BUILDINGS, SAFETY ENGINEERING AND ENVIRONMENTAL DEPARTMENT (13)

The Development Resource Center (DRC) is designed as a “one-stop shop”, to act as an information resource center for facilitating development projects, and improve application, plan review, licensing, and permitting process flows.

The City Charter (Sec. 7-405, “One-Stop Service”) provides authority to BSEED, in cooperation with other agencies whose approval is required, to establish a procedure and application form under which an applicant for development may obtain, through BSEED, all necessary permissions. The DRC coordinates these processes, arranges, and tracks the necessary construction or site plan reviews, and approvals by other various City agencies. Whenever practicable these reviews are performed onsite in BSEED.

When fully implemented in June, the DRC will provided the following:

- **Welcome Resource Center** – Although BSEED is currently providing this service, a space is under construction which will be an information and resource center for development projects. Additional Project Facilitators will serve as a single point of contact for inter-agency communication, provide guidance to customers, schedule pre-application consultations, track projects, plan reviews, and connect to business advocacy services. Provide illustrated “DIY” and “How To” materials.
- **One Stop Permitting** - A multi-departmental resource base for all City of Detroit permitting needs. This allows consolidation of development-related reviews, approvals, and permit issuance in one location. Provide a Permitting Wizard, to navigate through Business Licensing and permitting requirements.
- **Qless** - BSEED customers will access an on-site kiosk, mobile device or computer to virtually stand in line. It will reduce crowded waiting areas by providing appointment times that connect customers to the right persons while offering interactive real-time updates.
- **Intake Center** – Single point of entry for development applications that will provide assistance and guidance. On-site kiosks and scanning equipment which will allow customers to upload plans and applications for review.
- **Electronic Plan Review (ePLANS)** - Electronic submittal of construction or site plans for review and approval, either off-site or at BSEED. (**ePLANS**) is currently LIVE and is expected to streamline operations and reduce review turn-around and response times by providing simultaneous vs sequential electronic reviews, and will enable feedback, corrections and comments to be submitted online.

BUILDINGS, SAFETY ENGINEERING AND ENVIRONMENTAL DEPARTMENT (13)

The **Zoning Division** is the designated Zoning Administrator for the City of Detroit. The City Charter (Sec.7-401) provides responsibility to BSEED to “administer and enforce all laws, ordinances and regulations relating to the use of land (‘zoning’). All applications for permits, grants, variances, waivers or exceptions under zoning laws are coordinated by this division including:

- Reviews construction projects for compliance with zoning ordinance
- Provides zoning assistance, interpretation and verification
- Facilitates zoning review prior to the establishment of new uses in all zoning districts
- Performs Site Plan review for special land uses and large scale development
- Processes zoning variances and special land use cases including public hearings
- Coordinates with, and testifies at Board of Zoning Appeals hearings
- Works interdepartmentally on zoning ordinance revisions related to development

- Provides zoning decision based on outcome of Special land Use hearings.

BUSINESS LICENSE AND PERMITS

The **Business License Unit** educates and enforces compliance with City Codes for regulated Detroit businesses as delineated in federal, state and local laws to promote a healthy and viable local economy.

Business License Center is charged with granting and renewing licenses to businesses that have complied with the licensing process.

Processing license applications and coordinating approvals with internal/external agencies are the components of the process.

Conducting “Show Cause” Hearings for non-compliant businesses is an enforcement tool. The hearing’s disposition may result in denial, suspension or revocation of a business license in accordance with City Code.

Business License has in-office staffers and field investigators to ensure that education, assistance, and enforcement guides are available to the Citizens of Detroit.

The **Permits Unit** is responsible for issuing permits for construction (building, mechanical, electrical, plumbing, elevator, boiler, and demolition) upon approval of trade and use licenses.

BUILDINGS, SAFETY ENGINEERING AND ENVIRONMENTAL DEPARTMENT (13)

CONSTRUCTION INSPECTION SERVICES

Construction Inspection Services protect and promote public health safety and welfare in new construction development and renovating existing structures by verifying compliance with applicable codes and taking appropriate enforcement action when necessary. BSEED enforces the State of Michigan Construction Codes and its Inspectors are registered through State Public Act 54 of 1986. Enforcement may include misdemeanor violations adjudicated at the 36th District Court, show cause, and stop work orders.

- The **Buildings Division** performs inspections of construction activities to ensure that structures comply with approved plans and the building codes and standards. The Buildings Division also inspects permit work related to life safety systems and their function testing; wrecking; signs and awnings; tents; and other temporary uses. The division issues Certificates of Occupancy upon approval. The Building Division coordinates the Board of Wrecking Examiners, an appointed body that oversees all aspects of wrecking licensing within the City.

- The **Elevator Section** conducts inspections of all elevators, escalators, moving walks and chair lift installations for National ASME Code A17.1 compliance. This section also administers examinations and licensing for elevator journey workers within the City of Detroit.
- The **Plumbing Section** inspects new construction, alterations, and renovations of plumbing systems such that these systems meet approved plans and comply with code requirements. This section also approves the registration of plumbing contractors and water treatment operators. Plumbing cross-connection inspections are performed to identify potable water systems that are in need of protection from contaminates, as required by the State of Michigan Safe Drinking Water Act.

Key business processes:

- Construction inspections, Permit and Annual Inspections and issuance of Certificates of Occupancy, Approval or Acceptance
- Notification of Violations and compliance enforcement at 36th District Court and Department of Appeals and Hearings
- Responding to Complaints
- Examinations of Trade Professionals
- Annual Cross-Connection Inspections

BUILDINGS, SAFETY ENGINEERING AND ENVIRONMENTAL DEPARTMENT (13)

PROPERTY MAINTENANCE INSPECTIONS

The **Property Maintenance Division** provides inspections of existing rental residential and commercial structures to encourage property maintenance and the stabilization of neighborhoods by addressing blight, as well as maintaining the safety and welfare of tenants. It also conducts community surveys and responds to citizen complaints to correct noncompliant properties. Key business processes:

- Annual Rental Inspection.
- Annual Commercial Inspections.
- Property Maintenance inspections, including graffiti.
- Issuance of violations and enforcement at 36th District Court and the Department of Appeals and Hearings.
- Responding to Complaints.

