RESOLUTION FOR A MORATORIUM ON APPLICATIONS FOR PERMITS AND/OR LICENSES FOR MEDICAL MARIHUANA USES

By Council Member Tate:

WHEREAS On November 4, 2008, Michigan voters approved by initiative the Michigan Medical Marihuana Act ("MMMA"), MCL 333.2641 et seq., which took effect on December 4, 2008; and

WHEREAS Pursuant to the MMMA, in 2015 the City enacted ordinances (Ordinance 30-15 and 31-15) regulating the zoning and licensing of Medical Marihuana Caregiver Centers ("MMCC"); and

WHEREAS In 2016, the Michigan Legislature passed the Medical Marihuana Facilities Licensing Act, being PA 281 of 2016 ("Facilities Act"), requiring cities to "opt in" to allow the following medical marihuana facilities:

- 1. medical marihuana grower;

- 2. medical marihuana processor;
- 3. medical marihuana provisioning center;

- 4. medical marihuana secure transporter;

- 5. medical marihuana safety compliance facility; and

WHEREAS At the General Election on November 7, 2017, City of Detroit voters passed initiatives opting in to the Facilities Act, but which contained impermissible zoning provisions. These voter initiatives effectively replaced the City's MMCC ordinances, without expressly stating so; and

WHEREAS The voter initiatives have been legally challenged in the Wayne County Circuit Court (WCCC). The City's Law Department believes the initiatives will be declared void in whole or part. The City is in the process of developing new ordinances that would regulate both licensing and zoning for medical marihuana facilities and MMCCs in accordance with the 2012 Detroit City Charter, the 1984 Detroit City Code, the Michigan Zoning Enabling Act, the MMMA and the Facilities Act; and

WHEREAS Some fourteen lawsuits have been filed in the WCCC seeking writs of mandamus whereby the Court would order the City to grant licenses to medical marihuana business prior to the City having an opportunity to adopt effective licensing and zoning ordinances for such uses. It would be against public policy for the City to issue any such licenses or permits until after the validity of the initiatives has been determined, and after the City Council has had an opportunity to adopt new ordinances regulating the licensing and zoning of such businesses; NOW THEREFORE BE IT

RESOLVED That as of the effective date of this Resolution, no City department may accept or approve any application for a permit or license for a medical marihuana facility or MMCC for a period of one-hundred and eighty (180) days to allow the City to introduce and adopt zoning and licensing ordinances as set forth above; and BE IT FURTHER

RESOLVED That this Resolution, because of its operational impact, will become effective on the date it is approved by the Mayor and returned to the City Clerk in accordance with Section 4-117 of the 2012 Detroit City Charter; and BE IT FINALLY

RESOLVED That a copy of this resolution be sent to the Mayor's Office, the Law Department and other departments that are affected by the moratorium.

February 2, 2018

Honorable City Council:

Re: FY 2017-18 Budget Amendment to CDBG, ESG, HOME and HOPWA

The Housing and Revitalization Department (H&RD) hereby requests to amend the 2017-18 Community Development Block Grant (CDBG), Emergency Solutions Grant (ESG), HOME Investment Partnerships (HOME) and Housing Opportunities for Persons With Aids (HOPWA) budget to reflect the allocations received from the U.S. Department of Housing and Urban Development (HUD).

- Adjustment to the 108 Loan activity due to last year's defeasance and recognized revenue.
- Adjustment to the HOME funds to correct an error made when funds were appropriated to the wrong account.

Planning and Development Department

January 29, 2018

Honorable City Council:

Re: Reprogramming Amendment to the 2017-18 Community Development Block Grant (CDBG) Annual Action Plan for fiscal years 2009 thru 2016.

The Housing & Revitalization Department (H&RD) is requesting that changes be made to the City's 2017-18 CDBG Annual Action Plan consistent with meeting the City's CDBG Timeliness Test on May 2, 2018.

The City has previously had significant challenges meeting its timeliness test, which requires that the City have no more than 1.5 times its CDBG allocation on hand at any time. A test of this metric is made sixty (60) days before the end of the program year for all CDBG recipients. This test is one of the primary ways in which the City's performance is measured by U.S. Department of Housing and Urban Development (HUD).

Also, this amendment will allow the Department to reprogram unused CDBG funds from a number of account balances for programs that no longer exist or are funds unlikely to be used in a timely manner.

To do so however, a series of budget amendments are required to expend funding. The major categories of funding will change as follows:

Line Items to be reprogrammed (Decrease):

• Admin/Planning	(FY's 2009-10 & 2014-15)	\$ 628,420
• Section 108 Loans	(FY 2016-17)	\$ 304,626
• Public Facility Rehabilitation	(FY 2009-10)	\$ 2,174
• Housing Rehabilitation	(FY 2009-10)	\$ 39,494
• Capacity Building TA	(FY 2009-10)	\$ 5,501
• Economic Development FA/TA	(FY 2009-10)	\$ 141,361
• Public Service	(FY's 2009-10 & 2010-11)	\$ 74,626
• Housing Pre-development Construction	(FY's 2016-17)	\$ 357,000
	Total	\$1,553,202

Line Item for Funding Addition (Increase):

• Housing Pre-development Rehab. — (Vanguard CDC & Melrose Sq. Preservation)	\$ 918,202
• Park Improvement — (Jayne Field & Dad Butler Park Improvement)	\$ 635,000
	Total \$1,553,202

We ask that the Council approve this with a Waiver of Reconsideration so that the reprogramming can be approved by the Financial Review Committee (FRC) and help the City make the timeless test required by HUD on May 2, 2018.

We respectfully request the authorization of this change to amend the CDBG Annual Action Plan for the stated purpose by approval of the attached resolution. This proposed amendment was posted on the City's website. Upon City Council's approval, it will be transmitted to HUD. Thank you for your time and consideration.

Respectfully submitted,

ARTHUR JEMISON

RESOLUTION IN SUPPORT OF THE #MUTERKELLY MOVEMENT

By All Council Members:

WHEREAS, Sexual and gender violence is a social pandemic affecting the fabric of our nation. According to the statistics, nearly one in five women and one in six men have experienced sexual violence/attempted violence at some point in their life. Despite the statistics, sexual violence is one of the crimes that is least reported to law enforcement. The United States Bureau of Justice Statistics state that only 15.8% to 35% of sexual assaults/attempted sexual assaults are reported to law enforcement due to fear, victim blaming, economic/social alienation, retaliation and an overall inability to provide services to survivors. Due to these factors, less than ten percent of all rape cases are prosecuted and even fewer receive felony convictions for their crimes; and

WHEREAS, The City of Detroit is not immune to this societal illness. In 2009, over 11,300 untested rape kits were discovered in a Detroit Police Department storage facility. Each kit, dating as far back as 1984, represented a person who has experienced sexual violence by an unknown assailant and was never submitted for DNA testing. As time passed, justice evaded these victims who were overwhelmingly African American. Through the herculean efforts of the Wayne County Prosecutor, The Honorable Kym Worthy, Wayne County SAFE, and other community stakeholders, hundreds of assailants have been positively identified and have been prosecuted for their crimes; and

WHEREAS, In addition to sexual violence, sex trafficking is rampant in metropolitan Detroit. According to the National Human Trafficking Hotline, Michigan was sixth in the nation for calls related to sex trafficking; however, the number of affected victims remains unknown due to the transient nature of the industry. To address this problem, the City of Detroit will utilize a \$1.5 million dollar grant to hire additional officers to combat the issue and create the Detroit Human Trafficking Coalition under the leadership of Council President Brenda Jones; and

Honorable City Council:

Re: Address: 15398 Wisconsin. Name: Peter Hirakis. Date ordered removed: October 6, 2015. (J.C.C. pgs. 1696-1703).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on January 23, 2018 revealed the building is secured and

appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the 1st deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.

2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

RESOLUTION IN SUPPORT OF 2018 MICHIGAN HOUSE BILL 5540

By Council President Jones:

Whereas, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

Whereas, Unfortunately, due to a variety of reasons, several Detroit Police Academy graduates find employment with other safety agencies across the State of Michigan, shortly after being hired as a Detroit Police Officers, and

Whereas, Training officers that do not remain with the City of Detroit Police Department is not an efficient use of tax payer dollars. The exodus of officers, who were trained at the expense of the City of Detroit, results in a personnel shortage, which directly impacts public safety is a clear loss for the City and its citizens and a windfall for the municipality that hires them; and

Whereas, Correspondingly, House Bill 5540, introduced on February 8, 2018 currently pending in the State House and referred to the State House Committee on Michigan Competitiveness, if approved and signed into law, would allow the City of Detroit and other municipalities in the State of Michigan to adopt an ordinance requiring reimbursement of Policy Academy training based on a tiered system; and

Whereas, House Bill 5540, which amends Section 8 of Michigan Public Act 390 of 1978 (MCL 408.478), would allow for a municipality as the employer, to pay the costs for law enforcement academy training and to implement loan forgiveness agreements. A repayment of the loan to the employer may be required by the following terms:

- Repayment of 100% if the employee voluntarily leaves employment within one year of the date that law enforcement training ended
- Repayment of 75% if the employee voluntarily leaves employment more than one year but less than two years of the date that law enforcement training ended
- Repayment of 50% if the employee voluntarily leaves employment more than two years but less than three years of the date that law enforcement training ended
- Repayment of 25% if the employee voluntarily leaves employment more than three years but less than four years of the date that law enforcement training ended

**RESOLUTION IN SUPPORT OF
AUDITOR GENERAL'S REQUEST FOR
SALARY INCREASE (REVISED)**

WHEREAS, The Office of the Auditor General (OAG) is an essential, Charter-mandated function of City government, with the Auditor General appointed by, and responsive to, City Council; and

WHEREAS, In September 2014, Emergency Manager Order Number 41 was issued, entitled *Order Establishing Centralized Financial Management Organizational Structure*, granting the City's Chief Financial Officer (CFO) "direct and indirect oversight of all finance, budget, and grant related functions". Pursuant to paragraphs 13 and 14 of EM Order 41, the CFO was directed to "create a new classification and compensation system for the positions under the authority of the CFO", but specifically excluding "the employees, staff or appropriations related to the City Council"; and

WHEREAS, Recognizing that the CFO's adjustment of salaries for finance related staff was necessary to attract and retain talented staff, and based upon a detailed business case prepared by the Auditor General, City Council voted in October 2015 to approve a similar salary restructuring of the OAG resulting in an approximately twenty percent increase in staff salaries, as well as increasing the number of auditors by two. The restructuring, however, did not include a corresponding increase for the Auditor General, which requires Council approval; and

WHEREAS, Section 7.5-404 of the 2012 Charter of the City of Detroit requires that "the salary of the Ombudsperson is equal to the salary of the Auditor General." Currently, both the Auditor General (appointment effective February 15, 2013) and the Ombudsperson (appointment effective October 5, 2015) receive an equal salary within the 2017-2018 White Book salary range for both positions; and

WHEREAS, The Auditor General is requesting a salary increase to \$154,980, retroactive to July 1, 2017, consistent with the previous salary adjustments for his staff, noting that the increase is accounted for in the OAG budget. The Council may choose to adjust the Ombudsperson's budget to provide a similar increase at this time. NOW THEREFORE BE IT

RESOLVED, That the annual salary of Auditor General Mark Lockridge shall be increased to \$154,980, effective July 1, 2017.

Honorable City Council:
 Re: Wayne County Annual Special Events Permit

An Annual Permit granting permission to temporarily close a County road for a reasonable length of time for a parade, marathon, celebration, festival or similar

activity, or to use a County road as a detour for traffic around such activity taking place on a non-County road may be issued by the Wayne County Permit Office to the City of Detroit.

As a condition of the annual permit, the County requires that the governing body pass a blanket resolution, effective for all permitted road closures for special events and installation of banners planned throughout the year which:

1. Agrees to fulfill all permit obligations and conditions for the current year.
2. To the extent allowed by law, hold harmless and defends Wayne County and its officials and employees against any and all damage claims, suits or judgments of any kind or nature arising as a result of the permitted activity.
3. Designates and authorizes an appropriate official of the requesting municipality to sign the permit on its behalf.

A resolution based on the Model Community Resolution Authorizing Execution of Wayne County Permits is attached.

I am recommending adoption of the attached resolution.

Respectfully submitted,
 RICHARD DOHERTY, P.E.

City Engineer

City Engineering Division—DPW
 By Council Member Benson:

WHEREAS, the City of Detroit (hereinafter the "City") periodically applies to the County of Wayne Department of Public Services Engineering Division Permit Office (hereinafter the "County") for permits to conduct emergency repairs, annual maintenance work, and for other purposes on local and County roads located entirely within the boundaries of the City, as needed from time to time to maintain the roads in a condition reasonably safe and convenient for public travel;

WHEREAS, pursuant to Act 51 of 1951, being MCL 247.651 et seq., the County permits and regulates such activities noted above and related temporary road closures;

NOW THEREFORE, BE IT RESOLVED, in consideration of the County granting such permit (hereinafter the "Permit"), the City agrees and resolves that:

Any work performed for the City by a contractor or subcontractor will be solely as a contractor for the City and not as a contractor or agent of the County. Any claims by any contractor or subcontractor will be the sole responsibility of the City. The County shall not be subject to any obligations or liabilities by vendors and contractors of the City, or their subcontractors.

The City shall take no unlawful action or conduct which arises either directly or indirectly out of its obligations, responsibilities, and duties under the Permit which results in claims being asserted against or judgment being imposed against the County, and all officers, agents and employees thereof pursuant to a maintenance contract. In the event that same occurs, for the purposes of the Permit, it will be

considered a breach of the Permit thereby giving the County a right to seek and obtain any necessary relief or remedy, including, but not by way of limitation, a judgment for money damages.

With respect to any activities authorized by Permit, when the City requires insurance on its own or its contractor's behalf, it shall also require that such policy include as named insured the County of Wayne and all officers, agents and employees thereof.

The incorporation by the County of this Resolution as part of a permit does not prevent the County from requiring additional performance security or insurance before issuance of a Permit.

This Resolution stipulates that the requesting City shall, at no expense to Wayne County, provide necessary police supervision, establish detours and post all necessary signs and other traffic control devices in accordance with the Michigan Manual of Uniform Traffic Control Devices.

This Resolution stipulates that the requesting City shall assume full responsibility for the cost of repairing damage done to the County road during the period of road closure or partial closure.

This Resolution shall continue in force from the date of execution until cancelled by the City or the County with no less than thirty (30) days prior written notice to the other party. It will not be cancelled or otherwise terminated by the City with regard to any Permit which has already been issued or activity which has already been undertaken.

The City stipulates that it agrees to the terms of the County of Wayne permit at the time a permit is signed by the City's authorized representative.

BE IT FURTHER RESOLVED, that the following individual(s) is/are authorized in their official capacity as the City's authorized representative to sign and so bind the City to the provisions of any and all permits applied for to the County of Wayne, Department of Public Services Engineering Division Permit Office for necessary permits from time to time to work within County road right-of-way or local roads on behalf of the City.

Re: Petition No. 1249 — Marathon Petroleum Company (MPC), request to vacate an easement previously approved by City Council on July 26, 2011. The easement was for the traffic signal

at the intersection of Oakwood and Pleasant.

Petition No. 1249 of "Marathon Petroleum Company (MPC)" request the Honorable City Council to vacate and extinguish an easement over private land, 5.00 feet wide by 104.26 feet long, for traffic signal poles and foundations on Oakwood Avenue, 83 feet wide, between Pleasant Avenue, 50 feet wide, and the New York Central Railroad Right-of-way. The traffic issues at this intersection no longer exist, because Oakwood Boulevard has been rerouted and Old Oakwood is closed at Pleasant Avenue

The petition was referred to the City Engineering Division - DPW for investigation and report. This is our report.

The easement was accepted by your Honorable Body on July 26, 2011 and found in 2011 J.C.C. on pages 1809-1810. Oakwood Boulevard at this location was vacated by resolution approved by your Honorable Body on October 28, 2014. The only purpose for the easement was for traffic signal poles and foundations that are no longer necessary; and as a result we are recommending that the easement be vacated and permanently extinguished.

Therefore, it is recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.
2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:
 - Certificate of Acceptance related to building permits
 - Certificate of Approval as a result of a Housing Inspection
 - Certificate of Inspection, required for

all residential rental properties.

3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Director
Legislative Policy Division Staff

RESOLUTION OPPOSING DESIGNATING ENGLISH AS THE OFFICIAL LANGUAGE OF MICHIGAN

By Council Member Castaneda-Lopez:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens and residents through Charter-mandated legislative functions; and

WHEREAS, In American colonial history, the Pilgrim settlers of Plymouth, Mass., established the first permanent colony in New England in 1620. Of the 102 colonists, 35 were members of the English Separatist Church, who fled their home country to escape persecution at home. Thereby establishing America as a haven for persons needing to escape oppression and desiring to live in freedom and to pursue ones dreams irrespective of the place of birth or religious affiliation; and

WHEREAS, Since its founding, America has welcomed immigrants from practically every country, with dreams to become productive members of society and to establish a life of hope, safety, security, freedom of religion and the pursuit of happiness for themselves and their children and they have helped to make the America we know today; and

WHEREAS, Today, the Statue of Liberty, of which many consider the symbol of American virtue, amongst the many things, "Lady Liberty" represents friendship between nations and freedom from oppression. The name "Statue of Liberty", is derived from the Roman goddess Libertas, who also represents freedom from tyranny and oppression. This is a proud symbol of what America represents; and

WHEREAS, The First Amendment of the United States Constitution declares free speech for all. While this is predominantly interpreted as the right to say whatever one wants to say, this could surely include the right to say it in whatever language one chooses. It literally says, "Congress shall make no law ... abridging the freedom of speech..." The proposed Michigan House Bill 4053, would require that a document filed or recorded with a state agency or with a local unit of government would have to be in English, or, if the original document is in a language other than English, an English translation must be filed simultaneously; and

WHEREAS, The Preamble of the 1963 Michigan State Constitution affirms, "We, the people of the State of Michigan, grateful to Almighty God for the blessings of freedom, and earnestly desiring to secure these blessings undiminished to ourselves and our posterity, do ordain and establish this constitution." This sections speaks to the tenets of decency and thoughtfulness that Michigan's State Constitution was founded on; and

WHEREAS, Unlike the United States and Michigan Constitutions, which represent the tenets of morality, decency and

sound judgment, Michigan House Bill 4053 of 2017, by making English the official language of Michigan, it contradicts U.S. history and the Constitution. The majority America's ancestors were not proficient in English when they came to this country; and

WHEREAS, As a matter of fact, English is in no way threatened by other languages. The vast majority of people in America and the state of Michigan speak English, and immigrants try to learn English, as they assimilate into the American culture and way of life. It appears the only thing this bill will do, is to make the lives of foreign speaking individuals, not yet proficient in English, difficult and unwelcoming; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council, as a supporter of families, youth, and immigrants expresses its opposition Michigan House Bill 4053, is hereby calling for the Detroit Delegation in the State Senate and the State Senate Committee on Government Operations to oppose House Bill 4053 of 2017; NOW THEREFORE BE IT FURTHER

RESOLVED, That this resolution be forwarded to the City of Detroit's Lansing Lobbyist, the Detroit Delegation in the State Senate and the Committee on Government Operations.

Adopted as follows:

Yeas — Council Members Ayers, Benson, Castaneda-Lopez, Leland, McCalister, Jr., Sheffield, Spivey, Tate, and President Jones — 9.

Nays — None.

Jones regarding the FY 2018-2019 GSD Budget.

LEGISLATIVE POLICY DIVISION

3. Submitting report relative to Capital Improving and Restructuring Project Status. (Attached is the current status of the funding set aside for capital improvements and restructuring since the city exited bankruptcy as charted by the OCFO Office of Financial Planning and Analysis. Since 2014, \$399.4 million has been set aside - \$233 million in exit financing, \$95.3 million in General Fund budget surplus, \$49.9 million in reprogrammed general obligation bonds and \$21 million in General Fund budget for blight.)

4. Submitting *amended* report relative to Legislative Policy Division Review of Detroit Employment Solutions Corp. Agreement. (Shortly after providing the original version of this report, LPD was provided with the additional attached documentation by the Council President's Office and Clerk, indicating that, according to official records, the resolution approving the subject agreement between the City (through the Civil Rights Inclusion and Opportunity Department) and Detroit Employment Solutions Corp. was walked on to the Formal Session on July 25, 2017, and approved by an 8-0 vote. Therefore, no further action should be required to approve the contract.)

OFFICE OF THE CHIEF FINANCIAL OFFICER/OFFICE OF BUDGET

5. Submitting report relative to the Impact of Reducing \$50M Recommendation for the Blight Funding. (Due to growing budget constraints, including funding the Retiree Protection Fund and required debt payments, there is no General Fund contingency budget within the FY 2019 Budget or the FY 2019-2022 Financial Plan. Therefore, any reduction to the \$50M recommended for blight will likely impact the City's ability to demolish structures in the Non-Hardest Hit Fund areas (shown on the attachment) or reduce the blight activities currently being performed by our Returning Citizens. This year, we established a new fund to be used exclusively for blight activity. Since these blight activities are funded from prior years' surplus, they can only be used for onetime activity. Priors years' surplus funding cannot be used for recurring expenditures.)

December 12, 2017

MEMORANDUM

Honorable City Council:

In 2007, the City made a \$18mm HUD 108 loan to assist in financing renovations for the Fort Shelby Hotel. The entire principle balance plus interest remains due and owing because the Hotel has not achieved sufficient cash flow to pay more than amounts due under the first mortgage held by GRS.

The City holds a second mortgage on the hotel to secure its loan. GRS has a \$17.5 million loan secured by a first mortgage on the hotel. The most recent appraisal of the hotel shows a value of \$25 million. It would be difficult or impossible for the City to foreclose on its second position loan, and any recovery would be minimal.

For that reason, we have been negotiating with Ft. Shelby for several years and have discussed a number of possible resolutions. Subject to City Council approval, we have agreed to amend the original loan agreement to provide the City an option, as follows:

The City agrees to forebear from initiating litigation to recover on its loan for 27 months. That is not much of a give because the City would not likely have any meaningful ability to enforce its loan during that period.

On Nov 1, 2019, the City can, at its option, initiate a process which will result in Ft. Shelby being legally required to buy out the City's position. The process will entail appraisal of the hotel to determine its then current value. The City will obtain an appraisal and Borrower can obtain an appraisal as well. If the appraisals differ by more than 5%, the parties can get a third appraisal. The average of the appraised values will be used to determine the buy-out price, subject to a floor of \$7 million and subject to the City's right not to proceed with any buy out.

After the appraised value has been finally determined, the City has the option to demand a buyout equal to the greater of (i) \$7 million, or (ii) 77.5% of the appraised value, less the GRS first debt, and less an amount not to exceed \$1 million for mandated hotel refurbishing. That formula guarantees a minimum payment of \$7 million, and more if the hotel increases in value.

The payment would be due half up front and half on a 5 year note at 12% interest. The City's second mortgage will remain in place to secure the balance.

The idea is to maximize the City's recovery, recognizing that the City is in a second position and that GRS' first position materially limits any City recovery. The City is essentially receiving an option, and the City would be free to continue to hold its original note and mortgage if the City believes it would be in its interest to do so.

For those reasons we seek approval of the proposed amendment.

By Council Member Tate:

Re: Proposed 1st amendment to the HUD 108 loan agreement with the Fort Shelby Hotel.

RESOLVED, the City is authorized to execute the 1st amendment to the HUD 108 loan agreement with the Fort Shelby Hotel.

City Planning Commission

March 9, 2018

Honorable City Council:

Re: Request of The Hush House Black Community Museum & Leadership Training Institute for Human Rights in conjunction with the Detroit City Planning Commission as co-petitioner, to amend Article XVII, District Map 46 of the 1984 Detroit City Code Chapter 61, 'Zoning' by showing an R3 (Low Density Residential District) zoning classification where an R2 (Two-Family Residential District) zoning classification and M2 (Restricted Industrial District) zoning classification, currently exist on thirty-seven (37) parcels, generally bounded by Ferry Park Avenue to the north, Vermont Avenue to the east, Marquette Avenue to the south, and the north-south alley first east of 14th Street to the west. (RECOMMEND APPROVAL).

NATURE OF REQUEST AND PROJECT PROPOSAL

The City Planning Commission (CPC) has received and completed its review and deliberations on the request from The Hush House Black Community Museum & Leadership Training Institute for Human Rights. This request is made in conjunction with the Detroit City Planning Commission as co-petitioner requesting the City of Detroit to amend Article XVII, District Map No. 46 of Chapter 61 of the 1984 Detroit City Code, 'Zoning,' to show an R3 (Low Density Residential District) zoning classification where an R2 (Two-Family Residential District) and M2 (Restricted Industrial District) zoning classification, currently exist on thirty-seven (37) parcels, generally, bounded by Ferry Park Avenue to the north, Vermont Avenue to the east, Marquette Avenue to the south, and the north-south alley first east of 14th Street to the west.

