to residential property is always of concern, particularly when that new zoning classification allows more abrasive uses. The B4 General Business District provides for business and commercial uses of a thoroughfare-oriented nature. In addition to these uses, other businesses, which may benefit by drawing part of their clientele from passing traffic are permitted. Additional uses, which may be successfully blended with permitted by-right uses, are conditional. Given the spacing and screening requirements which are specified for many of the uses permitted in the B4 zoning classification, staff is of the opinion that this proposed amendment may protect the health, safety, and general welfare of the public. Staff also cites the community's desire to see development, which would eliminate the current illegal dumping which occurs on the site at present.

*(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;*

The physical characteristics of the subject property will change significantly as a result of the proposed rezoning. Site plans have been presented which show the landscaping and layout of the proposed development. Given that the subject property is within a traditional street grid, disruption to city services is not anticipated.

*(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding storm water management;*

There are no concerns regarding any of these aspects.

*(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;*

The vast majority of the uses in the immediate area are either residential or commercial in nature. However, there is a densely populated residential neighborhood to the north of the subject property. Given the spacing, setback, landscaping and screening requirements for the proposed use, staff is of the opinion that no significant adverse impacts will occur as a direct result of the proposed rezoning. Typically, there is at least an alley separating the commercial frontage from a residential structure and one point of concern is the introduction of a restaurant-type business in such close proximity to residences.

*(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and*

As noted previously, the existing R1

zoning classification is not conducive for the proposed uses which are commercial in nature. Before making the recommendation to pursue a B4 zoning classification, CPC staff evaluated all zoning classifications and determined that the B4 zoning classification would allow for the proposed use and maintain the character of the neighborhood along the Plymouth Road frontage.

*(8) Whether the proposed rezoning will create an illegal "spot zone."*

Given the commercial nature of the corridor in which this rezoning has been requested along with the proposed rezoning's consistency with the Master Plan of Policies, CPC is of the opinion that the proposed rezoning would not constitute an illegal "spot zone."

#### **Suitability of the Property**

One of the aforementioned criteria for rezoning states, "The suitability of the subject property for the existing zoning classification and proposed zoning classification." Zoning Map No. 77 generally shows a mix of R1 and B4 zoning to the north, south, east and west of the subject property. This section of the Cody subsector is primarily developed with residential and commercial uses. The existing residential properties along Westwood Avenue were primarily built in 1942. As previously stated the B4 zoning classification allows for a variety of commercial offerings and supportive services for traditional residential neighborhoods.

In general, the CPC looks favorably on the rezoning of the subject parcel to accommodate the expansion of commercial and retail services.

#### **Land Use**

CPC is of the opinion that a B4 zoning classification is an appropriate designation consistent with the characteristics of the adjacent properties, which will allow for the establishment of commercial and retail related uses.

#### **Significant Impact on Other Property**

CPC is of the opinion that the rezoning of this property from a commercial standpoint might add to the sustainability of the surrounding community by allowing the establishment of an economically viable, tax revenue generating development.

#### **RECOMMENDATION**

On February 7, 2019 the City Planning Commission voted to recommend approval of the request of Mr. JaJuan Thomas to amend Article XVII, District Map No. 77 of the 1984 Detroit City Code, Chapter 61, Zoning, by showing a B4 (General Business District) zoning classification where an R1 (Single-Family Residential District) zoning classification currently exists on one (1) parcel commonly identified as 11620 Westwood Avenue, generally bounded by Wadsworth Avenue to the north, Chesapeake and Ohio Railway to

the east, Plymouth Avenue to the south and Westwood Avenue to the west.

Re: Recommendation for Deferral.  
Address: 19285 Conant. Name: Real  
Property Rental. Demolition ordered:  
September 28, 2015 (J.C.C. page  
\_\_\_\_\_).

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection conducted on October 31, 2018 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date that notice was provided to the applicant of the City Council decision.

2. BSEED will schedule a progress inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected and be maintained and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding three (3) deferrals must be made by petition to City Council through the office of the City Clerk.

**RESOLUTION IN MEMORIAM FOR WILLIE TURNER, JR.**

**November 30, 1923 — May 7, 2019**

By Council Member Leland:

WHEREAS, Willie Turner, Jr. was born to the late Willie Turner, Sr. and Ella Hicks in Midville, Georgia, and was the second child born to this union. Willie was also preceded by both his siblings in death, his older brother Charles Byrd Corker and his younger sister, Ruby Harmon-Harris; and

WHEREAS, Willie was affectionately known as Son, Slim, or Turner depending on the company he was in. In 1940, with just \$10 to his name, Willie joined the Great Migration and left Georgia headed to Detroit, MI. Willie landed on the doorstep of a boarding house on Detroit's eastside; in the renowned community, Black Bottom. After settling in Detroit, Willie worked various jobs to make ends meet. He landed employment as a welder with Kelsey-Hayes, Massey Ferguson, and finally, Ford Motor Company. He retired from Ford after 25 years of service in 1997. He never missed a single day's work in 25 years. Willie was a recipient of Ford's Perfect Attendance Award; and

WHEREAS, Willie met the love of his life, Dorothy Bagwell, while visiting friends in Ferndale, MI. Willie loved and adored Dorothy and they were wed in holy matrimony on October 23, 1954. They were married for 51 years until her death in July 2005. To this union two sons were born, Marcus and Darryl. Willie and Dorothy were loving parents and provided a warm and loving home for their children. The Turner home was one of the staples of the Collingwood community. Willie and Dorothy joined Detroit's Oak Grove AME

Church in 1955 and attended regularly until health impeded their ability to worship; and

WHEREAS, Willie had an entrepreneurial spirit. In 1962, using his own muscle and grit, he built and operated his own gas station. The station was located in Sumpter Township, at the corner of Sumpter and Oakville Waltz Roads. This was a significant accomplishment for a black man with limited financial means, but plenty of determination; and

WHEREAS Willie made his transition on Tuesday, May 7, 2019, peacefully at Cedar Woods Assisted Living facility in Belleville, MI, near his beloved family. He leaves to cherish his memory, his beloved sons Marcus (Angela) and Darryl; grandchildren Marcal, Mia, Mycah, Jesia, Devon and Ladonna; great granddaughter Tayla, a special niece Marjorie Stevens and his Collingwood Family.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for one (1) rehabilitated facility and one (1) new construction duplex home located at 2221 and 2225 Wabash Avenue, respectively in the Corktown West Neighborhood Enterprise Zone area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received two (2) applications requesting a Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk for the rehabilitation of 1) a single-family residential property and 2) the adding of an addition resulting in the duplexing of the property located at 2221 Wabash Avenue. The new addition will be identified as 2225 Wabash Avenue. These applications correspond to a qualified site. The project associated with 2221 Wabash Avenue consists of the rehabilitation of a 700 square foot cottage with a 400 square foot addition at a cost of \$246,116. The project associated with 2225 Wabash Avenue consists of the new construction of a two-unit duplex measuring approximately 11,000 square feet per unit at a cost of \$250,000.

The subject properties have been confirmed as being within the boundaries of the Corktown West NEZ which was established by a vote of Council on November 18, 1999, and should be eligible for NEZ certificates under State Act 147 of 1992

as currently written. The NEZ certificate applications appear to have been submitted prior to the issuance of any applicable building permits.

**Legislative Policy Division**

• In 2016, the Council developed a new system of review for the approval of certain NEZ certificates:

LPD assisted in developing a system for which the Council applied a greater level of scrutiny at the NEZ Zone approval stage. The recent upswing in the use of NEZs for the development of apartment buildings and condos downtown and in "Downtown Revitalization Districts,"<sup>1</sup> instead of just neighborhood single family residents, created a need for this review.

This Neighborhood Enterprise Zone was established in 1999, which is prior to the development of a system of additional financial review for NEZs in 2016, therefore there is no additional fiscal review for this item.

The office of the CPC had received two (2) applications requesting an NEZ certificate forwarded from the office of the City Clerk for the construction of new condominium units located at 411 and 423 East Ferry Avenue. These applications correspond to a qualified site that will facilitate the new construction of two carriage house style condominiums with attached garages. CPC staff had reviewed the applications and recommends approval.

The subject properties have been confirmed as being within the boundaries of the East Ferry NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The NEZ certificate applications appear to have been submitted within six months of the development being issued building permits on June 15, 2018.

The State Tax Commission had received the developer's NEZ exemption applications for 411 East Ferry and 423 East Ferry; citing that the files N2019-028 and N2019-029 were incomplete and require the submission of additional information in order to continue processing the applications.

The building permits submitted along with the applications show that the permits were issued on June 15, 2018 and the applications were filed with the City of Detroit Clerk's office on November 26, 2018. MCL 207.774 states that the application must be filed before a building permit is issued or as otherwise provided by the local governmental unit by resolution if

the application is filed not later than 6 months following the date the building permit is issued. This provision within the NEZ statute states that an application can be filed but not later than 6 months following the date the building permit was issued if the local governmental unit has specific language within the application approval resolution. The resolution adopted by the City of Detroit did not contain language that approves the submission of the applications after the issuance of the building permit.

In order to proceed the City of Detroit would have to approve the late submission and amend the resolution approving the application to include language accepting the applications being filed no later than 6 month following the date the building permit was issued.

Please contact our office should you have any questions.

Honorable City Council:

Re: Downtown Development Authority FY 2019-2020 Budget.

Pursuant to Section 228(1) of Public Act 57 of 2018, we have prepared the attached FY 2019-2020 Downtown Development Authority's (the "DDA") General Fund Budget for your approval prior to its adoption by DDA.

The amount of funds available from the one mill tax for FY 2019-20 has been estimated at \$1,050,000.00, net of collection delinquencies and reserves for tax settlements representing an increase of \$100,000.00 from 2018-19 due to an increase in property valuations. Transfer from the DDA's Tax Increment Fund will remain unchanged from the 2018-19 budgeted allocation of \$750,000.00.

The FY 2019-20 budget reflects revenues of \$800,000.00 to be generated from the parking operations, representing a reduction of \$700,000.00 in parking revenues from the FY 2018-19 budget due to the sale of DDA surface lots for the Monroe Block project. It should be noted that

these parking lots were always intended to be a temporary revenue source until they would be included in a development. Other/Events Center Revenues are estimated at \$15,000.00, representing a reduction of \$28,000.00 from FY 2018-19 due to the completion of arena building activities. A Fund balance of \$350,000 represents an expected excess of expenses over revenues.

On the appropriations side, contractual services of \$1,940,000.00, reflects a \$2,000.00 increase from FY 2018-19 due to an anticipated increase in audit expense. The budgeted amount of \$550,000.00 for professional services and fees, inclusive of a \$10,000.00 expense for Computer Support, representing an increase of \$20,000.00 from FY 2018-19 due to an anticipated increase in insurance premiums. There is a \$75,000.00 budgeted expense related to parking operations for FY 2019-20, this represents a \$50,000.00 decrease from FY 2018-2019 due to a decrease in the amount of lots owned by DDA requiring maintenance and security. Finally, \$500,000.00 of allocated funds for Special Projects and Contingencies for FY 2019-20 indicates no increase from last year.

We respectfully request City Council's approval of the attached budget at its June 11, 2019 formal meeting. A waiver of reconsideration is requested.

Should any member of the Council have any questions, please contact me at 483-4150.

Re: 2019-20 Community Development Block Grant (CDBG) and Neighborhood Opportunity Fund (NOF) Homeless Public Service Deliberations.

Your Honorable Body has previously taken action on the 2019-20 CDBG budget, which set aside \$2,475,417 for Homeless Public Service activities. A copy of the Schedule A which was prepared by the Housing and Revitalization Department, then reviewed and revised by the City Planning Commission staff and ultimately approved by your Honorable Body is attached for your reference.

In June of 2018 your Honorable Body authorized the shifting of the timeline for the HPS RFP to coincide with the Emergency Shelter Grants awards.

On Monday, May 20, 2019 the RFP went live and will remain open for 35 days. Two informational sessions to address questions regarding the RFP were held on May 21st and 22nd. All proposals are due June 24, 2019. In late June and early July the submitted proposals will be jointly viewed and scored by HRD, CPC staff, OCP and OGM, as was done during the NOF Public Service process. It is anticipated that your Honorable Body will be asked to vote on the awards at the top of July.

The attached resolution seeks to set the time and manner by which your Honorable Body will deliberate on the Homeless Public Service proposals.

Please let us know if you have any questions regarding the meeting schedule or the CDBG program.

Respectfully submitted,

City of Detroit

County of Wayne, Michigan

By Council Member Tate:

Whereas, Pursuant to 381 PA 1996, as amended (“Act 381”), the City of Detroit Brownfield Redevelopment Authority (“Authority”) has been established by resolution of the City Council of the City of Detroit (the “City”) for the purpose of promoting the revitalization of eligible properties in the City; and

Whereas, Under Act 381 the Authority is authorized to develop and propose for adoption by City Council a brownfield plan for one (1) or more parcels of eligible property; and

Whereas, Pursuant to the resolution establishing the Authority and the bylaws of the Authority, the Authority has submitted a proposed brownfield plan for the Chemical Bank Headquarters Redevelopment Project (the “Plan”); and

Whereas, The Authority submitted the Plan to the Community Advisory Committee for consideration on May 8, 2019, per the provisions of the resolution establishing the Authority, and a public hearing was conducted by the Authority on May 16, 2019 to solicit comments on the proposed Plan; and

Whereas, The Community Advisory Committee recommended approval of the Plan on May 8, 2019; and

Whereas, The Authority determined that the Plan constitutes a “Qualifying Downtown Brownfield Project” under that certain Interlocal Agreement by and between the Authority and the City of Detroit Downtown Development Authority, approved the Plan on May 22, 2019 and forwarded it to the City Council with a request for its approval of the Plan; and

By adoption of this Resolution and approval of the Plan, the City assumes no obligation or liability to the owner, developer, lessee or lessor of the Eligible Property for any loss or damage that may result to such persons from the adoption of this Resolution and Plan. The City makes no guarantees or representations as to the determinations of the appropriate state officials regarding the ability of the Authority to capture tax increment revenues from the State and local school district taxes for the Plan.

Honorable City Council:

Re: Recommendation for Deferral. Address: 3408 Townsend. Name: Detroit Land Bank Authority. Demolition Ordered: October 9, 2012 (J.C.C. pages 1921-1928).

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection on May 13, 2019 revealed that the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy.

This is the first deferral request for this property.

Therefore, we respectfully recommend that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties.

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear

of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

Director

Therefore, we respectfully recommend that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties.

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

**RESOLUTION IN SUPPORT OF FORMER 2017 SENATE BILL 363**

By Council Member Benson:

Whereas, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

Whereas, In 2017, in its wisdom, the Michigan State Senate, approved Senate Bill 363, the "Michigan Mined Preference Bill," by an overwhelming 36-2 margin. Unfortunately however, after being referred to Michigan State House Committee on Commerce and Trade, the bill unceremoniously died in the State House; and

Whereas, Senate Bill 363 was drafted to require the Michigan Department of Technology, Management, and Budget, to give a preference of 8% of the amount of a contract to Michigan-based firms for products mined in the State, against a bidder that was not a Michigan-based firm and was located outside of the United States, by amending the Management and Budget Act, PA 431 of 1984 (MCL 18.1261); and

Whereas, One product that the State purchases is road salt, and the Detroit Salt Company is a supplier that provides the salt from its mine located in Detroit. However, there are Canadian salt mining operations that are exporting their product to Michigan and are unfairly undercutting the Detroit Salt Company's price; and

Whereas, The Detroit Salt Company is a roughly 100-year-old mining company that operates the Detroit Salt Mine, one of approximately 15 salt mines in the entire United States and the only one in Michigan. The Detroit Salt employs around 60 people, and it produces approximately 1 million tons of salt per year. Based on its revenue from taxes, supplier and other ancillary jobs, etc., the Detroit Salt Company has a positive economic impact on both the local and State economies;

Now therefore be it

Resolved, The Detroit City Council, as an advocate of the efficient use of tax payer dollars, and a strong supporter of Detroit based and headquartered company, expresses its unwavering support of a bill drafted in the spirit of former 2017 Senate Bill 363 and for its passage by both houses of the legislature;

Now therefore be it finally

Resolved, That this resolution be forwarded to the City of Detroit's Lansing Lobbyist, the Detroit Delegation in Lansing and the Governor.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Leland, McCalister, Jr., Spivey, Tate, and President Pro Tem Sheffield — 7.  
Nays — None.