The **Dangerous Buildings**’ Ordinance (290-H) and State Law require the City to take certain actions to remedy dangerous structures. State licensed building inspectors investigate and identify dangerous conditions and recommend abatement actions. Administrative staff sends out appropriate notifications and schedules “show cause” hearings at the department and City Council.

Demolition activities, subsequent to an order to demolish, have been reassigned to the Housing and Revitalization Department and the Detroit Building Authority. The division will continue to issue wrecking permits and inspect demolition work for Building Code compliance.

Key business processes:

- Intake and response to dangerous building complaints, including emergencies.
- Tract index searches and property ownership identification.
- Notification to owners and posting of notices.
- Filing documents of record.
- Coordination of and presentation at “show cause” office hearings.
- Presentation at City Council hearings.
- Demolition deferral and rescission request processing.
- Fire Insurance Escrow inspections.

BUILDINGS, SAFETY ENGINEERING AND ENVIRONMENTAL DEPARTMENT (13)

ENVIRONMENTAL AFFAIRS

Environmental Affairs (EA) interacts with federal, state and local agencies to improve and protect the City's water, air, and land resources. EA's technical personnel are assigned to either Environmental Assessment or Response (Brownfields) or Environmental Management Systems/Emergency Response.

EA develops and implements programs that support sustainable development initiatives which focuses on Brownfields Redevelopment pursuant to the Michigan Natural Resources and Environmental Protection Act (NREPA), Public Act 451 of 1994, as amended, and obtain funding for cleanup of contaminated sites. EA fosters legislative and regulatory initiatives at the state and federal levels to assist the City of Detroit, like other municipalities, in meeting their environmental objectives through partnership programs, policies, and funding. In addition, EA identifies funding opportunities by applying and obtaining grants for redevelopment purposes. EA reviews Environmental Site Assessment reports for commercial properties to assist the Detroit Building Authority in the demolition of these sites. Environmental Affairs is responsible for enforcement of the bulk solid materials storage amendments to Chapter 22 of the City Code.

The City Charter requires EA to coordinate environmental protection policies in the City of Detroit. EA must review and approve Environmental Site Assessment reports for all properties being acquired by the City of Detroit. EA staff provide skills to maintain citywide compliance with applicable laws and regulations. Staff also give guidance on the most effective and sustainable use of the natural resources available to the City. Lastly, EA assists other City departments with environmental compliance requirements and objectives by providing technical assistance and developing procedures to achieve compliance.

In FY 2017-18, the Environmental Enforcement group which was formerly a part of the Department of Public Works (DPW) Solid Waste group was merged to the Environmental Affairs appropriation for synergy and are under the supervision of the Property Maintenance Administration. The full burden personnel and operating cost associated with the unit is fully reimbursable by the Solid Waste Fund of DPW, less any revenues generated from the operations of the unit.

New Initiatives

During Fiscal Year 2018-19, the EA will have several new initiatives: Enforcement of the amendments to Chapter 22 of the City Code relating to the storage of bulk solid materials approved October 31, 2017. EA is implementing and enforcing the ordinance by reviewing applications and plans submitted by businesses that are now regulated. There will be two inspections per year at each business under this ordinance, and citizen complaints about potential violations of the ordinance will also be investigated. These efforts are estimating 300–400 inspections per year with no duplication of inspections currently performing. A fee is charged to all regulated businesses for application review and site inspections.

The City of Detroit wishes to take over administration of the Wayne County administered program – Soil Erosion and Sedimentation Control Program. The new program will require Environmental Specialist to review plans submitted for each development that meets the requirements in addition to conducting multiple site inspections at each site to ensure that control measures are installed correctly and are working properly. The number of plans reviewed and inspections required will depend on the number of developments that meet the requirements. A fee is charged to the developer for application processing and site inspections commensurate with what is charged by Wayne County.

BUILDINGS, SAFETY ENGINEERING AND ENVIRONMENTAL DEPARTMENT (13)

In late 2017, EA was approved to participate in the Community Rating System (CRS). This is optional to communities that participate in the National Flood Insurance Program (NFIP) with the mandate to participate in the floodplain management activities that exceed the minimum NFIP standards. The mandated activities were evaluated and the city received CRS classification of 8. A Class rating of 8 means that homeowners of properties located in Special Flood Hazard Areas (SFHA) of the city will realize a 10% reduction in the cost of their flood insurance premiums beginning on October 1, 2017. All other homeowners outside of the area within SFHA can receive a 5% reduction in their premiums. Newer investigations are being conducted through Federal Emergency Management Agency (FEMA) to revise the Flood Insurance Rate Maps located in the SFHA. The Jefferson/Chalmers neighborhood is subject to increase the size of the SFHA by four times or more. The Floodplain Management Program mandates are to maintain the City's current flood plain management activities, with the idea to increase the level of activities so that the City's rating in the CRS can improve and the citizens living in the SFHA can perhaps realize a higher reduction in their flood insurance premiums. Additional participation in the updates to FEMA's efforts to revise the Flood Insurance Rate Maps is imperative to the citizens of Detroit.

In anticipation of the increase in the number of commercial buildings proposed for the demolition by the Detroit Building Authority (DBA), there will be an increase in the number of environmental assessment reports for review and approval by EA prior to demolition. Up and coming planning for new development projects in the city, requests for environmental reviews from Detroit Brownfield Redevelopment Authority (DBRA) will also result in an increase in the number of environmental assessment reports.

SINKING INTEREST AND REDEMPTION (DEBT SERVICE) (18)

AGENCY PLAN: MISSION, GOALS AND ACTIVITY SUMMARY

MISSION:

The purpose of the Debt Service Fund is to meet the principal and interest of certain bonded indebtedness of the City of Detroit.