BACKGROUND

The subject properties, located in District 5, measure just over six (6) acres. The parcels are presently developed and owned by a variety of individuals, private entities, the City of Detroit and the Detroit Land Bank Authority (DLBA). Given the inconsistency of the proposal with current zoning and the incompatibility of the M2 zoning district with the surrounding low density residential area, the City Planning Commission has opted to co-petition with the aim of bringing the larger area into conformance with the zoning and the Master Plan of Policies.

Proposed Development

The proposed map amendment is being requested to allow for the rehabilitation and establishment of a Bed and Breakfast at 6179 Wabash Avenue, and the legalization of a Museum at 6185 Wabash Avenue. The Hush House Black Community Museum & Leadership Training Institute for Human Rights (The Hush House located at 6185 Wabash Avenue currently houses a curated exhibit showcasing a unique perspective on the African-American experience in America, which has traveled the country to various colleges and universities and has been on display at its current location and open to the public since 1987. Additionally, The Hush House facilitates a multitude of community activities including but not limited to leadership training, programs for homeless and low income families, space for community meetings, cooking classes, job fairs, community gardening, etc.

One frequent visitor and patron of the museum is world renowned actor and Human Rights activist Danny Glover. The proposed institutional use of the property as a "museum" would be permitted by-right in the proposed R3 zoning classification, as would its secondary use as a non-profit neighborhood center.

Additionally, the petitioners are seeking to establish a public accommodation use via a "bed and breakfast" which is proposed to be located at 6179 Wabash Avenue, the petitioner's ancestral home. Many of the residential properties along Wabash Avenue are either single-family or two-family homes ranging in size from 1,400 square feet to 2,500 square feet. Economic opportunities outside of the major thoroughfares of West Grand Boulevard and 14th Street are scarce and relatively difficult to obtain for many long-time residents in the area, economic opportunities may be created by allowing the capitalization of the one asset many residents do have; their home. Allowing mixed use residential/institutional uses in neighborhoods with depressed economic values, uses such as "bed and breakfast" and "live-work space" might be the economic engine that turns the corner on this storied neighborhood located near the resurgence occurring to the north via Henry Ford Health Systems' developments and further north around the Former Herman Kiefer Health Complex. The proposed public accommodation use of a "bed and breakfast" would be permitted as a conditional use in the proposed R3 zoning classification.

Additionally, the City Planning Commission is seeking the downsizing of the east side of Wabash Avenue and the west side of Vermont Avenue to bring the subject properties into compliance with the Master Plan of Policies which calls for Low-Medium Density Residential as the intended future general land use. A vast majority of the west side of Vermont Avenue between Ferry Park and Marquette Avenue is presently vacant with the exception of a two-story, fire damaged, wood framed, multi-family residential structure, which has set vacant for the better part of twenty (20) years. This request to rezone both the east side of Wabash Avenue and the west side of Vermont Avenue would not only bring the subject properties into compliance with the Master Plan of Policies, but will also serve the purpose of avoiding a potential spot zone on the various properties owned by the petitioners, Mr. and Mrs. Simmons.

SURROUNDING LAND USE AND ZONING

The zoning classifications and land uses surrounding the subject area are as follows:

North: R6; Young Manor Apartments located at 2500 W. Grand Boulevard.

East: R2; Jehovah Witness Kingdom Hall located at 1930 Marquette Avenue, along with scattered single-family housing and vacant lots.

South: R2; single-family and multi-family residential.

West: B4; Starr of Zion Missionary

Baptist Church, single-family residential and commercial store fronts along 14th Street.

CITY PLANNING COMMISSION PUBLIC HEARING & OTHER COMMUNITY MEETINGS

On June 29, 2017, the City Planning Commission held a public hearing on the rezoning request. There was one member of the public in attendance that expressed a desire to speak on the matter, Pastor Gavin who spoke in support of the proposed rezoning and expressed an interest in the parcel identified as 6358 14th Street, which is not part of the subject rezoning request.

MASTER PLAN CONFORMANCE

The subject site is located within the Rosa Parks area of Neighborhood Cluster 6 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "Low-Medium Density Residential" for the subject properties. The Planning and Development Department has submitted comments regarding this proposal in their July 5, 2017 response indicating "The zoning does not change the Future General Land Use characteristics of the area and conforms to various Master Plan policies." (attached)

ANALYSIS

The proposed zoning classification of R3 would permit both the "Bed and Breakfast" use on a conditional basis as well as the "Museum" use on a by-right basis. The proposed R3 zoning classification permits 22 by-right residential, public, civic, institutional, and other uses, the most intensive of which includes "Adult day care center," and "Outdoor recreation facility."

The following analysis details how the proposed rezoning either meets or fails to meet the eight approval criteria of Section 61-3-80- of the Detroit Zoning Ordinance, which must be considered in making recommendations and decisions on rezoning requests.

(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;

The subject properties have predominantly been residential in nature since the subsector was developed between 1910 and 1911. The southeastern section of Wabash Avenue and the western section of Vermont Avenue between Ferry Park Avenue and Marquette Avenue was previously the site of a series of warehouses, which have since been razed. With the passage of the 2009 Master Plan of Policies which shows the future general land use for the area as "Low-Medium Density Residential" and the volume of new residential developments that are currently underway along W. Grand

Boulevard and the Milwaukee Junction area, the trend of housing rather than industrial uses appears evident.

(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

As indicated by the Planning and Development Department's July 5, 2017 report, "The rezoning does not change the Future General Land Use characteristics of the area and conforms to various Master Plan policies."

(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;

The proposed rezoning seeks to increase the density of this neighborhood. Currently, there are many vacant, fire damaged structures along the eastern section of Wabash Avenue. Vermont Avenue is entirely vacant and overgrown, which poses a safety risk for members of the community. By the CPC taking the initiative to downzone the subject properties from M2 to R3, the likelihood of attracting new residential development and investment in the area is higher.

(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;

The physical characteristics of the subject property will not dramatically change as a result of the proposed rezoning. While the subject properties sit within a traditional street grid, there will be no need for additional city services, such as lights, water, sewer, etc., beyond what is currently in place.

(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding storm water management;

As previously mentioned, the physical characteristics of the subject properties will not dramatically change as a result of the proposed rezoning. There are no foreseeable impacts to any of the aforementioned environmental aspects.

(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

The vast majority of the uses in the immediate area are residential in nature. Staff is of the opinion that no significant adverse impacts will occur as a direct result of the proposed rezoning.

(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

As noted previously, the existing R2 zoning classification is not conducive for the proposed "Bed and Breakfast" or "Museum" uses which are by-right and conditional respectively in the proposed

R3 zoning classification. "Bed and Breakfast" uses are not permitted in the M2 zoning classification, although the proposed "Museum" would be, nonetheless, the M2 zoning classification is not consistent with the "Low-Medium Density" future general land use designation denoted in the Master Plan of Policies.

(8) Whether the proposed rezoning will create an illegal "spot zone."

Given the residential nature of the subject property and the adjacency of R2 and B4 zoning to both the west and south; along with the proposed rezoning's consistency with the Master Plan of Policies, staff is of the opinion that the proposed rezoning would not constitute an illegal "spot zone."

Suitability of the Property

In general, CPC looks favorably on the rezoning of the subject parcels to accommodate the establishment of a "Bed and Breakfast," and "Museum," as well as to bring the greater area into closer conformance with the Master Plan of Policies.

Land Use

CPC is of the opinion that an R3 (Low Density Residential District) zoning classification is an appropriate designation consistent with the characteristics of the adjacent properties, which will allow for the establishment of a "Bed and Breakfast" on a conditional basis, and would allow on a by-right basis the "Museum" use. Additionally, all proposed uses are consistent with the Master Plan of Policies.

Significant Impact on Other Property

The CPC is of the opinion that the rezoning of these properties from a commercial stand-point might add to the sustainability of the surrounding community by allowing the establishment of economically viable, tax revenue generating businesses.

RECOMMENDATION

On July 20, 2017 the City Planning Commission voted to recommend approval of the request of The Hush House Black Community Museum & Leadership Training Institute for Human Rights in conjunction with the Detroit City Planning Commission corresponding initiative to amend Article XVII, District Map No. 46 of Chapter 61 of the 1984 Detroit City Code, 'Zoning,' by showing an R3 (Low Density Residential District) zoning classification where an R2 (Two-Family Residential District) and M2 (Restricted Industrial District) zoning classification, currently exists on thirty-seven (37) parcels, generally bounded by Ferry Park Avenue to the north, Vermont Avenue to the east, Marquette Avenue to the south, and the north-south alley first east of 14th Street to the west.

City Planning Commission
 March 9, 2018

Honorable City Council:
 Re: Request of Corktown Equities, LLC, to amend Article XVII, District Map 44 of the 1984 Detroit City Code, Chapter 61, 'Zoning' by showing a B4 (General Business District) zoning classification where an R2 (Two-Family Residential District) zoning classification, currently exists on one (1) parcel commonly identified as 1941 W. Fisher Freeway, generally bounded by W. Fisher Freeway Service Drive to the north, Rosa Parks Boulevard to the east, the partially vacated east-west alley first north of Michigan Avenue to the south and vacated Vermont Avenue to the west. **(RECOMMEND APPROVAL)**

NATURE OF REQUEST AND PROJECT PROPOSAL

The City Planning Commission (CPC) has completed its review and deliberations on the request from Corktown Equities, LLC, to amend Article XVII, District Map 44 of the 1984 Detroit City Code, Chapter 61, 'Zoning' by showing a B4 (General Business District) zoning classification where an R2 (Two-Family Residential District) zoning classification, currently exists on one (1) parcel commonly identified as 1941 W. Fisher Freeway, generally bounded by W. Fisher Freeway Service Drive to the north, Rosa Parks Boulevard to the east, the partially vacated east-west alley first north of Michigan Avenue to the south and vacated Vermont Avenue to the west.

The subject property is located in District 6 and measures just under an acre. The parcels are presently undeveloped and owned by the petitioner, Corktown Equities, LLC. The subject parcel is irregular in shape and consists of a split zoning classification of both R2 and B4, the R2 portion being the subject of the requested rezoning. Additionally, CPC is co-petitioner in order to rezone a small portion of R2 on the northern edges of 1900 and 1930 Michigan Avenue; properties which currently comprise the stacking area, order menu and approximately six (6) off-street parking spaces for the White Castle restaurant located at 1930 Michigan Avenue immediately south of the subject property.

The proposed map amendment is being requested to allow for the establishment of a general mixed use development and to bring the existing parcel into conformance with the adjacent properties, which are currently B4. The proposed mixed use development would be permitted either by-right or conditionally in the proposed B4 zoning classification depending on the density of the development. Preliminary site plans have been provided by the developer. At present the subject property is permitted as a "temporary" parking lot, which has been asphalted and maintained as such since July 2017.

SURROUNDING LAND USE AND ZONING

The zoning classification and land uses surrounding the subject area are as follows:
North: Fisher Freeway and the LaSalle Gardens neighborhood beyond
East: B4; vacant undeveloped land
South: B4; White Castle restaurant
West: B4; the Gaelic League Irish American Club

CITY PLANNING COMMISSION PUBLIC HEARING & OTHER COMMUNITY MEETINGS

On June 29, 2017, the City Planning Commission held a public hearing on this request. There were two members of the public in attendance that expressed a

desire to speak on the rezoning request. Both persons spoke in support of the proposed rezoning.

The Commission raised concerns over the lack of detail provided by the petitioner pertaining to their future intended land use. The Commission requested that CPC staff work with the petitioner to obtain greater detail about their future development.

Upon speaking with the petitioner and representatives from BSEED, it has been determined that the petitioner has obtained a temporary use permit for the parking of private passenger vehicles from March 1, 2017 through September 1, 2017. A new permit was issued which was valid from September 1, 2017 through March 1, 2018. The petitioner indicates that the western portion of their site from vacated Vermont Avenue to the north-south alley first east of Wabash Avenue will ultimately serve as parking for their future development. At present, the site in its entirety is being used as event space parking for the petitioner's commercial property located at 1907 Michigan Avenue.

For reference, a site plan, dated August 26, 2016, has been provided showing 87 off-street parking spaces (attached).

MASTER PLAN CONFORMANCE

The subject site is located within the Corktown area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows "Mixed — Residential-Commercial" for the subject property. The Planning and Development Department has submitted comments regarding this proposal in their July 5, 2017 response (attached).

ANALYSIS

The proposed zoning classification of B4 would permit the contemplated general mixed-use commercial/residential development on either a by-right or conditional basis depending on the density of the development. The proposed B4 zoning classification permits 71 by-right residential, public, civic, institutional, retail, service, commercial, manufacturing, industrial and other uses, the most intensive of which includes "Blueprinting shop," and "General Trade services."

The following analysis details how the proposed rezoning either meets or fails to meet the eight approval criteria of Section 61-3-80 of the Zoning Ordinance, which must be considered in making recommendations and decisions on rezoning requests.

(1) Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;

The subject property has sat vacant for nearly twenty years, having been the site of the former St. Boniface Roman Catholic Church. The vast majority of the surrounding properties, inclusive of the location where the church was sited are

zoned B4. The subject properties which remain R2 on the 1900, 1930 Michigan Avenue parcels and the 1941 W. Fisher Freeway parcel appear to be anomalies. A change to B4 would bring the subject properties into closer conformance with the Master Plan of Policies.

(2) Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;

The above referenced report of the Planning and Development Department dated July 5, 2017 report states, "The proposed rezoning conforms to the Master Plan's Future General Land Use designation." This classification is well suited to areas proximal to existing centers of major commercial activity, major thoroughfares, transportation nodes, or gateways into the city.

(3) Whether the proposed amendment will protect the health, safety, and general welfare of the public;

The proposed rezoning will allow for the establishment of a mixed-use commercial/residential development which will add to the density of an otherwise sparsely populated corridor. At present, illegal dumping had been a major concern at the intersection of Rosa Parks Boulevard and W. Fisher Freeway. By providing commercial and residential opportunities the number of occurrences of illegal dumping should greatly diminish.

(4) Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;

The physical characteristics of the subject property will change as a result of the proposed rezoning. While the subject property sits within a traditional street grid, there may be a need for additional city services, such as lights, water, sewer, etc., beyond what is currently in place. While the subject property is currently being used as a temporary parking lot, the grading and black-topping of the property lends itself to a more permanent land use. Staff is unaware if consideration was given to sewer, drainage, landscaping, etc. All of which must be taken into consideration when implementing off-street parking areas.

(5) Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife, and vegetation and with respect to anticipated changes in noise and regarding storm water management;

The subject area is currently graded, paved and free of vegetation. As previously stated, consideration must be given to stormwater run-off and vegetative features which are required for off-street parking areas. The site plans submitted by the petitioner, while not required for a B4 rezoning request, are deficient in

many of the required design elements for off-street parking areas.

(6) Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

The vast majority of the uses in the immediate area are commercial in nature. CPC is of the opinion that no significant adverse impacts will occur as a direct result of the proposed rezoning.

(7) The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

As noted previously, the existing R2 zoning classification is not conducive for the proposed general mixed-use development contemplated by the developers. Additionally, the R2 zoning classification in this area is atypical. In providing the recommendation for a B4 zoning classification CPC evaluated all zoning classifications and determined that the B4 zoning classification would allow for the proposed use and maintain the character of the neighborhood.

(8) Whether the proposed rezoning will create an illegal "spot zone."

Given the commercial/residential nature of the proposed development and the adjacency of B4 zoning to the north, east, south and west of the subject property; along with the proposed rezoning's consistency with the Master Plan of Policies, CPC is of the opinion that the proposed rezoning would not constitute an illegal "spot zone."

Suitability of the Property

One of the aforementioned criteria for rezoning states, "The suitability of the subject property for the existing zoning classification and proposed zoning classification." Zoning Map No. 44 generally shows a mix of R3, B4, B6 and M3 zoning on the north, south, east and west around the subject property. This section of the Corktown subsector is primarily developed with commercial uses.

In general, the CPC looks favorably on the rezoning of the subject parcel to accommodate the establishment of "Stores of a generally recognized retail nature whose primary business is the sale of new merchandise," and "Multi-family residential."

Land Use

CPC is of the opinion that a B4 (General Business District) zoning classification is an appropriate designation consistent with the characteristics of the adjacent properties, which will allow for the establishment of general mixed-use commercial/residential. Additionally, all proposed uses are consistent with the Master Plan of Policies.

Significant Impact on Other Property

CPC is of the opinion that the rezoning of this property from a commercial standpoint might add to the sustainability of the

surrounding community by allowing the establishment of an economically viable, tax revenue generating development.

RECOMMENDATION

On July 20, 2017 the City Planning Commission voted to recommend approval of the request of Corktown Equities, LLC. Consistent with the analysis and findings provided above, CPC recommends approval of the request to show a B4 (General Business District) zoning classification where an R2 (Two-family Residential District) zoning classification, currently exists on one (1) parcel commonly identified as 1941 W. Fisher Freeway, generally bounded by W. Fisher Freeway Service Drive to the north, Rosa Parks Boulevard to the east, the partially vacated east-west alley first north of Michigan Avenue to the south and vacated Vermont Avenue the west.

 July 5, 2017

Honorable City Council:
 Re: Master Plan of Policies review of a proposed rezoning from R2 (Two-Family Residential District) to B4 (General Business District) for 1941 West Fisher Freeway.

Dear Mr. Todd:

Pursuant to the City of Detroit's City Charter (Sections 6-202 and 6-204), the Planning and Development Department's

(P&DD) Planning Division submits the following review of the proposed rezoning.

The proposed map amendment is at the request of Corktown Equities, LLC to allow for the establishment of a general mixed use development.

Location

1941 West Fisher Freeway

Existing Site Information

The subject site is zoned R2 (Two-Family Residential District). The subject site is currently a vacant lot. The Master Plan Future General Land Use designation for the site is MRC (Mixed-Residential/Commercial).

Surrounding Site Information

The surrounding parcels are zoned B4 (General Business District); the Master Plan Future General Land Use Designation for

the surrounding area is MRC. Most of the immediate surrounding area is vacant land. To the immediate south, along Michigan Avenue is a White Castle.

Project Proposal

The proposed project is for a general mixed use development.

Interpretation

Impact on Surrounding Land Use

The proposed rezoning will contribute to the development of the area as mixed-residential commercial.

Impact on Transportation

There is a DDOT transit route along Michigan Avenue.

Master Plan Interpretation

The Master Plan Future General Land Use Designation for the site is MRC. Mixed

Residential-Commercial areas consist predominantly of medium-to-high density housing developed compatibly with commercial and/or institutional uses. This classification is well suited to areas proximal to existing centers of major commercial activity, major thoroughfares, transportation nodes or gateways into the city.

The proposed rezoning conforms to the Master Plan's Future General Land Use designation.

Housing and Revitalization Department

March 12, 2018

Honorable City Council:

Re: Authorization to Acquire Real Property from Greater Grace Temple of the Apostolic Faith; Property: 18600 and (part of) 18601 Berg Road (Former Rogell Golf Course).

The Housing and Revitalization Department (HRD) is requesting authorization from your Honorable Body to purchase 18600 and part of 18601 Berg (col-

lectively the "Properties") from Greater Grace Temple of the Apostolic Faith, a Michigan Domestic Nonprofit Corporation. The Properties consist of two parcels of vacant land measuring approximately 91.41 acres and 28.419 acres respectively. Both parcels are zoned R-1 (Single Family Residential) and located in the area of Berg Road between W. Seven Mile and Grand River.

The acquisition of these properties presents a prime opportunity for the City to implement a variety of projects inclusive of, the improvement of storm water management in the area via the creation of green infrastructure, the potential to spur economic growth and the enhancement of neighborhood vitality through future development (housing, mixed use and/or institutional/commercial). Additionally, a

portion of the properties have the opportunity to be transferred from their blighted condition into a naturalized public amenity via the creation of passive open space. Once acquired, the Properties will be secured and maintained by the General Services Department (GSD) in partnership with other agencies, including the Detroit Water and Sewerage Department (DWSD), as facets of the project are implemented.

The purchase price is \$1,941,000.00. The City proposes to use CDBG-DDR (Community Development Block Grant — Declared Disaster Recovery) funds to purchase the Properties.

We, therefore, request that your Honorable Body approve the purchase of the Properties from Greater Grace Temple of the Apostolic Faith, a Michigan Domestic Nonprofit Corporation, for the amount of \$1,941,000.00 and authorize the Mayor of the City of Detroit, or his authorized designee, to execute such documents as may be necessary to effectuate the purchase, by adopting the attached resolution with a Waiver of Reconsideration.

Respectfully submitted,
ARTHUR JEMISON
 Director

By Council Member Tate:

WHEREAS, The City of Detroit ("City") through the Housing and Revitalization Department ("HRD") wishes to purchase and acquire two (2) parcels located within the City of Detroit, Michigan from Greater Grace Temple of the Apostolic Faith, a Michigan Domestic Nonprofit Corporation, having a street address of 18600 and (part of) 18601 Berg (the "Properties"), more particularly described in the attached Exhibit A, for the sum of One Million Nine Hundred Forty One Thousand and 00/100 Dollars (\$1,941,000.00); and

WHEREAS, After acquisition subject to the appropriate approvals required, the City plans to implement a variety of projects that will improve storm water management in the area, spur economic development, improve neighborhood vitality and transform a portion of the Properties from their blighted condition into a naturalized public amenity with the creation of open space; and

WHEREAS, The Building Safety Engineering and Environmental Department ("BSEED") has reviewed the environmental conditions of the Properties; and

WHEREAS, In accordance with Chapter 2, Article I, Division 2 of the Detroit City Code: (1) the City Council finds that these properties have received appropriate environmental inquiry and assessment in accordance with the review referred to in the preceding paragraph; (2) City Council finds and declares that despite the presence of environmental

contamination at 18600 and 18601 Berg, acquisition of the Properties is necessary to promote the health, safety and welfare of the public and such acquisition does not pose a risk based upon the proposed use of the Properties; (3) City Council finds and declares that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental inquiry and assessment, and therefore, waives the requirement that the seller bear the cost of the environmental inquiry and assessment; and (4) HRD shall prepare and submit to the Michigan Department of Environmental Quality ("MDEQ") a Response Activity Plan and Due Care Plan to assure that environmental hazards are addressed in conjunction with development; and

NOW, THEREFORE, BE IT

RESOLVED, That in accordance with the foregoing communication, the Mayor of the City of Detroit, or his authorized designee, be and is hereby authorized to accept and record a deed to the Properties, more particularly described in the attached Exhibit A, and execute such other documents as may be necessary to effectuate the transfer of the Properties from Greater Grace Temple of the Apostolic Faith, a Michigan Domestic Nonprofit Corporation to the City of Detroit, for the amount of \$1,941,000; and

RESOLVED, That the Finance Director be and is hereby authorized to increase the necessary accounts and honor expenditures and vouchers, when presented in accordance with the foregoing communication and standard City procedures; and

BE IT FINALLY

RESOLVED, That the Mayor of the City of Detroit, or his authorized designee, be and is hereby authorized to execute any required instruments to make or incorporate technical amendments or changes to the deed and such other documents as may be necessary to effectuate the transfer (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may arise prior to the conveyance of the Properties, provided that the changes do not materially alter the substance or terms of the transfer.

A waiver of reconsideration is requested.

Re: Correction of Errors to the 2019-2022 Four-Year Financial Plan (Revised).

After further review of the 2019-2022 Four-Year Financial Plan presented on February 23, 2018, errors have been discovered which should be corrected. There are two categories of corrections. First, there are "substantive" errors, which must be corrected as an amendment to the Recommended Budget. Second, there are typographic and/or data entry errors, which do not affect appropriation totals or budget balancing.

This revision includes the addition of the Public Health Fund and a correction to the change under the "Budget Summary Changes" section.

Honorable City Council:

Re: Proposed Amendments to Schedule B.

Attached please find an amended Schedule B that the Administration and LPD are requesting be approved at the Formal Session on March 20, 2018.

The Administration chose to create two new distinct funds out of the General Fund Surplus of \$100 million, so the changes that Council made on Friday by lowering the amount of Capital Projects (Fund 4533) and Blight Remediation (Fund 1003), need to be balanced. As well, in order to cover the changes made to the General Fund appropriations this chart now directs a portion of the General Fund Surplus back to Fund 1000 (the General Fund). These actions all take place in Appropriation 20255 "Prior Year Activity" and the revenues are reported in Non-Departmental.