**RESOLUTION  
REQUESTING THE DEPARTMENT  
OF NATURAL RESOURCES TO  
INVESTIGATE THE NEED FOR  
SPECIAL RULES FOR THE USE OF  
VESSELS AND WATERSPORT  
EQUIPMENT**

By Council Member Ayers:

Whereas, According to the Michigan Natural Resources and Environmental Protection Act (PA 451 of 1994), local governmental units are prohibited from creating or authorizing any local ordinances regulating waterways or the use

of watercrafts within their jurisdiction, without obtaining permission from the Michigan Department of Natural Resources (DNR); and

Whereas, Section 324.08112 of the Act includes a provision that allows local municipalities to request assistance from the DNR, by sending an official resolution to the DNR. The resolution will initiate an investigation by the DNR to determine if a local governmental agency has a need for special rules to regulate the use of vessels, water skis, surfboards, or similar devices on their waterways;

Whereas, The purpose of the investigation is to determine the viability of a local ordinance. All findings will be compiled into a preliminary report accompanied with a preliminary recommendation to the concerned local municipality. Within 90 days of holding a local public hearing, the DNR will make a final decision on whether or not it should propose a new local ordinance, make changes to an existing local ordinance, or deny the request to draft any special rules;

Now therefore, be it

Resolved, Detroit City Council is requesting that the Michigan Department of Natural Resources investigate the need for special rules for the use of vessels and watersport equipment along "The Detroit River" and "The Edison Sault Power Canal" system in pursuant with The Michigan Natural Resources Environmental Protection Act.

Be it further

Resolved, The City Clerk is directed to send a copy of this resolution to Governor Whitmer, Mayor Duggan, Detroit's State Lobbyist Ken Cole, KRKM, The Department of Natural Resources, Congressman Andy Levin, and The Michigan State Waterways Commission.

By Council Member Benson:

AN EMERGENCY ORDINANCE to amend Chapter 33, *Minors*, Article III, *Regulation of Minors in Public Places and Adult Responsibility for Violations*, Division 2, *Curfew*, of the 1984 Detroit City Code by adding Sections 33-3-14 and 33-3-15 to provide for a superseding curfew for all minors beginning at 8:00 P.M. on Monday, June 24, 2019 (being the scheduled date for the Detroit Annual Fireworks Display, or any rescheduled date) and continuing until 6:00 A.M. the following morning, applicable only in the area within and bounded by the Detroit River, Third Street, the Lodge Freeway (M-10), the Fisher Freeway (I-75), the extension of the Fisher Freeway (I-75) easterly to Gratiot Avenue, Gratiot Avenue, Vernor Highway, Chene Street, Atwater Street, and the Aretha Franklin Amphitheater.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1. DECLARATION OF EMERGENCY.**

The Detroit City Council, upon receipt of testimony and evidence from the Detroit Police Department and others, and after public hearing, upon due consideration makes the following findings:

(A) On the day of and especially the evening of the Detroit Annual Fireworks Display that takes place on the Detroit River there have been numerous incidents of harassment, nuisance, vandalism, and violence committed by persons at the viewing, parking, and public places of the City before, during, and after the fireworks display;

(B) These acts of harassment, nuisance, vandalism, and violence have endangered the peace, health, safety, and

welfare of the People of the City of Detroit, the many persons traveling from outside the City limits to attend this annual event, and in particular unsupervised minors before and during the City's regular curfew hours for minors and;

(C) There exist public peace, health, safety, and welfare needs for effectively governing the conduct of such minors as it pertains to harassment, nuisance, vandalism, and violence for the purpose of alleviating and eliminating these problems, whether committed against minors or committed by minors;

(D) Due to law enforcement considerations and logistics concerns, a localized curfew is necessary to enhance the public peace, health, safety, and welfare for the many thousands of minors and adults who attend this annual event;

(E) Due to the fact that spectators begin to gather in the viewing areas in advance of the commencement of the Detroit Annual Fireworks Display on the day of the event, the regular curfew hours for minors provided for in the City's Curfew Ordinance, codified in Chapter 33, Article III of the Detroit City Code, are not sufficient to alleviate and curtail criminal activity involving unsupervised minors in the fireworks display viewing areas;

(F) The peace, health, safety, and welfare of the community-at-large and particularly that of minors will benefit from additional curfew controls for minors in a localized area of the City during the Detroit Annual Fireworks Display;

(G) The curfew for minors in the City provides for reasonable exceptions during the specified curfew period to allow for minors accompanied by their parent, legal guardian, or responsible adult, for minors at or traveling to and from places of employment, education and training facilities, and sponsored activities under adult supervision, for minors involved in emergencies or constitutionally protected activities such as interstate travel or freedom of speech, assembly or exercise of religion, for minors on the sidewalks in front of their homes, and for minors sent on errands by their parents if the minors have proper written permission.

**Section 2.** Chapter 33, *Minors*, Article III, *Regulation of Minors in Public Places and Adult Responsibility for Violations*, Division 2, *Curfew*, of the 1984 Detroit City Code is amended by adding Sections 33-3-14 and 33-3-15, to read as follows:

Honorable City Council:

Subject: Request to Amend the Official Compensation Schedule (CORRECTION)

Recommendation is submitted to amend the 2018-2020 Official Compensation Schedule to include the following pay ranges, subject to City Council approval:

| Class Code | Classification                     | Salary Range        |
|------------|------------------------------------|---------------------|
| 22-20-40   | Data Analyst                       | \$55,667 - \$77,933 |
| 22-20-50   | Data Quality Management Specialist | \$44,750 - \$62,650 |

**Request:**

The above recommendations are at the request of Angelique Rodriguez-Edge from the Health Department.

**Rationale:**

The above request and recommendations are based on the ability to attract and retain essential personnel to staff the Ryan White HIV/STI Program of the Health Department.

The SEMHA (Southeast Michigan Health Association) federal contract is due to end June 30, 2019. It has been determined that it is in the City's best interest that the Ryan White HIV/STI Program be moved in-house. This transition is necessary to ensure that the program is more cost effective, operates more efficiently, and adheres to regulatory guidelines.

To determine the appropriate salary ranges for the classifications, a market study was conducted using data from external survey sources. The proposed salaries are essential for recruitment and retention purposes and are based on the City of Detroit's ability to fund the increase. The proposed salary recommendations are subject to City Council approval.

Respectfully submitted,  
DENISE STARR  
Human Resources Director

By Council Member McCalister, Jr.:

Resolved, That the 2018-2020 Official Compensation Schedule is hereby amended to reflect the following pay ranges, effective upon Council's approval.

| Class Code | Classification                     | Salary Range        |
|------------|------------------------------------|---------------------|
| 22-20-40   | Data Analyst                       | \$55,667 - \$77,933 |
| 22-20-50   | Data Quality Management Specialist | \$44,750 - \$62,650 |

Resolved, That the Finance Director is hereby authorized to honor payrolls and vouchers in accordance with this resolution, the above communication and standard City of Detroit practices.

June 3, 2019

Honorable City Council:

Subject: Request to Amend the Official Compensation Schedule  
(CORRECTION)

Recommendation is submitted to amend the 2018-2020 Official Compensation Schedule to include the pay range for the following new classifications:

| Class Code | Title            | Salary              |
|------------|------------------|---------------------|
| 45-15-21   | Site Coordinator | \$27,304 - \$35,496 |
| 45-15-22   | Site Leader      | \$22,222 - \$27,778 |
| 45-15-23   | Program Leader   | \$20,509 - \$23,650 |

The above recommendations are at the request of Jan Anderson, Director General Services. These positions are critical to the after school programs within the Recreation Division to distinguish the differences in requirements and schedules between employees of the recreation centers and employees of the after school programs. All three jobs are tasked with different levels of responsibility involved in operating an after school program location. The State of Michigan has specific criteria that each after school employee must meet that are not required for employees operating the recreation centers. Currently these incumbents are assigned the same job titles as the individuals within the recreation centers. Per the rules of their union, all employees in the same job must be offered the same hours. This could cause issues during school breaks and summer.

To determine the appropriate salary range for the new classification, a market study was conducted with municipalities and organizations that had comparable positions. Based on the results, Classification and Compensation recommends the salary ranges shown above, subject to City Council approval.

Respectfully submitted,  
DENISE STARR

By Council Member McCalister, Jr.:

Honorable City Council:

Re: Request of Mr. Bernard Butris to amend Article XVII, District Map No. 19 of the 1984 Detroit City Code, Chapter 61, Zoning, by showing a P1 (Open Parking District) zoning classification where an R1 (Single-family Residential District) zoning classification and B4 (General Business District) zoning classification currently exists on three (3) parcels commonly identified as 5710 E. Eight Mile Road, 20564 and 20576 Syracuse Avenue, generally bounded by E. Eight Mile Road to the north, the north-south alley first east of Syracuse Avenue to the east, Hamlet Street to the south and Syracuse Avenue to the west. (RECOMMEND APPROVAL)

## NATURE OF REQUEST AND PROJECT PROPOSAL

The City Planning Commission (CPC) has completed its review and deliberations on the request of Mr. Bernard Butris to amend Article XVII, District Map No. 19 of the 1984 Detroit City Code, Chapter 61, Zoning, by showing a P1 (Open Parking District) zoning classification where an R1 (Single-family Residential District) zoning classification and B4 (General Business District) zoning classification currently exists on three (3) parcels commonly identified as 5710 E. Eight Mile Road, 20564 and 20576 Syracuse Avenue, generally bounded by E. Eight Mile Road to the north, the north-south alley first east of Syracuse Avenue to the east, Hamlet Street to the south and Syracuse Avenue to the west.

## BACKGROUND

The subject properties are located in Council District 3 and measure less than half an acre in area. The subject parcels are under the sole ownership of the petitioner Mr. Butris according to a Quit Claim Deed dated June 20, 2018 in which the petitioner acquired 20576 and 20564 Syracuse from the Detroit Land Bank Authority.

The subject properties are located in Census Tract 5067. Based upon the most recent census data the total population for the area is 1,051. There are approximately 384 occupied residential units and 187 vacant residential structures which results in a vacancy rate of 48%.

## Proposed Development

The proposed map amendment is being requested to allow for the establishment of an "Open Parking District" at 5710 E. Eight Mile Road, 20564 and 20576 Syracuse Avenue. The proposed use would be permitted on a by-right per Sec. 61-11-43. This district is designed for off-street parking of private passenger vehicles on property which abuts, or is separated by an alley or easement from, a non-residential district. The regulations permit the establishment of parking facilities to serve the non-residential uses, and at the same time do not permit the non-residential uses themselves to extend into residential areas. The district will assist in reducing traffic congestion caused by non-residential uses and at the same time will protect abutting residential areas from the deleterious effects of adjacent vehicular parking areas.

This use is specifically being sought to allow the petitioner the ability to maximize the utilization of their current Medical Marihuana Caregiver Facility, Flavors Detroit located at 5730 W. Eight Mile Road. State licensure is currently being sought to convert the facility into a Medical Marihuana Provisioning Center, and in order to utilize the maximum square footage of the facility, additional parking must be provided.

The parcels identified as 5710 E. Eight Mile Road and 20576 Syracuse Avenue are presently zoned B4. 5710 E. Eight Mile Road is presently developed as an accessory parking lot for the petitioner's business and could as a matter of right be expended to the south, given the absence of an alley-way or any easements. The parcel identified as 20564 Syracuse is zoned R1 and is adjacent to an occupied single-family residential structure to the south. Should the requested zoning change be granted, there must be strict adherence to the design standards for off-street parking areas as outlined in Secs. 61-14-221 and 61-14-222 for right-of-way screening and residential screening respectively.

## SURROUNDING LAND USE AND ZONING

The zoning classification and land uses surrounding the subject area are as follows:

North: General Commercial/Warren, Michigan.

East: R1 & B4; Single-family residential/Flavors Detroit.

South: R1; Single-family.

West: R1 & B4; Single-family Residential/Salvation Army Outlet Store.

## CITY PLANNING COMMISSION PUBLIC HEARING & OTHER COMMUNITY MEETINGS

On April 25, 2019, the City Planning Commission held a public hearing on this request. There were no members of the public in attendance to address the rezoning request.

The Commission raised a number of questions in regards to perimeter security for the facility, as well as the composition of the masonry wall which is required to separate the P1 parking area from the R1 residential properties to the south.

Forty-two notices were sent out to residents and property owners within 300 radial feet of the subject site. None have been returned as undeliverable. To date, staff has received no communications via mail or telephone either in opposition or support of the requested rezoning.

## MASTER PLAN CONFORMANCE

The subject site is located within the Pershing area of Neighborhood Cluster 1 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "Thoroughfare Commercial" and "Low Density Residential" for the subject properties. The Planning and Development Department (P&DD) has submitted a report dated April 3, 2019 which states in part:

*"The proposed development conforms to the Future General Land Use characteristics of the area."*

## ANALYSIS

The proposed zoning classification of P1 would permit the requested use of an open parking area for an adjacent business on a by-right basis. The proposed P1 district is designed for off-street parking of

private passenger vehicles on property which abuts, or is separated by an alley or easement from, a non-residential district. The regulations permit the establishment of parking facilities to serve the non-residential uses, and at the same time do not permit the non-residential uses themselves to extend into residential areas. The district will assist in reducing traffic congestion caused by non-residential uses and at the same time will protect abutting residential areas from the deleterious effects of adjacent vehicular parking areas.

The following analysis details how the proposed rezoning either meets or fails to meet the eight approval criteria of Section 61-3-80 of the Zoning Ordinance, which must be considered in making recommendations and decisions on standard rezoning requests.

(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;

Two-thirds of the subject property are currently zoned B4 and would allow for the expansion of the existing parking lot on a by-right basis. The proposed zoning change allows for the continuation of an ongoing use while prohibiting more deleterious and injurious uses adjacent to residential properties.

(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

While the subject rezoning is not a one for one match to the Master Plan of Policies land use designation, the Planning and Development Department finds the request generally consistent with the Master Plan as detailed later in this report.

(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;

The P1 district is designed for off-street parking of private passenger vehicles on property which abuts, or is separated by an alley or easement from, a non-residential district. The regulations permit the establishment of parking facilities to serve the non-residential uses, and at the same time do not permit the non-residential uses themselves to extend into residential areas. The district will assist in reducing traffic congestion caused by non-residential uses and at the same time will protect abutting residential areas from the deleterious effects of adjacent vehicular parking areas.

(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;

The physical characteristics of the subject property will change significantly as a result of the proposed rezoning. Site plans have been presented which show the landscaping and layout of the proposed

development. Although alterations to the sight plans need to be made in order to meet the requirement of the zoning ordinance in terms of interior landscaping, and right-of-way screening. Given that the subject property is within a traditional street grid disruption to city services is not anticipated.