DESCRIPTION:

Sinking (bond) and interest redemption provides for the scheduled retirement of principal and interest on long-term City debt. This debt derives from unlimited tax general obligation bond sales. (The debt service on Enterprise Funds appears in the Enterprise Agency Sections.)

State law limits the amount of general obligation debt a city may have outstanding at one time. Generally, the limit requires such debt to be within ten percent of the assessed value (which includes certain assessed value equivalents for purposes of the formula) of all real and personal property in the city. Significant exclusions to or extensions of the debt limit are permitted for special assessment bonds, motor vehicle highway bonds, hospital bonds, certain mortgage and housing bonds and various other bonds for projects deemed necessary for abating pollution. The City's outstanding debt is currently within the limits prescribed by State law.

Several financing agencies have debt, which is managed by the Treasury Division- Debts and Disbursements Section of the Office of the Chief Financial Officer.

The City of Detroit Tax Increment Finance Authority was established for the purpose of preparing development and tax increment financing plans in the City. The Authority has sold tax increment bonds and assisted in the financing of a portion of the Central Industrial Park Project, which includes a 3 million square foot General Motors plant in operation since 1985. Because of a sunset provision in the legislation creating this entity, this Authority does not have the ability to issue additional debt. The debt has been repaid under this Authority and the city no longer capture taxes for this purpose.

ACTIVITY DESCRIPTIONS:

ADMINISTRATION

The Administrative Division provides overall management and direction to all divisions of the department, ensuring alignment with the objectives of the City's Administration. The Division also houses the Street Administrator, who oversees all street-funded DPW operations including the Traffic Engineering and Street Maintenance Divisions along with the majority of the City Engineering Division.

STREET FUND SECTION

This activity provides for the construction and maintenance of streets, bridges, traffic signals and non-motorized improvements. This section accounts for State Gas and Weight Tax revenue that support various projects and accounts for State and Federal grants on a project basis. Department staff manages the Street Fund through the following three divisions that are wholly or partially funded through the Street Fund:

The Street Maintenance Division provides street and alley repairs, major street cleaning, snow removal, residential street resurfacing, and facilitation of street closures.

The City Engineering Division is responsible for regulating work performed in the public right-of-way. We also provide design review and construction engineering & inspection services as required.

The Traffic Engineering Division is responsible for installing and maintaining traffic control devices, pavement markings and street layouts to make the street system safe and reasonably fit for public use. We ensure safe and expeditious traffic flow through the installation and maintenance of traffic control devices, traffic signals, parking control devices, geometric improvements and pavement markings. Activities fall into the broad areas of evaluating requests for changes in the street system, including traffic signals and street signs; planning and reviewing the geometric changes in the street system to accommodate new development projects; and interfacing with external highway agencies such as the Federal Highway Administration, the Michigan Department of Transportation, and the Wayne County Road Commission to coordinate highway planning. This division is also responsible for the maintenance of traffic signals under the city's jurisdiction.

The Traffic Engineering Division also operates a Sign Shop that fabricates, installs, and maintains street name signs, traffic and parking control signs.

PUBLIC ACT 48 of 2002

Public Act 48, known as the Metropolitan Extension Telecommunication Rights-of-Way Oversight Act (METRO ACT), is designed to accelerate the deployment of high-speed broadband internet connections throughout the State. The State assesses fees on telecommunication providers that use the public rights-of-way. Revenues collected can be appropriated and used for rights-of-way related purposes.

DEPARTMENT OF PUBLIC WORKS (19)

ACTIVITY DESCRIPTIONS:

SOLID WASTE SECTION

The Solid Waste Division provides for the collection and disposal of waste generated by residential homes and commercial establishments in the City and related code enforcement, engaging accepted industry standards to collect, process and dispose of refuse, yard waste and recyclable material. Tasks covered under the Solid Waste Fund include weekly residential refuse collection; annual commercial inspections; commercial refuse collection; Bi-weekly bulk collection; Bi-weekly recyclable material collection; debris removal and yard waste collection; and residential street sweeping. The department's Environmental Enforcement Unit will be transferred to the Buildings, Safety Engineering and Environmental Department effective July 1, 2018. The department will continue to inspect commercial establishments to ensure refuse disposal is in compliance with Chapter 22 of the Detroit City Code, and illegal dumping and other solid waste handling will be enforced in coordination with refuse collection activities. Scrap tires are collected under grant funding and the Solid Waste Fund for disposal.

CITY ENGINEERING SERVICES

Our City Engineering Division will continue to regulate work performed in the public right-of-way along with providing design review and inspection services when necessary. In addition, plan and petition review services on behalf of planned construction projects to ensure compliance with State and City construction standards will continue to be provided.

The City Engineering Division will continue its aggressive program of ensuring that all newly resurfaced streets in the City are compliant with all Americans with Disabilities Act (ADA) accessibility standards for handicap ramps, thereby fulfilling requirements of a 2006 Settlement Order.

Historically, this division has been a General Fund agency. However, since FY 2012-13, DPW has moved all operations within this division out of the General Fund except for the revenue-generating Permits Section. As a result, the budget will provide the engineering resources necessary to protect and maintain the city's public right-of-way.

AGENCY MISSION, GOALS AND ACTIVITY SUMMARY

MISSION:

The mission of the Detroit Department of Transportation (DDOT) is to provide public transit services that are reliable, clean, customer-focused, fiscally responsible, safe and secure.

DESCRIPTION:

As the largest public transit agency in Michigan, DDOT primarily serves the city of Detroit, yet offers limited service to neighboring cities. DDOT has 48 fixed bus routes including nine (9) 24-hour routes and six (6) express routes, connecting neighborhoods across the city to major job centers in downtown and midtown areas. In addition to fixed route service, DDOT offers paratransit services to seniors and individuals with disabilities according to Federal Transit Administration (FTA) regulations.