Additionally, instead of moving funds to the Library for the pop-up library program, the Administration has recommended that the funds be set up in Recreation in a new appropriation called "Recreation Center — Pop Up Libraries Appropriation 20525". They believe that since the \$2,500 transfer to the Library Fund would have to show as a new revenue, the "increase" in revenue would violate the state law that directs the revenue consensus process to set the revenue levels. The Administration has recommended that the \$2,500 come from Appropriation 13990 — Recreation Division, LPD concurs.

Additionally, the text for each Council Members office appropriation was amended to reflect the correct District number.

As you recall, Schedule B was altered at the table on Friday night as approved by Council, to move the funds for Airport Capital from Airport and into Non-Departmental. This change was included in the attached document.

Please contact us if there are any further questions.

City Planning Commission

March 16, 2018

Honorable City Council:

Re: Amended Schedule A reflecting City Council Changes to the Mayor's 2018-19 Community Development Block Grant (CDBG) Proposed Budget.

Attached is the Amended Schedule A and corresponding resolution for City Council action on the Mayor's recommended 2018-19 CDBG budget. The Schedule A was prepared by the Housing and Revitalization Department, then reviewed and revised by the City Planning Commission staff.

The Schedule A now reflects the City Council changes to the Mayor's recommended CDBG budget including Your action on the Neighborhood Opportunity Fund (NOF) awards as well as the remaining portions of the CDBG budget that Your Honorable Body is supporting via Your review of this budget. The column heading that previously read "Council Rec" now reads "City Council Final." The cells below that heading carry the allocations determined by Your Honorable Body for adoption under the 2018-19 CDBG Program.

As previously reported there is an additional \$25,000.00 under the Emergency Shelter — Grant Rapid Rehousing Program. The additional funds accrue to Wayne County Neighborhood Legal Services (Appropriation 10663), taking them from \$175,000.00 to \$200,000.00 as shown on page 2 of the Schedule A. HRD indicates that there was an oversight as the Mayor's budget reflected these dollars, but the ESG chart previously presented to City Council during the NOF review was short by that amount. Again, this does not alter Your action on the NOF, but now accurately depicts funding available under ESG.

On Friday, March 9, 2018 prior to Your original vote being taken, the Budget Department indicated that \$250,000.00 needed to be moved from PDD Planning

Staff (Appropriation 14027) to the Woodward Garden Section 108 (Appropriation 13529) loan repayment in order to keep our CDBG program under the 20% administration cap. When this change was made, Council Member Tate inquired as to why the funds were moved to the Woodward Garden project as opposed to another Section 108 Loan Repayment. At that time no one was present to answer that question. CPC staff subsequently learned that the \$250,000.00 amount had previously been taken from the Woodward Garden Repayment and was simply being returned to the original account.

Lastly, CPC staff notes that the above change still leaves a \$42,128 overage to the CDBG administration cap. CPC staff understands that the Consolidated Plan cannot be submitted with an administration cap overage. As a result, CPC staff recommends an additional change, the reduction of HRD-Office Administration (Appropriation 20234) by \$42,128 and the addition of that amount to Economic Development Small Business Development (Appropriation 13837). We have shared this additional change with the HRD Director, Arthur Jemison, who indicated his concurrence. The Attached Schedule A reflects staffs recommended additional change.

In closing we remind Your Honorable Body that this CDBG budget is based upon projections, as the City has not yet received the actual entitlement amount from HUD. When that number is received later this year, another budget amendment will be required in order to reflect the allocation of the actual amount of those dollars.

Please let us know if you have any questions regarding this amended Schedule A or the City's CDBG program.

Respectfully submitted,
MARCELL R. TODD, JR.

Director

Honorable City Council:

Re: Authorization to accept a donation of a memorial medallion for the Collin J. Rose dog park located at 3701 Trumbull Avenue.

Detroit Parks and Recreation Department requests authorization from your Honorable Body to accept a donation of a cast iron memorial medallion sculpture from the Woodbridge Citizens' Council to be installed at the Rose Dog Park located at 3701 Trumbull Avenue. This donation has an estimated value of \$15,000.

The memorial medallion is 42" in diameter, round, and will be cast in iron with an approximate weight of 500 lbs. The general design consists of a Wayne State University Police Officer's badge surrounded by roses. On the badge is written EOW, 11.23.16, Police K9 Unit, Wayne State University. Underneath the badge is a recessed silhouette of Sgt. Rose's K9 partner and in bold recessed letters along the margin his name, Collin J. Rose.

As a gift, the ownership rights to the sculpture will be transferred entirely to the City of Detroit. Any rights to the sculpture, by the artists, or by their descendants will be transferred in their entirety to the City of Detroit.

We respectfully request your authorization to accept and install the Collin J. Rose Memorial with a Waiver of Reconsideration.

Sincerely,

STANDING COMMITTEE REPORTS:

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE

Finance Department Board of Assessors

March 7, 2018

Honorable City Council:

Re: University Meadows I Limited Dividend Housing Association Limited Partnership (Phase I) — Payment in Lieu of Taxes (PILOT).

Develop Detroit, Inc. has formed University Meadows I Limited Dividend Housing Association Limited Partnership in

order to develop the Project known as University Meadows. The Project is an existing fifty-three (53) unit senior development bounded by West Forest on the north, John C. Lodge on the east, West Canfield on the south and Trumbull on the west.

The rehabilitation Project will include thirty-five (35) 1 bedroom/1 bath and sixteen (16) 2 bedroom/1 bath apartments and two (2) studio apartments. The preservation and renovation of the development will not result in a rent increase for the existing tenants.

A tax-exempt bond construction loan in the amount of \$4,758,386, a permanent mortgage loan in the amount of \$2,464,509 and a Preservation Fund Loan in the amount of \$642,233 will be provided by the Michigan State Housing Development Authority ("MSHDA"). USB Bank will make capital contributions of \$3,025,153 which includes the purchase of Low Income Housing Tax Credits. A conditional \$1,400,000 Home Loan from the City of Detroit has been secured. Additionally, the Sponsor has agreed to defer \$459,021 of the developer fee.

Rents for all units have been set at or below sixty percent (60%) of the area median income, adjusted for family size. All residents will contribute only thirty percent (30%) of their adjusted gross income towards the rent amount.

All fifty-three (53) units will be subject to the PILOT based on Section 15a of the State Housing Development Authority Act of 1966, as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966, (P.A. 346, as amended, MCL 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of four percent (4%) of the annual net shelter rent obtained from this housing project.

Respectfully submitted,
ALVIN HORHN

Deputy CFO/Assessor

By Council Member Ayers:

Whereas, Pursuant to the provisions of the Michigan State Housing Development Act, Act 346 of the Public Acts of 1966, as amended, being MCL 125.1401 et seq. (the "Act"), a request for exemption from property taxes has been received on behalf of Develop Detroit, Inc. (the "Sponsor"); and

Whereas, A housing project as defined in the Act is eligible for exemption from property taxes under Section 15a of the Act (MCL 125.1415a) if the Michigan State Housing Development Authority ("MSHDA") provides funding for the hous-

ing project, or if the housing project is funded with a federally-aided mortgage as determined by MSHDA; and

Whereas, Section 15a of the Act (MCL 125.1415a) provides that the local legislative body may establish by ordinance the service charge to be paid in lieu of taxes, commonly known as a PILOT; and

Whereas, The City of Detroit has adopted Ordinance 9-90, as amended, being Sections 18-9-10 through 18-9-16 of the Detroit City Code to provide for the exemption from property taxes of eligible housing projects and to provide for the amount of the PILOT for said housing projects to be established by resolution of the Detroit City Council after review and report by the Board of Assessors; and

Whereas, The Sponsor is proposing to undertake a rehabilitation of an existing housing project to be known as University Meadows I consisting of the rehabilitation of fifty-three (53) units in the apartment building located on three (3) parcels of property owned or to be acquired by the Sponsor as described by street address and tax parcel in Exhibit A to this resolution, with fifty-three (53) units for low and moderate income housing (the "Project"); and

Whereas, The purpose of the Project is serve low to moderate-income persons as defined by Section 15a(7) of the Act, being MCL 125.1415a(7); and

Whereas, MSHDA has provided notice to the Sponsor that it intends to approve federal-aided financing for the Project, provided that the Detroit City Council adopts a resolution establishing the PILOT for the Project; and

Whereas, Pursuant to Section 15a of the Act, being MCL 125.1415a(1), the tax exemption is not effective until the Sponsor first obtains MSHDA certification that the housing project is eligible for exemption, and files an affidavit, as so certified by MSHDA, with the Board of Assessors; and

Whereas, Pursuant to Section 18-9-13(G) of the Detroit City Code, the tax exemption shall be effective on adoption, with the tax exemption and PILOT payment to occur only upon bona fide use and physical occupancy by persons and families eligible to move into the project, in accordance with the Act, which must occur as of December 31 of the year preceding the tax year in which the exemption is to begin;

Now, Therefore, Be It

Resolved, That in accordance with City Code Section 18-9-13, the Project known as University Meadows I as described above is entitled to be exempt from taxation but subject to the provisions of a service charge of four percent (4%) for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1966, as amended, being MCL 125.1401, et seq.; and be it further

Resolved, That arrangements to have collections of a payment in lieu of taxes from the Sponsor be established upon occupancy for future years with respect to the same be prepared by the Finance Department; and be it further

Resolved, That specific legal description for the project shall be as set forth in the certification from MSHDA; and be it further

Resolved, That in accordance with Section 15a(3) of the Act, MCL 125.1415a(3), the exemption from taxation shall remain in effect for as long as the MSHDA-aided or federally-aided financing is in effect, but not longer than fifty (50) years, and shall terminate upon the determination by the Board of Assessors that the Project is no longer eligible for the exemptions; and be it further

Resolved, That the City Clerk furnish the Finance Department — Assessment Division two certified copies of this resolution; and be it further

Resolved, That this resolution is adopted with a waiver of reconsideration.

Ordinance No. 15-00, Chapter 21 Article 3, requires the approval of your Honorable Body for the purchase of goods and services over the value of \$25,000, all Contracts for Personal Services Renewals or Extensions of Contracts, or the exercise of an option to renew or extend a Contract. Based upon the above scheduled recess, there will be a delay in obtaining your approval for needed Goods and Services. As a result, I will be unable to meet my obligation to obtain needed Goods and Services for the user agencies, and they, in return, will

Therefore, during the Recess, I request that your Honorable Body approve our purchase of Goods and Services requiring your Approval under Ordinance No. 15-00 under provisions as follows:

I. Weekly list of Contract Agenda Items which are distributed by the Office of the City Clerk to Members of the City Council each Thursday.

II. In the event any Council Member objects to the contract or purchase order, the contract or purchase order will be held either until formal action by the City Council or withdrawal of the objection by the objecting Council Member.

2. No Contract or Purchase Order shall be issued if a Protest has been filed, or if a Supplier has not obtained any required Tax Clearances, Insurance or Affidavits.

The first list under the Recess procedures will be prepared by the Office of Contracting and Procurement on Thursday, March 29, 2018.

Housing & Revitalization Department

March 14, 2018

Honorable City Council:

Re: Post 2017 Wayne County Tax Foreclosure Auction Right of First Refusal — Occupied Home Pilot Program.

The United Community Housing Coalition (UHC) is an organization specializing in homeless prevention. The City of Detroit currently assists UHC in its activities by providing Community

Development Block Grant (CDBG) and Emergency Solutions Grant (ESG) funding. Through its various programs, UCHC assists tenants with eviction and other landlord/tenant related issues, homeless individuals/families in need of housing and homeowners with mortgage, tax foreclosure and/or similar issues. Assistance is provided at all stages; it is particularly aimed, however, at preventing low income households from losing their homes by eviction or foreclosure.

In furtherance of the City's strategy to help stabilize neighborhoods, a pilot program with UCHC was formulated in an effort to aid low income individuals under extreme circumstances who found themselves occupying tax foreclosed homes. Prior to the 2017 Wayne County tax foreclosure auction, the City purchased 80 homes from Wayne County through the Right of First Refusal program. Subsequently, Your Honorable Body authorized the transfer of these homes to UCHC for the acquisition cost paid. UCHC will subsequently transfer these properties to the occupant. This is to be an at cost venture. Sale prices for each home will be set at the purchase price from the City plus a proportionate amount of the costs to implement the project. UCHC will enter into a zero percent (0%) interest land contract with each occupant-buyer unable to pay a cash price. Land contracts will also require monthly payment to a non-interest bearing escrow account established for property taxes and home repairs. Monthly payments will be set at an affordable amount for each household. The duration of the land contracts will likely be no more than 12-18 months.

Each year, pursuant to MCL 211.78 (1) a city, village or township may acquire at no cost tax foreclosed property located within its community, if the property is not purchased during the county tax foreclosure auction. The City of Detroit has exercised its right to select and acquire an additional fifteen (15) occupied residential properties from Wayne County. These properties were acquired to ensure that they would remain occupied, thereby, curtailing further potential blight and stabilizing neighborhoods.

The City proposes to offer these fifteen (15) recently acquired occupied residential properties to UCHC under the current pilot program. Five (5) of the homes are occupied by the former tenant. Two (2) homes are occupied by family members with low income wishing to maintain upkeep and residence in the property. Ten (10) of the homes are occupied by the previous owner; in these cases, the owner is of low income and/or are in extreme distress. The homes will be offered to UCHC at \$500 to \$1,000 each, a total price of \$10,500. For your review, attached please find a summary, Exhibit

B, identifying each proposed residence, including a breakdown of the proposed purchase price.

We, therefore, respectfully request that your Honorable Body approve the sale and authorize the Director of the Planning and Development Department, or his authorized designee, to execute a deed to the property described in the attached Exhibit A and other such documents as may be necessary to effectuate the sale, to United Community Housing Coalition, a Michigan Domestic Nonprofit Corporation, for the amount of \$10,500.

Respectfully submitted,

ARTHUR JEMISON

Director

Housing and Revitalization

By Council Member Tate:

Planning & Development Department

Honorable City Council:
 Re: Surplus Property For Sale.
 210 E. Palmer.

We are in receipt of an offer from Midtown Detroit, Inc., a Michigan Domestic Nonprofit Corporation, to purchase 210 E. Palmer for the amount of \$12,640. This property measures approximately 8550 square feet and is zoned R-5 (Medium Density Residential District).

Midtown Detroit, Inc. purchased the property from Wayne County in December 2011. The City, however, maintained an interest in the property due to a previous Judgement of Tax Foreclosure issued in 1998. That judgment was never removed and remains a cloud on the chain of title. The amount of the judgment was \$12,640.

Midtown Detroit, Inc. proposes to fence, landscape and incorporate the property within the existing and surrounding Art Center Community Garden located at the corner of E. Palmer and John R. This would eliminate blight and enhance the appearance of the properties in the neighboring area. This use is permitted as a matter of right in a R-5 zone.

We, therefore, request that your Honorable Body adopt the sale and authorize the Director of the Planning and Development Department, or his authorized designee, to issue a quit claim deed to the property containing a provision that the land conveyed shall be used as part of

the adjacent garden/park and such other documents as may be necessary to effectuate the sale, with Midtown Detroit, Inc., a Michigan Domestic Nonprofit Corporation, for the amount of \$12,640.

Respectfully submitted,
MAURICE COX
 Director

Planning & Development Department
 By Council Member Tate:

Whereas, The City of Detroit Planning and Development Department ("P&DD") has received an offer from Midtown Detroit, Inc., a Michigan Domestic Nonprofit Corporation ("Offeror") requesting the conveyance by the City of Detroit of real property having a street address of 210 E. Palmer (the "Property"), more particularly described in the attached Exhibit A; and

Whereas, Offeror intends to fence, landscape and incorporate 210 E. Palmer within the existing and surrounding Art Center Community Garden located at the corner of E. Palmer and John R., eliminating blight and enhancing the appearance of the properties in the neighboring area, which is permitted as a matter of right in a R-5 (Medium Density Residential District) Zone; and

Whereas, Offeror purchased the property from Wayne County in December 2011; the City, however, maintained an interest in the property due to a previous Judgment of Tax Foreclosure issued in 1998 for the amount of \$12,640, such judgment remaining a cloud on the chain of title; and

Whereas, The Planning and Development Department requests authorization to issue a quit claim deed to Midtown Detroit, Inc., such deed to contain provision that no improvements shall be made on the land conveyed except and only as such is made and used as part of the adjacent garden/park, the abutting property;

Now, Therefore, Be It

Resolved, That in accordance with the Offer to Purchase and the foregoing communication, the Director of the Planning and Development Department, or his authorized designee, be and is hereby authorized to issue a quit claim deed to 210 E. Palmer, the property more particularly described in the attached Exhibit A, and such other documents as may be necessary to effectuate the sale, to Midtown Detroit, Inc., a Michigan Domestic Nonprofit Corporation, for the amount of \$12,640.

Re: Address: 14918 Joy Road. Name: Maysarah Knoua. Date ordered removed: September 24, 2013, (J.C.C. pages 1493-1495).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on March 5, 2018 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the

demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.

2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Honorable City Council:

Re: Tinisha Washington vs City of Detroit, Case No: 17-004437-NI, File No: L17-00376.

On March 5, 2018, a case evaluation panel evaluated the above-captioned lawsuit and awarded Sixteen Thousand Five Hundred Dollars and No Cents (\$16,500.00) in favor of Plaintiff. The parties have until April 2, 2018, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review it is our considered opinion that a settlement in the amount of Sixteen Thousand Five Hundred Dollars and No Cents (\$16,500.00) is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event Plaintiff accepts the award, to deem such acceptance as a settlement to direct the Finance Director to issue a draft in that amount payable to Tinisha Washington and Elia Ponto, PLLC, to be delivered

upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 17-004431-NI, approved by the Law Department.

March 16, 2018

Honorable City Council:

Re: Approval to Accept \$211,782.85 Settlement from Section 108 Loan Payments and to pay future 108 Loan Defeasance.

The City of Detroit Housing & Revitalization Department (H&RD) requests two actions of the Council:

1. First, H&RD requests for the acceptance of \$211,782.85 in payments to the City by Section 108 Loan Payments from Garfield II Note 2, Garfield II Note 1, Book Cadillac II, West Vernor and Woodward Garden III. The payments must be recorded as Community Development Block Grant (CDBG) Program Income.

2. The City plans to use these funds in a process called 'Defeasance'. The City will give the funds to a defeasance agent who will pay Section 108 payments during the coming fiscal year, meaning the City can avoid budgeting that funding in the next fiscal year. This defeasance of Section 108 notes will create new CDBG budget authority in future fiscal years.

Pursuant to discussions with the U.S. Department of Housing & Urban Development (HUD) field office in Detroit and Headquarters, the Department must send these dollars to a defeasance agent. The defeasance agent will hold these dollars and spend them to retire bi-annual loan payments until the loans are exhausted. This will allow the City to free up budget authority in future fiscal years. Please be advised that HUD requires that Section 108 settlement payments must be applied to loan obligations.

The Housing & Revitalization Department respectfully requests your Honorable Body's approval of the attached resolution with a Waiver of Reconsideration.

Housing and Revitalization Department

March 21, 2018

Honorable City Council:

Re: Review and Approval of HOME, NSP and CDBG 2018 Fast Track Awards.

The City of Detroit, through the Housing and Revitalization Department ("HRD"), has continued to work closely with the U.S. Department of Housing and Urban Development ("HUD"), in making required obligations and disbursements of City HOME, NSP and CDBG Development funds to meet upcoming project commitment, disbursement, and program closeout deadlines. HRD issued a NOFA on December 18, 2017, to assist in making allocations for "ready-to-proceed projects" from available HOME, NSP and CDBG funding. The HOME program is authorized under Title II of the Cranston-Gonzalez National Affordable Housing

Act, and is designed exclusively to create affordable housing for low-income households. Eligible activities under the HOME program include:

- Providing home purchase or rehabilitation financing assistance to eligible homebuyers;
- Building or rehabilitating housing for rent or homeownership; and
- Other reasonable and necessary expenses related to the development of non-luxury housing.

HOME funds are awarded on a formula basis, are included in the annual entitlement award from HUD and are part of the Consolidated Plan.

HRD is requesting to increase HOME allocations for "the Sanctuary" and Peterboro Arms Apartments projects. City Council previously approved HOME awards for both of these permanent supportive Housing projects last year, \$1,000,000 for the Sanctuary and \$750,000 for Peterboro Arms. Both projects also received MSHDA Low Income Housing Tax Credit (LIHTC) awards in 2017 and will need additional City funding to close this spring.

The developers of "the Sanctuary" have undertaken cost reduction activities to reduce the number of apartments from 75 units to 42 units. HRD is requesting to increase HOME funds from \$1,000,000 to \$1,900,000 to assist in covering the remaining funding gap needed to build this \$10.9 million permanent supportive housing complex. The developers expect to close in June (2018).

Peterboro Arms is also a permanent supportive housing complex that was awarded Low Income Housing Tax Credits during MSHDA's April funding last spring. The project is the rehabilitation of a 56 unit apartment structure for permanent supportive housing. This development has a funding gap due to a reduction in the pricing of the tax credits due to recent changes in the tax code. HRD is requesting to increase the City HOME award from \$750,000 to \$1,250,000. The developers anticipate closing this spring with a construction start in July.

HRD previously proposed funding the rehabilitation and sale of three single family homes with \$300,000 in CDBG funds for the LifeBuilders project. After working with the developer to identify additional homes in the Regent Park neighborhood, the developer is now willing to rehabilitate six single family homes. HRD proposes to fund the first two "for sale" homes with a combination of \$194,000 in NSP 1 funds and \$146,000 in NSP 3 funds, for a total of \$340,000. A third homebuyer unit will be funded later this year from NSP 3 funds during Phase 2. The developer has also agreed to redevelop three single family homes for rental with private funds during Phase 1 of the project.

Consistent with the new process adopted

by City Council in 2012 for approving HOME CDBG and/or development awards and development partners, HRD is requesting that your Honorable Body review and approve the attached list.

We request approval of the attached resolution with a waiver of reconsideration so additional housing investments and neighborhood reinvestment through the HOME, NSP and/or CDBG programs can continue. Should you have questions or require additional information, please do not hesitate to contact me at (313) 628-0034.

Respectfully submitted,

Re: CN Rail Crossing Derailment

Council Member Benson recently requested that LPD draft a resolution requesting that a representative of CN Railroad (Canadian National) appear before Council's Public Health & Safety Standing Committee to discuss the recent derailment. The requested draft resolution is attached.

If Council has any other questions or concerns regarding this subject, LPD will be happy to provided further research and analysis upon request.

**RESOLUTION CALLING ON
 CANADIAN NATIONAL RAILROAD CO.
 TO APPEAR BEFORE DETROIT
 CITY COUNCIL TO DISCUSS
 DERAILMENT PREVENTION**

By Council Member Benson:

Whereas, In June 2016 Detroit City Council adopted the attached resolution in support of cooperation with railroads to minimize wait times during blockages of railway road grade crossings in the City of Detroit, recognizing the divided regulatory frameworks involving federal, state and local government authorities interacting with the railroads in our communities; and

Whereas, As previously noted in the attached resolution, the City of Detroit's

dense, heavily traveled network of roads crossed by railway grade crossings on occasion creates serious problems of delay, congestion, and even safety, particularly where it affects movement of emergency vehicles when a crossing is obstructed for an excessive period of time; and

Whereas, On March 20, 2018, a train derailed and totally obstructed the grade crossing near East Outer Drive and East Seven Mile Roads, causing significant traffic delays and otherwise negatively affecting the health, safety, welfare and quality of life of residents of the City of Detroit and others, who were required to travel longer distances to circumvent this obstruction of traffic; and

Whereas, The subject railroad grade crossing is, upon information and belief, under the control and jurisdiction of CN (Canadian National Railroad Co.), with regulatory oversight of the crossing and railroad operations in the area subject to the authority of the Federal Railroad Administration and the State of Michigan Department of Transportation; and

Whereas, Detroit City Council formally invites CN's corporate leadership to attend a City Council discussion during the Public Health & Safety Standing Committee on Monday, April 16, 2018, beginning at 10:06 a.m., to engage in a public discussion of steps that can be taken to minimize or avoid derailments at the subject grade crossing and any other crossings or rights of way in the City of Detroit maintained by CN.