(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding storm water management;

There are no concerns regarding any of these aspects. Existing infrastructure is in place to address stormwater and drainage concerns.

(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

The vast majority of the uses in the immediate area are either residential or commercial in nature. However, there is a sparsely populated residential neighborhood to the south of the subject property. Given the spacing, setback, landscaping and screening requirements for the proposed use staff is of the opinion that no significant adverse impacts will occur as a direct result of the proposed rezoning.

(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

As noted previously, the existing B4 zoning classification is conducive for the proposed uses, however the R1 zoning classification is not. In making the recommendation to pursue a P1 zoning classification, CPC staff considered what would grant the petitioner use of their property, while maintaining a reasonable separation from the adjacent residential properties to the south.

(8) Whether the proposed rezoning will create an illegal "spot zone."

Given the commercial nature of the corridor in which this rezoning has been requested along with the proposed rezoning's consistency with the Master Plan of Policies, staff is of the opinion that the proposed rezoning would not constitute an illegal "spot zone."

#### **Master Plan Consistency**

The subject site is located within the Pershing area of Neighborhood Cluster 1 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "Thoroughfare Commercial" for the subject property. The Planning and Development Department (P&DD) has submitted a report dated April 3, 2019 which states in part:

"The proposed development conforms to the Future General Land Use characteristics of the area."

#### **Suitability of the Property**

One of the aforementioned criteria for

rezoning states, "The suitability of the subject property for the existing zoning classification and proposed zoning classification." Zoning Map No. 19 generally shows a mix of R1 and B4 zoning to the north, south, east and west of the subject property. This section of the Pershing sub-sector is primarily developed with residential and commercial uses. The existing residential properties along Syracuse Avenue were primarily built between 1920 and 1928. As previously stated the P1 zoning classification allows for the continuation of parking while protecting the adjacent residential neighborhood.

In general, the CPC looks favorably on the rezoning of the subject parcel to accommodate the expansion of commercial and retail services.

**Land Use**

The CPC is of the opinion that a P1 zoning classification is an appropriate designation consistent with the characteristics of the adjacent properties, which will allow for the establishment of an open parking area to support commercial and retail related uses.

**Significant Impact on Other Property**

The CPC concludes that the rezoning of this property from a commercial stand-

point might add to the sustainability of the surrounding community by allowing the establishment of an economically viable, tax revenue generating development.

**RECOMMENDATION**

On April 18, 2019 the City Planning Commission voted to recommend approval of the request of Mr. Bernard Butris to amend Article XVII, District Map No. 19 of the 1984 Detroit City Code, Chapter 61, Zoning, by showing a P1 (Open Parking District) zoning classification where an R1 (Single-family Residential District) zoning classification and B4 (General Business District) zoning classification currently exists on three (3) parcels commonly identified as 5710 E. Eight Mile Road, 20564 and 20576 Syracuse Avenue, generally bounded by E. Eight Mile Road to the north, the north-south alley first east of Syracuse Avenue to the east, Hamlet Street to the south and Syracuse Avenue to the west.

Honorable City Council:

Re: Request of Thomas Group Consulting and Parkstone Development Partners to amend Article XVII, District Map No. 63 of the 1984 Detroit City Code, Chapter 61, Zoning, by showing a B1 (Restricted Business District) zoning classification and a B4 (General Business District) zoning classification where an R6 (High Density Residential District) zoning classification currently exists on one (1) parcel commonly identified as 18520 West Seven Mile Road, generally bounded by Vassar Avenue to the north, Glastonbury Avenue to the east, W. Seven Mile Road to the south and Greenview Avenue to the west. (RECOMMEND APPROVAL)

**NATURE OF REQUEST AND PROJECT PROPOSAL**

The City Planning Commission (CPC) has completed its review and deliberations on the request of Thomas Group Consulting and Parkstone Development Partners. Consistent with the analysis and findings provided below, the Commission recommends approval of the request to show a B1 (Restricted Business District) zoning classification and a B4 (General Business District) zoning classification where an R6 (High Density Residential District) zoning classification currently exists on one (1) parcel commonly identified as 18520 West Seven Mile Road, generally bounded by Vassar Avenue to the north, Glastonbury Avenue to the

east, W. Seven Mile Road to the south and Greenview Avenue to the west.

#### **BACKGROUND**

The subject property is located in Council District 1 and measures approximately thirteen (13) acres in area. Formerly known as the Arnold Home, the corner stone of that facility was laid in September 1931. Designed and built by Weston and Ellington the facility was opened to both men and women as a retirement facility in December of 1931. The first phase consisted of four wings, two stories high with beds for 115 patients, a dining hall, hospital facilities, and gathering rooms. Two more floors were added in 1938, completing the Greek revival façade, and bringing the capacity up to 235 patients.

By the 50th anniversary of the home in 1949, the Arnold Home had grown from a home for the infirm into a thriving community of retirees. Separate quarters for the hospital's nurses and executives were dedicated in 1952, and a 110-bed addition was completed in 1958, bringing the total number of residents to 395.

In July of 2004, the Arnold Home announced that it would be closing due to financial troubles. The 185 residents were relocated to other facilities, and 300 staff members were laid off. The home was vacated two months later. At the time, it was Michigan's oldest nursing home.

After several false starts, demolition of the Arnold Home started in May of 2013. The bulk of the Structure was gone by August. The cost was covered by HUD grants that were originally intended for home demolition, but were re-routed for commercial buildings.

Since the most recent Wayne County Treasurer tax foreclosure in 2011 the subject property has gone through four title changes. The parcel commonly identified as 18520 W. Seven Mile Road is currently under the sole ownership of Davison Plaza Shopping Center Inc.

The subject property is located in Census Tract 5407. Based on the most recent census data the total population for the area is 3,753. There are approximately 1,197 households with an average of 3 persons per household. As of the 2010 census there were 1,458 residential units with 82% of those units being occupied.

#### **Proposed Development**

The proposed map amendments are being requested to allow for the establishment of a "Store of a generally recognized retail nature whose primary business is the sale of new merchandise" along the W. Seven Mile Road frontage and to allow for the establishment of a "governmental service agency" on the balance of the site located at 18520 W. Seven Mile Road. The initial phase of the development is anticipated to consist of one strip retail development along the W. Seven Mile Road frontage and one Department of

Health and Human Services office facility on the northern portion of the site. Data collected by the Michigan Secretary of State office shows that a substantial number of residents who utilize the current W. Grand Boulevard DHHS facility located at 3040 W. Grand Boulevard in the former GM Headquarters building reside in the 48219 zip code.

Additional phases which would include the complete build-out of the W. Seven Mile Road commercial frontage as well as the addition of a second office building on the balance of the site are anticipated based on the demand for the services.

Pending the passage of the concurrently proposed text amendment, both the general retail and governmental service agency uses would be permitted by-right in the B1 and B4 zoning classifications respectively. It is the developer's intent to break ground in either September or October of 2019.

#### **SURROUNDING LAND USE AND ZONING**

The zoning classification and land uses surrounding the subject area are as follows:

North: R1; Single-family Residential along Vassar Avenue.

East: R1 & B4; Single-family Resident along Glastonbury Avenue/Best Offer Auto used auto sales lot.

South: B4; BP Gas Station/Greenview Auto Works/Five Star Hand Car Wash/Best Offer Auto secondary location.

West: R1; Single-family Residential along Greenview Avenue.

#### **CITY PLANNING COMMISSION PUBLIC HEARING & OTHER COMMUNITY MEETINGS**

On April 4, 2019, the City Planning Commission held a public hearing on this request. There were three members of the public in attendance to address the rezoning request. Those in attendance spoke in support of the proposed rezoning.

#### **PUBLIC HEARING RESULTS**

CPC staff along with the petitioner and Ms. Latrice McClendon the District Manager for City Council District 1 presented before the executive board of the O'Hair Park Community Association on Tuesday, March 19, 2019. There were approximately 24 residents in attendance. The community members present were overwhelmingly in support of the proposed text amendment and the rezoning.

Points of concern which were raised primarily revolved around the need for a traffic study and additional points of ingress and egress to the facility. One recommendation was a point of ingress and egress to be added on Greenview Avenue at Cambridge Avenue. Additionally, a point of ingress and egress was recommended for Vassar Avenue at the northern-most portion of the site.

#### **MASTER PLAN CONFORMANCE**

The subject site is located within the

Evergreen area of Neighborhood Cluster 8 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "Institutional" for the subject property. The Planning and Development Department (P&DD) has submitted a report dated April 2, 2019 which states in part:

"The proposed development conforms to the Future General Land Use characteristics of the area."

#### **ANALYSIS**

The proposed zoning classification of B1 and B4 would permit the requested uses of general retail and governmental service agency on a by-right basis. The proposed B1 zoning classification would permit 36 by-right residential, public, civic, institutional, retail, service, commercial and other uses.

The proposed B4 zoning classification would permit 74 by-right public, civic, institutional, retail, service, commercial, manufacturing, industrial and other uses, compared to the 34 permitted by right uses in the existing R6 zoning classification. The most intensive uses in the B4 zoning classification includes "Motor vehicle services" inclusive of repair and steam cleaning. Again, the B4 zoning classification is directed to the W. Seven Mile Road frontage which is presently developed with several automotive related uses. However, staff will note that many automotive related uses would not be able to achieve licensure, given the Mayor's moratorium which is scheduled to remain in effect until April 1, 2020.

The following analysis details how the proposed rezoning either meets or fails to meet the eight approval criteria of Section 61-3-80 of the Zoning Ordinance, which must be considered in making recommendations and decisions on standard rezoning requests.

*(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;*

Several areas of the City of Detroit are undergoing substantial reinvestment, inclusive of W. Seven Mile Road in northwest Detroit. With the demolition of the former Arnold Home site in 2013, the property has sat vacant and unimproved for over a decade. The proposed investment in this property will reinstitute the envisioned institutional use of the property while providing commercial and retail offerings along the W. Seven Mile Road corridor.

*(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;*

The proposed rezoning of B1 and B4 respectively are consistent with the Master Plan of Policies as reflected in Planning and Development's April 2, 2019 report.

*(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;*

The proposed rezonings are designed to keep density levels low in what is a traditionally low-density residential neighborhood. The intended use of governmental service agencies by way of the Department of Health and Human Services which is seeking to relocate their Senior services hub to a community which largely utilizes those services is consistent with zoning and the Master Plan of Policies.

*(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;*

The physical characteristics of the subject property will change significantly as a result of the proposed rezoning. Preliminary site plans have been presented which show the layout of the proposed development. Given that the subject property is within a traditional street grid, disruption to city services is not anticipated.

*(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding storm water management;*

There are no concerns regarding any of these aspects.

*(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;*

The vast majority of the uses in the immediate area are either residential or commercial in nature. However, there is a densely populated residential neighborhood to the north of the subject property. Given the spacing, setback, landscaping and screening requirements for the proposed use, staff is of the opinion that no significant adverse impacts will occur as a direct result of the proposed rezoning.

*(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and*

As noted previously, the existing R6 zoning classification is not conducive for the proposed uses which are commercial and institutional in nature. Before making the recommendation to pursue a B1 and B4 zoning classification, respectively, CPC staff evaluated all zoning classifications and determined that the B1 and B4 zoning classification would allow for the proposed use and maintain the character of the neighborhood along the W. Seven Mile Road frontage, Greenview Avenue and Glastonbury Avenue, respectively.

*(8) Whether the proposed rezoning will create an illegal "spot zone."*

Given the commercial nature of the corridor in which this rezoning has been requested along with the proposed rezoning's consistency with the Master Plan of Policies, CPC has concluded that the proposed rezoning would not constitute an illegal "spot zone."

**Suitability of the Property**

One of the aforementioned criteria for rezoning states, "The suitability of the subject property for the existing zoning classification and proposed zoning classification." Zoning Map No. 63 generally shows a mix of R1 and B4 zoning to the north, south, east and west of the subject property. This section of the Evergreen subsector is primarily developed with residential and commercial uses. The existing residential properties along Greenview Avenue and Glastonbury Avenue were primarily built between 1942 and 1948. As previously stated, the B4 zoning classification allows for a variety of commercial offerings and supportive services for traditional residential neighborhoods. The proposed B1 zoning classification would allow for the implementation of institutional and limited commercial uses without introducing deleterious effects into a primarily residential neighborhood.

In general, the CPC looks favorably on the rezoning of the subject parcel to accommodate the expansion of commercial and retail services.

**Land Use**

The CPC is of the opinion that a B1 and B4 zoning classification is an appropriate designation consistent with the characteristics of the adjacent properties, which will allow for the establishment of commercial, retail and institutional related uses.

**Significant Impact on Other Property**

The CPC is of the opinion that the rezoning of this property from a commercial stand-point might add to the sustainability of the surrounding community by allowing the establishment of an economically viable, tax revenue generating development.

**RECOMMENDATION**

On April 11, 2019 the City Planning Commission voted to recommend approval of the request of Thomas Group Consulting and Parkstone Development Partners. Consistent with the analysis and findings provided above, the CPC recommends approval of the request to show a B1 (Restricted Business District) zoning classification and a B4 (General Business District) zoning classification where an R6 (High Density Residential District) zoning classification currently exists on one (1) parcel commonly identified as 18520 West Seven Mile Road, generally bounded by Vassar Avenue to the north, Glastonbury Avenue to the east, W. Honorable City Council:

Re: Zoning Ordinance Text Amendment (Maximum lot coverage, Governmental Service Agency, Parks and Recreation — incidental retail sales, high-frequency transit corridors, Assembly-, Banquet- and Rental Halls). (RECOMMEND APPROVAL)

The City Planning Commission (CPC) has completed its review and deliberations of the several enclosed proposed text amendments. The proposals include amendments to the use lists of various zoning classifications as well as dimensional standards as outlined in the report below. On April 18, 2019 the CPC voted to recommend approval of the proposed text amendments to the Detroit Zoning Ordinance, Chapter 61, of the 1984 Detroit City Code.

**SCOPE OF ORDINANCE**

1) With the passage of Ordinance No. 37-17, the Fifth General text amendment, Sec. 61-13-102 was inadvertently left

unchanged in regards to the language specifying an R5 conditional retail, service, and commercial use; uses occupying not more than 3,000 square feet of gross floor area and not having drive-up or drive-through facilities, where located in a building constructed prior to January 1, 2017 and located on a zoning lot not farther than one-half (1/2) mile from bus rapid transit, streetcar/trolley or light rail line, strictly limited to...

It was the intent of Ordinance No. 37-17 to amend this section by striking the language "...bus rapid transit, streetcar/trolley or light rail line..." and replacing it with "a high-frequency transit corridor as defined in Sec. 61-16-102 of the Code."

2) With the pending redevelopment of the former Arnold Home site located at W. Seven Mile Road and Greenview Avenue, slated to house a new Health and Human Services Governmental Service Agency Office and additional retail offerings, Secs. 61-9-15 and 61-9-35 are proposed to be amended to include "Governmental service agency" as a by-right use in both the B1 (Restricted Business District) zoning classification and the B2 (Local Business and Residential District) zoning classification.

3) With the continued development of the Detroit riverfront in conjunction with the non-profit organizations and other governmental entities, which exist to manage and maintain public assets such as Campus Martius, Mt. Elliott Park and Milliken State Park, staff is initiating the proposed text amendment to expand the by-right retail, service, and commercial use related to retail sales clearly incidental and accessory to uses permitted in the PR district to include other Association on Tuesday, March 19, 2019, at which time support for the proposed text amendment and rezoning of the former Arnold Home site located at 18520 W. Seven Mile Road was offered.