DDOT's Main Office, at 1301 East Warren, houses administrative offices, heavy repair shops and plant maintenance. Two bus operating facilities, Shoemaker and Gilbert, serve as bases for the bus fleet. These facilities perform routine, light maintenance and daily bus deployment functions. A third bus operating facility, Coolidge, is currently inactive. In addition, DDOT maintains the daily operation of the Rosa Parks Transit Center which is a passenger facility, servicing over 5,000 customers a day.

AGENCY GOALS:

- 1 Operate transit services that are reliable, accessible, safe and secure.
2. Deliver transit services that are responsive, reliable, customer-focused, efficient and fiscally responsible.
3. Evolve and develop the transit system to promote mobility, economic vitality and improve quality of life.
4. Continue to grow as an organization that promotes teamwork, fosters positive communication and is committed to developing well-informed, highly competent transit professionals.

ACTIVITY DESCRIPTIONS:

ADMINISTRATION

The Administration activity is responsible for overseeing day-to-day operations; planning strategically for future operations; providing inventory, personnel, security services for the agency; providing effective management information services for the agency; and maintaining compliance with Federal and State guidelines and regulations.

PLANT MAINTENANCE AND CONSTRUCTION

This activity is responsible for recommending and carrying out approved procedures for the upkeep and upgrade of DDOT equipment, buildings and properties, and proposed construction projects. This includes maintenance of departmental buildings, machinery, and electrical systems.

VEHICLE MAINTENANCE

The Vehicle Maintenance section is responsible for providing safe, clean, reliable coaches and support vehicles for use in daily public service.

TRANSPORTATION

This activity is responsible for the reliable, professional, and safe operation of bus service for passengers in the DDOT service area.

New Initiatives

The School Transportation Pilot Program Initiative is designed to provide Detroit students with more convenient Detroit choices for school. The pilot would have small shuttles using a traverse loop of schools in a neighborhood, picking students up and dropping them off, and aiding with transportation for after-school programming for students. The two areas identified are Cody Rouge/Brooks and the Northwest neighborhoods of the city. Compact and expanded loop alternatives were developed in each area. The program is expected to run for a minimum of five years.

DDOT is in its second year of re-organizing and aligning the staff with the Federal Transit Administration (FTA) to create efficiencies. During the year, DDOT expanded hours and routes. The demand for drivers continues to grow and the department will continue its recruitment efforts.

DETROIT HEALTH DEPARTMENT (25)

AGENCY PLAN: MISSION, GOALS AND ACTIVITY SUMMARY

MISSION:

The mission of the Detroit Health Department is to work in partnership with Detroiters to protect and promote their health, well-being, safety, and resilience, and to respond to every public health need with exceptional leadership, policies, programs, and services.

DESCRIPTION:

Pursuant to Michigan Public Health Code, Public Act 368 of 1978, the Health Department has a legal responsibility to assure the public's health.

The Health Department assumes responsibility for ensuring that essential local public health services are met in the City, and the State of Michigan Maintenance of Effort (MOE) funding requirement for local government funding contributions. The Health Department is building the capacity and infrastructure necessary to address Detroit's most pressing public health challenges, establish initiatives in unaddressed priority areas, meet city health data and policy analysis needs, and support and sustain department growth in the best interest of the public's health.

There are three primary divisions including: Population Health, Clinical Services & Outreach, and Administration & Organizational Development. Each division will focus on evidence-based approaches to eliminating health disparities and barriers to health in Detroit, including infant mortality, lead poisoning, environmental health and food safety, chronic disease and injury prevention, communicable disease, HIV/AIDS services, and Animal Care & Control. There are also two cross-cutting units. They are Data Planning and Evaluation and Special Projects, which will bolster the Health Department's data, evaluation, policy analysis, development and sustainability capacities.

A public health advisory council, with member representatives from across the City, advises Health Department leadership, as required by the City Charter.

AGENCY GOALS:

1. Reduce health disparities.
2. Enhance the public health system of care to improve health, wellness, and equity.
3. Advance policies and practices that promote, protect, and improve the health of Detroit residents.
4. Establish and maintain administrative and operational infrastructure consistent with excellence in public health practice.
5. Establish and maintain best practices in animal control and sheltering.

NON DEPARTMENTAL (35)

AGENCY PLAN: MISSION, GOALS AND ACTIVITY SUMMARY

MISSION:

The Non-Departmental budget provides funds for activities which are not the responsibility of any one single agency. Non-Departmental is also the depository agency for General Fund contributions for enterprise activities and for a wide variety of General Fund revenues, which cannot be credited to any specific department.

DESCRIPTION:

The Non-Departmental budget includes four of the five major revenues: casino revenues/wagering taxes, income taxes, property taxes and state revenue sharing (the fifth major revenue-Utility User Taxes is shown in the Police and Public Lighting departments). Revenues from reimbursements from enterprise/non-General Fund agencies of personal services costs, transfers from other city funds, miscellaneous receipts and any prior year surpluses (or deficits) are also budgeted in the Non-departmental agency.

The Non-Departmental budget includes the following independent boards-commissions and/or agencies with city-wide operations:

The **Board of Ethics** investigates and resolves complaints regarding alleged violations of the Ethics Ordinance by public servants, and issues advisory opinions regarding the meaning and application of provisions of the Charter, City ordinances or other laws and regulations establishing standards of conduct for public servants. Advisory opinions shall be rendered upon written request by a public servant. Advisory opinions shall be published by the Board annually in a report to the Mayor and City Council. The Board is charged with monitoring and recommending improvements in the disclosure requirements, and in the standards of conduct under the Ethics Ordinance, in order “to promote an ethical environment within City government, and to ensure the ethical behavior of public servants.” All meetings of the Board shall be open to the public unless an individual involved in the matter to be addressed requests, in writing, that the meeting be closed; or unless otherwise provided by ordinance or by statute.

