NEIGHBORHOOD PLANNING

# ISLANDVIEW & GREATER VILLAGES

## ABOUT THE PROJECT

On Detroit's east side, the City has launched planning efforts in **Islandview and the Greater Villages**. The City is identifying investments, improvements, and priority projects that we can mobilize towards construction to strengthen neighborhood vibrancy.

**We want to hear from you** about development opportunities for housing, commercial corridors, historic buildings, streetscapes, and landscapes that can address flooding challenges. In addition to these efforts, the City has begun efforts on one project that will address flooding issues in the area, the Beltline Greenway.