To date, the Commission has received no additional communications via mail or telephone either in opposition or support of the requested text amendments.

**CONCLUSION**

The CPC recommends approval of the accompanying text changes related to the R5, B1, B2, SD1, SD2 and the PR zoning classifications.

Respectfully submitted,

**City Planning Commission**

June 7, 2019

Honorable City Council:

Re: Request of the Detroit Building Authority for PC (Public Center) Special District Review of proposed demolition of 25-33 Washington Blvd. — Joe Louis Arena, (RECOMMEND APPROVAL)

**REQUEST**

The City Planning Commission (CPC) has received a request from the Detroit Building Authority for PC (Public Center) Special District Review of proposed demolition of 25-33 Washington Blvd. — Joe Louis Arena. This request is being made consistent with the provisions of Section 61-3-182 of the Detroit Zoning Ordinance.

**BACKGROUND**

As you are aware, part of the City’s bankruptcy agreement included the demolition of Joe Louis Arena. Although numerous details of the demolition have been reviewed and approved by your Honorable Body, including the acceptance of funds from the state for the purpose of demolition, for the brownfield plan and the bond resolution, PC Special District Review is also required per Section 61-11-76 of the Zoning Ordinance as the proposed demolition is an exterior alteration.

**REVIEW & ANALYSIS**

**PC District Review Criteria**

There are eighteen PC District Review Criteria listed in Section 61-11-77 of the Zoning Ordinance. As this is a demolition and does not involve any construction or development, the review criteria do not apply.

**RECOMMENDATION**

CPC staff recommends approval of the proposed demolition of Joe Louis Arena consistent with prior approvals by your Honorable Body. Any future redevelopment of the subject site will return for review and approval.

Respectfully submitted,

**Law Department**

May 30, 2019

Honorable City Council:  
Re: [REVISED] Chapter 22 of the 1984 Detroit City Code, Handling of Solid Waste and Prevention of Illegal Dumping, Article I, In General, Division 2, Civil Fines for Violations

At the request of Miriam Blanks-Smart, Director of the Department of Appeals and Hearings, the Law Department has prepared and approved as to form the above-referenced ordinance amendments for your consideration.

The purpose of the ordinance amendment is to create uniform measurements for illegal dumping from a motor vehicle (in cubic feet). However, during discussion at the April 29, 2019 Public Health and Safety Committee meeting, the committee expressed concerns that the City's fines are too low, considering the egregious nature of the offense. After review of littering fines imposed by state statute, the Law Department has prepared an amended ordinance for your consideration.

The proposed ordinance has been revised to increase fines and to create new classifications for illegally dumping larger quantities of solid waste from a motor vehicle.

For your reference, I have attached a comparison chart of the fines from the first proposed amendment, the current proposed amendment, and the state of Michigan.

Respectfully submitted,

Re: Recommendation for Deferral Address: 6811 Charlevoix. Name: Charlevoix Studio and Gardens LLC. Demolition Ordered: June 14, 2016 (J.C.C. pages 1108-1117).

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection on March 13, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, we respectfully recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties.

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

Honorable City Council:  
Re: Recommendation for Deferral Address: 2964 Leslie. Name: Ramel Howard, R. Howard Investment Co. LLC. Demolition Ordered: October 8, 2018.

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection on May 28, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, we respectfully recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress

Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties.

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

Re: Authorization to amend the FY 2018-19 Budget for the Detroit Public Library.

The Detroit Public Library (DPL) is requesting authorization to amend its Fiscal Year 2018-19 Adopted Budget to increase projected revenues and offsetting appropriation by \$536,000. The current budget total appropriation is \$32,372,470.

At its May 21, 2019 meeting the Detroit Library Commission approved the budget amendment for capital outlay. The Library will increase total expense by \$536,000. During FY2018, the Skillman Branch incurred major water damage. The total cost incurred was \$636,000 which was covered by insurance. After the \$100,000 deductible, the Library received \$536,000 in FY2018 from the insurance company to pay for the repairs. Upon receipt, the insurance company funds were booked in FY2018. However, the repair expenses occurred in FY2019. This will increase the Capital Outlay expenditure account

644124 by \$536,000. The budget Prior Year Surplus would be amended by \$536,000. DPL requests to increase FY 2018-19 Department Appropriation 10454 from amended budget 20,138,671 to \$20,674,671.

Increase Revenue Appropriation No. 10454 DPL-Administration Mgmt \$536,000

Increase Appropriation No. 10454 DPL-Administration Mgmt \$536,000

June 5, 2019

Honorable City Council:

Re: Recommendation For Deferral.  
Address: 8427 Piedmont, Name: Athan Slotkin, A5 Realty, Demolition Ordered: June 28, 2011. JCC pg. 1459-1468.

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection conducted on May 30, 2019 revealed that the building is

secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the 1st deferral request for this property.

Therefore, we respectfully recommend that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request for exceeding three (3) deferrals must be made by petition to City

Council through the office of the City Clerk.

Respectfully submitted,

### **TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE**

#### **RESOLUTION IN MEMORIAM HON. KWAME KENYATTA**

By ALL COUNCIL MEMBERS:

WHEREAS, We, the members of the Detroit City Council, mourn the death and celebrate the powerful life of former Detroit City Councilman Kwame Kenyatta. He served the City of Detroit with integrity, a strong moral compass and embodied the consummate public servant. When Kenyatta believed he no longer could serve with the full power entrusted to him by the residents of Detroit due to the appointment of an Emergency Manager, he chose to resign instead of compromise. This action symbolized how Kwame Kenyatta lived his life — devoted to the people and true to the cause. Kenyatta made his transition on May 22, 2019 in his hometown of Bessemer, Alabama; and

WHEREAS, Kwame Olugbala Yao Kenyatta (birth name Norman Tyus) was born on March 15, 1956 in Bessemer, Alabama — a small community that provided him with a firm foundation, but also was the place where he was first confronted with the harsh realities of racism and discrimination. At the age of 12, Kenyatta and his family moved to Detroit. Their arrival occurred in the aftermath of the 1967 Detroit Rebellion, as the Black Power and Civil Rights Movements were at the forefront of the national consciousness. It was at this time in the City of Detroit that Kenyatta's burgeoning political formation began and his life of activism arose; and

WHEREAS, Kenyatta was educated in the Detroit Public School system and attended Cooley High School. While at Cooley, Kenyatta formed the Detroit Black Student Association to advocate for the inclusion of Black Studies in the curriculum. It also was during this time, that he reclaimed an African name. His first name and surname were chosen in honor of two revolutionary African political titans, Kwame Nkrumah, the first Prime Minister and President of Ghana, and Jomo Kenyatta, the first Prime Minister and President of Kenya. Kenyatta continued his studies at Eastern Michigan University and Wayne County Community College. Beyond his formal studies, Kenyatta was an independent scholar, an avid reader and researcher. His vast collection of books

focused on the history, culture and political movements of the African Diaspora; and

WHEREAS, Kenyatta was recruited by a neighborhood friend to join the Shrine of the Black Madonna Pan African Orthodox Christian Church, where he continued to learn about organized Black political struggle. Following his brief membership in the Shrine, Kenyatta continued his involvement in organizations committed to Black self-determination and empowerment. He served as head of the youth league of the Pan-African Congress USA (PAC-USA), and was co-founder of the All Afrikan Liberation Committee — a youth-led organization that planned the African Liberation Day march. During this time, Kenyatta was mentored by a host of political and cultural innovators and leaders; and

WHEREAS, In later years, Kenyatta held membership in several organizations, including the Republic of New Afrika, the New Afrikan People's Organization, the Malcolm X Grassroots Movement, Fihankra International and the National Black United Front. For ten years, Kenyatta directed the Malcolm X Community Center for Self-Determination, a popular community hub. As a cultural consultant, he conducted many educational workshops, Afrikan naming ceremonies, weddings, libation, rites of passage ceremonies and keynote speeches; and

WHEREAS, Kenyatta sought new ways to express and expand his commitment to Black Empowerment and decided to run for public office. He was elected to the Detroit School Board in 1992 and became known as a visionary and passionate civic leader. Kenyatta rose to the position of vice president of the board and, during his five-year tenure, Kenyatta was an outspoken advocate for African-centered education. Kenyatta's governance was instrumental in the establishment of the Malcolm X Academy, a pioneering all-male, African-centered school. Under his leadership, the school was dedicated to providing an academically-rigorous, culturally-relevant and world-class education to its students. This model became the platinum standard adopted by many school systems across the country. Kenyatta was elected to the Wayne County Commission in 2003 and the Detroit City Council in 2005. In all of his elected positions, Kenyatta remained true to his beliefs and convictions. His 2013 resignation did not quell Kenyatta's passion for public service nor his commitment to community; and

WHEREAS, Kenyatta relocated to Mississippi to serve as Deputy Chief Administrative Officer in the administration of his longtime friend and comrade, Jackson Mayor Chokwe Lumumba. Following Lumumba's untimely death in 2014, Kenyatta remained in Jackson. He subsequently returned to city government in

2017, when Chokwe Antar Lumumba won the mayoral seat formerly occupied by his father. Following his retirement from public service, Kenyatta moved back to his hometown of Bessemer, where he resided until his passing. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council and the office of Council President Brenda Jones join his family and friends in honoring the life and legacy of Kwame Olugbala Yao Kenyatta. His physical presence will be greatly missed, but the impact of his contributions to Black Liberation and Black community life will live on forever.

**City Planning Commission**

June 20, 2019

Honorable City Council:

Re: Request of Rockford Construction to amend Article XVII, District Map 4, of the 1984 Detroit City Code Chapter 61, Zoning, by modifying the provisions of the existing PD (Planned Development District) zoning classification for the property located at 3750 Woodward Avenue generally bounded by East Alexandrine Avenue, John R. Street, Mack Avenue and Woodward Avenue to establish a mixed-use development to include a hotel, retail space, condominiums, student residences, multi-family units, and on-site parking. Additionally, the request of the Roxbury Group, LLC to modify the provisions of the PD (Planned Development District) classification at 3800 Woodward Avenue to allow for the existing tower with an 'establishment that serves alcohol for consumption on the premises.' Each of these requests proposes to allow those uses that are generally permitted in the B5 Major Business District (RECOMMEND APPROVAL).

**RECOMMENDATION**

The City Planning Commission voted to recommend approval of this request, requiring the repeal of Ordinance #2914 which authorized development activities for these properties that were not and will not be realized at this time. The recommendation also includes the following conditions:

1. The developer must work with the immediately adjacent community to minimize disruption to the neighborhood during construction and address impacts that may arise;

2. All changes in the development that do not change the overall character or increase the height or massing of buildings within the development are subject to approval by the City Planning Commission staff;

3. The permissible uses for the development must be limited to those uses currently permissible for the B5 (Major Business District) zoning classification, with the exception the following specific uses:

- Mortuary or funeral home, including those containing a crematory
- Firearms dealership
- Firearms target practice range, indoor
- Motor vehicle filling station
- Motor vehicle services, minor
- Parking structure not having ground floor commercial space or other space oriented to pedestrian traffic
- Heliports
- Medical marihuana provisioning center facility
- Medical marihuana safety compliance facility
- Medical marihuana safety transporter facility

4. All final site plans, elevations, lighting, landscape and signage plans for the development are subject to review and approval by the City Planning Commission staff prior to the developer's application for applicable building or construction permits.

**NATURE OF REQUEST**

Before this Honorable Body are two separate requests for PD modifications on the land generally bounded by Alexandrine Avenue, John R. Street, Mack Avenue and Woodward Avenue. Although these two requests are adjacent to one another, they are separate and distinct, having no common ownership interests or relation, according to documentation that has been submitted to CPC. However, since both requests were received generally at the same time and physically abut one another, CPC has packaged the requests together.

The specific requests and proposed developments are as follows:

1. **3750 Woodward, The Mid** — Rockford Construction's request for a \$310 million mixed-use development to include retail pavilions, a hotel, condominiums, student residences, and a multi-family residence tower. Also included is a parking structure with above and below grade-level parking and additional off-street surface parking. Also to permit those uses that are generally permitted in the B5 Major Business District.

3750 Woodward proposed site for "The Mid"

**2. 3800 Woodward, The Professional Plaza Tower 'Hammer and Nail Building'** — The Roxbury Group's request to reestablish the existing development and allow for

the sale of beer or intoxicating liquor for consumption on the premises, and also to permit those uses that are generally permitted in the B5 Major Business District.

## BACKGROUND

### Overall Site Zoning history

The two requests that are now before your Honorable Body for consideration, lie on an approximately 9.2 acre portion of land that was rezoned to the PD (Planned Development district) zoning classification in October 1998 by ordinance 37-98. The PD classification at the time was established to implement the Medical Center Rehabilitation Project No. 1 Urban Renewal Area plan. The PD zoning district replaced the B4 (General Business dis-

trict) which accounted for the land within the boundaries mentioned.

Subsequent to the entire parcel being rezoned to Planned Development (PD), there have been projects proposed for the site that did not come to fruition. In 1998 there was a project approved by Council for an additional tower to be placed adjacent to the Professional Plaza to include a hotel, a retail mall, and office space.

Another project was approved for the 3750 Woodward site, which was never realized. It included a four-story medical

office building that would've housed the Wayne State University Physician Group, the Detroit Medical Center surgery offices, etc. That project also anticipated the closure and demolition of the Carpenter Plaza development now known as the Professional Tower Plaza.

Projects that did in fact come into being after approval by City Council at the southern end of the site include the Ellington Lofts with an accompanying six (6) story parking garage (including 954 parking spaces). Subsequently, the Whole Foods market was developed to the east of the lofts completing the redevelopment of the southern third of the PD superblock.

The Professional Plaza Tower, the "Hammer and Nail Building" as many know it, is a twelve (12) story International Style structure, designed by Gerald Crane and Norbert Gorwic and erected in 1964-1966. The building was originally planned to be one of several towers, but in the end, was the only building completed from the plan.

#### **PROJECT PROPOSAL — 3750 Woodward (The Mid)**

The project that is being proposed at 3750 Woodward is a \$310 million large scale mixed-use development in the heart of Midtown. The plans call for the approximately 3.78 acre L-shaped site to include 60 Luxury Condominiums, 313 Multi-family Apartments and 520 beds (within 154 student units) for student residences. Of the multi-family apartment units, 54 are planned as efficiency units of approximately 515 sq. ft. each; 172 are 1-bedroom units of approximately 671 sq. ft. each; and 87 are 2-bedroom units of approximately 1,190 sq. ft. each. A breakdown of the proposal components is found below:

**Retail Anchor** — 50,581 sf total, 23,747 sf 1st floor, 26,834 sf 2nd floor

**Retail Grocer** — 29,640 sf

**Retail Pavilion (West)** — One (1) story (3,870 sf.)

**Retail Pavilion (East)** — 1 story (4,256 sf)

**Student Residence** — twelve (12) stories (228,526 sf)

**Multi-Family Residence** — 35 stories (325,474 sf)

**Hotel** — (209,485 sf.) and Luxury Condominiums (100,381 sf) which together comprise 24 stories of the development.

**Underground Parking** — One (1) story below grade (139,420 sf) and Above Ground Parking - five (5) stories above grade (172,723 sf) total.

The total gross square footage of all structures is estimated to be 1,124,936 sf (excluding underground the parking).

The project plans to include affordable units according to the department of Housing and Urban Development standards. Of the total number of multiple family dwelling units, 62 units would be

affordable, which is 20% of the total unit number.