The **Detroit Building Authority** (DBA) is primarily responsible for administering capital projects, as determined by each respective City Department, with identified capital or grant funds. Critical functions include: encumbering funds through Contracts of Lease; managing the bid, RFP/RFQ process; issuing contract awards; securing the necessary clearances; advising contractors of Executive Order 2007-1 requirements; execution of contract documents; monitor design development and construction for each DBA capital project; review and approve contract invoices; oversee payments to vendors.

In addition, the DBA is responsible for the following:

- Creating and maintaining a database of all City-owned commercial property.
- Maintaining and managing all of the properties within the database.
- Managing the sale of the property, which includes tracking the applications through the process, marketing of properties, obtaining city and council approvals, and finalizing the sale transaction.
- Managing city leases, which consist of property leased by and from the city, cellular towers and billboard leases.
- Coordinating with certain City Department the City’s demolition activities.

Media Services, formerly the Detroit Cable Communications Commission (“Cable Commission”) which was established by ordinance in 1981, operates as the City of Detroit’s local video franchising authority with direct responsibility for the review and issuance of franchise agreements and permit agreements to telecommunications providers who seek to obtain access to and ongoing use of the City’s right-of-way for telecommunications facilities.

NON DEPARTMENTAL (35)

As the City of Detroit's video production and television broadcast services provider, Media Services is responsible for the daily programming, operation and management of Government Access Channel 10 and Education Access Channel 22. In addition, Media Services is in process of implementing two new Public Access channels to begin operations by April 2017. Media Services interfaces with the Mayor's Office, City Council, City departments and commissions, educational institutions and community organizations to produce programming that is responsive to the public's diverse information needs and interests.

Communications Services staff promotes a positive city image by planning, coordinating and implementing effective communications with the city's customers - residents, business owners, city employees, visitors and the media. As the communications arm for the City of Detroit, staff provides high-quality service to city agencies and elected officials in their efforts to communicate programs, initiatives and information to various audiences. Services include strategic communications planning and counseling, media relations, event planning, website management, writing, graphic design, photography and copying services.

Major functions include the development and implementation of communications initiatives including Motor City Makeover and Angels' Night; assisting departments and elected officials in communicating information and services to the public; maintaining the city's web site; operating the Total Copy Center; and providing an account of city initiatives, activities and events through photography.

The Mayor's Group Executive for Communications sets the direction for the Media and Communication Services Activity. Our organization integrates publicity, graphics, photography and Total Copy Center services into existing media services.

Pension Administration is responsible for the administration of the employee retirement systems, and it is the governing body for the Employee Benefit Plan. The Retirement System fully reimburses the City of Detroit for Pension Division personnel costs.

The Non-Departmental agency records in the **Elected Officials Compensation** cost center, the salaries and benefits for the eleven elected officials of the City of Detroit: Mayor, City Clerk and City Council Members.

General Fund contributions to enterprise agencies- the Coleman A. Young International Airport and the Detroit Department of Transportation are recorded in the Nondepartmental agency. HOUSING & REVITALIZATION DEPARTMENT (36)

AGENCY PLAN: MISSION, GOALS AND ACTIVITY SUMMARY

MISSION:

The mission of the City of Detroit (City) Housing and Revitalization Department (HRD) is to finance, underwrite, and administer housing and community investments that enhance the quality of life for the citizens of the City of Detroit. Through HRD and the City's partners in housing, including the Detroit Housing Commission, the City of Detroit is committed to ensure that every Detroiter has access to safe, decent, and affordable housing. HRD directs the strategy, deployment, and management of the City of Detroit's housing policy and U.S. Housing and Urban Development (HUD) entitlement funding. HRD makes strategic investments in the City's existing housing stock and new development to ensure long-term population and physical growth of the City of Detroit.

DESCRIPTION:

The department's activities are implemented through four divisions: the Public Private Partnerships Division, Office of Housing Underwriting, Office of Programmatic Underwriting, and the Office of Administration.

The Public Private Partnerships Division's mission is to develop initiatives that create the housing-led, mixed-use developments that transform Detroit neighborhoods. The mission of the Office of Housing Underwriting is to invest the City's HOME, CDBG and other housing resources to create new affordable single-family and multifamily housing mixed-use developments, as well as manage the City's efforts to end homelessness. The mission of the Office of Programmatic Underwriting is to invest federal entitlement funds into operating organizations that create results in Detroit neighborhoods and make capital improvements in City commercial and residential districts. The mission of the Office of Administration is to lead process reform in the department and ensure compliance with federal, state, county, local, and grantor regulations. This year, a new Office of Policy Development and Underwriting is being launched to implement the department's Multifamily Housing Strategy.

AGENCY GOALS:

1. Increase multi-family housing production through investment and housing policy decisions (new and rehabilitated housing).
2. Transform neighborhood commercial districts with mixed-use, mixed-income housing.
3. Preserve both expiring affordable housing and historic housing resources.
4. Invest in public facilities and infrastructure (including open space, green infrastructure, streetscapes) that supports neighborhood development.
5. Retain current Detroiters and attract new residents, including immigrant communities.
6. Invest in the operation of public service organizations that measurably improve the quality of life for Detroiters
7. Invest in the service providers and housing designed to end homelessness.
8. Steward Federal entitlement funds granted to the city through sound and reform-oriented management and accounting.

PUBLIC LIGHTING (38)

AGENCY PLAN MISSION, GOALS AND ACTIVITY SUMMARY

MISSION:

The mission of the Public Lighting Department (PLD) is to support the Public Lighting Authority (PLA) as it maintains the upgraded street light system. PLD works with TMC Alliance and DTE Energy to assure the safety of the general public and to provide reliable power to customers through the City's distribution system as the City assists with converting customers to DTE's system.

DESCRIPTION:

On February 5, 2013, the City created the PLA, a separate municipal corporation pursuant to Michigan Public Act 392 of 2012 (as amended) – The Municipal Lighting Authority Act, MCL 123.1261 and PLA Order, to manage and maintain the city's public lighting system. Pursuant to PA 392, the PLA utilizes \$12.5M in utility user tax proceeds to satisfy the debt service obligation of bonds issued to modernize the street light system. Through an inter-local agreement, the City provides additional funds to the PLA to finance the operations and maintenance of the street lighting system after the capital project is complete.