Now, therefore, be it

Resolved, That CN's corporate leadership is formally invited to attend a City Council discussion during the Public Health & Safety Standing Committee on Monday, April 16, 2018, beginning at 10:06 a.m., to engage in a public discussion of steps to be taken to minimize or avoid derailments at the subject grade crossing and any other crossings or rights of way in the City of Detroit maintained by CN; and

Be it further

**RESOLUTION IN SUPPORT OF
COOPERATION WITH RAILROADS TO
MINIMIZE WAIT TIMES DURING
BLOCKAGES OF RAILWAY ROAD
GRADE CROSSINGS
IN THE CITY OF DETROIT**

By Council Member Benson:

Whereas, Railroads are instrumentali-

ties of interstate commerce, subject to federal jurisdiction under the United States Constitution's commerce clause. Article I, Section 8, Clause 3 of the Constitution states that the Congress shall have power "To regulate Commerce with foreign Nations, and among the several States, and with the Indian Tribes"; and

Whereas, A Michigan statute, MCL Section 462.391, states: "A railroad shall not permit a train to obstruct vehicular traffic on a public street or highway for longer than 5 minutes at any 1 time, except the obstruction shall not be considered a violation under the following circumstances: (a) If the train is continuously moving in the same direction at not less than 10 miles per hour for not longer than 7 minutes, (b) If the railroad can show that the incident occurred as a result of a verifiable accident, mechanical failure, or unsafe condition."; and

Whereas, A City ordinance, Section 45-1-5, similarly states: "(a) No person operating a train in this city shall obstruct any public street or highway for a period longer than five (5) minutes, nor shall successive train movements be permitted to obstruct streets or highways until all vehicular traffic previously delayed has been cleared or a period of five (5) minutes has elapsed since the obstruction, (b) Any person owning a railroad right-of-way where the signal or gate obstructs vehicular traffic on any street or highway for a period longer than five (5) minutes shall be guilty of obstructing the public street or highway. It shall be a defense to prosecution under this section if the owner of the signal or gate shall repair or correct any defective equipment causing the signal or gate to malfunction, providing repair is commenced within twenty-four (24) hours after receipt of notice of the violation."; and

Whereas, The aforementioned Michigan statute was held to be preempted by federal regulations in CSX Transportation, Inc. vs. City of Plymouth, 283 F.3d 812 (CA 6 2002); the court held that the state law is expressly preempted by the Federal Railway Safety Act, 49 USC Section 20106; and

Whereas, Although the State statute and the City ordinance may both be preempted by the United States Constitution's commerce clause, so that they cannot directly be enforced by local authorities, all stakeholders involved including federal regulators of railroad operations — share a common interest in minimizing wait times and blockage of railway road grade crossings by stopped or slow trains; and

Whereas, The Federal Railroad Administration recommends that railroads "work cooperatively with state and local

officials to eliminate or minimize the impact of blocked crossings wherever possible"; and

Whereas, The City of Detroit's dense, heavily traveled network of roads crossed by railway grade crossings on occasion creates serious problems of delay, congestion, and even safety, particularly where it affects the movement of emergency vehicles, when the crossings are obstructed by a train for an excessive period of time.

Now, therefore, be it

Resolved, That all railroads operating within the State of Michigan should be encouraged to use their own resources and run their operations so that wait times and blockage of railway road grade crossings by stopped or slow trains within the City of Detroit are held to less than five (5) minutes whenever possible, and in all cases minimized, and they should work collaboratively with responsible officials of the City of Detroit toward these ends; and

Be it further

Resolved, That copies of this resolution shall be delivered to the Mayor, the Chief of Police, the directors of the Fire Department and Department of Public Works, Conrail, CSX, Norfolk Southern, Grand Trunk, Detroit Connecting Railroad Co, Delray Connecting Railroad, Ferrous Processing, and XL Cabot industrial spur rail crossings.

**City of Detroit
Legislative Policy Division**

March 27, 2018

Honorable City Council:

Re: Resolution in support of Michigan House Bill 5532.

Council President Jones requested that the Legislative Policy Division (LPD) draft a resolution in support of 2018 House Bill 5532, which would amend the personal protection order (PPO) laws to allow a pupil in grades K-12 to obtain a PPO against his or her assailant's attending school in the same school building.

Attached, please find our draft of the aforementioned resolution.

Please contact us if we can be of any further assistance.

Respectfully submitted,
DAVID WHITAKER

Director
Legislative Policy Division Staff

RESOLUTION IN SUPPORT OF 2018
MICHIGAN HOUSE BILL 5532

By Council President Jones:

Whereas, The mission of the Detroit

City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

Whereas, Currently under state law, a school or school district may permanently expel a student who rapes or sexually assaults an individual on the school grounds. Unfortunately however, the law is less clear regarding a school's authority to suspend or expel a student who sexually assaults a pupil in the same school or school district but not on school grounds. For the victim, healing can be delayed and additional trauma incurred if his or her assailant is allowed to return to the same school. Being in such close proximity to an assailant can trigger post-traumatic stress disorder symptoms, nightmares, fear, depression, and emotional distress. It makes it difficult, if not impossible, to focus in class and so interrupts learning; and

Whereas, Conversely, House Bill 5532, which the State House passed overwhelmingly on March 8, 2018, and is currently pending in the State Senate and referred to the State Senate Committee on Judiciary, would expand Michigan's personal protection order (PPO) law to add a provision that prohibits sex offenders from attending the same school as their minor victims; and

Whereas, Once approved into law, House Bill 5532 would amend Sections 2950 and 2950a of the Revised Judicature Act, which establish the procedure for personal protection orders (PPOs) in situations involving domestic violence, stalking, or sexual assaults, and PPOs taken out against a minor. To the current list of actions from which the subject of a PPO is prohibited, the bill would add prohibiting the subject of the PPO from attending school in the same building as the person filing the petition for the PPO. This would apply if the individual petitioning the court for a PPO is a minor who has been the victim of sexual assault by the respondent and is enrolled in a public or nonpublic school that operates any of grades K to 12.

Now, therefore, be it

Resolved, The Detroit City Council as an advocate of the efficient use of taxpayer dollars and for the physical welfare of Detroit's citizens, expresses its support of House Bill 5532 that would amend the personal protection order (PPO) laws to allow a pupil in grades K-12 to obtain a PPO against his or her assailant's attending school in the same school building. Therefore, the Detroit City Council is hereby calling for the Detroit Delegation in the State Senate and the State Senate on Judiciary, the full State Senate, Michigan State House and the Governor to approve House Bill 5532; and

Be it further

Resolved, That this resolution be forwarded to the City of Detroit's Lansing Lobbyist, the Detroit Delegation in the State Senate and State House, State Senate Committee on Judiciary, the Michigan Senate, the Michigan State House, and the Governor.

TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE

TESTIMONIAL RESOLUTION 50TH ANNIVERSARY OF THE FAIR HOUSING ACT AND COMMEMORATION OF SUPPORTING ORGANIZATIONS

By All Council Members:

WHEREAS, The 50th Anniversary of the Fair Housing Law is an important milestone in the history of Civil Rights in America. On April 11, 1968, one week after the assassination of Rev. Dr. Martin Luther King, Jr., President Lyndon B. Johnson, signed the Fair Housing Act into Law to end or quell the civil unrest, protests and riots in many U.S. cities. The signing of the landmark Civil Rights Act of 1968, which came to be known as the Fair Housing Law not only prohibited discrimination in housing on the basis of race, color, creed, and national origin, but also helped to expand business and career opportunities for Black Americans operating in the real estate industry and those interested entering the real estate profession.

WHEREAS, The Fair Housing Act was and continues to be a critical part of the unfinished agenda for Civil Rights in the United States, especially for equal access to quality and affordable housing when, according to the U.S. Census, there are still significant racial disparities in homeownership (42% Black vs. 72% White); and

WHEREAS, The National Association of Real Estate Brokers, Inc (NAREB)TM was established in 1947 to secure equal housing opportunities for all people regardless of race, color, creed, or religion — with four of its founding members Nannie Black, Macco Crutcher, Carleton Gains, and W.D, Morrison, Jr. (First National President) being from Detroit, and welcomes membership by all who support the NAREB vision which is "Democracy in Housing"; and

WHEREAS, Members of The National Association of Real Estate Brokers, Inc (NAREB)TM, are designated by the trade name, "REALTIST," and have dutifully and proactively impacted development and implementation of civil rights, fair housing, equal opportunity, and community development legislation and programs at local, state, and federal governmental levels since the inception of the Realists Association; and

NOW, THEREFORE, BE IT

RESOLVED, That the city of Detroit pauses to acknowledge the 50th Anniversary of the Fair Housing Act on April 11, 2018 and the role of organizations like the National Association of Real Estate Brokers (NAREB)TM and members of the Greater Detroit REALTIST Association; and

BE IT FURTHER

RESOLVED, We, the city of Detroit encourage all people of goodwill to join us in commemorating the 50th Anniversary of the Fair Housing Act and commending Greater Detroit REALTIST Association and NAREB on its hard work, dedication and commitment to making a difference throughout society by strengthening equal housing opportunities for families.

Honorable City Council:

Re: Special District Review for proposed building of signage atop 333 W. Fort located within a PCA (Public Center Adjacent District) zoning classification (RECOMMEND APPROVAL)

The staff of the City Planning Commission (CPC) has received and reviewed a sign permit application from the LaVanway Sign Company for the property located at 333 W. Fort. The property in question includes an existing multi-story office building with lower level parking and ground floor tenant space. This property is located within a PCA (Public Center Adjacent District) zoning classification, where any exterior alteration to the premises requires the approval of Your Honorable Body follow receipt of review and recommendation from the Planning and Development Department and the City Planning Commission.

REQUEST

The Chemical Bank is now the signature tenant of 333 W. Fort St. as a result they are requesting, via their consultant, to place two 154 sq. ft. signs, including the logo, one each on the north and south facades of the building. The signs would be placed on the fascia just below the roof line.

CONCLUSIONS AND RECOMMENDATION

CPC staff finds this alteration to be harmonious with the existing architecture of the building and the surrounding context. It is also consistent with the spirit and intent of the PCA zoning district and with the allowed signage allotted by Chapter 3 of the City Code. CPC staff recommends approval and will provide the appropriate resolution as directed by Your Honorable Body.

WHEREAS, The proposed installation would result in the alteration of the north and south facades of the building; and

WHEREAS, Section 61-11-96 of the Detroit Zoning Ordinance requires City Council approval of such work after review by the City Planning Commission and the Planning and Development Department; and

WHEREAS, The proposed signs have been properly reviewed and found to be complementary to the architecture of the building, consistent with the provisions of Chapter 3 of the City

Code and also consistent with the spirit and intent of the PCA zoning district classification.

City Planning Commission

April 9, 2018

Honorable City Council:

Re: The request of the petitioner Giffels & Webster, on behalf of Halcor Studio Live, LLC to amend Article XVII, District Map No. 7 of the 1984 Detroit City Code, Chapter 61, Zoning, to a show a B5 (Major Business District) zoning classification where a B2 (Local Business and Residential District) zoning classification is currently shown for the properties commonly known as 7441 Second Avenue and 659 West Bethune Street. Additionally, CPC is co-petitioning to show a B5 (Major Business District) zoning classification where a B2 zoning classification is currently shown for the most eastern portion of the block, specific to properties commonly known as 7409 Second Avenue, 634 Lothrop Street and 638 Lothrop Street and generally bounded by Bethune Street on the north, Second Avenue on the east, Lothrop Street on the south and Third Street on the west; and also where B2 and B4 (General Business District) zoning classifications are currently shown for properties bounded by Bethune Street on the north, Woodward Avenue on the east, Lothrop Street on the south and Second Avenue on the west.
 (RECOMMENDING APPROVAL)

BACKGROUND AND PROPOSAL

On January 4, 2018, the City Planning Commission (CPC) took action to recommend approval of the rezoning request of the petitioner, Giffels and Webster, on behalf of the developer, Kraemer Design Group and Halcor Studio Live, LLC.

The developer is petitioning the City for a rezoning to amend Article XVII, District Map No. 7 of the 1984 Detroit City Code, Chapter 61, Zoning, to a show a B5 (Major Business District) zoning classification where a B2 (Local Business and Residential District) zoning classification is currently shown for the properties commonly known as 7441 Second Avenue and 659 West Bethune Street.

The subject building, that originated in 1956 and is located in the New Center area, has been commonly known in the past as the 'WTVS-Channel 56 building. It has also been known for originally being WJBK-TV Studios in the more distant past. More recently the property was occupied by the Mosaic Youth Theatre of Detroit until approximately 2015 when the building changed ownership, eventually

coming into possession of Halcor Studio Live LLC, an extension of Halcor Group, a real estate company headquartered in Calgary, Alberta, Canada.

The petitioner proposes to rezone the existing building as well as a second residential building to facilitate an eight (8) story multi-family residential tower with ground floor commercial tenant space.

In addition to this request, the City Planning Commission staff is co-petitioning to amend Article XVII, District Map No. 7 of the 1984 Detroit City Code, Chapter 61, Zoning to show a B5 (Major Business District) zoning classification where B2 (Local Business and Residential District) and B4 (General Business District) zoning classifications are currently shown for the properties commonly known as 7409 Second Avenue, 634 Lothrop Street, 638 Lothrop Street and the properties bounded by Bethune Street on the north, Woodward Avenue on the east, Lothrop Street on the south and Second Avenue on the west.

NATURE OF REQUEST

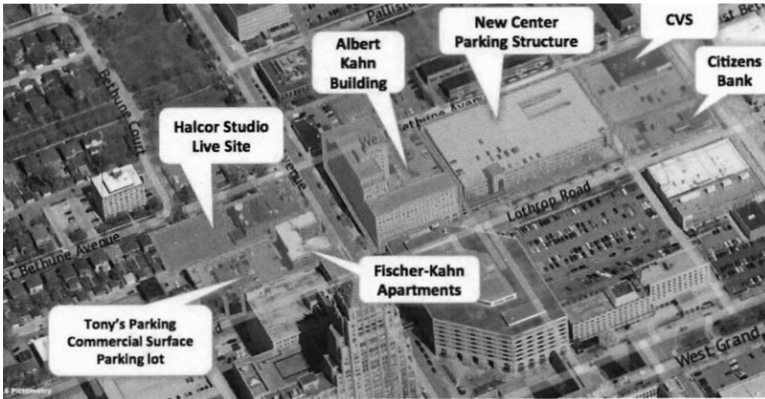

The request has been petitioned for by Giffels Webster on behalf of Halcor Studio Live and plans to expand the existing building (former channel 56 building), along with an additional new building to house a minimum of 140 apartment units. The amount of parking to be provided was originally estimated to be around 90 parking spaces, but is still being determined. The developer's plans show that parking would be located underneath the new building in the warehouse-studio portion of the existing building. The first floor of that same existing building along the Second Avenue frontage will house 5,000 feet of retail space. The developer plans for the massing of the existing building addition and new building to take design cues from the neighboring commercial buildings and residential homes to come to a medium between the two typologies. Street activation and fenestration that engages the public realm are high priorities in the design that has been produced by the development team. The project is planned to rest on parcels that are composed of just under one (1) acre of land.

Secondly, the City Planning Commission's request is being proposed in order to bring the City's zoning provisions into alignment with the Master Plan of Policies for the subject area. The practice of CPC to include additional areas, with a petitioner's rezoning request is applied frequently as there are opportune situations to maximize on an existing effort. When there are adjacent swaths of land that are ripe for zoning updates to reconcile zoning policy to the Master Plan, CPC typically tries to couple additional parcels to a rezoning, to maximize on resources. Many times this requires more

community engagement outside of what the scope of the original petitioner's development would call for. In this case while the rezoning involves a sizeable amount of land, the number of land owner's in that

footprint are small and all property owners have been contacted by U.S. mail, by phone or in-person.

Properties that fall within the rezoning footprint.

As this Honorable Body is aware, the Michigan Zoning Enabling Act as well as City Charter sets the direction for the Master Plan to serve as a set of guidelines, setting the course for development in the City. The City adopted the Master Plan in 2009, after the crafting of the document by the Planning and Development Department (P&DD). A series of public meetings were then held by CPC in the 10 Master Plan cluster areas to induce community participation, and based on that engagement, subsequent changes were made to reflect community desire. The proposed action would align zoning regulations to match the future land use designations of the plan, which the City and residents envisioned.

PLANNING CONSIDERATIONS
Surrounding Zoning and Land Use

The zoning classification and land uses surrounding the subject area are as follows:

North: R1 and B2: W-3 Construction commercial building and residential housing units

East: B2: Woodward Avenue commercial buildings

South: B2 and B5: Fischer Kahn Apartments and The Fischer Building

West: R1: Single-Family residential housing

ANALYSIS

Overview

The B5 Major Business District zoning classification that is being proposed for the subject parcels will have a major impact on the development opportunities on the subject parcels, but in staff's judgment this change in zoning district is most appropriate. The B5 zoning district, even in its "description, according to the zoning ordinance is described as, "a district

designed to provide adequate regulations within the Central Business district, the New Center area..." marking its appropriateness and intent for the district to be applied to this area.

According to the Master Plan-Zoning Table that was crafted by CPC and P&DD staffs and adopted by City Council in 2016, the B5 Major Business District correlates most closely with the Major Commercial (CM) Master Plan Designation identified for the subject parcels. This was taken into consideration when staff reviewed the parcels in question.

Much of the land directly to the south of the subject property being proposed for rezoning, already sits on land that has the B5 zoning classification with structures that are in alignment with the districts provisions, further supporting the recommended zoning change as it fits the character of the adjacent building stock. The Master Plan land use designations indicate that the land stemming from the major thoroughfare intersection of Woodward Avenue and East Grand Boulevard should carry the more intensive B5 zoning.

General Zoning Impacts
Change in Permitted By-Right and Conditional Uses

Under the current B2 Local Business and Residential District zoning classification, there are approximately 50 by-right uses and 44 conditional uses as opposed to the B5 district which provides for approximately 84 by-right uses and 47 conditional uses.

This constitutes an increase in allowable by-right and conditional uses, however it should also be noted that proposed

projects that meet certain criteria based on intensity and scale, will still be subject to site plan review by P&DD and the Buildings Safety Engineering Environmental Department (BSEED).

Parking Structures

Parking structures are permitted by-right, if at least thirty percent (30%) of the ground floor level facade abutting a public street is dedicated to commercial space or other space oriented to pedestrian traffic. Otherwise, a parking structure may only be permitted as a conditional use.

Off-Street Parking Exemptions

All land uses are exempt from the off-street parking requirements meaning a development does not have a minimum parking ratio requirement to fulfill, but may still provide parking at their own discretion.

Multiple-Family Dwellings

Multiple-family dwellings with ground-floor commercial uses are required along at least fifty percent (50%) of the building facade when a building fronts Woodward Avenue, and may be required in other portions of the B5 District.

In addition, multiple-family dwellings that have ground-floor commercial space or other space oriented to pedestrian traffic are permitted by-right, but those not having such ground floor space are a conditional use.

Cubical Content Standard

In the B5 district, other than town houses and rooming houses, all buildings are subject to the following cubical content provisions (See figure below):

No building or structure, or part of a building, can be erected, altered, or enlarged to such a size or height that the cubical content of such building or structure above the grade plan will exceed the volume of a block or prism having a height equal to three (3) times the width of the widest street abutting the zoning lot where the building is located or proposed, and a base equal to the area of the zoning lot.

Towers may be erected over and above the cubical content limit as long as they meet these criteria:

1. The greatest horizontal dimension of the tower does not exceed sixty (60) feet; and
2. The total gross area of such towers on any one (1) building or structure at any one (1) horizontal plane does not exceed twenty-five percent (25%) of the area of the zoning lot that the building resides on; and
3. Each tower has to be at least sixty (60) feet from any other tower on the same building or structure.

Figure from 61-13-121 of the Zoning Ordinance modeling the Cubical Content formula.

Master Plan Consistency

The subject site is located within the Middle Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows *Major Commercial* for the subject property. The Planning and Development Department (P&DD) has submitted a determination finding that this rezoning proposal is consistent with the City's Master Plan of Policies.

The Detroit Future City Framework Plan ⁵(not an adopted plan of the City of

Detroit) designates the subject site as "District Center" and envisioned that Multiple medium-density residential neighborhoods typically surround a District Center. The subject neighborhood for the project proposed by Halcor site next to residential housing exemplifies the type of co-existing Medium-density housing and higher density commercial and residential development locating adjacent to one another in a harmonious fashion.

District Center model from the Detroit Future City Strategic Framework Plan.

COMMUNITY INPUT AND OUTREACH

Community Meeting

At CPC staff's suggestion, the Halcor/Kraemer development team held a community open house at Avalon Breads Bakery located at 2994 W. Grand Boulevard in the vicinity of the proposed development. The open house was held on December 6, 2017. Halcor representatives had already been in communication with members of the New Center Home Owners Association and continue to engage them.

CPC staff also called or visited each of the sites indicated in the map and have also been in contact with members of the New Center HOA.

Public Hearing Results

During the December 7th CPC public hearing, two members of the public spoke, in which both are neighbors of the former Channel 56 building property. One of those neighbors spoke in complete support of the project. The other neighbor, being the one homeowner who had previously phoned CPC offices and later attended the community open house at Avalon Bakery, spoke in support, however had additional concerns after further contemplation. Those concerns were in regard to the developer addressing the debris and landscaping or lack thereof, along the property line dividing the two

properties. The other primary concern was in regard to the perceived decline in privacy that their property would experience once the proposed project is built, due to the scale and location of apartment units floor plans and fenestration. The same neighbor inquired about what could be done to screen their property from the apartment building in order to maintain some privacy for their backyard from future tenants of the Halcor Live Studio building.

Since then the developer has addressed the concerns of the neighbor in question by conducting a study to address privacy concerns and committing to properly reconcile the current site conditions.

Letters of support have been submitted for the initial project and/or the larger rezoning from Midtown Detroit Inc., the Detroit Economic Growth Corporation, and The Platform.

APPROVAL CRITERIA

In accordance with the rezoning criteria of the Zoning Ordinance (Section 61-3-80), reviews of proposed map amendments should be conducted in light of the following relevant criteria, with CPC staff analysis following:

Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact.

The proposed amendment does meet the challenge of an evolving neighborhood that has seen demand for housing increasing as other parts of the greater downtown are experience full unit occupation as well as rising costs.

(2) *Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance.* The proposed amendment is consistent with the City's Master Plan of Policies and the vision that it set forth.

(6) *Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract.*

The impacts that this proposal will have on neighboring residential homes has been taken into account by the developer and studied. A presentation on the results of that study has been presented in the form of a shadow study. Other impacts may stem from ground floor retail, but would likely be positive impacts. Staff has spoken to some nearby residents who seemingly are excited to see retail come into the area to serve as an amenity to their current lifestyle.

(7) *The suitability of the subject property for the existing zoning classification and proposed zoning classification.* The existing zoning classification is not suitable for mixed-use development and would create many hurdles for the developer to overcome increasing timeframe of a construction ground breaking. It is most desired by

City Departments to not have to grant variances and administrative adjustments when zoning is able to reasonably and efficiently accommodate a development.

(8) *Whether the proposed zoning will create an illegal "spot zone."* Staff is confident that the proposed zoning would not be deemed an illegal pot zone according to case law study. The proposed zoning is adjacent to other parcels that are classified identically. The inclusion of CPC staffs co-petitioned parcels will also alleviate potential for the original petitioned parcels to be deemed a spot zone, therefore strengthening the case for the passage of the holistic rezoning.

RECOMMENDATION

Given the facts outlined in this report, and the general support from home owners in the New Center Home Owners Association, the Detroit Economic Growth Corporation, Midtown Detroit Inc.; along with the consistency with City policy and support from other agencies, on January 4, 2018 the City Planning Commission voted to **RECOMMEND APPROVAL** of the this proposal in its entirety as stated above.

City of Detroit
Historic Designation Advisory Board

**FINAL REPORT
PROPOSED CASS HENRY
HISTORIC DISTRICT**

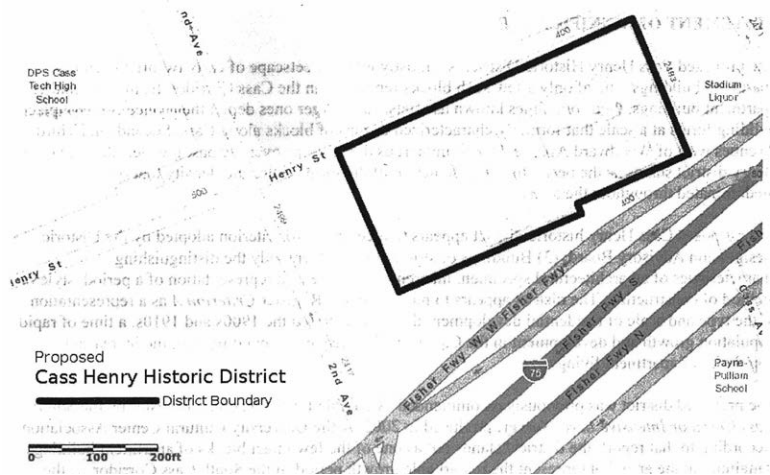

February 8, 2018

OVERVIEW

By a resolution dated June 28, 2017, the Detroit City Council charged the Historic Designation Advisory Board, a study committee, with the official study of the proposed Cass Henry Historic District in accordance with the procedures and evaluation criteria described in Chapter 25 of the 1984 Detroit City Code and the

Michigan Local Historic Districts Act.