In addition to the housing component of the development, the plan is to create outdoor plazas, a hotel, and multiple retail spaces that include one that will accommodate a large scale big box retailer, large scale grocer and also small boutique retailers.

To support all of the components of the development, the plan proposes 743 parking spaces, with the large majority of 728 spaces being structured parking (5 structured stories above grade and one (1) level of structured parking would be below-grade. The remaining 15 spaces would be surface lot parking housed outside of the structure. A traffic study has been conducted to assess the impact of the development on the surrounding area (see attached).

The developer would like to begin the project as soon as possible, and complete construction by 2021. The developer anticipates that this project would spur approximately 1300 to 1500 temporary jobs and 400+ permanent jobs and is seeking a number of subsidies including the Neighborhood Enterprise Zone, Brownfield Tax Increment Financing, Brownfield Michigan Business Tax Credit, Commercial Property Tax Abatement, and Michigan Economic Development Corporation DRP Loan.

#### **3800 Woodward (The Professional Plaza Tower/Hammer and Nail Building)**

The Roxbury group has in recent years purchased the Professional Plaza Tower and rehabilitated it into 72 apartment units with the project estimated to have a cost \$20 million. The primary request for the 3800 Woodward Professional Plaza, is to allow for the building to have an "upscale cocktail bar, offering a carefully curated menu of classic and original cocktails, as well as a selection of beer, wine and small plates. This venue would provide seating for approximately 65 guests in a midcentury modern atmosphere." Such a venue would be considered an 'establishment that serves alcohol for consumption on the premises' per the Zoning Ordinance. Additionally, the developer is also requesting that the uses allowed in the B5 Major Business District also be allowed for the subject property. This is being requested to allow for flexibility in operations and future programming of the building.

#### **PLANNING CONSIDERATIONS AND ANALYSIS**

##### **Surrounding Zoning and Land Use**

The zoning classification and land uses surrounding the full project subject area are as follows:

**North:** PD; Bicentennial Tower senior apartments

**South:** PD; The Ellington Lofts parking deck; Whole Foods market

**East:** PD; McLaughlin Hall Medical Center

**West:** PD; Music Orchestra Hall/Max M. & Marjorie Music Center and the Detroit School of Arts (high school)

#### **ANALYSIS**

##### **3800 Woodward**

The proposal of the 3800 Woodward developer is one that is consistent with the surrounding Midtown area. In 2016, the City Council approved an ordinance that zoned a large portion of Midtown to the SD1-SD2 zoning classifications. In these districts, 'establishments that serve alcohol for consumption on the premises' are permitted without a spacing requirement in order to attract increased pedestrian traffic to the area.

This proposal seems appropriate given that much of the Midtown neighborhood currently allows this use with more liberal standards than other districts. The additional B5 uses would also allow the property to address changing factors in demand for commercial space etc.

##### **3750 Woodward**

The 3750 Woodward development is planned to be one of the largest new developments that Midtown has seen in years. The project as planned will create places and public spaces that will not only serve the tenants of the development, but also the general public. <sup>3</sup>The luxury boutique hotel being proposed by the developer is much needed according to industry leaders. According to the Detroit Free Press.

Today, hotel occupancy and nightly rates in downtown are at near-record highs and greater downtown is in the middle of a building boom of small and mid-size boutique hotels. The hotel serving as an anchor for the entire development is seemingly appropriate for the needs of the area as there are not enough hotel rooms online to fill current and projected demand in the city.

In addition, the project plans to create a range of housing options, from the student style housing to luxury condominiums, creating options for various households. With what currently exist as dead space in a prime Woodward Avenue block, this project seeks to reinvigorate with over 100,000 square feet of retail that would transform this portion of Midtown. The developer also seeking to attract a grocer to the neighborhood which staff has encountered as a top request from residents in the area during public meetings.

##### **PD Criteria 61-11-15**

The zoning ordinance, provides that for a planned development to be approved it should meet the following criteria found in Sec. 61-11-15. PD District design criteria.

(a) *Master Plan, The proposed development should reflect applicable policies stated in the Detroit Master Plan. The policies relating to the geographic area in*

*question as well as general policies will be considered. This zoning ordinance requires that the proposed major land use be consistent with the adopted Master Plan in all PD developments.*

Both petition requests align with the Master Plan of Policies as the Mixed Residential Commercial designation calls for development that "consists predominantly of medium-to-high density housing developed compatibly with commercial and/or institutional uses. This classification is well suited to areas proximal to existing centers of major commercial activity, major thoroughfares, transportation nodes, or gateways into the city." Woodward Avenue is encouraged to be a major host for activity so this proposal accomplishes that goal.

(b) *Scale, form, massing, and density. Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development.*

This development would erect buildings with heights that exceed those in the nearby surrounding area with two of its buildings reaching 366 ft. and 383 ft., however, the scale form, massing and density can be deemed appropriate. The architect for the project has been thoughtful in designing the buildings in the site so that there are cues in the massing and materiality that honor the surrounding building scales. For instance, at the max height of the Professional Plaza Tower, the buildings that are nearest the plaza tower, express a change in massing at the same level of the plaza tower's pinnacle. The massing and materials change as they exceed above the height of the plaza to show contrast. If no other place in the City, Woodward, in the greater downtown area is appropriate for this type of density to create a bustling center that will impact the entire area.

(c) *Compatibility. The proposed development should be compatible with surrounding development in terms of land use, general appearance and function, and should not adversely affect the value of properties in the immediate vicinity.*

The proposed development is deemed appropriate in staffs estimation as it will spur opportunities for the surrounding area and bring more vibrancy to this corridor. The project pays homage to the surrounding buildings. It also serves as a connector, from Woodward to John R. The architectural teams intent was to be a connector of the major institutions and to bridge the gap with a place that would serve as a central area for all to congregate. Staff believes this goal has been achieved. There is a strong argument that this development will raise the values of surrounding properties.

(d) *Circulation. Vehicular and pedestrian circulation facilities should be adequately designed to meet expected*

*demands. Disruption of traffic flow in surrounding areas should be minimized, and truck traffic should be carefully planned and controlled, especially to avoid use of residential streets.*

A traffic study was done by ROWE Professional Services Co. to examine the circulation and traffic flow of the site and the following are the summary of findings of that study:

ROWE has conducted a traffic impact assessment related to the proposed 3750 Woodward Avenue mixed-use development to be located between M-1 (Woodward Avenue) and John R Street, north of Mack Avenue, in the City of Detroit, Wayne County. The current site plan (included in the materials attached to this report) indicates a total of 373 multi-family residential units (both rental apartments and luxury condominiums), 520 total beds within 154 student apartments, a 225-room hotel, a 29,640-square-foot grocery store, and 31,873 total square feet of general retail space. This traffic impact assessment has been completed in accordance with the requirements specified by the City of Detroit and the Michigan Department of Transportation (MDOT).

To summarize, the findings show that the development would generate 419 new trips at peak morning hours and 550 at peak evening hours. To adjust for this, there are recommendations for traffic signal timing changes, a right turn lane to minimize traffic disruption and interference with the Q-line.

*(e) Parking and loading. Where appropriate, adequate vehicular off-street parking and loading should be provided. The City Planning Commission will be guided by standards delineated in this zoning ordinance with adjustments appropriate to each specific situation.*

Parking and loading is appropriate as proposed at this site as parking will be self contained. The parking will also be hidden from the street view by being located within and masked by the buildings themselves. The multi-level structured above and below grade parking is ideal for a project such as this, because it is hidden from street view largely, and therefore does not create a dead space and also does not interrupt with existing conditions. A loading diagram has been submitted and is appropriate for the site, also keeping from interference with current traffic patterns on Woodward and John R.

In general, the 3800 and 3750 Woodward sites, meet the intent and requirements of Sec. 61-11-15 PD District design criteria.

#### **PUBLIC HEARING RESULTS COMMUNITY ENGAGEMENT**

During the public hearing, two (2) people spoke in regard to the proposed development(s). One person representing Midtown Detroit Inc. spoke in favor of both projects. A second person representing the nearby hospital spoke in favor of the 3750 Woodward project, but also had concerns about traffic impacts to the nearby hospital. This will be addressed in staffs analysis. Additionally, this project has completed the City's Community Benefits Process which garnered more community input. Lastly, Midtown Detroit Inc. has submitted a letter of support for this project.

#### **3750 Woodward**

The petitioner for the 3750 Woodward project has provided the following entities as stakeholders that were included in community outreach efforts:

The Detroit Medical Center, Detroit Symphony Orchestra, Henry Ford Health Systems, Wayne State University, Bicentennial Towers Tenant Association, Whole Foods, Plaza Midtown. The owner of the 3800 Woodward Professional Plaza Tower has been supported by Midtown Detroit Inc. for their request.

#### **3800 Woodward**

The developer has been working with Midtown Detroit Inc. with regard to the Professional Plaza Tower proposal.

Respectfully submitted,

**City Planning Commission**

June 21, 2019

Honorable City Council:

Re: Neumann-Smith Architecture to amend Article XVII, District Map 4, of the 1984 Detroit City Code Chapter 61, Zoning, and the provisions of the existing PD-H (Planned Development District-Historic) zoning classification for the property commonly known as 100 Mack Avenue, generally bounded by Eliot Street and the portion of vacated Eliot Street on the north, John R. Street on the east, Erskine Street on the south and Woodward Avenue on the west.

The request will facilitate the construction of a multi-level parking deck with first floor retail/commercial space. Additionally, the request includes plans for an adjacent open space amenity.

**RECOMMENDATION**

The City Planning Commission (CPC) has completed its review and consideration of the above captioned request. Based upon the findings outlined in this report, the Commission recommends approval of the requested PD modification and the proposed SOMA development with the following conditions:

1. That the developer work with the immediately adjacent community to minimize disruption to the neighborhood during construction and operation of the proposed deck and address impacts that may arise;
2. That the developer work with the City Planning Commission and Planning and Development Department staff to ensure that all safety design concerns have been addressed to the extent practicable; and
3. That final site plans, elevations, lighting, landscape and signage plans be submitted by the developer to the staff of the City Planning Commission for review and approval prior to submitting applications for applicable permits.

**NATURE OF REQUEST**

Before the Commission is the request of Neumann-Smith Architecture to amend Article XVII, District Map 4, of the 1984 Detroit City Code Chapter 61, Zoning, and the provisions of the existing PD-H (Planned Development District-Historic)

zoning classification for the property commonly known as 100 Mack Avenue, generally bounded by Eliot Street and the portion of vacated Eliot Street on the north, John R Street on the east, Erskine Street on the south and Woodward Avenue on the west.

The request is planned to facilitate the construction of a multi-level parking deck with first floor retail/commercial space.

Additionally, the request includes plans for an adjacent open space amenity.

The property owner and developer, Adam Nyman of Woodward Mack 22, LLC is proposing to erect this multi-level parking deck with first floor retail space along with an adjacent park/open space at the parcel commonly known as 100 Mack Avenue in the Brush Park Historic District.

The project is planned just east of Woodward and between Erskine Street and the partially closed Eliot Street. The structure is proposed to be five (5) stories totaling 94 feet (inclusive of a penthouse roof) with a total gross square footage of 213,099 gsf. The structure would include 591 spaces in total. The development team anticipates that the project would produce 40 temporary jobs and 10 permanent jobs. Their goal would be to break ground on the project on March 1, 2019 and complete construction by March 1, 2020, filling the retail space by June 1, 2020.

SOMA (South of Mack) as it is currently

referred to, is according to the development team intended to be used for the surrounding neighborhood users. The parking operator, Premier Parking would be responsible for the operation of the 24 hour parking deck that would offer monthly passes and also accommodate transient users.

A parking attendant would be on-site during the morning and evening rush hours. During other hours, the structure would be monitored by a "roaming manager." Automated gates with access badges would also be incorporated for users. Parking security is planned to be on-site as well.

The subject site as it currently exists, hosts 187 parking spaces. The structure that is proposed would replace this ground level off-street parking with the approximately 591 spaces planned for the deck. A portion of this space would also serve as the park/open space that the developer plans.

The users of the deck according to staff's understanding, also include proposed future developments that are scheduled to come before the Commission in the coming months, such as the Elmwood Hotel that is being planned off of Woodward Avenue.

There is also a possible lease agreement that is being negotiated between the developer and the City for space at the Red Cross building(s). If the City strikes an agreement to move certain 'departments to the Red Cross site, then there is also the likelihood that those users would also utilize the parking deck for day-to-day parking. After work hours, the developer plans to serve more transient users that visit the area.

The site is a part of a larger property controlled largely by the same entity. The property in question, is labeled Parcel 1 in the subsequent parcel map.

**PLANNING CONSIDERATIONS**  
**Surrounding Zoning and Land Use**

The zoning classification and land uses surrounding the subject area are as follows:

- North: PD: Red Cross site
- East: PD: Existing two (2) story residential/office building
- South: PD: The Scott apartment building
- West: PD: Michigan State Building

**ANALYSIS**

This project is generally in conformance with the PD District design criteria of Sec. 61-11-15 of the Zoning Ordinance. Some

of the criteria that are considered as a part of the process are as outlined:

**Master Plan.** The proposed development should reflect applicable policies stated in the Detroit Master Plan. The policies relating to the geographic area in question as well as general policies will be considered. This zoning ordinance requires that the proposed major land use be consistent with the adopted Master Plan in all PD developments.

The Planning and Development Department has submitted a Master Plan Determination, stating that the pro-

posed development does conform to the MP Future Land Use designation. Regarding the City of Detroit Master Plan of Policies, the subject property is located in the Lower Woodward area of Neighborhood Cluster 4. The future land use designation for the subject parcels indicates (MRC) Mixed Residential-Commercial. "These areas are often characterized by medium-to-high density housing developed compatibly with commercial and/or institutional uses."

***Scale, form, massing, and density.***

Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development. Compatibility. The proposed development should be compatible with surrounding development in terms of land use, general appearance and function, and should not adversely affect the value of properties in the immediate vicinity.

The scale, form, massing and density proposed for this development are appropriate for a site of this nature. The proposed parking structure abuts a Major Street and Mass Transit Route in Neighborhood Cluster 4 according to the Master Plan of Policies. Woodward is the spine of the City and serves as an appropriate thoroughfare for dense development, especially, those within the greater downtown area. The development is proposed to have ground level commercial spaces that will help to activate the pedestrian realm.

As it relates to the massing and form of the structure, city staff did have meetings for approximately a year to understand how the development might be improved by incorporating a liner building to mask the parking element from the street. This would have been desired by CPC and PDD staff in the beginning. However, after a series of meetings and studies that were conducted, the developer concluded that the proposal was not feasible for the constraints of the site.

While the density, in terms of person(s) able to be accommodated by the structure, will be low. The structure will however, serve the purpose of housing the many vehicles for the Red Cross site that would otherwise be located at grade level surface parking. In essence, the structure will allow for much greater density for the overall site, as developments such as the West Elm Hotel are now being considered to locate on the surrounding area and utilize the SOMA structure for parking.