On July 1, 2014, the City entered into an agreement with DTE Energy to transition electric customers to DTE Energy. The agreement stipulates that the City will allow customers to become DTE customers and the City will exit the electric business over a 5-7 year period. During this time, the City, through its contractor, will operate and maintain an electric grid with DTE reimbursing the City and its contractor for all expenses related to the delivery of electric power.

This agreement excludes decommissioning, abatement and salvage operations. PLD currently coordinates these activities in line with the transition of customers.

AGENCY GOALS:

1. Provide reliable and economical street lighting service.
2. Maintain electricity distribution grid during the transition to DTE Energy, as the City of Detroit phases out of the electric service business.

AGENCY: Public Lighting Department

PLANNING DEPARTMENT (43)

AGENCY PLAN: MISSION, GOALS AND ACTIVITY SUMMARY

MISSION:

The mission of the City of Detroit's Planning & Development Department (PDD) is to build a city secure in its future, grounded in its roots and hopeful in its present state. The vision that supports PDD's mission is a healthy and beautiful Detroit, built on inclusionary growth, economic opportunity and an atmosphere of trust.

DESCRIPTION:

Offices within the Planning & Development Department carry these responsibilities in support of the department's mission and vision:

The **Office of Planning and Design** provides planning and design leadership and coordination in three city regions (East, Central, West), which achieves neighborhood stabilization and revitalization and supports the growth of population and jobs.

The **Office of Strategic Planning/Arts and Culture** guides development and the implementation of a city Master Plan that captures the City's long-range vision for development and preservation and land use policies that support citywide and neighborhood visions for walkable, urban growth. Its arts and culture activity establishes a framework that leverages arts and culture in PDD's neighborhood revitalization planning work.

The **Office of Zoning Innovations and Historic Preservation** translates City and neighborhood visions into regulatory language, ordinances and initiatives that guide developmental efforts, environmental protection efforts, and the preservation of critical historic assets.

The **Office of Planning Mobility** guides the development of urban transportation/mobility/streetscape planning in the city, and partners with implementation partners in the Departments of Public Works, Transportation, and Water and Sewer in supporting citywide visions for multi-modal urban growth.

The **Office of Urban Research and Outreach** extracts, compiles, and interprets a large volume of quantitative and qualitative data from databases and neighborhood stakeholders to measure the performance of PDD's initiatives and development strategies. The deliverables of this division will allow the department to evaluate not only planning and programmatic strengths but also to reveal where opportunities for improvements are necessary. The annual products of this division will support interagency and administrative objectives to evaluate departmental tactics supporting population growth, economic development, neighborhood revitalization, and effective and inclusive community engagement. Additionally, this division will launch targeted outreach and research efforts to ensure voices of youth and young adults are equally represented during planning processes.

The **Office of Yes!** supports the efficient and cost-effective operations of PDD, including management of the Department's personnel operations and operating budget, grants, and contracts; its partnerships with key vendors, foundation and university partners; and its large-scale community communications, meetings, and workshops.

PLANNING DEPARTMENT (43)

AGENCY GOALS:

Through the Planning & Development Department, the City of Detroit is committed to the following beliefs and values:

1. That every citizen has the right to live in a socially, environmentally, and economically healthy community.
2. That Detroit is blessed with a rich history and tremendous physical assets with opportunities for historic and environmental preservation.
3. That the potential of the City will best be realized by embracing the broadest, most far-reaching and inclusive vision of what is possible.
4. That citizen engagement strengthens decisions and generates confidence in the future.

The Strategy and Planning Division oversees the creation of the City's long-term plans for fleet and facilities, space planning, and functional reforms including citywide inventory management and a citywide security assessment. This Division does process improvement and reorganization.

The Recreation Operations / Recreation Center Operations Division includes leisure, cultural, educational and recreational activities at the Department's active recreation centers. Programming is conducted after school, on weekends and during the summer for children of all ages. We offer a myriad of activities, including organized sports like basketball, volleyball, tennis, soccer and softball and non-traditional activities like archery. Also offered are arts and crafts, ceramics, music, boxing and dance classes. We provide adult leisure programs including weight rooms and fitness/sports activities. The department focuses on programming for special populations, including those with physical, cognitive and emotional challenges. We conduct daily senior citizen activity programs at four (4) recreation centers. Activities include congregate meals, classes, informational seminars and health/wellness programs. All ages take advantage of swimming programs and walking activities. The Department also coordinates the formation of sports teams, leagues and tournaments.

GENERAL SERVICES DEPARTMENT (47)

Department staff are continually pursuing grants and capital dollars to renovate the site, and developing programming plans for the park.

GENERAL SERVICES DEPARTMENT (47)

GROUNDS MAINTENANCE

This division is responsible for maintaining parks, medians and berms of public rights-of-way. Forestry is coordinated with maintenance of medians of public rights-of-way, including tree trimming, tree and stump removal, and vacant lot maintenance city-wide. On the General Fund side, crews in three yards clean and landscape grounds of municipal facilities, bus shelters, and City-owned vacant lots, and remove snow and ice, maintain parkland, and beautify flowerbeds. The Division meets the Administration's goal for clean public spaces, and the Beautification Initiative (i.e., Welcome to Detroit gateway installations at major entry points and banners on utility poles in Hamtramck and Highland Park; Median Edging Kickoff; Graffiti Mural; Major Corridor Cleanup and Median Renovations of various city streets).