The proposed Cass Henry Historic District consists of a single block, within the Central Business District, containing six brick apartment buildings dating from the 1900s and the 1910s, as well as one related commercial building from the 1920s. The area is just north of the Fisher Freeway, south of the Cass Park Local Historic District, and in close proximity to Lewis Cass Technical High School and the Detroit Events Center (Little Caesars Arena).

BOUNDARIES

The boundaries of the proposed Cass Henry Historic District, shown in bold lines on the above map, are as follows:

Beginning at the intersection of the

centerline of Cass Avenue with the centerline of Henry Street; thence westerly along the centerline of Henry Street to its intersection with the west line, extended, of Lot 13 of Block 77, Subdivision of Part

of Cass Farm, Liber 1, Page 74 of Plats, Wayne County Records; thence southerly along said extended west line to its intersection with the centerline of the east-west alley running between Cass Avenue and Second Avenue; thence easterly along said centerline to its intersection with the centerline of the north-south alley running between Henry Street and the Fisher Freeway Service Drive; thence northerly along said centerline to its intersection with the south-line, extended, of Lot 5 of Block 77, Subdivision of Part of Cass Farm, Liber 1, Page 74 of Plats, Wayne County Records; thence easterly along said extended south line to its intersection with the centerline of Cass Avenue; thence northerly along said centerline to the point of beginning.

BOUNDARY JUSTIFICATION

The boundaries of the proposed Cass Henry Historic District encompass a clearly discernible concentration of significant resources. To the north and east, across Henry Street and Cass Avenue, respectively, are two mid-twentieth century, single-story, commercial buildings of significantly diminished integrity, along with vacant gravel lots. To the south are grass-covered lots and the Fisher Freeway. To the west is a gated parking lot and the former Lewis Cass Technical High School site, now a vacant parcel.

STATEMENT OF SIGNIFICANCE

The proposed Cass Henry Historic District is a mostly intact streetscape of early twentieth century apartment buildings, one of only a few such blocks remaining in the Cass Corridor. Its mix of smaller apartment buildings, then sometimes known as "flats," and larger ones depict these once commonplace building forms at a scale that formerly characterized dozens of blocks along Cass, Second, and Third Avenues west of Woodward Avenue. Due to numerous demolitions over the past few decades, the Cass Henry district stands as the best remaining depiction of the form, scale, and density that once predominated throughout the area.

The proposed Cass Henry historic district appears to meet the third criterion adopted by the Historic Designation Advisory Board: (3) Buildings or structures which embody the distinguishing characteristics of an architectural specimen, inherently valuable as a representation of a period, style or method of construction. The district appears to meet National Register *Criterion A* as a representation of the type and scale of residential development that characterized the 1900s and 1910s, a time of rapid population growth and development in the Cass Corridor area, corresponding with the increasing popularity of apartment living.

The proposed district was previously

recommended as eligible for the National Register by the *South Cass Corridor Intensive Level Survey*, produced in 2002 by the University Cultural Center Association. According to that report, the district "stands out as one of the few intact blocks of apartment buildings remaining in the area that represent the remarkable growth period of the South Cass Corridor ... the buildings are an excellent example of the development of apartment hotels and flats as acceptable living quarters for the middle class."¹

Additional history and description is provided below, concluding with an evaluation of the proposed district according to the registration requirements provided by the *Apartment Buildings in Detroit, Michigan, 1892-1970* Multiple Property Documentation Form.²

PERIOD OF SIGNIFICANCE

The period of significance consists of the construction dates of the buildings, 1900-1923.

HISTORY

The proposed Cass Henry Historic District reflects the broader history and significance of the Cass Farm area, later known as, the Cass Corridor. The history and development of this area is elaborated upon in the *South Cass Corridor Intensive Level Survey* and the National Register of Historic Places Registration Form for the Cass Park Historic District (February 2, 2005).³ The developmental history of the proposed historic district fits within the context of the Cass Park district to the north, although the buildings on Henry Street were not considered during the 2005 National Register listing or during the 2015 study and enactment of the Cass Park Local Historic District, likely due to early twenty-first century building demolitions having separated the district on Henry Street from the concentration of buildings of similar age and significance to the north. Nonetheless, the proposed Cass Henry Historic District stands alone and merits study of its significance as a rare remaining example in the city of Detroit of a nearly intact streetscape of early apartment buildings.

Cass Farm was an original French ribbon farm, recognized by the United States as Private Claim 55, so named because of its 1816 purchase by Lewis Cass, governor of the Michigan Territory. Cass Avenue was so named as early as 1827; Henry Street was named in 1853 after Henry Hastings Sibley, Detroit-born son of Solomon Sibley and Sarah (Sproat) Sibley, who at the time served as a territorial representative in Minnesota.⁴ Cass began in 1856 to subdivide his land holdings, establishing a generous right-of-way and imposing deed restrictions encouraging sidewalks and landscaping, helping to ensure the development of Cass Farm as a desirable, upper-income neighborhood.

His donation of Cass Park to the city (opposed by some aldermen, who suggested that city funds spent developing the park would primarily benefit Cass) further raised property values in the vicinity. Streetcars along Woodward Avenue in 1863 and Third Street in 1873 facilitated the development of Cass Farm as a streetcar suburb. The Fifth Ward, west of Woodward Avenue and north of Grand River Avenue, came to be known as Piety Hill due to its "well-to-do citizens."⁵

The Fifth Ward saw increased density in the 1890s as Detroit's population continued to increase dramatically. Increased residential development in the Cass Corridor helped Woodward Avenue supplant Jefferson Avenue as the primary thoroughfare in the city. Much of this development was in single-family or two-unit homes built after 1880.⁶ Homes for the city's economic elite were generally located on Woodward, while the less wealthy (but still affluent) professionals, successful business owners, and skilled tradespeople frequently lived a block or two to the west. By end of the nineteenth century, especially as available land for development within the city limits became scarce, "the apartment building had gone from a nonentity to an acceptable and even desirable alternative to single-family housing for the professional classes who were often single, childless, [or] empty-nesters."⁷

Between 1900 and 1915 the apartment buildings of the proposed Cass Henry Historic District were constructed, most replacing smaller single-family or two-family residences that had been built perhaps ten or twenty years previously. Indeed, the large lot sizes, intended by Cass to encourage the construction of large, single-family homes, also created a favorable environment for the erection of apartment buildings.⁸ At least one building in the district, the Grande Apartments (2447 Cass), was designed by Baxter and O'Dell, the firm that had, with respect to marketing apartment living to upper-income professionals, "mastered this type of building" and had become the leading designer of early apartment buildings in Detroit.⁹ The *Apartment Buildings in Detroit, 1892-1970* Multiple Property Documentation Form describes the South Cass Corridor area as one of three "clusters" of early apartment building development; the others consisted of an area further north in the Cass Corridor as well as a number of apartment buildings on East Jefferson Avenue.¹⁰ *Apartment Buildings in Detroit* also suggests that the desire of the "aspirational middle class" to have a "respectable address" in a "fashionable" area may have been the primary factor driving demand for apartment building construction in these locations, rather than other considerations such as proximity to streetcar access.¹¹

In general, the development of multiple-unit housing types in the Cass Corridor mirrors the expansion of Detroit as an industrial city and its subsequent rapid growth and change caused by the booming automotive industry ... single-family houses were either razed or converted to multiple dwellings to house greater numbers of people as the demand for housing rose astronomically in the first quarter of the twentieth century.¹² By 1915, when the last building in the proposed Cass Henry Historic District was built, there were over 770 apartment buildings in Detroit.¹³

Classified by both form and function, three general types of apartment buildings are represented in the proposed historic district. In the first two decades of apartment living in Detroit, the terms "flats" and "apartments" were often used interchangeably, but with the former term more commonly applied to smaller buildings with fewer, and often larger, units, especially those built during a "first phase" (1892-1915) in Detroit.¹⁴ This distinction — used on Henry Street as well as elsewhere — was not rigid; eventually "flats" largely faded from use. The building at 427 Henry Street, with five dwelling units, was known as Henry Flats when it originally opened; the eight-unit Grande Apartments at 2447 Cass Avenue is noted as "flats" in some city directories. Flats were considered a fashionable alternative for single people or families wishing to avoid the maintenance needs associated with homeownership.¹⁵ "Apartment houses," by contrast, describes the often larger apartment building, and is certainly the most common apartment type in Detroit. Other than the Henry Flats and possibly the Grande Apartments, the remaining buildings in the district more clearly meet the definition of an apartment house. The final term, "apartment hotels," were also an early apartment type. Again, there is no clear definition for what sets an apartment hotel apart from other types of apartment buildings, but these buildings were often marketed to a more transient population and included amenities such as communal dining or a concierge service. Bretton Hall (439 Henry Street) and Berwin Apartments (489 Henry Street) were described as apartment hotels for much of their respective histories (the Hotel Ansonia at 2447 Cass Avenue also served as an apartment hotel after conversion in 1945, after the close of the period of significance for the district).

Buildings within the Cass Henry district served, for the most part, a residential function throughout their period of significance and into the present day. The easternmost three buildings (the two on Cass Avenue along with The Henry at 427 Henry Street) are now vacant; these buildings are owned by Olympia Development of Michigan, who intends to demolish the

structures, according to news reports.¹⁶ The commercial building at 447 Henry Street is also presently vacant.

DESCRIPTION

The proposed Cass Henry Historic District consists of a single residential block within the Central Business District, just north of the Fisher Freeway (I-75) on the northwestern outskirts of downtown Detroit. For several blocks in each direction, the area is characterized by many vacant lots and parking lots, and a few small businesses in one or two-story commercial buildings generally dating from the early twentieth century. Exceptions in this area, are the five-story Lewis Cass Technical High School, a 2004 building replacing an earlier, 1922 structure, and the publicly owned Detroit Events Center (also known as Little Caesars Arena), just over one block west and east of the proposed historic district, respectively. One block north of the Cass Henry district is the Cass Park Local Historic District. To the south, across the Fisher Freeway, begin the taller and commercial and residential buildings of the downtown area.

The Cass Henry block was first developed in the 1880s and 1890s with smaller, wood-frame houses and duplex buildings; these were demolished a decade or two later, during a time of rapid population growth in the city, to create the apartment buildings which stand presently.

During the period of significance the block covered a greater area than it does today, being bounded by Henry Street, Cass Avenue, High Street, and Second Avenue. However, the footprint of the Fisher Freeway, built through the city in the 1960s, eliminated High Street and the southern half of the block. Late-twentieth century demolitions eliminated apartment buildings at 2457 Cass Avenue, 467-469 Henry Street, and 481 Henry Street (now noncontributing open spaces), and 505

Henry Street (outside the proposed district boundaries). Despite these demolitions, the block retains the feel and character of a dense, urban, residential area, serving as a unique remaining example of the density that once characterized the Cass Corridor area, and thus retaining "integrity" as defined by the National Register of Historic Places. Alterations to the buildings since the period of significance have been minor, consisting of some window replacements and the removal of at least one cornice. Character-defining features of the district primarily include the buildings themselves, though a few mature street trees remain, along with sidewalks and concrete walkways and steps approaching each building. Even where buildings have been raised, walkways, landscaping, and mature street trees remain, helping the district to retain much of its historic residential feeling.

The six remaining apartment buildings consist of both "flats"—smaller buildings with spacious, full-length apartments targeting an upper income demographic, as well as larger-scale apartment buildings characterized by a central, double-loaded hallway with rooms opening to the side. Building permits suggest that some of these apartments have since been further subdivided, especially during periods of population growth and housing shortage during the 1920s, 1930s, and 1940s.

With the exception of the garage at 447 Henry Street, the buildings served as residential apartments throughout most of their history, with intermittent retail use on the first floor and basement levels. Buildings fronting on Cass Avenue, along with the The Henry at 427 Henry Street, are recently vacated and surrounded by construction fencing, while buildings fronting on Henry Street remain occupied with the exception of the garage.

CONTRIBUTING RESOURCES
2447 Cass Avenue (Grande Apartments/Hotel Ansonia)

Constructed around 1906, according to building permits, this building replaced an earlier residential structure. It was designed by the architecture firm Baxter & O'Dell (Frank E. Baxter and H. Augustus O'Dell, based in Detroit), with two apartments on each of its four floors, for a total of eight residential units. The building was originally known as the Grande Apartments, according to city directories. In 1945 the building was converted to a hotel with the addition of a basement dining area and retail store, and renamed Hotel Ansonia. Garages had been added to the site in the 1920s, but no longer remain; the site presently contains a grassy rear yard.

This four story, four bay, dark brown brick building features an ornate, carved, Italian Renaissance stone entry surround on its front (Cass Avenue) facade. Otherwise, architectural detail is sparse, and includes finials over outer bay windows. Brickwork is Flemish bond. Stone urns flanking the raised front entry are visible in a mid-twentieth century photograph,¹⁷ though it is not known if these remain, as construction fencing presently conceals the entrance from view.

Several generations of faded, hand-painted ghost signs, faintly discernible on a blank wall on the south elevation, advertise Labbatt's Ale, Beck's Beer, and the O'Donnell Importing Company, taking

advantage of a prominent wall clearly visible from northbound traffic on Cass Avenue (the construction of the Fisher Freeway in the 1960s, and the demolition of other buildings on the block, increased the visibility of the Hotel Ansonia; it is not known if the signs date from this period or earlier). Within the front lawn on the north side of the building, an iron or steel pole stands, though it is now lacking the "HOTEL ANSONIA" sign it supported for many decades.

At present, windows have been removed from the building and its entrance has been boarded, but it otherwise appears to be in good condition.

The reputation of Baxter and O'Dell does not seem to expand beyond their role in the creation of these early apartment buildings. The T. B. Rayl & Co Building, at 1400 Woodward Avenue, and sometimes attributed to Baxter & O'Dell, was more likely designed by Wirt Rowland, who had been working for the firm as a consultant at the time.¹⁸ O'Dell later partnered himself with Rowland, forming O'Dell & Rowland in 1931 (after the latter had already designed the iconic Penobscot Building, Buhl Building, and Guardian Building), and finally was a partner in O'Dell, Hewlett & Luckenbach, who designed the now-demolished Ford Auditorium in Detroit's Civic Center.¹⁹

2467 Cass Avenue (Atlanta Apartments)

Building permits and city directories date this building to 1914 or 1915, with Detroit-based Harry S. Angell as architect. Known by one name and serving continually as an apartment building until recently, the twenty-four-unit Atlanta Apartments housed a beautician and the Ideal Silk Lamp Shade Company in its basement during the 1920s. The building was owned by Adelbert Young, a machinist who resided at first on Park Avenue, and later moved to this building until his death in 1940.²⁰

This four-story brown-orange brick building sits on a raised basement and faces east onto Cass Avenue. Architectural detail displays Georgian Revival and Arts and Crafts influences. The three-and-a-half story, stacked central porch consists of brick piers supporting Tuscan columns, in turn supporting the upper porch level. Within this porch, projecting consoles adorned with acanthus leaves support a simple entablature above the entrance door; above this entablature sits a panel reading "ATLANTA" in raised, serif lettering. Canted bay windows on the first three floors feature metal spandrels and tabbed stone surrounds, and sit beneath a bracketed hood. Other windows are surrounded by coursed brickwork; upper story windows

are accented by keystones. Above, heavy, metal consoles support a simple cornice.

The decorative treatment of the front (Cass Avenue) facade extends to the north to create a secondary facade on Henry Street. From this elevation, deep indentations for light and ventilation divide the building into three distinct masses, rendering its twenty-four-unit plan clearly discernible from the street.

At present, the building is vacant and windows are missing.

Harry S. Angell, architect of this building, is perhaps best known for his short-lived Newcomb-Endicott department store addition at 1270 Woodward Avenue on what is now known as the Hudson's Block. The 12-story building was completed in 1920, but demolished in 1927 when the J. L. Hudson Company purchased the site to expand its own, adjacent, department store building.²¹ Angell also designed the Church of the Covenant (now Trinity Deliverance Church) at 740 East Grand Boulevard, and two Indian Village houses, among other commissions in the area, according to the American Institute of Architects Biographical Dictionary of Detroit Architects. Angell later partnered with William Schreve, a noteworthy Detroit structural engineer.

427 Henry Street
 (The Henry, also known as Henry Apartments and Henry Flats)

Possibly under construction as early as 1900, according to building permits, this building first appeared in city directories in 1904. The architect for this Federal Colonial Revival building is not known. The smallest residential building in the district, and originally known as Henry Flats, it opened with five units. By 1923 these were subdivided, creating 26 small units.

This light-brown brick facade consists of two bays flanking a narrower central bay. The central bay contains smaller, hallway window openings, with end bays bearing projecting, wood bay windows on the second floor and simpler, rectangular windows openings on the top floor. Window openings on the ground level have been eliminated and closed with concrete block. The door surround consists of two Tuscan columns supporting a denticulated, classical entablature. "THE

HENRY" is incised into the frieze in simple, sans-serif lettering. A small side window sits on each side of the entrance.

Despite being the oldest building in the proposed historic district, the Henry incorporates safety and quality-of-life innovations which became ubiquitous in Detroit apartment buildings following a 1911 ordinance (and which spread statewide after passage of a similar 1915 law): central hallways, with front and rear stairways, as well as hallway windows and an attic ventilator, are all found on the Henry. These features, of course, are also found on the other apartment buildings on the block, where they would have been required by the 1911 law.

A internally illuminated channel-letter sign reads "DIAMOND LIL'S," identifying a business which existed at the twentieth century. The building is presently vacant.

439 Henry Street (Bretton Hall)

The first permits for this building were issued in 1916; it first appears in city directories in 1918 with sixty-five apartments. Its architect was not recorded; its builder is Frank P. Davey. By 1930 it was advertised as an "apartment hotel."

This four story, five bay, brown brick apartment building shows English Revival and Arts and Crafts details. A paneled main entrance features a simplified Classical door surround, "BRETTON

HALL" written in raised, sans-serif lettering in the entablature. A central bay features tall center hallway windows with balconets. Decorative, rectangular stonework accents windows on the second and third stories. Brick quoins, and string courses at the top floor, further embellish the facade. Heavy, metal consoles are similar to those found on the Atlanta Apartments; here, the cornice they support features Classical dentils.

447 Henry Street (William B. Ralston Garage)

The only nonresidential building located on the block, this garage building was constructed in 1922 or 1923, replacing an earlier wood-frame residence. It served as an auto repair facility owned by William B. Ralston into the 1940s, and by 1956 it was converted into a bowling alley operated by Pla-Mor Recreation. In 1970 it was listed in city

directories as Towne Center Laundry. The smallest building in the district, this commercial building features Neo-Georgian details, including English cross-bond brickwork, and a parapet, supporting ornamental, ball-topped stone piers, with a triangular, central pediment. Storefront windows appear to have, been altered or are obscured.

459 Henry Street (Claridge Apartments)

The Claridge first appears in city directories in 1916 as an unnamed apartment building, known as The Claridge Apartments by 1918. It contains sixty-four units (twelve on each of its four stories) The yellow-brown brick facade of this Georgian Revival structure is dominated by an Arts and Crafts-inspired, arched, open entry-

way, into which is recessed a central entrance. The center bay of this five-bay building features balconets with thick stone surrounds. Other window openings are unembellished and rest upon stone sills or a stone belt course. It appears that a decorative cornice was removed at some point during the building history.

489 Henry Street (Berwin Apartments)

The Berwin, with 67 units, was built in 1915. By 1930 it was described as an apartment hotel, according to city directories. The English Revival design directly matches its contemporary, Bretton Hall, which shares Frank P. Davey as builder; the architect is not known. The facade of the Berwin Apartments differs from the former only in that the building itself is narrower, allowing for three bays instead of five.

NONCONTRIBUTING RESOURCES

2457 Cass Avenue

Formerly the site of a smaller brick residential building, this parcel is now a vacant, grass-covered lot. One mature tree remains in what was formerly the front yard of the building.

467-469 Henry Street and 481 Henry Street (Cass Village Parking Lot)

These parcels were formerly the site of two brick houses, a duplex building and a single family residence, which have since been demolished. Together, they now serve as a parking lot for nearby apartment buildings. Although the lot is listed as a noncontributing resource, its setback and thick wall of shrubbery continue the plane of adjacent building facades, somewhat mitigating the impact of the parking lot on the overall aesthetic character of the district.

PERCENTAGE OF CONTRIBUTING AND NONCONTRIBUTING RESOURCES

Seven of nine, or 72 percent, of resources within the district are contributing.

REGISTRATION REQUIREMENTS

Due to the great number and diversity of apartment buildings in the city, the *Apartment Buildings of Detroit, 1892-1970*

Multiple Property Documentation Form provides guidelines for evaluating the historic significance of these buildings. According to *Apartment Buildings of Detroit, 1892-1970*, apartment buildings in Detroit are eligible under National Register *Criterion A* if they "possess important associations with the major periods of growth and development of apartment housing in Detroit." Specifically, the Multiple Property Documentation Form mentions "the beginnings of apartment house living in the period of the 1890s to about 1910" within the three "clusters" described above, as well as "the boom period in apartment house development from 1910 to 1929 as it relate[s] to these existing areas." It also argues that apartment buildings "demonstrating the early development of multiple family housing in the city as it relates to providing an alternative to single family housing for middle and upper-middle-class residents in already established housing areas" will be eligible.²²

Registration requirements in *Apartment Buildings of Detroit, 1892-1970* also require that eligible buildings must retain "integrity" of location, design, setting, materials, workmanship, feeling, and association. As the proposed historic district contains an intact grouping of apartment buildings largely unaltered from the period of significance, they retain the seven types of integrity described by the National Register. Further, the fact that the Cass Henry district is among only a very few largely intact apartment building blocks from its era remaining in the city only underscores its significance.²³

¹The report identifies the Henry Street

Residential District as encompassing the same contributing buildings as the proposed Cass Henry Historic District, plus the Darius D. Thorpe House, a building at 466 Henry Street that was built around 1875 and expanded to create the Neff Apartments in 1918. It has since been demolished. 12.

(a) A historic district to be known as the Cass-Henry Historic District is established in accordance with the provisions of this article.

(b) This historic district designation is certified as being consistent with the Detroit Master Plan.

(c) The boundaries of the Cass-Henry Historic District are as shown on the map on file in the office of the City Clerk, and are as follows: Beginning at the intersection of the centerline of Cass Avenue with the centerline of Henry Street; thence westerly along the centerline of Henry Street to its intersection with the west line, extended, of Lot 13 of Block 77, Subdivision of Part of Cass Farm, Liber 1, Page 74 of Plats, Wayne County Records; thence southerly along said extended west line to its intersection with the centerline of the east-west alley running between Cass Avenue and Second Avenue; thence easterly along said centerline to its intersection with the centerline of the north-south alley running between Henry Street and the Fisher Freeway Service Drive; thence northerly along said centerline to its intersection with the south line, extended, of Lot 5 of Block 77, Subdivision of Part of Cass Farm, Liber 1, Page 74 of Plats, Wayne County Records; thence easterly along said extended south line to its intersection with the centerline of Cass Avenue; thence northerly along said centerline to the point of beginning. (Legal Description: Lots 5-13 of Block 77, Subdivision of Part of Cass Farm, Liber 1, Page 74 of Plats, Wayne County Records).

(d) The defined elements of design, as provided for in Section 25-2-2 of this code, are as follows:

(1) *Height.* Apartment buildings in the district are three (3) or four (4) stories tall, with height increased by high base-ments and parapet walls. The only commercial building in the district is one (1) story tall with a high parapet.

(2) *Proportion of building's front façades.* Front façades of apartment buildings are either slightly taller than wide or slightly wider than tall and often occupy deep lots, resulting in side elevations that are often substantially wider than tall. The apartment building at 2467 Cass Avenue, located on a corner lot, features a prominent secondary façade on Henry Street that is wider than tall. The front façade of the single commercial building in the district is wider than tall, featuring multiple storefront openings.

(3) *Proportion of openings within the façades.* Openings typically amount to between twenty (20%) percent and thirty-five (35%) percent of the front façade on apartment buildings. Openings containing sash windows, taller than wide, predominate, and they are sometimes arranged in groupings which are square or wider than tall. The single commercial building at 447 Henry Street appears to feature wide storefront windows, though these have been obscured. Door openings are typically larger in scale than window openings. Primary entrance openings of the apartment buildings in the district are centered on the first floors of the principal façades and vary in form, sometimes featuring arched entryways. The original storefront openings of the single commercial building have been covered up and the original window and door arrangement altered.

(4) *Rhythm of solids to voids in front façades.* Though there is a slight variance from one building to the next, the overall impression is one of regular, repetitive openings arranged horizontally within façades. All of the façades are symmetrically arranged with regular rhythms of fenestration and are divided into bays vertically and by floors horizontally. The main entrance of each apartment building is centered on the principal façade.