***Circulation. Vehicular and pedestrian circulation facilities should be adequately designed to meet expected demands. Disruption of traffic flow in surrounding areas should be minimized, and truck traffic should be carefully planned and controlled, especially to avoid use of residential streets.***

Circulation and pedestrian safety have

been the central issue of concerns surrounding the SOMA development proposal. For that reason, the City's Mayor's Office has been integral in finding mitigation strategies that will not only help the SOMA project, but the existing traffic issues that exist now. The measures that the Mayor's Office, Detroit Police Department and the Department of Public Works have committed to include the following:

1. The intersection of Edmund and John R will be converted from two-way to all way stop controlled.

2. Pedestrian crossing signs with blinking lights will be installed at the intersection of Watson and John R.

3. Yield to pedestrian signs will be installed in the crosswalks at the intersection of Watson and John R.

4. Yield to pedestrian signs will be installed at the intersection of Eliot and John R.

5. Pedestrian crossing signs with blinking lights will be installed at the intersection of Eliot Street and John R.

6. Spaces on Erskine will be marked as loading areas to alleviate congestion and double parking while trucks unload for the Scott apartments and commercial/retail business.

7. The DPD Commander for the precinct has committed to allocating resources during high traffic event nights by deploying officers to ticket and mitigate traffic.

This is in addition to zebra cross walks that were installed last fall at Watson and John R and Erskine and John R.

***Parking and loading. Where appropriate, adequate vehicular off-street parking and loading should be provided. The City Planning Commission will be guided by standards delineated in this zoning ordinance with adjustments appropriate to each specific situation.***

While this proposed parking garage with commercial space is holds many more spaces that what would be required for the ground floor commercial space (approximately 60 spaces) it can be argued that the structure will provide relief to the entirety of the Red Cross site which is expected to experience much change in coming years. Currently there is the proposal from the West Elm Hotel development that would occupy 116 spaces of the proposed SOMA parking deck. This is one of several developments and deals that are expected to come to fruition as this site is expanded and built out.

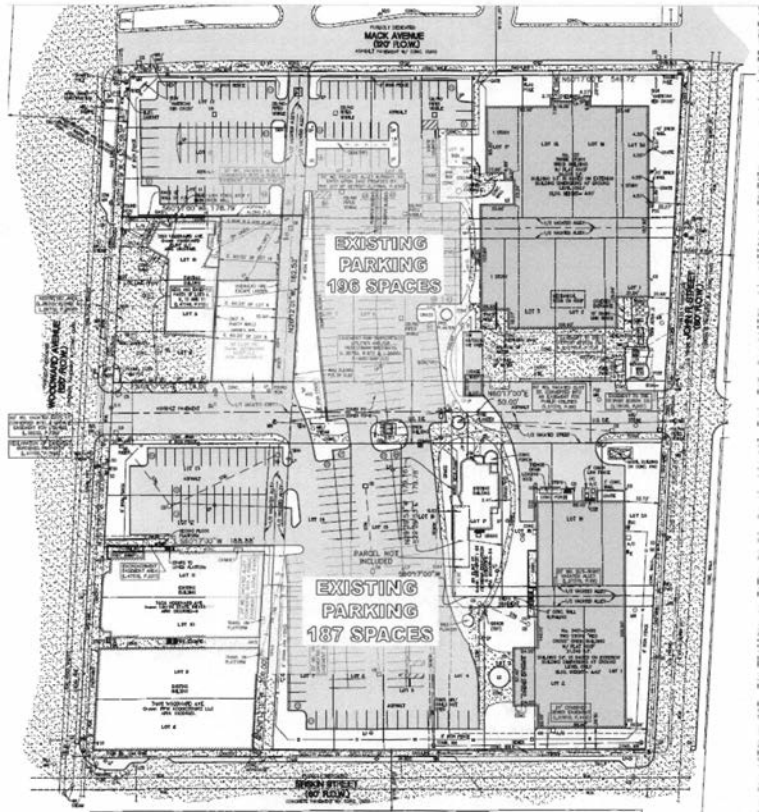

The subject property being on a prime piece of real estate in the greater downtown area, locating on Woodward Avenue a major street, which is the spine of the city and just off of Mack Avenue which is another major street, it is expected that very dense development will take place on this site as more development interest grows in this area. So while the SOMA

development might usually not be the most desired type of development in and of itself, if looking at the site holistically, it can add to the larger picture of how parking will be accommodated for a site that will have dense developments overall.

The current Red Cross uses alone could utilize a sizeable amount of the parking deck if they are filled (which there is a possible deal being negotiated for City Departments to locate in the existing Red Cross buildings) which would take a sizeable amount of the parking stalls in the

structure in addition to the already anticipated hotel.

There are currently an approximate 383 surface level off-street parking spaces that exist on the Red Cross site. If built the SOMA parking deck would replace the portion of the site that houses 187 spaces and replace that footprint with a structure that holds 591 spaces. There is a case to be made that this would be a more efficient use of the current surface parking lot space and help the site (See site plan below).

**Environmental impacts.** Environmental impacts that relate to such factors as noise, air, combustibles and explosives, gases, soil, and water pollution, toxic waste, vibration, odor, glare, and radiation, should be controlled to be within acceptable levels at all times.

A case could be made that this parking deck would add to the noise and air pollution of the site and it likely will bring slight increase in undesirable conditions. However, based on the traffic study that was conducted and spoken to at the public hearing by Giffels and Webster, it is not expected that the parking structure will induce more traffic, but instead simply alleviate parking and traffic problems that currently exist, at least regarding the traf-

fic that is a result of uses that are being served on site. Given the amount of on-street parking that takes place currently on any event night, one could also argue that this could alleviate “sharking.”

**Orientation.** Careful consideration should be given to orientation both for solar access to the proposed project and for shadow impact upon surrounding development.

Again, CPC would have desired that

the front facing facade of the building that faces Erskine, not be that of a parking structure. However, based on the studies that the developer has conducted and the limitations that have been found, staff has digressed on the issue of the portion of the development that is oriented towards Erskine Street and what this facade looks like.

**Signage.** *Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development. They should provide needed information, direction, and orientation in a clear and concise manner.*

CPC also strongly encourages that the City be allowed to have full review over any signage that is placed on the subject building, so that the signage is not overwhelming to the street scape. We will work with HDC staff to finalize. Signage that has been shown in renderings is likely not desirable for this building and other tasteful signage will be explored.

**Amenities.** *Special attention should be given to amenity and comfort considerations such as provision for outdoor seating, restrooms for public use, bicycle storage, convenience of access points, and protection from harsh weather through features as enclosed walkways and arcaded pedestrian areas.*

One of the best features this site is that it will be creating park/open space amenity adjacent to the structure. The park would complement the commercial and retail space that it rests alongside. This will serve to create even more synergy for the businesses as well as bring alive a site that has been dormant for decades serving only as surface parking. This will be a major amenity for the community as the developer plans for it to remain a public space. This help to fill the void of a lack of open spaces in the Brush Park neighborhood and supplement other City efforts that are also underway.

#### **PUBLIC HEARING RESULTS AND COMMUNITY ENGAGEMENT**

The development team has provided letters of support from the Brush Park CDC and Midtown Detroit Inc. as well as one additional supporter (See attached letters).

In addition to this, CPC staff also requested that the developer hold an additional meeting in the immediate area and reach out to the neighbors on the subject street. The developer held this meeting on January 9th. CPC staff attended and about 10 residents and stakeholders were at the meeting. The meeting was held in the communal area so there were also many people that passed by and observed the drawings that were on display. Some concerns regarding traffic impacts were raised. These concerns were taken into consideration by Giffels and Webster during their

traffic study and reported on. Overall those in attendance were seemingly acceptant of the proposal. No opposition was stated. Some favorable comments were given.

At the CPC public hearing, three individuals spoke to the project. One was a representative from Midtown Detroit Inc. who spoke in support of the proposed parking deck stating that this will help the parking problems for the area. The representative also spoke to the need for shared parking for multiple projects in the area that will allow parking to concentrate instead of being dispersed neighborhood wide. Additionally, a representative from Giffels and Webster spoke regarding a traffic study that had been conducted for this site and surrounding area that concludes that the parking deck would not have any overbearing negative impact on the neighborhood, but would only slightly alter traffic conditions (this study was provided in staffs original report for this matter).

Another speaker was a resident who spoke in opposition to the proposal because of the size and scale of the parking structure. The person also spoke to this development having a negative impact on the neighboring community. Specifically the resident spoke to dangerous traffic conditions that exist on John R and the fear that the proposed garage will exacerbate the current issues (to this issue, the Mayor's Office has created a traffic calming mitigation plan to address these issues. Please see staff analysis).

A representative from the Mayor's Office also spoke at the public hearing, stating that the Mayor's Office would be taking this matter up and working with the appropriate departments to create a traffic mitigation plan.

The Brush Park CDC has submitted an updated letter of support attached to this report.

#### **CONCLUSION**

This request amounts to the provision of commercial parking, which is not consistent with the spirit and intent of the never adopted Brush Park 4 Modified Development.

However, existing and anticipated development require parking that the proposed structure can supply. The end result, achieved via separate undertakings, we believe, will be a build out that does achieve the vision of the Urban Renewal Plan. The traffic issues present and future are real and will require intervention and coordination with the City to support the desired density with the redevelopment of this area. Staff supports implementation of the traffic mitigation plan developed by the Mayor's Office, the Department of Public Works and the Detroit Police Department. Staff will be

working with the administration on the progression of the plan and report back to the Commission as appropriate.

<sup>1</sup>Possible departments that might move to the site abutting the parking structure include the General Services Department, Health Department and Department of Transportation. The departments,

would occupy 90% of the space with a ten year lease in the two Red Cross buildings that abut the subject property. If executed, approximately 400-500 employees would be relocated to the Red Cross buildings. The goal of this move would be to serve citizens in a more centrally located area of the City and to consolidate departmental staff into one place. This would allow for an easier process for citizens and increased efficiency. This project is not anticipated to come before CPC.

<sup>2</sup>The continual revolving search for on-street parking spaces by commuters as they clog streets until a space becomes available.

Honorable City Council:

Re: Request of 112 Edmund Place, LLC to modify the provisions of an existing PD-H (Planned Development-Historic) zoning district on Article XVII, District Map 4 of the 1984 Detroit City Code, Chapter 61, Zoning, to allow for a mixed-use building to include commercial and residential space on property commonly known as 112 Edmund Place (RECOMMEND APPROVAL).

**RECOMMENDATION**

The City Planning Commission (CPC) has completed its review of the above captioned request. Based on the information that was provided at the public hearing, the public testimony that was submitted and the work that the developer has adhered to, in order to meet City and community requests, CPC recommends approval of this petition. This recommendation includes the following conditions:

1. That the developer work with the immediately surrounding property owners to minimize disruption to the neighborhood during construction and address impacts that may arise;
2. That the developer work to mitigate any possible unforeseen concerns and work with the CPC staff to further refine any aspect of the project design if necessary;
3. That the developer work with the neighbor immediately adjacent to the west to add a possible brick masonry wall and/or vegetative buffer as appropriate between subject lots working with the

subject neighbor and to be done to CPC staffs satisfaction;

4. That the developer would address setback concerns of the adjacent property known as the Lucien Moore, to mitigate outstanding issues to CPC staffs satisfaction; and

5. That the developer submit final site plans and elevations, landscaping, lighting, and signage plans to the CPC staff.

**BACKGROUND**

This matter first came before the City Planning Commission in 2018. The original request proposed to allow for a multi-building mixed-use development on the subject block to provide two buildings which would include office, retail, commercial and residential space and to also construct a parking structure with retail and commercial space on the ground level. The project originally consisted of three (3) buildings total at 112 Edmund, 2827 John R. and 105 Alfred Street.

The City Planning Commission approved this overall project in 2018, however, the matter never advanced to City Council. Since then the project before this Honorable Body has been refined to only the scope of the 112 Edmund building proposal for the parcel located at John R. and Edmund Place. The other portions of the original project will be presented at a later date. The developer has also made modifications to the 112 Edmund design that have improved the project and also addressed some of the neighbor's concerns even after the original approval by the City Planning Commission of the wholistic project in 2018.

**PROPOSAL**

The developer is currently seeking to move forward with a project known as 112 Edmund which is a mixed-use residential building at the intersection of John R. Street and Edmund Place in Brush Park. The ground floor is planned to house parking and 1,000 sf of commercial space at the corner of John R and Edmund. The above floors would include 36 residential units with the overall height of the building being five (5) and four (4) stories at different portions of the building which incorporates as step down. The building would have 49,540 gross square feet (sf). Units would range from 639 sf to 1294 sf. Construction is desired to begin in 2020 and end in 2022.

## PUBLIC HEARING AND COMMUNITY INPUT

At the original CPC hearing in 2018, some residents from the Carlton spoke to concerns about their downtown views being obstructed by the then proposed seven (7) story building (since then the building has been lowered to five stories). Other concerns were raised as well. Some members of the public spoke in support.

Since then for various reasons, the project has been modified as previously mentioned in this report. The building massing has been drastically reduced. After many public discussions on this project, the Brush Park CDC has submitted a letter of support for the 112 Edmund proposal.

## ANALYSIS

This project is generally in conformance with the PD District design criteria of Sec. 61-11-15 of the Zoning Ordinance. CPC's review is as follows:

**Criterion (a)** *Master Plan outlines that this zoning ordinance requires that the proposed major land use be consistent with the adopted Master Plan in all PD developments.*

Regarding the City of Detroit Master Plan of Policies (MP), the subject property is located in the Lower Woodward area of Neighborhood Cluster 4. The future land use designation for the subject parcels indicates (MRC) Mixed Residential-Commercial. The Planning and Development department has submitted a letter stating that this development will contribute to the mixed-use character of the MP designation of the area. CPC concurs that the proposed development is consistent with the MRC designation.

**Criterion (B)** *addresses scale, form, massing and density*

CPC points to the surrounding context when it comes to scale, form, massing and density. Regarding the buildings height and scale being appropriate for the current site, it is very plausible to say that the proposed building's five (5) story height fits the existing and historic context of the Brush Park neighborhood as there are surrounding buildings that reach heights of seven (7) to eight (8) stories.

This project is seemingly consistent with the scale, form massing and density of the historic precedents of the neighborhood, particularly for buildings between John R. and Woodward. At the time of the Brush Park Historic District designation of the 22 block area in 1980 by the Historic Designation Advisory Board (HDAB), buildings varied greatly in size. According to the HDAB staff report for the district, *"Houses are generally oriented to the east-west streets, while apartments and commercial structures are more often oriented to the north-*

*south streets."* Most lots were around 50 feet wide and the neighborhood historically maintained all types of buildings from Victorian style mansions to institutional churches, to apartment buildings and hotels.

The historic district ordinance speaking of the period of designation, states that, ***2 "Height varies in the district from one (1) to eleven (11) stories. In the area between Woodward and Brush ... All other buildings more than four (4) stories in height are located between Woodward and John R, and generally on or immediately adjacent to buildings on those streets"*** the ordinance states.

*"Older single family houses between Woodward and Brush generally occupy about twenty-five (25) to thirty (30) percent of the building lot, not including coach houses or garages. Later apartments and commercial buildings often fill a much higher percentage of the lot, sometimes approaching or reaching complete lot coverage."* Some of the taller buildings in Brush Park were directly adjacent to the smaller two (2)- three (3) story buildings. Brush Park had many building typologies. St. Patrick's Church that once existed on John R. and Adelaide, was a church that maintained two very large steeples and is a good example of the vastly different mix of scale and land use that existed in the area.

**Criterion (c) Compatibility** — *asks whether the proposed development is compatible with surrounding development in terms of land use, general appearance and function, and should not adversely affect the value of properties in the immediate vicinity.* CPC believes that the development is compatible with the surrounding area and that the developer has worked closely with the community and City to come to a product that takes into consideration all concerns that can reasonably be accommodated and make the project still remain feasible.