FLEET MANAGEMENT

This division keeps vehicles available for all General Fund agencies, and DPW Solid Waste, Street Fund, and Municipal Parking vehicles. The combined fleet presently totals 2,400 vehicles which range from passenger cars and light trucks to fire apparatus and Forestry aerials, the Police fleet and grounds/street maintenance units. Vehicles used by the Detroit Water and Sewerage Department and the Department of Transportation will be integrated under citywide fleet plans. The division operates out of the Street Maintenance Garage, Russell-Ferry, Davison, and Erskine facilities. A body shop for simple bumper repairs and a 24-hour road crew respond to inoperable vehicles in the field. This division leads the City's planning processes for vehicle replacement and fleet redefinition along with vehicle policy setting and governance, through its support of the Vehicle Management Steering Committee, hearing agency annual vehicle requests, approval of vehicle specifications, receipt and disposal of vehicles, repair and maintenance, and support for employee local driving needs.

FACILITIES MANAGEMENT

The Facility Management Division operates, maintains and provides professional and technical (architectural and engineering) services for 140 City facilities. It provides professional and technical services for 300 park spaces. This includes planning and maintenance services, now including the Facilities Steering Committee, and development of long-term capital plans in conjunction with the Detroit Building Authority.

This division provides Space Planning and Project Management (architectural, engineering, and project management). The division is also responsible for City facilities maintenance which includes: (HVAC, Plumbing, Electrical, and Structural Systems), and for security services such as remote monitoring, armed, bonded and unarmed manpower for municipal sites. Building Services staff oversee custodial services to City owned facilities, as well as graffiti removal. The Landscape Design Unit and Park Development Unit of this division are responsible for design, construction, and maintenance of City-owned park amenities.

The department's FY 2018 budget includes the addition of the Park Development division which will support Median Edging Kickoff, and planting of bulbs at various City parks.

STRATEGY AND PLANNING

The Strategy and Planning Division creates long-term plans and standard operating policies and procedures; improves service delivery models; and establishes performance improvement tools and metrics through oversight of work order tracking and various reporting mechanisms. This includes liaison activities with the Mayor's Office, Human Resources, DoIT, and OCFO staff, and budget and operational monitoring and strategic activity reporting. Staff have created strategic planning and project management capacity to assure successful implementation of restructuring reforms.

WATER (48)

AGENCY PLAN: MISSION, GOALS AND ACTIVITY SUMMARY

MISSION:

The Water and Sewerage Department strives to exceed our customers' expectations through the efficient transmission of treated water, collection of wastewater for treatment, and the provision of services that promote healthy communities and economic growth

DESCRIPTION:

The Water Supply System is administratively part of the Detroit Water and Sewerage Department while maintained as a separate fund in the City of Detroit's accounting system. The department leases and is served by five water treatment plants and 20 booster (re-pumping) stations and 19 reservoirs. Of these five water plants, two plants are located in Detroit and one each in Allen Park, Dearborn and Port Huron. There are three sources of raw water supply -- Detroit River at Fighting Island, Detroit River at Belle Isle and Lake Huron north of Port Huron. .

The Water Supply System's primary role is to provide delivery of potable water for more than 175,000 customers, delivered at various points in the system at adequate pressure to meet our customers' needs. The water provided conforms to applicable standards as required by Michigan's Safe Drinking Water Act. The department furnishes sufficient water pressure and pipeline service to ensure acceptable fire protection.

The main administrative offices are located at 735 Randolph in downtown Detroit. Approximately 3,438 miles of transmission and distribution mains within the City of Detroit owned and maintained by the department.

AGENCY GOALS:

The Water Department's goal is to provide for the safe, efficient and cost effective delivery of treated water from the Great Lakes Water Authority (GLWA) while promoting and preserving the public health by meeting or exceeding all state, federal and department standards.

Bifurcated from GLWA on January 1, 2016, Detroit maintains its own local system under the authority of the Board of Water Commissioners as appointed by the Mayor. The Detroit local system is made up of approximately 3,000 miles of local sewer pipe and 3,400 miles of local water mains serving the neighborhoods of Detroit. Detroit will have full authority to repair and rebuild the local system and serves as first responder to all service disruptions, including those of GLWA, located within the City's boundaries.

GLWA will continue to operate the regional water and sewer assets which include the water treatment plants and other water facilities. GLWA will operate under the authority of a 6 member board appointed by several constituencies of the authority: 2 appointed by the Mayor of Detroit, 1 each by Wayne, Oakland and Macomb Counties, and 1 by the Governor from the service area outside the three counties.

DWSD and the counties are still in the process of developing the budgets for each of the authorities and their budget will be updated when this information is available.

SEWERAGE (49)

AGENCY PLAN: MISSION, GOALS AND ACTIVITY SUMMARY

MISSION:

The Water and Sewerage Department strives to exceed our customers' expectations through the efficient transmission of treated water, collection of wastewater for treatment, and the provision of services that promote healthy communities and economic growth.

DESCRIPTION:

The Sewerage Department is administratively part of DWSD but maintained as a separate Fund in the City of Detroit's Accounting System. DWSD . The DWSD sewer system originated in 1836, and today it consists of nine pump stations, six storm water retention basins, six combined sewer overflow (CSO) retention/treatment basins, three CSO screening and disinfection facilities, and a total of 3,433 miles of local sewer lines that carry rainwater and wastewater to the Great Lakes Water Authority (GLWA) Wastewater Treatment Plant – the largest single-site wastewater treatment facility in the United States. The Department currently services and sets water, sewer, and drainage rates for more than 175,000 customers.

The Sewerage Disposal System's primary role is to convey the sanitary and combined sewage collected throughout the service area for delivery to the GLWA wastewater treatment facility in accordance with applicable service agreements, such that public health is protected and the treated effluent discharged to the Detroit River is in compliance with limits established by the Department's National Pollution Discharge Elimination System (NPDES) Permit and other applicable laws, rules and regulations imposed by courts and agencies regarding wastewater, air pollution and solid waste disposal. The department is responsible for maintaining and upgrading the Detroit Local System and serves as the first responder for all necessary repairs occurring within the City's borders. Further, DWSD serves as the retail advocate for Detroit based constituents (Detroit Retail Class), including households, businesses, churches, etc., in the procuring of water and sewerage services from GLWA while also serving as the collection agent for all revenues generated by the Detroit Retail Class

AGENCY GOALS:

The Sewerage Department's goal is to provide for the safe, efficient and cost effective collection of wastewater for transportation to the Great Lakes Water Authority (GLWA) for treatment while promoting and preserving the public health by meeting or exceeding all state, federal and department standards.