(5) *Rhythm of spacing of buildings on streets.* Rhythm of spacing on streets is generally determined by setbacks from side lot lines. The overall character of the district is one of densely clustered structures separated by narrow side yards. The westernmost four (4) buildings in the district have similar, but not identical, widths, once a component of a streetscape providing a very regular rhythm; this rhythm has since been interrupted by building demolitions. The easternmost three (3) buildings are more varied in width. There is a general regularity in the widths of subdivision lots, though the building at 2467 Cass Avenue sits on a wider lot.

(6) *Rhythm of entrance and/or porch projections.* On apartment buildings only, entrances are located several steps above grade to accommodate high base-

ments. Porch projections vary by architectural style and do not create a discernible rhythm: the building at 2467 Cass Avenue has a three-and-a-half (3-1/2) story, stacked central porch with brick piers; the building at 459 Henry Street features an arched, open entryway, with a recessed central entrance; other buildings have entrances sitting atop simple stone or concrete steps. The single commercial building features no porch projection.

(7) *Relationship of materials.* All buildings are faced with brick and feature stone or cast stone trim. Stone is used for window sills on a majority of buildings within the district. Common brick may appear on side elevations that were not intended to be prominently visible. Some architectural details, such as cornices, spandrels, or consoles, are painted metal. Sash windows are historically wood but have, in many cases, been replaced with windows of other materials.

(8) *Relationship of textures.* On a majority of buildings within the district, the major textural effect is that of brick with mortar joints juxtaposed with cast stone or limestone trim. Additional texture is added by decorative carved or cast stone entry surrounds, and by molded and bracketed cornices, although missing on two (2) buildings. Greater textural interest exists on the building at 2467 Cass Avenue, due to the repetition of porch balustrades and quoining flanking the metal-clad bay windows, and on the building at 2447 Cass Avenue, due to a carved stone entry surround.

(9) *Relationship of colors.* Natural colors in shades of brown, red, and orange-brown brick predominate on wall surfaces, and contrast with natural stone trim colors in shades of gray and brown. Metal architectural details are painted in subdued brown, beige, or green colors, appropriate to the architectural style of the buildings, providing a slight contrast with darker brick facing. On two (2) buildings, some elements have been painted in a historically inappropriate blue color. Window surrounds and projecting bay windows are light in color, creating a contrast. The original colors of any building, as determined by professional analysis, are always acceptable for that building and may provide guidance for similar buildings.

(10) *Relationship of architectural details.* In general, buildings in the district feature a moderate level of architectural detail, exemplifying eclectic stylistic influences popular during the period in which they were constructed. Styles represented are mostly early twentieth century revival styles, and include Italian Renaissance, Georgian Revival, Arts and Crafts, Colonial Revival, and English Revival. With buildings generally rectan-

gular in form, stylistic variation between buildings is provided largely by differences in architectural details, particularly in the treatment of the cornices, entry and window surrounds, porches, and parapet walls. Several of the apartment buildings bear their names on the lintels above the entrance.

(11) *Relationship of roof shapes.* All buildings in the district have flat roofs that cannot be seen from the ground; the horizontal parapet wall is the dominant roof shape visible in the district. Buildings at 2447 Cass Avenue and 447 Henry Street feature arched and triangular parapet walls, respectively, with finials, adding detail to their rooflines.

(12) *Walls of continuity.* Setbacks of buildings vary only slightly from one building to the next, generally creating a wall of continuity on both streets in the district, except where building demolition has created vacant lots. The placement of shrubbery, mature street trees, and pole-mounted public lighting create important, but secondary, walls of continuity, even on lots that do not contain buildings.

(13) *Relationship of significant landscape features and surface treatments.* Typical treatment of individual residential properties is a shallow, flat front grass lawn, subdivided by a straight concrete walk leading to the front entrance. The single commercial building features a paved front setback. Asphalt-paved alleys provide rear access to lots in the district, though outbuildings that may have existed historically no longer remain. Hedges, and other landscaping features are sparse but often regularly spaced and symmetrically arranged. Trees vary in size, age, and species. Public sidewalks run alongside both streets in the district. Curbs, while historically stone, have been replaced with concrete in a majority of the district. Public lighting is generally of the modern, steel, pole-mounted variety. Chain link fences and chain fences are commonly situated at the front lot line; the building at 459 Henry Street features a short concrete retaining wall at the front lot line, behind which sits a front yard with prominent shrubbery. Modern black wrought iron-style fencing exists in front of a portion of 2467 Cass Avenue.

(14) *Relationship of open space to structures.* Front yards are generally quite shallow, and rear setbacks are very narrow, except at 2447 Cass Avenue and 447 Henry Street, where small rear yards exist. Other than public rights-of-way, large areas of open space exist only where they have been created by building demolition; these spaces serve as parking lots or are maintained as open lawns.

(15) *Scale of façades and façade ele-*

ments. The apartment buildings are small to moderate in scale, consistent with their period of development. Elements within the façades are generally small to medium in scale. Dominant façade elements are large porch projections, where they exist. The building at 427 Henry Street features a relatively large and visually prominent channel-letter sign, which does not contribute to the historic character of the building. Cornices, consoles, and bay windows, where they exist, are relatively large and prominent features.

(16) *Directional expression of front elevations.* Apartment buildings generally range from neutral to slightly vertical in directional expression, though balustrades on the building at 2467 Cass Avenue, and cornices on all buildings, are significant horizontal elements. The single commercial building in the district is horizontal in directional expression due to its width and broad storefront windows.

(17) *Rhythm of building setbacks.* A moderate degree of regularity is created by setbacks of front façades, which are generally shallow and vary only slightly from one building to the next. This regularity is interrupted by the commercial building at 447 Henry Street, which has a shallower setback than the apartment buildings. The overall impression within the district is one of a consistent rhythm of building setbacks. Where building demolition has occurred, the setback consistency has been disrupted, but is approximated by appropriate placement of vegetation.

(18) *Relationship of lot coverages.* Lot coverage of buildings within the district is high, leaving little open space. Rear setbacks are minimal, except for small rear yards behind 2447 Cass Avenue and 447 Henry Street. Other buildings show nearly complete lot coverage, except for shallow front yards and narrow side and rear setbacks.

(19) *Degree of complexity within the façades.* The façades within the district range are low to medium in complexity, depending on style. Overall, front façades tend to be simple in their massing and mostly regular in their fenestration, though a variety of window and door shapes, materials, architectural elements, and details of individual buildings increase the overall level of complexity within the district.

(20) *Orientation, vistas, overviews.* Buildings within the district are oriented toward the street. The building at 2467 Cass Avenue, situated on a corner lot, is oriented toward Cass Avenue, with a prominent secondary façade oriented toward Henry Street. The south façade at 2447 Cass Avenue is prominently visible from northbound traffic on Cass Avenue,

and consequently has served as a location for painted advertisements, some of which remain visible, though faded. Demolition of buildings surrounding the district have created vistas in all directions which did not exist previously. Historically, these buildings would have worked with others across Cass Avenue and Henry Street to create a sense of enclosure on the public rights of way.

(21) *Symmetric or asymmetric appearance.* The appearance of all of the front facades in the district are symmetrical.

(22) *General environmental character.* The general character of the district is that of a substantially reduced but significant component of a historically densely populated, pedestrian-oriented, urban neighborhood. The immediate surroundings have seen a great number of building demolitions, altering the context in which the district sits; a particularly noticeable impact is created by the below-grade Fisher Freeway (I-75), which eliminated the southern portion of the Cass Henry block during its construction.

Section 2. All ordinances or parts of ordinances or resolutions or parts of resolutions, in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety and welfare of the people of the City of Detroit.

Section 4. This ordinance shall become effective in accordance with Section 4-118 of the 2012 Detroit City Charter

Honorable City Council:

Re: Petition #1859, Pastor Paulette Bronner and the congregation of the Historic Hartford Memorial Baptist Church requesting that the intersection of Lesure Avenue and James Couzens Highway Service Drive be assigned the secondary street name Rev. Dr. Charles G. Adams, a worldwide leader, preacher, teacher and advocate for Civil Rights in the local, state, nation and international communities.

Pastor, Social & Political Activist and Writer Reverend Dr. Charles Gilchrist Adams, a native Detroit, is a graduate of Cass Technical High School, University of Michigan and Harvard University Divinity School. Dr. Charles Adams served as Pastor of the historic Concord Baptist Church in Boston from 1962-1969 before returning to Detroit to accept the position of Pastor at Hartford Memorial Baptist Church. Reverend Adams became Hartford's third pastor in 1969, two short years after Detroit's Civil Unrest. Rev Adams came together with other city leaders formed "New Detroit" to map out the future Detroit and help to elect the city's first black Mayor, Coleman A. Young. Reverend Adams took up the mantle from his mentor and predecessor the Reverend Charles A. Hill, a fighter for social justice and human dignity in the 1920s, 30s and 40s; and the second pastor of Hartford Baptist Church. Under Pastor Adams' leadership, Hartford grew to over 10,000 members. Having outgrown its building located on Hartford Avenue in Detroit's predominately African American west-side community; but determined to stay in the city, the congregation relocated to Lesure Avenue and James Couzen. Under his leadership the church removed the blight and help to establish the commercial development along W. Seven Mile Road. The church also acquired the property at Meyers and Seven Mile and built a Super Kmart, now Home Depot, which at the time was the largest retail for the city in over thirty years. Most recently construction has concluded on the Hartford Village Senior Homes located on Meyers Road just south of the Northwest Activity Center.

During the course his forty-four years of pastorate, Reverend Charles Adams has also served as president of both the Detroit Chapter of the NAACP, the Progressive National Baptist Convention and is recognized as one of the "Greatest Preachers" of our times by Ebony Magazine. He traveled with former President William (Bill) Clinton for the Peace Accord signed in Jordan; and has met at the White House with former President Barack Obama.

Dr. Adams has been awarded twelve honorary doctorates from colleges and universities across the country; has spoken before the United Nations regarding the South African Apartheid; and has received the coveted "Rabbi Marvin Katzenstein Award" from the Harvard Divinity School, which is given to a Harvard graduate who exhibits "a passionate and helpful interest in the lives of other people, an informed and realistic faithfulness, an embodiment of the idea that love is not so much a way of feeling as a way of acting and has a reliable sense of humor."

Law Department

April 9, 2018

Honorable City Council:

Re: Medical marihuana voter initiative update. Resolution for License Fee for Medical marihuana facility.

Please find attached a memorandum summarizing the events that followed the voter initiatives concerning medical marihuana, which passed in November, 2017 and the current status of the City's medical marihuana program.

Also attached is a proposed resolution to approve an application fee and a licensing fee for medical marihuana facilities under the City's voter initiated ordinance. Presently, there are 57 facilities operating with temporary approval from the City and the State of Michigan. These facilities need City of Detroit approval before they can finalize their applications for state licensure. To that end, the licensing fee established will allow the City to process business license applications for the 57 locations with zoning approval that have applied for state licensure. This request is somewhat urgent, because the Emergency Rules promulgated by the State of Michigan Bureau of Medical Marihuana Regulation set a deadline of June 15, 2018 for temporarily operating facilities to be licensed.

We are available to discuss these issues at your convenience.

Sincerely,

LAWRENCE T. GARCIA

Corporation Counsel

By Council Member Benson:

Whereas, In the general election held on November 7, 2017, voters approved an amendment to Chapter 24 of the 1984 Detroit City Code, Health and Sanitation, which replaced Article XIII *Medical Marihuana Caregiver Centers* with Article XIII *Medical Marihuana Facilities*, and which was modified by Order of the Wayne County Circuit Court on February 16, 2018, opting in and allowing licensing for medical marihuana facilities in accordance with the Medical Marihuana Facilities Licensing Act, being P.A. 281 of 2016, as amended ("MMFLA");

Whereas, Sec. 205 of the MMFLA provides that a municipal ordinance may establish an annual, nonrefundable fee of not more than \$5,000.00 to help defray the administrative and enforcement costs associated with the operation of a marihuana facility;

Whereas, Chapter 24, Article XIII, Sec. 24-13-6 of the 1984 Detroit City Code requires that the Director of the Buildings, Safety Engineering and Environmental Department ("BSEED") establish a nonrefundable application fee to be paid upon filing an application for a medical marihuana facility license, which is intended to defray the costs incurred to process the application; and

Whereas, Chapter 24, Article XIII, Sec. 24-13-11 of the 1984 Detroit City Code requires that the Director of BSEED establish an annual license fee that shall be paid upon the issuance of a license for a medical marihuana facility, which is intended to defray the costs incurred to process and monitor licensed medical marihuana facilities;

Now, Therefore, Be It

Resolved, That in accordance with the foregoing communication, Detroit City Council hereby approves an application fee of \$1000.00 that shall be charged upon the filing of an application for a medical marihuana facility business license in accordance with Sec. 24-13-6, which fee shall be posted on a schedule in BSEED; and

Be It Finally

Resolved, That an annual license fee of \$5,000.00 in accordance with Sec. 24-13-11 that shall be charged upon the granting of a medical marihuana business license and any renewals, which fee shall be posted on a schedule in BSEED.

Adopted as follows:

Council Member Benson moved the following resolutions on behalf of Council President Brenda Jones:

Legislative Policy Division

March 26, 2018

Honorable City Council:

Re: Resolution in support of Michigan House Bill 5524.

Council President Jones requested that the Legislative Policy Division (LPD) draft a resolution support of 2018 House Bill 5524, which would amend the Revised School Code to require that the Michigan Department of Education (MDE), in conjunction with the Department of Health and Human Services (DHHS), develop or adopt a professional development course for teachers in mental health first aid within a year after the bill takes effect.

Attached, please find our draft of the aforementioned resolution.

Please contact us if we can be of any further assistance.

DAVID WHITAKER
Director

Legislative Policy Division Staff

**RESOLUTION IN SUPPORT OF 2018
MICHIGAN HOUSE BILL 5524**

By Council President Jones:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, Unfortunately, many young people suffer in silence from any undiagnosed mental illness and are labeled as troublemakers or lazy by the school system, instead of receiving the help they need to overcome their difficulties; and

WHEREAS, However House Bill 5524, which the State House passed overwhelmingly on February 6, 2018, and is

currently pending in the State Senate and referred to the State Senate Committee on Health Policy, is well on its way to changing that, by providing teachers with the training necessary to recognize a student in need, while also providing students the help they need to be a success in school and in life; and

WHEREAS, Once approved into law, House Bill 5524 would amend the Revised School Code by requiring that the Michigan Department of Education (MDE), in conjunction with the Department of Health and Human Services (DHHS), develop or adopt a professional development course for teachers in mental health first aid within a year after the bill takes effect. Specifically, the course would have to include instruction on both of the following:

- Identifying potential risk factors and warning signs for mental illnesses, including depression, anxiety, trauma, psychosis, eating disorders, substance abuse disorders and self-injury.
- Strategies for helping an individual experiencing a mental health crisis, including assessing risk, listening respectfully, supporting the individual, and identifying professional help and other resources for the individual.; and

WHEREAS, This strategy was developed by the bipartisan House C.A.R.E.S. Task Force, focusing on Community, Access, Resources, Education, and Safety. On January 18, 2018, the task force submitted a recommendation that teachers and counselors be provided mental health training. They concluded that many local areas in the state cannot afford the costs to have social workers and psychological professionals in a school, so the training in most cases is the most viable option to address the challenges and threats presented by undiagnosed and unaddressed mental illness in schools; NOW THEREFORE BE IT

RESOLVED, The Detroit City Council as an advocate of the efficient use of taxpayer dollars and for the physical welfare of Detroit's citizens, expresses its support of House Bill 5524 that would allow for a mental health first aid training for teachers and other school staff, will better serve students with mental health challenges, which is now known to be a public safety issue as well. **City Council
Legislative Policy Division**

March 30, 2018

By Council Member Benson:

Re: Canadian National Rail Line Maintenance Resolution.

On March 20, 2018 a train derailed at E. Outer Drive and E. Seven Mile Roads causing significant traffic delays and negatively impacting the health, safety and welfare of Detroit residents by stopping the ability of emergency vehicles to transit east or west in that area of the City. My office is requesting LPD produce a resolution urging the corporate officers of the Canadian National Rail Road (CN) to come before Detroit City Council to discuss their current maintenance plan and how the rail road will work to ensure derailments do not occur in the City of Detroit in the future. Please include language that strongly urges CN to maintain its rail lines to the standard required by the federal government. Send a copy of this resolution to the entire Michigan federal delegation, Conrail, CN, MDOT and the Wayne County Road Commission.

Please reach out to my office at 313-224-1198 with any questions.

**RESOLUTION CALLING ON
CANADIAN NATIONAL RAILROAD CO.
TO APPEAR BEFORE
DETROIT CITY COUNCIL TO DISCUSS
DERAILMENT PREVENTION**

By Council Member Benson:

WHEREAS, In June 2016 Detroit City Council adopted the attached resolution in support of cooperation with railroads to minimize wait times during blockages of railway road grade crossings in the City of Detroit, recognizing the divided regulatory frameworks involving federal, state and local government authorities interacting with the railroads in our communities; and

WHEREAS, As previously noted in the attached resolution, the City of Detroit's dense, heavily traveled network of roads crossed by railway grade crossings on occasion creates serious problems of delay, congestion, and even safety, particularly where it affects movement of emergency vehicles when a crossing is obstructed for an excessive period of time; and

WHEREAS, On March 20, 2018, a train derailed and totally obstructed the grade

crossing near East Outer Drive and East Seven Mile Roads, causing significant traffic delays and otherwise negatively affecting the health, safety, welfare and quality of life of residents of the City of Detroit and others, who were required to travel longer distances to circumvent this obstruction of traffic; and

WHEREAS, The subject railroad grade crossing is, upon information and belief, under the control and jurisdiction of CN (Canadian National Railroad Co.), with regulatory oversight of the crossing and railroad operations in the area subject to the authority of the Federal Railroad Administration and the State of Michigan Department of Transportation; and

WHEREAS, Detroit City Council formally invites CN's corporate leadership to attend a City Council discussion during the Public Health & Safety Standing Committee on Monday, May 21, 2018, beginning at 10:06 a.m., to engage in a public discussion of steps can be taken to minimize or avoid derailments at the subject grade crossing and any other crossings or rights of way in the City of Detroit maintained by CN; and

NOW, THEREFORE, BE IT

RESOLVED, That CN's corporate leadership is formally invited to attend a City Council discussion during the Public Health & Safety Standing Committee on Monday, May 21, 2018, beginning at 10:06 a.m., to engage in a public discussion of steps to be taken to minimize or avoid derailments at the subject grade crossing and any other crossings or rights of way in the City of Detroit maintained by CN; and

BE IT FURTHER

RESOLVED, That copies of this resolution shall be sent by registered mail, and e-mailed to CN, as well as the offices of Michigan Senator Gary Peters, Detroit Mayor Mike Duggan, Wayne County Executive Warren Evans, the Michigan Department of Transportation and the Federal Railway Administration.

*WAIVER OF RECONSIDERATION (No. 24) Per motions before adjournment.

Council President Pro Tem Sheffield moved the following resolution on behalf of Council Member McCalister:

RESOLUTION ADOPTING A THIRD AMENDED 2018 MEETING SCHEDULE FOR THE DETROIT CITY COUNCIL

By Council Member McCalister:

RESOLVED, That in accordance with Article 5, Chapter 1, Section 4-102 of the 2012 Detroit City Charter, the Detroit City Council hereby adopts the attached third amended Detroit City Council meeting

schedule for calendar year 2018. The dates contained therein are in addition to the Body's regularly scheduled meetings noticed separately by the City Clerk;

AND BE IT FINALLY

RESOLVED, That the Detroit City Clerk is directed to post notice of this resolution.

RESOLUTION OPPOSING THE U.S. DEPT. OF COMMERCE'S DECISION TO ADD A CITIZENSHIP QUESTION TO THE 2020 CENSUS

By Council President Pro Tem Sheffield:

WHEREAS, The U.S. Census Bureau's mission is to serve as the foundation of quality data concerning our people and economy; and

WHEREAS, The United States Census is a decennial (recurring every ten years) census mandated by Article I, Section 2 of the United States Constitution; and

WHEREAS, The U.S. Constitution requires that every individual that resides in the United States be counted in a decennial census, whether or not they are legal residents. These results are used to redraw political boundaries for local school boards and to realign seats in the U.S. House of Representatives. The Census count is the primary measure the U.S. government utilizes to allocate hundreds of billions of dollars in federal grants and subsidies to where those dollars are needed most. Further, Census data provide the baseline for planning decisions made by corporations and governments alike; and

WHEREAS, The Trump Administration is proposing that the U.S. Dept. of Commerce add a citizenship question to the 2020 census. The addition of a citizenship question to the 2020 Census could caution undocumented immigrants not to respond or misrepresent themselves as legal residents. Either way, this will undoubtedly lead to undercounting of this population and pose negative effects on large metropolitan centers, and communities of color, where undocumented residents primarily live; and

WHEREAS, This policy comports with the current White House's bevy of regressive policies and recurrent attacks on immigrants, and in doing so, validates the popular perception that not counting these persons is done to politicize and marginalize the census for political gain, which will result in short changing communities of greatly needed essential public goods, such as healthcare, K-12 education and correcting aging highways in communities of color; and

WHEREAS, The Detroit City Council expresses its opposition to the U.S. Dept. of Commerce decision to add a citizenship question to the 2020 Census; NOW THEREFORE BE IT,

RESOLVED, That this resolution be for-

warded to the Michigan delegation of the bicameral U.S. Congress, U.S. Department of Commerce, and the U.S. Department of Health and Human Services.

Respectfully submitted,
LAWRENCE T. GARCIA

PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

**City of Detroit
Historic Designation Advisory Board
April 19, 2018**

Honorable City Council:

Re: By a resolution dated June 13, 2017, the Detroit City Council charged the Historic Designation Advisory Board (HDAB), a study committee, with the official study of the proposed Clay School Historic District in accordance with Chapter 25 of the 1984 Detroit City Code and the Michigan Local Historic Districts Act.

**FINAL REPORT
Proposed Clay School Historic District
453 Martin Luther King Jr. Boulevard**

The proposed Clay School Historic District is comprised of the single building located on the south side of Martin Luther King, Jr. Blvd. between Cass and Second avenues in the Midtown area of Detroit west of Woodward Avenue. It is in an area where there is a concentration of local and national historic districts, such as Peterboro-Charlotte and Cass Park to its south; the Architects Building, and Willis-

Selden to its north, and Cass-Davenport to its east. Clay School was listed on National Register of Historic Places in 1982. It is also in area surrounded by vacant lots, scattered institutional and commercial buildings, and large scale multiple dwelling residential buildings. It is approximately two miles north of the Point of Origin at Campus Martius Park in downtown Detroit.

BOUNDARIES:

The boundaries of the proposed Clay School Historic District, shown in bold lines on the attached map, are as follows:

On the north, the centerline of Martin Luther King Boulevard;

On the east, the west line of Lot 9, Block 87 - Plat of part of Cass Farm, L1 P172 Plats, W.C.R.;

On the south, the centerline of the first alley south of Martin Luther King Boulevard running east-west between Cass and Second avenues; and

On the west, the east line of Lot 12, Block 87 - Plat of part of Cass Farm, L1 P172 Plats, W.C.R.;

[legal description: LS MYRTLE 10-11 BLK 87 — PLAT PT CASS FARM LI P172 PLATS, W.C.R. 2/72]

Boundary Justification:

The Clay School Historic District encompasses the two lots upon which the school sits. It does not include the parking lot to its west.

HISTORY**Significance Statement:**

Clay School, erected in 1888, is the oldest extant school building in the City of Detroit and a rare survivor of the picturesque style of school buildings from the late nineteenth century in Detroit. It predates the Malcomson & Higginbotham era (1893-1923), when mostly all of Detroit's public schools were designed by that architectural partnership that served as consulting architects to the Detroit Board of Education for thirty years.

The period of significance for Clay School is identified as 1888, when the school was built, until 1931 when it was no longer used for instruction by the Detroit Board of Education.¹

Clay School

Clay School, built in 1888-89, served as an urban neighborhood elementary school on what was then Pitcher Street (named after Dr. Zina Pitcher in 1866), the name superseded by Myrtle and then Martin Luther King, Jr. Boulevard. It replaced the earlier Clay School, a four-room frame school building on the same site built in 1873 that was named after Henry Clay (1777-1852), lawyer and politician. A larger school building was needed to resolve overcrowding due to the rapid growth of the city, as the population increased from approximately 116,000 in 1880 to 206,000 by 1890. The frame building was moved some distance west to 18th Street and McGraw Avenue and renamed Hickey School. The neighborhood children effected by the move were temporarily placed in surrounding schools.