## CONCLUSION

CPC has worked inter-departmentally, with the developer and with the community to reach the conclusion for the project that is currently before your Body. We view the 112 Edmund building as being cohesive to the neighborhood. The developer has been very cooperative and conducive to changes over the time of this project and has incorporated numerous design changes based on city and community feedback.

Honorable City Council:  
 Re: Request of the Detroit-Wayne Joint Building Authority for PC (Public Center) Special District Review of proposed exterior alterations to 2 Woodward Avenue — Coleman A. Young Municipal Center. (RECOMMEND APPROVAL)

**REQUEST**

The City Planning Commission (CPC) has received a request from the Detroit-Wayne Joint Building Authority for PC (Public Center) Special District Review of proposed exterior alterations to 2 Woodward Avenue — Coleman A. Young Municipal Center (CAYMC). This request is being made consistent with the provisions of Section 61-3-182 of the Detroit Zoning Ordinance.

**BACKGROUND & PROPOSAL**

The Detroit-Wayne Joint Building Authority (DWJBA) is continually making

improvements to the CAYMC. The current project under consideration has three components:

1. Fencing around the parking lot and gates across curb cuts — 6' high black ornamental steel fence similar to the fencing across Jefferson Avenue at Mariners' Church
2. Additional bike racks and benches matching those that have been previously approved at the Jefferson (south) and Woodward (west) entrances
3. Removing brick pavers and replacing with plain concrete in additional locations to eliminate tripping hazards and maintenance issues

The next minor project being planned is the installation of new cameras around the building. The Building Authority is also in the early stages of planning to activate the lawn area between the Spirit of Detroit and Jefferson Avenue, adjacent to the flagpole. The intent is to create a plaza space to complement Spirit Plaza and to minimize the grass which is difficult to keep healthy due to its location on the roof of the basement level. They are engaging local architectural students in a design competition and will involve a broad audience in the review and selection process.

**REVIEW & ANALYSIS**

Some concern was raised regarding the removal of the pattern in the pavement around the Spirit of Detroit. After much consideration, the Building Authority prefers plain concrete in a grid pattern due to three major factors:

- The existing concrete ribbons are only two years old and already cracking. Due to the small size of the pieces and the freeze/thaw cycle, the longevity of the concrete would be greatly reduced.
- The cost of replacing the concrete in the ribbon pattern is well over the budget for the project.
- This plan restores the original design of the concrete in that location (see attached photos)

**PC District Review Criteria**

There are eighteen PC District Review Criteria listed in Section 61-11-77 of the Zoning Ordinance. A few of the most applicable are:

(3) *The proposed development should be compatible with surrounding development in terms of land use, general appearance and function and should not adversely affect the value of adjacent properties.*

The proposed changes are minor and will not adversely affect adjacent properties.

(12) *Security considerations should be a major element of the design program.*

Securing and controlling access to the parking lot where public officials park has been a long-standing priority which this project addresses.

(13) *Barrier-free access and public safety features should be carefully planned.*

Ramps are provided where necessary and the plan calls for removal of the brick pavers which will eliminate tripping hazards and improve safety.

(18) *Phasing, staging and interim circulation patterns should be well-planned so as to minimize disruption during the construction period.*

Extensive planning has been done to phase the concrete work so that each section can be completed in one day to reduce the impact on pedestrian circulation.

**Design**

The Planning & Development Department has reviewed the proposed changes and recommends approval.

**RECOMMENDATION**

CPC staff recommends approval of the proposed exterior modifications to 2 Woodward Avenue as detailed in the attached drawings with the following conditions:

1. That the Detroit-Wayne Joint Building Authority continue to work with city agencies as may be appropriate to further refine the design and to ensure minimal disruption to the business conducted at the Municipal Center, and
2. That final site plans, elevations,

landscape, lighting, and signage plans be submitted for City Planning Commission staff approval prior to making application for applicable permits.

Honorable City Council:

Re: Recommendation for Deferral.  
Address: 9564 Beaverland. Name:  
Beaverland 9564, LLC. Demolition  
Ordered: April 19, 2011 (J.C.C. pg.  
\_\_\_\_\_).

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection conducted on June 5, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the 2nd deferral request for this property.

Therefore, we respectfully recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding three (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,  
DAVID BELL  
Director

COMMEMORATING 100 YEARS OF  
WOMEN'S RIGHT TO VOTE**

By ALL COUNCIL MEMBERS:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, Voting and access to the ballot are fundamental to a thriving, well-functioning democracy; and

WHEREAS, In 1918 Michigan's voters approved a state constitutional amendment by nearly 55 percent of the vote, extending suffrage to Michigan women, thereby granting them the right to vote in statewide political elections. The National Suffrage Amendment, the 19th Amendment to the U.S. Constitution, was passed by Congress on June 5, 1919. Michigan was the second state to ratify the amendment on June 10, 1919, under Gov. Albert Sleeper; and

WHEREAS, June 10, 2019 marks the 100th year anniversary of women gaining the right to vote. Honorable City Council:

Re: Application for Neighborhood Enterprise Zone Certificate for West Village NEZ Area.

On October 21, 1992, your Honorable Body established Neighborhood Enterprise Zones. I am in receipt of one (1) application for a Neighborhood Enterprise Zone Certificate. This application has been reviewed and recommended for approval by the Legislative Policy Division, a copy of which is attached. Therefore, the attached Resolution, if adopted by your Honorable Body, will approve this application.

Respectfully submitted,

JANICE M. WINFREY

City Clerk

By Council Member Ayers:

Whereas, The Detroit City Council has established a Neighborhood Enterprise Zone for the following area, in the manner required by and pursuant to Public Act 147 of 1992.

Now, Therefore, Be It

Resolved, That the City Council approve the following address for receipt of Neighborhood Enterprise Zone Certificate for a fifteen-year period:

| <b>Zone</b>  | <b>Address</b> |

June 20, 2019

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for a new 4-story mixed-use building with 92 apartments at 8001 Kercheval Avenue in the West Village NEZ area. (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received an application for Neighborhood Enterprise Zone (NEZ) certificate forwarded from the office of the City Clerk. The application is for a new 4-story mixed-use building with 92 apartments at 8001 Kercheval Avenue in the West Village NEZ area. The project is being developed by Kercheval Associates LLC. CPC staff has reviewed the applications and recommends approval.

The subject properties have been confirmed as being within the boundaries of the West Village NEZ which was established

on November 15, 2000, and should be eligible for an NEZ certificate under State Act 147 of 1992 as currently written. The property to be developed is at the northeast corner of Kercheval and Van Dyke Avenues. The NEZ certificate application appears to have been submitted prior to the issuance of any applicable building permits.

Please contact our office should you have any questions.

Respectfully submitted,  
MARCELL R. TODD, JR.  
Director CPC  
CHRISTOPHER J. GULOCK

**City Council  
Legislative Policy Division**

• In 2016, the Council developed a new system of review for the approval of certain NEZ certificates:

LPD assisted in developing a system for which the Council applied a greater level of scrutiny at the NEZ Zone approval stage. The recent upswing in the use of NEZs for the development of apartment buildings and condos downtown and in "Downtown Revitalization Districts,"<sup>21</sup> instead of just neighborhood single family residents, created a need for this review.

This Neighborhood Enterprise Zone was established in 2000, which is prior to the development of a system of additional financial review for NEZs in 2016, therefore there is no additional fiscal review for this item.

Honorable City Council:

Re: Property Sale / Memorandum of Understanding, 15003 E. Jefferson Ave., Grosse Pointe Park, MI

The City of Detroit ("City"), through its Planning & Development Department ("P&DD"), the Urban Renewal Initiative Foundation ("URIF") and the City of Grosse Pointe Park ("GPP") have been in discussions regarding the sale of certain City-owned land located at 15003 E. Jefferson Ave, Grosse Pointe Park (the "Property") to URIF for the purchase price of Three Hundred Thousand and 00/100 Dollars (\$300,000.00).

In conjunction with the sale of the Property to URIF, GPP has agreed to: (1) modify their traffic island located in Jefferson Avenue immediately west of the intersection of Jefferson Avenue and Lakepointe Street in a manner that would permit the City's Detroit Department of Transportation ("DDOT") buses to turnaround and head west on Jefferson Avenue and (2) construct a parking area for DDOT buses on westbound Jefferson Avenue on land that GPP owns between Maryland Street and Lakepointe Street. The commitments of GPP are codified in a Memorandum of Understanding ("MOU") that is included in the attached resolution.

URIF proposes to utilize the Property to construct and operate a non-profit ART center that includes theater and museum space and that is used in conjunction with adjoining land that it owns.

We request that your Honorable Body adopt the attached resolution to: (1) authorize the Director of P&DD, or his designee, to execute a quit claim deed and such other documents as may be necessary or convenient to effect a transfer of the Property by the City to URIF and (2) approve the MOU.

Respectfully submitted,

MAURICE D. COX

Director

By Council Member Tate:

Whereas, The City of Detroit ("City"), through its Planning & Development Department ("P&DD"), has received an offer from the Urban Renewal Initiative Foundation ("URIF") to purchase certain City-owned real property at 15003 E. Jefferson Ave., Grosse Pointe Park, MI (the "Property"), as more particularly described in Exhibit A incorporated herein, for the purchase price of Three Hundred Thousand and 00/100 Dollars (\$300,000.00) (the "Purchase Price"); and

Whereas, To entice the City to sell the Property to URIF, URIF and the City of Grosse Pointe Park ("GPP") wish to enter into a Memorandum of Understanding with the City (the "MOU") wherein GPP has committed and agreed to: (1) modify

their traffic island located in Jefferson Avenue immediately west of the intersection of Jefferson Avenue and Lakepointe Street in a manner that would permit the City's Detroit Department of Transportation ("DDOT") buses to turnaround and head west on Jefferson Avenue and (2) construct a parking area for DDOT buses on westbound Jefferson Avenue on land that GPP owns between Maryland Street and Lakepointe Street; and

Whereas, The MOU is substantially in the form attached hereto in Exhibit B and made a part hereof, with the two (2) GPP commitments given in the preceding paragraph above to be known herein as the "GPP Commitments"; now therefore be it

Resolved, Detroit City Council hereby approves the sale the Property to the URIF, its successors or assignees, for the Purchase Price; and be it further

Resolved, That the Director of P&DD, or his authorized designee, is authorized to execute a quit claim deed and such other documents as may be necessary or convenient to effect the transfer of the Property to the URIF consistent with this resolution and the foregoing communication; and be it further

Resolved, That the Director of P&DD, or his authorized designee, is authorized to execute any required instruments to make and incorporate technical amendments or changes to the quit claim deed (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Property, provided that the changes do not materially alter the substance or terms of the transfer and sale; and be it further

Resolved, That Detroit City Council hereby approves the MOU; and be it further

Resolved, That Detroit City Council hereby authorizes the Director of P&DD to modify, revise and/or amend the final form of the MOU at the discretion of the Director of P&DD, provided that the final, executed MOU include the GPP Commitments and provided that the Purchase Price not be less than Three Hundred Thousand and 00/100 Dollars (\$300,000.00); and be it finally

**MEMORANDUM OF UNDERSTANDING**

**MEMORANDUM OF UNDERSTANDING AMONG THE CITY OF DETROIT, URBAN RENEWAL INITIATIVE FOUNDATION AND THE CITY OF GROSSE POINTE PARK**

This Memorandum of Understanding ("MOU") is entered into by the City of Detroit, a Michigan municipal corporation ("City"), Urban Renewal Initiative Foundation or its successor or assignee ("Foundation"), a Michigan non-profit corporation, and the City of Grosse Pointe Park ("GPP"), a Michigan municipal corporation, in order to cooperate and to coordinate their respective activities in furtherance of the construction of a non-profit community center for the arts, (The A. Paul and Carol C. Schaap Center for the Performing Arts and the Richard and Jane Manooogian Art Gallery), a bus turnaround, and parking area for DDOT busses. The City, Foundation and GPP each may be referred to herein as a "Party" or collectively as the "Parties," as applicable.

**RECITALS:**

**A.** The City owns but no longer uses as a bus turnaround or for any other purpose the real property located on Jefferson Avenue between Wayburn Street and Maryland Street in the City of Grosse Pointe Park and more particularly described on the attached Exhibit A (the "City Property");

**B.** The Foundation is desirous of purchasing the City Property for the construction of a non profit community center for the arts that will be operated by the Foundation or another non-profit entity.

**C.** GPP owns and currently maintains as green space the real property located on Jefferson Avenue between Maryland Street and Lakepointe Street in the City of Grosse Pointe Park and more particularly described on the attached Exhibit B (the "GPP Property");

**D.** GPP owns and maintains the traffic island located in Jefferson Avenue immediately west of the intersection of Jefferson Avenue and Lakepointe Street (the "Traffic Island").

**E.** GPP has offered (among other things, as set forth below) to modify the GPP Property and the Traffic Island as necessary for use by the City's Depart-

ment of Transportation (“DDOT”) in perpetuity for a bus turnaround and parking area for DDOT busses.

F. GPP and the City believe that the construction and operation of a non-profit community center for the arts, bus turnaround and parking area is in the best interest of the public and are desirous of seeking necessary approvals and consummation of the same.

**Accordingly**, the City, Foundation and GPP mutually acknowledge the following understanding:

**Section 1 — Purpose.** The purpose of this MOU is to set forth the required activities of the Parties hereto in furtherance of the construction of the non-profit community center for the arts, bus turnaround, and parking area.

**Section 2 — Activities of the City.** In furtherance of the construction of the non-profit community center for the arts, bus turnaround and parking area, the City agrees to perform the following independent activities: the City will at its earliest opportunity request authorization from the Detroit City Council to sell the City Property to the Foundation for the Purchase Price of Three Hundred Thousand Dollars (\$300,000.00). The City shall convey title to the City Property to the Foundation by quit claim deed. The City will deliver the quit claim deed to the Foundation only after the following conditions have been met:

A. Detroit City Council has authorized, by resolution, the sale and conveyance of the City Property to the Foundation; and

B. GPP has performed its obligations under Section 4, Paragraphs A, B, C, and D, of this MOU.

C. GPP and the City have executed as the binding obligation of each a Memorandum of Understanding reopening Kercheval to two way traffic.

Title will be conveyed, in a Closing described in Section 5 of this MOU, by the City as soon as practicable but in no event more than 30 days after the aforementioned conditions have been met.

**Section 3 — Activities of the Foundation.** In furtherance of the construction of the non-profit community center for the arts, bus turnaround and parking area, the Foundation agrees to perform the following independent activities:

A. The Foundation will position and construct the structure/building that will be the community center for the arts in substantial compliance with the Site Plan attached as Exhibit C. The Foundation agrees that if the community center for the arts is not constructed that the Foundation will not construct, build or erect any other building or structure on the City Property unless it has received written approval, which shall not be unreasonably withheld, from the Mayor of the City of Detroit or his/her designee. The Foundation further agrees it will not convey its

interest in the City Property to another person or entity without the written approval, which shall not be unreasonably withheld, of the Mayor of the City of Detroit or his/her designee, except that the Foundation may convey its interest to a separate tax exempt non-profit entity provided such non-profit entity agrees to the conditions stated in this MOU regarding use of the City Property provided the Foundation gives the City notice of the assignment and a signed Assignment and Assumption of MOU or such other document as may be reasonably requested by the City between the Foundation and the non-profit assignee after which the City shall release the foundation of its obligations under this MOU.

B. Provide evidence to the City of the necessary corporate authority to enter into this MOU.

C. Operate the non-profit community center for the arts in such a manner that any loading/unloading or backing up of vehicles in any loading dock that is adjacent to properties located within the boundaries of the City of Detroit occur only within the hours of 8 a.m. and 5 p.m. Further, vehicle engines shall not idle for more than 5 minutes in said loading dock area.