Bifurcated from GLWA on January 1, 2016, Detroit maintains its own local system under the authority of the Board of Water Commissioners as appointed by the Mayor. The Detroit local system is made up of approximately 3,000 miles of local sewer pipe and 3,400 miles of local water mains serving the neighborhoods of Detroit. Detroit will have full authority to repair and rebuild the local system and serves as first responder to all service disruptions, including those of GLWA, located within the City's boundaries.

GLWA will continue to operate the regional water and sewer assets which include the wastewater treatment facility and, under the auspices of a shared services agreement, will operate the DWSD owned CSO basins. GLWA will operate under the authority of a 6 member board appointed by several constituencies of the authority: 2 appointed by the Mayor of Detroit, 1 each by Wayne, Oakland and Macomb Counties, and 1 by the Governor from the service area outside the three counties.

DWSD and the counties are still in the process of developing the budgets for each of the authorities and their budget will be updated when this information is available.

DETROIT PUBLIC LIBRARY (72)

ACTIVITY SUMMARY

ACTIVITY DESCRIPTION:

Main Library

The Main Library, located in the heart of Midtown and the Cultural Center, is considered one of Detroit's architectural jewels. The Main Library is 420,000 square feet in size, making it the largest public library building in the state. It is a center for library services, cultural programming, literacy support, and technology access and computer classes. In FY 2017, the Main Library circulated 257,359 items; its librarians answered 230,624 reference questions; and it was the site for programs attended by 45,853 children, teens and adults.

Services and Programs

- The Main Library's ten subject departments offer access to print and electronic materials on the full spectrum of topics of interest to the Detroit community. DPL's Special Collections are unrivaled by other library systems nationally or internationally:
 - ▶ The Burton Historical Collection, established in 1915, is an outstanding archival collection of materials that covers the history of Detroit and Michigan from 17th century settlement to the present. It is also a highly regarded resource for genealogical information.
 - ▶ The E. Azalia Hackley Collection of African Americans in the Performing Arts is the first of its kind in the world. Established in 1943, its holdings include over 5,000 photos, plus musical scores, rare books, manuscripts, and playbills.
 - ▶ The National Automotive History Collection, housed at the Skillman Branch, is the nation's premier public automotive archive. Established in 1953, the Collection documents the history and development of the automobile and other forms of motorized and wheeled land transportation in the United States and abroad.
- The Main Library and 21 branches offer free public access to Wi-Fi and more than 700 Internet-enabled computers. This service is one of the most important ways that the DPL serves the community.
- TIP, The Information Place, is a free community information and referral service that helps people solve the problems of everyday living. Through the TIP Database, users can access information about more than 2,000 local health and human services.
- The Technology Literacy Centers (TLC) located at the Main Library and Parkman Branch, enable DPL to address needs related to literacy, workforce development, technology training and access, and lifelong learning opportunities. Main Library's TLC is a designated GED testing site.
- Youth and children services include:
 - ▶ Once Upon a Time and More, an early literacy program designed to spark the creativity and imagination of preschoolers.
 - ▶ HYPE (Helping Young People Excel) Center, a dedicated space for teens to study, engage with each other, interact with the latest technology and participate in enriching experiences. HYPE's "MakerSpace" program provides the resources and support for teens to build, create, and innovate.
- In 2017, the Main Library was the site of several well-attended literary events, including the Book Lovers Buffet and visits from political commentator, Marc Lamont Hill, and national political reporter, April Ryan.
- In FY 2017, DPL collaborated with other organizations to deliver educational and enrichment services, including hosting lectures and discussions as part of the Detroit Historical Museum's Detroit67 project, and hosting art classes for children in partnership with New York-based, ProjectArt.
- In June 2017, the DPL's 2016 African American Booklist, which centered on the theme of African American autobiographies and biographies and featured Judge Damon Keith, won an American Library Association award for publications that promote library collections.

DETROIT PUBLIC LIBRARY (72)

BRANCH SERVICES

The 21 library branches located in Detroit's neighborhoods are the heart of the Detroit Public Library system. Branches serve as important "community centers," connecting citizens to information and technology. Each branch library offers resources, services and programs tailored to fit the needs of the specific community served.

Services and Programs

- In FY 2017, people visited a DPL branch library 1.2 million times. They checked out 531,597 items, initiated 270,614 computer sessions and received answers to 411,029 reference questions. Branches offered programs that were attended by 125,962 children, teens, and adults. Many branches also served as warming centers during the winter and cooling centers during the summer months.
- In FY 2017, 10 branches and the Main Library provided space to the Accounting Aid Society of Detroit, the American Association of Retired Persons (AARP) and the Wayne Metro Community Action Agency for free tax preparation.
- Working in partnership with FOCUS: Hope, the Parkman Branch at 1766 Oakman Boulevard, continued to grow as a Technology Literacy & Career Center, providing one-on-one tutoring, technology training and access, and lifelong learning opportunities.
- Services to children and teens included a Summer Reading Program that helps children maintain their reading skills over the summer months. The program also included a "Meet Up & Eat Up" component which provided snacks and lunches at several DPL locations.
- In FY 2017, the DPL piloted the "Reading Teacher in the Library" program at three sites. Certified reading specialists help to improve the reading skills of children in grades K-3.
- In February 2017, the Duffield Branch reopened for service following renovations. Renovations include new flooring, furniture, updated LED lighting, and new computers for public use.
- In October 2016, a water main break forced the temporary closure of the Edison Branch, located at 18400 Joy Rd. The DPL used the closure as an opportunity to fully renovate the branch, which reopened for service in December 2017.