Technological developments and theories of educating youth affected the design of school buildings in the latter half of the nineteenth century, particularly as populations were increasing in urban

areas due to industrial expansion. Standard designs for school building in the United States first appeared in the mid-nineteenth century. Plans of school layouts and articles on school design were published in educators' journals and national and state publications on architecture design. The 1859, 1864, 1869, 1883 and 1897 editions of the Michigan Superintendent of Public Instruction's annual reports addressed school design, and the State Legislature eventually requested inclusion of model designs in the reports to upgrade conditions throughout the state.² Henry R. Pattengill, State superintendent in 1893-97, published a pamphlet on school design in 1895. These publications illustrated contemporary ideas about lighting, heating, ventilation, roof arrangements, and proper exterior appearance.

The second Clay School, an eight room school building, was erected in this climate of rapid change in population. Miss Abigail A. Michael was its first principal. The average number of pupils to a teacher in the primary grades (today K-3) was forty-six; in the grammar grades, thirty-three. The new Clay School was built with a capacity of 396 seats; the average attendance in 1890 was 322 pupils, and it had nine teachers.³

Not much information is known about the career of the architect of Clay School, John B. Tarleton. He was born in New Hampshire and, as a member of Cornell University's class of 1876, was one of the first graduates of its newly instituted architecture program. Tarleton is first listed in Polk's 1884 City of Detroit Directory as a draftsman for the Board of Education; in 1887, his status was upgraded to architect for the Board. However, he is not listed in the 1891 directory, suggesting that his tenure in Detroit was brief. In addition to working on school buildings in Detroit, he also worked in Seattle, Washington and San Francisco, California, but may have found his true calling in remote areas studying plants in Alaska and the Yukon. According to a family genealogy, Tarleton's botanical collection from the Klondike was placed in the Smithsonian Institute in Washington, D.C. and an article he authored, "A Botanist's Trip on the Upper Yukon," was published in the *Alaskan Magazine*, June and July, 1900.⁴

Tarleton was commissioned by the Detroit Board of Education to design Clay School in 1888.⁵ Clay School was once capped with a frame belfry, which was removed in the late 1970s.⁶ Referred as the "front central tower plan," its form is typical for school buildings erected in the 1880s through the early 1900s. The new Clay School was valued at \$25,000 and its lot at \$10,000 in 1889.⁷ Albert A. Hollands was the general contractor. Other trades contractors were: W.S.

Piggins (Piggins & Macintosh), stone masons; James McBrearty, slate and metal roofer; Edmund Austin, Jr., plasterer; M.C. Martin; painting and wallpaper.⁸

The Smead System of heating and ventilation was adopted by the Board of Education for installation at Clay School as well as Russel and Van Dyke, also eight room schools built around the same time. Isaac David Smead of Toledo, Ohio purchased the patents of Henry Ruttan of Canada, who developed the Ruttan System, and combined it with patents by B.R. Hawley to make his then innovative system of heating and ventilation. Promoting his system for use in school buildings with lavish engraved diagrams and full-color plates, Smead capitalized on fears of exploding boilers in his publications. Only new buildings — ones that were designed specifically with the Smead system in mind, could accommodate them. In a contemporaneous review, a knowledgeable source reported that "It may be said in favor of this system that it shows throughout a studied effort toward conformity to physical laws, and it is therefore a valuable contribution toward the solution of the difficult and all-important problem of ventilation. It is an ingenious system, and is doing comparatively good service."⁹ A tubular furnace was used, which was economical and had a large surface that made it an effective heater.¹⁰

The theory and practice of school architecture underwent considerable change between 1890 and 1900 as our nation became more urbanized. Growth in population, complex and varied curriculums and improved fire safety, lighting, ventilation and hygiene standards resulted in major changes to what we think of as the nineteenth century schoolhouse. These changes were reflected in state legislation nationwide, resulting in fairly standardized school building designs that, in Detroit, had a surprising array of architectural treatments to the front facades. Still, the earliest buildings by architects Malcomson & Higginbotham in the late nineteenth century, such as the Victorian Romanesque Garfield (Beard) School (1896), owed much to the earlier period as reflected in Clay School, when specialisms in school architecture were a rarity.

Clay School served as an urban neighborhood elementary school on what was then Pitcher Street, then Myrtle Avenue, until 1923, after which it was used for a few years as a special school for boys with disciplinary problems. After a stint as a vocational studies headquarters and administrative offices for the Practical Nursing Center, the building was sold to a private owner for conversion into offices in 1981.

DESCRIPTION

Clay School is located on Martin Luther

King, Jr. Blvd., a major east-west thoroughfare. It is setback from the public sidewalk on its grass turf front lawn, with a spruce tree planted on each side of the entrance. A wrought iron fence encloses its gated parking lot on the west and a grass turf side yard on the east. Vacant land and parking lots exist further to its east towards Cass Avenue and towards its west towards Second Avenue; a large vacant parcel is located behind the school building, extending across the alley to Peterboro Street.

Clay School is a two story, symmetrically arranged brick building with stone trim rising from a high brick basement demarcated by a stone water table, and capped with a flat deck hip roof with a chimney rising on either side of the front part of the flat deck. Italianate in style, its front facade possesses multiple window shapes, contrasting materials and colors, and architectural interest above the roofline.

The former school building is rectangular in plan, its five bay, symmetrical front facade oriented north towards Martin Luther King, Jr. Boulevard. Its slightly projecting central entrance pavilion is approached on axis from a wide concrete walkway beginning at the curb and extending to a set of five limestone steps that lead to two pairs of narrow, recessed paneled wooden doors with a half-round transom containing three vertical lights per half above. At second story level are three narrow, half round windows their present one-over-one muntin configurations not original. This central projecting bay is topped with a tower-like dormer, originally the base of the tower, containing two round-arched windows.

Masonry detailing of the central pavilion between the shallow brick pilasters includes the coursed stone trim flanking the front entry, molded stone impost blocks and plain brick banding, continuous stone sills, and a molded stringcourse and trim beneath and at the lower sides of the tower-like dormer. Brick pilasters, beneath which are console brackets, flank the two tower windows, and the tower dormer is topped with a molded cornice with a denticulated frieze. Inset into the face of the central bay, beneath the cornice, is a rectangular stone plaque enframed with projecting letters forming, in relief:

CLAY SCHOOL.

1888.

Flanking the central pavilion are two bays on each side, the end bays receding more deeply. They are fenestrated with tall basement windows, segmentally arched 2/2 windows with alternating stone and brick voussoirs and stone sills on the first story, and flat arch windows with stone sills and lintels on the second. The end bays have two windows per bay.

Side elevations are divided into a front and back with four windows bays across on each that generally continue the types and pattern of the front facade window openings, but with 4/4 muntin configurations. The side elevations feature a round arched, double-door and transom entrance in their rear sections one bay south of the center, flanked by small arched windows and elongated stair windows with 9/9 lights above, one bricked-in. On the rear (south) elevation are the same type of regular windows—segmentally arched on the first floor and flat arched on the second, in 4/4 configurations, the chimney wall in the center culminating in a brick corbeled chimney.

Criteria:

The proposed historic district meets the first and third criteria contained in section 25-2-2:

(1) Buildings or structures where cultural, social, spiritual, economic, political or architectural history of the community, city, state or nation is particularly exemplified.

(2) Buildings or structures which embody the distinguishing characteristics of an architectural specimen, inherently valuable as a representation of a period, style or method of construction.

By Council Member Tate:

AN ORDINANCE to amend Chapter 25, Article 2 of the 1984 Detroit City Code by adding Section 25-2-206, Clay School Historic District, and to define the elements of design for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II of the 1984 Detroit City Code is amended by adding Section 25-2-206 to read as follows:

Sec. 25-2-206. Clay School Historic District.

(a) A historic district to be known as Clay School Historic District is established in accordance with the provisions of this article.

(b) This historic district designation is certified as being consistent with the Detroit Master Plan.

(c) The boundaries of Clay School Historic District are as shown on the map on file in the office of the City Clerk, and are as follows: On the north, the centerline of Martin Luther King Boulevard; on the east, the west line of Lot 9, Block 89 - Plat of part of Cass Farm, LI PI 72 Plats, WCR; on the south, the centerline of the alley running east-west between Cass and Second avenues; and on the west, the east line of Lot 12, Block 89 — Plat of part of Cass Farm, LI PI 72 Plats, WCR; (legal description: LS MYRTLE 10-11 BLK 87-PLAT PT CASS FARM LI P172 PLATS, WCR 2/72).

(d) The defined elements of design, as provided for in Section 25-2-2 of this code, are as follows:

(1) Height. Clay School sits on a high basement and is two (2) stories tall with an attic. Its original belfry, formerly the highest point above the roofline, has been removed.

(2) Proportion of Building's Front Façade. The front (north) facade of Clay School is five (5) bays wide and is wider than tall to the eaves of the roof. Its end bays are slightly recessed. The secondary, east and west elevations are also wider than tall.

(3) Proportion of Openings Within the Façades. The central entrance pavilion features, on its first floor, two pairs of narrow, paneled wooden doors topped with a half-round transom, recessed in a round-arched opening that is taller than wide. Double-hung sash windows fill all open-

ings on the front facade; some basement and first floor windows are covered with boards. At second story level above the entrance are three narrow, half-round arched window openings that are taller than wide. The remaining base of the original belfry contains two smaller round-arched window openings that are also taller than wide. Flanking the central pavilion are two bays on each side. They are fenestrated at the basement level with large openings; at the first story level with segmentally arched, tall openings; and on the second story level with flat arch windows in tall openings. The side elevations repeat similarly fenestrated openings, with the exception of the fifth bay from the front (north) containing the side entrance opening where stairwell windows alter the regular proportion of openings.

(4) *Rhythm of Solids to Voids in the Front Façade.* A strong, regular rhythm of solids to voids exists on all façades of Clay School. Windows are arranged vertically by bay and horizontally by floor, with windows in the base of the original belfry located over the central entrance bay. A transom containing three vertical lights per half rests above the entrance doors. Bays flanking the center entrance bay contain a single double-hung sash window per floor; the outer bay features two (2) windows per floor, the second floor windows with arched voussoirs provide an arched rhythmic effect.

(5) *Rhythm of Spacing of Buildings on Streets.* Not applicable to single building district.

(6) *Rhythm of Entrance and/or Porch Projections.* Not applicable to single building district.

(7) *Relationship of Materials.* The primary material relationship is that of brick and mortar contrasted with stone foundations, water table, trim and accents. Wooden elements, such as doors, window frames and sash, and door surrounds provide a smooth contrast, as do metal cornices. The asphalt shingle roof does not contribute to textural interest.

(8) *Relationship of Textures.* Brick laid in a running bond pattern with mortar joints contrast with the smooth texture of masonry trim and the rough texture of undressed stone foundation blocks and blocks around lower portion of the main arched entrance. The asphalt shingle roof does not contribute to textural interest.

(9) *Relationship of Colors.* All façades feature natural reddish-orange brick wall surfaces with natural light gray masonry trim, providing a strong color contrast. Window arches on the first floor have alternating brick and stone voussoirs. Window and door surrounds are painted black, as are metal cornices. The roof is gray. The original colors, as determined by professional analysis, are always acceptable for the building and may provide guidance for similar buildings.

(10) *Relationship of Architectural Details.* Architectural details are generally related to its Late Victorian Italianate style and are concentrated at the cornice level and window arches. Masonry detailing of the central pavilion between the shallow brick pilasters includes the coursed stone trim flanking the front entry, molded stone impost blocks and plain brick banding, continuous stone sills, and a molded stringcourse and trim beneath and at the lower sides of the tower-like dormer. Brick pilasters, beneath of which are console brackets, flank the two dormer-like tower windows, and the tower dormer is topped with a molded cornice with a denticulated frieze. Inset into the face of the central bay, beneath the cornice, is a rectangular stone plaque with letters forming, in bas relief: "CLAY SCHOOL. 1888". Side bays feature masonry lintels and sills and alternating masonry and brick voussoirs. In general, Clay School is rich in architectural detail.

(11) *Relationship of Roof Shapes.* Clay School has a hip roof with a flat deck and a tower-like dormer once topped by a frame belfry, since razed. A chimney rises on each side of the front part of the flat deck and in the rear.

(12) *Walls of Continuity.* Not applicable to single building district.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* Clay school is accessed on axis from a wide concrete walkway leading up to a shallow, recessed set of masonry steps. The flat turf lawn is planted with a spruce tree, not present in 1982 photographs, on each side of the entrance. A wrought iron-style fence encloses its gated parking lot on the west and a grass turf side yard on the east.

(14) *Relationship of Open Space to Structure.* Clay School is set back on its lot, creating a shallow front yard. A large grass turf rear (south) yard is presently covered with overgrowth. Outside of the Clay School Historic District, to its east towards Cass Avenue and to its west towards Second Avenue, are vacant parcels of land and parking lots; a large vacant parcel is located behind the school building to the south across the alley to Peterboro Street.

(15) *Scale of Façade and Façade Elements.* Clay School is a small scale building for its type of institutional use, but appears large in scale within its formerly small-scale residential and commercial neighborhood, now scattered with vacant land.

(16) *Directional Expression of Front Façade.* The directional expression of the building is slightly vertical due to the stepped bays, although reduced from its original vertical thrust by the absence of the original belfry.

(17) *Rhythm of Building Setback.* Not applicable to single-building district.

(18) Relationship of Lot Coverage. The building footprint occupies approximately sixty (60) percent of its original double lot.

(19) Degree of Complexity Within the Façade. The facade of Clay School does not possess complexity in its appearance. Its facade is straightforward in its arrangement of windows, placement of elements and details, and its limited use of materials and colors.

(20) Orientation, Vistas, Overviews. Clay School is located in the middle of a block on the south side of Martin Luther King Boulevard, a wide east-west thoroughfare that intersects with Woodward Avenue two blocks to its east-It shares its block with vacant lots and, on Cass and Second Avenues, commercial structures. Because of its age, size, and architectural design and its present isolation on its streetscape, it prominently stands out.

(21) Symmetric or Asymmetric Appearance. Clay School is symmetrical in appearance.

(22) General Environmental Character. The Clay School Historic District sits amongst vacant lots to its sides and rear. Its original context has changed over time from a once vibrant and growing late-nineteenth to mid-twentieth century neighborhood to one of abandonment and disinvestment.

Section 2. All ordinances or parts of ordinances, or resolutions or parts of resolutions, in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety and welfare of the people of the City of Detroit.

Section 4. This ordinance shall become effective in accordance with Section 4-118 of the 2012 Detroit City Charter.

Housing and Revitalization Department

April 17, 2018

Honorable City Council:
Re: Revised Request for Approval to Amend the 2017 Regular Review of HOME and/or CDBG Allocations.

On May 23, 2017, the Detroit City Council adopted a resolution that approved HOME and CDBG Loans and/or grants for certain developers and borrowers (the "Resolution"), including \$1,600,000 for Fitz Forward LLC to be used as a development subsidy and homebuyer assistance required to rehabilitate and sell up to 16 single-family homes to eligible homebuyers in the Fitzgerald neighborhood bounded by McNichols (North), Puritan (South), Greenlawn (West) and Livernois (East) (the "Project").

The Housing and Revitalization Department is hereby requesting the authorization of your Honorable Body to amend the Resolution to: (1) decrease the HOME/ CDBG allocation to Fitz Forward LLC to \$1,326,000 and (2) supplement the decrease with \$274,000 in funds from General Fund Appropriation No. 13168. The Resolution allowed for an allocation of \$1,600,000 in CDBG and/or HOME funds to Fitz Forward LLC. Currently, the City's funding balance is insufficient to cover the entire loan and HOME funds may not be used on this particular project because the target neighborhood does not meet HOME program requirements. The General Fund supplement is required to satisfy the funding gap so that the Fitz Forward LLC loan may close by the end of this fiscal year.

We respectfully request the adoption of the attached resolution that amends the May 23, 2017 Resolution consistent with this letter.

Respectfully submitted,
DARWIN L. HEARD
Multi-Family Housing Director

Therefore, it is recommended that the demolition order be deferred for a period of six months subject to the following conditions:

Honorable City Council:

Re: Address: 12530-34 Kelly. Name: Tait Properties. Date ordered removed: October 27, 2015, (J.C.C. page 1875) and September 8, 2015 (J.C.C. page 1483).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on March 15, 2018 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of 30 days subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.

2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within three months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,
DAVID BELL
Director

**RESOLUTION AUTHORIZING
THE ESTABLISHMENT OF
THE MENTAL HEALTH TASK FORCE**

By COUNCIL MEMBER McCALISTER, JR.:

WHEREAS, Mental health is important at every stage of life, from childhood and adolescence through adulthood. It includes our emotional, psychological, and social well being. The problems of mental health range from depression and anxiety, to more infrequent afflictions such as schizophrenia and bipolar disorder; it affects how we think, feel, and act. It also determines how we handle stress, relate to others, and make choices; and

WHEREAS, Michigan's Mental Health problems began when Congress passed the Community Mental Health Act of 1963. It provided an incentive for the closing of state-funded mental hospitals while promising to fund community-based mental health centers and programs to provide outpatient treatment. Former Governor of Michigan, John Engler, closed a number of state psychiatric facilities soon after he became governor in 1991. The funds for the mental health centers never materialized, leaving us with our current challenges; and

WHEREAS, There is a deficiency of resources and lack of coordination available for persons afflicted with mental health problems as demonstrated by the crime, homelessness, and poverty statistically linked to mental health challenges within the City of Detroit; and

WHEREAS, The Detroit City Charter was established to "[address] the needs of all citizens", and to "[institute] programs, services and activities addressing the needs of our community"; within its

Declaration of Rights — explicitly states that “The city shall provide for the public peace, health and safety of persons and property within its jurisdictional limits”; and

WHEREAS, The public peace, health, and safety in the City of Detroit could be greatly improved by a concentrated collaborative effort between the City Council and those organizations which advocate for, and provide mental health services; and

WHEREAS, The Detroit Wayne County Mental Health Authority, a safety net organization that provides access to a full array of services and supports to empower persons within the Detroit Wayne County behavioral health system. The Detroit Wayne County Mental Health Authority served just over 77,000 clients in 2017 within Wayne County and 53% (40,992) of these persons are in the City of Detroit. Of this group of individuals, the majority is between the ages of 22 and 50 years old; and

WHEREAS, The establishment of a Mental Health Task Force is intended to facilitate equitable access to resources, contribute to the provision of a substantial quality of life for all residents of the City of Detroit, and to reduce the frequency of instances of criminal activity related to mental illness; and

WHEREAS, It is ineffective and detrimental to the human capital of the City of Detroit to process those persons living with mental illness through the criminal justice system as a result of their illness; and

WHEREAS, The goal and overall purpose of the Mental Health Task Force can have a significant impact in the City of Detroit and its residents through heightening awareness, promoting education, improving coordination of services, prevention and, strengthening the capacity of the City to serve those residents need with access to mental health resources and services.

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby establishes the Mental Health Task Force, chaired by Council Member Roy McCalister, Jr., effective immediately and continuing through December 31, 2018.

'Celebrating Your 80th Birthday'**

By COUNCIL PRESIDENT JONES:

WHEREAS, On April 20, Izora Hollingsworth attained the age of eighty years, a vary significant milestone. The members of the Detroit City Council would like to publicly acknowledge this important event in her life; and

WHEREAS, Izora Hollingsworth was born on April 20, 1938, in Carrollton, Georgia. Izora was the younger of two sisters. Due to racial tensions in the south, her family migrated north to Detroit, Michigan. At the tender age of three, Izora's family recognized that she was gifted with an extraordinarily melodic voice; and

WHEREAS, Izora attended Central High School and continued a pursuit of higher education at Wayne State University. Through the years, Izora has been employed with the Detroit Association for Retarded Children (DARC), the Detroit House of Corrections for Women, Detroit Board of Education and the City of Detroit's Housing Department. She retired from the City after twenty-three years of dedicated service; and

WHEREAS, A faithful woman of God, Izora has never let anything stop her from going to church and singing for the Lord. Izora likes all types of music, but her passion and love is for gospel music. She is hailed as one of Detroit's premier soprano voices and her vocal range is still powerful and melodic as ever. Izora lives and celebrates God through gospel music. She has that legendary voice that many remember from the renowned St. James Adult Choir of Detroit, under the direction of the late Rev. Charles Nicks Jr. and

Director Jimmy "JD" Dowell. Her greatest and most cherished singing experience was with her church choir, St. James. Her voice has been heard as a chapel singer, choral director and a recording background voice for artists, such as Aretha Franklin, James Cleveland, The O'Neal Twins, The Hawkins Family and many others; and

WHEREAS, Izora believes that God gave her the gift of singing and she wants to give it back to him and share it with others who need encouragement, compassion and love. At eighty years young, Izora Hollingsworth is still singing at church functions and most importantly she is giving God all the Praise and Glory for her life, health and strength.

**TESTIMONIAL RESOLUTION
FOR**

**HON. ALMA WHEELER SMITH
2018 Michigan Democratic
Women's Caucus Legacy Luncheon**

By COUNCIL PRESIDENT JONES:

WHEREAS, It is with great pleasure and privilege that we, the members of the Detroit City Council, join with the Michigan Democratic Women's Caucus to recognize and bestow honor upon Hon. Alma Wheeler Smith for her outstanding leadership and dedication to serving the people of Michigan. As a former elected official in the Michigan Legislature, she served eight years as a State Senator and six years in the House of Representatives; and

WHEREAS, Alma Wheeler Smith grew up with community activist parents, Dr. Albert and Emma Wheeler. While fighting for civil rights, the Wheelers taught Alma and her two sisters, Illinois Appeals Court Judge Mary McDade and retired Washtenaw County Judge Nancy Francis, the importance of public service and social justice. Alma graduated from the University of Michigan with a degree in Journalism and advanced degree work in Political Science and Business Administration. Prior to service in the Michigan Legislature, Alma worked for ten years as a Senior Producer at the University of Michigan Television Center and as a Legislative Coordinator for State Senator Lana Pollack for eight years. While working and raising

three children, Alma represented her community as an Ann Arbor Cable Commissioner, Board of Education Trustee, President of South Lyon Community Schools, and a Washtenaw County Commissioner; and

WHEREAS, Alma Wheeler Smith is a smart, strategic, veteran legislator with twenty-four years of hands-on experience with issues and process, including fourteen years of executive branch oversight. While in the Michigan Legislature, she served on the powerful Appropriations Committee of both chambers. Alma was consistently recognized, on both sides of the political aisle, as one of the most knowledgeable and effective leaders in Lansing. Alma authored laws that established genetic privacy rights, provided the first state funding for the successful drug court program, established and funded early childhood education programs, wrote the law that divested state retirement funds from Darfur, Sudan (Africa), and initiated statutes that changed correctional system practices. She also authored a constitutional amendment that brought the Michigan Compiled Laws into conformity with federal disability terminology. Her early work to advocate for free tuition at Michigan's post-secondary institutions was the predecessor to modern-day legislation in this area. Alma's work has earned her numerous awards from health, social, legal and human services organizations; and

WHEREAS, Alma is known as a woman with rock-solid values, backed by intelligence and wit. In 2001, she became the first African-American to mount a campaign for Governor on Michigan's Democratic ticket. Alma initiated a second run in 2010. She plans to bring her knowledge of state government and frustration with its

slow progress to address consequential issues, to the creation of a new citizens' action group to promote several ballot initiatives. Alma was appointed to the Michigan Civil Rights Commission in February 2018 and also serves on the board of directors for the Regional Transit Association of Southeast Michigan. In addition, she serves as chair of the University Bank Board. Hon. Alma Wheeler Smith is truly a trailblazer for women in the Democratic Party.

NOW, THEREFORE BE IT

Re: Neighborhood Enterprise Zone Certificate Applications for fifty-six (56) units of rehabbed new condo housing units in the Fort Shelby NEZ area (RECOMMEND APPROVAL)

The office of the City Planning Commission (CPC) has received a total of fifty-six (56) applications for Neighborhood Enterprise Zone (NEZ) certificates forwarded from the office of the City Clerk. These applications correspond to the proposal of the Fort Shelby Residential, LLC to renovate and repurpose the current 56 apartment units into for-sale residential condominiums. The project will include significant renovations, including new flooring, fixtures, painting, and appliances. CPC staff has reviewed the applications and recommends approval.

The subject properties have been con-

firmed as being within the boundaries of the Fort Shelby NEZ which was established on March 31, 2009 and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The condos to be developed are located at 525 W. Lafayette Avenue, Units 3 through 58. The NEZ certificate applications appear to have been submitted prior to the issuance of any applicable building permits.

Please contact our office should you have any questions.