**Section 4 — Activities of GPP.** In furtherance of the construction of the non-profit community center for the arts, bus turnaround, and parking area, GPP agrees to perform the following independent activities at its own cost:

A. Provide evidence to the Foundation and the City of the necessary authority to enter into this MOU.

B. Request and receive authorization from all necessary GPP legislative and executive members to construct the bus turnaround and parking area on the GPP Property for use, in perpetuity, only as a bus turnaround and parking area for DDOT busses. Said use shall run with the land and GPP agrees that the City may seek any and all remedies available to it in a breach of contract action including but not limited to specific performance if GPP infringes or interferes in any way on this use.

C. Provide reasonably satisfactory evidence of GPP’s ability to perform its obligations under this MOU with respect to the GPP Property.

D. At GPP’s cost, provide a cash or surety (with such surety as is reasonably satisfactory to the City) bond in the amount of Fifty Thousand and 00/100 Dollars (\$50,000) to secure GPP’s performance of its obligations under Section 4, Paragraphs E and F, of this MOU.

In the event

1. GPP submits a surety bond, and GPP does not perform its obligations under Section 4, Paragraphs E and F, of this MOU, the proceeds of such bond shall be paid to the City of Detroit for use to complete the bonded obligations, GPP

will issue a right of entry to the City or its contractor to complete the construction and will provide the City with an easement to erect signs on the GPP Property that notifies the public that the area is for DDOT bus parking only, with any balance paid to GPP, or

2. GPP submits a cash bond, such bond shall be held by such title company as is reasonably satisfactory to the City; GPP may draw against it to complete its obligations under Section 4, Paragraphs E and F, of this MOU in accordance with the reasonable requirements of such title company; and if GPP does not perform its obligations under Section 4, Paragraphs E and F, of this MOU, the proceeds of such bond shall be used to complete the bonded obligations, with any balance paid to GPP.

E. Prepare the GPP Property depicted on Exhibit C(4) for use by DDOT as a bus staging and turnaround area within one year of the date of Detroit City Council authorization described in Section 2 of this MOU. This preparation will include, but is not limited to, removal of existing curbs, sidewalks and green space, along Jefferson Avenue, proper signage indicating the area is for DDOT parking only, site preparation for paving, and paving of the area with curbs and drainage. All such work will be completed to the reasonable satisfaction of the City and in accordance with applicable State of Michigan Department of Transportation standards and specifications for road construction.

F. Construct the improvements to the Traffic Island depicted on Exhibit C(4) to permit DDOT buses of no more than sixty (60) feet long to turn from eastbound Jefferson Avenue into the bus staging area and/or to complete a U-turn from eastbound to westbound Jefferson Avenue within one year of the date of Detroit City Council authorization described in Section 2 of this MOU. All work will be completed to the reasonable satisfaction of the City and in accordance with applicable State of Michigan Department of Transportation standards and specifications for road construction.

G. Maintain (in a clean and orderly fashion together with providing reasonable supplies of soap, towels and toilet paper) a restroom facility or facilities located within the City of Grosse Pointe Park municipal facilities at 15115 East Jefferson Avenue, for use by DDOT drivers, on a continuous and uninterrupted basis as long as the City operates a bus line/route along Jefferson Avenue. GPP agrees that said use shall run with the land as long as the City operates a bus line/route along Jefferson Ave and that the City may seek any and all remedies available to it in a breach of contract action, including but not limited to specific performance, if GPP infringes in any way on this use.

### **Section 5 — Closing Between the City and the Foundation.**

A. The Foundation shall, at its expense, order a commitment for title insurance from First American Title Insurance Company (the "Title Company") for the City Property and title to the City Property must be reasonably satisfactory to the Foundation. In the event title to the City Property cannot be conveyed in the condition required by this MOU, the Foundation may terminate this MOU and the parties shall have no further obligation under this MOU.

B. The conveyance of the City Property to the Foundation will occur at a Closing. The Closing shall take place at the offices of the Title Company at a time mutually agreeable to the City and the Foundation.

C. At the Closing, the Foundation shall:

Re: Memorandum of Understanding with City of Grosse Pointe Park Reopening of Kercheval Avenue to Two-Way Traffic.

Honorable City Council:

The City of Detroit ("City"), through its Planning & Development Department, and the City of Grosse Pointe Park ("GPP") have been in discussions regarding GPP reopening Kercheval Avenue to two-way vehicular traffic and the potential to redevelop certain areas at the boarder of both cities along Kercheval Avenue between Alter Road and Wayburn.

The City and GPP have reached agreement through that certain Memorandum of Understanding (the "MOU") that is substantially in the form included in the attached resolution and that requires: (1) the reopening of Kercheval Avenue to two-way vehicular traffic by GPP no later than August 1, 2019, provided that the road may be closed by either city for annual weekend public square programming events between June 1 and September 30 of each year, (2) each city shall work cooperatively on the development of plans for the reopening of Kercheval Avenue and the surrounding area and (3) each city will support the potential redevelopment along Kercheval Avenue only so long as such redevelopment does not require the closing of Kercheval Avenue or the bridging of Kercheval Avenue by a building or other structure.

We hereby request that your Honorable Body adopt the attached resolution to approve the MOU.

Respectfully submitted,  
MAURICE D. COX  
Director

By Council Member Tate:

Whereas, The City of Detroit, through its Planning and Development Department ("P&DD"), and the City of Grosse Pointe Park ("GPP") wish to enter into that certain Memorandum of Understanding (the "MOU") wherein the City and GPP have committed and agreed to: (1) the reopening of Kercheval Avenue to two-way vehicular traffic by GPP no later than

August 1, 2019, provided that the road may be closed by either city for annual weekend public square programming events between June 1 and September 30 of each year, (2) each city shall work cooperatively on the development of plans for the reopening of Kercheval Avenue and the surrounding area and (3) each city will support the potential redevelopment along Kercheval Avenue only so long as such redevelopment does not require the closing of Kercheval Avenue or the bridging of Kercheval Avenue by a building or other structure; and

Whereas, The MOU is substantially in the form attached hereto in Exhibit A and made a part hereof, with the three (3) commitments given in the preceding paragraph above to be known herein as the "MOU Commitments"; now therefore be it

Resolved, That Detroit City Council hereby approves the MOU; and be it further

Resolved, That Detroit City Council hereby authorizes the Director of P&DD to modify, revise and/or amend the final form of the MOU at the discretion of the Director of P&DD, provided that the final, executed MOU include the MOU Commitments; and be it finally

Resolved, That the MOU will be considered confirmed when executed by the P&DD Director, or his authorized designee, and approved by Corporation Counsel as to form.

**EXHIBIT A**  
**MEMORANDUM OF UNDERSTANDING**  
**BETWEEN**  
**THE CITY OF DETROIT**  
**AND**  
**THE CITY OF GROSSE POINTE PARK**

This Memorandum of Understanding ("MOU") is entered into by the City of Detroit, a Michigan municipal corporation ("City"), and the City of Grosse Pointe Park ("GPP"), a Michigan municipal corporation, effective on \_\_\_\_\_, 20\_\_, in order to allow cooperation and the coordination of their respective activities in the reopening and redevelopment of certain portions of Kercheval Avenue, as described below. The City and GPP each may be referred to herein as a "Party" or collectively as the "Parties," as applicable.

**RECITALS:**

**A.** The City and GPP mutually desire that Kercheval Avenue in Grosse Pointe Park, east of Alter Road and west of Maryland Street and that portion of Kercheval Avenue in the City of Detroit, east of Alter Road and west of Maryland, ("Kercheval"), be and henceforth remain open to two-way vehicular traffic, with the exception of accommodating public square related functions on weekends between June 1, and September 30 of each year, (art fairs, farmers markets, music and entertainment events) and further the Parties hereto agree that any

redevelopment along Kercheval will not close or bridge over Kercheval.

**B.** GPP and the City believe that the opening of Kercheval in connection with the project described herein is in the best interest of the public, and the Parties hereto wish to seek the necessary approvals and consummation of this goal.

**C.** GPP and the City believe that a mutual approach to creating a streetscape improvement plan with beautiful landscaping, park benches and other seating and appropriate paving in the section immediately East of Alter Road will provide a more inviting approach to and from each City and allow for street fairs and other similar activities open to all citizens.

**D.** The City and GPP desire to create a safe, walkable and visually pleasing environment at the border of both Cities near Kercheval Avenue and Alter Road between Jefferson Avenue and Mack Avenue ("Project Area") and to work cooperatively to redevelop the Project Area in manner that is mutually beneficial to the residents of both Cities.

**Accordingly,** the City and GPP mutually acknowledge and agree to the following understanding:

**Section 1 — Purpose.** The purpose of this MOU is to assist the Parties hereto in coordinating their activities by providing a written memorandum of each Party's legal obligations. This MOU neither requires nor authorizes the disposition or acceptance of any property or the expenditure or receipt of any funds by either Party.

**Section 2 — Activities of the City.** In furtherance of the reopening of Kercheval to two-way traffic and the redevelopment of the Project Area, the City will perform the following independent activities:

**A.** The City will not close that portion of Kercheval Avenue under the City's jurisdiction and control that is immediately adjacent to and abuts GPP without the prior written approval of GPP. Furthermore, any such closure shall be temporary and shall not exceed 72 hours unless otherwise agreed to in writing by the Mayor of the City of Detroit and the Grosse Pointe Park City Manager.

**B.** The City has provided an alternative for the redevelopment along Kercheval that does not include the closing or bridging of Kercheval by any structure. (Drawings and details of these alternatives are attached hereto as Exhibit A). The City will work collaboratively with GPP to develop plans for creating a streetscape improvement project with landscaping, benches (and other seating) and appropriate paving on the area immediately East of Alter Road.

**D.** The City will work with GPP on the development of a Pud/Master Plan for the Project Area and pledges to assist, where possible, the creation or addition of additional off street public parking.

E. The City shall take reasonable steps to inspect the property located at 2115 Alter Road for property maintenance ordinance and/or building code violations.

F. Obtain Detroit City Council authorization, by resolution, of this MOU.

**Section 3 — Activities of GPP.** In furtherance of the reopening of Kercheval and the redevelopment of the Project Area, GPP will perform the following independent activities at its own cost:

A. No later than August 1, 2019, open Kercheval to two-way vehicular traffic, and not close Kercheval (west of Maryland) without the City's prior approval, with the exception of annual public square weekend activities between June 1 and September 30 of each year. Furthermore, any closure will only be temporary and for no longer than 72 hours unless agreed to in writing by the Mayor of the City of Detroit and the Grosse Pointe Park City Manager, which agreement shall not be unreasonably withheld.

B. Support redevelopment along Kercheval, and for any potential redevelopment at the border of the City and GPP, only if such redevelopment does not require the closing of Kercheval or the bridging of Kercheval by a building or other structure. (The City has proposed and GPP will assist with facilitating the placement for the potential Beaumont Health Systems structure, Exhibit A).

C. GPP will work with the City on the development of a Pud/Master Plan for the Project Area.

D. GPP will seek to provide resources to assist with the construction of the streetscape improvement plan and such improvements will be undertaken only upon joint plan approval.

E. Obtain all necessary legislative, executive and other necessary approval and authorization of this MOU for this MOU to be effective and enforceable.

**Section 4 — Joint Activities of the Parties.** The City and GPP will jointly perform, in furtherance of the complete reopening of Kercheval and the redevelopment of the Project Area, the following activities:

A. Work cooperatively to develop a Pud/Master Plan for the Project Area with the goal of having the Pud/Master Plan completed and approved by March 1, 2020.

B. Agree the Pud/Master Plan for the Project Area shall include traffic engineering, any necessary relocation of utilities, signage, law enforcement, demolition of structures to implement the Pud/Master Plan, branding and marketing resources, and maintenance.

C. With regard to any structure erected in connection with the Pud/Master Plan that is within the borders of both Cities. GPP and the City shall: a) Immediately develop a "joint building code understand-

ing" agreeable to counsel for the Parties hereto as in compliance with each City's building ordinances; b) appoint a key person who has full authority on behalf of each government to handle obtaining all necessary permits. All plan approvals and inspections shall occur promptly. In no event shall plan approvals take more than 2 weeks after submission, and inspections more than 2 days after written request is made to the Director of Buildings, Safety Engineering & Environmental Department or his/her designee.

**Section 5 — Meetings.** The City and GPP will meet at their mutual convenience, whether in person or by video conference, telephone, or other convenient means, on a periodic basis to review the progress of each Party's activities under this MOU, to coordinate further activities as may be necessary, and to discuss any other relevant issues as may arise from time to time. For the first year after this MOU is executed, said meetings shall occur at least quarterly.

**Section 6 — Effective Date, Term, and Termination.** This MOU will be effective as of the date upon which it has been signed by an authorized representative of each of the Parties (the "Effective Date"). This MOU will remain in effect until the legal obligations of each Party set forth above are completed. However, the obligations of Sections 2(A) and 3(A) shall survive the termination of this MOU and will remain enforceable.

**Section 7 — Notices.** Notices, requests, notifications, and other communications (collectively, "Notices") related to this MOU by either Party hereto will be given in writing, signed by an authorized representative of the Party, and hand-delivered, mailed by first-class mail or by overnight courier, or emailed with receipt confirmation enabled, and addressed as follows:

Honorable City Council:

Re: Recommendation for Deferral. Address: 12063 Birwood. Name: Kenyetta Hall. Demolition Ordered: February 25, 2019.

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection on June 14, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, we respectfully recommend that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.
2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.
3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:
  - Certificate of Acceptance related to building permits
  - Certificate of Approval as a result of a Housing Inspection
  - Certificate of Compliance, required for all rental properties.
4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
5. The yards shall be maintained clear

of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Honorable City Council:

Re: Recommendation for Deferral.  
Address: 275 Woodland. Name: New  
North LLC. Demolition Ordered: July  
21, 2014.

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection on June 15, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, we respectfully recommend that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.

2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.

3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Compliance, required for all rental properties.

4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.

6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

Honorable City Council:  
Re: Petition No. 224 — Mt. Calvary Lutheran Church request to vacate an alleyway east of Chalmers Avenue, between Seymour and Spring Garden Streets.

Petition No. 224 — Mt. Calvary Lutheran Church request to vacate and convert to easement the east-west alley,

16 feet wide, in the block of Seymour Avenue, 60 feet wide, Spring Garden Avenue, 66 feet wide, Chalmers Avenue, 60 feet wide, and Celestine Avenue, 60 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The request is being made to consolidate properties for zoning purposes in order to open a mission retreat center to host visiting groups to assist with neighborhood renovation.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW, and City Engineering — DPW.

Detroit Water and Sewerage Depart-

ment (DWSD) has no objection to the conversion to easement. The specific DWSD provisions for easements are included in the resolution. DTE Energy reports having services in the area. A provision to maintain access to DTE facilities is a part of the resolution.

All other involved City Departments, and privately owned utility companies have reported no objections to the conversion of the public right-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Provided, That if any time in the future, the owners of any lots abutting on said

vacated alley shall request the removal and/or relocation of the aforementioned utilities in said easement, such owners shall pay all costs incident to such removal and/or relocation. It is further provided that if sewers, water mains, and/or appurtenances in said easement shall break or be damaged as a result of any action on the part of the owner, or assigns, then in such event, the owner or assigns shall be liable for all costs incident to the repair of such broken or damaged sewers and water mains, and shall also be liable for all claims for damages resulting from his action; and be it further
