

Daily Checklist for Demolition Contractors

Fill out this checklist as the items are completed. Your Field Liaison may review this document at any time during the day.

Check 'Yes' if the item is completed. Check 'No' if the item was not completed properly.

Equipment

Yes

No

- | | | |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | There are enough hoses to properly wet the house, sidewalk, and to keep dust down. |
| <input type="checkbox"/> | <input type="checkbox"/> | Water hoses do not have holes, and are able to reach all areas of the worksite with proper water pressure. |
| <input type="checkbox"/> | <input type="checkbox"/> | Water hoses have nozzles that can spray water in either a single stream, or a wide spray to keep down the dust. |
| <input type="checkbox"/> | <input type="checkbox"/> | Proper hydrant wrenches (3 different types) are on site. |
| <input type="checkbox"/> | <input type="checkbox"/> | Hydrant compressor to properly shutoff the hydrant. |
| <input type="checkbox"/> | <input type="checkbox"/> | Backflow preventer is in use. |
| <input type="checkbox"/> | <input type="checkbox"/> | Plugs for hydrants are available. |
| <input type="checkbox"/> | <input type="checkbox"/> | All workers on site are wearing DBA Branded Vests. |

Preparing for Demolition

Yes

No

- | | | |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | Create a hole in roof with the basket claw, and return the basket claw to the ground. |
| <input type="checkbox"/> | <input type="checkbox"/> | Spray a single stream of water into the hole for at least 5 minutes. |
| | | Start time: _____ |
| | | End time: _____ |
| <input type="checkbox"/> | <input type="checkbox"/> | Wet the exterior of the house on all sides, including the roof. |

During the Demolition

Yes

No

- | | | |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | Water is constantly sprayed on the house. Demolition is completed with the goal of keeping down all clouds of dust. |
| <input type="checkbox"/> | <input type="checkbox"/> | The water hose follows the basket claw until the house is fully demolished. |

Yes

No

After the Demolition

☐☐

Debris was hosed down as it was loaded into the dumpster.

☐☐

The sidewalk and street were hosed down after debris was loaded into the dumpster.

☐☐

The alley behind the house was hosed down after demolition.

Yes

No

Leaving the site each day

☐☐

Contractors must contain the demolition site with orange "snow fence" at the end of each day.

☐☐

The orange snow fence should be tightly secured, and not loose. The posts that support the fence must be no wider than 20 feet apart.

☐☐

Posts must be 24 inches in the ground, and have 4 feet of post above ground.