Honorable City Council:
Re: Executive Organization Plan (EOP) Amendment

I am pleased to present to you the attached amendment to the Executive Organization Plan (EOP). Pursuant to Section 7-102 of the 2012 Detroit City Charter, any amendment to the EOP is to be submitted to your Honorable Body and made public.

The proposed amendment to the Executive Organization Plan would:

1. Transfer the administration and major functional areas of the Recreation Department to the General Services Department. The Recreation Department becomes a division of the General Services Department, with a Deputy Director managing the division. The recreation advisory commission is retained within the General Services Department.

2. Increase the number of Deputy Directors within the General Services Department from one to three, while clarifying their responsibilities. Along with the Deputy Director of Recreation, a Deputy Director of Operations, and a Deputy Director for Planning and Projects will serve under the Director of the Department.

3. Increase the number of Deputy Directors within the Public Works Department from one to two, given the unprecedented level of construction planned for the Department over the next several years.

I have requested that the Law Department prepare a resolution for your consideration. After a public hearing, your Honorable Body is required to approve, recommend modification, or reject the plan within sixty (60) business days. Lacking such action, the Amendment becomes

effective. We are available to respond to any questions or concerns and look forward to continued collaboration on this important issue.

Respectfully submitted,
MIKE DUGGAN

Mayor

**City Council
Legislative Policy Division**

April 18, 2018

Honorable City Council:

Re: Proposed Resolution in Support of Senate Bill No. 711.

The Legislative Policy Division (LPD) has been requested by Council President Pro-Tem Mary Sheffield to provide a resolution in support of Senate Bill No. 711 regarding amendments to the Hertel-Law-T Stopczynski Port Authority Act (the Act).

LPD has provided a summary of the Act and how the proposed amendments may positively impact the Detroit Wayne County Port Authority (DWCPA). In a Memo dated April 16, 2018, LPD outlined the manner in which the Master Concession Agreement between the DWCPA and the Ambassador Port Company retards any growth of the port facilities. Senate Bill No. 711, amends the current law in a way that would provide DWCPA some flexibility around the Master Concession Agreement. The proposed resolution requested by Pro-Tem Mary Sheffield, sets forth the rationale for support of the Senate Bill.

If we can be of further assistance, please call upon us.

DAVID WHITAKER
Director
Legislative Policy Division Staff

**RESOLUTION IN SUPPORT OF
SENATE BILL NO. 711
PROPOSING AMENDMENT TO THE
HERTEL-LAW-T STOPCZYNSKI
PORT AUTHORITY ACT**

WHEREAS, The Michigan Senate's Committee on Economic Development and International Investment is considering Senate Bill 711 introduced by Senators Stamas, Brandenburg, Emmons, Robertson, Green, Conyers, Casperson and Schmidt to amend the Hertel-Law-T Stopczynski Port Authority Act (the Act), in a manner that the authors believed will have a positive impact on the State and on the City of Detroit and Wayne County; and

WHEREAS, The Michigan Senate Fiscal Agency reports that the proposed bill, if passed into law, "would allow the Detroit/Wayne County Port Authority (DWCPA) to enter into public-private partnerships with properties and/or port facilities within its jurisdiction ... and remove the requirement that a port facility be owned by the DWCPA."

WHEREAS, Since 2005, the DWCPA has been contractually bound by a Master Concession Agreement (MCA). The MCA provides that actions of the DWCPA to enlarge, expand, or enhance the Port Facility as currently defined under the Act are subject to the terms and conditions of the MCA; and

WHEREAS, The current language of the Act provides that a "Port Facility" is defined as "those facilities that are owned by the port authority" and defines a "Project" as activities that were limited to a port facility; and

WHEREAS, The current language under the Act restricts any projects that would enlarge, expand, or enhance maritime activity to actions or projects relative to a port facility that was owned or controlled by a port authority which would bring any activities engaged by the DWCPA under the domination of the MCA; and

WHEREAS, The broad reach of the MCA has had a chilling effect on entities that would desire to engage with the DWCPA for development of maritime related activities because it would bring any proposed project under the control of the MCA; and

WHEREAS, The proposed Senate Bill would amend the definition of "Port Facility" to include non-port authority owned facilities, in addition to broadening the definition of the term "Project" to include public infrastructure, and other real and personal property necessary to achieve the purpose of the Act; and

WHEREAS, The proposed Senate Bill would allow the DWCPA to seek from any Federal, state or municipal agency, foundation, public or private agency or individual, a grant or loan for the planning, construction, operation, or financing of a port

facility as newly defined; BE IT THEREFORE

Honorable City Council:

Re: Petition No. 1846 — Henry Ford Health System, request street right-of-way encroachments for the elevated pedestrian walkway that will connect the existing Henry Ford Hospital to the new Henry Ford Cancer Project over West Grand Boulevard.

Petition No. 1846 — Henry Ford Health System, request for an encroachment with a pedestrian bridge and support columns over West Grand Boulevard, 150 feet wide between the John C. Lodge Freeway and Sterling Avenue, 60 feet wide.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

This request is being made as a part of a major new development known as The Henry Ford Cancer Project and the pedestrian bridge will provide both safety and convenience for the patients, staff and visitors traveling to and from between the Henry Ford Hospital and the new Cancer Center.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW (TED). TED approves provided that certain clearances are met. The TED clearances are a part of the resolution.

Detroit Water and Sewerage Department (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution. Great Lakes Water Authority has a 24 inch water main in the area of the request. A provision for the water main is a part of the resolution.

All other involved City Departments,

including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

RICHARD DOHERBY

RESOLUTION OPPOSING THE U.S. DEPT. OF COMMERCE'S DECISION TO ADD A CITIZENSHIP QUESTION TO THE 2020 CENSUS

WHEREAS, The U.S. Census Bureau's mission is to serve as the foundation of quality data concerning our people and economy; and

WHEREAS, The United States Census is a decennial (recurring every ten years) census mandated by Article I, Section 2 of the United States Constitution; and

WHEREAS, The U.S. Constitution requires that every individual that resides in the United States be counted in a decennial census, whether or not they are legal residents. These results are used to redraw political boundaries for local school boards and to realign seats in the U.S. House of Representatives. The Census count is the primary measure the U.S. government utilizes to allocate hundreds of billions of dollars in federal grants and subsidies to where those dollars are needed most. Further, Census data provide the baseline for planning decisions made by corporations and governments alike; and

WHEREAS, The Trump Administration is proposing that the U.S. Dept. of Commerce add a citizenship question to the 2020 census. The addition of a citizenship question to the 2020 Census could caution undocumented immigrants not to respond or misrepresent themselves as legal residents. Either way, this will undoubtedly lead to undercounting of this population and pose negative effects on large metropolitan centers, and communities of color, where undocumented residents primarily live; and

WHEREAS, This policy comports with the current White House's bevy of regressive policies and recurrent attacks on immigrants, and in doing so, validates the popular perception that not counting these persons is done to politicize and marginalize the census for political gain, which will result in short changing communities of greatly needed essential public goods, such as healthcare, K-12 education and correcting aging highways in communities of color; and

WHEREAS, The Detroit City Council expresses its opposition to the US Dept. of Commerce decision to add a citizenship question to the 2020 Census; NOW THEREFORE BE IT,

RESOLVED, That this resolution be forwarded to the Michigan delegation of the bicameral U.S. Congress, U.S. Department of Commerce, and the U.S. Department of Health and Human Services.

**RESOLUTION IN OPPOSITION
TO SENATE BILL 523**

By Council President Jones:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, Senate Bill 523 seeks to amend PA 106 of 1985, generally reference as the State Convention Facility Development Fund; and

WHEREAS, The bill aims to redirect approximately \$1.9M from the State Convention Facility Development Fund for nine consecutive years and deposit into the proposed Northern Michigan Regional Tourism and Sports Fund; and

WHEREAS, The State Convention Facility Development Fund currently supports COBO Center through debt payments and operational subsidies, and supports the tri-county areas of Oakland, Macomb and Wayne counties with a payment of state liquor taxes collected as intended, the State Convention Facility Development Fund was not effectuated to have an idle surplus of monies. Further, any surplus is mandated to pay additional debt payments for the COBO Convention Center; and

WHEREAS, On February 26, 2018 Crains Detroit Business reported that in 2017 the Detroit Regional Convention Facility Authority managed to pay down debts of \$16.8M in bonds, the Authority is on paced to pay off the COBO Convention Center bonds by 2026, as were instructed by the Act; and

WHEREAS, Senate Bill 523 reasons to use revenue from the State Convention Facility Development Fund for purposes for which it was never intended. Including communities that fail to meet the population requirements and for projects that are purely speculative, these actions could possibly weaken the State Convention Facility Development Fund by increasing future borrowing costs and decreased payments to counties if the statutory payments are not made on time; and

WHEREAS, The Detroit City Council recognizes the need for communities in Northern Michigan and the Upper Peninsula to invest in their economies, in whatever industries or assets that they determine as profitable. However, it is also recommended that they pursue the various tools of economic development to mitigate gap financing towards those endeavors; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council is in opposition of the Senate Bill 523; BE IT FINALLY

**RESOLUTION OPPOSING
GOV. SNYDER'S DECISION TO
TERMINATE THE DISTRIBUTION OF
FREE BOTTLED WATER TO
FLINT RESIDENTS**

By President Jones:

WHEREAS, The city of Flint, Michigan and its residents have for decades now experienced a steady declines in automobile manufacturing and other major industries that have led to permanent losses in high paying jobs, and stagnation in property values — the substantial loss in the city's tax base eventually led to its financial collapse and insolvency. The inevitability of global market forces and natural strictures within our economy might help explain away some of the misery and loss of quality of life that the people in Flint suffered, but what happened in 2014 was anything but natural; and

WHEREAS, The Flint Water Crisis was preventable, exclusively man-made, began in April of 2014, and was created by the State of Michigan when then emergency manager Darnell Early was authorized

through his appointment by Gov. Snyder to switch the city's water source from Lake Huron to the Flint River and, doing so without the required corrosion controls additives, poisoned thousands of people and has placed the residents in the position to question the morals of their elected officials; and

WHEREAS, A January 2016 article written by the Washington Post reported that during the summer of 2015, researchers from Virginia Tech University sampled hundreds of homes and in their findings discovered lead levels as low as 27 ppb (parts per billion), which is nearly twice as high as the Environmental Protection Agency (EPA) guidelines and as high as 13,000 ppb where EPA recognizes any reading over 5,000 ppb as toxic waste; and

WHEREAS, Notwithstanding the fact that officials from the Michigan Department of Environmental Quality reports that for the past two years, Flint's water has tested below the federal action level of 15 ppb for the lead and copper rule, residents continue to report skin rashes, prompting concerns for independent testing and the continuance of the PODS (Point of Distribution Sites) Program among other resources; and

WHEREAS, In lieu of these concerns, and the community's legitimate breach of trust, Gov. Snyder has begun to claw back resources to the residents:

I. On March 1, 2017 Gov. Snyder ended Public Act 24 of 2016¹, which appropriated funds for the Flint declaration of emergency, by providing Flint residents and commercial customers with a credit for the water portion of their utility accounts.

II. On April 6, 2018 Gov. Snyder announced that the four remaining PODS will close as soon as existing supplies run out; and

WHEREAS, *The Concerned Pastors for Social Action vs Khouri* settlement guarantees the replacement of 18,000 lead and galvanized service lines, of which an estimated 6,000 pipes have been replaced. It stands to reason, given the failed cover up by state and local officials coupled with the anxiety of residents, that free bottled water should be provided to the residents of Flint until the very last known lead-tainted pipe has been replaced; NOW THEREFORE BE IT;

RESOLVED, That the Detroit City Council strongly urges Gov. Snyder to restore the PODS until all water service lines are replaced and subsequent testing confirms that the water is safe to drink; THEREFORE BE IT FINALLY;

RESOLVED, That this resolution be delivered to the Honorable US Senator Debbie Stabenow, City of Detroit Lansing Lobbyist, the Detroit delegation in the State Senate and the Committees on Families, Seniors and Human Services.

Re: Resolution in Support of Michigan House Bills 4618 & 5025 and Opposing HB 4952.

Council President Jones requested that the Legislative Policy Division (LPD) draft a resolution support of 2018 House Bills 4618 and 5025, of which, HB 4618, would have the suburban employers of the residents of the 22 cities in Michigan that impose an income tax, collect and remit their employees' residential income taxes to those respective cities. In addition, HB 5025 would amend the administrative procedures for the Michigan Treasury to allow Treasury to withhold state income tax refunds for unpaid city income taxes administered by the State.

Additionally, LPD was also asked to add the Detroit City Council's stated opposition to House Bill 4952, which would prohibit the 22 cities that have an income tax from imposing a tax levy on non-residents who work in those cities to the resolution.

**RESOLUTION IN SUPPORT OF 2018
MICHIGAN HOUSE BILLS 4618 & 5025
AND OPPOSING HB 4952**

By Council President Jones:

WHEREAS, The mission of the Detroit City Council is to promote the economic, cultural and physical welfare of Detroit's citizens through Charter-mandated legislative functions; and

WHEREAS, House Bills 4618 and 5025, sponsored by Representative Wendell Byrd (D-Detroit), are currently in the Michigan State House Tax Policy Committee. Specifically, HB 4618 seeks to have suburban employers of the residents of the 22 cities in the State of Michigan that impose an income tax, collect and remit their employees' residential income taxes to those respective cities; and

WHEREAS, Correspondingly, HB 5025, which is tie-barred to the aforementioned HB 4618, seeks to prescribe administrative procedures for the Michigan Treasury to

withhold state income tax refunds for unpaid city income taxes administered by the State. If passed, it is projected that on an annual basis, House Bills 4618 and 5025, would allow the City of Detroit to collect as much as an additional \$10 million in unrealized income tax revenue; and

WHEREAS, Non-residents who work in the city of Detroit, benefit from the protections provided by the City's first responders, which include Police, Fire and EMS services on a daily basis during the work day, the same as resident employees. In addition, the City's infrastructure, government and water system, is provided to service the needs of both the resident and non-resident workers in the city of Detroit. All of these services are provided by tax dollars, so it is only right that non-resident workers, pay their fair share, only half the resident income tax rate (1.2%), for City services; and

WHEREAS, Conversely, House Bill 4952, sponsored by Representative Pam Hornberger (R-Chesterfield Township) would prohibit those 22 cities that have an income tax from imposing said tax levy on non-residents who work in those cities, which would thereby have a chilling effect on the City of Detroit, by causing the City to lose tens of millions of dollars annually in income tax revenue; NOW THEREFORE BE IT

RESOLVED, The Detroit City Council, as an advocate of the efficient use of tax payer dollars and for the physical welfare of Detroit's citizens, expresses its support of House Bills 4618 and 5025, of which, HB 4618, would have the suburban employers of the residents of the 22 cities in Michigan that impose an income tax, collect and remit their employees' residential income taxes to those respective cities. In addition, HB 5025 would amend the administrative procedures for the Michigan Treasury, to allow Treasury to withhold state income tax refunds for unpaid city income taxes administered by the State; NOW THEREFORE BE IT FURTHER

RESOLVED, On the contrary, the Detroit City Council opposes House Bill 4952, which would prohibit the 22 cities that have an income tax from imposing a tax levy on nonresidents who work in those cities. Therefore, the Detroit City Council is hereby calling for the Detroit Delegation in the State Senate and the State House Committee on Tax Policy, Michigan State House and the Governor to approve House Bills 4618 and 5025 and oppose House Bill 4952; NOW THEREFORE BE IT FINALLY

**Department of Public Works
Administration Division**

April 23, 2018

Honorable City Council:

Re: Spirit Plaza; Petition No. 1773 — The Department of Public Works — City Engineering Division, in conjunction with the General Services Department and the Downtown Detroit Partnership, requests the extension of the temporary closure of Woodward Avenue, from Jefferson Avenue to Larned Street from May 1, 2018 through November 16, 2018 for the purpose of continuing the activation and evaluation of the Spirit Plaza.

On June 12, 2017, the City of Detroit closed the referenced segment of Woodward to activate the Spirit Plaza for an initial pilot period of 90 days.

On November 21, 2017, City Council originally approved Petition No. 1773, which provided for extending the temporary closure of the above referenced segment of Woodward through the spring of 2018, so that the evaluation period could continue through the fall and winter seasons.

DPW is now requesting City Council approval to extend the temporary closure for a period to culminate in November, 2016, upon which time a recommendation will be brought back to City Council for the Plaza's potential permanency.

This extension, if authorized by your Honorable Body, establishes GSD and DDP as the agencies who will take responsibility for ensuring that the Plaza is appropriately maintained throughout

the extended evaluation period. In addition, the extension will allow for coordinating all outreach efforts to impacted stakeholders, as well as providing the mechanism for continued planning for events and space programming this year, which will include celebrating the 60 year anniversary of the Spirit of Detroit. DDP will enter into a separate 3-party agreement with the City of Detroit's Recreation Department and Special Events team to establish specific responsibilities for each agency, thereby ensuring that the Plaza is being programmed in a manner that maximizes its usage and is consistent with the vision of it being the "People's Plaza". In addition, it will provide the opportunity to employ a more expansive outreach effort to individuals that encounter the space on a daily basis, including all employees and regular visitors to the CAYMC. The extension will also provide the opportunity to continue analyzing the impact to traffic on surrounding streets as DDP will employ an independent traffic consulting firm to study impact on traffic in the adjacent as well as surrounding streets. Prior to the end of the extended evaluation period, city agencies (DPW, Planning, GSD, Special Events), along with DDP will summarize to City Council our findings, which will be utilized in making a determination for the future use of the public space.

Provisions protecting all utility installations in the right-of-way have been made a part of the attached resolution.

I am recommending the adoption of the attached resolution.

Respectfully submitted,
RON BRUNDIDGE
Director, DPW

Department of Public Works

TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE

TESTIMONIAL RESOLUTION IN MEMORIAM
MR. WALTER J. HINES

By Council President Jones:

WHEREAS, Walter James Hines was born on January 8, 1923 in Greenville, North Carolina as the 13th child of 19 children of Charlie Henry Hines, Sr. and Minnie Ann (Smith) Hines. Shortly thereafter, his family - along with the Gilbert Dixon family - migrated briefly to Currituck, North Carolina before permanently settling in Elizabeth City, North Carolina. Early on, both families were sharecroppers; and

WHEREAS, Walter attended school until the fifth grade, when he was forced to dropout to help support the family. As a child, he took on the nickname "Buddy." As a teen, he worked several different jobs including his favorite, as a bakery worker. On January 13, 1942, at the age of 19, Walter was inducted in the Army of the United States. He served stateside for six months and then two-and-a-half years in Europe. His tour of duty included service in England, France, Germany, Holland, Luxembourg, and Belgium, including the Normandy invasion. As a result of his service in Company A of the 384th Engineers

Battalion, Walter achieved the rank of Staff Sergeant and was awarded the Victory Medal, Good Conduct Metal, and EAME Theater Campaign Medal with five Bronze Service Stars. He disliked his military service as a World War II soldier and he prayed that he would not be killed, nor that he would not have to kill anyone, and that he would return home safely to marry the love of his life, Fay Jacox and start a family. On December 6, 1945, Walter received an Honorable Discharge and on December 29, 1945, he and Fay were joined in holy matrimony; and

WHEREAS, Walter and Fay resided in Elizabeth City until 1950 and together they had 14 children - twelve boys and two girls. Prior to leaving the South, Walter and his brothers, being entrepreneurs, opened a trucking company, a bus, and an automobile repair shop in Elizabeth City, North Carolina before Walter and his family moved to Detroit, Michigan in 1955, where he and his wife purchased a home in Southwest Detroit and continued to love and expand their family. It was then that he asked God to give him twelve boys and two girls; and

WHEREAS, Walter worked for the Budd Company and later for Hamilton Brothers Auto Repair. In 1957, he and his brothers, Charlie, Williams, George, and Clifton formed Hines Brothers Auto Repair, a business partnership full-service automobile repair company. This enterprise operated successfully for more than 50 years. Walter worked at Hines Brothers as a "bump and paint" man, repairing and painting wrecked automobiles. Although he worked long hours, Walter would gather his family in the living room for Bible lessons, endless wisdom was shared along with family values, interactive discussions, lessons in faith, morality, and love were provided. Walter often shared with his family and friends that communication had always been the key to his marriage to Fay and their relationships with their children, grandchildren and great-grandchildren until his death. He also mentored and gave insightful advice and life lessons along with providing pocket change to the neighborhood youth. Walter has touched the lives of many young men who lived in the neighborhood - one of those kids grew up to become Stevie Wonder ... In the late 1990's Walter retired from his family business. He continued to share wisdom and family values through the years until Thursday, April 19, 2018 at Holy Cross Hospital in Germantown, Maryland, where he passed away, now joining his beloved wife of 60 years that preceded him in death. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council and office of Council President Brenda Jones, hereby expresses its condolences and joins with family and friends in honoring the memory of Mr. Walter J. Hines.

April 30, 2018

Honorable City Council:

Re: PCA (Public Center Adjacent/Restricted Central Business District) Special District Review of exterior changes to 321 West Lafayette The Former Detroit Free Press Building **(Recommend Approval)**

NATURE OF REQUEST

Before Your Honorable Body is the request for the approval of plans for 321 West Lafayette Street, the Former Detroit Free Press Building, for special district review of an adaptive reuse of the building. The Bedrock, LLC affiliate known as Pyramid Development Co., LLC is the owner and is seeking approval specifically for work that includes core and shell rehabilitation and general preservation of the existing 14 story building with no additional build-out to any of the facade.

The subject property is zoned PCA (Public Center Adjacent/Restricted Central Business District). This zoning classification requires City Council to approve any exterior changes to the

appearance and function of any building or other development in or near the downtown Civic Center and Cultural Center. The purpose of this review is to make sure that any proposal in this district is compatible with the surrounding civic and cultural space.

BACKGROUND

Pyramid Development Co., LLC proposes to develop an adaptive reuse/rehabilitation of the historic Detroit Free Press building located at 321 W. Lafayette. This site hosts the Art Deco 12-story building that was the headquarters of the Detroit Free Press newspaper for approximately 75 years. The building also features wall murals and limestone carvings. Since the relocation of the Detroit Free Press, the building has degraded, and fallen into poor condition.

The new owner now plans to repurpose the building into a mixed-use development to include first-floor retail, office space on floors two (2) and three (3) and residential apartments above. The project, once completed, is expected to have a total of about \$69 million dollars of investment to complete all renovations and work.

The developer has completed, or is currently in process of completing several other associated requests and processes for this project including a Community Benefits Ordinance process, a Brownfield Plan, Neighborhood Enterprise Zone Tax Abatement, a Michigan Brownfield Tax Credit and Federal Historic Credits.

PROPOSED MODIFICATIONS

The developer plans to conduct interior and exterior renovations to the building while preserving the integrity of the structure.

The plans for the subject building include cleaning of the stone, brick and terra cotta of the structure. Rehab work will replace some stone and patched areas to match existing color. The work will also include replacement of any loose masonry units and repoint damaged mortar. Other work includes the replacement with the existing decorative cast iron storefront framing system to be replaced with a brand new matching system.

Existing windows are planned to be removed to repair steel angles or to be replaced. Some paint will be used to match new windows. A new skylight will be incorporated at an existing opening and roof railing will be restored. Other interior renovations are also planned. All work will be done to meet the Secretary of Interior Standards for Rehabilitation (See attached plans).

PCA District Review

The Zoning Ordinance Section 61-11-97, outlines the PCA District Review Criteria and lists 18 criteria that must be taken into consideration when a proposal

is being review for consistency with the spirit, purpose and intent of the PCA district. The site plans as presented meet the criteria as it relates to exterior design, appearance and exterior alterations.

CPC staff along with the input from the Planning and Development Department find this proposal to be generally in conformance with the 18 PCA district criteria since the proposed exterior work will largely only include renovations to the facade of the structure. The primary item that caused CPC staff to bring this matter before this Honorable Body is the replacement of the buildings windows. Per 61-3-185, "exterior alteration of any existing building" shall be reviewed by the necessary bodies.

The windows that are being replaced and other rehabilitation plans have been reviewed by CPC staff as well as the Planning and Development Department, including the Historic District Commission staff. Any windows that are replaced will resemble the original work and any other replacements will also be repaired or replaced to match what currently exists. All work is to be done to the standards of the Secretary of Interior as this project is receiving Historic Tax Credits. Staff is confident that this project will preserve the integrity of this structure and is in line with all applicable criteria as outlined in section 61-11-97.

Based on the above analysis, CPC staff recommends approval of the proposed plans for the rehabilitation of the Former Free Press Building located at 321 Lafayette Street.

Attached is a resolution for your consideration approving the work that is outlined in the attached plans.

Respectfully submitted,

MARCELL R. TODD, JR.
